# A Complete Amateur MAKE UP KIT

*A Splendid Kit For the Beginner*

Same high grade materials as used by professionals with complete directions on how to make yourself up for various parts and purposes. Make up the radical changes in your appearance in a few seconds. Alter your appearance beyond recognition.

**NOSE PUTTY, PAINTS, BURNT CORK, SPIRIT GUM, ETC.**

## Learn the Art of Disguising and Beautifying by Make-Up

Everyone likes to disguise himself at one time or another and this is the kit which will prove very valuable for doing so. For amateurs, theatrical performances it is always a necessity. So varied and so complete are the characters that can be produced with the aid of this kit that it is often called the "Cabinet of a Thousand Faces." The Beautiful Heroine, the Villain, The Charming Beau, Comical Lady, the Quaint Clown, the Hobo, the Fashionable Debutante, the Wild Man from Borneo, Negro Minstrel and many other characters can be created in a twinkling of the eye. Once you have acquired the general rudiments in the art of make-up you will be genuinely surprised at how a few deft touches here and there can change your appearance. In fact, the practical value alone that it gives you in acquiring taste for grooming yourself is extremely useful.

Apart from the theatrical performances there are plenty of chances for amusement with this. Everyone enjoys the fun of "dressing up," and once in a while masquerading as someone quite different. You will be startled at how easily surprised your friends really are and in a short time you will get the reputation for being a make-up expert.

We have had many requests for this kit from prominent speakers, who want to improve their appearance.

### For Detective Make Up

Either for regular criminal sleuthing, or for fun and amusement, many people desire to disguise themselves so their appearance on the street will not be recognized. Because of the natural appearance of this make-up, once you are familiar with the art of applying it, the make-up cannot be noticed except on close scrutiny.

### For Amateur Theatricals

Hardly a week goes by but that some amateur theatrical is presented. In almost every town in America there is a Theater Guild, school plays, concerts, minstrel shows, etc., etc. Unless the people are made up to look somewhat like the characters they are supposed to represent, the show is a flop.

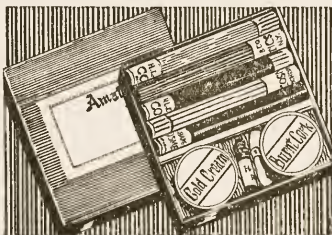

### For Public Appearances

When you are in the public spotlight you must desire to appear at your best. To avoid the ghastly effect which artificial light produces, this kit dresses your face in such a way that you preserve a natural appearance. You can even enhance certain points that will make you look more suitable for the occasion.

## High-Grade and Harmless Material Gives Natural Appearance

There is no danger of injuring the skin and you will soon note from the texture of the make-up that it is of the finest quality throughout. Kit includes Spirit Gum for attaching Mustache, Whiskers, etc.; Theatrical Cold Cream for removing mustache, eyebrows, etc.; Burnt Cork for negro make-up; Nose Putty for building up the chin or nose into almost any shape you desire, thus, effectively disguising your most prominent physical characteristic. A book of instructions giving you complete details on make-up for different characters, and how to remove make-up is included.

## Vamping Board

NO TEACHER NEEDED

SURPRISINGLY SIMPLE SYSTEM

ANYONE CAN PLAY WITH THE AID OF THIS BOARD

To obtain a mastery of the piano in the ordinary way involves considerable expense and many years of arduous study. The pupil, under the guidance of a highly paid teacher, commences when young to practice scales and exercises, and is compelled to devote several hours every day to attain facility of manipulation. It is impossible for grown-up persons to follow such a method. They cannot spare sufficient time to properly master the intricacies of the notation, and thus many persons naturally gifted with great musical taste have been obliged to rest content with listening while others played, when they might easily acquire a better command of the instrument themselves.

For persons who have neglected their Musical Education, we have a Piano Vamping Board, with the aid of which you can, after a little practice, vamp to Songs, Ballads, Waltzes, Rag Time, etc., etc. The Board is printed in several colors and is placed upright over the piano keys. Each chord is printed in a distinctive color, so that after a little practice, the chords become firmly fixed in the mind, and the Board can be dispensed with entirely. We consider it a great aid to piano playing. Customers write us that, although possessing no knowledge of music, they have become proficient accompanists in a very short time.

With each instrument is given a number of Popular Tunes that have no notes, only figures, and by merely pressing the keys, according to the numbers, and at the same time blowing through the mouthpiece, you hear the tune, with the accompaniment and all. Nothing could be simpler. After a short practice you can dispense with the instruction book, and if you have any ear for music at all, there is no reason why you should not, in an astonishingly short space of time, be playing the instrument in a remarkably proficient manner, to the delight of all. Remember the price is guaranteed for a limited time only. You should, therefore, order early, as we have only a limited number of instruments to offer at this special introductory price. **\$2.75**

IT'S SO VERY *EASY* TO PLAY

# The Fluta Accordeon

**Loud and Clear**

**Very Sweet Tone**

**The Same Fingering as an Accordeon**

**Price Only \$1.50**

**T**HE FLUTA ACCORDEON is a great improvement upon most reed wind instruments. It is very easy to play. Anyone who can read ordinary print can understand the Special Chart of Popular Tunes, that has no notes at all, only figures, that enable anyone to *play without knowing anything about music*. You have merely to press the keys according to the numbers, at the same time supplying the wind through the mouthpiece, and you hear the tune, with a full and rich accompaniment of tenor and bass chords. You may not know just how you do it, but the music is loud and clear, yet exceedingly pleasant and harmonious, like a little band.

**Two Or Three Of These Can Imitate A Well Balanced Band**

In ordinary accordeons the bellows needs careful management to keep up the supply of wind; the Fluta Accordeon has always plenty of wind. The bellows is also the weak part of ordinary accordeons, that usually wears out first. The Fluta Accordeon has no bellows to wear out. The Fluta Accordeon is well constructed and the reeds are set in moisture resisting cement, thus the breath when playing will not clog the reed plates and spoil the instrument, as so often happens with mouth organs and blow accordeons. The manufacturers adopted this improved principle in compliance with many requests. The case of the instrument is very strongly made; it will last a long time with reasonable care. The keys, the mouthpiece and the trumpet are of metal, nickel-plated, and the valves are covered with a protecting material, making them perfectly air-tight.

**Rapid Fingering For Fast Dance Music Is Simplified**

When playing, both hands are used in the most natural and easy manner, so that rapid fingering for fast dance music, such as fox trots, reels, jigs, hornpipes, etc., is not at all difficult, as it is with most instruments. Altogether the Fluta Accordeon is certain to become as popular here as it has elsewhere. You should order at once. Remember, you get the Fluta Accordeon with full directions, and the Special Chart of Popular Tunes, carefully packed in a neat box and delivered postpaid.

**HOW TO ORGANIZE A KAZOO BAND.** Get together any desired number of persons; arrange the voices as in chorus. Play simple airs first, until you get acquainted with your instrument. It is so easy that in a few minutes you will play as well as if you had had the instrument for years.

**HOW TO ORGANIZE A QUARTETTE, etc.** Get together any desired number of persons, arrange the voices as in vocal chorus. Voices may be considered under 6 divisions—3 masculine and 3 feminine. # The Musical Clock

Keeps Extremely Accurate Time

Plays A Tune For Ten Minutes

A Music Box and Alarm  
Clock Combined

Perhaps the most unusual and distinctive feature of this Musical Clock is the charming music which it plays. The pleasant music will continue for about ten minutes, and can be set to play at any time, in much the same manner as an alarm clock. In fact, many people employ this clock in order to avoid the harassing and tormenting racket that comes from most alarm clocks. Most alarms vex and irk one so much that they enrage rather than awaken you. Instead, the Musical Clock gently lulls you out of your gentle slumber and at the same time refreshes you as nothing else can. Each clock plays an always-popular tune, such as: "Blue Bells of Scotland," "Last Rose of Summer," "Sweet Marie," "Home Sweet Home," "Tea For Two," and other favorites.

The clock is extremely accurate, and you can depend upon it to be the one clock in your house that is always correct. Its works are meticulously and

scrupulously built to perform with the unerring exactness of a master clock. It will soon become the standard by which your whole family, and even your neighbors, will set their watches and clocks.

The illustration shows its classical splendor. The case is beautifully embellished with intricate flourishes that, while they are extremely pretty, are not at all bombastic. It is a majestic and imposing clock made of bright nickel silver to conform with the modern trend. Partially made of polished brass to give it a refined and elegant appearance. It is a clock that fits into the most elaborate room; and any room, despite all its former elegance, seems to become more refined when this clock is added. Indeed, in most cases the clock is usually placed in some conspicuous place, so that the entire room seems to share its beauty.

### Never Seen Its Equal

"... forward me three more of your Musical Clocks. Friends and myself are very much pleased with these Novel Clocks. I must say for its quality and price I have never seen its equal."—**Dr. A. Carter.**

### Wouldn't Part With It For Fifty Dollars

### Simply Delighted

## Boys! Jazz Trap Drum Outfit

Start Your Orchestra with a Drum and Bugle Corps

Plenty of rhythm here! Perhaps no instrument supplies more rhythm to a modern orchestra than the Trap Drum. It is one of the most essential parts of an orchestra whether it be a dance orchestra, symphony orchestra or a drum and bugle corps. Many of our most prominent orchestra leaders have started their careers as drummers. As a matter of fact, Bing Crosby started his career with a set of drums purchased by mail.

The Trap Drum Outfit can be used to practice at any time as well as with an orchestra. To make it more realistic you can just switch on the radio and start playing right along with any of the most famous bands in the country. There are few ways in which you can get such a complete understanding of the basic elements of music as by playing in this way. In fact, as you become better acquainted with the instrument, some of your friends can purchase other instruments and with the rhythm section of your orchestra, you can build up a complete band. Both sets are ideal for the amateur.

## The MAGIC NOSE FLUTE

*Sweet Musical Tones Easily Played!*

The **MAGIC NOSE FLUTE** is a very novel style of musical instrument, different from almost any other. It is made entirely of metal, and with care should last a lifetime. There is nothing to wear out or get out of order. It is placed over mouth and nose as shown in our illustration. It takes but a few minutes to learn how to play it, there is just a little "knack" that you can easily acquire. You can play any tune after a little practice, and the tone is very musical and flute-like. It is capable of the most charming modulations, and the most popular melody or the most elaborate operatic air can be played, either as a solo or accompanied, in a manner that would be enthusiastically applauded even on a concert platform. Anyone can play it, and the performer with the true "gift of music" will find

Every Lover of Good Music Should See and Hear

# The New Improved Radio Band Jazz Mouth Organ

Unusually loud, yet sweet in tone.

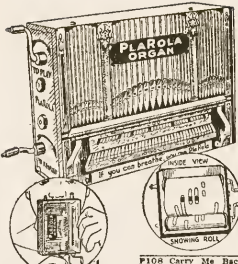

**ALMOST 11 INCHES LONG.** (Illustration is reduced to fit this catalog).

**40 BELL METAL REEDS ON REAL BRASS PLATES.**

**T**HE illustration will give you a very good idea as to the general appearance of this Mouth Organ, but it must be seen and heard to be appreciated. This is the same brand as our "Radio Band" Mouth Organ Number 4456 listed elsewhere in this catalog, but the manufacturers, in response to popular demand, have added some notable improvements, with a view of intensifying the sound and at the same time enabling the performer to produce jazz effects. This is accomplished by making the metal case cylindrical in shape, with large bell-shaped attachment at one end. This has the effect of forcing the sounds through the ends, the metal bell having the effect of greatly intensifying the music, without detracting from its beautiful sonorous tone for which this instrument is so justly famous. By manipulating the hands over either end, various jazz or temolo effects can be obtained. The instrument is a magnificent piece of workmanship. It measures nearly eleven inches long from end to end. There are 40 Bell Metal Reeds on real Brass Plates, that produce the most beautiful and clear music of a ringing organ tone, perfectly blended. If you want a Mouth Organ that will carry the tone for a considerable distance, yet without distortion, we can thoroughly recommend this one. Each instrument comes packed in a nice box, and our price includes postage to any address. Please specify if any particular key is desired.

# ROLMONICA

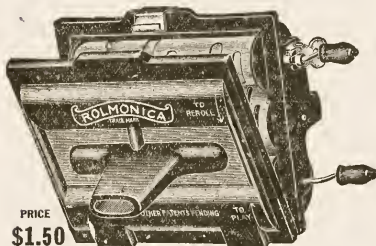

THE POCKET PLAYER PIANO

Mouth Organ that Plays with a Music Roll

ANYONE CAN PLAY IT WITHOUT PRACTICE

A Wide Selection of Rolls to Choose From

A VERITABLE POCKET SIZE JAZZ BAND!

**R**OLMONICA is an automatic harmonica that plays a music roll just like a player piano. It is a whole brass band all in one—the biggest sensation of the music world in the last few years. Anyone can play it, for all you have to do is to insert a roll, and turn the handle while you blow. That is all there

is to it. Nothing could be simpler. Any child who can do these two simple things can play a Rolmonica. It is a veritable pocket-size Jazz-band, combining the principles of the harmonica and the player piano. It is an instrument of a thousand melodies, it plays the popular airs of the past, as well as the latest Broadway hits. There are hundreds of rolls to select from, and new ones are added every month.

The Rolmonica has a very simple mechanism, yet so strongly built that it may be entrusted without hesitation to children. The volume can be regulated by the user. When sounding at its full power reproducing a band performance, it can be almost deafening in the strength of its tones, yet it will deliver with perfect clearness a pianissimo passage in an instrumental solo. It is an unfailing source of amusement, as it will give you a complete evening's entertainment. You can delight your friends for hours, and play tune after tune simply by changing the roll as fast as the other one is done. It is small in size, fitting any pocket, but it is mighty in its finger-tingling, toe-tickling tune power. Not a toy, but a genuine musical instrument and the life of the party on any occasion where music is desired. One Roll is given free with each Rolmonica, and extra Rolls can, of course, always be obtained. A partial list of Rolls is given and new Rolls will be added each month as soon as released.

No. 4470. THE ROLMONICA. Complete with 1 Roll. . . . . **\$1.50**

Extra Rolls 15c each plus 1½c postage. See next page for list of Rolls

## Confetti, Gifts, Novelties

The most unusual display of fireworks that has ever been offered. Light the fuse, watch the explosion, and then there is a shower of presents. They shoot high into the air and are scattered for several feet in every direction. They keep any party at the very highest pitch of excitement. Aside from the unusual line of novelties there are sometimes some really interesting presents inside them. The gifts serve as happy reminders and will be treasured as souvenirs.

### Absolutely Harmless

They are absolutely harmless and can be placed on your finest furniture and shot off without doing any harm or danger. The gifts are lifted high into the air and distributed in all directions.

We have sold these fireworks for twenty-five years and have had nothing to compare with their tremendous popularity. At a meeting of governors of several Middle Western states they put in a rush order for several dozen. Shortly afterwards, the son of one of the governors wrote us and wanted to buy out our entire stock.

### Prizes and Gifts Thrown In Air!

So many and varied are the types of gifts that are shot into the air from the amazing indoor fireworks that it is difficult to list them all. There is the Miniature Snow-storm that bewilders everyone, and the Rain of Money. In this the fireworks erupt much the same way as a volcano. Numerous pieces of fake money, bills, imitation coins, etc., are thrown all over the room. This is one of our most popular fireworks. One throws out small playing cards for your guests to gather. Still another lets loose with a large quantity of colored balls. This is called the Shot Tower. Sometimes the guests begin throwing these little balls all over the room (they are made of compressed cotton and are harmless) and turn your party into a good-natured riot. Another one is called the Bolsheviki Bomb. This bomb goes off with a loud bang and throws out flags of various nations.

## Your Fortune Told!

The fortune telling fireworks throws out a fortune to everyone and it is amazing how often it actually predicts what will happen. At any rate the guests are usually enthusiastic and in a hurry to grab the slip of paper prognosticating the future—especially the girls. Another of the favorites is Cupid's Bower. This is especially useful in a party of young boys and girls. It shoots off numerous slips of paper which direct the guests to do a number of funny things.

Difficult to Tell from  
the Real Thing!

### They Fool Almost Everybody

These Rubber Cigars and Cigarettes look just like the real thing and in almost every case, your friends will even try to light them before they discover the joke. # Are You Smoking Too Much? TRY BREATHERS

## Cooling -- Na Nicotine

Smoking is one of the most peculiar habits that a person can develop. It is unnatural and obnoxious. Yet many of us who have once started it do not have the will power nor the desire to stop. BREATHERS solve the problem.

### After Eating

Satisfying, but without any injurious effects. Pleasant relief and relaxation. Does not spoil the taste of your dinner or give the bad, unhealthy cigaret-mouth.

### No Ashes, Butts or Smoke

While playing close games where you naturally get excited, Breathers will come to your rescue. No fire, no smoke, no ashes, no butts.

### Enjoy Them Anywhere

Enjoy Breathers in libraries, theaters, street cars, etc., where smoking is not permitted, or at work when you want to relax so that you can work evenly.

## All the Enjoyment, None of the Dangers -- Recommended by Doctors

Breathers are manufactured by a reliable chemical company for the sole purpose of eliminating the hazards of cigaret smoking, yet at the same time providing you more enjoyment and more satisfaction than you have ever gotten from cigarets. Breathers taste like a cigaret—cool and fragrant—without the smoke, nicotine, ashes, butts, etc. They are made from pure, essential oils, blended together in a soothing satisfying inhalant. They are not harmful or habit forming. Recommended by physicians everywhere. Each Breather lasts several hours. Merely remove the protective end-caps, slip it into your mouth and puff away. # PIPE TOBACCO

## Your Favorite Brand for Smoking Pleasure

There is no greater joy to lighten your burdens and to relieve the hum-drum of day to day existence, than to ease into a comfortable chair, select your favorite pipe, and treat yourself to a cool, delicious smoke. At once the confusion and complexity of the day drifts past you, and with startling clarity you seem to penetrate all the mysteries which pervade this world of ours. As the smoke drifts lazily upwards, you smile the carefree smile of one who is enjoying every moment.

Such pleasing moments are but commonplace ones in the life of a pipe smoker. When he is first confronted by a problem, he just "lights up" and after a few puffs of his favorite tobacco, the problem seems to yield its solution without

effort. Clear minded, and youthful. That's real enjoyment!

Relief, too! Relief from vexing moments.

Relief from trying experiences. Nothing—absolutely nothing—surpasses the honest enjoyment of those happy, carefree moments when, after a busy day, you can relax and en-

joy your pipe.

The pipe is the aristocrat of the smoking world. It is recognized as the most supreme in smoking comfort and pleasure.

Be clear minded! Be youthful—carefree—**HAPPY!** Smoke a pipe.

## The Choicest Tobaccos

There is no need to praise these nationally favorite tobaccos—you all know them. They are lavishly acclaimed and nationally advertised from coast to coast. Although some people may prefer one particular brand to another, they are all made of the choicest domestic and imported tobaccos, carefully cross blended to produce uniform, rich smoking

pleasure. Different methods of blending and seasoning produce varying degrees of mildness and taste, thus one may suit your taste more than another. These various flavors, however, in no way reflect upon the quality of the tobacco; all are made of only the center leaf, and are scrupulously examined to eliminate "stale" tobaccos.

To preserve these flavors, the tobacco is packed either in a special Humidor can or Vacuum sealed tin. There is no chance for it to grow stale. The tobacco may be kept in these tins all during its use, and this means that the tobacco will not dry out like most packages do. In addition to preserving the fresh flavor, the tin is an economical size to buy. A single tin contains no less than four or five hundred pipefuls of smoking pleasure and comfort. We purchase all tobaccos daily, thus insuring you absolutely fresh tobacco, not old, senile "shelf" tobacco which is often found in stores. Please note postage on Tobacco is extra.

*The Genuine Black Forest*

# CUCKOO CLOCK

*Cuckoos the Hours and Half Hours—Also Sounds a Sweet Toned Gong*

*No Trouble to Wind—No Spring to Break*

**NOVEL APPEARANCE—**

**RELIABLE TIME KEEPER**

Those who can remember the old chain and weight clocks, that were the ever reliable time-keepers for their grandfathers and great-grandfathers, will appreciate the value of one of these Genuine Cuckoo Clocks. It can be depended upon to keep the most accurate time in all weathers, never varying a minute; it will require little, if any, attention or repair year after year because of the simplicity of its movement. To wind you merely pull up the weights, that can be done in a moment. There is no spring to break, nor is there any danger of over-winding. Any jeweler will tell you that a spring cannot equal the regularity of the tension of suspended weights, which never vary.

At the hours and half-hours the little door above the dial flies open, the cuckoo appears, and opening its beak, cuckoos the time, which is also sounded, if desired, on a sweet-toned gong. The little bird retires directly it has cuckooed and the door closes smartly. This performance is a source of keen delight to the children, who are never tired of watching for the cuckoo to

older members of the household often take an equal interest in the movements of the pretty little bird.

The clocks are imported by us direct from one of the oldest manufacturers of Cuckoo Clocks. They come from the Schwarzwald, the famous Black Forest of Germany, where, for centuries the manufacture of this type of clock has been a leading industry. The clock is made of a dark brown wood, and the hands and figures are white, so that the time can be easily seen. The carved leaves, that are also made of wood, give the clock a very novel appearance that is typical of the Black Forest and certain parts of Switzerland.

The clock comes complete as described, with cast solid metal, bronze color weights and chain. Occasionally some shipments of clocks may vary slightly in appearance, but our illustration may be relied upon to show the salient features and any variation is usually confined to slightly different designing of the ornamental leaves that surround the clock. The size of the clock is about 7 inches high (exclusive of the chain and weights) and 9 inches wide. We pack the clock very carefully and ship it to you by Express. If parcel post shipment is desired, please add sufficient to cover postage.

## Indian Lucky Silver Rings Unusual and Fascinating Ring Hand Made By The Indians in the Southwest

These rings are actually made by hand by Indians in the South West, where tourists by the thousands readily pay a dollar or more for them. They are quite different from the rings manufactured in the ordinary way. They look different and having the unmistakable Indian touch about them, they ARE different. Though not stamped, they are made of sterling silver. The rings themselves come in various designs, but please bear in mind that no two are exactly alike. The accompanying engravings are merely intended to give you some idea as to the general appearance. The design on the upper illustration shows typical Indian ornamentations. The second shows a coiled snake. There are dozens of others, each laboriously made by hand specially for us by Indians in Arizona and New Mexico. Leave the selection of the design to us, as if we fail to please you, return the ring and we will exchange it or refund your money.

# YATEHAY Good Luck Bracelet

Indian hammered Good Luck Bracelets revive the old and ancient custom of wearing a Luck talisman to ward off the so-called evil spirits and bring unto the possessor Good Luck, Health and Happiness.

From the beginning of time down through the ages, the most famous characters in history are said to have believed in luck. The Navajos are no exception in this belief, in fact the tendency toward Luck symbolism in the silver-smith art of the Navajos seems to be instinctive with them.

## SEVEN GOOD LUCK SYMBOLS!

Apparently from the earliest conditions their bracelets and armlets have always shown this bent. It is only natural, therefore, that they should embody numerous symbols of their tribal life and beliefs in these designs.

In reproducing this ancient Navajo Indian hammered bracelet not only do we give you the traditional shape and style of their most popular design, we have also added a touch of modernism in the shape of a raised patented monogram containing seven separate and distinct emblems of Good Luck consisting of Swastika, Horse Shoe, Four Leaf Clover, Wishbone, Squaw Head of Lady Luck, Horse Shoe Nails and Heart of Thunderbird.

Yatehay Indian hammered Good Luck Bracelets may be had in **STERLING SILVER** or **SILVER PLATE**. We recommend the Sterling Silver for its greater wearing qualities, but whichever one you buy, "may **GOOD LUCK** come to you if you always wear this Good Luck Bracelet."

Luck Worshipper, Luck Monogram, Aladdin Lamp and Egyptian Scarab.

A great deal of artistic effort as well as expense has been put into the manufacture of this **LUCK COIN**. The coin is gold plated with milled edges, made by a new and secret process, engraving and die work beyond comparison. It looks just like a solid gold coin.

## THE FAMOUS FAIRY LUCKY STONES

In a quiet sunny glade, nestled among the rugged foothills of the Blue Ridge mountains, in Patrick County, Virginia, U.S.A., a section made renowned by the fact that old King Powhatan once held undisturbed possession there, was discovered a single quarry of the far-famed Virginia "FAIRY" or "LUCKY" STONES.

As to the real origin of these little crosses of stone, comparatively nothing is known, as the leading scientists of the country have failed to throw any satisfactory light on the subject; but in that remote mountain section runs a very pretty legend to the effect that the fairies were dancing around a spring of limpid water, when an elfin messenger arrived from a strange city far away in the land of dawn, bringing the sad tidings of the death of Christ, and when they heard the terrible story of the crucifixion they wept. And as their tears fell upon the earth they were crystallized into little pebbles, on each of which was formed a beautiful cross. About the spring and the adjacent valley were strewn monuments of that melancholy event.

These little curiosities, which range in size from one-fourth of an inch to 1 1/2 inches, many in the most unique form some shape of a cross, which has been outlined by Nature's own hand. Many of them are of the St. Andrew variety, others Roman, while those most sought after are the Maltese. Postpaid.

*Hand Carved by Diligent, Skillful Natives*

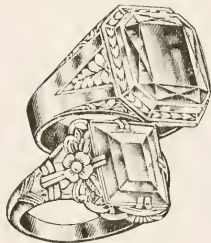

The Corozo Nut Ring is a unique souvenir from tropical Puerto Rico—America's island possession in the West Indies. These rings are hand-carved by skillful natives and workmen from a nut of the Corozo palm. These diligent natives gather the choice nuts, and assiduously spend painstaking hours carving these rings from the hard nut.

After the ring is carved out, the inlaid imitation pearl heart is embedded in the ring. Now the ring is polished until it has a beautiful, permanent walnut appearance. Being extremely hard, the ring, for all practical purposes, is unbreakable.

In Puerto Rico the Corozo Ring is considered lucky as well as sacred among lovers, and takes the place of an engagement ring. If you want something unusual as well as very beautiful in a ring, send for one of these Lucky Puerto Rican Corozo Nut Heart Rings. You will be happy and proud to wear it. Luminous Paint is the very latest discovery in the scientific world. Hitherto practically unobtainable except at exorbitant prices, we have at last succeeded in producing this remarkable LUMINOUS PAINT, which applied to the surface of any article, EMITS RAYS OF WHITE LIGHT, rendering it PERFECTLY VISIBLE in the dark. The DARKER THE NIGHT THE MORE BRILLIANTLY IT SHINES. It is quite simple to use. Anyone—you can do it. A little applied to the dial of your watch or clock will enable you to tell the time by night. ## Luminous Crucifix

### Glows With A Brilliant Radiance in the Dark

For years the Catholic clergy and all interested in the increase of devotion to the Crucifix have been striving to find some means of making the Crucifix more than a mere article of furniture—to make it a living symbol of the crucifixion. A recent discovery of chemical science has made this possible, and the "Cross of Perpetual Light," is now being placed in every Catholic home.

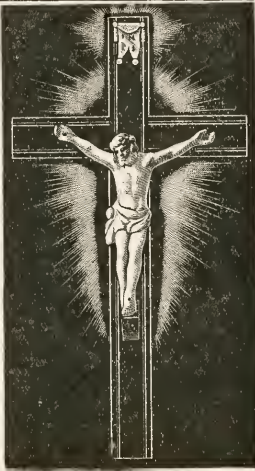

The time for prayer is in the night time, before retiring; that is the hour when the mind is in sweet repose and the cares and worries of the day are past. In the darkest room, all through the night, the "Cross of Perpetual Light" gives a wonderful, luminous glow, the glow representing the "Glorified Body of Jesus Christ."

### Approved by Church Authorities

What a beautiful reminder to the children! What a comfort to awaken in a sick room in the darkness of the night to behold the figure of Jesus Christ in an outline of glorious light! It surely is an inspiration to prayer that no Catholic can resist. When trouble or worry harrass you, there is only one place where you may receive genuine, sincere consolation and solace from earthly problems; peace of mind and peace of spirit.

Each Crucifix is 15 inches high. Made of fine black ebony finished wood. The body of Christ is made of metal, covered with the secret preparation that causes it to become luminous. The luminosity is lasting and PERMANENT. Our Crucifix has been sent to clergymen, schools and convents throughout the world, and highest words of praise have been received commending the Luminous Crucifix to all.

# A Generally Useful Novelty 6-In-1 Combination Pencil

## SIX MOST USEFUL ARTICLES ALL IN ONE

- |                    |           |
|--------------------|-----------|
| 1 Pencil           | 2 Pen     |

| 5 Put and Take Top | 6 Dice    |

All complete for only ... **49** cents postpaid

If there is a more generally useful combination than this, we have yet to see it. There are no less than six separate articles, all in the one combination, all thoroughly practical, and one does not interfere with the other, as is the case with most combination articles. You have a mechanical pencil, which propels or repels the leads by screwing or unscrewing the barrel. Take out the pencil part and screw it in the reverse way and you have a first-class writing pen. At the opposite end of the combination you have a reliable compass. Unscrew the compass and you will find three small celluloid dice, which will work just as satisfactorily as the most expensive one you can buy. Another very useful article is the collapsible cigarette holder, which is very clearly shown in the illustration. In the upper part, just below the compass, is a small microscopic picture that is quite a paradox. The picture is so small that it could scarcely be seen with the naked eye, but so greatly does it become magnified when you look at it, that it shows up with astonishing clearness and sharpness, though the views are no larger, so to speak, than the head of a pin. The pictures include such subjects as bathing girl beauties, pretty French actresses, views of the Panama Canal, etc., while others shows the Lord's Prayer in type, every word of which can be read by persons with normal eyesight. The whole combination is made of Gallalith, a German composition resembling Permanite from which high grade fountain pens and mechanical pencils are made. Several of these pencils were thrown from the top of New York's highest building without breaking. It is exceptionally well made, with clip for holding in the pocket, and altogether it will compare favorably in appearance with pencils costing two or three times its price.

