Theoretical Perspectives

MCEO teachings presently exist on Earth as a growing body of detailed information pertaining to the spirituality and science of creation and the history and evolution of humanity. MCEO teachings offer unique perspectives, techniques and technologies of mind and spirit that have proven useful to many people in the exploration and expansion of personal consciousness. Information contained within MCEO teachings represents a cohesive paradigm of ideas, beliefs and perspectives reportedly translated from ancient texts, which together comprise an affirmative and inspirational “point of view” or “world view” regarding the tangible realities of spirituality, the mechanics of creation, the history of our universe and the potentialities of the human condition. Like many popular “New Age” and “Traditional” paradigms of spiritual, scientific and historical beliefs, many points of view presented within MCEO teachings extend beyond the framework of presently recognized spiritual/religious, scientific and historical “fact” that can be verified through common contemporary scientific procedures. *Thus, like many other popular belief paradigms, including ALL known “New Age” and “Traditional” spiritual/religious doctrines and many fields of contemporary scientific study, the perspectives presented within the MCEO teachings must, too, be presently categorized as theoretical in nature.*

The *verifiable actuality*, and thus the potential validity, of the presently theoretical spiritual, scientific and historical perspectives of MCEO teachings pertaining to the **“Ancient Science of the Shields”** (scalar-standing-wave templates of matter and consciousness), **“Merkaba Mechanics”** (interdimensional electromagnetic vortex mechanics), **“DNA Template Activations”** (frequency accretion within the scalar template behind manifest chemical DNA), **“Interdimensional Structure”**, **“15-Dimensional Anatomy”**, **“Bio-Spiritual Healing”** (support of biological healing and well being through holistic spiritual practice) and **Humanity’s Evolutionary Journey**, perspectives which are featured within the **MCEO Kathara Bio-Spiritual Healing Program, MCEO Maharata “Dance For” Programs** and related published works of the MCEO, cannot at this time be “proved or disproved”. Therefore, the MCEO Paradigm and its related teachings, techniques and technologies are offered to the public as a unique and inspirational view point, solely for the purpose of public investigation, consideration and theoretical exploration.

Though the presently theoretical categorization of MCEO teachings within the public sector is recognized, it should also be recognized that members of the Azurite Press, Trustees and the AP Regents Council, as well as authorized MCEO translators/authors and teachers and many individuals within the international community, have personally chosen to accept the validity of MCEO teachings as representing more than a theoretical perspective, instead acknowledging the MCEO Paradigm as a factual reality interpretation, and practical worldview, through which progressive expansion of personal consciousness and coherent spiritual awakening are fostered. Such decision as to the factual or theoretical categorization of the MCEO

Paradigm, and the responsibilities inherent to this decision, are deeply private spiritual issues, and thus must be assigned to the faculties of personal discretion.

MCEO Meditations for Spiritual Exploration, Medical and Psychiatric Considerations

As the MCEO Paradigm is built upon presently theoretical spiritual, scientific and historical perspectives, any and all techniques and technologies offered through the MCEO Paradigm must also be considered as presently theoretical in nature, and thus any and all techniques and technologies presented within MCEO teachings are ***not intended to diagnose, treat or cure any disease or illness, nor are they intended as substitution for professional medical or psychiatric advisory or treatment.*** Techniques and technologies provided within MCEO teachings are offered to the public solely as ***“Meditations for Spiritual Exploration”***, with the intention of assisting to serve the further evolution of human consciousness through providing exposure to an expanded range of perspectives and potentialities. **It is strongly recommended that individuals having a history of medical or psychiatric difficulties, or whom are presently under the care of medical or psychiatric professionals, seek professional advisory before using any MCEO Meditations for Spiritual Exploration techniques or technologies.**

Since introduction of *MCEO Meditations for Spiritual Exploration* techniques and technologies in 1999 many people have claimed to receive beneficial affects and effects in the development and expansion of personal consciousness and spiritual awakening through use of MCEO techniques and technologies. There have also been a lesser number of reports of individuals claiming to receive no affect, effect or benefit at all, but there have been ***no reports of individuals claiming adverse medical, psychiatric or psychological affects or effects*** in conjunction with use of MCEO techniques and technologies. As a reflection of commitment to responsibility in presentation, MCEO techniques and technologies are not presented for exploration in the public domain until they are first and/or simultaneously explored, utilized or practiced by authorized MCEO translators/authors/ teachers and members of the Azurite Press Board of Directors. Though validation of factual actuality pertaining to affects, effects or benefits of practicing MCEO Meditations for Spiritual Exploration techniques and technologies must, like the techniques and technologies themselves, for the present time remain within the realm of theoretical exploration, it can be reported that since 1999, findings pertaining to the practicality of utilizing MCEO techniques and technologies have consistently revealed that affects and effects of such practices are ***quite individualized, though predominantly positive***, in nature. Therefore, however, ***no claims, promises or guarantees as to the affects, effects or benefits an individual might expect to encounter through use of MCEO techniques and technologies can be offered at this time.*** Utilization of MCEO Meditations for Spiritual Exploration techniques and technologies presently remains within the category of ***experimental self-exploration***, through which absolute conclusions regarding generalities of mass affect, effect, benefit or detriment cannot yet be drawn. ***An individual’s involvement with MCEO teachings, techniques and technologies represents a choice of personal decision and discretion, and thus responsibility pertaining to affect and effect of practice that are inherent to this choice must also remain with the individual.***

Claim of Authenticity

In offering MCEO teachings for public exploration, ***neither the translators/authors, publishers, promoters or related individuals and organizations make any claims whatsoever as to the factuality of ideas or perspectives contained within the MCEO Paradigm.*** Though the *MCEO teaching texts themselves* do on occasion claim that certain ideas and perspectives are of a factual nature, such claims represent points of view intrinsically contained within the ancient texts from which contemporary translations are drawn. The authorized translators/authors of contemporary MCEO teaching texts hold a

binding commitment to ensure the clearest and most accurate translation of MCEO texts as possible under current evolutionary circumstances; a *commitment to clarity and accuracy of translation* that must include the allowance of contemporary translation of any *claims of factuality as they are contained within the MCEO texts of antiquity*. **Information represented as *factual knowledge* within the MCEO texts of antiquity, and their contemporary translations, is understood to represent “*potential or possible factuality, expressed as factuality within the ancient texts, but which presently resides within the domain of theory*” within the context of contemporary publication.**

The contemporary translators/authors of MCEO teachings *claim only* that the MCEO text translations contained within presently published works bearing their authorship represent an “**as-accurate-as-possible**” translation of MCEO text records believed to have been created in ancient times, which the contemporary translators/authors have had opportunity to review through *authentic personal experiences*. Translators/authors thus make claims only as to the *authenticity of their personal experiences* through which review of ancient MCEO text records occurred and as to the factuality that translation of the reviewed ancient MCEO texts into contemporary English language has been rendered by them as clearly and accurately as possible.

As the original MCEO texts of antiquity are not presently in the direct possession of authorized contemporary translators/authors, and thus contemporary translators/authors cannot at this time publicly display these artifacts in order to validate the reality of their continued existence and verify their inherent content, those who explore contemporary MCEO texts translations must understand that such works are presented as theoretical perspectives and possibilities, the validity of which one may choose to believe, or disbelieve, upon the merit of one’s personal discretion. ***If ideas, concepts or perspectives contained within the MCEO texts, their contemporary translations or related teaching materials bear any resemblance to ideas, concepts or perspectives contained within any other presently known spiritual/religious, scientific or historical paradigms or teaching systems, such resemblance is purely coincidental.*** However, the event of such coincidence arising may potentially suggest that both the MCEO Paradigm and paradigms to which it might bear resemblance **may have arisen from a common source in antiquity** that has yet to be discovered or scientifically verified, but which would upon discovery lend credence and clarity to such coincidence.

Terms, Conditions, Agreements and Implied Consent

As contemporary MCEO text translators/authors can make no claims or promises as to the factuality of ideas and perspectives presented within MCEO teachings, they likewise **cannot offer any claims, promises or guarantees as to the affects or effects that may or may not arise through personal use of MCEO teachings or Meditations for Spiritual Exploration techniques and technologies**. The responsibility for decision to engage involvement with MCEO teachings, techniques or technologies rests with each individual, and thus the responsibility for any affects or effects that may or may not occur in conjunction with use of MCEO teachings, techniques and technologies must also rest with the individual. The *Meditations for Spiritual Exploration* techniques and technologies provided within MCEO teachings represent translations from the ancient MCEO texts, and are provided to the public as an **option for personal spiritual exploration, investigation and experimentation, to be utilized at the personal discretion of the reader or workshop attendee**.

As stated in numerous public forums and workshops since 1999, ***in choosing to utilize MCEO teachings, techniques or technologies it is understood that in so doing the individual accepts full responsibility for any and all conditions that may or may not occur in conjunction with such practice***. It is further recognized that the individual, ***through the act of utilizing MCEO teachings, techniques or technologies, thereby through this act agrees*** to release Azurite Press, Trustees, the AP Regents Council, authorized Kathara Bio-Spiritual Healing Program teachers and facilitators

(pertaining only to MCEO-sanctioned Kathara “no-touch” procedures), authorized MCEO translators/authors, teachers, promoters and any individuals and organizations thereto related, from any and all claims of liability or damages perceived or assumed to occur in conjunction with involvement in MCEO teachings, techniques or technologies. This statement of Terms and Conditions represents a written *Notice of Implied Agreement and Consent to Liability Release* in regard to involvement with MCEO teachings, techniques and technologies. This Notice of Implied Agreement and Consent of Liability Release represents a *reiteration in specific written format* of previously provided notice as to the *necessity of taking personal responsibility for any and all consequences arising from chosen involvement with the MCEO Paradigm*; notice which has been frequently provide verbally in public forum since 1999. It is recognized that the *Implied Agreement and Consent to Terms and Conditions of Liability Release* stated here within is accepted and enacted as such *upon the act of chosen involvement with and/or practice of MCEO teachings, techniques and technologies*. If one is uncomfortable or in disagreement with this stated *Notice of Implied Agreement and Consent to Terms and Conditions of Liability Release*, it is suggested and recommended that one choose at this time non-involvement with MCEO teachings, techniques and technologies, until a future time wherein such concerns have been assuaged.

