

**The EVIL Government is Buying the  
SILENCE of Doctors, Nurses and Hospitals  
With  
Huge BRIBES of Money, and  
Fawning, Undeserved Adulation by the Press**

**Lorraine Day, M.D.**

You can't turn on your television set without seeing bootlicking, toadying, obsequious, unctuous - - NAUSEATING Adulation of Healthcare workers - - Healthcare workers who are mostly sitting on their backsides because there is NOTHING to do – except form dance lines – doing the Conga through the halls of the hospital!

The government is paying huge sums of money to hospitals, and audaciously fawning over doctors and nurses and first responders in television commercials and public announcements, just to BRIBE them into keeping their mouths shut about the hospitals being empty, and the government's immense exaggerations and outright LIES about the number of Covid-19 patients!

And the Jews are using YOUR tax dollars for the Bribery!

And, unbeknownst to the public, even large doctors' groups who supply services to hospitals have also received HUGE (bail-out) sums of money because of the LACK of patients in hospitals. I know this for a FACT! These BRIBES undoubtedly come with NONDISCLOSURE agreements, to make sure the doctors and hospitals keep their mouths shut, and that they make sure their employees also keep THEIR mouths shut. NO ONE is allowed to talk to the Press about this.

But, of course, since the Mainstream Press is totally owned by the Jews, NOTHING would be told publicly anyway, even if some employee went "rogue."

The Jewish Billionaires who OWN our government, having given THEMSELVES HUGE AMOUNTS of American Taxpayers dollars, but they have bought off everyone who "matters" (according to THEM), so they won't make any "noise."

**Even Multi-Millionaire Tom Brady Got Bailed Out!**

This is NOT about minority businesses, or keeping the rank and file Americans afloat, this is ONLY for the WEALTHY. The rest of us can rot in hell as far as the Illuminati Jews are concerned

## Did Tom Brady's Company Get a PPP Loan?

The loan to the NFL star's company was controversial due to his wealth and a multi-million dollar contract.

**Origin**

---

In early December 2020, after months of litigation brought by news organizations, the Trump administration finally made public data about recipients of the Paycheck Protection Program (PPP), a bailout program rolled out in the spring that was meant to help small businesses survive economic fallout from the coronavirus pandemic.

In all, 5.2 million businesses, including **Snopes**, were able to access forgivable PPP loans. But the release of the data showing what businesses received a portion of the more than **\$500 billion** in taxpayer relief money was accompanied by scrutiny and controversy.

In one controversy, the data released by the Small Business Administration showed sports performance and nutrition company TB12, which is owned by former New England Patriots quarterback Tom Brady, received nearly \$1 million.

According to the **data released** by the Small Business Association, TB12, a sports health company, received \$960,855 in PPP loans in April 2020. The company did not state whether any jobs were saved on account of receiving the loan. On its LinkedIn Page, TB12 **stated** it has between 11 and 50 employees.

Some on social media criticized the loan, citing Brady's own personal **wealth**. In March 2020, Brady signed a \$50 million, two-year **contract** to play for the Tampa Bay Buccaneers.

The data release also **revealed** that more than half the money went to larger businesses, including national chains. Another analysis **found** that more than \$3.65 million went to businesses that were tenants in properties owned by U.S. President Donald Trump and his adviser and son-in-law, Jared Kushner.

These discoveries were made even after news outlets reported that a vast proportion of small businesses owned by minorities and women were **shut out** of the PPP program because they

didn't qualify, or because funds were exhausted at the time their applications were processed, per an analysis by CBS News. Thousands of small businesses have closed as a result of the pandemic.
