We
Cut
Our
Diamonds

We
Cut
Our
Diamonds

We cut the diamonds we offer (Cutting Works, 1327-1329 Atlantic Ave., Brooklyn), so when buying of us you pay but one modest profit over the actual first cost of the rough, plus the wages of the polishers you see at work in the illustration above.

We have no traveling salesmen. Uncle Sam is our only drummer, and he charges us nothing but postage.

2 MAIDEN LANE, Corner of 170 Broadway - - - NEW YORK

The bride is as proud of her wedding ring as of her wedding dress. Our wedding rings are the standard for quality, shape, price and everything that is right and proper relating to rings.

When she is married, it is up to you to see the bride gets the best wedding ring made—one of our make.

J. R. WOOD & SONS

Wedding Ring Makers

2 Maiden Lane, Corner of 170 Broadway, New York

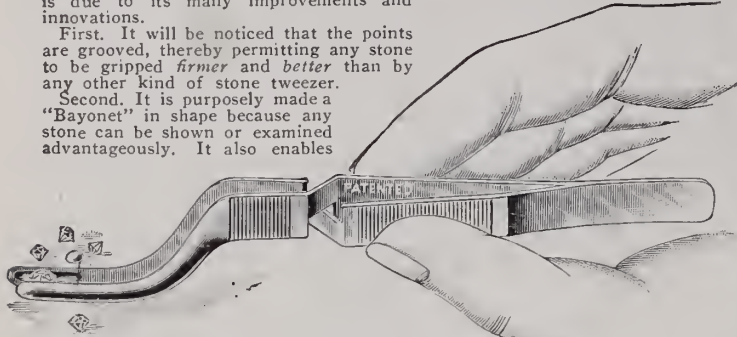

Engelsman's Patent "Bayonet" Automatic Locking Stone Tweezer No. 119

The acknowledged superiority of this tweezer over any other of its kind is due to its many improvements and innovations.

First. It will be noticed that the points are grooved, thereby permitting any stone to be gripped *firmer* and *better* than by any other kind of stone tweezer.

Second. It is purposely made a "Bayonet" in shape because any stone can be shown or examined advantageously. It also enables

the user to count particularly small sizes of stones, *easier*, *quicker*, and with much less *exertion* than when using any other style of tweezer.

It has an *extra* part directly above the crossing points to permit the holder to examine the stone without fear of *releasing* it accidentally, which frequently occurs when using the ordinary style crossing tweezer.

Price, Each, \$1.75

GRINDING OUTFIT No. 105

LEATHER DISK. SMALL METAL.

CARBORUNDUM & EMERY PAPER DISKS.

This outfit consists of:

1. Two interchangeable steel disc wheels, $\frac{3}{8}$ " and $\frac{1}{2}$ " in diameter.
2. One interchangeable flexible leather disc wheel, $\frac{2}{3}$ " in diameter.
3. One adjustable hollow spindle for holding the above disc wheels.
4. Eight different grade emery paper discs, $\frac{2}{3}$ " in diameter.
5. Four carborundum paper discs of different grades, $\frac{2}{3}$ " in diameter.
6. Eight different grade emery paper discs $\frac{1}{2}$ " in diameter.
7. Four carborundum paper discs of different grades, $\frac{1}{2}$ " in diameter.
8. One clamping device for keeping discs flat, when not in use.

Price of Outfit No. 105, complete.....\$1.50
 Separate small emery discs.....per doz. .15
 " large "....." " .20
 " small carborundum discs....." " .20
 " large "....." " .35

This new grinding device should find favor with the trade, being thoroughly practical and complete for all purposes, such as grinding steel tools, glass, enamel or any other metal or substance that can be ground with emery or carborundum. It is of equal value to the watchmaker, jeweler, optician, dentist, lock or gunsmith, platers and kindred trades. It will be found much more economical than solid emery and carborundum wheels. An assortment of solid wheels of twelve different grits would necessitate an outlay of ten times the cost of this outfit, not taking into consideration the trouble of truing up the wheels when worn or glazed.

Full description and directions accompany each outfit.

CROWN CHUCK No. 50

For enlarging or cutting deeper crowns of watch cases. A movable plug in the stem regulates the depth required for various sizes. Four caps of various sizes are supplied with each to hold crowns from small to large. Stem fits in No. 50 wire chuck.

Price, each, \$1.50

For Sale by all Jobbers in the United States and Canada.

ECHARCO WATCH GLASS CABINET No. 15 (Patented)

Top View, Showing Skeleton Frame of Drawer. Accumulation of dust and chips is impossible.

The Most Modern Watch Glass Cases are the Echarco, Nos. 15 and 20.

These Cabinets have many new features not found in any other. Novelty and usefulness are the chief arguments in their favor.

Construction and Material.—The cases are made of oak, finely finished and of attractive appearance. The sides of Cabinet No. 15 are paneled. Partitions are of basswood and put together in the best manner possible.

Price, No. 15, Each \$16.

Partitions are skeleton, preventing accumulation of dust, chips, etc.

The Bottoms of Cabinet No. 15 are hollow, while Case No. 20 has a special drawer to receive chips, dust, etc.

Arrangement for Glasses.—Case No. 15 has nine drawers with a total of 1,547 spaces, and Case No. 20 with four drawers has 784 spaces, to hold glasses in upright position.

Labeling of drawers, as shown in cut, is on the pulls of the drawers and done in gold bronze on black background.

Dimensions and Weight of Case No. 15.—Width, 24 inches; Height, 29 $\frac{1}{2}$ inches; Depth, 12 inches; Weight, net, 45 lbs.; Weight, including packing case, 75 lbs.

Dimensions and Weight of Case No. 20.—Width, 26 inches; Height, 13 $\frac{1}{4}$ inches; Depth, 11 $\frac{1}{4}$ inches; Weight, net, 30 lbs.; Weight, including packing case, 50 lbs.

The construction of drawers, the arrangement of partitions to economize space and weight, and the novel method of showing contents on drawer-pulls are all prominent characteristics and extremely well thought of.

ECHARCO WATCH GLASS CABINET No. 20 (Patented)

Price, No. 20, Each, \$7.75

CULMAN JEWEL SETTING CUTTERS

SAMPLES ONLY

Our line of College Jewelry is the most complete in existence

Stone Goods of Great Variety

The reigning fad in Men's Jewelry at present is something in a stone button or scarf pin.

We have them in endless variety of stones and styles; all real stones and handsomely mounted, and the latest ideas.

We don't copy; we originate. A jeweler who is wide-awake will take up new things and push them to a finish while they are popular.

Our goods are equal in finish to any 14K. line made, and prices much lower. The accompanying illustrations can only give you a faint idea of the excellence of the Line.

Send for memorandum package, or see our salesman when he calls.

Compiling Catalogs for Retail Jewelers is Our Specialty

Our Customers' Letters Should Convince You of the Exceptional Value of Our Catalogs in Stimulating and Creating Business

STORE OF THE ERNSTING COMPANY, SAN DIEGO, CAL.

(Copy of Original Letter.)

SAN DIEGO, CAL., Jan. 20, 1909.

THE ARNSTINE BROS. COMPANY,
Cleveland, Ohio.

Gentlemen—This being the second year that we have issued a catalogue compiled by your firm, we have taken special pains to note the result of such an undertaking.

In justice to the catalogue, we must give it credit for some good work that it has done for us.

Yours truly,

THE ERNSTING CO.

The Catalogs sent out by this firm since 1907 were made by The Arnstine Bros. Company.

(Copy of Original Letter.)

CORNING, N. Y., March 4th, 1909.

ARNSTINE BROS. COMPANY,
Cleveland, Ohio.

Gentlemen—I have your recent letters regarding my success with your Catalogs, and in reply wish to say that during the four years I have used them I have found improvement in my business each year. 1907 we had a new competitor as well as two department stores to contend with, and the Catalogs brought me a very satisfactory increase, notwithstanding the financial conditions.

I will use your Catalogs again this year and take pleasure in recommending them to my fellow jewelers.

Wishing you a prosperous year for '09, I remain,

Very truly yours,

JOHN E. BONG.

STORE OF JOHN E. BONG, CORNING, N. Y.

Our Salesmen visit every State in the Union. If you are interested, and will notify us, our representative will take pleasure in calling on you and explaining our method.

RAPID DECAY

¶ Beautiful forms and compositions are not made by chance, nor can they ever, in any material, be made at small expense.

¶ A composition for cheapness, and not for excellence of workmanship, is the most frequent and certain cause of the rapid decay and entire destruction of arts and manufactures.

¶ Another important patent, called the "Eugenie," will demonstrate that our assertions, pertaining to the excellence of our designing and workmanship, made through this journal, are correct. These beautiful patented "Eugenie" ornaments will be first shown and displayed at our coming SEVENTH ANNUAL EXHIBITION, which takes place in our offices from August 30th to September 4th, inclusive.

Our Mr. Mayer has returned from abroad, and we are now receiving weekly invoices of his purchases.

A Line Every Jeweler Should Handle

EVERY Jeweler is asked frequently by his patrons for advice as to the best and safest method of cleaning jewelry. Jewelers carrying the Dennison Line of Jewelry Cleaning Caskets and Drying Outfits never are at a loss for an answer. *Incidentally* there's a handsome profit in giving the advice and selling

Dennison's Jewelry Cleaning Caskets

Made in three styles. In Genuine Leather, Imitation Leather and Golden Oak (Wood) Boxes. *Without extra charge*, we will print No. 31 Casket (as illustrated above) on inside cover with Jeweler's name and address. A handsome and *permanent* advertisement. These outfits retail at a figure that is sure to make the sale. The proposition is an attractive one. May we tell you more? Write our nearest store.

The Oldest and Best Polish for Silver, Gold and Crystal

AN old friend in a new guise. Silver White has had the full endorsement of leading jewelers for over five decades. It is now offered to the trade in new packages containing twelve attractive tin boxes of Silver White. Each box holding one-third more polishing powder than any other box on the market.

Dennison's SILVER WHITE

is a most efficient polish for silver, gold, cut glass, brass, china, or jewelry. Absolutely harmless to hands or metal surfaces. Contains no grit, no acids, alkalis or other harmful substances. Polishes quickly and leaves a highly burnished surface. A splendid seller for the trade—indispensable to every jeweler for keeping his own wares in the best selling condition. Send us a trial order.

Write for sample and prices to-day.

Dennison Manufacturing Company

FONTNEAU & COOK CO.

THE name Fontneau & Cook Co. stands out with more prominence to-day than ever before. The goods that we manufacture have given such satisfaction that they have established a foundation as strong as that of the rock Gibraltar—which cannot be wasted away even by a continuous hammering.

The illustrations show samples of a few Bracelets that have aided in giving us prestige.

THE KREMENTZ BODKIN-BACK is recognized to be the most improved, simplest in construction, strongest and most durable on the market. Not one piece, but one-piece construction. No solder or tubing. Nothing to bend or break, being made of solid hard Spring Metal throughout.

Krementz Bodkin-Back Studs, Vest Buttons and Dress Sets are made in many salable patterns, set with Diamonds, Sapphires, Amethysts, Moonstones, Carnelian, Half Pearls and Whole Pearls at prices lower than any others made.

Note:

Should any of your customers have a set of vest buttons or studs with any old-style fasteners which have for any reason proved unsatisfactory, we will gladly change them (where practicable to do so) to Krementz Bodkin Fasteners, making only a nominal charge for same.

in 14Kt.

To meet the present day demand for 14Kt. jewelry at a reasonable price, we have made up an extensive line of fine goods that merits your attention and consideration, also a line of the highest grade diamond platinum mountings shown in America, catering for only the finest work. All of the precious and semi-precious stones and pearls used in the construction of these pieces, have been imported by us; the designs have been created by our own designers and the mountings have been made by us in our factory, thus enabling us to offer you the richest at small cost.

Loose Diamonds At present our stock of loose diamonds is very large. We have imported every size from 200 to the carat to 2 carats each. As we buy these gems from the cutters ABROAD for spot cash, we are in a position to give you greater value than others.

COMPARISON CONVINCES

EVERY ONE a "creation." They look expensive, but are not. They sell readily. Customers think them a bargain. You are satisfied, too. Good profits.

The example shown is strongly constructed of Nickel Silver with richly ornamental corners, top and key-panel. Substantial hinges and firm lock and key on Yale principle. Removable Tray with Ring Holder. Satin lined. See fine display at New Salesrooms.

J. B. BOWDEN & CO.,

15, 17, 19 Maiden Lane, 2d Floor,

NEW YORK.

"Many a man talks himself into a sale, then talks himself out of it again," like the king in the nursery rhyme

*"The King of France, with forty thousand men,
Marched up the hill, and then marched down again."*

HOLD THE FORT

When you once get "up the hill" to the buying point, quit marching, and *stick*—hold the fort!

The four steps up the hill to the buying point: (1) Getting attention, (2) Creating interest, (3) Arousing desire, (4) Bringing about resolve to buy—are fully outlined in our new book—"Silver Selling a Science."

"The most valuable piece of printed matter ever put into the hands of the jeweler or his salesmen"—that's what competent critics say of this new, thirty-six page, illustrated book—

"SILVER SELLING A SCIENCE"

Just look at the live topics discussed: "The Sales Value of an Idea," "Your Real Competitor," "Fostering the Collecting Instinct," "The Family Silver Idea," "Silver a Form of Wealth, not Expense," "Leading the Customer's Mind by Imparting Real Information," "Meeting Objections," "Four Kinds of Knowledge Every Salesman Should Have," "Every Customer an Assistant Salesman for You." These are only a few of many.

Every silver salesman in America should have a copy of this book.

Send in names and home addresses of your salesmen—or, *Salesmen*, write us direct—and we will forward copies free of charge.

TOWLE MANUFACTURING COMPANY, Silversmiths
NEWBURYPORT MASSACHUSETTS

OUR salesmen are out with new samples of SILVER DEPOSIT WARE, PHOTO FRAMES, MIRROR FRAMES, DESK CLOCKS, BELT BUCKLES, SASH PINS, CIGARETTE CASES, THERMOMETERS, BAROMETERS AND NOVELTIES.

Goods that catch the eye because the quality and show are there. The price is the lowest that a good article can be sold for. Not the very cheapest, but the best for you, because you can sell more of it. The line of uniform best quality.

Safety Pony

No. 7325-84

Having introduced the Lapel or Button Chain which has become one of the standard and popular Summer chains, we are introducing for your approval this season another neat chain which can be worn on Vest for office use or on Trousers Band for outing wear; it makes a neat, stylish, economical and safe chain to substitute for the old, long, cumbrous, useless and unsafe Vest; the clutch is specially made so as to go on and off easily, and is of our own make.

Try one of our samples when our travelers call and see if you do not agree with us. We will have a number of desirable patterns with and without the sliding seal. Also a large lot of other good things, new this season.

Yours for trade for 1909

No. 4

FRIENDS

It is a great thing to make friends — to get the hand clasp and the smile as we journey on. And making friends is just "making good." Which is to say, getting into the game and playing fair—with a strong arm and a strong heart. And what is true of an individual is true of a business—a business is just the man in motion. To create, evolve, perfect, in short, to do a thing better than it has ever been done before is to make friends, and friends who will cut cross lots to reach you.

AND that is the history of this business. The progressive element is finding out that our lockets are different, Veribest in a class by themselves; they stand for a new school in the superior jewelry art—the product of the most educated organized group of skilled workmen in the world.

Our trade-mark in each locket is an absolute guarantee for satisfaction, and we ask the trade to demand them.

Gold Star

A Remarkable Gift from the Rhine Provinces to the German Crown Prince and Crown Princess.

By Charles A. Brassler.

A SET of silver table ornaments of more than ordinary interest was recently completed in Germany. This remarkable collection, consisting of 23 pieces, was intended as a present from the Rhine province and Westphalia to the German crown prince and his bride on the occasion of their wedding in 1905, but at that time only the designs could be presented.

After it had been determined that the proposed proportions of the various pieces were correct for actual use, and practical, their execution was commenced. In the Spring of 1908 the entire work was completed, and on May 23 advantage was taken of the presence of the crown prince couple in the Rhine province to present the gift, with appropriate ceremonies, in the Council House at Düsseldorf.

The collection comprises the following pieces: A center epergne, two ornamental

of their harmony, create an exceedingly chaste impression. The ornamentation of the separate pieces, which aims at the free reproduction of the effects of the old Norse animal and plaited or basket-work decoration, is nowhere obtrusive. Nor can we overlook the generally happy revival of the old Rhenish art of enameling that is displayed in these works, quite independently and entirely absolved from any dependence on conventional application. It is very noticeable that all inlaying of enamel, the color effect of which has an enlivening tendency, especially the armorial bearings, the bright parti-color of which might easily make them objectionable, has been produced in very modified color tones, so that they are only modestly prominent in the general color effect of the silver.

We have selected a few of the pieces for special illustration and more detailed de-

ROUND FRUIT DISH PRESENTED TO GERMAN CROWN PRINCE AND PRINCESS.

horns, two flower holders, two vases for flowers arranged as bouquets, four large branched candelabra, four small branched candelabra, two round fruit dishes, two ornamental holders for long-stemmed flowers, two elongated fruit dishes and two other fruit dishes.

With the greatest wealth of ornament, this table set is by no means overloaded with decoration. The pieces comprising it are not monuments decked with figures that might create a sensation, but beautiful ornate articles which, in the placid grandeur

scription. The great center epergne, shown on the front page, is 32 inches high and 39½ inches long, and is intended for use as a receptacle for flowers; it is circular in section in the center, prolonged toward each end in the form of the long, curved beak of a Norse or Viking ship. The bowl is supported on a round foot, from which rise four supports, which, flanking the bowl, carry a perforated dome. This arches over the circular portion of the bowl and terminates in a knot, showing the enameled arms of the noble couple. The whole is sur-

mounted by a reproduction of the crown prince's crown.

The material connection between the body of the vessel, reminiscent of a Viking's ship, and the support is effected above by means of the broad inscription scroll and the rope beneath it, wound about the supports, and below by means of the encircling foot pro-

ORNAMENTAL HORN WITH PRUSSIAN EAGLE—
FRONT VIEW.

file which displays in the flat a connecting weave or plait, and obliquely an ornament of animals' heads in old German style.

The dedicatory inscription in ornamental enamel letters reads as follows: "Presented June 6, 1905, by the provincial associations of the Rhine Province and Westphalia, and their city and rural district communes." The inscription scroll terminates in moulded animals' heads in high relief, holding between their teeth balls of agate sprayed with red and gray.

The bowl, formed from a single piece of sheet silver, rests on a cylindrical foot with inclined planes, on which, as surface ornaments, band-like, intertwined lizards appear

The goal or finishing line at the end of a Marathon race looks a long ways off to the contestants who are about to start in such a race—it takes a lot of energy, a lot of will-power, a lot of perseverance to cover the 26 miles 385 yards and reach the goal at the end.

That is just exactly the way with a good many things in life that are worth doing well. The goal aimed for looks a long ways off, with many obstacles to overcome.

We have reached one of our goals by building our own factory, for we have had this idea in mind for a great many years.

In reaching this goal, we have put in a big lot of talk, thought,

and planning in making our new factory a modern jewelry plant for the production, by up-to-date methods of 14K. and 10K. Gold Rings, 14K. Larter Shirt Studs, Larter Vest Buttons, Sleeve Buttons and Locketts.

When Larter & Sons' travelers call it will be worth your while to look over their lines as a proof that the goal was worth waiting and working for, or by calling at or writing to our New York Office, No. 23 Maiden Lane, we would be pleased to be of service to retail jewelers in good standing.

in various forms, grasping a chrysoprase. The gilded interior of the bowl is intersected by four silver bandeaux, resting against the supports and uniting to form a rosette. The dome supports are in champlévé enamel, following early medieval workmanship. The enamel colors, gray-blue and reddish-violet, in different shades, are modified to accord with the prevailing steel-gray tone of the deep, matt black effect of the silver. These colored columns, on a bright base, are divided by similar roundels, which, starting in a small agraffe, merge into a fan-like ornament on the capitals and thus effect their connection with the base.

Above this the clusters of columns merge into six-sided knobs, the rhomboid surfaces of which are ornamented with filigree work and tourmalines. On the knob capitals the dome rests. It is overlaid with a large, four-partite, starfish-like formation, resting on perforated scroll-work, in the recessed angles of which four smoked topazes are set.

It was impressed upon the artist to whom the execution of the work was entrusted to restrict their weight in order to make the articles as convenient to handle as possible. The dome, for this reason, is not, as is customary nowadays, cast solid according to the model, but is made up of two half-globes formed by hammering, between which is a hollow space. The animals and their wings are likewise beaten out from two plates, whereby they are made not only lighter but more resistant than if composed of solid castings. Through the revival of the old, genuine repoussé work in all parts of the table center the silversmiths have been able to produce this rich and complicated piece of work with only 44 pounds of silver.

The ornamental horns are 32 inches high and 27½ inches wide. These horns do not represent, as it might appear, drinking vessels of ancient style, but are ivory tusks mounted in highly ornamental metal work and resting on a wide-spreading base. They are intended as carriers of the heraldic animals of the provincial arms. The ivory body is bound with strong rings, intimately connected at various points with the supporting portion, which rests on three points, the profile of which is continued in the bent handle, which takes a curve opposite to that of the horn. These rings are joined together by means of strips that follow the contour of the horn, so that the entire mounting of the tusk is immovable. The lower finial consists of an octagonal point, richly ornamented with plaited bands and with a smoked topaz held in powerful claws.

The upper end shows the boldly modeled armorial animals, the Prussian royal eagle for the Rhine province and the rearing horse for Westphalia. Of the former we present a photograph. The base (to harmonize with the dome of the centerpiece) is overlaid with a four-pointed star, the receding angles being ornamented with lapis stones set in filigree. Between this base and the ivory, separated from it by a strong hollow with a zigzag design, the rich neck border is interposed, which, divided into compartments, shows in front the arms in colored enamel, the silver stream in a green

and the silver horse in a red field, corresponding to which, in the back, is an ornate rosette with band designs and tourmalines shading red and green.

There are two sizes of candelabra—a large and a smaller size. The large candelabra, which is 35 inches high and 20 inches broad, has four large arms, which branch into four smaller arms; consequently it carries 16 candles. The spread is from below, upward.

On a four-sided convex diminishing base, resting on claws, connected by means of a plaited band with an animal's head, and springing from this there ascends the supporting motive of the central column, a

SMALL CANDELABRUM.

four-partite group of enameled columns, the design of which is worked out in gray, blue and green colors. The roundels already referred to at the side of the colored shafts are inspired by the closing profile and are enlarged to form a sort of capital on which rests a diversely perforated hollow sphere, overlaid with ancient Germanic animal designs and set with lapis stones. The four branches terminate in small hollow balls, from each of which spring four sprays that carry candle sockets. The richest ornamentation of the candelabra is derived from the armorial shields of the provinces participating in the presentation. Framed and set in ornamental relief work, conventionalized animal forms in an infinite variety of styles are, on the bases of the four candelabra, the arms of the Rhine province, the duchies of Jülich, Cleves, Berg and Gelders, the principality of Mörs, the province of Westphalia, the bishoprics of Münster, Minden and Paderborn, the duchy of Westphalia, the principality of Siegen and the earldoms of Mark and Ravensberg.

The small candelabrum, of which we present an illustration, is 27½ inches high and 15 inches wide. The candelabrum has three

branches, each divided into three of smaller sizes, so that it will hold nine candles. On a triangular base, arched outwards, the three-sided group of columns rises and develops towards the top in the manner described for the large candelabra. The large hollow sphere bears as a finial a topaz in a strong setting (corresponding with the rear finial of the ornamental horns). On the bases are the arms of the Rhine province, of the cities of Cologne, Aix-la-Chapelle, Coblenz and Triers, of the province of Westphalia, the cities of Münster, Minden, Arnsberg and Dortmund, set in ornate fields, treated to correspond with those of the large candelabra and also displaying variegated animal motifs.

The collection includes three styles of fruit dishes, among them the round fruit dish that is the subject of one of the illustrations. From the lower base there proceed, as in the other flower holders, four strong bandeaux. The ring-shaped projections, serving also as handles, are ornamented with beetle-like animal figures. The bandeaux effect the connection between the foot and the upper edge. The foot surfaces are filled in with animal woven work. On the neck of the vessel are the enameled arms of the two provinces that made the gift.

This exceedingly magnificent treasure, as presented to the German crown prince couple, affords notable evidence of modern German artistic skill in silversmithing. The designs for these table ornaments were furnished by Prof. Adolf Schill, while their execution represents the patient labor of Court Goldsmith C. A. Beumers, Düsseldorf; Gabriel Hermeling, Cologne, and the firm of J. C. Osthues, Münster i Westphalia. The figures standing free on the different pieces were modeled by Prof. J. P. Junghanns, Düsseldorf.

The various artist-artisans are indebted to the two provincial associations for the opportunity afforded them to display their talent, and American silversmiths should derive some beneficial suggestions from a study of these fine products of their German confreres.

Death of James Douglas.

ST. CATHARINES, Ont., April 28.—James Douglas, a prominent citizen of this place, died Friday at the age of 79 years. He was born in Aberdeen, Scotland, and came to Canada at an early age.

About 60 years ago, Mr. Douglas opened a jewelry store in St. Catharines, in partnership with Robert McMullen, and, until a few years ago, was active in business and public affairs. He took a keen interest in municipal matters and served a term as mayor of the city, in addition to filling other important public offices.

Frank A. Heywood, who represents the Jewelers Security Alliance on the road, seems to make a specialty of escaping from hotel fires. While in Topeka, Kans., recently, he registered at the Central Hotel, which later took fire, but fortunately Mr. Heywood had been induced by a friend to move his baggage around to the latter's home, just before the flames broke out. This is the seventh hotel fire that Mr. Heywood has narrowly escaped.

REPOUSSÉ WORK AND CHASING

ILLUSTRATED AND DEMONSTRATED BY AN EXPERIENCED ARTISAN

(Continued from issue of April 7.)

AFTER the mouldings have been finished the work is ready for bending up and soldering, to form the sides of the casket. At the various corners the metal should be cut about three-quarters of the way through from the back with a "scoring tool" in order to obtain a sharp and decided angle. Before soldering together, the ends of the two strips must, of course, be filed to the angle required, and not left square, as in this case the two opposite sides, when brought together, would simply touch on the inside and leave a gap in front.

With all work of this type it is advisable to draw out a plan in order to test the various angles. The two halves should be bent to correspond with this plan as accurately as possible before tying them together, and after tying the whole should be tested again. In tying together three pieces of binding wire can be used with advantage, one passed round near the top, one near the bottom, and one round the middle. A loop should be left at each corner on each of the wires, and these can then be systematically tightened until the whole is perfectly secure and rigid. When soldering the two halves together a little solder should also be run down each of the corners, in order to fill up the cut made by the scoring tool, as otherwise these will be distinctly weak, and would probably give way if any setting of the sides has to be done.

MAKING THE BASE.

The spread-out base, which also forms the bottom of the casket, can be made in one piece—not, of course, including the mouldings, which are laid on separately. As no embossing has to be done on this, it can with advantage be made out of somewhat thicker metal than the sides, about 12 or 13 Shakespeare gauge. In making this part of the casket the plan as formed by the sides should first be set out on the metal; this will form the bottom. Outside this another line, three-fourths inch away, should be marked all round this, corresponding to the width of the sloping sides forming the base. On referring to the sketch it will be noticed that a small V-shaped piece has to be cut out at each of the corners; this is necessary in order to obtain the correct angle for the slope, as otherwise the sides could not be bent back. On the inner line, viz., the line corresponding to the upright sides of the casket, a cut with a scoring tool should be made, sufficiently deep to allow of the sides forming the base to be bent back to the required angle. It must not be forgotten that the same remark applies to these sloping sides as to the upright sides, viz., that the ends must be filed to the proper angle, in order not to leave a gap in front when they are bent back.

After thoroughly soldering the various joints with the hardest possible solder, the mouldings on the base can be proceeded with. These can be either swaged or made up, but in any case they will have to be

soldered on in pieces, i.e., two pieces for each side, one at the top and one at the bottom. Both top and bottom mouldings are of the same type, but the bottom moulding may be made a little heavier with advantage. In soldering these mouldings on

base, cutting them in such a way as to leave the projecting points of metal as close to the top edge of the base as possible. A piece of moulding is then cut to the length required for one of the sides, and after filing the ends to the correct angle is placed in position and kept there by means of two or three cotter pins or small iron clamps. Owing to the slope of the base the moulding has a tendency to slip over the top, but this the "stitches" effectually prevent. Another method which is used sometimes when binding wire and cotton pins are impossible

1.—SIDES OF CASKET BENT UP AND TIED WITH BINDING WIRE READY FOR SOLDERING.
 2.—SHOWING METHOD OF FIXING A PIECE OF MOULDING ON BASE FOR SOLDERING.
 A.—PLAN SHOWING METAL CUT-OUT FOR THE BASE. AFTER THE INNER LINE HAS BEEN "SCORED" THROUGH THE SIDE PIECES CAN BE BENT TO THE REQUIRED SLOPE.

to the base the upper moulding should be soldered right round in the first place, as this is far more difficult to fix on if the lower moulding is already soldered on. The usual way of fixing this upper moulding for soldering is to cut in a number of stitches all round the upper part of the

to use is to rivet the moulding on in several places. This has to be done very neatly, and should only be resorted to when other methods have proved unsuccessful. In riveting this moulding on, the hole drilled through it and the base will have to be very small, and the rivet should fit

N. B.—Our Mr. Henius has just returned from the Pearl and Diamond markets of Europe. He made large purchases, and we are able to show new and complete stocks of above.

Advice.—Buy now even if necessary to anticipate your wants beyond your immediate necessities as Diamonds and Pearls are advancing in prices.

quite accurately, so that when the burred ends are removed after the moulding is soldered on, no gaps are noticeable in the moulding.

The chief point to note when soldering mouldings on to this and similar shapes is that the miters at the corners must absolutely fit, so that the moulding forms a series of continuous lines all round, as gaps at the corners are most prominent, and greatly detract from what might otherwise have been a neat piece of work.

The lower moulding can be soldered on in the same way as the upper, *i. e.*, by means of stitches and cotter pins. It will be found somewhat easier to keep in place, as there is no difficulty about the stitches, and the cotter pins can be pushed home much further than was the case with the upper moulding, where the metal forming the bottom of the casket prevented them being pushed very far. Care must be taken when cutting in the stitches to see that these run absolutely parallel with the upper moulding, in order to insure the two mouldings being the same distance apart all round. The piercing indicated in the sketch on page 479, or any other decoration that is desired on the base, should be carried out before the sides of the casket are soldered on.

The piercing shown in the sketch, although extremely simple, is very effective if neatly carried out; but any pattern designed on the diaper or interlacing principle will do equally well. If an interlacing pattern is decided on, care will have to be taken to arrange the piercing so as not to weaken the base as a whole. After piercing, the work could be made still more interesting by cutting back the metal wherever one band crosses another, in order to convey the idea of actual interlacing, using one or two small flat scorpers for the purpose. Whatever pattern is used, it should in the first place be carefully set out and sketched on with Indian ink, inking in all parts to be cut away. This makes the work of piercing easier afterwards, and gives one an idea of the general effect in the first place.

W. S.

(To be continued.)

Jewels Worth \$12,000 Held by Customs Officials of New York on the Charge That They Were Smuggled.

Last Thursday an interesting case of alleged smuggling came to light at the Customs House, when a man named Celso del Villar, a real estate dealer from Mexico City, was asked to explain to the Collector and Surveyor at the Port of New York how it was that he had brought \$12,000 worth of jewelry on the *Morro Castle* on April 24 without declaring it.

When the hearing took place at the Customs House the Mexican was accompanied by a woman who came with him from Mexico on the same steamship, also his valet and his interpreter. The jewels, which were examined by the appraiser, consisted of a ruby and diamond necklace of floral design, which was so constructed that it could be divided and used as two bracelets, and a bracelet set in heavy gold with three big stones, a ruby, an emerald and a canary diamond, and in addition to these two choice articles of jewelry were several small diamonds. The necklace was appraised at \$5,000 and the bracelet at \$7,000.

The customs inspectors acted on information given out by Surveyor Clarkson, and discovered Del Villar at the Hotel Seville, E. 29th St. and Madison Ave., on the previous Monday evening. The detectives met him on Tuesday in the street and told him they were buyers for a Chicago house and had heard that he had jewelry to sell. To quiet any suspicion on the part of the Mexican the inspectors mentioned two big firms in Maiden Lane and on Fifth Ave. When they had gained his confidence the Mexican showed them half of the necklace, and they offered him \$6,000 for it if they could get the other half. He brought it from his room and the inspectors declared that they would buy it and asked if he had other jewelry to sell. The Mexican replied that his valet had a fine bracelet which he had taken to be repaired. The officers then declared themselves, took charge of the necklace and later found the valet.

At the Customs House, Thursday, the woman who had accompanied the Mexican asserted that the jewelry was hers and that Del Villar had given it to her. At the hearing later she admitted that the necklace and bracelet were not her property and that the only time she had seen them was one evening in the City of Mexico, when Del Villars permitted her to wear them to the opera.

A customs' official, in speaking to a CIRCULAR-WEEKLY reporter in regard to the case, said that it was understood that Del Villar had taken the jewelry in part payment of a land transaction in Mexico City and had come to New York to dispose of it. The question involved, said the customs' official, is whether or not the Mexican prior to departure from his country made arrangements with his valet to sell the property. If this was the intention the property, he said, is naturally subject to duty and if not declared can be seized and has accordingly been seized. It was also said that the Mexican claimed that he intended to give the jewels to the woman.

Another thing which the Government contends is of importance in this case is that the jewelry was landed by Del Villar himself and that he omitted to declare it and that it was on his person at the time. The official decision in the matter was left to the Collector and the Mexican paroled in the custody of the consul.

The inspectors wanted the valet held on the former charge of smuggling, but this the customs officials refused to do. The Mexican said that he had passed the hand bag containing the jewels to the inspector at the pier when he landed, and when the official handed the bag back to him he thought that it was all that was necessary. The valuable jewelry has been taken to the seizure rooms at Christopher St., and the matter has been placed in the hands of the District-Attorney.

An involuntary petition in bankruptcy was recently filed in the United States Court at Sioux Falls, S. Dak., against John R. Knowlton, a jeweler in Rapid City. According to the schedules, his liabilities are estimated at \$1,830 and the assets at \$1,015. Mr. Knowlton has been in business about a year, and formerly worked for C. A. Trowbridge.

Death of Charles B. Jacquemin.

HELENA, Mont., April 28.—It was with universal sorrow and regret that the news was received here early this week telling of the death at Council Bluffs, Ia., of Charles B. Jacquemin, of the Jacquemin Jewelry Co., 9 N. Main St., this city. Mr. Jacquemin passed away at the home of his nephew, George Gurner, Council Bluffs, as a result of a paralytic stroke, which he suffered about three weeks ago. After he was stricken it was believed at first that he would be able to recover, but the hopes of his friends and relatives were dashed early last week when he began to grow weaker and he failed rapidly thereafter.

Mr. Jacquemin, who is not only one of Helena's leading jewelers, but also one of its most highly respected citizens, had been in the jewelry trade for about half a century. He was a native of Germany, having been born in the Grand Duchy of Luxemburg, July 1, 1838. When about 14 years old he came to America with his parents, who took up a homestead in Missouri. He came to the northwest territory in 1858 and remained in the far west for some time working at his trade of watchmaker in the States of Idaho, Utah, Washington, Oregon and California.

He first started in business for himself as a retail jeweler in 1865, when he opened an establishment in Council Bluffs, Ia., which is still maintained and from which the business now conducted in this city originated. Mr. Jacquemin opened another establishment in Deadwood, S. Dak., in 1888, and was among those who suffered severe loss by fire. He disposed of his Deadwood business in 1882, and two years later located in Helena, establishing the present business, which he built up and continued successfully until stricken with his fatal illness. In February, 1897, the business was incorporated as the Jacquemin Jewelry Co., of which the deceased was president, F. G. Jacquemin vice-president and manager and Chas. Zimme, secretary and treasurer.

Outside of the jewelry line Mr. Jacquemin had other large interests in the vicinity of Helena, among them a valuable mine near Elkhorn, which is operated by the Golden Curry Mining Co., of which he was secretary and treasurer. He has held many prominent positions and among others he was Mayor of Council Bluffs. It was during his administration there and due largely to his efforts that Council Bluffs became the terminus of the Union Pacific Railroad. In social and fraternal circles he was widely known and was prominent in the Montana Club, the Helena Commercial Club and the local Masonic Lodge.

Deceased is survived by two brothers and a number of nephews and nieces.

Ross M. and Edward A. Oaksford have bought the "Busy Jewelry House" at Johnstown, N. Y., and will continue the business as Oaksford Bros. Ross Oaksford was formerly with the A. D. Norton Co., Gloversville, and is a graduate of a Waltham, Mass., horological school and an engraving school at Elmira. Recently Mr. Oaksford, as well as his brother, has been employed by Mr. Fairchild, in Johnstown.

DIAMONDS

We offer some exceptionally fine LA VALLIERES in Diamonds and combinations of diamonds and pearls and other precious stones.

These pieces are unusually beautiful in design, are in the latest style and are precisely what is needed to serve the prevailing fashion. The mountings are strictly correct and of the finest finish. Prices are right.

We shall be glad to send you an assortment, on memorandum, including some exceptionally fine pieces. Write us.

THE NEWS FROM ENGLAND.

Business Slightly Better, But Little Improvement Shown in Manufacturing Centers—Board of Trade Returns Still Bad—Imperial International Exhibition Opens May 20—Prevailing Styles in Jewelry—Points Against the "Daylight Saving" Bill—Trades Unions in All Jewelry Lines May Amalgamate.

LONDON, April 26.—There is very little to state from the good side with regard to business in Great Britain. Fortunately April has been a fairly good month so far for weather, and as a consequence there has been just a little more trade doing, while shipbuilding is improving. In London trade has been a little better, but only just appreciably so. In Birmingham there is nothing whatever to say in favor of improved trade. Of course, Easter holidays spoil manufacturing centers, and Birmingham, like Sheffield and London, has taken advantage of the holidays for shutting down the factories just as long as possible. Reports from Coventry are not particularly good, the watch trade being in an unsatisfactory condition. Glasgow and Edinburgh report trade as being just a little better, while in Ireland trade shows no signs of improvement. The seaside towns have done fairly well owing to the extremely fine weather which prevailed during the Eastertide.

* * *

The Board of Trade returns are still on the wrong side. So far as imports for March are concerned the decrease was small, viz., £81,000, but the decrease of imports for the first three months of 1909 was practically £5,000,000. On the other side, the British exports diminished by over £1,000,000, and the total result in this downward direction for the first quarter of the year was quite £10,500,000. There is, however, a possibility that we have reached the lowest point, and that very soon we shall be turning in an upward direction; at any rate, that is the general feeling.

* * *

I have just heard authoritatively that the Imperial International Exhibition will be opened, May 20, by the Duke of Argyll. Now the better weather is coming along and workmen are very busy repairing and retouching the fine structures which were erected for the Franco-British Exhibition. I hope in my next letter to be able to give my readers something of an idea as to the exhibition itself.

* * *

Among the newer jewels shown in the West End is the "santoin," really a long guard twisted once round the neck, then caught in a large diamond-set open plaque or slide with a couple of inches of chain dropping through and terminating with a jewel hanging in the bolt ring of the chain. The santoin looks very well in wear and affords a means of using a good, long, jeweled guard for evening wear. It only needs the plaque, which may be any shape and is generally about two inches wide by one and one-half inches high. Charms for the long guards are still much in evidence; the latest are well carved animals in coral. It is strange to see an old dowager with her "charmed" long guard with anything from a dozen to three dozen charms of various kinds and values attached to avail-

able links, and when this is impossible ringing the extra ones up on a large bolt or gold split ring at the end.

Light and very delicately wrought diamond jewelry is the order of the day. Every effort is made to get as lace-like an effect as possible, the mille grain setting materially helping to give the effect. A very pretty conceit is the spider's web pendant or charm, the webbing, of a remarkably light character, being of platinum, while to simulate dewdrops a few bright little diamonds are set in the delicate web. The spider is of gold chemically treated so as to give the most natural effect.

The velvet or satin neck ribbands with very neat diamond-set ends and slides which came in fashion by way of Paris are still very fashionable. This is probably due to the fact that though velvet or satin ribbon is cheap, the diamond-set ornaments cannot be imitated cheaply. I have seen this throat band made of silk velvet ribbon and set with pastes, but costing wholesale nearly \$20. A jeweled band of silk or velvet is also somewhat in vogue for the hair, many ladies dressing their hair in the Grecian style so as to use this effective means of decorating the hair. There were several very good methods employed by the ancient Egyptians and Etruscans which might well be revived. I do not see why hair rings should not be worn. Hanging in front of the ears, they look very decorative and suggest nothing of the barbarity which some say characterizes the wearing of the earring.

* * *

In my last letter I referred to the progress of the Daylight Saving Bill, and stated that Guernsey was thinking of adopting the principle, but it was a case of all smoke and no flame, for when the Guernsey States Legislative Assembly met to discuss the question it was unanimously rejected. Ridicule killed it. An important point has been brought forward here concerning the effect of the bill, if ultimately passed, upon crime. For instance, at present the law makes a difference between burglary and house-breaking. Burglary, which carries a heavier punishment, is the breaking into premises between 9 P. M. and 6 A. M., house-breaking between the hours of 6 A. M. and 9 P. M., so should the bill become law adjustments will have to be made to fix criminals.

* * *

The silversmiths and jewelers of England are attempting to consolidate their various associations so as to make one strong body. The trades unions in the silver, electroplate and britannia metal trades are fairly old, and up to quite recently were somewhat conservative in their ideas, the London Silver Trade Unions being particularly so, but lately they joined forces with the London Goldsmiths' Trade Union so far as to extend the Silver Trades Council in order that the goldsmiths might be taken in, and now, following a conference held

in Sheffield, at Easter, which was attended by delegates from London and Birmingham, there is a possibility of an amalgamation of all the societies composed of men employed in the working of precious metal and those in the allied trades. So far the actual proposals are secret, but I gather from the men that the proposals put forward at the conference are likely to meet with general approval. The next conference will be held in Birmingham, and then it will, in all probability, be publicly announced that the amalgamation has taken place.

St. GEORGE.

E. M. Gattle & Co. Pay Creditors in Full and Trusteeship Ends.

E. M. Gattle & Co., 420 Fifth Ave., one of the firms which got into financial difficulties in the panic of 1907, have paid all of their creditors in full, with interest, and the corporation was turned back, last week, to its original owners.

When the house was put into the hands of trustees a number of other jewelry houses were involved, all of which obtained extension of credit. James C. Cannon, vice-president of the Fourth National Bank, Louis Kahn and John C. Van Cleef, vice-president of the National Park Bank, took charge of the firm's affairs Jan. 2, 1908. In the meantime E. M. Gattle remained in charge of the business, and it is to his efforts that the trustee attributed the rehabilitation of the firm's affairs.

The financial difficulties arose at a time when there was a big slump in the demand for precious stones, and many of the dealers in precious stones in this country were embarrassed by heavy stocks on which they could not realize the usual sales. The full satisfaction of claims within a little more than a year after the financial trouble rose has demonstrated the wisdom of the trusteeship.

New York State Association Will Not Affiliate With the A. N. R. J. A. at Present—Officers Work to Increase the Membership.

UTICA, N. Y., April 28.—The New York State Jewelers' Association will not affiliate with the American National Retail Jewelers' Association at present. This has been decided upon by a decisive vote by the Executive Committee, which took a broad view of the situation and acted without prejudice to action which may be taken at the next annual convention, to be held in Rochester. The members of the Executive Committee deemed that affiliation at the present time was inexpedient and that with a larger membership in another year the question could be much more satisfactorily settled by the State jewelers.

President Charles T. Evans, of the State association, is a hustler. He is a young man and will start the association well under way during his administration. This letter was sent out from the president's office to-day:

UTICA, N. Y., April 28, 1909.

To the Members of the New York State Retail Jewelers' Association:

A month has come and gone since our meeting at Utica, when under most favorable circumstances the New York State Retail Jewelers' Association was launched.

The question of affiliation or non-affiliation with the national organization has been in the hands of the executive committee since our meeting, and has been decided negatively by the following vote: For affiliation, Zilliox and Scheer; against affiliation, Evans, Mix, Dale, Barringer, McClelland, Crouse, Sunderlin and O'Donnell.

Whether the future will prove our decision to have been wise or otherwise, still it can be truly said, that no body of men ever labored more conscientiously to do what was right, and for the best interests of an organization, than your executive committee has in the present case. We would have preferred that this question of affiliation had not been brought before our State body at its organization meeting. A year hence, with the experience that the year has taught us, we will be in a position to decide this question in an intelligent manner. We did not think that a new organization consisting of such a small percentage of the jewelers of the State should bind the entire jewelry trade of this State to membership in two bodies, to obtain desired membership in one. It seemed to the executive committee that if membership in the national association was so desirable, that time would demonstrate this fact to the membership and favorable action taken.

The national association has been in existence about three years, and notwithstanding their efforts had made absolutely no headway in this State. We believe that this question should be decided in the way that was to the best interests of the State association, without reference to any other body. Whatever your individual opinions may be regarding this matter, let's push the State association for all it is worth: try and get members; try and benefit yourself and your fellows.

The question naturally arises, What does the State association expect to do? That will depend largely upon what you as an individual member propose to do.

I want each of you to write me a letter, carefully thought out, of some of the things you would like to see the association accomplish; also how you would go about these reforms.

If you have a local society in your city or town, try and make it a power; cultivate the social side; you can do more to correct trade abuses if you have a friendly feeling existing among the trade than otherwise.

If you do not have a local association, try and form one. It will certainly be of benefit to you. The following cities now have local associations: Buffalo, Rochester, Syracuse, Utica; the society in Syracuse being formed as a result of the State meeting.

Efforts are being made to work up interest in forming local societies in Albany, Elmira, Binghamton.

Try and get your fellow jewelers to become members of the State association. Just now we want members. When we get membership sufficient, we can make our influence felt on trade matters.

Also, tell me what your opinion is regarding the advertised prices in trade papers and catalogues; whether they should be net; subject to 50 per cent. discount; subject to 33½ per cent. discount, or quoted in cypher, of which each jeweler shall have a copy; all trade papers and issuers of catalogues to use the same code.

Have you a retailing jobber in your city? Give me his name. Take up the matter of having an ordinance passed in your city council prohibiting the sale of jewelry after sundown, at auction. The passage of this does away with fake auction sales, which do most of their business in the evenings.

Insist upon the goods which you buy being stamped with the trade-mark of the manufacturer and the quality of the gold. Write me the different brands of silverware which you find represented in the department stores of your city. Give such additional information as you deem advisable. Work for a greater State society; boost all you can; help the officers. If you are outside of the fold, send in your application to the State secretary. If you are a member, get the other jewelers of your city or town to become members. We should have the most active and powerful State association in the country, and we are going to have it.

The officers elected feel thoroughly the honor conferred upon them, and also feel keenly the responsibility which their election carried with it. Their united wishes are for a strong association; not that any personal glory may be obtained, but rather that each and every jeweler may be benefited thereby. We cannot do it alone. We want your help. Do not think that you have no responsibility in this matter. You have. This association is going to amount to just what the members make it. Will you help?

Finally, do not forget that letter you are going to write to me. Do not put the matter off indefinitely, but do it now.

Remember that application blanks and copies of the constitution and by-laws can be obtained from the secretary. With kind regards, I remain,

Yours faithfully,

CHARLES T. EVANS, President,

Utica, N. Y.

CHARLES E. SUNDERLIN, Secretary,
Rochester, N. Y.

UTICA, N. Y., May 3.—As authorized by the constitution and by-laws of the New York State Retail Jewelers' Association, President Charles T. Evans to-day announced the appointment of standing committees to serve until the Rochester meeting in May, 1910. They are:

TRADE INTERESTS—E. D. Mix, Albany; T. W. Morrison, Newburgh; Charles H. House, Syracuse.

LEGISLATION—Charles J. Dale, Plattsburgh; Samuel C. Tappin, Troy; S. D. Burritt, Rochester.

QUALITIES—E. M. Barringer, Gloversville; W. B. Greenland, Amsterdam; James R. Burtiss, Utica.

MEMBERSHIP—Emil J. Scheer, Rochester; Thomas J. Routledge, Elmira; Charles Bickelman, Schenectady.

DECEASED MEMBERS—E. B. McClelland, Syracuse; H. Y. Burlingham, Sherburne; A. D. Sturges, Norwich.

The first member upon each committee will act as the chairman.

President Evans will spend the coming week in New York.

The South Bend Watch Co. has added two new men to its southwest territory, B. F. Medera and W. F. Harris (who is now traveling in Mississippi and Louisiana, but has been sent into the southwest). This provides the company with six men in the States of Oklahoma, Arkansas, Kansas and Texas, where previously it had only four.

Bankruptcy Petition Filed Against the American Specialty Co., New York.

A petition in bankruptcy was filed Wednesday of last week in the United States District Court at New York against the American Specialty Co., doing a business in bronzes, jewelry, watches and other novelties at 1127 Broadway, by Thompson & Fuller, attorneys for C. F. Rump & Sons, Philadelphia, creditors for \$4,767; Graef & Schmidt, \$1,236, and the J. C. Hacker Co., \$61. The petition alleges that on April 21 the company admitted in writing its insolvency and its willingness to be adjudicated a bankrupt. Judge Bolt appointed Alfred H. Townley receiver. It is said that the liabilities are probably \$50,000, with assets of about \$25,000.

The financial trouble is attributed to unfavorable trade conditions during the last year and a half which curtailed the business and to a lack of ready cash to meet the maturing obligations. It is said that for some time past creditors had been pressing the company for payment and that there are several suits pending against the concern in the city courts and in the Municipal Court.

The business was organized over 30 years ago by Frank E. Johnstone, and for many years the company's stock was held largely by Johnstone's wife, who died some time ago. The business was incorporated in April, 1903, with a capital stock of \$250,000. The concern was for many years located at 192 Fifth Ave. in the Fifth Ave. Hotel building, but about Aug. 1, 1908, moved to the present address, occupying the large store and carrying a line of cutlery, silverware, souvenirs, travelers' supplies, etc., which were largely imported, but it also bought in fair quantities from domestic manufacturers. Among the directors were Wm. C. Castler and J. C. Hacker. The concern catered to the needs of the wealthy. The company formerly had a large trade and carried a fine line of up-to-date and novel articles.

Judge Holt has authorized the receiver in bankruptcy for the concern to continue the business for 20 days.

Death of C. G. Schlenker.

CINCINNATI, May 1.—C. G. Schlenker, the oldest and best known jeweler in Eaton, O., died, April 29, at the age of 70 years, after an illness lasting several months, at his home.

Deceased was born in Germany and came to this country when about 17 years old. Having learned watchmaking in the old country and having acquired a full knowledge of this work, he was successful from the time he established himself in business. For over 50 years he had carried on his jewelry store in Eaton and was known as one of Eaton's most honored and respected citizens. Aside from his interest in the local Masonic lodge he devoted his entire time to his home, church and his business.

Mr. Schlenker is survived by a widow and 10 children—five daughters and five sons. Among the latter are C. G. Schlenker, Hickman, Ky., and Lee Schlenker, Eaton, who has been in charge of his father's business for the last few months during the latter's illness. Lee Schlenker will probably continue the business.

Opticians and Jewelers of South Carolina Meet at Columbia and Elect Officers.

COLUMBIA, S. C., April 28.—This city was the seat of two conventions last week, those of the opticians and of the retail jewelers, both being held in the rooms of the Chamber of Commerce, Thursday. The holding of the two conventions on the same day was due to the fact that the membership of both organizations was to a large extent the same.

The opticians who gathered in the forenoon were called to order by the president, Gustaf Sylvan, and routine business was transacted, including the favorable action on several applications for membership. The essential part of the session related to the discussion of legislation affecting the profession. It was the general opinion that an optometry law should be passed providing for an examining board to license competent optometrists, examine applicants and issue certificates for them to practice. The conditions in other States were discussed and it seemed to be the prevailing opinion that South Carolina should not be left as a field for optical "fakers" who have been driven out of practice in other States.

The following officers were elected for the year: P. H. Lachicotte, president, Columbia; H. C. Fleming, first vice-president, Laurens; W. A. Thompson, second vice-president, Sumter; Geo. F. Mims, secretary, Edgefield; H. W. Carroll, treasurer, Bennettsville. Examining Board: L. J. Robbins, Columbia; W. F. Stricker, Chester; W. Porter Cart, Charleston. Executive Committee: R. H. Allan, Charleston; J. C. Robinson, Chester; W. E. Avery, Columbia; A. C. Strickland, Anderson. Committee on Legislation: W. E. Avery, Columbia; A. A. Odom, Greenville; R. H. Allan, Charleston. Committee on Finance: J. F. Williams, Columbia; John B. Armstrong, Honea Path; R. A. Deason, Barnwell.

The Retail Jewelers' Association met after the opticians had finished their business. Their session being an executive one was devoted principally to business routine and discussion of various trade topics.

The election of officers, which took place, resulted as follows: President, W. S. Allen, Charleston; vice-president, S. Wolfman, Darlington; secretary, H. C. Fleming, Laurens; treasurer, Peter Irlie, Rock Hill.

Members of Chicago Jewelers' Association Honor the Toastmaster of Their Banquets.

Chicago, May 1.—The Chicago Jewelers' Association gave an informal dinner and smoker, last Thursday, at the Automobile Club, which was an unqualified success. In a measure the dinner was a testimonial to William P. Williams, who acts as toastmaster at the annual banquets of the association. President F. G. Thearle made the opening address, which included the following resolution: "Resolved, That in the personality of our friend and comrade, William P. Williams, we find such rare qualities of head and heart that we hold him in the highest esteem. His abundance of humor, ready wit and brilliancy of speech have played a large part in the success of our banquets. His unselfish assist-

ance in all our arrangements and helpfulness in our plans have endeared him to all 'the boys' of the jewelry trade." This resolution was signed by all present and given to Mr. Williams. President Thearle, on behalf of the association, gave Mr. Williams a set of six sterling silver platters as a token of the esteem in which he was held. Mr. Williams responded in an able speech, after which the members and their guests discussed a good dinner and listened to good music.

About 60 guests were present.

Do You Know This Man Now Held by the Police of Holly Springs, Miss.?

The Jewelers Security Alliance of New York is anxious to learn the identity of the man whose photograph is reproduced herewith. The man was arrested at Holly Springs, Miss., last week, with a number

DO YOU KNOW HIM?

of gold rings in his possession. The police of that town are anxious to learn whether or not the articles had been stolen from some jeweler.

The rings are described as follows: One plain gold ring, stamped 14k <s>; one solitaire opal ring; a ring with an opal and two pearls, tagged 532/2100; one child's rings, three stones, tagged 051/857; one child's ring, three stones, tagged 521/745; one child's ring, set with a pearl, tagged 521 745.

Jewelers' Gold Bars Withdrawn and Exchanged at New York.

Week Ended May 1, 1909.
The U. S. Assay Office reports:

Gold bars paid depositors.....	93,278.34
Total	\$372,143.11

Of this the gold bars exchanged for gold coin are reported as follows:

April 26.....	\$74,054.35
" 27.....	66,603.83
" 28.....	66,157.19
" 29.....	40,678.92
" 30.....	15,680.51
May 1.....	15,690.57
Total	\$278,864.77

Bids Received and Solicited by Government Departments to Supply Various Articles.

WASHINGTON, D. C., April 28.—The Chief Signal Officer of the Army has received two proposals for supplying 60 prismatic field glasses: Sussfield, Lorsch & Co., \$39.90, to be furnished in 60 days, and the Bausch & Lomb Optical Co., \$42 and 90 days.

WASHINGTON, D. C., April 29.—The Purchasing Agent of the Isthmian Canal Commission is calling for proposals until May 19 for 20 eight-day clocks, 12 x 12-inch face, regulator pattern; also for 24 marine clocks, brass case, six inch dials; these are to be eight-day, to have seven-jeweled lever escapement, compensation balance, and Breguet hairspring; dials to be of dull metal, with dull, lusterless white or silvered surface to prevent glare, 5/16 to 5/8 inches of the face to be visible; cases are to be of polished cast brass and insect proof.

Bids will be opened on the same date for 12 nickel alarm clocks, about four-inch dial, intermittent alarm and attached keys

WASHINGTON, D. C., May 1.—The Commanding Officer of the Rock Island Arsenal is inviting proposals, until May 24, for supplies for the fiscal year ending June 30, 1910, and among the items called for are the following:

- For six copper case thermometers, 100 to 400 degrees F.
- For eight unset black diamonds, not less than one-half nor more than five-eighths carat.
- For two ounces diamond dust.
- For 2,000 ounces sheet silver, 92 1/2 per cent. fine, 1 3/8 x .058 inch thick.
- For 500 ounces sheet silver, 92 1/2 per cent. fine, 2 3/8 x .058 inch thick.
- For 50 ounces silver wire, 92 1/2 per cent. fine, .045 inch diameter.
- For 10 ounces silver wire, 92 1/2 per cent. fine, .044 diameter.
- For 50 ounces silver wire, 92 1/2 per cent. fine, .035 diameter.
- For 200 pounds jeweler's pink cotton.
- For 50 pounds jeweler's gold rouge.
- For 75 ounces gold, 14k., on sheets, 7 x 2 x .080 inch.
- For 12 ounces gold, 24k., in strips, not less than .065 inch thick.
- For 18 ounces gold wire, 14k.
- For 150 hollow gold balls, 14k., .10 inch diameter.
- For 55 pennyweights gold solder.
- For 100 gold joints, 14k.
- For one ounce red enamel.
- For one ounce blue enamel.
- For 30 enameled targets for distinguished pistol shot badges; back of target to be made of 14k. gold, .45 x .55 x .040 inch thick. Face to be of white enamel, lines and bull's eye to be black enamel.
- For 50 enameled targets for distinguished marksman's badges, back to be of 14k. gold, .66 x .66 x .04 inch thick.
- For 100 best silver-lined thimbles.
- For one dozen jeweler's scratch brushes, 8 inches.
- For one dozen jeweler's hand brushes, hard.
- For two dozen jeweler's hand brushes, soft.

Diamonds and Pearls

We are receiving weekly shipments. Our European representative is constantly in touch with the principal gem producing centers, and consequently we are in a position to occasionally offer lots of exceptionally fine stones at prices somewhat below what you are paying elsewhere.

☞ We carry diamonds ranging from 2 carats to 200 to the carat; also pearls in all sizes and shapes at advantageous figures.

**Morris Dubb, Schenectady, N. Y., Files
a Voluntary Bankruptcy Petition at
Utica, N. Y.**

UTICA, N. Y., May 1.—Morris Dubb, a jeweler and pawnbroker at 26 S. Center St., Schenectady, filed a petition in voluntary bankruptcy in the United States District Court here to-day. Dubb did business on the instalment plan, and inability of his customers to make their payments, he says, forced him into bankruptcy. The petition has been referred to Referee Scott at Saratoga Springs, who will call a meeting of creditors. His attorney is R. J. Cooper.

Dubb's schedule showed liabilities of \$4,977, exclusive of mortgages upon real estate, owned by him and his wife at 5 Doggett Terrace, valued at \$2,600, and mortgaged for a like amount. His other liabilities consist of wages due, unsecured claims, owing merchandise creditors and notes held by banks.

Some of the merchandise creditors are: Bertrand & Madden, \$120; Eclipse Cutlery Co., \$34; Alexander & Heller, \$231; Blum & Mendel, \$57; Aisenstein & Woronok, \$95; Joseph W. Stern, \$69; Fuchs & Weintraub Co., \$33; I. Castagg & Son, \$17; S. Galewski, \$24; Lee Lash Co., \$42; Opper Bros., \$179; Galewska & Nurenberg, \$21; M. Levitz, \$625; Eliasoff Bros., \$65; Schemerhorn & Co., \$61; Orro Dubb, \$507; Bettie Freed, \$168; L. S. Knoch, \$88; Rochester Jewelry Co., \$85; Iver Johnson, \$182; Marks & Liberman, \$24.

The Citizens' Trust Co., Schenectady, is a note creditor for \$500.

The assets scheduled by Dubb include \$437 due on contracts and \$300 in stock and about \$400 in insurance.

**Proceedings of the Advisory Council of
the N. E. M. J. & S. A.**

PROVIDENCE, R. I., May 1.—The regular weekly meeting of the Advisory Council of the New England Manufacturing Jewelers' and Silversmiths' Association on Thursday afternoon was a busy one, and several matters of importance were discussed. The tariff committee reported that it had not given up all hope of some relief being afforded before the new bill was finally passed.

The council voted to recommend to all of the manufacturing jewelers of this city, Attleboro and North Attleboro that the manufactories be closed for the annual Summer vacation between July 31 and Aug. 9, and requested that each manufacturer notify the committee on Summer vacation at once as to whether he will shut down or not, at what time and if he desires announcement thereof in the trade papers.

William A. Schofield, for the Committee on Registration of Buyers, of which Charles E. Hancock and Walter A. Ballou are the other members, reported that commencing May 1 a complete list of all the jewelry buyers arriving in this city would be kept at the rooms of the association, with the hotel at which they were stopping and also as far as possible advance dates of the coming of buyers would be on file.

The matter of the annual Summer outing was discussed at considerable length, and there was a general concensus of opinion that the Executive Committee should en-

deavor to vary the usual form of programme for that occasion as much as possible from previous years. Several projects have been under consideration, but nothing definite has yet been decided upon. The date of the outing will probably be between June 12 and 20.

**Glib-Tongued Stranger Swindles Two
Jewelers in Wausau, Wis.**

WAUSAU, Wis., April 29.—Posing as a railroad man, a smooth swindler, giving his name as R. W. Madden, fleeced two local jewelers out of watches valued at \$50. Edward Schultz, of C. F. Dunbar Co.'s jewelry establishment, lost a 21-jeweled Hamilton gold watch, valued at \$34, and H. S. Wright lost a 12-jeweled watch worth \$12.

Madden entered the Dunbar store dressed as a railroad fireman and asked to be shown some watches, claiming that he had lost his own on the day previous, while shoveling coal, and that he was required to have another before going on duty that evening. After making a selection the stranger found that he had "left his money at home," but he talked in an assuring manner of his connections in Wausau and the jeweler, desirous of being accommodating, allowed him to take the timepiece without a payment.

The same trick was worked at the Wright store, where Madden was also successful. Immediate investigation by Mr. Schultz disclosed the fact that Madden was an imposter and that both jewelers were losers.

The Wausau police have as yet secured no trace of the smooth stranger and jewelers in other Wisconsin cities are being notified to be on the look out. It is the belief of the police that the same scheme has been worked by Madden in various sections of the country.

Death of Andrew Mason.

Andrew Mason, assistant superintendent of the Assay Office, at New York, died Wednesday night of last week in the Hudson St. Hospital, New York, of pneumonia. He was formerly superintendent of the Assay Office and was well known in the jewelry trade.

