Basic Manual of Style

The style practices described in this concise guide are those generally prevalent in current English. This manual presents the more commonly accepted alternatives, noting the situations in which a particular usage is preferred. Having made a choice, the writer should maintain the same usage throughout any single document. As in all writing, consistency of style is essential.

PUNCTUATION

PERIOD (.)

Use a period:

1. To end a declarative or imperative sentence (but not an exclamatory sentence).
   The meeting was amicable and constructive.
   Please pass the salt.
   Read the next two chapters before Friday.
2. To end an indirect question.
   He asked when the plane was leaving.
3. To end a polite request even when stated as a question.
   Will you please reply promptly.
4. To end a sentence fragment.
   Not in the least.
   A novel of suspense.
5. To follow most abbreviations.
   Mr., Mrs., Ms., Jr., Dr., N.J., etc., e.g., B.C., A.D.
   (See ABBREVIATIONS below.)
6. To separate dollars from cents in writing figures.
   $25.00 $2.98
7. To use as a decimal point in writing figures.
   98.6 degrees $3.7 million

ELLIPSIS (...or....)

Use an ellipsis mark (three or four consecutive periods) to indicate that part of a quoted sentence has been omitted.

1. If the omission occurs at the beginning or in the middle of the sentence, use three periods in the ellipsis.
   "...the book is lively...and well written."
2. If the last part of the sentence is omitted or if entire sentences are omitted, add a fourth period to the ellipsis to mark the end of the sentence.
   "He left his home....Years later he returned to find everything had changed...."

QUESTION MARK (?)

Use a question mark:

1. To end a sentence, clause, or phrase (or after a single word) that asks a question.
   Who invited him to the party?
   "Is something wrong?" she asked.
   Whom shall we elect? Smith? Jones?
2. To indicate doubt or uncertainty.
   The manuscript dates back to 560 (?) B.C.

EXCLAMATION POINT (!)

Use an exclamation point to end a sentence, clause, phrase, or even a single word that indicates strong emotion or feeling, especially surprise, command, admiration, etc.

Go away! Wow!
What a day this has been!
"Hey, there!" he shouted.

COMMA (,)

Use a comma only when you have a definite reason for doing so in accordance with the guidelines below. A safe rule to follow is, "When in doubt, leave it out."

Use a comma:

1. To separate words, phrases, and clauses that are part of a series of three or more items.

The Dutch are an industrious, friendly, generous, and hospitable people.

The chief agricultural products of Denmark are butter, eggs, potatoes, beets, wheat, barley, and oats.

It is permissible to omit the final comma before the *and* in a series of words as long as the absence of a comma does not interfere with clarity of meaning. The final commas in the examples above, while desirable, are not essential.

In many cases, however, the inclusion or omission of a comma before the conjunction can materially affect the meaning. In the following sentence, omission of the final comma might indicate incorrectly that the tanks as well as the vehicles, were amphibious.

Their equipment included airplanes, helicopters, artillery, amphibious vehicles, and tanks.

Do not use commas to separate two items treated as a single unit within a series.

For breakfast he ordered orange juice, bread and butter, coffee, and bacon and eggs.

But

At the supermarket he bought orange juice, bread, butter, bacon, and eggs.

Do not use commas to separate adjectives which are so closely related that they appear to form a single element with the noun they modify. Adjectives which refer to the number, age (old, young, new), size, color, or location of the noun often fall within this category. A simple test can usually determine the appropriateness of a comma in such instances: If *and* cannot replace the comma without creating a clumsy, almost meaningless effect, it is safe to conclude that a comma is also out of place.

twenty happy little youngsters
a dozen large blue dresses
several dingy old Western mining towns
beautiful tall white birches

But commas must be used in the following cases where clarity demands separation of the items in a series:

a dozen large blue, red, yellow, and green crayons
twenty old, young, and middle-aged spectators

In a series of phrases or dependent clauses, place a comma before the conjunction.

He sold his business, rented his house, gave up his car, paid his creditors, and set off for Tahiti.

They strolled along the city streets, browsed in the bookshops, and dined at their favorite cafe.

2. To separate independent clauses joined by the coordinating conjunctions *and, but, yet, for, or, nor, so.*

Almost anyone knows how to earn money, but not one in a million knows how to spend it.

The comma may be omitted in sentences consisting of two short independent clauses.

We missed the train but we caught the bus in time.

3. To separate a long introductory phrase or subordinate clause from the rest of the sentence.

Having rid themselves of their former rulers, the people now disagreed on the new leadership.

Although the equipment has not yet been fully developed, scientists are confident of landing astronauts on other planets.

4. To set off words of direct address, interjections, or transitional words used to introduce a sentence (*oh, yes, no, however, nevertheless, still, anyway, well, why, frankly, really, moreover, incidentally,* etc.).

Jim, where have you been?
Oh, here's our new neighbor.
Why, you can't mean that!
Still, you must agree that she knows her business.
Fine, we'll get together.
Well, can you imagine that!

5. To set off an introductory modifier (adjective, adverb, participle, participial phrase) even if it consists of only one word or a short phrase.
Politically, our candidate has proved to be very astute.
Angrily, the delegates stalked out of the conference.
Pleased with the result, he beamed at his painting.

6. To set off a nonrestrictive clause or phrase (an element which is not essential to the basic meaning of the sentence). Place commas both before and after the nonrestrictive portion.
Our professor did not agree that corporations should be protected as "persons" under the Fourteenth Amendment, although the Supreme Court had held that they were.
The old hotel, which had housed visiting celebrities for almost a century, remained outwardly unchanged.

7. To set off appositives or appositive phrases. Place commas both before and after the appositive.
March, the month of crocuses, can still bring snow and ice.
One of our major problems, narcotics, remains unsolved.
Ms. Case, chairperson of the committee, refused to comment.

8. To set off parenthetical words and phrases as well as words of direct address.
You may, if you insist, demand a retraction.
St. Peter's Place, they agreed, is one of the best schools in San Francisco.
The use of pesticides, however, has its disadvantages.
They knew, nevertheless, that all was lost.
Mr. Brown, far younger in spirit than his seventy years, delighted in his grandchildren.
You realize, Nettie, that we may never return to Paris.

