PRAYER.

O Lord, our Heavenly Father, the High
and Mighty Ruler of the Universe, who
dost from Thy throne behold all the dwellers
upon earth, direct us, we beseech
Thee, in all our doings, with Thy most
gracious favor, and further us with Thy
continual help, that in all our works begun,
continued, and ended in Thee, we

may glorify Thy Holy Name. And as
Thou hast taught us, in Thy Holy Word,
that all our doings, without charity, are
nothing worth, send Thy Holy Spirit, and
pour into our hearts the most excellent
gift of Charity, the very bond of peace and
of all virtues, without which whosoever
liveth is counted dead before Thee.

Bless and prosper, we pray Thee, every
branch and member of this our Frater-
nity, throughout the habitable earth. May
Thy kingdom of peace, love, and har-
mony come. May Thy will be done on
earth as it is in heaven, and the whole
world be filled with Thy glory. Amen.

QUESTIONS.

I. Do you seriously declare, upon your honor, before these witnesses, that, unbiased by friends, and uninfluenced by mercenary motives, you freely and voluntarily offer yourself a candidate for the mysteries of Masonry?

II. Do you seriously declare, upon your honor, before these witnesses, that you are prompted to solicit the privileges of Masonry, by a favorable opinion conceived of the Institution, a desire for knowledge, and a sincere wish to be serviceable to your fellow creatures?

III. Do you seriously declare, upon your honor, before these witnesses, that you will cheerfully conform to all the ancient established usages and customs of the Fraternity?

PRAYER.

Vouchsafe thine aid, Almighty Father of the Universe, to this our present convention, and grant that this candidate for Masonry may dedicate and devote his life to Thy service, and become a true and faithful Brother among us. Endue him with a competency of thy Divine Wisdom, that by the influence of the pure principles of our Order, he may the better be enabled to display the beauties of holiness, to the honor of Thy Holy Name. Amen.

Response—So mote it be.

(Or)

(1) Thou, who art the Author of peace and Lover of concord, bless us in the exercise of those kind and social affections Thou hast given us. May we cherish and display them as our honor and our joy. May this, our friend, who is now to become our Brother, devote his life to thy service, and consider aright the true principles of his engagements. May he be endowed with wisdom to direct him in all his ways; strength to support him in all his difficulties; and beauty to adorn his moral conduct. And may we each and all walk within compass, and square our actions by the dictates of conscience and virtue. May we appreciate and follow the examples of the wise and good, and be ever obedient to the precepts of Thy Holy Word. *Amen.*

Response.—So mote it be. (Or.)

Almighty and Everlasting God, in whom alone is our trust, and who, in Thy Holy Word, hast brought life and immortality to light, defend this Thy servant with Thy heavenly grace, that he may continue Thine forever. Strengthen him with the spirit of wisdom and understanding; endue him with the fear of Thy Holy Name; increase in him, more and more, the spirit

of Charity and the love of Truth. Let Thy Fatherly hand ever be over him; let Thy spirit ever be with him; and so lead him in the knowledge and the obedience of Thy Holy Word, that, having finished his course below, he may at last pass peacefully and joyfully to mansions of rest in Thy Temple above, that House not made with hands, eternal in the heavens. *Amen.*

Response.—So mote it be.

λ δ - (*Cdc cdt arn ::: Stds folwg whl-*)

Behold how good and how pleasant it is for brethren to dwell together in unity.

It is like the precious ointment upon the head, that ran down upon the beard, even Aaron's beard, that went down to the skirts of his garments:

As the dew of Hermon, and as the dew that descended upon the mountains of Zion: for there the Lord commanded the blessing, even life forevermore.

The following hymn may be used instead of the lesson:—

I.

Behold! how pleasant and how good
For Brethren such as we,
Of the Accepted Brotherhood,
To dwell in unity.

II.

'Tis like the oil on Aaron's head,
Which to his feet distils;
Like Hermon's dew, so richly shed
On Zion's sacred hills.

III.

For there the Lord of light and love,
A blessing sent with power;
O may we all this blessing prove,
E'en life for evermore.

IV.

On Friendship's altar rising here,
Our hands now plighted be,
To live in *love*, with hearts sincere,
In *peace* and *unity*.

THE TWENTY-FOUR INCH GAUGE.

Gvs tw fo in gg t cdt.

The Twenty-Four-Inch Guage is an instrument made use of by operative Masons to measure and lay out their work; but we, as Free and Accepted Masons, are taught to make use of it for the more noble and glorious purpose of dividing our time. It being divided into twenty-four equal parts, is emblematical of the twenty-four hours of the day; which we are taught to divide into three parts, whereby we find a part for the service of God and a distressed worthy brother, a part for our usual vocations, and a part for refreshment and sleep.

THE COMMON GAVEL.

Gvs gvl t cdt.

The Common Gavel is an instrument made use of by operative masons to break off the rough and superfluous parts of stones, the better to fit them for the builder's use; but we, as Free and Accepted Masons, are taught to make use of it for the more noble and glorious purpose of divesting our hearts and consciences

of the vices and superfluities of life; thereby fitting our minds, as living stones, for that spiritual building, that house not made with hands, eternal in the heavens.

COVERING OF A LODGE

The Covering of a Lodge is the clouded canopy, or starry-decked heaven, where all good Masons hope at last to arrive, by the aid of a ladder, called Jacob's Ladder, having three principal rounds denominated Faith, Hope and Charity; teaching Faith in God, Hope in immortality, and Charity to all mankind. But the greatest of these is Charity; for Faith may be lost in sight,—Hope Ends in fruition,—but Charity extends beyond the grave, to the boundless realms of eternity.

