# Introduction

---

**F**or my money, the best hobbies are inexpensive, portable, and beneficial to your health. And one of the best hobbies I can think of is solving crossword puzzles. (As a professional puzzle editor, I admit that I'm ever-so-slightly biased.)

You may be thinking that “inexpensive” and “portable” make sense, but what good can crosswords do for your health? Plenty! I'm not asking you to work crosswords during a yoga class or while you're on a treadmill (although if you can manage it, more power to you!). Crosswords have health benefits even if you're sitting on the couch. Your glutes and abs may not notice whether you've managed to fill in every blank on a crossword puzzle grid, but your synapses will. (Remember synapses? They're the junctions between the neurons in your brain. I talk about them in Chapter 2.)

The benefits of working puzzles occur within your brain. Essentially, working crosswords can do for your mental health what water aerobics do for your cardiovascular health. Whether you realized it or not, you picked up a book that can help your gray matter become fit and trim.

Oh, and by the way, crosswords are a lot of fun too. After all, what good is an inexpensive, portable, healthy hobby if you don't enjoy doing it?

## *About This Book*

The heart of this book is crossword puzzles: page after page of entertaining, challenging crossword puzzles. If you're a puzzling pro and can't wait to dive in, you have my blessing to pick up your pencil (or pen) and go.

But if you've never worked a crossword puzzle before, take heart: I devote the first chapter of this book to explaining the basics of how crosswords are constructed and how they can be solved. I list the various types of clues you'll encounter, resources you may want to have on hand, and how to make solving crosswords a group activity if that's your thing.

If you're even the least bit curious about the health benefits of doing crosswords and other puzzles, spend a little quality time with Chapter 2. In its pages, I explore how you can work on improving your brain's health by getting lots of fun, stimulating mental exercise.

Brain health is a hot topic for a couple key reasons:

- ✓ **A growing senior population:** It's no surprise that we have a large — and expanding — senior population in the United States. As of this writing, more than 37 million Americans are 65 or older. The U.S. Census Bureau projects that by the year 2050, that number will grow to more than 86 million!
- ✓ **The prevalence of Alzheimer's:** We also have many cases of Alzheimer's disease in our midst. The Alzheimer's Association estimates that more than 5 million Americans are living with the disease now and that 10 million Baby Boomers will develop Alzheimer's during their lifetime.

If you're north of 60, chances are you know someone — or several someones — struggling with the harsh realities of mental deficiency. And chances are you're willing to work hard to avoid the same fate. A growing body of research indicates that there are concrete (and often very simple) steps you can take to give your brain the proper fuel for long-term fitness. Chapter 2 offers lots of ideas for how to start a mental fitness routine.

## *Conventions Used in This Book*

I include a handful of Web site addresses in this book so you can explore additional resources if you'd like. The Web addresses appear in `monofont`, which makes them easier to locate if you want to go back and find them after you're done reading.

Keep in mind that when this book was printed, some Web addresses may have needed to break across two lines of text. If that happened, rest assured that we haven't put in any extra characters (such as hyphens) to indicate the break. So, when using one of these Web addresses, just type in exactly what you see in this book, pretending as though the line break doesn't exist.

## *Foolish Assumptions*

I try not to make any assumptions about how much experience you have with working the types of puzzles that appear in this book. That's why Chapter 1 helps you get familiar with crosswords and how to solve them. That's also why I include puzzles of varying levels of difficulty in this book. I've grouped puzzles together into four categories: Easy, Tricky, Tough, and Treacherous. So whether you're a crossword novice or expert, you'll find puzzles to give you the challenge you need.

---

My only assumption is that you want to have fun and stimulate your brain at the same time. Oh, and that you bring two critical tools with you: pencils and patience!

## *How This Book Is Organized*

The bulk of this book is devoted to what you came looking for: crossword puzzles (and their solutions). But I've tucked a few extra goodies around that exciting center.

### *Part I: Crossword Strategies and Brain Benefits*

My first task in this part is to get you familiar with crossword puzzles. If you're a crossword aficionado, you may just want to skim Chapter 1 to see whether you can pick up any new ideas for how to approach a puzzle. If you're new to crosswords, you'll likely benefit from a complete reading of Chapter 1 so you can understand how crossword grids are constructed, what types of clues you're likely to encounter, and how you may want to go about solving each one.

In Chapter 2, I explore some fascinating reasons for spending quality time with this book. I introduce you to what recent research says about the importance of mental exercise and the impact it can have on your cognitive abilities — including your memory — as you age.

### *Part II: Tackling the Puzzles*

If you're looking for the meat of the book, you'll find it in Part II. This part contains 150 crosswords: easy puzzles, challenging puzzles, and maddening puzzles that may have you screaming. I've included puzzles with a variety of themes, so you're certain to find lots that pique your interest.

### *Part III: Checking the Solutions*

One sure way to improve your puzzling skills is to push yourself to find solutions even when you're pretty sure your brain is maxed out. So use Part III as a way to pat yourself on the back after your hard work rather than as a crutch whenever you feel wobbly solving a puzzle.

## *Part IV: The Part of Tens*

Every *For Dummies* book includes a Part of Tens, which features chapters that offer quick bites of information. The morsels I provide include ten of my best tips for solving even the trickiest puzzles and ten great Web resources that you may want to add to your “favorites” list.

### *Icons Used in This Book*

In the Part I chapters, you’ll notice two icons in the margins that help you navigate the text:

When you see this icon, know that the text next to it contains a helpful hint for solving crossword puzzles.

This icon points out information that you want to tuck into your mental filing cabinet — it’s worth holding on to.

### *Where to Go from Here*

Your entry point into this book depends on your relationship with crosswords. If you’re a newbie, I recommend that you spend some time with Chapter 1 before putting pencil to paper.

If you’re already a puzzling pro and picked up this book knowing exactly how to tackle the grid, go ahead and jump into the good stuff: the puzzles in Part II. But even if you’re fairly experienced, consider starting with a puzzle labeled “Easy” — it always helps to get to know the puzzle editor’s style before moving on to the tougher challenges.

My only rule is that you cannot jump directly to Part III! I don’t want you eyeing the solutions before you’ve wine and dined at least one puzzle. But I assume that because you’ve taken the time to read this Introduction, you’re a pretty patient person and you’re not going to spoil your fun by looking at the answers first.

No matter what your crossword background is, I hope you’ll stop by Chapter 2 at some time during your journey through this book. I find the topic of brain fitness fascinating, and I think you will too.

# Crossword

# Strategies and

# Brain Benefits

The 5<sup>th</sup> Wave

By Rich Tennant

### *In this part . . .*

**C**hapter 1 introduces you to the basics of solving a crossword puzzle, including what you're seeing when you look at a crossword grid, resources you may want to have on hand, and tips to apply when you're truly stuck.

In Chapter 2, I explore the mental benefits of scheduling some quality crossword time into your day. I explain what current research says about the importance of exercising your brain, why crosswords fit the bill so perfectly, and what other activities you may want to add to your mental workout routine.

## Chapter 1

# Completing the Grid: How to Solve a Crossword

---

### *In This Chapter*

- ▶ Getting to know crossword elements
  - ▶ Letting the theme guide you
  - ▶ Recognizing various types of clues
  - ▶ Tapping helpful resources
- 

**M**any of us started working crossword puzzles in elementary school, when our teachers had us fill in puzzles that reinforced our spelling, reading, science, or social studies lessons of the day. Chances are you've been familiar with the structure of crossword puzzles for a long time, and you've probably had at least some experience working them.

But that doesn't necessarily mean you're comfortable with them. In fact, you may feel downright nervous when you sit down to work a crossword these days. After all, what better way is there to test how much knowledge you've accumulated — and retained — over the years? And what better way to feel like a complete moron than to find yourself staring blankly at clue after clue?

Maybe you've long avoided crosswords precisely because they point out how much you don't know. And maybe you're now ready to overcome your fears. As I explain in Chapter 2, the benefits of working crosswords are potentially great. Plus, they're a lot of fun — after you get past the fear and frustration.