9. To set off quoted matter from the rest of the sentence.
(See QUOTATION MARKS below.)

10. To set off items in dates.
Both John Adams and Thomas Jefferson died on July 4, 1826.
A comma is optional when only the month and year are given in a date.
Washington was born in February, 1732, in Virginia.
or
Washington was born in February 1732, in Virginia.

11. To set off elements in addresses and geographical locations when the items are written on the same line. Do not, however, use a comma before the zip code.
35 Fifth Avenue, New York, N.Y. 10002
1515 South Halsted Street, Chicago, Illinois 60607
He lived in Lima, Peru, for fifteen years.

12. To set off titles of individuals.
Dr. Martin Price, Dean of Admissions
Mrs. Rose Winthrop, President

13. To set off the salutation in a personal letter.
Dear Steve,

14. To set off the closing in a letter.
Sincerely yours,
Very truly yours,

15. To denote an omitted word or words in one or more parallel constructions within a sentence.
Ethel is studying Greek; George, Latin.

16. To mark off thousands in numbers of one thousand or more. (The comma is optional in numbers under 10,000.)
7,500 or 7500
11,900 250,631 3,963,426

SEMICOLON (;)

Use a semicolon:

1. To separate independent clauses not joined by a conjunction.
The house burned down; it was the last shattering blow.
The war against poverty must continue; it must be our highest priority.

2. To separate independent clauses that are joined by such conjunctive adverbs as *hence, however, therefore,* etc.

The funds are inadequate; therefore, the project will close down.
Orders exceed all expectations; however, there is a shortage of supplies.

3. To separate long or possibly ambiguous items in a series, especially when the items already include commas.
The elected officers are Jonathan Crane, president; Sarah Huntley, vice president; Edward Stone, secretary; and Susan Morrell, treasurer.

4. To separate elements that are closely related but cannot be joined without creating confusion.
Poverty is unbearable; luxury, insufferable.

5. To precede an abbreviation, word, or phrase (*e.g., i.e., namely, for example*) that introduces an explanatory or summarizing statement.
On the advice of his broker, he chose to invest in major industries; i.e., steel, automobiles, and oil.

COLON (:)

Use a colon:

1. To introduce a series or list of items, examples, or the like.
The three committees are as follows: membership, finance, and legislation.
He named his favorite poets: Langston Hughes, W. H. Auden, and Emily Dickinson.

2. To introduce a long formal statement, quotation, or question.
This I believe: All people are created equal and must enjoy equally the rights that are inalienably theirs.
Busch replied: "You are right. There can be no unilateral peace just as there can be no unilateral war. No one will contest that view."
This is the issue: Can an employer dismiss a man simply because he is a member of a union?

3. To follow a formal salutation, as in a business letter or speech.
Dear Mr. Chadwin: Dear Madam:
Dear Ms. Sanchez: Gentlemen:
To Whom It May Concern:
My Fellow Americans:

4. To follow introductory words in a memorandum.
To: Mary Falcon
From: Andrew Casillo
Subject: Book Sales in Quebec

5. To follow the word *Attention* below both the inside and outside address when the writer wishes to bring a letter to the attention of a particular individual within an organization.
Attention: Ms. Jennie Huntley

6. To follow the name of the speaker in a play.
Ghost: Pity me not, but lend thy serious hearing to what I shall unfold.
Hamlet: Speak; I am bound to hear.

7. To separate parts of a citation.
a. Place a colon between chapter and verse numbers in biblical references.
Genesis 3:2.
b. Place a colon between volume and page numbers of periodicals.
Journal of Astronomy 15:237-261.

8. To separate hours from minutes in indicating time.
1:30 p.m. (or P.M.)
2:00 A.M. (or a.m.)

9. To indicate that an initial clause in a sentence will be further explained or illustrated by the material which follows the colon. In effect, the colon is a substitute for such phrases as "for example" or "namely."
It was a city notorious for its inadequacies: its schools were antiquated, its administration was corrupt, and everyone felt the burden of its taxes.

APOSTROPHE (')

Use an apostrophe:

1. To denote the omission of letters, figures, or numerals.
a. The contraction of a word or phrase:

nat'l	o'er	ne'er
ma'am	couldn't	he'll
I'm	you're	it's
she's	we're	they're

Do not confuse *it's* (contraction of *it is*) with the possessive *its*, which does not contain an apostrophe.
b. The contraction of a number, usually a date:
the Spirit of '76 the Class of '48
c. The omission of letters in quoting dialect:
"I ain't goin' back 'cause I'm doin' mighty fine now."

2. To denote the possessive case of nouns.

a. To form the possessive of most singular and plural nouns or of indefinite pronouns not ending in *s*, add an apostrophe and an *s*.

the city's industries anyone's guess
the women's clubs
a bachelor's degree

b. To form the possessive of singular nouns of one syllable ending in *s* or the sound of *s*, add an apostrophe and an *s* in most instances.

the horse's mane Bess's house
the class's average Lance's car

But if the addition of an *s* would produce an awkward sound or visual effect, add only an apostrophe. This rule applies more frequently, but not exclusively, to words of more than one syllable.

Socrates' concepts Jesus' teachings
Moses' influence
for old times' sake

In some cases either form is acceptable.

Mr. Jones's (or Jones') employees
Keats's (or Keats') poetry

c. To form the possessive of plural nouns (both common and proper) ending in *s*, add only an apostrophe.

farmers' problems
the Smiths' travels
students' views
the Joneses' relatives
critics' reviews
three months' delay

Note, however, that plurals not ending in *s* form their possessive by adding the apostrophe and *s*.

men's clothing women's hats

d. To denote possession in most compound constructions, add the apostrophe and *s* to the last word of the compound.

anyone else's property
one another's books
brother-in-law's job
the attorney general's office

e. To denote possession by two or more proper names, add the apostrophe and *s* to the last name only.

Brown, Ross and King's law firm
Japan and West Germany's agreement
Lewis and Clark's expedition

f. To denote individual ownership by two or more proper names, add the apostrophe and an *s* to both names.

Bruce's and Gina's records.

3. To form the plurals of letters or figures add an apostrophe and an *s*.

Dot the i's and cross the t's.