FURNITURE

The furniture of a Lodge is the Holy Bible, Square and Compasses. The Bible is dedicated to God, the Square to the

Master, and the Compasses to the Craft.

The Bible is dedicated to God, it being the inestimable gift of God to man @ on it we obglt a nwly admtd br; the Square to the Master, it being the proper Masonic emblem of his office; and the Compasses to the Craft, for by a due attention to their use, we are taught to circumscribe our desires, and keep our passions within due bounds with all mankind, more especially with our Brethren in Freemasonry.

ORNAMENTS OF A LODGE

The Ornaments of a Lodge are the Mosaic Pavement, Indented Tessel and Blazing Star.

The Mosaic Pavement is a representation of the ground floor of King Solomon's Temple; the Indented Tessel, of that beautiful tesselated border, or skirting, which surrounded it,—with the Blazing Star in the centre. The Mosaic Pavement is emblematical of human life, checkered with good and evil; the Indented Tessel which surrounds it, of those manifold blessings and comforts which surround us, and which we hope to obtain by a faithful reliance on Divine Providence, which is hieroglyphically represented by the Blazing Star in the centre.

THE JEWELS

The movable jewels are the Rough Ashler, the Perfect Ashler and the Trestle-Board.

The Rough Ashler is a stone as taken from the quarry in its rude and natural state. The Perfect Ashler is a stone made ready by the hands of the workmen, to be adjusted by the working-tools of the Fellow Craft. The Trestle-Board is for the Master to draw his designs upon.

By the Rough Ashler we are reminded of our rude and imperfect state by nature; by the Perfect Ashler, of that state of perfection at which we hope to arrive, by a virtuous education, our own endeavors, and the blessing of God; and, by the Trestle-Board, we are also reminded, that, as the

operative workman erects his temporal building agreeably to the rules and designs laid down by the Master on his Trestle-Board, so should we, both operative and speculative, endeavor to erect our spiritual building agreeably to the rules and designs laid down by the Supreme Architect of the Universe, in the great books of Nature and Revelation, which are our spiritual, moral and Masonic Trestle-Board.

The immovable jewels are the Square, Level, and Plumb.

The Square teaches morality, the Level equality, and the Plumb rectitude of life.

Lodges in ancient times were dedicated to K S, who was our first Ms. Ex. Grand Master. In modern times to Saint John the Baptist and Saint John the Evangelist, two eminent Christian patrons of Freemasonry; and since their time there has been represented in every regular and well-furnished Lodge, a certain point within a circle embordered by two perpendicular parallel lines, representing Saint John the Baptist and Saint John the Evangelist. Upon the top of the circle rests the Book of Holy Scriptures. The point represents an individual Brother; the circle, the boundary line of his duty. In going around this circle we necessarily touch on the two parallel lines, as well as on the Book of Holy Scriptures; and while a Mason keeps himself circumscribed within their precepts, it is impossible that he should materially err.

The tenets of your profession as a Mason are Brotherly Love, Relief and Truth.

By the exercise of Brotherly Love, we are taught to regard the whole human species as one family—the high and low, rich and poor; who as created by one Almighty Parent and inhabitants of the same planet, are to aid, support and protect each other. On this principle, Masonry unites men of every country, sect and opinion, and conciliates true friendship among those who might otherwise have remained at a perpetual distance.

To Relieve the distressed is a duty incumbent on all men; but particularly on Masons, who profess to be linked together by an indissoluble chain of sincere affection. To soothe the unhappy, sympathize with their misfortunes, compassionate their miseries, and restore peace to their troubled minds, is the grand aim we have in view. On this basis we form our friendships and establish our connections.

Truth is a divine attribute, and the foundation of every virtue. To be good and true is the first lesson we are taught in Masonry. On this theme we contemplate, and by its dictates endeavor to regulate our conduct. Hence, while influenced by this principle, hypocrisy and deceit are unknown

among us, sincerity and plain dealing distinguish us, and the heart and tongue join in promoting each other's welfare and rejoicing in each other's prosperity.

Th pfc pts % ur ent as an E^o r + Gt, P^c, Mn @ Pdl, @ alud to

The Four Cardinal Virtues—Temperance, Fortitude, Prudence, and Justice.

Temperance is that due restraint upon our affections and passions which renders the body tame and governable, and frees the mind from the allurements of vice. This virtue should be the constant practice of every Mason, as he is thereby taught to avoid excess or the contracting of any licentious or vicious habit, the indulgence in which might lead him to disclose some of those valuable secrets which he has promised to conceal and never reveal, and which would consequently subject him to the contempt and detestation of al gd ♂s, als t + pn % hs ob, whri h s t hv hs th ct f e t e, shd h dvl + scs % F♂y unfi, @ alds t + gtrl.

Fortitude is that noble and steady purpose of the mind whereby we are enabled to undergo any pain, peril, or danger, when

prudentially deemed expedient. This virtue is equally distant from rashness and cowardice; and, like the former, should be deeply impressed upon the mind of every Mason, as a safeguard or security against any illegal attack that may be made, by force or otherwise, to extort from him any of those valuable secrets with which he has been so solemnly entrusted, and which was emblematically represented upon his first admission into the Lodge. whn h ws rc on + pnt % a shp inst, apl t hs n l os, @ al t + pctl.