Mr. Mason, who was born in Scotland, was connected with the Government service for 59 years. He was at one time at the Philadelphia Mint, and later transferred to New York, where he worked his way up in the Assay Office to the place of superintendent, to which post he was appointed during President Arthur's administration. In 1865 he was appointed melter and refiner and was made superintendent of the office in 1883 and served as such until two years ago.

By demonstrating that the use of sulphuric acid in separating gold and silver from the baser metals was just as practical as the more costly nitric acid, it is estimated that Mr. Mason saved the Government \$100,000 a year. This and other discoveries that he made while in the employ of the Government he never took out any patents for, arguing that as the discoveries which he had made were done in Government time the benefits belong to the Government.

J. B. Paxton, Sac City, Ia., recently sold his stock of jewelry to Bert Force, of Pardeeville, Wis.

Death of Jacob F. Ryser.

ST. LOUIS, Mo., May 2.—Jacob F. Ryser, one of the oldest jewelers in St. Louis, died at his home, 2192 Geraldine St., yesterday forenoon, after a very short illness.

Mr. Ryser left his store at 1325 Franklin Ave., where he had been continuously in business for 42 years, on Friday evening and went to his home. He had never been seriously ill in his long life and had felt so well that morning that he was able, in spite of his 72 years, to run and catch a car. But after he retired on Friday night he complained to his wife of pains in his back and over his heart. He experienced difficulty in breathing and said to his wife that he felt that death was approaching, but she scoffed at his fears. His distress became so great, however, that a doctor was called.

The physician found Mr. Ryser's heart very weak and afforded temporary relief to the sufferer. When the doctor returned, on Saturday afternoon, Mr. Ryser was cheerful but very weak. The doctor had been gone only a few minutes after the second call when Mr. Ryser began to sink rapidly and lost his power of speech. He died in a few minutes.

Mr. Ryser was born in Switzerland and came to America when a young man. He was married 42 years ago and shortly afterward began business. In former years he had quite a successful establishment and accumulated a snug fortune, but with increasing years he gave less attention to business.

His wife and friends urged him to retire, but he could not get his own consent to give up the active life to which he had been accustomed. A few weeks ago he yielded to the extent of advertising in THE JEWELERS' CIRCULAR—WEEKLY that he would sell his business, but when a purchaser called he relented and held on to the business which was so great a part of his life.

The funeral took place on Tuesday from the residence to Bellefontaine Cemetery and was under Masonic auspices, Mr. Ryser having been a member of Irwin Lodge.

Mrs. Ryser is conducting the business, but will shortly close it out. The deceased left no children.

**Swindler Who Visited the Jewelry
Trade of Philadelphia, Pa., Is Still
at Large.**

PHILADELPHIA, Pa., April 29.—The Horace N. Tuttle Co., 808 Chestnut St., was robbed of four diamond lockets by a man supposed to be one of the boldest "flim-flam" operators in the country, who gave the name of a large department store as a reference and then made haste to get away with the lockets. The swindler is about 34 years old, clean shaven, dressed in a brown suit, russet shoes and derby hat.

The man visited the Tuttle store and asked to be shown some heart-shaped lockets. He posed as a jeweler and regretted that he had to take round-shaped lockets instead of heart-shaped ones. Upon his departure the Tuttle Co. called up the department store given as reference and learned that the swindler had no connection with the house.

Later in the day Jos. K. Davidson's Sons, 720 Sansom St., were visited and swindled by the same man.

**Creditors of the Henry C. Wisner Co.,
Rochester, N. Y., Hold Meeting
at New York.**

A meeting of the creditors of Henry C. Wisner Co., Rochester, N. Y., was held at the Astor House, New York, Thursday, at which time about 30 creditors were present or represented by claims aggregating approximately \$5,000. The financial statement of the concern as made public was as follows: Merchandise on hand, \$58,000; accounts receivable, \$445; fixtures, \$9,555; cash on hand, \$100, and due from the estate of G. C. Wisner, \$10,534, making a total of \$79,636. The liabilities are placed at \$71,342.

Mr. Lewis, representing the Traders' National Bank of Rochester, which is a creditor for about \$35,000, stated that the bank had refused to advance any more money to the Wisner Co., and that that company was in such shape that it could not raise a dollar to pay its pressing obligations. Frank P. Wisner had had the active management of the Wisner estate, and also the management of the H. C. Wisner Co. in hand, and loaned the estate's funds to the company from time to time as the company has been in need of money, and as a result of this the estate is not able to pay the legacy, and therefore action must be taken against the company to collect the \$16,473, which will result in the liquidation of the company in some form.

Mr. Lewis, on behalf of the bank, offered two propositions—first a 50-cent cash settlement for assignment of all claims, or an alternative proposition of a straight extension of one year represented by unindorsed notes without interest.

A discussion followed, and the meeting was then duly organized with Mr. Deering, of Chas. Ahrenfeldt & Son, as chairman, and Mr. Owen, of the Crockery Board of Trade, as secretary. It was agreed that from the showing made on the paper that it would be impossible to get more than 25 cents, or at the most 30 cents, in bankruptcy.

Mr. Lewis produced about \$5,000 in currency, and advised the creditors that he would settle the claims then and there for 50 cents on the dollar. Every creditor who was present in person executed an assignment of his claim and accepted the offer.

**Creditors File Bankruptcy Petition
Against S. A. Burgoyne Jewelry
Co., Mobile, Ala.**

MOBILE, Ala., May 3.—An involuntary petition in bankruptcy has been filed in the United States Court against the S. A. Burgoyne Jewelry Co., of this city, by three local creditors, J. O. Acres, G. L. Burns and C. L. Sims. W. G. Austin has been appointed temporary receiver of the concern.

The jewelry house, which is a corporation with an authorized capital stock of \$75,000 and a paid-in capital of \$42,000, has admitted its inability to pay its debts and its willingness to be adjudged a bankrupt, so the adjudication was promptly rendered by the court. The house has been in difficulty for some time, and recently made an offer of settlement of 30 cents cash. All but two creditors accepted this, but the present action of the local creditors has

completely changed the status of the settlement, and if it is made now it will have to be in the bankruptcy court.

**Providence Manufacturers Seek Amend-
ment in Proposed Tariff Law Cover-
ing Ecclesiastical Silverware.**

PROVIDENCE, R. I., May 1.—William J. Feeley, of the W. J. Feeley Co., ecclesiastical art metal workers and silversmiths, 203 Eddy St., has been in Washington the past week, and, with the assistance of representatives of the Gorham Co. and other silver manufacturing companies, has been seeking to secure an amendment of the tariff law that will place a duty upon certain silver articles used largely in the Catholic churches of this country.

Under the bill as it passed the House of Representatives, "regalia and gems, statuary and casts of sculpture" are placed upon the free list, with this proviso: "But the term 'regalia,' as herein used, shall be held to embrace only such insignia of rank or office or emblem as may be worn upon the person or borne in the hand during public exercises of the society or institution, and shall not include articles of furniture or fixtures, or of regular wear and apparel, or personal property of individuals."

This section was left untouched by the Senate Finance Committee, and Mr. Feeley and those who are working with him wish to have stricken out the words "or borne in the hand," so that chalices and other articles of silver used in the 7,000 Catholic churches of this country and by the 14,000 Catholic priests shall be protected by a duty, as are the products of the silver workers in other lines.

Mr. Feeley returned to this city this morning. He said he pointed out to the Finance Committee that the American manufacturers, in addition to paying a price for labor twice as high as the European manufacturers, are obliged to purchase jewels upon which a heavy duty has also been paid. The foreign manufacturers, in addition to securing labor at half the expense of their American competitors, do not have to pay a duty on jewels and precious stones, and the result is that unless a tariff is placed on their wares they can sell articles for from 40 to 50 per cent. less than the same goods can be made in this country.

Mr. Feeley said there are six concerns in this country making this line of goods now. They are located in Cincinnati, Philadelphia, Brooklyn, New York and this city. Here the Gorham Mfg. Co. and the William J. Feeley Co. are engaged in the work and in New York the Tiffany Co. has a large shop.

**Cincinnati Creditors File Bankruptcy
Petition Against J. F. Bennett,
Chattanooga, Tenn.**

CHATTANOOGA, Tenn., April 28.—A petition in involuntary bankruptcy was filed last week in the United States Court against J. F. Bennett, a jeweler and watchmaker at 927 Market St., charging that Mr. Bennett had committed an act of bankruptcy when he announced his inability to pay his debts and offered to settle on a basis of 33½

cents on the dollar. The petition was filed by the following Cincinnati creditors: Richter & Phillips, \$300; Lindenberg, Strauss & Co., \$247; Lindner & Co., \$33; A. G. Schwab & Sons, \$244; Hahn & Oppenheimer, \$364. On their petition C. W. Robinson was appointed temporary receiver by D. L. Grayson, the referee in bankruptcy.

The creditors claim that although Mr. Bennett made an offer of settlement of 33½ cents on the dollar that this was not accomplished, but part of the goods have been sold and no payments made to the creditors.

**Alabama Retail Jewelers Hold Annual
Meeting at Montgomery and
Elect Officers.**

MONTGOMERY, Ala., April 29.—The members of the Alabama Retail Jewelers' Association met in the auditorium of the Commercial Club, this city, this morning, and held a very enthusiastic meeting. Though the session was short, considerable business was transacted, and the members were thoroughly satisfied with what had been accomplished.

About 20 jewelers from various parts of the State were in attendance and participated in the informal discussion on trade conditions and suggested reforms. A good part of the time was taken up in considering matters relating to trade protection through legislation and in other ways. General confidence in present conditions were expressed by the speakers, who urged the adoption of measures looking for the uplifting of trade in general, as well as remedying the worst features of competition. Emphasis was placed upon the necessity of the association increasing its membership.

The jewelers adjourned early in the afternoon after electing A. W. Lebron, of this city, president to succeed R. Heine, Talladega, who was elected secretary. J. B. Whitlock, of Eufaula, was named vice-president, and J. W. Langley, of Sylacauga, treasurer.

The Alabama Optical Society later held a session in this city.

**Members of the Michigan Retail Jew-
elers' Association Hold Session
at Saginaw.**

SAGINAW, Mich., April 28.—Members of the Michigan Retail Jewelers' Association have begun their session, which opened in the Elks temple this afternoon. Members began to arrive yesterday, but the majority did not get here until noon to-day. It seemed to be believed by most of the jewelers that the business accomplished by the association would not be of a very important character, nearly all the members having come here for the purpose of discussing informally trade questions with their brother jewelers and having a pleasant time. This afternoon will be devoted to trade topics.

Besides the banquet, which will be given in the evening by the local association, the Noble Order of Ku Kus propose to hold an initiation ceremony and introduce features of general interest to those who attend.

J. A. Brock, Seneca, S. C., has moved into larger and more attractively furnished quarters in the Palmeto Hotel building.

News Gleanings.

H. Mahler's Sons, Raleigh, N. C., have sold their branch store in Durham, N. C.

L. E. Leeh, Seamon, Kans., has opened a store at Columbus, and expects to open another in western Kansas.

Extensive alterations and improvements are being made in the old Barbour Silver Plate Co.'s factory on Colony St., Meriden, Conn. It is intended to raise the roof of the building at the northeast corner of Cross and N. George Sts. an extra story.

Martin Coykendall, who conducts a store at 458 S. Selina St., Syracuse, N. Y., made a mistake while taking some cough medicine, last week, and drank from a bottle of disinfectant instead. As the latter contained no strong poison, the effects were not serious.

The S. T. Little Jewelry Co., Cumberland, Md., has purchased the entire stock of Chas. T. Rogers, 180 Virginia Ave., in South Cumberland, and will continue the business at the same place under the management of R. H. Webb, who has been with the concern several years as manager of the South Cumberland store. The S. T. Little Co. was incorporated in 1902, having succeeded to the business of Samuel T. Little who first opened a store in 1851.

Justice Kellogg, at Amsterdam, April 7, decided the suit of Henry T. Roberts and Albert Ziehme, Philadelphia, against Katherine C. Terwilliger, of that city, in favor of the plaintiffs. The action was based upon a series of accepted drafts issued by the defendant in payment for jewelry. Mrs. Terwilliger denied the authority of her agent, F. G. Terwilliger. The action also involved the validity and construction of a printed contract used by the Philadelphia firm of wholesale jewelers.

Samuel Jacobsen, who said he was a jeweler of Baltimore, was held by the police of Washington, last week, to answer a charge of a butcher named PfutsoPKki, who declared Jacobsen was the man who obtained \$20 from him by a clever trick some months ago. The complaint alleges that while the prisoner was in his store a confederate entered and offered for sale a pair of earrings for \$400. Jacobsen, the butcher says, bought the earrings, and later asked him to loan \$20 on them. He said he loaned the money, and after the strangers disappeared he learned that the earrings were of little value. Jacobsen denied the charge.

The first annual banquet of the Jewelers' Employes Social League, Rochester, N. Y., was held, April 21, at Powers Hotel, and proved exceedingly enjoyable to all who participated. After an elaborate menu the members and guests were entertained by a number of speeches as well as by baritone and tenor solos. President G. H. Brockway was toastmaster, and among the speakers were S. L. Ettenheimer, Chas. H. Sunderlin and Philip Present, while E. J. Scheer distributed prizes for the bowling tournament of the League just ended. On this occasion the League had the members of the Retail Jewelers' Association as their guests. The league is now preparing for another successful season and tournament in the Fall. The new officers are: President, H. A. Zimmerman; secretary Chas. H. Haskins; vice-president, G. F. Schramm,

and treasurer, E. C. Christman, and the banquet committee who had charge of the last affair was composed of A. H. Manchester, chairman; H. A. Zimmerman, O. F. Schramm, G. H. Brockway, E. C. Christman and Emanuel Present.

Death of James Frank Townley.

Friends in the jewelry trade of the east learned with regret, last week, of the death of James Frank Townley at St. Barnabas Hospital, Newark, April 26. Mr. Townley, who was a traveling salesman in the employ of Cross & Beguelin, 23 Maiden Lane, was stricken with paralysis at Hagerstown, Md., just as he was ending his holiday trip about a week before Christmas. Later he was brought to the hospital in Newark, where his death occurred.

Mr. Townley had been identified with the jewelry business practically his entire lifetime and had many friends both in this city and elsewhere, who join in extending their sympathy to the bereaved relatives. He was born at Connecticut Farms, N. J., Sept. 7, 1849, and was first employed by Butler, McCarthy Co., Philadelphia, and later with J. T. Scott & Co., with whom he remained for 15 years. He was then for a time engaged with the Ripley, Howland Mfg. Co. and finally entered the employ of Cross & Beguelin, with whom he had been connected for the past 10 years.

The deceased was a member of the Jewelers' League, the Brotherhood of Traveling Jewelers and Commercial Travelers' Accident Association. He was fond of athletic sports and in his younger days was a member of the Varuna Boat Club and of the Manhattan Athletic Club.

He was never married and is survived by a sister who lives at Poughkeepsie.

New Orleans, La.

W. E. Taylor, A. J. Derbes and W. M. Bowers recently incorporated the W. E. Taylor Co., with a capital of \$10,000, to do a general business of buying and selling watchmakers' supplies. The company has purchased the tool and material department of the business of Leonard Krower, which it will continue in the same building, 536-538 Canal St.

Hattie Cornier, a negro girl, was recently charged with stealing a diamond and pearl ring from her mistress, and the police claim that she sold it to a negro jeweler named Oleander at 8716 Pop'ar St., as both this and a scarf pin alleged to have been stolen by the girl were found there. The jeweler was arrested on the charge of receiving stolen property, but claimed he had no knowledge of the fact that the goods were stolen.

Work on Jewelry Designing at the Public Drawing School of Newark, N. J.

The 27th anniversary commencement exercises of the Sara A. Fawcett Drawing School (Public Drawing School), at Newark, N. J., was held last Thursday evening, April 29, at Wallace Hall, 111 Halsey St., and at the close of the commencement exercises an exhibition of the year's work of the school was opened to the public at the school building on Academy St. The work in jewelry designing and modeling on exhibition shows that much progress has been made during the past year and that Newark has advanced in the right direction towards the education of young men to become manufacturers of artistic jewelry. The exhibition this year was much better than on any previous occasion and was the cause of much favorable comment among the manufacturing jewelers of Newark because of the skill shown in the execution of the articles displayed.

The exhibit consisted of about 50 pieces, including rings, fobs, brooches and pendants worked in silver and set with semi-precious stones. Among the designs employed was the lotus leaf and scarab. The class this year consisted of about 25 young men, who are under the instruction of Mr. Grasmok, a practical jeweler.

All the work done by the students is original in that no designs are copied from other pieces of jewelry or drawing. It is the desire of the school to foster and develop the ability of the students in original work, and each student is urged to indicate his ability by original drawings and their execution in metal. This manner of procedure has developed the artistic taste of the students, as shown by the exhibits of their work.

Mr. Grasmok, who is the instructor of the class in jewelry designing and manufacturing, is a man of well rounded experience in both teaching and making jewelry. It is his aim primarily to develop the aesthetic side of the pupil's nature and to help to bring him to a higher level of appreciation of the artistic in jewelry designing and workmanship.

A prominent manufacturing jeweler of Newark, in speaking of the exhibit, said that the work was done in a most excellent manner and that it showed artistic taste. He said that this movement was in the right direction, and that he was gratified to see the growing interest which is being manifested by the students, many of whom are employed during the daytime in the different jewelry manufacturing factories in Newark. It was thought when the school was first opened that the course in jewelry designing and manufacturing would accomplish marked results, and this year's exhibition shows that that conjecture was not erroneous. The work exhibited shows individuality of artistic temperament and a grasp of the trade which is most gratifying both to the instructor and to the manufacturing jewelers of Newark as well.

The school started with one room in the Free Drawing School building, but the increased demand has made it necessary to add a second room, both of which are fully equipped with every necessary appliance for successfully carrying on the work, which is proving so meritorious.

Pittsburg.

Campbell Douglass, with E. P. Roberts & Sons, has gone to Los Angeles to engage in the real estate business.

Henry A. Barrett, who is in Battle Creek, Mich., for his health, is reported to be enjoying his stay there immensely.

A. Deinert, Jr., engraver, now occupies room 315 in the Penn building, 708 Penn Ave., in the quarters of I. Eisenmann & Co.

Frank Aul, a member of the firm of the George B. Barrett Co., was passing the cigars last week because of the stork having visited his house, bringing a baby boy.

Out-of-town jewelers were in Pittsburg, last week, buying stock as follows: L. L. Swan, New Castle; Harry Blosser, New Kensington; F. B. McKinley; F. H. Hays, Washington; Thomas Tomlinson, Clarion.

M. A. Burston, who recently bought the stock and fixtures belonging to J. F. Murphy, Dawson, is moving them to St. Mary's, W. Va., where he is opening a new store. George P. Christy was the receiver for Mr. Murphy.

James Killen, who was sentenced to prison for life, and pardoned, for the killing of Mrs. Paul Ridert of Tarentum, as told in the last issue of THE JEWELERS' CIRCULAR-WEEKLY, was released from the Western Penitentiary last week.

The Hardy & Hayes Co. donated a handsome silver vase and I. B. Isaacs a marble statue, which were among the prizes at the euchre given last week by the *Chronicle-Telegraph* for the benefit of the milk fund for the poor babies of Greater Pittsburg.

A new trial was last week refused Joseph C. Wasson, well known to the trade, who was recently convicted of bribery, growing out of the alleged grafting among the members of Pittsburg councils, of which body he was the chairman of the finance committee. Wasson will be sentenced to-day in criminal court.

An Italian, who gave the name of George Bell, was arrested at the Union Station by Detective Richardson and locked up in jail charged with being a suspicious person. The man had on his person 10 watches, two brooches studded with diamonds, some rings and other jewelry. The Magistrate committed him to jail for 10 days until his record can be inquired into.

A great many merchants are visiting John M. Roberts, inquiring regarding the contents of the report of the committee of the Pittsburg Division of the Pennsylvania Retail Jewelers' Association upon the plan to stop price cutting. Mr. Roberts says that the report is being prepared for the printers, and that it will be submitted to the watch companies for approval within a week or two.

Some of the local jewelers were given a scare last week because of a threatened flood. A. C. Gaul of Sharpsburg was ready to move his stock, for the water appears to reach his place much easier than most other jewelry establishments in western Pennsylvania. The rivers, however, only rose to the danger line, without doing much damage. Severe storms have been visiting this section during the last week.

According to information just received here from New Philadelphia, O., it has been learned that A. J. Harris, whose as-

signment was noted in the last issue of THE JEWELERS' CIRCULAR-WEEKLY, last summer gave a chattel mortgage for \$7,000 to his father-in-law. If what local creditors say is true, the matter was never reported to the trade. It is not known here what Harris' assets and liabilities are, but local creditors do not expect to get much, in view of the existence of the mortgage referred to.

Secretary C. S. Wiley of the Pennsylvania Retail Jewelers' Association, is preparing a souvenir program, which will be issued by the association on the occasion of its next convention, which meets in Harrisburg in June. Mr. Wiley says that as the Pennsylvania association meets so close to that of the West Virginia Retail Jewelers' Association convention, it is doubtful if any Pittsburgers will be able to go to Wheeling to attend it, but in the meantime he will endeavor to get up a party to go from Pittsburg. He himself will endeavor to attend the meeting, to present the good wishes of the Pennsylvania association.

The Jewelers' 24 Karat Club of Pittsburg will give their first smoker and informal function to-morrow night in the Dutch room of the Fort Pitt Hotel, and the affair will be open to members of the club only, as it is desired to "talk shop." Some matters of a very important nature are to be discussed, the nature of which have not as yet been made public. A buffet lunch will be served and short speeches will be delivered by members of the trade. The membership of the club is being increased almost daily, the club now having more than 100. It is expected that the full membership will be present. A musical program also will be given and an enjoyable time is assured.

Announcement is made of the dissolution of the co-partnership known as West, White & Christy, 708 Penn Ave., George P. Christy retiring from the firm May 1. The firm has been reorganized and the name changed to West, White & Co., the members of the firm being George L. West and George W. White. The old firm was organized in 1903, at which time Mr. Harman retired from the partnership. Mr. Christy buying out his interest. Mr. Christy retires because of ill health and is now endeavoring to sell his property in this city. He expects to leave here before Summer. Mr. Christy has not decided where he will go, but he must seek a climate more congenial to his constitution. He will be found at the store, however, for the present.

Fifteen years ago George W. Smith, a jeweler at McDonald, Pa., one of Pittsburg's nearest neighbors, lost his hearing, but last week it was suddenly restored to him. Mr. Smith was startled by the sudden return of the use of his ear drums and rushed from his store, thinking that some accident had befallen his establishment. The news of his hearing having been restored was received with joy on the part of his numerous friends in this city. Ear specialists many years ago told the jeweler that his ear drums were totally destroyed, and Smith never expected to have the use of them again. But now he can hear the voices of the members of his family, can enjoy conversing with his friends and hear

the sweet strains of music. Mr. Smith cannot explain the cause of his restored hearing, which returned while he was reading.

Buffalo, N. Y.

G. R. Travis, manager of the Buffalo branch of the Geneva Optical Co., has permanently moved his family to this city from Geneva, N. Y.

L. Van Allen, of the Van Allen Co., in the Brisbane building, left, last week, for a week's trip to Waverly, N. Y., and places in northern Pennsylvania.

Reinseh & Kreinheder, wholesale diamond merchants, will shortly install a new electric burglar protection system in their offices in the Brisbane building.

M. S. Cole, formerly a traveler for Chas. F. Damm, has left the road for the Summer and will engage in work in the city. He will return to the jewelry business when the season opens in the Fall.

A negro waiter was recently arrested in G. F. Hahnenann's jewelry store, 23 William St., while trying to sell a gold badge to be melted. The prisoner said he found the badge on the street. It is said the badge belongs to Chief of Police Edward Kern, of Los Angeles.

Among the jewelers who recently visited the Buffalo jewelry market were: F. M. Fitch, Ellicottville; C. F. Hurd, Medina; L. M. Derby, Albion; I. Traub, Niagara Falls; J. R. Graves, Corry, Pa.; C. C. Bradley, Batavia; C. G. Brown, Lockport; John Hunt, Delevan.

I. B. Dreyfus, who represents the Buffalo Chain & Ring Co., is at present traveling through Minnesota and the Dakotas. L. Block, of the same firm, leaves in a few days for a two weeks' trip through Ohio and the central States. He has just returned from a trip to Illinois and Iowa.

A recent report from Bradford, Pa., announces the death of Mrs. Maude B. Kerr, wife of W. J. Kerr, a jeweler of Smethport, Pa. She was found lying in a few inches of water of Tuna creek, near Bradford. Mrs. Kerr is survived by her husband, four children, her mother, one brother and one sister.

Waldemar J. Schultze, who formerly conducted a jewelry store at 1098 Broadway, recently sold his business to Arnest & Goldberg. Mr. Schultze will probably retire from the jewelry business to look after his large real estate interests. He recently built a handsome \$10,000 brick business block on Broadway, and will have an office in that building.

A recent report from Hornell, N. Y., says that a heavy 38-caliber bullet crashed through the office window of Charles McGrady, an optician occupying the second floor at 143 Main St., in that city, and imbedded itself in the wall. The bullet passed within a few inches of Mr. McGrady's 12-year-old son, who was the only occupant of the office at the time.

On a charge of larceny and burglary George C. Fowler, 22 years old, was arrested, last week, by Patrolman Russell. The police have been waiting for Fowler for more than a year. On the night of Nov. 15, 1908, Fowler, it is charged, broke into Young & Debus' jewelry shop, 184 E. Genesee St., and stole silverware valued at

Manufacturing Jewelers

NEW YORK OFFICE: 87 MAIDEN LANE

about \$100. He is also accused of other robberies. All the stolen property was recovered by the police at Bellevue.

A. E. Sipe, diamond importer in the Brisbane building, is the proud owner of a very handsome diamond ring specially made for him by his brother, J. C. Sipe, a prominent jeweler in Indianapolis, in honor of the recipient's taking the 32d degree at the Masonic Consistory recently held in Buffalo. The diamond, weighing a carat and a half, is set in the breast of an eagle with wings spread. On either side of this design are the *Rose Croix* and the *Sign of Perfection*, with the 32d degree engraved on the side.

Fred C. Dreher, justice of the peace of Middleport, N. Y., filed a petition in voluntary bankruptcy in the United States District Court, Buffalo, recently. Mr. Dreher conducted a jewelry store in connection with other lines of stock King & Eisele, wholesale jewelers of this city, were named among the creditors for an account of \$1,800. C. F. Damm was another Buffalo jeweler listed among the creditors, but his account was for only a nominal sum. The liabilities total \$2,408.29. Dreher has no assets but his clothes, he says.

Abe Schapiro, 19 years old, who says he is a watchmaker and that his specialty is cleaning jewels, was arrested by Detectives Burns and Morgenstern, of Buffalo, Saturday night, on the charge of stealing a diamond ring from Mrs. Ferdinand, of this city. Schapiro was hired by Mrs. Ferdinand to clean some diamonds. She missed a ring and the prisoner is accused of having substituted for it one with a paste diamond. The police claim they afterward found the real ring just outside the woman's house.

In trying to prevent his wife from committing suicide Saturday morning, Joseph Roth, a jeweler of 1929 Niagara St., was severely burned about the hands with nitric acid. Mrs. Roth succeeded in swallowing some of the acid and is in a serious condition at her home. The husband knocked the phial from her hands, but in doing so some of the acid spilled upon his hand. He called Dr. Samuel A. Moore, who gave the woman an antidote and Roth applied something to his hand. Mrs. Roth refused to go to a hospital and is being treated at her home.

Comerford & Bush are now established in their new store at 134 Seneca St. They were formerly located at 1645 Broadway, but took advantage of Paul Foerster's retirement from the jewelry business in Buffalo to secure his store. They will have charge of the watch inspections for various railroads in this city. Mr. Foerster left town, a few days ago, for California, where he will spend some months in search of better health. Frank Ehrenfried, who conducted a jewelry store near Comerford & Bush, on Broadway, has leased the former's store, 1627 Broadway, and is now located there.

A very clever swindling scheme, worked in Buffalo, last week, had for its victim the Buffalo Optical Co., 532 Main St. The telephone was the medium, and out of the coup the swindler or swindlers obtained \$100 worth of marine glasses. The optical company received a telephone message purporting to be from the Great Lakes Towing Co., and asking that four pairs of

marine glasses of a special make be held ready to be called for and charged to the towing concern. When a young man presently called and represented himself as being from that company, the glasses were given to him without hesitation. Later when the towing company received the bill it was explained that no one had ordered the glasses. The police were notified.

Philadelphia.

Jas. R. Gleason, of Robbins & Appleton, New York, was among the visitors, last week.

E. J. Kulp, Skippack, Pa., is receiving the sympathy of friends in the trade on account of the death of his wife.

William Kinna, of the Elgin National Watch Co.'s New York office, was a visitor to this city during the week.

Thomas Jones, recently with John Wanamaker, has accepted a position in the jewelry department of W. Snellenburg & Co.

William Ross, formerly with Joseph B. Bechtel & Co., 725 Sansom St., was visiting friends in this city during the past week.

A. Jakmit, formerly with Strawbridge & Clothier, has accepted a position with R. M. Cooper & Son, watchmaker's supplies, 721 Sansom St.

It is reported that Charles H. O'Bryon and A. J. Le Jambre were among the party capturing the small whale at Atlantic City last Wednesday.

William Kline, Woodstock, Va., is taking a course at the F. W. Schuler's Horological School, Broad and Somerset Sts. Mr. Kline has a jewelry store in Woodstock, Va.

Charles Dau, Jr., son of Charles Dau, jeweler, 6204 Germantown Ave., has entirely recovered from injuries received, having been run over by a wagon loaded with bricks.

B. Trexler, messenger for several years from Allentown, Pa., has given up this line of work. He will now have charge of the business of his father, a candy manufacturer.

Joseph Fussman, a jeweler of 146 S. Burlington St., Gloucester, N. J., has bought a cigar store at 144 S. Burlington St. Mr. Fussman will take charge of both stores personally.

Jacob Moock, son of Otto T. Moock, manufacturing jeweler, 809 Sansom St., has purchased a home at Logan, Pa. Mr. Moock is traveling for a well known jewelry house in Philadelphia.

S. B. Enos, with the Bell Telephone Co., well known to the jewelry trade, has been on a business trip through north and south New Jersey. Mr. Enos has charge of the watch, clock and meter repairing for the company.

The jewelers on 7th St., below Sansom St., are getting ready to vacate their many suites, the Curtis Publishing Co. having purchased the property they now occupy, where this company will erect a handsome new building.

F. B. Wallen, Camden, N. J., has been again elected a trustee of the Second Presbyterian Church of Camden. Mr. Wallen has served several years as an officer of this church. He is also identified with several other departments in this church.

The Cape May Yacht Club opened its

club house Saturday. Several members of the Jewelers' Club went down in their motor cars. Among those in the party were L. P. White, A. J. Le Jambre, William Long, J. E. Cadwalader, J. Warner Hutchins and others.

William P. Gilpin, who, for many years, has been associated with the Bailey, Banks & Biddle Co., visited his father, William R. Gilpin, of Elkton, Md., last week, before sailing for Europe. Mr. Gilpin will spend three months abroad in the interests of his firm, where he will visit the leading cities of Europe.

Buyers who visited this city during the week included: E. K. Bean, Lansdale, Pa.; D. H. Krause, North Wales, Pa.; A. M. Kendall, Millville, N. J.; Robert Beitel, of I. C. Beitel & Son, Catasauqua, Pa.; H. B. McFarlan, East Dowingtown, Pa.; George K. Ware, Atlantic City, N. J.; C. K. Weidel, Trenton, N. J., and Charles Feil, Wilmington, Del.

George Russell, of M. Sickles & Sons' factory department, 726 Chestnut St., was married Tuesday evening, April 27, to Miss Ella A. Toppin, at the residence of the bride's father, 25th and Diamond Sts. Mr. and Mrs. Russell will reside in West Philadelphia. Mr. Russell has been in charge of the factory department for several years.

A wedding of more than ordinary interest to the trade was that of Miss Tillie Arlene Bittner, daughter of Mr. and Mrs. Wilson J. Bittner, of this city. The nuptials were celebrated last Wednesday at high noon, at the home of the bride's parents, 343 N. 8th St., when Miss Bittner became the bride of William H. Dewar, a member of the Pooley Furniture Co., of Philadelphia. Miss Bittner has long been identified with the advertising department of the Bailey, Banks & Biddle Co., and her association with this house was the most important chapter in her career. She had entire charge of the publicity bureau of this firm, which spends \$100,000 in advertising in the year. Miss Bittner proved that the firm's confidence in her was not misplaced. Miss Bittner accomplished much in both her social as well as her business relations. She was a student in every way and was always winning fresh laurels. Her favorite recreation was fencing, and in this graceful sport she was past master in the art. Mr. and Mrs. Dewar will spend their honeymoon in the south and will return to Philadelphia about the middle of May.

Jewelers returning from the Oklahoma Retail Jewelers' Association's convention on the "Katy" flier over the M., K. & P. R. R., leaving McAlester on Thursday after the convention, were delayed 12 hours in getting to St. Louis, and were fortunate in escaping with their lives. When this train was within 66 miles of St. Louis, or at a station called Augusta, on the Missouri river, it was discovered that about 40 tons of rock had fallen on the track. It was necessary for the train to back up as far as New Franklin, Mo., a distance of about 188 miles, and then go by way of Moberly and into St. Louis over the tracks of the Wabash, the train arriving in St. Louis at seven in the evening instead of seven in the morning. This caused much inconvenience to those returning to St. Louis, especially the eastern representatives.

Providence.

G. S. Melville, with D. Wilcox & Co., is in the far west.

Mr. and Mrs. Leopold Dimond returned, Thursday evening, from an extended southern trip.

R. J. Wilson has been calling upon the western trade of the Chas. E. Hancock Co., of this city.

C. Fred Munroe has been on an extended trip through the west for George M. Baker, of this city.

Alfred J. Moss has been calling upon the western trade of the Ostby & Barton Co., the past week.

Irving Looker, New York representative of the Providence Stock Co., has been in the city the past week.

The Franklin H. Kalbfleisch Co., New York, has opened a branch office at 221 W. Exchange St., this city.

Mr. and Mrs. Frank Aldrich, who are touring in southern Europe, were in Athens, Greece, when writing home last.

J. Perry Carpenter has just registered with the Public Roads Commission his new 40-horsepower White automobile.

R. H. King has returned from a successful trip in the extreme northwest in the interests of the Ostby & Barton Co.

Horace L. Manchester has been appointed a member of the committee to erect a new building for the Barrington Yacht Club.

Irving B. Davis has taken charge of the New York office, at 13 Maiden Lane, of the George L. Vose Mfg. Co., of this city.

John H. Mather, manager of the Chicago office of the George H. Fuller & Son Co., is a visitor at the firm's factory at Pawtucket.

John Drake, New York representative of the R. F. Simmons Co., Attleboro, was registered at the Crown Hotel, this city, last week.

The engagement was announced, last week, of Miss Eleanor Lowe, daughter of the late Edwin Lowe and Charles Sturgis Carpenter.

Mrs. Cornelius C. Howell, Knoxville, Tenn., has announced the engagement of her daughter, Helen, to Frederick A. Otis, of this city.

R. Grode, formerly for several years a manufacturer of jewelers' findings, is now perfecting a new-style snap for small neck chain fastenings.

John A. Corey, assistant in the stamping room at the Gorham Co., has the sympathy of a large circle of friends in the death of his wife, last week.

William F. Leeder arrived home, last week, from Europe, where he has been for a couple of months in the interests of Leeder & Bernkopf.

The regular quarterly dividend of 1½ per cent. on the preferred stock of the United Wire & Supply Co., of this city, has been declared payable.

B. A. Ballou & Co., of this city, has opened a Chicago office in room 601, Columbus Memorial building, which will be in charge of C. E. Pettit.

Benedict Lederer, of the S. & B. Lederer Co., of this city, was in Philadelphia, last week, in connection with a new taxicab company in which he is interested.

Frank Egger, of Esser & Co., who has been an inmate of the Attleboro Sani-

torium for several weeks, returned home, last week, much improved in health.

The Frank E. Guild Co., of this city, has opened a western office in room 612, Columbus Memorial building, Chicago, which will be in charge of T. C. Jacobs.

Mayor Henry Fletcher addressed the La Salle Academy Alumni Association at the Crown Hotel, and the German-American Alliance of Rhode Island, Monday evening.

Horace M. Peck, manager of the Manufacturing Jewelers' Board of Trade, was in Boston, the early part of last week, on business in connection with the association.

Samuel M. Nicholson and Arthur W. Dennis were elected vice-presidents of the Rhode Island Society for the Prevention of Cruelty to Animals at its 39th annual meeting, on Wednesday.

The employes of the Taylor Card & Box Co. held their second dance of the season in Fay's Hall, Friday evening. There was a large attendance and the affair was successfully carried out.

Charles H. Barber, who has conducted a jewelry store in the Martin House, West-terly, for some time, died, Sunday evening, April 25, from a relapse of pneumonia. He was about 45 years of age.

John A. Stone was one of the judges at the big indoor meet of the Armory Athletic Association, Thursday evening. The 34 prizes were furnished by the silverware department of the Shepard Co.

The Atlantic Importing Co. is a new concern that has started at 65 Atlantic Ave., and is introducing a full line of rings, scarf pins, brooches and novelties in Brazilian beetles daintily mounted.

Frank Doran, brother of John C. Doran, of J. C. Doran & Sons, was taken ill with cerebral hemorrhage at their factory on Chestnut St., last week, and was taken to the Emergency Hospital for treatment.

Charles E. Sutton, formerly with McRae & Keeler, Attleboro, has accepted the position of New York representative for Hutchison & Huestis, of this city, in place of L. Lawrence Stern, who has resigned.

Everett I. Bowers, doing business under the name of the Nonpareil Brass Co., has been attached by the Post & Lester Co., Boston, for \$100, covering stock, machinery, tools, etc., in the shop at 143 Summer St.

Tucker & Norton have closed out their retail jewelry and novelty store at 597 Westminster St., corner of Franklin St., which they have been conducting under the style of the Coast Co., because of expiration of lease.

William T. Murphy, superintendent of the Standard Machinery Co., of this city, and Miss Alice Sweeney were married, a few days ago, at St. Paul's chapel, Edge-wood, and are enjoying their honeymoon at New York and Atlantic City.

Stillman C. Davis is to represent the Metal Products Corporation, of this city, in New York, with an office at 611 Broadway. He has been representing the company in this vicinity for some time, having entered the firm's employ as an assistant in the stock room about a year ago.

Among those who attended the launching at East Greenwich, Tuesday, of Clarence M. Dunbar's new yacht *Artmar*, which is to be the flagship of the Rhode Island Yacht Club this season, were Capt. and Mrs. G. H. Sykes, Mr. and Mrs. Frank T. Pearce,

Aldredge G. Pearce and Arnold C. Messler.

The case against Frederick M. Baker for the alleged theft of \$984.60 worth of gold scrap and filings from the S. B. Champlin Co., April 16, was called before Judge Rueckert in the Sixth District Court, Friday, the defendant having pleaded not guilty, and was continued to May 7.

A meeting of the executive committee of the Manufacturing Jewelers' Board of Trade was held at the rooms of the association in the Wilcox building, Thursday afternoon, at which considerable routine business was transacted. This committee consists of Robert E. Budlong, Everett L. Spencer and Alfred K. Potter.

A hot water boiler exploded in the manufacturing jewelry establishment of the Marden & Kettley Co., in the Manufacturers' building, 101 Sabin St., Saturday forenoon. The explosion caused a roar that sent all the persons working in the building out into the street on a run. The shop was flooded with water, while every window was blown out. No one was hurt, and no estimate was made as to the damage done.

Among those who attended the Economic Club's banquet at the Churchill House, Friday evening, were Mayor Henry Fletcher, Frederick W. Aldred, John F. Brady, Arthur W. Claflin, William P. Chapin, George H. Holmes, A. L. Aldred, William H. Thurber, Frederick C. Lawton, William A. Wilkinson, George B. Champlin, George S. Champlin, Ralph S. Hamilton, Edward F. Kent, Fred D. Carr, Frederick A. Ballou, Harry M. Mays and Harry Cutler.

Among the foreign importations received through the Providence Custom House, last week, were the following: From Bremen, 13 packages of imitation precious stones and one package of manufactures of metal; from Hamburg, one package of silverware and 11 packages of manufactures of metal; from Havre, two packages of manufactures of metal; from Liverpool, one package of silverware and two packages of manufactured metals; from London, one package of imitation precious stones.

A. W. Myers, of the Canadian Jewelry Importing Co., Winnipeg, Man.; Messrs. Davis and Evans, representing Butler Bros., New York and Chicago; G. M. Braham, of A. & J. Plaut, Cincinnati, O.; Messrs. McMurphy and Walters, representing Marshall Field Co., Chicago; H. Weinrich, of J. A. Schwarz & Co., Philadelphia, and Clarence Hamberger, of H. B. Claflin & Co., New York, have been in the city during the past week, looking at goods, and have placed several good orders.

G. Elwyn Wilbur, who has been bookkeeper for the Frank E. Guild Co. and their predecessors for several years, died, Friday night, at his home, 176 Dudley St., this city, in his 62d year. He was one of the best known and most expert bookkeepers in this city, and was employed in that capacity for the B. K. Smith Co. for many years. When that concern was succeeded by Peacock & Guild Mr. Wilbur remained with the firm, and was also retained when the firm became the Frank E. Guild Co.

The falling of a derrick on the addition to the James C. Doran & Sons' building on Chestnut St., which is in course of construction, and the crashing of the huge timber through the roof of the Sterling Silver Mfg. Co. building, a few days ago, caused

considerable excitement in the vicinity and occasioned the removal of Ernest Lawson, an employe in the factory, to the Emergency Hospital with a slight scalp wound. The injured man was about his work in the factory when the timber crashed through the roof above him, and the pieces of the wreckage struck him on the head, inflicting a wound which necessitated Dr. W. C. Sears taking three stitches.

The jury which had been considering the validity of the will of Edgar L. Logee, of the manufacturing jewelry concern of E. L. Logee & Co., since March 17, and which began deliberations at 11:25 Tuesday morning, April 27, reported a disagreement at midnight that night, and was dismissed by Judge Christopher M. Lee, of the Superior Court, before whom the hearing had been held. The jurors were out over 12 hours considering the mass of evidence presented to them during the trial, which was in progress six weeks. The trial is the longest ever held in this State to test the validity of a will. The testator, Edgar L. Logee, executed a will, June 12, 1907, under the provisions of which he left two-thirds of the income of an estate estimated to be worth \$75,000 to \$100,000 for the benefit of his widow, and one-third to his daughter, Belle T. Martin. Mrs. Martin contested the will on the ground of her father's alleged unsoundness of mind at the time it was made, and she also charged that Mrs. Logee exercised undue influence over her husband in the disposition of his property.

North Attleboro.

Donald LeStage has gone on his western trip.

Fred S. Gilbert left last week for a short western trip.

Herbert Sturdy, Jr., is expected back from Europe in a short time.

Mr. and Mrs. Frank Sturdy have returned from a trip through the south.

W. C. Sherman is on a western trip in the interests of the H. D. Merritt Co.

William H. Bell left Sunday on a short western trip in the interests of his concern.

John E. Tweedy has recovered from his recent illness and is again able to be out.

James P. Black & Co. have moved their office to the Ralston block on Washington St.

Ernest T. Wilson is making a western trip in the interests of G. C. Hudson & Co.

Frank Whiting started on a western trip in the interests of Whiting & Davis last week.

E. I. Franklin & Co. resumed operations last Thursday after a 10-day shutdown.

Fred Ward assumed charge of the New York office of Riley & French last Saturday.

The Plainville Stock Co. resumed work last Thursday after a few days of stock taking.

William Barlett has returned from a southern trip in the interests of the Stafford Ring Co.

The George L. Paine Co. expects to occupy this week its part of the new addition to the Summer building.

John P. Bonnett was obliged to under-

go another operation on his arm at the Emerson Hospital, last week.

Percy Ball, head designer for the F. M. Whiting Co., was one of the speakers at a socialist meeting last week.

H. E. Kingman, a large comb manufacturer of Leominster, Mass., was in town last week calling on the trade.

John E. Tweedy was elected vice-president of the Town Improvement Society at the annual election, last week.

Albert Phippin has left the employ of the H. F. Barrows Co. and will start a coloring business in Providence.

Emil Miller, an electroplater of Providence, was one of the judges at the hose contest of the fire department last week.

The repairs on the Riley & French building were completed last week and the firms in the building started to work Thursday morning.

Bert Noble left for the west last week in the interests of Sturtevant & Whiting. R. H. Booth, New York salesman for the same house, was at the factory last week for a few days.

Mr. Van Burgh was in town last week for a few days and made arrangements for the erection of a new factory for the manufacture of electric supplies in Plainville.

Fred I. Gorton is the manager of a building company that is spending \$30,000 in the construction of new houses in North Attleboro.

Attleboro.

W. H. Lyons left, last week, for a business trip through the middle south.

George Roberts is on a tour of New York State for the Horton-Angell Co.

Frank Ruggles has left for a western trip in the interests of W. E. Richards & Co.

Walter Hopkins left, last week, on a business trip in the interest of the C. H. Eden Co.

H. E. Brown has returned from a successful southern trip in the interests of his firm.

Theo. Jacobs, of Theo. Jacobs & Co., Chicago, was in town, last week, placing orders.

Emmons D. Guild expects soon to leave the Attleboro sanatorium, where he has been staying for some time.

A. W. Payne represented the C. H. Eden Co. at the Oklahoma Retail Jewelers' Association meeting last week.

The work on the addition to the Bates & Bacon factory is progressing very rapidly. The cellar is nearly complete.

John Gray has just returned from an extensive trip through the south in the interests of the Watson & Newell Co.

Chester Howard, New York salesman for W. E. Richards & Co., has returned to his territory with a new line of samples.

F. M. & J. L. Cobb's jewelry shop closed last Thursday for the remainder of the week in order to take account of stock.

Fred C. Lawton, general manager of the Gorham Co., is scheduled to deliver an address in Attleboro within a short time.

Lawrence McMary, superintendent of the Finberg Co.'s factory, was injured, last week, by a kick from an automobile crank.

A number of the local factories are working six days a week and three or four are

running nights. A number are hiring additional help.

Mrs. D. F. Makepeace, who is ill at Jacksonville, Fla., has suffered a slight setback and is not improving as rapidly as reported a few days ago.

The Watson & Newell Co. will commence soon to build an addition to its present factory. More room is needed in their enamel department.

Dona La Palm, while working at the press in the factory of the Watson-Newell Co., last week, lost one of his fingers, which was severed close to the hand.

Mr. and Mrs. Walter A. King celebrated their wedding anniversary, last week, at their home on 4th St. Mr. King is employed at the Daggett & Clap Co.'s factory and is a past chancellor of Pythagoras Lodge, K. of P.

It is said that Charles M. Robbins, of the C. M. Robbins Co., is planning to open a sanatorium at Greenwood Park. Mr. Robbins has placed an advertisement in a medical paper for a physician to head and assist in opening a sanatorium.

Charles L. Miller, a manufacturing jeweler of Providence, and Miss Jennie L. Marsh, also of Providence, were married in this town Thursday evening by Rev. J. Lee Mitchell, of the Second Congregational Church. Albert T. Marsh, father of the bride, and Mrs. Everett, the groom's sister, accompanied them.

Association Notes.

Charles Baab, Parkersburg, W. Va., secretary of the West Virginia Retail Jewelers' Association, is circularizing the jewelers of that State with announcements of the forthcoming meeting of the association, which will be held in the Board of Trade hall, Wheeling, May 17 and 18. The full details of the meeting together with a draft of the programme will be mailed to the members within a few days, and it is expected that a strong response to this work will be shown by a large attendance at the coming convention.

Following the organization of the Delaware Retail Jewelers' Association, noted in the last issue of THE JEWELERS' CIRCULAR-WEEKLY, a movement was started to organize a local association among jewelers of Wilmington. At a meeting held Wednesday night in the store of S. H. Baynard & Co., 5th and Market Sts., an organization was tentatively formed and committees appointed to prepare by-laws and to interest jewelers in the movement. C. A. Rudolph, president of the State association, presided and another meeting will be held to-night, at which the officers will be elected and the organization perfected.

The Albert Walker Co., Providence, R. I., recently issued a unique and original booklet in fac-simile of the little brown paper book with which Albert Walker, the founder of the business, began to take orders. The original was made from wrapping paper sewed together with black thread. The booklet recently issued contains a photograph of the late Mr. Walker together with views of the store. The text gives a history of the business from its foundation.

GORHAM SILVER

GORHAM SPOONS AND FORKS

¶ So long as May and June continue to be the most popular of "wedding months," so long will the Jeweler at this season of the year be called upon to meet insistent demands for suitable wedding gifts.

¶ None is more generally sought after than the set of Spoons and Forks destined to take its place among the most cherished of family heirlooms.

¶ No wider range of selection can be found than that offered by the various patterns of Gorham Silver Spoons, Forks and Serving Pieces. These are made in more than a score of distinctive designs varying from the least ostentatious to the most elaborately decorative, and put up in convenient chests holding complete sets, from the smallest combination to those containing every essential in flat silverware.

The Senate and the Jewelry Tariff. THE discussion which took place in the Senate a short time ago when the jewelry and gem schedules were first brought up for consideration indicated two things: First, that a change will probably be made in the jewelry schedule before the Senate and the Conference Committee are through with their work, and, second, that the precious stone schedule as drawn by the Senate is apt to remain substantially as it is, though some slight amendments and phrasology are possible. During the consideration of the schedules, after the jewelry schedule had been taken up, Senator Aldrich stated that the committee had under consideration an amendment to paragraph 441, providing for specific duties, which would be submitted; this has been taken, in several quarters, to mean that the schedule for jewelry as drawn by the manufacturing jewelers of the east, after a conference with the jewelers of other sections and Treasury experts, will find its way into the Senate bill in whole or in part.

The discussion on the precious stone schedule, while showing that some of the Senators were anxious to know if 10 per cent. was the maximum of duty that could be collected on gems, indicated that the statements made by Mr. Aldrich to the effect that an increase in duty has been followed by a decrease in revenue, pretty well satisfied those who wanted the information. The debate also showed that the Senate had no sympathy with the attempt made by the House to increase the duty on half or split pearls to 20 per cent. or to classify pearls matched, graded or selected as jewelry at 60 per cent.

Two Sides of the Employment Question.

AT various times we have received letters from subscribers in many parts of the country complaining of the difficulty which they have in getting competent watchmakers, and telling the troubles which often come from engaging a watchmaker in distant cities or towns, getting him to travel to their place of business only to find that he is not the kind of a man wanted, or, if he is, to discover later that they cannot hold him in their employ. Many of these letters have suggested that the jewelers arrange some way of getting information about a man before he is hired, or that something be done toward putting the trade on guard against incompetents seeking positions, or those who will not live up to their contracts.

Recently, however, we have been in receipt of a number of complaints of the opposite nature—that is, from the watchmakers who have applied for positions offered by jewelry houses in various sections of the country, by whom they have been promised permanent employment, and have accepted the position only to find that the jeweler had an accumulation of repair work on hand which he wished to get rid of. As soon as this was done, say the watchmakers, they find themselves again seeking a position. According to one man, there are certain jewelers who make a practice of letting their repair work accumulate heavily, and two or three times in the year they advertise for a watchmaker

Have a well defined purpose in advertising, and write your copy and conduct your campaign accordingly. Shoot at a mark, not all around it.

and under the promise of giving him a permanent position get him to get this work off as quickly as possible. He cited instances where this has happened to him in many sections of the country, and stated that the number of jewelers that are doing this is on the increase.

Of course, there is much to be said on both sides of any question, and to both the complaints of jewelers and watchmakers there may be, and probably are, legitimate answers. Nevertheless, the fact that the complaints are made by both sides shows that there is need of some bureau that can give information both to the employer and employe, particularly those who make their contracts at a distance, so that the watchmaker can know the character and reputation of the man with whom he expects to get employment and his chance of permanent employment, and, on the other hand, so the jeweler can know the character and ability of the man whom he is employing and the chance of keeping him to his contract.

Gem Imports Durable. APRIL proved another big month in the gem trade as far as the importations were concerned, and the predictions of pessimists who stated that the large figures of the first three months must be followed by a considerable drop, proved to be absolutely without foundation. On the contrary the importations of April equal nearly two and a half million dollars, being six times the amount imported in April of the previous year and ahead of the figures for any other April on record except those of 1905 and 1906. As far as the value of the cut precious stones and pearls were concerned they exceed those of any April except April, 1906.

In all the gems imported through the Port of New York last month amounted to \$2,419,242, of which \$1,885,529.55 was the value of the cut precious stones and pearls and \$532,712.59 the value of the uncut precious stones, principally diamonds. How these figures compare with those of April in previous years will be seen from the following table:

April.	Cut.	Uncut.	Total.
1909....	\$1,885,529.55	\$532,712.59	\$2,418,242.14
1908....	197,231.88	205,821.00	403,052.88
1907....	1,638,152.00	435,336.00	2,073,488.00
1906....	2,682,707.56	932,224.53	3,614,932.09
1905....	1,511,945.78	917,392.41	2,429,338.19
1904....	808,523.34	651,052.66	1,459,476.00
1903....	1,449,853.76	508,364.55	1,958,218.31
1902....	1,118,866.82	422,481.79	1,541,348.61
1901....	1,579,491.72	718,545.13	2,298,036.85
1900....	298,021.87	53,632.57	351,654.44
1899....	533,210.65	472,903.16	1,006,113.81
1898....	336,172.04	109,265.79	445,437.83
1897....	21,639.72	31,671.58	53,311.30

LOOK FOR THIS TRADE-MARK

IT IS A MUTE PROCLAMATION OF MERIT

ASIDE from the legal security this trade-mark affords the manufacturer operating under it, it guarantees to the retail jeweler absolute dependability in every detail of construction.

THE gold is of the karat stamped, the designing uncommonly good, and the workmanship of a kind that we vigorously defend by placing it beyond the ambitious efforts of competitors.

H. A. KIRBY

MANUFACTURERS OF FINE GOLD JEWELRY

85 Sprague Street, Providence, Rhode Island

New York Office: Jewelers' Bldg., 9, 11, 13 Maiden Lane

Harrisburg, Pa.

Local jewelers are preparing to fittingly entertain the members of the Pennsylvania Retail Jewelers' Association, which meets in the Board of Trade rooms June 3 and 4. It is likely that this meeting will result in the reorganization of the local jewelers' association, which had a brief existence a few years ago.

L. A. Faunce was one of the official checkers in the four-day endurance run held May 3-6 under the auspices of the Motor Club of Harrisburg. He left Market Square at 6 o'clock Monday morning in a Stoddart-Dalton car. The first day's run was to Washington, D. C., via Gettysburg, and the second day's run from Washington to this city, via York and Lancaster. The third day's run was to Wilkes-Barre, via Williamsport, and the last day's run to this city, via Reading. Handsome silver trophies were donated to the winners, including a massive cup by Gov. Stuart. Between 30 and 40 cars were entered.

A largely attended meeting was held here last week under the auspices of the Pennsylvania Retail Merchants' Association and the Harrisburg Retail Merchants' Association for the purpose of securing the united endorsement of the State's retail merchants of the collection bill now in the hands of Gov. Stuart. This bill, known as Senate Bill No. 191, permits the attachment of 25 per cent. of wages or salary for debt, and the meeting, which was attended by over 200 merchants, adopted a memorial to Gov. Stuart, asking him to approve the bill. The memorial was presented to the Governor by a committee consisting of George L. Dobie, Bradford, chairman; R. F. Cook, Harrisburg; Wellington M. Bertollet, Reading; P. M. Malloy, Williamsport; J. W. Gill, Easton; P. E. Decker, Athens, and C. E. Woods, Pittsburg. Gov. Stuart said he would consider the bill carefully.

Louis W. Spealman of this city is in jail in Carlisle awaiting trial for a serious assault on C. D. Reitling of that town, which may result in the jeweler's death. Spealman, who is a soda fountain clerk, residing at 1211 Green St., entered Reitling's store, April 28, for the purpose of securing a diamond ring for the girl he is engaged to marry, and, failing in his attempt, struck the jeweler on the head. Though dazed by the blow, Reitling attempted to hold Spealman, who ducked from his grasp and, leading a crowd of business men and clerks who joined in the chase, ran a mile before being captured. When taken to jail he pleaded drunkenness and the fascination of the diamond ring as an excuse for his brutal assault. Reitling was in such a serious condition that he was unable to appear against Spealman at the hearing the next day, and Spealman was accordingly remanded to jail in default of \$1,000 bail to await the result of Reitling's injuries. Mr. Reitling suffered greatly from the wound, which is a great and ugly bruise on the right side of his head, just above the right ear, and Thursday was unable to attend to business. Later his condition grew rapidly worse, and his physician doubts his recovery.

New York Notes.

G. W. Holshe, 3 Maiden Lane, is moving to 7 Maiden Lane.

Korones Bros. have moved from Canal St. to 46 Maiden Lane.

Frederick W. Rauch has removed from 9 Maiden Lane to 3 Maiden Lane.

Oscar Kind, of S. Kind & Sons, Philadelphia, Pa., was in town last week.

Lebolt & Co. have moved from 51 W. 23d St. to Fifth Ave., corner of 23d St.

A. Jaffe & Son have moved from room 901 at 49 Maiden Lane to room 704.

A. Scherer, a local clock expert, has opened a jewelry store in St. Louis.

The Manhattan Clock Co. have moved from 39 Vesey St., to 51 Maiden Lane.

C. A. Whiting, of Whiting & Davis, Plainville, was at the local offices last week.

G. Herbert French, of Riley & French, North Attleboro, was a visitor in town last week.

Mr. Hurvitz, of Hurvitz Bros. & Blume, Rochester, N. Y., was a caller in town last week.

W. H. Kinna, of the Elgin National Watch Co., was a visitor in Philadelphia last week.

The Warwick Sterling Co. has opened an office in the Silversmiths' building, 15 Maiden Lane.

Alling & Co. have moved their New York office, which was formerly at 180 Broadway, to Newark, N. J.

Israel Efrus recently started in business as a manufacturer of fine diamond mountings, at 47 Maiden Lane.

James Lincoln returned to this city Friday, from a trip in the west for the Walcott Mfg. Co., Providence.

F. A. Sandwall, a South Omaha, Nebr., retail jeweler, is in town and will sail from here to Sweden the last of next week.

An auction sale of stock at Rosenthal's Curiosity Shop, 236 Bowery, was conducted last week by Auctioneer Frank Walker.

Emil Lewy, of Lewy & Cohen, importers, 530 Broadway, sails soon for Europe on the *President Lincoln*. He will be accompanied by his family.

E. W. Reynolds, of the E. W. Reynolds Co., wholesale jewelers, Los Angeles, Cal., was among the visitors in the jewelry section last week.

A. R. Katz, of the A. R. Katz & Leudan Co., 87 Nassau St., sailed yesterday on the *Kaiser Wilhelm* on a visit to the European diamond markets.

George Fox has been engaged as a New York representative for the A. L. Lindroth Co., North Attleboro, Mass., and will open a New York office soon.

Nathan A. Sachs, diamond importer, has been moving from 51-53 Maiden Lane to 9-11-13 Maiden Lane, where he will have larger quarters on the eighth floor.

The National Reserve Bank, which formerly occupied quarters at the southeast corner of John St. and Broadway, has removed to the City Investment building.

A new firm has been formed by Morris Eisler and Jacob Fiddelman under the firm style of Eisler & Fiddelman and will manufacture diamond mountings at 51 Maiden Lane.

Josh W. Mayer, of Powers & Mayer, 258 Fifth Ave., has returned from a purchasing

trip abroad. He has opened a permanent office in Paris, which will be conducted by Frank Wells.

George R. Howland, a well-known gem importer and a former member of Kleinschmidt, Howland & Co., died suddenly yesterday afternoon. A sketch of his career will appear in the next issue.

Edward H. Courvoisier, formerly with Benedict Bros., announces that he has begun business at 3 Maiden Lane, as a dealer in watches, diamonds and jewelry. He will also make a specialty of fine watch repairing.

David Goldberg, 110 W. 34th St., announces that the business of Lucios, Inc., dealing in imitation gems, jewelry and novelties, at that address, has no connection whatever with any other stores running under the same name.

The Jewel Button Works have been incorporated to manufacture ornamental jewelry, beads, buttons, etc., with a capital of \$3,000. The incorporators are: Robert Davidoff, New York; Abraham Shapiro and Herman Shapiro, Brooklyn.

George Gaw, who was, some time ago, in the employ of H. A. Kirby, in the New York office, but who later was employed in another line of business, has been engaged by Moser & Whyte, 15 Maiden Lane, to represent them in New York and Newark.

The name of the Byron & Vail Co., goldsmiths and silversmiths, 291 Seventh Ave., will be changed, May 10, to the Charles B. Byron Co., Mr. Vail having disposed of his interest. The management will continue as at present and the officers remain unchanged.

J. Bochner, of J. Bochner & Co., diamond cutters and importers, Antwerp and New York, who has an office with Schweiger & Michaels, 47 Maiden Lane, will sail Saturday for Antwerp on the *Zeland*, and will return, accompanied by his family, the latter part of August.

A meeting of the Boost Club was held Tuesday evening at the Union Square Hotel, Union Sq. and 15th St. A good menu and a vaudeville performance under the direction of Tommy Baker, after the dinner, with a speech by Congressman Sulzer, were among the special features offered.

Charles S. Kingsland, for 40 years connected with the firm of Tiffany & Co., died Tuesday of last week at his home in Claremont Hall, Broadway and 112th St., of pneumonia. He had been ill only a few days. Mr. Kingsland was born in Staten Island in 1838 and at one time was a member of the brokerage firm of Leonard, Kingsland & Wadsworth and was a prominent figure in Wall St. He leaves a widow and one daughter.

Albert Edward Johnson, who was arrested in the Brooklyn Bridge subway station last week after a chase and charged with attempted grand larceny, was identified in the Tombs prison by D. E. Kimball of the Prison Aid Association as the young man upon whom Judge Foster suspended sentence March 30, upon the plea that he wanted to lead a new life. At that time he was before Part V of General Sessions, after having violated a parole granted in 1906 upon a conviction of taking three diamonds worth \$325 from a jewelry store at 200

Bowery. Johnson was held in \$1,500 bail for General Sessions by Magistrate Cornell.

A petition in bankruptcy was filed last Wednesday against Charles Meyerhoff, trading as the Broadway China Co., at 3365 Broadway, by these creditors: The United States Glass Co., \$130; Herman Kornahrens, \$253; L. D. Bloch & Co., \$82; George F. Bassett & Co., \$60; Otto Goetz, \$48. Insolvency and preferential payments are alleged and the petition also states that, on April 13, a chattel mortgage for \$566 was given on the furniture to M. Kirchbaum. Judge Holt appointed Charles O. Foot receiver. The liabilities are \$1,000 and the assets \$1,005.