I offer lots of suggestions in this chapter for how to become a decent crossword puzzler. It doesn't matter what your IQ is or how many years of schooling you've had — you *can* enjoy crosswords, and I'm happy to show you how.

## *Becoming Familiar with Some Puzzle Components*

I want to first explain a few basics about how crossword puzzles are constructed. Maybe you've never thought about it before, but puzzle constructors follow some pretty strict rules when they sit down to create new puzzles. I'm not just talking about the fact that some clues are labeled "Across" because their answers are written horizontally on the crossword grid, and some clues are labeled "Down" because their answers are entered vertically on the grid. The rules they follow are a bit more complicated than that, and knowing them provides information you can use to develop your own crossword-solving strategy. Here are a few key rules:

- ✔ **Each crossword puzzle grid is a perfect square and is perfectly symmetrical.** In other words, the pattern of black and white squares is the same if you look at the puzzle right-side-up and upside-down. These facts don't affect how you solve the puzzle, but they're part of what makes a crossword puzzle a thing of beauty.
- ✔ **On a crossword puzzle grid, you shouldn't encounter any *unchecked squares*** — white squares that are used in an Across entry but not in a Down entry, or vice versa. If unchecked squares were allowed, that would make your life harder — you'd have only one opportunity to figure out what belongs in that square. Instead, you always get two chances to fill a square: by solving the Across clue or the Down clue.
- ✔ **The phrasing of the clues largely determines the difficulty of the puzzle.** The answers themselves may be words you use every day, but the clues may or may not lead you directly to the answers. That's part of the beauty of making crosswords: The puzzle constructor can be straightforward or extremely creative and oblique, depending on how easy or difficult a puzzle needs to be. And that's part of the beauty of working crosswords: The more time you spend with a particular puzzle, the more familiar you'll become with how the puzzle constructor is phrasing the clues.
- ✔ **Each clue should be the same part of speech as its answer.** Puzzle constructors aren't perfect, and sometimes they mess up this rule, but in general you can rely on this being true. If the clue calls for a verb, the answer will be a verb.
- ✔ **No clue should contain a significant word that appears in its answer.** For example, "Chicago Sox" would be a lousy clue for the answer WHITESOX.

If you find yourself attracted to the symmetry of the crossword grid and wondering whether you have what it takes to construct puzzles, pick up a copy of *Crossword Puzzle Challenges For Dummies* by Patrick Berry (Wiley). In it, you'll find all kinds of information about how to craft a terrific crossword.

## Considering the Theme

Many crossword puzzles — including those you find in Part II of this book — are developed around a central theme. What does that mean? It means that the puzzle constructor gives the crossword a title (other than just a number), and some, or possibly all, of the clues in the puzzle relate to that title — another tool to help you establish your puzzle-solving strategy. You just have to figure out what the title means!

Here are a few examples from this book:

- ✔ One of the Easy puzzles in Part II is titled “New Shoes,” as in “Baby needs a new pair of shoes.” Some of the clues and answers relate to gambling.
- ✔ You can find a Tough puzzle titled “Ringing in the Ears” in Part II that contains clues and answers relating to things that make noise.
- ✔ One of the Treacherous puzzles in Part II is titled “Off to the Shrink” and features psychiatric terms and phobias.

## Identifying Specific Types of Hints and Clues

In any crossword puzzle, you’re bound to find various types of clues. In the following sections, I explain some of the most common types you’ll encounter and offer hints for solving them.

### Filling in blanks

The fill-in-the-blank clue is often the easiest type to solve, which is why I mention it first. The clue usually takes the form of a familiar phrase or a title (of a book, movie, play, or TV show, for example). The puzzle constructor has left out one or more words from the phrase or title, and she uses an underline to indicate where those words are missing.

Here’s an example: “*A Tale \_\_\_ Cities.*” Even if you haven’t read Dickens for years, you may recall that the novel referenced here is *A Tale of Two Cities*. That means the answer to this clue is OFTWO, and that’s what you’d write in the crossword grid.

## Answering trivia

The trivia clue is often another fairly easy type of clue to answer. That's because if you don't know the answer to a trivia clue, you can probably find it if you're willing to use outside resources. For example, you may see a clue like "2008 best-director brothers" or "Ben Franklin birthplace." If you don't know that the COENS won the 2008 Oscar for their direction of *No Country for Old Men* or that Franklin was born in BOSTON, chances are you can find out by going online or to the right printed resources.

As I explain in the upcoming section "Gathering Your Resources," some people refuse to use outside resources because they think doing so is equivalent to cheating. I respectfully disagree. Using outside resources is part of the process of increasing your reservoir of knowledge. Ideally, the more puzzles you work, the more information you'll have stored in your brain, and the less frequently you'll need to turn to books or Web sites for help. But I see no shame in using these resources when you need them.

## Punning around

This type of clue can be fairly challenging, depending on how the puzzle constructor phrases it. Unlike with a trivia clue, you probably won't get much help from outside resources to solve puns; you'll be left to your own creative thinking.

The pun clue is often (but not always) followed by a question mark to indicate that a play on words is at hand. Consider this example: The clue is "What cows dance to?" and the answer is MOOSIC. (Feel free to groan.)

## Playing with descriptions

The puzzle constructor can get really creative here because there are endless ways to describe a single word or phrase. To get the answer ORANGE, for example, you might see a clue as simple as "Citrus fruit," which would require that you eliminate other possibilities (such as *lemon*, *grapefruit*, and *lime*) in order to arrive at the right answer. But the puzzle constructor could also pose a more oblique clue, such as "Rhyme eluder," which would require that you understand he's referring to a word that doesn't lend itself easily to rhymes.

## *Solving analogies*

Maybe it has been a while since you took a standardized test, but this type of clue is something that educators love to include on them. Basically, the puzzle constructor offers three pieces of information, and you need to fill in the fourth. The way to do so is to determine the relationship between the first two pieces of information.

For example, you may see a clue such as “Poodle:Dog as Arabian:\_\_\_.” The way to read this clue to yourself is to say “Poodle is to Dog as Arabian is to Blank.” When you figure out the relationship between “Poodle” and “Dog” (a poodle is a breed of dog), you can determine that your answer is HORSE.

## *Figuring out abbreviations*

Answers can sometimes be abbreviations, and the clues should let you know that. An obvious way for the puzzle constructor to tip you off is for the clue to include “Abbr.” For example, the answer to “U.S. central bank: Abbr.” would be FED (instead of FEDERALRESERVE).

Another way that the puzzle constructor can indicate an abbreviation is required is by using an abbreviation within the clue itself. For example, in the sample puzzle shown later in this chapter, the clue for 37 Across is “Hosp. aides.” The fact that you see “Hosp.” instead of “Hospital” tells you that the answer will be an abbreviation (RNAS).

## *Speaking a foreign language*

Just as the puzzle constructor has to let you know when an answer should be an abbreviation, he also must let you know if the answer should be in a foreign language. And as with abbreviations, he has a variety of ways to do so.

If the answer is supposed to be in French, you may see one of the following in the clue:

- ✔ **The tag “(Fr.)”:** The answer to “Love (Fr.)” would be AMOUR, for example. This type of clue is rarely used nowadays.
- ✔ **Where the answer would likely be heard:** The answer to the clue “Love in Paris” would also be AMOUR.
- ✔ **Another word or phrase from the same language:** To arrive at AMOUR, you may see “Love, s’il vous plait,” for example.

## Gathering Your Resources

Let's get real: Most of us can't work a crossword puzzle without a little outside help. Or a lot of it. Even fairly easy crossword puzzles are bound to contain a few clues that stump you. And when you build up the courage to work on the toughies, well . . . you may feel like you're doing battle. And no one should go into battle alone.