QUOTATION MARKS
(" " – Double) (' ' – Single)

NOTE: Unless otherwise noted, double quotation marks are used. For use of single quotation marks, see 1 b.

Use quotation marks:

1. To enclose a direct quotation.

a. To mark words, phrases, sentences, paragraphs, or poetic stanzas which are quoted verbatim from the original.

Portia's speech on "The quality of mercy" is one of the most quoted passages from Shakespeare.

It was Shaw who wrote: "All great truths begin as blasphemies."

b. To enclose a quotation within a quotation, in which case *single* quotation marks are used.

Reading Jill's letter, Pat said, "Listen to this! 'I've just received notice that I made Dean's list.' Isn't she great?"

2. To enclose certain titles:

a. To enclose titles of newspaper and magazine articles, essays, stories, poems, and chapters of books. The quotation marks serve to distinguish such literary pieces from the books or periodicals (these are italicized) in which they appear.

Our anthology contains such widely assorted pieces as Bacon's essay "Of Studies," Poe's "The Gold Bug," Keats's "Ode to a Nightingale," and an article on travel from *Mclean's*.

b. To enclose titles of short musical compositions and songs as distinct from symphonies and operas, which are italicized.

The national anthem is "The Star-Spangled Banner."

Even the youngsters laughed at the "Figaro" aria from *The Barber of Seville*.

c. To enclose titles of works of art such as paintings, drawings, photographs, and sculpture. These may also be italicized.

Most people recognize Da Vinci's "*Mona Lisa*" and Rodin's "The Thinker."

d. To enclose titles of radio and television programs or of episodes within a series (in which case, the name of the series is italicized).

a recent *Nova* special, "Children of the Forest"

e. To enclose titles of plays only if they are referred to as part of a larger collection. Referred to as single volumes, they are italicized.

"The Wild Duck" is the Ibsen play included in this edition of *Modern European Plays*.

3. To emphasize a word or phrase which is itself the subject of discussion. Italics may be used for the same purpose.

The words "imply" and "infer" are not synonymous.

Such Freudian terms as the "ego," the "superego," the "id," and the "libido" are now considered part of the English language.

4. To draw attention to an uncommon word or phrase, a technical term, or a usage very different in style (e.g., dialect or unusual slang) from the context. Italics are often used for the same purpose.

Teachers are no longer dismayed when students smirk at "square" traditions.

In glass blowing, the molten glass is called "metal."

5. To suggest ironic use of a word or phrase.

The radio blasting forth John's favorite "music" is to his grandfather an instrument of torture.

Bernstein's skiing "vacation" consisted of three weeks with his leg in a cast.

NOTE: If a quotation consists of two or more consecutive paragraphs, use quotation marks at the beginning of each paragraph, but place them at the end of the last paragraph only.

Quotation marks in combination with other punctuation

1. Period. Always place a period *before* the end quotation mark.

One angry commuter complained of "the incredible delays and breakdowns."

2. Comma.

a. Always place a final comma *before* the end quotation mark.

"The delays and breakdowns are incredible," complained one commuter.

b. Use a comma between the quoted matter and such phrases as "according to the report," "she wrote," "he replied," "they asked," etc.

According to the Declaration of Independence, "all men are created equal."

"There never was a good war or a bad peace," wrote Benjamin Franklin.

(CAUTION: Do not use the comma following interrogative or exclamatory quotations. See 3 below.)

3. Question mark or exclamation point.

When a question mark or exclamation point is part of the quoted passage, place these marks *before* the end quotation mark.

"Hurry, please, before it's too late!" she cried.

"Is there any hope of recovering the property?" he asked.

In all other cases, place the exclamation point or question mark *after* the end quotation mark.

Did Pangloss really mean it when he said, "This is the best of all possible worlds"?

How absurd of him to say that "This is the best of all possible worlds"!

4. Colon or semicolon.

Always place a colon or semicolon *after* the end quotation mark.

The boys had always called Tom "the champ"; he began to wonder if the reputation would endure.

There were several reasons why Tom was acknowledged as "the champ": physical strength, intellectual superiority, and qualities of leadership.

5. Dash.

Use a dash to set off the name of the author following a quotation on the same line.

"Pleasure's a sin, and sometimes sin's a pleasure." —Byron.

PARENTHESES ( )

Use parentheses:

1. To enclose material that is not part of the main sentence but is too relevant to omit.

   Faulkner's novels (published by Random House) were selected as prizes.

   The data (see Table 13) was very impressive.

2. To enclose part of a sentence that, if enclosed by commas, would be confusing.

   The authors he published (none other than Schulte, MacGregor and Johnson) were among his best friends.

3. To enclose an explanatory item that is not part of the statement or sentence.

   She wrote to *The Paris* (Illinois) *News*.

4. To enclose numbers or letters that designate each item in a series.

   The project is (1) too time-consuming, (2) too expensive, and (3) poorly staffed.

   He was required to take courses in (a) mathematics, (b) English, (c) history, and (d) geology.

5. To enclose a numerical figure used to confirm a spelled-out number which precedes it.

   Enclosed is a check for ten dollars ($10.00) to cover the cost of the order.

BRACKETS [ ]

Brackets are used in pairs to enclose figures, phrases, or sentences that are meant to be set apart from the context—usually a direct quotation.

Use brackets:

1. To set off a notation, explanation or editorial comment that is inserted in quoted material and is not part of the original text.

   According to the Globe critic, "This [*Man and Superman*] is one of Shaw's greatest plays."

   Or substitute the bracketed proper name for the pronoun: "[*Man and Superman*] is one of Shaw's...."

   "Now that the astronauts have set new records for survival in Space [84 days in *Skylab 4* and 96 days in *Soyuz 26*], space travel for the general public may be realized in our lifetime."

   "Young as they are," he writes, "these students are afflicted with cynicism, world-weariness, and *a total disregard for tradition and authority*." [Emphasis is mine.]

2. To correct an error in a quotation.

   "It was on April 25, 1944 [1945—Ed.] that delegates representing forty-six countries met in San Francisco."

3. To indicate that an error in fact, spelling, punctuation, or language usage is quoted deliberately in an effort to reproduce the original statement with complete accuracy. The questionable fact or expression is followed by the Latin word *sic*, meaning "thus," which is enclosed in brackets.