John A. Service, who formerly represented the Royal Worcester Porcelain Co., Thomas Webb & Son and Josiah Wedgwood & Son, Ltd., of England, in this country, is now visiting his sons in Trenton, N. Y., who are employed with Lenox, Inc., of that city. Mr. Service, who was a visitor in the office of THE JEWELERS' CIRCULAR-WEEKLY last week, said that he is now connected with the movement to revive the old Irish glass industry and is in this country to interest certain people in the proposition. He will return to England in about three weeks.

A meeting of the creditors of Oscar C. Jackle, 866 Third Ave., who, some time ago, filed a petition in bankruptcy after his store was robbed, was held Thursday afternoon at the offices of Seaman Miller, referee in bankruptcy, 2 Rector St. The bankrupt did not appear in person, but I. N. Dittenhoefer, representing him, explained that he had filed a doctor's certificate with the referee on behalf of Mr. Jackle. Dr. L. J. Kiernan, who granted the certificate, was called as a witness and testified that Jackle had been subject to dementia. The jeweler has been in a sanitarium. Attorney Mackenzie, representing the trustee in bankruptcy, asked that the bankrupt's default be noted, but it was decided to adjourn the meeting until May 12 at 2 p. m.

The schedules in bankruptcy of David Hartstein, who was formerly a pawnbroker at 79 Avenue C, were filed last week in the United States District Court. They show liabilities of \$12,071 and nominal assets of \$5,806, which include outstanding accounts of \$4,751. Among the unsecured creditors are: The State Bank, \$1,450; Northern Bank of New York, \$1,500; Spiro & Hirsch, \$1,800; Leon Kohn, \$1,900; Emil Hess, \$300; B. H. Davis & Co., \$1,100; Ignatz Kraus, \$760. Previous to the time that Hartstein was in the pawn-brokerage business he had been engaged in business as a jeweler at 4 Ave. C. Bankruptcy proceedings were begun in his case some time ago. Mr. Hartstein explained that the debts enumerated in the schedule were simply nominal, as he had made a settlement with all creditors three years ago. This settlement was at 40 cents, and he gave additional notes for the remaining 60 cents and has paid these notes to the extent of 90 per cent. The remainder was presented to him by the creditors at a meeting in January. As the notes are still outstanding it was incumbent upon him to list them in the schedules, though they are not tech-

(Continued from page 87.)

nically a debt against him. His actual liabilities, he says, are about \$3,000, to which he had reduced it from about \$40,000.

Frank Jeanne, of Wm. S. Hedges & Co., sails on the *Mauretania* for Europe.

L. Herzfelder, of Herzfelder & Kohn, sails for Europe to day on the *Mauretania*.

Comrie & Brokaw, local auctioneers, are reducing the stock of H. G. Shupp, Wilkes-Barre, Pa.

There is on exhibition at the Astor Library building an interesting collection of jewelry designs.

Irving Baum, 71 Nassau St., will return Saturday on *La Provence* from a trip to the European diamond markets.

William Weisz, diamond setter, and Fred J. Beck, engraver, have moved from 1 Maiden Lane to 51 Maiden Lane.

The Eastern Jewelry Co. has opened a New York office in the Silversmiths' building, 15 Maiden Lane. C. J. Tonry, who was formerly New York representative for Riley & French, is in charge of the office.

B. M. Engelhard, Chicago representative of Joseph Frankel's Sons, 578 Fifth Ave., is in this city. Yesterday he attended the golden wedding anniversary of his parents, Mr. and Mrs. A. Englehard, of 222 E. 68th St.

Mrs. Olive L. Logan, the former actress, authoress and playwright, whose death in England was announced in last week's papers, was for some time a contributor to *THE JEWELERS' CIRCULAR—WEEKLY*, and her translations and compilations from the French art papers were among the most interesting the journal has used on the subjects covered.

A protest of the A. Wittnauer Co., New York, against the duty applicable to watch movements in leather cases was decided recently. The goods were classified as watch cases under par. 191 of the Tariff Act of 1897. The importers claimed the cases dutiable under par. 450, as the manufactures in chief value of leather. The protest was overruled.

Henry S. Herzog and Ed. Oppenheimer, two retired jewelers, well known to the older generation in the trade, were tendered a banquet by King Solomon Lodge, F. & A. M., last Wednesday, on the event of the 50th anniversary of membership of the two men. Louis Herzog, a brother of Henry Herzog, who is 72 years old, was appointed to escort him to the lodge.

The employes of the office and factory of David Kaiser & Co., 14 John St., held their annual Spring outing at Forest Park, Glendale, L. I., Saturday afternoon, and a most enjoyable afternoon is reported. There were about 45 on hand, and the afternoon and evening were spent in a round of enjoyment. Baseball and bowling were among the afternoon's pleasures. A dinner, which was served later, was voted to be the "best ever."

Opticians in this city are much interested in the plans being made for the annual meeting of the State Optical Society, which is to be held at Albany, June 7. The convention will be held at the Hotel Ten Eyck. The morning session will be devoted to the

transaction of routine business and in the afternoon matters of special interest will be discussed and an opportunity afforded for the speakers of the day. Later in the afternoon officers for the ensuing year will be elected.

A conditional settlement in the matter of the Herman Keek Mfg. Co., Cincinnati, whose creditors include several large firms in this city, has been made at 40 cents on the dollar—20 per cent. cash and 20 per cent. secured by diamonds. The settlement will go through, provided that the Duhme Jewelry Co., which is affiliated with the other concern, makes a satisfactory settlement at 100 cents on the dollar. Saturday morning Johnson & Levy, Cincinnati attorneys for the Jewelers' Board of Trade, succeeded in getting an order from the court directing the receiver having charge of the assets of the Duhme Jewelry Co. to pay the creditors of the Duhme Jewelry Co. 50 per cent. on account. The payment will be made in a few days, as soon as the receiver can prepare the necessary checks.

A rare variety of the United States gold dollar, dated 1860, brought \$47.50 at Elder's Auction Rooms, Friday. The price is a new record. The purchaser was Elmer S. Sears, of Massachusetts. The design of this dollar is quite different from that of the first piece of this denomination, which was minted in 1849. Instead of the female head of Liberty, the obverse of the 1860 dollar shows the head of an Indian maid with a headdress of feathers. It was the work of James B. Longacre, a well known designer of gold coins at the Philadelphia mint. On the reverse is the usual wreath design of the other coins of the period, but below the wreath is a tiny mint letter "D," which stands for the branch gold mint at one time at Dahlonega, Ga. It is the addition of this small letter that gives the dollar its unusual value.

J. R. Wood & Son, diamond merchants, 170 Broadway, have brought an action against the Sherwood, Bartlett Jewelry Co., Montgomery, Ala., for the discovery and possession of four diamonds alleged to have been sent to that firm by registered mail on memorandum. The bill sets forth that four stones were shipped for examination, and that nothing being heard of the arrival of the goods, a telegram was sent to the firm asking if the stones had been received. It is alleged that the reply sent read: "Sent notes 4th inst. If not satisfactory name best discount you will allow for cash." It is further alleged that a letter was sent by the complainants that the notes had not been received and that it was understood that the firm was having some trouble with creditors and could not extend a line of credit.

Edward Aisenstein, a jeweler, appeared in the Harlem Court last Friday afternoon to answer to the complaint of Miss Frances Clyne, who said that she had given Aisenstein \$500 and could not get it back. According to Attorney Frank, who represented Aisenstein, a stock company was formed some time ago to deal in caskets, and Aisenstein became a stockholder and officer and went among his friends to sell stock, and among those who took stock

was Miss Clyne. The attorney explained that the company had not been incorporated and that no certificate of stock had been printed at the time, and that when Mr. Aisenstein received the money from the young lady he gave a promissory note to her with the understanding that when the stock certificate was delivered he was to receive the note back. The attorney said that the matter has been settled and that the note and stock certificate has been returned.

Dissension between the trustees of the Continental Commission Co. and Sam. Hockhaus, the president of the company, has resulted in considerable unpleasantness of late. A petition in bankruptcy was filed some time ago and later it was dismissed and three trustees were appointed to take charge of the business. A meeting of the creditors was held recently at the offices of H. A. Groen & Bro., 52 Nassau St., for the purpose of coming to some understanding relative to conducting the business by the trustees. Mr. Hockhaus and the trustees clashed as to how the liquidation of the assets should be conducted. The trustees asked that a card index system used in conducting the business be turned over to them to help in straightening out the book accounts. Mr. Hockhaus said he would let the trustees examine the system in his presence, but did not want to give up the cards. One of the directors asked to be excused from further service. Mr. Hockhaus said he was willing to turn over to the creditors pro rata the money collected. The trustees pointed out that they were to do the collecting. The trustees wanted to move the business to the Maiden Lane district to cut down rent expenses and to facilitate the liquidation, and this was done.

Throughout the entire country the trade has noticed with interest, during the last few years, the marked increase in the demand for artistic plate at popular prices, and to meet this the Oneida Community, Ltd., has put out its attractive Reliance plate and is advertising this line extensively. Reliance plate has a metal base of 18 per cent. German silver, and carries a full five-ounce plate of pure silver. This makes it practically as heavy as the best of standard A1 brands, yet it is sold to the trade at a much lower price than this grade of plate. An inspection of the latest assortment of the new plate shows excellent workmanship and finish. The designs and patterns have a truly artistic appearance, such as is always expected from a product of the Oneida Community, and the plate is guaranteed to wear 10 years. Reliance plate is marketed in the same manner as "Community silver," under a restricted price agreement, and, therefore, no cut-throat competition need be feared. This new, popular-priced plate allows the retailer to compete with the department stores and similar stores for a very profitable class of business—that is, plated ware for outfitting country homes and for like purposes. The Oneida Community, Ltd., announces that the concern's extensive magazine advertising will be pushed as never before, and that it will make Reliance plate as well as "Community silver" known to every woman throughout the country.

J. G. McKay will shortly open a new store in Selma, Cal.

C. H. Fisher has engaged in the jewelry business in Helena, Okla.

James Pizinger opened a new store in Herington, Kans., recently.

C. H. Lee has opened a retail jewelry store in Silver Creek, Nebr.

S. M. Duncan is now in business on his own account in Keyesport, Ill.

Ben Pfeifer has opened a jewelry store at 332 S. Main St., Akron, O.

Jacobs Bros. are new members of the jewelry trade in Crystal Falls, Mich.

R. W. Vail, Lyndon, Kans., recently engaged in business at Bonner Springs, Kans.

A retail jewelry store has been opened in Ocean Park, Cal., by W. H. Wilson & Co.

P. G. King, of Kansas City, Mo., has just engaged in business in Los Angeles, Cal.

M. H. & P. Barnett will soon commence business at 133 Jackson Boulevard, Chicago, Ill.

C. W. Jorgenson will shortly open a store in the new Goldbach building in Bothell, Wash.

A. F. Feinberg, Minneapolis, Minn., has decided to locate in the jewelry business in Brownton, Minn.

Anthony Urbahn will shortly lease quarters in Minden, Ia., where he will open a retail jewelry store.

Israel Efrus recently started in business as a manufacturer of fine diamond mountings at 47 Maiden Lane.

The firm of Eisler & Fiddelman has been formed to manufacture diamond mountings at 51 Maiden Lane, New York.

Israel Efrus has begun business at 47 Maiden Lane, New York. He will manufacture fine diamond mountings.

The Red Cross Drug & Jewelry Co. has been organized in Nashau, Ia., with a capital of \$6,000, to engage in business.

The Parritt-Kelley Co. is the name of a new concern which was recently organized in Des Moines, Ia., to engage in the wholesale jewelry business.

Samuel Schoonmaker will shortly open a jewelry store at 167 Market St., Paterson, N. J. Mr. Schoonmaker's son, Harold, will be associated in the business.

The Atlantic Importing Co. has started in business at 65 Atlantic Ave., Providence, R. I., and is introducing a full line of rings,

scarf pins, brooches and novelties in Brazilian beetle effects.

R. W. Vail, Lyndon, Kans., who recently completed a course at the Missman School of Engraving, in Kansas City, Mo., started in business on his own account May 1, at Bonner Springs, Kans.

The John Strand Jewelry Co. has been incorporated to begin business in Lakota, N. Dak., with a capital of \$10,000. The incorporators are: S. St. John, H. M. and E. E. Strand, all of Lakota.

S. Bachrach & Co., Roanoke, Va., have been incorporated with a capital of \$15,000, of which \$5,000 is paid in, to engage in the jewelry and pawn brokerage business. The officers are: President and treasurer, S. Bachrach; secretary, T. Pulliam; general manager, Benjamin Sickel.

The Sample Jewelry Store is the name of a concern which began business May 1, at 14 N. Division St., Grand Rapids, Mich. The business is owned by Frank Anderson and Chas. Kohn. The premises have been leased for a period of five years and have been attractively furnished.

Newark.

Mr. Sweasy, of Champenois & Co., is home from a New England tour.

Thomas Leffingwell, who was formerly a resident of this city, and who died in Providence, R. I., last week, was the father of Frank Leffingwell, a jeweler of 33½ Emmett St.

Clarence H. Bruce, Hoboken, N. J., who was married last week to Miss Alma Hull Iredell of New Brunswick, is a manufacturer of metal novelties. He recently built a factory at New Dunham, N. Y.

F. De Pretis, formerly employed by Enos Richardson & Co. in the factory, has opened an establishment at 12½ Ferry St. He will manufacture medals, badges and emblems and will deal in diamonds, watches and jewelry.

During the past week several Newark salesmen returned from western trips, among whom were Stanley Lynch, of the Wm. B. Kerr Co.; John Goodwin, of Durand & Co., and George Beardsley, of Allsopp & Allsopp.

Market St. jewelers are active in the plans for completing "The Great White Way." The street will soon be gaily illuminated in a manner that will do credit to those who have planned it.

Oscar W. Kohn, of Kohn & Co., Camp and Orchard Sts., is enjoying a pleasure trip in Europe, where he has been for the past three weeks. His itinerary includes Switzerland, Germany, Austria and France. He will return towards the end of May.

John A. Heuther, Komorn St., who died in a Jersey City hospital last week, was employed in New York as a lens-grinder by the Spencer Optical Co. He was stricken ill on a train. Deceased is survived by a widow and two children. He was 25 years of age.

Because he was unable to find work at his trade as a jeweler, William F. Murphy, of 14 Warwick St., committed suicide last week by severing the arteries of both wrists. It is believed that Murphy's mind became unbalanced through despondency. He left a widow and two children.

Last week the type made a note in this column say that the Eastwood-Park Co. would occupy nearly two lofts in the new building at Murray and Austin Sts. The fact is that the company will occupy about three lofts, no smaller amount of space being adequate for this firm's activities.

Isaac Rabinowitz, a jeweler and silk manufacturer of Paterson, N. J., died suddenly last Thursday at his home in Paterson. He was preparing to dress for breakfast when he fell backward with a cry of pain, and when his wife reached the room he was dead. He was 43 years old. A widow and seven children survive him.

Early one morning recently considerable damage was caused by a big Maltese cat, which ran in the jewelry store of Cook & Jaques, Trenton, N. J. The proprietor did not notice the cat when he closed the store for the day, and at night the cat became desperate from hunger and ran wildly about the store, doing considerable damage.

The Carter-Howe team again broke even with the Clark B team in the Manufacturers' League series last week, and did likewise with the Washington trio. Granberry bowlers lost both games to Roe & Conover in the Mercantile League and repeated with the Krementz team. The latter trio won one and lost one to Roe & Conover.

Samuel Schoonmaker, for many years a member of the firm of L. A. Piaget & Co., Paterson, has leased the store at 167 Market St., and expects to open a first-class jewelry store. The store will be opened about May 10. He will associate with himself in business his son, Harold, who is an expert jeweler and who is at present employed with George D. Davidson, Jersey City.

Saying that he was sent by Jean R. Tack, a Broad St. jeweler, a stranger last week went to the factory of F. & F. Felger, manufacturing jewelers, at 42 Marshall St., and obtained five gold rings, without stones in them, valued at \$30. After the man had departed those in charge of the factory became suspicious and got into communication with Mr. Tack. It was then learned that the stranger was a thief. Captain Carroll, of the Detective bureau, who was furnished with a description of the man, said that he had visited other jewelry factories, but was not successful.

Taylor & Co., Inc., have removed from Arlington St. to the plant vacated by Larter & Sons, Chestnut St. The firm is putting machinery in place and making many alterations in the factory, and expects to have it thoroughly equipped and running in the fall. As yet only the heads of the various departments are at work, and samples are being made with a view of testing the efficiency of the machinery. There is room enough in the factory for several score employes. J. V. Arstl will manage the factory and Archibald Rutherford will look after the selling end on the road.

The S. Cottle Co., 31 E. 17th St., New York, recently issued an attractive catalogue showing gold and silver novelties of original designs. The catalogue is nine and a half by six inches and the cuts are displayed to good advantage on glazed paper.

I. Haiken, a retail jeweler at 5303 S. Halsted St., has removed one door north of his old store.

R. W. Cohen visited Peoria, Ill., last week, as a delegate to the convention of the T. P. A.

Christian Keller, optician, has filed a petition in bankruptcy, with liabilities of \$933 and assets of \$81.

Henry W. Le Rette, retail jeweler at Morris, Ill., was here, last week, accompanied by his bride.

John S. Brande, with the Keller Jewelry Mfg. Co., is on a trip to the New York office of that concern.

Spies Bros. have taken additional space in the Powers building to accommodate their increasing business.

A. Hanson, watchmaker, formerly at Galion, Okla., has taken a position with L. A. Lippert, 233 E. 55th St.

Will Andersen, of the Juergens & Andersen Co., has left the Michael Reese Hospital and is now at his home.

H. E. Glendon, jewelry auctioneer, will spend the Spring and Summer on a vacation in the northern woods.

Jules Mayer, with the Mauser Mfg. Co., stopped over here, last week, on his way home from the Pacific Coast.

S. R. King, traveler for the C. H. Knights-Thearle Co., moved into his new home at Oak Park, last week.

Geo. F. Williams, with the Bennett Co., Omaha, Nebr., stopped over here, last week, on his way home from the east.

W. A. Burrows, jobber, has removed from room 801 Heyworth building to room 603 Columbus Memorial building.

J. N. Jacobs, of Jacobs Bros., new retail jewelers at Crystal Falls, Minn., was here, last week, buying his opening stock.

F. D. White is the new representative of the C. O. Sweet & Son Co., with headquarters in room 704, Heyworth building.

J. A. Limbach and R. T. Kleckner, of the Chicago office of the Theodore W. Foster & Bro. Co., are on a trip to the factory.

Aaron Feltenstein, proprietor of the Star Diamond Co., has removed from room 506 to room 606, Chicago Savings Bank building.

Andrew G. Tellner, Jamestown, N. Dak., stopped over here, last week, on his way east, when he will shortly sail for Europe on the first vacation he has taken in 25 years.

Maurice A. and P. Barnett will open a new jewelry store about May 15, at 133 Jackson Boulevard under the Grand Pacific Hotel.

Mrs. F. C. Chace, wife of F. C. Chace,

Jr., traveler for the C. M. Robbins Co., is confined to her home with quinsy sore throat.

J. Ridolfo, 2340 Wentworth Ave., has discontinued business at that address and has sold his fixtures to Abe Taft, 178 N. Halsted St.

John Neumann, diamond dealer, is suing Kronberg, Block & Fischer for \$300. The suit is the outcome of a memorandum transaction.

L. Krasney, Milwaukee, Wis., was here last week and announced that he would shortly move to his new location, 1419 Fond du Lac Ave.

The "Lucios" jewelry store was damaged by fire to the extent of between \$4,000 and \$5,000 last week. The loss is fully covered by insurance.

Jacob J. Wechter, of S. Wechter & Co., will be married, May 9, to Miss Carrie Levy at the residence of the bride's parents, 499 N. Lincoln St.

P. B. Moyer, general manager of the Oneida Community, Ltd., spent a few days here last week. G. H. Miller is now on a trip through Illinois.

News is received here that the store of J. N. Kunkel, New Rockford, N. Dak., was closed, last week, on a chattel mortgage held by a local bank.

Count Carl Muth, Berlin, Germany, was one of the distinguished foreigners who visited Elgin last week as a guest of the Elgin National Watch Co.

A. Smith, Bloomington, Ill., was here last week, accompanied by his daughter, who left here for Sacramento, Cal., on a visit to relatives there.

Otto Lieberman, of the diamond department of the Stein & Ellbogen Co., is on a western trip. H. G. Schram, Pacific Coast representative, came in last week.

S. Steinberg, La Porte, Ind., who was here last week, has reported he would move into his new store in the Phoenix Theater building, in that town, about May 10.

Robert H. Martin is now in charge of the floor of the R. Wallace & Sons Mfg. Co. sales room, succeeding L. M. Nystrom, now in the office of the same concern.

Anton Kuckuk, a retail jeweler of Shawano, Wis., and member of the Wisconsin Legislature, stopped over here, last week, on his way home from Washington, D. C.

Bob Barlow, with the C. H. Knights-Thearle Co., celebrated his 58th birthday recently, and among the presents he received was a pair of gold Masonic cuff

links, the gift of A. E. Wuesteman, Champaign, Ill.

The Chicago offices of the Alvin Mfg. Co. have moved from room 1014 to rooms 801-805 Silversmiths' building, where the company occupies much larger quarters than before.

Mr. Lewis, of Lewis & Van Sickle, Osea-loosa, Ia., was here, last week. This firm recently bought out the Parritt Jewelry Co., Des Moines, Ia., but will not remove there till Sept. 1.

Leonard Specht and Hugh McNeff have bought the fixtures of the Star Diamond Co., room 506, Chicago Savings Bank building, and will conduct a jewelry business on these premises.

The Manufacturing Jewelers' Association of Chicago held a meeting last week and voted to continue the apprentice instruction at the Art Institute. Other plans for bringing more trade to Chicago were formulated.

Chas. F. Wood & Co. have discontinued their office here. Chas. A. Garlick, who is well known in diamond circles in the west, is now representing Mount & Woodhull in his old territory, with headquarters in room 611 Columbus Memorial building.

F. A. Marean, president of the Illinois Retail Jewelers' Association, reports everything in favor of a successful convention when the members meet at Peoria, June 29 and 30. Over 15 new members have been received within the past few days.

Wm. K. Sandberg, watchmaker in the Columbus Memorial building, has opened a new jewelry store in the University Club building at 138 Wabash Ave. Mr. Sandberg aims to make this an exclusive jewelry shop and will carry only high grade jewelry.

Harry J. Bâby, head salesman and chief diamond buyer for Moore & Evans, is engaged to be married to Miss Marie Louise Prindville, a North Side belle and niece of Justice Prindville. An extensive European honeymoon trip is planned, to take place after the wedding in June.

Mrs. G. H. McKelvey, St. Joseph, Mo., was here, last week, buying stock for the new store which will be opened about May 15. Mrs. McKelvey was accompanied by her sister, Mrs. Decker, and nephew, Master Decker, of Winona, Wis. The latter is an aspirant for the artillery class at West Point.

Miss Marjorie B. Hunter, daughter of George E. Hunter, superintendent of the factory of the Elgin National Watch Co., was married last Saturday to N. H. Van Sickle. The wedding was one of Elgin's prominent social events and was attended by all of the principal officers of the Elgin National Watch Co.

The Jackson Jewelry Co., Chicago, has bought the store of the Franklin Jewelry Co., Cleveland, O., from Charles Ettinger and have succeeded to that business under the name of the Jackson Jewelry Co. Myron Goldsoll, son of L. C. Goldsoll, is the new manager. The Jackson Jewelry Co. has also leased the store at 170 State St. for a new retail jewelry business and will open it within a few days.

A letter has been sent to the trade by Norris, Alister & Co. announcing that with the view of having their employes and the heads of their various departments share in the profits and welfare of the business, the

firm will, in the near future, incorporate under the old name, "Norris, Alister & Co.," with a capital stock of \$125,000. W. M. Alister will remain as president and Chas. H. Spencer, vice-president and general manager.

The Seth Thomas Clock Co. has supplied the Soldiers' Home at Milwaukee, Wis., with a four-foot dial clock and has supplied to the court house at Eldorado, Kans., a clock having four seven-foot glass dials with a 1,000-pound bell; one clock for the Ottawa, Ill., Baptist Church with four six-foot wood dials and one to the Atlanta, Ill., public school having five wooden dials five to six inches in height, with a bell weighing 100 pounds.

Jos. Brown & Co. have leased the store and floor above at 225 State St., at a rental of \$21,000 per year. Mr. Brown is now conducting an auction sale on the premises and will remove there this month from his present location at Fifth Ave. and Madison St. In his new quarters Mr. Brown intends to devote the second floor to a wholesale jewelry business and will run a combination retail jewelry store and auction jewelry store on the ground floor.

Schedules in bankruptcy of Albert Solomon, formerly in the retail jewelry business on S. State St., trading as A. Solomon & Co., show total liabilities of \$2,056. Firms in the jewelry trade are creditors for the following amounts: B. Schuette, \$448; Theo. Jacobs & Co., \$236; Holsman & Alter, \$410; F. L. Shepardson & Co., \$186; C. H. Eden Co., \$186; Lyons Mfg. Co., \$248. The fixtures are estimated to be worth \$700 and the stock to be \$500.

E. Kirehberg, retail jeweler at 76 State St., was defrauded of a \$200 ring last Wednesday. A stranger called at the store and, selecting a three-stone ruby and diamond ring, ordered it sent to his office. Ed Kirehberg, son of the proprietor, delivered the stone and the stranger made out a check and gave it to a boy in the office to get it cashed. He ran after the boy on a pretext and disappeared with the ring on his finger. He had rented desk room in the office that day.

Among the out-of-town retail jewelers here, last week, were: John H. Booth, Alton, Ill.; J. H. Henkes, of Henkes-Baker Jewelry Co., Vincennes, Ind.; O. T. Johnson and Mr. Whitvers, of O. T. Johnson & Co., Galesburg, Ill.; Mrs. G. Anderson, Taylorville, Ill.; Carl Oesterle, Joliet, Ill.; C. F. Ingalls, Waukegan, Ill.; J. T. Fish, Reidsburg, Wis.; George Rombach, of Rombach Bros., Canton, Miss.; George Davis, with Percy P. Davis, Seattle, Wash.; E. P. Sundberg, Fargo, N. Dak.; George P. Beach, Valparaiso, Ind.; J. H. Randall, Monticello, Ind.

Early one morning last week thieves effected an entrance into the jewelry store of John S. Townsend, 1551 Wabash Ave. and stole between \$3,000 and \$4,000 worth of jewelry. They gained an entrance by tearing the iron bars away from the brick wall which guards the transom in the rear of the store. The safe and front part of the store have burglar electric protection and these parts the thieves carefully avoided. They carefully tested the articles with acid before they stole them. They got away with about 75 filled watches, gold chains, antique ear-

rings, merschaum pipes, garters, chains, etc., and worked as though they were carefully selecting stock for a high class jewelry store. They overlooked valuable ivories and bric-à-brac. They dumped all the contents of the show cases on the floor and took what best suited their fancy. Mr. Townsend will be given \$1,000 by an insurance company and will stand the balance of the loss himself.

Indianapolis.

Carl L. Rost left Saturday for Nevada, where he will spend two weeks, looking after mining interests.

Horace Comstock left last week for Noblesville, where he will spend several days fishing. He is expected to return home this week.

J. P. Mullally, who is supreme vice-president of the American Order of Owls, will attend the State convention of the order at Muncie, May 12.

A two weeks' fishing trip is being enjoyed at Lake Maxinuckee by C. J. Kiefer and Julius C. Walk, who go to that resort twice each year on fishing excursions.

The Guarantee Jewelry Co., 37 W. Washington St., has disposed of its stock and has gone out of business. The company succeeded the Lucios Diamond Co., about one year ago.

A local washing machine manufacturing company has employed William Adams to take charge of its publicity department. Mr. Adams is well known in the jewelry trade by reason of his long connection with Gray, Gribben & Gray.

Several Indiana jewelers were in the city last week buying stock. Among them were: Mr. Robbins, of Cooper & Robbins, Mooresville; J. W. Hudson, Fortville; Clyde Porter, of the Porter Jewelry Co., Tipton; Mrs. B. Maier, Edinburg, and C. K. McCain, Kokomo.

Announcement has been made of the marriage of Moe Amdur to Miss Belle Levi, at Louisville, Ky., 10 days ago. The bride is the daughter of Mr. and Mrs. Samuel Levi, Peru, while Mr. Amdur is a well known watchmaker and jeweler of this city. The couple will reside in Indianapolis.

A number of local jewelers have signed a protest against the proposed change in duties on watches and against the provision of the tariff bill requiring that the name, town and country of the manufacturer be placed on the dial of all foreign watches. The protest has been forwarded to Senator Albert J. Beveridge.

The Massachusetts Avenue Merchants' Association, to which half a dozen retail jewelers along that thoroughfare belong, have been asked to approve and co-operate in plans for a street carnival, to be given by the Loyal Order of Moose, next month. The association will take definite action in the matter, within a few days.

G. E. Gay, Gadsden, Ala., returned home, last week, from a visit to Meridian and other points in the State of Mississippi.

A. Green, Marion, N. C., has sold his store and stock of J. F. Sprague, who has been the watchmaker in the establishment.

Cincinnati.

Joseph H. Kenkel, Main St., is showing his friends around in his new automobile.

William Nye, Warsaw, Ind., is enlarging his store, putting in new fixtures and stock.

Larz Creutz, of the Creutz Silver Plating Co., will call on the trade in the south, this week.

S. Strauss, of Lindenberg, Strauss & Co., has left on his western trip and will go to the Pacific coast.

Lem Clark, recently located with Wallenstein, Mayer & Co., as watchmaker, has moved to Miamisburg, O.

John Slaybach, formerly with Joseph Mehnert as watchmaker, has taken a similar position with C. Flint, Madisonville, O.

Wm. J. Balmert, who has been associated with J. F. Carr, Portsmouth, O., since he began business, at that place, died suddenly on Sunday last.

Mayo Loeb, of Herman & Loeb, will resume his road trip, this week. Irvin Herman, of this house, has left on his final Spring trip in Illinois.

Mr. Ashton, who retired about a year ago from the firm of Ashton & Baker, Middletown, O., has again resumed business and has opened at 506 E. 3d St.

Ralph Hogan, Akron, O., has greatly improved his store by adding more space, fine fixtures and additional stock, which makes his store one of the finest in that part of the State.

On account of their increasing business Richter & Phillips have been compelled to make many changes in their quarters, which include additional space, new office fixtures and other general improvements.

Charles Rosen, with whom is associated Mr. Levine, of Denver, Colo., has now entirely completed his handsome new store at 528 Race St., which certainly adds greatly to the appearance of that part of the city.

An order was issued, May 1, by Judge Thompson, of the United States District Court, to Robert de V. Carroll, receiver of the Herman Keck Mfg. Co., to pay 50 per cent. on the claims against the Duhme Jewelry Co.

Out-of-town jewelers here the past week purchasing stock included: L. C. Diefenbaugh, Lewisburg, O.; F. G. Meyer, Dayton, O.; Mr. Marlett, of Marlett & Baker, Middletown, O.; Mrs. Kupferschmid, Laurenceburg, Ind., and J. F. Hornberger.

A. A. Spiegel, of A. A. Spiegel & Co., has just returned from a week's stay in New York. M. Plaut, formerly a member of this company, has taken a position as traveling salesman for Erlanger & Reis, dealers in ladies' trimmings in New York.

Max Schapira, until recently watchmaker for Max Greenwald, has brought suit against the latter to recover one week's wages claimed by Schapira to be due him. The case will be heard May 3. Schapira is now located with the National Jewelry Co., 12 Emery Arcade.

E. J. Miller and Horace Tuller, who operated P. C. Krouse & Co.'s business, Columbus, O., have dissolved partnership, the former buying out the latter. Mr. Stoudt, formerly of Tiffin, O., will be associated with Mr. Miller.

Henry Weidenbach, who was arrested, April 17, in St. Louis, Mo., on a charge of grand larceny and embezzlement, was

brought to Cincinnati, last week, and pleaded guilty. He was bound over to the Grand Jury. The \$300 diamond ring which he secured from the pawnbroker, Fred Smith, has been returned to its owner.

Members of the local Retail Jewelers' Association met, Friday evening, April 30, at the Palace Hotel, to arrange about sending delegates to the State association meeting at Cedar Point, O., in June. They also adopted a memorial to Congress for the passage of a stamping law compelling all manufacturing jewelers to stamp their names and the quality of their goods on each article sold to the trade. The annual Summer outing was also considered, and A. Echemel, Robert Friesens and Joseph Kenkel were appointed a committee to arrange for it.

The last of the series of bowling tournaments given by the Frank Herschede Co.'s employes took place, April 29, when the following prizes were awarded: The Ayres trophy cup and a set of vest buttons to Laurence Herschede, of the Frank Herschede Co.; the Herschede repair department cup and sleeve buttons to Anthony Westhoff, of this house, and scarf pin to Edward Herschede, a member of the company. The customary dinner was given, and the following were guests of the evening: E. A. Reed, with Reed & Barton; Percy Lucas, with F. W. Smith & Co.; George Howard, with the Towle Mfg. Co.; Charles Williams, with Louis W. Hrabka; Paul Smith, with the Roger Williams Silver Co.; W. J. McQuillin, with Mount & Woodhull; C. P. Young, with Whiteside & Blank.

The Oskamp Jewelry Co. has closed a lease for 10 years at \$8,400 a year for the ground floor, a space of 32 by 90 feet, in the new building, which will be erected on the corner of 7th and Race Sts. in 1910. It is expected the new building will be completed at about the time of the expiration of the Oskamp concern's present lease, in February next. A. A. Oaks, long connected with this concern, has been made general manager of the store. He is now adding new stock and fitting up the store generally after the auction sale of last Winter. Herbert Oskamp, former proprietor of this business, has become interested in a steel finishing process business. W. W. Oskamp, of the above company, is reported as recovering from injuries sustained to his side and head when he was hit by a falling sign.

Canada Notes.

A. E. Ireland, Saskatoon, Sask., has gone out of business.

R. W. Russell, Yorkton, Sask., has sustained a fire loss.

H. J. Hofman has purchased the jewelry business of L. P. Smith, Thedford, Ont.

Bradley Bros., Windsor, Ont., have given a chattel mortgage to J. A. Pitts, of Montreal, for \$4,100.

George E. Trorey, Vancouver, B. C., was in Toronto, Ont., last week, on his return from a purchasing trip in Europe.

A. M. Graham, representing the Goldsmiths' Stock Co., Toronto, Ont., has just returned from a buying trip in New York.

N. M. Marshall and J. C. Diggins, recently with Ellis Bros., Toronto, Ont., have

entered into partnership as Marshall & Diggins, and purchased the business of B. Harris, Hamilton, Ont.

Milwaukee.

Little Louise Squier, the nine-year-old daughter of E. G. Squier, Rhinelander, Wis., will draw the first Grand Jury for Oneida County.

S. W. Klass, Oconto, is planning to install new furniture and equipment in his store, and is offering his present furnishings for sale.

C. A. McClatchie, Tomah, Wis., is now in charge of the E. A. Heberlein jewelry store, Bangor, Wis. Mr. McClatchie is a jeweler of wide experience.

New awnings, the most attractive to be seen thus far in Milwaukee, have been erected in front of the new downtown establishment of David Goldman.

A. P. Hirzy, Grand Rapids, Wis., has been made watch inspector for the Chicago, Milwaukee & St. Paul Railway, in addition to his similar duties for the Chicago & Northwestern Railway.

N. B. Wallace, formerly a leading jeweler at Fond du Lac, Wis., recently passed away at his home at Austin, Ill. Mr. Wallace formerly owned the Wallace block at Fond du Lac and was long prominent in business circles of that city. Burial was at Fond du Lac.

A meeting of the newly elected officers of the Milwaukee Jewelers' Club was recently held with the board of directors at which a program for the coming year was outlined. Plans are under way for taking action upon several important matters within the near future.

George Kottek, wanted in New York City for thefts of jewelry and diamonds to the value of \$1,200, has been arrested by the Milwaukee police. The jewels, most of which have been recovered, were pawned in various places at Chicago. Kottek, who dresses well and is 28 years old, will be returned to New York.

The firm of A. F. Mirlach & Bro., Hartford, Wis., recently celebrated the 42d anniversary of the founding of the business, and spent the day in passing out cigars and souvenirs to their customers and friends. The business was organized in April, 1867, by A. F. and J. F. Mirlach, and both members of the firm are still hale and hearty and as enthusiastic over the jewelry business as they were 42 years ago.

Robbers smashed the plate glass window in the store of the August H. Stecher Co., 276 3d St., last week, and made away with jewelry valued at more than \$200. It was about 3.30 in the morning when a restaurant keeper adjoining heard the crash of the breaking window and ran to the street. The burglar had disappeared, and so had the greater portion of the window display of the Stecher establishment. Henry F. Stecher, secretary and treasurer of the jewelry company, was notified, and a special watch was stationed in the store for the rest of the night. The loss is covered by insurance. This is the third robbery of the Stecher store within the past few years. F. Stecher, manager of the Stecher establishment, was recently elected president of the Milwaukee Jewelers' Club.

St. Louis.

The 12 men who represent the S. A. Rider Jewelry Co. will all return to the city about May 15.

M. H. Cox, traveling in Texas for the Hoyt Jewelry Co., is expected to return about the middle of May.

L. Bernheim, of Bernheim & Beer, New York, is accompanied on his present western trip by Mrs. Bernheim. They spent Friday and Saturday in this city.

William Wasson and F. W. Steiger, traveling representatives with the C. R. Hettel Jewelry Co., in Texas, will return from their territory in a few days.

The Rose Jewelry Co., 818 Franklin Ave., opened a branch store, Saturday, at 612 Franklin Ave., where a line of high grade jewelry and novelties will be carried.

T. H. Vinyard, who has jewelry stores at Piedmont and De Soto, Mo., is here looking for a reliable man to take charge of his De Soto store. He is also making purchases.

O. Miller, formerly employed in a jewelry house at De Soto, Mo., has begun business on his own account at Flat River, Mo. He was in town during the past few days, buying stock.

R. F. Reeves, who represents the Reeves, Kemper Jewelry Co. in Oklahoma, Kansas and Tennessee, and Edward Riley, who travels through Missouri, will start out on trips within a week.

George W. Hess and Herman Mauch attended a meeting of past commanders of the Knights Templar of Missouri, held Wednesday at the Mercantile Club, and both delivered addresses.

Alfred Gerne, who has been in business at 1403 Salisbury St., moved, Saturday, to a new and larger corner location at 15th and Salisbury Sts. At his new place he will have one of the prettiest stores in the north end.

F. W. Hoyt, president of the Hoyt Jewelry Co., returned from Hot Springs, Ark., where he had spent three weeks for the benefit of his health. Mrs. Hoyt, on account of ill-health, spent the greater part of the winter at the springs.

Thomas L. Jarvis, who has been in business on the tenth floor of the Holland building, has taken Henry W. Peterson in partnership with him and the firm, to be known as Jarvis & Peterson, has moved into larger quarters on the eighth floor. Mr. Peterson has not heretofore been engaged in the jewelry line.

Among the out-of-town jewelers here, during the past week, were: Otto Friedrich, Cape Girardeau, Mo.; W. C. Pfaeffle, Enid, Okla.; William Westphal, St. Charles, Mo.; C. S. Scanlin, Indianapolis, Ind.; R. D. Worrell, Mexico, Mo.; O. Miller, Flat River, Mo.; O. W. Simon, Collinsville, Ill.; W. R. Haselwood, Bardwell, Ky.

In the bankruptcy proceeding against Edward H. Kniepkamp, pending before Referee-in-Bankruptcy Coles, a hearing was held on the petition of the Sol Lowenstein Jewelry Co., for an order on the trustee for certain property and the order was denied. The hearing on the application of the trustee for an order of sale was continued.

The capital stock of the Smith's Credit Jewelry Co. has been increased from \$4,000 to \$20,000 and the number of directors has

been increased from three to five. The new directors are: Charles Hoyle, of Hoyle & Rarick, Dallas, Tex., and J. C. Brownstone, New York. The officers remain the same—E. E. Smith, president and treasurer, and J. N. Rarick, vice-president and secretary.

Henry Estinghausen, president of the Atleboro Jewelry Co., returned Friday from Mexico, where he had been traveling since the early part of February. He will remain in St. Louis about two months and will then probably go to Yellowstone Park and Seattle. He says business conditions in Mexico are bad, due to the arrival there of the American panic, scarcity of money and inactivity of the mines.

Claud Wheeler, Columbia, president of the Missouri State Society of Retail Jewelers, is asking members of the association to suggest topics that they would like to have discussed at the State convention, to be held in St. Louis June 21 and 22. Jewelers who are not members will be admitted to the executive sessions of the convention, to be held on the opening day, but the hope is expressed that they will become members.

At a meeting held Tuesday in the city hall in the interest of a celebration on a large scale of the centennial of the city of St. Louis, the Retail Jewelers' Association was represented by a committee composed of Herman Mauch, the president; E. H. Kortkamp and Frederick W. Drost. Otto Buder, jeweler, member of the House of Delegates from the eighth ward, represented the House of Delegates at the meeting.

The executive committee of the Retail Jewelers' Association met Thursday night, at the Mercantile Club, and discussed details in connection with the State convention, to be held here June 21 and 22. There was further inquiry also into the practices of a jobbing house that is alleged to be encroaching upon the field of the retailers by selling at retail and cutting prices. The committee will make a report on the matter to the St. Louis association.

The new store of the Hess & Culbertson Jewelry Co., at 7th and St. Charles Sts., will be opened to the public for the first time on Monday, May 17. The opening reception will continue three days. Over 20,000 invitations are being issued. The removal sale that has been in progress for some time at the old location, at 6th and Locust Sts., will close next Saturday night. The store will be kept open the following week right up to Saturday night, so that there will be no interruption of business.

Simultaneous with the change of the name of the E. Maritz Jewelry Mfg. Co. to the Maritz-Kober Jewelry Mfg. Co., the capital stock of the company has been increased from \$10,000 to \$20,000. The additional issue of stock has been taken in equal parts by Edward F. Maritz, the president, and Samuel Kober, secretary of the company. Mr. Kober has just returned from a trip through the southwest. He also attended the annual convention of the Oklahoma Retail Jewelers' Association at South McAlester.

Walter Payne, Springfield, Mo., has asked the police to help him recover \$25 which he loaned to an amiable diamond merchant. Payne was on his way to Minneapolis and had a stop-over of a few hours at Union

Station. He struck up an acquaintance with an agreeable gentleman who said he was a diamond merchant. He remarked casually that he had to go to 12th and Olive Sts. for his case of diamonds, and as he was waiting for the same train he suggested that Payne walk down there with him. At 12th and Olive Sts. Payne waited outside. The diamond merchant came out and said he owed the house a trifle of \$25 and they could not cash his check. Would Mr. Payne let him have the \$25. Mr. Payne agreed. The merchant re-entered the building and did not again emerge. Payne waited a while and then told the police.

Detroit.

David Nederlander has opened his store and loan office at Monroe Ave. and Farrar St.

Mathauer & Koester have moved to the new Jewelers' Building, at 193 Woodward Ave.

Edwards, Haldeman & Co. have established themselves in their new quarters at 141-143 Woodward Ave.

Active work on the remodeling of Traub Bros. & Co.'s store, at Woodward and Grand River Aves., has begun.

Fred Binder, manager of the Detroit Jewelry Mfg. Co., was called to Cleveland, recently, on account of the death of his uncle, Henry Binder.

E. Thomas & Son have succeeded Le Heup & Thomas, Detroit, Mich., Mr. Le Heup having retired from the firm. The business will be continued as usual at 80 Michigan Ave.

Carl Bay, who has been with William Sheldon at Adrian for four years, has purchased the D. B. Seely stock in Milan and will continue the business there. He was married in Detroit, Wednesday night, to Miss Koch.

Detroit Ku-Kus made up a party which went to Saginaw, last Wednesday, and initiated 33 Saginaw and Bay City jewelers and opticians into the order. It was not decided whether the up-State men will form a separate nest or will amalgamate with Detroit Nest, No. 5. The occasion for the gathering was the executive committee meeting of the Michigan Retail Jewelers' Association, which was held in Saginaw on that day. It was decided to hold a State meeting at Grand Rapids about May 15, to choose delegates to the national convention, while the regular annual State convention of jewelers and opticians will be held in Detroit, in August. The Detroit Ku-Kus, who made the trip, were: Frank Kennedy, Nelson K. Standart, Charles A. Berkey, E. H. Pudrith, Frank Kunz, E. A. Patterson, W. H. Horton and W. B. Morehouse and A. B. Hull, of Belding; W. F. King, Jr., of Adrian; Sandy MacKay, of West Branch, and Victor C. Morse, of Ithaca, were among the other jewelers who attended the Saginaw meeting. President Hull, of the Retailers' association, declared that harmony exists between the retailers and jobbers of the State, and urged that the latter be well supported.

S. E. Theus, of Theus & Co., Savannah, Ga., was elected a director of the Savannah Chamber of Commerce recently.

Kansas City.

J. R. Mercer and wife are home from their European pleasure trip.

The Porter & Wisner Jewelry Co. has installed a large enameling furnace.

L. R. Hassig, of the Hassig Jewelry Co., is making a flying business trip through Oklahoma.

All travelers for the Edwards & Sloane Jewelry Co. are in the house this week, assisting in taking inventory.

J. B. Hampton, Colby, Kans., stopped off in this city, last week, while on his way home from a trip to Illinois.

C. H. Fisher was in Kansas City, last week, purchasing a stock of jewelry and fixtures for a new store he is just opening in Helena, Okla.

Noble L. Fuller, with the Edwards & Sloane Jewelry Co., recently returned from a trip east, where he has been spending a couple of weeks buying diamonds and gold jewelry.

All the jewelry jobbers, material houses and manufacturing jewelers of Kansas City agreed to close their places of business on Saturday afternoon at one o'clock, beginning May 1.

Announcements are out for the wedding of John C. Armstrong, Ottawa, Kans., to Miss Charibel Russell, this city. They will be at home to their friends after May 1, at 414 Locust St., Ottawa.

The show window in the store of F. W. Swearingen, Topeka, Kans., was broken the other morning at 4:30 and robbed of watches, diamonds, etc., valued at about \$1,000. No trace is reported of the robbers.

The Meyer Jewelry Co. has already begun to move into a new location on the fifth floor of the Boley building, and will continue the work until completed. It is expected that everything will be in place by Monday morning, May 3.

Wm. Kassell, who had a stock of jewelry in the lobby of the Ridge building, suffered a loss in the fire which destroyed that building. He is temporarily located on the third floor of the Main St. Ridge building, and it is reported that there was but little damage to the stock which had been placed in the safe.

Nevin Bros. were saved a heavy fire loss by their recent removal from the second to the fifth floor of the Keith & Perry building. When the Ridge building burned, next door, the flames came in at the window of the room which they recently occupied, and if their shelving had been in its former location it would have caught fire and would have necessitated the throwing of water over the stock, thereby doing great damage.

The following jewelers called on the local trade during the past week: G. Rothfelder, Formosa, Kans.; E. R. Reyer, Westmoreland, Kans.; H. G. Sloan, Le Roy, Kans.; Geo. A. Young, Moberly, Mo.; A. Y. Boswell, Tulsa, Okla.; E. L. Murray, Arcadia, Kans.; P. H. Young, Dodge City, Kans.; H. W. Selts, Clay Center, Kans.; O. H. Newcomb, with Amphlett Bros., Apache, Okla.; C. A. Cline, Edgerton, Kans.; L. S. Slocum, Corning, Kans.; Chas. Webber, Lexington, Mo.; R. R. Smithers, Cameron, Mo.; F. C. Clement, Pleasant Hill, Mo.; L. Megede, Richmond, Mo.; J. L. Potts,

Marceline, Mo.; W. J. Mulnix, Holden, Mo.

Los Angeles.

William Petry, 114 S. Spring St., is visiting his new turquoise mine in Arizona.

W. H. Wilson & Co. have just opened a new jewelry store in Ocean Park, 15 miles from this city.

E. B. Smith, Santa Ana, has bought a fine new automobile and intends soon to start with it for a vacation trip.

Hambright & Walsh, wholesalers, 312 S. Broadway, have been installing a large new wall case for their cut glass goods.

Mr. Baker, formerly with Greenwald & Adams, Tucson, Ariz., has taken a position with F. B. Smith, Santa Ana, Cal.

The E. W. Reynolds Co. will start on May 1 to invoice the stock of the company. The work will probably occupy nearly 30 days' time.

Among the out-of-town jewelers in this city, recently, were: H. F. Rader, Monrovia; J. H. Padgham, Santa Ana; T. L. Imel, Covina; E. B. Smith, Santa Ana.

Lonnie G. Feagans, who was married at his home in Joliet, Ill., April 11, is here with his bride spending a few weeks at the home of his parents, Mr. and Mrs. George E. Feagans.

S. Meyer & Co., wholesalers in the German building, have been appointed agents for the Dueber Hampden Watch Works, and are finding a large demand for this company's product.

Asa M. Bacon, who has been with the Bohm, Allen Jewelry Co., Denver, Colo., for 18 years, is, with his wife, spending several weeks in southern California visiting the various beach and other resorts.

Charles J. Walter, who was compelled to discontinue business some months ago on account of financial difficulties, has, with the help of some friends, bought back his stock from the assignee and expects to go into business again, but has not yet selected a location. Mr. Walter was in business on Spring St. for many years.

The presence at San Pedro harbor of two Japanese warships resulted in bringing a large number of the officers and men to Los Angeles. There is a large Japanese population here, and a considerable number of the ships' men were brought by the countrymen to the jewelry stores, where they purchased mementoes of their visit.

J. G. McKay, formerly of Selma, Ala., who has recently traveled up and down this coast looking for a new location, has decided to open a store in Selma, Cal., a town of about 3,000 inhabitants, near Fresno, in the heart of the grape growing region. He is in Los Angeles at present, making arrangements for the new enterprise.

Karl Zimmer and A. Holtzen, operating under the title of the German-American Turquoise Co. and doing business at 114 S. Spring St., recently purchased a turquoise mine claim owned by William Petrie. Development work has been begun and a quantity of exceptionally fine specimens have been brought here and prepared for the market.

F. Upchurch, Angelton, Tex., is now at Mart, Tex.

Denver.

Dan S. Park returned from Mexico, last week.

I. O. Glazier, Greeley, was in this city, last week.

Wm. M. Lockard, Longmont, was here, last week, buying stock.

E. A. Eaves, Idaho Springs, was in this city, last week, purchasing stock.

A. W. Cross and daughter, of Grand Junction, were in Denver, last week.

J. S. Bentley, of the J. S. Bentley Jewelry Co., Boulder, was in this city, last week.

The stock of Paul de Ana, Fort Morgan, Colo., who went into bankruptcy, last week, will be sold at auction.

H. D. McKelvey was in Denver, last week, buying goods for his store in Salida, which he recently opened.

Jos. Hamilton, of the W. W. Hamilton Jewelry Co., returned, last week, from a short trip through Colorado.

W. Llewlyn, of the Watson & Newell Co., returned, last week, from his trip through Montana and Wyoming.

A. B. Watson, head watchmaker for Lyman Bros. Jewelry Co., has just returned from a three months' visit in Seattle, Wash.

Dan S. Park, of Dan S. Park & Co., Cheyenne, Wyo., left Wednesday for Cheyenne, to attend to business interests there.

Charles C. Post, Morrison, Colo., was in Denver, Wednesday, buying goods for his new jewelry and curio store which he opened several weeks ago.

The following out-of-town jewelers were in the city, last week: Sol. Erick, Lafayette; Harry Evans, Breckeridge; J. P. Wilcox, Idaho Springs; E. L. Peisar, Glenwood Springs.

Mr. McLaughlin, of the W. W. Hamilton Jewelry Co., returned, last week, from a three months' trip through the northwest. Mr. McLaughlin reported satisfactory business conditions.

A. W. Cross, Grand Junction, has sold his business to the Elite Jewelry Co., and not to the Peerless Jewelry Co., as was erroneously reported, last week. J. J. Weigtman will be the manager of the new concern.

The store of the S. W. Moody Jewelry Co., Grand Junction, has gone into bankruptcy. The creditors have sold the stock to F. R. Crocker, Green River, Wyo. From the present outlook the creditors will receive about 50c. on the dollar.

The W. W. Hamilton Jewelry Co. is making extensive improvements in its store. The entire salesroom is being remodeled and the store when finished will be one of the most attractive in the city. A balcony is being put in for the office, and this will considerably increase the floor space.

Dan Weil, formerly of the T. C. Weil Jewelry & Curio Co., 1104 17th St., has left the jewelry business and bought an interest in the Home Furniture Co., Akron, O. Mr. Weil left, Monday, for Akron, where he will soon take up his new duties.

John K. Knowlton, Rapid City, S. Dak., has filed a voluntary petition in bankruptcy, placing his liabilities at \$1,830 and his assets at \$1,015, of which \$272 is claimed as exempt.

Omaha.

Anton Zimmerer has sold his business in Nebraska City to J. P. Michelson.

J. L. Kaas, a veteran jeweler of this city, is confined to his home on account of illness.

J. C. Wood, Logan, Ia., and John Morris, Hancock, Ia., spent a few days of last week in the city, purchasing stock.

A handsome silver loving cup was supplied by the C. B. Brown Co. for the Omaha *Daily News*, to be given as a prize in the Endurance automobile contest which takes place next month. The cup stands 16 inches high, and has two large silver handles. Around the top is a band two inches wide, of raised thistles and leaves.

A special dispatch from Nebraska City, Wednesday, announced that Clem Swenson, a farmer, living north of the city, and near the right-of-way of the Missouri Pacific Railway, while harrowing one of his fields, found a gold watch near the side of his harrow. He picked it up, and lying a short distance from it was another. Further investigation brought to view rings, other watches, necklaces, watch chains, and enough miscellaneous jewelry to fill a hat. At noon he brought them to town, and later in the day he and the sheriff went out to the field, where another hatful of jewelry was found. It had been scattered all over the field by the harrow. The goods evidently had been planted for several months. The spot was marked by three sticks, which were fastened by barbed wire that had been cut from a nearby fence. It is thought that the stock comprises property stolen from jewelry stores in Stella and Julian, Nebr. The articles are being cleaned up, and will be held for identification. Attached to some of the articles are cards bearing the cost and selling price. The entire collection consisted of a dozen watches, 30 rings, five watch chains, pearl earrings, breast pins, etc. The watches were all gold, while the jewelry was mostly gold, with a few gold-plated pieces.

Pacific Coast Notes.

W. A. Ray, Rawhide, Nev., has moved into larger quarters at that place and is now to be found next to the First Exchange Bank.

E. B. Melchoir, who formerly was a repair man for Fred Jenkins, Santa Paula, Cal., has gone into business for himself at that place.

William Wurm, Gallup, N. Mex., has purchased the stock and business of R. E. Yontz, of that place, and will move into the quarters previously occupied by Mr. Yontz.

The Jupiter Consolidated Jewelry Co. has decided to remove its principal place of business from Fresno to Los Angeles to suit the convenience of a majority of the stockholders.

J. A. Ellis, founder of the Waltham Watchmaking School at Waltham, Mass., was a visitor in Merced, recently, where he spent some time visiting the California Watchmaking School.

F. E. Brasfield, who has been in the employ of E. B. Smith, Santa Ana, Cal., for a few days only, has been arrested on war-

rents issued from Temple, Tex., and will be taken back there to answer to a charge of selling bogus diamonds. In answer to the charge Mr. Brasfield states that while in business at that place he bought five diamonds which he thought were genuine and sold them to different parties for \$480. After the report that the diamonds were not genuine he bought them all back at the full purchase price and considered the incident closed. He thinks that it is a case of spite work on the part of enemies, and is willing to return and face the charges.

Cleveland.

Samuel Stiles, of the Sigler Bros Co., is on a short vacation.

S. M. Duncan, formerly with G. R. Brainard, Collingwood, O., is now in business in Keyesport, Ill.

Ralph Hogan and wife, Akron, O., were in town this week. Mr. Hogan expects to open his new store in a day or so.

A. D. Weed, who has been with the Bowler & Burdick Co. for several years, will succeed Arthur Ellbogen on the road.

Ben. Pfeifer, who was formerly with Wm. J. Kappeler, this city, opened a jewelry store at 332 South Main St., Akron, May 1.

Arthur Ellbogen, who has been with the Bowler & Burdick Co. for the past three years, will hereafter cover the states of Ohio, Michigan, West Virginia and Indiana for the Sigler Bros. Co.

The following out-of-town jewelers were in town this week: M. D. Johns, Akron; W. J. Higgins, Shelby; Wm. Kutz, Bellevue; F. H. Pitkin, Andover; Mr. Kinter, Painesville; Mrs. S. Gilger, Norwalk, O.; T. H. Adamson, Cochranton, Pa., and Elop Brown, Youngstown, O.

John Rieh, one of Painesville's pioneer citizens, died Tuesday, April 27. Mr. Rieh was 78 years old and had been in poor health for some time. He had been a resident of Painesville since he was a young man, and was in the jewelry business over 50 years. The business will be conducted by his son, John Rieh, Jr.

Pacific Northwest.

E. M. Young has purchased the business of E. L. Nutt, Rainier, Ore., and is now in possession of the store.

A clock and chimes will be placed in the new court house at Baker City, Ore. The cost is estimated at \$5,000.

B. W. Felder, who has been taking a long vacation in southern California, is back again at his store in Wilbur, Wash.

George G. Sehrum, who for many years has been associated with the Lawrence L. Moore Co., Seattle, has left to go into a different line of business.

E. C. Barker & Co., Coquille, Ore., are remodeling their store at that place, and when it is finished expect to have one of the most up-to-date establishments in the Coast Bay district.

L. R. Whitlock's store at Kennewick, Wash., was entered by burglars, recently, and goods valued at \$175 were taken. Shortly after the thieves escaped with their booty one of them attempted to dispose of a

watch. The men were trailed to Pasco and arrested there. Some jewelry was recovered, but the watches were missing.

San Francisco.

L. H. Orr, a traveler for the Gorman Co., has left on a trip up the coast.

Mr. Andrews, representing Eicher Bros., Los Angeles, was here, last week, on business.

L. S. Howe, Point Arena, and William D. McKenzie, Monticello, were here, last week, on a buying trip.

A. Delovage, Portland, Ore., was here recently and, April 22, was married to a Miss Newman, of this city.

J. O. Levison, of the California Jewelry Co., has left for Europe to purchase a stock of diamonds for his firm.

De Luce, Paris, is preparing to vacate his store at 747 Market St., as the building is to be torn down to make room for a modern one.

Frank A. Presmeyer, of the firm of Hardy & Co., Seattle, Wash., was visiting in San Francisco, recently. He was here on a pleasure trip only.

The art jewelry department of Paul Elder & Co. has been opened again in the new store on Grant Ave. and a larger stock than ever is now being carried.

Leon Nordman, of Nordman Bros.' Co., is now on his way to Europe and before starting upon his trip was tendered a banquet by the other members of the firm.

Radke & Co. are holding a special removal sale at the store at Van Ness Ave. and Bush St., and will announce the selection of a new store in the down-town district within a short time.

Burglars have renewed their activities in San Francisco again and jewelry losses are of frequent occurrence. N. Abraham, a jeweler located at 1105 Grant Ave., is the latest victim among the trade and suffered a loss of stock, valued at \$150, last week.

Just what class of stores will locate in the Head building, opposite Shreve & Co's store, is not settled upon as yet, but a prominent retail jeweler has been figuring on a lease of the whole lower floor, and if this is secured he will occupy the corner store.

Automobile racing is still the motive for a great many cups and one of the latest to be offered is a silver trophy cup offered to any one lowering the running time of a well known machine to Los Angeles and return. Shreve & Co. have designed the cup and will have it finished shortly.

Shreve & Co. have been making a comparison of the volume of business done by them recently as compared with other years and have found that business for the month of March, when they moved to the new retail district, was heavier than had been experienced in any March since 1905. The record for April to date is even more encouraging and will show an increase over the March business.

Frank T. Parritt is closing out his retail stock in Des Moines, Ia., and in partnership with E. A. Kelley, of Chicago, has organized the Kelley-Parritt Co., which will do a wholesale jewelry business. The new company will occupy rooms on the third floor of the Marquardt building, in Des Moines.

Third Edition

Workshop Notes

FOR
Jewelers and Watchmakers

100 Pages New Matter
Containing 300 Pages (size 7½x10½ inches)
Bound in Cloth, Stiff Covers

A collection of the latest practical receipts on the manufacture and repairing of watches and clocks, and on the various processes entering into the manufacture and repairing of jewelry, as coloring, polishing, enameling, annealing, oxidizing, etc., in short, a thorough compendium of the numerous mechanical departments of the jewelers' and watchmakers' shops.

This book is the most useful, comprehensive and perfect publication for the workman at the bench, and should be in the hands of every jeweler and watchmaker in the country. It is the only book of this kind published.

Price, by mail postpaid, \$2.50

5 YEARS' EXPERIENCE GAINED IN 1

The young or middle-aged man who desires to learn Engraving, to grasp the finer points of Watchmaking and Optics, finds it necessary to spend at least five years in a store before he has attained a thorough knowledge of the business. In less than a year's time this complete knowledge can be gained at our college. We get telegrams and letters every day, offering positions to our graduates, which shows what practical storekeepers think of our course. Send for Prospectus NOW. A position awaits you.

UNITED STATES PATENTS.

ISSUE OF APRIL 13, 1909. (CONTINUED)

917,903. CHAIN MACHINE. HARRY A. STAPLES, Pawtucket, R. I. Filed Feb. 20, 1908, Serial No. 416,864.

In a chain-machine, the combination of a main shaft; means to rotate the same; mechanism for uniting the links to form a chain; a bevel gear fastened on said shaft; a second shaft mounted in bearings and extending at a right angle to the main shaft; a beveled gear fastened on the second shaft engageable with the first named gear; a drum loosely mounted on the second shaft; a friction disk fastened on the second shaft and rotatable therewith continuously in one direction and adapted by a rubbing contact with said drum to impart thereto a rotary movement in said direction, and means adapted to give said link-uniting mechanism a periodical rearward movement for the purpose of imparting a reverse travel to the chain, and thereby to give a periodical rotary movement to said drum in the other direction, thus overcoming the said normal forward rotation of the drum.

tion disk fastened on the second shaft and rotatable therewith continuously in one direction and adapted by a rubbing contact with said drum to impart thereto a rotary movement in said direction, and means adapted to give said link-uniting mechanism a periodical rearward movement for the purpose of imparting a reverse travel to the chain, and thereby to give a periodical rotary movement to said drum in the other direction, thus overcoming the said normal forward rotation of the drum.

918,154. METAL-TUBE MACHINE. LESLIE E. HOOKER, Pawtucket, R. I. Filed April 17, 1908. Serial No. 427,591.

In a machine of the class described, the com-

bination with the bed-plate, of a perforated hardened plug held therein, a jacketed die secured on said bed-plate and a bushing inserted in said die and resting on said plug.

