[I] Membership Enquiry into THEM

There are some matters that should be cleared up regarding your enquiry into the temple of THEM. The reading of Mvimaedivm, our Temple handbook, is intended as a clue into the operation of THEM by myself and a limited number of others who have experience in ONA magickal ritual, theory and practice, but do not seek the assistance or company of other individuals in that practice.

The internet, while useful for communicating ideas and trading opinions, building a network, helping people with their questions and providing guidance of a sort from a distance – is not conducive to finding people to perform intimate and dangerous black magick with, and as such, we do not actively seek members for THEM in the traditional way, but via a mode that has become apparent to us in the magnetic powers of the Self.

A person who has or actively seeks to abandon all distractions and can apprehend the world for what it is by undertaking all necessary means to understand oneself and to become aware of the ego, the self, and the reunion of these two facets into a super-consciousness that bridges the total psyche – can gain access to greater levels of otherwise subliminal information fed from the psyche to the self via dreams, unconscious activities made conscious, art and other subtle signs. A person who can use that information to update, check, re-program, and reshape oneself, guiding oneself toward the experiences that one's psyche cries out for – to strengthen, weaken, and otherwise meld together an inhuman, or “First Human” capable of feats of thought that dwarf and surpass the modes used by the times we live in that restrict experience and impose morality, unnatural pressures, and blind obedience; is a person both rare and powerful.

Some persons are unable to delve into their psyche deeply enough to affect it without suffering severe trauma, discomfort and psychological damage. Then there are those that overcome the restrictions of the bio-machinery set up by our ego to discover and learn about each facet deeply, until such time the ego and self work together, can be made congruent and actively useful in a conscious and directed way that allows the genius of dreams, of inspiration, of originality to surface as a greater manifestation of our acausal nature. Accordingly, such a person needs no

temple and has no need of ritual. Such a person could understand that all is illusion, but also that at some point in time they must become dark and self-possessed, gathering energies by choosing holograms that Wyrld has shown them will birth creations capable of propelling their way further onward. But progressing further is often extremely difficult at such a level. Black magical experience has revealed that with the emergence of the Self: the being's co-nexion with the Acausal undergoes intense alchemical changes. But the mergence of several Self-types into a ring of empathic nexions; has had unforeseen results and allowed profound insight into the Acausal and the phenomenon of Synchronicity.

THEM, comprised of a number of persons who are sinister and self-possessed, believe the empathy given to us as a group is of an extremely rare nature; it is an intense organic that has developed over a number of years and is shared only by us. Each of us have been involved in magical groups and each of us have practiced the teachings of the Order of Nine Angles [ONA] (some more deeply than others) and each came away with an understanding that is not human. A part of that understanding is that others, who come to know the Self, will be part of a growing force that is the presence of the emerging tip of the Aeon of Fire. If this force is nurtured; and because there is a half dozen of us with this empathy we believe it such a rarity that some kind of Wyrldic propulsion is at hand for this to have happened in the first place; THEM believe that this is the beginning of something hideous and membranous yet to reveal itself. One person, freed or attempting to free oneself from the chains of the current ethos; the "Tree of Wyrld", is a force within the human matrix to be reckoned with, but six is a cohesion rarely seen, except perhaps realized by members of our peers, the ONA.

The forces and circumstances that allow persons to coheso so strongly are rare to say the least. Groups are often brought about by similar and intimate contact on a frequent basis – but that alone is not enough to give a group genuine solidarity. Solidarity cannot be emphasized enough as a key factor in the creation of environments and persons that enable change – and is unfortunately one of the greatest energies missing from those that practice Satanism and other types of activity in modern times intended to alter what Is, to what could be. THEM believe, that true solidarity, void of petty squabbling and the power-play that leads to entropy and destruction of a group – can only be achieved when each member is free from the possession of their ego and has developed synchronous empathy with first, oneself, secondly, the acausal, and thirdly, understands the paradoxical significance and insignificance of the human being. This is not a circle that can be entered by will or good intentions to assist in the Sinister War alone – it must be apparent that you possess the necessary requisites to become "First Human".

THEM could be said to work in twos, each of its members couples working together in absolute secret from the world, and in tandem with each other to help each other grow, expand consciousness, and develop understanding and precedent for those things we are experiencing in terms of messages from the body, the psyche, that are new, esoteric and removed from those things experienced by the ego alone. THEM also operates in cells. We do not know what many of our other members look like, where they are, or anything else about them – only their magickal

experiences, prowess, and that they have slain the ruling power of the ego – knowledge ascertained by speaking for years very closely with these persons, and wisdom felt that there is no pretense, nothing to prove, no hidden agendas, no motivations that enter the script of these persons – a natural aura that would prove impossible to fake.

THEM offer guidance from our perspective regarding what members might need to experience or undertake, in order to grow and outgrow current chains, again and again – but we cannot make your ego and your Self unite. Only you can do that – and that is why access to THEM is difficult. In fifteen years, only three persons have I ever met capable of working genuine heartfelt black magick with, none of which I met on the internet. Also, performing highly personal rituals such as ONA, or even other magickal systems, for me and for my partner requires a powerful bond of trust and love that has taken many years and endured countless hardships successfully to achieve. We cannot imagine doing this with persons we do not know, or persons we come to know from the internet. Owing to the capriciousness of human nature there is a risk of clients becoming vindictive, potentially exposing us and what we do, which is not limited to writing on internet forums, and we are not willing to let that occur. It is expected, that to keep our secrecy from being betrayed, those who come to us understand the importance of remote solidarity and why they must be physically separated from the Temple and its members.

As more and more persons become self-possessed, it is anticipated, owing to what has been understood from the works of Jung, Nietzsche and others that have presented a similar meme, that these persons will, if sustained by other persons possessed of self, and not drowned out and extinguished by ego – solidify as a movement of persons whose thought processes will be symbolic. A change that will aid the stripping of the importance of the matrix, of employment, of commerce, of finance, of economics, of concern for the illusion that this is the only world, etc and establish a new species of being that seeks to become first human, above and beyond all other concerns. The first human is a being that seeks to undo the chains that bind – being possessed of a profound interest in comprehending existence. A being that is not afraid of opening the yawning gates of the Abyss – working to integrate the animal mind and the ego consciousness as one, dealing with the shadow, the anima, the animus and many other tangled knots that thwart growth of the human being – and morph into a formidable shape-shifter; freed of the current of the Aeon and truly defiant of the matrix of form.