A Commitment to Quality and the MCEO Course-book Manuals

The authorized MCEO translators/authors, members of the MCEO, Azurite Press, Trustees, Regents Council, teachers and promoters of the MCEO Paradigm extend their greatest efforts in making MCEO teachings available for public exploration in **the most responsible and respectful manner possible**, whilst striving to maintain the **highest standards of integrity in MCEO text translation and teaching**. Intrinsic to such responsibility in presentation, authorized MCEO translators/authors, members of Azurite Press, Trustees, Regents Council and authorized teachers and facilitators of MCEO programs are all individuals who personally believe in the factuality of the MCEO Paradigm and who actively participate, for personal spiritual reasons, in MCEO programs, including personal utilization of MCEO techniques and technologies. These individuals all share a **common commitment to achieving and maintaining integrity, quality and responsibility in public presentation of MCEO teachings**; this shared commitment arises from a commonly shared, individually held, reverence, respect, appreciation for, and belief in the validity of, the MCEO Paradigm, its inherent teachings of personal spiritual self-discovery and the limitless potentialities of human consciousness that this paradigm suggests.

On behalf of this commitment to quality, may it be understood that **MCEO Course-book Manuals**, as featured within the MCEO *Kathara Bio-spiritual Healing Program*, *MCEO Maharata “Dance For” Programs*, *MCEO Masters Templar Stewardship Initiative Program* and other MCEO teaching programs, **do not represent completed books**, but rather exist as **companion text briefings** that are created in conjunction with **specific corresponding live workshop presentations** which are preserved via **audio/video recordings** that are made available on the *Azurite Press Products List* as specific Program Sets. The Course-book Manuals that accompany some of these audio-video workshop programs **contain only the charts, graphs and most pertinent information pertaining to their corresponding audio-video program**, and **do not contain the many pages of dialogue and detailed explanation** that is incorporated verbally within the audio-video program. Thus MCEO Course-book manuals are not intended to be used alone, but are rather intended for use as an **additional educational aid in conjunction with their corresponding audio-video workshop program**.

As new MCEO workshop materials are often released and translated during live workshop presentations, the corresponding Course-book Manuals and their inherent graphs and charts often reflect the immediacy of the new information provided in that they are initially rendered “**in-the-rough**”, often with portions of text in hand-written form, not yet “perfected” for book publication with appropriate dialogue text detail, typesetting, computer graphics, pagination and indexing. As each new workshop since 1999 has introduced the next level of new, live MCEO data translations, there has been insufficient time to “move backward” and perfect the quality of production pertaining to MCEO Course-Book Manual texts from previous workshops.

The information and new MCEO teachings contained within each workshop program always reflect the standards of integrity and quality inherent to the MCEO Paradigm, but often timely public release of new materials is achieved at the expense of quality in product production. **The Azurite Press staff apologizes for any inconvenience that such “data-in-the-rough” may cause; however, if workshop programs were withheld from Product List release until their audio/video recordings and corresponding Course-book Manuals were “perfected” in terms of product production, it would be several years before these materials were released for public review.** As new MCEO teachings are often time-sensitive in regard to the unfolding of planetary events, especially since 2000, it has been of greater priority during this time to expedite availability of the MCEO teachings contained within the products, than it has been to demonstrate the standards of excellence in quality product production that remains a goal of Azurite Press.

For the time being, MCEO audio-video-Course-book Programs are in a **state of continued evolution**, as the small staff at Azurite Press, with the assistance of numerous individuals who volunteer their time and talents, endeavor to compile dialogue transcripts and perfect typesetting, computer graphics and format organization of previous MCEO workshop presentations in effort to fulfill the goal of creating “perfected” book publications that contain, and “do justice to”, the vast body of quality teachings that have been presented during the 1999-2003 MCEO workshops. The commitment to achieving excellence in quality of production, as well as quality of information, that is held by members of Azurite Press staff arises from the personal desires of staff members to “honor the spirit of the teachings” which they have found personally valuable, as well as from a desire to provide the best possible quality of product and service in spiritual respect to the public. Until the goal of achieving “perfected” product production quality is actualized, Azurite Press staff hopes that the public will share in the recognition that it is the **quality, and inherent substance, of MCEO information, more so than the “package that it comes in”, which demonstrates the value of Azurite Press MCEO educational products.**

INTRODUCTION

Who are the Indigo Children?

Over the past few decades a “new breed” of children has caught the attention of the scientific communities in the US, China, Mexico, Russia and other countries. These children display unusual physical and psychological attributes that separate them from the “norm”, such as: enhanced immunological systems and advanced genius or highly gifted intelligence, to more extra-ordinary abilities of a “paranormal” nature that we most often do not hear about in mainstream analysis. In recent times, and primarily within the definitions ascribed to the New Age Movement”, the term “**Indigo Children**” has become a popular term in describing this “new breed” of child. The “Indigo” description emerged through intuitive observation of the “subtle body” or *auric field*, in which a greater concentration of color in the *Blue* wave spectra is a dominant feature.

Along with research provided by the more metaphysical among us, additional work on identifying Indigos has been compiled through the contemporary **psychiatric model** such as is explored in the book “**The Indigo Children**” by **Lee Carroll and Jan Tober** (Hay House publishing-1999). In this book, the *less appealing qualities*, demonstrated by Indigos, are brought to light, along with their advances. Though Indigos hold great potentials in *modeling evolutionary advancement*, there is also a “**dark side**” to the **Indigo Story**, in that they frequently display psychological behaviors associated with “*Attention Deficit Disorder (ADD)*”, “*Attention Deficit Hyperactive Disorder (ADHD)*” and as some believe, with **violence**, such as that demonstrated in the contemporary wave of “school yard slayings” (children killing classmates, teachers and others). Within the *psychological paradigm*, Indigos are most often treated with **symptom-suppression drug therapy**, in which pharmaceuticals such as *Ritalin* and *Cylert* are used to control disruptive behaviors (the issue of drug therapy for Indigo's will be discussed later in this presentation). I found the Carroll/Tober book especially useful in regard to *practical identification* of more apparent Indigo characteristics and in offering a variety of helpful coping *perspectives* for parents and teachers of the Indigo Child. Again, I recommend exploring the works of others that actively research the phenomenon of the Indigo Children.

The objective of my presentation is not to “parrot” the works of other Indigo researchers, nor to approach the exploration of Indigo's in terms of available *scientific or statistical analysis*; there are other more qualified than I, to investigate those aspects of Indigo-ism. **My exploration into the Indigo phenomenon moves into the depths of the issues at hand – “Who ARE the Indigo Children?”** Observing the *external characteristics* of Indigo Children can provide us with information on the **characteristics they display**, but it will not answer the deeper questions regarding their identity and what “makes them different” than others, considered to be of the “norm”. The answers to these questions lie squarely within the parameters of their **spiritual nature**, for the Indigo distinction lies within the intrinsic **spiritual structure, orientation and origins of their consciousness**. The Indigos are indeed a “new breed” of children because they represent a **new breed of consciousness**, now entering incarnation within our times. **The Indigos are in truth representatives of a very OLD BREED of consciousness once prevalent on Earth and in their re-emergence today they serve as harbingers of our race evolution – the way-showers of things to come, as our race evolution moves closer to its intended hidden destination.** Furthermore, the Indigos are **here by design and intention**; their coming is not the result of some accidental or haphazard quirk of undirected evolution. **They are here because they were**

asked to come and they have come to fulfill their part of a much grander evolutionary mission. If we are to understand the truth of the Indigo Children, we must first *look deeply into the hidden nature of ourselves*, and into the *core or our race evolution*, for it is within this framework of expanded perspective that the identity of the Indigo's can be known. **As we come to better know ourselves, we will come to understand the Indigos and what their existence implies for the transformation of our race.**

The phenomenon of the Indigo Children is both **spiritual and genetic**, and their placement among us represents the beginning of the **externalization of our intrinsic process of BIO-SPIRITUAL EVOLUTION** - the long-hidden dynamics of the *design* through which the evolution of our race consciousness and genetic code progressively expands through time. **Our search to understand the implications of the Indigo Children will lead us deep into our long-forgotten past and far beyond the scope of our contemporary paradigms of psychology, spirituality, science and history – it will lead us into exploration of Otherworlds; for it is from Otherworlds that the Indigos now come.**

How do I know such things about the intrinsic nature and origins of the Indigo Children? I have no contemporary degree in human psychology or genetics, yet I do possess an intimate understanding of the Indigo Child. Such understanding is assisted by the fact that I am a *parent of 3 such Indigo Children*, but familiarity with the Indigo nature can be only *objectively perceived* through the experience of parenting them. Most parents of Indigos have more questions than answers regarding the nature of their beloved progeny. **My knowledge of Indigo Children comes through a more direct experience of the phenomenon – I was born as an Indigo Child (type-1 RE: later discussion) – and through many years of awakening to the truth of my personal reality and identity, I have come to know precisely what that means.**

In this presentation, I will share some of the *most hidden secrets* of the Indigos, and to do so effectively, I will provide an expanded paradigm of understanding, within which the truths of the Indigos can be more clearly perceived. **Comprehending the nature of the Indigo Children, and the nature of human existence itself, requires first and foremost the acknowledgement of a Multi-dimensional Reality structure;** a concept contemporary science has yet to validate within the mainstream view. In acknowledging the reality of *Multi-dimensionality*, the models of science, psychology, spirituality and history, to which we presently subscribe, begin to cry out for re-evaluation and re-interpretation. **What is presently known about the nature of consciousness, perception, biology, genetics and history is far less than that which is required to comprehend the intrinsic workings of the human evolutionary condition.** In this presentation, I will present a *reality model* that may be unfamiliar to many of you (unless you have participated in our previous 10 workshops!), a model that will challenge many of your previous ideas as to the mechanics by which reality functions. You may find yourself attempting to negate the model I present through the filters of your present beliefs. It is your prerogative to place value-judgment upon the ideas I will present but to do so prematurely may prevent you from acquiring valuable knowledge. **To benefit most from the information I will share, it is recommended that you simply consider the perspectives being offered, suspending all preconceived judgments until after you have explored the details of this more expansive reality model.**

The **details** of the paradigm, within which the Indigo phenomenon can be understood, include *advanced scientific perspectives* regarding ultra-micro-particle physics, scalar-grid mechanics, templates of 15-dimensional structure and their corresponding 15-dimensions of human anatomy, as well as the intrinsic design of the human DNA and its intimate relationship to consciousness. This paradigm also includes explanations of the tangible structure of the Soul and higher dimensional attributes of identity, and an expansive picture of human evolution that threatens to turn upside-down, the *limited portions* of ideologies endorsed by traditional scientific, psychological, religious and historical models. This paradigm of reality

interpretation involves far more than any paradigm presently understood within the mainstream view. One day, traditional models will expand into the new frontiers of Multi-dimensionality but we can no longer wait for our mainstream paradigms to expand enough to encompass the realities of our present evolutionary expansion. **The Indigos are here now and they bring with them the implied message of our race evolutionary acceleration.** If we want to understand what is taking place, we need to allow our *paradigms of belief and reality interpretation* to evolve.