   "George Washington lived during the seventeenth [*sic*] century."

   "The Missisipi [*sic*] is the longest river in the U.S.," he wrote.

4. To enclose stage directions in plays. Parentheses may also be used for this purpose.

   JULIET: [*Snatching Romeo's dagger*]...O happy dagger! This is thy sheath; [*Stabs herself*] there rest and let me die.

5. To enclose comments made on a verbatim transcription of a speech, debate, or testimony.

   MR. KRINSLEY: The steady rise in taxes must be halted. [*Applause*]

6. To substitute for parentheses within material already enclosed by parentheses. Although it is not seen frequently, this device is sometimes used in footnotes.

   [See "René Descartes" (M. C. Beardsley, *The European Philosophers from Descartes to Nietzsche* [New York: Random House, 1960]).

7. To enclose the publication date, inserted by the editor, of an item appearing in an earlier issue of a periodical. This device is used in letters to the editor or in articles written on subjects previously reported. Parentheses may also be used for this purpose.

   Dear Sir: Your excellent article on China [April 15] brings to mind my recent experience...

   When removing old wallpaper [*Handyman's Monthly*, June 1977] make sure that you...

DASH (—)

Use a dash:

1. To mark an abrupt change in thought or

grammatical construction in the middle of a sentence.

We won the game—but I'm getting ahead of the story.

2. To suggest halting or hesitant speech.

"Well—er—ah—it's hard to explain," he faltered.

3. To indicate a sudden break or interruption before a sentence is completed.

"Eric, don't climb up that—" It was too late.

4. To add emphasis to parenthetical material or to mark an emphatic separation between parenthetical material and the rest of a sentence.

Her influence—she was a powerful figure in the community—was a deterrent to effective opposition.

The excursions for school groups—to museums, zoos, and theaters—are less expensive.

The car he was driving—a gleaming black limousine—was the most impressive thing about him.

5. To set off an appositive or an appositive phrase when a comma would provide less than the desired emphasis on the appositive or when the use of commas might result in confusion with commas within the appositive phrase.

The premier's promise of changes—land reform, higher wages, reorganization of industry—was not easily fulfilled.

6. To replace an offensive word or part of one.

Where's that son of a b—?

SLASH (/)

Use a slash:

1. To indicate the end of a line in quoting verse.

...the play's the thing/Wherein I'll catch the conscience of the King.

2. To indicate alternative expressions such as *he/she, and/or,* etc. Use this device sparingly.

The driver must show his/her license to the police.

The tour includes Sweden and/or Norway.

The owner/renter is required to clear the sidewalk.

HYPHEN (-)

The hyphenation of compound nouns and modifiers is often arbitrary, inconsistent, and subject to change. Practices vary. When in doubt, it is best to consult the dictionary.

Use a hyphen:

1. To spell out a word or name.

r-e-a-s-o-n C-a-r-l-u-c-c-i

2. To divide a word into syllables.

hal-lu-ci-na-tion

3. To mark the division of a word of more than one syllable at the end of a line; indicating that the word is to be completed on the following line.

It is difficult to estimate the damaging psychological effects of racism and sexism.

4. To separate the parts (when spelling out numerals) of a compound number from twenty-one to ninety-nine.

thirty-six inches to the yard
Fifty-second Street
nineteen hundred and forty-three

5. To express decades in words.

the nineteen-twenties
the eighteen-sixties

6. To indicate a range of numbers, as in dates or pages.

the Civil War, 1861-1865
pages 98-130

7. To separate (when spelling out numerals) the numerator from the denominator of a fraction, especially a fraction which is used as an adjective.

one-half cup of milk
a two-thirds majority

When fractions are used as nouns, the hyphen is optional.

three fourths (or three-fourths) of his constituents
one fifth (or one-fifth) of the class

Do not use a hyphen to indicate a fraction if either the numerator or denominator is already hyphenated.

one thirty-second
forty-five hundredths
twenty-one thirty-sixths

8. To form certain compound nouns.

a. Nouns consisting of two or more words which show the combination of two or more constituents, qualities, or functions in one person or thing.

secretary-treasurer city-state

teacher-counselor AFL-CIO

b. Nouns made up of two or more words, including other parts of speech.

cease-fire	fourth-grader
coat-of-arms	hand-me-down
court-martial	has-been
cure-all	post-mortem

Do not hyphenate compound nouns denoting chemical terms, military rank, or certain governmental positions.

hydrogen sulfide
sodium chloride
carbon tetrachloride
vice admiral
lieutenant governor
justice of the peace
sergeant at arms
brigadier general
lieutenant junior grade
attorney general
private first class

9. To connect the elements of a compound modifier when used *before* the noun it modifies. In most cases, the same modifier is not hyphenated if it *follows* the noun it modifies.

They engaged in hand-to-hand combat.
They fought hand to hand.
They endured a hand-to-mouth existence.
They lived hand to mouth.
a well-known expert
an expert who is well known
an 8,000-foot peak
The peak was 8000 feet high.

Do not hyphenate a compound modifier which includes an adverb ending in *ly* even when it is used before the noun.

his loosely fitted jacket
a carefully guarded secret

But a hyphen is used when the compound modifier contains an adverb that does not end in *ly*.

a well-guarded secret
a fast-growing business

10. To distinguish a less common pronunciation or meaning of a word from its more customary usage.

CUSTOMARY USAGE:	HYPHENATED FORM:
a recreation hall	re-creation of a scene
to recover from an illness	re-cover the couch
to reform a sinner	re-form their lines

11. To prevent possible confusion in pronunciation if a prefix results in the doubling of a letter, especially a vowel.

anti-inflationary	co-op
co-ordinate	pre-empt
pre-eminent	re-enact
re-election	re-entry

The dieresis is sometimes, but less frequently, used over *e* and *o* to accomplish the same result:

coöp reëntry

12. To join the following prefixes with *proper* nouns or adjectives.

anti	anti-American, anti-British
mid	mid-Victorian, mid-Atlantic, mid-August
neo	neo-Nazi, neo-Darwinism
non	non-European, non-Asian, non-Christian
pan	Pan-American, Pan-Slavic, Pan-African
pro	pro-French, pro-American
un	un-American, un-British