Prudence teaches us to regulate our lives and actions agreeably to the dictates of reason, and is that habit by which we wisely judge and prudentially determine on all things relative to our present, as well as to our future happiness. This virtue should be the peculiar characteristic of every Mason, not only for the government of his conduct while in the Lodge, but also when abroad in the world. It should be particularly attended to in all strange and mixed companies, never to let fall the least sign, token, or word, whereby the secrets of Freemasonry may be unlawfully obtained, evr brng i rmbrc tt mmrbl pr whn, kn at + A, o hs n lf k, hs rt

fmg + an % a sqr, hs bd erc, hs lf hn suptg, hs rt rs'on + H B, S@ Cps, @ al t + mnl.

Justice is that standard or boundary of right which enables us to render unto every man his just due, without distinction. This virtue is not only consistent with divine and human laws, but is the very cement and support of civil society; and, as justice in a great measure constitutes the real good man, so should it be the invariable practice of every Mason never to deviate from the minutest principles thr%, evr rmbrrng + tm whn plc i + n-e cnr % + ::, hs ft fmg + ang % an ob s, hs bd erc at + rt hnd % + Ⓛ, wh ws plsd t sa t hm tt h thr std a js @ upr Ⓛ, @ gv i hm stc in chrg ev t wk @ act as sch; @ als to + pdl.

It is an instrument made use of by operative Masons to measure and lay out their work; but we, as Free and Accepted Masons, are taught to make use of it for the more noble and glorious purpose of dividing our time. It being divided into twenty-four equal parts, is emblematical of the twenty-four hours of the day, which we are taught to divide into three parts; whereby we find a part for the service of God and a distressed worthy brother, a part for our usual vocations, and a part for refreshment and sleep.

⊕t is + us % + cmn gv.

It is an instrument made use of by operative Masons to break off the rough and superfluous parts of stones, the better to fit them for the builder's use; but we,

as Free and Accepted Masons, are taught to make use of it for the more noble and glorious purpose of divesting our hearts and conciences of the vices and superfluities of life; thereby fitting our minds, as living stones, for that spiritual building—that house not made with hands—eternal in the heavens.

They were two eminent Christian patrons of Freemasonry; and since their time there has been represented in every regular and well-furnished Lodge, a certain point within a circle embroidered by two

perpendicular parallel lines, representing Saint John the Baptist and Saint John the Evangelist. Upon the top of the circle rests the Book of Holy Scriptures. The point represents an individual Brother; the circle, the boundary line of his duty. In going around this circle we necessarily touch on the two parallel lines, as well as on the Book of Holy Scriptures; and while a Mason keeps himself circumscribed within their precepts, it is impossible that he should materially err.

¶tr r + tnts % ur pfsn as a ♂.

Br lv, rlf @ trh.

Expln br lv.

BROTHERLY LOVE

By the exercise of Brotherly Love, we are taught to regard the whole human species as one family—the high and low, rich and poor; who as created by one Almighty Parent and inhabitants of the same planet, are to aid, support and protect each other. On this principle, Masonry unites men of every country, sect and opinion, and conciliates true friendship among those who might otherwise have remained at a perpetual distance.

Expln rlf.

RELIEF

To Relieve the distressed is a duty incumbent on all men; but particularly on Masons, who profess to be linked together by an indissoluble chain of sincere affection. To soothe the unhappy, sympathize with their misfortunes, compassionate their miseries, and restore peace to their troubled minds, is the grand aim we have in view. On this basis we form our friendships and establish our connections

Expln trh.

TRUTH

Truth is a divine attribute, and the foundation of every virtue. To be good and true is the first lesson we are taught in Masonry. On this theme we contemplate, and by its dictates endeavor to regulate our conduct. Hence, while influenced by this principle, hypocrisy and deceit are unknown among us, sincerity and plain dealing distinguish us, and the heart and tongue join in promoting each other's welfare, and rejoicing in each other's prosperity.

¶tr r + prfc pts % ur entc, as an Ep. Th gtrl, pctrl, mnul, @ pdl; @ alud t + fo crndl vrtus: Tmpe, Fr, Prdc @ Jstc.

Expln tmpe.

TEMPERANCE

Temperance is that due restraint upon our affections and passions which renders the body tame and governable, and frees the mind from the allurements of vice. This virtue should be the constant practice of every Mason, as he is thereby taught to avoid excess or the contracting of any licentious or vicious habit, the indulgence in which might lead him to disclose some of those valuable secrets which he has promised to conceal and never reveal, and which would consequently subject him to the contempt and detestation of al gd @s, als t + pn % hs ob whri h swr t hv hs th ct f e t e; shd h dvl + scs % F@y unlfy; @ alds t + gtr.

Expln frtud.

FORTITUDE

Fortitude is that noble and steady purpose of the mind whereby we are enabled to undergo any pain, peril, or danger, when prudentially deemed expedient. This virtue is equally distant from rashness and cowardice; and, like the former, should be deeply impressed upon the mind of every Mason, as a safeguard or security against any illegal attack that may be made, by force or otherwise, to extort from

him any of those valuable secrets with which he has been so solemnly entrusted, and which was emblematically represented upon his first admission into the Lodge

whn h ws rc on + pt % a shrp inst apl t hs n l bs, @ al t + pcl.

Expln prdnc.