918,105. METAL-WORKING MACHINE. D. M. WATKINS, Providence, R. I. Filed June 18, 1906. Serial No. 322,122.

In a machine of the class described, the combination of a gutter-spindle, a cutter mounted thereon, a shaft mounted parallel with said cutter-spindle, a die-ring mounted on said shaft opposite said cutter, and means for automatically reciprocating said cutter across the face of said die-ring.

918,106. SAFETY DEVICE. D. M. WATKINS, Providence, R. I. Filed Feb. 13, 1907. Serial No. 357,144.

In a press or similar device, the combination with the bed, of a stationary die mounted thereon,

a rock-shaft having one end loosely mounted in said bed and the other end loosely mounted in a bracket secured to the frame of the press, a projection on said bracket, an arm secured to the

rock-shaft and adapted to engage and disengage said projection, a second arm secured to said rock-shaft and adapted to swing across the stationary die, and means for operating said rock-shaft.

ISSUE OF APRIL 20, 1909

919,368. ELECTRIC ATTACHMENT FOR ALARM-CLOCKS. ABRAHAM LEWIS, New York. Filed Sept. 30, 1903. Serial No. 175,242. Renewed Nov. 29, 1907. Serial No. 404,376.

The combination of a clock having a key of an electric alarm adapted to be operated by the turning of said key and including a clamp adapted

for attachment to said key, an arm carried by said clamp, and a circuit including a wire directly connected to said clamp so that said arm forms one terminal of the circuit, and a second terminal projecting into the path of movement of said arm as the key turns.

919,486. ELASTIC LINK-BRACELET. FRIEDRICH SPEIDEL, Pforzheim, Germany. Filed Sept. 25, 1907. Serial No. 394,147.

An elastic link-bracelet comprising in combination a series of cover links, connecting bars having T-

shaped ends, pins projecting from one of said ends and coiled springs, engaging said pins at one end and abutting against the inner surfaces of the cover links at the other end.

919,596. GEM-SETTING DEVICE. RAMEY

KIRKWOOD, Scranton, Miss. Filed March 20, 1908. Serial No. 422,340.

A gem setting device comprising a post having

its lower end arranged to be clamped in a vise, a detachable mandrel extending from the post and constructed and arranged to receive settings of different sizes, an arm located above the mandrel and adjustably mounted on the post, and a gem-engaging clamping screw mounted on the arm and carried by the same in the adjustment thereof to arrange the said clamping screw at different points along the mandrel.

919,602. JEWEL-CUP FOR FAUCETS. D. B. LEE, Detroit, Mich. Filed Jan. 15, 1909. Serial No. 472,528.

A jewel-cup for faucets, consisting of a bowl and a body portion, the body portion comprising an integral sheet metal flaring top and a stem

portion, such stem terminating in a nipple, and the bowl of sheet metal fitting within the top of the body portion having its edge secured to the edge of the top of the body portion.

919,613. BRACELET-BAG. CHARLES O. MASON, Attleboro Falls, Mass. Filed Jan. 12, 1909. Serial No. 471,955.

In a bracelet-bag or holder, a receptacle having a front and rear extension, a cover flexibly and extensibly connected to the rear extension and

having a front extension overlapping the front of the receptacle, vertical movement being allowed the cover to clear the front extension after which it may be thrown back to expose the article.

919,646. TRANSMITTER FOR IMPULSE-DRIVEN CLOCK SYSTEMS. FREDERICK M. SCHMIDT, Brooklyn, assignor to the Self Winding Clock Co., Brooklyn. Filed Nov. 5, 1908. Serial No. 461,229.

For electrically controlling secondary clocks from a master clock, a master clock a transmitter disposed and operated independently of the master

clock, having a plurality of electrical contacts and adapted to momentarily close all of said contacts simultaneously, and means mechanically controlled from the master clock for permitting said transmitter to close said contacts at and during predetermined time intervals.

919,647. FEED AND POSITIVE LOCK FOR CLOCK-TRAINS. FREDERICK M. SCHMIDT, Brooklyn, assignor to the Self-Winding Clock Co., Brooklyn. Filed Nov. 5, 1908. Serial No. 461,230.

In a step by step feeding device for clock trains and the like, the combination with a step by step operating feeding pawl, a toothed wheel adapted to be fed by said pawl, and a spring-pressed locking pawl normally in positively locking engagement with said wheel; of a finger integral with said feeding

pawl adapted to disengage said locking pawl from the wheel at the beginning, and release it to re-

engage said wheel before the completion of the feeding stroke.

919,764. STEM-WINDING AND SETTING WATCH. WILSON E. PORTER, New Haven, Conn., assignor to the New Haven Clock Co., New Haven, Conn. Filed Sept. 30, 1908. Serial No. 455,507.

In a stem-winding and stem-setting watch, the combination with the front and back movement-plates thereof, of a bridge bearing upon the back or outer face of the said back movement-plate, a main winding-wheel, a rock-shaft having its re-

spective ends journaled in the said bridge and front movement-plate, a spring-actuated oscillating dog mounted upon the said rock-shaft and located between the said front movement-plate and bridge in position to bear against the inner face of the said bridge, and the said dog being formed with a stop-lug and a relaxing-tooth for coaction with the teeth of the said wheel.

919,765. ALARM-CLOCK. WILSON E. PORTER, New Haven, Conn., assignor to the New Haven Clock Co., New Haven, Conn. Filed Sept. 30, 1908. Serial No. 455,508.

In an alarm-clock, the combination with an alarm-mechanism including a lever, of a push-rod

manually operated to move the said lever into position for arresting the alarm-train, and means operated by the time-mechanism for automatically moving the said lever into its alarm-sounding position after its operation by the said push-rod.

919,800. COLLAR-SUPPORTER. CHARLES T. WITTESTEIN, Newark, N. J. Filed Jan. 8, 1908. Serial No. 409,751.

A collar supporter consisting of two collar pins each comprising a body portion and a pin shaft attached at one end to said body portion and having with respect thereto an angular motion normally confined to a plane through said pin shaft and body portion and a stationary keeper on said body portion for said pin shaft, a strut between said body portions intermediate of their ends, and means connecting said collar pins to

said strut and positively holding them each with the said plane through its pin shaft and body por-

tion substantially perpendicular to the said strut.

919,790. SECONDARY ELECTRIC CLOCK. JACOB STEIGER and JAMES BESANCON, La Chaux-de-Fonds, Switzerland. Filed July 7, 1908. Serial No. 442,334.

In a secondary electric clock, the combination of a wheel to transmit motion to the hands, a pallet

coacting with said wheel, and an electric motor having a rotary armature which makes complete revolutions and by which said pallet is actuated.

919,801. COLLAR-SUPPORTER. CHARLES T. WITTESTEIN, Newark, N. J. Filed March 10, 1908. Serial No. 420,205.

In a collar-supporter, the combination with two collar pins having flattened body portions, of

means for holding them apart, and devices between said means and one body portion whereby it is permitted to swing in the plane of the other.

919,864. STUD OR BUTTON. ADOLPH HERMAN, St. Louis, Mo., assignor to the Eisenstadt Mfg. Co., St. Louis, Mo. Filed Oct. 14, 1908. Serial No. 457,603.

In a stud or button, the combination with a head, of a shank carried thereby and tubular at its rear end, a stem pivoted in said shank, an ex-

ension member carried by said stem, said shank being provided at one side with a U-shaped recess to allow said stem to be turned at right angles to said shank and at the side with an aperture for said extension member, and a spring for operating said extension member through said aperture.

919,879. WATCH-HOLDING CLOCK CASE. HENRY C. KARR, Washington, D. C. Filed Feb. 25, 1908. Serial No. 417,671.

A case for converting a watch into a clock, consisting of two flat-bottomed open shells frictionally fitted one entirely within the other, the top walls

of the two sections being notched coincidentally to embrace the stem of the watch, and the face of

the outer section being provided with a circular opening.

919,892. ALARM-CLOCK. EDWIN B. LAPHAM and JAMES WALKER, New York, assignors to Seth Thomas Clock Co., Thomaston, Conn. Filed Feb. 25, 1909. Serial No. 480,047.

In combination a clock movement, an alarm mechanism, a stopping device for normally preventing the operation of said alarm, tripping means actuated by said clock movement adapted to release said stopping device and allow said alarm to operate until said stopping device is re-

turned to its normal position, an engaging member moved by hand to replace and hold said stopping device in its normal position, and means controlled by the clock movement for automatically disengaging said hand moved member from the stopping device before the next actuation of the tripping means.

920,024. ELECTRIC CLOCK. EDWARD E. CLEMENT, Washington, D. C. Filed Dec. 2, 1905. Serial No. 289,977.

In an electrical clock, the combination with a support, of indicating devices arranged thereon in

groups representing hours, indicating devices arranged in groups representing minutes, a set of common feeds for corresponding devices in all the groups, a common return for each group, and means for operating each device in chronometric order.

920,051. GAGE FOR WATCH-GLASSES AND GROOVES AND FILLETS. ANTOIN GUERINEAU, Secondigny, France. Filed Oct. 7, 1908. Serial No. 456,671.

A gage for watch-glasses and the groove of a

case center of a watch consisting of two pivoted arms formed at one end with jaws having arc shaped projections on one side

and arc shaped hollows on the other side, the projections serving for measuring the grooves and the hollows for measuring the watch-glass, a scale at the other end of one arm and an indicator at the corresponding end of the other arm moving over said scale.

920,098. CLOCK-SPRING RELEASER AND WINDER. VICTOR C. TAYLOR, Ossian, Ind., assignor of one-half to John H. Hoover, Ossian, Ind. Filed April 13, 1908. Serial No. 426,663.

In a device of the character described, comprising supporting means, post-engaging means carried by said supporting means, intermeshed gearing also carried by said supporting means, means

for actuating said gearing, a bushing whose bore is angular in cross section, one of the members of said gearing having a tubular axis adapted to receive said bushing, and means for the retention of said bushing in said tubular axis in effective position, and means for holding said gearing against reverse movement.

DESIGNS.

39,941. BADGE. JOSEPH J. COCCARO, New York.

Filed Feb. 20, 1909. Serial No. 479,287. Term of patent 7 years.

39,942. CLOCK CASE. PETER G. GIROUD, New

York. Filed Feb. 24, 1909. Serial No. 479,850. Term of patent 7 years.

TRADE-MARKS REGISTERED APRIL 27, 1909

Lancaster, Pa.

Marcus Edelstein paid a visit to New York, last week.

Frank P. Dawes, Pittsburg, formerly a Lancaster watchmaker, spent several days in Lancaster, last week.

The offices of John B. Roth, Jr., manufacturing jeweler, have just been handsomely redecorated and titted up.

Robert N. McCloskey, son of George L. McCloskey, Renovo, Pa., has entered the Ezra F. Bowman Technical School, as a student.

Pierce Bartley has gone to the piney region of North Carolina for the benefit of his health. He was there a year ago, for a couple of months, and derived great benefit from the trip.

F. A. Peters, of the H. S. Meiskay Co., has returned from a business trip through Central Pennsylvania. F. A. Huber, with this company, is off on an extended trip over his territory.

John J. Bowman, Ezra F. Bowman's Sons, visited Harrisburg, last week. Mr. Bowman has been appointed a member of the Central Committee of Children's Playground Association.

John L. Kenealy, a retired jeweler, who was formerly in business in Dayton, O., died last Thursday, at his home near Columbia, aged 71 years. He served all through the Civil War.

Tag Day was celebrated here April 30, when everywhere tags were sold for the Children's Playground Fund. Four Lancaster jewelers contributed: S. Kurtz Zook, W. W. Appel, Aug. Rhoads and Louis Weber & Son. Tags were sold at Jeweler Rhoad's store.

About four o'clock on the morning of April 26, a police officer found a man, giving the name of Marvin Garrett, trying the door latch at S. Kurtz Zook's jewelry store, and searching his pocket as if for a key. He was arrested, but as he had been drinking, Mayor McCaskey let him go.

An intercollegiate athletic meet will be held May 8 at Franklin and Marshall College, Lancaster, and G. William Reisner has made the 13 sets of gold, silver and bronze medals for awards, the face of each bearing the college seal. He also furnished the 13 silver cups that will also be awarded.

R. C. Williams, with T. R. Helms, Hamlet, N. C., has entered the Ezra F. Bowman Technical School as a student in engraving, and H. K. Sullivan, Anderson, N. C., has likewise entered the engraving department. E. Seiple, a graduate of the school, has taken a position at Johnstown, Pa., with the Penn Traffic Co., as watchmaker. Another student, Harry T. Charles, has gone to Bedford, Pa., to take a position as watchmaker with J. W. Ridenour. Charles B. Imhoff, a graduate, late with Charles C. Crook's Co., Baltimore, has taken a position with Richard H. Beyer, Erie, Pa.

Diamonds valued at \$400 were taken from the pawnshop of W. Wolkow, Wichita, Kans., at noon one day recently, while the proprietor was at dinner. The thief broke open a rear door. This is the second daylight pawnshop robbery in Wichita in three months.

Boston.

Max Posner has returned from a business trip to Birmingham, Ala.

Walter B. Snow has returned from an extended trip through New Hampshire.

F. H. Jessup, a prominent retail jeweler of Wareham, is in Nova Scotia, hunting and fishing.

W. H. Kinna, New York manager of the Elgin National Watch Co., has been in this city on business.

J. W. Armbruster, of the Illinois Watch Co., was here, last week, as was W. D. Merrill, of the Hamilton Watch Co.

M. Myers has returned from a two months' trip, which included the Pacific Coast and much of the intervening territory.

Miss Dollie J. Kiley, who had been employed at the Waltham watch factory 16 years, died, Tuesday of last week, at the Waltham hospital.

Norman Hayes, of D. C. Percival & Co.'s diamond department, has returned to work after having been a patient at the City Hospital five weeks, suffering with diphtheria.

Elmer E. Knight made a hit in the character part of a ward politician at the vaudeville show given Friday and Saturday nights of last week by the Unity Club at Reading.

Frank Ricard, a well-known retail jeweler of Lowell, is actively organizing a jewelers' association in that city, planning that it shall be affiliated with the Lowell Board of Trade.

J. W. Boyce, H. Heller and A. Atkins have organized the J. W. Boyce Co., manufacturing jewelers, with offices at 705 Washington building. The firm was formerly J. W. Boyce, and was located at the same place.

Peter H. Ackerman, of the Woodman-Cook Co., treasurer of the Melrose lodge, B. P. O. E., took a prominent part in the first minstrel show given under the auspices of this organization in Melrose, Wednesday and Thursday evenings of last week.

John Zirhut has been elected chairman of the Waltham Canoe Club's regatta committee, F. R. Clements secretary of the same committee, while William McCann will be in charge of the war canoe events. All occupy important positions at the Waltham watch factory.

Among the jewelers in town, last week, were: John F. Hill, of J. B. Hill & Son, Beverly; B. D. Loring, Plymouth; J. D. Sullivan, New Bedford; H. S. Hewett, Brockton; E. I. Waddell, Presque Isle, Mass., and Willis Carter, of Carter Bros. Co., Portland, Me., and H. H. Howe, Concord, N. H.

Among the visitors welcomed to Waltham, last week, was A. T. LeBaron, vice-president and general manager of the International Car Co., of New Orleans, who was once a well-known Waltham watch factory employe. While in Waltham he was the guest of Foreman Edgar Hull and R. M. Roesger, of the Waltham Watch Co.

James S. Blake, of Kettell & Blake, was one of the principal guests at the banquet held, Saturday night, at Hotel Somerset in honor of John Albert Blake, Past Grand Master of the Grand Lodge of Masons of Massachusetts. J. S. Blake is Commander of Boston Commandery, Knights Templar.

The creditors of Sam Mendelsohn, who filed a petition in involuntary bankruptcy against him, April 21, were: A. S. Hirschberg, on a claim of \$581; E. A. Cowan, \$25, and Philip Pinkney, a lawyer, \$100. These petitioners declare that Mendelsohn, while insolvent, assigned, April 22, to Herbert C. Bliss, of Attleboro. It was stated last week that G. Willard Frost and Max Posner have been appointed appraisers, while Herbert C. Bliss is receiver.

Frank F. Davidson, of the Thomas Long Co., is one of the Boston Chamber of Commerce-Merchants' Association members who are touring New England, this week, as representatives of the various business enterprises of Boston for the "purpose of establishing closer relations with New England neighbors and the promotion of mutual industrial and commercial welfare." One from each trade is in the party, and Mr. Davidson represents the Boston jewelers.

Before United States Commissioner Hayes at the Federal building, last Saturday, John L. Nudd was given a hearing. The substance of the charge was that Nudd, who is a jeweler and who conducts a school of engraving in the Old South building, agreed to secure positions for such pupils as paid for that service, but did not find them the promised places. Owing to the fact that there were so many interested young men and women, nearly all of whom were said to be witnesses, the hearing was held in the District Court. Only a few witnesses were called upon to testify, after which the hearing was continued until Thursday, May 6.

Samuel Hirschson was discharged after a hearing, last Saturday, before Judge Albert E. Clary, in the East Boston District Court, on the charge of buying stolen property. Hirschson, who is 28 years old, is located at 130 Summer St., East Boston. The testimony revealed that on April 21 Mrs. C. H. Shuttuck, of Orleans, Mass., was robbed of rings valued at \$1,100 and \$30 in money, the property taken from a handbag which was in her possession while she was a passenger on a railroad train from Orleans to this city. Young Hirschson was in no way implicated in the theft of the valuables, but it was alleged by the police of the East Boston station that he purchased two of the rings, knowing them to be stolen property. Judge Clary ruled that there was nothing suspicious about Hirschson's acts, and he felt satisfied that as soon as Hirschson got intimation that the rings might have been stolen he notified his employer, who, in turn, transmitted the information to the police. Hirschson went further and endeavored to assist the police in apprehending the thief, the court believed. Judge Clary felt that there was nothing against Hirschson and ordered his discharge.

Connecticut.

S. J. Large, Bristol, has been granted a patent on a novel handle design for spoons, forks, etc.

The R. Wallace & Sons Mfg. Co., Wallingford, has awarded the contract for adding an additional story to its three mills.

The Handel Co., Meriden, is just completing a large addition to its plant, which is of modern type and construction. The addition, besides relieving crowded conditions,

will allow the concern to considerably increase its output.

Joseph Abeel, after a service extending over 30 years in the employ of the Seth Thomas Clock Co., Thomaston, has resigned and will visit his old home in Germany.

The Sterling Benefit Association, which was recently organized by the employes of the New Haven Clock Co., New Haven, presented, in the local Music Hall, in New Haven, on Tuesday night of last week, a minstrel performance which was received with much favor.

Among those present at the funeral services at the Capitol, of the late Governor Lilly, of Connecticut, were Secretary I. H. Chase, secretary and treasurer of the Waterbury Clock Co.; Col. C. H. Chase, Hartford; Mayor Landers, New Britain, and the Hon. N. Burton Rogers, Danbury.

John P. Garrity, for some time past in the employ of the Sessions Clock Co., Forestville, died at his home in Center St., at that place, Monday morning of last week, of acute indigestion. The clock company closed its factory in respect to the memory of the deceased. Among the floral offerings was one from fellow employes, and others from many organizations to which Mr. Garrity belonged.

Minneapolis and St. Paul.

Mr. Couch, Henderson, Minn., was a recent visitor in Minneapolis.

L. L. Williamson, 1717 E. Franklin Ave., has added a printing plant to his business.

William A. Sorenson, 230 Twentieth Ave., Minneapolis, has returned from a trip to Europe.

B. L. Gates, Seattle, Wash., was in the Twin Cities, last week, in search of a jeweler and optician.

Harry H. Green & Bro., Minneapolis, will remodel a building at 305-307 Hennepin Ave., for a moving picture show.

S. Jacobs & Co., Minneapolis, have opened a branch ticket office in the new jewelry store for the sale of tickets for the Lyric Theatre, which is several blocks distant, and well out of the retail district. The Jacobs store is in the center of the retail district.

The show window of the H. C. Hendrickson Co., 517 Wabasha St., St. Paul, was recently looted of considerable stock by a thief, who cut a hole through the glass large enough to reach in his arm. The Hendrickson store had a similar experience a couple of years ago.

The jewelers in the northern part of Minnesota are all pleased with the action of Governor John A. Johnson, who vetoed the bill providing for a tonnage tax upon the mining of iron ore. The iron mining territory of northern Minnesota, which is practically the great territory west and north from Duluth, halfway across the State, a distance of about 80 miles west and about the same distance north, felt that the passage of the tonnage tax would result in a sharp reduction of the production of iron ore from the different ranges, the Vermillion Range, the Mesaba Range and the new Cuyuna Range, which would depress business. The bill passed the Legislature by a heavy majority, but was vetoed by the Governor.

Now It's The Lord Elgin

The demand to-day is for thin watches.
The public have been waiting for a
thin Elgin Watch—now it's here—the

LORD ELGIN

The
Thinnest
Watch
Made
in
America
with
Enamel Dial

the thinnest watch made in America
with enamel dial.

Like all Elgin Watches—it was not
put on the market until worthy to carry
with it the Elgin reputation for reliability.

Every Lord Elgin is cased at the fac-
tory and timed in the case—the most
accurate thin watch in America.

Four grades—7, 15, 17, and 17
Jewels adjusted. 18K and 14K solid
gold cases, also 25 year filled cases.

Furnished with metal dials, plain or
engraved, gilt or silver.

Prices furnished on application by
your jobber, or write the Company for
only authorized price list.

General Offices, 131 Wabash Ave., Chicago

Large Swinging Electrical Clock Made for the Exposition in Louisville, Ky.

ONE of the conspicuous features of the Southern Electrical and Industrial Exposition, which opened in Louisville, Ky., last month, is an original timepiece which was made and designed by H. C. Korfhage, of Louisville, and is entirely

The clock is shaped like a huge pendulum and hangs from the ceiling in the south end of the Armory, where it is the first thing which the visitor sees upon entering the building as it swings to and fro in its 15-foot arc, brilliantly illuminated. It is 18 feet in length, 20 feet three inches in width and weighs over 3,000 pounds. It contains over 5,500 multi-colored bulbs, for which 11,000 connections are required. Over 7,000 feet of wire have been used to make connections on the clock alone, and these connections demanded the use of 140 pounds of especially made screws.

The motor power of the pendulum movement is supplied by small invisible magnets arranged at the side and near the top of the pendulum. The general impression received by the onlooker, however, is that the ponderous swinging of the dial is brought about by its own momentum. The mechanism of the clock is controlled entirely by a master clock.

Mr. Korfhage is a well-known inventor and is a native of Louisville, where he was born in 1865. He is the owner of several valuable patents relating to electric clocks.

UNIQUE PENDULUM-SHAPED ELECTRIC CLOCK, ILLUMINATED BY OVER 5,500 LIGHTS.

outlined in electric lights. In order to construct the clock Mr. Korfhage was obliged to devise special machines, one of which was a boring apparatus capable of boring 15 holes one and one-quarter inches in diameter per minute.

quarters are marked on the central disc in heavy lines and numbered with large figures, 1, 2, 3, 4. The outer edge of this disc is divided into 21 parts. On the second disc, a red arrow points to these figures and shows, at the same time, the moon's quarters and the seasons. In the central disc, there is, by the side of the figure of the earth, a circular aperture of 10 inches diameter. By means of this opening, a small disc at the back can show the phases of the moon. On the second disc, which measures 4 feet 1 1/2 inches, but of which only the outer edge is visible, there are 29 divisions.

A pointer, with a triangular point, that projects from behind the central disc, gives

INTERESTING OLD CLOCK IN HAMPTON COURT, ENGLAND.

Hampton Court Palace Clock.

THE clock installed at Hampton Court Palace, Hampton Court, England, in 1540, may be classed among the most interesting of old timekeepers. The above date of installation of the clock is furnished by some rather illegible marks on an iron rod in the masonry. The marks consist of the letters N O or N C, and the somewhat more legible figures 1540. If the letters are really N. C., they refer to Nikolaus Cratzer, a Bavarian, who styled himself astronomer and clockmaker to King Henry VIII. In 1711, the clock was repaired by Langley Bradley, of Fenchurch St., London. The very remarkable original dial of the clock is located on the east side of the tower entrance; it consists of three separate copperplates of different thicknesses, having a common center, and revolving at different speeds. The smallest dial has a diameter of 3 ft. 3 1/2 in.

In the center is a painted globe appliqué in relief, which represents the earth. The

age of the moon in days. The broadest of the three discs has a diameter of 7 feet 10 inches. On this disc a number of circles are painted. The first, starting at the center, gives the months, the second the days (for February only 28), the third the signs of the zodiac. Each of these signs occupies a space of 30 degrees, which are marked on the edge.

To a long hand, a gilded figure is attached, which represents the sun, this pointer shows the day of the month and the position of the sun in the ellipse. It also indicates the hours. The hours are painted on the masonry in which the discs of the dial revolve. This hour circle consists of 24 divisions, which gives twice 12 hours for the day and the night; the complete revolution takes 24 hours.

The diameter of this circle, which is fixed on the stone, is 9 feet 8 inches. In 1835, a remodeling was undertaken. The wheel-work of the old clock was taken out;

Horace Greeley

Waltham Watches

Horace Greeley said about Waltham watches: "Americans should buy American watches, not because they are **American** watches, but because they are the **best** watches."

At that time Waltham watches were the only American watches.

Ralph Waldo Emerson

Ralph Waldo Emerson in an Essay on Eloquence said, in speaking of a man whom he described as a Godsend to his town: "He is put together like a Waltham watch."

The Waltham Watch Company is the oldest watch manufacturing concern on the American continent, the Waltham factory having been built in 1854. The only other watch company that at all approaches it in age and continuous existence was an offshoot from the parent Waltham factory and was established in a Western State in 1864.

The capital of the Waltham Watch Company is larger, the assembly and the value of its automatic machinery is larger, the factory is larger, the number of its employees is larger and the daily output is larger than that of any other watch manufacturing concern that ever existed.

Waltham watches have received the highest award at every international exposition wherever shown, from the Centennial Exhibition to date. No other American made watches have received similar awards.

Every permanent advance in American watch manufacturing during the past half century has originated with the Waltham Watch Company. "This Company," to quote Chambers's Encyclopedia, "has revolutionized the industry it transferred from the old world to the new."

There has never been in the world's history of watchmaking, a grouping of expert labor and marvelous machinery like this, nor anything like the unity of results shown by the sixteen million accurate and durable Waltham watches that have been produced.

in its place, a clock work of original construction was put, that was really destined for St. James' Palace, but by order of King William IV was altered and then used for Hampton Court Palace. This work was done by B. L. Vulliamy, clock-maker to the King. In 1879, the dial was completely restored and the wheel-work finished. This renewal work was done by James Thwaites of St. John Street Road, to whom we are indebted for the possibility of admiring the reconstructed work in its completeness.

The Daylight Saving Bill.

A GREAT deal has been written of late regarding the proposed Daylight Saving bill, which has caused much comment, both favorable and unfavorable, here and abroad. It is interesting to read what the *New York Sun* has to say editorially on the subject:

"They say that, in spite of all predictions to the contrary, many new converts have been won by Mr. Willett, the inventor of the great project to compel lazy English men to get up in the morning. It will be remembered that what Mr. Willett has set his heart upon is to make better use of daylight, which at present is so prodigally thrown away in the Summer months. Knowing that daylight is far too precious a commodity to be wasted even in seasons when it is most plentiful, Mr. Willett resolved some years ago to think out a scheme for saving it in the Summer, and having perfected his plans, he duly reduced them to the form of a legislative measure which he called the Daylight Saving Bill.

"To speak of 'saving' such a thing as daylight by an Act of Parliament seemed to many sceptics so fantastical and absurd that they could hardly believe it possible until the terms of the bill had been published. Then it was made known that Mr. Willett had hit upon the simple device of putting on all the clocks in the United Kingdom in April and putting them back again in September, so as to make everything happen an hour earlier in the Summer months.

"The bill was favorably reported upon by a select committee and there is a reasonable possibility that it will become law. Unfortunately, however, the difficulty of moving the clocks has not as yet been settled. Many legislators, while they hope to make people get up early, are very doubtful about the desirability of compelling them to do so, and no means have yet been provided for setting the clocks, the understanding being that there will be no compulsion in the matter. This looks like an unfortunate weakness, but it is hoped, however, that somehow or other people will be persuaded to put on their clocks and get up in the morning without grumbling.

"There is yet a possibility that Mr. Willett's project will be defeated, and by the very people whom it is supposed to benefit. For it appears that about 20 firms in England have hit upon the brilliant thought of anticipating Mr. Willett's measure by beginning work an hour earlier in the Summer. One manager who has tried this experiment says:

The idea last Summer met with great appre-

ciation from our men and we have been asked to continue it this year. The earlier hour in the Summer seems to be no inconvenience.

"In short, it has occurred to some thoughtful people that it is possible to get up an hour earlier without moving the clock. This great discovery, if generally accepted, may possibly do away with the Daylight Savings bill, only it is difficult nowadays to persuade Englishmen that anything can be done without an Act of Parliament or that there is anything that cannot be done by Act of Parliament."

Time—Solar and Sidereal.

(A lecture by PROF. LEAHY, of the University of Sheffield, before the Sheffield and District Watchmakers and Jewelers' Association, at Sheffield, Eng., March 24.)

THE PRIMEVAL CLOCK.

THE earliest timekeeper was, like a watch, probably carried about by the earliest men. It was not, however, like a watch, worn outside, but was carried within; for I suppose that the earliest means which our forefathers had to tell them of the flight of time was the obvious fact that they wanted dinner.

The next step in advance was a great one; it was the realization that there was some connection between the timekeeper provided by Nature and the daylight. At a certain number of times during the day, possibly also during the night, the claims of hunger would begin to be felt, and importance began to be attached to the exact time of the day. Leaving out further reckonings by months and by years, we may imagine the first clock ever constructed. This clock was probably a stake driven into the ground, together with a peg to mark the point to which the shadow of the stake was thrown. When the shadow came again to the same spot a complete day had passed.

We may now suppose our primeval clock-maker to go a step further. He would trace in the earth a rough circle around his stake, and drive all around the circle 24 pegs, at fairly equal distances; the passage of the shadow from one peg to another he would call an hour. The reason why I suppose the number of pegs to have been 24 is that the division of the day and night into 12 equal parts is one of the earliest known facts. It is probably connected with the approximate number of days in the year, but I do not go into that. Although the length of daylight varies a good deal in Summer and in Winter, there were 12 daylight hours and 12 night hours, the Summer daylight hours being consequently much longer than the Winter hours, and this arrangement was kept for a long time. Although the true facts were well known to philosophers, practical men refused to keep regular hours until about the end of the fourth century after Christ.

PRIMITIVE DIALS.

The most primitive dial—a stick stuck in the ground—is hardly represented. The shadow of such a stick will not fall along the same line at the same hour of the day, whether we take the real hour or the hour that used to be employed by the practical man, the twelfth part of a day, except in one case. At noon—that is, when the sun is to the south, or, as we say, on the meridian—the

shadow always falls along the same straight line—the line of the sixth hour, as it used to be called, the 12 o'clock line, as it was called later, or, as we say, the meridian. The improvement in dials so that the shadow may always fall along the same line at, say, three o'clock in the afternoon, every day in the year, was, like most improvements, made by the Greeks; but the dials here shown are more modern ones. This improvement was to slope the stick so that it pointed, not vertically, but to a point called the pole of the heavens, the point round which all stars and the sun also seem to be carried each day, owing to the rotation of the earth.

If, for example, you take a dial marked south dial at the top right-hand corner, the shadow will at three o'clock always fall along the three o'clock line, though it is sometimes shorter, sometimes longer. You will further notice that the angle from noon to one is much smaller than the angle from five to six; this objection was got over by the universal mechanical dial, by making the plate on which the shadow falls be at right angles to the stick. The hours as shown on these dials are really of slightly different lengths on different days in the year, but the error was far too small to be discovered before the invention of the telescope.

GREEK TIMEKEEPERS.

It is, again, to the Greeks that we owe the first mechanical division of time, the clepsydra, or water clock. This instrument was simply a glass vessel out of which water flowed at a steady rate on the principle of the hour-glass. We first find these clepsydræ used for the most practical business of stopping orators when they had talked long enough. Clepsydræ were set up in the law courts of Athens; the counsels for prosecution and defense were allowed to speak so long as the water flowed; when the water had ceased flowing the orator had also, to use a vulgar phrase, to dry up.

Greek, and afterwards Roman, clepsydræ were specially made so as to give hours of different lengths in Summer and in Winter; they were in Summer coated with wax so as to offer greater resistance to the water and give longer hours; in Winter the wax was removed. The expert clepsydrist, who went around among private families to keep the clepsydræ right, probably drove a thriving trade. The scientific men or philosophers who kept their clepsydræ the same throughout the year—for we know that the Greek philosophers had very correct notions on time—were probably regarded as cranks until about 400 A.D., when they got their way.

THE BALANCE CLOCK.

After the ruin of Greek learning a long interval follows, but in the dawn of the Renaissance, the revival of Greek, comes the invention of the first genuine clock. In the year 1370 one Henri de Vic invented the balance clock. This clock differed widely from the old clepsydræ—so widely, indeed that one cannot help suspecting that it had some inferior predecessor. The Arabs, who kept Greek learning just alive until Europe was ready to take it again, had perfected water clocks. The gift of an Arab clock to Charlemagne

was specially chronicled, and we know that some division into minutes was used in the Greek clepsydræ; but the whole idea of trains of wheels and separate dials seems to have come, so far as I know, from Henri de Vic. The timekeeper of his clock was a balance, a bar loaded with weights at its ends so as to rotate when the barrel with which it was connected was driven by a weight at a steady speed.

The method of counting the revolutions of the balance was that at each revolution of the crown wheel, which was connected to the balance by means of pallets, the cylinder driven by the weight rotated one-sixtieth part of a revolution; the crown wheel was made to rotate in a minute by adjusting the weights of the balance, and the cylinder, therefore, rotated once in an hour. An arrangement, by means of a ratchet, was adopted in order to wind up the clock and prevent the hands from being moved backwards while the clock was being wound. There was, however, no arrangement to prevent the clock from stopping while it was being wound. As seconds were not taken account of, the error was probably neglected, and the time checked by a sun-dial when the clock got too far wrong.

INVENTING THE PENDULUM.

This clock was a great improvement on the clepsydræ, but it was not seriously improved for about another 300 years. About 230 years after Henri de Vic the principle of the pendulum was discovered by Galileo, who seems to have worked it out scientifically and verified his calculations by spending part of his time in church by counting the swings of one of the lamps in the Cathedral of Pisa and comparing them with his own pulse beats. Galileo did not practically apply his principle to clocks; this was left for the Dutch mathematician Huyghens, who is to be regarded as the father of the pendulum clock.

The principle of the pendulum, as all here know, is that a rod carrying a weight will swing to and fro in a time which depends simply on the distance of the center of gravity of the weight from the point of suspension. The definition of seconds pendulum is a pendulum which will swing in one second. We have now arrived at a satisfactory time measure, the rate of swing of a pendulum of given length; but we have to get a better idea of what a time measure really means. The idea of time is a fundamental one, and is exceedingly difficult to define, as anyone may discover for himself when he tries to explain what he means by the word. The idea of a measure of time is a simpler one; we have simply to compare different measures.

And now that we have the idea of a swinging pendulum, we can get a definition of what a time measure is. For this purpose we have to make an assumption that there is a steady time measure—the time that the earth takes to turn on its axis. If we suppose this to be a real measure, the statement that the time of swing of a pendulum of given length is always one second means that if we take 3,600 swings of that pendulum, which corresponds to an hour, and multiply 3,600 by 24, the number of hours in a day, we get the number 86,400, and that the pendulum ought to swing 86,400 times while the earth is turning around

once. If it swings 86,101 times, the pendulum is swinging too fast, and is said to be gaining one second in a day; if it swings 86,399 times, the pendulum is going too slow, and is said to be losing one second a day.

POWER OF THE PENDULUM.

Now, let us suppose that a little after the discovery of Galileo the two measures of time to be really compared. As you all know, there is no occasion to sit down and solemnly count the number of swings of the pendulum. The pendulum controls a chain of wheels, the wheels make a second hand move round its dial, going round once when the pendulum has made 60 swings, and the time of these 60 swings is called a minute. The same chain of wheels makes another hand, called the minute hand, move round on its dial, so that this hand goes round once when the second hand has gone round 60 times. The time that the minute hand takes to go round is called an hour. Again, there is a third hand, which goes round once when the minute hand has gone round 12 times; and when this hour hand has gone round just twice, the minute hand and the second hand being in the position at which they started, the whole time is called 24 hours, or 1,440 minutes, or 86,400 seconds, or one day.

VARIATION IN THE SWINGS.

Now, let us suppose that someone who was provided with a proper pendulum and the apparatus for counting the swings in this way, which we call a clock, wishes to notice whether the number of swings in the day as measured by the sun is really 86,400 or not, every day during the year. If he observes he will find that this is not the case. If he got his clock adjusted so that the number of swings was 86,400 in the beginning of June, he will find that in the middle of September there are 33 swings too few, while the shadow thrown on the sun-dial moves from noon to noon; in the middle of December there are 22 swings too many; in the middle of March there will be 31 swings too few; at the beginning of June he will be right again. Probably no sun-dial could be constructed which would enable us to test these facts, as the position of the shadow changes so little in a second. No one could have tested the facts, even if they did possess a telescope with the clepsydra, and there would have been difficulties even with a balance clock; yet, if even a rough attempt were made to adjust the two time measures—that provided by the sun and the mechanical measure—there would be found to be serious difficulties.

HOW ERRORS MAY BE INTRODUCED.

If the clock, whether clepsydra, balance clock or pendulum clock, had been made to go right, and was set so as to give 86,400 seconds to a day, as measured by the sun, you would soon introduce errors of a more serious nature. For if, for example, the clock were a pendulum clock, and it was set so as to keep pace with the sun in December, you would find that your clock would be going 28 seconds too fast, as compared with the average length of a solar day, or what we call a day. The clock would, nevertheless, keep pace fairly

well with the sun for a week or so, but would then begin to gain.

In the month of March our clock would be gaining nearly 50 seconds a day, as measured by the sun; and before April was reached the time as given by the clock would differ from that given by the sun by a full hour. The error would vary as the year went on, and by the end of the year the clock would, when we got round again to December, have gained no less than two and a half hours. If the clock, instead of being started in December, was made to keep pace with the sun in September, it would during the year go too slow, and lose about three hours in the entire year.

If you happened by chance to pitch upon the right days on which to set it—which, as a matter of fact, would be about the middle of February, the middle of May, the middle of August or the end of November—the clock would, on the whole, keep pace with the sun, and, of course, if by trial and error you did once get a standard clock to go correctly, you could check by that.

THE STANDARD.

The difficulty, however, would always recur that your standard clock might stop, or, as it certainly would, vary in its rate; and it is absolutely necessary, if we want to get a standard by which clocks are to be regulated, to get a time measure on which you can always rely, and to which constant appeal can be made. This measure cannot be given by the sun; it can be given, and is given, by the stars. The stars do not go round at the same rate as the sun does; consequently a clock which keeps pace with the stars does not agree with a clock which keeps pace with the sun. But the stellar clock can be regulated by stars as often as we wish, while a solar clock cannot, unless we insert the calculated correction.

The earth turns on its axis at a regular rate; the stars do vary a very little in their positions in the course of the year, but the error in any one day does not amount to more than about one-twentieth part of a second in general. A clock timed accurately by a star for a day would have an error of about four seconds at the end of a year; a clock timed by the sun might have, as we have seen, an error of three hours. But, as we can estimate the apparent change in the position of the stars, which is mainly due to the motion of the earth round the sun, up to the thousandth part of a second, we can get a real standard by which we can check the rate of a clock by comparing it with the passages across the meridian of the unchanging stars.

(To be continued.)

A neatly printed folder entitled "An Astronomical Watch" is being distributed by J. Player & Son, Ltd., Coventry, illustrating and describing a complicated watch which strikes the hours and quarters. The time-piece may be also made to repeat the hours, quarters and minutes at will, by pushing the winding button. The watch shows Greenwich mean time and gives a variety of astronomical information. The watch is equipped with the English Tourbillon escapement.

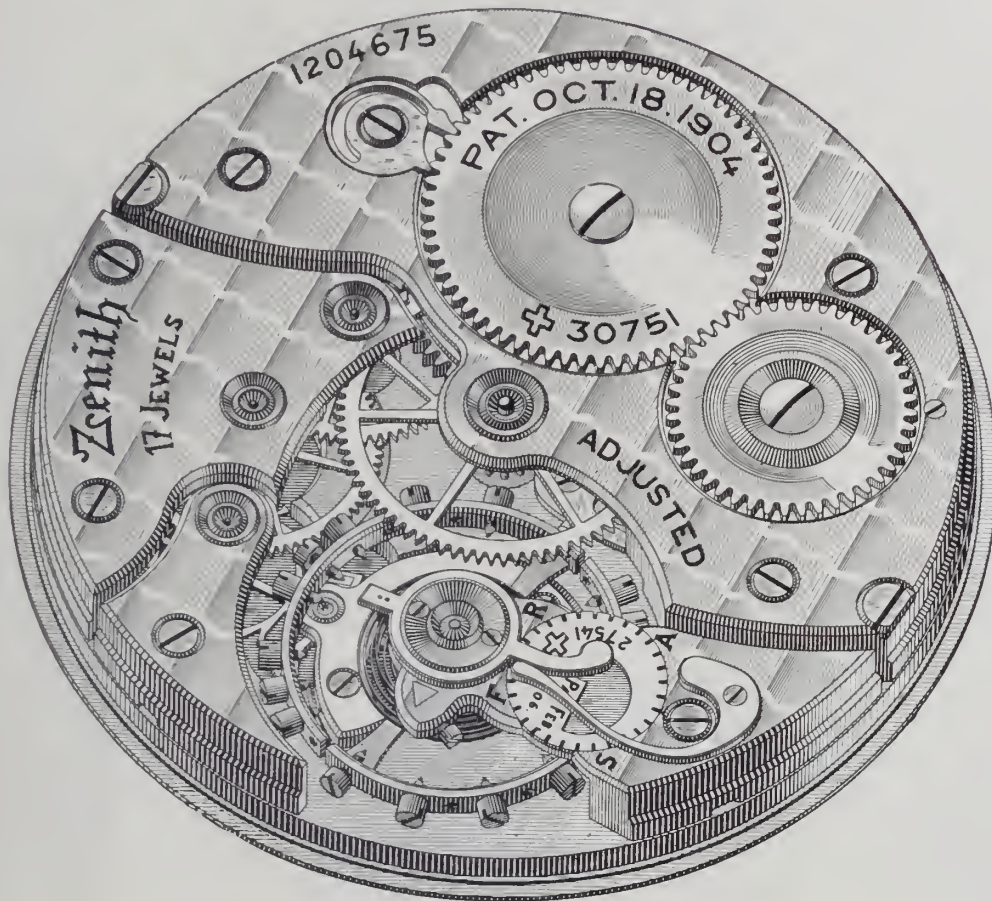

AUTHORITIES are agreed that THE ROCKFORD is the best American-made watch. The watch of Quality—Efficiency. The choice of those who insist upon mechanical perfection. The manufacturers of the ROCKFORD WATCH co-operate with the legitimate retail jeweler to the fullest extent. They have eliminated the jobber and sell only direct to the retail jeweler. The ROCKFORD Watch Company neither sell nor manufacture under their own name or any other name for Mail Order, Catalog Houses or Department Stores

STORE KEEPING DEPARTMENT

That this department shall prove mutually beneficial to our readers, it is desirable that the members of the trade generally communicate with THE JEWELERS' CIRCULAR-WEEKLY regarding any advantageous device or plan which they are utilizing in connection with their business.

How to Proceed in Order to Obtain a Patent

Written expressly for The Jewelers' Circular-Weekly by R. W. Bishop, Attorney at Law, Washington, D. C.

(Continued from issue of April 28.)

INTERFERENCES.

IT often happens that two or more applicants will be claiming the same invention. This condition is technically called an "interference," and the several parties are required to produce evidence as to the dates on which they respectively made the invention in order that the Patent Office may determine which applicant is the first inventor, and, therefore, entitled to the patent. This decision is made in the first instance by the Examiner of Interferences, and from his decision appeals may be taken just the same as with rejected applications.

It sometimes happens that both applicants are claiming the benefit of the same inventive act—i. e., each party contends that the other is not an originator. It is remarkable, however, to what extent absolutely independent inventors will make the same identical invention.

An interference now pending before the Patent Office is an interesting illustration. One of the parties was an employe of a large concern making a specialty of infant's and children's clothing. One of the articles sold by her as an incident of her employment was a cap to hold a baby's ears close to the head to prevent them from spreading or being broken during sleep. This cap was the only thing of its kind on the market, and there was a constant call for something better. The calls for a better cap induced this lady to give the matter some thought and she did produce a different cap which she subsequently attempted to have patented. The other applicant is a lady who resided in the same city and whose baby had his ear broken. This lady bought over the counter one of the caps the other lady was selling. The cap did not give satisfaction and the lady then made a cap herself which proved so satisfactory that she applied for a patent.

Without any knowledge of the cap made by the saleswoman she made the same invention and produced a cap with almost the identical details of construction. Neither party knew of the existence of the other party until the applications for patent were placed in interference.

DESIGNS.

Designs for the ornamentation of articles

of manufacture may be patented, the course of procedure being the same as in applying for mechanical patents. The term of the patent, however, is shorter than a mechanical patent, being 3½, 7 or 14 years, according to the desire of the applicant made known at the time of filing the application. The fee to be paid is \$10, 15 or \$30, according to the term desired for the patent.

A FEW HINTS.

The mere physical work involved in obtaining a patent is of no consequence. It is a simple matter to copy the forms printed in the Rules of Practice of the Patent Office, to write a short description and to get some sort of a patent. To obtain a patent that will fully protect the invention, however, is not easy and the wise applicant will employ an attorney to prepare and prosecute his application. The law of patents has become such a science that the patent lawyer is almost a necessity.

The large manufacturing corporations now have their own patent departments with salaried lawyers, whose duty is to obtain adequate patent protection for the inventions they adopt and to guard them against infringing on patents owned by others. To retain an attorney is really an economy, as his experience and training will keep him entirely clear of formal mistakes which the layman is bound to make, thereby saving time in the prosecution. As to the greater chance of obtaining claims fully covering the invention, no mention need be made. The man whose life-work is to do a certain thing daily is sure to do that thing better than the man who does it only once in a lifetime and without any training therefor. There are many able attorneys who make a specialty of patents and confine their practice to patent matters, but these able men are not the men who advertise extensively, using such catch phrases as "no patent, no pay"; "\$100,000 for one invention"; "patent guaranteed or money returned"; "patents obtained on easy terms." These concerns would have no business at all if they relied on their ability to handle it properly or their desires to advance the interests of their clients.

Inventors too frequently delay applying for patent until after some other inventor has gone ahead of them. While, of course,

it is well not to rush to the Patent Office with an incomplete invention it is advisable to file the application just as soon as the invention is complete. In the event of an interference the presumption is always in favor of the applicant who is the first to file. Another mistake is to maintain excessive secrecy as to the invention. The invention should be guarded against interlopers, but at the same time care should be taken to provide some proof of the date of its making.

When sketches are made they should be witnessed and dated. When a model is made a dated receipt for all material bought for the same and work done thereon should be taken. When tests are made complete records of the tests must be made and preserved. Should it be necessary the inventor can then readily prove the date of his invention.

Patents are arranged in classes according to the subject matter of invention, and a room is set aside in the Patent Office where the public may examine copies of the patents in these classes. A search through these classified copies preliminary to the filing of an application for patent often reveals an anticipation, so that the inventor is saved the expense of filing an application which could not be allowed. Owing to the great number of patents that have been issued and the complex nature of the classification, no guarantee can be had; a patent will be granted if this preliminary examination does not disclose an anticipation, but if one is found further useless outlay is avoided.

The mere grant of a patent does not assume wealth to the patentee, but it does give a very handy instrument with which to acquire wealth. Any good invention will find a remunerative market, and if it is very meritorious it will create its own market. New ideas are wanted in every field, and a patentee who does not set a prohibitive price on his invention can generally find some one to buy it outright or to exploit it on a profitable basis.

(THE END.)

Fire was recently started in the store of N. J. Fleisner, Main St., Scranton, Pa., but was extinguished before doing any serious damage.

The case against Joseph L. Art, charged with the conversion of jewelry purchased on the instalment plan from the Imperial Jewelry Co., Detroit, Mich., has been dismissed. The court held that there was no criminal action, and that the jewelry concern should have brought a civil action.

Storekeeping Department.

The Spoon Phone.

A SUITABLE centerpiece for showing a display of spoons and other flat silver pieces as suggestions for engagement or wedding gifts is outlined herewith:

Take a small, square block of wood and bore a hole through center of same (Fig. A). Cut out of extra stiff cardboard four spoon-shaped designs of a size slightly broader and somewhat longer than a large table spoon (Fig. B). Tack these "spoons" to Fig. A in manner shown in Fig. C, and cover the whole apparatus with tinfoil pasted on smoothly, or give it a coating of aluminum powder, either process being intended to simulate four silver spoons being used, and also give the affair the appearance of being quite heavy.

Procure a strong, stiff wire of sufficient length to stretch the width of your window and screw into either side a screw-hook to which this wire may be fastened. Shape two pieces of cork as shown in Fig. D, and after placing your "spoon wheel" between these corks fasten corks firmly. The cork is to be bored with small holes so it will fit the wire tightly. Grease the corks well on the pointed parts so that if the "spoon wheel" should touch either of them while revolving it will not be retarded.

Paste a picture of a man's head at one end of the wire and a woman's head at the other. These should be placed so that the wire is level with the mouths on the "cut-out" pictures, and also so arranged that these heads will hide the hooks to which the ends of the wire are attached.

By placing your fan at the rear of the window and tilting it slightly so that the breeze is blown on the "spoon wheel" as shown in Fig. E the wheel will turn rapidly or slowly according to the force of current and nearness of the fan.

Complete arrangement of display is illustrated in Fig. F. To produce a successful show, be sure to stretch your wire as tight as possible, and conceal your fan behind some large clocks, vases or platform of some sort.

As with all fan-controlled moving devices, the exact adjustment of the wheel, etc., will require a little patience, for owing to the variety of fans in use and different sizes of windows, it is impossible to give exact dimensions.

If your "spoon wheel" should be too heavy for your fan power, construct a lighter and smaller one. Time is practically the only expense in constructing this show, as the material used costs practically nothing. The wheel suspended on a wire and turning without any visible motive power will naturally cause people to speculate as to how it works, and therefore attract attention to the store. Appropriate signs to fit the display are:

Our phone is No. _____,
Wire us for silver.
How do we do it?
Why, we have right goods—that's all.
Spoons for spooners, for would-be spooners,
Spoons for baby—also souvenir spoons.

Men Who Have Failed.

STATISTICS of business in the United States prove that 95 per cent. of the men who embark in trade turn out failures. Not all of these unsuccessful men are bankrupts in the literal sense, but they are in effect. Their establishments go to pieces

An Interesting Little Business Book.

"HUMAN NATURE IN SELLING GOODS." By JAMES H. COLLINS. Published by Henry Altemus Co., Philadelphia, Pa. 93 pages, bound in board. Price, 50 cents, post paid.

IN the 93 pages of this little volume is embodied a fund of most interesting and instructive information and a genuine insight into many of the various whims and caprices of human nature as manifested in the selling of goods. When one considers that there are, according to the author's figures, over 6,000,000 persons engaged in selling in this country and that of this number 1,000,000 are traveling representatives, the human interest field for

DIAGRAM SHOWING HOW TO CONSTRUCT THE SPOON 'PHONE.

or pass into other hands. Men who do not make both ends meet are failures.

The following questions were put to eight of this country's foremost business men—merchants, manufacturers, bankers: Why do 95 per cent. of American business men fall short of success? Do the causes lie in outside conditions or in themselves? Are the markets available to United States merchants capable of supporting only 5 per cent. of these merchants? Is competition too strong to be overcome?

Without exception the answers indicate that business failure does not come from lack of markets. There is business enough. Success is possible. Business is a science. Men who trifle with it fail.

There is a world of practical wisdom in the answers these eminent merchants have given. It is reassuring to be told that success is not luck, but logic. The man who adapts his business to reason wins.—E.R.

this little work will be readily apparent.

Mr. Collins, in his introduction, aims to show the *raison d'etre* of the competent salesman, holding that the latter is both an educator and a real necessity in the commercial world. The chapters include "Banishing Blue Devils," "Meeting Competition" and "The Training of a Salesman." The salesman will find many valuable hints in the chapter entitled "Meeting Competition." The book is written in pleasing colloquial style, and both pleasure and profit will be derived from its perusal.

The Arcade Jewelry Store, Springfield, O., has increased its capital stock to \$50,000. The officers of the concern are Chas. Hofman, president; W. W. Jackson, vice-president; John F. Garland, L. L. Green and H. L. Wade, together with the president and vice-president, will constitute the board of directors.

- The "Spoonaphone," the latest wonder out.
It advertises goods people talk about.
- You can't imagine how it's done,
But spooners think it's lots of fun.
- When it's your turn to buy wedding silver,
Turn to us, we have the line.

RETAIL JEWELERS ADVERTISING

**Things to Be Remembered in Preparing
Advertising Copy.**

MANY advertisements which are well written are often weakened and rendered unattractive because of a lack of knowledge of proper typographical display. Poor judgment in selecting appropriate bor-

Every advertisement, says the writer, has one or more of four elements, designed to attract,—border, white space, head lines and illustrations. It is entirely dependent upon circumstances which will be most effective. On a page consisting largely of ads with borders, the one surrounded by a liberal margin would probably stand out from the others. Occasionally the advertisement without a headline attracts unusual attention, being conspicuous because it is different.

The border bears the same relation to an advertisement that a frame does to a picture. In general, the border should be in harmony with other parts of the ad., so as not to detract attention from them. No border should extend around cuts where they come close to the edge of the ad. Round corners afford a contrast to the square corners of the space occupied and the square corners so prevalent throughout the newspaper. There are many unique ways of extending a border around an advertisement, which gives added prominence to the reading matter or cut. But anything freakish should be avoided.

White space, judiciously used, has a value not fully appreciated by all advertisers. A good margin between printed part and border gives an added prominence to the reading matter that is well worth its cost. Borders may be dispensed with when very wide margins are used. The easier it is to read an advertisement, the more readers it will have. Use plenty of white space between lines and around cuts.

The headline usually commands attention more readily than anything else, particularly if no illustrations are used. It should be, as nearly as possible, a good index to the contents of the advertisement. Place one of the modern monthly magazines far enough away so that small print and illustration are quite invisible; you will discover that a fair idea of the contents of each ad. may be obtained from its headline. The average beginner gets the false idea that anything that will excite curiosity is a good headline. It depends entirely whose attention is attracted. Ten persons really interested in the contents of the ad. are worth 30 led to read it through curiosity. Avoid "blind" headings. The right people will be attracted by the headline if it contains (1) the name of the article advertised; (2) some selling point of the article or (3) an appeal to those likely to need it.

The following will serve as illustrations: (1) Woman's Shoes; (2) the easiest shoe; (3) no more tired feet.

Avoid overworked phrases. It is im-

portant that the headline be short, snappy and rather original or different from the usual. Direct appeals to the buyer are effective. "Here is your Summer suit!" is a headline that would probably attract many readers because it is "different." Instead of being general it applies to the readers individually. An attempt to use too many headlines is a failing of many beginners. A second display line should never occur in any advertisement smaller than six inches.

The illustration serves a double purpose—to attract added attention to the advertisement and to assist the reader to form a more accurate idea of the article advertised. Unless it gives a fairly truthful representation of the article to be sold or really improves the advertisement, it is better left out. The amount of space to be occupied by the cut depends entirely upon the article to be illustrated. A picture of a stylish suit should be large, while that

HANCHER

ATTRACTIVE TYPE AND DESIGN, BUT SLIGHTLY CONGESTED.

of an article of hosiery may be very small. Manufacturers and dealers in stock cuts furnish illustrations that may be used effectively and are inexpensive.

Inexperienced ad. writers often use illustrations entirely foreign to the matter contained in the ad. This is the surest mark of a beginner. Care should be taken that cuts are high-grade, up to date and show the latest styles; also, that they harmonize well with border and type. Line cuts are most suitable for newspaper use, but coarse screen cuts are being made that give satis-

The Economy of Buying the Best

With every expenditure a person may make, it is the cheapest in the end to buy the best. Shoes, clothes, hats, furnishings, or what not, and it is particularly true of jewelry. The quality of chosen jewelry, the cost we sell, is remembered long after the price is forgotten. The pleasure of possession, the knowledge that it will last, will buy and its long life is why you should buy the best. That's the only kind we keep, and our prices are a very special inducement for you to at least favor us with an inspection before going elsewhere. Our line of Watches and Jewelry is constantly enlarged from the best of makers.

John Becker & Co.,
Jeweler & Optician. 3527 Jacob St.

GOOD TEXT AND DISPLAY, WEAK BORDER.

factory results. Use none but the best cuts obtainable and few at a time.

The firm name or "signature" is sometimes considered a part of the display because it serves to identify the ad. of the reader's favorite store, among others on the page—just as the sign board locates it on the street. It should be prominent, but un-

Retail Advertising Department.

der no circumstances so placed as to shadow the display line. For this reason, in advertisements smaller than six inches, it is best at the bottom. In larger advertisement it is practically a universal custom to place it at the top.

Appearing in connection with the firm name is the slogan. A "slogan," by way of explanation, is a short, snappy phrase used to impress upon the memory some advantage gained by trading with that firm as, "Where your dollar buys most." Appearing as it does, every time the advertisement appears, the constant repetition of the phrase impresses it firmly upon the reader's mind. The general advertisers were first to use slogans, but they are becoming popular with retail dealers.

In general, it may be said that display is little more than a contrast of light and dark portions of the advertisement. It is necessary that each be evenly distributed. A well-balanced advertisement is always admired and attracts favorable attention. Take the advertisement of any large firm, known to have a good advertising manager and place it far enough away so the reading matter cannot be readily distinguished—if the ad. is well balanced, illustrations will be arranged in perfect order and stand out from the page; headlines will look right at you and give a fair idea of the lines of goods on sale.

The ads. of many beginners offer a striking contrast—headlines so numerous that none appeals to you; illustrations suggest something entirely different from the subject to be treated and, after reading the advertisement, you are impressed with nothing in particular. If you have to economize on space, cut down the reading matter, but spare the display!

The better the border, headlines and cuts express the whole thought of the advertisement at a glance, the more successful it will be. People don't generally spend much time reading the advertisements. That is the reason they must be made extra interesting and attractive. Make the different headlines tell the whole contents of the advertisement—go into details in the smaller print. The firm name and headlines should be prominent.

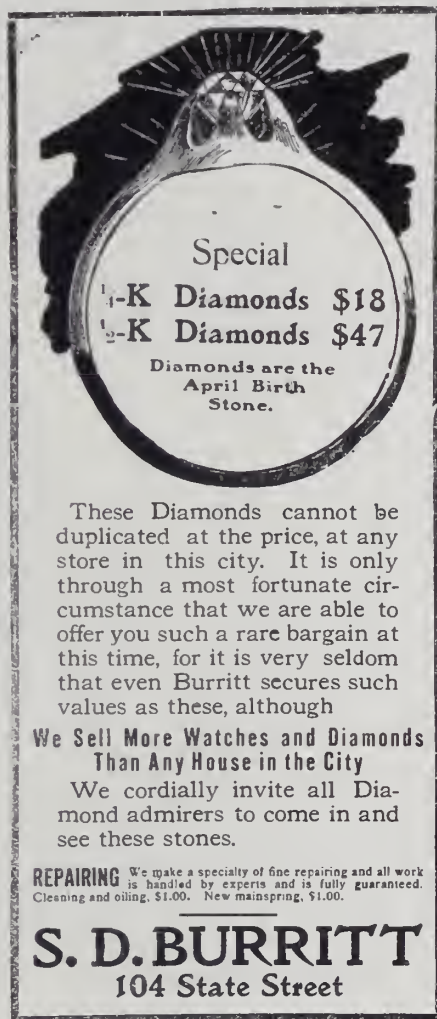

The psychological reason for doing all this is expressed in the universal habit of "scanning" the newspaper pages. If a headline suggests something interesting to the reader, the article is read—that is why newspaper men spend so much time on the headings—that is why the advertiser should put the main facts of his advertisement in big type.

The display of an advertisement serves two purposes—to induce those attracted by the headline to read the advertisement and, if not successful in doing this, a sufficient amount of information should be given in the headlines to let the reader know, "what is being sold" or "why it is best" and "where he can obtain it." Readers then, seeing your advertisements repeatedly, will unconsciously be impressed with these facts and naturally look to you when needing anything in your line.

Very likely neither you nor I have read

any part of the very well known "Perfection Oil Stove" advertisements, so common in the papers and magazines now, but we are conscious of their presence and are continually being impressed with our need for them and their merits. Although we may have no use for them whatever at the present time, we will think first of the "Perfection" if we ever want to buy.

Good advertising always has a cumulative value. Get all the people memorizing your slogan, "Smith sells it for less," or the like

Special

1/4-K Diamonds \$18

1/2-K Diamonds \$47

Diamonds are the
April Birth
Stone.

These Diamonds cannot be duplicated at the price, at any store in this city. It is only through a most fortunate circumstance that we are able to offer you such a rare bargain at this time, for it is very seldom that even Burritt secures such values as these, although

We Sell More Watches and Diamonds Than Any House in the City

We cordially invite all Diamond admirers to come in and see these stones.

REPAIRING We make a specialty of fine repairing and all work is handled by experts and is fully guaranteed. Cleaning and oiling, \$1.00. New mainspring, \$1.00.

S. D. BURRITT
104 State Street

AN AD. USED RECENTLY BY S. D. BURRITT, ROCHESTER, N. Y.

and you will have many new people taking an interest in your store. People buy advertised articles by preference—they will buy of the store that advertises, for the same reason.

An added advantage is gained by having your advertisement, and name especially, set in type different from any other in the paper or, at least, the same kind of type every insertion. If possible, see to it that your advertisement occupies the same position on the page each time.

The typographical details of advertising would be neither interesting nor profitable to any but a professional advertisement writer, but there are a few points with which every one who prepares copy should be familiar.

One important rule to follow, often violated by inexperienced printers, is to use

never more than two or three different styles of type, even in a half page advertisement. It is permissible to use several sizes of each kind of type, but never more styles.

Select the plainest and most readable type, avoiding all ornamental or finely curved letters. Select faces that harmonize well with border, cuts and other type used. A good rule to follow is to select type for headlines at least twice as high as any sub-heading and three or more times the size of that used in the body. Rules should be used sparingly lest a confusing effect be produced.

What Some Jewelers Say.

THE road to-morrow opens a vista of greenward and Spring fragrance. Time goeth apace! Accurate watches to measure it—models that have found popularity in two hemispheres. Dependable time-keepers—smart and stylish, too—perfection of the watchmaker's art, the kind particular people want. Excellent time-keeping watches in filled gold cases as smart and dainty and chaste as solid gold. E. Keller & Sons, Allentown, Pa.