The focus of this presentation is **Indigo Children** and so I will cover only the portions of the general paradigm, of which I speak, as they apply directly to comprehending the Indigo reality. For people interested in further exploring the details of the Bio-Spiritual paradigm, DVD recordings of all workshops can be found on the Azurite Press product list. **Exploration of Indigo Children first requires a review of the general structure of multi-dimensional reality and the hidden dynamics of the human gene code, as they are understood within the *Bio-Spiritual paradigm*.** Once this framework of expanded paradigm is erected, we can then explore the more unusual qualities of Indigo Children, the reasons behind their accelerated development and the implications of the Indigo phenomenon within contemporary society.

SECTION ONE:

DIMENSIONS, DNA HISTORY AND HERITAGE

Dimensional Structure – To understand Indigos we must understand Dimensional Structure

Dimensions are interwoven layers of **scalar waves** that serve to direct the flow of consciousness/ energy into multiple patterns of refraction through which the hologram of matter density, linear time and manifest objectification of reality can be experienced. Dimensions exist in **precise relationship to each other**, creating a **90-degree difference in Angular Rotation of Particle Spin** between dimensional bands.

Scalar Waves are points of **Standing Waves**, composed of quantities of consciousness, that emanate out of **fixed points of vibration**, which form **ultra-micro-particle units** called **Partiki, Partika** and **Particum**. Scalar Waves exist within a **fixed Scalar Field** that forms the **Universal Unified Field** of consciousness/energy. Fixed scalar waves **appear to move** due to a perpetual action of **internal fission and fusion**, through which **series of scalar standing waves points “flash on and off”**, creating perpetual rhythms of motion called **“flash-line sequences”**, through which continual **manifestation and de-manifestation of matter** occurs.

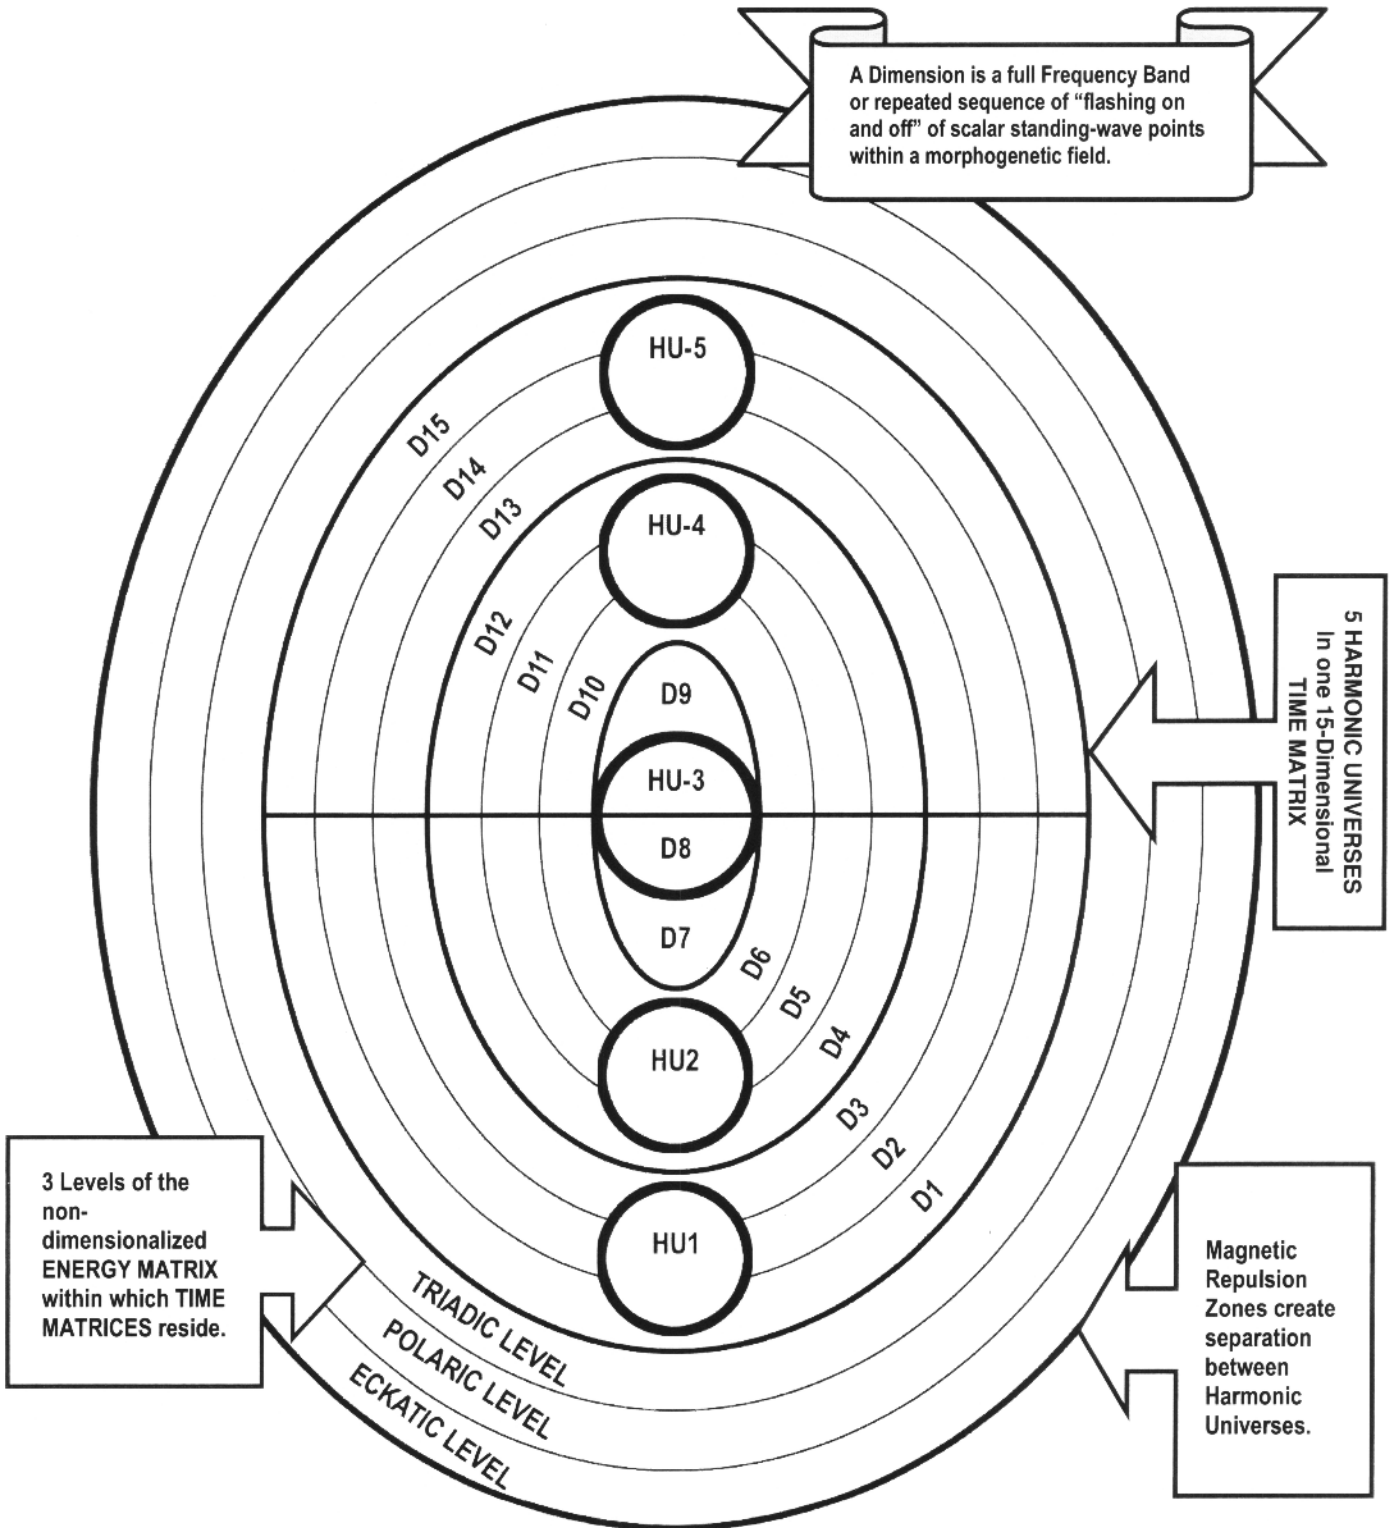

Cyclic, repeating patterns of flash-line sequences form **Frequency Bands**. A **Dimension** is **one full Frequency Band**/repeating pattern of flash-line sequences, composed of interwoven layers of fixed scalar waves. **Scalar Wave Frequency** is the form consciousness/energy takes within dimensionalization, and represents the vibrating-oscillating wave spectra of which matter particles and dimensionalized consciousness are composed. **Universal Structure** and all matter forms **manifest upon Scalar-Wave Blueprints** or **Templates of Consciousness** called **Morphogenetic Fields**.