Thanks to the Web, the number of resources available to you while you're working a puzzle is pretty much infinite. But that doesn't mean I recommend entering the key words in every clue into a search engine to see where they lead you. Not only does that suck the fun out of puzzling, but it'll also probably lead you astray about 95 percent of the time.

Instead, I recommend that you spend some time gathering a handful of key resources that you're likely to use again and again. Whether you prefer online resources or the hard-copy versions, here are some I suggest you keep handy:

- ✓ A dictionary (particularly a crossword dictionary)
- ✓ A slang dictionary
- ✓ A thesaurus
- ✓ A quotation resource
- ✓ An atlas
- ✓ An almanac

In Chapter 6 at the end of this book, I list some specific Web sites that I consider worth using as resources.

If you have a friend who's particularly brainy or a fellow puzzler, feel free to consider that person part of your resource list as well. Puzzling can absolutely be a shared experience.

Some people consider it cheating to use any outside resource when working a puzzle. I respect that opinion but don't think it works for most of us. The fact is, nobody knows every word in the English language, every city in the world, every source of every quote that's ever been spoken. It doesn't matter how fit your synapses are, you're bound to need help sometimes. And if using an outside resource helps you learn something new, I'm all for it.

## Sample Puzzle: "How Grueling!"

With the information from the preceding sections in mind, consider how you would begin to tackle the following puzzle:

### Across

1. Type of lap dog once owned by Minnie Mouse
5. Road shoulder
9. K-9 attack command
14. Place for an iris
15. Mountains bordering China
16. As a friend, in French
17. They go with studs
19. "Care for \_\_\_ of tea?"
20. Jumble of spilled letters?
21. "A votre \_\_\_!"
22. Scot's "not"
23. Member of a team that visits once per year
25. Historic Dead Sea fortress
29. Old phone user
30. *Saint \_\_\_ Fire*
31. Presley's costar in *Love Me Tender*
32. He can make you safe at home
35. 440-yard-long path
36. Huey and Howie
37. Hosp. aides
38. Battle of nations
39. One of the "Hi ho, hi ho" septet
40. Lead guitarist's output
41. It may be defended by a scholar

43. Flying off the shelves
44. Reply to a knock
46. Org. that gets you out of a rut?
47. Area of South Africa
48. "Perfect!"
54. "Not \_\_\_ in the world"
55. Klingons or Vulcans, for example
56. Most unsatisfactory
57. Lease length, often
58. Expressions of puppy love?
59. Cosmologist Lauder
60. D.C. group
61. Honeymoon interrupter

### Down

1. "\_\_\_ sock in it!"
2. Witch's eye
3. Live up to your promises
4. A pop
5. Cote cry
6. Elmer's contented cow
7. Thoroughly involved
8. Femme fatale of The Muppets
9. Oceanic flavoring
10. Zonkers
11. Early morning favorite
12. Play act
13. Bishop's headdress

18. Domain
24. Explorer John and others
25. Calico's comment
26. Thomas-Edison link
27. A good breakfast for a genius?
28. "You've got mail" co.
29. Borge and Andersen, for example
31. Self-centered chatterboxes
33. Hammerhead kin
34. "Hey you!"
36. "Rikki Don't \_\_\_ That Number"
37. "Get \_\_\_ of it!"
39. Empty out
40. Make good use of class time
42. Suffering from phonasthenia
43. Some Consumer Reports employees
44. Wide-eyed with wonder
45. Fiesta fare
46. Strain of flu
49. Peter Fonda's beekeeping role
50. Nest eggs, briefly
51. John Irving title protagonist
52. Medicare org.
53. Microphone word

1	2	3	4		5	6	7	8		9	10	11	12	13
14					15					16				
17					18					19				
20										21				
					22				23	24				
25	26	27	28				29							
30						31					32	33	34	
35					36					37				
38				39						40				
		41	42						43					
44	45							46						
47						48	49				50	51	52	53
54						55								
56						57					58			
59						60					61			

With your pencil in hand, read through the clues and see whether any seem obvious. I think most people find that fill-in-the-blank clues can be fairly easy, such as these found in our sample puzzle:

- ✓ 19 Across: “Care for \_\_\_\_ of tea?”
- ✓ 30 Across: *Saint* \_\_\_\_ *Fire*
- ✓ 54 Across: “Not \_\_\_\_ in the world”
- ✓ 1 Down: “\_\_\_\_ sock in it!”
- ✓ 37 Down: “Get \_\_\_\_ of it!”

If you can fill in even a half-dozen entries with certainty in this first stage, that’s a great start.

Next, go back and troll the clues for less-obvious items that you can answer with at least some confidence — especially those that intersect with the entries you’ve got on the grid already. If you *think* you may have an answer but aren’t certain, pencil the entry in lightly on the grid. If you get confirmation that one or more letters is correct (by solving clues that intersect with that entry), you’ve saved the time of having to return to that clue later.

Because our sample crossword has a theme, you may next want to consider how that theme plays out in the grid. If you’ve solved a few clues already, you’ll notice that they don’t all relate to the theme. But keeping in mind that some entries will be food-related (that’s where the “gruel” comes from) may put you in the right frame of mind to solve some clues. For example, 20 Across (“Jumble of spilled letters?”) may lead you to ALPHABITS more quickly if the theme is on your mind.

As a next step, consider which clues could be solved more easily if you consulted an outside resource. For example, you could probably solve 15 Across (“Mountains bordering China”) and 25 Across (“Historic Dead Sea fortress”) with the help of your favorite search engine. If you’re willing to go that route, now would be a good time to fill in some additional entries by consulting your resources.

Identifying plural entries may be a good next step. For example, 17 Across (“They go with studs”), 31 Down (“Self-centered chatterboxes”), and 50 Down (“Nest eggs, briefly”) seem likely to end in S. (And, in fact, they all do.) You can pencil in that letter on the grid until you solve the clues themselves. It may seem like small potatoes, but you never know when a single letter may help solve an intersecting clue!

Speaking of 50 Down (“Nest eggs, briefly”), it’s a good example of the creative ways that puzzle constructors alert you that entries need to be abbreviations. You don’t see “Abbr.” here, but “briefly” is a hint that the answer will be abbreviated — in this case, IRAS.

If you've made it this far and still have lots of blank boxes staring you in the face, don't sweat it. Be proud of what you've accomplished already, take a break from this puzzle, and come back to it with fresh eyes later. Or, if friends or family members are nearby, share some clues and see whether they can help with one or two. You may be surprised by how solving just one clue can unlock other entries that had you stumped before.

And when you're truly ready to close the book on this sample puzzle, feel free to turn to the beginning of Part III for its solution.

## Chapter 2

# Staying Sharp: Giving Your Brain a Workout

---

### *In This Chapter*

- ▶ Realizing why brain fitness matters
  - ▶ Being mentally active every day
  - ▶ Working crosswords into your mental fitness routine
  - ▶ Finding out more
- 

**T**onight on my local PBS station, the prime-time program is titled *Magnificent Mind at Any Age*. It's described as exploring "the many natural ways that we can not only keep our brains healthy as we age, but improve and enhance our brain power." Shows like this — along with countless newspaper and magazine articles, books, and Web sites — are increasingly focusing our attention on the subject of brain fitness.

Maybe you're a PBS fan and already know lots about this subject. Maybe you and your doctor have talked about how to prevent and even potentially reverse signs of brain aging. Or maybe these words are the first you've ever read about this exciting topic, in which case I feel privileged to introduce it to you! Either way, I hope this chapter opens your mind to new ideas about how to keep itself sharp throughout your golden years.

## *Stimulating Your Brain: It's Never Too Late*

You may have been raised to believe that education is for kids and at a certain point, adults know everything they need to know to survive. And that may be true. But what you need to survive is much different than what you need to thrive, and I suspect most of us are more interested in thriving.

An ever-growing body of scientific research demonstrates that what our brains require in order to thrive — especially as our bodies get older — is lots of stimulation. I'm not talking about loud music or pungent smells here: I'm talking about the type of stimulation that encourages you to think new thoughts, get creative, and push your brain to work harder than ever before.

