## *Introduction to Love and Sex Magick*

Sex magick is the use of certain secret knowledge that's long been hidden and suppressed by religion and governments. This form of mysticism will enable you to influence your environment and reality itself with astonishing results.

For example, imagine you are sitting at a bar when you notice someone whom you really want to get to know sitting across the room. You want them to see you quickly and don't want to waste time and money on silly small talk and buying drinks.

You seriously want to create something within this individual that will cause them to become aware of you and to be instantly sexually attracted to you. The exciting secrets you will learn from sex magick are going to show you exactly how to use various magickal skills to cause someone to have an overwhelming desire on a deep level...so deep that they will feel totally compelled to want to be with you...instantly!

When your friends see you attracting so many beautiful people of the opposite sex with almost no effort, they will probably wonder just what your secret is. But...you must never tell them where you found these skills and magickal powers of seduction!

I have studied and researched the most powerful and effective sources of ancient wisdom to now bring you the knowledge and power that you desire. You will then have the ability to put these magickal secrets into effect in your life immediately.

This is the type of knowledge that has been reserved for a handful of mystics throughout the ages. You will attract and seduce people at will and control your life instead of being manipulated. After studying this part of the course, you will have powers and abilities you never before dreamed possible.

You will naturally attract people, circumstances, and events into your life that will go beyond your wildest dreams. This is because sex magick is

more than simply magick applied to sex. Once you learn to master the powerful secrets, you will control your entire destiny.

Suddenly, you will receive more love, money, success, and abundance in every area of your life. Now you will learn the secrets of sex magick.

## **The Power of Visualization**

With visualization, you use your imagination to bring into your life anything you desire...including love, money, excellent health, and locating lost items, to name a few.

You can use visualization to summon your ideal lover into your life...exactly the type of person you want. Stop for a moment and think about the exact type of person you desire. This person will have several characteristics based on your own unique criteria.

Sometimes, however, when you consciously think about the type of lover you desire, it might become a nightmare because the conscious mind is easily tricked by “beauty” and illusions.

So...one of the best ways to get the lover you truly desire is to ask your subconscious for assistance. On a subconscious level, you already know whom you would be best suited to meet. This is something the majority of people would NEVER think about.

Maybe that’s why there are so many relationship problems ***worldwide!*** Most choose their “mates” consciously. And even when there are “warning signs”...you know, the “red flags” that wave about furiously, we tend to ignore them. Then, after the relationship comes to an end, we look back and remember all those darn red flags that we chose to ignore. Damn! Why didn’t we pay attention to our deep down feelings, i.e., our subconscious? Does this sound familiar to you at all?

Get in touch with your subconscious through hypnosis, meditation, dreaming or simply daydreaming. The key to this is each of these processes puts you into an altered state of consciousness where you can access and harness the incredible powers of the subconscious...as well as the collective unconscious as mentioned before.

As you visualize yourself ascending each level of the tree of life, you ask your subconscious and the Universe to show you what type of person would be ideal for you *at the present time*.

Rest assured...this person exists and is somewhere out there now. Your conscious mind is not aware of this fact, but the subconscious is aware always. Through the connection you develop with the universal consciousness, you will receive many insights as to the type of lover you really desire. Seriously...you do NOT KNOW THIS consciously. Think about it!

It might take a few times meditating or using hypnosis for the image of your ideal lover to come together. Plus...when your ideal partner enters your mind, it might only be for a brief second. It could actually be like a snapshot. It might even come to you in a surprising place in a strange way, such as while driving your car.

The important thing is that you ask for the guidance of the “higher power” that lies within you in your subconscious mind.

After you begin to get clear images of your ideal lover, you will soon have urges to go to new and different places. Now that the message is “out there” in the Universe, the energy of the Universe has been called forth and has touched your lover in a way that puts them on “alert,” so to speak.

When you start going to the various locations, you’ll soon find the person exactly as they appeared to you in your mind. There will be an instant attraction because they have already seen you too. This is an amazing and incredibly powerful tool you can use to attract the ideal person into your life!

