"No people will tamely surrender their Liberties, nor can any be easily subdued, when knowledge is diffused and Virtue is preserved. On the Contrary, when People are universally ignorant, and debauched in their Manners, they will sink under their own weight without the Aid of foreign Invaders."

Samuel Adams

"For we are opposed around the world by a monolithic and ruthless conspiracy that relies on covert means for expanding its sphere of influence--on infiltration instead of invasion, on subversion instead of elections, on intimidation instead of free choice, on guerrillas by night instead of armies by day. It is a system that has conscripted vast human and material resources into the building of a tightly knit, highly efficient machine that combines military, diplomatic, intelligence, economic, scientific and political operations."

*Kennedy revealed the NWO plan for the world just before his assassination. **John F. Kennedy- SPEECH***

"The individual is handicapped, by coming face-to-face, with a conspiracy so monstrous, he cannot believe it exists. The American mind, simply has not come to a realization of the evil, which has been introduced into our midst . . . It rejects even the assumption that human creatures could espouse a philosophy, which must ultimately destroy all that is good and decent."

FBI Director J. Edgar Hoover, 1956

Quotes from "Silent Weapons for Quiet Wars"

"A silent weapon system operates upon data obtained from a docile public by legal (but not always lawful) force. When the government is able to collect tax and seize private property without justification, it is an indication that the public is ripe for surrender and is consenting to enslavement and legal encroachment."

"War is therefore the balancing of the system by killing the true creditors (the public, which we have taught to exchange true value for inflated currency) and falling back on whatever is left of the resources of nature and regeneration of those resources."

"Until such energy dominance is absolutely established, the consent of people to labor and let others handle their affairs must be taken into consideration, since failure to do so could cause the people to interfere in the final transfer of energy sources to the control of the elite. It is essential to recognize that at this time, public consent is still an essential key to the release of energy in the process of economic amplification. Therefore, consent as an energy release mechanism will now be considered."