Work harder? Isn't that a bit unfair? After all, you get to a certain age and expect to reap some benefits from all the work you've done before. You know more now than you did when you were 16, right? Why isn't that good enough?

Your brain can't rest on its laurels any more than your body can rest on its past achievements. Maybe when you were 16 you could do 50 pushups without breaking a sweat, but that doesn't mean you've got arms of steel today. We all know that our bodies change — significantly — as we age. What you also need to know is that your brain changes in similar ways. And just as you recognize the need to exercise in order to fend off the worst effects of aging on your body, you must also recognize the value of exercising your brain.

## *Touring your brain*

To follow the logic behind the brain fitness phenomenon, I'm going to take you on a quick tour of what's happening in your brain right now. I'll start with a couple key definitions:

- ✓ **Neurons:** *Neurons* are cells that control your central nervous system: your brain and spinal column, and the nerves connected to them.
- ✓ **Synapses:** *Synapses* are tiny gaps between the neurons in your brain.

When synapses are working correctly, they allow your neurons to communicate with each other, which keeps your nervous system functioning the way it should. Your nervous system must function properly in order for you to learn new things, retain information, and use your powers of logic and reason.

You have about 100 billion neurons in your brain. And you have literally trillions of synapses — possibly even a *quadrillion* (that's a 1 followed by 15 zeroes). With numbers like that, it may seem as if you have plenty to spare. However, as you age, your synapses deteriorate. And because your brain activity takes place courtesy of synapses, their deterioration equates to a decrease in your brain function, including memory.

So to have a healthy mind, you must keep your synapses in top condition. How do you do that? Keep reading!

## Looking at recent research

In the late 1980s, a study published in the *Annals of Neurology* raised questions about why some people develop symptoms of Alzheimer's disease and others don't. Autopsies were conducted on 137 nursing home patients. As expected, the brains of those who had demonstrated symptoms of Alzheimer's were filled with *plaques* (brain deposits made up of dead cells and proteins) and *tangles* (nerve cells that had become tangled together) — characteristic physical signs associated with the disease.

Here's the unexpected part: The brains of ten patients who *didn't* show any symptoms of Alzheimer's contained the same levels of plaques and tangles. If the physical reasons for the disease were present in those people, why didn't they get the symptoms?

There was another twist: The ten patients in question had heavier brains and more neurons than they should have had given their age. What made these ten people different from their peers?

As a result of this study, a new theory emerged: the *cognitive reserve* theory. It essentially says that people who have a larger reserve of neurons and stronger cognitive abilities can tolerate some brain deterioration without showing symptoms. In other words, the more you use your brain, the greater your chances of avoiding symptoms of Alzheimer's. Strong stuff, huh?

Obviously, no one is offering guarantees here. I can't promise that anything I suggest in this book will add *X* number of years to your life, and that those years will be free of any symptoms of memory loss or other mental decline. But study after study in the past two decades has shown that mental activity can have a positive effect on your quality of life in the long run, and I can't argue with that.

How do you build a cognitive reserve? The same ways that you keep your synapses happy and healthy. Keep reading — I offer specific suggestions starting in the next section of this chapter.

The key to a strong cognitive reserve seems to be to start as early as you can. The younger you are when you begin actively pursuing brain fitness, the greater the reserve you can accumulate. But assuming you're already past "early," don't panic — just make the commitment to start now. Some studies have shown that even people well into their 70s can improve their cognitive health by making lifestyle changes and increasing their mental stimulation.

## Creating a New Health Routine

The way I see it, there are two broad categories of activities you can do to take care of your gray matter:

- ✔ The things you're already supposed to be doing to improve your physical health
- ✔ Things that specifically rev up your brain by giving it more stimulation than it's used to

I discuss each category in turn.

### Following your doctor's advice

Here's a lightning-quick tour through some activities you're supposed to do to benefit your physical health — which also have pleasant side effects for your brain:

- ✔ **Reduce stress.** You probably already know that stress affects blood pressure, heart function, and much more. But did you know that stress causes synapses to malfunction?  
  
Long-term stress can cause a *neurotransmitter* (a chemical that carries messages between nerve cells) called *glutamate* to build up in your synapses. If enough of it accumulates, it can become toxic and interfere with your memory and your ability to learn.
- ✔ **Get aerobic exercise.** Aerobic exercise can strengthen your heart and help you manage and resist stress. A bonus: Studies suggest that it also stimulates the creation of new neurons and strengthens the connections between them.
- ✔ **Eat a diet rich in antioxidant foods.** If your physical health alone hasn't inspired you to stock up on blueberries and spinach, do so for your mental health. Foods rich in antioxidants may help counteract effects of free radicals in your brain. (*Free radicals* are molecules that contain oxygen and attack cells throughout your body. They have been linked to cancer and heart disease, as well as brain deterioration.)
- ✔ **Control high blood pressure and diabetes.** A study published in the journal *Neurology* in 2001 showed that the mental abilities of participants with high blood pressure or diabetes declined more rapidly than those of other participants. High blood pressure is a risk factor for a condition called *vascular dementia*, in which a series of tiny strokes can affect memory and other cognitive abilities.

Early diagnosis and tight control of these conditions may help prevent some of the ill effects on your cognitive health.

## *Revving up your synapses*

So you're already trying to reduce your stress, exercise, eat right, and get serious health conditions under control. What else could you possibly have time for?

Please believe me when I say that stimulating your brain doesn't have to be a complicated process. And it certainly isn't a one-size-fits-all proposition. In a nutshell, here are the goals:

- ✔ To encourage your brain to work in new ways by engaging in new activities or doing your routine activities in new ways
- ✔ To achieve the first goal on an ongoing basis, which means continually shaking up your routines

An infinite number of roads can lead to these goals. Here are just a handful of ideas to get you thinking:

- ✔ **Add new workouts to your exercise routine:** Not only will your muscles be challenged, but if you're trying something new to you, your mind will have to be engaged as well. Consider doing something truly challenging, such as taking a dance class or joining a sports team for seniors.
- ✔ **Volunteer for an organization that truly interests you:** Make sure you're coming from a place of genuine interest — not obligation. Choose an organization whose mission you find fascinating, and let the staff know that you're eager to learn new things.
- ✔ **Read something new:** One of the best ways to boost your brain power is to read more — and to read more carefully. Consider types of books and magazines that you've never picked up before. If the only books on your shelf are mystery novels but you think historical biographies might pique your interest, visit the library and give one a try.
- ✔ **Take a class:** Some colleges and universities offer special programs that allow seniors to take courses at discounted tuition rates. Also, check with community centers, churches, and other nonprofit organizations that may offer classes. Again, new is best: If you've been knitting for 40 years, an introductory knitting class may offer social opportunities (which are always good for mental stimulation) but not much in the way of a challenge.
- ✔ **Get together with friends:** Staying social is key to keeping your brain in gear. But don't get stuck in routines: If you find yourself hearing the same conversations every time you see certain people, figure out how to shake things up.

Come armed with questions to ask about current events, politics, movies, books . . . anything that may get all of you thinking and interacting in new ways.

- ✔ **Tackle some puzzles:** In the next section, I talk about how crosswords can play a part in your mental fitness routine. But don't limit yourself to crosswords. Sudoku, logic puzzles, riddles, word searches . . . any type of puzzle that really engages you is going to get your mind working.

Whatever activities you choose to do to keep your brain stimulated, you need to enjoy them enough to do them regularly. You can't get your body fit by working out three hours in a row and then ignoring your health altogether for two weeks (because you're so sore from the marathon workout that you can't move!). You benefit much more from working out consistently for shorter amounts of time — for example, every day for 30 minutes, or four days a week for 45 minutes each time.

The same is true of mental exercise. Your goal should be to make time for mental stimulation at least several days a week, if not every day. If you can't devote time to working a crossword puzzle or taking a class every day, no problem. But don't let a month go by between mental workouts.