# INKOGRAPH

## PENCIL POINTED FOUNTAIN PEN

← GAUGE TELLS WHEN TO REFILL

*The Transparent Fountain Pen*  
*That Remains Permanently Transparent*  
 Always Transparent—Never Discolors

Combining the best features of the fountain pen and lead pencil, minus the weak points of both, plus improvements not found in either. The lead pencil smudges, the point breaks, and its writing soon is obliterated. The pen scratches, the point warps, and the ink smears. The fountain pen skips, scratches, floods, clogs, leaks, blots, and soils hands and clothing. The old style ink pen dries up, balks, writes heavy, flows unevenly, and is never reliable.

### The Perfect Writing Instrument

The new Inkograph is the result of years of careful experimenting. There's nothing like it on the market. It writes in ink with the same speed and ease of the softest lead pencil, and is a joy to use. It feeds as fast as you can make your brain think or your hand move, and writes as even and uniform on the twentieth page as it did on the first. The Gauge tells you when to refill. The Gauge is made of special annealed, non-corrosive, shatterproof glass covered with crystal-clear unbreakable Piroxalin that is ALWAYS TRANSPARENT and NEVER DISCOLORS.

### Makes 3 to 4 Carbon Copies

at one time, while the original copy is in ink, bearing down on the point as hard as you like, without fear of bending, spreading or injuring the point. Unequaled for salesmen's orders, office billing and all manifold uses. Writes on any quality of paper—tag, or label, even wrapping paper, as smoothly as if point were greased. Stands more rough usage for girl or boy at school. Ideal for Palmer writing method.

### Draws Lines To A Ruler

without smearing, smudging or blurring the paper. Its writing point is shaped like a fine lead pencil point. You can allow any one to write with your INKOGRAPH without fear, because no style of writing can distort its hard, round and smooth point.

### Requires No Blotter

The ink dries as fast as you write, because the flow is fine, even and uniform.

### Use Any Color Of Ink

such as blue, black, red, purple, or green. Writes 50,000 words with one filling, and writes at the first touch of the paper in steady, even lines.

**WILL IMPROVE YOUR HANDWRITING** 100 per cent and give lasting satisfaction. Use an INKOGRAPH once, and you will never write with anything else.

**HAS A 14 KT. WHITE GOLD POINT** and feed. In appearance it is extremely attractive. It is beautifully finished in ebony black, and its nickel silver pocket clip and lever make it an instrument of distinctive elegance and refinement, as well as usefulness.

**HAS AN AUTOMATIC FEED** that instantly removes any obstruction from the writing point. This feed works freely up and down within the point, effectively removes any sediment that may tend to deposit therein, and insures perfect flow.

**A GUARANTEE CERTIFICATE** with full directions packed with each INKOGRAPH is your absolute protection should you not find that this master writing instrument is exactly as presented. In workmanship the Inkograph is the equal of any \$7.00 or \$9.00 fountain pen on the market. This new style comes only in Ebony Black unbreakable Piroxalin, with rhodium plated band on cap, nickel silver clip and lever. Fills same as any standard fountain pen.

# INVISIBLE INK

Can Be Read If You Know the Secret

With this ink the most CONFIDENTIAL MESSAGES may be written without any danger of prying eyes. The writing makes NO MARK and CANNOT BE SEEN until the paper is warmed. By writing something unimportant with ordinary writing and then using the invisible ink for the secret communication written between the lines, all risk of detection is overcome. This ink is used extensively by secret service agents. It is invaluable for LOVERS and for keeping recipes, trade secrets, addresses, private memorandums or other information safe and private. Many practical jokes can be

played with it also. Draw some rough pictures of Donkeys, Monkeys, Pigs, etc., and tell your friends to hold the paper over the lamp and his photo will appear. You will have a good laugh at his expense and you can sell him a bottle of the ink at a good price.

## Love Letter Ink

Disappears In A Few Weeks

An old philosopher said: "Wisdom flies out of the window when love flies in at the door." Most people are a "bit off" when they fall in love, of which some of the things they write is ample proof. This remarkable ink resembles much of the ardent affection it is employed to express; that is, it **FADES AWAY COMPLETELY IN A FEW WEEKS**. When the charming young lady brings forth the cherished budget of billets doux to read again the honeyed words of endearment or to study the fond missives with a view to bringing an action for breach of promise, to her utter amazement every word of the writing has vanished, leaving the paper quite blank.

## Inkless Pen

Writes With Plain Water

It is a real pleasure to write with the **INKLESS PEN**, as you have simply to **DIP IT IN PLAIN WATER**. The writing is a rich violet color, copyable, and is **MARVELOUSLY NEAT AND LEGIBLE**. This pen is a **GREAT CURIOSITY** and is **EXTREMELY USEFUL**, as it dispenses entirely with the ink bottle, that in many households contains nothing but a muddy deposit with which it is impossible to write. It is greatly preferred by many to Fountain Pens, which are always running dry

at the wrong time, and there is **NOTHING TO LEAK**.

## One Dip Pens

Write 600 Words With One Dip

The **ONE-DIP PEN** is one of the most recent writing inventions. The patented improvement consists in a metal curl or flange on each side of the pen point, that, besides strengthening the pen, enables it to take up and hold a very large quantity of ink at one dip, and to feed it evenly and regularly without fail right to the very last drop. It is really better than a fountain pen, and is the most satisfactory and successful of all self-filling pens because it is so simple, yet formed so cleverly that the ink flows freely to the point without risk of blotting. We absolutely guarantee it will write 600 words with one dip. Shipped postpaid.

# Pocket Adding Machine and Magic Writing Pad

ENTIRE MECHANISM IS MADE OF SUBSTANTIAL METAL

YOU INSERT PEG IN SQUARE OPPOSITE FIGURES TO ADD

AS EACH NUMERAL IS ADDED, THE TOTAL SHOWS IN CIRCLES

METAL (PENCIL-LIKE) PEG

**T**his marvelous Pocket Adding Machine and Magic Writing Pad is more interesting than a Cross Word Puzzle. Yet both Adding Machine and Magic Pad are SO SIMPLE and easy to understand that any child of six will have no difficulty in operating both. Business and professional men use it right along in their work, for they appreciate accuracy and anything that will save time and make no mistakes. The ADDING MACHINE is positive and it CAN NOT MAKE A MISTAKE. We positively guarantee that if you use the machine according to the directions it will add correctly and give you correct and infallible results. We all make mistakes—this machine NEVER. It will ADD, SUBTRACT or MULTIPLY, and it is guaranteed for life. We will furnish free any part that may wear out or break.

THE ADDING MACHINE IS THE SENSATION OF THE ADDING MACHINE WORK. In size it is 3x5 $\frac{1}{4}$  inches. A small machine, but it adds as accurately as a hundred dollar machine. It adds up to 9,999,999, or in dollars and cents to \$99,999.99, which is one cent less than one hundred thousand dollars. There are no keys to punch and no levers to pull. The total is always visible and it can be re-set to zero in a moment.

Then, in addition to the Adding Machine, you get the Magic Pad. You write anything on the Magic Pad the same as you write on paper with a pencil. You can use a pencil, or if you do not have a pencil, you can use the blunt end of a metal pin, or a match or piece of wood, or your thumb nail or anything. Think what this means to you when you want to make notes and have forgotten your pencil. THEN, when you want to erase the writing, YOU DO NOT HAVE TO USE A RUBBER ERASER—for you cause writing to disappear whenever you want it to, like magic, never to return. Then you can write again, do your figuring, make drawings, do your CROSS WORD "stuff," or anything you want to. You can use it entirely independent of the Adding Machine. You can carry it in your pocket, make a list of the goods you are to buy each day, or things you want to do, and as you make each purchase you can check that item off, or erase it, and when all purchases are made, all matters attended to, etc., you cause the writing to disappear in the twinkling of an eye.

It is a great combination, this Adding Machine and Writing Pad, combining BOTH, and instead of making an extra charge, we charge you only for the Adding Machine, and even that we are selling at a specially reduced price, and put in the Magic Pad free as a bonus to those who order quickly. Truly this is a marvellous Combination—it is not only helpful to children and students, but is useful and interesting for business and professional men and women. Each machine comes complete with metal peg and complete directions.

# Heyer DUPLICATOR

**Cheap to Operate.**

Demand for a really efficient duplicating device at a price within the reach of all has been self-evident for a long time, and after much persuasion, we have at last succeeded in inducing a leading manufacturer to put up, exclusively for us, the HEYER HEKTOGRAPH, as illustrated. It is very easy to use, so simple, in fact, that any child can take off copies along with the most experienced. To use the Duplicator, write the original copy in the ordinary way with Duplicator Ink, and allow it to dry.

An impression of this original is then transferred to the gelatine or composition surface of the Duplicator. This is accomplished by placing the copy on the surface of the paper and you will find an exact facsimile transferred to the paper by placing sheets of paper on the Duplicator, one by one, a slight pressure producing clear, legible copies. **\$1.75**

- composition of the Duplicator, writing side down. Rub your hand over the surface of the paper and leave it for a few moments. *It's  
Portable*

**Full Size, Professional, Portable  
ROTARY, Typeless Printer**

At last, at a mere fraction of the price of any other practical equipment of its kind—a compact, rotary, inside-inking, full letterhead-size, typeless multi-color printing outfit—the PRINT-O-PRESS!

So sensationally low is the price that it is necessary to explain that this is not a makeshift, or experiment. Instead, it is a carefully designed, precision-built reproducer of all business forms, producing the highest quality of work. A revolutionary new construction principle (U.S. and foreign patents applied for) plus the quantity production methods of a modern factory makes the low price and unconditional money-back guarantee possible.

To waiting thousands of large and small firms—to men who have home or office printing to be done or who want to fill the printing needs of others—to all industries—science brings a new marvel, the PRINT-O-PRESS Rotary Typeless Printer—at an astonishingly low price all can afford to pay.

Perforated cylinder for inside inking without removing stencil for re-inking. Cylinder die-stamped and formed for perfect printing impressions—absolutely prevents blotchy, shaded or uneven printing. Additional cylinders available for printing in two, three, four or more colors without delay. Provision for centering printing on the page—top and bottom, left and right. "Platen" (or impression roller) held in absolutely even contact with the cylinder for uniform impressions. Handsome lacquered finish. Weight 9 pounds.

To operate it is only necessary to follow three simple steps. **First**, make up your copy, either hand drawn, printed or typewritten, on the proper stencil. **Second**, put the stencil on the cylinder and your paper in place. **Third**, as fast as you can turn the handle (or about 1,000 impressions per hour), the finished, printed forms come off the press. **Not prepaid. Shipped by express. Shipping weight about 11 lbs.**

# The Simplex Typewriter

A Child Can Operate It  
We Guarantee the Writing!

Though so marvelously cheap, this machine is a thoroughly practical typewriter. We positively guarantee it to do excellent work, and we have received hundreds of unsolicited testimonials from users telling us they would not be without their Simplex. It does not seem possible at the price, but let us send you a specimen of the work and you will be convinced. With reasonable care they will last a lifetime. They are so simple that a child just able to read can write with them. You can learn all there is to know about them in five minutes and a little practice each day should make you an expert operator.

## Educational and Useful

Everyone should have a typewriter. Illegible pen writing is unbusinesslike and in the case of business firms, creates the impression that the firm is insignificant and of little account. Illegible writing causes the loss of much time and money. Even the best writers frequently have a habit of scrawling their signatures so that it is almost impossible to make them out.

The letters of the alphabet, the numerals, 1 to 0, and the punctuation marks, are so grouped that the letters most used are before the operator most of the time, enabling him to write more rapidly. Work can be done with these typewriters that cannot be done with higher priced machines. They write on a flat bed, making uniform print on envelopes, paper or even cardboard. They are of practical value, useful, educational and instructive.

## EASY TO OPERATE

Here is a printing outfit which is one of the simplest we have ever seen. There are just two steps to it. First, prepare the stencil in any way that you want to.

Second, ink the roller, apply the stencil and start printing off your copies. With each roll of the roller another copy is done. This means you can turn out without any trouble, a thousand copies an hour and if you haven't got time to let the office boy do it. There is nothing to it. The cheapest form of printing we have ever seen yet it prints in a rich, solid black (or colors) evenly and distinctly. Will print a sheet of paper up to 8 1/2 "x11". The uses for this printer are so numerous that you will find yourself using it everyday on something different. Pays for itself the first two days you use it.

Each outfit consists of 1 Perfect Star printer, 3 stencils, 1 bottle of black ink, 1 inking brush, 1 stylus pencil, 1 writing plate, 1 copper shading screen, 100 sheets of paper, manual of art and advertising, including instructions for operating the printer, samples of work, etc.

If you are a businessman you need this to boost your sales. If you go to school you can start a school paper or take in printing from the outside, increasing your earnings.

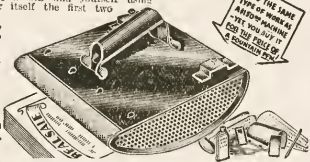

Lasts a life time. Nothing to wear out or get out of order. Strong and sturdy. Used by offices, stores, churches, theaters, factories, clubs, schools, etc.

700% Profit

Canvassing agents and dealers generally will readily recognize in these Key Check Stamping Outfits, a golden opportunity to start a steady and profitable business on a very small cash outlay. As a means of identification in case of loss, Key Checks are needed by anyone having one or more keys, and that includes most everyone. You can buy the Blank Key Checks from us in numerous designs as illustrated on previous pages of this catalog, and with the aid of the Steel Alphabet and Figures, stamp the purchaser's name and address, charging him 25 cents or more for what costs you but a few cents and a few moments of your time. And with each key check, you can sell a split steel Key Ring for 10c that costs you about 1c. As you can stamp from 8 to 12 checks an hour, you can easily see what a big profit there is in it for you. If you only stamp 8 key checks an hour you can make over \$100.00 per week! Another good plan is to get boys and girls to collect orders for you. Give them a nickel or so for each one they get, and with only a few boys and girls you can build up a big business and big income with little capital. A good side line for any store. Or, if you haven't a store, let the stores solicit orders for you!

### THESE KEY CHECKS ARE EASY TO STAMP NEATLY

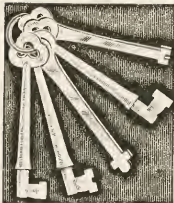

Anyone can do the stamping. It is simplicity itself. All that is required is a little practice and care, and any 14-year-old child can stamp the Checks quickly and neatly. You will have no trouble in selling the Key Checks, as their value is apparent to everybody. The whole outfit takes up very little room and will go in your coat pockets. You will be surprised how easy it is to make money selling these Checks. We have numerous customers all the world over who make a good living traveling from town to town, handling nothing else but Key Checks and kindred lines. Others handle them as a side line, and we have many agents making a very nice profit selling them in their spare time.

The Alphabets and Figures are made of Special Tool Steel, carefully hardened and tempered. The size of the letters is 1-16 inch. The nickel-plated Gauge illustrated is of great assistance to the beginner in stamping the Checks, especially in getting the names even on straight or curved lines. It is made of solid metal, nickel plated with movable bevel-edge plate operated with thumb-screw in center. The work to be stamped is placed under edge of plate, the thumb-screw turned down, and the check is thus firmly held in place.

## MINIATURE WATCH CHARM PISTOL

This is surely the very latest novelty in watch charms. It is an exact reproduction of a real pistol, and it actually fires REAL BLANK CARTRIDGES, of miniature size, of course. The illustration, which represents the actual size of the Pistol, clearly shows the details. It measures about one and three-quarters inches long, and has a ring at one end so that you can attach it to your watch chain. It uses miniature blank cartridges, and it goes off with a loud report when you pull the trigger. It loads and shoots just like a regular pistol. It is of the break-down type, the illustration showing the pistol placed in position for loading. The Pistol is made entirely of high grade steel, nickel plated all over, has octagon barrel, with handsomely embossed handles. Can also be furnished with pearl handles. A miniature cleaning rod accompanies the pistol, and the whole comes packed in a neat little box. Shipped Express Only.

**It Looks Like A Deadly Weapon, but It Is Merely A Novel Cigarette Case.**

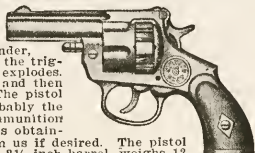

This is the newest Parisian vogue that has been eagerly taken up by both ladies and gentlemen as an effective protection against the attacks of "Apaches," as the French gangsters are called. The Cigarette Case looks so like an Automatic Quick-Firing Repeater Pistol that the "tough" fears he will have half-a-dozen bullets pumped into him while he waits. This clever contrivance has proved itself better than the real thing in many an awkward encounter. Then there is fun to be had "sticking-up" your friends. They squirm and protest that "you shouldn't point a pistol at anyone; it might be loaded." "Oh! it's loaded all right!" you reply and deliberately pull the trigger, remarking "Try a smoke to soothe your nerves!" The Automatic Pistol Cigarette Case is very well made, entirely of metal. At first glance few would distinguish it from a deadly automatic. It weighs only two ounces. It can be easily carried in the pocket, being but little, if any, larger than many cigarette cases. By pulling the trigger the slide flies open and discloses the tempting "weeds" snugly packed where the more lethal cartridges would be in a genuine weapon.

## STEVENS 6 SHOT CAP PISTOL

**A Double Action Revolver With A Real Pistol Style Rotating Cap Chamber SHOOTS REGULAR MAMMOTH BOOK CAPS**

The Stevens 6-shot Cap Pistol is the latest type of Cap Pistol to be brought out. It is built and shaped just like a regular revolver and works just like one. You place the caps in the revolving cylinder, and the gun is then ready to fire. Just pull the trigger and there is a loud report as the cap explodes. Six shots can be fired in rapid succession, and then the gun is reloaded with six more caps. The pistol is quite free from danger, in fact it is probably the safest cap pistol on the market. The ammunition used is the regular  $\frac{1}{2}$  inch square cut caps obtainable throughout the country, or direct from us if desired. The pistol measures almost  $6\frac{1}{2}$  inches in length, with  $2\frac{1}{4}$  inch barrel, weighs 12 ounces, is well made, all exposed parts plated. PISTOL CAN BE SENT BY PARCEL POST. # Blank Cartridge Pistol

## 6 Shot Automatic

We have been so frequently asked for a Blank Cartridge Pistol that will fire more than one shot in one loading, that our customers will eagerly welcome this new automatic. It is extremely well made, blue steel finish, and is just a trifle smaller than the regular 25 caliber Colt Automatic Pistol, which it closely resembles. The ammunition used is a special imported blank cartridge, sometimes known as the Flobert, size 6 mm., with crimped edges, listed below. The pistol will hold 6 of these cartridges, and thus you can fire 6 shots, one after the other in rapid succession. It is the ideal pistol for stage work, also for starting in sports events, etc. It is impossible to fire ball cartridges; thus the pistol is perfectly safe and possibility of accident is avoided. Makes a very loud report just like a real revolver, and for this reason it is very desirable as a protective arm without the danger attendant upon a regular arm.

THE KING 1000 SHOT

# RAPID-FIRE REPEATING AIR RIFLE

*Thirty Shots Can be Accurately Fired in One Minute*

**ONE THOUSAND SHOTS AT ONE LOADING**

*A Wonderful Rifle*

*The Winchester of Air Rifles*

**Strong Long Range Accurate**

The "King" Rapid-Fire Repeating Air Rifle is constructed to hold **One Thousand Shots** in its magazine (if required) at **One Loading**. It is in appearance very much like the Winchester Repeating Carbine, being about that size and model, all the parts are extremely simple and will not get out of order, and the materials used in its manufacture are of the best, all parts are interchangeable, and with ordinary care it will last a lifetime. So accurately does it shoot that a good marksman has split cards, edge-on, at 15 yards with it, and the penetration is greater than that of any air-rifle hitherto invented. The weapon can be fired **30 times in one minute**, as the lever under the breech works very rapidly, loading and cocking the gun by the one action. The magazine and all metal parts are of blued and beautifully polished steel, the stock of polished and seasoned walnut, sights accurately set and tested, in fact workmanship and appearance are **equal to any rifle costing double the price**, for each rifle is a splendid example of the gun-maker's art, assisted by the most modern machinery. The ammunition is the regular BB shot, which can be purchased anywhere, hence the cost of using this wonderful rifle is **almost nothing**. No sportsman should be without this magnificent weapon. There is no danger of explosion, and even boys and youths may use it without risk. The air-compressing mechanism is a perfect invention, being the simplest and most durable ever devised. The air chamber is constructed on a principle which gives great strength, and it will withstand a pressure of many pounds to the square inch. The pull of the trigger is rather less than in ordinary rifles, conducive to the great rapidity of firing. The "King" Repeating Air Rifle is not quite 36 inches long from muzzle to heel plate, the weight is about 2 lbs., which is light enough to cause no fatigue and heavy enough to ensure accurate shooting. It is an unusually handsome model, having a beautiful gunmetal finish, but it must be seen and used to be thoroughly appreciated. For target practice no air rifle made can surpass it.

## Copper-Coated Steel Air Rifle Shot

We recommend your buying shot locally, as the postage is almost as much as the shot is worth. However, as an accommodation to our customers, we have arranged with a leading manufacturer to stock their special brand of copper-coated steel air rifle shot, specially made for air rifles. Never before has such accuracy been possible in the making of shot, and this accuracy is reflected in the improved shooting of any rifle in which copper-coated steel air rifle shot is used. The copper coating lubricates the shooting barrel of the air rifle and gives a nearly perfect "air-seal" back of each shot. Steel shot, being the lightest air rifle shot on the market, carries farther and hits harder than any other kind. Each tube contains about 200 pellets.

### Yogi Magic Head Cutter

How Does He Do It?

#### His Sword Leaves No Mark

This is one of the cleverest novelties we have seen for many a long day. It is made of metal, somewhat larger than a man's watch, with celluloid top. The head is placed in position through the opening in the side of the celluloid, the lever at the side pushed back; the big sword in Yogi's hands makes a rapid movement and apparently severs the head from the body. However, when examined, the head is found to be intact. It is an optical illusion, yet very few can figure out how it is done. It is most uncanny and weird to see the sword apparently go right through the neck without, however, cutting the head off. Any other small object can be inserted in the opening, instead of the head, such as a match, paper clip, or any other similar shaped article.

## LEROMYSTIC Makes any Picture or Photo Temporarily INVISIBLE

This is a very peculiar preparation called Leromystic, with which you can make your photographs invisible. All you have to do is to swab the photograph with this solution and the picture disappears entirely. It is even simpler to make it visible again, for, just like magic, it is merely necessary to wet the fingers in plain water and rub the surface of the picture, or use a cloth

that has been dampened, and lo and behold the picture instantly is brought back into full brilliance. The possibilities of this preparation are limitless. You can send portraits, etc., that will apparently be nothing but blank paper, to your friends, and all they will have to do to render them visible will be to rub them with dampened fingers as just described. Can also be used to strike out undesirable backgrounds in photos. Shipped postpaid.

## PHOTO TRANSFER Transfers any Photo Onto Any Material

### Big Profit Transferring Photos -- Easy To Do

With this new process it is possible to take any of your finished pictures and transfer them permanently to any kind of material, such as glass, wood, crockery, silk, metals, gold and silverware, etc.

The process is very simple and any person of ordinary intelligence can do it. It requires no special photographic equipment and it is without doubt one of the most unusual and novel ones which you may make of your photographs. The accompanying illustrations show a number of everyday articles on which photographs have been printed, viz., a metal cigarette case, necktie, handkerchief and tumbler and transfers also can be made to the arins, etc.

Thousands of visitors to the Chicago World's Fair will recall having their photos transferred to the front page of a special World's Fair newspaper which they purchased as souvenirs. This was accomplished with the Lerotransfer. Colleges, schools and others will find this process very handy for their booklets and programs, thus saving considerable expense for cuts. As a money maker its possibilities are unlimited. Big profits printing photos on cups, spoons, musical instruments, glassware, articles of wood, paper, etc. Really there is absolutely no limit to the places where it can be used. It also has been successfully worked out for advertising purposes, where individual photographs or insignias were wanted on a few articles. The transfers, had they been made by some of the technical methods, would have involved so much cost as to make the idea impractical. But Lerotransfer solved the problem.

# Photo Enlarger

Make Enlargements  
From Your Negatives

Beautiful Portraits—Landscape  
Murals—Professional Work

Everyone who has a camera should have an enlarger. The cost of enlarging films usually is rather expensive but with your own enlarger you can make 8x10 inch prints for as little as four to five cents each. Just think what this means. You can make your

own portrait pictures, scenic murals, landscape pictures, etc., etc. Any picture that you have can be enlarged. Most people like to have attractive enlargements sitting on their dresser, hanging on the wall, in their album or to have around so that you can get a better view than an ordinary snapshot allows. Then too, with the immense popularity of the candid camera, the possession of a low priced enlarger with a good lens that will preserve all the original detail and contrast is almost a necessity. This enlarger really does the work.

Pictures can even be improved by enlarging. For instance, there is an amazing variety of paper on which enlargements can be printed, such as Sepia paper which provides a brownish picture; Brevira which produces rich contrasting black tones even sharper than you get in the original picture; Crystalline paper which has sparkle-like crystals, not a plain glossy effect. Papers can also be supplied that give you a charcolot effect, hand-drawn effect, green shading, blue shading, etc.

It is not difficult to do good professional work with this enlarger. There are just three steps. First—insert the negative; Second—put the sensitive paper in front of the enlarger and expose for the required length of time; Third—develop just like you would any other print and let the picture dry. Nothing could be easier. The lens on this enlarger is finely ground of high-grade optical glass and produces sharp enlargements. None of the detail is lost and in most cases you can actually get better results.

Ruggedly constructed of metal and easily set up for use. Can be focussed properly and quickly with a minimum of difficulty. After you have made a few enlargements you will undoubtedly find many of your friends begging you to make some for them. The usual price for a standard 8x10 inch enlargement is around \$1.00 and as the cost of the paper is only about five cents per sheet you can readily see what a large margin of profit you can make. The time required for each enlargement is approximately three to four minutes—from start to finish. Takes negatives up to 1 3/4 x 2 1/2 inches in size. Will enlarge any negative up to 12 x 15 inches. Complete with cord, plug and bulb.

The Expo Watch Camera is the most wonderful and ingenious Camera made. It is but a little larger than a man's watch, which it closely resembles in shape and appearance. You can carry the Expo about in your pocket and take pictures without anyone being the wiser. It weighs only 3 ounces. It is loaded in daylight with a roll film of either 10 or 20 exposures costing 20 cents and 30 cents respectively, and thus the picture taking part of a whole day's outing may be had for a very nominal sum—2 cents or less a picture. The size of the photo is about the size of a postage stamp,  $\frac{1}{2}$  x  $\frac{1}{4}$  inch, equal in clearness to any camera regardless of price. The pictures can be enlarged to any size. This may seem incredible until you stop to consider that the moving pictures you see on the screen are merely enlargements of film no bigger than that used by this marvelous Watch Camera. The film is the same as that used by any other camera, the only difference being in the size. The film is developed, printed and treated the same as any other film. You can do the developing and printing yourself if you wish, or have it done at your drug or photographic supply store, the same as your other films.

Surprise your friends. Take their picture in the act of doing some funny stunt. Next time you see them, produce the print. You will have a lot of fun over their bewilderment and catching people in queer and awkward positions. Carry the EXPO about in your pocket—easily concealed in the palm of the hand—pictures can be taken unobserved. Produces clear, sharp negatives, indoors or outdoors, equal to any camera on the market.

The EXPO takes pictures through the stem, where the rapid fire lens is located. Equipped with a time and instantaneous shutter. Thoroughly practical—not a toy. In daily use by the police, newspaper reporters, detectives, and the public generally. Important beats have been secured with the Expo Watch Camera. An enterprising and resourceful reporter on one of the large New York daily newspapers secured some excellent pictures of the execution of Mrs. Snyder, who was electrocuted in Sing Sing prison, N. Y., for the murder of her husband. All prices are postpaid.

# Radioptican Projector USE IT WITH YOUR CAMERA

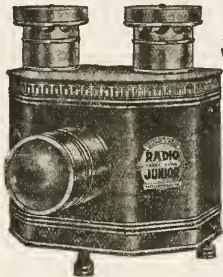

**PROJECTS POSTCARDS OR PICTURES SHOW GREATLY MAGNIFIED VIEWS OF OPAQUE OBJECTS UPON A SCREEN**

With this new Radioptican you can have an unlimited supply of pictures free of cost. Post-Cards, photographs, engravings from illustrated papers and, in fact, any opaque object, such as moving works of a watch, living insects, and so on, can be projected upon the screen in exactly the same manner as the transparent slides in a magic lantern. With the Radioptican you can have a REAL PICTURE SHOW. You can bring out the pictures you took last summer of the camp, of that canoe trip, and the photos taken at school, and throw them on the sheet and look at them just as long as you want. You can show all of the post cards collected on your automobile trip last summer. And you can take Mother and Father by surprise, too. You can dig up the old family photos, call the family in and take them all back a few years by showing them the pictures of their youth. You can have regular evenings at home, in which the whole family can be together and share the real pleasure of a Radioptican with you. And the beauty of it all is that it **COSTS NOTHING TO SEE NEW PICTURES.** It is unlike the old magic lantern or even the more modern moving picture machine where you are forced to continually buy new slides or film in order to see anything different. Not so with the Radioptican; you can show the photos taken by yourself or friends, colored postal cards, illustrations from books, etc., each being beautifully and exactly duplicated on the sheet before you. It is interesting and it can be very instructive. All Radiopticans are equipped for use on your existing electric light current. You simply screw in the plug into any electric light socket and it is ready for IMMEDIATE USE. Where electricity is not available, you can use any form of illumination that may be available, such as natural or artificial gas or acetylene lighting system, or even a flashlight or small portable lamp will make a reasonably satisfactory substitute.

