

Raja Rogers Meeting Notes
May 21, 2007

Raja Rogers	Want to set up a meeting with Raja Steve. He is still in Vlodrop. If anything comes up before that meeting, please call me at 404-754-8616 and we will discuss it. What time would be good for everyone? There's a 6 hour time difference. I was thinking about a morning call over a weekend day, like 10:30 am.
Charlie	Maybe you could give Steve some choices. Perhaps a 3pm meeting might be good which means 9 pm in Vlodrop.
Raja Rogers	That's a possibility. Maybe 3:30 pm.
Stuart	The afternoon times would work better for us.
Raja Rogers	What about weekdays?
Jeff Moses	Would be better because we are teaching on weekend.
Regine	M-Thurs, I work at my other job. Friday aft would work. Weekends are better for me.
Stuart	Weekdays aren't very good for me, unless I know well in advance.
Raja Rogers	I'll contact Steve and we'll send out an email announcing the time of the phone call.
Jane	Richard and David should talk with you or Steve about the new project?
Raja Rogers	Probably Steve. What is your number?
Jane	772-231-0961-Richard
Stuart	We had a wonderful RC – 21 meditators. Very transformational for people on the course. Many were our own initiates. 5-6 CP's said they wanted to take the CIC in Sept, in addition to the 5 who are already signed up. The Duncan Center where we had the RC had a cancellation so we are booking an RC for the first weekend in November. The number of inquiries from the Call Center has increased by 2-3 times. The Call Center is doing a great job.
Raja Rogers	We are getting a lot more leads.
Stuart	If any other Centers are planning on an RC, let us know. I know that Lexington will have one over Labor Day.
Jeff Murphy	Confirmed.
Raja Rogers	This is the way we build things – teaching, RC, CIC. In the past few days, Maharishi has given full credit to the Inv America course for Trinidad achieving their SuperRadiance number recently. In NY, Maharishi continues to want us to stay – the Rajas, Bevan, John Hagelin. We have 3 architects to do final choices of color and materials for paint and carpets at 70 Broad St. Also working on a building next door – we will cut a door through to it. We are 150 yards from the New York Stock Exchange. It's amazing that we have

	<p>this building. We have a continuous flow of investors hearing about our projects. Today we are going on world-wide satellite to a much broader extent than before. Today is Dr. Peter Swann's birthday. He's the host of the Global Family Chat. When I give a report, I often feel that his summary is better than my report. Two days ago he was made the Minister of Communications for the GCWP.</p> <p>Raja Steven spoke today. Remember I told everyone that he is very knowledgeable regarding the Vedas. I think you will be very pleasantly surprised. He has had a lot of experience leading people. The more we can pull him in, the more horsepower we will have to move our projects forward.</p>
Jeff Murphy	Valerie Barnard, a Recert Gov in FF, wants to teach her grandson in Lexington. Can she do so being a female Governor?
Raja Rogers	A delicate question. How old?
Jeff Murphy	Getting his sitting technique.
Raja Rogers	<p>In this one special case, it's okay. But we shouldn't take this as any movement away from the principle that ladies teach ladies and men teach men.</p> <p>Maharishi made a beautiful call after the Removal of Poverty conference. Dr. Hagelin's mother is here. Maharishi was very wonderfully talking about the darshan of the mother (he didn't use that word, "darshan.") He's been emphasizing to Bevan to bring his mother who is 94 yrs old and he mentioned it again. He's very positive on the blessings of the mother. I have heard Maharishi tell people – go take the blessings of your mother, nothing can replace it, not even the guru.</p> <p>That's why we would have this exception because she is the grandmother.</p>
Jeff Moses	A Marine who was an Arabic interpreter. He did a lot of research on TM and decided to start this weekend. He told me that on the FBI statistical website, there is info about the DC course in '93. It proclaims that that course was successful and that it did everything that it claimed to do in advance.
Raja Rogers	Consciousness is really, really changing. Even though we have fewer numbers in the field, we have strong people in the field and the numbers on the Inv America course really help. Send me that info. Dr. Hagelin would be really excited about this. We are working so hard here in NY because it is such a power center. Just a few days ago, he said, "We have broken the heart of Kaliyuga." One of the ways to get the info out is to meet with the Ambassadors and financial people we are meeting with here.
Alcine	When on Mother Divine, the question came up if we could teach small boys (we couldn't teach men). Maharishi said it would be okay because the small boys come with their mothers.
Raja Rogers	Yes, that is true. Yet Maharishi really wants to establish at a young age, the boys school and girls school. So better to go with "Birds of a feather..."
Alcine	A mother here asked me to teach her son who is autistic. I've had experience teaching disturbed children.
Raja	In this case, this will be fine. Raja Dean is in KS right now with Eike and

Rogers	Roger. They were surveying the land to find exactly the Brahmastan of the US. Looks like we will have a little more land there.
Stuart	Memorial Day may be a good day for a phone call with Raja Steve.
Raja Rogers	There will be an email sent out about the call. Maharishi has put him in charge with China and there are some people from the movement there.
Alcine	Will he come to the US?
Raja Rogers	Ask Maharishi.
Jane	He sold his house and lot here in Vero. He is free to go where Maharishi wishes.
Raja Rogers	<p>If something comes up, certainly give me a call. You can call at any time. If I am busy, I'll let you know. Best not to call before 11 am. Today Maharishi was very encouraging about everyone having a long, long program morning and evening.</p> <p>Jai Guru Dev</p>