The ornaments of Spring time should be selected to harmonize with your dainty Spring gowns and dresses. You can select anything in the line of jewelry for either Spring wear for your personal use or for gifts for Spring brides from our superb and elegant array of jewels, watches and art objects. Wolff's Jewelry Store, Paducah, Ky.

Are your diamonds safe? Diamonds in rings and jewelry frequently become loose or the setting worn. We make a specialty of repairing the old settings or furnishing new ones. All diamond work and resetting down in our own shop. We would be pleased to examine your diamond jewelry to see whether it needs attention or not. C. O. Davenport, Gardiner, Me.

Wedding Rings.—If we may venture a prophecy, then next month will be wedding time for many happy young people. We say this from our knowledge of previous years, for of course this store plays an important part in nearly every wedding. First of all there is the engagement ring, and then comes the numerous gifts from relatives and friends. If there is a wedding in view, then it means a visit to this store, which has rightly been called the "Wedding Gift Store." D. R. Spahr, Tarentum, Pa.

Silver plate that gives lasting satisfaction—styles and designs in keeping with the dignity of sterling ware. Spoons, forks, knives, sugar tongs, sugar holders, chocolate pots, plates, cake dishes, bread holders. There's beauty in every piece—economy in every price. E. Keller & Sons, Allentown, Pa.

A poor clock is an exasperation and a matter of strenuous thoughts, if not language. With a regard for your physical and moral welfare, we handle only clocks which we can guarantee. You won't have to figure a half an hour behind or ahead if you have one of them. They will be as accurate as the sun. They come in all styles, and nearly all prices—mostly very low. R. J. Riles Co., Jacksonville, Fla.

THE CONNOISSEUR'S HANDBOOK.

Definitions of Some Technical Terms in Gold and Silver Smithing and Ceramics
Alphabetically Arranged for Easy Reference.

By Clement W. Coumbe.

(Continued from issue of April 21.)

ANCHER, *anchored* or *ancré*. This term is "applied to a cross when the extremities

CROSS ANCHER.

resemble the flukes of an anchor."—Milbourne. Sometimes called *cross anchorite*.

ANELACE. An old English term for a dagger which hung from the girdle. It was

ANELACE.

worn by civilians till the end of the XV. century.

ANGLED. In heraldry, a term used "when the straight outline of any ordinary or bearing is turned aside in another direction, as *acute angled*, *rect angled*, etc."—Robson.

ANNODATED, *enwrapped* or *bowed en-bowed*. "Anything bent somewhat in the form of an S. The serpents in the *caduceus* of Mercury" (to which refer) "may be said to be *annodated* and *entwined* about the mace, or staff."—Robson.

ANNULATED, *anuly*, *annulety* or *annuled*. "Charges are thus *blazoned* or described when their extremities terminate in annulets or rings."—Robson.

ANNULET, in heraldry, denotes a ring, and the *annulet* also is the *cadency* mark of the fifth son. (For other cadency marks see

ANNULET.

file, *crescent*, *mullet*, *martlet*, *fleur-de-lis*, *rose*, *cross moline* and *double quatrefoil*.)

ANSA (Lat.). "The handle by which a vase or cup was held."—Fairholt.

ANSATED. "A term applied to vases, etc., to which handles are affixed."—Fairholt.

ANTLA. "The handle of a shield."—Fairholt.

ANTICAGLIA. "An Italian word, signifying the remains of antiquity, particularly fragments of ancient architecture and the plastic arts. At the present time this term is usually applied to the less important specimens—for instance, utensils, weapons, ornaments, etc."—Fairholt.

ANTICO-MODERNO (It.). Same as *quattrocento* (to which refer).

ANTYX (Gr.). "The rim or border of anything, such as a shield or chariot."—Fairholt.

APPOINTÉE. Cross *appointée* is the same as cross *aiguisée* (to which refer).

AQUILATED, in heraldry, denotes adorned with eagles' heads.

AQUAMANILE. The ecclesiastical basin used for washing the hands of the celebrant in the liturgy. Some of great splendor are frequently mentioned in ancient records. The ewer that is used with this utensil was known as the *urceus*.

ARAB CUPS. A peculiar-shaped Chinese

ARAB CUPS.

cup is called an *Arab cup*.

ARCA (Lat.). "A chest or coffer in which the Romans placed their money or goods. A wooden coffin for the dead."—Fairholt.

ARCHED, *archée*, *archy* or *enarched*. "When an *ordinary*" (to which refer) "such as a *fess* or *bend*" (to both of which refer) "is slightly curved it is said to be *arched*."—Robson.

ARESTE. "A cloth of gold elaborately figured, used for vestments, XIII. century. It is not to be confounded with *arras*."—Mollett.

ARGENT, *ar*, or *arg*. The heraldic term for the *tincture* (color) silver or white. "The French term for silver, of which metal all white *fields* or *charges* are supposed to consist; formerly silver was used, but it

soon tarnishes and turns black; white was substituted in its stead, and when repre-

TINCTURE ARGENT
SILVER (WHITE).

sented in engraving it is left white."—Robson.

ARMED. "When the horns, teeth, tusks or hoofs of any beast, or the beak or talons of any bird, are borne of a *tincture*" (color) "different from that of the animal itself, it is then said to be *armed* so and so."—Robson.

ARMES PARLANTES, or *canting heraldry*. "When the charges on the shield represent pictorially the name of the family—*e.g.*, the use of a bell as a *charge* in the arms of the family of that name—or refer to some title, office, or even property."—Milbourne.

ARMIGER. A person entitled to bear arms.

ARMS, or *armorial bearings*. "Honorable heraldic devices which are hereditary. They are granted by the sovereign or his representative for the purpose of distinguishing persons, families or communities."—Milbourne. "The name given to such devices as, when painted on a shield, form a coat."—Robson. Arms are titled: Of *Adoption*, *Assumption*, *Dominion*, *Paternal and Hereditary*, *Office*, *Pretension*, *Succession*, etc.

ARONDÉ, or *arrondie*, in heraldry, denotes rounded off, curved.

ARRACHÉ (See *crazed* and *eradicated*.)

ARRASWAYS. "In heraldry, a term used when anything of a square form is placed with one corner in front, showing the top and two sides, in the same way as lozenges are set."—Robson. Drawn cornerwise.

ARRONDIE. (See *arondé*.)

ARROW. In heraldry, "when the feathers of an arrow are of a *tincture*" (color) "different from that of the shaft it is *blazoned* as feathered of that *tincture*. Similarly of the points, which may be barbed, or armed, or blunt, in which latter case it is described as a 'bird bolt.' *Arrows* are usually shown falling, but occasionally as ascending. When shown 'bundled' they are spoken of as *sheaves*."—Milbourne.

ARTEPHORIUM (*ciborium*). "The ancient name for the box containing the Host. In early Christian times church vessels were richly ornamented, and many are preserved, formed of ivory, with *bas-reliefs* illustrating various events in Scripture."—Fairholt.

ARYSTERES (Gr.). "Smaller vessels for

Send 25c. and I will mail you complete instructions for placing heavy crystals in nickel cases without clipping edges—the only proper way to fit them. No cement. By using my process, you can use crystals from 1/4 to 1/2 size too large; no grinding. If not fully satisfied, after trying my process, and you do not consider it worth to you many times the 25c. Invested, pin instructions to a draft, and send it through your bank, and the draft will be honored by the First National Bank of Mansfield, Pa. This is your guarantee, and evidence of my faith in my process. Mansfield Optical Co., Mansfield, Pa.

taking the wine from the *crater* and distributing it to the guests."—Fairholt (See *cyathus*.)

ASAMINTHIOS (Gr.). "A large vase of the Homeric epoch, large enough to admit a person bathing in it."—Mollett. (See *pithos*.)

ASCENDANT, in heraldry, denotes in an upward direction; rising.

ASILLA (Gr.). "A wooden pole or yoke, sometimes resting on both shoulders (like that in use at the present day), or more frequently on one shoulder only, and used for carrying burdens; it occurs very frequently in works of art, especially the Grecian."—Fairholt.

ASPERGES, or *aspergill*. The rod and brush used for sprinkling the holy water in the service of the Roman Catholic Church.

ASPERSED, *gerated*, *poudré* or *sans nombre*. A term used for *powdered* or strewn indiscriminately as to location or quantity.

ASPERSORIUM. The ecclesiastical holy water basin or stoup used in the Roman Catholic Church. (See also *beutier*.)

ASSETT. "Old English. A salver."—Mollett.

ASSURGENT. "A heraldic term used for man or beast rising out of the sea."—Robson.

ASTERISK. An ecclesiastical instrument. "Sometimes called a *stellula*. A kind of crossed framework made of gold or silver, consisting of two arched bands which are sometimes surmounted at the point of intersection by a cross. The *asterisk* is placed upon the *patena* for the purpose of keeping up the cloth which covers the consecrated waters of the host."—Mollett.

ASTEROID. In heraldry, the same as *mullet*."—Robson.

ATRAMENTALE, or *atramentarium* (Gr. and Lat.) "An inkstand of any material whatever. Inkstands were made of terra cotta, bronze or silver."—Mollett.

ATTIRED, or *horned*. A term "used in heraldry instead of 'armed' when applied to the horns of stags, harts or goats, as their antlers are heraldically taken to be ornamental and not offensive and defensive. The term may, however, only be correctly employed when the horns are of a different tincture. Also known as 'accorné.'"—Milbourne.

AUREUS (Lat.). "The unit of gold value for gold currency under the Roman emperors."—Mollett. It was worth about \$5 of our currency.

AVELLANE, or *avelane cross* (Fr. *aveline*). "Sometimes *blazoud four filberts conjoined in cross*, from its resemblance to the filbert

CROSS AVELLANE.

or hazelnut; called also cross *avelane pomette*, and cross *avellaned pomell*."—Robson.

AVENTAIL. "The movable front of the helmet which covered the whole face. . . . This was soon superseded by a more con-

venient face guard, such as the visor."—Fairholt. (See *beaver* and *visor*.)

AYLETS, or *sea swallows*. Heraldic birds, often called *cornish choughs*. Generally painted *sable* (black) beaked and legged *gules* (red).

(To be continued.)

Coming International Expositions.

THE BRUSSELS INTERNATIONAL UNIVERSAL EXPOSITION.

CONSUL-GENERAL ETHELBERT WATTS, in furnishing the following information concerning the world's exposition to be held in Brussels in 1910, reports that more foreign participation has been secured than for any former Belgian exposition:

The exhibition grounds are situated on the southeastern end of the beautiful Bois de la Cambre about 12 or 15 minutes in the tram car from the center of the city, and there will be five or six lines of cars running thereto. The grounds occupy 198 acres, and are directly reached by a new extension of the Avenue Louise, than which there is not probably a more beautiful avenue in Europe.

Space has been secured by the following countries, the extent of space being given in square feet: Belgium, without counting the different pavilions for the city of Brussels, for horticulture, for the lace industry, for the city of Antwerp, for the city of Ghent, and the great *Salle des Fêtes*, which will be capable of seating 6,000 persons, 656,620; Germany, 328,310; United Kingdom, including 10,000 for its colonies, 314,429; Italy, including a pavilion, 129,182; Netherlands, including a two-story pavilion, 75,350. The following countries will be represented by pavilions, space being also in square feet: Canada, 22,605; China, 18,299; Denmark, 16,146; Spain, 26,911; Portugal, 32,831; Guatemala, 4,306; Turkey, 4,306; Uruguay, 5,490; Persia, 10,980. The following countries have announced their intention to participate, but have not yet been assigned space: Haiti, Ecuador, and the Dominican Republic.

It is expected that the United States, Austria-Hungary, Sweden and Norway will participate, but as yet official notice of the same has not yet been received. The last Belgian international exhibition, held at Liege, granted space to exhibitors amounting to 1,001,076 square feet. The Brussels exhibition of 1910 has already granted or given option on space amounting to 1,829,926 square feet.

The progress of the grounds, gardens, buildings, etc., have advanced satisfactorily, and Machinery Hall, it is said, will be ready by the middle of this year, thus enabling manufacturers to build foundations for the machines and have all ready some time before the opening of the exhibition.

TOURIST AND DOMESTIC INDUSTRY EXPOSITION AT BERGEN.

Vice-Consul John A. Merkle, of Bergen, writes that an exposition will be held by the Norwegian County of Bergen from June 1 to Sept. 15, 1910, in that city. The exhibition will be devoted to tourist and domestic industry exhibits. Foreign firms that make a business of furnishing hotels,

foreign steamship companies interested in Norway's tourist traffic, and firms carrying sporting goods may, under certain conditions, exhibit goods through local representatives. A translation of the rules and regulations governing exhibits, exhibitors, awards, etc., may be seen at the Bureau of Manufactures.

INTERNATIONAL EXPOSITION AT KAZAN, RUSSIA.

Consul-General Hunter Sharp, of Moscow, reports that an international exposition will be held at Kazan, Russia, during the months of June, July and August, 1909, under the supervision of the Kazan Government Zemstvo, to whom applications should be addressed. Foreign exhibits will be received up to July 15, 1909.

Further information concerning this exposition is covered by the rules and regulations in the German language, a copy of which may be seen at the Bureau of Manufactures.

CELEBRATION OF MEXICO'S CENTENNIAL.

Responding to a New Jersey letter requesting information relative to the coming celebration of the centennial of Mexican independence, Consul Clarence A. Miller writes from Matamoros:

The people as a whole are even now taking an interest in the coming celebration. In this city collection boxes are posted in various public places for the gathering of voluntary contributions. One or two entertainments have also been given to raise money for the same purpose.

As near as I can learn, the actual celebration will take place on Sept. 14, 15 and 16, 1910. Some of the larger cities will probably have two or three weeks devoted to the *fiestas*, but in this matter each town will probably make its own plans.

Novelties should find a ready market from this time on, especially if decorated with the Mexican colors. Considerable interest might be created in them during the May *fiesta* of this year (from about May 1 to 20); also during the September celebration of this year (from about Sept. 1 to 20). There should also be a ready sale for these articles from the May *fiesta* of next year until the culmination of the celebration on Sept. 16, 1910.

The best manner of introducing these novelties might be to establish agencies in Monterey and Mexico City and work the other towns and cities with good, reliable Mexican salesmen.

PRELIMINARY PLANS FOR A WORLD'S FAIR ON THE ISTHMUS OF PANAMA.

Consul-General Arnold Shanklin sends the information that much interest is being taken in the Republic of Panama in the proposed world's fair to be held at the city of Panama in 1915, concerning which he says:

The present active officers of the proposed fair are A. Bienkowski, president, and E. C. McFarland, secretary, who report that a number of prominent men have permitted their names to be used on the printed matter as honorary presidents and vice-presidents. Several meetings have been held, and one of the wealthy land-owners of the republic has given a beautiful site of 300 acres in the Sabanas.

I have used several different kinds of engraving blocks in the past twenty-five years and I consider the Missman Block the best.

WORKSHOP NOTES AND QUERIES

[Answers are also solicited from our readers to the questions published on this page.]
No attention paid to communications unless accompanied by full name and address of the writer.

QUESTION No. 2260.—Polishing Watch Chains.—After repairing watch chains it is quite difficult to polish the inside of the

MODE OF POLISHING SETTING.

links. Can you tell me of any good method by which this may be easily done? P. W.

ANSWER:—A method by which chains and many other trinkets can be polished was illustrated in a recent issue of the *Deutsche Goldschmiede Zeitung*. A piece of leather is cut into thin strips and secured

POLISHING CHAIN LINKS.

on a hook, or a bundle of strong twine or thread is likewise secured on hooks. They are used as shown above. For rough polishing use tripoli and oil, which should be rubbed down on the string or leather. For the finer polish rouge and kerosene oil are serviceable. Each bundle of twine or leather may be charged with any effective polishing substance desired.

QUESTION No. 2261.—Repairing Laboratory Glass and Porcelain.—In my small laboratory, connected with my repair bench, I have several cracked glass and porcelain vessels. How can I repair them so they will be acid-proof? R. L.

ANSWER:—The vessels may be cemented with a mixture consisting of one part each of asbestos and fine floor sand and three parts of soda water glass (30° B.). The mass can be molded. It hardens in the air

and resists fire. After having been exposed to the action of the acid in these vessels the cement becomes water resistant, although before it could be softened by water.

QUESTION No. 2262.—High Etching on Silver.—I want to etch a plain silver watch safe so the figures will stand out in relief. Kindly tell me how to proceed. H. E.

ANSWER:—In order to relieve or high etch, proceed as follows: Prepare a little tin white by grinding it in soapy water and mix it with dissolved gum arabic into a paste. Paint the silver article with this. Next, trace out the design with a pointed pencil and scrape out with a thin hard wood or goose quill. The tracing must be scraped clean to the metal. Paint the exposed metal over with asphalt varnish. It matters not if it extends a little over the edges, as the asphalt will not hold on the white covering. When the asphalt has dried, wash off the thin white covering, wire the article and place in the silver bath, using the article as an anode. The length of time required depends on the current and the thickness of the silver piece. If too much is taken off, the silver becomes rough and requires polishing. It is well to etch away a little, then paint over the plain parts with asphalt varnish, leaving a clear space around the design; when dry, strip off some more silver. By doing this, the plain parts will remain smoother and the etching shows better, it being etched out all around the design. Etched articles are suitable to take an oxidized finish, and the oxidizing will hold and show effectively on the etched parts. When finished, asphalt can be removed by laying the piece in turpentine or benzine for a few hours.

QUESTION No. 2263.—Home-made Blow-Pipe.—Can you tell me how I could construct a good blow-pipe myself? I want to use it for melting gold and other metals. R. L.

ANSWER:—The blow-pipe shown in the accompanying illustration was described in the *Scientific American*. For tempering tools, heating soldering irons, brazing and melting metals in a crucible it is claimed that it will answer the purpose of the more expensive outfits, which the amateur, as a rule, does not feel able to invest in. Furthermore, there are no bulky air tanks and pumps to take up room, which, to most amateurs, means a great deal. The one illustrated can easily be carried in the pocket, so it is evident that the space required is indeed small. To construct one of this size about six feet of copper or brass tubing 5/16 inch outside diameter will be required, also two feet of band iron

about 1/16 inch thick by 3/4 inch wide. Before bending the tubing to the required shape, it is necessary to fill it with lead or sand to prevent buckling. Either of these will be found to give good results, though for the smaller sizes of tubing lead is preferable. It is not advisable to attempt pouring the molten lead in the tube, as it cools too rapidly. The safest way is to use wire solder. A piece two or three feet longer than the tube will, as a rule, be enough. The lower end of the tube will have to be closed by hammering it down. Insert the wire solder, hold the lower end of the tube over a flame to melt the solder, at the same time pressing the wire slightly. Move the tube slowly over the fire, and it will quickly melt the lead, and one may feel sure there are no bubbles. To form

HOME-MADE BLOW-PIPE.

the coil, use a round bar about 7/8 inch diameter. A broom handle will prove useful. It is best to reduce the nozzle a slightly to increase pressure of the gas as it becomes heated in the coil. After this is done and the coil assumes the shape shown, we can proceed to remove the lead, which may be easily done by heating over a fire until the lead melts, then by shaking slightly it will run out and leave the tube clear. The valve may be dispensed with, and a rubber tube from a convenient gas jet may be slipped on.

QUESTION No. 2264.—Swelling of Borax During Brazing.—How can I prevent borax from swelling during brazing and hard-soldering? S. O. B.

ANSWER:—The swelling of the borax is caused by the moisture which it contains. The moisture may be removed by calcining in a pan, or by placing in a crucible and melting to a clear liquid. After pulverizing again it may be used as dry sprinkling borax, which will not swell.

A French inventor has devised a means of simultaneously cleaning and electroplating an object. He uses an anode of the metal that is to be electro-deposited on the object, while the object itself serves as the cathode. The liquid used is an alkaline substance with a small amount of alkaline cyanide. When the current passes through this liquid it cleans the cathode, and, attacking the anode, produces the desired electrolyte, and thereupon the metal is deposited upon the cathode.—*English Mechanic*.

PLATINUM In Sheet or Wire, Any Degree of Hardness
SCRAP REFINED OR PURCHASED

THE ROESSLER & HASSLACHER CHEMICAL CO.
NEW YORK OFFICE, 100 WILLIAM ST. FACTORY, PERTH AMBOY, N. J.

Beautifully adapted for the jeweler's stock and show case display—the New Pocket Edition Gillette Safety Razor is becoming an important feature in the best retail jewelry stores.

The demand over the retail counter is astonishing. Every old Gillette user wants the New Pocket Edition and it makes new friends at sight.

The set consists of handle and blade box, either triple silver-plated or 14-k. gold-plated. The pocket case is of gold, silver or gun metal—plain polished or richly engraved in Floral or Empire designs. It is so neat and compact that it will fit like a card case in the waistcoat pocket or slip into the side of a travelling bag—the blades are fine. Prices, \$5.00 to \$7.50.

For the special use of the jewelry trade, the Gillette Company has designed a tray lined with purple velvet, size of the regular watch tray—contains wells for twelve razors. These trays are made in various hardwood finishes to match the store fixtures and are shipped free of cost with the initial order for a dozen razors. Aside from the sales of the razor, the business in blades is a steady income for a store.

Two additions to the Gillette line this season are the Gillette Brush—a brush of Gillette quality, bristles gripped in hard rubber; and the Gillette Shaving Stick—a soap worthy of the Gillette Safety Razor. The stick is enclosed in a sanitary nickel box: both soap and brush are packed in attractive cartons. They will be welcomed by Gillette users everywhere.

We Can Furnish You A High-Grade Catalog That Will Keep Your Trade At Home and Increase Your Business Up To 100%

STORE OF ARCHIE TEGMEYER, MILWAUKEE, WIS.

Read Our Customers' Letters

MILWAUKEE, Wis., Feb. 3, 1909.
THE ARNSTINE BROS. COMPANY, Cleveland, Ohio.

Dear Sirs—Kindly pardon my delay in answering your letter but have been so busy since the holidays that I have been unable to do so until now.

As to the results derived from your Catalogs, we find in the city of Milwaukee alone that we have gained hundreds of new customers from over the river. We have on our books to-day over 800 new customers that have bought from us all the way from one to two hundred dollars worth a year, and our trade has more than tripled itself since the issuance of your Catalog 5 years ago.

We intend using a larger number of Catalogs and Circulars this year, as we find there is nothing that brings the business like your advertising matter. Yours truly,

ARCHIE TEGMEYER.

The Catalogs sent out by this firm since 1904 were made by The Arnstine Bros. Company.

LA SALLE, Ill., Feb. 9, 1909.
THE ARNSTINE BROS. CO., Cleveland, O.

Gentlemen:—In reply to your recent letter regarding the benefits derived from your Catalog, we wish to say that we know from experience that it cannot be equaled as a trade winner. We have used them for three years and, therefore, think we are in a position to tell whether or not they bring results.

We have had great success with your Catalogs and will continue to use them.

Very truly yours,
BECKER & RAMAGE.

The Catalogs sent out by this firm since 1906 were made by The Arnstine Bros. Company.

STORE OF BECKER & RAMAGE, LA SALLE, ILL.

Precious Stones = THEIR DEFINITION ANALYZATION AND ORIGIN

It will be our purpose to try to intelligently portray for our friends in the trade a correct definition and analyzation of the various Precious and Semi-Precious Stones, HIMALAYA MINING COMPANY PRODUCTS (this inasmuch as all gems, either mined or cut by the Himalaya Mining Company, are classified as "HIMALAYA MINING COMPANY PRODUCTS"). We trust that our efforts will prove of valuable assistance and benefit, as it has come to us that there is much duplicity practiced in the selling of reconstructed stones as genuine, and for this reason it is our purpose to show the difference — making it easy to discover the deception by the methods we will show after the definition and analyzation of each stone.

Beginning with this issue, we will try to give you, as minutely as this space will permit, a general idea of the precious and semi-precious stones now used in the trade. This will be continued in each issue until the entire series is completed.

THE DIAMOND

The Diamond belongs to the Cubic or Isometric system, most usually occurring in the form of an octahedron, or in combinations in which the cube, the dodecahedron and the tetrahedron are involved. The surface of a crystal is generally smooth. Sometimes, however, indented with triangular impressions, and sometimes is striated with lines parallel to the edges of the faces. The Diamond is easily cleaved, having a perfect cleavage, parallel to the faces of the octahedron. Besides the property of cleavage, the Diamond pre-eminently possesses the quality of hardness, which so exceeds all other substances that it can penetrate them without being itself even scratched. The Diamond presents a very remarkable relation to light. It is one of those bodies which reflect light most strongly, as for instance, when a ray of light enters a Diamond, it is turned from its original direction and in this manner increases its wonderful brilliancy. In addition to this property, it also has an extraordinary degree of power of dispersing the rays of light, thus making a play of colors which is possible in only a very few gems. Of course, this property depends upon the cut of the Diamond. The Diamond in its purest condition is practically colorless and transparent; but at times is found with almost every conceivable tint. The Diamond is a non-conductor of electricity, a fact which is very remarkable, as substances such as graphite or charcoal, which are identical with it chemically, are very good conductors. By friction, however, it becomes positively electric, but this disappears in the course of an hour. When exposed to intense heat, principally electric, the Diamond swells up, becomes black, and is converted superficially into a substance resembling graphite or charcoal. Diamonds have been found in South Africa, India, Brazil, British Guiana, Ural Mountains, Australia, Sumatra, Borneo, and in the United States.

Composition	Pure Carbon
Specific Gravity	3.52 to 3.53
Hardness	10.
System of Crystallization	Isometric or Cubical
Common Forms of Crystallization . .	Octahedron, Rhombic, Dodecahedron Hexakis, etc., etc.

There is no other mineral substance that will scratch a diamond, it being the hardest of all known minerals. Therefore, in testing a stone which is said to be a Diamond, a test can easily be made by taking the next known hardness, which is corundum, either a sapphire or ruby, and which will scratch the substance thought to be a Diamond. If no impression is made upon it, it is a Diamond.

COMPARISONS AND INSPECTION

☞ Possibly you may glean from the liberality of our range of prices a hint of the breadth of our assortment. But, while there are other and more important matters than the size of our display, one point that overshadows any and all others is this:

☞ Our Diamonds, Pearls and other Precious Stones are imported by us direct from the cutters and oriental merchants; and in all their subsequent handling every step of the process of manufacturing our Jewelry is on our own premises and under our own personal direction.

☞ And, as to price, there being no "in between" profits to take into account, you merely pay a slender advance over the actual net cost. At much less cost, therefore, we can give you quality that you will not match elsewhere.

☞ At our SEVENTH ANNUAL EXHIBITION, which takes place in our offices from August 30th to September 4th, inclusive, you will find these statements verified by close inspection and comparisons.

*We just received from abroad a complete line of Diamonds
of the choicest quality*

Engelsman's Patent "Bayonet" Automatic Locking Stone Tweezer No. 119

The acknowledged superiority of this tweezer over any other of its kind is due to its many improvements and innovations.

First. It will be noticed that the points are grooved, thereby permitting any stone to be gripped *firmer* and *better* than by any other kind of stone tweezer.

Second. It is purposely made a "Bayonet" in shape because any stone can be shown or examined advantageously. It also enables

the user to count particularly small sizes of stones, *easier*, *quicker*, and with much less *exertion* than when using any other style of tweezer.

It has an *extra* part directly above the crossing points to permit the holder to examine the stone without fear of *releasing* it accidentally, which frequently occurs when using the ordinary style crossing tweezer.

Price, Each, \$1.75

GRINDING OUTFIT No. 105

LEATHER DISK. SMALL DISK. METAL.

CARBORUNDUM & EMERY PAPER DISKS.

This outfit consists of:

1. Two interchangeable steel disc wheels, 3 3/8" and 1 3/8" in diameter.
2. One interchangeable flexible leather disc wheel, 2 1/8" in diameter.
3. One adjustable hollow spindle for holding the above disc wheels.
4. Eight different grade emery paper discs, 2 1/8" in diameter.
5. Four carborundum paper discs of different grades, 2 1/8" in diameter.
6. Eight different grade emery paper discs 4" in diameter.
7. Four carborundum paper discs of different grades, 4" in diameter.
8. One clamping device for keeping discs flat, when not in use.

Price of Outfit No. 105, complete.....\$1.50
 Separate small emery discs.....per doz. .15
 " large....." " .20
 " small carborundum discs....." " .20
 " large....." " .35

This new grinding device should find favor with the trade, being thoroughly practical and complete for all purposes, such as grinding steel tools, glass, enamel or any other metal or substance that can be ground with emery or carborundum. It is of equal value to the watchmaker, jeweler, optician, dentist, lock or gunsmith, platers and kindred trades. It will be found much more economical than solid emery and carborundum wheels. An assortment of solid wheels of twelve different grits would necessitate an outlay of ten times the cost of this outfit, not taking into consideration the trouble of truing up the wheels when worn or glazed.

Full description and directions accompany each outfit.

CROWN CHUCK No. 50

For enlarging or cutting deeper crowns of watch cases. A movable plug in the stem regulates the depth required for various sizes. Four caps of various sizes are supplied with each to hold crowns from small to large. Stem fits in No. 50 wire chuck.

Price, each, \$1.50

For Sale by all Jobbers in the United States and Canada.

ECHARCO WATCH GLASS CABINET No. 15 (Patented)

Top View, Showing Skeleton Frame of Drawer. Accumulation of dust and chips is impossible.

The Most Modern Watch Glass Cases are the Echarco, Nos. 15 and 20.

These Cabinets have many new features not found in any other. Novelty and usefulness are the chief arguments in their favor.

Construction and Material.—The cases are made of oak, finely finished and of attractive appearance. The sides of Cabinet No. 15 are paneled. Partitions are of basswood and put together in the best manner possible.

Price, No. 15, Each \$16.

Partitions are skeleton, preventing accumulation of dust, chips, etc. The Bottoms of Cabinet No. 15 are hollow, while Case No. 20 has a special drawer to receive chips, dust, etc.

Arrangement for Glasses.—Case No. 15 has nine drawers with a total of 1,547 spaces, and Case No. 20 with four drawers has 784 spaces, to hold glasses in upright position.

Labeling of drawers, as shown in cut, is on the pulls of the drawers and done in gold bronze on black background.

Dimensions and Weight of Case No. 15.—Width, 24 inches; Height, 29 1/4 inches; Depth, 12 inches; Weight, net, 45 lbs.; Weight, including packing case, 75 lbs.

Dimensions and Weight of Case No. 20.—Width, 26 inches; Height, 18 3/4 inches; Depth, 11 3/4 inches; Weight, net, 30 lbs.; Weight, including packing case, 50 lbs.

The construction of drawers, the arrangement of partitions to economize space and weight, and the novel method of showing contents on drawer-pulls are all prominent characteristics and extremely well thought of.

A NEW SALES POLICY AND ITS RELATION TO THE SILVERWARE TRADE

Some weeks ago we announced to our customers that in pursuance of a new selling policy we would close our New York retail store and in future devote our undivided attention to the development of our wholesale trade throughout the country.

This change has now become an accomplished fact. The doors of our retail store at Broadway and 19th Street were closed May 8th and our Executive Offices and Wholesale Show-rooms now occupy

THE ENTIRE TENTH FLOOR OF THE SILVERSMITHS' BUILDING

where we are prepared to welcome our friends in the trade.

In making this somewhat radical move we are ourselves convinced that it is a step along the line of definite progress. We believe that Whiting dealers will agree with us.

Certain it is that we are now in a position to give the greatest possible support to our dealers. We shall co-operate with them in every way to promote increased sales in their territory, unhampered by any real or fancied competition from our own New York salesrooms.

Interesting announcements of new patterns and details of our plan of co-operation with dealers may be expected in the near future.

THE WHITING MFG. COMPANY Silversmiths

Silversmiths' Building, - - 15-17-19 Maiden Lane, New York

PATTERNS IN STERLING SILVER

The variety of our patterns in Sterling Silver Flatware is merely suggested by the illustrations. We invite careful inspection of the many designs we have at our warerooms. Our ware is in substantial weights, shows careful workmanship and will be found satisfactory in every way.

**KREMENTZ
CIGARETTE
CASES
AND
MATCH
BOXES**

In Sterling Silver and 14-kt.

THE BEST and best-selling articles of the kind on the market. Appeal as gifts as well as for personal use. Krementz Match Boxes, designed expressly for paper matches, are unusually compact and graceful. Krementz Cigarette Cases are richly ornate and ideally adapted to their purpose. Krementz standards of workmanship prevail throughout.

Both are made in the following finishes: Roman, Polished, Engraved, Etched, Engine Turned and Krementz Gun Metal Finish.

You cannot afford to omit these lines if you cater at all to masculine trade.

WE illustrate herewith what is acknowledged to be one of the most handsome Sterling Tea Sets ever placed on the market. It is also **one of the greatest values** offered the trade for a long time. Each individual piece in this set is of Good Heavy Weight—the excellence of finish, the quality of workmanship and the beauty in design make this distinctly a Smith product—which is equivalent to saying that it is beyond criticism.

“Silver Selling a Science”

Replete with Up-to-date Ways and Means of Increasing Silver Sales

Jewelers, Attention! To increase your silver sales, see to it that each of your salesmen is provided with a copy of this new, thirty-six page, illustrated book of Silver Salesmanship. Give us a list of your salesmen, with home addresses, by return mail, and we will mail a copy to each man, gratis.

Silver Salesmen, Attention! To increase your selling ability, and increase your earning capacity, write at once for a copy of this book. It is the science of salesmanship applied to the sale of Sterling Silver. Give firm name and state what position you hold.

Contents! The mental law of sale—how to get attention, arouse interest, create desire, and bring about a resolve to buy. How to show silver—gauging your customer's buying power—who your real competitor is—selling silver in the homes—knowing when you have a sale closed—how to analyze a design.

Every Silver Salesman in America Should Read and Study This Book. Copies can be had *free* by sending name and home address to

Singhalese Gold and Silver Smiths.

THE inhabitants of the island of Ceylon are famed as clever workers in the precious metals. Their work in bronze, too, deserves the good name it has. Many natives are employed in shops owned by Europeans and use only European methods and tools. But a large number of Singha-

In the fifth illustration we see a primitive silversmith, and in the fourth a very primitive silversmith. His only garment is a small piece of cloth. Excessive work has not made the old man near-sighted, as one might infer from the spectacles. That he is far-sighted is shown by the fact that he is looking over his glasses to see what the photographer is doing.

New Method of Inlaying Metals.

A NEW method of inlaying metals, simpler and less expensive than the far-famed Damascus work, has been recently invented in England. The metals used become partially alloyed, one with another, and beautiful effects in great variety are thus produced. The new process is described in *Cosmos* (Paris, Feb. 27). The writer recalls that the art of damaskeening was practised in the most remote periods in Persia, China and Japan. Metal workers in Rome became expert in a similar kind of inlaid work, which was known as *calatura*, and some of the articles found in the ruins of Pompeii are of bronze inlaid with silver. These trades must have disappeared completely at the epoch of the invasions, and it is not until the thirteenth century that we recover a trace of them. At this epoch, Cairo, Granada, Persia, and certain cities of Asia Minor practised this industry, but the most skilful workers lived at Damascus, and the art of inlaying introduced by the Venetians into the west was of the Damascus style. The writer continues:

"Damaskeening consisted in engraving with a burin on a metal surface the lines of a design that it was desired to represent and inlaying them with threads and bands of gold or silver, finally polishing the whole. Such work was difficult and its cost was high, so that there has been continual experimentation to get the same ornamental effects more easily. Many processes have been invented, in which the metal is either

FIG. 1.—JEWELRY AND SILVER WORK OF CEYLON AND INDIA.

lese smiths still continue to use the primitive tools of their race and produce beautiful results.

The first illustration shows the interior of a Ceylon store. Not only the glass cases, but probably many of the articles, were "made in Germany." On the table in the foreground is a number of articles of native manufacture. The two vases and the candlesticks are very attractive. The fat bowl with the neat base seems designed for the European purchaser, who is usually satisfied if his purchase is odd and was made abroad.

The foreign purchaser is rather easy to please, and in Ceylon, as in Egypt, the jewelers are aware of this. Recently the writer saw a brooch which was purchased in Colombo by a woman on her way to Europe. The setting was of very ordinary European manufacture, and the precious stones were Bohemian glass. The only noteworthy thing about it was the price.

The wrought decorations on some of the pieces shown in the first illustration exhibit many interesting details. But the abundance of decoration is an indication of cheap labor rather than of good taste. The large ornament is to be worn in the hair. The arrangement of colors may be interesting, but the lines are very monotonous.

The goldsmiths in the second picture and the engravers in the third (Fig. 3 and Fig. 4, page 55) are at work in an establishment owned by a European. The rather feminine hair dress is peculiar.

For the illustrations and the facts in the description we are indebted to the *Journal Der Goldschmiedekunst*, of Leipzig.

Frederick Job, a Wilkes-Barre, Pa., jeweler, has been awarded the contract by the

FIG. 2.—SINGHALESE GOLDSMITHS AT THEIR WORK.

county commissioners for installing the clocks in the new court house. His bid was \$1,425. For that amount he agrees to install 16 electric clocks and one master clock.

poured into the hollows in a molten state or is introduced in the form of a chemical composition which yields the metal when heated. . . . Unfortunately, the artistic value of the results thus obtained has never

A Modern Jewelry Factory

We are now in our own new steel and concrete factory, where all the modern ideas of construction and convenience have been carried out.

The result is, we are better prepared than ever before to produce original ideas by up-to-date methods in 14 K. and 10 K. Gold Rings for man, woman, or child, 14 K. Sleeve Buttons, Locketts, Larter Vest Buttons and Larter Shirt Studs.

Our stock will merit the attention of all retail jewelers who care to buy gold jewelry which for price, design, construction, and finish, is of the very best.

reached that of real damaskeen work.

"The delicate art of damaskeening, however, may perhaps witness a revival under a slightly different form, owing to a simplified and ingenious process due to an Englishman, Sherard Cowper Coles.

"If we immerse in a metallic powder an object made of a sufficiently refractory metal, and heat the whole to a temperature somewhat below the point of fusion of the powdered metal, this latter will sublime in part and form on the surface of the object

vention of Mr. Coles and named after him. This has already been described in these columns.—Translation made for *The Literary Digest*.

Bill to Establish a Customs Court Introduced Into Congress.

WASHINGTON, D. C., May 5.—A bill has been introduced by Representative Needham to provide for the creation of a United States Court of Customs Appeals, to consist of a chief justice and two associate

open for transaction of business, and its sessions would be held annually or oftener at the following places: First circuit, Boston; second circuit, New York; third and fourth circuits, Philadelphia and Baltimore;

FIG. 3.—SINGHALESE ENGRAVERS.
(See Text on Page 53.)

a deposit that is not simply superposed, but is alloyed with the metal and unites with it to a depth that may be determined at will.

"Besides this, the new process allows of the production of varied color effects, due to the combination of several metals with one another and with the supporting metal.

"The modus operandi consists in covering the object with a protective composition, the parts to be incrustated being the only ones uncovered. The protective layer should have a consistency similar to that of the mastic used by glass workers. The design is traced in it with the aid of a well sharpened tool and the portions cut out are carefully removed. The object thus prepared is enclosed in an iron box containing a bed of filings of the metal to be used for incrustation, and then covered with the same filings so as to be entirely surrounded with them. The box is then placed in a furnace and heated to the proper temperature.

"A mixture of several metals may be used, but not in a single operation; there must be as many separate processes as there are metals to deposit. The different layers are not superposed, but penetrate and become alloyed.

"The duration of the heating process varies from a few minutes to several hours, according to the depth of the incrustation desired and according to the kind of metals used.

"The inside walls of the box are not incrustated, because they are hotter than the object within, so that, according to the principle known in elementary physics as the 'principle of the cold surface,' it is on the latter that the vapors condense."

This process, the writer says in conclusion, is based on the method of galvanization known as "sherardization," also the in-

justices, to be appointed by the President with the advice of Congress, at a salary of \$10,000 each a year, each to have been practicing before the Supreme Court of the United States, and they would also have to be experienced in the customs laws of

FIG. 1.—AN OLD SILVERSMITH AT HIS WORK.
(See Text on Page 53.)

fifth circuit, New Orleans; ninth circuit, in the cities of Seattle, Portland and San Francisco, or at other places in the above circuits, as the court might later designate.

This court would exercise exclusive appellate jurisdiction to review the appeals or final decisions by a Board of General Appraisers in all cases regarding the construction of law or the facts respecting classification of merchandise and the rates of duty, fees and charges imposed on them, and all

FIG. 5.—A NATIVE SILVER SHOP.
(See Text on Page 53.)

the United States. This court would have the services of a marshal with the same duties and powers as a marshal of the United States Supreme Court, and other necessary clerical force.

It is provided that the costs and fees of this court would not exceed those now charged by the Supreme Court, and would have to be accounted for and paid over to the Treasury Department in the same manner as is done by the Supreme Court. This Court of Customs Appeals would be

questions as to the jurisdiction of the board and the laws and regulations governing the collections of duties. The judgment of this would be final, excepting that it would be compelled to answer any questions or propositions of law, made by the United States Supreme Court where it desires instruction of that court to enable it to give its proper decision. The construction the Supreme Court may put upon the question and propositions would be binding upon the Court of Customs Appeals in any case.

Artists Needed in Our Jewelry Trade

Some Frank Criticism and Suggestions to the American Manufacturer by a Well Known London Authority

LONDON, April 24, 1909.

Editor THE JEWELERS' CIRCULAR-WEEKLY:

I note with considerable interest the case you put, in THE JEWELERS' CIRCULAR-WEEKLY of March 31, as to the need of artists in the jewelry trade. The case is put in a nutshell. Elaboration would be easy, but nothing more than the home truths need putting.

You have in America a few first rate houses. You have behind them large capital. You have manufacturers who vie with the whole world in the use of machinery, but you do lack the artistic spirit in your commercial jewelry productions. This is the case from the biggest to the smallest firm. I have seen in the great exhibitions specimens of high-class American jewelry productions which cannot compare quite favorably with the productions of Paris, London or Berlin. And yet, America with its vast resources should be in a position to compete with really artistic and beautiful objects.

Some time ago I affirmed that the United States of America would have to find some means of producing artistic jewelers and silversmiths, since in Great Britain and on the Continent fewer opportunities were afforded to thoroughly learn the crafts, with the usual economic consequence. As America had trusted to the encouragement of alien craftsmen, the time was bound to come when the difficulty would be brought clearly home and a serious situation have to be met. That you, as editor of THE JEWELERS' CIRCULAR-WEEKLY, have emphasized now.

It seems strange to me that a protectionist country should have relied for so long upon foreign workers. Stranger still, that in the main the commercial jewelry and silverware designs have remained so poor in quality of design, and strangest of all that there should be little really fresh in the character of the designs employed. (Spoonware is one of the exceptions.) Either British or French styles predominate, and not always of the best. Even the American craftsmen and craftswomen follow the wormy, creepy lines of nothingness which is characteristic of much "modern art jewelry." "The personal element" is either the expression of an exaggerated notion of self-importance or the mimicry of "the latest idea from Paris!"

There are a few American craftspeople who do try to get off the beaten track, but they lack the necessary inventive spirit. We can leave them to their own devices, but the Trade (note I write it with a big T) should awaken to the need for a spring-like freshness in the designs they produce for the million; realize that novelty is not everything, that modernity is the great essential; show that, though the factory has to turn out its productions by the dozen or gross, brains have been used to present "a thing of beauty and a joy forever."

Even in your best work (diamond work) there is a heaviness which jars upon the nerves of the Britisher and Frenchman. I

have jotted down these few reflections because I know how anxious THE JEWELERS' CIRCULAR-WEEKLY is to help its countrymen, while I, believing in that universal brotherhood of art, feel that it is a thousand pities time should be passing without a full appreciation of its value. I have seen a considerable quantity of American-made jewelry of late, well made and perfectly finished, but the designs such that, in the main, only a country cousin would care to wear.

Mere mechanical excellence will not do; jewelry and silverware should be the expression of a craftsman's spirit, like silver of the Middle Ages and jewelry of the Renaissance. There may be those who think that *Art* and *Machinery* are strange bedfellows. I do not. There is no reason whatever why modern tools should not be just one of the most progressive means of expressing an artistic spirit. It is the abuse of the machine against which we cry out; it is the grinding out of good and useful handwork by the stupid use of machinery which the artist would raise his voice against. Lewis F. Day, the British designer, with a world-wide reputation, has argued on more than one occasion that machinery can be used to advantage, and consequently it should. But jewelry of the better class, and silverware also, must be not only the thoughtful expression of the artist, but the production of those who can use their hands as deftly with the tools as the designer with his pencil and brush. Mechanics will never make good jewelers or silversmiths. The twin crafts demand an æsthetic feeling on the part of those who engage in them.

The great point appears to me to be, How can you get good commercial jewelers and incidentally produce good designers and workpeople who will specialize in the production of work in the precious metals? Certainly it is one which needs an answer in the United States. It is a question which is demanding an answer in Great Britain, Germany, Austria, and in that home of artistic feeling and clever craftsmen, France. It is answered by the suggested establishment of technical schools wherein during the *day time* lads may learn at least the first elements of the crafts and also receive a grounding in drawing and design. The Parisian Syndical Chamber of Jewelry has for about 40 years realized the importance of artistically training the jewelers and silversmiths of Paris. What this Association of French Master Jewelers has done, and is doing, the American masters might do. In Germany the work of educating the young jeweler and silverworker is carried on jointly by the employers, the State and the municipality. In Great Britain this is also the case in some instances, while in others the municipality makes itself entirely responsible, with the aid of Government grants, for the artistic and technical education of art craftsmen.

Writing from a personal knowledge of what is done on the Continent as well as in Great Britain, I am convinced that the

future will see the establishment of trade or technical schools where the "art and mystery" which was once taught only in the workshop will be communicated to the youngsters. The trade school will take the place of the workshop and factory as a means of learning a trade or craft, and the nation which first realizes the supreme importance of this will get a long start on the road to commercial success.

Yours very truly,

W. AUGUSTUS STEWARD.

ATTRACTIVE NOVELTIES NOTED IN A LADY'S RAMBLES
AMONG THE JEWELERS.

THE old-style pendant effect is used upon brooches. There are little danglers, usually two, made of links of pearls and gold. These, with the scroll effect setting, are certainly a return to old ideas.

* * *

A charming necklace has a bell pendant made of closely set pearls with a single pearl clapper. The chain is delicate and is ornamented at intervals with two small gold daisies having pearl centers.

* * *

The sets for men carry out the prevailing ideas of daintiness and ornateness—the links, buttons and pin to match having possibly a cabochon stone with surroundings of white enamel and pearls. Diamonds are also applied.

* * *

A new idea in brooches consists in the use of the old-fashioned buffed-top stones—jade, lapis, etc.—as a central setting. The beauty of these is further enhanced by a graceful encircling design in small pearls. The frosted gold leaf, punctuated with pearls, has proved a particularly popular design in this connection.

* * *

Men's scarf pins show a daintier and more ornate tendency. One striking example of this progression is seen in a pin having a square lapis central setting with buffed top, surrounded by two rows of small pearls, across each side of which are tiny diamonds in calibre effect. There are also the small stones with pearls in lighter designs around them.

* * *

Earrings continue on the forward march. One of the most approved designs is in the form of a small bow of pearls, with one gracefully tapering end, the knit and larger part of the end being decorated with a square of diamond-shaped sapphire, topaz, emerald or peridot. The old-fashioned hoop earring is the newest departure from this elongated style. Large, round and heavy, it is the extreme of style.

* * *

The popularity of the black opal this season has been phenomenal. In the scarf pin and brooch it is most attractive, being surrounded by an Oriental design that seems to emphasize the beauty of the stone. A touch of enamel introduced in the setting, having the same color scheme, also adds to the charm of these exquisite stones. And they are sometimes further ornamented by a few dainty bands of calibre diamonds.

Death of George H. Howland.

The jewelry trade in New York and throughout the east read with deep regret the brief announcement in the last issue of THE JEWELERS' CIRCULAR-WEEKLY telling of the sudden death of George H. Howland, a well-known and highly respected member of the trade, who has been connected with the jewelry business for many years.

Mr. Howland had been in poor health for some time past, and not until late in March had he again ventured to the Maiden Lane district. He was about Maiden Lane on Tuesday, at the noon hour, and went from there to the office of Howard & Cockshaw, 18th St. and Fourth Ave., and took lunch with Mr. Cockshaw. He complained of feeling poorly, and walked a block to Broadway, where he asked a policeman to

employe of the firm of Robert Rate & Co., in a retail store conducted by that firm near Warren St. He stayed with that concern some little time, and then at the time the Civil War broke out he enlisted in a New York company and went south, where he served his country for some time.

Returning from the war, he entered the employ of Buckingham, Cole & Hall, in business at 10 Maiden Lane, with whom he remained for about 15 years. Later he went with D. & M. Bruhl as a salesman, and remained with them and their successors, Bruhl Bros. & Co., until he formed a partnership in the precious stone importing business with Wm. Kleinschmidt under the firm style of Kleinschmidt & Howland, in January, 1896. On Jan. 1, 1899, Frederick Ehrhard was admitted to the firm and the style was changed to Kleinschmidt, Howland & Co., with which firm he was connected up to within a short time ago, when the business met with financial reverses during the panic of 1907 and 1908. Since that time Mr. Howland has been, when able, conducting a business as broker in diamonds and precious stones, with an office at 21 Maiden Lane.

As an illustration of the high esteem he was held in by his various employers, when he had been with Bruhl Bros. barely one year Mr. Bruhl asked him to get his life insured for \$10,000 and the firm would pay the premium as long as he would be in their employ, but he refused, preferring to have them loan him \$2,000 to complete payment on his home in Portchester, which they did without charging him any interest.

Deceased was a member of the Jewelers' League and of St. Peter's Episcopal Church in State St., Brooklyn. The funeral services were held Thursday morning of last week from his late home, 96 McDonald St., in the Bedford section of Brooklyn. Interment was at Greenwood Cemetery. The deceased is survived by a widow, two sisters, Mrs. D. O. Scofield and Miss Sarah Howland, and one brother, Samuel L. Howland, who is connected with the Jos. Frankel's Sons Co.

THE LATE GEORGE H. HOWLAND.

place him aboard a car that he might go home. No sooner had he entered the car than he was suddenly seized with a hemorrhage of the lungs, and died before medical assistance could be procured, but not, however, until after he had given his home and business address. Death was caused by the bursting of a blood vessel. He was taken to the station house, and his brother-in-law, Mr. Scofield, of Scofield, Melcher & Scofield, was notified, and he at once took charge of the remains and had them removed to Brooklyn.

Deceased was a man of kindly and genial temperament, and was highly regarded throughout the trade. He is remembered by a host of friends made during his long career in the gem trade because of his pleasant ways and his many kind acts. He always had a pleasant word for everyone, and, so far as known, had not an enemy in the world.

George H. Howland was born, Feb. 4, 1843, in New York City, and was a son of Samuel and Eliza Howland. He spent his early life in New York, and after his school days began his business career in the employ of a newspaper in New York, with which he stayed a short time. His first venture in the jewelry world was as an

Death of Benjamin Spier.

Benjamin Spier, head of the Ben. Spier Co., 37 Maiden Lane, and well known in the jewelry trade, died of neuralgia of the heart Tuesday of last week at his home, 249 New York Ave. He had been connected with the trade for the last 32 years and had traveled all over the United States. He formed a wide circle of friends, who learned with regret of his demise.

Deceased was born in Rodenberg, Germany, 60 years ago, and came to this country in 1866. He first went to work as a bookkeeper in a factory at New Haven, Conn., and after a short time came to New York, where he secured employment as a traveling salesman for Max Freund & Co.,

THE LATE BENJAMIN SPIER.

covering the south and west for this house, with which he remained for 10 years. He then went into partnership with a man named Harris, under the firm style of Harris & Co., at 12 John St., as manufacturing jewelers. He was associated in this business for three years and then became associated with J. J. Cohn, under the firm style of J. J. Cohn & Co., who were located at 31 Maiden Lane, with whom he stayed until 1898 when he bought out Mr. Cohn's interest in the business and went into partnership with Joseph Forsheim, under the firm style of Spier & Forsheim. About two years ago he bought out Mr. Forsheim's interest and formed the Ben. Spier Co.

Mr. Spier was a member of the Benevolent and Protective Order of Elks, which he joined in the south, and later affiliated with a Brooklyn lodge. He was also a member of the Jewelers' League. He is survived by his widow and two daughters, Alice and Mrs. Florence Lidowitz, three brothers and one sister.

The funeral services were held Thursday afternoon, at 2 P.M., from his late residence, and interment was at Cypress Hills Cemetery.

**William Helman, Terre Haute, Ind.,
Makes a General Assignment Under
State Laws.**

TERRE HAUTE, Ind., May 7.—Wm. Helman, who has a retail jewelry business at 1129 Main St., this city, has filed a general assignment for the benefit of his creditors. This deed is filed under the State laws, but will be superseded if bankruptcy proceedings should be made against him. According to the statement given out, his liabilities are about \$1,050 and his assets about \$425.

Mr. Helman, who is a watchmaker and formerly worked for S. H. Sterchi for seven years, started in business for himself in 1905. He occupies a small portion of a furnishing store, and carries a small but well-assorted stock valued at about \$2,000. He is very well regarded in the community, and it is hoped that he will be able to soon settle up his financial difficulties.

Krenzien & Johnson, Van Wert, O., have dissolved, John H. Krenzien continuing alone.

Thief Thwarted in Daring Attempt to Rob Jewelry Store at Salem, Ore.

SALEM, Ore., May 5.—A man who gave the name of A. J. Smith and who, it is thought, is the son of a well known Salem real estate dealer, entered the store of Chas. H. Hinges, 123 N. Commercial St., about noon April 28 and, at the point of a pistol, demanded that Carl Nuegbauer, a clerk, give him what money there was in the cash register and later ordered the clerk to open the safe. Being unable to do this, the clerk was instructed to collect the diamonds from the window, and he was just in the act of doing so when the proprietor entered and an alarm was sounded. Smith made his escape, but was captured in a few minutes at the junction of 11th and Court Sts.

The clerk was working at a bench near the front window when the man entered. As he arose and stood behind the showcase the intruder pointed a revolver at him and demanded the money. When the thief had secured all the money in the place he ordered the clerk to open the safe, but failing in this, ordered that the diamonds be turned over to him. Just as the clerk was about to comply with this demand the proprietor entered and the thief turned his attention to the latter, but Mr Hinges quickly swung the door shut and ran out on the street. As he turned he saw Smith leave the store and run along Commercial St. The proprietor then followed, calling for help, but before he could overtake the man the latter was caught by F. E. Taylor, who had a desperate struggle to keep from being shot. A bystander came to Taylor's relief and helped to overcome the thief, who was turned over to the police.

There were about \$5,000 worth of diamonds in the store at the time the man entered. The proprietor says he recognized the man as one who had been in the store on several previous occasions, evidently with the intent of holding him up, but each time someone had fortunately been in the store.

In a letter, which Mr. Hinges writes to the Jewelers' Security Alliance of New York, he describes the whole affair as most exciting and extraordinarily daring, and says that it was most fortunate that all escaped without bloodshed. He gives Taylor, the man who caught the thief, special praise for his bravery.

Proceedings of the Recent Meeting of the Retail Jewelers of Michigan Held at Saginaw.

SAGINAW, Mich., May 5.—The district convention of the Michigan Retail Jewelers' Association, which, as told in the last issue of THE JEWELERS' CIRCULAR—WEEKLY, was held in this city, April 28, at the Elks Temple, was attended by about 30 delegates. A. B. Hull, president of the State association, presided and the session was devoted principally to formal business, among other things the adoption of a new constitution and the election of delegates to the national convention. The delegates chosen are: G. Wm. Stolz, Sandy McKay, V. C. Morse and A. B. Hull.

President Hull laid stress upon the importance of enlarging the membership in

this section of the State, with the idea of bringing the State convention to Saginaw in a year or two. The members were gratified at the applications already received, 24 new names having already been added to the rolls. Among the important changes which were made in the constitution was that relating to the balloting system of electing officers.

As announced last week, the gathering here was brought to a close at the dinner of the Noble Order of Ku Kus, held at the Bancroft. The menu was perfect and the best postprandial exercises that could be desired. In addition to the speeches a large class of candidates were initiated in the mysteries of the order.

Trade Organizations Seek to Locate Two Jewelers Who Have Departed from Erie, Pa.

ERIE, Pa., May 7.—Creditors of Frank S. Hall and George W. Cole, two local retail jewelers, are anxious to locate these men.

Geo. Bell, arrested at Pittsburg for robbery at Wheeling, W. Va.

It was reported last week that the merchants had gone away after converting such parts of their stocks as was possible into ready money and taking other articles with them.

The Cleveland Credit Men's Association has taken up the task of locating the two jewelers, and the Jewelers Board of Trade, New York, has been asked to co-operate in finding them.

George Cole was in business at 442 W. 18th St., Erie, Pa., and is 42 years old. He has been in business 10 years, and carried a moderate stock. Hall was in business at 1809 Peach St., and has been in the trade four years. He conducted a moderate business and did repair work.

According to a communication received by the Jewelers Board of Trade, Saturday, warrants have been issued for Hall and Cole, and detectives are now working on the case.

Burglars recently made an unsuccessful attempt to break into the store of the Carl Jewelry Co., Halsted, Pa. The thieves were frightened away by Mr. Carl who fired at them.

Pittsburg Police Arrest Geo. Bell, Accused of Stealing Watches from Wheeling, W. Va., Store.

PITTSBURG, Pa., May 6.—The arrest last Saturday night of George Bell, alias Max Bari, in Pittsburg, by Detectives Richardson and Lally, and the finding of a scrap of paper on his person, dated Wheeling, led to the capture of a man who robbed the Stauver jewelry store at Wheeling, W. Va., April 28. At that time, it is charged, Bell sneaked into the store, reached over the counter and opened a showcase, grabbed a tray containing 17 gold watches, valued at \$800, and made away with the loot, successfully eluding those in the store, the pedestrians on the street and the police. Bell had an equal chance to have taken diamonds, valued at \$4,000, but chose the watches instead.

The discovery of the paper bearing a Wheeling date caused Captain of Detectives Wm. Elmore to send Bell's photograph to the Wheeling police. A number of watches

had been found on Bell's person and all of these facts were explained. Mr. Stauver, when shown the photograph, thought he recognized the man who robbed his place, but to be certain he came to Pittsburg on Tuesday and made the identification complete. Bell is now languishing in prison at Wheeling to answer to the charge of robbery.

The robbery was a bold piece of work, and Mr. Stauver is delighted that the man has been caught, as he never expected that he would be. Bell came to Pittsburg and acted suspiciously and the Pittsburg detectives walked him to the police station and searched his clothes. This revealed some of the plunder stolen from Stauver and he was held and photographed.

The prisoner, when confronted by the man he had robbed, made no attempt to fight extradition and was taken to Wheeling by officers from that city, where he will be placed on trial very soon. Bell has not yet explained why he did not take the diamonds instead of the watches.

H. M. Roberts, Dickinson, N. Dak., has moved his stock into new quarters in the Berringer building.

DIAMONDS

We offer some exceptionally fine LA VALLIERES in Diamonds and combinations of diamonds and pearls and other precious stones.

These pieces are unusually beautiful in design, are in the latest style and are precisely what is needed to serve the prevailing fashion. The mountings are strictly correct and of the finest finish. Prices are right.

We shall be glad to send you an assortment, on memorandum, including some exceptionally fine pieces. Write us.

JEWELERS BUILDING, 373 WASHINGTON STREET, BOSTON, MASS.

Jewelers' 24 Karat Club of Pittsburg Holds an Enjoyable Smoker.

PITTSBURG, Pa., May 7.—The Jewelers' 24-Karat Club of Pittsburg held a "smoker" last night at the Fort Pitt Hotel, which was attended by nearly all of the club's members. The function was held in the "Dutch Room" recently added to this hostelry, and the affair was especially enjoyable, since the proceedings appealed to all of the members of the trade present. There was some entertainment, of course, but the jewelers were there to talk business, and this they did to good advantage.

Steele F. Roberts, president of the club, was the toastmaster of the occasion, and though the gathering was informal a number of good addresses were made. F. M. Keating, of the Grogan Co., had for his subject "Art in Jewelry," and his remarks were extremely entertaining and instructive. Harvey W. Wattles, of W. W. Wattles & Sons, handled the subject "Oriental Art" in splendid fashion, while President Roberts spoke on "Jewelers' Profits" in a way that distinctly appealed to his auditors. Referring especially to this feature, Mr. Roberts said:

While some of our goods are necessities, yet the greater part of a jeweler's stock is composed of luxuries pure and simple, and should pay the dealer a large profit commensurate with the risk in change of styles and fashions. The jeweler, we will say, makes an average profit of from 25 to 40 per cent., with 50 to 60 per cent. as an extreme. Now step out of your store and see what profit is made in other branches of the retail business. As an illustration, send your wife out on a shopping tour to any first-class department store in the city. She buys a hat or bonnet and is charged from 100 to 500 per cent. profit; perhaps she buys a dress, gown or coat and pays from 100 to 200 per cent. profit; shoes, gloves, hosiery, trimmings, etc., 50 to 100 per cent. profit. She brings you home \$500 worth of goods that did not cost the dealer more than \$200.

We jewelers are all presumed to be smart, shrewd business men. We consider the cost and style and give a contract for a new home. A contractor builds it at a profit of from 15 to 25 per cent., and has not a dollar of capital invested. On all sub-contracts he only "books" and does the bossing. We need a piano, furniture, carpets and china for the new house and pay the dealer 50 to 150 per cent. profit for them. Jewelers like good living (when they have the price), and so we telephone our orders to butcher, baker, grocer and market man and we freely hand out to the same 50 to 100 per cent. profit.

And you single, wifeless young men who take your girls out to dinner or the theater, buy her a box of candy or flowers and set up the peach sundae, you lovingly hand out the same 100 to 200 per cent. profit to the man. But she is worth it, and I don't blame you.

Gentlemen, every stick of apparel you have on has paid the maker and dealer 50 to 150 per cent. profit. Fellow jewelers, there is no guess work about this. Most of them I have verified in Pittsburg and in other cities. These figures do not lie. They are cold, unadulterated facts. There is no theft or robbery in selling goods at 100 per cent. profit. Scriptures teach us that the man given five talents returned 10.

I believe that if we would reduce our stock one-half and increase our profits the other half we would all be a lot of happier and richer men from year to year. Never mind the department store or sharks and fakers in the business. Stand pat. The name and reputation of your firm will command a profit and trade that they never can attain. The jewelry business is a good clean, honorable calling, and we should be proud that we are engaged in it, and if properly conducted will earn a good living and a generous competence. Some of you said business was quiet in 1907, bad in 1908 and rotten in 1909, and that's no lie. But, gentlemen, I believe we have seen the worst and that there will be a fair trade this Fall and a good holiday business.