**Use It With Your Camera**  
*It Will Project Insects, the Moving Works of a Watch, etc., etc.*

## ASTRONOMICAL & TERRESTRIAL TELESCOPE

Explore The Wonders of the Sky With This Telescope

BUILT FOR SEEING ALL THE WONDERS OF THE SKY AS WELL AS NATURE STUDY AND GROUND WORK. EVERYBODY SHOULD OWN ONE

Many people have discovered that few things are as fascinating as looking at the very smallest objects that are hardly visible to the naked eye, or looking out through space and observing new worlds and stars. This telescope does both. For, in addition to the powerful telescope, you can turn it around and it will prove to be an equally powerful microscope, enlarging small objects so that they will appear large. There are three handsome models to choose from and each is splendidly built. No matter where you go you will never regret getting this telescope.

Big, 5 section, 10 power telescope. Ideal for solar observations, long distance, nature study, star gazing. Examine the Milky Way, and many of the brilliant stars. Look at sun spots, examine the flames which shoot off the sun over 250,000 miles! Study the craters and valleys of the moon, eclipses, etc., etc. Finely ground and finished lens. Nickel plated draw tubes, length 26 1/2 inches. There isn't a day on which this telescope would not come in handy. Take it along on auto trips and really enjoy the scenery. For likes it is invaluable because of its compact size and sturdy construction. View approaching storms long before they arrive in your locality. The uses of this telescope seem to have no limit.

# THE NEW SOLAR TELESCOPE

Magnifies 25 Diameters. Objects 25 Miles Away  
Appear to be Only 1 Mile Away.

**With Adjustable Solar Eyepiece  
For Astronomical Observations**

***A Telescope Worth \$20 for only \$9.95***

This is a large and powerful instrument specially imported by us, and made by a world famous manufacturer of telescopes and high grade optical instruments. It is exceptionally well made and of the highest possible grade throughout. Please do not compare or confuse this Telescope with cheaper instruments that are sold, that are fitted with fewer lenses of inferior quality and lower magnifying power. The SOLAR TELESCOPE measures 19 inches when closed, without the extension tube, and 29½ inches extended, with the extension tube. The telescope is made of solid brass, chromium plated, the body covered with black morocco grain leather. A separate and special eyepiece takes the place of the regular eye-piece when it is desired to study the heavenly bodies. This astronomical or solar eye-piece has twice the magnifying power of the regular or terrestrial eye-piece that is used for land and sea observations. For example, the telescope WITHOUT the astronomical eyepiece has a magnifying power of 25 DIAMETERS, which means that it magnifies objects twenty-five times, bringing them to 1/25th of the actual distance.

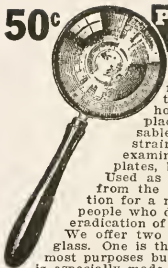

## **Special Astronomical Eyepiece Magnifies 50 Dianeters**

However, when the interchangeable ASTRONOMICAL eye-piece is used, its power is EXACTLY DOUBLE, and you then have a magnifying power of 50 DIAMETERS, enabling you to make minute studies of the stars, the sun and other heavenly bodies. With the aid of this special eye-piece, you will be enabled to observe Eclipses of the Sun and Moon, examine the very interesting and mysterious Sun Spots, and make other intensely interesting and fascinating astronomical observations, besides having a powerful telescope for use on land and sea. The Solar Eye-piece is screwed into the Telescope in a moment, and its use greatly enhances its value. Tourists, residents at the seaside, farmers and others able to enjoy wide and extended views should have this excellent telescope.

## Microscope and Floroscope Combined

*All the Power and Definition of an Expensive Microscope  
Surprisingly Great Magnifying Power*

**T**HERE are few things so interesting and valuable as a Microscope. It enables you to minutely examine mineral, animal and vegetable specimens, to test cotton, wool, silk, seeds, water, flour, cheese, milk, and in fact nearly all articles of food. Unwholesome meat can be readily detected and ferments can be closely watched. It is exceedingly interesting to examine the spores of ferns, soda, sugar, salt, alum and other crystals, the dust (scales) from moth and butterfly wings, human hairs, flies and insects, while the animalculae in water are a never-failing source of wonder. Most interesting experiments can be performed with an instrument such as this. Place a small piece of cheese in a box and allow insects to feed on it for a day or two. Then examine a tiny portion of the cheese under the Microscope and you will see little animals, magnified to the size of large beetles; you can count their legs and the joints in them, the talons or claws upon each foot, also the hair or bristles upon their bodies. Or, obtain some stagnant water;

deposit a small portion of scum upon the object glass of the Microscope with a pin's head, and you will see thousands of beautiful animalculae swimming about with as much freedom as though they were fish in the boundless ocean. It is a truly wonderful sight and an endless source of interest and enjoyment for everybody. The Microscope is capable of magnifying 150 areas, and although small and compact, it will cover a very wide range of microscopic research. It is made of brass, and is well worth twice the price asked.

**T**HIS is one of the most ingenious of all optical novelties. It comprises no less than NINE SEPARATE ARTICLES IN ONE, each having a separate and distinct use, and for each it is thoroughly serviceable. It is odd, curious and interesting.

You can use it as an OPERA or FIELD GLASS. There is a focus adjustment so that it can be regulated to suit any sight. One of the eyepieces and an object glass can be folded down and it then answers the purpose of a TELESCOPE. Fold one of the object glasses outward, and you have an excellent READING or MAGNIFYING GLASS. If greater magnifying power is needed, the second glass is folded outward and you have a fairly powerful MICROSCOPE. Focus the sun through one or both of the Magnifying Lenses and you can use it as a BURNING GLASS; thus paper, shavings, etc., can be quickly set alight and a fire easily started without the aid of matches if the sun is shining strongly enough.

Fold one of the object glasses backward over the mirror set in the frame and it becomes a LARYNGASCOPE, useful for examining the eye, ear, nose and throat, or a MAGNIFYING MIRROR of considerable power that is very useful for ladies to examine their complexion. Any blemish that cannot be detected by this Mirror does not exist. It is worth all the cost to locate even one painful cinder in the eye. In the frame there is also a reliable POCKET COMPASS.

The article is well made, strong and durable, and it folds compactly into a small box that can be carried conveniently in a vest pocket. Comes in black japanned metal.

Every Blade Will Give From 150 to 200 Shaves!

# SHARPEN-M-ALL SAFETY RAZOR STROPPER

Sharpens any Kind of Single Edge or Double Edge Safety Razor Blade

Every man who shaves knows that it is impossible for any steel blade, however good it may be, to hold a keen edge enough for shaving unless it is stropped often. Now, it is not only true that no blade will shave well unless stropped before shaving, but it is also a fact that not one man in a hundred can strop a safety razor blade properly with an ordinary holder or strop. A good shave is NOT the result, as some people think, from the kind of safety razor you own. It depends absolutely on the condition in which you keep the edge of your blade. A 10c razor, if its blade is properly sharpened, will give a better shave than a \$5.00 razor whose blade has not been properly sharpened. What you want, therefore, in order to get that easy, swift, pleasant shave is a SHARPEN-M-ALL, that will positively keep every one of your blades in just as perfect a condition as that in which the expert barber keeps his tools.

By using the SHARPEN-M-ALL STROPPER, you will not only get BETTER SHAVES, but you will SAVE MONEY on blades, as you will be able to get from 150 to 200 shaves from one blade, and the last shave will be as good as the first. The construction is simple and will last a lifetime. There are no parts that can possibly get out of order. Any novice can use it just as well as the most expert barber. It is operated by simply turning the lever or handle as shown in the illustration. It has two spiral rollers that travel from heel to point as they are revolving, giving the CORRECT DIAGONAL STROKE. There are no screws, adjustments, or any kind of tinkering necessary to operate the machine. The rollers are made of a special material that STROP AND HONE the blade at the same time. The rollers turn only one way, so there is no fear of damaging the blade or the stropper. The SHARPEN-M-ALL is packed in a handsome case 4x2½x1½ in., with three holders and full instructions. The weight of the complete machine is but eight ounces.

# ELECTRIC Marvel Dry Shaver

What A Smooth Shaver

No More Blades, Lather, Brush, Water, Skin-Burn, Cuts, Muss or Fuss.

ONLY  
**\$9.98**

**SIMPLE AS ABC**

**MARVEL DRY SHAVER GIVES YOU  
'SWEETEST' SHAVE OF YOUR LIFE!**

## OH BOY! WHAT A SHAVE! NO IRRITATION

Forget daily shave torture! Get next to Marvel Dry Shaver. Just plug in—shave away! Feel how velvety-smooth it leaves your skin. Shave even twice or three times a day without irritation or soreness!

The modern way to shave is to plug Marvel Dry Shaver into any electric outlet in bathroom, bedroom or elsewhere. Use it just like an ordinary safety razor. The two scientific shaving edges instantly shear away the toughest beard right down to the skin line, without nicking, pulling or forcing the hairs. It gets into those tough places around the ears, lips, nostrils and chin. It actually glides along—gently massaging and toning the skin as it shaves.

Marvel Dry Shaver cuts long, short, wiry or soft hairs with equal ease. With Marvel men and women have a "neck-trim" whenever they like, oftentimes saving the cost of a haircut. Mothers give their children barber-like haircuts right at home.

## COMPARE THE SHAVER — COMPARE THE SHAVE

**AMAZING**, but true, an ordinary razor cuts hair on a SLANT, often causes ingrown hair... pimples, soreness. Hair grows faster, tougher! Also soaps, creams and brushes tend to dry skin, and often irritate the face.

## COMPARE THE PRICE

Now you can get the velvety-smooth shave you've been wanting! Right at home—without water, soaps, creams, brushes or lotions! Without bother, fuss or danger of cutting your skin.

**BUT WHEN** you shave with Marvel Dry Shaver, toughest, wisest hairs are clipped off SQUARE, as oth—right down to the skin line. Gentle massage action of Marvel stimulates circulation and tones up skin.

Marvel Dry Shaver is precision engineered and constructed of quality materials. Is rust-proof, and operates economically on AC or DC current.

Constructed with TWO shaving edges, instead of one. Gives you quicker and smoother shaves. Needs no oiling, is self-sharpening and non-clogging.

No more dirty wash bowls after shaving—the new way of shaving is clean and sanitary. No more danger of infection from cuts by a dirty razor blade—often the nestling place for millions of germs. No more irritation when you find you forgot to buy new razor blades or discover that you're out of shaving cream just a few minutes before it's time to leave for work. No more washing of razor and blades after shaving, with water dripping everywhere. No more soiled clothing—just think of all these advantages that Marvel Shaver can bring YOU.

Pastidious women consider this electric shaver indispensable for under-arm shaving and removing superfluous hair from legs.

**COSTS LESS THAN 3c A MONTH TO OPERATE.** Marvel Dry Shaver uses less than 3c worth of current a month. Think of the saving you make in razor blades, creams, soaps, lotions, etc. Besides, think of the comfort and speed you enjoy.

Add all these advantages together and you will readily understand why so many thousands are turning to Marvel Dry Shaver. Tested and tried before leaving factory, Marvel Shaver is certain to give you satisfaction.

## STOPS EXPENSIVE VISITS TO THE DENTIST

Simple, pleasant, safe MOTODENT completely transforms your ideas of what brushing teeth CLEAN really means. It cleans them for more thoroughly than is otherwise possible, except at the hands of a dentist.

At the same time, it CORRECTLY MASSAGES THE GUMS. It is one of the most vitally important aids modern science provides for those who really value the beauty and health of their teeth.

**WHY MOTODENT CLEANS SO MUCH BETTER** -- Motodent is in an attractive, ivory-colored casing. At one end, mounted on a detachable brush arm, a small circular brush oscillates in a short arc 7200 TIMES PER MINUTE! You can give your teeth more

brushing in 60 seconds with MOTODENT than in an hour by hand.

And far more effective brushing! The movement is scientifically correct. It is far more uniform and thorough. The bristles are shaped to get into hard-to-reach crevices and clean them out effectively. Used with a dentifrice approved by your dentist, MOTODENT positively will not injure the enamel.

APPROVED BY UNDERWRITERS—After a severe laboratory test, the National Board of Underwriters approved MOTODENT—evidence of high efficiency and workmanship.

ENTIRE FAMILY CAN USE ONE MOTODENT—one MOTODENT, at \$10.00 complete, used with extra individual brush arms, serves the entire family.

### Simple Test Proves It

Get a MOTODENT and make this simple, convincing test: First, with the tip of your tongue, get the feel of your teeth as they are. Next, brush them a minute or two with MOTODENT. Then, test them with the tip of your tongue again.

It will astonish you to discover how much of a deposit remains after handbrushing—but is removed by MOTODENT. Such an immaculate, polished feeling follows, reminding you of when your dentist cleaned your teeth.

MOTODENT IS MODERN—the most advanced method yet devised for daily care of the teeth. If the best is none too good for you, get a MOTODENT without delay. Test it. Prove it without any risk. Make the wonderful discovery of a new, surpassingly effective safeguard to the beauty and health of your teeth.

DON'T TAKE CHANCES any longer by not changing to this modern method of cleaning teeth. It's difficult for an ordinary toothbrush to do even a fairly good job—but MOTODENT cleans and polishes perfectly. **\$10.00**

Watch Ants Build Houses, Banquet Halls, Nurseries, Runways, Etc.

# The Ant Village

## See The Ants Mate and Breed. Watch them Nurse Their Young

Marvelous! Stupendous! Sensational! It's Unbelievable—all the amazing things that these ants can do. They build houses, tunnels, castles, runways, banquet halls, nurseries, etc., etc. You see them live and you see them work. Every day presents a new, interesting scene—a different problem.

In each village there is one Queen ant, which is a larger one than the rest, and about thirty or forty worker ants. This makes one tribe or one nest of ants. If you have just one nest of ants you can see them go about their business in the regular way, working methodically and industriously—they seem almost superhuman in their keen sense of judgement in constructing their houses and arranging their work. There is no waste motion.

Because these Villages are constructed with glass walls and mounted on a stand you can see almost every action. Watch them crawl along the tunnel and construct houses and pathways. See them mating and breeding, nursing their young and later building nurseries and homes. The homes have side doors and front doors. As the ants develop their own homes they make pets of small white creatures that act as scavengers and keep the entire Village clean.

If you ever tire of watching the ants going about their various duties, you can have some fun by introducing another Queen ant into the village. Sometimes the ants will descend upon her and devour her. Or, the nest of ants may split up into two tribes, one tribe siding with each Queen, and then the fight begins.

### What is So Amazing About Ants?

They construct wonderful dwellings, cultivate crops, store food in barns, keep "cows" and milk them. Live together in large cities with amazing efficiency, have armies which engage in fierce wars for robbery, make slaves of weaker ants, their soldiers wear helmets, build with bricks, spin robes of silk.

# LIVE BABY ALLIGATORS

A FASCINATING PET FROM LOUISIANA MARSHLANDS

How would you like a real live Baby Alligator for your very own? A rage for Baby Alligator pets has swept the country. We have arranged, at great expense, to supply you with a GENUINE LIVE BABY ALLIGATOR just hatched in the deep marshlands of the South, at an amazingly low price. These corking little pets will be shipped to you by mail, carefully packed—safe arrival guaranteed. Think of the fun, the thrills you will have with one of these Baby Alligators. Read how fascinating they are, how interesting. Study nature. Remember, the alligator comes down to us from prehistoric days, from the age of dinosaurs! Do you want a Baby Alligator? You bet you do. What boy wouldn't?

Baby Alligators are fascinating little pets that average about 8 inches long. They require nearly 200 years to attain full growth, growing only a few inches the first few years. They are extremely gentle, friendly little fellows; very pretty, with bright orange stripes encircling their green bodies. No expense to keep. And so interesting! And do you know that Alligators can be hypnotized? To do this you lay the Alligator on its back, make a peculiar moaning sound, and he will be completely "hypnotized", remaining motionless in this position for hours, days or even weeks not even breathing. Its muscles being relaxed, you can raise its feet up, which will drop as if lifeless; you can holler and yell, even shoot off a gun on either side of its head and it will pay no attention. To revive the Alligator it is not necessary to touch it; but by imitating the exact sound, or call of an Alligator it will immediately show signs of life and quickly turn over. This has been practiced by the Seminole Indians for ages, and you can do it, too, with a little practice and patience. Alligators can be tamed and trained, in fact Alligators will also really SING, and LAUGH.

Alligators require almost no care, cost nothing to feed, cause no trouble, and they will rid your house of flies, insects, etc. They take to the water quite naturally and eat small minnows, frogs, lizards, etc. They grow three to four inches in a year; an Alligator four feet long is approximately ten to twelve years old. Send your order NOW. There's no time to lose. Shipments made by parcel post direct from one of the largest alligator farms in the south. Live delivery guaranteed. **No. 7990. LIVE BABY ALLIGATORS. # CHAMELEON 25c

Wear It On Lapel

REAL  
LIVE  
CHAMELEON

## WHAT MAKES IT CHANGE ITS COLOR?

The most fascinating pet we sell. There are so many interesting things to observe about the Chameleon that you can watch with admiration and fascination for hours and still not know all of its secrets.

What makes it change its color? Why does it change its color? Foremost scientists have endeavored to explain this remarkable action of the Chameleon without finding a satisfactory answer. Perhaps you can discover it. Put the Chameleon in various places and you'll watch the different colorings. The change in color takes but a few minutes and you can watch the change.

Another one of the most remarkable characteristics of the Chameleon is its ability to catch flies and insects for food. Whenever a fly comes within its range its long tongue shoots out and catches it. Catches them in the air.

There is no difficulty or trouble about keeping the Chameleon. Will actually go for months without feeding. It measures about 4 inches in length and can be attached to the lapel and worn if you desire. Or keep it on a small chain or thread and let it run up and down your coat. We guarantee safe, live delivery.

## HORNED TOAD

Has Long Horny Spikes

One of the last of the pre-historic animals. The Horned Toad is a relic of the past. They are diminishing in number year after year and are soon destined to become entirely extinct. They represent one of the last living connections between the past and the present.

Their history extends back to the day of the dinosaurs. On the Horned Toad you can see several appendages which have been dropped in the evolution of life. For biologists or scientists it is one of the most interesting pets ever discovered. It actually takes you back millions of years into history.

Old timers who know the desert haunts of these creatures in the sandy plateau regions of the southwest maintain that when angered the Horned Toad can erect a fluid from its eyes, directing the secretion at its tormenter. While we have never seen a Horned Toad in this aroused condition we have no reason to doubt the contentions of these veteran cow-herds.

Head, back and sides armed with long, horny spikes. Although of apparently sluggish nature, when in search of food it runs like lightning. Watch it pounce upon flies. Amusement for the hour. No trouble at all to keep. Feed it on meal worms or let it seek its own food. Will live for years and years. **35c**

## HERMIT CRAB

Sneaks In and Out of Shell

The Hermit Crab is one of the strangest marine creatures. It is to be found on the sea-shore living in a deserted whelk shell. The mother crab lays a large number of eggs, but the baby has no home, so it searches the sea bottom until it finds a deserted shell. It backs its tail into the shell which it uses as its future home, dragging it with it wherever it goes. From the time it finds a house of its own, the crab's one object is to steal the home of a neighbor. A common name given it is the soldier crab, owing to its habit of fighting. All its life is spent in trying to wrest the shell from the back of another hermit. Desperate fights take place. One will be holding on to another, each pulling and pushing, until by sheer force one is compelled to leave its home. The victor instantly turns around, pushes his back parts into it and takes possession, but the strange thing is that the vanquished crab just walks into the deserted home of the victor. Then they may start fighting again, and in a few minutes each may be in its original home.

All Animals Shipped from Reptile Farm in Louisiana

ervation you can observe the first traits of human behavior such as recoiling from danger, etc.

Some people construct small boxes 18 inches square and put in it some sand, a little dish of water, stones and in as short a time as one week the turtle has quietly settled down to his new residence and proceeds about his business in a very orderly fashion. You can learn more about biology in a short time with some of these small animals than you can by hours of reading.

The turtle is all the more interesting because it has retained every trait which marked the existence of its ancestors so many ages ago. Its breeding, rearing of the young, feeding and general mode of living is just the same despite the passing of the centuries.

Extremely gentle and easily kept. There are no snapping turtles. Thousands of these were sold at the World's Fair. Well packed in a ventilated box which delivers it to you safe and sound. We have sold thousands of turtles and only in a very few instances did our customers inform us that the turtles arrived in poor condition. Live, safe delivery guaranteed.

### Turtle With Name A Surprise For Your Friends

On the back of each of these turtles the buyer finds an attractively painted rose in full colors along with his name. You can put on it the name of your school. It makes a good mascot. Or a friend's name, name of your city, state, etc. There is a slight coat of varnish over the turtle's back to give it a shiny appearance. These are the same turtles as described above. Many people tie a thread around the neck and fasten the thread to a pin and attach it on their lapel or keep it on a desk or dresser. You'll get lots of fun out of studying their habits. Extremely gentle. Will live for years with little care. Safe, live delivery guaranteed. Print your name clearly.

THESE remarkable scientific toys cause plenty of fun and amusement. You hold the glass in your left hand, and the pulsations of your heart are indicated by the rise and fall of the brightly-tinted spirit in the tube. There are four different Thermometers, the names of which are doubtless sufficiently descriptive. With the Matrimonial Thermometer, for example, the scale shows whether you are "In Love," "Jealous," "Flirting," "Angry," "Furious" or "Indifferent." The Drunkenness Thermometer shows whether you are "Rather Tipsy," "Heavily Laden," "Dangerously Drunk," and so on. The Stork Thermometer indicates what the Stork is likely to bring, for example, "Triplets," "Twins," "Pretty Girl," "Bouncing Boy," "Crying Baby" or at the bottom of the scale "No chance at present." The Fortune Telling Thermometer scale reads "An Evil Enemy," "Large Family," "Rich Marriage," "A bad mother-in-law," "High Profit" and "Old Age." You ought to get a dime's worth of fun out of any of these Thermometers.

# PHONEY COINS & STAGE MONEY

**Get A Roll Of These Bills And Appear Prosperous. You Can "Peel Off" Any Size Bill.**

With a bunch of these bills, it is easy for a person of limited means to appear prosperous. By flashing a roll of these bills at the proper time, and peeling off a genuine bill or two from the outside of the roll, the effect created will be found to be all that can be desired. The bills

## Play Money or Phoney Money

*For Use as Play Money at Bazaars, Poker Games, Etc.*

Every boy likes to hear the jingle of ready change in his pocket at all times so that he can go around and appear prosperous. Just imagine how everyone's eyes will pop out when you dig down in your pocket and take out a big handful of coins. Use them for playing "store," at bazaars, carnivals, poker, gambling, etc. Coins are amazingly realistic in appearance. Approximately correct size and color. One cent piece is copper colored and the others are silver colored.

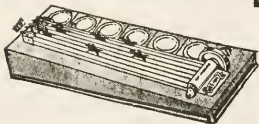

The Play Money or Phoney Money goes as a swell combination to the paper stage money. Especially if a person wishes to "flash" a few "gold" coins along with some of the "gold backs" included in the fake bills. It really makes a person sound prosperous if he can display a big handful of coins and then decide that paper money will be much better. Naturally, that is the time some of our fake bills, described above, come in as the natural sequence. Prices of the coins are as follows.

No.	Denomination	Size	10 Coins	25 Coins
9111	Penny	9-16 inch	15c	25c
9112	Nickel	3-4 inch	15c	25c
9113	Dime	9-16 inch	10c	20c
9114	Quarter	1 inch	15c	30c
9115	Half Dollar	1 1-16 inch	20c	35c

## Exciting Gambling Game The Sport of Kings -- King of Sports

looks like a certain winner, only to be overtaken by another. Then a third sets the pace, and the chances seem altogether in his favor, but just before the winning post is reached, one of the ruck dashes forward and wins cleverly by a head. The same horse seldom wins twice consecutively; each race brings a different winner. Entirely unexpected results are obtained. It is simply impossible to control the result of the race. All the horses have an equal chance of winning because once the race starts no one can control the action of the horses. It is thus the fairest and most interesting amusement that has ever been invented, and it will keep a room full of people at the very highest pitch of excitement throughout an entire evening, especially if wagering and sweepstakes are indulged in upon the results. Each horse is painted a different color, with six discs at the side in corresponding colors, as shown in our illustration for the benefit of those who wish to back their fancy. As the horses reach the winning post, metal flags painted in colors to match the respective horses pop up, and there is no possible room for any dispute as to the order in which the horses arrive at the post. To line up the horses for the next race, simply pass the string in front of the horses and draw back to the barrier, the flags automatically dropping down at the same time. The apparatus is very strongly made, and it is so simple that it cannot readily get out of order. Each game comes packed in a handsome box with full instructions for using, also for playing various forms of "Gee-Wiz." Made entirely of metal with brilliant green base, six brilliant colors on horses—discs and flags to match. Size  $15\frac{1}{2} \times 5\frac{1}{4} \times 2\frac{1}{2}$  inches. # The Devil In The Tube

JUST PRESS THE TOP AND THE DEVIL *A Clever Novelty*  
DIVES TO THE BOTTOM.

LET GO AND IT COMES UP AGAIN.

## Most Interesting and Amusing

The Devil In the Tube is a most interesting and amusing novelty. There is a glass tube nearly six inches long, a little glass devil and a rubber cap which fits tightly over the top of the glass tube, effectively sealing it. The tube is filled with water, the glass devil placed inside, and the rubber cap placed over top of tube. All you have to do to make the devil dive is to press the rubber cap with the finger, as shown in the illustration, and the devil immediately sinks to the bottom. As soon as you release the pressure the devil comes to the surface again. Or you can cause him to suspend half way, or even dance up and down in the water inside the tube. The effect is considerably heightened if a colored liquid is used. It is a scientific little curiosity that is well worth having.

laughing. Just how it is done is somewhat of a mystery that even the cleverest of your friends may not be able to solve. The pictures themselves are actual photographs, nicely mounted. We have about twenty different kinds, and a further series are in the course of preparation.

# Surprise Box With Mouse

It Startles Everybody.

There is no trouble with this trick. Merely place it anywhere and the first person who sees it must of course want to open it and see what is inside. Upon releasing the catch, a life like mouse flies out. The box is well and strongly made, and large enough to accommodate a few small pieces of jewelry if you care to use it for the purpose. We can also supply a slight variation of this trick in the form of a small imitation cigar box.

# SERPENTINE CONFETTI

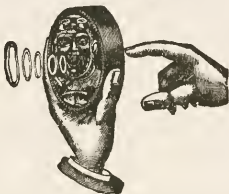

For Carnivals, also for Goodbye  
Courtesies at Ship or Train

Serpentine Confetti is made of paper ribbon and comes in the form of flat rolls, the end being held in one hand and the roll thrown out. As the roll unwinds, it produces a very charming serpentine effect. This confetti is in great demand for carnivals, as well as for good-bye courtesies at ships, etc. When bidding "Good-Bye" to departing friends by ship or train, the very unsatisfying effort of waving a handkerchief has been replaced by holding these farewell streamers, that are passed from ship to shore until quite a myriad of graceful festoons of parti-colored hues establish communication from the travelers to their numerous friends, thus keeping them in touch till the very latest moment. The confetti comes 25 assorted colors to the package.

Thus it is an endless source of fun and amusement.

## Mind Reading Mystery

This is the most extraordinary novelty, and far superior to anything of the kind yet brought out. It consists of a set of eight cards, and by manipulating them according to the very simple directions that accompany each pack, they will tell anyone's age, or you can get them to think of a certain number, and the cards will show the numeral they thought of. The effect is most bewildering, and you actually accomplish a feat of scientific mind reading, which at a theatrical performance, would have the audience completely mystified. You can do it BLIND-FOLDED, as the cards are so cleverly arranged that they will show you in plain figures that are never wrong, the right number thought of.

# DRIBBLE GLASS

A Harmless, Though Very Funny Joke.

Great amusement may be had by serving these glasses to several persons in a party—they'll all "slobber" and each will be wondering why they all do the same. Here's a great joke that fits in with the times. It's a regular whiskey bottle, filled with a liquid that closely resembles in appearance the "real stuff." # EXAGGEROSCOPE

## Spectacles With Prisms Making It Impossible to See or Walk Straight

Good companion to the Laughing Camera or "Look and Laugh" Glass. You cannot walk or see straight. Try to place a

ball in a basket or any other article in a certain place and see how far you will be out. A particularly laughable situation is caused if you try to walk around a chair, a table, etc., while wearing the Spectacles. Try walking up or downstairs with the Exaggeroscope and see how strange it is. Have a few of these spectacles on hand at your next party or banquet, and have your guests put them on while eating. We'll wager your guests will vote it the liveliest party they ever attended. The roses come in assorted colors—red, pink, yellow, etc., and look so real that they are easily mistaken for the genuine.

**SQUIRT CAMERA**

The Squirt Camera is nicely made to resemble a miniature photographic apparatus. You carefully pose your subject, and, after politely requesting him to "look pleasant," you smartly press the rubber bulb and take a "snap" at him. The tiny jet of water will make him jump and raise a good laugh. **No. 2069. SQUIRT CAMERA. Price. 15c**

# Trick Squirt Badges

The Badges come in six or seven different designs, and you have merely to place one in the button-hole of your coat and wait for the fun to commence. (N.B. You usually don't have very long to wait.) A long rubber tube connects the badge to the rubber bulb which you conceal, unobserved, in your pocket. Squeeze the bulb at the right moment and the spectator receives a stream of water in his face. It isn't a bad joke if your friend isn't hot tempered.

## ASSORTED SQUIRT BADGES

Six different designs, such as Indian Head, Goat, Monkey, Girl's Head, Horse's Head with Horseshoe and Donkey. Placed in the lapel of your coat these badges will attract instant attention. At the proper moment press the rubber bulb in your pocket and the water squirts out through a tiny hole in the medallion. One squirt usually satisfies the most inquisitive. You do not necessarily have to use water. Cheap perfume with a strong odor is often used. You can squirt the perfume on somebody's coat and they will never know how the evil-smelling stuff got there. Or some colored liquid also has a very startling and surprising effect. It certainly catches them unawares because nearly everybody has the habit of looking closely at a pin or medallion worn on the lapel.