## **Powerful Magick to Attract Someone You Know**

If you have a person in mind that you really want to become intimate with, this method will literally have your “target” begging on hands and knees for your attention...even if they are not sure about you...or just flat out don't want you!

Get yourself in a comfortable position, alone with no distractions. Just before going to bed is a great time to apply this technique. Clearly visualize the person and bring them close to you in your mind. Then, imagine that your mind is going into their mind, resulting in seeing through their eyes.

Imagine the person seeing you and becoming extremely sexually attracted to you. Now, watch yourself through their eyes, playing “hard to get.” Relax and allow your mind to drift while you perform this magick...don't worry about it being “silly.” Do this every night until you get the results you desire.

You'll soon notice that the person “mysteriously” will begin thinking about you in a different way. TIP: When they actually approach you, it will be best for you to be slightly aloof and to truly play hard to get. They will not even begin to understand why on earth they are all of a sudden becoming totally attracted to you. It's best not to *ever* reveal this magickal spell to your new love! Why ruin it?

## **Using Tantric Sex Magick**

This technique is similar to the one above, but it gets a little more “intimate.” Again...make sure you are alone with no distractions, and that no one will disturb you during this process.

Visualize the person you want to seduce and bring the image of them very close, making it as clear as possible. Vividly imagine that the two of you are together in a romantic setting. Visualize that you are kissing each other...you need to imagine this to be as real as possible.

Literally see what you would see...hear what you would hear...and feel to the fullest while you are visualizing. Then, start masturbating yourself while you imagine the sensations of touching the person and caressing them. Become aware of positive responses from them as you are touching their genitals and kissing them all over their body. Hear their voice saying, “YES!” It is extremely imperative to make this sensual scene very, very real.

The reason this is so powerful is that the subconscious cannot differentiate between a vivid imaginary scene and an actual experience. Unconsciously, you will begin to respond differently to the other person. At the same time you’ll be sending subliminal messages to their subconscious as if you had previously had sex with them.

If you are a male, give this process a double whammy by masturbating yourself just to the point of orgasm and then stopping before you cum. The power behind this is a theory from the teachings of Tantric sex, which stipulates that if you masturbate to just before climax and don’t cum, you’ll develop a powerful and confident personality.

This is because by doing this, you are holding in your “vital energy.” Supposedly, Rasputin and Hitler both practiced this method. I highly suggest that you do not masturbate without cuming for more than a week because it’s been known to cause madness!

You’ve quite possibly noticed that you become extremely tired after sex with a woman. This is because by releasing your semen into the woman, you give your vital energy to her. Ever notice how amazingly energetic the woman becomes after sex? She wants more sex...you want to sleep! That’s why!

According to Tantric Buddhism, one way to get your vital energy back is to eat the semen from the woman’s vagina. The added bonus in this approach is that you’ll also receive her vital energy mixed in with yours.

Use the following Tantric techniques to build energy and excitement...

- Focused eye contact

- Synchronized deep breathing
- The “bliss” breath
- Touch, stroking
- Stalking one another
- Circling around holding hands
- Anointing each other with scented oils
- Teasing, then retreating.
- Dancing with pelvic thrusting
- Flagellation or whipping each other gently
- Simulated sex (dry pumping)
- Fantasy visualization (probably the most popular!)

Be patient with these techniques because it does take some time and practice to master them. A simple method you can attempt is to imagine a beam of energy coming from the center of your chest and going to the chest of a person you want to influence. You can practice this little trick every day, everywhere you go.

If you’re standing in line at the supermarket and see a male or female whose attention you want to grab, send your powerful beam of light through his or her chest with the message, “You will now notice me.” After a few moments, she will turn around and notice you. This amazing technique is easy to practice...and no one will know what you are doing!

Here’s a fun trick...send mental sexual images from your epsilon point to the other person’s epsilon point or third eye, the area between the eyes just above the eyebrows. She or he will start doing things like playing with their hair, rubbing the back of their neck, and then start looking left and right, not knowing what you are doing to them.

