KAMA SUTRA

The Little Bridge

Once she has succeeded in the difficult task of bending over forward far enough to delicately place her hands on the ground, as she wishes, all her partner has to do is pay the proper tribute to the view from this unusual angle.

The Square

Halfway between lying and sitting, a 90° angle makes for more intense pleasures; the man relies on his supported position to find their rhythm and symmetry.

Delicious Improvisation

Make love standing up, anywhere (in the living room, the office, the great outdoors) and especially... without even seeing each other! A way to be mysterious strangers for each other once again.

In the Shower

The air is steamy and hot, the bodies are damp and full of desire. Hidden behind the curtain, the lovers find one another in the torrid heat.

Upside Down Cake

The recipe is simple: as the woman swings her legs backwards, the man passes his knees under his partner's back. Serve hot, and enjoy...

North-South

This position is surprising to say the least, and the pleasures it provides are every bit as unexpected. Get ready for takeoff; tropical climes await your arrival.

In the Stairway

This position is easy to perform, unless you're in a 35 storey building (elevators are more likely there) or on the steps up to the Basilica of the Sacré-Cœur (it's full of tourists already).

The Crossbow

To perform this delicious dance, it's best to have a piece of furniture that's the right height and a partner who is both strong and gentle. All the pleasure lies in the suppleness of the bow...

Birdsong

Birdsong serves to attract a partner to the nest in the season of love. The bird's power of attraction and his direct honesty draws the woman to him so that together they can take flight towards pleasure.

Harmonic Duet

Lovers use all four hands to play their duet on the world's most beautiful instruments. From half-notes to eighth notes, the tempo accelerates to keep time with passion.

Love Lessons

While lovemaking may be an instinct, partners can certainly learn from each other's experiences in sensuality. They seem to follow instruction well and will learn this lesson off by heart.

Swallow Dive

The lover dives in with brio and ardour to join his partner in the swirling waters of passion. The woman shows complete trust and gives in fully to the pleasures of her partner's delicate hands.

Love Lies Sleeping

Hiding behind the appearance of peaceful sleep, this beauty conceals her true motives. Nearly motionless, eyes half-closed, yet inside she is bursting with pleasure. But how long will she be able to feign sleep?

The Scorpion

In life, there are few occasions to imitate the scorpion. Like this bold creature, it seems as the lovers too can go without food and resist heat or cold.

Sensual Delight

The question of equality of the sexes can be abandoned for the space of a lovemaking session. Shall we say that in this case, the man is a bit more comfortably seated, but any sacrifice is certainly for a good cause.

Risqué Armchair

Comfortably seated, both bodies relax deliciously into one another. The soothed lovers give in to the gentle sway of love.

The Dive

Of the two partners, in this pose it is the woman who controls the waves of pleasure. From the strength of her small back come hidden pleasures.

The Serpent

The gentle sway of the woman's body brings both lovers to the boiling point. A position that is off limits to anyone who doesn't like snakes and who is not intimately familiar with their supple flexibility.

Song of Love

It is perhaps the most well-known and commonly practiced intimate embrace. A simple lover's tête-à-tête that is more beautiful than any music.

Gypsy

Stretched out luxuriantly, the woman's legs encircle the man's torso. In a field of wildflowers the lovers intertwine and experience the simple pleasures of life.

Ready, steady, go!

Sprinters in top form have the best chances with this type of sensual competition where firmly toned muscles are called for. Long-distance runners will have to wait for next year.

Lust Upended

With every muscle clinched the lovers begin a powerful embrace. The woman turned upside down by the bold power of her lover must master the acrobatic arts.

The Opera Singer

Not unlike intimate relations, singing is rich in emotions. The melody is sweet and caressing and the voice coquettish. Now all you need to do is keep up the rhythm.

Spontaneous Combustion

With legs bent and the back arched, his lover is seated sensually atop his body. She uses her long hair and seductive curves to help heat things up even more.

Busy Hands

There are positions where the man may not have a free hand... but here he can easily caress his partner's whole body. All she has to do is give in then and enjoy his touch.

Budding Rose

A woman may give her lover the gift of a rose. A flower with no thorns, showing off its petals, colours and intricate beauty.