THEM has many meanings, it is not just indicative of a group of people, it also means Them, the Dark Gods, and their voice that issues through when the vein of the subconscious is tapped and directs the psyche beyond ego impulses and contrivances. It is the state that is experienced when Self and Ego become active as two powers that can direct one, and embodies the loss of identity that allows one to become a shape shifter – this separates US, from them. It is also a term to denote someone who has truly built their own self image devoid of others expectations that shrugs off the world's and societies roles with friends, family etc., as projections that aim to force a person into a role and play by the laws of the matrix. A being that can smash all intellectual chains into dust, possessed of a determination of the will that others stand in awe and fear of. Furthermore, the word THEM is an appropriation of a Magian fear meme. When people quote an

unknowable source in relating a scientific or religious fact, they generalise and thus create an illusory authoritarian figure, "they" i.e. "they say that..." or "that's what they say" that builds on the fear felt by all in thrall to the matrix, that gives psychological and magickal credence to one's claims. We have stolen that "They..." and it has become "THEM".

[II] The Theory of the Beast

In the realm of Black Magic it is often useful to borrow metaphors or terms from sources such as Psychology. I shall now aim to represent a psychological foundation for the ideas I have encountered: but I must impress upon the reader that this theory and the use of its constituents may lie outside of conventional Psychology. It is important to address this theory now however, for Psychology has its roots in Alchemy, Alchemy is a highly relative notion to THEM because of its emphasis on Change, and part of Alchemical Change involves knowing thyself. I will give a crash course in Psychological terms and concepts and then relate why I believe suppression of the part of the psyche called the Id, personified and demonized, gave rise to the origin of Satan, to Demons, and to the concept of Evil.

Our minds, when being formed, are protected from psychic harm by a container called the Ego. The ego is a vitally important function of our total Psyche that stores for us the unique, stable set of conditions we each live by, with our actions motivated toward keeping those conditions just right or in 'homeostasis'. It is also the aspect of us that generates our sense of control and security over our behaviour, thoughts, and environment. When the ego is first formed it is malleable, elastic in its growth and able to take on new ideas and information, but as it reaches maturity it hardens and becomes brittle and resistant to change. For this reason, once set, the beliefs of people are often unchangeable. Entwined as they are with their world-view, the ego's protective mechanisms, and sense of identity; the beliefs of a person are a hyper-extension of the ego that can sometimes take control over the organism like an autopilot. Ego is the part of us that will fight like a cornered animal to re-assert its view of reality if it is questioned or challenged.

Another function of the ego is to act like a dam holding back a vast lake of water. It acts as a division in our mind that holds back the contents of our animalistic "Sub-conscious" or "Id". The Id is a separate compartment of the mind that originally dominated our Being. In order to have an individual sense of identity to separate us from our previous animalistic instincts, the ego developed by repressing (blocking out) the subconscious. The content and role of the Id is an on-going matter of speculation; however it is best known for its capacity to act as a psychic wasteland ruled by unknown dimensions; a primeval enigma that contains contents highly disturbing to the logical, rational mind. It is a subliminal pool that contains among other things: our dark secrets, wishes and desires, our irrational urges and impulses expressed without restraint, intense anxieties and repressed memories of fear and pain, the surfacing of which can be extremely dangerous to our fragile well-being. Our ego helps to deceive us about our innate fragility and keep up protective illusions of safety, conformity, normality, control, security and "Reality". It essentially tries to ignore the Id and takes great pains not to disturb it. Those in the field of Analytical Psychology (Qv. Carl Jung) are painstakingly aware of the care that must be taken when allowing content from the Subconscious of a client to emerge; and Psychopaths and the impulsive/compulsive individual embody examples of the ability of the contents of the unconscious to interfere in sane growth. As well as guarding against internal pressure the ego also helps us to deal with threats from outer forces we face in our external environment. Because it is subjected to enormous psychological and physiological pressures it is important that its development is

properly executed. If the Ego is damaged during crucial stages of its development, it may crack and cause unpredictable leaks of content from the subconscious to occur. A significant crack can enable a large flow or even a flood of subconscious content into our consciousness allowing what is called 'the Abyss' in magickal terms or 'the Collective Unconsciousness' in psychological terms, to be released onto what we know as ourselves: the "I" resulting in madness or severe psychosis. This theory closely parallels our biological evolution.

Before we gained the level of consciousness that allowed us to recognize ourselves as individual thinking beings separate from each other and the rest of the world, in fact before we were "humanity", proto-man was ruled by base desires and savage primal instincts. At some point in our evolution we were able to suppress our ruling animal instincts long enough for Consciousness to arise. We eventually achieved a state of self-awareness that allowed us to appraise and wonder at our own existence. This unique state of self-awareness is referred to as the 'I' in Psychology and has long been regarded as the single-most fascinating achievement of the human organism. But the emergence of the 'I' came at a heavy price. In exchange for Consciousness, we had to forcefully drive our natural, raw instinct of what we were (the Collective Unconscious) back from the fore of our minds and forge a new artificial conscious collective agreement (the Collective Consciousness) on what we wanted to be.

To help do this, over time our species created, and then instilled, Values, Group Obligations and Right Conduct into and onto each other, further suppressing the raw state of our natural being to further the aims of our artificial one – which was a mass social form of indefinitely deferred gratification (having to wait for set conditions to arise before one can gratify ones natural desires). So long as we kept our primal dark forces [The Id] in check, we were able to get along with each other relatively well enough to develop groups and societies – usually ruled by a few, who used fear, violence etc., to enforce Law, Order, and instill conscious conduct.

Over a vast span of time, and as Consciousness spread, the majority of people developed an Ego strong enough to contain the Id indefinitely, or productively released it via outlets of creativity, dance, music, language, symbols, etc. A whole social matrix was built upon the attempts to keep the subconscious out so that our new state of independence could thrive and we began to cloak immediate needs and base desires within respectability and glamour. Such glamour is artifice; all humans contain the Id and all Conscious human beings are scorpions.] We also began to give names and labels to things to begin dispelling fear. The more names we created the more complex the world became. Today, there are so many names for things, and so many institutions to perpetuate more names, that we have forgotten its original point as an exercise in control. Because there are so many concepts and names and ideas that have been layered onto what really Is apparently there [which is geometry] and nameless, there are now millions of illusions that must be broken before a grasp of genuine reality can be achieved. Owing to the hardship required to break free from such illusions most cannot help but be entrapped by the deception of authority and the webs of the matrix.