The Morphogenetic Structure or **Template** of our **Universal Time Matrix** is composed of **15 Dimensions/Frequency Bands** that are separated into groups of **3 dimensions** each. Each group of 3 dimensions forms 1 **Harmonic Universe**. There are **5 Harmonic Universes** within our Time Matrix, each representing a **stage of matter-density manifestation**.

One 15-Dimensional Time Matrix with 5 Harmonic Universes

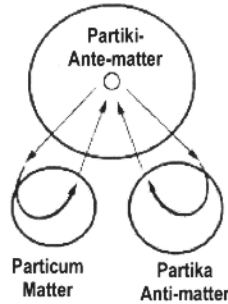

A Dimension is a full Frequency Band or repeated sequence of "flashing on and off" of scalar standing-wave points within a morphogenetic field.

Partiki Phasing, Harmonics of Manifestation and Matter Density

1. Partiki, Partika and Particum:

Smallest units of energy-substance. Electro-tonal units of consciousness that are the building blocks of morphogenetic fields, matter and individuated conscious identity. Operate as minute, perpetual motion fission/fusion generators.

1. Partiki Phasing – expansion/ fission/ “flash on” and contraction/ fusion/ “flash off” of scalar points governs the manifestation process

2.

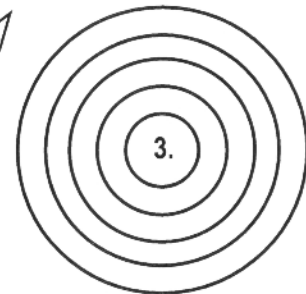

Dimensions #	Harmonic Universe #	Density Type
1-2-3	HU-1	Carbon based biology physical matter – 1
4-5-6	HU-2	Carbon-Silica based biology physical matter – 2
7-8-9	HU-3	Silica based biology Etheric matter
10-11-12	HU-4	Crystalline Liquid-Light based biology Pre-Matter
13-14-15	HU-5	Standing Wave pattern flame or fire body ANTE-Matter

2. Density/Biology: Progression of Matter Density and related Biology within the 15 – Dimensional Scale.

3. Harmonics of Manifestation:

Progressive expansion of consciousness into the Dimensional Scale creates progressive perceptual De-manifestation of matter Density within the Hologram of external reality. Harmonics of Manifestation are the stages of Matter Density and Vibration-Oscillation Consciousness perceives and passes through within the Dimensional Scale.

5 Harmonics of Manifestation in one 15-Dimensional Time Matrix

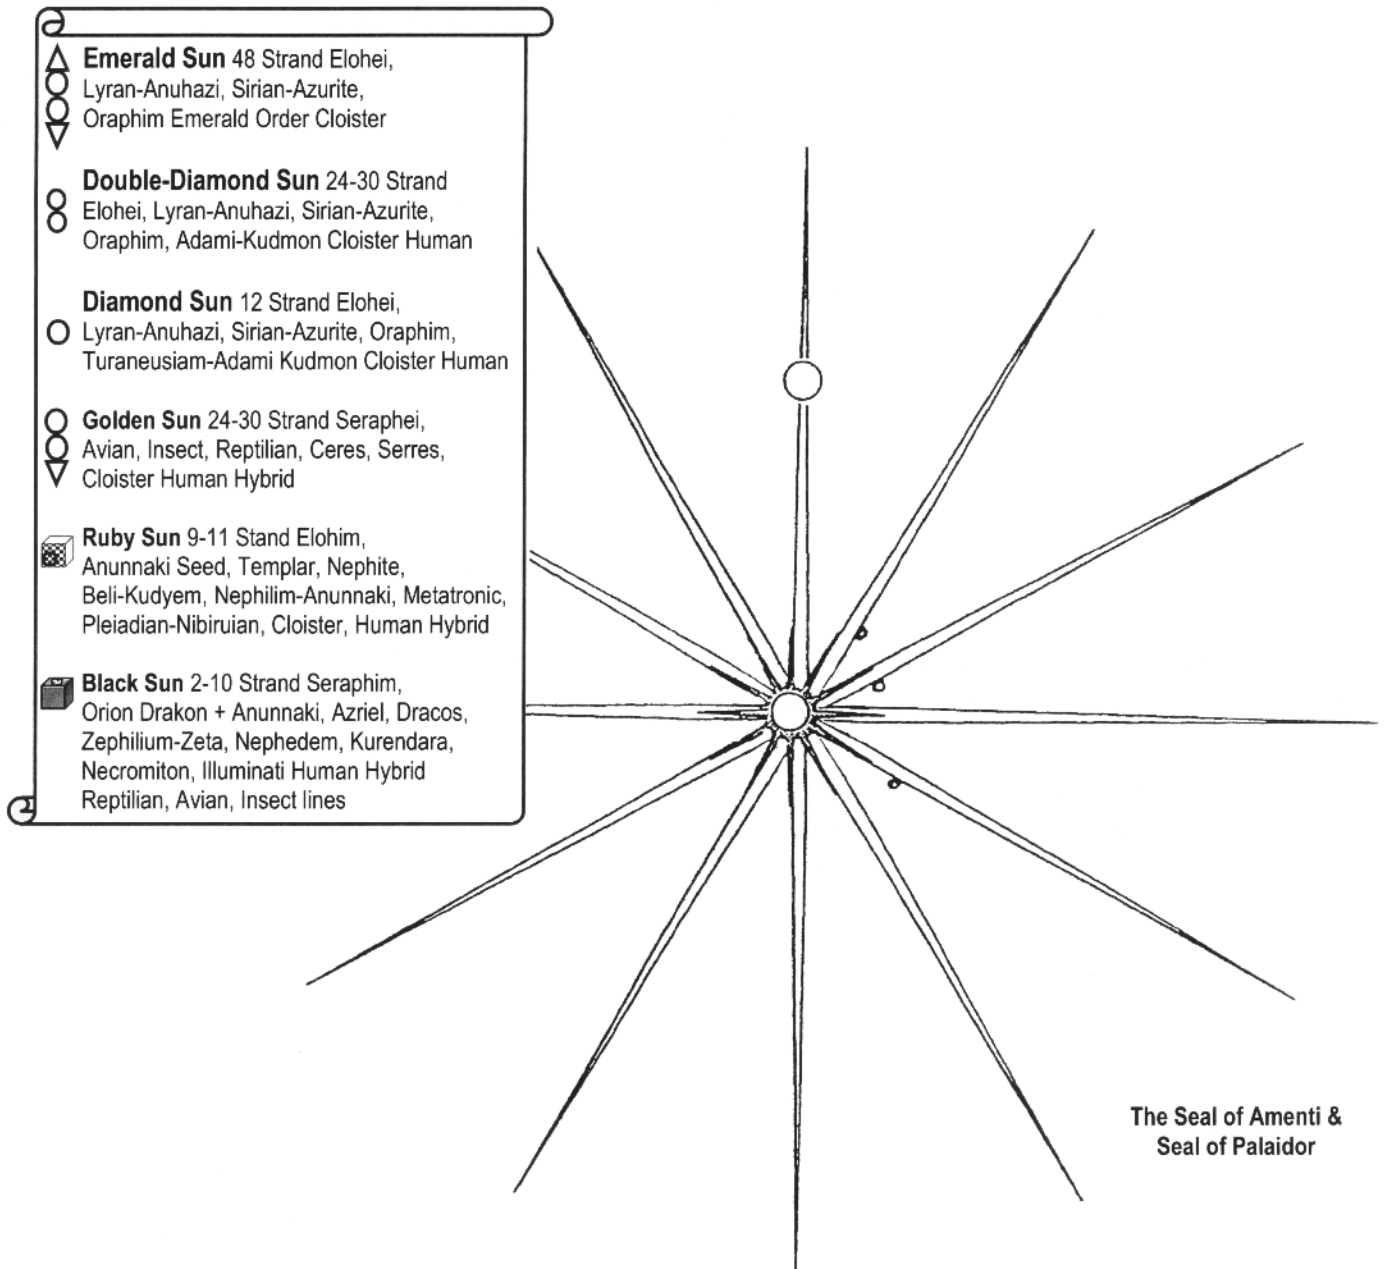

DNA – To understand how Indigos differ from the norm, we must understand the structure and function of DNA.

- ★ Contemporary Science has not yet identified *Morphogenetic Field Structure* and so knows little of the true function and structure of the **DNA**. The identifiable **DNA Double Helix** represents only a portion of the human DNA imprint. DNA begins within the **scalar-wave/frequency structure** of the human morphogenetic field and holds the core dimensionalized scalar/frequency patterns, upon which **4 Harmonics** of matter density of human form and consciousness manifest.
- ★ The scalar-wave programs, held within the DNA imprint, which create diversity of form, are called **Fire Letters**. The DNA Template is composed of specific arrangements of Fire Letters/scalar programs that govern the manifestation of dimensionalized matter, biology and consciousness.
- ★ Biology (matter) and Consciousness (spirit) are intimately intertwined and are composed of the same *substance- consciousness, in the form of **Scalar Frequency***. Matter solidity of body and external reality is perceived due to multi-dimensional, geometrical interrelationships between *Fire Letter programs* in dimensionalized levels of consciousness.
- ★ Growth and evolution of body/genetic and consciousness/spirit occur simultaneously. Growth occurs through **Frequency Accretion**, as frequency from the Dimensional Unified Fields is drawn into the personal morphogenetic field through the **DNA imprint**, progressively expanding the scalar Template and the matter and consciousness forms built upon it.
- ★ The **Fire Letter sequences** of each DNA strand correspond to those of each dimensional band. The DNA imprint determines the amount of consciousness/energy a biological form can hold. The **original human DNA** was designed to hold **12 dimensions of consciousness** and allowed for evolution of biology through **4 Harmonics of matter density**. The **12-strand DNA** pattern is the **Silicate Matrix**, as it allows for **transmutation** from Carbon-based Gross Matter Biology into Silica-based Etheric and pre-matter Liquid Light Biology. This is the **Diamond Sun DNA Matrix**. Presently, all but 3 DNA strands are dormant. Each **DNA Strand** represents a **Fire Letter/ scalar-wave program sequence**, corresponding to *1 Dimensional Frequency Band of consciousness/ energy*.