**No. 8164. Fake Diamond Ring..... 25c**

These are large, queer colored spectacles with celluloid eyes in an ordinary pair of glasses. But, running down the side of the nose and concealed under mustache is a tube. You casually smoke a cigarette and then to the amazement of everyone the smoke comes out of the pupils. Watch the doctors run for their cases; the ladies for the fire wagon and every boy in the neighborhood will want to see the eighth wonder of the world. It really catches them by surprise and fools them. It will take them some time to catch on because even when they come up close it takes a while before they can detect just how the smoke is coming out. If you really want to have a lot of fun, get a pair of these glasses. Just take a good look at the illustration and you'll see what we mean. It's the latest and craziest joke novelty and it's selling like hotcakes.

# New Imported Puzzle Money Boxes

By cleverly sliding the panels of

the box in the correct combination

the box is easily opened

Yet in appearance, when

closed, it seems to be a solid block

of inlaid wood with Japanese scenes!

Unless a person is aware of the combination of these boxes it is difficult to open them. They are so constructed that at first glance they appear a solid block of inlaid wood with Oriental pictures. Each box is equipped with a key and a lock and there is one combination to secure the key and another to locate the key-hole.

They are extremely useful for the safe keeping of jewels, letters or valuable articles of any kind, including money. These boxes are imported from the Orient and illustrate the exceptional craftsmanship of those people.

The beautiful appearance and construction makes them attractive no matter in which room they are placed—bedroom, living room or study. Sturdiness was not sacrificed in the effort to gain beauty.

## Mysterious Serpent's Eggs

### Uncoils to an Amazing Length when Lit!

These Serpent's Eggs are by no means new, they have been on the market as long as most of us can remember, yet they are a novelty that is always interesting. The Pharaoh's Serpents are produced from a SMALL EGG, no larger than a pea. Place one of them on a plate, light it with a match, and immediately a LARGE SERPENT, often a yard or more in length, slowly uncoils itself from the burning egg.

Each Serpent assumes a different position. In fact with a little imagination one may appear to be gliding over the ground with "head" erect, as though spying danger. Another will coil itself up, as if preparing for the fatal spring upon its victim, while another will stretch out lazily, apparently enjoying its usual noontime nap. There are a dozen Eggs in each box.

# Gyroscope Top

The Gyroscope is a most instructive instrument, always interesting to the intelligent adult and a toy a child never tires of. PRICE ONLY 15c, POSTPAID

## A POPULAR SCIENTIFIC TOY

Many interesting and amusing experiments can be performed which your scientific friends will find hard to explain. As a scientific instrument it is used to demonstrate the principle of rotation, attraction and equilibrium of bodies when in motion, the center of gravity and centrifugal force. In teaching astronomy the Gyroscope on the pedestal illustrates the rotation of the globe better than any mechanical device in existence.

## DEFIES THE LAW OF GRAVITATION

Large Gyroscopes are used in the navy to steady and steer torpedoes, and scientists are experimenting with them to prevent large ships from rolling, also in aerial navigation.

Prof. Louis Brennan, the inventor of Brennan torpedo and the more wonderful Monorail, conceived the idea from the Gyroscope and is using them to give his car stability. The Royal Scientists of England say the monorail will revolutionize the mode of travel in the 20th century. The British Government is now building a Monorail in India over which trains will soon be running 200 miles an hour on a single rail.

## SPINS IN ANY POSITION

The illustrations show a very few of the ways of spinning the Gyroscope Top. It can be thrown and caught, rotating rapidly all the time. It will travel along a taut string or wire. You can suspend it from a loop of string, still spinning vigorously. It will spin on the point of a pin, and will revolve in a dozen different ways on the pedestal. An effective feat can be performed by spinning the Top at high speed and quickly placing it into the square cardboard packing box. Put on the lid and then set the box on one of its corners. The box will spin around for quite awhile, presenting a very curious appearance.

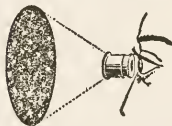

No. 3451. THE GYROSCOPE TOP. Price, including Pedestal and String **15c**

# The Radium Spintharoscope

*A Very Remarkable  
Scientific Novelty*

**Witness The Destruction Of Thousands  
Of Worlds**

The Spintharoscope is one of the most astounding scientific instruments ever developed. For a century it was believed that atoms were indestructible. This little instrument now makes it possible to demonstrate how Radium has changed this accepted scientific thought of the world. Each of the scintillations seen in the Spintharoscope is the result of the disintegration of one atom of Radium. Each atom of Radium which it disintegrates sends forth with the terrific speed of 10,000 miles per second an atom of helium, and this becomes an atom of radon which is an entirely different substance. These swift moving helium atoms, or Alpha rays as they are commonly called, produce a tiny flash of light or scintillation when they strike a crystal of zinc sulphide. By means of this Spintharoscope these individual flashes are made visible to the eye and we can actually see the perpetual movements of the smallest particles of matter known to science. **EACH INSTRUMENT IS GUARANTEED TO CONTAIN A MINUTE QUANTITY OF RADIUM.** Witness the actual destruction of thousands of worlds by simply looking through the lens. **ACTUAL RADIUM IS DISINTEGRATED BEFORE YOUR EYES.** You see the atomic bombardment plainly. You see the Rays of Radium and the discharge and bombardment of the Alpha particles. There is no more enthralling sight in the whole world than what you see in the Spintharoscope. Nothing to wear out. Lasts indefinitely. Adjustable to any sight. Get yours today and watch the spectacle. Complete instructions accompany each instrument. Packed in a neat little case that you can carry with you in your pocket.

No. 2475. THE RADIUM SPINTHARSCOPE. PRICE POSTPAID ..... \$1.00

# SEX INDICATOR

**An Amusing and Entertaining Novelty**

We offer this item as an amusing and entertaining novelty rather than for any scientific value it may or may not possess. By holding it over a woman's hand it is supposed to describe a complete and continuous circle, and in a straight line, backward and forward when held over a man's hand. We have made innumerable tests and while we have never been able to figure out how it's done, we've never seen it fail. Many novel and interesting experiments can be performed with it. Try it for testing the sex of animals. cats, dogs, rabbits, birds, butterflies, worms, fish, etc. In Europe it is sold as a patent egg tester. A Post Office inspector took one once to see if he could determine the sex of the person who wrote a letter in a case he was interested in solving. With what success we never did learn though he did tell us he had no end of fun with it.

No. 3612. SEX INDICATOR. PRICE POSTPAID ..... 10c

# JOY BUZZER

(Hand Shaker and Tickler)

FUNNIEST JOKER'S NOVELTY EVER INVENTED!

Use the ring as a key to wind it.

Wear it as a ring—the Buzzer in the palm.

It "shocks" them when they shake hands.

It makes them jump if they are ticklish.

They will hit the ceiling if they sit on it.

Under a sheet it feels like a mouse.

With one of these little contrivances you may have no end of fun. Attached to one end of the Joy Buzzer is a brass ring that slips over the second finger, allowing the Buzzer itself to be concealed unobserved in the palm of the hand. Inside the Buzzer is a clock-work mechanism that is wound up. Projecting from the center of the Buzzer is a brass point, and a little pressure upon this point releases the mechanism. Shake hands with someone and see the shock the person receives when he unconsciously releases the mechanism of the Buzzer. If he is ticklish, watch him jump. Place it on a chair and watch the commotion when someone sits upon it. Place it under a pillow—under a sheet it feels like a mouse. You can use it as an ordinary "tic-tac" on a door or window—use it to awaken a sleeper by holding it on the sole of the foot or just behind the ear—try it on the window of an automobile just as the gears are shifted; they will think the engine is "busted." Dozens of other uses will suggest themselves to you. It is well and strongly made, entirely of metal, and it is certain you will get more than your money's worth of fun out of this little contraption.

## BARREL SNAKES

Another snake novelty. A wooden barrel, two inches in height contains a large pellet, which, when lit with a match, develops into the strangest and most marvelous snake you ever saw. If lit simultaneously, a regular nest of snakes is produced. Extremely popular around 4th of July and New Year's. Can also be used as an effective magic trick, for the snake apparently comes from nowhere, and

few people would believe that it actually could come from such a small barrel.

# Bingo Shooting Device

*Startling Practical Joke*

PLACE IT ANYWHERE

Goes Off with a Loud Bang!

No danger, but it frightens the girls

The Bingo is a shooting device which explodes a percussion cap with a loud bang when disturbed. When loaded and set, the Bingo lays flat and takes up but very little room; it is easily concealed in or under any article, and the cap goes off with a loud bang when the article is opened or removed.

As a Joker, the Bingo is the means of creating more amusement than any other article ever invented. Just imagine the victim's surprise when it goes off in a purse, cigarette case, book, magazine or newspaper that they innocently open; or imagine the effect caused by the moving of a pillow, bottle, tray or other article under which it has been placed.

As a burglar alarm, the Bingo is an absolute protection; it is placed in a window, door, or under anything moved upon entering. As a theft protector it is infallible; it is placed in a closet, money-trill or receptacle from which a theft is liable to be committed. It sounds an alarm and scares the intruder away.

The Bingo is made entirely of metal; it is small in size, somewhat larger than the illustration, is light in weight, and strong of construction.

# THE WEATHER COTTAGE

ACCURATELY FORETELLS CHANGES OF WEATHER

*Scientifically Constructed.*

*Lasts a Lifetime.*

There is nothing new, except the low price about these **PRETTY LITTLE WEATHER HOUSES**. When our grandfathers were children, Weather Houses were in use, and some of our fathers and mothers recollect how anxiously the movements of the little man and woman were watched for their **WARNING OF AN APPROACHING STORM**. Long experience has proved that **MUCH RELIANCE** can be placed upon the simple yet scientific apparatus that controls the movements of the little figures. When rain is imminent and the atmosphere becomes moist, the man comes forth to brave the elements, but when fine weather may be expected, the lady makes her appearance and the man retires into the house. They are rather an unsociable couple, for it is only when weather is unsettled that both appear in the doorways. These Houses are well built in quaintly decorated designs and have a reliable Thermometer.

# Japanese Incense Burners

Serve as Unusual  
Ornaments as well as  
Incense Burners  
Very Quaint and Novel  
Japanese Novelties

Of all the quaint and artistic novelties that have emanated from the Flowery Kingdom, there is nothing more delightfully interesting than these pretty

JAPANESE INCENSE BURNERS. They are made of beautifully decorated earthenware, in natural colors, and their inexpressibly quaint appearance is necessarily inadequately depicted by these illustrations, but it gives you a very fair idea what they look like. The incense is placed in the center of the tray, then lit with a match, and the figure then placed over it. The incense burns very slowly for quite a long time, the smoke therefrom finding its way through the Jap's mouth, just as if he were really smoking his pipe. The incense which in itself is a great curiosity, gives forth the most delightful fragrance, and fills the room with its scented aroma. It tends to banish mosquitoes and flies, and also counteracts disagreeable odors. They measure about six inches in height.

## MYSTIC RING PERFUME DISSEMINATOR

CALIFORNIA NUGGET PERFUME is the name of this new mysterious discovery. It is not a liquid or a powder, but a solid perfume made in the shape of little pellets or nuggets. When used in the Mystic Ring, the Nuggets give off their lovely imprisoned flowery fragrance, just like flowers exude their odor, perfuming everything around them. These Nuggets are not like incense. They do not burn, smoke or leave mussy ashes. The imprisoned perfume merely evaporates, permeating the air with exhilarating, inspiring fragrance, subduing the odors of cooking, tobacco smoke, "home brewing" and discouraging moths, flies, and mosquitoes. Think of being able to perfume your entire home in a few minutes so it will smell like a lovely flower garden.

THE MYSTIC RING is used for releasing the captured perfume contained in the Nuggets. It fits any ordinary electric light bulb, making any lamp a perfume disseminator. Very simple to use. Just fill the ring with the Nuggets and turn on the light. In a few minutes the entire room will smell like a flower garden. A bottle containing a generous supply of the Nuggets included.

# GENUINE MAGNETIC LODESTONE

## A Scientific Curiosity

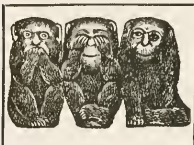

**A Natural Magnet of Great Strength  
Perform Dozens of Amusing  
Experiments**

**T**HERE is found in many parts of the earth a kind of ore that possesses the properties of a magnet; that is, it attracts iron, and when suspended so as to swing freely about a vertical axis, it points in a north-south direction. This ore is called **MAGNETITE** and it is frequently referred to as **NATURAL MAGNET**, or perhaps better still as **LODESTONE**. It is believed that the term lodestone came about from the fact that elongated pieces of magnetite were used in early days by navigators as a substitute for a mariner's compass. It is well known that the properties of the magnet were known and applied by the Chinese many centuries ago, in fact the magnetic compass was invented in China and introduced into Europe from that country as early as the year 1300 A. D. Below at the right is shown what is known as Galileo's lodestone, one of the most interesting historical magnetic relics in the world, especially to electricians. This historical lodestone is on exhibition in the Tribuna de Galileo at Florence, Italy. An iron weight made in the form of a sepulcher, is suspended from the bottom of the lodestone. Although this weight has been suspended in this position for over three hundred years, the lodestone holds it today as firmly as ever. We have been fortunate in securing a quantity of unusually fine lodestone having a very high degree of magnetism, and we are sure that every student, every boy interested in science or physics, will want to secure a high grade specimen of an exceptionally interesting mineral. The electric door bell, the telephone, the telegraph, and the electric generator and motor are only a few of the modern appliances in which magnets are used one form or another. As an interesting novelty alone it is well worth having; there is practically no limit to the number of interesting experiments which can be performed with the aid of a natural magnet of such strength. Many people carry a lodestone about with them as an omen of good luck in the belief that it will ward off sickness and evil influences and will bring them good luck in love, business and money affairs. However, while we offer it for its scientific value if through the possession of the lodestone you find it brings you good luck, wealth, love, friendship and happiness, so much the better.

# Chi-Chi Chinese Daily FORTUNE TELLER

## World's Oldest Method of Fortune Telling

While touring China, the author of the book that accompanies **CHI CHI** had his fortune told in a Chinese Joss House. The method used was by shaking a box full of bamboo sticks numbered from 1 to 78 in such a manner that just one number would mysteriously jump out of the box. This number is your fortune and an interpreter reads it to you from his book, which reveals what your fortune is to be. As your fortune is revealed each day, it forms a convenient and specific guide for every day's activities.

## Why Does One Stick Jump Out?

Why this one stick will jump out from all the rest and determine your fate we do not attempt to explain. We only know this method of fortune telling has been used by that mysterious and ancient race, the Chinese, for centuries. Being such a novelty and the philosophy so true and quaint, the book has been translated from Chinese into English. Having imported a supply of their native bamboo sticks, we have great pleasure in offering it to the American public.

## The Lucky Numbers are Indicated on the Sticks

Many a native son of China never thinks of entering business for the day without having his fortune told with these mysterious sticks. He gets first his luck for the day, and, believing in it acts on the advice implicitly. If the number is shaken out after sundown, the fortune refers to the following day. He then gets his future and important events that will occur, as well as lucky gambling numbers.

You may not believe in fortune telling, yet you may have a good deal of amusement with **CHI CHI**, for, however skeptical the ladies may profess to be, you will notice that they will be grievously dissatisfied when the fates seem unpropitious, and misfortune and disaster are foretold. **CHI CHI** comes packed complete in box with Bamboo Sticks and copyrighted book.

# Now Science Investigates Intuition! Extra Sensory Perception Cards Is Mental Telepathy Possible? Yes!

Up until the last few years many people have thought that mental telepathy was possible but they had no tangible proof whatsoever. Now science comes to their aid and indicates a method for testing people for their extra sensory perception ability or their mental telepathy ability. The Zenith Foundation has been spending a large amount of money in experimentation to discover just what there is to mental telepathy and intuition. So far the results have astounded science. The far reaching possibilities are only beginning to become known. Each day brings new miracles to light. Conclusions so far have shown that, first, **Second, it has shown that this ability may be developed to some extent and is very much influenced by circumstances. Third, it has shown that a certain percentage of people have an exceedingly high sense of intuition. Think what this means to you. ## THE HINDOO LUCK BOARD

From the earliest manifestations of so-called spiritualist phenomena the Ouija (pronounced "WE-JA") Talking Board has occupied a prominent position. Select coteries assemble for experimental purposes, such as table-rapping, spirit writing, materialisation and so on, but most of these demonstrations require semi-darkness which naturally suggests chicanery. The Ouija Board, on the contrary, works in the brightest light and upon a clear table, so that, whatever the results, trickery need not be suspected. When the operators are en rapport, the Ouija Board gives replies to questions as to past, present and future events, offers good advice, warns of impending danger and imparts philosophical precepts after the manner of the oracles of old. The most astounding phenomena are occasionally obtained, such as a message in a foreign language that no one present can decipher, but that, when translated, proves to be an opposite answer to the question submitted. It is a weird experience to observe the Ouija Talking Board forming words and sentences, now hesitatingly, as if dubious of the wisdom of imparting the knowledge, and at another time impetuously, as if in haste to communicate the information. Sometimes the apparatus cannot be got to move, or it will work when touched by one operator but not by another. When two persons are in sympathetic affinity the writings are clear and fluent but when the consultants are antagonistic or discordant, the manifestations are slow and often obscure. The Board measures  $12\frac{1}{2} \times 18\frac{1}{2}$  inches.

# THE SIXTH AND SEVENTH BOOKS OF MOSES

*or Moses' Magical Spirit-Art.*

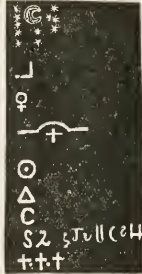

Known as the Wonderful Arts of the Old Wise Hebrews, taken from the Mosaic Books of the Cabala and the Talmud, for the good of Mankind

**With Numerous Engravings**

Now translated into the English language and sold at a popular price. With exact copies of over One Hundred and Twenty-five Seals, Signs, Emblems, etc., used by Moses, Aaron, Israelites, Egyptians, etc., in their astonishing magical and other arts, including the period of time covered by the Old and New Testaments. This wonderful translation is of great importance to the Christian, Deist, Jews or Gentiles, Episcopalian or Roman Catholic, and dissenters of every denomination. The extracts from the old and rare Mosaic Books of the Talmud and Cabala are invaluable. This book gives the use of the Psalms for the bodily welfare of man by the eminent translator, Godfrey Selig. Moses, the great law giver of Israel, wrote the first five books of Holy Writ.

These are generally known as the Five Books of Moses. It is believed and known to comparatively few, that there were two more books written by him, known as the Sixth and Seventh Books of Moses. To these we wish to draw your attention. Writing, manuscripts, etc., of precious worth have

existed for ages past that could be traced to the time of Moses, but few of these have been published, except in small fragments. This is accounted for by the fact that the high priests, clergy and heads of various religious bodies were unwilling that the people should be given those deeper mysteries, being fearful of losing their hold on them. Another reason is that

it was feared the information would be used for unlawful purposes. It is scarcely possible that Moses confined his literature to the first five books of the Bible, if we take into consideration the lengthened period of his life and changes of his association. We find in Acts 7:22 that Moses was learned in wisdom of the Egyptians until his fortieth year! He acquired during his residence at the Court of Pharaoh many Egyptian arts in his constant intercourse with learned men. He became adept in these magical arts practiced by them. We find in Exodus 7:11 Moses cast his rod before the King, which became a serpent. Pharaoh sent for his magicians, who also cast down their rods, which, by their enchantments, also became serpents. Few persons have not some belief in these strange and oftentimes unexplained influences that seem to surround us through life for good or evil and it is honestly thought that the study of this work, the Sixth and Seventh Books of Moses, will be a source of happiness and prosperity to millions. The fanatic may say that this publication will foster superstition, but the enlightened and unprejudiced will perceive that the translation into the English language will certainly be more serviceable than all previous productions, which were only circulated in abstract form, and sold at extortionate prices. These engravings are said to be exact copies of those by the Israelites and Egyptians to accomplish the designs for good or evil, and are separately explained. This book has become enormously popular. Volumes 6 and 7 bound together in one book.

# THE LOST BOOKS OF THE BIBLE

*Lost - Hidden - Suppressed*

Centuries of silence are broken. Out of the cradles of mankind—Mesopotamia, Syria, Egypt—have come the ancient writings, so long hidden away, to be offered you at last in this remarkable book.

46 Manuscripts

## *The First Love and Romance, First Temptation and Sin*

Many of the most extraordinary and enlightening epistles and gospels were rejected when the Bible was compiled—were hidden away so that access to them was confined to theologians and high authorities. WHY? That these rejected scriptures were too sensational, too miraculous, too intimate and personal is not enough to condemn them. Jealousy, fear, dissension, politics, arbitrary edicts have played their part in depriving the layman of much of the first-hand records of the founding of Christianity and the detailed story of Adam and Eve. But you may have them now in this wonderful new work—**THE LOST BOOKS OF THE BIBLE.**

## *Now Told, the Original Uncensored Story of Adam and Eve!*

The oldest romance in the world, revealing in vivid detail the personal experiences of the first man and woman from the bliss of Eden, through their fall, their expulsion from the garden, their strange temptations and remarkable lives—the whole story of man to the greatest catastrophe in human history—the flood.

Translated from the original Tongues. Profusely illustrated throughout from ancient paintings and murals. Modern illustrations by Paul Laune. Over 600 pages, large clear type, bound in handsome black morocco-grained fabricoid with rounded corners, red edges and gold stamped.

**C**RYSTAL Gazing, or "scrying" as it is often called, is not a new invention nor is it a fad for foretelling the future or development of the mental powers for it dates back almost to the scriptural account of the creation of man. It is generally assumed that crystal gazing had its origin in Egypt. A large number of beautiful crystals were found in the ruins of the old temple of Hathor in Upper Dendara, Egypt, and historians and scientists tell us that this temple was in existence six thousand years before the Christian era. We can trace this and other methods of obtaining hallucinatory pictures back to the Middle Ages. It is interesting to note the universal use of the crystal all through the past centuries and to note its great popularity today. Crystal gazing achieved great popularity in the British Isles during the Fourteenth Century, and has maintained that popularity to this very day. In Japan it is claimed that every home has its crystal which is consulted on all subjects of importance. Among the Fijians, the crystal is employed by the priests to recover stolen goods, believing that the image of the thief will be reflected in the crystal. The practice of crystal gazing has been prominent in Mexico, Peru and other South American countries for many centuries, and in India and Arabia it has attained a very high state of efficiency. Authentic stories of remarkable divination feats are told by travelers. The Mohammedans of India employ the "magic mirror," very similar to the crystal, for only difference being the shape. The art is practiced extensively by the Yogis and Sunnecasses, being part of their religion. History records the existence of the crystal among the Berbers at the time of the Greek empire. Other records state that Aristotle made a crystal, which was used by Alexander the Great. Colossus of Rhodes, history records, carried a crystal continually. Heracles placed a crystal on a tower by which he could see ships in the distant seas.

## Gazing Crystals used by many Prominent People

Crystals are in constant use in thousands of households, being used for the development of the mental powers, as an aiding factor to concentration, and as a form of divination. Prominent men and women of all walks of life consult their crystal daily seeking solution to perplexing problems. Science has recognized the efficiency of the crystal as an aid to concentration and thousands are attaining success through their ability to concentrate. Concentration means success—success means concentration. Use a crystal and concentrate. Do you wish to find a lost or missing article? Do you wish to know the future? Do you wish health, happiness and success? Do you wish a more fruitful memory? Do you wish to instill greater self-confidence? The student who earnestly desires to develop the mental powers and learn the secrets of crystal gazing, should obtain a crystal and retire to a quiet, semi-dark room. Placing the crystal on a table, gaze calmly at the crystal and cause the mind to enter a passive state. This quiet solitude is a wonderful cure for nervousness and restlessness; it inspires greater self-control and a masterful control of the mental facilities and the physical body. Ask your imagination something and your imagination will answer. Nothing can be imagined without a reply. There is no positive without a negative; speculate on what tomorrow or a year will bring forth, what the result of a conquest or business will be, and automatically the mind answers. Develop your powers of visualization and imagination with the aid of a Gazing Crystal. Who knows what the small sum may bring back in a few days after getting your crystal!

Visions produced by gazing into the crystal may relate to the past, to the future, to forgotten events recalled from the memory, to those produced by imagination, etc. Visions produced by the imagination are common and are very beneficial provided the student harbors constructive and ambitious thoughts only. Visions produced by forgotten events are the establishment of a connection between the sub-conscious and conscious mind, created through concentration of the mind upon the crystal. This form of vision is a great memory builder and strengthens your mental facilities. Visions of past and present events are explained by many as thought transmission or mental telepathy. Visions of this type frequently contain messages of importance and should be remembered by the student if the full meaning is not apparent at the time. Messages of this kind are often warnings, and by giving them the

proper consideration, difficulty and trouble may be avoided. Visions foretelling future events are perhaps the most numerous and diversified and often so mysterious and unaccountable that the average gazer might not recognize it until the event has transpired, when of course he instantly recalls the vision.

All Crystals sold by us are manufactured in Czecho-Slovakia where the world's finest crystals are made. They are perfect in shape, absolutely clear, there being no disturbing shadows present. Although more expensive than the domestic crystals, they are greatly to be preferred as they are free from "air bubbles" and other imperfections that might mar an otherwise perfect vision. A crystal of not less than two inches in diameter should be used. Larger crystals are suggested and are usually productive of better results; having a larger area they tend to present a larger picture within their depths. Six inches is the ideal size, mounted on a crystal glass stand, as illustrated. Surely it is not wise to economize in a matter of this kind, where it may mean so much. Instructions for the use of the Crystal are sent with each crystal, but it will pay you to purchase one or more of the books on the art of Crystal Gazing that we offer and study the subject from the viewpoint of different authors. The value of a crystal is amply repaid if only in the manner in which it rests the body and strengthens the mind and memory. It is a fact that many people possess a clairvoyant power in a greater or lesser degree and which only needs the agency of such a concentrating influence as the crystal to blossom out and become perfected in them. To those already clairvoyant it is possible to achieve wonderful results, and only an intelligent use of the crystal and its power can teach its real value and influence. Get a crystal, use it constantly and see what it will accomplish for you. It exerts a fascination of indescribable nature. It commands attention because of its beauty and ever changing colors and hues. Crystals are used extensively for window displays by optical stores and others. Their power of attraction is high, for thousands of people stop to note their beauty. They catch and compel attention and children especially seem fascinated with their beauty. In a home it is an object of refinement and beauty.

The Apache Indians of the West use a Crystal, wherein they look for pictures of the things that are to come to pass. In Yucatan the main instrument of the diviner is called the "Clear Stone"—a quartz crystal. A Persian author relates that a high priest used a Crystal in which he could see the whole universe. ## PRACTICAL HYPNOTISM

MESMERIC THEORIES AND BIOLOGICAL EXPERIMENTS

Compiled by **Comte de Saint Germain, A. B., LL. M.**

WITH THIRTY INTERESTING ILLUSTRATIONS

By means of this remarkable Book anyone may become a skilled hypnotist, and either for practical purposes or for amusement, may learn to exercise this strange and wonderful influence on others. To persons in all ranks of life the power to impress others favorably is of inestimable value. It is possessed and exercised, consciously or unconsciously, by every successful politician and business man, actor, preacher, orator and teacher. Without its influence the most accomplished public speaker fails to stir his audience to enthusiasm; they listen, and may approve, but they remain unmoved and indifferent. By the aid of the mysterious hypnotic influence, on the other hand, every phrase becomes effective, every argument strikes home, every appeal is responded to, until the entire assemblage is swayed and controlled at the will of the speaker. Similarly

in business matters, one man can carry through a transaction much more advantageously than another, simply because the one becomes en rapport with the person with whom he deals, while the other cannot. The first chapter of the book explains that everybody may hypnotize, the second chapter describes the method of hypnotism, and so on throughout 264 pages, comprising the very latest and most up-to-date exposition of the theory and practice of this most wonderful and mysterious power that one person may exercise over others. The volume also contains a detailed description of the manner of curing diseases by the employment of the hypnotic influence.

# How to Read People's Minds

## Or the Mystery of Mind Reading Revealed

### What Are the Secrets Behind a Face?

**Ancient  
Secrets  
And New  
Discoveries**

While the exploits of mind readers have been particularly mystifying to most people, a knowledge of their most difficult feats is so easily acquired as to almost challenge belief.

Even the feats of the great masters of Mind Reading, Brown, Bishop, Johnstone and others, can be performed, since the simplest rules of procedure apply to even the most difficult cases, and are readily within the comprehension of the beginner.

With this readily acquired knowledge, there is almost no limit to the practical uses and profitable ways it can be used. Indeed, the number of people who would gladly avail themselves of an opportunity to become expert mind readers, without months of hard study and years of experience, is legion.

This book tells what has been done by leading mind readers for years past. It recalls the sensational exploits of such men as Brown, Bishop, Johnstone and others, detailing with minute exactness their performances, not only in the public halls, but in city streets, with scientific men composing the committee, all of whom were astounded with the results achieved.

To say that this book will explain these seemingly impossible feats of mind reading so clearly as to enable any person of average intelligence to duplicate the performances seems like a tax upon the credulity of the readers of this prospectus, and yet it is the case with almost every reader of the book.

### Success or Failure?

If you apply the knowledge that you learn from this book your efforts cannot help but be successful, and the results most astonishing to you, even though you expect the most surprising results. In fact, so clearly are the details set forth that the merest novice can at once grasp and retain them and by putting them in practice mystify and thrill an audience of personal friends, or entertain a public assembly. Once you have mastered the secret you will find it to be a lot of fun to try mind reading your friends and watch how shocked they will be when you successfully accomplish the feat.