Excess

Love is synonymous with excess for in search of pleasure it knows no limits. The woman is quite comfortable but has no chance of escape, held tight in her lover's grasp.

One Look

The power of desire and the temperature of delight - it can all be read in a lover's eyes. The geography of sensual shapes and the path to caresses become clear.

In the Sunlight

The couple both enjoy themselves and she can take advantage of the rays of sunlight and breezes all over her body. The man is held firmly down to earth by his partner's feet while both take their pleasure.

Paradise Lost

The woman turns her back to her partner and clasps his ankles to perform a dance as exciting as it is sensual. She holds him and she alone is what holds him back...

Never Without You

Lovers reunited, at the first touch their bodies thrill. They cannot see each other but she senses his excitement. She sets the rhythm and travels with him to new horizons.

Karma

While the woman may not be able to see how much pleasure she is giving her partner, she can feel the shivers of delight on his skin. Giving in completely to his pleasure, the man stands motionless and savours the moment.

Absolute

In political terms, an absolute monarchy is a regime in which power is concentrated in the hands of one person who rules unchecked. The same is true for absolute love...

I love the scent of your hair

This lovers' embrace can do more than serve the greater pleasure of the lovers; if the weather is fine, it affords them the chance to sunbathe.

The Prow

The woman like a figure head pitches gently from side to side and rocks slowly back and forth: the lovers' bodies glide forward like a boat driven by the waves.

Sexecutive Woman

You have to be quite confident and enjoy a particular irony to confuse your partner with a desk. You also have to love your work... and what comes after work.

Gold Rush

This is a rush for a particular type of gold, a race against time that calls only to lovers. And the treasures that await them at the end of the course are more precious than solid ingots.

The Sleigh

On the road to amazing sensations, the oddly intertwined bodies are going in the same direction. The woman leads the team to new lands.

Scissors

Scissors bring together the two sides of a single unit. In perfect symmetry, the lovers recreate the original androgynous being, whole and perfect.

On your cloud OR In our dreams

The lovers are so focused on their quest for mutual pleasure that they seem lost in endless dreams.
They both share in the pleasure with equal intensity.

Prepare for Takeoff

Some voyages need no motor or propellers, some journeys need no luggage and there are some flights that are reserved for just two passengers. Prepare to come aboard and enjoy a lovers' trip!

Treasure Hunt

This is a special treasure hunt. What you hope to discover is neither gold nor silver but pure enjoyment.

Bonnie and Clyde

For the woman, this embrace is the chance to show her partner her amazing flexibility and the work she's been doing on her abs. It will most certainly be a passionate ride.

Passion Flower

Desire needs the light of the two lovers to be sparked and grow. Their pleasure then often depends on the weather conditions - like mosquitoes, it thrives in the tropics.

Vice-Versa

Only shared pleasure can turn things upside down and make heads spin. Skin touching skin has nothing to do with the cardinal directions.

Intoxicating

In this position the man can drink in all the motion of his partner's hips. If all he is drunk on is her love, once he passes the point of exaltation, he would even be fit to drive.

In the Clouds

With their heads in the clouds the lovers satisfy each other completely. The world below no longer exists as they climb to seventh heaven.

Beasts in the Twilight

Lovers' trysts can sometime bring out the animal in them. Their union is fiercer and lights the glow of new desires in their eyes.

Castaways

Tenderly embracing, the man and woman face each other with sensual delight. Chests pressed tightly together ignite hot caresses and busy hands provide gentle pleasures.

Stolen Kiss

A kiss full on the lips, kisses bold and gluttonous, kisses light as air, a thousand gentle kisses on the neck - these loving caresses are the salt to season passion.

Weak in the Knees

For those who aren't afraid to carry some weight, their bold and incandescent desires will take them to the Nirvana they expect.

Attraction of Two Bodies

The most difficult part is finding a pouffe that can support two bodies and their intense attraction - it must be soft and comfortable (and match the wallpaper in the living room).

Just a Kiss

With head tilted back and all her senses bubbling, this beauty gives in to sensuous delights, ever so gently sliding her hand to the little paradise where pleasure hides.