Each DNA Strand represents a *Fire Letter/scalar-wave program sequence* corresponding to 1 Dimensional Frequency Band of consciousness/energy.

History – If we are to understand the importance of the Indigo identity we must reclaim the Lost History of our lineage in Otherworlds.

The ***Multidimensional Reality Model*** helps us to understand that our planet and universe represent one ***Harmonic of matter density*** and this implies the existence of *other universes*, within other Dimensions and Harmonics of matter. Ancient records and mythologies intimate interaction with ***Visitors*** from ***Otherworlds***. Within the Multi-dimensional Model the ***Angels*** of old and contemporary ***ETs*** fall into the same category of ***interdimensional contact***. To understand the identity of ***Indigos*** we must understand our own inter-dimensional/inter-stellar heritage. We will discover that humanity itself emerged from Otherworld systems in higher dimensional Harmonics of matter.

Our race – the ***Turaneusiam*** – was created *560 million years ago* in ***Harmonic Universe 2*** (dimensions 4-6), a Semi-etheric physical matter system. We were seeded on Earth 3 times by our Elder Race. Our ***evolutionary blueprint*** was that of the 12-Strand ***Diamond Sun DNA Matrix*** and our ***long-term evolutionary goal*** on Earth was to *assemble and activate* the Diamond Sun Matrix for progressive ***transmutational ascension*** within an ***eternal body***. The ***Turaneusiam-Human Race*** was seeded on Earth in the form of the ***“12 Tribes” – 7 Root Races*** and ***5 Cloister Races***, each ***Root Race*** cycle evolved 1 Diamond Sun DNA strand, each ***Cloister Race*** kept the potentials of strands 7-12 alive within the gene pool. Present humanity is the ***5th Aryan Root Race***, which evolved out of the ***Hibiru Cloister***.

Our race has experienced ***excessive genetic digression*** through ancient tampering by Visitors from Otherworlds. The contemporary ***Indigo Children are hybrids*** of the ***Elder Race*** + 7th Root Race & Melchizedek and Yunaseti Cloister + Modern Human. ***Indigos*** are part of a modern-day ***hybridization experiment*** to reverse-mutate the human gene code and restore the ***Diamond Sun DNA Matrix*** potential within the Earth human lineage. This plan is being ***actively orchestrated*** by members of the ***Elder Races of Higher Evolution*** who still reside in higher Harmonics of matter. Indigos are ***ET future race hybrids***, but *more fully human* than we are.

Indigo Children are Extraterrestrial-Future Race-Human-Hybrids,
Yet they are more fully human than we are!

The Indigo DNA Imprint is that of the Elder Human Race + 7th Root Race, Melchizedek & Yunaseti Cloister + Human

Heritage – To appreciate Indigos we must remember our Heritage

The contemporary human lineage began 560 million years ago with the Turaneusiam race of Tara in HU-2 (dimensions 4-6). Other Stellar Races existed for many billions of years before the Turaneusiam experiment began. The Turaneusiam lineage was created to *allow a new evolutionary option* for ancient Stellar Races who had experienced genetic (Fire Letter/scalar-wave) digression and could no longer complete Transmutative ascension out of the Time Matrix.

Hominid life in our Time Matrix began in Pre-matter systems of the HU-4 Lyran Star System – the **Cradle of Lyra**. Life was seeded into this Time Matrix by one primary *Ultra-terrestrial Consciousness Collective* called the **Melchizedek** family. The interstellar/inter-dimensional drama began with the **Elohei** and **Seraphei** Melchizedek Avatar Collectives in HU-4. Many races of both families suffered Fire Letter/genetic digression. One part of the Ultra-terrestrial **Elohei** family was commissioned to keep the proper Ascension/Fire Letter/genetic sequences alive for all of the races in the Time Matrix. This group was called the **Emerald Order of the Azurite Council**.

The **Emerald Order Elohei** seeded the Etheric matter **Anuhazi** race in HU-3 Lyra, which later fled to the Sirius system. The **Lyran-Sirian Anuhazi** (“Sirian Whites”) seeded the **Azurite** race (“Sirian Blues”) in the HU-2 Sirius System. In seeding the Turaneusiam-human on Tara, many eons later, the **Lyran-Sirian Emerald Order Anuhazi and Azurite genetic imprint** was used as the **Seed** for the new **Turaneusiam** race. Genetic/Fire Letter coding from the **12 interstellar seed races** was combined with the **Elohei-Anuhazi-Azurite** imprint, creating a hominid form with **48 DNA strands**/Fire Letter sequences – the **Emerald Sun DNA Matrix** of the **Emerald Order Oraphim**. From these came a smaller version carrying **24 DNA strands** – the **Double-Diamond DNA Matrix** of the **Oraphim**. The **Oraphim-Lyra-Sirian-Turaneusiam** became the **Templar Solar Initiates** of Tara – the **Elder Race** of the **Turaneusiam 12-strand Diamond Sun DNA Matrix**. **Indigo Children** are **incarnate members** of the **Oraphim Elder Race** in hybrid **ET Elder Race-Cloister Human** form.

Incarnational Heritage – Indigo incarnation differs from usual contemporary incarnational process, giving Indigos a different genetic signature.

We are in the **5th Aryan Root Race Cycle** with **3rd – 4th Strand DNA** activation levels as the dominant genetic orientation. Most spirits incarnating in our present time are those focused in the 4th Dimensional **Astral Plane**. Most incoming spirits are those of people who **more recently left incarnation** on earth, who have not yet accreted the higher dimensional aspects of their consciousness into their morphogenetic field. **Indigos incarnate from higher dimensions**, and they represent embodiments of spirits who once inhabited the **Elder Races** of ancient times and those who usually inhabit the higher dimensional reality fields that represent “future time” in relation to our time cycle vibration. (*Time is simultaneous*. True time represents cycles of repeating vibrational deceleration/acceleration – expansion/contraction of scalar fields, into which consciousness focuses to experience linear continuum progression).

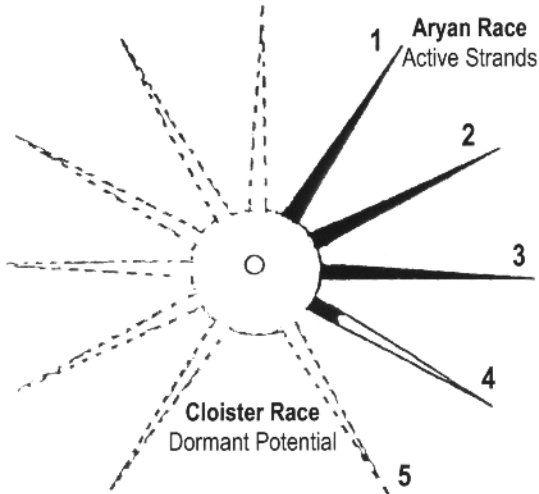

To incarnate, Oraphim spirits locate parents who possess higher concentrations of the **Diamond Sun DNA Matrix**. Once potential parents are found, agreements are made with the higher dimensional portions of the parent’s identities – **Soul Agreements**. All spirits arrive in incarnation through such pre-arranged Soul Agreements, but **Indigo Birthing Contracts** are orchestrated from the **Avatar** and **Rishi** levels of identity (HU-4 and HU-5), rather than from the usual Soul level (HU-2). These special agreements are called **Palaidorian Birthing Contracts**. In Palaidorian Contracts, the higher dimensional aspects of the parent’s identity agree to allow their incarnate **genetic code** to be **accelerated and enhanced** to accommodate an Indigo birth. The parent’s DNA activation level must be enhanced to create a **fetal body** with a high enough Fire Letter/scalar wave content (genetic code) to house a higher frequency Indigo consciousness.

Once an Oraphim spirit has found the needed parental genetic code and conception occurs, the Oraphim spirit begins to step-down the frequencies of its consciousness into the *vibrational range* of the fetal pattern. Upon Fetal Integration, the Oraphim spirit activates the **5th and 6th DNA strands**, a genetic attribute of the **future race** Melchizedek and Yunaseti Cloisters. Unlike most contemporary humans, **Indigos are born with 5th – 6th DNA strand activation**, which allows them to retain a more open connection between their earth identity and their **Soul Matrix**.

Birth Imprint of the Indigo DNA

Due to their DNA, Indigos can embody 6 dimensions of consciousness and complete Soul Integration by age 12. By 33 they can activate 12 DNA strands.

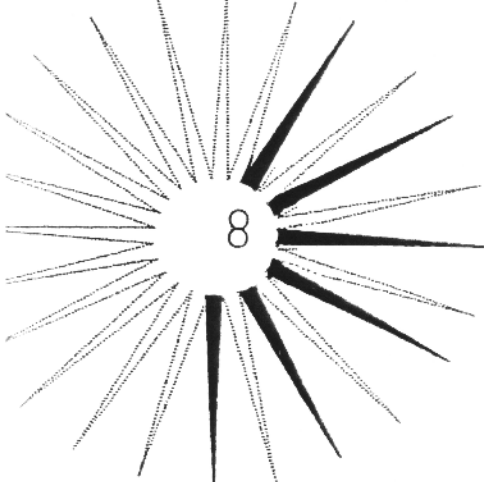

Contemporary **Aryan humans** are born with imprints for DNA 1-4. Cloisters have these + strands 5 & 7-12. Few have the 6th strand that allows 7-12 activation. Highest Human genetic capacity is **12-strand DNA**, the Diamond Sun Matrix.

CONTEMPORARY HUMAN DNA

We are in the **5th Aryan Root Race** evolutionary cycle in which the **4th DNA strand** begins activation. Aryan humans are born with the imprint for DNA strands **1-4** with varying degrees of **3rd strand activation**. Through the course of a life-time, the **4th strand** begins activation, through the process of **frequency accretion** (drawing consciousness, in the form of frequency, into the personal morphogenetic field via the DNA). Humans with **Cloister Race** genetic lines are born with portions of the imprint for DNA strands **7-12** and may have partial activation of strand **4** at birth.

