Mossad and 9/11

I have read lots of theory's about 9/11. Most of them I shake my head and roll my eye's. This one got me thinking though.....

"By way of deception, thou shalt do war."

This is a summary article: documentation of the details follows below.

It took a little while, but finally, the truth has risen to the surface in the 9/11 World Trade Center tragedy, with the resulting implications and manifestations.

It can now be reported that there is a dangerous dirty double-dealing and deadly duel of blackmail going on behind the scenes between the United States and Israeli governments, which has resulted in a recent decision by the U.S., for the first time in history, to back a United Nations resolution calling for a free and independent Palestinian state in the Middle East, and which has subsequently resulted in Israel's bold defiance of weak demands by the United States for Israel to withdraw from the occupied Palestinian territories where brutal massacres have been perpetrated and the failure of Israel to observe United Nations resolutions regarding the current crisis, such similar resolutions which have caused Iraq to be bombed and blockaded by U.N. forces ever since the Desert Storm Gulf War.

It can now also be reported that the U.S. government, and many nations of the U.N., are in possession of proof of the duplicity, complicity, and possibly the total responsibility, of the nation of Israel in the 9/11 World Trade Center tragedy, along with the Flight 587 crash over Queens, New York shortly after 9/11, among several other recent "Black Propaganda" operations carried out by the nation of Israel and the Israeli secret intelligence service known as the Mossad.

Initial information springing up right after the 9/11 tragedy, followed by the behind-the-scenes reaction and some resulting policies of the Bush administration, indicated that the U.S. government was aware of Israeli prior knowledge of the attack, and considered Israel as a suspect in the masterminding of the conspiracy through an attempt to implicate Arabs, Muslims, and Osama bin Laden in the disaster, for the purpose of turning around international opinion, which was mounting against Israel, instead against their Muslim enemies and force the U.S. and the U.N. to brand and consider Palestinian leader Yassir Arafat as a "terrorist" who should be included as an enemy in the subsequent "War on Terrorism" which resulted. This was done by the Israeli Mossad master-minding the 9/11 tragedy through remote control of the airplanes by a previously secret radio control system, with subsequent blame being placed on the Islamic Al-Qaeda network and Osama bin Laden through a massive misinformation campaign perpetrated by the controlled United States media which was designed to cover up the real truth in the matter.

Using the 9/11 World Trade Center tragedy as an excuse to promote New World Order policy by implementing Soviet-like domestic programs in the homeland and attacking the enemies of the New World Order all throughout the world: also build an oil pipeline through Afghanistan and regain control of the Afghanistan heroin trade, by ousting the Taliban government, with whom the Bush administration has been negotiating the previous year regarding the aforementioned issues; the Bush administration established the "War on Terrorism" which also promoted the goals of the New World Order, and which to a large degree was consistent with the desired foreign policy of the nation of Israel, which was itself being promoted within the Bush administration by the Zbigniew Brzezinski and Paul Wolfowitz cabal, such cabal which came to be known as "Team B."

When Flight 587 went down over Queens, it was not an accident but another black propaganda operation by Israel and the Mossad designed to implicate Arabs, Muslims, and Osama bin Laden, and information implicating the Israelis in a black propaganda project analogous to 9/11 was the reason why the Bush administration covered up the tragedy, instead of the reported reason that the projected economic effect of another terrorist attack would severely harm the U.S. economy.

At the time of the passage of the U.N. resolution calling for a Palestinian state, the United States was being blackmailed by Israel, with Israel

threatening to release sensitive information obtained about U.S. government officials and policies obtained by the multiple levels of Israeli spy rings operating in the United States (some of the sensitive information relating to perverse sexual activities by U.S. officials, obtained through the facilities of the Israeli/Jewish international child pornography/slavery ring), while at the same time, the Bush administration was blackmailing Israel by threatening to curtail Israeli influence in the United States and release information regarding Israel's duplicity, complicity, and possible total responsibility in the 9/11 tragedy. Subsequently, the Israeli Mossad (with permission from Ariel Sharon) followed through on their threats and released information in the United States (primarily through the U.S. Patriot and Militia movements, now controlled by Israel) that implicated the Bush administration in prior knowledge of the 9/11 tragedy, with the Mossad assigning the blame, as previously mentioned, to Arabs, Muslims, and Osama bin Laden.

Previously, and at the same time as all of this was happening, behind the scenes, the Bush administration had launched an investigation into Israeli spying in the U.S., which subsequently resulted in the identification of as many as 140 Israeli spies operating in the United States, an investigation which could be observed as being a natural reaction on the part of a party being blackmailed, in an attempt to remove the source of the blackmailing threat, and which resulted in a new Pentagon policy of excluding foreign nationals (specifically Israelis) from unclassified information. However, this small spy ring is only the tip of the iceberg of Israeli spying, and many other levels of Israeli spies and subversives (sayanim) exist all throughout the U.S., including secret agents and offices of the Mossad which have been admitted by former Mossad agents as operating on American soil, despite continual denials by the Israeli leadership.

One of the threats perceived by the United States that would be carried out by such a collection of Israeli agents in the U.S. is the explosion of a nuclear device in an American city, or an attack on a U.S. nuclear power plant, followed by an attempt to implicate Arabs, Muslims, and Osama bin Laden again; a warning about the nuking of an American city has already appeared in the Zionist-controlled U.S. press, with the blame, again, being placed on Arabs, Muslims, Osama bin Laden, and now, Saddam Hussein. This Israeli threat is connected to the U.S. war plan against Saddam Hussein of Iraq, with President Bush understanding that if he does not do something about Saddam Hussein, then Israel will carry through on its threat, which will then actually be used to his advantage by Bush and his administration. The desired result of this planned war on Iraq is the overthrow of Saddam Hussein, the destruction of all chemical, biological, and nuclear weapons facilities, and the maintenance of Israel's position as the most powerful nation (and the only nuclear power) in the region, and the third most powerful nuclear power in the world. However, many people throughout the world are aware of this ploy, and what happens in the future regarding this very element of the conspiracy is a variable which could bring on the essential destruction of human civilization all throughout the world.