But, those that made a religion of suppression were ill-prepared for the strength of their new enemy. The Id or "Beast" could not be tamed and the forces of the subconscious proved powerful beyond their wildest dreams. Although punishment was meted out to those unable to hold back the advancing forces of our primal being as a social admonishment to discourage others from releasing what was imprisoned within; suppression did nothing to sate our desires and urges to behave naturally. While some adopted the new Conscious collective agreement and joined the religion of holding back their impulsive urges, some followed only in part by practicing its release in private (or in public granted certain power); and still others refused (or were incapable) to

suppress it at all, continuing to embody our original natural state of being that sought instant gratification.

Out of growing fear of the Beast to undermine our civility and our human-ness, we denied the unknown realm locked away within us that frightened us for its unpredictability, its cruelty and its propensity to erupt from the calmest human being. Such a force threatened to engulf the conscious accomplishments of humanity in chaos and destruction. In time, various Religions and magical tribes came to call signs of activity stemming from the subconscious by unfavourable names. In effect – A war was declared against the forces of ‘The Great Beast’, the opening psychic shot in a Mind War that would lead to all manner of dark masters/forces Named responsible for the horrors that issued forth from people – various Monsters, Deities, and Gods, and of course, “Satan”, all in a bid to control the subconscious. Other words crept in “Demons”, “Evil”, and so forth that led to wide-spread persecutions to stamp out the Beast. It did not take long for some to realize the power that came from interpreting existence for others... Yet those who suppressed the beast the hardest were often those most afflicted by its insurmountable power.

When the subconscious is kept under lock and key and an option to vent it/express it by ‘exercising the beast’ is denied; the expenditure of energy needed by the ego to hold back subconscious forces grows exponentially. Without outlets, the repressed forces grow stronger by the day until they grow powerful enough to over-run the defenses of the Ego or shatter it completely causing psychosis. They manifest outwardly as unchecked acts of raw desire, often many times stronger than when originally imprisoned, often expressed as acts of sadistic cruelty, murder, torture, brutality, violence, blood-lust, war, passion and rape. Or they consume the ego with a barrage of irrational emotions and desires that drive the being to fulfill them or take out its frustration at being unable to fulfill them in other, often destructive ways. The Ego can only do so much to hold the subconscious back until it is eventually overwhelmed. The fact that our natural state is one dominated by the Subconscious tends toward its favour in a war of wills.

No matter how emphatically the subconscious is repressed; like the metaphor of the stubborn weed, the tendrils of the unconscious will keep returning, writhing forth again and again into the fore of the mind in an endless struggle to choke the host plant into submission.

By forcing our instinct underground we committed ourselves to a life-long struggle against our very nature in order to maintain an artificial existence. The artificial existence can only prosper under certain conditions: the most important of which is suppression of raw unconscious desires. In the eyes of the Artificers (The Magian Illuminati. Qv Book III) in our natural, uncontrolled state of being, humans are either; terrifying creatures suffused with a brutal, primal darkness that has been called “Chaos” that are too ferocious to tame; or frightened creatures too timid to work or help create the matrix and further the Artifice. Pending on Environmental and Genetic Factors we might be either – thus we are shaped by the Artifice as soon as possible.

Chaos is representative of the unconscious and is anathema to the Order that the Artificers wish to exist. One may be reasonably sure that the Artificers were simply those that excelled in disguising the Beast, who over time granted their base desires and ambitions using deception and cunning – forming groups of self-interested individuals that conspired to manifest their Beasts within using the forms and illusions of the Artifice to conceal them. There is ample corresponding evidence within Sociology for this. For example an individual who commits Corporate Fraud which relieves hundreds of people from millions of dollars, homes and savings, is far less likely to be charged and go to jail, than someone who steals a single car. Using the illusions of respectability and the forms

of the Artifice – the Beast is concealed. The Artificers support suppression of the Beast *in others* via religion and politics for example, negotiating with others to defer gratification by reason, cultural norm, money, threat of imprisonment or force – but they do not support it in themselves. They use the subsequent meekness adopted by a populace to rule it. This type of thing has been going on for a long time – and it is known in Satanism as the Great Mind War. The Great Mind War is a fight between the Magian to assert Artificial Forms based on original fear such a moral good and evil existing in the world over the Sinister understanding of the world as Godless and dominated by Chaos. This will all be covered in great detail as we progress through the books. However, because they fear Chaos so rabidly, the Artificers have deliberately fostered great ignorance concerning Satanism and created a whole system of occult blinds and myths intended to prevent any real magical Adeptship from arising in an individual that could seriously pose a threat or challenge to their ruling regime. For this reason it was extremely difficult to learn the Traditional practices of genuine Satanism beneath the tame, safe, watered down version that is happily peddled commercially that misdirects and controls the Beast by dictating the terms of its release. And the simple motives are Jealousy and Greed. If everyone released the Beast or mastered its control as well as the Artificers, the Artificers would no longer be powerful. Their power rests on maintaining an unequal distribution of power. If for arguments sake everyone was suddenly as powerful as everyone else: power would become mediocre and ergo, normal. All diversity of forms within the matrix would fail and a utopia created which would also be mediocre. The Artificers money, assets, lifestyles that set them apart would become commonplace – and were this so, money would become obsolete because there would be no workers willing to work, thus no-one to generate wealth, thus no socio-economic growth, no creativity, no slaves, no masters, and no Artifice. Hence: to be powerful means keeping power from others. The means to regain the power are within your reach, but you must first understand the scope of what it is you must overcome, how the system of control works, and how you can begin to set about facing yourself in order of break free of the cycles of lies.

Understanding the creation of the Matrix is the first step to regaining control of ones Being, hijacked by the ego. Through practical and thorough magical/alchemy practice or psychic exploration, the contents of the subconscious can be integrated with the Ego to form a Super Consciousness, or Self.

[III] Invoking the Tempest

It is for an individual in this Age, imperative as a Satanist, to continuously hone one's capacity for reason and intellect until it shines as a sword of death. But there comes a time with intellect when one's reason cancels one out with the magic of the rational. Where ones thought has so deconstructed reality that all actions seem futile, and one is plagued by the inability to give meaning to one's prison of freedom; thus becoming a tortured and existential question mark of a being unable to decide where Wyrld lies or destiny beckons; afraid to invest one's energies in anything lest it prove a later waste of time; a paralysis that comes inexorably with worship of the God of Logic.