Sam F. Sipe had "Knockers" for his subject, and he cited some splendid object-

lessons, some of which are absolute experiences of members of the trade, which brought forth many laughs, and concluded by saying: "Don't knock your competitor; it may come home to you. Speak of him as a good, honorable fellow. It pays to smile." Otto Heeren had for his subject "The Jobbers' Side," while August Loch gave an interesting talk on "The Watch Question."

The concluding address was made by J. P. Archibald, of Blairsville, Pa., president of the American National Retail Jewelers' Association, who spoke on the question of watch price cutting and the coming convention. Mr. Archibald said that several watch companies have adopted a minimum price, namely, the Howard Watch Co. and the Hamilton Watch Co. Others which expected to do so, he said, were the Elgin, Waltham and Springfield companies, these having already fixed a minimum price on some movements.

Among the representatives of out-of-town firms who were present were: Harry A. Bliss, of Wordley, Malsopp & Bliss, and Mr. Roher, of the Bassett Jewelry Co. The club served a buffet lunch, and a musical program was carried out to the delight of everybody present.

The next meeting will not be held until October.

Jewelry, Clocks, Watches, Silverware and Kindred Lines Exported from New York.

WASHINGTON, D. C., May 5.—The following were the exports of jewelry, silverware, optical goods, clocks, watches and kindred lines from the Port of New York for the week just ended:

Acapulca: 7 cases plated ware, \$456; 15 cases clocks, \$314.

Berlin: 4 cases clocks, \$480.

Bombay: 5 cases clocks, \$381; 115 cases clocks, \$1,497.

Buenos Ayres: 15 cases plated ware, \$1,401; 4 cases watches, \$755; 2 cases clocks, \$975; 13 cases plated ware, \$935.

Calcutta: 1 case plated ware, \$134; 36 cases clocks, \$635; 3 cases plated ware, \$119.

Cape Town: 46 cases clocks, \$1,213; 2 cases plated ware, \$129; 3 cases watches, \$505; 1 case jewelry, \$140; 1 case thermometers, \$125.

Frankfort: 2 cases optical goods, \$175.

Hamburg: 1 case plated ware, \$100; 17 cases clocks, \$214; 1 case plated ware, \$225; 9 barrels jewelers' sweepings, \$6,000; 3 cases optical goods, \$340.

Havana: 6 cases plated ware, \$611; 1 case jewelry, \$101.

Havre: 2 cases clocks, \$140; 1 case jewelry, \$135; 2 cases plated ware, \$136.

Lisbon: 21 cases clocks, \$246.

Liverpool: 137 cases clocks, \$2,299; 11 cases clocks, \$153; 1 case jewelry, \$380; 1 case plated ware, \$125; 1 case optical goods, \$220; 1 case silverware, \$913; 4 cases watches, \$1,200; 4 cases jewelry, \$964.

London: 48 cases clocks, \$1,124; 6 cases watches, \$1,116; 24 cases clocks, \$187; 3 cases optical goods, \$356.

Madras: 6 cases clocks, \$109.

Malta: 87 cases clocks, \$497.

Maracaibo: 5 cases plated ware, \$292; 7 cases clocks, \$119.

Melbourne: 30 cases plated ware, \$2,996; 136 cases clocks, \$2,066; 4 cases optical goods, \$490; 16 cases plated ware, \$2,051; 1 case thermometers, \$125; 29 cases clocks, \$877; 2 cases optical goods, \$387.

Montevideo: 13 cases clocks, \$290.

Munich: 1 case clocks, \$350.

Rio de Janeiro: 13 cases plated ware, \$1,739; 7 cases watches, \$142; 1 case watches, \$147.

Shanghai: 39 cases clocks, \$680.

Tampico: 57 cases clocks, \$928; 3 cases plated ware, \$156.

Vienna: 5 cases clocks, \$270.

Pittsburg Grand Jury Vindicates John M. Roberts by Ignoring Charge Made by Woman Employe.

PITTSBURG, Pa., May 8.—The Grand Jury yesterday refused to indict John M. Roberts, of the John M. Roberts & Son Co., on the charge brought against him several weeks ago by a former woman employe of his establishment, and ignored the bill which had been prepared by the district attorney. This is regarded as a big vindication for Mr. Roberts, in view of the fact that the only witnesses who appeared before the inquisitive body were those who testified in behalf of the prosecutor. The woman who brought the charge could in no way substantiate it, and the Grand Jury returned the bill to the court marked "ignored."

A suit for damages had been brought against Mr. Roberts by the complainant, who, since the charge was ignored by the Grand Jury, is not likely to have much success in collecting anything.

"I was determined," said Mr. Roberts to THE JEWELERS' CIRCULAR-WEEKLY correspondent, "to fight the matter to a finish, and was ready to sacrifice my own interests for the benefit of others. I realized that should I have been made a victim it would have become necessary for me to dispense with the services of every female employe of my establishment. The fact that the Grand Jury, which only hears the prosecutor's side of the case, ignored the bill of indictment ought to be conclusive proof that there was absolutely no truth in the charge. It was ridiculous, and I was ready to prove, I think, why the charge was brought. I was determined that there should be a settlement only in a court of justice, and that is where it has terminated. Naturally some annoyance was caused, but there never was any truth in the accusation."

Everybody who knows Mr. Roberts rejoices in the fact that the case terminated the way it did—in a vindication for him.

Career of the Late John Rich.

CLEVELAND, O., May 5.—In the death of John Rich, the well-known Painesville jeweler, April 27, which was briefly chronicled in the last issue of THE JEWELERS' CIRCULAR-WEEKLY, the Western Reserve lost one of her oldest business men and citizens.

Mr. Rich was born in England in 1831, but emigrated to this country while still a young man.

Deceased learned the jewelry, watchmaker's and engraver's trades early in life, and on May 5, 1858, started business in Painesville. For over 51 years he was in business in the same place on Main St.

Mr. Rich was quiet and unostentatious, his family, his church and his business being his only interests in life. As a local historian said: "Few men, if any, in this community more steadily pursued the even tenor of their way." His life was one of steady application to his work and devotion to his family. Truly such a life needs no eulogy. It is preserved in its examples of kind acts done, sacrifices and industry.

At a meeting of the creditors of J. C. Robinson, Chester, S. C., recently, a dividend of 35 per cent. on all claims was ordered.

Manufacturing Jewelers of Providence Express Their Views as to the Proposed Permanent Tariff Commission.

PROVIDENCE, R. I., May 7.—A representative of the committee of 100 appointed at a manufacturers' convention held in Indianapolis last February to advocate the appointment of a permanent tariff commission has been in this city for several days canvassing Rhode Island manufacturers upon this question. Among those from whom he secured statements were Mayor Henry Fletcher, of the Fletcher-Burrows Co.; George H. Holmes, of the George H. Holmes Co.; Harry Cutler, of the Cutler Jewelry Co.; Edward B. Hough, of the Wightman & Hough Co.; Louis Lyons, of the Lyons Mfg. Co., and Edgar W. Martin, of the Martin-Copeland Co., all manufacturing jewelers of this city. These statements herewith follow:

Mayor Fletcher, speaking as a manufacturing jeweler, and not as an official of the city, said: "It seems to me that a speedy settlement of the tariff question is of primary importance. Providence, the State of Rhode Island and the country at large have stood for a good deal by reason of the backing and filling process which has been going on at Washington. Let us have some kind of a working tariff, so that the business of the country can get back to normal conditions.

"As to a tariff commission that does not worry me half as much as the business stagnation, which is very largely caused by the unsettled tariff conditions. The question should be settled as soon as possible entirely outside of politics. Some system should be devised whereby rates of duties can be adjusted from time to time as the exigencies of the case demand."

George H. Holmes said: "The sooner the tariff question is settled the sooner business will return naturally to its former level. However, I do not believe that the tariff question is altogether responsible for the present business depression. There are other conditions involved which have contributed to the situation, and with the tariff question out of the way I do not expect to see the country's former business activity restored in full form until fall.

"The question of a tariff commission is entirely another matter, and should be viewed purely from a business standpoint. The main question, to my mind, involves what a tariff commission can do for the tariff, just what functions it will have, whether it will be invested with sufficient power to insist on necessary changes in the schedules where such necessities arise, or whether it will be in its capacity simply advisory and, therefore, able to only recommend to Congress changes which may be deemed advisable.

"If a tariff commission were to have only the latter power it would be no improvement over the present staff of experts employed by the Government.

"A tariff board, composed of carefully selected experts, invested with sufficient authority to insist on any changes in the tariff schedules which might be considered essential, would be a vast improvement over the present method of attempting to

make adjustments in the rates. If this kind of a board can be provided, then I certainly believe we should have such a tariff commission."

Harry Cutler said: "I most certainly think that the unsettled condition of the tariff is a good deal to blame for the country's business depression at the present time. But we have always had confronting us similar conditions when the tariff schedules have been in process of alteration, or adjustment, and in all probability it always will be so to a greater or less extent. Nevertheless, they seem to be taking altogether too much time at Washington in arriving at a fair working basis for the new tariff. I am first, last and always a firm believer in a protective tariff, for I consider it to be the only fair arrangement for employes and employers alike.

"The tariff commission question presents a difficult problem, and I do not care to commit myself in its favor without knowing the powers that are likely to be conferred upon it by Congress. Unless the commission has the power and authority as well as the latitude and scope that such a board should enjoy, I fail to see where it would be of any material benefit to anyone."

Edward B. Hough said: "There is no question in my mind as to what is causing the business depression throughout the country at the present time and has been responsible for the conditions of the past several months. The slowness of the powers at Washington in coming to some understanding regarding the tariff is the prime reason for the feeling of unrest and uncertainty that now prevails. It would not be particularly difficult to find out who is to blame for the hold-up tactics now being employed by Congress.

"The tariff question should be settled, and settled without any unnecessary loss of time. The whole matter should be taken out of politics and placed in the hands of a board or bureau composed of business men who possess complete knowledge of the details of the industries involved in the readjustment proceedings."

Louis Lyons said: "I am in favor of a tariff commission, and it is probably the only true solution. A permanent tariff board, composed of scientific and broad-minded business experts, who would be capable of figuring on the cost of production, etc., would, to my mind, help to settle this vexatious problem.

"The keynote of the whole situation, however, is the speedy settlement of the tariff question. Providence and the country at large are paying a costly price for this disastrous agitation. The political tinkering with the Payne tariff bill is unquestionably causing a loss to the business men of the country, amounting to many millions of dollars a day."

Edgar W. Martin said: "I am heartily in accord with the opinions of other manufacturing jewelers of Providence, and manufacturers of other lines, to the effect that the tariff question should not be permitted to drag along to the detriment of the business interests of this country. The tariff should by all means be taken out of the hands of the politicians and entrusted

to a tariff board composed of experts. A tariff commission on these lines would no doubt settle all future tariff troubles."

Waltham Watch Co. Ships Its Big Exhibit for the Alaska-Yukon-Pacific Exposition.

BOSTON, Mass., May 8.—The Waltham Watch Co. has shipped 30 cases, which are soon to be followed by more, to Seattle, Wash., to be set up in the company's big exhibit at the Alaska-Yukon-Pacific Exposition. In this first shipment is included largely the mechanical portion of the exhibit, and comprises many of the machines which were so attractive at the Jamestown Exposition in 1907. While these machines will be set in motion, they will not produce the several watch parts for which they are designed. It is explained as a reason for this plan that the productive action of these machines, which are automatic in their performance, requires a liberal use of oil, and experience has demonstrated that such conditions are most undesirable. Moreover, the functions of the machines can be quite as readily comprehended when they are run without producing anything.

Among the most interesting and instructive pieces of mechanism shown will be a facsimile model of a 16-size bridge model movement, enlarged to 10 diameters. This watch will be in constant motion, not to serve as a timekeeper but running at a speed which will permit a careful study of every part.

A special show case, containing about 8,500 Waltham watch movements of various sizes and grades, most of which went through the great San Francisco fire, will be another feature.

There will also be displayed in show cases exhibits of watch jewels of various kinds, also the crude material from which they are made—samples of watch parts in different stages of progress. Watch movements and complete watches will also be shown, together with many other interesting things, the enumeration of which space does not permit.

The company will have an excellent location in the Department of Manufactures and Liberal Arts. H. E. Duncan, who has had charge of the largest of the company's previous exhibits, has been in Seattle some time, directing the erection of a suitable pavilion. He will superintend the installation of the exhibition and will remain there as general director. The four young women who are to act with the other attendants at the exhibit, will leave Waltham soon in order to be there in ample time.

It is reported that the popular style in ladies' dress, both in day and evening wear, will be without collars, with low-cut or filmy net work at the front, and it is therefore universally predicted that this will be followed by a distinct revival in the sale of necklaces, *la vallieres*, etc. To meet this coming demand Abel Bros. & Co., 64 John St., New York, are showing a unique and original line of diamond-set *la vallieres*, consisting of double and single dew drops in diamonds, alone or with precious or semi-precious stones. These new designs will not be illustrated by the firm, so dealers interested should send for a selection package.

Check Swindler Arrested After Trying to Get a Ring from Boston Jeweler—Police Investigating His Record.

BOSTON, May 10.—A young man, describing himself as Manuel C. Borgass, 24 years old, and living at 1218 Cambridge St., Cambridge, was arrested Friday afternoon in the jewelry store of George E. Homer, 45 Winter St., where, it is alleged, he was trying to pass a worthless check.

Borgass, according to the police, called upon Max L. Pinansky, an attorney at 209 Washington St., Thursday afternoon and asked Mr. Pinansky if he would help him study law and prepare him for the bar examinations. Mr. Pinansky was talking over the terms when he was called out of his office for a moment or two. When he came back he found that both his check book and his visitor had disappeared. That same afternoon Borgass went to the First National Bank and cashed a check for \$16.40, which the paying teller, Louis P. Evers found, after handing over the money, to be no good.

Borgass appeared shortly afterwards at Mr. Homer's store and expressed a desire to look over some diamond rings, saying he wanted to buy one for his girl, and added that he expected to be married soon. He found a ring that pleased him and tendered a \$100 check in payment.

The firm thought that they would like to investigate the character of the check, and persuaded Borgass to call Friday. This he agreed to do. The store called up the First National Bank and was informed that the bank was looking for the very same young man. At the request of the bank officials the Homer store agreed that if Borgass showed up again they would have him arrested. Borgass did come in, and was about to present the \$100 check again when detectives took him into custody. In court Saturday he was held in \$2,000 bail for the June term of the grand jury. To the police Borgass said he had been in the house of correction and the Massachusetts State Reformatory at Concord. His record in the rogues gallery showed that he had served two terms in the latter institution and had at one time been an inmate at the School for Truants at Chelmsford.

Pawn tickets also found on the prisoner were for rings, watches and silverware, which he had sold, as the slips bore his name. The pawnbrokers with whom he did business are located in this city. The property will be examined by the police, who are eager to find out all they can about their prisoner. In addition to the pawn tickets, he had other receipts, for which he was unable to account.

J. S. T. Leavitt Sells His Business at Worcester, Mass., and Quits That City.

WORCESTER, Mass., May 5.—J. S. T. Leavitt, who conducted a jewelry store at 513 Main St., is missing from this city, and friends, creditors and wife are seeking him whereabouts. Before going away Mr. Leavitt sold his jewelry business to Herbert H. Chabot, who took possession of the store last Thursday morning.

Mrs. Leavitt is suing her husband for a separation, and has secured a \$1,000 attachment against him. The deputy sheriff has this attachment, but can find nothing on which to levy.

James W. Anderton, Dayton, O., Offers to Settle With Creditors at Fifty Per Cent.

DAYTON, O., May 5.—James W. Anderton, a jeweler doing business under the style of Anderton & Son, in this city, offers to compromise with his creditors on a basis of 50 per cent., payable 10 per cent. in cash, 15 per cent. in 30 days, 15 per cent. in 60 days and 10 per cent. in 90 days. If this proposition is accepted it is his intention to begin an auction sale of his stock.

Mr. Anderton has been operating under an extension granted by his creditors, May 31, 1906, and under this agreement has paid 58 per cent. on all claims that were out against him at that time. Of the old indebtedness he still owes \$4,000, while on goods purchased since the extension he owes about \$6,000. According to his books the assets include merchandise of \$14,189; book accounts, \$2,140; bills receivable, \$274; fixtures estimated at about \$2,000; cash on hand, \$102, and cash tickets, \$151.

Creditors who have gone over his affairs feel that more can be had by accepting his offer than could be realized should bankruptcy proceedings be commenced, though such proceedings may be begun, however, if his affairs are not quickly settled.

R. H. Ingersoll & Bro. Sue Jos. Brown & Co., Chicago.

CHICAGO, May 8.—Through their attorney, Henry W. Leman, Robert H. Ingersoll & Bro. Co., New York, have begun a suit in trover against Jos. Brown & Co. for the recovery of \$300 worth of merchandise. The suit is an echo of the Brown failure, which occurred Feb. 6, 1908, and its outcome will be watched with interest, as a decision in the plaintiff's favor would establish an important precedent. The plaintiffs aver that Brown bought their merchandise 10 days prior to his failure and received the same the day before his failure—that in so doing he was guilty of fraud. They also claim that the statement Brown made to the trade was not true, and ask for a judgment in their favor.

It will be remembered that during the examination of Brown in the bankruptcy proceedings he testified he could neither read nor write, and that he signed the statement to the trade without knowing its contents. Employees of Brown testified that an inventory on which his last statement to the trade was made was "estimated," and that the stock had not been taken. Employees also testified that dead accounts were carried on the books as assets.

Brown compromised with his creditors at 25 cents on the dollar, but the plaintiffs in this action refuse to agree to a settlement on this basis, and hence the suit.

A. W. Ryland, Russellville, Ky., is offering to turn over his stock to a liquidator for the benefit of his creditors.

J. C. Hough & Co., Magnolia, Miss., recently dissolved partnership. Samuel T. Hough, of the old firm, will continue on his own account.

Mermod, Jaccard & King Jewelry Co. Celebrates 80th Anniversary of Its Founding.

ST. LOUIS, Mo., May 7.—The Mermod, Jaccard & King Jewelry Co. will begin the celebration of its 80th anniversary Wednesday, May 12, with a reception. The present great house of the firm, at Broadway and Locust St., has developed from a little watch-making shop, opened by Louis Jaccard on Main St., between Pine and Chestnut Sts., in 1829.

That was the beginning of the business that has been closely identified with the commercial development of St. Louis. Eight years after Louis Jaccard embarked in business, he was joined by his nephew, Eugene Jaccard. In 1845 A. S. Mermod, a cousin of Eugene Jaccard, entered the business. Two years later D. C. Jaccard, another relative, became associated with the growing firm.

The business prospered until it was swept away by the fire of 1849, but Mr. Mermod and the Jaccards re-established themselves in business on the east side of 4th St., between Pine and Chestnut Sts., opposite the Planters' Hotel. They remained at that location until 1859 when they removed to 4th and Olive Sts., opening one of the finest establishments in the west at that time.

In May, 1864, Mr. Mermod and D. C. Jaccard withdrew from the firm, and with C. F. Mathew formed the firm of D. C. Jaccard & Co. A store was opened at 4th and Locust Sts. The following year Goodman King became associated with the company. In 1883 the Mermod & Jaccard Jewelry Co. was incorporated, with A. S. Mermod as president, D. C. Jaccard vice-president, C. F. Mathey treasurer, and Goodman King secretary. With the exception of Mr. King, all of the original incorporators have since died.

In 1887 the company secured its present location at Broadway and Locust St., and opened what was then claimed to be the largest and handsomest jewelry house in America. This building was destroyed by fire Dec. 19, 1897. The next day, through the promptness and energy of Mr. King, the firm was open for business across the street from the destroyed building. Before the smoke had ceased to ascend from the ruins plans for a new building were under way, and in less than a year the firm was re-established on the old site in a greater building than the one that had been destroyed.

The present building is nine stories in height and fireproof. The upper floors are devoted to the manufacture of the firm's goods.

In 1901 the business of the E. Jaccard Jewelry Co. was bought, together with that of the Merrick, Walsh & Phelps Jewelry Co., and these were consolidated with the Mermod & Jaccard Jewelry Co. In 1905 the name was changed to the Mermod, Jaccard & King Jewelry Co., with Mr. King as president.

For the reception in honor of the 80th anniversary the store will be beautifully decorated, inside and outside. The people who come to congratulate will be greeted by the officers of the firm and a large staff of salesmen and saleswomen.

LOUIS J. DEACON, Atlantic City, N. J.

Hard Fought Trial of Providence Jeweler Accused of Buying Stolen Gold.

PROVIDENCE, R. I., May 8.—The long delayed trial of John Nelson, the N. Main St. gold refiner and jeweler and former Assemblyman, charging him with receiving stolen property, knowing the same to have been stolen, was begun in the Superior Court on Thursday before Judge Geo. T. Brown, and has been continued ever since. When the court adjourned for recess at noon to-day the chances appeared very good of his being discharged on a technical point of law.

Justice Brown stated that he could not recollect any testimony to the effect that the goods in the case had been stolen. His understanding of the evidence made him believe that the complaint should have alleged embezzlement instead of larceny, as the gold scrap had come into the possession of William J. Wallace, the man who took the metal to sell to Nelson, by virtue of his employment in the factory of the Fontneau & Cook Co., in Attleboro. Assistant Attorney-General Cross will submit authorities in an effort to confute this point.

The case against Nelson is one in which the manufacturing jewelers of this city and the Attleboros are greatly interested, from the fact that concerns identified with this industry have lost thousands of dollars worth of scrap metal during the past few years, and suspicion has pointed to Nelson in a majority of instances as the receiver, although it has been impossible up to the present time to convict him.

The present hearing came up to the Superior Court in an appeal to Nelson from the decision of the Sixth District Court. He was accused of receiving a lot of metal, including links, buckles, rings and gold scrap from William J. Wallace, who testified before the District Court that he stole the stuff from the Fontneau & Cook Co., of Attleboro, manufacturing jewelers. The time when Nelson received the property from Mr. Wallace was in July, 1908, according to the charge. Nelson was sentenced by the lower court to 30 days in the Providence County Jail.

Nelson took an appeal from the sentence, and shortly afterwards petitioned the Supreme Court for a change of venue, claiming that there was such a prejudicial feeling against him in Providence County that he was unable to secure a fair and impartial trial. This petition was denied and the case remanded to the Superior Court for a hearing on the appeal.

When the case was finally called in the Superior Court Nelson was absent, his physicians claiming that he was a nervous wreck, and in no condition to stand the trial. The case was then set for March 17, and on that date Nelson answered the response, but the principal witness for the State, Wallace, could not be located, and hints were freely expressed that he had been spirited away. He was later located and placed under arrest, and was kept in charge of the State until the case was called on Thursday.

The preliminary proceedings on Thursday indicated that it was to be one of the hardest fought cases ever tried before the criminal courts of this State. Assistant

Attorney-General Harry P. Cross appeared for the State, receiving the assistance and suggestions of James A. Piree, of Gardner, Piree & Thornley, who represented the Jewelers' Protective Association and the interests of the Fontneau & Cook Co. The defendant's counsel includes Albert B. Crafts, M. L. Lizotte and Luke Kavanagh.

Mr. Crafts examined the men called as jurors individually, the same as in a murder case. After the jury had been empaneled Mr. Cross sprung a surprise by requesting the court to order that the jury be kept together until the conclusion of the case, saying that the case was one in which not only the defendant, but the manufacturing jewelers and the public had shown a deep and widespread interest. He believed, he said, that it was highly important that no mistrial should result from any improper conduct by or toward the jurors, through inadvertence or otherwise. Judge Brown acceded to Mr. Cross' request.

This is said to be the first time that a jury in a criminal appeal case was ordered to be kept together in this State. Such a request, which may be made under the law by counsel for either the prosecution or the defense in any criminal case, is seldom made, except in a murder trial.

At the opening of the case Assistant Attorney-General Cross outlined what the State expected to prove. He said that he expected by evidence to show that William J. Wallace, an employe of the Fontneau & Cook Co. from May, 1907, to July, 1908, stole, at various times, quantities of links, buckles, gold scrap and similar material from his employers and took the same to John Nelson in this city and sold the stuff. He expected to show, he said, that Wallace had known Nelson before these transactions; that at first the State's witness went to Nelson's place of business on N. Main St with the metal and there received the money; that afterwards an arrangement was affected for Nelson to meet Wallace and receive the stuff in a neighboring drug store. Subsequently Nelson met Wallace on the street and took a coat from Wallace's arm with stolen metal in the pocket of the garment, returning the garment, paying for the metal scrap later on. The State alleged that on the sixth time that Wallace took stolen stuff to Nelson the latter was arrested, and the coat containing the metal was seized.

Among the witnesses called by the prosecution were William J. Wallace, William A. Cook and Frank G. Fontneau, of the firm; Bernard M. Goldowsky, a private detective, connected with the National Detective Agency; Inspector Harrall, Herbert A. Crowell, of the Manufacturers' Refining Co. of Attleboro; Chief of Detectives Horton and Inspector Haran.

The State rested its case at 11 o'clock this morning when counsel for the defense moved for a verdict of acquittal on the ground that, according to the rulings of some States, a person cannot be prosecuted for receiving goods in one State when the goods were stolen in another, and also that, even allowing the goods were stolen, there had been no evidence to show that Nelson had not received the scrap to do work upon, that is, refine it in the same manner a watchmaker might receive a stolen

watch for the purpose of making repairs upon it, and was not therefore a receiver of stolen goods. The court considered the questions during the noon recess, and on reconvening the motion was denied, and the defense stated its case to the jury.

The defense outlined was that Nelson had no knowledge that the goods were stolen, and by paying a fair price showed that he had not suspected anything wrong; that he had concealed nothing from the police that was not easily explained. Nelson was put upon the stand to testify in his own behalf, and was on the stand until evening when the court ordered the sheriff to take charge of the jury and adjourned until Monday morning.

It is expected that at least two days will be occupied in hearing evidence and another for arguments and the judge's charge.

Death of Thomas W. Gardner.

INDIANAPOLIS, Ind., May 10.—Thomas W. Gardner, the oldest manufacturing jeweler in Indianapolis, and one of the oldest in the State, died at his home, 2540 N. Rural St., last Wednesday, after a lingering illness. He was 75 years old.

Mr. Gardner was born in London, O., and came to this city in 1855. During the Civil War he was master of transportation, with headquarters at Louisville, Ky. He then came to Indianapolis, working at the jewelry trade here for a while, then going to Huntington, where he engaged in business.

It was while at Huntington that his store was robbed of \$12,000 worth of jewelry, one of the largest jewelry robberies in the history of the State. In 1875 he returned to Indianapolis, taking a position with W. P. Bingham. In 1880 he opened a manufacturing jewelry establishment on the site of the present Ayres building.

Several years ago the plant was moved to 25½ W. Washington St., and since that time the business has been conducted by his son, Edward Gardner. Another son, John Gardner, is employed by the Baldwin-Miller Co.

Mr. Gardner was a member of Roberts Park Church, and had belonged to the Odd Fellow fraternity for 54 years. He was married in 1858, and the widow survives.

J. W. Haskell, formerly an optician in Portsmouth, Va., recently purchased the jewelry and optical business of George McLaughlin, North East, Pa., and moved from Portsmouth to the latter city, where he is now in charge of his new business. Mr. Haskell, while engaged in the optical business in Portsmouth, was at one time employed by Wm. Chapman as engraver and store clerk.

In the April issue of *Judicious Advertising* appears an article by C. C. Wingham headed "The Advertising Story of the South Bend Watch Co.," in which is given a brief history of the company, together with the details of the publicity campaign which it has been conducting for some time past. The article is illustrated with half-tone cuts of S. D. Rider, the general manager of the company, and H. C. Carpenter, the sales manager, together with a full-page illustration of one of the company's most effective advertisements.

Association Notes.

The Jewelers' Club, of Wilmington, which was organized in Wilmington, Del., as has already been told in *THE JEWELERS' CIRCULAR-WEEKLY*, met, last Wednesday night, and the following officers were elected: William G. Bryant, president; J. T. E. Montgomery, first vice-president; D. H. Stassfort, secretary, and Chas. M. Banks, treasurer. The club will meet weekly.

A meeting of the South Dakota Retail Jewelers' Association will be held at Aberdeen, June 17 and 18. As this is the date of the "North and South Dakota Homecoming," there will be special railroad rates of a fare and a fifth on all railroads. A. W. Voedisch, secretary of the association, has notified the jewelers of the State of the fact and expects that the reduced fare as well as the important features of the meeting will result in a large attendance.

Jra D. Garman, as president of the Pennsylvania Retail Jewelers' Association, has forwarded the following letter, asking jewelers of that State to attend the coming meeting to be held at Harrisburg, June 3 and 4: "Through the courtesy of *THE JEWELERS' CIRCULAR-WEEKLY* I address you to make our last appeal to attend the State convention at Harrisburg, June 3 and 4. It is hoped this may be the largest and best convention yet held by our association. The jewelers of the State who are not members we would ask to send their \$3 to our secretary and become members at once. We feel if you cannot attend the meetings you can at least give us your support. This work is not being carried on for the benefit of a few, but for the good of every jeweler in the State. The results accomplished are many, and if you attend one of these meetings you would hear what has been done. To be successful we must have your support. Send your name to the secretary or myself to-day. This association is formed for you and your protection. It is for you to say if we shall succeed."

C. Z. Rowe, Argos, Ind., formerly president of the Indiana Retail Jewelers' Association, is sending out a circular letter to the jewelers in all parts of the United States, telling of the work that has been accomplished by the organizations that have been formed in nearly all the States of the Union and the concessions they have obtained from manufacturers in the shape of fixed selling prices, as well as the discontinuance by jobbers and manufacturers of the practice of selling goods through illegitimate channels. He calls the attention of jewelers who have treated the organization movement with indifference to the fact that they are making a great mistake, as their co-operation is greatly needed, and he predicts that as soon as representative jewelers are all members of the State and national bodies conditions in the jewelry trade will be far better than they are to-day. He says that the organization movement is not for the purpose of obtaining improper concessions, but for mutual protection, and that conditions are such that all jewelers should work together to this end. He closes by urging every legitimate jeweler to join a State association and to attend the meetings of this body and persuade his competitors to do likewise.

Death of James M. Burkhart.

READING, Pa., May 7.—As a result of being run down by an automobile Tuesday evening last at the corner of 11th and Washington Sts. James M. Burkhart, a well known jeweler of this city passed away at St. Joseph's Hospital to-day at the end of two days and a half of suffering.

Mr. Burkhart was struck while returning to his home in company with his brother, the machine hurling him 20 feet. The driver stopped the car and rushed Mr. Burkhart to the hospital, where an examination disclosed that he was suffering from a compound fracture of the left leg, a fracture of the right leg and a broken clavicle and internal injuries. After the physicians worked over him it was believed that he was getting better when he suddenly took a turn for the worse and expired.

Mr. Burkhart had long been connected with the jewelry trade here, both as a merchant and as an employe. After learning his trade he originally worked for the firm of Schlechter & Henry, which was located at 6th and Penn Sts. About 12 years ago he started in business for himself, but later retired and took a position as bookkeeper and salesman with G. A. Schlechter, in which capacity he continued until the accident occurred.

Mr. Burkhart is survived by his widow, four sons and a daughter. He was a prominent member of St. Paul's Catholic Church.

S. Selka has opened a store at Astoria, Ore.

Clarence Beitel has engaged in business at Pleasantville, N. J.

Chas. Braun has opened a store on Edison St., at Antigo, Wis.

A. Rominski has begun business at 1499 W. North Ave., Chicago, Ill.

B. Mayer has opened a new store at 177 S. Broad St., Trenton, N. J.

Armington & Saul recently opened a store at 27 Broadway, Camden, N. J.

M. V. Poggenpohl will commence business in Taylorville, Ill., about May 15.

Death of Leroy Wilson Fairchild.

Leroy Wilson Fairchild, at one time the best known manufacturer of gold pens in the United States, died Saturday at Atlantic City, N. J., in his 80th year. Mr. Fairchild is remembered by the older generations in the trade as a man of sterling worth and of refinement. He retired from business some years ago and had spent his declining years in a well-earned rest.

Mr. Fairchild was born in New York on Aug. 12, 1829; his ancestors for generations back were cultivated people. As a lad he entered the office of a newspaper and then as a clerk in a book publishing house, and afterwards, for several years, as a special solicitor in the leading cities in the south and west for orders on special books and railroad matters and in this class, of trade he formed numerous acquaintances which afterwards proved of value to him.

In 1849 he entered the gold pen firm of Spencer, Randall & Dixon, whose factory was in the Parly building, at the corner of Maiden Lane and Broadway. The art of making gold pens was then in a very crude state. The firm failed in 1851 and was succeeded by Randall & Fairchild, and in a few years every dollar owed was paid and the business was on a solid foundation. During these years, Mr. Fairchild became a practical mechanic and he set about effecting improvements that entirely revolutionized the gold pen industry. After the death of Mr. Randall, the surviving partner conducted the business under the name of Leroy W. Fairchild. The business was located as far back as 1854 at 132 William St., in 1863 it was moved to 110 William St., where it remained until 1883, when it was moved to 18 John St., and from there, in 1887, to 189 Broadway.

When Mr. Fairchild assumed the controlling interest in the concern they manufactured only the finest class of goods and the success of his efforts is testified to by the business that he did. Millions of pens bearing the name of Fairchild were distributed broadcast throughout the entire world. In addition to gold pens, the house also made gold pencil cases and a line of gold and silver small ware.

Mr. Fairchild is spoken of by those in the trade who knew him as an honest, upright and capable man. The business which Mr. Fairchild established was continued and is now being continued in this city under the name of Fairchild & Co., of which concern a son, Harry Fairchild, is the head.

Funeral services were held at St. Agnes Episcopal Church, 92d St. and Columbus Ave., yesterday. Deceased is survived by four sons, Harry, Leroy, George and James.

Waltham Watch Co. Sues Chas. A. Keene to Restrain Him from Stamping His Name on Waltham Watches.

Boston, Mass., May 10.—Charles A. Keene, a New York watch dealer, was served last week while in this city, with a summons and complaint in an action brought by the Waltham Watch Co., to restrain Keene from attaching his name to the word "Waltham" on watches made by the complainant company. The suit, which was brought in the Supreme Court of Massachusetts, is an action in equity, seeking an injunctive relief from a practise which the Waltham Watch Co. contends is an invasion of its rights.

According to the complaint, Keene purchased Waltham watches of different grades from persons other than authorized agents of the company and has stamped upon the plates or other parts the words "From Chas. A. Keene, New York." The complainant claims that the word "Keene" in connection with the word "Waltham" confuses and deceives purchasers of Waltham movements and that the defendant has invaded the company's right in the word "Waltham," which is used by them as a trade-mark. The company also claims that the stamping of these words on the plate has a tendency to damage the movements and injure the reputation of the company.

No answer to the complaint has yet been filed.

J. H. Max, Piqua, O., has been succeeded by Scott & Scott.

Samuel R. Goldstein, Minneapolis, Minn., Files Involuntary Petition in Bankruptcy.

MINNEAPOLIS, Minn., May 5.—Samuel R. Goldstein, who conducted a store at 213 Washington Ave., S., in this city, has filed an involuntary petition in bankruptcy. His liabilities amount to \$11,032, while his assets are \$9,122, of which \$735 are exempt.

The creditors for amounts of \$100 or more are as follows: Rothschild Bros. & Co., \$170; Klipper Bros., \$997; Jeffrey & Harris, \$637; I. Schwartz, \$904; Butler Bros., \$251; Kelly, How, Thompson Co., \$361; Chas. P. Goldsmith & Co., \$525; Stern, Driebblatt & Co., \$1,942; S. Frackman, \$906; Kanotz & Scheff, \$250; Daniels & Lesch Co., \$101; Louis Kaufman & Co., \$654; H. Lesch Jewelry Co., \$358; Jewelers' Mfg. Co., \$516; H. Leach Jewelry Co., \$559; United Watch Co., \$262; J. R. Wood, \$1,419; Freeman P. Lane, \$400; Bessie Goldstein, \$3,600; Chris Goldstein, \$1,500.

Mr. Goldstein, before engaging in business on his own account, was a clerk in the employ of the Weisman Jewelry & Loan Co. for about two years, which concern he bought out for \$10,000, paying in full, it is declared, for his acquisition. It is said that a short time ago he came into possession of between \$10,000 and \$12,000 from his father's estate. Mr. Goldstein carried a large assortment of stock and had an attractive store.

Commercial and Industrial Exposition at Pernau, Russia.

WRITING from Riga, Consul Her- nando de Soto says that a Russian commercial and industrial exposition will be held at Pernau, a port in the province of Livonia, under the auspices of the Pernauer Gewerbe Verein (Pernau Industrial Association), on July 4, 5 and 6 next. His particulars follow:

The exhibits will be divided into 12 classes, as follows: Food products; textile industry and wearing apparel; leather and rubber goods; earthen ware, pottery, glass ware and china; wooden ware, metal goods, hardware, etc.; chemical industry; paper and paper ware; office appliances; industrial arts; musical instruments, and horticulture.

Applications for space and all correspondence should be addressed: An das Komitee der Gewerbe und Industrie Ausstellung in Pernau, Province of Livonia, Russia, Post-Fach No. 44. Applications should be filed not later than June 15, 1909.

As the last exposition of a similar character was held over 10 years ago in Pernau, the proposed undertaking is creating widespread interest among the public, and this fact, it is hoped, will not fail to induce manufacturers and producers to take advantage of this opportunity to display their products.

The port of Pernau, with a population of 20,000, is situated on the east coast of the Gulf of Riga, at the mouth of the River Pernau, and 200 miles north from Riga.

Walter G. Copp, Fayetteville, N. C., has admitted a partner into the business, making the firm style Copp & Best.

National Monthly Import and Export Statistics.

WASHINGTON, D. C., May 10.—The records of the Treasury Department contain the following comparative statistics of interest to the jewelry trade for March, 1908 and 1909, and for the nine months ended March, 1908 and 1909:

Artists Needed in THE editorial published in the issue of March 31, entitled "Artists Needed in the Jewelry Trade," has brought forth from a well-known British authority on jewelry a letter upon this subject, which appears in another column of this issue. In this the writer (W. Augustus Steward, chief instructor in jewelry designing at the Central School of Arts and Crafts, London) indorses the remarks which were made by this journal, and adds a few frank criticisms of the present condition in America and suggestions to manufacturers which we think will prove both interesting and instructive.

Some of these criticisms, particularly that relating to the heaviness of the diamond mountings of the American manufacturers, will surprise a great many, and did it come from any one but a man so qualified to express an opinion as Mr. Steward it might be resented as well as answered. On the other hand, his praise of the finish of American jewelry will prove equally pleasing. However, he points out that mere mechanical excellence will not develop the jewelry craft here.

Mr. Steward shows that the necessity for producing the artist craftsman on which to build the future development of the jewelry trade is not only a problem of the United States, but has been felt, and to some extent met, in both France and Great Britain; (all know how well it has been and is being met in Germany). He looks for the solution of the problem now confronting the American manufacturers in the establishment of trade and technical schools of the proper kind, which he is convinced will be established in the near future.

The Government ACCORDING to the newspaper reports there seems to be a great deal of activity in customs circles along lines looking for the suppression of smuggling, and efforts are being made in many ways to stop this pernicious practice both by an increase in the diligence of the customs officials and the prosecuting authorities as well as by reformation in the public service tending to develop the efficiency of the employes used in these lines and increase their activity. In this work the Government officials should have the co-operation of honorable merchants in every line of trade, and particularly in the jewelry line, wherein so much of the merchandise that enters into it is of small bulk and of great value and offers unusual inducements to smugglers, both professional and amateur.

There is one matter in regard to the treatment of smugglers in which the Government authorities have in the past been very lax, and though this has been called to the attention of the department officials by THE JEWELERS' CIRCULAR-WEEKLY from time to time, no effort has been made to take any steps in this direction, despite the fact that it would appear to laymen that it would prove most efficacious in stopping smuggling, at least by private parties. This, in brief, relates to the enforcement of the penalty clause in the Revised Statutes covering the confiscation of smuggled articles, which statutes provide not only for the con-

demnation of the smuggled articles themselves, but also for the enforcement of a fine of three times their value, to be imposed upon the party or parties who brought them in. Though many attempts have been made by the Government to declare forfeit articles brought in without payment of duty by private individuals, and though a number of forfeitures have resulted from these proceedings, we do not recall one instance (at least, in the jewelry trade) where the United States Attorney, in starting the condemnation proceedings, has asked for the triple penalty against the smuggler as provided by law.

At times the authorities have proceeded criminally against smugglers where the latter is deemed to be a professional, but where articles have been brought in by private individuals it has been the custom either to permit the smuggler to obtain the article upon payment of duties, or, when more drastic measures have been thought necessary, to commence an action against the smuggled articles to declare the same forfeit to the United States.

We realize that there is much in the practical point made by district attorneys, that to bring a criminal action against private individuals who are caught in the act of bringing goods through the customs lines would, to a more or less extent, be a waste of time, as an indictment by a grand jury would be hard to get and a conviction by a petit jury be often impossible under the circumstances. However, we do not see that there is any reason why, in asking the forfeiture of the goods in a civil action, the United States Attorney does not also ask for the penalty against the smuggler provided for in the very sections of the statutes under which he usually proceeds.

Few Jewelry Failures During April. COMMERCIAL failures in the United States during the month of April

were far less both in number and amount of liabilities than in the corresponding month of the year before, and, in fact, compare favorably with the normal figures of April of previous years. According to the figures compiled for *Dun's Review*, the commercial failures during April numbered 990 as against 1,309 in the previous year, with total liabilities of \$16,825,000 as against \$20,316,000 in the year before. Of these the failures in the manufacturing lines numbered 253 and those in the trading lines numbered 706, as against 370 and 868 respectively in April, 1908. These figures show the same general tendency of improvement which was manifested in the statistics of March, and would have been much better but for the increase in the failures having liabilities of more than

Our Latest Achievement

LOOK FOR THIS TRADE-MARK

IT IS A MUTE PROCLAMATION OF MERIT

ASIDE from the legal security this trade-mark affords the manufacturer operating under it, it guarantees to the retail jeweler absolute dependability in every detail of construction.

THE gold is of the karat stamped, the designing uncommonly good, and the workmanship of a kind that we vigorously defend by placing it beyond the ambitious efforts of competitors.

H. A. KIRBY

MANUFACTURERS OF FINE GOLD JEWELRY

85 Sprague Street, Providence, Rhode Island
New York Office: Jewelers' Bldg., 9, 11, 13 Maiden Lane

\$100,000. As far as the smaller failures are concerned, the showing is unusually good.

Of the lines of business that showed the greatest improvement during the month perhaps the jewelry trade is the best example that could be cited. According to the table of failures by branches of business compiled for *Dun's Review*, there were less failures, with smaller liabilities, in the jewelry and clock trades during the past month than in any April in a great many years. The total number of insolvencies listed is but nine, with aggregate liabilities of \$57,582. How much better these are than the figures of any April since 1905 is to be seen from the fact that there were 28 failures in April, 1908, with liabilities of \$290,303; 17 failures in 1907, with liabilities of \$124,353; 11 failures in 1906, with liabilities of \$64,025, and 13 failures in 1905, with liabilities of \$88,194.

Utica.

An itinerant jewelry dealer who has been selling goods in this section, and who said he came from New York, was arrested, last week, at Syracuse for selling without a license. A fine of \$25 which was imposed was suspended on the condition he take out a license at once.

The Appellate Division has affirmed the judgment of the County Court, granting a non-suit, in the action brought by Arthur P. Sheldon against Silas L. George, a jeweler at Watertown. Sheldon sued to recover the amount of a reward offered by George for the return of some jewelry stolen. Elias C. Katz stole the jewelry and sold it to Sheldon, who turned it over to George and claimed the reward.

George C. Smith, a Watertown jeweler, was forced into bankruptcy in 1907. Samuel Silverman, of Silverman Bros., local merchants, is now under arrest on a charge of perjury growing out of Smith's failure. Charles A. Phelps, trustee of Smith, caused Silverman's arrest. The trustee had brought suit against Silverman for \$1,250, the value of some stock and damages for alleged usurious interest charges which Smith paid Silverman. On the trial Silverman swore that his books had been stolen, but in May, in another trial, Silverman produced them in court. Because of his testimony Smith's trustee caused Silverman's arrest for perjury. There will be an examination on May 18, Silverman having pleaded not guilty.

Customs officials of the United States and Canada are uniting in a movement to stop smuggling from the United States and Canada, and *vice versa*. Many men are engaged in smuggling operations about Ogdensburg, and two jewelry firms of Montreal have been charged by the Canadian Government with employing men to smuggle jewelry, shipped from New York, into Canada. Civil suits have been commenced to recover \$20,000 from Lawande Bros., Montreal, and \$15,000 from the Damascus Jewelry Co., of the same city. It is claimed that \$50,000 worth of goods were recently smuggled into Canada one night, which had been purchased in cities of this vicinity, and also in New York. Some New York houses are under surveillance of the Canadian Government, and arrests may follow.

New York Notes.

J. Raphael, a Chicago retail jeweler, was a visitor in this city for a short time this week.

L. Metzger, of S. Jacobs & Co., Minneapolis, Minn., was a visitor in this city last week.

The creditors of Oscar Jackle are holding a meeting to-day before Referee Seaman Miller.

The D. F. Briggs Co. has moved its New York office from the seventh to the eighth floor of 180 Broadway.

J. F. Rothschild has entered as partner in the firm of B. Uhlfeilder & Co., clock importers, 51 Maiden Lane.

Charles E. Hancock, of the C. E. Hancock Co., Providence, R. I., was a local visitor in this city, last week.

Charles Weygandt, 61 John St., diamond polisher, has moved to larger quarters in the Frankel building, at 45 John St.

Staiger & Sons, makers of diamond mountings, have moved their offices from room 507 to room 405, 2 Maiden Lane.

The store of Alexander Becher, 42 W. 125th St., was damaged to the extent of \$300 by a fire which occurred there last week.

George C. Wheeler, superintendent of the W. & S. Blackinton Co.'s factory, North Attleboro, Mass., is at the New York office this week.

M. Meyerowitz, of Meyerowitz Bros. & Co., 170 Broadway, sailed for Europe last Wednesday on the *Maurctania* to visit the diamond markets.

Benjamin S. Samuels has moved from the Fuller building, 23d St. and Broadway, to room 703, Alvin building, corner of Fifth Ave and 35th St.

John S. Borande, western representative of the Keller Jewelry Mfg. Co., 64 Nassau St., is now on a semi-annual visit at the New York headquarters.

"Jack" Heller, of L. Heller & Sons, sailed Saturday morning on the *Philadelphia*, for a visit to the firm's Paris office and the European precious stone markets.

The business for some conducted under the firm name of Louis Kaufman & Co., 82 Fulton St., has been changed to J. Herzog & Co., and is now located at 45 Rose St.

Eisemann Bros., 452 Fifth Ave., announce that Jan. W. Paris, who has been connected with the business for the last 18 years, has been admitted as a partner in the firm.

Adolph J. Grinberg sailed last week on the *Kaiser Wilhelm II* for Europe on a regular purchasing trip. He will visit the markets in London, Paris, Antwerp and Amsterdam.

S. Cohn, of Cohn, Abraham & Co., importers of diamonds, 9 Maiden Lane, sailed Tuesday, May 4, on the *Kaiser Wilhelm II* for Europe, where he will visit the diamond centers.

Maiden Lane jobbers are displaying signs at their several places of business which state that they are members of the Jobbers' Association. The signs contain the words, "sincere co-operation and fair competition."

Creditors of Isaac Wasserman have been notified that a meeting will be held before

United States District Judges in the Post-office building, May 24, at which time an opportunity will be given to show cause, if any, why the bankrupt should not be discharged from all his debts in bankruptcy.

The firm of Jacob Bikoff & Co., Brooklyn, has been incorporated to manufacture jewelry, hardware, etc., with a capital of \$5,000. The incorporators are Wolf Sloske, Joseph Sloske, Jacob Bikoff and Samuel Millman, all of Brooklyn.

Chas. Ablitzer, who was formerly in business at 3 Maiden Lane, has sold out to Edward H. Courvoisier, who will conduct a retail business of watches, diamonds and jewelry and also make a specialty of fine watch repairing.

Because of the complaint of a Maiden Lane jeweler, the traffic squad of the Maiden Lane police force has been instructed to keep express wagons and other vehicles on the move. If this order is strictly obeyed, it will mean that the jewelers along Maiden Lane will have to take their express packages to the express offices.

Levi A. Lawton, for over three decades a traveling representative for the H. M. Quackenbush Mfg. Co., Herkimer, N. Y., has retired from active service on the road and his place has been taken by B. A. Barnes. Mr. Lawton is 67 years of age and, feeling the strain of extended trips, is to give up this part of the work but will continue with the company.

A memorial meeting in honor of the death of William F. King, at one time president of the Merchants' Association of New York, will be held to-day at 3 o'clock in the Assembly Room at the Merchants' Association, 66 Lafayette St. Addresses will be made by Hon. George B. Cortelyou, Henry R. Towne, John N. Beach, John Weed and J. Hampden Dougherty.

Breslavsky Bros., 51 Maiden Lane, have greatly increased their factory space. An addition has been taken, running along the front of the building, providing a light, well-ventilated workroom for the operatives. The new adjunct occupies about 75 feet. Breslavsky Bros. have installed a coloring and silver plating department during the past year, and it is now running full time.

The Jewelers' Security Alliance has been notified by the Geo. W. Meyer Jewelry Co., Chattanooga, Tenn., that a gold hunting case watch was recently lost by that establishment. The watch had a fancy engraved case and Swiss movement, No. 24485. The watch was left on a workman's bench in the front of the store and it is thought that someone took it while the attention of the clerk was attracted to another part of the establishment.

Notice is given that Adolph and Emil Pimsler, individually and as co-partners, who were formerly in business under the firm style of Pimsler Bros., at 51 Maiden Lane, filed a petition in the bankruptcy court praying for a discharge from all their debts. A meeting of the creditors will be held to attend a hearing upon this petition before United States District Court in the Postoffice building on May 17, at 10:30 A.M.

Dan I. Murray, jewelers' auctioneer, is now conducting a sale at the store formerly

known as the Hofman Arcade Jewelry Store, Springfield, O. This business was recently incorporated as the Chase, Hofman Co., and Mr. Murray is conducting what is known as an incorporation sale, which includes about \$50,000 worth of stock. The sale continues daily from 10 A. M. to 6 P. M., on week days, and on Saturday nights until 10 P. M.

Maurice Barnier, second captain of the French liner *La Savoie*, who was tried before Judge Hough and a jury in the United States Circuit Court Wednesday of last week on an indictment charging smuggling, was convicted. The jury, after being out two hours, returned a scaled verdict and this was opened by Judge Hough on Thursday morning. The verdict was guilty, but recommended mercy, and Judge Hough fined the prison \$750. Barnier was arrested on April 12 on board his ship and \$3,000 worth of laces and diamonds found in his cabin were seized on the ground that he intended smuggling them into the United States. It was stated at the time of the arrest that much smuggling had been accomplished by the use of seals of foreign consulates, as the courtesy of the Government had been to admit such goods free.

A young man man who, from the description given, is evidently a Swede, visited the store of George W. Shiebler, 5 Maiden Lane, early last week and inquired for a scarf pin set with a red stone. He looked over the articles shown him but found nothing which met with his approval. About an hour after he had left the store it was discovered that a valuable scarf pin was missing from the tray which had been shown to the visitor. The missing pin was a sapphire, surrounded by diamonds, and was valued at about \$50. The goods were not examined by anyone between the time that the young man left and the time that the discovery was made; and, although Mr. Shiebler is, of course, not certain that the young man committed the theft, he is otherwise at a loss to account for the missing stickpin. He says that the young man was dressed in gray clothes and had a sallow complexion, with light hair. He advises other jewelers to be cautious in dealing with him.

A man who gave the name of William Riley, and who said he was 33 years old, was caught by Patrolman Parliament in the act of robbing the jewelry store of Herman Weisengrun, 123 New Main St., Yonkers, recently. The officer heard a sound as of crashing of glass while he was on patrol in Getty Square. He hastened in the direction of the noise and saw a hole in the window of the jewelry store large enough to permit the passage of a human body. Seeing a man in the office, the officer broke a larger hole in the glass and crawled inside and seized the intruder. The prisoner told the officer that he was looking for money with which to buy something to eat, and when the officer discovered that several showcases were broken he placed the man under arrest and took him to police headquarters. When searched 33 gold rings and four cheap watches were found in his pockets. He was arraigned in court charged with

burglary in the third degree and was held in \$1,000 bail.

Ollendorf is now in Europe for a two months' trip. He sailed on the *Deutschland* Thursday.

Rosenthal's Curiosity Shop has been moved from 236 Bowery to 1370 Broadway, corner of 37th St.

Dan I. Murray, a local auctioneer, is conducting a sale at Hoffman's Arcade Jewelry Store, Springfield, O.

Jos. Landsman, gold and silver electroplater and colorer, 51 Maiden Lane, has enlarged his plant and installed additional machinery.

Julius Lunzer, a diamond broker of London, who has a place of business at Audrey House, Ely Place, is in this city on business connected with his house.

Louis Doerr, a watchmaker, at 246 W. 38th St., was married last week to Ilse Pradel, who sings a small part in the Metropolitan Opera Co. The ceremony was performed by Alderman Doull.

The United Art Novelty Co., New York, has been incorporated with a capital of \$1,600. The incorporators are Edward Denville, Mt. Vernon, Wm. Trojar, Jos. E. Engel and Louis T. Fassum, all of New York.

Arthur Silberfeld, a dealer in diamond jewelry, 129 Second Ave., will sail May 25 on the *Kaiser Wilhelm der Grosse* for Europe. He will combine business and pleasure and will visit London, Paris, Antwerp, Vienna and other parts of Austria.

A. E. Brower, Hewlett, L. I., who has been employed by Herbert K. Smith, Inc., jewelers of Far Rockaway, for the past seven years, has severed his connection with that firm. Mr. Brower has taken a position with a New York auto supply company.

F. H. Arnold, R. W. Lanz and Joseph Italie, of the Arnold Safety Razor Co., Reading, Pa., were calling on the New York trade yesterday. Mr. Italie has just returned from a transcontinental business trip and is preparing to leave for Europe, June 5.

S. C. Gosh, a merchant of Calcutta, India, has been in this city during the past week making New York connections for his brother, who is in the jewelry business in that city. He sails on the *Oceanic* this week for Plymouth and will visit Paris and Rome before he returns to Calcutta.

The International Silver Co. has just received a big order from the Chicago office which calls for between \$50,000 and \$60,000 worth of goods. The order was received last Wednesday. The goods are wanted for a large hotel in this city, the name of which the officials of the company do not care to divulge.

McTeigue, Manz & Co. announce that the co-partnership existing between Wm. McTeigue, G. Manz and S. Bachem has been dissolved. A co-partnership has been formed between Wm. McTeigue and S. Bachem, under the style of McTeigue & Co., who will continue business at 31 W. 31st St., as makers of fine diamond jewelry.

The Maiden Lane Outing Club has secured the use of Eckstein's Park, West New

Brighton, S. I., for the annual outing, which will be held Saturday, June 5. The club will have the use of a fine baseball diamond for its regular game, and it is expected that the game this year between the two teams composed of salesmen will prove an exciting contest.

Jersemann & Wagner, jewelry case manufacturers, 105 Maiden Lane, have taken the floor above the loft now occupied by them and will move their factory there. They will use the rooms they now occupy for displaying their line of jewelry cases. A stairway is being cut through to the room above. The concern does its own designing for window displays. New machinery will be installed and additional help employed.

Sol Oppenheim, attorney for R. A. Breidenbach, said last week that George W. Carpenter, against whom a petition in bankruptcy was filed sometime ago, had been adjudicated a bankrupt. It is understood that allegations of fraud made in the petition have been withdrawn. The case of Maurice Dreshfield, who was alleged to have been connected with Carpenter in the diamond transactions, has not as yet been adjudicated.

At the Fifth Ave. Art Galleries this week will be one of the busiest weeks of the season. The exhibition will consist of articles of furniture, silver plate, some interesting oil paintings, bronzes, marbles, crystals and dainty jewelry, containing diamonds, rubies and emeralds, from well-known estates. The household possessions of the late Dr. Frederic Danne will be included in this sale, and a small private collection of Eastern porcelains will also be sold.

The May meeting of the Optometrical Society of the City of New York will be held at 29 W. 39th St., this evening, at 8 o'clock p. m. Notice is given to those whose applications are pending to come and bring their certificates of exemption in order that their names may be balloted upon for membership. This is required by the by-laws and is therefore necessary. Besides balloting for new members there will be other features of interest for those who attend this meeting.

L. E. Waterman, of the L. E. Waterman Co., sailed for Europe recently on the *Finland*. At a dinner given last week to Mrs. A. D. Croesser, by the employees of the L. E. Waterman Co., Mrs. Croesser was presented with a diamond brooch in the shape of a horse shoe, by her fellow employes. A message received during the evening in the form of a wireless telegram was sent by Mr. Waterman from on board the *Finland*. Music was furnished by talent from among the Waterman employes.

Herman Kelwin, who was employed by the Metcalf Co., 2 W. 39th St., as shipping clerk about six months, but who later left that concern, saying that he had a position in the customs service, committed suicide at his home, 222 Elm Ave., Glendale, last Thursday night. He told his wife that he had passed the civil service examinations and was drawing a good salary, when in fact he failed to pass the test and was without employment. He took his own life by placing a gas tube in his mouth and turning on the gas. His wife discovered the body.

Notice is given that the property of Ben-

jamin S. Samuels, bankrupt, will be sold at public auction under the direction of Robt. G. Perry, trustee, Friday next, at 113 Leonard St. The trustee reserves the right to withdraw any of the property unless it shall bring 75 per cent. of the appraised value. The stock includes small stock of miscellaneous jewelry, together with office fixtures. A petition in bankruptcy was filed in January by Mr. Samuels, who was formerly a dealer in jewelry at 949 Broadway, and these schedules showed liabilities of \$4,773, of which amount \$4,667 was in unsecured claims.

In the Court of Special Sessions at Jamaica last week Wm. Gibson and Robert Buckley, both of this city, were sentenced to a year in prison charged with stealing a watch from Simon Gold, 67 Broadway, Astoria. Buckley admitted that he had been convicted four times for robbery and assault and Gibson it is said had been convicted twice before. The jeweler said that three men entered his shop and examined watches and that when they went away one watch was missing. He rushed after them and called to a police official who happened to be near by, who arrested two of the men. The watch was mysteriously brought back to the jeweler's place of business a few days after the arrest.

A. A. Vantine & Co. have been unsuccessful in their endeavor to persuade the Board of United States General Appraisers to reduce the assessment on smokers' articles, consisting of brass tobacco jars, ash trays and cups for matches, cigars and cigarettes. The customs authorities held the articles dutiable at the varying rates provided for under the smokers' articles provision of the law, whereas the importer set up the contention that they should be regarded for the purposes of duty as "manufactures of metal," with a tax of 45 per cent. General Appraiser Hay states in his decision for the Board that the principal use of the articles is not proved by the testimony, and that consequently the protest must be overruled.

Special Treasury agents made two seizures of alleged smuggled articles, last week. One was of antiques at the Russian Emigrant House, 347 E. 14th St., and the other was made at the pier of the Lloyd Sabauda Line in Jersey City from a passenger on the *Regina d'Italia*, which came in last week. The seizure of the antiques was the culmination of a long search for the source of a big trade in contraband goods among antique dealers. Inspectors Isaac Wilson and Thos. F. York, who were delegated to the first case, learned of the arrival of Hadji Abdullah and Yersef Rausol in the steerage of the *Kaiser Wilhelm II.* on April 27, and traced them to the E. 14th St. address. The articles seized included six gold-handled swords, 34 daggers, 84 pieces of decorated china and many pieces of bronze ware, hammered brass and copper. Deputy Surveyor McKeon frustrated an attempt to smuggle silk dress goods, wearing apparel and jewelry soon after the cabin baggage of the *Regina d'Italia* had been put on the pier. The deputy surveyor was not satisfied with the appearance of large bales of household goods owned by Antonio Gentile and his wife, who were on their way from Naples to Cincinnati. The sides of the

bales were ripped off and these disclosed the dutiable goods.

A. Guggenheim, New York, sailed, yesterday, on the *Kaiser Wilhelm II.*

The L. Gismond Co., diamond importers has moved to 7 Maiden Lane.

W. H. Ingersoll left for Pittsburg on a business trip, Monday night, to be gone about a week.

D. A. Davidson, of Davidson & Schwab, has been kept at home for a few days because of the death of a near relative of his wife.

Gus. A. Harnes, 170 Broadway, is receiving congratulations on the accession to his family of a son. Mother and child doing finely.

The annual exhibition of drawing, modeling and designing of the New York Evening School For Men, Tenth Ave. and 59th St., will be held to-night. The courses include metal work and jewelry.

The 26th annual report of the Commercial Travelers' Mutual Accident Association of America, of which a large number of traveling representatives of jewelry houses are members, has been issued. It includes the annual address of the president of the association, reports of the secretary, treasurer, chief medical examiner and the by-laws of the organization.

M. Gattle and I. B. Ettinger have purchased the interest of M. L. Hammel and will continue the business of Gattle, Ettinger & Hammel under the old firm name. They are now located in new quarters in the Broadway-Maiden Lane building, at 170 Broadway, where they are displaying an entirely new stock of fine mounted jewels and diamond jewelry.

Reappraisements of merchandise made by the Board of United States General Appraisers last week included the following of interest to the trade: Watch movements, etc.—Chaux de Fonds: exported April 5, 1909; entered at New York. Death of Julius Eichenberg.

PROVIDENCE, R. I., May 11.—Julius Eichenberg, for a number of years a manufacturing jeweler of this city, died here Sunday, aged 42 years. Last October Mr. Eichenberg was removed to the Butler Hospital for treatment for paresis, having given up his manufacturing business some 18 months previously.

Before entering the manufacturing business he was for a number of years a prominent local dealer in precious and imitation stones.

Newark.

J. E. Bransdorf, of the American Oil & Supply Co.'s jewelry supply department, is now in Paris.

Albert E. Allsopp, of Allsopp & Allsopp, was recently elected one of the governors of the Union Club.

Charles W. Wientze, of Wientze & Co., who was recently under the doctor's care, is now convalescent.

George W. Starkweather, of the Wm. F. Renziehausen Co., was in Philadelphia, Pa., several days last week.

It is J. V. Cristl and not J. V. Arstl who is in charge of the factory of Taylor & Co., Inc., as noted last week.

C. C. Champenois, of Champenois & Co., is much improved in health, after a vacation at Atlantic City, where he went to recuperate.

Some slight alterations are being made in the office of Alling & Co.'s factory, Orchard St., since the headquarters there were transferred from New York.

The bowlers representing Kremenitz & Co.'s factory in the Mercantile League lost two decisive games to the Union Laundry bowlers, last week, and won both contests from the Clark team.