## Realizing Why Crosswords Fit the Bill

Working a crossword puzzle is all about stimulating your mind and testing your memory. Any given clue is going to prompt you to pore through your mental filing cabinet searching for names, places, events, foreign words, and other items that you knew once upon a time but perhaps haven't thought about in years.

Working crosswords on a regular basis can give your memory a boost for a couple reasons:

- ✔ **The more puzzles you work, the more you'll want to rely on your own knowledge base for answers (as opposed to using outside resources).** It's simply more satisfying to pull the answer from your own brain than to pull it from an atlas or a Web search engine.
- ✔ **You'll discover that puzzle constructors have certain words that they like to work into puzzles on a regular basis.** The more of these words you commit to memory, the easier working crosswords becomes.

## *Demanding discipline*

Most crossword puzzles require at least an hour to solve. Some require two hours or more. When you tackle a crossword, you're taking on a pretty serious mental commitment, and succeeding requires discipline.

It's normal to feel frustrated when you get stuck halfway through the puzzle and can't seem to fill in any more entries. But if you're going to complete a crossword grid, you have to develop the discipline to back up, reread clues, consider what resources you may want to consult, and chip away at the empty spaces.

## *Touring the world from your kitchen table*

In Chapter 1, I explain that while some people bristle at the idea of using outside resources to help solve crossword clues, I think doing so is fine. Better than fine, in fact. If you get stuck on a clue, what are your options? You can give up and flip to the solution (*not* my preference), ask someone else for help (a great idea), or check for the answer in a book or on a Web site.

If your goal is to give your brain lots of new fodder, researching challenging answers seems like a great way to accomplish it. With a dictionary, a thesaurus, a book of quotations, and lots of other resources on hand, you have a world of knowledge at your fingertips. And with the crossword clues prompting you, you have lots of motivation to seek out that knowledge.

## *Revisiting your curiosity*

Curiosity is one of the things we love about kids (except when you're on a long car trip with a 3-year-old grandchild in the *why* phase). When a child encounters something completely new, he asks questions about it and genuinely wants to find out more. He wants to understand it and figure out how it relates to the stuff he already knows.

Carrying adult responsibilities (and schedules) often squeezes the life out of curiosity. But working crosswords can inspire you to be more curious. You may find that one little clue with a surprising solution leaves you wanting to know more about why that answer is correct. Feel free to put your puzzle on hold and find out more, right then and there. Your brain will benefit from it.

## *Finding Out More about Brain Fitness: Key Resources*

This chapter barely scratches the surface when it comes to brain fitness, and I encourage you to find out more (especially if you're truly curious about it, because what better way to stimulate your brain than to read about stimulating your brain?). Following is just a handful of resources to consider:

- ✔ **Alzheimer's Association:** From the home page ([www.alz.org](http://www.alz.org)), you can find a wealth of information on the disease. If you click on the "We Can Help" tab and go to "Brain Health," you'll find helpful links, including one to a crossword puzzle site!
- ✔ **American Association of Retired People (AARP):** The Web site, [www.aarp.org/health/brain](http://www.aarp.org/health/brain), features links to articles on the latest brain research and tips for keeping your brain healthy.
- ✔ **Brain Fitness Channel:** At <http://bfc.positscience.com>, you can test your current level of brain fitness, read news stories about brain research, study how the brain functions, take part in online forums that focus on specific subjects that may interest you, and more.
- ✔ **Prevention:** The magazine's Web site ([www.prevention.com](http://www.prevention.com)) features a Brain Fitness section that you access through the "Health" tab on the home page. You'll find lots of articles that link physical and mental fitness, and you can join the Prevention online community to share stories or ask for feedback from other people with similar interests and concerns.
- ✔ **SharpBrains:** The home page of [www.sharpbrains.com](http://www.sharpbrains.com) provides links to more information than any one brain may be able to absorb. Whether you want to read about brain-training software, nutrition, memory, stress management, or just about anything else brain-related, you have a good chance of finding what you're looking for here.

# Part II

# Tackling the Puzzles

The 5th Wave

By Rich Tennant

"FOUR-LETTER WORD FOR RESCUE! FOUR-LETTER WORD FOR RESCUE!"

### *In this part . . .*

**G**ot your pencil ready? Good. Ready for a mental workout? Terrific. In this part, you can choose whatever level of puzzle challenge you feel up to, from Easy to Treacherous. And you can tackle as many puzzles as you'd like, all at the same time. (Doing so can ease the frustration of getting stuck on one puzzle for too long.) So settle into a comfortable chair, pick a page, and show that grid who's boss!

## Chapter 3

# Tackling the Puzzles

---

**P**lease be aware that not all crosswords are created equal. Puzzle constructors aim to please, and that means that they create puzzles with a wide variety of difficulty levels to satisfy the needs of a wide variety of puzzle lovers.

The puzzles in this book are labeled by difficulty level. Levels are Easy, Tricky, Tough, and Treacherous, with “Easy” being (of course) the easiest puzzles, and “Treacherous” being the most difficult puzzles.

If you’re new to working crosswords, don’t jump to the puzzles labeled “Treacherous” in this book. Chances are you’ll only get frustrated, and your puzzling career will come to a premature end. It’s sort of like trying to run a 10K race when you’ve never strapped on running shoes before in your life. Be honest with yourself about the difficulty level you can handle. Better to start easy and build your skills slowly than to burn out in a quick burst of frustration.

If you’re going to work the puzzles in your daily newspaper, find out whether the difficulty level is different on different days. For example, *USA TODAY* runs its easiest crosswords on Mondays, and the difficulty level ramps up each day through Friday. (The Universal Sunday puzzle is intended to mirror the difficulty level of a Thursday puzzle.)

When you finish solving all of these puzzles, please see Part III for the answers. Good luck!

## Puzzle 1: A Pinpoint Solution

### Easy

#### Across

1. "Dancing Queen" quartet
5. Chicago terminus
10. Determines a sum
14. Agile deer
15. Body parts that have lifelines
16. Roman numerals for Henry
17. Was right on time
20. *You \_\_\_ Your Life*
21. Eagle by the sea
22. Eat away at the beach?
23. Sound from the meadow
24. They're found beside temples
26. Shrubs with lavender blooms
29. Lawnmower part
30. Sign at a broadcasting station
31. Make judgments
32. Doctor of sci-fi
35. 19th-century England
39. Nice hot time?
40. Garner
41. \_\_\_ *prosequi* (charges will be dropped)
42. Awakens
44. Burns with water
45. Soft, light, and fluffy

48. Galactic bit
49. Regarding birds
50. Cripple
51. \_\_\_ Palmas
54. Starting location
58. Peter Fonda title role
59. Sing Swiss-style
60. *Peyton Place* first name
61. Stack part
62. One cubic meter
63. Lacking in liveliness

#### Down

1. "Ahab the \_\_\_" (Ray Stevens song)
2. Cause yawning
3. Former Miss America host Parks
4. "\_\_\_ was saying . . ."
5. Met productions
6. Common contraction
7. Balm ingredient, perhaps
8. L.B.J.'s successor
9. Low or high end?
10. Not favoring
11. Mischievous pranks
12. Tube invented in 1904
13. Internet destinations
18. Zipper substitute
19. Beer foam
23. Can of worms, maybe
24. Geriatric orbiter of '98
25. Item with a gooseneck
26. Puppy follower?
27. "What's \_\_\_ for me?"
28. "Chantilly \_\_\_" (The Big Bopper's biggest hit)
29. "Lions and tigers and \_\_\_, oh my!"
31. Frank account?
32. Humorist Rogers
33. Business phone button
34. English I readings
36. Horse-and-buggy handful
37. Put down stakes?
38. Niagara Falls sound
42. Ear bone
43. Morrison or Tennille
44. Archie Bunker command
45. Cuisine featuring dirty rice
46. Rudimentary seed
47. What X may mean
48. Less hazardous
50. How something is done
51. One not to be believed
52. First name in a Tolstoy novel
53. Seize with a toothpick
55. Sen. Clinton once represented it
56. Came by
57. Word with hat or school

