

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

MASONIC BOOKPLATES

PLATE OF SUPREME COUNCIL
Designed by W. P. Barrett

MASONIC BOOK-PLATES

Masonic Book-Plates are of course primarily interesting to members of the Craft who can understand the various signs and symbols appearing upon them. Yet these plates are interesting to Book-Plate collectors in being among the rarest of Ex Libris specialties. Two collectors have written on the subject—Robert Day in his "Masonic Book-Plates", (London, 1904), and A. W. Pope with "Remarks on some Masonic Book-Plates in America and their Owners", (Boston, Part I, 1908; Part II, 1911). Yet combining the lists of plates in these two brochures and adding to them the plates in my own collection I can here list but a few over one hundred and seventy Masonic Ex Libris.

Before taking up the different emblems found on Masonic Book-Plates it might be well to explain that the initiate rises through the various stages of Freemasonry by a series of steps called degrees which the member may take in sequence as his interest leads him to enter into the work of the Craft. The highest degree is the 33d which is conferred as an honor upon prominent Masons. Together with and accompanying these steps or degrees, which may be called the main road of Masonry, are various side paths or divisional bodies such as the Shrine, the Knights Templar and others.

There are in some cases special symbols to denote these bodies; other emblems are used for Masonry in general. To begin with—the most common mark is the general Masonic symbol of the square and compasses between which there is often placed a G. Then there is the key-stone bearing a lettered circle, and the all-seeing eye sometimes placed in a triangle. Various geometric figures are used, for instance the triangle, the circle, the

cube or perfect ashlar, the five-pointed star or pentalpha, (See P-I, plate of L. M. Taylor) and the six pointed star formed of two triangles as in the Ruddiman plate. At times a plate will have some of the architectural marks of a lodge room, such as the altar or the two columns with their spheres one for the earth and the other for the heavens. A very interesting example of an altar with the beam of light falling on it from above is seen in the old plate of W. Chapman.

Among the special emblems for the subsidiary Masonic bodies are the cross and crown (See plate of Dr. Egbert); the scimitar, crescent and star, the mark of the Shrine; the Maltese cross of the Knights Templar; and the crowned double eagle of the Scottish Rite bodies. It is for these emblems that the Book-Plate collector must look.

Some plates will be found to be almost entirely Masonic. That of W. H. Rylands has all sorts of emblems and symbols—the layman might almost get a liberal education in such matters by a study of this plate. Another of the same kind is that of the Supreme Council 33d by W. P. Barrett. This is perhaps the most elaborate Masonic Book-Plate in existence and seems to contain all the insignia of the Scottish Rite. Other interesting plates, on account of the wealth of symbolism or mysterious signs which they contain, are those of L. M. Taylor, A. E. Bachert, E. V. D. Brown, and L. A. Onley.

There are few foreign plates in the list. Freemasonry, except in France, does not seem to be very strong on the Continent. Moreover, the Continental bodies are not very closely affiliated with those of England and America. Several very interesting plates appear, however, even two from Bohemia. Furthermore I understand that M. Henri Andre is now at work on a volume to be entitled "Maconnique Ex Libris". Judging by M. Andre's "Ex Libris de Medecins" the promised volume should be both interesting and valuable.

Like most Ex Libris, Masonic plates often lead the

collector to interesting facts in regard to their owners. The history of the Iowa Masonic Library is really that of Mr. T. S. Parvin its librarian and benefactor. The story of such a versatile person as General Pike is most certainly interesting, even if his Book-Plate is not, and gives us an instructive side light on the sort of life led by the Middle Westerner during the early years of the last century.

In this connection it is interesting to read part of an unpublished diary of John Rowe who was Grand Master of the Grand Lodge of America from 1768 to 1787.*

"5 October, Wednesday (1768) After Dinner a Committee from the Grand Lodge, Bro. Richard Gridley, Bro. Jenkins and Bro. John Cutler they Presented Mee the Commission from the Duke of Beaufort appointing Mee Grand Master of No. America.

"23d November Wednesday (1768) A Fine Morning W. West. I had the honour & pleasure of being Installed Grand Master of Masons of North America at Concert Hall this Morning, this was a very Solemn Ceremony, after the Installation the Whole Fraternity proceeded in Order and marched in Procession from Concert Hall Round the Town House, accompanied with Two Bands of Musick the 59 & 64 Regiments to Trinity Church. The Revd Mr. Bass of Newberry Preached from the 21st Chapter of St. John & part of the 20th Verse—The Disciple whom Jesus loved—after Service wee Returned in Procession to Concert Hall & dined on an Elegant Entertainment provided by a Committee appointed by the Grand Lodge, there were One hundred and thirty four Brethren present. Wee spent the Afternoon very Cheerfully & in Good Order, which did honour to the Craft. I came home at Eight of Clock in the Evening."

*This and other data used here are taken from notes made on the margin of the mounts of these Book-Plates in my collection. This material may already be printed. But not being certain of this, I cannot make the proper acknowledgements to any publication.

Paul Revere was an earnest Mason. He was initiated in the Lodge of St. Andrew in 1760, and held various offices. "When the schism in St. Andrews arose, and the Lodge was nearly equally divided on the question whether it should renounce its allegiance to the Grand Lodge of Scotland, and hold under the Massachusetts Grand Lodge, his patriotic feelings made him the leader of the seceders from St. Andrews who united in forming the Rising States Lodge, taking its charter from the Massachusetts body. Of this new lodge he was Master 1784 and 1791, and Treasurer 1785. He was also junior Warden of the Royal Arch Lodge, out of which grew St. Andrews Royal Arch Chapter."

Some light in regard to the feeling at times held towards Freemasonry may be seen in the career of Silas Ketchum. Born in Barre Vt., in 1835, he married in 1860 and worked his way through the Bangor Theological Seminary by means of his trade of shoemaker at which he had been apprenticed before his marriage. After graduating he became pastor of a church in Wardsboro, Vt., where he remained for two years. In the library of the Grand Lodge of New Hampshire is a farewell sermon delivered at Wardsboro on Sept. 24, 1865. On the inside of the cover of this Mr. Ketchum wrote:—"In Sept. 1865 I was raised to the sublime degree of a Master Mason, in Mt. Lebanon Lodge, Jamaica, Vermont. For this crime I was dismissed from the church in Wardsboro, of which I had been pastor two years, and took my leave with the following sermon. Silas Ketchum." Mr. Ketchum later helped to edit two Vermont newspapers and the next year was called to a church in Bristol, N. H. During the later years of his life he was much interested in early New England matters and was a member of many historical societies, among them the New Hampshire Historical Society, the New Hampshire Antiquarian Society, the American Antiquarian Society, the Prince Society, the New York Historical Society, and the New England His-

toric Genealogical Society. His Book-Plate shows four symbols of his life's interests—the square and compasses for Freemasonry, the awl for his early trade, the bible for his ministry, and the pen for his antiquarian work.

It is hoped that these few notes and comments may start some Book-Plate collectors into trying to gather a few Masonic Ex Libris for a special collection. The list which follows is of course not at all complete, and I hope that any collectors who may happen to find Masonic plates which are not here listed will be kind enough to bring them to my attention.