With few exceptions, these prefixes are joined to common nouns without hyphenation:

anticlimax	midsummer
nonintervention	proslavery

13. To join the following prefixes and suffixes with the main word of a compound.

all-	all-powerful, all-embracing, all-star
co-	co-chairman, co-worker, co-author
ex-	ex-sergeant, ex-mayor, ex-wife, ex-premier
self-	self-preservation, self-defeating, self-explanatory, self-educated
-elect	president-elect, governor-elect

14. To form most, but not all, compound nouns and adjectives which begin with the word elements listed below. For words not listed, it is best to consult the dictionary.

cross-

cross-examine	cross-fertilize
cross-purposes	cross-stitch

double-
double-breasted double-edged
double-jointed double-park
great-
(always used in family relationships)
great-grandfather great-grandson
great-hearted great-aunt
heavy-
heavy-handed heavy-hearted
heavy-duty (but heavyweight)
ill-
ill-disposed ill-organized
ill-timed ill-advised
light-
light-fingered light-footed
light-hearted light-year
single-
single-breasted single-handed
single-minded
well-
well-behaved well-balanced
well-preserved well-wisher

DIVISION OF WORDS

The division of a word at the end of a line should be avoided when possible. If it is necessary to divide a word, follow the syllabification shown in the dictionary.

Do not syllabify a word so that only one letter stands alone at the end or beginning of a line. Do not divide a one-syllable word, including words ending in *-ed* (such as *walked, saved, hurled*). Avoid the division of a word that carries only two letters over to the next line. The following terminal parts of words should never be divided: *-able, -ible; -cial, -sial, -tial; -cion, -sion, -tion; -gion; -ceous, -cious, -tious; -geous.*

If a word that already has a hyphen must be broken, divide the word where only the hyphen already stands.

mother- *or* mother-in- *but not* moth-
in-law law er-in-law

ABBREVIATION

In standard academic, scientific, business or other organizational reports and correspondence, abbreviations are generally avoided unless they are the commonly required ones and are specifically known and accepted terms within a particular discipline or trade.

Some abbreviations that are acceptable in journalistic or business writing may not be appropriate in extremely formal announcements or invitations in which even dates are spelled out.

Abbreviations are often used in ordering and billing, catalogs, tabulations, telephone books, classified advertising, and similar cases where brevity is essential.

In some cases, the decision to use an abbreviation is a matter of individual preference. When in doubt, it is usually prudent to use the spelled-out form. Do not, however, spell out a word in one sentence or paragraph only to use the abbreviated form elsewhere.

Use abbreviations in writing:

1. The following titles and forms of address whenever they precede a proper name: *Mr., Mrs., Ms., Dr., Mme., Mlle., M.* Do not spell out these titles even in the most formal situations.
   Mlle. Modiste Dr. Gerner
   Mr. Carl Sandburg Mme. Curie
2. Titles of the clergy, government officials, officers of organizations, military and naval personnel (except in an extremely formal context) provided that the title is followed by a first name or initial as well as a surname. If the title is followed only by a surname, it must be spelled out.
   Gen. Arthur Evans General Evans
   Sgt. Ed Block Sergeant Block
   Prof. Samuel Page Professor Page
   Gov. Ella Grasso Governor Grasso
   Rev. George Ryan
   The Reverend George Ryan *or*
   The Reverend Dr. (*or* Mr.) Ryan
   Hon. Frank Church

The Honorable Frank Church
or The Honorable Mr. Church

Note above that in very formal writing, the titles *Honorable* and *Reverend* are spelled out and are preceded by *The*. When the first name or initial is omitted, the title Mr. or Dr. is substituted.

3. *Jr.* or *Sr.* following a name. These abbreviations should be added only when the names preceding them include a first name or initial.

Paul Thompson, Jr.

4. *Esq.* following a name. This abbreviation should not be used with any other title.

Gerald Hollingsworth, Esq.

5. Academic degrees: *B.A.* (Bachelor of Arts); *M.A.* (Master of Arts); *M.S.* (Master of Science); *Ph.D.* (Doctor of Philosophy); *M.D.* (Doctor of Medicine), etc. When a name is followed by a scholastic degree or by the abbreviations of religious or fraternal orders (BPOE), it should not be preceded by *Mr.*, *Miss*, *Dr.*, or any other title.

Robert J. Kassan, M.D.

6. The terms used to describe business firms (*Co.*, *Corp.*, *Inc.*, *Bro.* or *Bros.*, *Ltd.*, *R.R.* or *Ry.*) only when these abbreviations are part of the legally authorized name. In all other cases (except for brevity in tables, etc.), *Company*, *Corporation*, *Incorporated*, *Brothers*, and *Limited* should be spelled out.

John Wiley & Sons, Inc.

7. Except in formal writing, the names of states, territories, or possessions that immediately follow the name of a city, mountain, airport, or other identifiable geographic location. Check the dictionary for all such abbreviations.

Detroit, Mich. San Juan, P.R.

8. Certain expressions:

i.e. (*id est*), that is
e.g. (*exempli gratia*), for example
et al. (*et alii*), and others
etc. (*et cetera*), and so forth

Do not abbreviate:

1. Names of countries, except:
   a. The U.S.S.R. (Union of Soviet Socialist Republics) because of its exceptional length.
   b. U.S. (United States) when preceding the name of an American ship. The abbreviation U.S. may also be used in tables, footnotes, etc., when modifying a government agency: *U.S. Congress*, *U.S. Post Office*, etc.
2. The words *street*, *avenue*, *boulevard*, *drive*, *square*, *road*, and *court*, except in lists requiring brevity, or when space is limited.
3. The days of the week and the months of the year except in the most informal situations or in tables.
4. Weights and measures except in lists of items, technical writing, etc.

I had hoped to lose ten pounds.
We used ten yards of cloth.