For Intoxicating Evenings

If after an evening of merrymaking you mix up your right foot and your left, and if the bed is just a little too high, you can always hold tight to your partner.

The Mermaid

It might look like these lovers are working on press-ups, but this workout is part of a much more pleasant sport. Their arms may be working that hard but the pain recedes with the heat of their bodies.

Do Not Disturb

And suddenly everything stops. The reunited lovers are worlds away, complete and lost in one another. It seems they could live on love alone.

And God created woman

In this embrace, the woman, kneeling, gives in to the motion of her partner. For safety's sake, its best to avoid this position near an open window!

Close your eyes

With eyes closed it is easier to appreciate every little sensation. The slightest tickle, the gentlest caress, a light breath on skin, these gentle gestures can ratchet up the intensity.

The Mirror

Mirroring one another, the lovers are two faces of the same joy. Masculine and feminine, reflect, regard and support the other as they take flight together.

I think therefore I am

In some positions, we agree to be submissive to the other, in others, we may need to remain master of the situation. This position is an unusual blend of the two possibilities; the submissive woman completely encircles her lover.

Sleeping Beauty

What woman hasn't dreamt of being surprised in her sleep by a torrid lover? To waken from pleasure and exhausted fall back to sleep after having been round the world...

The Fencer

Fencing is the art of touching your adversary with just the tip, without being touched yourself... When attacking, gentlemen, know that the precision of your sword work will be called into play. En garde!

The Sexy Gardener

This gardener has only to lift his partner's bent legs to make pleasure bloom and discover his own climax. There is no garden like Eden...

So Close Together

If the man in this position feels it better to let his partner go first, it is not only out of gallantry but perhaps also because he senses a danger there and wishes to hide.

The Centaur

In Greek mythology the centaur is a half-man, half-horse creature. In this position the imitation isn't perfect, but the pleasure it provides surely is.

Reunited

This position is perfect for lovers who are reunited after a long separation, a tender dialogue of bodies. Be careful, you might not want to start in the station as soon as that long awaited person alights from the train.

Declaration of Love

Love is an absolute and cannot be mistaken. Romantic and delicate, this embrace is the very picture of a loving relationship. Head to head and heart to heart with infinite tenderness.

I love you, neither do I

Loving adoration at times can be useless, and short-lived disdain may have a positive side. Turning your back on your partner can open new horizons of sensual pleasure, pleasure for you both together.

Creeping In

Attached by their erogenous zones, the two partners hold fast to one another, pushing, pulling and more as the shock waves spread simultaneously through both their bodies.

Love is Blind

Building up the caresses and holding on anyway you can - this position is perfect to see just what level your partner's desire can reach. If love is blind, pleasure sees all.

Grand Finale

The woman leans forward slightly so that the man, also standing, can hold her waist. When desire grows too big, shouldn't you just break down the walls?

Tryst

A flowing head of hair that sways with the back and forth rhythm of a desirable body in motion. The woman allows herself the most audacious caresses and delicate liberties.

The Kissing Tree

Lovers entwined make kisses bloom to the delight of sensual pleasure. Intoxicated with desire, the lovers taste their just picked, forbidden fruits, ripe and juicy.

The Violinist

The violinist makes slight harmonious variations on a score, just like lovers invent new melodic duets to play for their ears alone.

For long winter evenings

In the Northern hemisphere, the cold season stretches from December to February. But with one hand on the full buttocks of the woman, the axis of the earth shifts and winter seems warmer.

The Drunken Boat

Drunk with desire, the lovers' bodies navigate wild waters. Clasped to one another, they form a submersible vessel in search of El Dorado.

Inviting Pastime

When you succeed in combining your bodies and your desires, this fanciful position will prove to be a much more exciting pastime than bowling or rummy.

Quarter past Twelve

This position gives the time and it just might make the female partner more flexible. She'll be able to skip the gym without an ounce of guilt.

Lovers

Comfortably lying in bed or stretched out on a white sandy beach, this is still the most comfortable position for two lovers' bodies to intertwine.

The Path to Happiness

This may be the only time when in order to achieve your desires and reach perfect happiness you will actually enjoying bowing down before someone.