A window sign painter dropped a lighted match into a jar of benzine, last Thursday, while painting the name of Jacob Strauss on the window of the latter's jewelry store, at 430 Central Ave., Jersey City, and caused an explosion and a fire. Jewelry and other articles valued at several hundred dollars were ruined.

Frank H. White, who was sentenced from Newark to the New Jersey Reformatory at Rahway, and who, with a negro, escaped last week, is wanted in Philadelphia, Pa., in connection with the theft of jewelry. White was a "trustee" and was employed as a nurse at the reformatory hospital. The police are now searching for him.

Charles Hairhouse, who celebrated his 80th birthday at Hackettstown, Sunday, enjoys the distinction of owning and managing the oldest business in that place. He has been a jeweler for the last 56 years in Hackettstown, 51 years of which he occupied the same store that he does now. When he located there the population was but 1,000.

The Chas. C. Wientze Co., 32 Marshall St., has completed a fine piece of engraving for one of its customers. The engraving will be mounted in a locket, and consists of the Lord's Prayer and the Apostles' Creed, containing over 750 letters, which are put in a small circle 15 millimeters in diameter. Each letter is properly cut and is distinctly visible under a microscope.

Thomas H. Guthrie, 240 Halsey St., will, with the other heirs of the late John Edward Hughes, benefit from the latter's will. For years, through the clever work of imposters, others were drawing the money that rightfully belongs to the Hughes heirs. Hughes was a New York jeweler. The fortune to be divided is in the neighborhood of \$30,000. Mr. Hughes died in the Flatbush (Brooklyn) Hospital in 1902.

Ignoring suggestions advanced by either side in the contest over the will of John D. Nesler, who died June 16, last, Judge Davis, in the Orphans' Court, has appointed

John A. Bernhard as administrator *pendente lite*. Two wills disposing of an estate valued at \$45,000 figure in the contest. The will purporting to be the last one was rejected when offered for probate because it was thought improperly executed. The will was not finally declared void, and is now in the courts. A prior document is awaiting the disposition of Judge Davis. Different heirs are named in each testament.

Ira R. Dunham, a well-known jeweler of this city, celebrated his golden wedding anniversary, last week. He was married 50 years ago to Elizabeth M. DeVore, also a resident of Newark. Immediate relatives of the couple helped them celebrate at their Seymour Ave. home. A shower of congratulations both from members of the family and from social and business associates, besides many numerous gifts, greeted them. Mr. and Mrs. Dunham are both well past 70, but are still very active. Mr. Dunham, who is connected with Eckfeldt & Ackley, is still as capable a worker as he was half a century ago, when he learned his trade with the Colton firm, with whom he remained nearly a quarter of a century.

Canada Notes.

P. Giguere, Montreal, has obtained an extension of time from his creditors.

F. S. McLeod, of Isaac's Harbor, N. S., was recently burned out. He carried no insurance.

Mr. Whitworth, of the English firm of Benson, the celebrated watchmakers of London, is traveling in Canada and was in Winnipeg last week.

W. Dingwall, of D. R. Dingwall, Ltd., Winnipeg, Man., was in Toronto, Ont., last week, on his way home from a purchasing trip in Europe.

William V. Terryberry, for 22 years engaged with the Standard Silver Co., Toronto, Ont., died on Thursday, May 6, of heart failure, aged 74 years.

Out-of-town jewelers calling on the Toronto, Ont., trade, last week, included: A. Richardson, Guelph; W. J. Hollingshead, Woodbridge; J. W. Skales, Mount Forest, and W. H. Smith, Oakville, all Ontario.

Cecil Maynard and Harry Smith, representing Ryrie Bros., Ltd., Toronto, Ont., returned, last week, from Europe, where they have been on an extended buying trip. They report considerably improved trade conditions abroad. The Ryrie Recreation Club, composed of members of the staff of Ryrie Bros., celebrated the winding up of the bowling season, Wednesday night, by a banquet at the St. Charles Hotel, followed by a visit to Shea's Theatre. About 26 were present.

The stock and fixtures of the Burn Jewelry Co., Birmingham, Ala., were sold for the second time recently by the trustees in bankruptcy, the first sale having been rescinded on the application of buyer. The new buyer is Samuel Feller, Kansas City, who offered \$18,000 upon the condition that he was to have the stand from which the stock was sold for a period of two months at a rental of not more than \$250 per month. It is probable that Feller will sell off the stock at auction if the sale is confirmed by Bankruptcy Referee Birch.

Buffalo, N. Y.

It has been announced that Max Elbe will shortly establish a gold jewelry factory at Niagara Falls, N. Y.

T. A. Buchholz, traveler for the Geneva Optical Co.'s Buffalo branch, was in Erie, North East and Dunkirk, this week.

E. V. Syrcher, optometrist with Best & Co., jewelers, took part in the recent physical demonstration held by the local Y. M. C. A. at Convention Hall.

F. C. Bennett, who has a jewelry store in Gloversville, and who is also connected with the Standard Jewelry Case Co., of 327-331 Washington St., this city, visited Buffalo jewelers, last week.

Announcement is made of the engagement of Miss Addie Gern to Daniel Peck. The wedding will take place some time in June. Miss Gern has been with King, Raichle & King for three years.

Among the applicants for membership in the New York State Optometrical Society to be voted on at the meeting to be held in Albany, in June, is Howard R. Strickler, who recently opened an office in South Buffalo.

George H. Striker, 1883 Niagara St., recently completed extensive alterations in his store. The shop, formerly placed in the rear of the first floor, has been moved to the second story, and the extra space down-stairs added to the shop.

Arthur L. King, son of A. F. King, of King, Raichle & King, was recently the subject of a little write-up that greatly pleased his friends here. The note, which appeared in the Bay City (Mich.) *Tribune*, referred to Mr. King as "the youngest and tallest traveling jewelry salesman in the country, being only 19 years old and standing six feet four inches in height. He weighs 213 pounds."

Nat. Brenner, who recently joined the staff of King, Raichle & King, wholesale and manufacturing jewelers, as a traveling salesman, was formerly with Morris Rosenbloom & Co., of Rochester, having traveled for that firm for the past six years. Mr. Brenner left Buffalo, Saturday evening, for St. Louis, Mo., and before he returns will have visited Kentucky, West Virginia, Virginia, South Carolina, North Carolina and Pennsylvania.

Among the out-of-town jewelers who recently visited the Buffalo jewelry market were: C. D. Barnes, Gowanda; P. Jackowski, Batavia; C. F. Hurd, Medina; F. D. Kelsey, East Aurora; I. Traub, Niagara Falls; M. J. Bernstein, Niagara Falls, N. Y.; J. Wayne Haskell, North East; J. R. Graves, Corry, Pa.; S. P. Carlson, Jamestown; L. F. Simpson, Medina; Gordon H. Hayes, Niagara Falls, N. Y., and S. Solomon, Kansas City, Mo.

It was reported from Niagara Falls, last week, that plans are out for an extensive addition to the plant of the William A. Rogers Co., Ltd., manufacturers of silverware. The proposed addition will cost between \$65,000 and \$75,000, and will give the company about 65,000 square feet of floor space to the plant, nearly doubling it in size. The company proposes to close its other branches, and will concentrate those plants with the one in Niagara Falls, thus giving employment to about 200 additional hands.

Philadelphia.

J. H. Merz and wife, of Hopewell, N. J., were in town during the week.

Philip Friedel, watchmaker, has removed from 727 Sansom St. to 121 S. 8th St.

B. Magee has opened a new jewelry store at 177 S. Broad St., Trenton, N. J.

George A. Bowen, of T. H. Bowen & Co., Bridgeton, N. J., was in town, last week.

Armington & Saul have opened a new jewelry store at 27 Broadway, Camden, N. J.

C. Bedichimer, of I. Bedichimer & Co., has taken a cottage at Atlantic City for the season.

Andrew Brown, son of D. V. Brown, picnic, 740 Sansom St., is away on a pleasure trip.

Harry A. Hall, successor to Burd S. Trexler, is the new jewelry messenger from Allentown, Pa.

Ernest Messier, recently with E. K. Bean, Lansdale, Pa., has accepted a position in Buffalo, N. Y.

William Faber, silversmith, 711 Sansom St. will move to his new quarters, 728 Sansom St., June 1.

D. R. Reynolds, 1604 Federal St., recently injured his hand with a graver and has been under the doctor's care.

F. Powell, a New York jeweler, is taking a special course in watch repairing at the Philadelphia College of Horology.

Joseph Waehs, with J. F. Neill, 727 Sansom St., has been elected captain of the Sansom St. jewelers' baseball team.

Charles J. Maxwell, of Maxwell & Berlet, was elected operator of the Business and Professional Club, May 5.

Clarence Beitel has opened a jewelry store in Pleasantville, N. J. Mr. Beitel was formerly with George Ware, Atlantic City, N. J.

S. Nat. Kinkiner, of M. Sickles & Sons, has been confined to his home for several days, suffering from blood poisoning of the hands.

George Russell, of M. Sickles & Sons' manufacturing department, has returned from his wedding trip. Mr. and Mrs. Russell will reside in West Philadelphia.

William F. Nye, the New Bedford, Mass., manufacturer of watch and clock oil, was in town, last week. He is on a visit to the different jobbers throughout the country.

H. L. Holst, jewelry manufacturer, 1026 Atlantic Ave., has moved to a handsome new store at Pennsylvania and Atlantic Aves. Mr. Holst is well known to the trade in this city.

Thomas Judge, with Joseph B. Bechtel & Co., 725 Sansom St., is canvassing the Cumberland Valley. L. Sanders, with the same house, is the proud possessor of a new wagon.

Fred I. Barry was taken suddenly ill, shortly after eating some fish in a hotel in Detroit. He was in bed for several days, but has recovered sufficiently to continue his trip.

Louis Stern, of Louis Stern & Co., was in New York on Monday. Mr. Stern will shortly send his family to Atlantic City, where he has built a new cottage on Metropolitan Ave.

The funeral of the late A. S. Cooper, who died in Jamaica, last December, took

place, Saturday, May 1, at West Laurel Hill Cemetery. The obsequies were conducted privately.

G. K. Strausburger, jeweler of Slatington, Pa., has closed out his business and is traveling for the Michigan Advertising Co. At one time Mr. Strausburger traveled for M. Sickles & Son.

Miss Mary Merbitz, sister of Miss Etta Merbitz, of M. Sickles & Sons, died, Saturday morning, May 1, at her home, 2135 N. Hagert St., this city. Miss Merbitz had been ill for some time.

Herbert Bode, son of F. C. Bode, jeweler, 1804 Market St., represented the Central Branch of the Young Men's Christian Association at a pool tournament held at the Kensington Branch, April 30.

H. Muchnik has opened an office for the sale of diamonds and precious stones at 715 Sansom St. Mr. Garfinkle is associated with Mr. Muchnik. They have had temporary offices at 733 Sansom St.

J. Warner Hutchins was the subject of an article illustrated with his photograph in the *Evening Times*, May 8, which described him as a gem expert and traveler, who had visited every place on the globe.

Ignace Mandel, of this city, has brought suit for \$5,000 against Sam Perkins, a jeweler, 128 N. 6th St. Mandel was arrested on a complaint brought by Perkins, who charged him with the theft of a \$250 diamond. The Grand jury ignored the bill, and Mandel now sues for false arrest.

Philip Kind, of S. Kind & Sons, gave "the boys" their annual and regular circus treat, last week. There was a full supply of peanuts, pretzels and ice cream and other "goodies" that make the circus popular and the old man young again. After the show each had a ride on the large elephant and a glass of pink lemonade. According to the boys they all had a "bully good" time.

The following jewelers were visitors to this city, last week: Frank Kline, Spring City, Pa.; A. G. Wolcott, Dover, Del.; Roland Oliver, Burlington, N. J.; John Merz, Hopewell, N. J.; R. W. Sinchall, Mt. Holly, N. J.; Robert Keihl, with F. H. Noble & Co., Chicago; Charles Botts, with George H. Fuller & Son, Providence, R. I.; D. H. Krause, North Wales, Pa.; E. K. Bean, Lansdale, Pa.; M. E. Hunter, Beverly, N. J., and H. B. MacFarlan, East Downingtown, Pa.

An involuntary petition in bankruptcy has been filed against George Kite, a wholesale dealer in diamonds and jewelry at 818 Chestnut St. The usual allegations are made by the creditors. Mr. Kite has been in the trade for a long time, but started in business for himself in January, 1906. He had previously been with the Sherrer National Watch Case Co., and was also with the Quaker City Watch Co. and the Wm. Penfold Co. He has been hard pressed financially for some time past.

Maxwell & Berlet, jewelers, northeast corner 13th and Walnut Sts., have been awarded the contract for the Pool Championship Trophy, to be presented to the Manufacturers' Club, Philadelphia, by Charles E. Carpenter. This pool trophy, which is different from the ordinary trophy in design, is made of sterling silver etched plate on a background of hand-wrought copper. At the top of the design in the

center is a silver cue and rest. The base has on either side the balls in their frames, and in the center at the base is a silver name plate for the winners' names from year to year. There is an etched design directly in the center of a man making a shot on the pool table. The whole is mounted on a Flemish oak panel 12 inches wide by 14 inches long.

North Attleboro.

The H. F. Barrows Co. started on a 10-hour schedule, last week.

Thomas G. Frothingham, Jr., is building a new house on lower Washington St.

John Tweedy was in New York, last week, with his wife on a pleasure trip.

Whiting & Davis resumed operations, Monday, after a two weeks' shut-down.

Thomas Frothingham left, last week, for a western trip in the interests of his firm.

Anthony Bliss, of the A. H. Bliss Co., was in New York, last week, on business.

Ira Richards has returned from Brooklyn, where he has been for the past few months.

Fred Carpenter, formerly salesman for the W. & S. Blackinton Co., was in town, last week.

J. J. Sommer has returned from a western trip, where he has been in the interests of his firm.

A. B. Randall, western salesman for the Codding & Heilborn Co., left, last week, for a western trip.

Charles O. Mason has been granted a patent on the bracelet bag, and expects to put it on the market in a short time.

Lawrence Kennedy, formerly foreman for Miller, Fuller & Whiting, has accepted a position with the Ostby & Barton Co., Providence.

The George Paine Co. expects to be able to move into the large addition which the concern has added to the factory, some time this week.

C. Walter Duncan, salesman for C. Ray Randall & Co., has given out a contract for the construction of a residence on Washington St.

Louis E. Freeman, Frank G. Pate and Lewis E. Reeves were appointed, last week, by Deputy Sheriff E. C. Brown to appraise the holdings of Miller, Fuller & Whiting.

A note in this column, last week, spoke of W. C. Sherman being on a western trip for the H. D. Merritt Co. This is an error, as we learn that Mr. Sherman is traveling in the west in the interests of the Estate of O. M. Draper.

Attorney William G. Rich and John Hanlon appeared before the Woonsocket City Council, last Thursday evening, and asked that the firm of Hanlon, Thornton Co. be given an exemption of taxes for 10 years in the event of its removal to that city. The request was taken under advisement by the sub-committee on finance. The petition asking for the granting of the exemption was signed by 100 prominent Woonsocket business men, including Governor A. J. Pothier. The petitioners represented to the Council that the firm was capitalized at \$50,000, and that of this amount \$36,000 was paid in. They declared that 200 men would be employed in the Woonsocket shop and that a high-class line of gold-filled jewelry would be manufactured.

Providence.

O. A. Lessing, representing the S. & B. Lederer Co., has visited St. Louis and Cincinnati.

Arthur H. Hill has gone out of business as a retailer in the Caesar Misch building, Westminster St.

The Ostby & Barton Co. started up last week after a four-days' shut-down to take annual account of stock.

Fred Potter has been making a visit to the trade on the western circuit of Flint, Blood & Co., of this city.

Byron E. Daggett has been re-elected colonel of the First Light Infantry Regiment Veteran Association.

Asa Richmond, representing Zare White, of this city, was in Chicago the past week showing the firm's new line of samples.

Frank T. Barton, of the George N. Steere Co., Pawtucket, has started on a round of the firm's customers in the far west.

A. B. Paulsen, western representative for Waite-Thresher Co., has been visiting the firm's factory in this city the past week.

Edgar C. Lackey has recently purchased several lots of land with building thereon on Sackett and Warrington Sts. for about \$5,000.

William A. Smith, formerly a well known refiner of this city, but now a resident of California, is visiting relatives in this vicinity.

Frederick A. Ballou and Edward B. Hough have been re-elected directors of the Westminster Bank, with the former as vice-president.

R. J. Wilson, representing the Charles E. Hancock Co., of this city, left Chicago last Sunday for a two-weeks' trip through the northwest.

Howard D. Wilcox went to Buffalo, N. Y., Thursday, to meet his wife and children, who were returning from a lengthy stay in Arizona.

Charles H. Ballou & Co., manufacturing jewelers, have removed from 157 Thurber's Ave. to larger and more convenient quarters at 129 Eddy St.

Charles E. Westcott, of the Snow & Westcott Co., made a several days' trip among the firm's New England customers during the past week.

Harry F. Huestis has been elected president of the Trinity Brotherhood connected with the Trinity-Union Methodist Episcopal Church of this city.

Albert Pippin, formerly in the employ of the H. F. Barrows Co., North Attleboro, has started in the coloring business for himself in this city.

Charles W. Aspinwall, formerly of the Aspinwall Hardware Co., is now in the jewelers' supply department of the Belcher & Loomis Hardware Co.

R. T. Kleckner and J. A. Limbach, of the Chicago office of the Theodore W. Foster & Bro. Co., have been visiting the factory here the past week.

Franklin N. Wood, with the Providence office of the Jewelers Board of Trade, has returned from a successful trout fishing trip in the Catskill Mountains.

The J. W. Bishop Co. has been awarded the contract for the erection of the two-

story brick power house for the Improved Seamless Wire Co. on Eddy St.

The first and second dividend of 20 per cent. each have been declared by Referee in Bankruptcy Chester W. Barrows in the case of Chester G. Bradford, of this city.

The Frank T. Pearce Co., of this city, has removed its New York office from 20 Maiden Lane to 180 Broadway, and as reminders of the fact is sending out some handy desk blotters.

William H. Waite, of the Waite-Thresher Co., and Edward C. Wilde have been elected members of the State Board of Managers of the Baptist Young People's Union of Rhode Island.

A. S. Vennerbeck and Walter A. Griffith were members of Edgewood No. 1 bowling team, which captured the Inter-Club Duck Pin League pennant the past season, which closed the past week.

Fred J. Mills, Ira Whittier and William G. Lind were members of the entertainment committee having charge of the big smoker of the Edgewood Yacht Club, last week, at which more than 1,000 were present.

Those at the 73rd dinner of the Churchmen's Club at the Churchill House on Tuesday evening included John Kelso, Noah H. Holt, Fred D. Carr, George H. Lincoln, Edward I. Mulcahey and C. A. Wilkinson.

Thomas J. Pollard, of Pollard & Darling, is on a trip for that concern through the middle west, and R. H. Kimball is calling on the firm's trade from Chicago to Omaha. The latter will leave for the Pacific Slope early in June.

David M. Saati has sold his retail jewelry store at 419 Westminster St. to George W. Gerlach, who has given him a chattel mortgage for \$6,000, covering the stock, tools, fixtures and contents of the store.

Word was received in this city last week that Walter C. Randall died the day before at Richmond, Va. Mr. Randall, who was about 40 years of age and unmarried, left a week previous for a trip in the south on account of his health. He had conducted an enameling business at 129 Eddy St. for several years.

Among the foreign importations received through the Providence Custom House during the past week were the following: From Bremen, eight packages of imitation precious stones and one of silverware; from Hamburg, one package of manufactures of metals, and from Liverpool, one package of manufactures of metals.

Charles L. Miller, who conducts an enameling business at 38 Friendship St., and Miss Jennie L. Marsh, of this city, were united in marriage by Rev. J. Lee Mitchell of the Second Congregational Church, Attleboro, the past week. Albert T. Marsh, father of the bride, and Mrs. Everett, the groom's sister, accompanied them.

Horace, Albert A., Horace E., Clarence G. and Sarah T. Remington have transferred to the Remington Realty Co., which was recently incorporated, real estate on Melrose and Hamilton Sts. and Pacific and Adelaide Aves., and also the valuable realty holdings on Friendship and Page Sts., Chestnut and Bassett Sts., and on Vineyard, Hill and Perry Sts.

Frederick M. Paker, who formerly pleaded not guilty when arraigned, was before Judge Gorham in the Sixth District Court on Friday, waived examination and was adjudged probably guilty, and held under \$1,000 bail for the action of the grand jury. He was charged with stealing a lot of plated gold scrap and filings and chain links, valued at \$984.66, on April 16, from S. B. Champlin Co.

Mayor Henry Fletcher, Durtee Wilcox, Lieutenant-Governor Arthur W. Dennis, Robert E. Budlong, E. A. Loomis, Henry D. Sharpe, Walter Burdick, Charles A. Russell, Sidney O. Bigney, William H. Manchester, John F. P. Lawton, Everett L. Spencer were among the guests at the 38th annual banquet of the Bank Clerks' Mutual Benefit Association at the Churchill House Friday evening.

The suit of Walter Schultz against the Gorham Co. for \$20,000 damages has been placed on the calendar of the Superior Court for trial. The plaintiff alleges in his declaration that on Oct. 9, 1908, while employed by the defendant corporation, he was engaged in polishing a metal door on an emery wheel which burst, several of the pieces striking the plaintiff about the head and face. His head, it is claimed, was cut in several places, his skull fractured, and permanent injuries received to his eyes and hearing.

Wives of many manufacturing jewelers of this city are prominent in the membership of Providence Section, Council of Jewish Women. At the annual meeting, held Thursday at the Crown Hotel, the following were among the officers elected: President, Mrs. David Bernkopf; first vice-president, Mrs. David C. Fink; treasurer, Mrs. Adolph Cohen; auditor, Mrs. S. Lederer; corresponding secretary, Mrs. Edward B. Lederer; directors, Mrs. Harry Cutler, Mrs. Caesar Misch, Mrs. S. K. Grover, Mrs. A. Dimond, Mrs. J. Samuels and Mrs. William Loeb.

The closing of the Metcalf building, 144 to 158 Pine St., the first four days of the past week, on account of the annual inspection of boilers and general repairs, affected the following concerns connected with the manufacturing jewelry industry: American Seamless Wire Co., Calvin Dean, R. L. Griffith & Son Co., Schofield, Battey & Co., E. N. Cook Plate Co., Reuckert Mfg. Co., Oscar E. Place & Sons Co., Stafford Ring Co., Wolstenholme Mfg. Co., J. J. White Mfg. Co., Claffin & Co., Ettlinger Mfg. Co., A. Herrick & Co., Heimberger & Pearson, Snow & Westcott Co., Standard Jewelry Co., Louis Stern & Co., George Hamilton and Art Die Sinking Co.

A suit was filed in the Superior Court Tuesday against Sheriff Hunter C. White and former Deputy Sheriff Antonio Girardi by Davis G. Arnold, assignee of Frederick Fragner. The action is an alleged trover and conversion suit. The plaintiff says that, Aug. 24, 1906, before the making of the assignment, he had a lot of watches, rings, chains, jewelry and precious stones, all to the value of \$4,000, which came into the possession of the defendants. The allegation of the declaration is that these goods belonged to the plaintiff and that the defendants refused to deliver

them when demand was made. It is said by Mr. Arnold that the defendant Girardi sold the property under attachment without complying with certain formalities necessary to make the sale legal. Damages are laid at \$1,000.

Harry Wolcott, of the Wolcott Mfg. Co., has presented a handsome stand of national colors to George F. Hoar Camp, Spanish War Veterans.

Louis V. Guertin, one of the oldest retail jewelers in Pawtucket, died Sunday afternoon at his home on Baxter St., that city. Mr. Guertin had conducted a retail jewelry store on Broad St., Pawtucket, for a number of years, having been in the business in that city for more than 20 years. He was ill for some time and his death was expected, coming on the 52nd anniversary of his birth. He is survived by a widow, two sons and three daughters.

The past week has been an unusually busy one on account of the large number of buyers who have been quartered at the Narragansett and Crown Hotels. Among those noted were the following: A. Beaman, Toronto; F. A. Sattler and Mr. Richter, of Sattler, Richter & Co., Chicago; George Miller, of Geo. Borgfeldt & Co., New York; R. H. Shuttles, of Shuttles Bros. & Lewis, Dallas, Tex.; C. S. Davies and A. S. Evans, of Butler Bros., New York; M. Hermann and R. J. Goldsmith, of Lindhal, Lavick & Co., Chicago; George E. Miller, for H. B. Clafin Co., New York; Miss E. Grossman, of Nussbaum, Gullner & Grossman, Cleveland; J. L. Felsenthal, of Felsenthal Bros., Chicago; Mrs. L. B. Walters, of Gimbel Bros., Philadelphia; L. Block and Theodore Leubushe, of L. Block Jewelry Co., Milwaukee; R. Eisenman, of M. A. Eisenman, Chicago; Joseph Weinmann, of Weinmann & Co., Philadelphia; A. and S. Kunstader, of Kunstader Bros., Chicago; A. Ritter and E. E. Kahn, of Ritter, Kahn & Co., Philadelphia.

The Aetna Life Insurance Co. has filed a suit in the Superior Court here against John C. L. Shabeck, of Cranston, a manufacturing jeweler, whose establishment is at 7 Beverly St., this city, to recover damages of \$2,000 for additional premiums on insurance policies. June 8, 1906, the plaintiff company issued several policies insuring the defendant against loss resulting from claims for damages on account of injuries or death to the defendant's employes from accident. The price paid for these policies was based upon the estimated amount of wages paid to the employes of the defendant company in the period covered by each policy, and also upon the average number of employes hired. The plaintiff alleges that the amount of wages paid to the employes was in excess of the estimated sum paid by the defendant to employes, and that the company is entitled to additional premiums under the contracts. How much is due is not stated, because, the plaintiff says, the defendants will not allow the plaintiff company to examine the books.

The Theodore W. Foster & Bro. Co. held a three days' conference, May 4, 5 and 6, at the factory, 100 Richmond St., Providence, R. I., at which the members of the corporation and salesmen considered ques-

tions of interest to the business. A programme in the form of a neat printed folder was handed to each representative upon his arrival. It contained the plans of action for the conference. On Tuesday morning the reception was held at the offices of the concern, and in the afternoon an inspection of the factory. That evening the party attended the theatre at the Providence Opera House. Wednesday an automobile run to Narragansett Pier with a dinner at Green's Inn completed the day's progress. On Thursday morning a business meeting was held at the office and was continued in the afternoon, and in the evening a dinner was served at the Crown Hotel. As members of the firm and representatives were about to be seated at the dinner Mr. Limbach, in behalf of the selling force, presented Theodore W. Foster with a beautifully inscribed sterling silver loving cup. Mr. Smith and Mr. Redmond each voiced the esteem and respect which the selling force hold for the president of the company, and after the dinner Mr. Redmond spoke the thanks of the members of the traveling force for the fair dealing and kindly treatment always accorded by the corporation. The selling force includes Joseph A. Limbach, Chicago and western territory; James Redmond, in the eastern territory; Charles E. Platt, middle States; Richard T. Kleckner, Pacific Coast; John P. King, southern States; Ralph Wilson, New York, and George E. Smith, Canada.

Attleboro.

George Shepardson, of C. A. Marsh & Co., called on the trade in New York, last week.

The James E. Blake Co. has resumed work after a three-day shut-down for stock taking.

Charles M. Robbins, of the C. M. Robbins Co., spent a few days at the factory, last week.

Harry Clap, of the Daggett & Clap Co., returned, last week, from a short visit to his New York office.

Aede Hoch, Reed & Barton's South American representative, is making his annual call at the factory.

The proceeding of the Gifford Mfg. Co. was given a hearing in the bankruptcy court, last Wednesday morning.

William Marble, employed at the Freeman-Daughaday Co.'s factory in Chartley, sustained a painful injury to his hand, last week.

Buyers for Gimbel Bros., Philadelphia, and Felsenthal Bros. & Co., Chicago, were in town, last Monday, placing orders with different firms.

Col. S. O. Bigney arrived home from a visit to Panama, Jamaica and Cuba, last week. He had great praise for the work that is being done on the Panama Canal.

At a special meeting of the stockholders of the Attleboro Sanitarium, last week, the following board of directors were chosen: J. M. Fisher, Hannah S. Fisher, Bishop Jno. W. Hamilton, Charles C. Nicola, M.D., Mary B. Nicola, M.D., Charles S. Holden, M.D., and L. L. Daggett.

The Jewelers' National Ball League opened the season, last Saturday, with the following teams: Watson-Newell Co., McRae & Keeler, Paye & Baker Mfg. Co., J.

J. Sommer & Co., Standard Button Co., and Healey & Co. A schedule has been arranged for the entire season.

Early last week a telephone message was transmitted to Jacksonville, Fla., a distance of 1,300 miles, to learn the condition of Mrs. D. E. Makepeace, who has been ill with typhoid fever. It was learned that while Mrs. Makepeace is seriously ill she has a good chance of recovering.

R. H. Horton, treasurer for the W. E. Richards Co., has filed the following financial report: Machinery, \$18,500; cash and debts receivable, \$55,146; manufactures and merchandise, \$24,230; total, \$97,876; capital, \$40,000; accounts payable, \$12,889; floating debt, \$38,614; surplus, \$6,373; total, \$97,876.

At the meeting of the library trustees, last week, announcement was made of one of the finest gifts the library has ever received. This was made by Edward A. Sweeney, who gave 60 volumes of scientific works, elegantly bound. These include the works of Darwin, Huxley, Tyndall and other scientists. The gift will be a great addition to the library.

The circular letters issued by the advisory council of the New England Manufacturing Jewelers' and Silversmiths' Association have been received by the local jewelers. The letter recommends that the manufacturers close their factories for the annual vacation from July 31 to August 9. While many will comply with the suggestion, it is not believed all can arrange to do so.

The Frank Mossberg Co. has expressed its willingness to move to Woonsocket, providing the people of that town will obtain a proper building and arrange other conditions that are agreeable. The Mossberg company, which makes wrenches and jewelers' tools of all kinds, is engaged in the plating business, and its removal would be a big loss to Attleboro. The Board of Trade, however, will make every effort to have the business remain in town.

John J. Thayer, a lifelong resident of Attleboro, died, last Friday evening, at his home on Union St., at the age of 78. He served an apprenticeship in the E. I. Richards Co., North Attleboro, and later entered the employ of Bliss & Dean, one of the oldest concerns in this vicinity. At the opening of the Civil War he enlisted in Company I and was honorably discharged Dec. 22, 1863. The funeral was held Monday afternoon, with burial in the Woodlawn Cemetery.

Work will be started, next week, on the new factory of Leach & Garner that is to be erected on Hazel St., opposite the factory of the Attleboro Mfg. Co. The contract has been awarded to the J. W. Bishop Co., of Boston. The building will be of brick construction, with modern equipment and good material, 150 feet long and 50 feet wide. There will be a basement and two stories. The first floor will be used for offices, stock rooms, etc. The location of the new building is one of the finest in the town.

The Geo. A. Clark Co., which has been incorporated in Lorain, O., has elected the following officers: President, George L. Glitsch; vice-president, J. M. Nichols; secretary, I. A. Oberholtzer; treasurer, George A. Clark. Several improvements are about to be made in the establishment.

CHICAGO.

Vol. LVIII.

CHICAGO, WEDNESDAY, MAY 12, 1909.

No. 15.

Chicago Notes.

Jaeger Bros., Portland, Ore., visited the market here, last week.

O. A. Starke, of the Star Watch Case Co., was here, last week.

M. A. Mead is on a trip to New York, accompanied by Mrs. Mead.

The Chicago salesroom of the Watson & Newell Co. is being enlarged.

R. J. Wilson, with the Chas. E. Hancock Co., is on a northwestern trip.

Harry H. Miller, with Hutchison & Huestis, is on a trip to the northwest.

Theo. Jacobs has returned from a purchasing trip to the eastern factories.

Chas. F. Miller, treasurer of the Hamilton Watch Co., was here, last week.

A. J. Moss, traveling from the factory of Ostby & Barton Co., was here, last week.

Dan W. Douglass, with the Duerber-Hampden companies, was here, last week.

F. E. Hyatt, with the Philadelphia Watch Case Co., is on a southern and western trip.

Robt. A. Brown, representing S. O. Bigney & Co., is on a trip to the Pacific Coast.

Ike Weiler, jewelry buyer for the N. Shure Co., has returned from a buying trip east.

John G. Gayman, of John G. Gayman & Co., Columbus, O., was a visitor here, last week.

Glenn L. Seitz has secured the line of Mandalian & Hawkins for Chicago and the middle west.

Steve Bridges, of Despres, Bridges & Noel, has returned from the Pacific Coast, and is now in Iowa.

H. E. Lodde, son of H. B. Lodde, retail jeweler of Lafayette, Ind., is here taking a course in engraving.

Ben Linz, Dallas, Tex., was here, last week, on his way to New York, where he intends to stay a month.

The family of F. Jansky, a retail jeweler on W. 26th St., was recently increased by the addition of a baby girl.

Sam Silverman, salesman for the Jackson Jewelry Co., has resigned his position to go with J. Raphael, Kansas City, Mo.

The American Cutlery Co. has discontinued its office in the Masonic Temple and moved to the factory at 191 Mather St.

Mr. Auer, formerly of the Brooks-Auer Co., St. Louis, Mo., is now with the jewelry department of the John V. Farwell Co.

By the will of O. S. A. Sprague, his son, A. A. Sprague, 2d., receives 65 shares of stock in the Elgin National Watch Co.

C. E. Bunker, with the F. E. Morse Co.,

has recovered sufficiently from his late illness to again be able to attend to his duties.

F. J. Wirtz, with the Geneva Optical Co., Geneva, N. Y., stopped over in this city, last week, on his way to the Pacific Coast.

J. P. Kersting, of Ackenhausen & Co., North Yakima, Wash., is here finishing an optical course at the Northern Illinois College.

Anton Rominski, son of Frank Rominski, a retail jeweler at 695 Milwaukee Ave., has opened a new jewelry store at 1499 W. North Ave.

Burr W. Freer, Pacific Coast representative of Hamilton & Hamilton, Jr., was here, last week, on a visit to the Chicago office of that concern.

The failure of Sam R. Goldstein, Minneapolis, Minn., created much comment here, as Mr. Goldstein had been in business less than two months.

J. I. Brayton and Mrs. Brayton visited their Summer cottage near Burlington, Wis., last week, and are preparing to open it for the season.

E. Roth, secretary and general manager of the Western Clock Mfg. Co., La Salle, Ill., paid a visit to the Chicago offices of that corporation, last week.

B. F. Coffin, formerly with Spaulding & Co., has opened an office in the First National Bank building as an expert jewelry systematizer and accountant.

W. V. Poggenpohl, Taylorville, Ill., was here, last week, buying the opening stock for his new retail jewelry store, which he will open there about May 15.

D. H. Child, with Warren & Williams, stopped over here, last week, on his way to the Pacific Coast. He is a son of Chas. E. Child, with the C. M. Robbins Co.

Ralph N. Whitford, formerly manager for the Hofman Jewelry Co., Columbus, O., was here, last week, on his way to Colorado, where he intends to spend the Summer.

Last Saturday night at 8:20 a thief threw a brick through one of the windows of B. T. Hoffmann's jewelry store at 121 Fullerton Ave. and stole six diamond rings valued at \$500.

The Chicago office of the American Thermo Ware Co., has removed from room 305 to room 203, 64 Wabash Ave., where the company occupies much larger quarters than before.

August C. Fuchs, repairer at Stoughton, Wis., has admitted a partner, and the business will be carried on under the name of Fuchs & Co. The firm has recently bought

a stock of jewelry, and is now doing a regular retail jewelry business.

A carboy of ammonia exploded in the shop of A. L. Williams & Co., last week, but did no damage outside of clearing the heads of some of the occupants of the Powers building.

E. B. Voynow left, last Friday, for a trip to Washington as a delegate to the convention of the Fraternal Order I. O. B. A. Mr. Voynow will visit New York before he returns to Chicago.

A. A. Bastar, 759 W. 12th St., has bought a building on W. 12th St., near Fortich Ave., and will open a new jewelry store there, about May 15. Mr. Bastar intends to keep his old store.

The name of the manufacturing jewelry concern known as H. J. Richardson, in the Heyworth building, has been changed to Richardson & Koebelin, the latter having been recently admitted as a partner.

The Committee on Ways and Means of the Chicago Association of Commerce has announced that an industrial exposition will be held here during August, which will be the biggest undertaking of its kind ever attempted.

After being a resident of Eau Claire, Wis., for 26 years, for 21 years of which time he has occupied the retail jewelry store at 207 S. Barstow Ave., J. G. Ferry has announced to the trade here that he intends to retire from business.

Schedules in bankruptcy of Christian Keller, optician at 546 Lincoln Ave., show liabilities of \$933 and assets valued at \$81 and claimed as exempt. Of the liabilities \$102 is due the Geneva Optical Co., and the balance is owing to two women for money loaned.

Andrew E. Rush, Macomb, Ill., was here, last week, on business pertaining to the remodeling of his store. A new vault will be installed, an entire new front will be built and a complete new set of fixtures will be put in. Mr. Rush says that when completed his new store is going to be one of the handsomest in Illinois.

Among the buyers in town, last week, were: George W. Koerper, Mendota, Ill.; F. G. Berta, Coal City, Ill.; Bob Nichols, Kenosha, Wis.; Thomas A. Baden, Kalamazoo, Mich.; W. R. Stevenson, Holland, Mich.; J. G. Davenport, Battle Creek, Mich.; J. E. Mix, Elkhart, Ind.; Wm. T. Jennings, Sterling, Ill.; Mr. Stone, of Stone & Crossman, Grand Rapids, Mich.

John G. Hodgins, manager of the Des Moines branch of the Geneva Optical Co.,

is now in charge of the Minneapolis branch, and B. A. Tooker, formerly in charge of the Minneapolis branch, is now in charge of the Des Moines branch. The change in location is due to the fact that Mr. Hodgins preferred to live in Minneapolis and Mr. Tooker preferred his home town of Des Moines to live in.

John C. Perry, of the Hamilton Watch Co., was here, last week, investigating the offer of "The Fair" department store, which advertised the Hamilton Co.'s No. 940 movement for \$18.75, upon which the Hamilton company puts a protected retail selling price of \$28. When Mr. Perry bought one of the watches from "The Fair" he had to pay \$22.25, the clerk telling him that the \$18.75 price was for one day only. Mr. Perry said that "The Fair" only carried about three Hamilton watches in stock, and upon tracing the movement he bought from them found it to be a second-hand watch, it having originally been sold by a Chicago jobber to a Danville, Ill., retail jeweler.

Cincinnati.

A. M. Plaut, manager of the National Jewelry Co., has started on a business tour through Ohio.

A. Greenbaum and wife, Versailles, Ky., were here, last week, combining business and pleasure.

Larz Creutz, of the Creutz Silver Plating Co., has left on a business trip among the southern cities.

M. R. Slayback, a Norwood, O., watchmaker, has located with the new Race St. jeweler, Charles Rosen.

C. Fenzel, who discontinued his jewelry business in Middletown, O., about a year ago, has resumed business again at that place.

W. W. Oskamp, formerly with the Oskamp, Nolting Co., is now associated with the Oskamp Automobile Supply Co. at 5th and Vine Sts.

N. B. Hudson, Minneapolis, Minn., paid a visit to Fox Bros. & Co., last week. Burton Fox, of this company, sailed on the *Mauretania* for Europe, where he will purchase goods.

The Duhme Jewelry Co., in compliance with the order of the United States District Court issued, May 1, to Receiver Carroll of the Duhme Co., has been sending checks to the creditors, the past week, covering 50 per cent. of the amounts due by the Duhme concern.

Three oil paintings valued at \$500 and said to have been stolen by Henry Weidenbach, an artist, arrested, last week, on a charge of grand larceny and bound over to the grand jury, have been unearthed by local detectives. They were found on Fifth St., near Elm, hidden in a store. The pictures are thought by connoisseurs to be the work of old masters. The canvasses show where they have been cut and torn from their frames, and are dull with age. Weidenbach, when questioned about them, says he bought them from a New York man for \$3.

Out-of-town jewelers here, last week, buying stock included: G. H. Ashton, John Happersberger, Jr., and C. Fenzel, Middletown, O.; E. B. Scott & Son, Batavia, O.; Thomas G. Lucas, Hamersville, O.; Frank Hopping, Harrison, O.; Fred Simmerman,

Felicity, O.; C. A. Gossard, Washington Court House, O.; F. L. Miller and D. A. Lamb, Wilmington, O.; Joseph Jashnosky, Hamilton, O.; Fred Saul, Chattanooga, Tenn.; W. N. Rigdon, Ohio City, O.; L. Krauss, Springfield, O.; Herman E. Promnitz, Van Wert, O., and L. Rosenbaum, Mt. Vernon, O.

Edward Frietsch, aged 15 years and employed at August Hohneck's jewelry store, on Vine St., was stopped on the street by a young man, a few days ago, and asked if he wanted a good position at \$6 a week as an office boy. Frietsch thought this was better than \$3.25 a week, which he was getting, and told the stranger he would accept his offer. The stranger then told Frietsch to meet him a little later at the Chamber of Commerce building. He did so, and the two started on a walk about the city. On 9th St., near Vine, the stranger said he had a bill to collect in that neighborhood, but didn't have any change with him. Frietsch then loaned him his week's pay, \$3.25, and was told by the stranger to go to the Vulcan Copper Co.'s office near by and tell the office boy there to give him \$5 and some papers, and to wait there for him, as he would come after he did his collecting. The office was closed when Frietsch arrived, but he waited long enough outside to find that his friend had gone elsewhere.

Columbus, O.

J. T. Mathison, 5 N. High St., will sail for Norway, May 26, to make a visit to his old home and parents in the central part of that country. He has not been there for 19 years. He will be gone for two months.

A favorite glass memorial window from the Tiffany studios in New York has been placed in the First Presbyterian Church at Marion, O. It is one of the first Tiffany landscape windows placed in any church in Ohio. Mrs. W. B. Fisher was the purchaser.

E. J. Miller, who has been the silent partner in the firm of Krouse & Co., of whose store H. E. Tuller was manager, has purchased Mr. Tuller's interest. He has resigned his position with the Pennsylvania Railroad Co. and will manage the store. Mr. Tuller will again start in business as soon as he can find a suitable location.

The Hamilton Watch Co. has consigned a large number of railroad movements to Columbus, and they will be displayed in the windows of various jewelry stores about the city to attract the attention of the delegates and visitors who will be here for the Brotherhood of Railroad Trainmen's international convention, which opens this week.

B. G. Watson, trustee for the creditors of Andrew Morden, has closed the Morden store in the Virginia building, at 3d and Gay Sts., and will make an effort to sell the entire stock as a whole, with the exception of the watches and diamonds, which will likely be sent to New York to be disposed of. Mr. Watson thinks the estate will pay about 50 cents on the dollar. Mr. Albert. Mr. Morden's watchmaker, has found employment with the Frank Bonnet Co.

R. Branchaud, Cavalier, N. Dak., has just made improvements in the interior and exterior of his store.

Los Angeles.

The Whitley Jewelry Co. furnished 24 cups awarded as prizes at the Hollywood floral festival held a few days ago. This company has also just furnished two large cups to the Aero Club, of this city.

The J. P. Trafton Co., Broadway Central building, has just installed in its office an exceptionally handsome case for the display of watch cases. The case was made according to special design prepared by the Trafton Co.

A. P. Wood, of the Los Angeles Jewelry Mfg. Co., has started on a business trip among his customers in the east. He expects to be gone about five weeks. He carries with him a full line of samples of the Los Angeles Gem Co.

H. F. Wallace, 414½ S. Broadway, has started for the east, accompanied by his wife. He will visit most of the important manufacturing houses in the east, and expects to be gone for perhaps two months. During his absence W. A. Wheeler will have charge of his business.

H. F. Wallace has just received two shipments of goods by way of the new route through the Tehuantepec canal. The goods are delivered at San Diego by steamer and transferred to this city by rail. A saving of about one-third on the freight, is made by bringing the goods by this new route.

Out-of-town jewelers who have been in Los Angeles recently include: J. R. Parsons, San Pedro; R. G. Simpson, San Pedro; A. Protsch, Redondo; F. E. Wolfarth, Covina; C. P. Kryhl, Santa Ana; B. S. Binford, Whittier; A. L. Amstutz, Napa; E. T. Lewis, Long Beach; Joe Noccerino, Pasadena; Mrs. Phillips, of Phillips Bros., Pasadena; W. C. Guerth, Redlands; Albert Mercer, Pioneer, Nev.

Montgomery Bros. have had on exhibition in their corner window the \$1,000 type-writer trophy won by Miss Fritz, who is at present in this city. The body of the cup is finely engraved with a map of the world. On each handle is a figure of victory with an extended hand above it, the entire design being carefully and skilfully wrought out. The trophy has attracted much attention. The same firm is exhibiting in another window a very handsome cup given by W. A. Clark, Jr., of this city, son of ex-Senator W. A. Clark, of Montana, as a prize in the amateur races at the driving matinee in this city.

Bernard Oleovich, a jeweler at 711 S. Broadway, died suddenly at his home a few evenings ago, following a stroke of apoplexy. Oleovich had closed his place of business and was standing on the curb when his son came along in his automobile and asked his father to ride home with him. The elder Oleovich consented. When a few blocks had been traversed the son heard a gasp from his father. Turning in his seat he saw his father in a state of collapse in the tonneau. Driving rapidly, he took his parent to his home, where he died before a doctor could be summoned.

One of the show windows in the store of J. Roth, New Braunfels, Tex., was broken recently by a thief who stole \$200 worth of stock. One arrest was subsequently made. All of the loot has been recovered.

Milwaukee.

L. H. Hilton, of Fond du Lac, is now connected with the jewelry establishment of L. D. Dana, Antigo.

The Milwaukee members of the Badger State Optical Society recently held a most successful bowling party.

A. H. Miller, watchmaker and jeweler at Monroe, is now making weekly trips to South Wayne, Wis., to do watch, clock and jewelry repairing.

Math V. Schmitz, Waukegan, has engaged in the watch and clock repairing field. C. S. Ellis, a well known jeweler of the county, visits the Schmitz establishment every Tuesday.

John M. Stier, of Brill & Stier, Beloit, was married on April 27 to Miss Katherine Verstege at Little Chute, near Appleton, Wis. After a short wedding trip the couple will be at home in Beloit.

R. J. C. Bott, 407 Broadway, who was forced to vacate his quarters because of the encroachment of the newly installed offices of the Wells Fargo Express Co., is now located in the same building at 409 Broadway.

H. R. Pestalozzi, a retail jeweler at 94 Wisconsin St., has been elected by the Milwaukee School Board as chief truancy officer. Mr. Pestalozzi received the entire support of the School Board committee on appointments.

The Bunde & Upmeyer Co., of Milwaukee, donated a handsome silver cup to the West Allis high school for the annual declamatory contest held in the Milwaukee suburb. Spencer Bissell was the fortunate winner of the prize.

What will probably be the first "program" clock system to be installed in any district school has just been placed in the 10th district school No. 1. The clocks, by an alarm system, ring at the conclusion of each recitation period.

C. H. Viebranz, Hillsboro, has returned to his former stand in the Worden building. Since the fire of last winter, which seriously damaged the Worden structure, Mr. Viebranz had been located in the hardware store of M. O. Lind.

Final arrangements for the affiliation of the Wisconsin Retail Jewelers' Association with the national association were completed at the last quarterly meeting. Everything is now in readiness for the step to be taken some time during the coming August.

The Hawkeye Pearl Button Co., Muscatine, Ia., is seriously considering the plan of relocating its business at La Crosse, Wis. Fred C. Vetter of the company was a recent La Crosse visitor, and various matters concerning the proposed transfer were gone over. The company is dissatisfied with Muscatine because it is finding considerable trouble in securing the necessary labor.

The Geo. S. Parker Pen Co., Janesville, Wis., has received an order from Warsaw, Ill., for one of the company's pens, which will cost \$50. The pen was presented to William Jennings Bryan on his visit to Warsaw, May 15. It is made of solid gold and is encrusted with pearls and small emeralds. It will probably be one of the most unique pens ever made.

Carl R. Michel, Portage, is opening a new branch store at Cambria. Quarters have been leased in the Scharf building on Main St., and a full stock of jewelry will be installed at once. Fred Schultz, connected with Mr. Michel for some time at Portage, will be in charge of the new establishment. Mr. Schultz is an experienced jeweler and watchmaker and has done much to aid Mr. Michel in building up an excellent retail jewelry business at Portage.

The Milwaukee police have not yet secured trace of the burglar who recently smashed a plate glass window at the jewelry establishment of the August H. Stecher Co., 276 3rd St., and made away with valuables worth \$200. Burglars who entered the store two years ago and stole \$1,100 worth of jewelry also made good their escape. E. F. Rohn, jeweler, located only a few doors from the Stecher establishment, has suffered four robberies within the last year or so, and in each case the thief was captured.

The writing of \$59,700 worth of insurance in one day was the feat recently accomplished by the new Jewelers' Mutual Fire Insurance Co. of Wisconsin. Applications for new insurance are arriving from all over the United States and hopes are entertained that at least \$1,000,000 worth of new insurance may be written the first of the year. While many applications have been received from outside of the State at the office of Franklin Thomson, secretary of the company, the first foreign policy has just been written. The policy called for \$2,000 of insurance and was made out for a jewelry house of Kirksville, Mo.

The clever swindler, who recently fleeced two jewelers at Wausau, Wis., out of watches valued at about \$50, has been arrested at Appleton, Wis., where he was trying to work a similar game at the H. A. Kamps Co.'s jewelry store. He says his name is Robert W. Fischer, and claims that his home is in Milwaukee and that until recently he was in the employ of the Chicago & Northwestern Railway as brakeman. After trying to work the Kamps jewelry establishment to let him have a \$38 watch, Fischer endeavored to leave town, but was apprehended by the police. The sheriff of Marathon County, together with Edward Schultz, of the Dunbar jewelry store, Wausau, were summoned to Appleton, where they identified the prisoner. Failing to furnish bonds to the amount of \$500, Fischer is now in jail. Fischer represented himself as a railroad fireman, employed in the local yards, and that he had just lost his watch and was required to have a timepiece before going back on duty. He told a clever story of having left his money at home, but that as he lived in the city he would call later in the evening.

The show window in the store of Mr. Levinson, Ligonier St., Latrobe, Pa., was broken, recently, by a thief, who stole four bracelets, one ring and several scarf pins. The stone, which had been hurled through the window, broke a clock which stopped at 10.45 P. M., indicating the time of the robbery. The thief escaped.

Detroit.

H. L. Hart, Oakland, visited the wholesale houses recently.

F. J. Irwin, Marlette, was in the city to purchase stock last week.

One of the out-of-town buyers last week was G. E. Hoppes, Kingston.

A. Snitgen, Westphalia, Mich., was a buyer in this market, last week.

B. T. Bearss came in a few days ago from Fostoria, Mich., to replenish his stock.

B. T. Weyhing is now on the Pacific Coast on a long trip for the Weyhing Bros. Mfg. Co.

The Chas. A. Berkey Co. will move to the Jewelers' building, 193 Woodward Ave., next week.

C. C. Riggs, of the Standard Electric Time Co., stopped here for a few days ago, while on his way west.

Herman G. Spring, Unionville, visited Detroit last week. He stated that trade conditions are improving in his vicinity.

The work of remodeling Traub Bros. & Co.'s store at Woodward and Grand River Aves. has actively begun. A special sale is being held during the period of the alterations.

Kunz & Rogers have decided to move from their present location at Woodward Ave and Larned St. W., to new quarters in the Jewelers' building, 193 Woodward Ave. They will make the transfer the last week in May.

Wright, Kay & Co. are exhibiting in one of their windows the massive and beautiful Dewar trophy, which was offered last year by the Royal Automobile Club of Great Britain for the most important trial in the automobile industry. This trophy is a beautifully engraved silver vase upon an ebony base.

In spite of the adverse weather conditions, Detroit Nest of Ku Kus had a jolly supper and pleasant evening, last Thursday, in German Salesmen's Hall. At the dinner, which preceded the regular meeting, Frank Kennedy presided and introduced Milton Palmer as toastmaster. Nelson K. Standart told the Ku Kus of the battle that was waged at the State capitol to pass the Optometry bill, the same being now before the Governor for signature. Mr. Standart declared that, while Michigan had been the second State in which the Optometrists asked for an examining board, it is the 22nd to actually pass a bill, success in this instance being largely due to the fact that Dr. Fairbanks, a State Senator, who had killed previous attempts for a bill, became convinced that the medical men were wrong in blocking this legislation. Chas. A. Berkey rescribed the recent trip to Saginaw, and F. A. Drexel told of the progress of the new watch-making school. Leon Goldsmith was the only new member initiated. It was decided that a big degree team and delegation of Detroit Ku Kus shall go to Cedar Point, O., June 29, to attend the national gathering of Ku Kus there, and to exemplify the Royal Degree upon a number of Ohio candidates.

Hans I. Golden, Warren, Minn., has been succeeded by Albert H. Golden.

St. Louis.

Thomas Devere, Osceola, Ark., has sold out his business.

E. L. Welch removed his stock last week from Springdale, Ark., to Carterville, Mo.

Charles H. Schoen, of the Elliott Jewelry Co., returned from a trip through Arkansas, recently.

Samuel Kober, of the Maritz-Kober Jewelry Mfg. Co., left Tuesday for a business trip to Oklahoma.

The establishment of the Bauman-Massa Jewelry Co., on the second floor of the Commercial building, is being redecorated.

Frank A. Tomlinson, in business the past two years at Princeton, Ind., closed out his stock last week and went out of business.

J. H. Steidemann, of J. W. Cary & Co., moved last week into a handsome new residence at 3532 Russell Ave., facing Reservoir Park.

Miss Mabel Biro, telephone operator of the Eisenstadt Mfg. Co., has resigned her position because she is to be married in a few days.

Brainerd Ryan, credit man of the Eisenstadt Mfg. Co., left, Saturday, for Hot Springs, Ark., where he will spend a vacation of a couple of weeks.

The Bauman-Massa Jewelry Co. filed suit Thursday in Judge O'Halloran's court against Edward T. Gotsch on a note for \$40. The case is set for May 18, at 9 A.M.

S. L. Lowenstein, who travels through Missouri for the Bauman-Massa Jewelry Co., and Joseph Auer, who travels through Mississippi and Louisiana, are in for the season.

Peter Ziegel, Nashville, Ill., will leave in a few days, accompanied by his wife, for a trip to Europe. They will go first to Munich and will spend about four months abroad.

Herman Vollman, Princeton, Ind., who is time inspector for the St. Louis division of the Southern Railway, stopped in St. Louis, Thursday, on his quarterly inspection tour.

Edward H. Meier, representing E. W. Hughes, St. Louis agent for J. Hoare & Co., Corning, N. Y., left Sunday night for new territory in Indiana, Tennessee and Mississippi.

Nadich & Stiffelman have established a wholesale jewelry business on the sixth floor of the Holland building. Mr. Nadich was formerly connected with another wholesale house.

W. E. Tower, of Tower & Long, Holland building, has returned from a five-weeks' trip through Kansas. A. W. Long will be in next week from a trip through Tennessee and Kentucky.

S. H. Bauman, president of the Bauman-Massa Jewelry Co., accompanied by his wife, sailed Thursday from New York for Europe. They will go first to the diamond market at Antwerp.

Henry Lowenstein sold his jewelry interests at 1230 South Broadway, last week, to his brother, Joe, who has been associated with him in the business. Henry is going into the loan business.

The firm of Burnstine, Caster & Co., heretofore conducting jewelry stores at 612

Olive St. and 1723 Market St., has been dissolved. M. Burnstine will hereafter conduct the Olive St. store and M. Caster the Market St. store.

A. J. Lee, of the Lee-Kehl Mfg. Co., received a letter, Saturday, announcing the death at Moss Point, Miss., of Charles Beardslee, who had been in the jewelry business there for many years. He will be succeeded in business by his son, H. G. Beardslee.

Alfred Gerne, who removed his stock, last week, from 1403 Salisbury St. to 15th and Salisbury Sts., had an opening reception Saturday at his new store, which was prettily decorated for the occasion. A large number of his friends and patrons called and expressed their good wishes.

Frederick Hyke, who has been a jewelry salesman in St. Louis for 20 years, transferred his allegiance last week from the house of F. W. Drosten Jewelry Co. to that of Hess & Culbertson Jewelry Co. He was formerly with Hess & Culbertson and with Mermod, Jaccard & King Jewelry Co.

The bankrupt stock of Edward H. Kniepkamp was auctioned Thursday at the store, 1434 Salisbury St., under the direction of Leo Wolfson, the trustee. Most of the stock was put up in dozen lots. The amount realized was 75 per cent. of the appraisement. The fixtures and equipment were also sold.

Trophies and prizes to be awarded by the St. Louis Times to winners in a junior marathon race, to be held May 15, are exhibited in the show windows of the Hess & Culbertson Jewelry Co.'s store. The principal trophies are large silver cups. One of the cups was donated by the Hess & Culbertson Co.

Charles S. Erber, who has a retail jewelry store at Texarkana, Ark., opened a jewelry factory last week, on Pine St., between 6th and 7th Sts. He will continue to conduct the Texarkana store and will divide his time between the two cities. During his absences from Texarkana the business there will be looked after by his brother-in-law, Silas Arnold.

Two huge silver loving cups, manufactured by the Mermod, Jaccard & King Jewelry Co., and on exhibition at that store, are to be awarded, one to the most popular player on the St. Louis Browns and the other to the most popular player on the St. Louis Cardinals. They are donated by the Brothers Oppenheimer, theatrical managers. The voting is to be done at Suburban Garden and West End Heights, managed by the Oppenheimers.

The Maschmeyer-Richards Silver Co. moved Saturday from the third floor of the Carleton building, 6th and Olive Sts., into quarters twice as large on the second floor. In the new location the firm has 4,800 square feet at the front of the building, overlooking Olive St. The firm had been in the third floor location for three years. An additional man is to be put on the road. E. A. Schoenle and Kennett Venable are at present traveling for the firm.

Fire of unknown origin occurring among rubbish in the coal chute in the basement of the eight-story building at the northwest corner of 7th and St. Charles Sts.,

the new home of the Hess & Culbertson Jewelry Co., necessitated an alarm Friday morning which brought the fire department to the scene, but two sprinkler heads, which opened, held the flames in check, and it was not necessary for the department to throw any water. There was no damage done worth mentioning to the building, and none to the jewelry stock having been installed.

Among the out-of-town jewelers in St. Louis during the past week were: William J. Krug, Staunton, Ill.; J. J. Gaffner, St. Jacob, Ill.; F. H. Kassel, Cape Girardeau, Mo.; Fred Simon, Collinsville, Ill.; Fred Herold, Jerseyville, Ill.; Enno Dick, New Baden, Ill.; August Kalbitz, Red Bud, Ill.; M. Ziegler, Kimmswick, Mo.; V. L. Prevaillet, Perryville, Mo.; W. C. Pfaeffe, Enid, Okla.; Herman Vollmer, Princeton, Ind.; Abraham Spiller, Sedalia, Mo.; William D. Davis, Granite City, Ill.; T. B. McEntire, Sweet Springs, Mo.; Benjamin Dictzel, Union City, Tenn.

The jewelry store of the William F. Mueller Jewelry Co., at 1804 Olive St., was robbed Wednesday night of \$200 worth of watches, watch chains, umbrellas and clocks, but through a fortunate circumstance and prompt police action the robbers were caught as they were burglarizing another store near by, and the plunder taken by them from the jewelry store was recovered. Policemen Ward and Munsil, passing the Mueller store, noticed that the front door had been pried open and part of the lock broken off. Inside there were evidences that the store had been burglarized. The policemen started north on 18th St., and as they approached the clothing store of Harry Sandman a man ran out and disappeared in the darkness. The policemen ran into the store and caught two robbers there. They gave their names as John Lynch, Chicago, and Emil Dillard, Los Angeles, and said that the other one was Harry Dickerson, of Salt Lake City. Dickerson was arrested at the room which the three had been occupying. The articles stolen from the Mueller store were found in the room. The young men say they met in the west and came east together.

Minneapolis and St. Paul.

L. Metzger, of S. Jacobs & Co., Minneapolis, is now in the east on a purchasing trip.

George B. Eustis, of Eustis Bros., Minneapolis, is home after spending 10 weeks in the south.

Sam H. Kantor, a retailer of Moorhead, Minn., was in the Twin Cities on his return from a visit to Russia, last week.

Fire in the adjoining building to the E. A. Brown Co., retail jewelers of St. Paul, resulted in incidental damage to the Brown Co. from smoke which penetrated the room.

J. B. Hudson & Son, Minneapolis, received the contract to furnish the silverware for the new 12-story Radisson Hotel building, which is to be opened on 7th St., between Nicollet and Hennepin Aves., Aug. 1. The silver will be ornamented with a special design, and will cost about \$20,000.

P. L. Reed, Bennington, Okla., moved recently to Ft. Towson, Okla.

Cleveland.

Sidney Ball, of the Webb C. Ball Watch Co., has been out of town on business for a week.

H. L. Hurlbut, of the Scribner & Loehr Co., is in town for a few days, and will go to Detroit to-day to be present at the wedding of his niece. O. P. Rowley, of the same firm, will start out to-day.

C. C. Sigler has been spending the week at his country home, preparing it for the summer. U. R. Sigler will leave for his summer home in Michigan in a few days for the same purpose. All the Sigler Bros. Co.'s traveling men are now out on their trips.

Among other unique things the Cleveland Exposition will furnish all exhibitors with a neat little badge which will admit wearer to the buildings, instead of the customary paper pass. The badge is a real work of art. The Webb C. Ball Watch Co. got the contract for making them.

Among the out-of-town dealers in the city, this week, were: Geo. F. High, Medina; E. D. Davis, Kent; Jno. A. Wight, Wellington; Robt. Miller, Lorain; A. A. White, Middlefield; H. S. Summers, Akron; L. J. Goddard, Revanna; C. H. Rogers, Seville, and Miss Lamphair, Willoughby, O.

The Diamond Shop in the Colonial Arcade, successors to Albert D. Erne, is running a 10 days' sale at which the present stock will be cleaned out and the present fixtures sold. The shop will be entirely refitted and restocked with a much better class of goods, and making a specialty of the diamond business. The new firm is composed of E. G. Eroe, formerly with the Scribner & Loehr Co., and Chas. Schien-gold.

A man named Wagner, who robbed the jewelry store of Rudolph Deutsche, 612 Euclid Ave., Feb. 24 last, of \$125 worth of gold fillings, agreed to plead guilty to the charge of larceny and was brought into the Common Pleas Court for this purpose. Judge Vickery sentenced him to two years in the penitentiary. The prisoner pleaded hard for a reduction of the sentence to one year, and went up near the judge to do so. This drew the court attendants, Prosecutor Olds and others close to the judge's desk. On the refusal of the judge to reduce the sentence, Wagner turned as if to walk to his seat, but, on seeing no one between him and the door, kept right on out without being noticed. County Detective Doran met the man in the hall and mentioned it to the court officials and a wild chase followed. Prosecutor Olds, who used to be a member of the prize-winning hose wagon team of Oberlin, proved himself the star sprinter, and after a chase of several blocks caught the man on W. 3d St. He was triumphantly returned to court, and Judge Vickery added another year to his sentence.