Do not use a period after the following abbreviations or shortened forms:

1. After a contraction, which is not to be confused with an abbreviation. Contractions contain apostrophes which indicate omitted letters; they never end with a period.

sec't'y or sec'y nat'l

2. After chemical symbols.

H_2O NaCl

3. After *percent*.
4. After initials of military services and specific military terms.

USA	*United States Army*
USN	*United States Navy*
RCAF	*Royal Canadian Air Force*
RCMP	*Royal Canadian Mounted Police*
MP	military police
SP	shore patrol
POW	prisoner of war
PX	post exchange
GI	government issue
APO	Army post office

5. After the initials of certain governmental agencies or call letters of television and radio stations.

NATO, UNICEF, CIA, CARE, NBC, KQED, WMAQ, CBC, CBET, CFCF

6. After letters that are used as symbols rather than initials.

Let us assume that A and B are playing opposite C and D.

7. After listed items (as in catalogs, outlines, or syllabuses), if none of the items is a complete sentence. If the list includes

only one complete sentence, use a period after this and all other items on the list, including those which are not complete sentences. Consistency is essential: a period after each item or no end punctuation whatever.

8. Points of the compass.

CAPITALIZATION

Many writers have a tendency to use capitals unnecessarily When in doubt, one can usually learn whether a particular word is generally capitalized by consulting the dictionary A safe guideline is to capitalize only when there is specific reason to do so.

1. Capitalize the first word of a sentence. Capitalize also, any word (or the first word of a phrase) that stands independently as though it were a sentence.
   He is the new president of the club.
   Where is the chess set?
   Hurrah! No school!

2. Capitalize the first word of each line of verse (unless the poet specifically avoided capitals in such instances).
   Ring forth, ye bells,
   With clarion sound—
   Forget your knells,
   For joys abound.

3. Capitalize the first word of a direct quotation within a sentence (unless the quotation is a fragment).
   He replied, "Vivian prefers to enter in the fall."
   "George," she asked, "don't you want to join us for dinner?"
   He denied that he was "a neurotic editor."

4. Always capitalize the interjection *O* or the pronoun *I*. None of the other pronouns are capitalized unless they occur at the beginning of a sentence or refer to the Deity.
   Here I am. Exult, O Shores!

5. Capitalize all proper nouns and adjectives.
   Italians Scottish Edwardian
   Emily Dickinson the Cabot family
   Australia European Germanic
   Chicago Chaucerian

6. The German *von* and the Dutch *van* in proper names are commonly not printed with a capital when part of a name, but usage varies.
   Paul von Hindenburg
   Vincent van Gogh
   The French particles *de* and *du* and the Italian *di* and *da* are commonly written in lower case when they are preceded by a first name or title Without title or first name the particle is sometimes dropped, sometimes capitalized.
   Marquis de Lafayette
   (De) Lafayette
   Count de Mirabeau
   (De) Mirabeau
   In English or American names these particles are commonly capitalized in all positions:
   William De Morgan De Morgan
   Lee De Forest De Forest

7. Do not capitalize words derived from proper nouns but now having a special meaning distinct from the proper name:
   antimacassar china
   pasteurize macadam

8. Capitalize recognized geographical names:
   Ohio River Sun Valley
   Rocky Mountains Gulf of Mexico

9. Capitalize the following when they follow a single proper name and are written in the singular:

Butte	County	Delta
Canyon	Creek	Gap
Glacier	Ocean	Range
Harbor	Peninsula	River
Head	Plateau	Valley

   For example, the *Sacramento River*, but the *Tennessee and Cumberland rivers*.

10. Capitalize the following in the singular and plural when they follow a proper name:
    Hill Mountain Island Narrows

11. Capitalize the following in the singular

whether placed before or after the name:

Bay	Sea	Gulf	Mount
Point	Cape	Isle	Peak
Strait	Desert	Lake	Plain

Capitalize in the plural when they come before the name (and sometimes following a single name). For example, *Lakes George and Champlain*, but *Malheur and Goose lakes*.

12. Capitalize geographic directions only when they designate specific regions. Capitalize also special names for regions or districts:

Northwest Passage
Middle Atlantic States
the New World
the South
the Middle East
Western Hemisphere

EXCEPTION: Do not capitalize merely directional parts of states.

eastern Ohio southern Indiana

13. Do not capitalize compass points when indicating direction.

They went south last year but plan to go west this year.

14. Capitalize the names of streets, parks, buildings, etc.:

Michigan Boulevard
Royal Ontario Museum
Metropolitan Opera House
Golden Gate Bridge
Empire State Building
Yellowstone National Park
Grand Central Parkway

EXCEPTIONS: Do not capitalize such categories of buildings as *library*, *post office*, or *museum*, written without a proper name, unless local custom makes the classification equivalent to a proper name.

15. Capitalize the various names of God or the Christian Trinity, both nouns and adjectives, and all pronouns clearly referring to the Deity. Capitalize also words that refer to the Bible or other sacred writings.

the Word	Holy Bible
the Savior	the Koran
the Messiah	Ten Commandments
Allah	to do His will
the Almighty	the Virgin Mary

16. Capitalize all personifications.

Come, gentle Death!

17. Capitalize the names of organizations, institutions, political parties, alliances, movements, classes, religious groups, nationalities, races, etc.:

Democratic party (or Party)	Royalist Spain
Labor party	Axis powers
Republicans	Soviet Russia
Dutch Treat Club	Protestants
United Nations	Lutherans
American Legion	University of Waterloo
Africans	Caucasians

18. Capitalize divisions, departments, and offices of government, when the official name is used. Do not capitalize incomplete or roundabout designations:

Department of Commerce
Circuit Court of Marion County
Bureau of Labor Statistics
Congress
Senate
House of Commons
United States Army
Board of Aldermen
the council
the lower house (of Congress)
the bureau
the legislature

19. Capitalize the names of wars, battles, treaties, documents, prizes, and important periods or events:

Battle of the Bulge
Declaration of Independence
Nobel Prize
Revolutionary War
Congress of Vienna
Black Death
War of 1812
Golden Age of Pericles
Middle Ages
Treaty of Versailles

Do not capitalize *war* or *treaty* when used without the distinguishing name.