Such individuals can be seen in abundance in this time; writhing in the agony of philosophic limbo and spraying nihilistic blood in the form of questions; ever questions, and despairing that someone should answer.

Mastery; Excellence in everything; from weakness to strength; thought to feeling; this is the triumphant ecstatic of living that is the mark of a Satanist; and too, of THEM. Lest an individual

become a specialist; limited to mastery of a single or handful of crafts; above all aspirations carnal, physical; we seek Excellence. Thus, one who believes themselves master of their very nexion; of the flesh and will that is given them; should be able to exercise excellence in Silence.

We have spoken, and others have spoken in turn, of the Ego; glibly as an abstraction that each can assume to be understood on ones own terms; and often assume within the context of the superman mentality/deceitful occult ego to have exorcised or controlled; if even made its acquaintance. While many deny they have one; it is relatively simple to destroy this delusion held dear and reveal the innate function of a phenomenon that leads one invisibly to self-hypocrisy and limitation of being.

It is necessary then to demonstrate the awesome power of the Ego and show to those who believe themselves free of it; the arduous magical task of the magician of meeting, understanding, and conquering a precise element of our being, made precise by the exercise that follows. [Note that it is not a requisite to follow the prescribed actions; merely the principles involved.]

*In a blacked out chamber where no light may enter: or outside before the sunrise; assume a standing position; feet a shoulders width apart; and hands rested at the sides.

*Close your eyes and picture a black, fathomless Abyss. [I.e. The Abyss from the movie Into the Mouth of Madness]. Let the impenetrable darkness consume you and every thought. Around the verges of the blackness, create a shield of silent whirling blades or a virtual tempest that destroys Any thought that enters your consciousness; bar that of the Abyss and the protective wind of the tempest.

*Let nothing distract you from standing on the edge of the Abyss; concentrate all your being on it and stay psychically silent. No thoughts should run through your head, no daydreams should occur and only the silent abyss should exist for you. If ideas or thoughts begin to form or whisper, or speak, or chatter; if you should wander into a reverie of something unrelated to your exercise and find yourself becoming aware that you have strayed into thought:- then you will now be conscious of the existence of an often over-riding urge for the mind to incessantly provoke and encourage internal chatter. For an External Adept this is acceptable; the EA Rite of ONA being an early stage of the Seven-Fold Way, is in fact, the antithesis of this exercise; for during the EA Rite one is encouraged to lie under the stars and let these thoughts form with almost abandon; where it is expected the initiate will create the groundwork to magically congeal. But for one who believes in no-limits, in Satanic aptitude; an inability to silence one's self on command, and remain silent, is a by-product of the exaltation of intelligence.

The conservation of energy expenditure for a magician via standing on the edge of the Abyss in the silent desert can hardly be stressed enough for its intrinsic Sinister value; such energy expenditure is touched on in greater detail in Volume IV of *Mvimaedivm* by Sor Terrosa. But for those who hear the chatter of which we speak; who have yet to broach the gates of Satanic Majesty; who will witness first-hand the distractions that possess one's will without detection but that which exists in retrospect; who stand at the Abyss and hear the screaming of the Noise still – consider this a reminder of your Satanic Oath for Excellence and of the insidious deception of the Deceitful Occult Ego...

[IV] Divine Joy

I - Evolution

Today, when the human baby is born, for some time it is blind and for a year or more remains completely dependant on others for its survival. In such a helpless state, how did the first of its kind survive long enough to give birth? Perhaps we are descendants of the monkeys, but how does this solve the original dilemma? The monkey too is helpless at birth. What is the logical sequence of events that preceded us?

Logically: unless there was a species capable of caring for a human infant at least long enough to survive to procreate; a species that was somehow not helpless at birth and able to nurture its own growth and independent being (Are there any examples of this in nature?) it is practical to consider the intervention of intelligent design. What genus of animals abandons their young immediately after birth? And could such a genus have helped raise the first human such as wolves, bears, tigers and other animals have been documented doing? Or, are we deluded and ignorant of a much different past? Are we descendants of another race?

With Evolution: the causal procession is often assumed a case of which came first: the Chicken or the Egg. It's a lazy paradox. Nature spawns creatures that are tested against it. The equivalent of guinea pigs; slowly tailored to suit and thrive in their unique environmental conditions. Perhaps the first chicken (a result of cross-breeding) was simply dropped in a sac to the ground as a "freak" of nature, (how arrogant to assume what is normal!) and the hard encasement of the "Egg" developed as a result of repeated impact and damage to the sac. Consider the essay on Parallel Universes and its theory of an interlacing level of organisms each having as a by-product of their existence a major magnification by the collective forming another form. To survive; the organisms subjected to impact would over time develop protection at the micro-level of their structure and this is likely to have a knock-on effect that sustains the larger collective form too. This would mean the egg developed well after the proto-chicken. The paradox only emerges when we assume that the "first chicken" was actually a "chicken" too.

It seems no less far-fetched to believe that an Acausal intrusion gives life to life, than it is to believe a God has done so.

II - The Great Chaos

The first words of the Christian God are: Let there be light. It is a revelation on two fronts; 1) that there was darkness prior to God, and 2) that there was reason for the light.

When the first of our kind was born; we must assume that somehow it survived long enough to procreate. What hideous terror must have assailed the first infant of our kind; what alien and

primeval sensations, what noises and smells, what uncontrollable and original/pristine encounters with this dimension must have been the first experiences of that infant. We have considered how the first infant may have survived. Let us be optimistic and think on the experiences of the first men. The Sun, the Moon, the Sea, the Mountains and the Forests; must have truly overawed the first men. And not merely the visionary sensations but those of sound, smell, touch, pain. With no words, no language, no comparison for what they saw: no comfort of control over the colours, lights, and fury of the old world; it must have been the original act of Staring into the Abyss. So absolutely frightening was this experience that men were forced to understand what they saw in order to survive it. The Great Chaos was too much for first man; as a baby screams in distress at its birth today; so too would primeval man as an infant have been absolutely awed by the experience of suddenly being alive; with no-one to comfort or soothe. I reason that this first experience of men was captured genetically in the early stages of the formation of memory and experience of the psyche and is at the very root of our nature as the human species as the first repression; a repression necessary to enable men to rise up and control the horrors of their surroundings by giving names and meanings (eventually) to things that shared space with them. This repression of Original Chaos is the ghost at the core of memory that drives all human beings to invent the Matrix: as a means to cover the Abyss with meaning to control it. If we had or could not, we should have perished with fear and would not have become the Human Race.