Some of the most famous exponents of mind reading have allowed themselves to be subjected to scientific tests and examinations, yet the brilliant scientists never failed to be

completely mystified and baffled. Washington Irving Bishop took two gentlemen whose minds dwelt carefully on the number of a certain bank note in charge of a vigilant and scientific committee and with one gentleman's hand upon his brow and the other gripping him by the left hand, proceeded to write the number of the said bank note upon a blackboard going carefully over each figure again and again, erasing here and adding there, finally getting the number correctly written, to the surprise of the assisting gentlemen and the scientific committee. Another stunt was the sensational reading of the combination of the safe of one of Chicago's leading hotels, although the correct combination was known only to two persons. Naturally this created a terrific sensation.

## Learn To Amaze and Mystify Your Friends

*The Method No Longer a Secret To You*

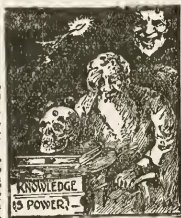

One seldom hears of mind readers among the gentler sex, yet there is where the "Art" or "Science" would find its greatest development, since women are possessed of a delicacy of touch unknown to the sterner sex, enabling them to perform various feats mentioned in our book with even greater dexterity than men.

Miss Maude Lancaster was one of the few American women who essayed the role of public entertainer in this world, and in "HOW TO READ PEOPLE'S MINDS, OR THE MYSTERY OF MIND READING REVEALED," a succinct account is given of her performances, and reasons ascribed for the adaptability of her work to such services as she was frequently called upon to render in extremely difficult detective cases.

Her success should serve to stimulate a desire among other women to emulate her example, if not her "feats" and a careful perusal of this book is well calculated to beget such desire, since the simplicity of every "test" is obvious, and the most difficult are explained in detail so that any woman of average intelligence may readily acquire the ability to perform the feats described, as well as many others which will suggest themselves to the exhibitor from time to time.

We have dwelt at length on the various "feats" performed by humans, but the book we are describing to you would be incomplete were we to omit reference to the apparently marvelous and inexplicable transmission of thought from the brain of man to the "sense" of dumb animals.

The much mooted question as to whether members of the brute creation possess reasoning powers is very apt to be revived, when the seemingly impossible feats of dogs and other animals, written of in "HOW TO READ PEOPLE'S MINDS, OR THE MYSTERY OF MIND READING REVEALED," are brought to the attention of profound thinkers, but a careful study of the methods employed in achieving these wonderful results will interest all lovers of animals, and do much to disperse the superstitious impressions created purposefully by many modern trainers.

## What Magnetism Will Do For You

Magnetism is personal power. It is the origin of life. It will revolutionize you. It will make a new being of you. It is the most powerful force in nature. It is the highest force known in human life. It will restore your vitality and add a new force that you do not now even dream exists within you. The exhilaration is indescribable. Your mind can be made clearer, brighter, stronger. Your body can be given a new inheritance. You can easily learn to develop the NEW POWER. There are no medicines, no apparatus, and no expenses of any kind, except the cost of this large book of nearly 400 pages. From the first chapter to the last it is full of surprises, of pleasures, of fascinating attractions that give the highest satisfaction all along the way. As Magnetism in men and women—in body and brain—is a natural power, so its acquisition will come about by a natural process. There are no unnatural exercises, no tax on your time and patience. The wonderful results are obtained—by showing that you possess great stores of magnetism or vital force—but that you have not been using it. By showing you what this secret power consists of. By making its presence felt through unmistakable evidences. By quickly increasing its energy until you will declare that you are full of MAGNETIC POWER. This power can be developed by any person. It is worth all that life is worth. Millions of dollars cannot buy its benefits in any other way. The plan by which MAGNETISM is taught is as wonderful as the instruction itself. It begins by arousing an intense interest in the work. Then comes the study and the knowledge, followed by the recognition of the presence of magnetism in every part of the body. Now the real development and generating of the new power begins in earnest, and proceeds by a logical sequence of strength, each lesson being built on all that precedes and each stronger than the one before it. As the final results are secured, the student is filled with amazement and feels like saying: "It surpasses anything I ever saw." The book deals only with FACTS. It contains an enormous array of FACTS not found in any other printed work, past or present, at ANY PRICE. These FACTS have convinced great men; they will convince you. They are working marvelous changes in men and women everywhere. Bear in mind Magnetism has nothing to do with mesmerism, spiritualism, occult phenomena or any religious cult.

The published price of this book is Ten Dollars. It was formerly sold in the form of a Private Course in Personal Magnetism, and thousands of these Courses have been sold at \$25 to \$50. We have now secured the entire edition and offer it as a special bargain to our customers for \$2.50, which is one fourth the published price. who control the world's markets and amass millions in wealth are known as business geniuses. Aspirants to social honors, to political preferment, to artistic recognition, achieve success only to the extent that they can consciously or unconsciously bring their powers of Magnetic Control into active play.

## Power Supreme

The understanding and use of the secrets of personal magnetism make weak men strong, sick men well; timid, diffident men bold and confident. Cultivation of personal magnetism has turned failure into success, poverty into wealth, dreamers into doers, discouragement into unbounded happiness. It has made leaders of those who were simply followers. It has brought influence and power to those who formerly lived ordinary, humdrum lives.

Do you know how to attract people to you? How to win and hold the man or woman of your choice? Do you know how to make yourself popular, sought after, looked up to? Are you able with a look, a gesture, a spoken word, to command attention? Do you radiate supreme health, strength, vitality? Do people believe in you, rely upon you, look to you for leadership? Is every nerve and cell in your body alive, vibrant with electric energy? Is your mind keen and active, your spirit calm and poised, your body glowing with superabundance of health? Do you wish to be successful in whatever you undertake? Do you wish to be lucky? Do you wish to be popular with men; popular with women? Magnetism is not hypnotism. The latter deadens the faculties; the former gives them life and energy. Hypnotism puts into a cataleptic sleep; magnetism inspires, thrills, enthralls, awakens and enlivens. If you possess personal magnetism, you can wield some power over every man, woman and child. Napoleon, Jackson, Webster, Clay, Gladstone, Beaconsfield, Billy Sunday, Lloyd George, Roosevelt and thousands of others possessed personal magnetism. If you possess it you will be safe against the influence of all others. There never has been a successful man or woman who has not depended upon Personal Magnetism as the means and method of winning success. Call it by any other name you will, its cause and scope is within our definition of "personal magnetism." Magnetism is man's greatest success weapon. Thousands of men have just drifted. Ordinary, commonplace—satisfied to be just average. And then—they have come upon Personal Magnetism; something within them awakens, is released. They become conscious of power they never dreamed they possessed. They use that new power, leading people to think as they think, winning confidence and friendship of all with whom they come in contact, overcoming all fear, timidity, finding themselves tremendously popular in business and society.

## Magnetism Is Woman's Most Subtle Charm

The woman who studies magnetism is no longer a slave to moods and tempers. No longer a "woman of no importance"—dull, ordinary, colorless. She possesses the great power that, for want of a better name, we call personal magnetism. One thing is certain—the unmagnetic woman is left in the lurch—a wall-flower, even though she be pretty. Girls, plain or pretty with the irresistible charm of magnetism continue to "make the best matches." They hold, through this natural personal force, the love of husband, and the friendship of every one they meet. No party is a success without them; no dinner is gay without their presence.

# This Book Teaches YOU to Dance

—at home without music  
or a partner

**Y**ES—this book will teach you in a few hours—at home—in private—how to learn all the modern dances—the very latest Fox Trot Steps, the Tango, the Collegiate Dances, the Waltz, the One-Step, the Two-Step, and the newest society dance steps.

This book will train you to be an easy, confident dancer by a system so clear, so simple, so complete that you will soon start dancing gracefully—even though you've never danced before.

## Dancing Made Simple as ABC

At last dancing has been simplified to a few, easy-to-understand steps. Lillian Ray, New York's leading society dancing instructor, has just prepared a new course, "Modern Ballroom Dancing," that makes dancing simple as A-B-C. Every dance

is explained step by step with charts and diagrams. You can't possibly go wrong. The directions are so easy to follow, and the pictures are so clear, that you'll be dancing before you know it.

### Think Of the Good Times You're Missing

It isn't necessary that you understand music or even have a piano, phonograph or radio. This remarkable system teaches you a very simple system of timing yourself. It tells how to know by the music what kind of a dance is next, how to start on the right beat, how to follow the music, how to be graceful and feel at ease, how to get rhythm, how to lead or follow, how to stand correctly, how to gain confidence, how to become popular. In fact, in a short time this remarkable course should make you one of the best dancers in your set.

If you want to become a perfect dancer—if you want to be popular—learn to dance at home this new, easy way.

### This Book Explains

- correct dancing position
- first principles of dancing
- secret of leading
- how to follow partner
- how to gain self-confidence
- how to keep time to music
- how to recognize dance rhythms
- how to avoid stiffness
- how to be graceful
- how to ask for a dance
- how to introduce your partner to friends
- how to word and acknowledge invitations

Every time you turn down an invitation to a dance, you are missing hours of fun, enjoyment and pleasure. Dancing is the best of the social accomplishments. If you are a good dancer, you will be the most popular person in your set and get invitations to all the parties. Why not learn to dance and share the splendid times others are enjoying?

### Private Lessons Cost as High as \$25 an Hr.

If you should take private lessons from an authorized dancing teacher, he would charge you a certain fee for each hour's instruction. Many teachers charge as high as \$25 an hour. If you found it difficult to master the steps, it would take you just that much longer. And all the time you would be paying for each hour's instruction. It

might cost you \$25 or \$50 before you could actually dance. When you study this course, you get complete instructions on all the latest steps as taught by the highest priced instructors, at a mere fraction of what a private teacher would charge you. Thousands have learned to dance by mail. *Why not you?*

The book contains nearly 300 pages, and 54 illustrations, many of them full-page size, make everything perfectly plain and simple. *Handsome cloth binding.*

# Learn Tap Dancing

New Book "Tap Dancing for Beginners" Shows How

**FOUR COMPLETE COURSES ALL IN ONE**

**315 Illustrations**

*Learn to Beat Out a Tune With Your Feet*

Why envy the easy rhythm and fascinating grace of Fred Astaire, Ginger Rogers, Step'n Fetchit, Eleanor Powell, Bill Robinson, Eleanor Whitney, and others too numerous to mention? Now you can learn to tap dance in **ONLY SIX HOURS** if you follow the very simple directions contained in this new book of copyrighted instructions compiled by Professor Hawley Wilson of international repute.

No special ability is needed to learn Tap Dancing. Anyone—**YOU**, can learn if you will only devote a few minutes of your time daily and follow the instructions.

Be smart! Learn to beat out a tune with your feet. Everybody is doing it these days. The whole town is tapping. It's fun, and you'll thoroughly enjoy the lessons. You will be a welcome guest at every party and the envy of your friends. Besides, tap dancing is not only an invigorating and entertaining accomplishment but it is also a wholesome and health-giving exercise for making the limbs supple and giving a "springy" feeling of fitness to the whole body. And what is more, it promotes slimmess—it is nature's way of keeping fit and slim without pills, drugs or dieting.

If you want to learn how to tap dance—and who doesn't!—then learn this new easy way, in the privacy of your own home, without a teacher. The cost of the book of instructions is a mere bagatelle, just a fraction of what any teacher would charge for but a single lesson. And what is more, this book contains not just one single course, but **NO LESS THAN FOUR SEPARATE AND DISTINCT COURSES**, so that if by chance you should possibly experience any unexpected difficulty with one method, you have three others to fall back

on. This however, is not likely, and you will doubtless, as so many of our readers have, find the instructions so fascinating, that you will not be satisfied until you have learned every step and movement. And after you have thoroughly mastered all four courses contained in this book you will actually be more proficient than many so-called professional instructors. Nothing has been spared to make the book complete and up-to-date. Simplicity is the keynote throughout.

Every movement is thoroughly explained and illustrated with no less than 315 pictures. All of the lessons may be learned with or without music, in fact one of the courses is arranged specially for those pupils who find it inconvenient to get musical accompaniment while practising and the course is so scientifically arranged that he can easily gain not only the fundamentals of tap dancing, but make real headway if he but applies himself in a serious way to the task. In addition to the four courses on tap dancing, there is a chapter on **CLOG DANCING**. At the end of the book a number of physical exercises specially designed for tap dancers are given which, if assiduously followed cannot fail to immeasurably benefit the student.

Send for a copy of this book "TAP DANCING FOR BEGINNERS" today. No other book on dancing has had such a wide sale or received such favorable comment. Here is what some of our readers say: "I have derived wonderful benefit from the course of lessons contained in your book." Another "Thank you for adding tap dancing to my accomplishments." "It was much easier than I expected. My friends were amazed."

## Mystery of Love-Making Solved

It is said that very few people really understand the art of love-making. Since a good start is better than a bad finish, any person in love will find the secrets contained in this book a most valuable help through love's intricate pathway. If a wife has a wayward husband or one who is neglectful, this book will show her how to reclaim him to his first love. It proves that the way to win is no longer a secret, and that failure to win the object of your choice is almost impossible if you go about it in the

right way; thus the book should be **WORTH ITS WEIGHT IN GOLD** to all contemplating matrimony. The book is crammed full, from cover to cover, with love's strange secrets, many of which will be entirely new to most people. If you are in love and it is not reciprocated, it will open wide love's barred door and show you how to break the barriers down. Marvellous truths burst forth from every page, and the Beacon Light of Love illumines your footsteps and makes Love's pathway light, clear and easy. It shows how to fan the little spark of affection to the pinnacle of human perfection. Friendship may change, but true love is eternal. The book contains nearly one hundred pages of closely printed matter, that, if printed in larger type and more elaborately bound, would make a most pretentious volume that would probably sell for five or six times the price.

# BOOK OF LOVE LETTERS

There is no greater or no more profound reality than love. There is no nobler possession than the love of another. There is no higher gift from one human being to another than love. The gift and the possession are true sanctifiers of life, and should

be worn as precious jewels, without affectation and without bashfulness. For this reason there is nothing to be ashamed of in a love letter, provided it be sincere. A celebrated writer once said that "to write a good love letter, you must begin without knowing what you are going to say, and finish without knowing what you have said." The remark is to some extent correct, as the

true secret of all successful letter-writing lies in the power of conveying the thoughts, feeling and desires of the writer to his or her correspondent. Such a letter would undoubtedly reflect the state of the writer's heart, agitated and disordered by the tumultuous throbs of passion; but, as the zeal of young persons generally, in matters affecting the heart, is very apt to outrun discretion, expression would unconsciously be given to absurd and foolish protestations, or to extravagant and romantic adulation of the object of attachment.

To obviate this tendency, love and courtship letters should be an index of the writer's good sense and judgment as well as the state of the affections, and therefore regard should be had in the composition of them, as well as in all other letters, to propriety of diction, correctness of taste and purity of style, avoiding the bombast and affectation and morbid sentimentalism which too frequently characterizes epistles on these subjects. And though in persons of refinement and education an honorable attachment will suffice to prompt its candid expression, there are many persons not possessed of these advantages, to whom correspondence is always attended with considerable difficulty. To all such the series of letters contained in this book, in which delicacy of feeling and warmth of expression suited to the subject have been carefully blended, will be found an important aid in acquiring facility and accuracy in the art of letter-writing. It will be sent by mail, postpaid, to any address, upon receipt of 10 cents.

TRUE STORIES EXPOSING METHODS USED  
 IN TRAPPING INNOCENT GIRLS

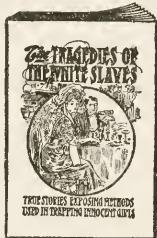

**TAKEN FROM ACTUAL LIFE**

*"For God's Sake, Do Something!"*

**Greatest Crime In The World's History**

The lives of 5,000 young girls are laid upon the altar of lust every year in the city of Chicago alone. The insatiable rapacity of man, the lust of the hunt, the demands of brutish passion ordain it that these 5,000 innocents be led forth to the slaughter annually. There are 68,000 women leading a nameless existence in the city of Chicago alone. It includes the "street walkers," the girls who infest the so-called "Dance Halls," the temples of shame, the women who live in private flats, and the mistresses of wealthy men. The average duration of a woman leading a life of shame is from two to twelve years, according to Dr. L. Blake Baldwin. Dr. Baldwin places the average at four years, basing this upon the life of the woman in the brothel where the majority of fallen women are to be found. The result is that the market houses are yawning, constantly holding forth an insatiable maw into which new blood must be poured, new lives must be thrown, more young innocents must be devoured. And this is the reason for the existence of this book. If one mother or father may be warned in time, if one single life may be saved from the traps men make and the lures they bait for the enslavement of the flower and the innocence of the nation, this book will not have been in vain. It contains true stories of White Slavery taken from actual life, each one dealing with a different method by which white slavers have lured innocent victims to destruction.

Silver Screen  
**10 Pounds** of American Magazines for \$1.00  
 McCall's TORPHO REDBOOK

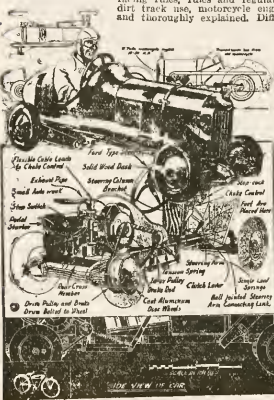

Every month thousands of unsold American magazines are turned back to the publishers when the next issues come out. These are invariably destroyed and sold for what they can bring as waste paper. As an experiment we recently bought up a quantity of them and offered them to our customers at the rate of **ten pounds for One Dollar**. The response was so great that we have decided to make this a permanent feature. Just think, for one dollar you get no less than **TEN POUNDS OF READING MATTER** comprising an assortment of **AMERICA'S LEADING MAGAZINES** and periodicals. Obviously we cannot guarantee any certain publications, and in most cases the publishers will not even give us permission to give the names, but we guarantee you will receive on an average around **THIRTY** well known magazines. In some cases you may get more, in some cases perhaps a few less, depending entirely upon the weight of the magazines. However, as we go by **WEIGHT**, you get about the same amount of reading matter. Suggest your preferences from this list, and we will try to comply, but cannot guarantee to do so in every instance.

# HOW TO BUILD MIDGET RACERS

Complete Handbook of Plans, Diagrams, Illustrations, etc. for Building Three Racers  
**A COMPLETE HANDBOOK ON MIDGET RACING FROM OETAILED MIDGET RACER PLANS AND LAYOUTS TO REGULATIONS AND HINTS ON MIDGET DIRT TRACK RACING**

The first few chapters describe gears, transmissions, power and speed, midget racing rules, rules and regulations for racing, how to convert outboard motors for dirt track use, motorcycle engines, springing, etc., etc. All the parts are described and thoroughly explained. Different types of racers are listed—dirt track midgets, two seater midgets, midget roadsters, midget motor-bikes, etc. Nothing is overlooked; every chapter contains much useful information and interesting facts. Written in simple language with numerous illustrations so that you cannot fail to understand.

Aside from this information, complete diagrams and plans are given for three different types of midget racers.

**MIDGET RACER.** A scale model midget with the motor under the hood. Simplified gears. Can use a light washing machine, motorcycle or outboard engine. With a motorcycle engine will do 50 miles per hour. Complete plans, drawings and layouts.

**MIDGET PUSHMOBILE.** The most useful all-round runabout. No complicated gear shift or transmission. Can be built from junk yard parts for a few dollars. Uses a light, washing machine engine, that will deliver around 90 miles to the gallon and drive the car at 20 to 30 miles per hour. Every part is illustrated in the simple, comprehensive diagrams. Nothing is left to the imagination. Easy to construct and a pleasure to drive. Simple and economical.

**MIDGETMOTORBIKE.** A light runabout which will develop around 20 miles per hour. Not as fast or as sturdy as the others, but a handy little vehicle for delivery and short trips. Complete illustrated plans.

## Add a Motor to Your Bicycle

An extra chapter is added on how to convert your bicycle into a motorbike at very little cost. No more pedaling or worry on long trips. You can easily travel 25 to 30 miles an hour and cover about 200 to 300 miles in a single day. Think of the fun you will have making these long trips, as well as riding around town. Motor drives the back wheel and is mounted just behind the seat.

**VENTRILLOQUISM**

**and How to Acquire This Amusing Art**

This splendid booklet written by the celebrated George W. Callahan, one of the most famous ventrilloquists. Mr. Callahan here clearly shows that ventrilloquism is not a natural gift, but that by training and practice it may be acquired by any one, and it is certainly an accomplishment well

worth cultivating, for nothing will so amuse and mystify a social gathering as the feats of the ventrilloquist. He appears to be a man of a dozen voices. In his natural tone of voice he asks a question, and the answer appears to come from the depths of the chimney in the weak accents of a little child. Again, we hear the voice of an old man appearing to proceed from the roof of the building, the distant barking of a dog, etc., etc. These wonderful imitations are performed without the slightest movement of the lips, greatly to the astonishment of the audience. Would you not like to acquire this amusing and mystifying accomplishment? You can do so easily and readily by studying the directions contained in this book, which will be sent by mail, post-paid to any address in the world on receipt of **only TEN CENTS** in any convenient form.

All the world admires an honest battler. That is why baseball has continued to grow in popularity and draw immense crowds. The players are "on the square" and the fans know it. And that is why Frank A. Gotch attracted the largest wrestling crowds in modern times. Gotch has been "on the level" and endowed with "the goods." He has done more than any other influence to make wrestling popular in America. The good king of Sweden, gazing on James Thorpe at the Olympian games, declared him the world's greatest athlete, but the monarch had never seen Gotch. The like of Gotch for speed, the science of the holds and their counters, for strength and brain-work in action has never been seen in wrestling. Probably no man in all the annals of wrestling has had strength, endurance, speed and skill so mingled in him in the proper proportions as Frank Gotch. This book contains the full instructions of Frank A. Gotch, world's champion wrestler. It explains all the important Holds, etc., such as the Half Nelson and Crotch, Scissors on the Body, Bar and Further Arm Hold, Toe and Ankle Hold, Headlock, Grapevine Hold, Half Nelson, Quarter Nelson, Three-quarter Nelson, Further Nelson, Wrist Lock and Arm and Leg Grapevine Hold, Double Arm Lock, Flying Mare, Chancery, Arm Lock and Cross Buttock, Crotch Lift and Force Down by the Double Leg Hold, Chancery and Bar Arm, Crotch and Arm Lift, Bar and Toe Lock, Strangle Hold, Inside Crotch Shift, Back Hammer and Half Nelson, Chancery and Crotch, Reverse Nelson and Bar Lock, Half Nelson and Toe Lock, Hammerlock and Bar Hammerlock, Toe Hold over the Leg, Gotch's Famous Toe Hold.

**C**APTAIN MORGAN was born in Virginia, and was a Mason by trade. He commenced business as a brewer at York, Upper Canada, but having lost all his property by fire, he removed to New York State and it was here, in Batavia, that great excitement was aroused when it was learned he had prepared for publication a book which would reveal the SECRETS OF FREE MASONRY. The contemplated publication excited the alarm of the fraternity, and numbers of its members were heard to say that it should be SUPPRESSED AT ALL EVENTS. Meetings of delegates from the different Lodges were held to devise means for most effectually preventing the publication. The majority members of the fraternity were much excited, and alarmed, and dark and desperate threats were made. An incendiary attempt was made to fire the office of Col. Miller, the publisher. Under various pretexts, Morgan was arrested and committed to prison, only to be released. At Canadaville he was falsely beguiled from the safe custody of the law, and was forcibly carried, by relays on horses, a distance of one hundred and fifteen miles, and secured as a prisoner in the magazine of Fort Niagara. His fate was never known, but it is supposed he was taken out into the lake, where his throat was cut, and his body sunken fifty fathoms in water. However, the volume was put to press by Col. Miller, notwithstanding ineffectual attempts to imprison and kidnap the publisher. Additions have been made to Capt. Morgan's revelations from time to

time, until we are now able to make public all the Masonic degrees of any note of interest, entered into by modern Freemasons. The book exposes all the Mysteries of Freemasonry and contains 203 pages of closely written matter and is revised and corrected to correspond with the most approved forms and ceremonies in the various Lodges of Freemasons throughout the United States. The book will be sent by mail postpaid to any address on receipt of 50 Cents.

This Work is by Edmond Ronayne, Past Master of the Keystone Lodge No. 639, Chicago, a well known author of Books on Freemasonry, including "The Handbook of Freemasonry," "Chapter Masonry," etc. This work reviews the similarity between Masonry, Romanism and "The Mysteries" and compares the whole with the Bible. It explains the true source and meaning of every ceremony and symbol of the Blue Lodge, showing the basis on which the Ritual is founded. By a careful perusal of this Work, a more thorough knowledge of the principles of the Order can be obtained than by attending the Lodge for years.

How to Make a Simple 1-Tube All-Wave Electric Set, by W. Green. How to Build a Four-in-Two All-Wave Electric Set, by J. T. Bernsley, and others. **All About Aerials**

The demand for a low priced book explaining in a clear, lucid manner the principles underlying the design and installation of efficient aerials has become a crying need. Furthermore, the steadily increasing nuisance of man-made static, resulting in noisy radio reception—particularly in connection with short-wave receivers—has made the importance of a good antenna a paramount issue. In simple, understandable language this book explains the theory underlying the various types of aerials; the inverted "L," the Doublet, the Double Doublet, etc. It explains how noise-free reception can be obtained, how low-impedance transmission lines work; why transformed lead-ins are used. It goes into detail on the construction of aerials suitable for long-wave broadcast receivers, and for all-wave receivers. Profusely illustrated in a manner which will appeal to the most inexperienced in radio; clear, self-explanatory; it is written in a simple style. **15c**

# HOW TO CHALK TALK

THE person who can do a chalk talk stunt is always in demand as an entertainer. Most people think that the lightning artist has a special gift unattainable to the average mortal. The truth is that knowing how counts more for success than natural genius.

We have here a complete presentation of the theory and practice of this fascinating form of entertainment, including a discussion of the principles of chalk talking, materials and equipment required, how to arrange a program, color pictures, facial expressions, various kinds of trick pictures, including evolution and upside-down pictures, landscapes, turning names into faces, dot pictures, famous character, reasonable pictures, closing pictures.

There are fifty-two full-page original illustrations showing just how the crayon pictures are started and completed. A great many of the subjects are humorous. These drawings have been chosen by the author from among the most popular items of his own programs, which he has found by experience to be sure-fire.

Humorous patter, or talk, is also included for delivery while making the various drawings. Guided by this book, any amateur entertainer with an artistic bent should make rapid progress as a chalk talker. Attractively bound in art boards and well printed on good paper, with novel cover design. No. 1666. How to Chalk Talk... **\$1.00**

## CHALK TALKS FOR SUNDAY SCHOOL

UP-AND-COMING Sunday school teachers are beginning to discover the importance of the chalk talk as an adjunct to religious education. The aim of the Sunday school and all other religious organizations is to instill lessons that will aid in building up youthful character. If the lessons are presented in an attractive form, young people will absorb them with far greater interest and remember them longer than the ordinary prosy, humdrum classroom preachments.

In the periods between the Sunday school class hour and the closing time or before the opening of classes, when the pupils' attention slackens, many valuable lessons might be driven home by means of live-wire chalk talk pictures. In this volume we have a rich and varied collection of such material for the chalk talk entertainer, suitable not only for Sunday schools, but for Y. M. C. A. and Y. W. C. A. groups and other young people's religious societies.

Among the popular biblical subjects treated are the stories of the nativity of Christ, Ruth and Naomi, David and Goliath, Joseph and his brethren, and the Pharisees and the Samaritans. Excellent material is drawn from other sources besides the Bible; legends, anecdotes of moral significance, folk lore stories, animal stories and object lessons from everyday life. Incidentally, the amateur chalk talker is shown exactly how to drive home the lessons he is trying to teach by the simplest and most effective methods. No. 1667. Chalk Talk for Sunday Schools... **\$1.00**

# CHALK TALK STUNTS

WHERE to find plenty of good chalk talk pictures is the first (and last) worry of the chalk talk entertainer. Once he has established his popularity in his own community and his lecture engagements begin to multiply, he must be constantly replenishing his stock of platform material.

For chalk talking, as an avocation of considerable financial profit, is constantly growing in popularity and is being utilized by many classes of people. Lecturers and sales managers find it easier to drive home their points by means of pictures than by the written and the printed word.

To meet the needs of all such entertainers and instructors, this volume has been prepared. It contains a great abundance and variety of entertainment material for the chalk-talk artist. After a few practicable suggestions for preparing a chalk talk, comes a succession of pictures with a punch—fifty-five of them, each presented in a full-page illustration.

Among the novelty stunts are: the lazy man's chalk talk; a novelty telephone stunt; and various clever pictures evolved from chance combinations of a circle, a triangle, and a square. There is also a section devoted to evolution and upside-down pictures, and another section of comical drawings giving the doughboy's impressions of the funny side of life in war time France. Everything is made simple and easy for the amateur platform artist. No. 1668. Chalk Talk Stunts... **\$1.00**

## FUN WITH CHALK TALK

LIKE every other branch of entertainment, chalk talking calls for a large volume of new ideas and up-to-date material to keep it abreast of a fast-changing world. The successful chalk talk artist finds that novelty is the breath of life to his profession, and is therefore constantly reaching out for that which will inject variety and punch into his programs.

Here is just what the chalk talk artist needs in the way of new ideas and up-to-date material for his lectures. The main body of the book comprises twenty-nine stunts or features for the chalk talk program, with suggestions for an appropriate line of patter, together with painstaking directions as to how to present the stunt most effectively to an audience.

In addition to the humor that characterizes practically all the chalk talks, the element of surprise is cleverly utilized in a number of them, which qualify as trick pictures and enable the artist, for example, to draw live rabbits from pictured plug hats in the best magical style.

There is also a section of novelty chalk talks, including transformation pictures and caricature drawings under such attractive titles as "Men Who Have Never Been President" and "The Old Family All-bum."

Yet these chalk talks, for all their professional touch, are simple, and easily within the abilities of the amateur artist. Attractively bound in art boards and well printed on good paper, with novel cover design. No. 1669. Fun with Chalk Talk... **\$1.00**

"Why can't I see past it myself?"