Oraphim 24-strand
Double-Diamond Sun Matrix - **Emerald Order Oraphim**
have **Emerald Sun Matrix 48-strand potential**

Indigos are born with **24-48 strand DNA capacity**, the form of the **Lyran-Anuhazi + Sirian-Azurite Elder Race Oraphim** – out of which the Original Turaneusiam-human lineage emerged in HU-2. Indigos are **6th strand active** at 12 and have the genetic potential for shape-shifting, cellular transmutation, ascension and inter-time teleportation by age 33, IF the gene code activates properly.

INDIGO CHILDREN DNA

Indigos are born with the dormant **Lyran-Sirian Elder Race Human Oraphim** imprint of **24 to 48 strands of DNA**. During **Fetal Integration** the Oraphim spirit activates the **5th and 6th DNA strands** to retain open connection between its embodied consciousness and Soul Matrix (dimensions 4-6). This genetic configuration is characteristic of the **future-race Melchizedek and Yunaseti Cloister** evolutionary cycles. From **birth – 12** the Indigos rapidly activate strand **4**, by 12, strands **5-6** become operational in the DNA and **6 dimensions** of consciousness embody – **Soul Integration**.

Identity Heritage – The 15-Dimensional Structure of Identity and DNA

Dimensions are **fixed scalar-wave grids** that hold *consciousness* – in the form of **Partiki Units** – into *specific geometrical arrangements*. Each dimension contains a core set of “**Fire Letters**” or *geometrical scalar-wave programs* that represent the particular geometrical arrangement of Partiki Units for that dimension. **DNA** represents a *program of interwoven scalar-wave grids* composed of combinations of the **Fire Letters** that form the dimensional *Unified Fields*. Diversity of Fire Letter arrangement provides diversity of scalar-wave templates and DNA, which creates variety in manifest form. For any manifest form, **each dimension and DNA strand represents a portion of the whole consciousness and holds a portion of the personal identity**. (Fire Letter Sequences of both parents are added to those of the incarnating soul)

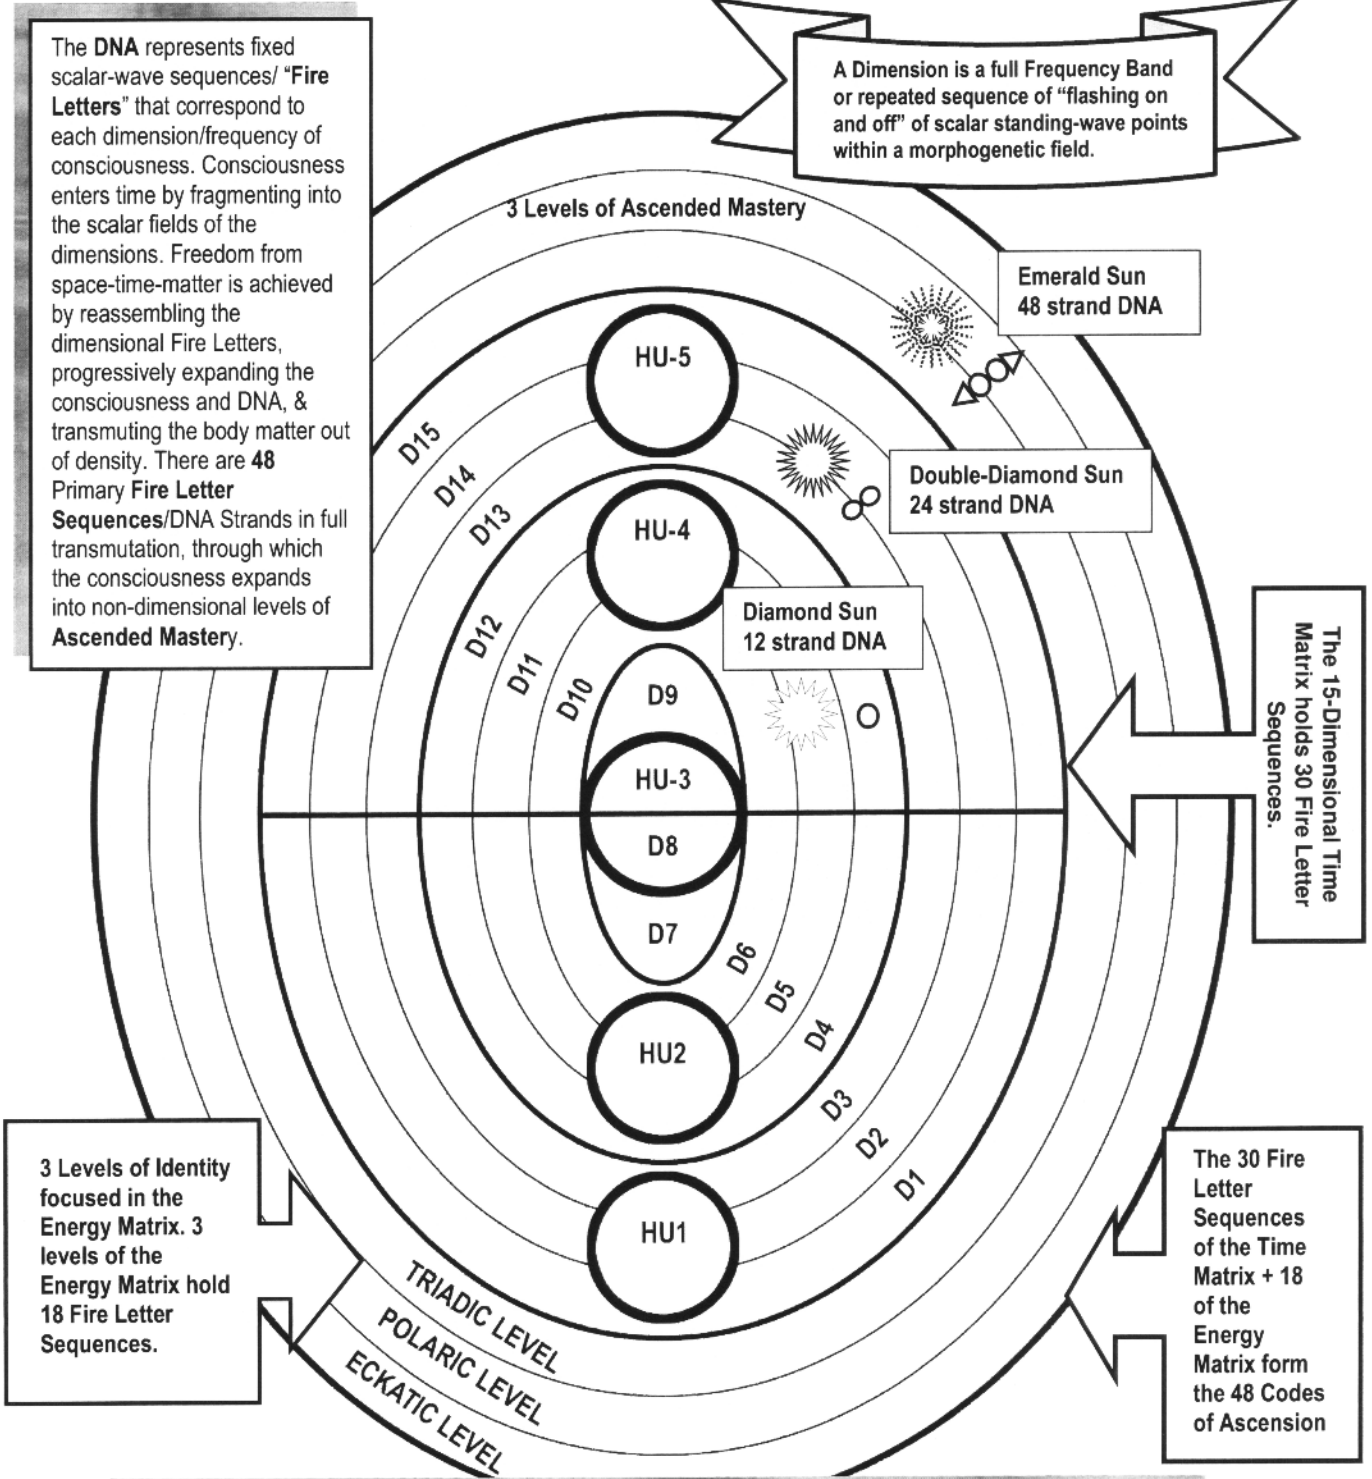

Every Being has a **15-Dimensional Structure of Identity**. The imprint and activation level of the DNA/Fire Letter program in its template determines how much of the identity can fully embody within and become accessible to, the portion of identity focused in the body. The true process of Bio-Spiritual evolution occurs as the embodied identity progressively draws in more frequency/consciousness from the dimensional Unified Fields until it reassembles the entire Fire Letter/scalar-wave pattern of the Unified Field into its personal morphogenetic field and DNA. Biological forms, built upon the **pure geometrical arrangements** of the dimensional Unified Fields, have the ability to **transmute** through 5 Harmonics of matter density back into pure sentient consciousness. This progressively reunites the dimensionalized aspects of consciousness back into the original whole.

The Turaneusiam-**Human** Diamond Sun DNA is built on 12-dimensional Fire Letter Sequences and can embody 12-dimensions of consciousness – the **Avatar** identity. The **Oraphim** Double-Diamond Sun DNA is built on **12-15** dimensional Fire Letter Sequences AND their **Reverse** Sequence – **24-30** Fire Letter Sequences – the **Rishi** Identity. The **Emerald Sun DNA** contains the **30** sequences from the **Time Matrix**, plus the **9 Fire Letter Sequences** and their **reverse-18** Sequences, from the **Energy Matrix** – for a total of **48** Fire Letter Sequences, which allows expansion into the **Eckatic** level of Ascended Mastery Identity. **Indigo children** are born with the genetic potential for **Avatar embodiment** and expansion into **Ascended Mastery** levels of identity. For most earth incarnates this takes many cycles of life times to accomplish.