Chaos defines us, and that is why the idea of God(s) resonates hypnotically within the human psyche; that is why "let there be light" are the first words of God; because they are the first act of man.

III - Perspective

Humans fight hard to control others by setting an example to follow, by maintaining social norms, shunning, punishing, rewarding different norms as an unconscious means of covering Chaos with things, with the illusion of the Artifice. And for this we are incredibly stupid on the whole; for all our pretended sophistication we merely mirror what our "Leaders" do to us, socializing and controlling us on the personal level: and yet there seems to be some difficulty in fathoming the concept of "Illuminati". Hah! Human beings disappoint me, and no doubt I disappoint human beings. I am one of the young upstarts that has just arrived here; I am impetuous, curious, and innocent of the punishment reserved for those who try to uncover the Great Lie by a means of exploration that can be unethical, immoral, and completely alien to the well-bred sheep: I seek to Know and to tap into the memory of the Chaos; an act that threatens to undermine the sanctuary and bliss of the Artifice {Through the form of Satanism} while the controlled and the controllers wage war for the continued existence of the Artifice; afraid beyond all imagination at the opening of the Abyss. The Magian that practice the old magic are the remnants of pasts ages of powerful sorcery; a mind war both conscious and unconscious. This sorcery is enabled by the Matrix, where the Jewish invention of Usury, Multi-National Corporations such as Monsanto, Financial Giants such as the Rockefellers, The International Monetary Fund and the perceived authority of passing Laws to bind action are all dependant on a being's entrapment in their world-view. The big picture is so much larger than people can imagine when we paint it with the tools of the artifice: but in painting with the oils of the acausal the picture is minute. One has equal right to BE, to realize will to power, as they do. Life is so simplistic that it gives great entertainment to see others quest in vain under every rock and tree for its keys. But yes, also some sorrow.

IV - In Time

If we loosely use Judeo-Christian jargon; and take Satanism to mean being like the character Satan and rebelling against Heaven: and use Heaven as a metaphor for Control throughout time of an Age by some to define it, we can see that Creating Heaven is a practice that is re-enacted every day on Earth; and those that believe that Heaven to be the one sole truth and reality, are In Time. In Time = An artificial recourse to frame the observation of Change (that is esoteric before translation) in periods of an ethos that defines or is defined by reference to its events and peoples. Those in Time live out their existence, shaped and controlled by the culture and climate they are born into. Moving to another country may alter the Time lived in, for not all cultures are equidistant in Time.

V - Divine Joy

I am aware of the Great Chaos. I have made myself aware over time. Painfully aware. I have been willing to be different from others and perform gymnastics of thought that are considered madness by most. To separate my existence into constituent pieces, to interrogate my motives and shred myself into nothing, something and nothing again. To imagine one-sided coins and to draw them; and teach myself to dive into my horrors and turn my face to Saturn. What I have found numbs me. Tortures me. Whispers in my ear to return to it. To lie down and succumb to silence, to rest, to peaceful quiet unending rest. To die, to become dead, and unite with my original source.

If not for my vocation as a Satanic teacher; who at once creates and destroys the world and those around him as I see fit; neither committed to saving or killing his influence of personality with the less fortunate {or perhaps more fortunate} blissfuls or to being a good or bad man... if not for my choice, or belief in choice even if pretense, to select my toys, my illusions that entertain me, but for a brief while my life exists, I should leap from life into the darkness to continue my journey elsewhere. I live a half-life of knowledge that I have need to fill with distractions and presents so empty is it, at once knowing the banality and futility of the human condition; that is obligated, or makes itself obligated to exist because of 'something'. Some purpose that makes it important to delay my return. And to indulge in carnal delights and earthly pleasures, such as they are, and to give happiness to another, to each other, such as it is. That life be bearable, sustainable and desirable.

How dreadfully melancholy! The framing of chaos leads to absurd speculation of fancy. Fancy that cannot help but overwhelm one with an inner grin from ear to ear and give cause to laugh wildly, madly and secretly at the hilarious solemnity of the human struggle to BE. This joke of Gods, and its punch-line, is so ecstatically satisfying – that it makes knowledge of the Abyss seem not a burden, but a divine joy.

[V] In Sinister Solidarity

[Dangerous Knowledge to the Uninitiated]

The moment a person is set free from Time; free from living in the Matrix under the thrall of the Ego;- that developed "I" that gives us animation and the illusion of free-will so necessary to feel 'human' – is the moment that psychic Security is undermined.

What allows us to have control in life is the feeling that we are Prescient – and for this, an image of who we are needs to develop over time that allows us to fit into the society we live in. At least, this is usually the goal of guardians raising a child for a number of reasons; some of the major are a) socialization is a necessary means of survival; b) there are strong sanctions made against persons who show a marked destructive/creative capacity that is at odds with societies rules: and c) all children are naturally sociopaths and for society to be possible: children must be trained to be subservient for the parents well-being, for the child's well-being; and well-being means authoritative control.

We spend a lot of time learning about the world around us; and at first we only manage simplistic terms such as a "Rainbow is colourful". As children we accept this readily enough; but will eventually come to understand that our guardians are fallible and often hypocritical.

When we get older we will be able to comprehend that a rainbow has seven colours; when we get older still that a rainbow is made up of light; and later still that Light is made up of wavelengths; but eventually we will come to understand that all that we have been taught as fact, is valid only if we believe an authority.

When we are told at university that no-one actually knows what light is, realize that our religion doesn't have the answers we need, or witness the hypocrisy of our guardians- there are corresponding occurrences of fallibility.

Those with children will often be bemused when a child spends a lot of time animating/personifying a teddy bear and pretending it is real and they try to play along with the child's fantasy. For some time the child will agreeably let the guardian add concepts such as the teddy is walking, the teddy is hiding; but then all of a sudden something as simple as "the teddy is drinking" will cause a solemn response from the child to the effect of "its not a real bear you know". These innocent unexpected moments of seriousness are signs of the child's growing powers of reason to test fallibility. For some children: this is the breakthrough needed to begin becoming autonomous. So it is about this time, that the Ego begins to develop.

