DIAMOND RINGS FOR MEN

Men prefer heavy rings because they are so mannish in appearance. These rings are especially desirable for this reason. The diamonds and other gems used are of excellent quality.

The smaller rings are often worn by women as little finger rings.

Your diamond can be set in any of these rings. Write us for further information.

Our ability to modernize old jewelry is unexcelled and because of our splendid facilities and expert craftsmen we are able to produce beautiful results at surprisingly moderate costs.

Send your discarded pieces to us—we will advise you what can be done with them, submitting designs and estimates without obligation.

**MODERNIZE  
YOUR OLD WEDDING RING**

**F**ASHION decrees narrow wedding rings. It is therefore most fitting to have your old wide gold band remodeled into a ring of latest style. The actual metal of the old ring is used, so the cherished sentiment is retained. The ring may be overlaid with platinum and set with diamonds if desired. A few examples of the most popular styles are illustrated here. Other styles illustrated on page 20. Estimate for other widths submitted upon request.

**OLD-FASHIONED RING**

Here is the old, cumbersome wedding ring, the style that Mother wore years ago. However, she need not be old-fashioned any longer, as modern facilities enable us to remodel her ring into one of the narrower widths as shown in opposite illustrations. These styles are most desirable and attractive, appealing to the feminine taste.

**MEN'S STONE RINGS**  
Appropriate as Betrothal Rings

In the olden days it was quite the custom to use a stone ring as a man's engagement ring. This beautiful custom has been revived by fashionable people.

The ring may be set with his birthstone or the stone signifying the month of the engagement, and engraved with the initials and date of the occasion.

All stones are genuine except where mentioned as doublets, mascot emeralds, synthetic sapphires and reconstructed rubies. Prices for other birthstones submitted upon request.

Illustrations are actual size.

**SIGNET RINGS**

Engraving of monograms like illustrations Nos. 7913, 7929 and 7931, is done without charge. Monograms like Nos. 7927 and 7933, better known as the Heath monogram, are engraved in relief and designed to conform with the shape of the ring. The extra charge for this monogram is \$5.00.

Illustration No. 7923, ring with engraved crest, can also be engraved reversed for sealing purposes. Estimates furnished upon request.

Japanese signet rings Nos. 7955 to 7961 can be furnished with raised gold Japanese initials as shown in illustration No. 7958 at the following cost: two initials, \$2.00; three initials, \$2.50.

Richelieu pearls are guaranteed not to peel, break or discolor. They are not affected by water or perspiration; and in fact these pearls are indestructible.

Should you admire a different clasp than the one which we quote with necklace, we will make full allowance for the clasp that is not used.

Only a few of the stone necklaces are illustrated, although we have many others in stock. We will be glad to have you write us if you desire something different than shown.