PRUDENCE

Prudence teaches us to regulate our lives and actions agreeably to the dictates of reason, and is that habit by which we wisely judge and prudentially determine on all things relative to our present, as well as to our future happiness. This virtue should be the peculiar characteristic of every Mason, not only for the government of his conduct while in the Lodge, but also when abroad in the world. It should be particularly attended to in all strange and mixed companies, never to let fall the least sign, token, or word, whereby the secrets of Freemasonry may be unlawfully obtd, evr brng in rmbrc tt mmrbl prd whn kn at + A, on hs n l k, hs rt fmg + ang % a sq, hs bd erc, hs lf hn suptg, hs rt rs on + H B, s @ zps, @ als t + mn.

Expln jste.

JUSTICE

Justice is that standard or boundary of right which enables us to render unto every man his just due, without distinction. This virtue is not only consistent with divine and human laws, but is the very cement and support of civil society; and as justice in a great measure constitutes the real good man, so should it be the invariable practice of every Mason never to deviate from the minutest principles

O God, our Creator, Preserver, and Ben-
efactor, unto whom all hearts are open, all
desires known, and from whom no secrets
are hid, we heartily thank Thee for the
fraternal communion that we have been
permitted through Thy kind providence to
enjoy. May we be ever mindful that it is
in Thee that we live, move, and have our
being; that every good gift cometh from
Thee. Bless our humble labors for the
promotion of truth and love, unity and
peace. Continue to extend Thy gracious
favor to our beloved Institution, and make
it more and more an agency for good
among men.

Dismiss us with Thy blessing. Go with
us as we return to our homes. Be with us
while engaged in the active affairs and
duties of this life. So influence our hearts

and minds that we may faithfully practise out of the Lodge the great moral duties which are inculcated in it; and with reverence study and obey the laws which Thou hast given us in Thy Holy Word; and to Thee shall be all the praise. Amen.

Response.—So mote it be.

PRAYER

O Lord, our Heavenly Father, the High and Mighty Ruler of the Universe, who dost from Thy throne behold all the dwellers upon earth, direct us, we beseech Thee, in all our doings, with Thy most gracious favor, and further us with Thy continual help, that in all our works begun, continued, and ended in Thee, we

may glorify Thy Holy Name. And as Thou hast taught us, in Thy Holy Word, that all our doings, without charity, are nothing worth, send Thy Holy Spirit, and pour into our hearts the most excellent gift of Charity, the very bond of peace and of all virtues, without which whosoever liveth is counted dead before Thee.

Bless and prosper, we pray Thee, every branch and member of this our Fraternity, throughout the habitable earth. May Thy kingdom of peace, love, and harmony come. May Thy will be done on earth as it is in heaven, and the whole world be filled with Thy glory. *Amen.*

Stdts- (*Fulg whl*)—

Though I speak with the tongues of men
and of angels, and have not charity, I am
become as sounding brass or a tinkling
cymbal. And though I have the gift of
prophecy, and understand all mysteries
and all knowledge, and though I have all
faith, so that I could remove mountains, and

have not charity, I am nothing. And though I bestow all my goods to feed the poor, and though I give my body to be burned, and have not charity, it profiteth me nothing. Charity suffereth long, and is kind; charity envieth not; charity vaunteth not itself, is not puffed up, doth not behave itself unseemly, seeketh not her own, is not easily provoked, thinketh no evil; rejoiceth not in iniquity, but rejoiceth in the truth; beareth all things, believeth all things, hopeth all things, endureth all things. And now abideth faith, hope, charity, these three; but the greatest of these is charity.

The following hymn may be used in
place of the lesson:—

I.

Had I the gift of tongues,
Great God, without Thy grace,
My loudest words, my loftiest songs,
Would be but sounding brass.

II.

Though Thon shouldst give me skill
Each mystery to explain;
Without a heart to do Thy will,
My knowledge would be vain.

III.

Had I such faith in God,
 As mountains to remove,
 No faith could work effectual good,
 That did not work by love
 IV

Grant, then, this one request,—
 Whatever be denied,—

That love divine may rule my breast,
 And all my actions guide.

WORKING TOOLS.

The PLUMB is an instrument made use of by operative Masons to try perpendicularly; the SQUARE, to square their work; and

the LEVEL, to prove horizontals; but we, as Free and Accepted Masons, are taught to make use of them for more noble and glorious purposes. The PLUMB admonishes us to walk uprightly in our several stations before God and man, squaring our actions by the Square of virtue, ever remembering that we are traveling upon the Level of time to "that undiscovered country from whose bourne no traveler returns."

OPERATIVE MASONRY

By Operative Masonry we allude to a proper application of the useful rules of architecture, whence a structure will derive figure, strength, and beauty, and from which will result a due proportion and just correspondence in all its parts. It furnishes us with dwellings, and convenient shelters from the vicissitudes and inclemencies of the seasons; and while it displays the effects of human wisdom, as well in the choice as in the arrangement of the sundry materials of which an edifice is composed, it demonstrates that a fund of science and industry is implanted in man for the best, most salutary, and beneficent purposes.

SPECULATIVE MASONRY

By Speculative Masonry we learn to subdue the passions, act upon the Square, keep a tongue of good report, maintain secrecy, and practise charity. It is so far interwoven with religion as to lay us under obligations to pay that rational homage to Deity which at once constitutes our duty and our happiness. It leads the contemplative to view with reverence and admiration the glo-

rious works of creation, and inspires him with the most exalted ideas of the perfections of his Divine Creator.

ORDER IN ARCHITECTURE.

