Our publisher, The Sunshine Press, is an international non-profit organization funded by human rights campaigners, investigative journalists, technologists, lawyers and the general public. Since 2007 we have exposed thousands of military, political and corporate abuses—fighting off over 100 legal attacks to do so. No WikiLeaks' source been ever exposed and the organization has yet to lose a legal case. Our disclosures have triggered many reforms, including the removal of two corrupt national governments. We have found that knowledge is suppressed because of its power to change and that only new knowledge brings meaningful change. Ultimately, the quality of every political, economic and personal decision depends on understanding the world and how it came to be that way. By revealing the true state of our world, through millions of pages of suppressed information, we are creating the primary ingredient for a better civilization. Although our work has won many awards, it is your strong support that preserves our continued independence and strength.