Such growth is of course carefully monitored, controlled, steered and guided by, guardians of the Matrix: and in this manner; there tend to be built-in submissions to higher authorities. Be they God, State, Police, Parents, or Ethics. Now, because the Ego is trained early on to work on a Reward/Punishment basis; it finds pleasure/pain in obeying/disobeying certain authorities.

Unless the early Ego is given an experience of the fallibility of authorities that causes a re-think of certain notions about the world held dear; it will be happy enough to live out life under the impressions of the world tutored into it; and, once it has decided its Weltanschauung (world-view) it will begin to solidify notions and schemata for the means of maintaining a set stasis. I.e. it will become hardened and resistant to new ideas, in its bid to control the world from the seat of its new identity, the "I". And pending on how fragile the Ego - will even become violent when challenged. Some Ego's are flexible; and will be able to accommodate one or two drastic changes and can usually bend a little as means of compromise. But very few have the elasticity caused by seeing continued fallibility in authoritative figures and notions during early formation that cause the socialization of the Ego to be improperly executed. We teach socialization by simplistic repetitions; and we are shaped by virtue of simplistic repetition to LIKE a specific and unchangeable world.

When something that is a god to a child is shown to be infallible it is often confusing and a shock to the Ego; it throws things into question and causes a re-examination of ones ideas and a rejection of some of those ideas. It is an uncomfortable moment of insecurity and fear that we suddenly have lost control of our matrix; but for most there is always someone to reassure us of the Validity of that God, or somehow comfort us and this actually coaxes us away from facing that fear and examining what it is. But it can't always be so. The number of human's means there will always be anomalies to the equation.

Some, will not be comforted by the explanations of others or soothed by the means of rhetoric; indeed, some will be angry and affronted that they have been tricked into being shaped the way they have by others; to being controlled by laws that previously seemed sacrosanct. And with the fallibility of, for example, seeing police beat innocent bystanders, or hearing of a case of a wrongful imprisonment, they will question such authority and subsequently come to reject the musical lull of the fawners in the Matrix. They will attempt to seriously re-examine their lives, their ideas, who they are, and why they are here. This will often result in a quest.

If such a Quest is heuristic, or Satanic, it will usually involve in-depth examination of all authorities as the Satanist seeks to embody the rebellious archetype of Satan. The type of mind that loses faith in authorities and openly questions/rebels against them – is in the eyes of the World, Sinister in its being. The type of mind that loses faith in authorities will closely scrutinize them and with enough study see right through each of them and understand them for the illusions they are. The vulgar truths that are revealed via such study can incite intense anger and profound indignation as well as a feeling of being lost in an ethereal nightmare.

The illusions of the Matrix are arranged just like a house of cards: the same way we are taught concepts one by one as children; the same way breaking those concepts causes concepts associated with them to fall down. One by one the destruction of each will cause part of the intellectual world to crumble away as though the backdrops of the world were peeled off and a vast network of wire frame were to be seen underneath: viz. the infinity of the Angles.

Such a disturbing/disappointing find often leads to a renouncement of the quest and the path to madness or mediocrity; as in desperation the Ego will fix its gaze on an object in order to cling to its last shred of truth in the Matrix. Without something to cling to, it fears it will lose all control and security and find itself alone, divorced from the convenient reality of others. And if it can let go of the Matrix, it will, in a very frightening, chaotic place with no rules that some call the Unknown and others know as the Abyss.

Such a “dis-discovery” if it does not destroy the Ego and render the organism senseless – often experienced as apathy, nihilism, suicide, depression - will if followed in due course strip away Everything that was held dear in the foundation of the Ego. It is thus important to understand this process and work on dream channelling, psychic-exploration, and other means of establishing a true self to fall back on, and BE, when the Ego is eventually dissolved.

A being should expect to have great difficulty in coming to terms with stepping out of the matrix and not being able to go back to believing in the world it knew. The deconstruction of reality leads to a disintegration of the ego and conversations and actions of everyday are all revealed for what they are; dependant on the Matrix. Without the convenience of a surrounding structure the Ego loses it function to act as a psychic safety net that provides the security or comfort of knowing what to do with your Being, what it is Being, or how it should act.

It is for a long time a seemingly permanent separation of one's existence from the real – and a plunge in the chill dark of the esoteric. It is an intense moment entering the Angles, and it has not been written about by any Mage I have studied or learnt from. One might consider this a separation from God and the aim of Satan himself translated into human terms - But it is only the beginning.

Unless you are willing [and by willing I mean possessed of a demonic dynamic wyrd to truly KNOW – a true Satanist] to keep going further into the Angles; you will have only come half way; and you will feel extreme anguish that there is no foundation that you can trust. You will feel as though you are New, here. The inanity of others who continually refer to aspects of the Matrix that is still real for them will grate on your nerves like nothing you know. Unless you construct an alternate Sinister matrix for the Self to survive in: the horrible things that stalk the Angles will devour you. I don't just mean the torturous logic, uncertainties, doubts, and fears, inability to explain to your Matrix-entrenched loved ones what is "wrong" with you or wrong with the world – I mean real Demons.

The reason for building a Sinister matrix is the same reason for building the Self: breaking out of the Matrix poses an immediate danger of lack of control over your external form and others perceptions of its constructive function in Society. Adjustment takes time and may put you in a vulnerable state. You face the scrutiny of others and potentially the threat of chemical/physical imprisonment by the State. But the mind and body must be preserved to continue consciously directed growth. The Sinister Matrix is a means of perception that perceives world content as a blank slate, as though it were all black clay over which some have put signposts and tents and coloured flags, and others have built enormous castles and armies of coloured plastic. Much of the clay has been brightly carpeted to cover its dense impenetrable truth, but these illusions and concealments do not fool. Shapes made from this black clay or "matter" visible to the eye are understood to be creations moulded into shape only by the hands and wills of others, and able to be re-shaped by ones own will into another form. Nothing made of the black clay is permanent. We are not absorbed with the signposts and bright flags - that is the realm of illusion and Semantic knowledge. Our quest is with Intuition, of the "Black Clay".

Once you have peeled away the wall-paper of the Psyche – and all authorities lay slain and dead at your feet, there is only one place that your Quest can lead you; back unto your Self. Annihilation of the intellectual Matrix does not annihilate "you". The prescience of "You" will be an immediate puzzle under your own constant scrutiny; and for this it is necessary to develop the power to split into different parts of your Psyche; such as the early and mid stages of ONA/THEM Satanism teaches. Now you know why. Because this stripping away cannot be understood [at least it wasn't, prior to the writings of THEM] by those who haven't undergone it: because you must travel to an Unknown plane according to the specific dissolving elements of your Ego: and because the words, advice of any kind of authority cannot sate you: the Quest of the Left-Hand Path is a Sinister, and Solitary one.