Busy Bees

Like a part of the natural world, the woman plays the fragile flower while the man acts out the hungry bee. Pollination is the right method of reproduction between natural partners.

You can't escape me now

The woman wraps her long legs around her partner. He is her prisoner now and he might as well give in to her wishes. But this subtle carnal cage is nothing like torture.

The Apple and the Snake

In the Bible, it is the woman who is the tempter and who eats first of the forbidden fruit. We never dreamt that the man himself would turn into a serpent and wriggle seductively over his partner's body!

You + Me

The lover's ardour is unrivalled except by the tenderness in the eyes of his beloved. Bent beneath the man, the woman enjoys the delectable sensation of being wholly possessed.

The Sceptre and the Crown

He holds the royal sceptre while she wears the imperial crown: their royal caresses are their claim to be the rightful rulers in the country of absolute desire.

Busy Man

This embrace is just the thing for someone who has dinner on the stove, a load of laundry in the wash or a train to catch at half past 8. This embrace is perfect for someone who needs it to be quick but good... very good.

Nirvana

While the man seems to be seeking the algorithmic to reach Nirvana, the woman appears to have found it instinctively. Getting there requires a lot of love and flexibility.

Intimate Embrace

In the midst of this maze of intertwined legs with the right mixture of caresses and forceful grasps, pleasure always arrives right on time (or a cramp!).

The Clash of the Titans

Love and hate are sisters, and these emotions are illustrated perfectly in this brave lover's embrace.
The fury of love is at its height.

Unconditional Surrender

The intertwined legs of two battle hardened lovers cross like their destinies. As they push the limits of intimacy, this position is intense and unconditional.

Yin and Yang

When their dual nature becomes complementary both lovers will reach total ecstasy. They are off in their own perfect world and nothing can stop them.

Like Heaven

To reach the heights of this paradise, it's best if you know something about hanging gardens and are keen to work your arm muscles. Now all that's left is to pluck the dangling delights.

Coffee, please

Sitting on an improvised bench, the woman savours the pleasure of a chance meeting. From a chance conversation, a more lasting encounter could arise.

Back Seat of a Taxi

In this position the woman turns her back to the man and straddles him, the best position to control the dance and the rhythm. From that angle, no matter where you are you'll enjoy the city more than you would in the back of a taxi.

Epicureanism

Carpe diem. Seize the day and enjoy the simple pleasures in life. The man in this position is poised to gather the few drops of dew at dawn that presage a steamy day.

Waves of Pleasure

On stormy days, the wildest waves make for turbulent waters and undercurrents, making even the most seaworthy sailors close both their eyes.

The Promise of Dawn

Clutching tightly, the man holding his partners buttocks and the woman holding her own ankles, the lovers are looking to the same horizon, faces turned toward the promise of the dawn.

Down the Road to Joy

In love, your partner's happiness is essential if both bodies are to unite in total harmony. Travel together down the road littered with sensuous ideas.

Hercules and Goliath

The clash of two heroes is always a formidable affair and a meeting such as this is one for the history books. Every sense is piqued and this moment will be an unforgettable one.

Extreme Supreme

To climb to the mountain peak, you'll have to do a little back and forth; you must not be afraid of touch the extreme, reach out for the tip - extreme satisfaction. It's not unlike an ice cream cone.

Dominatrix

A woman can be an angel of domination whenever she wants; all she has to do is use her wiles to make her partner fall under her spell. It's pure magnetism!

Takeoff

If the friction and the caresses are well placed and well timed, both lovers will be ready for launch in five, four, three, two, one, blast-off!

Stage Door

There are hidden entrances, tucked away from prying eyes that give access to secret gardens. With the lover's feet placed on the man's chest, there is no finer stage door entrance!

All Yours

This position ends in two bodies closely intertwined, a favourite with Argentine tango lovers. Just don't forget to take off the dress and suit!

$$1 + 1 = 69$$

Mathematics has proven that if two perfect strangers total their love quotient, the sum is equal to or greater than the proportionally perfect geometric figure they create...

Equation with Two Unknowns

Science and love might not make good bedfellows - pleasure is the result of spontaneous generation and the explosion that results can't be defined by any natural law. Passion is anything but rational!