20. Capitalize the numerals used with kings, dynasties, or organizations. Numerals preceding the name are ordinarily spelled out; those following the name are commonly put in Roman numerals:

Second World War	World War II
Nineteenth Amendment	Henry IV
Third Army	Forty-eighth Congress

21. Capitalize titles, military or civil ranks of honor, academic degrees, decorations, etc., when written with the r

and all titles of honor or rank when used for specific persons in place of the name:

General Bradstreet
the Senator from Ohio
the Earl of Rochester
Queen Elizabeth
the Archbishop of Canterbury
Your Highness

22. Capitalize the main words (nouns, verbs, adjectives, adverbs) of the titles of books, articles, poems, plays, musical compositions, etc., as well as the first word:

The House of the Seven Gables
All's Well That Ends Well
The Kreutzer Sonata

23. Titles of chapters in a book are usually capitalized. Capitalize also any sections of a specific book, such as *Bibliography, Index, Table of Contents*, etc.,

24. In expressions of time, *A.M., P.M., A.D.*, and *B.C.* are usually written or typed in capitals without space between them. It is equally acceptable to show *a.m.* and *p.m.* in lower-case letters.

9:40 A.M. 6:10 P.M.
42 B.C. A.D. 491 (or 491 A.D.)

When A.M., P.M., A.D., and B.C. are to be typeset, one may mark them with double-underlining to indicate that small capitals are to be used.

ITALICS

Indicate italics by underlining in manuscript or typescript.

Use italics:

1. To emphasize a particular word, phrase or statement.

We *must* appeal for contributions.

2. To refer to the titles of books, magazines, newspapers, motion pictures, plays, longer musical compositions, book-length poems, ships, aircraft, or any other vehicle designated by a proper name. Titles of works of art may be shown in italics or enclosed with quotation marks.

The Catcher in the Rye *Mona Lisa*
Harper's Magazine Rodin's *The Thinker*
the *Philadelphia Inquirer* the *Titanic*
High Noon the *Spirit of St. Louis*
Hamlet Beethoven's *Ninth Symphony*
The Raven *The Faerie Queen*

3. To indicate words or phrases that, although used by English speakers or writers, are still regarded as foreign.

In his younger days, he was a *bon vivant*.
Formal dress was *de rigueur* at their annual dance.

4. To refer to a letter, number, word, or expression as such. Quotation marks may be used for the same purpose.

Her favorite adjective is *fantastic*.
The present participle ends in *ing*.

5. To indicate stage directions in a play.

GEORGIA [*turning to* VAN]: Did you hear the bell?
VAN: Yes, I'll answer it. [*He dashes to the door.*]

NUMERALS

In general, numbers that can be stated in only one or two words are spelled out.

There were twelve girls and twenty-six boys from Montreal.
The sweater cost twenty-five dollars.
He gave one-tenth of his income to charity.

Other numbers are usually shown in figures.

There are 392 members in the association.
The radio cost him $136.50.
The population of Chicago in 1950 was 3,620,962.

The numeral at the beginning of a sentence is usually spelled out. If this is awkward or difficult to read, rewrite the sentence to avoid beginning with a numeral.

Three hundred and sixty students attended the dance.

Twenty-six million votes were cast for him.

Six thousand dollars was stolen from the safe.

It is important to be consistent in the treatment of numbers when they appear in the same series or in the same sentence or paragraph. Do not spell some out and use figures for others.

MANUSCRIPT PREPARATION

The manuscript should be typewritten, double-spaced, on white medium-weight paper. The sheets should be of the standard 8½" x 11" size and of good enough quality to permit clear markings in ink. Margins should be about one inch on each side and at the top and bottom. All pages should be numbered consecutively, preferably in the upper right-hand corner, throughout the entire work. Use only one side of the sheet.

A quotation that will run four lines or more is usually set off as a single-spaced, double-indented paragraph.

It is not advantageous to submit the manuscript in any special ornamental binder. If assembled neatly in a folder, envelope, or cardboard box, the manuscript will be more in keeping with the practice of most professional writers and with the preference of most editors.

IMPORTANT: The author should always retain a complete carbon copy or photocopy of the manuscript, not only to facilitate correspondence between the editor and author, but to serve as insurance against loss of the original copy. Publishers are usually very careful not to lose or damage a manuscript, but their legal responsibility does not extend beyond "reasonable care."

FOOTNOTES AND END NOTES

Footnotes—called "endnotes" when all are placed in a group at the end of the entire text—serve a variety of purposes: to indicate the source of a fact, opinion, or quotation; to provide additional or explanatory material which, although relevant, would interrupt the smooth flow of the main text; and to refer the reader to another part of the text. Excessive use of footnotes, however, is distracting; it is the sign, generally, of spurious scholarship.

Material in the text to which footnotes are to be keyed should be numbered with superscript Arabic numerals ([1], [2], [3], [4], etc.). These numerals are usually placed without intervening space at the close of the sentence, quotation, or paragraph, unless doing so would cause confusion or ambi-

guity (in which case the numeral is placed after the specific word, phrase, or name to which it refers). The superscripts should follow all punctuation marks, except dashes; they should be free of periods, slashes, parentheses or other unnecessary marks.

Footnote numbers should continue consecutively throughout an article or chapter, usually numbering anew in each chapter.

Occasionally a writer will prefer to number the footnotes anew on each page. Because this causes many problems in typesetting, it is preferably avoided. Similarly, some writers prefer to use special symbols (*, †, ‡, §, ¶, , etc.) instead of superscript numerals. Because this system of symbols is limited and confusing, it too is preferably avoided.

Footnotes are placed at the bottom of the page after a quadruple space under the last line of text. (Some style manuals suggest a double space followed by a straight line that extends from the left to the right margins or that extends only two or three inches from the left margin; one line of space is left blank above this separation line and two lines of space are left blank below it.) The footnote, which begins with the appropriate superscript number without a space after it, is usually typed single-space. The first line of the footnote is the same indention used throughout the text itself; subsequent lines are typed to the same margins as the text itself. Use a double space between footnotes. Avoid carrying footnotes onto a following page, if at all possible.