1	2	3	4		5	6	7	8	9		10	11	12	13

## Puzzle 2: Turn-Ons

### Easy

#### Across

1. Bat the breeze
5. Steakhouse order, perhaps
10. "Here comes trouble!"
14. "If I Were a \_\_\_ Man"
15. DNA structure
16. Space-race goal
17. \_\_\_ snuff (adequate)
18. "\_\_\_ we all!"
19. Pierce player on *M\*A\*S\*H*
20. Early yarn machine
23. Fiji's neighbor
24. Wee colonist
25. Talk, talk, talk
28. Start of a cheer
32. Greg's sitcom wife
34. Half-wit
38. Cafe au \_\_\_
39. He goes in circles
42. Tennis star Mandlikova
43. Porridge-type foods
44. With fervor
47. Bad to the bone
48. Herbal brew
49. Driver of a four-horse chariot, in myth
51. Jed Clampett portrayer Buddy
56. Certain halftime performers

61. The world, to Mr. Magoo
63. Pope John Paul II's first name
64. Strip the skin off
65. Vidal's Breckenridge
66. Play hard to get
67. "Beauty \_\_\_ the eye . . ."
68. What some willows do?
69. "Walk Away \_\_\_" (Four Tops)
70. Baby duster

#### Down

1. The mashed potatoes on shepherd's pie
2. *Fantasia* ballerina
3. Be a cast member of
4. Beachwear that leaves little to the imagination
5. Cambodian's neighbor
6. Swiss capital
7. Mr. Cassini
8. Old Japanese mercenary
9. Stretch outward
10. Arabian monarchy
11. Famed chalice
12. East of Eden
13. Stop \_\_\_ dime
21. Bellybutton
22. Nonacademic degree
26. Out of order
27. Financial shellacking
29. Roll call reply in French class
30. Italian wine
31. Aquarium microorganisms
33. Thomas \_\_\_ Edison
34. "\_\_\_ a dream" (Martin Luther King)
35. Kind of golf
36. One of the Brady Bunch
37. 1999 Ron Howard film
39. "Huh?"
40. Beatles label
41. Make available to new tenants
45. Island necklace
46. *The New* \_\_\_ (humor magazine)
50. Bondservant
52. Suit
53. Dance or sauce
54. Correspondence created on keyboards
55. Former boy-band
57. Fur stole
58. Ayatollah's land
59. Lymph, for one
60. Feeling of delight
61. Pricy wheels
62. Caustic substance

1	2	3	4		5	6	7	8	9		10	11	12	13

## Puzzle 3: Shoot!

### Easy

#### Across

1. Latch on to
6. Part of an abbey, perhaps
10. Kids' getaway
14. Studio alert
15. Santa's revenge
16. Canton locale
17. Aerial maneuver
19. Solidifies
20. Oil or gas, for example
21. Vapid
22. Run around naked
26. Harangues
28. Haydn genre
31. Picture puzzle
32. Some noblemen
33. Emeril's word
36. *The Haj* author
37. It holds a ballerina's leg
38. Barn-dance seat, perhaps
39. Oyster's place
40. Battle of the \_\_\_
41. Campeche cash
42. Some speedy transports
44. Soon
47. *Annie Get Your Gun* subject
48. Quietly understood
49. Circle or final start

51. Newspaper section, briefly
52. Threat at sea
58. Iridescent gemstone
59. Grad
60. Mirror's offering
61. Bit of force
62. Love crazy
63. Bass-baritone Simon

#### Down

1. Whipped cream unit
2. Genetic "messenger"
3. Swiss river that flows into the Rhine (Var.)
4. Respectful address for a man
5. Some economical homes, briefly
6. For many, it may be a lot
7. Combine
8. Erie mule of song
9. 90-degree letter
10. French brandy
11. A good way to leave Vegas
12. Hundred Acre Wood creator A.A.
13. They're struck by models
18. New Testament book
21. It controls a pupil's size
22. Clean with elbow grease
23. Expression of sympathy, when doubled
24. Fanatical
25. Earthbound Aussies
26. Small tower
27. Greek getaway, for example
29. "I mean it!"
30. *The Simpsons* character
33. Pesto base
34. Isolated
35. Like some divorces
37. Positive Wall Street figure
38. Falcon feature
40. Ashtray remnant
41. Treeless plain
42. Clydesdale controller
43. Hefty volume
44. Didn't get a seat
45. "Satisfied now?"
46. It has arms and waves
49. Self-satisfied
50. Jane Austen title
52. Old witch
53. \_\_\_ carte
54. \_\_\_ *Pinafore*
55. \_\_\_ and run
56. Mature
57. \_\_\_ Plains

1	2	3	4	5		6	7	8	9		10	11	12	13

50. Program command

52. Marshal of Waterloo
53. There are 54 in a game, usually
56. Okra soup
60. Decision spot
64. Gambler's loss, figuratively
66. Spaghetti sauce brand
67. Kind of van or bus
68. Cockney's challenge
69. Emerald Isle
70. Commodious crafts
71. Steep-walled land formations
72. Adept
73. Hatchling's home

#### Down

1. Square trio
2. In-group lingo
3. Colander kin
4. Coils of yarn
5. Automotive pioneer
6. Spring
7. Actor Willem
8. Prohibit legally
9. Like some fattened livestock
10. Felipe, Jesus, or Matty of baseball
11. Disjoint
12. H.S.T. successor

13. Conciliatory response
21. Lariat's end
22. Born
26. Shimon of Israel
27. Pre-Revolution leaders
29. Mai \_\_\_
30. Confessor's revelations
32. Superpower's letters
33. Ohio city
34. Grass inhabitant?
35. Whiny temper tantrums
37. Highest degree
38. Archaic pronoun
41. Agcy. for homeowners
42. East or West ending
43. Golf club
48. Some bridge positions
49. Shore bird
51. Start of a James Coburn film title
54. Out of gas
55. Drum type
57. Watery-patterned cloth
58. Safe places?
59. Keats or Milton, notably
61. Killer whale
62. End of the workweek letters
63. Peck partner
64. Uncle of 32-Down
65. Hurry

## Puzzle 150: Color Wheel

### Treacherous

#### Across

1. Basil or sage
5. Legwear of yore
10. Some Morse symbols
14. Middle Eastern potentate
15. Take one's sweet time
16. With a clean slate
17. Wheels for wheels
18. Peculiar speech form
19. Vehicle at an auction, perhaps
20. Whipped along
21. It's colorful in your head
23. Norton Sound city
25. Reverberated
26. Rapeseed oil
29. Small speck
31. Not under one's breath
32. Parcheesi, for example
37. Yard holder
38. Irritable
39. Very funny one
40. Canned fruit
42. It may be cast out
43. They're caught on the beach
44. Daily ritual, below the border
45. Joint injury
49. Trumpeting bird

50. Bechamel, for example
53. Ballet finale, for example
57. Freedom from hardship
58. Pondered
59. Mountains of Russia
60. Befuddled
61. "Goodnight" girl of song
62. Water source
63. Glossary entry
64. Some pastries
65. Fawning females?

#### Down

1. First of two parts
2. First name in Olympic long distance running
3. Frosty covering
4. Power company problems
5. Mark of infamy
6. Military chaplain
7. Verdi's "Caro nome," for example
8. Helen's destination
9. Feature of crossword grids
10. Villainous Vader
11. \_\_\_ a customer
12. Wickiup relative
13. Scimitar, for example
22. Scored perfectly
24. Word with "Glory" or "Testament"
26. Summer getaway
27. Winglike
28. Narrow victory margin
29. Painting Grandma
30. Horse feed
32. Group of quails
33. Foreigner's work permit
34. Aspires
35. Subject to debate
36. Peak seen from the Ionian Sea
38. Pass on, as a genetic trait
41. Canal with a mule named Sal
42. Day in Durango
44. Nobel and others
45. Blood-tears link
46. Full moon or first quarter, for example
47. Stair part
48. Col. Hannibal Smith and friends
49. Olfactory sensation
51. Surrounding glow
52. Manipulative person
54. Spicy stew
55. Hill partner
56. Is green without envy?