By ord i arte is mnt a syst % al + mmbrs, prptns, @ ornmnts % colms @ plstrs ; or, it is a rglr arngmnt % + prjctg prts % a bldg, wch, unitd wth thos % a clm, fm a btfl, pfc @ cmp w.

From the first formation of society order in architecture may be traced. When the rigor of seasons first obliged men to contrive shelter from the inclemency of the weather, we learn that they planted trees on end, and then laid others across, to support a covering. The bands which connected those trees at top and bottom are said to have given rise to the idea of the base and capital of pillars; and from this simple hint originally proceeded the more improved art of architecture.

The Orders are thus classed: Tuscan, Doric, Ionic, Corinthian, and Composite.

The ancient and original orders of architecture, esteemed by Masons, are no more than three—the *Doric*, *Ionic*, and *Corinthian*, which were invented by the Greeks. To these the Romans have added two—the *Tuscan*, which they made plainer than the *Doric*; and the *Composite*, which was more orna-

mental, if not more beautiful, than the *Corinthian*. The first three orders alone, however, show invention and particular character, and essentially differ from each other; the two others have nothing but what is borrowed, and differ only accidentally. The *Tuscan* is the *Doric* in its earliest state; and the *Composite* is the *Corinthian*, enriched with the *Ionic*. To the Greeks, therefore, and not to the Romans, we are indebted for what is great, judicious and distinct in architecture.

Th no sv alds t + sv lb arts @ scs, Grammar, Rhetoric, Logic, Arithmetic, Geometry, Music and Astronomy.

The fifth, Geometry, is most esteemed by Masons. It is that science which treats of the powers and properties of magnitudes in general, where length, breadth and thickness are considered—from a *point* to a *line*, from a line to a *surface*, from a surface to a *solid*.

A *point* is position without dimensions.

A *line*, a figure of one capacity, namely, length.

A *surface*, a figure of two dimensions, length and breadth.

A *solid*, a figure of three dimensions, length, breadth and thickness.

THE ADVANTAGES OF GEOMETRY

By this science the architect is enabled to construct his plans and execute his designs; the general, to arrange his soldiers; the engineer, to mark out grounds for encampments; the geographer, to give us the dimensions of the world and all things therein contained, to delineate the extent of seas, and specify the divisions of empires, kingdoms, and provinces. By it, also, the astronomer is enabled to make his observations and to fix the duration of times and seasons, years and cycles. In fine, Geometry is the foundation of architecture and the root of the mathematics.

GEOMETRY.

MORAL ADVANTAGES OF GEOMETRY.

By Geometry we may curiously trace, Nature through her various windings to her most concealed recesses. By it we discover the power, wisdom and goodness of the Grand Artificer of the Universe, and view with delight the proportions of this vast machine. By it we discover how the planets move in their respective orbits, and demonstrate their various revolutions. By it we account for the return of seasons, and the variety of scenes which each season displays to the discerning eye. Numberless worlds are around us, all framed by the same Divine Artist, which roll through the vast expanse, and all are conducted by the same unerring law of nature.

A survey of Nature, and the observation of her beautiful proportions, first determined man to imitate the divine plan, and study symmetry and order. This gave rise to societies, and birth to every useful art. The architect began to design, and the plans which he laid down, being improved by time and experience, have produced works which are the admiration of every age.

The lapse of time, the ruthless hand of ignorance, and the devastations of war, have laid waste and destroyed many valuable

monuments of antiquity, on which the utmost exertions of human genius have been employed. Even the Temple of Solomon, so spacious and magnificent, and constructed by so many celebrated artists, escaped not the unsparing ravages of barbarous force. Freemasonry, notwithstanding, still survives. The attentive ear receives the sound from the *instructive tongue*, and the mysteries of Masonry are safely lodged in the repository of *faithful breasts*. Tools and implements of architecture, symbols most expressive, have been selected by the Fraternity to imprint on the memory wise and serious truths; and thus, through a succession of ages, are transmitted unimpaired the most excellent tenets of our Institution.

By Geometry we may curiously trace nature, through her various windings to her most concealed recesses. By it we discover the power, wisdom and goodness of the Grand Artificer of the Universe, and view with delight the proportions of this vast machine. By it we discover how the planets move in their respective orbits, and demonstrate their various revolutions. By it we account for the return of seasons, and the variety of scenes which each season displays

to the discerning eye. Numberless worlds are around us, all framed by the same Divine Artist, which roll through the vast expanse, and are all conducted by the same unerring law of nature.

A survey of Nature, and the observation of her beautiful proportions, first determined man to imitate the divine plan, and study symmetry and order. This gave rise to societies, and birth to every useful art. The architect began to design, and the plans which he laid down, being improved by time and experience, have produced works which are the admiration of every age.

The lapse of time, the ruthless hand of ignorance, and the devastations of war, have laid waste and destroyed many valuable monuments of antiquity, on which the utmost exertions of human genius have been employed. Even the Temple of Solomon, so spacious and magnificent, and constructed by so many celebrated artists, escaped not the unsparing ravages of barbarous force. Freemasonry, notwithstanding, still survives. The *attentive ear* receives the sound from the *instructive tongue*, and the mysteries of Masonry are safely lodged in the repository of *faithful breasts*. Tools and implements of architecture, symbols most expressive, have been selected by the Fraternity,

to imprint on the memory wise and serious truths; and thus, through a succession of ages, are transmitted unimpaired the most excellent tenets of our Institution.

Mrsl. (Cdc Chpln t A.)