You know how it is about birthdays. Some friend or relative is always celebrating one. And there's the pressing problem of what to give (besides the usual good wishes and mathematically-calculated wallop). Now here's the first real solution (Give 'em each a copy of Tut! Tut! (The Birthday Book)). Just the thing to take to a birthday party, or send to a friend who is still notching the natal days. Some say it's even better than Tsk! Tsk! (which is the absolute ultimate in a testimonial). Dedicated to the philosophical purpose of demonstrating that milestones need not be millstones. This little book is almost funny enough to make an old maid of 39 wish that birthdays came twice a year. But you don't have to be an old maid to feel that way about it—it affects most people the same way. A Scotchman probably would buy it because it offers double enjoyment—first reading it, and then using it for a birthday gift. And he wouldn't forget that you get with it. Tsk! Tsk!, described above, both for only \$1.25. No. 1433. Tsk! Tsk! and Tut! Tut! (two books). \$1.25

## HOW CRAZY ARE YOU?

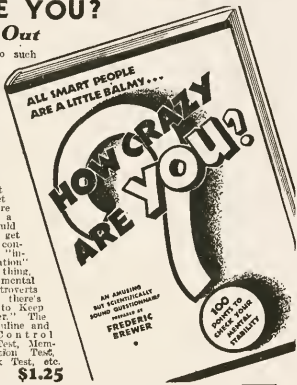

### Now You Can Find Out

Professors who delve into such matters have pretty well determined that most of us smart folks are slightly "tetched in the head." Wouldn't it be fun to find out how we rate? Frederic Brewer thought so, too. So he consulted with Psychiatrists and evolved a fascinating 10 section questionnaire that enables an individual to measure his mental stability. The test is highly entertaining, yet thoroughly sound. They are just the sort of questions a high priced psychiatrist would ask, in actual practice, to get your mental picture. Don't confine this with the usual "intelligence" or "information" test. It's quite a different thing, a scientific measure of mental ability. Tells all about introverts and extroverts. Then, too, there's a final chapter on "How to Keep from Getting Any Crazier." The 10 sections include a Masculine and Feminine Test, Muscular Control Test, Honesty Test, Age Test, Memory Test, Social Adaptation Test, Sense of Humor Test, Sex Test, etc. No. 1435. How Crazy Are You? Price Postpaid. \$1.25

#### DO YOU DO THESE CRAZY THINGS?

Do you believe you should think so much of any individual that their less would hurt you?  
 Are you sarcastic?  
 Would you like to have more than one person of the opposite sex in love with you?  
 Do you feel that little pleasantries are intended as personal ridicule of yourself?

## Learn to Be a Detective

### How To Shadow—Do Secret Service Work

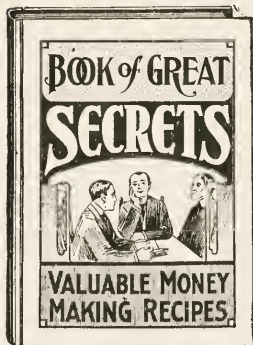

There is nothing quite so fascinating as to be able to outwit others and to be able to reduce scientifically some of the evidence available. If you are doing any business it is essential to know whether the other parties to your contract are telling the truth or giving the correct facts. Once you are familiar with methods of deduction and observation you can often readily notice something "queer" about a deal that the average person would easily overlook. The person who is able to analyze a situation is usually the one who gets ahead quickly and with a minimum of difficulty.

**Nearly 400 Closely Printed Pages  
Of Valuable Matter**

Why, there is one recipe alone which is valued at \$300, yet what does it cost you? Nothing, comparatively. Chances to earn money are very frequently heard of—on paper—and most all such offers result in the employers getting all the money and the agent a pretty small share of it. If you buy a copy of Old Dr. Brown's Book of Secrets you are put directly on the road to making more money in one week than you could otherwise make in one month, and every cent of profit is your own—it does not go to enrich someone else. We have avoided all high-flown, misleading and deceptive statements in regard to this book. We never yet heard of a copy sold that gave dissatisfaction. Hundreds are kept under lock and key by their owners, and some parties write that one hundred dollars would not induce them to part with their copy. ### Step By Step Instruction - A Sure Way Ahead

But why go further? Get the book and we will guarantee you will say it is way ahead of anything you have seen before.

There is no use applying for a situation if you cannot do anything. Encourage and develop some one talent for the use of which the world offers a money value. The man who can do anything fairly well isn't drawing half the salary of the man who can do one thing better than other people. Do not be afraid of pounding persistently at one thing, even if people do call you a crank. If nothing turns up, turn something up. Don't quit a good position until you are sure of a better one. Remember that the very best positions are secured through promotion and not by answering advertisements. It may be worth your while to study carefully the pages devoted to this subject in *The Every-Day Educator*. You will find a model application (an answer to an advertisement) on page 116 of this book.

All business men are salesmen in one form or another. There is an old maxim: "When you buy keep one eye on the goods and the other on the seller; when you sell keep both eyes on the buyer." If you want to learn more about buying and selling, read this chapter in the book.

### Know the Affairs of Finance

How and when to buy and sell stocks is another interesting department. Practical information is given that might make you more careful next time you have a little money to invest—some old tricks of the trade.

Bookkeeping. Every business man knows that the one fundamental thing in being sure that his business is making money (and how to increase your earnings) is to keep an accurate set of books. # The Most Sensational Book of the Year! THE Open BOOK

The greatest book ever written to expose inside secrets used to win. Cards, Dice, Slot-Machines, Marble Boards, Punchboards, Carnival Games, Wheels, Tops, Invisible Inks, Secret Glasses, Rackets and Con Games are thoroughly explained and exposed in The Open Book. They win—you lose. Why? Because everything is fixed so that you cannot win, unless they allow you to. Quit losing and wise up to the tricks used to cheat you out of your money!

## EXPOSES THESE RACKETS

*Explains the Details of Over 200 Rackets!*

**WHEELS** See the Paddle Wheel at the left? You have probably seen one like it and some a lot more elaborate, but they're all for one purpose—to get your money. There is the **Electric Wheel** which is wired up with a switch on the counter. Magnets work as a brake and the operator can stop it anywhere he likes. Bent pegs or nails are used to make the indicator glide over the "big prize" numbers.

**PUNCHBOARDS** Haven't you often suspected, when you were going to take a punch on a board, that the big prizes might have been punched by the owner, and the prizes left there as bait? That's just one way to make more money on a board. Most punch boards are on the square, but even the stores get caught sometimes. One store owner bought some punchboards at a very low price, from a salesman passing through town, but little did he know that about a block away was the salesman's confederate who knew where the winning punches were, waiting to take the storekeeper for a nice long ride. These are only two of the punchboard stunts.

**DICE** Next to crooked cards, crooked dice lead the world among the big paying rackets. **Dice are dynamite.** There are loaded dice, razor edged dice, tap dice, mis-spotted dice, beveled dice, transparent dice, suction dice, oiled dice, etc., etc. In fact, so many and varied are the means by which dice can be fixed (every known scheme explained in this book) that you might as well burn your money when you pick up a pair of unknown dice. Read this chapter and don't weep.

**CARNIVAL RACKETS** The weighing Chair, the Short Change Artist, Roulette, Three Shell Game, Cat Rack, Milk Bottles, Balls in the Pail, etc., etc. Every one of these rackets is thoroughly exposed with complete details about how they work their systems. Nothing is left to the imagination.

**CARDS** Four of a kind are hard to beat, but here's four you will never beat: punchboards, dice, coin machines and cards. And the most common one is cards. Look at the marked cards we sell (for magical purposes only). This book exposes Marked Cards, Luminous Cards, X-ray Cards (you can read right through the first fifteen cards). Cut Cards, Three Card Monte, How to Cheat and Win at Poker, etc., etc. A complete exposure of crooked cards.

## COIN MACHINES & MARBLEBOARDS

It's easy to fix a coin machine and marble board because not 1 in 10,000 can tell them after they've been fixed even the best of us like to play them once in a while, so why not play one that gives you a good chance of winning? This information alone will pay for the book many times.

## MAIL SWINDLES & RACKETS

Almost any magazine you pick up contains numerous ads that are rackets designed to get your money. Fake medicines, stock, swindles money making opportunities, etc., etc., are just a few of them. Exposes the actual operation of these rackets, showing just how they are carried on from start to finish. There are numerous other exposures. Devices used by the gamblers are shown with detailed illustrations, explains how crooks work, avoid laws, how to beat the races, stock broker swindles, etc., etc.

## Don't Be a Sucker

This book is for protection purposes only. Don't be hoodwinked and buncoed every time you turn around. Barnum was wrong when he said there's a sucker born every minute—there's a dozen born every minute. Everyone's a sucker for something he doesn't know about. This book is written straight from the shoulder in simple language. There is no attempt to cover up its secrets with high-flowered words and phrases. Well illustrated throughout. Exposes more than 200 rackets and swindles.

No. 1657. The Open Book. Master of Exposés. Price. **\$3.50**

## THE AUTHOR

Is J. H. Johnson, a former Government officer whose duty it was to smash rackets. Already five editions of his book have been published, but until now most of these books went to law-enforcing officers as a hard book on rackets so they could recognize the rackets. With 30 years experience, he is well qualified to write this book. He has made a special study of almost every racket, and from his secret notebook has drawn all the information which is revealed in this book. Five editions have been published, yet the sixth edition is being licensed. Every time a new racket comes up, it is added to the book.

## The Man They Could Not Hang

Here is the astounding story of John Lee, who was condemned to die on the gallows for murder. It is absolutely true, every word of it. The fatal day arrives. The prisoner listens to his own death-knell. The chaplain reads the burial service. A few yards away is the hearse which is to remove his body after the execution. The executioner fixes a belt around his ankles, then puts a hood over his head. Then the rope is placed around his neck. He feels the executioner's fingers about his neck. The bolt is drawn but the trap refuses to move. The wardens jump on the boards to loosen them. The condemned man was led away, the mechanism tested and found to be alright. A second attempt was made to execute Lee, and yet a third, but all proved unsuccessful and the prisoner was finally given his freedom.

This system is noted for its simplicity and the rapid means it affords for learning the Spanish language. The value of a knowledge of Spanish cannot be overestimated when considering the extensive commercial relations existing between this country and its recently acquired Spanish possessions and connections. # UNIVERSAL LETTER-WRITER

## FOR LADIES AND GENTLEMEN.

PRICE 30 CENTS.

This is the first time that a book has been published that plainly teaches **how to write a letter**. It shows clearly all the blunders and mistakes apt to be made by an inexperienced writer, and makes manifest, in the simplest way, the proper method of avoiding and rectifying such blunders and mistakes, whether they occur in the spelling, the punctuation, or the grammar. This book explains all the details of correspondence, whether relating to the form, the penmanship, the directing, the folding, and the sending of a note or a letter. There are in this book valuable hints about **Love, Courtship and Marriage**, showing in what style lovers should indite epistles. There are given all the various letters that arise in the course of business:—Asking for money, requesting time, enclosing remittance, asking assistance, reason for refusal, from tenants to landlords on different subjects, with landlords' replies. Then—and this is a very important feature—there is shown the legal importance of a letter; and explanations are given upon the exact meaning of expressions used in writing that may be brought into court in litigation. It also contains the **art of abbreviating writing**, so that anyone can, with practice, write with the rapidity of a shorthand writer. In fact, the following persons all require this book: Young ladies and young gentlemen, wives and husbands, widows and bachelors, farmers and traders, the sick and the well, soldiers and sailors, mothers and fathers, daughters and sons, givers and receivers of presents, the educated and the illiterate. But it would take page after page to begin to enumerate all the different classes to whom **Welman Bros.' Universal Letter-writer** would prove an invaluable companion. There is nothing worth knowing in any other letter-writer not to be found in this one, while there are many things of importance in this one not to be found in any other book. Notwithstanding all these good points, it is only **30 Cents** a copy, and it will be sent, postpaid, to any address on receipt of this price.

No. 1145, UNIVERSAL LETTER-WRITER. Price Postpaid.....30c

### Model Book of Love Letters

Few persons, however otherwise fluent with the pen, are able to express in words the promptings of the first dawn of love, and even the ice once broken, know how to follow up a correspondence with the dearest one in the whole world. The numerous letters and answers in this book go far to overcome the difficulties and embarrassment inseparable from letters on this all-absorbing topic in all stages from beginning to end of a successful courtship. Without specimen letters such as those contained

in this book, the zeal of young persons generally, in matters affecting the heart is very apt to outrun discretion, and expression would unconsciously be given to absurd and foolish protestations, or to extravagant and romantic adulation of the object of attachment. The series of letters, in which delicacy of feeling and warmth of expression suited to the subject have been carefully blended, will be found an important aid in acquiring facility and accuracy in the art of letter-writing. It also contains the **ART OF SECRET WRITING**, showing how you may correspond in cipher and thus keep your correspondence safe from prying eyes.

### An Englishwoman's Love Letters

These are said to be some of the greatest Love Letters ever written—the most rapturous Love Letters ever put into print. These letters are said to have been written by a very prominent and well known Englishwoman, and who, so the story goes, jilted and dying at the age of twenty-two of a broken heart, has been fully revenged by the publication, after her death, of the Love Letters she had written to her faithless lover. It will delight and interest everyone—young as well as old,

of either sex. Some of the letters contain passionate appeals to a faithless lover, in which a woman's heart is laid bare. Very little has been omitted which in any way bears upon the devotion the letters portray; a few names of persons and localities have been changed, together with a few passages bearing too intimately upon events which might be recognized. This series of letters cannot fail to be helpful to all lovers, and, by making a few judicious changes to suit the circumstances, many of the letters will serve as models when writing epistles of endearment to the object of your affection.

# CHORUS QUEENS or Lives of Hotcha Chorus Girls

## Secrets of How Chorus Girls Live

This book reveals all the intimate secrets and fascinating pastimes in the lives of famous Broadway hotcha girls. It tells you in vivid detail every move they make from the time they get up until the time they go to bed. Nothing is omitted. Although there has been a lot of talk and discussion about chorus girls, few people seem to know exactly what they do. Now, for the first time a famous author takes you behind the scenes and gives you an intimate glimpse into the secrets back stage.

Conrad Miller, the author of our book, has been associated with the stage for twenty years and every one of those years has been filled with exciting adventures. He tells here, from his own experiences, exactly how the stars of today lived yesterday. He explains how the stars of tomorrow are working their way up. He tells of the sacrifices every girl must make in order to gain stardom.

# The Fastest Selling Humor Books in America!

Detroit, Michigan

Dear Reader:

What NOT to recite at  
Little Eleanor's Party . . .

It all began one day last April when one of our boys dug up the story of Rex, the farmer's pup who trotted into town to infuriate all the slick city dogs with his superior lamp-post technique.

After we had gleefully made a dozen copies of the tattered, thumb-marked script, we fell to talking of other salty classics . . . then came the inspiration . . . wouldn't it be great to bring these masterpieces all together in one snug little volume? Boy, that would make a BOOK!

So we called in that gusty scribe, Johnny Johnson. And what a magnificent job he has done. It is with a glow of genuine satisfaction that we present **BAWDY BALLADS & LUSTY LYRICS**.

Make no mistake. This isn't a collection of gutter trash. Time-tested classics every one, virile songs of wine and wenches, of love and lamentation each a-sparkle with lusty salt of life.

And this glorious collection is yours - yours to treasure and gloat over. But that's just half of it, for with each copy of **BAWDY BALLADS** comes another splendid book, **Anecdotes, How to Make them Perform in Public**. This book gets down to sharp pointed tacks and tells you why some jokes are "surs-fire" and others just go pf-ft.

Remember, you get BOTH books for the one price so why not add these treasures to your collection?  
Really yours,  
**JOHNSON SMITH & CO.**

playing any game. These are a few of the many wonderful tricks that can be performed with the Radium pack:

- 2 A card may be drawn, shuffled into the pack and cut the first time.

- 4 The selected card discovered under a handkerchief.
- 5 Several persons may each draw a card, examine, replace it and shuffle the pack, immediately after the performer produces them while behind his back.
- 6 The performer leaves the room, and while he is absent a person draws a card, shows it to the audience and replaces the card; the performer returns, takes the pack and immediately produces the card.
- 7 To cut the pack and name the number of cards in each part.
- 8 A card drawn, examined and replaced by any one in the audience and not seen by the performer, and the pack shuffled, separates itself from the others.
- 9 Any one may select a card, replace it and shuffle the pack, and the performer will take the pack and throw it upon the table, and the selected card will turn face upward.
- 10 To find selected card under handkerchief.
- 11 To call any number of cards and draw them from the pack as called.
- 12 To blow a card from the pack after its having been drawn, returned and shuffled.

These are only a few of the many wonderful tricks described in the directions sent with each pack.

Many other tricks will suggest themselves to the performer as he goes along, the capabilities of the cards are limitless.

Many of the feats exhibited are truly marvelous and will delight, astonish and amuse a whole company. Bear in mind that the tricks are not done by legerdemain or sleight of hand, but that the whole secret is in the cards, and the feat cannot be done with any other cards. No one has ever been able to discover the secret until it was explained to them. These cards can be used in all card games, interspersing the playing with tricks that will astonish everyone. Now pick up the fifth card, throw down another one, breathe on them, and they change to all Deuces. Go through the same procedure and they change once more, this time they are all red cards. Yet again they change into all black cards, winding up the trick by changing them back again into eights, same as they were at first. The effect of this clever trick is most astonishing, as it is done in full view of the audience. It puzzles everybody. Full directions are sent with the trick so that anyone can perform it.

Although the hands are kept widely apart, you instantly, before their very eyes, cause the Jack of Diamonds to take the place of the Queen of Spades, and vice versa. Then, in the same mystifying manner, the cards change once again. This Trick can be performed with one set, but two sets are much better for the proper effect.

## The Magic Floating Disc

Tricks requiring the use of water and other liquids are always popular. In most cases they are very simple and easy to perform, but very baffling and mysterious to the onlookers. The Magic Floating Disc may be said to come under this category. The operator shows a metal disc a little larger than a half dollar, which he causes to float on the surface of a glass of plain water. When the feat is attempted by anyone else, however, the disc promptly sinks to the bottom. Of course there is a trick about it, but you'll soon learn all about it when you read the directions. **SHIPPED POSTPAID.**

# TWISTER CARD TRICK

## A MYSTERIOUS MAGICAL EFFECT

**Very Easy  
to Perform**

This very clever illusion can be performed with either one or two cards. The most effective way is to exhibit a card in each hand, say the Ace of Diamonds in one hand and the Ace of Spades in the other. While closely watched and at the full arm's length apart, the cards suddenly change, the Ace of Diamonds and the Ace of Spades reverse positions. With one card the transformation can be done by merely passing the hand over the Ace of Spades and it becomes the Ace of Diamonds, then in full view of the audience, the Ace of Diamonds, after being breathed upon changes back to the Ace of Spades. The cards are then laid on a table and once again change places. Full instructions and complete patter are enclosed with each trick.

# TRICK FUNNEL

ENTERTAIN YOUR FRIENDS

**CAN BE USED FOR A GREAT  
VARIETY OF EFFECTS**

**A NEVER FAILING SOURCE OF LAUGHTER**

Every magician uses a Trick Funnel at some time or another in connection with his tricks. It can be used for stunts without number, depending entirely upon the originality of the performer. Offer one of the spectators a glass of wine (if you can get one), and pretending that he has drunk too much of it, take hold of the Magic Funnel, which is shown to be perfectly empty. Then apply the Funnel to the person's nose or elbow, moving his arms up and down like a pump handle. At once the wine begins to flow, pouring through the funnel into a glass held underneath causing roars of laughter. Any other liquid can be produced from the Funnel in the same way. You can use the Funnel for emptying water or other liquid, and the liquid will continue to flow for some time after, though the Funnel is always shown to be empty. Very laughable effects can be produced. Many clever tricks can be devised, and it is easy to work as no skill or practice is needed.

## Diminishing Egg Gets Smaller & Smaller

This trick works especially well in combination with other egg tricks, of which several will be found in this catalog. The egg first exhibited is shown to be full size. You then rub the egg with the palm of your hand and the egg diminishes to about one half its original size. You rub the egg once more and again it becomes still further reduced. Finally it vanishes altogether. The trick can be worked the reverse way, that is you start with the small egg and cause it to enlarge.

# The Wonderful Card Frame

Better Known Among the Magicians as the Sand Frame

A Card, Photograph or Picture can be made to Disappear or to Reappear at Will.

This is undoubtedly one of the best and finest conjuring tricks that has ever been offered, and no magician, whether amateur or professional, should be without it. The Frame, which is very handsomely made is freely examined by the audience, after which it is covered with a borrowed handkerchief, and given to some person in the audience

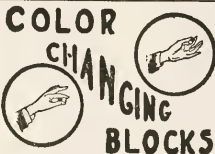

to hold. A card is then chosen and is made to disappear, yet upon examining the Frame, it is discovered underneath the glass, to the utter astonishment of everybody. The card is removed, the frame again freely inspected, and the frame given again to be held by the same person. The performer gives a second command, and the card disappears from under the glass of the frame and reappears in an entirely different place. The effect is bewildering. The trick can be performed with a picture, and is specially effective if done with a photograph. You can place a photograph in the Frame, allow any person in the audience to hold it, after convincing everybody that the photograph is actually in the Frame behind the glass, cover it up with a handkerchief, yet on removing the handkerchief the photograph will have disappeared and may be found in the pocket of some one in the audience, or even in a different room—the photo is then directed to return to the Frame. Frame measures a little over 5 x 6 inches and is beautifully made and finished.

This is a very clever piece of apparatus for a conjurer. There are four brightly polished metal cones, which are placed upon the table. A half-dollar, or any other coin or small object is hidden underneath one of the four cones while your back is turned, or while you are absent from the room, yet you are always able to detect under which cone the article has been hidden. No skill and no previous practice is needed; it is all in knowing the secret of the trick which, for obvious reasons, you are requested to keep to yourself. It never fails. No one else is able to do it, except by chance, but YOU can detect the right cone every time. The effect is greatly enhanced by using two sets. A double set of eight cones with one or two, or even more hidden objects, will greatly heighten the mystery and create a much better demonstration of your "occult" powers.

One of the best pocket tricks out. The performer shows two small wooden blocks, each side of which is a different color. Taking the blocks by his finger tips, so that, for example, red and green are uppermost, he breathes upon the blocks. To his great astonishment the spectator discovers that the blocks have apparently changed color. It would take up too much space to describe the many other wonderful transformations of color that can be performed with these blocks.

# The Great CHINESE LINKING RINGS

*The Eighth Wonder of the Universe*

Quite Easy to Do, But Very Mystifying.  
**ABSOLUTELY ASTOUNDING EFFECT**  
 Performed by Chung Ling Soo and Many  
 Other Celebrated Magicians

Since Chung Ling Soo originated this astonishing trick, most of us have seen it performed on the stage by various magicians, and have wondered how the trick was done. We have now added it to our collection, and our customers and amateur conjurers will be glad to avail themselves of this opportunity to add it to their collection. The secret of this trick is probably one of the best in Magic. It is very simple, and yet it has puzzled the most intelligent audiences the world over. The set consists of eight rings, and it is exactly as used

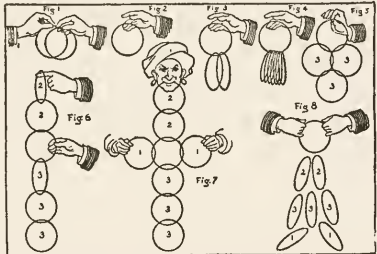

by the world's greatest magicians. The rings are given for examination and are found to be solid and separate, but at the will of the operator they are linked together in chains of two, three or more, and become connected and disconnected in a moment, and being continually offered for examination. Finally, after the rings have become involved into an apparently inextricable mass, a slight shake suffices to disentangle them and causes them to fall singly upon the stage.

The trick is usually presented to the audience in the following manner: The performer comes forth holding the eight rings in his hand. Taking the first of these, he hands it to a spectator for examination, passing it when returned to another person, and carelessly handing a second ring to be examined in a like manner. "Now, sir," the professor continues, "will you be good enough to link one of the rings which you hold into the other?" The person addressed looks more or less foolish, and finally gives it up. "You can't?" says the performer, in pretended surprise. "My Dear Sir, nothing is easier. You have only to do as I do. See!"

Laying down the rest of the rings, he holds the two as in Fig. 1, and makes a gentle rubbing motion with the thumb upon the rings, and then lets fall one of

them, which naturally drops to the position shown in Fig. 2. He now hands these two rings for examination. The spectators seek for some joint or opening, but none is found; and meanwhile the performer transfers the next ring to his right hand. Again he separates and again joins the two rings. The second single ring is now made to pass through in like manner, making the combination shown in Fig. 3. The performer remarks:

"We now have three joined together. Here are three more, as you see (shaking those in the left hand), all solid and separate, and yet at my will they will join like the others."

Making a rubbing motion with the thumb as before, he drops two of the three, one by one, from the hand, when they will appear as a chain of three. These he hands for examination, taking back the set of two, and linking them one after the other into the key, to which now four rings are attached. Again taking back the set of three, he links these also one by one into the key ring, which thus has seven rings inserted in it. (See Fig. 4.)

Using both hands, he now takes off these seven rings, commencing with the two single ones, and again offering them for examination; then taking off the set of two. Last of all, he unlinks the set of three, and then, holding them at length in his left hand, joins the upper one to the key ring, thus making a chain of four, of which the key ring is the uppermost. He next takes the lowermost ring of the four, and links that into the key ring, bringing the four rings into a diamond shape, as shown in Fig. 5. Again unlinking the lower ring, he takes up the set of two, and connects them thus making a chain of six. (See Fig. 6.)

Taking the upper ring between his teeth, he links all eight rings, making the figure of a cross, as shown in Fig. 7. With another brisk movement of the hands, the rings are shown suspended from one single ring as in Fig. 4. Then as a grand finale, he shakes the rings violently, when the seven rings will all in succession drop and scatter themselves about the floor as in Fig. 8.

The manipulation of the rings admits of almost infinite variation, and the method of presenting the trick will naturally differ greatly as to the mode of working them, but the above will serve as the basis of a good back-ground for the amateur, who can work out his own particular method afterwards. The trick can be had in rings of four different sizes, namely 2-inch rings, 3½-inch rings, 5-inch rings, and 8-inch rings. The method of manipulation is the same with all four, the only difference being in the size of the rings. We strongly urge you to use the larger rings wherever possible, as the effect, is greatly enhanced and is much more effective. Full instructions are sent with each trick. The prices of the four different sizes are as follows:

# CIGARETTE THROUGH HANDKERCHIEF TRICK

ONE OF THE EASIEST TRICKS,  
 BUT ABSOLUTELY MYSTIFYING  
**Anyone Can Perform This Feat!**

**A FAVORITE AFTER-DINNER TRICK!**

This trick will astonish your friends. You borrow a handkerchief from one of them, also borrow a cigarette if possible (the effect is better if both are borrowed). Then holding your left hand as in Figure one, you cover it with the handkerchief as shown in Figure two. Next make a place for the cigarette in the handkerchief with the thumb as in Figure three. Now place a lighted cigarette in the handkerchief as shown in the next illustration (Figure four). Show the right hand to be empty as in Figure 5. You finally shake the handkerchief out, hold it in front of you as in the last illustration. **THE HANDKERCHIEF IS UNDAUNTED AND THE CIGARETTE HAS DISAPPEARED.** The feat is extremely effective, yet it is not at all difficult to perform. It can be done over and over again with the apparatus furnished, and with a little practice failure is impossible.

# The Mysterious Ball-Bearing Trick

A NEW AND VERY CLEVER TRICK.

Quite Easy To Do. But Very Mystifying.

NO SKILL OR PRACTICE NEEDED.  
HANDY SIZE FOR THE POCKET.

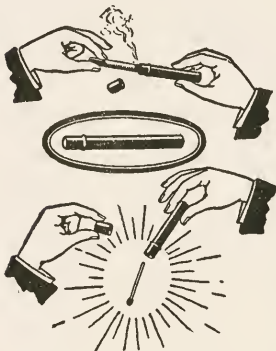

**J**UST about the neatest and best pocket trick we have seen for many a day is this **MYSTERIOUS BALL-BEARING TRICK.** The artist exhibits a beautiful shining solid steel ball bearing about five eighths inches in diameter, and a small hollow brass tube of somewhat smaller diameter and about 1 1/4 inches long, both of which may be freely examined by the audience. He then lays the steel ball on top of the tube. At a word of command, the ball commences to disappear slowly into the tube, until at last it is out of sight. A second command of the performer suffices to cause the ball to reappear and it gradually works its way up the tube and once again rests upon the top of the tube, as the spectators look on with manifest amazement. The performer now hands both the ball and tube to any of the audience so that they may attempt this mysterious trick, but, to the as-do it, for the ball is plainly of greater diameter than the tube. Moreover, both ball and brass tube are solid and do not permit of any manipulation. Only those in the secret are able to perform this seemingly impossible trick. You should not fail to provide yourself with this beautiful and mysterious vest pocket trick. Full directions are sent, so that anyone can perform the trick without any preliminary practice.

# The Marvellous Cigarette Trick

VERY MYSTERIOUS

PROBLEM—WHAT MAKES THE  
CIGARETTE VANISH?