Despite the esoteric frustration you will initially experience when your being reanimates the slain Ego under new control of the Self – the fragility of words, ideas, notions, images, meanings, etc - you will eventually understand these fragments do not form a whole: or if they do, it is a whole that will be entirely dependant on your will: thus do not need to be logically understood but irrationally allowed to whirl about your mind [for this is the source of material for re-creating the Matrix and becoming a God within it] and the more immediate problem of your Being, your body, the life-force that you can feel somewhere in your animation becomes apparent. Because you have chosen a

Satanic Quest: to be like Satan: experiencing the Matrix and the Abyss will not be enough. Knowing what the very heart of the words "Satan" and "God" are and represent at their finest level will not sate you: you will want to know what it is that animates you, what it is that resists against you if not a chair: but a tangle of angles that has thus far been lumped "Matter". It is a Quest that THEM are still on. Meanwhile, you will have your feet in two different worlds, one of the Matrix in which you may learn Semantic Knowledge to indulge in your whims as a creative/destructive God, now knowing the secret weaknesses and fragility of all forms. And the other foot in the Abyss, by which you may dissolve your temporary Ego and intellectually modify or alchemically alter to give yourself a type of reason or thought that allows you to change perspective so that you may perform in the Matrix super-human feats of thought and action and override the usually strict encompassing rigidity of the average Ego that says DON'T: because you are no longer bound to obey it: because you are now, "in league with the Devil".

[VI] Magic and Intellect

Behind [or perhaps beneath] the understanding that is achieved by rational, logical discourse: Each member of THEM possesses an empathic [and simultaneously divergent] understanding of how magic is performed that is grounded in the intuitive. Our methods of magic are practiced spontaneously, irrespective of the intellectual ideas set up by the Logos to explain them. They just work.

THEM believe that all communication taking place before entering the Abyss is simply noise. Thus a treatise that deals with the Acausal etc, intellectually, can be said to be a communication from a platform of being that has descended into the lower spheres beneath the Abyss, in order to be understood effectively by those who have not yet reached it, and is essentially an example of the mode of inner dialogue that creates the 'noise' experienced by the uninitiated that distorts essence.

While it is sometimes useful to explain – beyond the screen, and in practice, it's better to "See" WITHOUT the disruptive agency of Thought; to see directly the energy current to be dealt with and to know intuitively and concretely what to do with it instead of uploading it with one's whole worldview of the moment.

When SEEING without the inner dialogues mediation, however wise it may be, the energy currents one perceives could be expressed only by abstractions indeed, but these abstractions can be turned back into energy currents; you can bring down fire from the sky by using such an abstraction, while the abstractions invented by the mind to grasp intellectually the energy ocean beyond would hardly work in that way.

To SEE is to stop the inner dialogue of mind, to cease it while perceiving directly with ones whole beings awareness. That seeing is neither seeing by eyes nor a metaphoric expression. "No-thinking" is a basic ability demanded by the IOT from any probationer.

Moreover, the no-thinking has the property to accumulate itself – any exercise of no-thinking, even for a minute or more remains as an experience; and when there is enough no-thinking stored, it can suddenly stop the inner dialogue and thus the perception of the world kept by that dialogue. Then, one starts seeing things as they are.

Intellectual preaching becomes exhaustive and boring sooner or later. The sorcerer soon or later

learns to value his available energy instead of wasting it in exhaustive intellectual reasoning. Magick being based on seeing cannot generalize philosophically the perceived world - it can deal directly, exactly, precisely and concretely with the energy currents constituting an individual, an ethos and an aeon, but it cannot explain why the things are constituted in that way.

[VII] Remote Solidarity

+o+

"And `lo the Black Sea did flicker,
With the flames of a thousand Nexion,
Cosmic blood coursing forth,
Quicksilver of the Vivisection..."

One may ask: how does the Temple of THEM enjoy solidarity and magickal cohesion if its members operate in cells and never meet other cells to conduct group activities?

An answer: Through Empathy.

Empathy is believed by THEM to be a result of contact with the Acausal. While the exact operational nature of the Acausal defies a concrete explanation: it is not dissimilarly represented by the Sea, and can be grasped intuitively as an "Other-Dimensional Ocean" that rages beneath our own dimension, the "Causal".

From the Acausal Ocean a swell [Wyrd/Cosmic Will] is generated that causes waves [Acausal charges] to well up and `break' [Presence] in the dimension of the Causal. The charges manifest in the Causal as various types of "co-nexion", a link between the two worlds. One of these co-nexions is the human being.

A gold-fish bowl analogy is apt here. A flat piece of cardboard with straws punched through it is inserted to act as a stopper between two goldfish bowls taped together with their tops touching to form the shape of an hour glass. One bowl, let's say the lower one, is filled with water to represent the Acausal. The other bowl, the upper one, contains some pieces of sponge, representing matter and the Causal. The straws represent co-nexions between the two worlds. It is through the co-nexions that the Acausal charge passes through into the Causal. Imagine that water from the lower bowl is able to travel up, through and out of the straws, leaking into the top bowl. If there is an unlimited supply of water in the lower bowl, over time, the upper bowl will be flooded. How fast it floods is determined by the width and the number of the straws that the water can flow through. The sponges represent inert matter whereby contact with the water is the equivalent to Change, the result of acausal charge giving life/animation to matter and to us. In turn, Change is the means that leads to an altering of collective consciousness by increasing the number of co-nexions to the Acausal.

Via this model we can garner an understanding of oceanic displacement that allows the co-nexion to be simultaneously solitary in the causal, but unified with other co-nexions at an acausal level, with empathic communication possible that defies causal limitations of time and space.

