THE WONDER BOOK OF THE CENTURY

An Encyclopedic Outline of
Masonic, Hermetic, Qabbalistic and Rosicrucian
Symbolical Philosophy

AN ENCYCLOPEDIA OUTLINE OF
Masonic, Hermetic,
Qabbalistic and
Rosicrucian Sym-
bolical Philosophy

by MANLY P. HALL

To restore the great structure of ancient learning and make available to serious men and women these secret philosophical tenets, An Encyclopedic Outline of Masonic, Hermetic, Qabbalistic and Rosicrucian Symbolical Philosophy has been written. In the two-hundred and fifty pages of this wonder book is contained a veritable summary of whole libraries of books whose titles and authors are almost unknown to the modern world. The inner sanctuaries of both pagan and Christian learning are made to reveal again the Ancient Wisdom so jealously guarded for uncounted centuries by both priest and philosopher. Upon its pages are set forth in language simple and direct the great laws of life upon which the ancient Egyptians and Greeks raised their unparalleled cultural systems. Between the covers of a single volume have been gathered those priceless secrets of an ancient learning, all of them susceptible of direct application to twentieth century problems. Gathered from the most recondite sources, the wisdom of the ages is now made available to all.

A special catalogue with reduced facsimile of title page, table of contents, list of illustrations, and several pages of text and illustrations will be sent upon request.

LECTURES On ANCIENT PHILOSOPHY

The one hope of the world is philosophy, for all the sorrows of modern life result from the lack of a proper philosophic code. Those who sense even in part the dignity of life cannot but realize the shallowness apparent in the activities of this age. Well has it been said that no individual can succeed until he has developed his philosophy of life. Neither can a race or nation attain true greatness until it has formulated an adequate philosophy and has dedicated its existence to a policy consistent with that philosophy.