15-Dimensional Levels of Identity, DNA and Indigo Children

The DNA represents fixed scalar-wave sequences/ "Fire Letters" that correspond to each dimension/frequency of consciousness. Consciousness enters time by fragmenting into the scalar fields of the dimensions. Freedom from space-time-matter is achieved by reassembling the dimensional Fire Letters, progressively expanding the consciousness and DNA, & transmuting the body matter out of density. There are 48 Primary Fire Letter Sequences/DNA Strands in full transmutation, through which the consciousness expands into non-dimensional levels of Ascended Mastery.

A Dimension is a full Frequency Band or repeated sequence of "flashing on and off" of scalar standing-wave points within a morphogenetic field.

3 Levels of Identity focused in the Energy Matrix. 3 levels of the Energy Matrix hold 18 Fire Letter Sequences.

The 30 Fire Letter Sequences of the Time Matrix + 18 of the Energy Matrix form the 48 Codes of Ascension

The *Oraphim* genetic imprint of the Indigo Children allow more rapid re-assembly of the 48 DNA Fire Letters/ scalar-wave grids, creating the potential to embody the Avatar identity and open the consciousness to Ascended Master Identity Levels. Indigo Children are Avatars and Ascended Masters waiting to awaken.

Indigo Heritage – Indigo Children need Bio-energetic Field Assistance to reach their true potentials and to prevent the DNA from going into “Self Destruct”.

When the Diamond Sun 12-strand Human DNA code was working properly, there were **specific ages** at which the process of *strand activation* and *higher identity* embodiment took place. By the time a child reached **age 12**, the **4th** DNA strand began activation and the **Soul Integration** processes commenced. By age **44** the human had **12th** strand activation, was an embodied **Avatar** and had the ability to transmute out of matter density at will. Presently, **mutations** in the Human DNA – distortions in the *Fire Letter Sequences* – prevent strand 4 from completing activation, which creates unintended **bio-chemical imbalance** and a restructuring of **hormonal function** that results in lowering the body frequency and progressive deterioration of the body, leading to death. Blockage of the natural Soul Integration process at age 12 through 22 also creates the **erratic hormonal changes** that can result in **emotional upheaval** during the teen years.

The **Oraphim/Indigo Child** genetic imprint commences the **Soul Integration** process and activation of DNA strand-4 **from birth** through 12, rather than initiating this process at age **12**. In the **Fetal Integration** process, an incoming spirit brings the Fire Letter/scalar-wave patterns of its own consciousness into the fetal tissue, which *already contains* portions of the **Fire Letter/DNA** program from **both parents**. As contemporary humanity carries many **DNA mutations/** Fire Letter distortions, these distortions are replicated in the morphogenetic field and genetic code of the **fetal body** and the incoming spirit inherits DNA/Fire Letter distortion from the parents. The DNA/Fire Letter distortions that cause contemporary humans chemical imbalance and hormonal malfunction at the onset of **4th** strand activation at puberty occur in **Indigo Children** from **birth to 12**, creating *excessive buildup of frequency* within the DNA and Bio-energetic Field. These excessive dis-harmonic scalar-waves in the DNA translate into further bio-chemical/hormonal imbalances and amplification of the original DNA/ Fire Letter distortions.

Symptom Suppression Therapy of Indigo Children amplifies DNA/Fire Letter distortion resulting in accelerated deterioration of the body/mind system. For Indigos to reach their true potentials they need **bio-field work** to correct the DNA/ Fire Letter Sequences. The fastest method is Maharic Recoding (Kathara Healing)

Shields, Signets and the Kathara Grid

Hova Bodies are spherical scalar wave grids that form tissue capsules between each 3-Dimensional Harmonic of Manifestation. Signets are the core points of consolidated frequency that hold the programs for the Scalar grid SHIELDS upon which the Hova Bodies manifest.

When activated, each SHIELD forms a rotating disc of scalar waves that emanate out from the body on a horizontal plane.

SECTION ONE RECAP

We learned.....

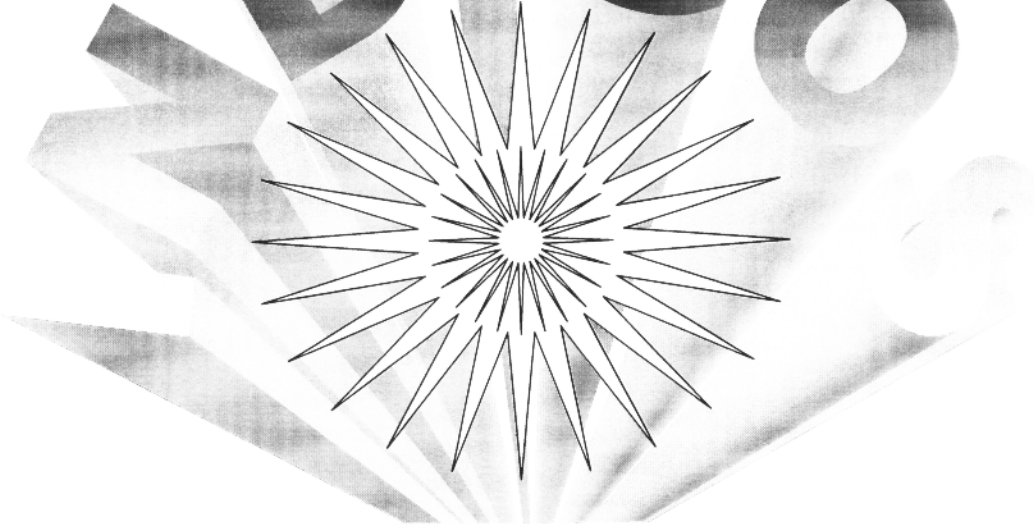

- ☀ the **15-Dimensional Structure** through which we can understand the function of **DNA** and **consciousness** and which provides a **rational framework** through which comprehension of our **history** and **heritage** can expand to include the realities of **Otherworlds** and the nature of **Stellar Visitors**.
- ☀ the core **function** and **intrinsic design** of **DNA** and its relationship to **growth, evolution, consciousness** and **Spiritual Actualization**.
- ☀ Some of our **Lost History** and the **Elohei-Anuhazi-Azurite-Oraphim-Turaneusiam Stellar Genetic Lines** from which **contemporary humanity** emerged.

☀ And we learned the following about **INDIGO CHILDREN**

- ☀ **Genetically** they are defined as an **ET-Human-Hybrid** race from the **future**. They qualify as **ET** because their genetic code is that of the Original **ORAPHIM** (Lyrans-Anuhazi+Sirian-Azurite+12 Stellar Lines), the **Seed Race** through which the Original Turaneusiam-Human lineage of **HU-2** was created.
- ☀ Indigos are ancient **Oraphim Elder Race Stellar Humans** incarnating now as part of a **contemporary human hybridization program** evolutionary experiment, through which the 12-Strand **Diamond Sun DNA** potential can be re-awakened within the Earth Human lineage. Indigo/ Oraphim carry the **Double-Diamond** and **Emerald Sun DNA Matrices** that allow for expression of **24-48** frequencies of consciousness and complete **Transmutative Ascension**. They have the potential to awaken as **fully embodied Avatars** with **Ascended Master consciousness** by age **33** if their DNA activates properly.
- ☀ Indigos are considered a "**future race**" because they enter **Fetal Integration** with the **5th** and **6th** DNA Strands activated, a characteristic of the **Melchizedek** and **Yunaseti Cloister** human lines that exist in the **future** time continua of **HU-2**. Indigos are born through **Palaidorian Birthing Contracts** - Rishi Agreements. They **inherit genetic distortion** from their **Earth parents** via the **Fetal Body** and need assistance in **reverse-mutating** the **parental DNA imprint** if they are to fulfill their potential. **Kathara Recoding** is the fastest way to **DNA reverse-mutation**.

SECTION TWO:

ALL ABOUT DIGO

Types of and Purpose for Indigo Children

- ★ There are 3 Primary Types of Indigo Children, each with a different version of the Oraphim genetic code and each serving a different purpose, within the present evolutionary experiment.
- ★ **Indigo Recessive Type-3** is the most common type of Indigo Child presently incarnate on Earth. Type-3 Indigos began birthing in very small numbers about 200 years ago. There are about **2,500,000 Indigo Recessives** incarnate now, many adult and of childbearing age, having **Palaidorian Birthing Contracts** to parent more **Type-3** Indigo Children in years to come. Another **15,000 Indigo Recessives** are scheduled to birth between 1999-2017.
- ★ **Indigo Dominant Type-2** is the next most common type of Indigo Child. Isolated numbers of Type-2 Indigos birthed **75-100 years ago**, most since the late **1950's**. There are about **500,000 Indigo Dominants** incarnate now and another **130,000** scheduled to birth between **1999** and **2005**.
- ★ **Indigo Composite Type-1** is the most uncommon type of Indigo. Most entered incarnation in the **1960's-1970's**. There are presently about **350 Type-1 Indigos** on Earth, with another **5,000** scheduled to birth between **2005-2017**.
- ★ **Between 1999-2017** another **150,000 Indigo Children** will incarnate on Earth as part of a Planetary Protection agreement. The Birth Wave of the Indigo Children represents the **Return of the Emerald Order**. The Ancient **Elder Race Oraphim** return to Earth to fulfill the **Emerald Covenant**, an agreement made **248,000 years ago** that promised Earth humans assistance in re-evolving to the 12-Strand **Diamond Sun DNA Matrix**.
- ★ The contemporary "**UFO Movement**" with "**Contactees**", claiming to be **abducted by aliens**, is part of the **hybridization** agendas taking place at this time. **Elder Race Humans** visit from future time to assist in fulfilling the **Emerald Covenant** and our ancient **Intruder Visitors** have returned to attempt to **hijack our evolution** into unintended **hybridization programs** that violate the **Emerald Covenant**.