**W**E CONSIDER this one of the cleverest and most mystifying of all conjuring tricks, yet it is so simple when you are acquainted with the secret. There is no sleight of hand; everything is done right in front of the audience, who are greatly mystified. Casually taking a cigarette out of an ordinary cigarette case, you proceed to light it. You then place the cigarette, whilst still lit, in a highly nickel plated tube, which you can pass around for examination to show that it is really empty. Having placed the cigarette inside the tube, you place the cover on the tube and ask a spectator to hold it. After counting one, two, three, the spectator opens the case and to the astonishment of all, the cigarette has completely vanished. Not a trace of the cigarette is to be seen. Only a little smoke, proving that the cigarette was really placed inside the tube. Instead of the cigarette is found a match. But that is not all. You then place the tube in the cigarette case and allow the spectator to hold it. You then command it to appear in another place, which it does, while a match appears in its place. The trick can be performed as often as desired. You can carry it around with you, as

or fountain pen in your pocket. Get one and astonish your friends. It is very simply done but it puzzles everybody. No. 3149. THE MARVELLOUS CIGARETTE TRICK. PRICE POSTPAID.....**\$0.75**

# RIBBON FACTORY FROM THE MOUTH

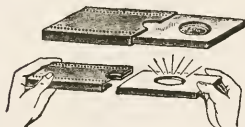

## Yard after Yard Comes Out of Your Mouth

If you want to have some fun, send for this Ribbon Factory Trick and draw yard after yard of various colored ribbon from an apparently inexhaustible supply. You can fill a large basket full of the ribbon or cover practically the entire floor with no discomfort, yet the entire amount of ribbon comes from your mouth. This trick is so positively amazing that many experienced magicians use it as a climax to the evening performance—the final number. It leaves the audience baffled and amused at the same time. They will be roaring with laughter from the apparently inexhaustible supply of ribbon, yet not one of them will be

able to tell how it's done. Complete apparatus and directions are sent with each trick.

## The Magician's Coin Case

This is a very clever trick and quite novel. You open the case, place a coin in the slot provided for the purpose, then close the case. Yet upon re-opening the case the coin is shown to have vanished and cannot be found. Close the box, and open it once more and there is the coin. The trick can also be performed the reverse way. The coin will appear or disappear at will. It is very effective and completely mystifies the audience. It is very easily performed, and, unlike some tricks, does not require any sleight of hand. We confidently recommend this trick to all magicians, professional or amateur.

## Presto Change-O

A good opening trick—especially for parties. You start off with an ordinary glass of bran, filled to capacity and running over. Then, an ordinary cover, after being examined by the audience, is placed over the glass, and—PRESTO! the bran has changed into a jumbo glass of jelly beans (or any other kind of candy), filled all the way to the top. You can then pass the candy around, or go on with the next trick. The apparatus given with the trick includes everything—even the bran and candy, although you can use your own if you want.

## The "Easy Aces" Puzzle

This fascinating puzzle can be used either as an excellent puzzle or brain-twister. Even when you know the solution, you can show it to a friend, already solved, then mix up the cubes and see if he can do it—when he knows the solution! The idea is to get the four Aces of one suit in a row. We call it "Easy Aces" because it's so easy to get fooled. Have one along when you go to a card game at a friend's and show him what you can do with aces in a box. And listen to them beg to be let in on the secret. It's enough to cause distraction when you see one person do the trick so easily and another stunble and fume.

## The Magic Money Box

This is a very clever piece of apparatus for a conjurer. A marked ten cent piece or a quarter is dropped into it, the cover is placed on and the audience can hear the coin rattle in the box, yet when it is opened the coin has vanished and it is found in some unexpected place. Full directions with each box. A trick with someone else's money involved is always certain to arouse curiosity. Try this one with a quarter of your friend's money and watch him become anxious when his money apparently has disappeared right under his nose.

The most baffling acts performed on any stage or entertainment fully explained. It seems inconceivable how a human being blindfolded, can know the most intimate secrets of audience which he reveals.

But when one knows—how easy it seems. Anyone with a little practice and a good partner can read the minds of his audience in the most miraculous manner.

### Do you want to perform these acts?

You are offered the opportunity to be able to perform all of the above acts yourself with the aid of an assistant. No paraphernalia of any kind is required. Use the information for pleasure or for professional use. Lift yourself out of the crowd. Be somebody. Call yourself Professor All Baba or any high sounding name you can think of. ### Mind Reading Act No. 1

The medium, man or woman, is on the stage blindfolded. The professor goes through the audience and collects coins, any kind from a penny up. He puts the coins into empty envelopes and seals them in front of the audience. After a little "hocus pocus" the medium will tell, without touching the envelope, the value of the coin, date of the coin, etc. **HOW IS IT DONE? WHAT SPIRITS PERFORM SUCH A MIRACLE?**

### Mind Reading Act No. 2

The professor announces to the audience that the medium will tell them what they are thinking about. He passes among them and distributes slips of paper on which the audience will write their questions and sign their names. Later, he collects these messages. Going upon the stage the professor, after a little mysterious talk, burns the messages. He then asks the medium to read the messages which he has just burned. This the medium does at once, to the surprise of the awe-inspired and mystery-stricken crowd. **HOW IS IT DONE? IS THE MEDIUM UNDER INFLUENCE OF SPIRITS?**

### Mind Reading Act No. 3

Still more mystery. The blindfolded medium will call persons he has never met by their names, tell them where they live, telephone numbers, whether married or single, how many children, where they spent their vacations and give other most intimate information. It is beyond the power of the mind to understand such marvelous knowledge. **THE UTTERANCES OF THE MEDIUM ARE BEYOND HUMAN UNDERSTANDING.**

### Mind Reading Act No. 4

The professor goes among the audience. He asks the blindfolded medium, "What is this?" "What is that?" etc. The medium will instantly answer the question, without the least hesitation; an unlimited amount of laughs may be offered the audience through this act. They're kept spellbound. **THEY DO NOT UNDERSTAND—HOW CAN IT BE DONE?**

### Mind Reading Act No. 5

This act may be performed at any party with great success. The medium leaves the room and when he comes back, he will tell the audience what they were thinking about during his absence. He will answer any kind of questions correctly to the amusement of the guests. **IT'S ALL VERY, VERY SIMPLE—WHEN ONE KNOWS HOW!**

There are four strands of gilt wire twisted in a very ingenious manner, so that when drawn through the fingers as shown in the illustration the wire appears to become several feet in length. The illusion is so perfect that even the person who has the puzzle in his hands can scarcely believe that it is not expanding enormously. Anyone would bet his bottom dollar on it—and lose every time. By reversing the motion the wire will appear to contract until one would think it was going to disappear altogether:

## DRUMHEAD TUBE

A Dollar Bill, Handkerchief, or any other small article is produced from a nickel-plated Tube previously shown to be empty.

**Never Fails**

**Practically Undetectable**

This is a magnificent piece of apparatus that every conjurer, amateur or professional, will be eager to possess. With it you can produce any small article such as a dollar bill, handkerchief, one or more coins, a small flag, in fact any desired article of moderate size, from a hollow nickel plated tube, which you have previously passed around for inspection and shown to be perfectly empty. The tube is then sealed by placing tissue paper on each end and pressing the accompanying rings over the paper. All this is done while some one else is holding the tube. To the entire satisfaction of the audience the tube is empty. After it is handed back you call their attention to the fact that it is sealed and is absolutely empty. Casually set it down on the table, and lifting it up again, the dollar bill, handkerchief or other article is extracted from the tube, to the astonishment of all. It is one of the simplest tricks imaginable yet never fails to deceive the spectators. The apparatus is beautifully made, and well worthy of a place in the collection of every one interested in magic.

The marvelous success of many magicians shows the world-wide popularity of performances of this kind. These successful artists tour the entire world performing before royalty and earning enormous salaries. Their knowledge and cleverness mark them for favors from crowned heads and others they have mystified.

## YOU CAN LEARN THIS FASCINATING PROFESSION

These men possess no marvelous power. They know the trick—that's all. It's very simple when you know how. We supply the missing link—THE SECRET THAT HAS MADE THESE MEN FAMOUS. We show you just how these marvelous tricks are performed. Surprise and mystify your friends. Show them your marvelous powers. A little practice and you can enter vaudeville and earn big salaries. Read the details of each Baffling Mystery.

### 1.—A GREAT HAND-CUFF TRICK

This wonderful trick is now exposed for the first time. Through it you can defy the police or anybody to confine you in their own handcuffs. A little secret manipulation, simple and easy and you are free. No doubt you have marveled at this wonderful trick. We tell you how.

No confederates or fake handcuffs used, but the regular kind such as are in common use by the police everywhere. It's easy. The secret is all you need.

### 2.—ESCAPE FROM A SAFE OR VAULT

The most thrilling mystery ever performed. The audience holds its breath with awe while the performer makes his escape. Far superior to the old jail escapes. No confederates or expense. The performer is handcuffed and placed in a safe or vault locked by any one. The escape is made quickly and easily and to the extreme surprise of every one.

### 3.—THE VANISHING ASSISTANT

Here is a mystery with a "punch." Attendants bring out a step-ladder. The assistant ascends to the top end and sits upon the top rung. He holds in front of him a large parabol, painted to resemble a target. You fire at the target, which falls to the floor. Presto! The assistant has vanished. Is nowhere to be found. A hair-raising mystery that makes them all sit up and take notice. Hear that startled "Oh!" of amazement when they see that the assistant has vanished. You can fool them all with this mystery.

### 4.—THE CRACK MARKSMANSHIP ACT

Of course you've seen the wonderful marksmen or sharpshooters. How skillfully he shoots glass balls, lumps of sugar off the assistant's head, puts out lighted candles or ditches an assailant by rapid-fire shooting, making a dozen bull's eyes in less than that many seconds. There is not one in a thousand who knows that this act is "faked" or a trick. It is simple and can be accomplished by any one who has the least accuracy of eye. This is a complete act in itself, an act for which huge salaries are being paid. The complete secret can be learned in a few minutes' time.

### 5.—THE MARVELOUS LEVITATION ACT

A man or woman is apparently hypnotized and placed on a couch. You make a few passes over the body. The subject is seen to rise slowly in the air until he or she is floating in space. No wires or pulley work from overhead, no mirror or magnetism. The most sensational act you ever saw. It is easy and quickly arranged and performed on different principles. Can be worked out on any stage or platform in full light, away from curtains.

### 6.—THE EXCELSIOR ROPE-TIE

Each wrist is tied separately with a stout cord, after which you cross your arms and the ends of the cords are passed around and around and tied at the back, making it impossible to bring your hands together.

The ends of the cords are fastened to the top of the chair. Other cords are tied around the knees and legs. The closest examination is invited. Every one will declare that escape is impossible.

Presto, you are free! The rope lays a tangled mass at your feet. It's easy when you know how.

### 7.—THE WONDERFUL TRUNK ESCAPE

The performer is handcuffed and then locked in a trunk from which there seems to be no possible chance to escape. Any kind of a trunk is used. No fake bottom or other trick appliances. The escape can be made in less than two minutes. Everything may again be examined and will be found to be in the same condition as before the trick was accomplished.

This action can be performed in any private house where a trunk can be obtained. You need no confederates.

### 8.—THE ESCAPE FROM 75 FEET OF ROPE

Even better than it sounds. Call up a committee to tie you in any way they see fit. Watch them writhe and sweat in their endeavor to make it escape-proof. Invite strict examination. Then in the twinkling of an eye you can free yourself. It will puzzle and baffle the most skeptical. They will declare it the most marvelous feat they ever witnessed.

The eight Tricks of Mystery described above are worth ten dollars each to anyone who would make professional use of them. We had the complete instructions printed in easily understood language, and will sell the full information how to perform each and every trick described above for only..... **10c**

We consider this the biggest value ever offered.

# SIBERIAN CHAIN ESCAPE

Sensational Escape Two Seconds After Wrists Are Securely Locked.

**A Wonderful Effect Quite Easy to Do**

A strong chain with padlock and key, is thoroughly examined by all, and after everybody has satisfied themselves that they are not faked or prepared in any way, you permit one of the spectators to bind your wrists together tightly with the chain, which is tightly drawn and then locked. If desired they may furnish their own lock, retaining the key and sealing up the key hole. Escape is apparently

impossible, yet under the very eyes of the spectators you make your escape in two seconds. It is perfectly simple for those in the know, but if you are not acquainted with the secret you may try for hours and find yourself hopelessly bound without the aid of the key. This is a highly effective and sensational trick for parlor or stage. It is easily learned with the aid of the illustrated directions which we send with each trick, and no skill is necessary. It is strongly made, and is sent all complete—strong nickel-plated Chain, Lock and Key, complete with directions in box.

## Conjurer's Extra Finger

This piece of apparatus is indispensable for all magicians, whether amateur or professional. It is undoubtedly one of the best and most original of all magical ideas ever conceived. It serves to produce indetectably a handkerchief, small flag, or any similar article, for which purpose it cannot be surpassed. Worked at closest range and with both hands shown perfectly empty at all times. Very light and very natural.

No. 3209. Conjurer's Extra Finger **75c**

One of the prettiest and most effective tricks ever placed before the public. The performer shows three solid wooden blocks, painted red, green and blue, and a hollow tube. On same being returned to him he places first the blue, next the green, and last the red into the tube, but, on removing the tube from the blocks a most mysterious change has taken place. The red has gone to the bottom of the pile, the blue in the middle, etc. Place the blocks in the tube once again, remove the tube a second time and they have again changed places. Still a third time you place the three blocks in the tube, and remove the tube and to the astonishment of all they have changed places for the third time. You can repeat the process indefinitely. Each time the colored blocks will be shown in an entirely different order to what they were when placed in the tube. You have apparently performed the impossible and caused them to change places while inside the tube. Full directions.

Wonderfully Effective—Easily Performed

There are several varieties of this clever illusion but this is the best of them all, and the appearance and disappearance of the various balls is as effective as it is surprising. The performer hands around the ball for examination, and immediately it is returned to him he seizes it by the tips of his thumbs and fingers and a second ball mysteriously appears. These are held in full view of the audience by the tips of the fingers of the left hand, and even while being placed in position, another ball unexpectedly makes its appearance. Finally the magician apparently suffers from some kind of spasm and yet another ball is the result. The feat can then be reversed, the balls disappearing one after another until none remains. It is a very interesting trick that is quite easily performed by following the directions that accompany the apparatus. Everything explained.

Practically Undetectable! Never Fails!

This is the very best kind of vanisher, with which many good tricks can be done. You take a silk handkerchief or flag, work it up into your hands until it finally vanishes entirely and you show your hands empty. Other small articles such as currency, bills, paper, etc., can be made to disappear in the same mysterious fashion. The trick can be done with the sleeves rolled up. With a little practice the feat can be neatly performed so that there is not the slightest danger of detection. Full directions included.

# The Diminishing Billiard Ball

WONDERFUL, BUT QUITE EASY!

A Full Size Red Billiard Ball Di-  
minishes First to Half Size, and  
Finally to The Size of a Marble.

This trick works well either alone or in combination with any other ball trick, of which you will find several in this catalog. A large, full size red billiard ball, 1 3/4 inches in diameter is first exhibited to the audience. Now give it a gentle squeeze and it is reduced to about one half the original size. While the audience is still wondering how it is done, give it another squeeze and it is now reduced to half size again, or about the size of an ordinary marble. Finally this ball is made to vanish completely, after which the hands are shown to be entirely empty. The trick can be performed the reverse way if desired, starting with the small ball and enlarging it to the full size. The trick is beautifully made and finished.

# THE TOPSY TURVY MATCH

ONE of The BEST of ALL Pocket Tricks!

A MATCH PASSED THROUGH A  
METAL TUBE TURNS UPSIDE DOWN

VERY SIMPLE but VERY MYSTERIOUS

A small nickel plated tube, and an ordinary match are passed around for examination. Allow one of the audience to hold the tube while you place the match inside. Now replace the top. On opening the tube the match will be found to have turned UPSIDE DOWN. You have apparently done the impossible and performed a miracle. Both before and after the trick and it will stand the most minute examination. Full directions sent with each trick.

# The Marvelous Enchanted CIGAR BOX

This is one of the best illusions in our list, and the results are of such an extraordinary character that no amateur or professional conjurer can afford to be without it.

Taking up a cigar box from your table, you open it and show it full of cigars. To convince even the most skeptical, you pass the box around and allow one or more male members of the company to first select a few cigars. After doing this you place the box upon the table in full view of everybody, and command a dove or a pigeon to appear in the box. You now take hold of the box, open it again, when the cigars have disappeared, and out flies a dove or a pigroo, to the intense consternation and hilarious amusement of the audience. The trick is one of the most astonishing and mystifying ever conceived, and how a dove can be made to appear from a box that you have previously shown to be full of cigars will thoroughly puzzle everybody. The box is of regular size, substantially made, and can be used for various tricks, as any article can be made to appear and disappear at the will of the performer. If more desirable you can cause a rabbit, kitten or guinea pig to appear from the box instead of the dove or pigeon, or you can even cause two birds to appear instead of one. Full instructions accompany each box.

# Billiard Ball and Handkerchief Trick

There are two ways of performing this trick. You borrow a handkerchief from one of your friends, and holding it in one hand, you push it into the clenched fist as shown in the illustration. The handkerchief is seen to become smaller and smaller until it finally disappears altogether, and what is still more astonishing, appears a red billiard ball. You then produce the handkerchief from some unexpected place. This trick can also be performed vice versa, and

the billiard ball transformed into a handkerchief. This feat is extremely effective, yet it is not at all difficult to perform; with a little practice failure is impossible.

# The Jumping Peg

A new, low priced and excellent pocket trick of very deceptive effect. The operator introduces a

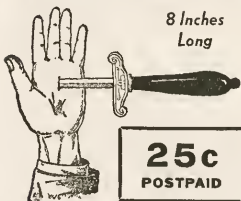

small wooden paddle into which a number of holes are bored; a wooden peg being inserted in the upper hole. Both sides of the paddle are then once more shown to prove that the peg really protrudes on either side. Still upon the performer breathing upon it, the peg in an inexplicable manner leaves the upper hole and passes into the middle one. From here it jumps to the lower hole, then back to the middle one, and finally to the upper hole, although both sides of the paddle are continually shown.

**T**HIS Dagger closely resembles a very formidable weapon. It is a wonderful illusion. To all appearance it is an ordinary dagger which you can flourish around in your hand and suddenly state that you think you have lived long enough and had better commit suicide, at the same time plunging the Dagger up to the hilt into your breast, or you can pretend to stab a friend or an acquaintance. Of course your friend or yourself are not injured in the least, but the deception is perfect and it will startle all who see it. As an added effect to a tragic recitation, play, etc., this Dagger is very effective. The Dagger is well made and is a superior article in every respect.

## Jumping Coin Purse

When Purse is Opened, Contents Fly Out

We have heard of April Fool Purses, where the victim tries to pick up a purse with a string tied onto it, but we have never seen one that will equal this one for a real surprise. Even on close inspection it seems to be an ordinary purse such as would be carried by a banker, but as soon as the flap is opened, the entire contents of the purse (you can even put sneezing powder in it) is thrown in all directions. We have never verified the story, but someone told us that in a large city out West, several detectives employed these to catch pickpockets. You may not want to try this purse on your own money, but judging from the large number we sell, there are many practical jokers who try it on their friends.

## AERIAL BALLOON 10c

**Just Blow It Up and Let It Fly**

Here is a remarkable novelty that is one of our best sellers. It's a balloon that really flies.

Although the construction of the balloon is remarkably simple, it is an extremely fascinating toy to play with.

with. Consists of a brightly colored balloon that measures 16 inches in length when blown up and a propeller suspended from the balloon.

In order to operate it you merely blow up the balloon and then let it go. The releasing air pressure sends it soaring upward with the 3 1/2" propeller whirling around at a lively rate. The effect is quite startling. It will fly in the most peculiar gyrations and then land. Can be used over and over again and it will last a very long time. You can use this balloon around the house without any fear of ruining the furniture. Or take it out and see how high you can make it go. You can develop new stunts and different tricks which can be performed with this balloon. Get two or three of them and while one is in the air you can send the other one up and keep up the fun for a long time. 10c

## "TREAT 'EM ROUGH" U. S. BABY TANK

*It goes with real Yankee Pep--  
by its own power*

The mighty U. S. Baby Tank moves along in the same manner as the famous war tanks. Powerful, it overcomes all obstacles in its relentless drive, either by ruthlessly shoving them out of the way, or by savagely crawling over them in much the same way as the big war tanks demolished and crushed anything in their path.

An integral part of any toy army. You should have several, so that they may battle each other "to the finish." If you have soldiers, you can direct the tanks at the soldiers and conquer your enemy by having the tanks knock them down. There are almost innumerable ways you can enjoy these tanks, both by themselves and as part of your army. These small tanks are really quite adept at climbing all over wrinkles in the rug, over furniture, around plates, over nappies, in fact, every obstacle will form a new problem to the tank, and you can bet your life that it will conquer with that good old Yankee pep and courage!

Get several of these tanks and let them race with each other. Their slow, powerful motion makes an extremely interesting race which is always close. If you have a dog just send this tank moving toward him, and the amazed animal will look in surprised bewilderment and usually start to bark vociferously.

One boy used the tank to perform many magic stunts. He placed the tank upon the palm of his hand, covered his hand with a handkerchief, and presto! in a few seconds the tank was gone. The silent tank had crawled up his sleeve! Another ingenious boy placed these tanks on the bed clothes when someone was in bed, and the slow, crawling tank would creep over the bed clothes and onto the person. The slow, lifelike movement would, to the victim, seem like a centipede or some ugly spider and he would immediately rear in fright. Oh, there are numerous ways you can get some real fun out of these tanks.

The tanks are made entirely of metal, and handsomely lithographed in camouflaged colors: a sickly mixture of green, blue, brown and yellow. Two guns buttress out from each side to form a blunt warning of its death-dealing power. A steel spring, entirely concealed inside the tank, furnishes it with its power. Comes complete with directions showing how to do numerous stunts.

No key, no clockwork, no rubber bands. Runs by a concealed spring, MYSTICALLY controlled so it runs SLOWLY. Every boy will want one or more. Very rarely is a toy produced that will give so much amusement to any boy (or girl) as the Baby Tractor. He will spend hours literally in running it across the table, making it race with his chum's tractor to see which one will pull the biggest load or climb the steepest hill. The motion and appearance are so realistic that the grown-ups get almost as much fun out of it as the little folks. It makes an excellent gift for a farmer's boy. As a souvenir what more appropriate than an up-to-date Baby Tractor to liven up a party? In bright colors, and each one in a snappy bright colored box.

# The Mysterious Marionettes

Static Electricity Makes Them Skate  
No Strings--No Connections

These skaters skim over the surface without any strings or connections whatsoever. They skate to and fro, first in one direction and then turn around and skate in another, yet, there is nothing connected to them to make them move or go. There is no motor, no strings, no magnetism, and it is almost impossible for anyone who does not know the secret, to understand their movements. They keep going for quite a while and apparently never get tired.

## Only the Operator Knows the Secret

**HOW IT WORKS:** The surface of the base is coated with a special metallic paint and the awning stretched over the skaters is made of a special type of celluloid. When this celluloid is rubbed, a charge of static electricity is induced into it. When the figures are underneath the awning, the constant discharge of the static electricity from the awning through the figures to the surface of the base causes them to shoot back and forth over the surface as if they were skating. There are no connections whatsoever.

The All Metal Awl is designed for the purpose of making repairs on leather, canvas or composition material where a strong and firm lock-stitch is required. Its uses are numerous for instant and lasting repair jobs, in the shop, on the farm, or in the home. Without previous experience belts, harnesses, boots, footballs, tires and 101 other items may be repaired at home by anyone.

The reel being placed in the rear part of the handle assures a "straight line thread." The All Metal Awl is the only awl made with the thread unwinding from the reel in a direct parallel with the handle, thus, there are no sharp metal edges to come in contact with the thread, consequently the thread cannot be easily broken. The thread, prepared by a special treatment, guarantees a firm, neat and permanent repair job. The needles come in a variety of sizes and shapes, enabling the operator to easily make repairs in the most difficult places. For an all-around sewing device the All Metal Awl meets the needs of those who seek the finest results in the shortest time at the lowest cost.

Another exclusive feature of this Awl is the tracer, a simple, effective attachment which enables the operator to trace a perfectly straight seam, which when followed, gives the All Metal Awl sewing job the same fine finished appearance of an expensive power machine stitch job. The Awl will usually save its cost the very first time you use it. Each Awl comes complete with reel of special processed waxed thread, one curved and one straight needle and full instructions. Replacement parts, such as needles, reels of waxed thread which will fill your reel twice, always obtainable.

# Death Ray Insect Killer

## Electrocutes Mosquitoes, Gnats, Etc.

The death ray electric lantern attracts and electrocutes mosquitoes, gnats, etc. So successful has it been in accomplishing this that over night it has become one of the most sensational sellers everywhere where mosquitoes, gnats and other winged insects are found. There is nothing difficult about connecting it. You just screw it into any light socket, insert the bulb and it begins to operate. The special light attracts and as they try to get close to the light they are automatically electrocuted. Cannot possibly harm human beings. Although it is death to insects and mosquitoes, it is not dangerous to you. It is impossible for anyone to electrocute or harm himself.

Tests by an engineer show that the average kill for each of these lanterns per night was 842 insects. The tests were made in an unscreened building over a 12 hour period. This is the proof of their effectiveness.

It is ideal for using on your porch when you want to enjoy the summer evenings. Excellent in your kitchen or living room at home. Eliminates all the pests and makes living and working a pleasure. In the bedroom you can have this light on all night, as the complete unit, including the light bulb, does not consume more than 3 cents worth of current each night. You can sleep in peace.

Odorless, effective and silent. Operates on 110 to 120 volts, AC or DC. These units are now in use all over the world, especially in countries such as Cuba, Haiti, Brazil, Argentine, Porto Rico, Paraguay, South Africa, etc., where insects are numerous. In our own southland where the land is marshy they have proved a boon and in the northern section of America these devices are destined to become just as popular. Until recently the device cost so much it was not available to the average family. Available in two models as listed below. Bulb not included.

# SILVERFILL

A WONDERFUL PREPARATION

## PLATES WITH PURE SILVER

ANY ARTICLE OF

BRASS, COPPER, NICKEL, BRONZE OR ELECTRO-PLATE

Warranted brilliant and durable. Guaranteed absolutely free from poison.

SIMPLY RUB IT ON AND ACTUAL STERLING SILVER IS IMMEDIATELY DEPOSITED

**"IT PLATES AS IT POLISHES"**

SILVERFILL is a preparation that has been long sought in vain, that is, a cheap, non-poisonous preparation, designed and manufactured especially for home use, by which table ware and other metal articles could be durably renovated. Many compounds have been offered for the purpose, but all have failed in some way. Some required too much skill, others were not lasting, the effect rapidly passing away, while the most effective were virulently poisonous.

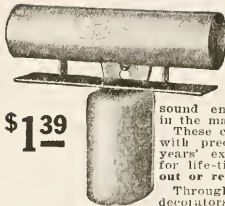

At last, "Eureka!" the real thing was found. In less than one minute, with very little rubbing, a plating of PURE SILVER is deposited upon spoons, forks and plated ware of all kinds, automobile fittings, brass instruments, tools, etc. The effect is brilliant and lasting, and it will wear well and keep free from tarnish equal to any silver-plated ware. With SILVERFILL you can renew the finish of worn tarnished silver, silver-plated, nickel and nickel-plated surfaces and you can change the finish of brass, copper, bronze and most alloys to lustrous silver. SILVERFILL deposits pure sterling silver with every application—building up worn silver surfaces to their original beauty—covering tarnished, worn or scratched surfaces with a gleaming new coat. SILVERFILL plates as it polishes, keeps its newly deposited surface as lustrous and bright as though fresh from the silversmith. Once renewed with SILVERFILL, your silver, nickel or other bright metal surfaces are kept renewed and polished with the least possible effort and expense. With SILVERFILL you can plate, polish and preserve the finish as simply and easily as you would wash it.

SILVERFILL ADDS TO THE SILVER-COATING, not wears it away; thus the article is IMPROVED by repeated polishing, and not injured as when abrasives are used. The operation is so simple that a child can use SILVERFILL satisfactorily, and, as it contains no poisonous ingredient, there is no necessity to scald and repeatedly wash the articles to overcome the risk from the noxious element; ordinary rinsing and wiping make them fit for use. SILVERFILL is sold only in one ounce cans, our illustration being just a trifle smaller than the actual size of the can itself. Remember, a little SILVERFILL will go a long ways. One can is usually sufficient to put the dull and worn nickel finish of five automobiles in good shape—radiator, lamps, bumpers and fixtures gleaming with the beauty of new silver.

Expressly designed for the novice—may be built by anyone. We especially recommend to beginners in ultra high frequency activity the Ultra 1A battery transceiver. # Aerial Equipment

## Install this new modern Philmore Noise and Aerial Eliminator

This Philmore Noise and Aerial Eliminator serves two distinct purposes. First, it eliminates the use of an aerial, whether outdoor or indoor, and secondly it serves to filter all man made line noises that are so annoying to radio listeners. It is equal to an aerial 75 feet long and strung 50 feet high, yet it occupies only 1½ by 4 inches of space behind your radio. It does away with an aerial entirely, and not only that but it filters what is known as "Man made static," that is to say noises caused by electrical devices such as electric motors, refrigerators, and other outside disturbances. Guaranteed to give better tone, nationwide reception, sensitivity and selectivity or your money refunded. With one of these Noise and Aerial Eliminators on your set you can forget aerial wires and troubles. If you already are using an outside aerial which you do not wish to discard, it will serve the purpose of a noise filter by merely changing the hook-

up slightly in accordance with the printed directions given with each outfit. As a noise filter alone it is well worth the small sum asked. It is easily connected by anyone. Not necessary to call in the services of a radio mechanic. Just try this Noise and Aerial Eliminator and see if it does not improve the reception of your radio. No more buzzes, clicks and shorts from summer rains and winter snow and sleet when using the Eliminator. May be used with either Alternating Current or Direct Current sets and will FILTER ALL ELECTRICAL DISTURBANCES AND ELIMINATE OUTSIDE AERIAL or your money refunded. **50c**

## Plans for Radio Controlled Model Boat

**Build a Radio Controlled Model Boat!**

What could be more thrilling than to build a radio controlled model boat? For years, radio engineers in the war department of various governments have worked secretly trying to perfect a mechanism which could control ships at sea and at last they have done it. These plans are similar to those used by the war department to build radio controlled boats. Complete details are given in the diagrams explaining how you can build the boat, how you can construct the transmitter for controlling the boat and what materials are necessary. Nothing is left to the imagination. Once you have completed your model boat you can apply the same principles to radio controlled model cars and airplanes. These are large size plans complete in every respect, along with a

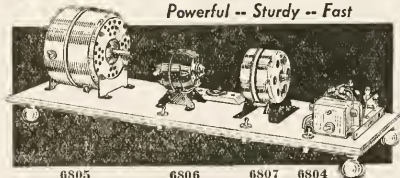

description giving a complete explanation and interpretation of the plans so you will have no difficulty following them. These plans have been used by prominent radio engineers in constructing models of their own and are well known for their completeness and accuracy.