O God, our Creator, Preserver, and Ben-factor, unto whom all hearts are open, all desires known, and from whom no secrets are hid, we heartily thank Thee for the fraternal communion that we have been permitted through Thy kind providence to enjoy. May we be ever mindful that it is in Thee that we live, move, and have our being; that every good gift cometh from Thee. Bless our humble labors for the promotion of truth and love, unity and peace. Continue to extend Thy gracious favor to our beloved Institution, and make it more and more an agency for good among men.

Dismiss us with Thy blessing. Go with us as we return to our homes. Be with us while engaged in the active affairs and duties of this life. So influence our hearts

and minds that we may faithfully practise out of the Lodge the great moral duties which are inculcated in it; and with reverence study and obey the laws which Thou hast given us in Thy Holy Word; and to Thee shall be all the praise. Amen.

Response.—So mote it be.

PRAYER

O Lord, our Heavenly Father, the High
and Mighty Ruler of the Universe, who
dost from Thy throne behold all the dwellers
upon earth, direct us, we beseech Thee,
in all our doings, with Thy most
gracious favor, and further us with Thy
continual help, that in all our works be-

gun, continued, and ended in Thee, we may glorify Thy Holy Name. And as Thou hast taught us, in Thy Holy Word, that all our doings, without charity, are nothing worth, send Thy Holy Spirit, and pour into our hearts the most excellent gift of Charity, the very bond of peace and of all virtues, without which whosoever liveth is counted dead before Thee.

Bless and prosper, we pray Thee, every branch and member of this our Fraternity, throughout the habitable earth. May Thy kingdom of peace, love and harmony come. May Thy will be done on earth as it is in heaven, and the whole world be filled with Thy glory. *Amen.*

Remember now thy Creator in the days
of thy youth, while the evil days come not,
nor the years draw nigh, when thou shalt
say, I have no pleasure in them; while the
sun or the light, or the moon, or stars, the

be not darkened, nor the clouds return after
the rain: in the day when the keepers of the
house shall tremble, and the strong men shall
bow themselves, and the grinders cease be-
cause they are few, and those that look out
of the windows be darkened, and the doors
shall be shut in the streets, when the sound
of the grinding is low, and he shall rise up at
the voice of the bird, and all the daughters
of music shall be brought low; also when
they shall be afraid of that which is high,
and fears shall be in the way, and the al-
mondtree shall flourish, and the grasshopper
shall be a burden, and desire shall fail: be-
cause man goeth to his long home, and the
mourners go about the streets; or ever the
silver cord be loosed, or the golden bowl be
broken, or the pitcher be broken at the foun-
tain, or the wheel broken at the cistern.
Then shall the dust return to the earth as it
was; and the spirit shall return unto God
who gave it.

The following hymn may be used instead
of the lesson:—

I.

Let us remember in our youth,
Before the evil days draw nigh,
Our GREAT CREATOR, and his TRUTH!
Ere memory fail, and pleasure fly;

Or sun, or moon, or planets' light
 Grow dark, or clouds return in gloom;
 Ere vital spark no more incite;
 When strength shall bow and years consume.

II.

Let us in youth remember Him
 Who formed our frame and spirits gave,
 Ere windows of the mind grow dim,
 Or door of speech obstructed wave;
 When voice of bird fresh terrors wake
 And music's daughters charm no more;
 Or fear to rise, with trembling shake,
 Along the path we travel o'er.

III.

In youth, to God let memory cling.
 Before desire shall fail or wane,
 Or e're be loosed life's silver string,
 Or bowl at fountain rent in twain;
 For man to his long home doth go.
 And mourners group around his urn;
 - Our dust to dust again must flow,
 And spirits unto God return.

TROWEL.

An instrument made use of by operative Masons to spread the cement which unites the building into one common mass; but we, as Free and Accepted Masons, are taught to make use of it for the more noble and glorious purpose of spreading the cement of Brotherly-Love and Affection, that cement which unites us into one sacred band or society of Friends and Brothers, among whom no contentions should ever exist save that noble contention, or rather emulation, of who best can work, and best agree.

FUNERAL HYMN—*Tune of Pleyel's Hymn.*

Solemn strikes the fun'ral chime,
Notes of our departing time;
As we journey here below,
Through a pilgrimage of woe.

Lord of all! below—above—
Fill our hearts with truth and love;
When dissolves our earthly tie,
Take us to Thy Lodge on high.

℣ ℗- Lt us pr.

Thou, O God, knowest our down-sitting
and our up-rising, and understandest our
thoughts afar off. Shield and defend us
from the evil intentions of our enemies, and
support us under the trials and afflictions
we are destined to endure while traveling
through this vale of tears. Man that is born
of a woman is of few days and full of
trouble. He cometh forth as a flower and
is cut down; he fleeth also as a shadow and
continueth not. Seeing his days are deter-
mined, the number of his months are with
Thee; Thou hast appointed his bounds that
he cannot pass; turn from him that he may
rest, til he shall accomplish his day. For
there is hope of a tree, if it be cut down,

that it will sprout again, and that the ten-
der branch thereof will not cease. But man
dieth and wasteth away; yea, man giveth up
the ghost, and where is he? As the waters
fail from the sea, and the flood decayeth and
drieth up, so man lieth down, and riseth
not up till the heavens shall be no more.
Yet, O Lord, have compassion on the chil-
dren of Thy creation; administer them com-
fort in time of trouble, and save them with
an everlasting salvation. Amen.