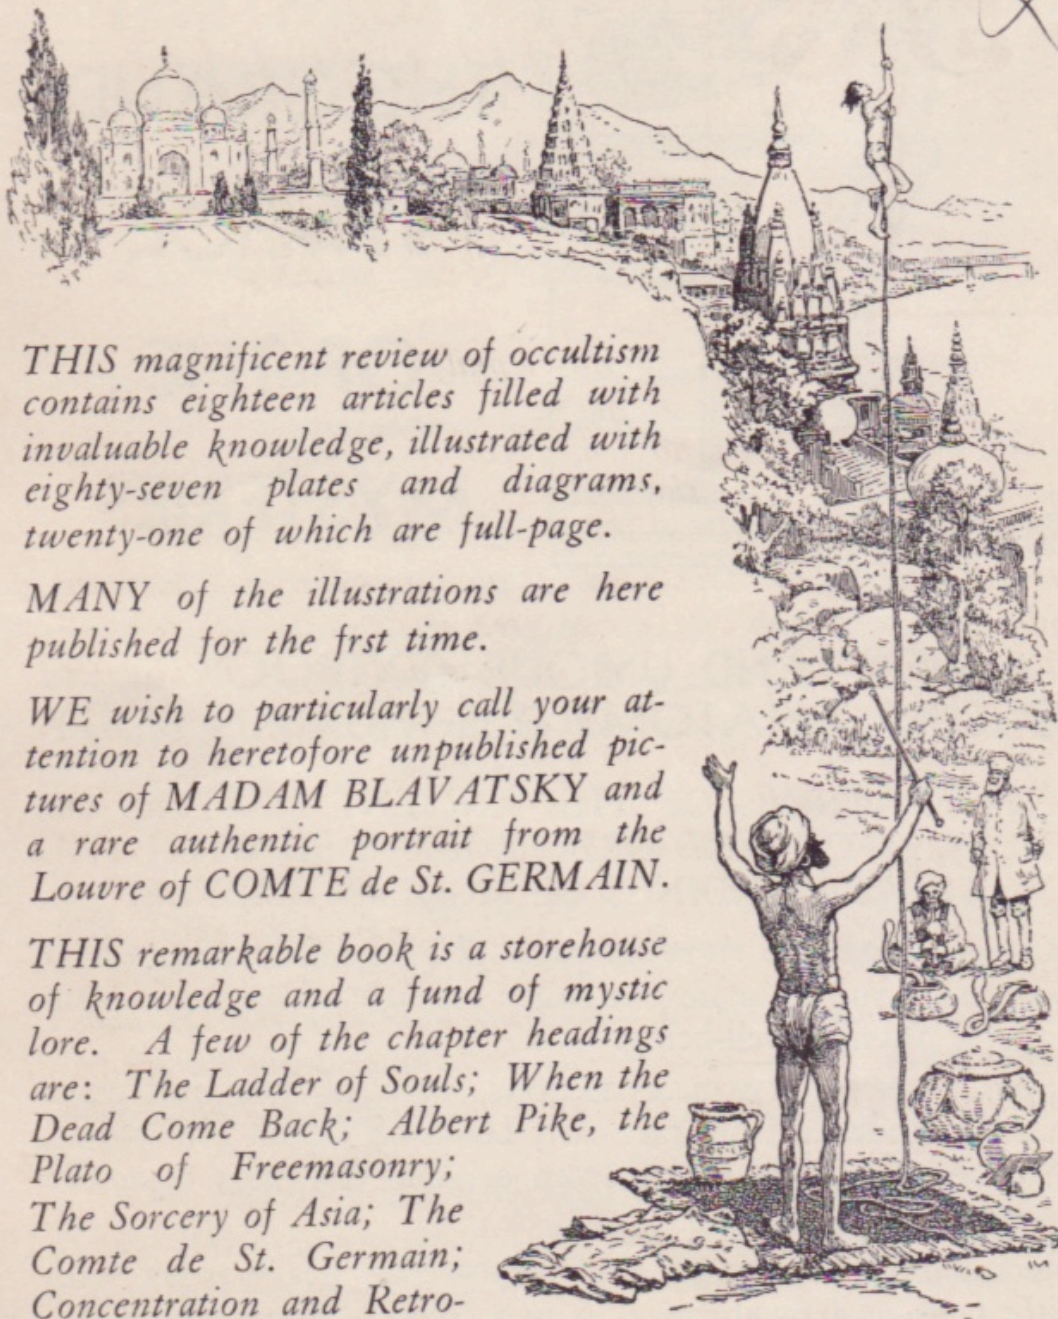

For thousands of years men have sought the answer to the essentials of right living... The quest of the human heart for knowledge has resulted in the formulation of certain great tenets and hypotheses concerning divine and natural law.

Lectures on Ancient Philosophy is a text-book for those who desire to live intelligent and efficient lives... He who would understand those laws, by which the wise of every age have regulated their lives to the ends of happiness and integrity, will find in this book a sane and precise presentation of the Ancient Wisdom.

This book will help you to meet the problems of the day. It will enrich your life, deepen your appreciation, broaden your vision, and inspire you to the perfecting of yourself. It contains nearly 500 pages, with a complete digestive index. It is illustrated by 20 line diagrams, together with a portrait of the author. The volume is substantially bound in red cloth, stamped in gold. The price is \$5.00, postpaid.

H. P. BLAVATSKY and the SECRET DOCTRINE

BY MAX HEINDEL

*Announcing a New Book with an introduction by
Manly P. Hall.*

It would have been a real loss to all students of mysticism and metaphysics if this essay on H. P. Blavatsky and The Secret Doctrine by the great Christian mystic Max Heindel had not found its way into print.

Civilization is in the throes of a great reconstruction period. As never before in recorded history men are seeking solutions to the problems which oppress them. Church and state alike are reaching out to grasp something that is secure, something they may cling to when the world they have known passes into oblivion.

The true purpose of Mysticism is to perpetuate, interpret, and apply the idealism of the race. Men turn to religion for guidance, encouragement and solace. They want to know that there exists somewhere in the world a body of united people who are upholding spiritual values in a world of crumbling materialism. They want ideals, a worthy purpose to unite them in action. They want to go out into life recognizing spiritual institutions as oases in a desert of materialism.

Both Max Heindel and H. P. Blavatsky have left as a legacy to unborn generations, a metaphysical literature which shall survive the vicissitudes of time.

This priceless fragment from the pen of Max Heindel, in appreciation of the founder of the Theosophical Society, should be a cherished possession of all students of these subjects.

The first edition is limited.