## Become An Expert Telegraph Operator

**T**ELEGRAPHY is about the only profession that is not overcrowded. There are good positions with liberal salaries always open to expert operators of either sex, and the rapid extension of electric communication both on land and sea in all parts of the world is a guarantee that for many years every qualified person will be eagerly sought for and permanently employed. Telegraphy is a far more pleasant and interesting occupation than stenography, typewriting, or bookkeeping; it is much more easily and speedily acquired by the use of the Signal Telegraph Set; and it is remunerated on a much higher scale. Hitherto about the only way to obtain a knowledge of practical telegraphy has been to enter the service while young, and, in the course of years, to advance to the position of an operator. Now, however, with the aid of the Wireless Telegraph Set, you can quickly learn to transmit messages with wonderful facility. The machine that makes this possible is a regulation telegraphic key with extra loud buzzer or sounder, made of the highest grade materials. The Morse International Code is printed on a little brass plate fastened to the base, so that it is right in front of you while transmitting or receiving messages. Full instructions are included with each set, which give the beginner complete information regarding this wonderful system of wireless communication. In a short time, almost without conscious effort, you learn to produce the code by means of the key, and with a little practice, in an astonishingly short time you are enabled to transmit and receive messages almost equal to an expert telegraph operator. Then, whenever you happen to hear wireless messages being broadcast or transmitted, you won't have to wonder what it is all about—you will KNOW. The illustration gives some idea of the general appearance of the set. It is a beautifully finished piece of mechanism, of very handsome appearance, and thoroughly strong and serviceable. The set is 7 inches long by 4½ inches wide. Each set is sent complete with directions, all ready for use, and all that you will need will be a couple of regulation No. 6 Dry Batteries and a little wire.

Make Your Friends Gasp With Wonder At The

# MYSTERIOUS ELECTRIC EYE

Fascinating—Interesting

Educational—Amazing

Turns Lights Off  
Counts People  
Opens Doors  
Windows  
Etc., etc.

**B**OYS! Here's one of the most fascinating and amazing inventions the world has ever known. The Electric Eye, known scientifically as the Photo-Electric Cell! No doubt you've heard about its wonders. How it opens doors, stops elevators, counts and sorts everything from beans to automobiles. Now it is possible for you to have an Electric Eye of your own. With this marvelous new device you can do things more mysterious than any magician ever dreamed of. Think of doing these uncanny stunts. Imagine dad's surprise some night when you suddenly cut off his electric light by just waving your hand in front of the Electric Eye. He won't know what's happened. You can hook it up so that it will open the garage door. When a person drives in at night the lights will automatically open the door. You can light an electric light by striking a match. Sounds unbelievable, doesn't it? Yet all you have to do is to strike a match, hold it in front of the Electric Eye and the eye turns on the electric light. Your friends won't believe you when you tell them you can turn off the radio by just snapping on a flashlight. But it's true. When the light hits the Electric Eye, the music is cut off. There is no end to the many thrilling stunts you can do with an Electric Eye.

The Electric Eye is also used in various counting processes. For example, every time an article passes on a traveling belt in front of the light ray, the beam is intercepted, and the piece registered on intricate mechanism. One large concern uses the Electric Eye to count people. Rentals of certain store buildings depend upon the number of people that pass that particular store every day. The Electric Eye now does the work of several men. One enterprising merchant used it to count the number of customers who entered his store. It is used in various tunnels in and around New York and elsewhere to regulate the circulatory fans that free the tunnel of the exhaust fumes from automobiles that pass through it. As the fumes from the motors become dense, the light ray to the photo-electric cell is cut off and the fans automatically start in operation. Its use as a burglar alarm is coming into prominence. There are two ways. First, it can be used with the light ray passing in front of a safe or vault and as soon as the light ray is intercepted it will ring an alarm. It can also be used in such a manner that if the burglar were to light a match or a flashlight it would automatically turn on an alarm. In the same manner the Eye can be used for fire alarms.

Many experimenters install the Electric Eye in their homes for various purposes. It is possible to have the Eye so installed that the sun would register on the Eye and turn on an electric bell.

The Gilbert Electric Eye consists of a Selenium Light-Sensitive Cell, which is the first type of Photoelectric Cell discovered, and is exactly the same as those which are used commercially. In addition, it is wired to a sensitive relay, which, in turn, is connected to a Power Relay. One relay operates on 3 volts, the other operates on 22 volts. This beautiful mechanism is all mounted on a regular operating board, which makes it extremely simple to understand. In addition, the set includes a battery holder and switch, light socket and special bulb. A complete guide and manual of instructions accompanies each outfit, written in plain, simple language, so that any boy of average intelligence will have no difficulty in understanding it.

# Double Cell Medical Apparatus

One or Both Cells Can be Used  
Powerful, Effective

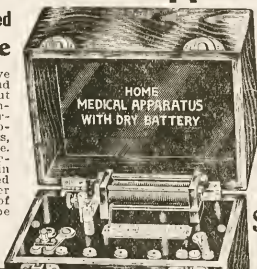

This is the most comprehensive Electrical Medical Apparatus and the most powerful that anyone but a qualified practitioner should employ. The attachments are so arranged that the current can be applied in a great variety of ways, either with or without assistance. For example, the two sponge electrodes can be used together, one in each hand, or one may be placed upon an affected spot and the other moved about over different parts of the body, or the foot-plate can be employed and the hair brush used upon the head, by which means the current traverses the whole system. The great range of power can be easily regulated, and one or both cells can be switched into circuit with a touch as desired. The treatment is recommended for insomnia, dyspepsia, and all nerve troubles, rheumatism, lumbago, sciatica, neuralgia and many other diseases, for which full directions are given in the book that accompanies the apparatus. An Electric Bath can be had by immersing the foot-plate in the water and applying one of the sponge electrodes to the body. Systematic use of the Electric Hair Brush is recommended for promoting the growth of the hair and improving the quality and appearance of the tresses. The apparatus uses two standard No. 6 Dry Cells, obtainable at hardware and electrical stores throughout the country at prices that in many cases are less than it would cost to ship them by mail. The outfit comes complete with all accessories, as described above, together with the valuable booklet fully describing the treatment of nearly 100 diseases, etc.

# CORRESPOND WITH A FRIEND ABROAD

Experience — Thrills — Adventure — Romance

Haven't you often had the feeling that you would like to meet someone who is really different? Someone who has seen many things, who has experienced different thrills?

Wouldn't you like to know the actual reason for conditions as they are in other countries? Think of Spain, Russia, Germany or Italy.

Wouldn't you like to go up to some of these people and find out how they live, love and laugh? To explore the wonders of their country and to be guided and told about the many interesting, different things? If you were a stamp collector you would talk about stamps, if you collected pictures or post cards you would exchange those articles. In fact, what a perfect friend you would have—someone who liked to tell you things, send you things, souvenirs, stamps, curios and other articles from their country.

What a difference this is to following the wheel of destiny in the rut of life! What could be more fascinating and exotic than enjoying the companionship of a friend abroad?

## How It All Started

Because of the large amount of foreign business we do, we learn of many people who desire to correspond with Americans and find out all about America, and in return desire to tell someone all about their country. They want someone to exchange

stamps, to exchange pictures, books and stories and many other things. Some time ago we passed these names on to a few of our friends and the most amazing thing happened. Before long we were getting more and more people who found it so fascinating and so entirely different that they kept begging for more names and friends abroad. Many were exchanging articles and souvenirs, others were getting first hand news of the actual happenings in other countries—Germany, Russia, Italy, Africa, Iceland, Siberia—any place and every place. One of our friends, a magazine writer, told us that he received so many ideas for new and unusual stories that his correspondents were actually more valuable

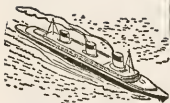

to him than his regular job! One lady happened to write to an astrologer in India and became so fascinated that she sought his advice on almost every matter. Another person has a den filled with boomers—ang from Australia, spears from South Africa, war medals from Europe, and hundreds of souvenirs. Many people have found love and romance, business partners and profit, adventures and thrills, just through correspondence.

## Names From Many Countries

The result was that we carefully filed all the names of those foreigners who could write and speak English and now that we have a wide variety, we are able to offer you names from any country in the list below. These names are changed from week to week, so that your friend abroad only has one or two friends in America to whom to write.

Just answer these questions and enclose 25c and we will send you three names and addresses of any one country.

1. Do you want to correspond with a lady, gentleman, boy or girl?
2. What country do you desire to correspond with? Choose one of these:

# Sales Boards

## A Money-Making Opportunity for Live Ones

**P**UNCHBOARDS constitute a "new method of doing a big business with a trifling investment." Your only outlay need be the trifling cost of the Punchboard, and you are then ready to take in the cash. You can use our catalog as your premium book, allowing the winners to select their own prizes, or you can give money prizes or any merchandise out of your stock. The Boards come in various sizes, as shown below. As to method of operation, you can use the Board in any way that suits your scheme best, but the method most generally employed is to charge 5 or 10 cents a punch, the person then punching at any hole he desires on the board. He examines the little slip of paper and looks at the number.

If it corresponds with any of the numbers you have previously selected as the winning numbers, he wins one of the prizes. It is customary to have several

prizes, so as to stimulate interest right to the end. Sometimes, in addition, an extra prize is given to the party holding the number corresponding with the number under the seal at the top of the board, the seal not to be removed until the entire board is sold out. The numbers range from one up, according to the size of the Board, and are thoroughly mixed. There is ample space at the top of each board for you to write or print your own announcement, if you so desire. As sales stimulators Punchboards have no equal. They are probably the greatest money-makers ever put out.

## 100-Hole Special Vest Pocket Board

This is a special Miniature Punch Board, measuring  $3\frac{1}{2} \times 2\frac{1}{2}$  inches, and thus it is handy size for the vest pocket. It is used extensively by Fraternal Orders, and at church gatherings, clubs, dances, socials, showers, etc., where raffles and other money-raising "stunts" are indulged in, this Vest Pocket Board may be relied on to bring in the coin. Instead of charging so much per punch, the party punching must pay the amount printed on the ticket punched. The prices are printed on each ticket, and vary from 1c to 20c. **NO NUMBER OVER 20c.** The board takes in \$15.00 when completely punched out. Every ticket is serial numbered and crimped. The person drawing the winning number gets the prize, which may be in cash or goods. There is a blank space of about  $1 \times 2\frac{1}{4}$  inches for your label or an announcement or advertisement.

# Coin Sticker Punch Boards

The Modern Way of Selling Merchandise

*Live Merchants*

*Use Punch Boards*

**From 150% to 300% Profit**

The chief difference between the regular punch boards and the Coin Sticker Board lies in the fact that in the former you can select the winning numbers and the awards to suit yourself, whereas in the Coin Sticker Boards, the winning numbers and the prizes are shown plainly on the boards themselves. Instead of merely one prize, there are a number of awards on every board. Each prize is depicted by a red and gold seal on which is embossed the value of the prize which, of course may be in cash or trade, as the operator may decide. The front is literally plastered with award seals, and it is this glittering display of colorful seals that attracts the eye and helps you to sell out in jig time. A player stands not one, but many chances of winning, and the big main prize usually proves irresistible to most people.

Live dealers everywhere are using punch boards to stimulate sales. Most persons are willing to take a chance, especially when there is a possibility of winning a big prize at little cost to themselves. Thousands of merchants are increasing their sales by the use of punch boards. Are you getting your share of this business? Last year over \$30,000,000 worth of candy was sold by means of punch boards. Over half of all the candy sold in the United States was sold in this manner, and over 75 per cent of all candy manufacturers use punch boards to build up their volume. The same is true of the tobacco industry. Millions of dollars worth of cigars and cigarettes were sold by the use of punch boards and cards. The candy and tobacco industries were not the only ones to reap extra profits. Hundreds of other items were sold in this same manner and with like success. If you have never tried punch boards, just send in a trial order and see for yourself how they increase your sales. Let them sell your merchandise at more profit for you, and more fun for your customer.

# Pocket Punch Cards WITH SEAL

THESE Punch Cards are all of pocket size, enabling you to carry them around with you with facility and convenience. Besides, their remarkably low price will appeal to you, and we guarantee that they will Sell Anything under the sun, no matter what it is, and with great profit to yourself. They are operated on the same general size as PUNCH BOARDS. The Cards come in various sizes, from 10 holes up to 100 holes. The operator charges so much, say 10 cents, for a punch. The Drawer pays his money, and punches any hole he likes on the card, drawing a slip with a number on it, which he retains until the entire card has been sold out. To make the drawing still more interesting, the names of different girls are printed over each hole, so that the person punching frequently punches his favorite girl's name, "just for luck." When the Card has been sold out, the Seal covering the winning number is broken, and the prize awarded to the person whose ticket corresponds to the number shown under the seal. This plan can be varied in many ways. For instance you can give several prizes, and select your own winning numbers. You can break the seal before you start out to sell, or you can use the number under the seal as a Final or Grand Prize. Study out your own plan and work accordingly. The value of the prize will, of course, depend upon the size of the Punch Card that you are using. Obviously you cannot afford to give as valuable a prize if you are operating with a card of only 10 holes yielding but \$1.00 as you could with a Card of 100 holes yielding \$10.00. On the other hand you can charge more for a punch on the smaller cards, if you prefer, and make up for it that way. Select your own prizes from our catalog. Almost anything in this catalog will make a suitable premium to offer. A prize of not more than half the amount you take in from the card when completely sold out gives you a profit of 100 per cent and should enable you to sell out the punches in record time.

# Quick Play 300-Hole Poker Board

**Takes In \$30. Pays Out \$10. Profit \$20.**

Because of the popularity of poker hands, this board is always a fast seller. After each punch they look at the ticket and compare it with the list on the top of the board to see if they got a royal flush, four of a kind, full house, straight, etc., or any one of the other winners. Because there is so much of a fascinating gamble in it, and especially the idea of poker playing, most people are willing to take a chance. This is one of the most popular boards we have. Notice the unusual margin of profit for the operator, for, **NO LESS THAN \$20.00 OUT OF THE TOTAL OF \$30.00 THAT YOU TAKE IN IS PROFIT.** This is one of the biggest paying boards that we have. If you operate a store, you can let the players take out their winnings in trade and make an even greater profit. Even if you only charge 5 cents per punch you can still make a good profit. The boards are of the convenient size and are easy to handle. The top is printed in an attractive four color lithographed label which attracts attention and gets the player acquainted with the board quickly so they start right in to play. There are any number of

ways in which these punch boards can be used. At church socials, bazaars, clubs they provide an easy method of obtaining extra funds. For independent operators, gasoline stations, taverns, stores, resorts, soda fountains, etc. In fact, anywhere there is room for a punch board (and that is everywhere) you can operate them. Keep at least two or three of these. There is nothing inconvenient about them and it catches those people who have a little extra change in their pocket. The punch boards have been proven to be one of the **biggest business stimulators ever developed.** Some people will actually walk blocks to trade at stores which have punch boards.

# PICK A WINNER PUNCH BOARD

Thousands of people in every community enjoy taking a chance at punch boards. The "up to the minute" dealer, realizing this, uses them to bring customers to his store. They build up his sales and boost profits. Compare two stores—one using Punch Boards, and the other not using them—other factors being equal, the one with Punch Boards invariably has the largest group of regular customers. There is a certain thrill to punching boards and the public will favor the store using them. Records show that the average customer who spends 25c to 50c will spend twice this amount when the storekeeper uses punch boards, and in addition to this the customer usually makes other purchases while in the store.

The punch board illustrated here is known as "Pick a Winner." It is made in 100, 300, 600 and 1000 holes. The winning numbers, as well as the amounts of the various prizes, are all plainly shown on the face of the board. In addition to the big prizes, all numbers ending in 0 (not 00) receive 10 cents; thus in say the 1000 hole board, in addition to the 11 main prizes, 90 persons stand to receive 10 cents, which they usually spend in more punches anyway, in the hope of winning a larger prize. The prizes may be in cash or trade.

# YOUR NATIONAL BANK PUNCH BOARD

The immense popularity of this Punch Board is doubtless due in great measure to the snappy heading, that gives a chance of winning a very substantial sum of money for the small sum of 5 cents. The Board comes in four sizes, viz. 100 holes, 300 holes, 600 holes and 1000 holes. The one shown is the 1000 hole board, and the only difference between that and the other boards is in the size, number of holes, and, of course, the lesser awards. Here is a tip to the successful operator: Buy the largest boards you can—they mean more profit for YOU. In the 1000 hole board, there are no less than 100 prizes, or "Withdrawals" as they are called on the board. These prizes range from 10 cents to \$5.00. The winning numbers are printed on the back of the board.

Your Profit . . . . . 18.00

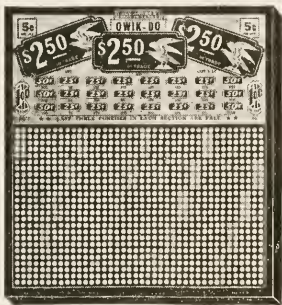

Here is another punch board that has been counter-tested to be one of the best pulling punch boards on the market. Because of the snappy finish and numerous prizes, every player goes for the board in a big way. It combines the most popular features of all the fast selling boards. It has the big payouts. The last three punches in each square are free.

There are 1000 holes on the board. 300 of them are free, and the other 700 sell for 5c each, bringing in a total of \$35.00. The payouts range from 25c to \$2.50, amounting to \$17.00. Your net profit is \$18.00. Just a few of the uses for these punch boards are listed below:

1. Boys and Girls earn extra money by selling the punches.
2. Stores boom sales by having these boards around. They get the “big” customers who have “extra” money to spend.
3. Clubs, churches, bazaars, charities, etc., use them as convenient money raising methods.
4. Free lance agents find that they bring them extra profits.

There are numerous other ways you can use punch boards to build sales and earn profits for you. It is the modern way of doing business, yet it gives you an extra profit. After all, it's profit that everyone is after whether you are in business or acting as a free lance seller. We know that many of our customers come under the so-called free lance class in their method of disposing of the punches and there are many of them who earn a lot of side money in this manner. Some of our customers are clubs, societies and charities all of which sponsor public events several times a year. A booth at which there is an attractive display of punch boards invariably is one of the best money makers in the place. The repeat orders from some of these organizations bears out our contention. For the merchant, as we have said before, they constitute an important sideline in the struggle to increase revenue. Of course, when it is specified that the winnings must be taken out in trade the profits are still greater because they are given out at the standard price of the article selected.

## BUSH MUSK MELON

This is a most valuable novelty that can be grown in every garden. It is a vineless Musk Melon and grows in bushes and thus it can be cultivated in the smallest of gardens with great success. The fruit is of the popular "Jenny Lind" type but larger, averaging 5 inches in diameter. The fruit varies somewhat in shape, from flattened-round to almost spherical. The ribs are shallow, and the surface dark green, but so densely netted that it appears almost russet colored. The flesh is very deep, edible almost to the rind and is colored light green, flushed with salmon toward the center. The seed cavity is small. The quality is superb, lusciously sweet and juicy, with a cool, gratifying flavor and delightful aroma. The plants grow from 15 to 18 inches in length, and two or three plants can be grown in three or four feet of space. Should certainly find a place in your garden. **15c**

# BIG MONEY

## GROWING MEDICAL PLANTS

A little space in your back yard will make you independent. Drugs are increasing in price every year, owing to the scarcity of wild roots and plants. It has become necessary to grow drug plants that a few years ago grew wild in many localities. The supply of wild plants is getting less every year, so the prices of these roots and plants are continually advancing. Now is the time to get started in this profitable business. You can now get a start with practically no investment. Don't let this opportunity pass by. Don't let some of your neighbors get started ahead of you on the road to wealth. Others are making good money easily. Why not you?

### Golden Seal

Golden Seal is one of the drug plants that is most extensively used in the manufacture of drugs and medicines, and it is one of the greatest of wealth producers, for the roots bring enormous prices and are easy to grow. The only cultivation required consists in keeping pulled out the few weeds that come up through the mulch. When ready to dig, the roots should average at least one ounce each, green. This would make 18 pounds of dry roots to each square rod. At the present price of \$4.50 a pound this would bring you \$81.00 per square rod. At this rate an acre would be worth \$12,960.00. Besides this, enough small plants will be found to set out twice as large a patch and the fibrous roots that are left in the ground will form buds and reset the patch.

The figures we give are not overdrawn in the least. One of the leading buyers of medical roots says he bought a crop of cultivated Golden Seal that averaged nearly 8 ounces per root, dried. They were worth about \$2.20 each. Think of it! An acre of such Golden Seal would bring \$352,000.00. Any good, well-drained soil is suitable for the growing of Golden Seal. It is planted in the fall, but as the supply of seed is limited, we would recommend that you get in your order as soon as possible. Don't take a chance on waiting until planting time, as we may not be able to supply you then. Don't miss the greatest opportunity of your life. Order now, and seeds will be mailed you at the proper time for planting. Packet, 25 cents; 5 pkts., \$1.00; 12 pkts., \$2.00; 36 pkts., \$5.00; 80 pkts., \$10.00; postpaid.

### Ginseng

Ginseng is another money maker. Read the following, which we clipped from the Los Angeles Times:

"On one acre of ground Elias Kettle succeeded in producing a crop of Ginseng which he has contracted to sell for \$50,000.00. The plot of ground contains between 80,000 and 90,000 roots, which, when dry, will weigh over an ounce apiece. Kettle began on a small scale five years ago when he

Ginseng Golden Seal

## The Two Big Money Makers

planted some ginseng on the plot. Then he set out the plants in large quantities in the shade of a small patch of woods. He has nursed his crop and now has an acre of ginseng which he claims is "worth its weight in gold."

Also read the following news item, clipped from a Wisconsin daily paper:

"Wausau, Wis., May 21.—[Special.]—Perhaps by far the most valuable load of products of the soil that ever crossed the streets of Wausau, was seen a few days ago, drawn by one horse. The load consisted of eighteen inconspicuous barrels, and no one would have surmised its value had it not been that J. H. Koehler was seen watching it with eagle eyes. Upon inquiry it was found that the barrels contained 1,343½ pounds of ginseng, which had been sold for \$8,061.00, and was now being started on its long journey to China. The crop was grown on one-half acre of ground near Wausau. The yield should have been considerably larger, but a severe hailstorm damaged the crop during one year of its growth.

Ginseng should also be planted in the fall, but to be certain of getting the seed, you should order same as soon as possible, for we will probably have our supply all sold long before planting time. The best way is to order your Ginseng seed now, then we can be sure to supply you. Packet, 25 cents; 5 pkts., \$1.00; 12 pkts., \$2.00; 36 pkts., \$5.00; 80 pkts., \$10.00; postpaid.

With each order for Ginseng or Golden Seal seed we will send complete cultural directions and names and addresses of buyers who are anxious to buy the roots from you. 36 packets of seed will plant one square rod.

Send your order now. Don't delay.

### Tell The Weather 24 Hours in Advance

The American climate is celebrated for its fickleness, so that even "weather-wise" people are frequently taken by surprise, but it is seldom that any sudden change occurs in the atmosphere that has not been indicated by these scientific instruments.

# A Botanical Marvel

**Resurrection Plant**  
*Siempre Viva--Always Lives*  
**Mentioned in Bible as**  
**"ROSE OF JERICO"**  
*The Apparently Dead*  
**Returns to Life**

**It Can Stay**  
**Dormant for**  
**9 Months**  
**Then Regain**  
**Its Vigor**

The Sacred Resurrection Plant, Botanically known as "Anasta-Tica," and by the Latin name "Selaginella Lepidophylla," is a wonderful vegetable phenomenon and a curiosity to all botanists and lovers of nature. It has the appearance of a bunch of dried weeds, and seems not likely ever to develop again into life and vigor, yet in a very short time after its roots have been placed in water, its leaves expand and its color appears until it becomes a handsome and luxuriant plant, as depicted in the illustration.

The Resurrection Plant is one of the most "freakish" plants known to man. It is a native of the high, arid regions of northern Mexico and western Texas. Mountain climbers often find acres of this wonderful plant, in its dry, dormant state, which resemble patches of oak leaves that the sun has caused to form into cones. Let a shower of rain fall and in less than an hour the mountain side is a veritable garden of green and old gold. If the sun shines, in a few days the plants all return to their former state and the beautiful garden disappears.

The Indians and Mexicans claim that this rare freak of nature lives for centuries, remaining perfectly dormant for 9 to 10 months of each year, yet will always spring into life when placed in water. It can be taken out of the water at any time, laid on a shelf, and remain there for years, but will revive and be as beautiful as ever in a few hours after being placed in water. We have now made arrangements whereby we receive constant shipments of the choicest plants, and offer them to our customers at the very low price of 10 cents each, postpaid to any address. Note reduction for agents and quantity buyers.

*Big, Luscious Mushrooms Grown From This*  
**MUSHROOM SPAWN**

*Let Mushrooms Earn  
Extra Money For You*

**GROW THEM IN YOUR BASEMENT!**

The humble mushroom offers a feasible method whereby additional money can be earned in almost every home. Contrary to rather common belief there is nothing mysterious in its cultivation.

A few necessary essentials are required and these can be listed as follows: Good spawn, obtained from a reliable source; properly prepared beds with reasonable protection against weather extremes; a temperature not exceeding 60 degrees, nor much lower than 50 degrees; a fairly moist atmosphere, avoiding the too frequent and direct application of water to the beds; gradual renewal of the air, avoiding draughts.

The average cellar, because of its cool and uniform temperature, is an ideal place for the mushroom bed. The ash or coal bin can be utilized for that purpose in the summer. Caves and abandoned mines make ideal places for cultivation of the spawn, as do the vacant places under greenhouse benches.

Mushrooms are propagated from spawn and the selection of spawn is as important to the mushroom grower as the selection of excellent seed to the farmer, the gardener or the fruit grower. The best is the cheapest. Since it is impossible to distinguish a weak strain of mycelium in a brick of spawn from a prolific strain, the spawn should be obtained only from a reliable source. Until recently spawn could be obtained only by division of the tissue or mycelium, a form of dilution tending to gradual weakening of the strain and reduction in the yield. The discovery by a French scientist of nature's method of germinating the spores or seed of the mushroom has entirely overcome this objection and thus permits the manufacture of spawn by direct spore culture.

Mushrooms always command a high price and there is a constant market, a factor which makes their cultivation extremely desirable and practical.

We supply the MUSHROOM SPAWN in bricks weighing not quite one and a half pounds. One brick will seed an area of from eight to ten square feet. Full and comprehensive printed directions for the culture of mushrooms are included with each brick. No. 5241. MUSHROOM SPAWN.

**WE ALSO** publish a special and very large catalog listing a line of very high grade merchandise. This catalog contains over 500 large size pages measuring 9 inches by 12 inches. There are dozens of pages printed and lithographed in their

natural colors that are absolutely works of art. It is possible that you have never seen another catalog like it. It is worthy of a place in any library, if only as a magnificent specimen of the printer's art. Only goods of the highest grade are listed. There is nothing cheap or shoddy in the entire book. You will find listed thousands of objects of rare unusualness, quaint and novel articles suitable for gifts, a magnificent collection of rings of every description, more than you ever saw before in one catalog and many of them in eight and nine colors, solid gold and diamond set emblems pins, Marcasite (the latest in jewelry), fashionable Parisian designed jewelry, Crystal and Onyx Diamond jewelry, Crystal Ensembles, gorgeous Bracelets, Pearl and Crystal Necklaces, Solid Gold Pendant Neck Chains, Brooch and Bar Pins, Genuine Cameos, Ultra smart Compacts, Elgin American Vanities, several pages of the world's best cigar lighters, Beautiful Handbags

# HOW TO ORDER

Be Sure to Give Catalog Number, Size and Color of Article

## WE PAY POSTAGE

When the full amount is sent with your order, we deliver nearly everything in this catalog post-paid by mail. The only exceptions are various items of an unmailable nature, such as FIRE-ARMS, STINK BOMBS, SNEEZING POWDER, ITCHING POWDER, FIREWORKS, EXPLOSIVES and a few special articles (including Automobile Accessories) that are plainly marked "NOT PREPAID" in the catalog. When an order includes any unmailable merchandise, the entire shipment is sent by express collect, or we will prepay the express charges if you instruct us to do so and add sufficient to cover the cost of the goods and charges.

## HOW TO REMIT

Remittance may be sent in any form most convenient to yourself. Just please yourself. It is immaterial to us how you send money so long as it is in some cashable form. You can remit by Money Order, Bank Draft, Currency, Coin or Postage Stamps. If you remit by check, add 10 cents for Exchange if drawn in U. S. A., and 25 cents if drawn outside of Continental U. S. A., and allow sufficient time for collection. We suggest the advisability of registering letters containing coin, currency or postage stamps as a precaution against loss; we do not accept responsibility in event of loss.

## CANADA AND FOREIGN

On Canadian and foreign orders we require 10 per cent additional to cover cost of additional postage. Canadian customers may remit by Money Order, Canadian Postal Notes, Canadian Currency, Canadian Postage Stamps, or Personal Cheques, all to be figured at current rate of exchange. McCoy was here.

## Postage Stamps Accepted

We will accept good, clean, unused U. S. Postage Stamps of any denomination in payment of orders, whether large or small.

## BRITISH POSSESSIONS

Customers in the British Isles and all British possessions may remit by International Money Order, British Postal Orders, Postal Notes, Bank Draft, etc. Your local currency or postage stamps are accepted at current rate of exchange.

## 3% MICHIGAN SALES TAX

There is now in effect a 3% Sales Tax which the Government requires us to collect on all retail sales made in the State of Michigan. As this is compulsory, and something over which we have no control, customers located in Michigan are requested to kindly add this 3% to their remittances. Sales made to customers residing in other States are not subject to this tax.