Understanding the co-nexion of the Acausal and Causal is important; for what is known as the collective unconscious resides in the Acausal. The manifestation of the stage of consciousness that has been called "Self" is thought to be a result of a human co-nexion directly accessing the subconscious part of them that resides in the acausal. Thus accessing the subconscious can be achieved by widening the channel for acausal charge to presence more of its energies. And because an increase in Acausal energy is believed responsible for the inherent genius and original thought that flows from the human nexion, there is significant occult interest in tapping into such a source to potentially create a new species of being with unrestricted access to the subconscious. The Self can thus be said to be a higher receiver: a desirable progression of Consciousness. Some observations have been made regarding the results in the causal dimension of contacting the Acausal. For example, there is a marked increase in collective Synchronicity, where a unique idea surfaces collectively and consciously by many people and at a similar time; or, personal Synchronicity whereby a being experiences magical magnetism to attract improbable and often fortuitous circumstances that assist one to realize their personal destiny, i.e. "Wyrd". THEM call this "guiding light" – The Acausal Voice. The Acausal Voice is synonymous with "Wyrd", or in layman's terms, the 'express wishes' of the Cosmic Will for evolutionary development.

THEM believe that in our six self-types coming together: we have formed an empathic ring that allows a vast torrent of Acausal energy to flow into the Causal. This increased co-nexion with the Acausal has given rise to unprecedented insight, including Remote Solidarity.

Through Remote Solidarity, presencing of the Acausal Voice by the Australian Chapter of Melbourne can assist the work of the Sydney Chapter by, for example, accepting their enemies as our own and synchronizing the performance of regular Death Rites to aid and hasten the destruction of those individuals deemed Opfers by the collective will of THEM.

In the death rite the "Aeon of Fire", empathy with one another is created by psychologically bearing witness to the will of the person who initiated the Death Rite and supporting that person's aim. Such solidarity aids the cohesion of our members causally– with said ritual further emotively enhanced by the taking of non-sensitive photos as a psychic proof. That a member knows he/she is being supported in their desire acts as a powerful enhancement of their will on a personal level, but to synchronise the performance of focused energies allows the Acausal charges implicit in those individuals to run together causally creating a combined Will of tremendous strength.

It is possible then, and as our enemies approach Imperium; restricting the ability of its opponents to get together physically; even necessary, for isolated pockets of persons to perform powerful magick and Change together via speaking as a co-nexion of the Acausal Voice.

[VIII] In the Aeon of Fire: A Ritual of Death

[A note on Intonation: Members of the Temple of THEM do not exhort the Dark Gods to obey us or seek to draw on their favours by wheedling their assistance. We are sinister and self-possessed

emanations of the Dark Gods themselves and Our Will is Their Will. We are cold and sure of our magic.]

Preparation:

On the Earth, the Mistress creates the Threshold symbol and opens a Gate. Below the Gate, the Master draws an Acausal pentagram: a tetrahedron within a starry black chaos that corrupts the boundaries of an inverted pentagram.

Prior to Ritual waxen images are created of the Opfers.

Ritual:

Mistress: In the Aeon of Fire, beneath the glittering gaze of the starry Abyss,
We Remember.

Master: In the Spaces between Worlds, where the Bornless and Lucifer wander the Angles,
We Stand – And Remember.

Master: To this Nexion beyond Time and Space, we touch to return, that to be returned,
And Remember!

[The Mistress places the dolls under the plinth of the Gate symbol.]

Mistress: By Our Black Will is the Threshold that seals made thin and the Gate thrown open,
Agios!

Mistress: Come forth from the Labyrinth of Angles, Gods of the Crawling Chaos and devour these
Burned Stars!

Mistress: We Return these beings to Being. They have no place here,
where we Remember THEM.

Chant "Diabolus"

[IX] Love Vs Loyalty: A Study of Fear and Control

Love is uncontrollable. It jumps upon us, without permission; it is beyond us. We know we cannot turn it on and off. Because this is beyond our understanding or control, it can be terrifying. To subdue this fear, loyalty is demanded.

Until 20 years ago in India, if a man died before his wife, she was expected to throw herself upon his funeral pyre, to show that she was loyal only to him. If she failed to do this, she was shunned by her family and community; deemed disloyal, weak and loveless.

Interestingly, the same was not expected of the man if his wife died. Part of this tradition was keeping up the ideal that a person is/can be a possession, like cattle or land are still viewed.

Love is not a conscious choice, loyalty is. To deny one's personal feelings to adhere to a "loyalty" is psychological slavery.

This was partly how the church was able to rise to such powers over the last 2,000 years. It stood between a person and their love for their god; demanding that to love their god they must loyally obey. The notion of love has been so bastardized by this idealism that it has almost become one and the same: Trying to impose control (loyalty/obedience) on an uncontrollable entity.

Fear is the motivator here. We all know how all-consuming and illogical love can be. Its presence seems beyond our choice – so we apply rules to try and maintain it.

Anyone who has been in love knows it comes out of nowhere sometimes, and it can leave just as quickly.

Ironically, the thing we crave most is the thing we have no power over. By consciously imposing rules to love, we think we can hold on to it, understand it, turn it into a negotiation: thus removing the freedom from love.

This has played a huge factor in the society we have now become. Aggressive, scared, untrustworthy, self-interested and out of control.

The more one loses one's own feeling of freedom, the more one tries to conquer and control others. Until eventually nothing knows freedom, and everything is enslaved without satisfaction.

[X] Requisites for THEM

The essential quality THEM look for in would-be initiates is a demonstrated ability to continue to Change. I.e. to grow in as many ways as possible and explore ones world and being to its infinite potential. Since it's not always easy to know how to grow beyond one's situation and mode of being, THEM assist individuals in singular cases to work with them in finding ways to overcome limitations that they have in order that they not stop and rest permanently on any particular

ideology, idea, or concrete notion of their being and their world; so that they may become like a shape-shifter who can adopt endless modes as suits that being. Some of the ways we attempt to help is by using our own magickal experience to identify blockages, weaknesses, psychological and physiological, in others. This may take the form of inducing a person to change in some way that compliments or contradicts them; perhaps to alter their perspective in conversation or via a task of some kind to help them look at other ways of thinking about things, dealing with problems, apprehending magic, and so on. Sometimes introspection is considered useful for an individual and we ask them to work with us by recording a set number of dreams for a period to assuage what their psyche is telling them, as per an Analytical/Jungian approach. Or we simply discuss their ideas and try to introduce new tangents... The essential factor is individually determined on a case by case basis; but the prime quality we look for is the ability to continually change, grow and overcome oneself. THEM become them, by selecting themselves as their Master; however, while it is Satanic to walk ones own way - it is not always easy to know ones being as intimately or the direction we might take as we would like; the ego prevents a person from being able to see what others see sometimes; and that is why each member of THEM helps others to grow, which in turn helps the member to grow.