Response. So mote it be. (Or.)

O God, in whose hand our breath is, we
bow in Thy presence with a sense of the
frailty and uncertainty of this mortal life.
It is appointed unto man once to die. But
we thank Thee, that in Thy great mercy,
Thou hast made known to us the life beyond
the grave, so that all may look hopefully
forward beyond the shadows that now sur-
round us. Help us so to perform the duties
assigned to us, here, that when we shall
depart this life, we may die in hope of a
blissful immortality, and Thy name shall
have the praise forever. Amen.

Response.—So mote it be.

THREE STEPS

The Three Steps usually delineated on the Master's carpet, are emblematical of the three principal stages of human life, *Youth*, *Manhood*, and *Age*. They also allude to the three degrees in Freemasonry, Entered Apprentice, Fellowcraft and Master Mason. In *Youth*, as Entered Apprentices, we ought industriously to occupy our minds in the attainment of useful knowledge; in *Manhood*, as Fellow-Crafts, we should apply that knowledge to the discharge of our respective duties to God, our neighbor, and ourselves; so that, in *Age*, as Master Masons, we may enjoy the happy reflection consequent on a well-spent life, and die in the hope of a glorious immortality.

Th mbms blgg to ths ° r + Pt % Incns, B-Hv, Bk % Cnstsns grd by + Ts swd, Sd ptg t a nk hrt, anch @ Ark, Fo-sv prblm % Eu, Hr-gls, Scy, Cm gv, Sp, Cfn @ Spg % ac.

THE POT OF INCENSE.

The Pot of Incense is an emblem of a pure heart, which is always an acceptable sacrifice to Deity; [and as this glows with fervent heat, so should our hearts continually glow with gratitude to the great and beneficent Author of our existence for the manifold blessings and comforts we enjoy.]

THE BEE HIVE.

The Bee-Hive is an emblem of industry, and recommends the practice of that virtue to all created beings [from the highest seraph in heaven to the lowest reptile of the dust. It teaches us that, as we came into the world rational and intelligent beings, so we should ever be industrious ones; never sitting down contented while our fellow-creatures around us are in want, especially when it is in our power to relieve them without inconvenience to ourselves.

When we take a survey of nature, we view man in his infancy, more helpless and indi-

gent than the brute creation; he lies languishing for days, months, and years totally incapable of providing sustenance for himself, of guarding against the attacks of the wild beasts of the field, or sheltering himself from the inclemencies of the weather.

It might have pleased the great Creator, of heaven and earth to have made man independent; but, as dependence is one of the strongest bonds of society, mankind were made dependent on each other for protection and security, as they thereby enjoy better opportunities of fulfilling the duties of reciprocal love and friendship. Thus was man formed for social and active life, the noblest part of the work of God; and he that will so demean himself as not to be endeavoring to add to the common stock of knowledge and understanding, may be deemed a *drone* in the *hive* of nature, a useless member of society, and unworthy of our protection as Masons.]

The Book of Constitutions, guarded by the Tyler's sword, reminds us that we should be ever watchful and guarded in our thoughts, words and actions, particularly when before the uninitiated; ever bearing in remembrance those truly Masonic virtues, *silence* and *circumspection*.

The Sword, pointing to a naked Heart, demonstrates that justice will sooner or later overtake us; and although our thoughts, words and actions may be hidden from the eyes of man, yet that ALL-SEEING EYE, whom the SUN, MOON and STARS obey, and under whose watchful care even COMETS perform their stupendous revolutions, pervades the inmost recesses of the human heart, and will reward us according to our merits.

The Anchor and Ark are emblems of a well grounded *hope*, and a well-spent life. [They are emblematical of that divine *ark* which safely wafts us over this tempestuous sea of troubles, and that *anchor* which shall safely moor us in a peaceful harbor, where the wicked cease from troubling, and the weary shall find rest.]

The Forty-seventh Problem of Euclid was an invention of our ancient friend and brother, the great Pythagoras, [who, in his travels through Asia, Africa and Europe, was initiated into several orders of Priesthood, and is said to have been raised to the sublime degree of Master Mason. This wise philosopher enriched his mind abundantly in a general knowledge of things, more especially in Geometry, or Masonry. On this subject he drew out many problems and

theorems, and, among the most distinguished, he erected this; when, in the joy of his heart, he exclaimed, *Eureka*, signifying, in the Grecian language, *I have found it*; and upon the discovery of which he is said to have sacrificed a **hecatomb.**] It teaches Masons to be general lovers of the arts and sciences.

The Hour Glass is an emblem of human life. [Behold, how swiftly the sands run, and how rapidly our lives are drawing to a close. We cannot without astonishment behold the little particles which are contained in this machine, how they pass away almost imperceptibly, and yet, to our surprise, in the short space of an hour they are all exhausted. Thus wastes man! To-day he puts forth the slender leaves of hope; to-morrow blossoms, and bears his blushing honors thick upon him; the next day comes a frost, which nips the shoot; and when he thinks his greatness is still aspiring, he falls like autumn leaves, to enrich our mother earth.]

The Scythe is an emblem of time which cuts the brittle thread of life, and launches us into eternity. [Behold what havoc the Scythe of Time makes among the human

race; if by chance we should escape the numerous evils incident to childhood and youth, and with health and vigor arrive at the years of manhood, yet withal we must ~~socr~~ ^{be} cut down by the all-devouring Scythe of Time, and be gathered into the land where our fathers have gone before us.]

¶w.