This Iraqi war ploy is clearly an element of the conspiracy which could bring on the essential destruction of human civilization all throughout the world. Already heard has been the nuclear sabre-rattling by U.S. President Bush and Great Britain Prime Minister Blair, who have both stated that if weapons of mass-destruction are used by certain Middle-Eastern nations (enemies of Israel), then the U.S. and Great Britain would not hesitate to use nuclear weapons in response. This stated policy, a shift in nuclear policy for both nations, suggests that the U.S. is backing down in fear to Israel's nuclear threat, and follows the pattern of the United States prosecuting the foreign policy of Israel.

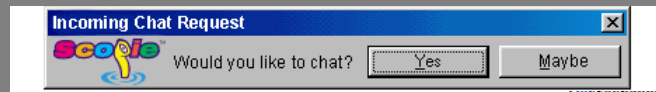

The Iraqi war ploy continues to be prosecuted, both by President Bush and the "Team B" cabal, even though it is largely based on the violation of 2 U.N. resolutions by Iraq: resolutions regarding inspection of certain manufacturing facilities. This while Israel itself is in violation of 68 U.N. resolutions, and has been saved violation of 30 more by U.S. veto! Furthermore, Israel is the only nation in the region which actually possesses nuclear weapons, and other weapons of mass destruction: in fact, it is claimed in some intelligence circles that Israel is the 3rd most powerful nuclear force in the world. In the Iraqi war ploy scenario, Iraqi sources have stated that upon invasion by the U.S., Iraq would attack Israel. Israeli sources have stated that if Iraq attacks Israel with weapons of mass destruction, then Israel will explode ground-burst nuclear devices on all Iraqi cities occupied/controlled by Iraqi forces. Russian sources have stated that if Israel attacks Iraq with nuclear weapons, then Russia will launch nuclear weapons on Israel. And it is obvious what will be the response of the U.S. in the matter should the situation progress to that point: all of which highlights the fact that the prosecution of this Iraqi war ploy by the U.S. as for the primary benefit of Israel, is one of the most misguided policies ever held by any government.

And in that truth, the entire Iraqi war ploy again exemplifies how the Rothschild family still has the upper hand and holds sway over the Illuminist element of the New World Order conspiracy, and can/will have their way whenever they want to; furthermore those who once thought they were not under the thumb of certain people, have found out, and will find out in the future, that they really are controlled by the ultimate puppet-masters in the world, and are themselves simply puppets to their real masters.

This control is highlighted and observed whenever President Bush and/or the U.S. government/administration support any questionable action of the Israeli government that, should any other nation in the world have done the same thing, the U.S. would have vehemently opposed such an action. Such a conflict, with nuclear weapons following chemical/biological weapons, must precipitate a global nuclear war, or, under the best case scenario(!), a limited nuclear war which would still leave the planet decimated and the human race in danger of extinction. However, at the same time, Israel has stated that it is already preparing for World War III, and the Chief of the Israeli Mossad has recently stated that the 9/11 disaster was the beginning of that World War. Thus, Israel is prepared to throw the entire world into nuclear war should it not obtain everything it wants, and this is another implicit threat that is now obvious to

	<p>the international community.</p> <p>At this time, the public relations element of the Israeli plan has failed, with more nations and people than ever in the world calling for Israeli compliance and acquiescence, opposing the policies of Israel and supporting the Palestinian cause and the Arab/Islamic nations, especially in light of the mass arrests, tyrannical oppression, and brutal massacres that have characterized Israel's recent re-invasion of the occupied territories. At the same time, Israel has lost an enemy in the extended region through the overthrow of the Taliban government, and has gone a long way towards destroying the infrastructure of the Palestinian people in the occupied territories, while at the same time sowing the seeds of future opposition and hate, and it must be observed that, in light of the motto of the Israeli Mossad "By way of deception, thou shalt do war," Israel has succeeded so far in this element of its plan.</p> <p>Since it is the nature of the criminal mind to try to turn their victims into the perpetrators, and paint themselves as the victims, and since blackmailers and their blackmail victims are prone to lie in order to cover up their guilt, it should not be expected that the full truth will ever be admitted by anyone associated with either the U.S., British, or Israeli governments, and it should be expected that subsequent denials and misinformation will be released in a continued attempt to obfuscate the truth in the matter. All in all, the lies that are being told about this matter are some of the biggest lies ever told in the history of human civilization, and the absolute evil manifested in this conspiracy, is some of the greatest evil ever manifested in the history of the world.</p> <p>And while past tragedies were obviously master-minded by the Israeli Mossad as part of their black propaganda operations, it is also obvious that sometime in the future, Islamic Al-Qaeda will strike at international New World Order Zionist targets: not because of any hate of "American freedoms" which they, or the people they represent, may hold, but because of the oppression and tyranny heaped upon them by an unbalanced, unfair, and unjust American foreign policy which is both racist and representative of the forces of the New World Order, and which favors Israel to the extreme that U.S. manufactured weapons are being used to murder the enemies of Israel; while at the same time, such events must be inspected extremely closely to determine if Israeli Mossad "war by way of deception" methods and techniques have been used to attempt to assign the blame on less guilty parties to such tragic events.</p> <p>http://count.exitexchange.com/exit/1148688</p> <p>Since the link is kind of screwy I posted the whole article.</p> <p>[Edited on 01/15/03 by nyeff]</p>