## *Develop Mental Telepathy for Seduction*

Now you will learn how to develop your intuitive senses easily in order to know and understand someone before you actually meet them. First empty and clear your mind as much as possible, dismissing any thoughts and cares. Next, focus on the person you want to seduce and open your mind, allowing you to receive psychic information about them. Images and thoughts and perceptions will start to naturally flow into your mind about the person. Notice where the images go as they enter your consciousness.

To make this process easier, have soft, relaxing music playing and let the process flow naturally...without forcing any thoughts. You will be able to tell the difference between images coming from your imagination and images you are receiving through your psychic vibrations. Continue focusing on your “target” until you know what you wanted to learn about them.

As you continue to repeat this process over time, you’ll find that you won’t need to enter any special meditative state. You will automatically pick up others’ thoughts just by being in close proximity to them!

Note of caution: Be prepared for some negative “vibes” when you are out and about amongst a bunch of people. Some of these “feelings” just might cause you to get chills or make you uncomfortable. But at least you’ll know who to stay away from, so you’ll be all the better for it! No telling how many dangerous situations I’ve avoided over the years because of this “talent.” You WILL amaze yourself, time and time again!

On a more positive note...when you send out your psychic vibes to someone you're attracted to, this will cause them to immediately notice you and instantly become very attracted to you because you are both on the same “wavelength”.

Tell them that you have a feeling about them...they will become very curious, wanting to know what it is. When you tell them, they'll be amazed at how much you understand them.

There is, however, a possible drawback to this technique. I recently went to a hair stylist who was very beautiful and liked me, but far beyond

just as a "client." Although she wasn't wearing a wedding ring, I was tuned in and literally read her mind. She was amazed when I asked her how her husband was doing.

When she asked me how I knew she was married, I told her I had just sensed it. She then stated that I must know her and accused me of spying on her or being sent by her husband to test her faithfulness.

The point is that if you let people realize that you know anything about them right away, they might sometimes not like it...especially if someone is hiding something. Apparently, this woman had a habit of cheating on her spouse. This is why you must use your discretion at all times.

Besides, I've found it to be just more darn fun NOT telling them that you know stuff about them...plus the fact that I feel empowered...like I'm one up on them. They really can't get away with much if you know what they're up to!

### **Thought Projection for Unlimited Sexual Encounters**

With this method, you'll be able to roll out of the clubs with anyone you desire, whenever you wish, and have them thinking that it was *their idea!*

When you are at a night club or a bar and notice someone you find attractive and want to seduce, go into a mild trance. Next, begin to "body match" them. Notice their rate of breathing by watching their chest move up and down and breathe with them. Get into the same body position as they are in and move when and how they move.

If they take a sip of their drink with their right hand, do the same. The same goes if they touch their hair, put their hand to their face, or look at their watch...mimic their every move. They will not notice consciously, but their subconscious will...this is where the magick is.

You will then be on the same wavelength, and you can begin to take control of their thoughts. This is when you clear your mind and visualize you and your "target" engaging in hot, mind-blowing sex. Allow this image to easily float from your mind to theirs, thinking of it like you are sending them a gift with your mental powers of projection.

They will soon start looking at you, and then darting their eyes away quickly. They will be drawn to you and actually feel a sexual urge to be near you...wishing you would come over to talk with them. Instead, let them get more curious.

If you want, let them make the first move...which they will do because in their mind, they have already enjoyed having sex with you. Never leave a bar or nightclub alone again...unless you want to, but why would you?

### **The Chakra Energy Centers**

Although chakras were mentioned and defined in Module 2, the following are the physiological rules of each:

- The root chakra is related to procreation and sexual functions
- The solar plexus chakra is related to digestion
- The heart chakra is related to the heart and circulation
- The throat chakra is related to the lungs and the voice, but also includes the ears, nose, and throat
- The third eye chakra is related to vision, the eyes, and the pituitary gland
- The crown chakra is related to the brain and especially the pineal gland

Just a reminder that you will need to keep these energy points in excellent shape for robust sexual activity. For instance, just a few examples...A strong root chakra for the ability to "last," the throat chakra for breathing and not running out of breath during long sessions, and the crown chakra, simply because sex is really all in the mind!