Indigo Recessive Type-3

- ★ Type-3 Indigos are part of an ***Oraphim-Nephilim hybridization program*** through which ancient ***Nephilim*** (Anunnaki + Cloister Human from Seeing-2) are provided with a ***new race line*** to evolve within, in order to clear Fire Letter/DNA distortions so their ***Codes of Ascension*** can be regained.
- ★ Type-3 Indigos have an ***Oraphim 24-Strand Double-Diamond + 11-strand Reverse Templar Sun DNA Matrix*** which gives them a maximum potential of the ***12-Strand Diamond Sun DNA Matrix***.
- ★ Type-3 Indigos are ***literal*** incarnations of ***2 different avatars in one body***, an ***Oraphim*** avatar overseeing a ***Nephilim*** avatar spirit essence. The core of their life purpose is to mend the ***extremes of polarity*** between the reversed 11-Strand DNA Matrix and the 12-Strand potential, but their lifetimes serve an important role in the greater plan of ***healing the DNA distortion*** within the ***Nephilim, Anunnaki*** and Human genetic lines.
- ★ Type-3 Indigo Recessives have the most ***extremes in polarity issues*** of all of the Indigos, are highly intelligent, mathematically inclined and athletic and may have difficulty with ***emotional bonding issues***. May seem like “***angel & devil***” in 1 body.

Indigo Recessives are unique in that the incarnation involves *more than one family line of consciousness*. Indigo Recessive spirits are *literal composites of two entirely different Avatars, incarnating into one body*. The **Oraphim Avatar** possesses the 24-Strand **Double – Diamond Sun DNA** and remains as the **dominant force** within the personality, if the gene code activates properly. The **second Avatar** spirit is that of an **11th-dimensional Nephilim**, the race of giant **Anunnaki-Cloister Humans** who were banned from Earth in the 2nd Seeding. The **gene code** of the **Nephilim** is that of the **11-Strand Reverse Templar Sun**. The Nephilim race has been trapped between HU-1 and D-11 manifestation cycles for many thousands of years due to **Fire Letter reversal** and **DNA distortion** from the **Anunnaki Lines**. The 24-Strand **Oraphim DNA** imprint is the only coding high enough to **retain its integrity when combined with the Nephilim Templar Sun DNA** and so, the **Type-3 Indigo Recessive** imprint has been created to allow **Nephilim** avatars, who desire, to evolve back into their **Ascension Codes** a **new race line** for evolution.

The incarnating Nephilim avatar must agree to function in **subservience to the Oraphim Avatar** until the Nephilim **regains the D-12 Fire Letters** that will allow them to connect with their **Rishi** collective, so they may evolve to experience the frequencies of **love, genuine bonding** with and **compassion** for other life forms. **Indigo Recessives** have the most **difficulty in balancing polarity** in consciousness, due to the **reversed Nephilim Fire Letters**. They are most vulnerable to **obsessive-compulsive behaviors, bi-polar disorders and extreme polarity in perspectives**. The **Nephilim** imprint tends to **activate first** in the Type-3, often creating an **aggressive, hyper-active child** that spends most of its early life **testing the extremes of the boundaries between right and wrong**, constantly challenging authority. **Just as a Type-3 may sometimes seem like the “Child from Hell”, it may do a complete turnaround into nearly Angelic, loving behavior. At times it may seem as if the Child has an “evil twin” that emerges, a dark side to the personality that is capable of extreme thoughtlessness and cruelty.** The **negative characteristics** of the Type-3 Indigo emerge as the **DNA imprint of the Nephilim activates** and shortly thereafter the **Oraphim** part of the identity attempts to clear the distorted DNA imprint by **counterbalancing** it with its **opposite Fire Letter sequence**, creating the more **extreme and rapid shifts of polarity within the behavior and attitude**. The **polarity extremes** in the

personality of a Type-3 often lead to **self-destructive behaviors and substance addiction** as the identity tries to **numb itself** from the near constant feeling of **internal conflict and apprehension**. If the **Nephilim** avatar identity attempts to **over-run** the identity, the **Oraphim** avatar will **assert its authority**, shutting down the communication facilities if necessary. Most cases of **autism** occur in **Type-3 Indigo Children**, as a result of the Oraphim avatar “unplugging” some of the Nephilim DNA codes to retain control over the body. In these cases the **conscious personality** usually feels “**stuck in the middle of an internal battle it cannot comprehend**” and experiences **great fear, dread, apprehension and depression and the chemical imbalances that result from this morphogenetic disharmony**. The Type-3 may also display the **opposite polarity qualities**, being an **excessively “good” baby and child** then having a reversal into the “dark side” during adolescence or adulthood. **Ideally the two avatars, that share the body and personality structure, work to balance the polarities in the DNA, the “light” side of the personality guiding the “dark side” into healing as the reversed Fire Letters of the Nephilim Code reorder and progressively connect to the Harmonious frequencies of the Oraphim Avatar and Rishi awareness. Usually Type-3 Indigos will not complete Soul Integration by age 12 or be able to activate their latent Oraphim physical ascension potentials.** The **core life purpose** of the Type-3 Indigo is for the Oraphim avatar to **progressively restore the Fire Letter Sequences in the Nephilim DNA and morphogenetic field**. Once this is accomplished through **re-assembly of the 12th DNA Strand** (which usually occurs **after bodily death**), the **Nephilim** avatar is re-connected to **its own Rishi** and the Oraphim Avatar withdraws its morphogenetic field, **disengaging the 2 identities**.

When dealing with Type-3 Indigos, it is best to realize that 2 different Beings are literally inhabiting one body, and that frequently they disagree. Tough love and clearly defined boundaries are often necessary with the Type-3, but must be administered with **fairness and democracy**. **Belief therapy and attitudinal healing toward Unity consciousness can facilitate healing and growth. Working directly with the Bio-energetic Field in Kathara recoding is the best way to assist Type-3 Indigo children, as there is usually too much distraction by internal emotional and perceptual conflict to allow true conscious understanding of what is taking place.** They are better off not consciously knowing they **house 2 separate Beings** and

function best when in ***calm environments without many distractions or unnecessary interactions with others.***

Due to the Nephilim imprint, Type-3 Indigos tend to be ***very gifted in math, languages and technological sciences*** and can be drawn to ***competitive endeavors***, especially those involving “***good vs. evil***” and related ***polarity dramas***. The ***softer side*** of the Type-3 can be ***very innocent and childlike*** at any age, with a ***quizzical desire to learn and especially to experience emotion involving bonding and its physical expression***; emotional bonding is a ***new experience for a Nephilim*** and the Type-3 may have difficulty with ***polarity extremes over bonding issues*** for life. Though Type-3 Indigos may seem as ***highly conflicted souls***, and sometimes die early, it is important to realize that ***their lives are not wasted; they have incarnated to assist in the creation of a new race line, through which an ancient race can re-evolve back into the light. They are doing a great service for both the Nephilim and the Human lineage, in terms of realigning Annunaki genetic distortions in both races.***

Usually the ***worst extremes*** of behavior take place ***at the beginning and ending of the life cycle***. These Indigos tend to have a ***stronger physical constitution than other Indigos*** and have ***strong athletic abilities***. If the ***Nephilim imprint is strong***, the ***physical body*** may grow to exhibit ***elongated proportions***, characteristic of the Nephilim physique, and the face often has distinctive, more ***chiseled boned-structure***, even if these traits are not within the parental genetic line. The ***Indigo Recessive*** has ***24-Strand Double-Diamond + 11-Strand Reverse Templar DNA Matrix***, which comes out to a ***12-Strand Turaneusiam potential*** when fully integrated. ***Like all Indigos, Type-3's often feel out of place, bored or disinterested in earthly affairs and can benefit from being acknowledged as Visitors from Elsewhere that “march to their own drummer”. That is precisely what the Indigos ARE.***

Indigo Dominant Type-2

Type-2 Indigos are part of the ***Oraphim-Human hybridization program***, through which the ***12-Strand Diamond Sun DNA Matrix*** is reinstated within the Earth Human genetic lines, in order to restore the ***Codes of Ascension*** to the Human lineage.

Type-2 Indigos have an ***Oraphim 24-Strand Double-Diamond DNA Matrix***, which gives them a maximum potential of ***24-30 Ascension Codes***, through which the ***Avatar*** identity may embody and the consciousness may expand into the ***Rishi*** identity level.

Type-2 Indigos are one ***Oraphim avatar*** in 1 body so they ***do not display extremes in polarity imbalance*** as is often displayed in Type-3 Indigo Recessives. The core of their life purpose is to ***assist in raising consciousness*** within the Earth Human lineage, to ***build critical mass*** of the ***Diamond Sun DNA Matrix***, within the Human gene pool and to assist Type-1 Indigo Composites in ***holding and running higher dimensional frequency*** for ***planetary grid work***.

Type-2 Indigo Dominants have advanced ***psychic development*** and may have ***open interdimensional contact*** from birth throughout life. They are gifted in linguistic translation, the arts, music and interpersonal diplomacy, but may become ***excessively introverted*** due to fear of the earth environment. Type-2's are the ***most personable*** of the 3 Indigos and enjoy human bonding if sheltered.

Indigo Composite Type-1

- ★ Type-1 Indigos are part of the ***Oraphim-Human hybridization program***, serving to ***accelerate and expedite***, reaching ***critical mass*** of the ***Diamond Sun DNA Matrix*** within the race gene pool, before 2012.
- ★ Type-1 Indigos have an ***Emerald Order Oraphim 48-Strand Emerald Sun DNA Matrix***, which gives them the maximum potential for ***30-48 Ascension Codes***, through which the ***Avatar*** identity may embody and the consciousness may expand into the ***Ascended Masters*** identity levels.
- ★ Type-1 Indigos ***always*** incarnate through ***WALK-IN agreements***, whereby a smaller Soul essence, from their *own Over-Soul collective*, begins the incarnation to raise the frequency of the body and once the ***DNA*** is sufficiently activated, the original Soul “*walks out*” into Ascension and the ***Avatar*** identity ***walks-in*** (transfers the spirit essence into the body) to awaken within the body and fulfill its world service contract. The walk-in usually occurs at age ***12*** or ***22*** and ***must occur*** by the age of ***33***.
- ★ Type-1 Indigos have ***advanced psychic*** and occasionally ***direct manifestation*** abilities, usually have ***physical contact*** with their Elder Race family in childhood and have a core life purpose to fulfill ***advanced planetary grid work*** contracts. They are sensitive to everything and often remain detached from human issues to focus on their service contract. They hold great love within for all life forms.