Look at Me

It's important to look at one another no matter what the position is. In a moment of pure passion, the man can take a moment to glance at his dear one and make sure that she is enjoying the moment as much as he is.

A Man and a Woman

The balance found between lovers is upset when they stretch out on a bed and conform to the shape of the other. Positions and power can be reversed - to each his own pleasure dome!

In My House

It seems almost as if this position was discovered by two lovers who fell together on the last stair step, and they are only too happy to have landed where they did!

Sharp Shooter

Precision, strength and flexibility are key qualities for any number of activities. Combined with a bit of coordination they are the ingredients for success with this position.

Torrid Moment

Pressed against each other, both can drink in the sight of their beloved in this position. Self-assured gentleness or boldly brave passion can both work to make this a night to be remembered.

Again and Again

Pleasure is at a fever-pitch and the woman just keeps asking for more to reach nirvana. Inch by inch her body will rise up and claim what is hers by right.

I'll take you there

Placed perpendicularly, bodies attract and repel each other at the same time. The connecting point is crucial for holding together two unlike beings.

Discovery

The discovery of the attraction of bodies will always be more interesting than any discovery in sea life or underwater travel; it has the advantage of being practiced naked and with a partner.

Dagger and Sheath

Legs spread and feet forward, man and woman fit together perfectly. The stars of their bodies together makes a new constellation, the most fleeting and most beautiful.

The Rite of Love

Kneeling at the feet of her king, the woman gives sacred caresses. With the warmth of her mouth are born new royal desires, to kneel in turn at the feet of his queen.

In the Shade of the Trees

Beneath the branches of hundred year old trees, the welcoming shadows call for a nap and a cuddle. The lovers stretch out to enjoy the torpor of a fine afternoon.

Ambushed

Hidden in a blind, the huntress may await her prey for many long hours. When the man is finally captured, she will eat her catch alive.

The Call of Passion

The man is howling at the moon like a wolf when suddenly, overtaken by a sensual frenzy, he pays tribute to his beloved. A pleasant surprise!

Don't Go

Holding back a free woman in a vice-like grip, far from easy. Only love can control a wild spirit.

The Renaissance

Like two butterflies emerging from their cocoon, the two lovers watch their pleasure reborn in this sensual Renaissance period.

Now you see me

Tucked into the hollow behind his lover's knees, it is up to the gentleman to control the motion. If the woman wants to play an active role, she'll need firm abs.

A Merry-Go-Round

Love will make you lose your head, everybody knows that, and it can also make you lose all sense of backward and forward, left and right, up and down. Love will turn you inside out!

Look me in the eyes

Contemplating the flash of pleasure in your partner's eyes isn't always possible. Enjoy this position to admire the curves of their face and the expression of delight.

The Acrobat

If the woman is flexible, she can play the acrobat and move her hips to the swing to please her lover. The man, always thoughtful, can support his sweetheart by sliding his hands to the small of her back.

The Keystone

Forming a couple is like constructing a building. The man is the load-bearing wall and the woman the keystone. A creation to last a thousand years!

The Candle

With bodies at right angles, one lying down, the other kneeling, the lovers rise like the flame of a candle to reach new heights.

The Other Profile

Take advantage of this spot with a side view of her feminine curves. It's not everyday that you find yourself on the side so let this be an opportunity for innovation.

Indiscrete Little Nook

Wrapped in the warmth of the sheets, the couple takes no more precautions for their privacy. She gently guides her lover's motions so that their caresses are harmonious, matched to the same rhythm.

I'm all yours

Flexibility is a primary quality of good lovers. Extended limbs brush by one another, interlace, intertwine in the most satisfying waltz for the senses.

Masterful Release

Each partner's role is rather distinct, according to their position. The woman may look like she is in a less dominant position but she is the one holding her lover tightly between her legs. You just have to figure out who sets things in motion.

The Prisoner

With her ankles linked around her lover's neck, the lady has to give in to his masterful thrusts. The libidinous beauty can however draw him towards her or push him away with just the power of her legs.

B as in beautiful

The alphabet can give us quite a few postures, much to the delight of lovers everywhere. This position requires some self-control, but with a little savoir-faire what a beauty!

Savage Lift-off