BOOKS: FIRST FOOTNOTE REFERENCES

When a book is first mentioned in a footnote, the bibliographical information should be as complete as possible. The information should appear in the following order:

1. AUTHOR'S NAME OR AUTHORS' NAMES. The given name or initials are given first, using the form in which the name is generally encountered, the surname being followed by a comma.
2. TITLE OF THE CHAPTER OR PART. When reference is made to an article in a collection, symposium, or the like, the title of the article appears within quotation marks, the final quotation mark being preceded by a comma.
3. TITLE OF THE BOOK. The title is underlined (to indicate italics) and followed by a comma unless the next information is in parentheses (in which case the comma follows the closing parenthesis). If the title is exceptionally long, it may be shortened by omissions (indicated by three periods in each case). The title should be taken as it is shown on the title page.
4. EDITOR'S OR TRANSLATOR'S NAME. The name of the editor or translator, given in its full and normal form, is preceded by "ed." or "trans." It is followed by a comma unless the next material is in parentheses (in which case the comma follows the closing parenthesis).
5. EDITION USED. If the edition is other than the first one, the edition is identified in Arabic numerals, followed by a comma unless the next material is in parentheses (in which case the comma follows the closing parenthesis).
6. SERIES TITLE. The name of the series is shown without underlining or quotation marks. It is followed by the specific number of the work in the series, preceded and followed by commas. If the next material is in parentheses, the second comma is placed after the closing parenthesis.
7. NUMBER OF VOLUMES. If there is more than one volume in the work and it appears relevant to indicate this fact, the number is shown in Arabic numerals.
8. PUBLICATION DATA. This information is shown within one set of parentheses. The place of publication is usually found on the title page; if more than one city is shown, it is necessary only to show the publisher's main place of activity. If the city is not well known or if it might be confused with another of the same name, add the state or nation. It is followed by a colon. The name of the company, institution, etc., that published the work is shown next, followed by a comma. The date of publication is usually found on the copyright page. If no date is shown on the title page or copyright page, write "n.d." (without quotation marks) to indicate "no date." The parentheses containing the place

of publication, publisher's name, and date of publication are followed by a comma.

9. VOLUME NUMBER. If there are two or more volumes in the work, give the volume number in capital Roman numerals, enclosed by commas. If this information is followed by the page number, omit "Vol." and give the volume number only, followed by a comma.
10. PAGE NUMBER OR NUMBERS. The page number (preceded by "p.") or numbers (preceded by "pp.") are shown in Arabic numerals (unless the original uses Roman numerals), followed by a period. However, if the volume number has been given, the "p." may be omitted.

ARTICLES IN PERIODICALS: FIRST FOOTNOTE REFERENCES

When a magazine or newspaper article is referred to in a footnote for the first time, the bibliographical information is given in the following order:

1. AUTHOR'S OR AUTHORS' NAMES. The name is given in normal order and usual form, followed by a comma.
2. TITLE OF THE ARTICLE. The title is given in full, enclosed by quotation marks, a comma preceding the closing quotation mark.
3. NAME OF THE PERIODICAL. The name of the periodical, underlined to indicate italics, is followed by a comma. If there is a familiar abbreviation of the name of the periodical, it may be used.
4. VOLUME NUMBER. The volume number in capital Roman numerals is followed by a comma unless the next material is within parentheses (in which case the comma follows the closing parenthesis).
5. ISSUE NUMBER OR NAME. If the pagination of each issue is separate and the issue is not designated by month, give the issue number or name.
6. YEAR AND MONTH. The month (if necessary) and year of the volume are enclosed by parentheses followed by a comma.
7. PAGE NUMBER OR NUMBERS. The page number (preceded by "p.") or numbers (preceded by "pp.") are given in Arabic numerals (unless the original text uses Roman numerals) and terminated with a period. However, if the volume number has been given, the "p." may be omitted.

SUBSEQUENT FOOTNOTE REFERENCES

After the first footnote reference to a book, article, or the like, it is unnecessary to repeat all the bibliographical information in each reference to the same work. Simply give the author's surname (followed by a comma), "p." or "pp.," and the page number(s). If there are several works by the same author that have been referred to, the author's surname is followed by a comma and the title of the work, which may be abridged for easy reference.

BIBLIOGRAPHIES

Bibliographies may be organized by subject, types of publications cited, chronological sequence, or alphabetical order. The alphabetical arrangement is, by far, the most common one.

The bibliography should be typed so

:hat the first line of each item begins flush with the left margin and succeeding lines begin several spaces in. The material is usually double-spaced (and double-spaced between items).

The content of bibliographical entries is the same as that of footnotes with only these major differences:

1. AUTHOR'S NAME. The surname comes first, followed by a comma; then the given name, followed by a period.
2. TITLE. The title is closed by a period.
3. PUBLICATION DATA. The place of publication, name of the publisher, and date of publication are not enclosed by parentheses; a period is placed after the date.

SAMPLE ENTRIES

"Controversies in Education: The American High School." *Phi Delta Kappan,* 40 (November, 1958), pp. 3-126.

Crane, Stephen. *The Red Badge of Courage.* Introd. Robert Wooster Stallman. New York: The Modern Library, 1951.

Shepard, Francis P., and Harold R. Wanless. *Our Changing Coastlines.* New York: McGraw-Hill, 1971.

Johnson, E. L. "Cooperation in Higher Education. *Liberal Education,* 48 (December 1962).

Russell, Peter, ed. *An Examination of Ezra Pound.* Norfolk, Conn.: New Directions, 1950.

Schwartz, Harry. *Russia's Soviet Economy.* 2d ed. Englewood Cliffs, N.J.: Prentice Hall, 1954.

Laurence, Margaret. *The Stone Angel.* Toronto: McClelland & Stewart, 1964.

Boorstin, Daniel J. *The Americans.* 3 vols. New York: Random House, 1958-73.

When writing for a specific publication or publisher, the author should inquire whether there is a preferred style or style manual to be followed. Among the widely used general-purpose style manuals are *A Manual of Style* (published by the University of Chicago) and *The MLA Handbook* (published by the Modern Language Association). Among the style manuals for specific fields and publications are those issued by the American Institute of Biological Sciences, the American Chemical Society, the American Mathematical Society, the American Medical Association, the American Institute of Physics, and the American Psychological Association.

Proofreaders' Marks

The conventional marks shown below are used in preparing a manuscript to be typeset or in proofreading typeset material. The mark should be written in the margin directly in line with the specific part of the text to which it refers; the text should also be marked to indicate the place of the change. If the same line has several changes, vertical or diagonal lines are placed between each of the marginal marks.

EDITORIAL MARKS