# Part III

## Checking the Solutions

The 5<sup>th</sup> Wave

By Rich Tennant

"I'm going to conduct a little word association exam with you. Just tell me what 7-letter word pops into your head when I say, 'metallurgical waste product.'"

### *In this part . . .*

**T**his part serves two very important functions. First, it offers you a nice pat on the back if you've solved an entire puzzle and just want to check your accuracy. (You don't really *need* to check your accuracy if you're confident about your answers and the grid is complete, but the validation sure does feel nice, doesn't it?) Second, it offers the answers to those oh-so-frustrating clues that threaten to keep you awake at night. Just promise me you won't peek at a solution until you've given your puzzle of choice a run for the money!

## Chapter 4

# Checking the Solutions

Hopefully you know better than to read through this chapter before you have a chance to work on the puzzles in Chapter 3! However, there is one answer I can show you right now, which is the answer to the puzzle example in Chapter 2:

### *Sample Puzzle: How Grueling!*

P	E	K	E		B	E	R	M		S	I	C	E	M			
U	V	E	A		A	L	A	I		E	N	A	M	I			
T	I	E	C	L	A	S	P	S		A	S	P	O	T			
A	L	P	H	A	B	I	T	S		S	A	N	T	E

# Part IV

## The Part of Tens

The 5th Wave

By Rich Tennant

*In this part . . .*

**E**ven the best puzzlers get stuck sometimes. After all, we puzzle masters can be a tricky lot. That's why in this part I offer ten of my best tips for solving even the trickiest puzzles, as well as a list of ten great Web resources that you may want to check when solving certain types of clues. (Don't think of it as cheating — think of it as expanding your knowledge base with the assistance of some very helpful Webmasters.)

## Chapter 5

# Ten Tricks for Successfully Tackling the Trickiest Puzzles

---

### *In This Chapter*

- ▶ Preparing for success
  - ▶ Taking some simple steps when you're stuck
  - ▶ Seeking outside help
- 

**T**his chapter offers ideas for how to set the stage to succeed at working a challenging crossword. I also offer some simple tricks for trying to push through the inevitable *solver's block*: the feeling that you're truly stuck mid-puzzle and can't find a way to move forward.

## *Nailing Down Your Puzzle Editor's Style*

The person responsible for compiling and styling the puzzles in a certain newspaper, book, or Web site is called the *puzzle editor*, and it can help to get familiar with that person's style. As I mention in Chapter 1, the difficulty level of a crossword depends on how the clues are written. Whether the puzzle editor creates each crossword himself or edits crosswords from other puzzle constructors, his influence on the style of each puzzle is strong. For this reason, when you first start working puzzles, it can help to focus on puzzles published in the same source.

## *Setting the Mood*

The right environment to work a crossword depends on your personal preferences, of course. For me, these things are essential:

- ✓ A comfortable chair
- ✓ Silence or soft music
- ✓ Good lighting

- ✓ Easy access to resources (whether books or a computer)
- ✓ Ample time to complete the puzzle — or at least to make a good effort!

## Analyzing the Theme

Not every puzzle constructor creates themed crosswords. You'll often see crosswords that don't have titles, which means they don't have themes. But all the puzzles I edit, including the ones in this book, are themed, and the title hints at the theme.

The *theme* of a crossword is simply a central idea that the longer clues tie back to. For example, I created an Easy puzzle for this book called “Now's the Time” that contains many time- and date-related clues.

If a puzzle does have a theme, try to keep it in mind as you read each clue. Doing so may help you tap into the puzzle constructor's point of view, which may make solving clues easier.

The puzzle title doesn't always present the theme in a crystal-clear way: Sometimes you have to give the title a bit of thought (and work a few clues) before figuring out what it means. For example, the Tough puzzle in this book titled “Open Wide” could, I suppose, have been about dentistry. It's not. Instead, many of its clues relate to speech and speaking.

## Focusing on Fill-in-the-Blanks

As I explain in Chapter 1, fill-in-the-blank clues are often the easiest type to solve. These clues usually involve a familiar phrase or title from which one or more words have been deleted. The puzzle constructor uses an underline to indicate where those words are missing, and you have to determine what they are.

## Studying Crosswordese

I bet you didn't realize that working crosswords involves learning a new language. In truth, *crosswordese* is just a subset of English words — specifically, a group of words that you often run across in crosswords but don't often use when you talk to your friends and family. Puzzle constructors love crosswordese because it's chock full of short words (usually three to five letters long) that can get them out of jams. They try not to use too many of them in any given puzzle, but they do lean on them pretty regularly.

Let me give you just three examples of the types of words I'm talking about:

- ✔ An *epee* is a type of fencing sword.
- ✔ A *gam* is a pinup model's leg.
- ✔ Another name for margarine is *oleo*.

## Getting Familiar with Common Fillers

In addition to crosswordese, puzzle constructors sometimes fall back on certain short entries to help them make a puzzle gel. Following are three types of these short entries you're likely to encounter if you work crosswords often enough:

- ✔ **Compass points:** If you come across a two- or three-letter entry whose clue asks for a direction, you know you're being asked for a compass point. A two-letter entry has only these four possible answers: NE, NW, SE, and SW. A three-letter entry has eight possible answers: NNE, NNW, SSE, SSW, ENE, ESE, WNW, and WSW.
- ✔ **Roman numerals:** If it's been a while since you've worked with Roman numerals, you may find that crosswords force you to reacquaint yourself with this numbering system. You may run across clues that even force you to do some math! Here's a simple example: The clue "Half of XXVI" requires that you first know that you're looking at the number 26. Then you divide by 2 to get 13, and finally you translate 13 into Roman numerals to arrive at your answer: XIII.
- ✔ **Latin words:** While we're doing as the Romans did, you may want to brush up on your basic Latin — especially Latin abbreviations. I explain in Chapter 1 that puzzle constructors often create entries from foreign words (and must alert you to which language they're looking for). Along with French and Spanish, Latin is a favorite, in part because it's chock full of short words (such as *circa*, *vox*, and *unum*) and abbreviations (such as *A.D.*, *ibid*, and *etc.*) that can serve as the glue holding together an unwieldy section of a puzzle.

## Picking Out Plurals

As I mention in Chapter 1, a simple but useful trick when you're stuck mid-puzzle is to search your list of unanswered clues to find those written in a plural form. If the clue is plural, the answer must be plural as well (assuming your puzzle constructor is doing a decent job!). Using a pencil, lightly write an S at the end of each grid entry that you know must be a plural word or phrase. You can't assume

that the S will work in every case — the English language is never that easy (think about the plural forms of *mouse*, *dice*, or *child*, for example). But in many cases, that S will be correct. And you'll be surprised at how often a single letter may inspire you to solve an intersecting clue.

## Looking at Verb Tenses

Again, if the puzzle constructor is worth his salt, the verb tense used in a clue will match the verb tense used in the answer. So if you're looking at a clue that contains a verb in the past tense, you may want to pencil in the letters ED at the end of the corresponding entry. Of course, the English language has a lot of irregular verbs that don't end in *-ed* in the past tense (consider *think*, *eat*, and *write*). But if you're stuck mid-puzzle and are searching for ways to break through your solver's block, this tip is definitely worth a try.

Clues that contain verbs ending in *-ing* are worth a look as well. Depending on how the clue is written, the answer could also end in ING.

## Gathering Great Resources

Throughout this book, I encourage you to consider outside resources (whether books, Web sites, or friends and family members) as fair game when you're working a crossword. You may know people who think otherwise — who consider cracking open a dictionary while working a crossword the ultimate form of cheating. But I consider it a simple act of learning and a very appropriate means of becoming a better puzzler.