In *Youth*, as Entered Apprentices, we ought industriously to occupy our minds in the attainment of useful knowledge; in *Manhood*, as Fellow Crafts, we should apply that knowledge to the discharge of our respective duties to God, our neighbor, and ourselves; so that, in *Age*, as Master Masons, we may enjoy the happy reflection consequent on a well-spent life, and die in the hope of a glorious immortality.

¶t r + mblms blngg t ths °.

Th Pt % ines, B-hv, Bk % cnstns grd
by + tls sd, Sd pntg t a n hr, Ac
@ Ar, Frt-sv prob % Euc, Hr-gls, Sc,
Cm gv, Sp, Cf @ Sp % ac.

Expl + pt % ines.

It is an emblem of a pure heart, which is always an acceptable sacrifice to Deity; [and as this glows with fer-

vent heat, so should our hearts continually glow with gratitude to the great and beneficent Author of our existence for the manifold blessings and comforts we enjoy.]

Expl + b-hv.

It in an emblem of industry, and recommends the practice of that virtue to all created beings [from the highest seraph in heaven to the lowest reptile of the dust. It teaches us that, as we came into the world rational and intelligent beings, so we should ever be industrious ones; never sitting down contented while our fellow-creatures around us are in want, especially when it is in our power to relieve them without inconvenience to ourselves.

When we take a survey of nature, we view man in his infancy, more helpless and indigent than the brute creation; he lies languishing for days, months, and years totally incapable of providing sustenance for himself, of guarding against the attacks of the wild beasts of the field, or sheltering himself from the inclemencies of the weather.

It might have pleased the great Creator, of heaven and earth to have made man independent; but, as dependence is one of the strongest bonds of society, mankind were made dependent on each other for protection and security, as they

thereby enjoy better opportunities of fulfilling the duties of reciprocal love and friendship. Thus was man formed for social and active life, the noblest part of the work of God; and he that will so demean himself as not to be endeavoring to add to the common stock of knowledge and understanding, may be deemed a *drone* in the *hive* of nature, a useless member of society, and unworthy of our protection as Masons.]

Expl + bk % cnsts gr by + T sd.
It reminds us that we should be ever watchful and guarded in our thoughts, words and actions, particularly when before the uninitiated; ever bearing in remembrance those truly Masonic virtues, silence and circumspection.

Expl + sd pntg t a nk hr.

It demonstrates that justice will sooner or later overtake us; and although our thoughts, words and actions may be hidden from the eyes of man, yet that ALL-SEEING EYE, whom the SUN, MOON and STARS obey, and under whose watchful care even COMETS perform their stupendous revolutions, pervades the inmost recesses of the human heart and will reward us according to our merits.

Expl + anc @ arc.

They are emblems of a well grounded hope, and a well-spent life. They are emblematical of that divine ark which safely wafts us over this tempestuous sea of troubles, and that anchor which shall safely moor us in a peaceful harbor, where the wicked cease from troubling, and the weary shall find rest.

Expl + fo-sv prbl % euclid

This was an invention of our ancient friend and brother, the great PYTHAGORAS, [who in his travels through Asia, Africa and Europe, was initiated into several orders of Priesthood, and is said to have been raised to the sublime degree of Master Mason. This wise philosopher enriched his mind abundantly in a general knowledge of things, more especially in Geometry, or Masonry. On this subject he drew out many problems and theorems; and, among the most distinguished, he erected this, when, in the joy of his heart, he exclaimed *Eureka!* signifying, in the Grecian language, *I have found it*: and upon the discovery of which he is said to have sacrificed a hecatomb.] It teaches Masons to be general lovers of the arts and sciences.

Expl + hr-gls.

It is an emblem of human life. [Behold, how swiftly the sands run, and how rapidly our lives are drawing to a close. We cannot without astonishment behold the little particles which are contained in this machine, how they pass away almost imperceptibly, and yet to our surprise, in the short space of an hour they are all exhausted. Thus wastes man! To-day he puts forth the tender leaves of hope; to-morrow blossoms, and bears his blushing honors thick upon him; the next day comes a frost, which nips the shoot; and when he thinks his greatness is still aspiring, he falls, like autumn leaves, to enrich our mother earth.]

Expl + scy.

It is an emblem of time, which cuts the brittle thread of life, and launches us into eternity. [Behold what havoc the Scythe of Time makes among the human race. If by chance we should escape the numerous evils incident to childhood and youth and with health and vigor arrive at the years of manhood, yet withal we must soon be cut down by the all-devouring Scythe of Time and be gathered into the land where our fathers have gone before us.]

Mrsl - (Cde Chpln t A.)

O God, our Creator, Preserver, and Benefactor, unto whom all hearts are open, all desires known, and from whom no secrets are hid, we heartily thank Thee for the fraternal communion that we have been permitted through Thy kind providence to enjoy. May we be ever mindful that it is in Thee that we live, move, and have our being; that every good gift cometh from Thee. Bless our humble labors for the promotion of truth and love, unity and peace. Continue to extend Thy gracious favor to our beloved Institution, and make it more and more an agency for good among men.

Dismiss us with Thy blessing. Go with us as we return to our homes. Be with us while engaged in the active affairs and duties of this life. So influence our hearts

and minds that we may faithfully practise out of the Lodge the great moral duties which are inculcated in it; and with reverence study and obey the laws which Thou hast given us in Thy Holy Word; and to Thee shall be all the praise. Amen.

Response.—So mote it be.