## Taking a Breather!

If you've worked for a long time on a puzzle and still can't quite figure it out, walk away. Do something else that you enjoy — even another (perhaps easier) puzzle — and return to your challenge with fresh eyes. Working puzzles should be fun — even when it's frustrating. So if the frustration threatens to smother the fun, give yourself a break!

## Chapter 6

# Ten Web Resources to Try When You're Stuck

---

### *In This Chapter*

- ▶ Looking up abbreviations, quotations, and biblical names
  - ▶ Finding translations
  - ▶ Using an online atlas, thesaurus, and encyclopedia
- 

**W**e all have our online favorites, and depending on the specific nature of the clues that are tripping you up, the resources I list here may or may not be useful. But I suspect the ten I feature here will come in handy if you work crosswords frequently.

## *Abbreviations*

If you're stuck on a clue that contains or asks for an abbreviation, the Web site at [www.abbreviations.com](http://www.abbreviations.com) is a gold mine. Here's how it works: If you need to find out what an abbreviation means, type it into the search box at the top of the home page and click "Search." For example, say you need to know what "var" stands for. The page that pops up gives you a list of options, in order of the popularity of their usage. So, from most to least popular, "var" could mean *variation*, *variety*, *value at risk*, *variante*, *value added reseller*, and so on.

If you need to find the accepted abbreviation for a word or phrase, you change the setting on the home page to "word >> abbreviation." Then type your word or phrase (for example, "British pound") and click "Search." If more than one answer is available, you get a list ordered by popularity. If not, you get a single response: In this case, GBP.

## *Bartleby Quotations*

This site ([www.bartleby.com/quotations](http://www.bartleby.com/quotations)) features tens of thousands of famous quotations that you can search using the words you know. For example, say the puzzle clue is “. . . against \_\_\_ of troubles’ (Shakespeare).” On the home page, type “against of troubles” into the search box and press “Go.” The list of possibilities that appears includes a quote from *Hamlet* that features the words “against a sea of troubles.”

## *Bible Gateway*

If you’re stuck on a clue that contains a biblical reference, this site ([www.biblegateway.com](http://www.biblegateway.com)) may be able to help. On the home page, you can type in key words you know (such as a name or place) and click “Search the Bible.” The list that appears lets you know which Bible books and verses contain references to that name or place, and a quick scan of the possibilities may lead you to a helpful passage.

For example, say the crossword clue asks you to identify “Mordecai’s cousin.” You may recall that Mordecai is a biblical name (as opposed to, say, a Shakespearean character) but not remember anything more. By typing “Mordecai” in the search box, you get a list of passages from the Book of Esther — who was, indeed, Mordecai’s cousin.

## *English/Latin Dictionary*

The Web site at [www.freedict.com/onldict/lat.html](http://www.freedict.com/onldict/lat.html) translates words between Latin and English. As I mention in Chapter 5, puzzle constructors love Latin, and you may feel the love for this Web site if you get stuck on a clue that calls for a Latin translation. On the home page, you have two search boxes to choose from: “English to Latin” and “Latin to English.” Type your word into the appropriate box and click “Search.” Presto! (To translate between English and another language, check out [www.translate.google.com](http://www.translate.google.com), which I explain later in this chapter.)

## *The Internet Movie Database*

The Internet Movie Database ([www.imdb.com](http://www.imdb.com)) is the place to turn for baffling clues related to movies and TV shows and their stars and directors. The search

box at the top of the home page lets you type in what you know (perhaps the name of a film or an actor) and click “go.” What shows up is a laundry list of info about that film, TV show, actor, or director.

For example, maybe you can't recall the name of the actress who played Louise Jefferson on the TV show *The Jeffersons*. If you type in “The Jeffersons,” one of the many pieces of information that shows up is a cast list that identifies the actress as Isabel Sanford.

## *Infoplease World Atlas*

If your world geography is rusty (and whose isn't?), this site ([www.infoplease.com/atlas](http://www.infoplease.com/atlas)) offers an easy way to get reacquainted with countries and major cities. The home page features a world atlas. Click on a continent to get a look at its countries, and then click on a country to zoom in on its cities.

This site features lots of other handy tools as well, including lists of all the oceans and seas in the world, the world's highest mountains, and the languages spoken in each country. Even if you aren't stuck on a crossword clue, check this site out just for the fun of it!

## *Thesaurus*

Often, a puzzle clue will ask you to figure out a synonym for a word. You can turn to the thesaurus at [www.thesaurus.com](http://www.thesaurus.com) for help in that situation. Simply type in the word that's been given in the clue, click “Search,” and pore through the list of results for words that match your length requirements. For example, say the clue is “peevish.” Maybe you know that the eight-letter answer must begin with CH, and you just can't figure out what word would work. From the list of possibilities on this site, you can identify two possibilities: “childish” and “churlish.”

## *Google Translate*

This Web site ([www.translate.google.com](http://www.translate.google.com)) offers an easy way to translate from English to another language or vice versa. On the home page, you find a large box in which to type the word or phrase you need translated. Below the box, you choose which language to translate from and which language to translate to. Say you want to find out the French word for “bread,” for example. Type in “bread” and set the translation from English to French. Click “Translate,” and you get the word “pain.”

Keep in mind that Latin is not one of the languages featured on this site. Check out [www.freedict.com/onldict/lat.html](http://www.freedict.com/onldict/lat.html) (which I introduce earlier in the chapter) if you're in need of Latin translation.

## Wikipedia

This online encyclopedia ([www.wikipedia.org](http://www.wikipedia.org)) is a handy resource for historical and bibliographical information. If you're looking at a clue that references a historical event or an important person, you're likely to find an entry on Wikipedia that offers the information you're seeking.

You can start your search at the Wikipedia home page if you like, but I find it's just as easy to type "Wikipedia" and my search term into my search engine. Doing so should lead you directly to the online article(s) that covers the topic in question.

## And If You're Truly Stuck . . . Crossword Dictionary

Okay, so you're really stuck on a certain entry. It's eight letters long, and you have just three of the letters filled in. You've tried searching other resources and gotten nowhere. You can't figure out any other intersecting entries, and you don't want to turn to the puzzle solution because you want to work this puzzle through to the end. What to do?

If you've exhausted your other possibilities for solving the clue, give the Web site at [www.crossword-dictionary.com](http://www.crossword-dictionary.com) a try. Type a period to indicate any letter you don't know in the word you're trying to solve. For example, with our eight-letter word example, maybe you know the first letter is P, the fifth letter is E, and the last letter is D. Type "p . . . e . . d" in the search box and click "Search." You get back a list of possible entries, including *packeted*, *pampered*, and *pandered*. With luck, one of them will make perfect sense to solve your clue.

# Your fun and easy guide to solving and enjoying crosswords

Do you love crossword puzzles? Can't find ones that appeal to you? This puzzle-packed guide is bursting with crosswords that are not only in large print to ease eyestrain, but also feature clues that are appropriate for those in their golden years. Plus, you'll discover how you can improve your brain's health through stimulating mental exercise.

- **Spruce up your solving strategies** — become familiar with the puzzles, consider themes, identify types of clues, and use outside resources
- **Get the lowdown on brain benefits** — see what current research has to say about the importance of mental exercise and the impact it can have on your cognitive abilities
- **Tackle the puzzles** — from easy to tough to treacherous, solve 150 crossword puzzles with a variety of themes
- **Check the solutions** — push yourself to find solutions to improve your puzzle-solving skills and, when your brain is drained, check the answer section to see how well you did
- **Pique your interest** — find puzzles on topics of interest to prime-timers, from Ed Sullivan to Watergate to Wolfgang Puck

Open the book and find:

- The basics of solving crosswords
- Various types of clues you'll encounter
- The health benefits of solving puzzles
- Hints for improving your memory and brain power
- Fully worked-out solutions to all puzzles
- Ways to make crosswords a group activity
- Tips for tackling the trickiest puzzles
- Web resources to try when you're stuck