Pacific Coast Notes.

F. J. Rigg, Alhambra, Cal., has taken a position with Kendall & Smith, Pasadena.

J. H. Arthur, Sanger, is making some extensive improvements in his store at that place.

A charge of embezzlement that was recently brought against Jos. Goodman, Courtland, Ariz., has been dismissed. He

was accused of not returning jewelry he had taken to repair.

Emilio Engelhardt, of the La Joya jewelry store, City of Mexico, has left for a six months' visit to Europe, where he will purchase stock.

S. A. Crandall, who has been conducting a store at 633 State St., Santa Barbara, Cal., has decided to retire from business on account of ill-health, and will dispose of his business shortly.

From the City of Mexico comes the news of the robbery of the store of Francisco Osael, Campa St. Osael had been compelled to take up quarters on this street through the burning of a building where he was formerly located, and the place was not properly safeguarded. The robbers secured jewelry valued at \$1,000.

Toledo.

The M. Judd Co., 245 Summit St., recently announced a reorganization of the firm, which will be known hereafter as Judd, Gross & Co., recognition being given to the younger members of the firm. Maurice Judd, who established the business in 1862, is still connected with the concern.

The Novelty Mirror Co. has just been incorporated with a nominal capital and will manufacture and handle novelty mirrors and other novelty jewelry. The incorporators are Ralph W. Schutt, John Lowler, Gail Haggerman, W. H. Koptke and V. J. Waltz. The company will operate in this city.

An involuntary petition in bankruptcy has been filed in local United States District Court against Joseph Teipel, who conducts an umbrella store at 819 Summit St., and in an answer the defendant admits having committed an act of bankruptcy by having a short time ago made an assignment for the benefit of creditors. The petition in bankruptcy is brought by L. J. Leopold, Detroit; Ross Bros. & Co., Lancaster, Pa., and a local firm of printers.

The first step in the legal battle for the freedom of David Werbe and David Blair, Detroit pawnbrokers, who were arrested on a charge of receiving goods stolen from a local store, has been taken by their attorney, who will start the unusual proceeding of a plea in bar. Pending the outcome of this plea bond has been named in the sum of \$3,000 for Werbe and \$2,000 for Blair. The former has already given his bond, it having been signed by Rachael Smith and A. J. Smith, both of this city. Blair has not yet given bond, but it is expected that it will be arranged before long. This case, which is attracting the attention of pawnbrokers throughout the country, both on account of the legal questions raised and of sensational developments hinted at, has assumed an unusual aspect on account of the local police court having first taken up the case and having sentenced the men to a short sentence in the city workhouse. Before the sentence could be imposed the county officials took cognizance of the case and had the men indicted by the grand jury, and it is upon the legal phase that the defendants cannot be prosecuted because they have already been sentenced for the charges against them.

Indianapolis.

J. H. Reed is in Brown County for a few days.

A. P. Craft has returned from a short business trip through central Indiana.

It is expected that L. Markowitz will return from an extensive Texas trip within a few days.

After a fishing trip along White river, near Noblesville, Horace A. Comstock is home again.

C. J. Kiefer and Julius C. Walk have returned from their semi-annual fishing trip to Lake Maxinkuckee.

Miss May Gribben, daughter of David S. Gribben, of Gray, Gribben & Gray, is seriously ill, and for this reason Mr. Gribben has been unable to attend to business for a week.

An order for two gold medals to be awarded for the best exhibits in tuberculosis treatment at the annual meeting this summer has been received from the American Medical Association by Dyer Bros.

A folder containing the time tables of all traction lines running into this city, as well as an extended advertising guide, has just been issued by Carl L. Rost for advertising purposes. Several thousand have been distributed.

Ikko Matsumoto is the first jeweler to announce he will close his store at noon on Saturday during the summer season. He has decided to close during the months of May, June, July and August, and other dealers are expected to follow his example.

Among out-of-town jewelers in the city during the past week were: W. C. Klein, Connersville; W. E. Heaps, Bicknell; W. H. Boxman, Anderson; J. F. Kiser, Muncie; J. W. Hudson, Fortville; Aaron Purcell, Noblesville, and J. K. Maxwell, Otterbein.

At the Battery Armory, on Monday night, May 10, Charles B. Dyer, of Dyer Bros., was presented with a bronze medal for expert marksmanship, offered by the War Department. This is the highest medal given by the department. Mr. Dyer belongs to Battery A.

It is announced that the stock of the Cleaver-Havelick Co. has been purchased at receiver's sale by Gerrit A. Archibald, for \$34,300. Mr. Archibald was one of the original members of the company, which carries a line of jewelry in addition to women's furnishings.

Half of the fixtures in the store of Gray, Gribben & Gray, at 35-37 N. Illinois St., have been taken to the company's new branch store in N. Pennsylvania St. The company will carry a more extensive line of pianos in its Illinois St. store in the future, selling jewelry exclusively at the new location.

Jewelers are much interested in the plan of Mayor Bookwalter for re-arranging the lighting system in the downtown district, thus providing a great White Way. The system will be placed in Illinois St. from Louisiana to Ohio Sts.; in Washington St. from West to East Sts.; in Pennsylvania St., from Washington to Ohio Sts., and in Massachusetts Ave., from Pennsylvania to Alabama Sts. Ornamental brackets will be placed on street car poles and are lights enclosed in ground-glass globes suspended from the brackets.

San Francisco.

Henry Jacobsen, of Jacobsen Bros., New York, has been calling upon the local trade.

Mr. Johnson, with J. A. Young, is now in the Los Angeles territory with his regular lines.

J. H. Langhorst, Jackson, Cal., was here a short time ago and announced that he would soon start on a trip to Europe.

H. Jacobs, local manager for the Alphonse Judis Co., is in Los Angeles at the present time on a business trip. He is expected to return in a few days.

H. B. Blacksheer, who formerly held a position with R. & L. Meyer, the material supply house, has gone to Honolulu to accept a position with J. A. R. Vierra & Co.

A. W. Bennett, representing W. R. Landram, has just made a trip through the coast counties to the south and reports meeting with better success than for some time past.

G. Gensler who at the present time is located at 523 Van Ness Ave., has secured a permanent location at Market and Jones Sts., and will move there as soon as the store can be put in shape.

Rothschild & Hadenfeldt are now increasing the facilities of the Oakland manufacturing plant, and within a short time will be prepared to manufacture scarf pins, brooches, cuff buttons and goods of a kindred character. Much new machinery is being installed, and the capacity of the plant will be much greater than ever before.

Another Van Ness Ave. firm to secure a downtown location is that of the Baldwin Jewelry Co. This firm has been negotiating for a store on Kearny St., at Square Ave., for a long time, and has finally succeeded in securing the coveted location. This site is just across the street from the Diamond Palace, now being fitted up, and is considered a splendid location. There is no building on this site now, but construction work is commencing, and the structure is to be finished in the fall, according to the plans now being made. The removal of this firm and Radke & Co. will take from the avenue the last of the retail jewelry stores.

The feature of the past week in jewelry circles has been the activity displayed by the retailers still located on Van Ness Ave. in becoming permanently located in the downtown district again. Two very important leases on downtown stores have been secured by the two largest firms yet on the avenue, which had previously been without downtown stores. In addition to this activity there have been a number of removal sales commenced, and a determined effort is being made to draw as much trade to the avenue as possible during the last few months of its existence. Business there is very quiet, however, the bulk of the shopping being done in the downtown district.

An important lease has been signed by Radke & Co., and as soon as a store building can be erected they will occupy quarters on Post St., just west of Grant Ave. The store site adjoins the magnificent Head building, and is almost exactly across the street from Shreve & Co. The loca-

tion is all that could be desired, and this block on Post St. is a particularly desirable one. A few doors above are the Diamond Parlors of Ahlers, conceded to be one of the most beautiful establishments of its kind in the city, and the entire block is lined with high-grade stores. Work on the construction of a building will commence at once, and it is hoped that the move can be made about Aug. 1.

The local police were of the opinion this week that they had captured one of the robbers who plundered the store of T. Lundy, a year ago, and made away with jewels to the value of \$50,000, but it is now thought that the jewelry found on the man is the proceeds of another robbery. Kenneth A. Williams is the man suspected, and he is said to have confessed that the loot in his possession had been stolen from the Alphonse Judis Co., 704 Market St. He states that he received the jewelry from a man named Ralph Johnson. Members of the Lundy establishment have previously identified the jewelry as part of that stolen from T. Lundy, but state that they may be mistaken, as the Alphonse Judis Co. purchases goods from the same manufacturing concern.

Pacific Northwest.

C. B. Adams, Centralia, Wash., announces that he is to retire from business this month.

Mr. Hanna, formerly of Corvallis, Ore., has moved to McMinnville, and has opened a store there.

A. Mierow, Tacoma, Wash., is moving to a new store, and has been disposing of his old stock at a special sale.

The business of Abbott & Son, Forest Grove, Ore., has been sold to Arthur Shearer, of that place, who combines the business of the two stores.

The stock of the late Louis Hunziker, Pendleton, Ore., has been purchased by A. L. Schaefer, a watchmaker and jeweler of that place. The business will be continued at the present location, and A. E. Serum, the watchmaker and engraver who has been in the store for several years, will be retained.

Charles London, who attempted to switch a "phony" ring with a glass setting in it for a \$150 diamond ring, and was detected in the act by Chester McEacham, Bellingham, Wash., has been convicted of larceny. London engaged the services of an attorney to defend him, and is now unable to pay him except in watches and chains, and has turned over 35 of these to settle the account.

The official Alaska-Yukon-Pacific Exposition coins have been designed by J. L. Charneau, North Yakima, Wash., and accepted by the authorities. The coins are very small, and are made of pure Alaska gold stamped in an appropriate manner. There are three sizes to the set, the largest being the size of the \$1 gold piece, the next the size of the gold half-dollar, and the smallest one the size of the gold quarter. They are already in great demand for the manufacture of such articles as stick pins, bangles, bracelets, etc.

Samuel Holly, formerly of Glenulin, N. Dak., has removed to Miles City, Mont.

Kansas City.

Tovia Brennan, 718½ Walnut St., is enlarging his jewelry department and increasing his stock.

D. B. Ward & Co. moved into their new quarters in the Boley building, Saturday, May 15. After they get everything in working order they will have model offices and model working rooms.

G. O. Gill has embarked in business at Eufaula, Okla., and L. P. Folsom, Irving, Kans., have recently gone into business in the towns named. Both are former students of the Kansas City Polytechnic Institute.

R. W. Vail, a former student and graduate of the Missman School of Engraving, has embarked in the jewelry business at Bonner Springs, Kans. Miss Estel Foster, Union Star, Mo., and J. E. Micke recently finished courses in engraving at this school.

The following jewelers were in town during the past week: G. E. Dabney, Richmond, Mo.; J. O. Stott, Paola, Kans.; A. Melliush, Ottawa, Kans.; Amos Blank, Hutchinson, Kans.; Mrs. S. H. Avey, Auburn, Neb.; R. R. Smithers, Cameron, Mo.; Charles Weber, Lexington, Mo.; E. A. Clement, Springfield, Mo.; Leslie Burkland, Moberly, Mo.; E. J. Huber, Blade-water, Mo.

The Meyer Jewelry Co. is now in its new quarters on the fifth floor of the new Boley building, 12th and Walnut Sts. The company occupies the entire floor, comprising about 10,000 square feet of space. The room is ample and the light is all that could possibly be desired, the east and south fronts being composed of plate glass, except, of course, the steel window frames. The building itself is composed entirely of steel, concrete and glass, except the north and west walls, which are of brick. All the floors are of cement, and it is a thoroughly fireproof structure. The fittings, furnishings and fixtures of the new quarters are very handsome, the mahogany finish giving a pleasing effect.

Trans-Atlantic Voyagers.

TO EUROPE.

I. Ollendorf, New York, sailed on the *Deutschland*, last Thursday.

J. T. Mathison, Columbus, O., sails for Europe, the latter part of the month.

Arthur Silberfeld, New York, sails, May 25, on the *Kaiser Wilhelm der Grosse*.

S. Cohn, of Cohn, Abraham & Co., New York, and A. Guggenheim, New York, sailed, May 4, on the *Kaiser Wilhelm II*.

M. Meyerowitz, of Meyerowitz Bros. & Co., New York, sailed on the *Mawretania*, last Wednesday. Burton Fox, of Fox Bros., Cincinnati, O., sailed on the same boat.

A clerk who sleeps on the premises recently frustrated an attempt to burglarize a jewelry store at 719 Tower Ave., Superior, Wis.

William Woods was recently arrested at Yankton, S. Dak., charged with having looted the store of W. E. Whitney, Akron, Ia. About \$200 worth of the stolen goods was found in his possession.

Boston.

F. O. Fuller is making a trip through Maine.

W. B. Tilton is traveling through New York State.

Walter C. Harris has been on a trip through Vermont.

Albert Steffin, New Bedford, was here, last week, on business.

B. B. Treen has returned from an extended trip through Canada.

Thomas A. Tripp came up from New Bedford, last week, on business.

Joseph Monahan, Lynn, is planning to sail, June 1, for a European trip.

A. S. Loeke, Waltham, is to start, this week, on a European trip for the benefit of his health.

Thomas A. Addison, of Addison Bros., Chelsea, is enjoying a hunting and fishing trip at Cape Small Point, Me.

E. Charles Fitch, Jr., came here from Montreal, last week, on business in connection with the Waltham Watch Co.

The Waltham Watch Co. has announced that it will supply anthracite coal at cost price to the family heads in its employ.

A fraud order has been issued against Ballantyne & Co., whom post-office inspectors allege are dealers in cheap silverware.

E. L. Davis, one of the best-known retail jewelers in South Boston, has returned to his place of business on Broadway, after a several weeks' illness.

A number of pupils of the Boston High School of Commerce were allowed, through the courtesy of the management, to make an inspection of the Waltham watch factory, Tuesday of last week.

Frank W. B. Pratt has been in Gloucester, this week, putting into commission his new 40-foot sail and motor auxiliary boat. Mr. Pratt is soon to sail the craft to his Summer home at Cape Porpoise, Me.

Among the jewelers in town, last week, were: J. H. Connor, N. C. Squire, W. F. Newhall and F. M. Millett, Lynn; R. M. Cook, Marblehead, Mass.; John Kelso, Providence, R. I., and B. G. Couri, Portland, Me.

The Acme Jewelry Co. has been incorporated to manufacture and sell jewelry, with a capital of \$25,000. The officers are: President, Charles N. Thomas; treasurer, George O. Skoog; clerk, Laura B. Thomas, all of Malden.

Much interest has this week been shown in the second annual manufacturers' exhibit and business display, held Tuesday and to-day at the New England Watchmakers' Club rooms, at 17 Bromfield St. A complete account of it will be published in THE JEWELERS' CIRCULAR—WEEKLY next week.

Circulars have been sent throughout the country by Chief Watts, asking for the arrest of Benjamin Ginsburg, who disappeared from this city on April 5, after having stolen, the police allege, a diamond pin valued at \$800 from Morris Luftig, a jeweler with a place of business at 279 Washington St.

The Boston Jewelers' Club held its May dinner, Tuesday night of last week, at the Exchange Club, on Battery-march St. Seventy-five members were gathered at the tables. There were no formal after-dinner exercises or speech-making. The principal

entertainment feature was an excellent show of motion pictures. There were also songs and choruses given by the members.

J. H. Sumner, Dedham, was the victim of a flimflam game, Wednesday morning of last week. An unknown man came into the store and displayed a cheap watch, which he said he wanted to sell or trade. While Mr. Sumner's back was turned the stranger substituted his watch for another valued at \$100 and the property of C. B. Danforth. The police are making an investigation.

The "Fourteen-Of-U's" Club, which is composed of employees in the wholesale department of Smith, Patterson Co.'s store, held its semi-annual banquet and theatre party, Saturday evening, May 1. At a business session which preceded the dinner Aubrey G. Gilmore was elected president and Henry E. Tabb secretary and treasurer. The club also voted to hold an outing down the harbor the latter part of June.

E. A. Bigelow, of the E. Howard Clock Co., has sold his handsome Summer place at Bennington, N. H., to the Monadnock Paper Co., which has taken it for the residence of its president. The exhibit of the E. Howard Clock Co., at the Alaska-Yukon-Pacific Exposition in Seattle this Summer will be a notable one. The company will soon have in place at the junction of the four principal promenades in the Manufacturers' building a specially constructed tower, four-dial, hour and half-hour striking clock, with eight-foot dials suitable for illumination. In addition the company will install a Howard Magneto watchman clock system, with stations in different parts of the exposition grounds, and will also exhibit a regulator master clock operating a secondary clock system.

The hearing in the case of John L. Nudd, charged with using the mails in a scheme to defraud, was continued Thursday before United States Commissioner Hayes in the United States Court. The presence in the witness seats of a large number of young women, chaperoned by their mothers, gave the trial unusual interest. These girls are said to be former pupils of Nudd. J. William Pratt, 21 Bromfield St., and W. P. Briggs, of A. Stowell & Co., testified as expert engravers. Mr. Pratt said that in his opinion it would be impossible for the ordinary person to learn engraving in three months, disputing the contention Nudd is claimed to have made. Mr. Pratt said that it would require three or four years to learn engraving, and two years in addition before one could take the place of a competent engraver. He did not believe pupils could be taught in four or five months by the correspondence system. Mr. Briggs corroborated Mr. Pratt in many things and expressed his opinion that it would be impossible to teach engraving by letters or correspondence. Mr. Briggs was on the stand when Commissioner Hayes ordered the hearing continued until to-morrow, May 13.

Owing to a confusion of names it was erroneously reported, recently, that B. Harris, Hamilton, Ont., had sold out. The merchant who sold out was I. Harris, of King St., East, at that place. B. Harris is still located in business at 88 James St., North.

Harrisburg, Pa.

Carlisle will have an Old Home Week celebration, Aug. 23-28, and the merchants propose to do their part to make it a great success.

L. Chinitz, a jeweler of Pottsville, was convicted in court, last week, on a charge that he refused to return a watch left with him by Samuel Felix to be repaired.

Burglars blew the safe in the store of Shapiro Bros., in Broad Top City, last week, and escaped with \$400 in cash. A reward of \$100 is offered for their arrest.

A number of merchants and individuals lost various sums through the operations of the late E. W. S. Parthema, a prominent real estate and insurance man of this city, a few days ago. It is reported that one Harrisburg jeweler lost \$1,600.

Darby merchants have changed the name of their organization from the Progressive Association to the Business Men and Taxpayers' Association, with these officers: John R. Simpson, president; Caspar A. Swope, vice-president; W. G. Seaver, secretary, and W. L. Hewes, treasurer.

One day last week Samuel Lehman, of Steelton, met three men who sold him three diamonds for \$350. The swindlers had no sooner left Lehman than the latter discovered the diamonds were bogus. He had a warrant sworn out for their arrest and an officer picked the men up in Harrisburg. The trio were taken to Steelton, where Lehman told them that if they would return the money he would drop the case. One of the men pulled out a roll of money and handed it to Lehman. Then the men were discharged. After they had gone away Lehman counted the money and found that he had \$28 more than the \$350 which he paid.

At the hearing before Magistrate Hughes, last week, Louis Spealman, of this city, who brutally assaulted Jeweler C. F. Reitling in his store in Carlisle when the latter was showing him some diamond rings, pleaded guilty and was remanded for court. There was a large array of witnesses. Mr. Reitling identified Spealman as the man who assaulted him, and also the blackjack, which was found on the floor after the affray. Mr. Reitling was very ill three days from the blow, and was under the care of a physician. There is yet very large lump on the right side of his head. In pleading guilty Spealman said that at the time he was under the influence of drugs and did not know what he did.

Omaha.

Henry Copley has been entertaining his uncle, John Copley, and wife, Edgerton, Wis., for the past 10 days.

A. H. Hastings, Arcadia, Nebr., and R. A. Hawthorne, Maywood, Nebr., were in this city, last week, purchasing stock.

Theo. Schutz, Stella, Nebr., was in Nebraska City shortly after the finding of jewelry by Clem. Swenson on his farm, as was reported in last week's issue of THE JEWELERS' CIRCULAR—WEEKLY, and identified the property as his. The goods were stolen from his store last October.

J. C. Vickers, Hull, Ia., has been succeeded by Wm. Con Steenbergen.

Connecticut.

D. E. and C. D. Morris, Wallingford, have returned from a visit to Washington, D. C.

John P. Garrity, electrician at the factory of the Sessions Clock Co., at Forestville, died suddenly at his home, April 26.

W. E. Porter, New Haven, has been granted two patents on a stem winding and setting watch and on an alarm clock.

H. Obeefeld, who for a short time conducted a jewelry store in Seymour, recently left town and assigned his effects to one or two creditors.

The plant of the E. H. H. Smith Silver Co., Bridgeport, is now running full time on an order for silverware that is stated to aggregate \$25,000.

H. R. Woodward, Norwich, has added a housecleaning department to his jewelry establishment. He contracts for the cleaning of houses by the vacuum method.

The Bradley & Hubbard Mfg. Co., Meriden, has been given the contract for furnishing the chandeliers for the new synagogue on Union St., Middletown.

The building occupied by the Simeon L. & George H. Rogers Co., 68 Market St., Hartford, had a fortunate escape, May 5, from the fire in an adjoining structure.

By a destructive fire on Congress Ave., New Haven, May 4, five stores were damaged, among them being the Goldberg Auction Co., New Haven Auction & Commission Co., and Abraham Orloff, retail jeweler.

President E. W. Leavenworth of the Country Club of Wallingford has appointed the following committee of arrangements for the opening day on May 31: C. H. Tibbitts, Stuart Benson and George T. Cottle.

Superintendent Chauncey Sherman of the Norwich branch of the International Silver Co., has stated that for some time past the weekly production of knives has aggregated over 7,000. This will shortly be increased to 10,000.

Mrs. Henrietta Jacobs, wife of Ralph Jacob, a well-known jeweler and optician of Waterbury, died suddenly, May 1, at the German Hospital in New York. Mrs. Jacobs was very popular and prominent in charitable work.

The annual meeting of the Home Club of Meriden was held on May 6 and new officers were elected for the ensuing year. I. Burton Miller, who has been an active worker on the executive committee, and was also first vice-president, has been elected president. C. P. Bradley is now chairman of the executive committee.

The paste diamond game was worked again in New Haven recently. Two men, who seem from their description to be the same men who so successfully worked the swindle here some months ago, visited a Miss Levine at 35 Davenport Ave., and there succeeded in making an exchange with her of their paste diamonds for three genuine diamonds of considerable value.

Representative M. H. Dormitzer, president of the American Shear & Knife Co., Hotchkissville, is in Washington looking after the schedule of the tariff bill in relation to cutlery. Mr. Dormitzer is specially interested in the provision put in by the Senate which compels all imported knives and shears to have the name of the maker

and the place where made stamped on the blade.

Fred Weber, Meriden, who recently moved from his location in the Sills store, where he has been for years, to the Byxbee block, on Colony St., celebrated the event on May 1 by a formal opening. The place is attractively fitted up, with modern show cases, counters and fixtures. The Weber store is perhaps the lightest in town, as it is illuminated with tungsten lamps of high power. The retail showroom occupies about two-thirds of the space, and the rear is partitioned into workrooms. Hundreds of people visited the new establishment.

Pittsburg.

George W. Biggs, of the J. M. Roberts & Son Co., is confined to his home because of illness.

The bankrupt stock of Sol Friedman, Greensburg, Pa., was sold last week and was bid in by Friedman's brother, who paid \$635 for stock and fixtures. Friedman's liabilities were about \$5,000.

West, White & Co. last Saturday began closing their store at 1 P.M., and others are expected to follow suit. A large number of wholesalers closed early on Saturdays during the heated period last year.

J. C. Grogan has opened an office on the top floor of the Home Trust Co. building, in which building he has his store, and is just far enough away from the noise of the street to look after the details of the business.

Sam F. Sipe has entered his horse, "Dottell," in the local horse show, which opens this week. Mr. Sipe has erected a handsome sign, depicting Spring, at Wylie Ave and Sixth Ave., which is attracting a great deal of attention.

John M. Roberts says that he has not as yet sent the "watch price cutting" report of the local association to the printers, and until he does it will not be forwarded to the watch companies for their approval or rejection.

Some of the local jewelers are making very pretty window displays in honor of the horse show, which opens in Pittsburg this week, and which is quite an event in local society and among the jewelers. A number of handsome cups have been sold by jewelers, to be given as prizes at the show.

W. Beckenstein, Montgomery, W. Va., who was adjudged a bankrupt Feb. 4 last, has applied to the United States District Court for a complete discharge of all debts provable against his estate. A hearing of his petition will be heard in the United States Court at Charleston, W. Va., May 22, at 10 A.M.

The court has referred several bankruptcy petitions filed recently against Parnes & Fassberg to Wm. R. Blair, referee in bankruptcy, for adjudication and investigation. Isaac Parnes, who disappeared before an involuntary petition in bankruptcy was filed, has not been heard from and his whereabouts still remain a mystery.

Among the out-of-town jewelers in Pittsburg last week buying stock and visiting the trade were: Asa Joseph, Donora; T. N. Smith, Morgantown; Lonis Stauvers, Wheeling; J. R. Thorn, Toronto; E.

A. Bloser, New Kensington; Roy Kuhn, Scottsdale; J. V. Rosendahl, Irwin, and John Linnenbrink, Rochester.

Secretary C. S. Wiley of the Pennsylvania Retail Jewelers' Association doubts very much if any of the local jewelers will go to Wheeling to attend the annual convention of the West Virginia Jewelers' Association, which opens there next week. He has spoken to a number of Pittsburgers about it, but it looks now as if the local merchants will be unable to spare the time to attend.

Samuel Maltinsky, the well known jeweler, has sold for \$50,000 the property at 876 Braddock Ave, Braddock, to Philip Hamburger, a wealthy liquor dealer of the North Side. The lot is 22x120 feet, and is improved with a three-story brick building, which was erected 10 years ago at a cost of \$10,000. Mr. Hamburger gave cash and North Side real estate valued at \$20,000 in exchange for the Braddock property.

Morris Shapira, a pawnbroker, was convicted in Criminal Court last week of receiving stolen goods, and will be sentenced next Friday. It was alleged that he had bought three silver pieces stolen from the home of Howard Heinz, Sewickley. One of the men arrested for the theft is now serving a long sentence in the penitentiary. One of the gang testified to also having pawned a stolen watch at Shapira's place, which was in Grant St.

It was reported to Central Police Station last week that a diamond pin, valued at \$265, was recently stolen from the jewelry store of Henry Terheyden, Smithfield St., near Oliver Ave. It is alleged that on the afternoon of April 30 a well-dressed man, who asked to see some diamond stick-pins, was shown a number of pins and substituted a worthless pin on the tray for the valuable one. The man is described as being about 35 years of age, five feet eight inches tall, with dark hair and dark eyes. He wore a black suit of clothes and a black stiff hat.

Joseph C. Wasson, convicted of bribery, was last Wednesday sentenced to serve 18 months in the Western Penitentiary and pay a fine of \$500. Wasson, who is well known to the jewelry trade owing to his position as jewelry buyer for a large store, has appealed his case to the Superior Court of Pennsylvania, and, pending the final decision on the appeal to that court he will not be compelled to go to prison to serve his sentence. He was convicted because of the part he took in having legislation passed in city councils, of which body he was chairman of the finance committee. The case was one of the most sensational that Pittsburg has ever had, six others having been sentenced for similar offenses at the same time sentence was pronounced on Wasson. The latter has declared ever since his arrest that he is innocent, but a jury said he is guilty, and there appears to be little doubt but that he will have to pay the penalty. Two of the seven men sentenced have already begun to serve their time.

The store occupied by Heinrichs & Chambers, Jefferson City, Mo., was considerably damaged by fire, a short time ago.

SPLENDID OPPORTUNITY for A1 optician; I occupy half of store, 50 feet deep, in the best location in the city; I wish to share my window and store space with first class and reliable optician; rent moderate for location. D. H. Blinn, jeweler, 11 Asylum St., Hartford, Conn.

SPOT CASH FOR DIAMONDS, watches and jewelry; I send check on receipt of goods; surplus stocks bought at highest prices; bank references. Emil Noel, 550 E. 46th Place, Chicago, Ill.

GENTLEMAN of education and thoroughly experienced in the retail business would invest \$15,000 to \$20,000 in profitable jewelry business in city of not less than 100,000 population; would not object to part interest if convinced of agreeable relations; highest standing in the trade. Address "I. M., 337," care Jewelers' Circular-Weekly.

RAISE MONEY quick, by sending your diamonds and watches to me; liberal cash prices remitted on receipt of goods; business confidential; National Bank references. H. Schwartz, 903 Heyworth Bldg., Chicago, Ill.

FOR SALE, jewelry store, elegant fixtures, established 15 years at Newark, N. J.; low rent and lease; am unable to attend on account of other business; must be sold before June 1; will take \$2,000 for fixtures and lease; will leave a few thousand dollars goods on memo. to right party; net profits, \$3,000 to \$4,000 per annum; snap for someone. Address "Quick, 321," care Jewelers' Circular-Weekly.

PRACTICAL MANUFACTURER with means, desires to associate himself with a manufacturing jewelry firm of high standing; references of the highest character furnished. Address, "K., 341," care Jewelers' Circular-Weekly.

DO YOU WISH TO RETIRE? Are you looking to raise ready cash quick? We are ready to purchase your entire or surplus stock of diamonds and jewelry, no matter how large it may be; we also advance liberal cash on same; highest prices paid for entire stocks; communicate with us before consulting others and get quick returns; communications strictly confidential. Address Brooklyn Purchasing Syndicate, 608 Broadway, Brooklyn, N. Y., Telephone, 2328, Williamsburg.

To Let.

PART OF OFFICE; all conveniences; Room 205, first floor Cockcroft building, New York.

PART of large, light office, desk and use of phone; reasonable rent; first floor, Room 202, 71 Nassau St., Cockcroft Bldg., New York.

LOFT, 100 x 50, all light, north exposure, suitable for diamond setters or kindred business; also smaller space for like work. Apply The Mauser Mfg. Co., Fifth Ave., at 31st St., New York.

Miscellaneous.

PORTRAIT MINIATURES copied from any photo on watches, dials, brooches and lockets. Goldstein Engraving Co., 45 Maiden Lane, New York.

For Sale.

FOR SALE, a genuine Chicago Watch Tool Co. modern outdoor electric flasher watch sign, complete with written guarantee, at a bargain. Address "A. G., 327," care Jewelers' Circular-Weekly.

FOR SALE, one six-volt Hanson & Van Winkle dynamo, one power draw bench, two double head polishing lathes with zinc lined tray-bench and dust collector complete; also one American Gas Furnace Co.'s positive pressure blower No. 1; all little used and practically good as new; price reasonable. Taylor & Co., Inc., 47 Chestnut St., Newark, N. J.

SAFES

We have them all makes—Diebolds, Mosler, Halls—any size you want; cabinets to suit. The only way you can tell them from new ones is to ask the price; we know how to refinish and put in condition. New safes direct from factory. Burglar proof safes a specialty.

JERSEY CITY, N. J.

5 YEARS' EXPERIENCE GAINED IN 1

The young or middle-aged man who desires to learn Engraving, to grasp the finer points of Watchmaking and Optics, finds it necessary to spend at least five years in a store before he has attained a thorough knowledge of the business. In less than a year's time this complete knowledge can be gained at our college. We get telegrams and letters every day, offering positions to our graduates, which shows what practical storekeepers think of our course. Send for Prospectus NOW. A position awaits you. The Philadelphia College of Horology, Somerset and Broad Sts. PHILADELPHIA, PA.

"Multi-Fortified Silver Back"

Showing the extra thick plating on entire back. This is the

"Multi-Silver Fortified Back"

Showing silver plating on front of spoon

IN addition to our extraordinary standard plating we put a "Multi-Silver" plating on the entire back of every spoon and fork—the place wear-resistance is most necessary:

As our *Multi-Silver* plating is accomplished in one operation, by a new patented process which we control exclusively, we get the extra fortification at but a trifle more than the cost of the additional silver:

Our goods have a *standard price and profit for the dealer*, because we take advantage of every invention to make them better:

Send your orders *now* for delivery in time for the Spring house-cleaning and moving season:

IN WHICH IS CONTAINED A LIST OF THE LATEST PATENTS GRANTED BY THE UNITED STATES AND GREAT BRITAIN, THE UNITED STATES PATENTS THAT HAVE EXPIRED AND THE REGISTERED TRADE-MARKS.

UNITED STATES PATENTS.

ISSUE OF MAY 4, 1909.

920,111. JEWELER'S SOLDERING CLAMP. WILLIAM C. CLOW, Vancouver, Wash., assignor of one-fourth to C. W. Moore and one-fourth to C. A. Rambo, Vancouver, Wash. Filed April 22, 1908. Serial No. 428,691.

A soldering clamp of the kind described, comprising an arm A, having a jaw at its upper free end, and a split plug pivoted at one end to the

lower end of the arm, also an arm B of similar construction to the arm A, except in place of the split plug, it has a tube fixedly secured at one end to the lower end of said arm B at right angles thereto and of a form adapting it to receive therein, said split plug.

920,113. TIME STAMP. CHARLES M. CROOK, Chicago, assignor to Perry Time Stamp Co., Chicago. Filed April 4, 1904. Serial No. 201,448.

In a portable time stamp, the combination with a supporting frame, of a horologic motor carried

thereby, impression means operated by said motor, a guide post or stud projecting from said frame and entering a recess in a part of said motor, a spring interposed between said motor and said frame to relieve the motor of jars to which said frame is subjected due to the making of an im-

pression, a plate engaging the stud to retain the motor in position, and a casing for the motor, said plate being held in position by engagement with said casing.

920,124. ELECTRIC CLOCK WINDING MECHANISM. FRANK H. FERAUD, Granite City, Ill. Filed Sept. 8, 1908. Serial No. 452,012.

In combination with a clock mechanism having a winding shaft, a weighted driving lever loosely pivoted at one end about the shaft, a pawl on the lever, a ratchet disk carried by the shaft and engaged by the pawl, a laterally projecting impact pin at the base of the driving lever, an energizing coil, an insulated armature lever having a long and short arm, the short arm carrying an arma-

ture in front of the coil, a conducting wire coupled to the end of the long arm of the armature lever, a binding screw to secure the wire, the frame of the clock having a notch for receiving the head of the binding screw, the pin on the driving lever being adapted to contact with the long arm of the armature lever, whereby the circuit is closed and the coil energized, and the armature lever is suddenly oscillated thereby throwing the driving lever about its axis of rotation upwardly thus restoring it to its highest position.

920,173. TIME STAMP. CHARLES S. PERRY, Chicago assignor to Stromberg Electric Mfg. Co. Filed April 4, 1904. Serial No. 201,400.

In a portable time stamp, the combination with a supporting part, of a horologic motor carried

by said part, an impression mechanism operated by said motor, a resilient mounting arranged between said motor and said supporting part to relieve the motor of jars to which said part is subjected due to the making of an impression, and a guide post or stud for retaining said motor in position.

920,174. TIME STAMP. GEORGE E. PERRY, Chicago, assignor to Stromberg Electric Mfg. Co. Filed April 22, 1905. Serial No. 256,913.

In a portable time stamp, comprising in a self-contained unitary structure, the combination with a supporting frame, of a spring-actuated, escapement motor mechanism mounted thereon, an im-

pression mechanism movable relatively to said motor carried by said frame and comprising type wheels having impression characters formed on the peripheries thereof, and a driving belt connecting

said motor mechanism and impression mechanism, which permits said impression mechanism to be moved relatively to said motor in making an impression without being disconnected therefrom.

920,175. TIME STAMP. GEORGE E. PERRY, Chicago, assignor to Stromberg Electric Mfg. Co. Filed April 22, 1905. Serial No. 256,914.

A portable time stamp comprising in a self-contained unitary structure, the combination with a supporting frame, of a spring actuated motor mounted thereon, an impression mechanism mov-

able relatively to said motor and carried by said frame, and a belt extending between said motor and said impression mechanism which permits said impression mechanism to be moved relatively to said motor in making an impression without being disconnected therefrom.

920,223. TOOL FOR ADJUSTING THE COCKS OR BRIDGE PIECES OF WATCHES. ALFRED A. TURNAGE, Denver, Colo. Filed March 23, 1908. Serial No. 422,683.

A device for adjusting the cock or bridge piece of watches or other similar article, comprising a frame, means mounted thereon for securing the

piece to be adjusted in place, a yoke engaging the piece to be adjusted, the said yoke being movably mounted in the frame, means for actuating the yoke for adjusting the said piece, a registering

yoke, and a slidable operative connection between the registering device and the part of the said piece acted upon by the yoke during the movement of the latter, whereby the degree of the adjustment of said piece is indicated by the register.

920,433. WATCH POUCH. SAM L. COHEN, New York. Filed Feb. 20, 1909. Serial No. 479,238.

A watch pouch, comprising an elongated bag of flexible material adapted to retain a watch and to be folded thereover, the said bag being pro-

vided with an opening, and a transparent covering for said opening through which the dial of the watch can be seen, said transparent covering being semi-flexible.

920,517. BROOCH OR THE LIKE. CLIFFORD G. ARMSTRONG, Sandwich, Mass. Filed Dec. 12, 1907. Serial No. 406,168.

In a brooch, a metal body having a cavity therein, and a catch member having a shank with an enlarged head on said shank, the under face

of said head seating on the wall formed by the bottom of said cavity, and a pair of lips integral with said body and composed of the metal displaced by the formation of said cavity, said lips seating on the top face of said head.

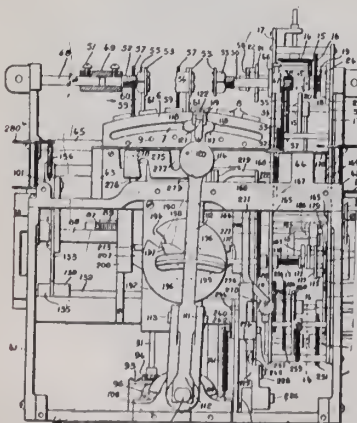

920,762. TABLE KNIFE. THOMAS B. LASHAR, Bridgeport, Conn., assignor to International Silver Co., Bridgeport, Conn. Filed Dec. 30, 1908. Serial No. 470,041.

A knife having a blade with a convex-curved base and a tang with an enlarged end and a rolled metal handle having a holster with a concave groove corresponding with the base of the

handle, and a hole to receive the enlarged tang, the blade being secured in place by swaging the metal of the holster about the base of the blade and the tang, the base portions of the blade each side of the tang being seated in said groove and inclosed by the walls thereof.

920,866. WORKMAN'S TIME RECORDER.

CHARLES T. HAWLEY, Gardner, Mass., assignor to Simplex Time Recorder Co., Gard-

ner, Mass. Filed Aug. 31, 1908. Serial No. 451,070.

In a workman's time recorder, in combination, a time movement, a recording instrumentality controlled thereby including a plurality of printing sets each adapted at a given point of time to record by a single impression upon a record receiving member the elapsed time between said point and the time of commencement of a predetermined fixed period of labor, and means adapted to be operatively connected with any one of the printing sets and thereafter to bring said set into operative relation with the record receiving member.

DESIGNS.

39,945. EMBLEM. ALARIC R. TUCK, Providence, R. I. Filed Feb. 11, 1909. Serial

No. 477,477. Term of patent seven years.

39,946. MEDALLION. ARTHUR A. McRAE,

Attleboro, Mass. Filed Feb. 15, 1909. Serial No. 478,123. Term of patent 3½ years.

Keeler, Attleboro, Mass. Filed Feb. 15, 1909. Serial No. 478,133. Term of patent 3½ years.

BRITISH PATENTS.

(ABRIDGMENTS OF SPECIFICATIONS, 1908, FROM *The Illustrated Official Journal.*)

ISSUE OF APRIL 21, 1909.

28,233. JEWELRY. C. FLINT, Birmingham. Dec. 23. Period for granting patent not yet expired.

A pendant photo-frame comprises a holder *d* having grooved arms *e*, which slide into the case

a and are there retained by one or more springs *g*. The ends *i* of the springs may engage in notches *h*.

28,236. CLOCKS AND WATCHES. T. ADAIR, Belfast. Dec. 23.

Regulators; pendulums.—In the regulating

mechanism of clocks and watches, use is made of a suitable combination chosen from the following elements: an endless screw or screws, a spur wheel or wheels, friction rollers, and a small finely graduated dial with a movable index controlling

the mechanism. Figs. 1 and 2 show the invention applied to a pendulum bob, and Fig. 4 shows the application to a watch. An index *l* moving over a finely divided scale *SD* operates a worm and wheel *ES, SW* and a suitable train of worm, spur or friction gearing where necessary, so that a very small movement of the pendulum bob *B* or of the curb pins *FO*, which control the balance spring, may be produced. The pins are fixed on the last wheel *FR2* of the train, Fig. 4; while in the case of a pendulum, the screwed rod *P* passes through a nut carried by the spur-wheel *SW* in the center of the bob, Fig. 1. When the effect on the time-rate produced by moving the index through a given space has been determined, the adjustment necessary for eliminating the final error is calculated by proportion.

28,623. CLOCKS. M. J. GALLAGHER, London. Dec. 30.

Alarms; illuminated clocks.—An alarm clock of the ordinary type is provided with means for illuminating the dial from the interior, and for extinguishing the light at any predetermined time. The movement is arranged at the back of the case so as to form space for the oil lamp *g* or other source of light adapted to illuminate the opal or semi-transparent glass dial *a*. The dial is provided with the usual setting-mechanism for the alarm, and a second scale *b* over which works a pointer *3*. Brackets *t, u* on a pivoted plate *q*, respectively carry an extinguisher *r* for the lamp, etc., and a lever *w* for supporting the same until it is tripped by a pin *f* on an arm *e*. To set the

apparatus, the plate *q* is pressed back so as to remove the lever *w* from the path of the pin *e*, the hour and minute hands are moved back to 12 o'clock, and the pointer *3* is set to the hour at which the lamp is to be extinguished or the electric, etc., switch opened, the hands being then set forward and the plate *q* returned against the stop *s*. With the scale *b* arranged as shown, the pointer *3* is arranged at an angle of 90 degrees with the arm *e*, and this arm operates the lever *w* after moving 240 degrees from 12 o'clock. In an alternative arrangement, the scale *b* is carried by the hour-hand so as to avoid setting the hands back to 12, and both setting-dials may be arranged at the back.

28,674. COLLAR STUDS. T. MORTON, Birmingham. Dec. 31.

The shank of a stud is provided with an extensible member *15*, one end of which carries the head *17*, the other end engaging in a wire

loop *10*, which serves to prevent the removal of the member *15* and to retain it in position when pressed into the shank *9*, as shown in Fig. 1. Modifications of the arrangement are shown in Figs. 6, 7, 8 and 8a, in which the extensible member *15* snaps behind shoulders *21* provided at the upper end of the shank *9*.

28,691. BRACELETS. M. CASSEL, Baden, Germany. Dec. 31.

In telescopic links of an expansible bracelet, the inner spring-pressed portion *f, f'* may be drawn out at one or both ends of the surrounding tube *g*. The inner portion, such as *f*, may have a longitudinal slot through which passes a pin *d*, the spring being in this case located between the pin and the end of the piece *f*; or the spring may be coiled round the inner portion, the pin and slot

being then dispensed with. The links may be connected directly or by rigid pieces *i*, and may be arranged in parallel sets jointed laterally, Fig.

4. Two of the inner members may be connected by arcs *k* to form a single link, Fig. 6.

UNITED STATES TRADE-MARKS.

[The following trade-marks have been adjudged entitled to registration under the act of Feb. 20, 1905, and are published in compliance with Section 6 of said act. Said section provides:

"Any person who believes he would be damaged by the registration of a mark may oppose the same by filing notice of opposition, stating the grounds therefor in the Patent Office, within 30 days after the publication of the mark sought to be registered, which said notice of opposition shall be verified by the person filing the same before one of the officers mentioned in Section 2 of this act. If no notice of opposition is filed within said time the commissioner shall issue a certificate of registration therefor, as hereinafter provided for."

Marks which are stated to have been "Used 10 years" are registrable under the last proviso of Section 5 of said act, which is as follows:

"And provided further, that nothing therein shall prevent the registration of any mark used by the applicant or his predecessor, or by those from whom title to the mark is derived, in commerce with foreign nations or among the several States, or with Indian tribes, which was in actual and exclusive use as a trade-mark of the applicant or his predecessor from whom he derived title for 10 years next preceding the passage of this act."

PUBLISHED MAY, 4, 1909

Ser. No. 40,571. (CLASS 28. JEWELRY AND PRECIOUS METAL WARE.) PARKS BROS. & ROGERS, Providence, R. I. Filed Feb. 16, 1909.

O. K.

Particular description of goods.—Cuff buttons and links.

Bids Solicited by Government to Supply Various Articles to the Picatinny Arsenal.

WASHINGTON, D. C., May 5.—The commanding officer of the Picatinny Arsenal is inviting proposals for supplies until May 26 for the fiscal year ending June 30, 1910, and among the items called for are the following:

- For six dozen watch glasses, three inches in diameter.
- For four dozen watch glasses, 3½ inches in diameter.
- For four dozen watch glasses, four inches in diameter.
- For four dozen watch glasses, 4½ inches in diameter.
- For five dozen thermometers, 11 inch, 20° C. to 120° C.
- For two dozen thermometers, 14 to 16 inch, 0° C. to 250° C.
- For one dozen thermometers, 14 to 16 inch, 0° C. to 360° C.
- For six dozen thermometers, 16 inch, 0° C. to 400° C.
- For one dozen thermometers, 11 inch, 20° F. to 220+° F.
- For one dozen thermometers, M. & M., registering 20° C. to +150° C.

Gus. Chellin, Dassel, Minn., has located at Litchfield, Minn.

Lancaster, Pa.

F. A. Peters and W. F. Meiskey, of the H. S. Meiskey Co., visited New York last week.

Jack L. Straub sailed last week from New York for an extended sojourn in the Old World.

Harry Charles, Mountville, has taken a position as watchmaker with J. E. Schimpf, Scranton, Pa.

Edward Rosenstein, of the Lancaster Silver Plate Co., was one of the exhibitors last week in Lancaster's big horse show.

Ivan W. Hershey, an engraver with the George T. Brodnax Co., Memphis, Tenn., last week visited Dr. E. R. Hershey, Lancaster.

Fred. A. Wheeler, one of the traveling representatives of the Non-Retailing Co., and his wife, are on a 10-days' visit to relatives at Rutland, Vt., and Keene, N. H.

Edgar Brenneman, jeweler and engraver for his brother, Clayton G. Brenneman, Altoona, has taken a position for the Summer with J. H. Sawyer, Bar Harbor, Me. He visited his parents in Lancaster last week before going to Bar Harbor.

A large show window of Watt & Shand's store was devoted last week to a display of the beautiful gold, silver and bronze medals and silver cups that were the prizes of the interscholastic athletic meet at Franklin and Marshall College on May 8. They came from G. William Reisner's establishment.

Frank M. Dietz, Mechanicsburg, Pa., who has taken a position with J. H. Sensenig, New Holland, as watchmaker, was a student of the Ezra F. Bowman Technical School here. H. F. Wilhelm, Statesville, N. C., has entered this school as a student in engraving and watchmaking. G. L. Gardner, Fort Meade, Fla., is taking a course in watchmaking. Robert Boyd Pultney, New York, has entered as a student in watchmaking.

The Lancaster friends of Max Schallman, who until May 1 was a student of the local technical school, were shocked last week to learn of his suicide, May 4, at Hagerstown, Md., where he had gone to visit his uncle, Isadore S. Kahn, a jeweler. Schallman took a cab to Fairmount Park, dismissed the driver, and then shot himself with a revolver he had purchased en route to the park. The suicide, who was 35 years old, was a German by birth, and had traveled all over the world. He came to Lancaster several months ago, intending to learn watchmaking, but left before finishing his course. It is believed his mind was unbalanced, and various circumstances indicate he had long contemplated self-destruction.

In mentioning the incorporation of the Chase-Hoffman Co., which is conducting a jewelry store at Springfield, O., a note in THE JEWELERS' CIRCULAR-WEEKLY recently stated that John F. Garland will represent this company on the road. This we learn from the Chase-Hoffman Co. is incorrect, as Mr. Garland, who now represents a large jewelry manufacturing concern, is only a stockholder in the Springfield house, and is not acting as its representative on the road.

Now It's The Lord Elgin

The demand to-day is for thin watches.

The public have been waiting for a thin Elgin Watch—now it's here—the

LORD ELGIN

The
Thinnest
Watch
Made
in
America
with
Enamel Dial

the thinnest watch made in America with enamel dial.

Like all Elgin Watches—it was not put on the market until worthy to carry with it the Elgin reputation for reliability.

Every Lord Elgin is cased at the factory and timed in the case—the most accurate thin watch in America.

Four grades—7, 15, 17, and 17 Jewels adjusted. 18K and 14K solid gold cases, also 25 year filled cases.

Furnished with metal dials, plain or engraved, gilt or silver.

Prices furnished on application by your jobber, or write the Company for only authorized price list.

ELGIN NATIONAL WATCH COMPANY,

Factories, Elgin, Ill., U. S. A. New York Office, 11 John St.
General Offices, 131 Wabash Ave., Chicago

THE HOROLOGICAL REVIEW

The Mechanism of the Unique Clock in the Eiffel Tower in Paris.

THE unique clock in the great Eiffel Tower, in Paris, has already been described in THE JEWELERS' CIRCULAR-WEEKLY. As was told at the time, large electrically illuminated figures indicate the hour and the minute and the time can thus be read at considerable distance. A graphic

FIG. 1.—THE CLOCKWORK DEVICE.

description of the mechanism of this clock is quoted from the *Scientific American*:

The mechanism which serves for lighting and cutting off the lamps according to the hour and minute is divided into two distinct parts, one of them being the contact device which is operated by means of the clock, and the second part being a series of relays carrying a heavy current and serving to distribute the current to the lamps so as to form the figures.

The idea which is to be carried out is the following: To give a current impulse every minute by the clockwork, this impulse being derived from a battery of a few cells, so as to avoid having a strong current in the delicate clockwork device, which

tact for figure 2. When this contact is made, a battery current is sent from the clockwork device into the relay device. The relay corresponding to the figure 2 is operated by such current, and the attraction of its armature causes the circuit to be made for the dynamo current which passes into the lamps corresponding to this figure. At the same time the lamp circuit of figure 1 is cut off at the corresponding relay

In the engraving is shown the clockwork device, Fig. 1, showing the manner of controlling the battery circuits. One of the shafts of the clockwork is extended in the rear by means of a second shaft coupled to it. This latter shaft passes first through a device containing a set of gear wheels which will be mentioned below, and then extends past this and over the set of mercury troughs *M*, which are placed side by side and have a rectangular form. Each trough corresponds to one of the figures for the unit minutes and seconds, and there are consequently 10 of these in the series.

Disposed around the shaft is a set of steel pins *P* which project at right angles, and each pin can be made to dip into a corresponding mercury trough. Only one pin can enter the mercury at a time, however. Supposing the pin for minute No. 1 to be vertical, or dipping into the mercury; at the end of the first minute the shaft will have revolved by the corresponding

FIG. 2.—DIAGRAM OF GROUPS OF CIRCUITS FORMING EACH NUMBER.

would need heavy contacts and would thus give too large a mass to be moved. By this small current impulse it is desired to operate a relay of a heavy build, with sufficient mass to take care of the large current which goes to the lamps. Thus when we have the hour 8.31, for instance, and the time comes to change the last figure so as to make 8.32 on the illuminated sign, the rotation of the clockwork puts on the con-

part of the circumference, and pin No. 1 will leave the mercury while pin No. 2 enters it, thus completing the circuit of No. 2, while No. 1 is broken.

This arrangement is very effective and at the same time simple, for it enables us to have a series of contacts made by the delicate clockwork without interfering with the action of the latter. It is to be noted that for such a device as the present one

the clockwork must run very accurately in order to indicate the exact time, and there must be no friction which would interfere with its movement.

It only remains to secure a similar set of contacts for the second figure (every 10 minutes) and the third figure (every hour) or in our example 8.32, the figures 3 and 8. For this purpose the gear device contains a second and a third shaft *B* and *C*

FIG. 3.—DIAGRAM OF LAMP CIRCUITS.

which are coupled to the first by gearing. Shaft No. 2 revolves once for six revolutions of No. 1, that is, for the figures from 0 to 5, while shaft No. 3, for the hours, has 12 figures to take care of, and revolves once in each hour, being geared in like manner. Around each of the shafts there are fixed steel pins as on the first shaft, and for these there is a corresponding number of mercury cups for the contacts. Thus it will be seen that during the entire period of 12 hours we are able to close

FIG. 4.—ONE OF THE RELAYS.

the circuits for the hour, minute and second in the proper succession.

This series of impulses is made to work the second device which contains the relays for throwing on the lamps. As will be noticed in the engraving, it consists of a long table upon which are mounted as many relays as there are contacts mentioned above, each relay corresponding to one figure in the lamp sign. In order to simplify matters, however, there is not a single circuit for each figure, but on the contrary the figures are decomposed into elements which are common to each. This will be observed in the diagram (Fig. 2), where the figure 0 is made up of the elements 1, 2, 3 and 4; figure 2 of elements

Success.

1, 7 and 8; figure 3 of elements 9, 10, 11 and 2, and so on. The positive wire of the lamp circuit is common to all the lamps on the signboard, while the negative circuit is used to make the branch circuits to the separate elements (Fig. 3).

For element No. 0 we have one wire of the dynamo (+) going direct to the lamps (which are coupled in parallel), and the second wire of the dynamo (-) goes first through the relay and then to the lamps. From the elements 1, 2, 3, 4 of the figure 0 we thus have four wires going to corresponding relays. In the diagram we observe the dynamo wire + which is common to all elements, while the negative wire passes into a mercury cup *A*. Into four corresponding mercury cups are brought the wires from the four elements,

FIG. 5.—CROSS CONNECTION OF PULLEYS.

so that should we make a contact between cup *A* and all the others by a common bridge-piece, we thus send current into all the four elements 1, 2, 3 and 4.

In practise this is carried out by the type of relay designed for this purpose by M. Hourko. It has the advantage of being very solid, and there is nothing to get out of order, which is an essential point in the working of a device of this kind, as it must not, of course, require to be looked after. The diagram in elevation and plan (Fig. 4) shows one of the relays for one main contact (*A*) and four lamp elements. It thus has five mercury cups.

Above the cups *A*, 1, 2, 3, 4, is a metal casting which carries five carbon pieces, and one carbon dips into each mercury cup. When this contact piece as a whole is brought down, all the carbons dip into the cups, making the connection between all the cups by means of the metal. Thus the main wire *A* is connected to all the lamp elements by a simple movement of the bridge-piece *B*.

This movement is carried out by attaching this piece to a lever *L* which works above an electromagnet *C*, using for the purpose an insulating block *D*. The lever is pivoted on the shaft *E* and carries on the rear end the counterweight *F*. Current from the battery circuit enters the electromagnet by a wire coming from the clockwork device (the other pole being grounded). When, therefore, there is a contact made at the clockwork, the armature is attracted and the lever drawn down, making contact at the mercury cups. At the hour 8.30 we have three of the relays drawn down, namely, those corresponding to hour 8 (in the hour set), the figure 3 of the 10-minute set, and the figure for minutes, 0.

When the contact is now made for 8.31, the minute relay for the number 1 is thrown on, and number 0 is released. The sign thus shows 8.31, and so on. It will be noted that the relays are disposed in groups according to whether they are used

for hours, 10-minute figures or the minutes.

M. Hourko found that in practise it was not desirable to use springs upon the relays in order to give the release of the armature when the current is broken. He therefore uses a counterweight to bring back the lever, combined with a system of catches which lock the levers when they are drawn down. This is clearly seen in the diagram (Fig. 5), which shows two consecutive relays, 1 and 2. Relay 1, carrying the magnet *C*, lever *L* pivoted at *E*, and the counterweight *F*, is provided with a pin *H* which works with a catch *G* mounted on a spring blade *S* in such manner that when the lever descends it is locked under the cam, having pushed it aside in the descent.

On relay 2 there is a similar arrangement. The tops of the two blades are cross connected by a light steel rod *J*. When relay 2 has the current thrown on (No. 1 being now off), its lever descends, pushing the cam *G'* to the left, and this movement is transmitted by the rod *J* to the cam *G*, which moves to the left and releases the pin of its lever. The latter is then brought up by the counterweight.

Time—Solar and Sidereal.

(A lecture by PROF. LEAHY, of the University of Sheffield, before the Sheffield and District Watchmakers and Jewelers' Association, at Sheffield, Eng., March 24.)
(Continued from issue of May 5.)

THE THREE TIMES.

THERE are as a matter of fact, three different kinds of time—apparent solar time, mean solar time and sidereal, or star time. The apparent solar time is given by a sun-dial, but no good clock could be set to keep apparent time, for the length of every apparent solar hour is different, because the sun moved so irregularly. Mean solar time, by which we set our clocks, is the time given by an imaginary sun which moves regularly and agrees with the true sun on the average. Such a body cannot, of course, be observed; the practically observed time is the sidereal time.

The sidereal time, or the time by the stars, is the exact time which the earth takes to turn upon its axis; the practical definition of mean time, which is the time in ordinary use, is the time by a clock which loses on the star clock three minutes 56.55 seconds every mean solar day. Such a clock, on the whole, keeps pace with the sun, but it is sometimes 14 minutes fast on the true sun, sometimes behind it. The difference between the hour given by the clock—that is, the mean solar clock—and the hour as given by the true sun, is called the equation of time. This changes every hour, lying between 14 minutes on the one side and 16 minutes on the other; but the correctness of the time given by our clocks cannot be checked by the true sun, which is too irregular, nor by the mean sun, for that does not exist. It is in the end checked by the stars.

In order to show how this checking of a sidereal clock, from which all other clocks are regulated, is done, let us look at the inside of a transit telescope, with the wires illuminated. You must suppose yourself to be looking through a properly adjusted

transit telescope. You see, stretched across the middle of the telescope, five vertical wires. The central of these five wires marks the meridian, the north and south line; when a star is exactly on this line it is exactly to the south. If the moon is as small as pictured here, a star would take about two minutes to move from wire to wire, and about eight minutes to go across the five wires; but in most instruments the time is much less than this. In our instrument in Western Park a star takes about 15 seconds from wire to wire, and a minute to pass all five. In the picture you see a small spot, which is a star, just past the first or the right-hand line; a ring, which we may suppose to be a nebula, just past the middle line, another star just coming to the left-hand or last wire. The moon is approaching the first wire, and would reach it in a few seconds.

An observation is taken in the following manner: There is a clock which keeps time, not with the sun, but with the stars, the sound of whose ticks can be heard, near the instrument. Just before the star reaches the wire you note the minute and second shown by the clock; then, either jotting this down—say, 16 minutes 20 seconds after 10—or remembering it, you watch the star come up to the wire, counting 21, 22, 23, 24, and so on until, just as the star is on the wire the clock ticks, say, 25. You note this time, wait till the star gets near to the next wire, and start counting again, the time being now, say, 18 minutes 10 seconds after 10. Counting as before, you note that the star is on the next wire at, say, 18 minutes 16 seconds, and so on, for each wire.

Now you must, by previous observations, know exactly how long a star should take to go from the first, second or other wires to the middle wire. If the star should take three minutes 55 seconds from the first wire to the middle one, the time across the middle wire from the first observation will be 16 minutes 25 seconds plus three minutes 50 seconds, or 20 minutes 15 seconds. If it takes two minutes from the second to the middle, the time by this observation across the meridian will be 18 minutes 16 seconds plus two minutes, or 20 minutes 16 seconds; and, taking the time across all the five wires, you will have five observations to give you the instant at which the star passed the middle wire, all giving, if you have done your work properly, a time between 20:15 and 20:16. As I have said, the time between wire to wire is usually not two minutes, but 12 to 15 seconds.

You can generally estimate fractions of a second up to about a tenth of a second with great accuracy, for if in an ordinary instrument a star was where the star just coming to the left-hand wire when the clock ticked, it would be about the distance of the edge of the nebula, just past the middle wire from its wire at the next tick. If I saw a star thus in my telescope I should estimate the time, if the tick of the clock gave 20 minutes 30 seconds past 10, as 30.3 seconds. A good observer will not get the time across the middle wire different by more than one-tenth of a second as given by the different observations over the five wires.

(To be continued.)

IMPORTANT TO KNOW!

Every jeweler who even pretends to keep abreast of affairs in his trade should know this about the most prominently advertised watch before the public to-day—

The "I-T" is an entirely reconstructed and improved product absolutely superior to **any** 7-jewel watch heretofore on the market, regardless of price or reputation. If this is true—and an examination will prove it—should you not be informed about it? The coupon below will bring the evidence.

- 1) Sold only direct to the retail trade.
- 2) Only responsible jewelers can handle them.
- 3) Retail prices absolutely restricted.

The Chronometer Cup for the Besançon Tests.

ON the front page of this issue will be found an illustration of the chronometer cup, awarded each year to the manufacturer submitting the best chronometer to the observatory at Besançon; it has, in French horological circles, the same significance as the Gordon Bennet and Florio cups, etc., have for automobiling, aviation, etc.

It is the ambition of every Frenchman connected with the manufacture of watches on a large or small scale to secure the chronometer cup, the object of which is to promote the superiority of French watch-making and to create among manufacturers a spirit of emulation, which is certainly fraught with excellent results.

The prizes awarded for single pieces submitted to the test, in addition to the chronometric cup are the diploma of the gold medal, the diploma of the silver medal and the diploma of the bronze medal. They are awarded according to a descending scale of merit as follows:

Chronometer Cup—To the chronometer classed first with a minimum of 225 points;

Diploma of the Gold Medal—To the chronometers coming next to that to which the cup was awarded and having at least 200 points;

Diploma of the Silver Medal—To chronometers accorded between 175 and 199 points;

Diploma of the Bronze Medal—To chronometers in a class receiving between 150 and 174 points.

The chronometer cup is a beautiful work of art, the creation of a leading Pansi firm of silversmiths, and donated, by public subscription, to the syndicate of manufacturers of watches at Besançon. It is temporarily held by the successful manufacturer during the year following the competition at which it was awarded to him. It becomes the permanent property of a manufacturer who may win it at three consecutive competitions.

The diplomas of the gold, the silver and the bronze medals entitle the recipients to have struck, at their own expense, the medal corresponding to the distinction accorded them, at the mint, from dies belonging to the observatory.

The commission of the chronometer cup is under the presidency of M. Lebeuf, director of the Besançon observatory, assisted by M. Adler, president of the Besançon horological syndicate, who gave orders to Messrs. Boin-Henry, the well known goldsmiths, for the work of art, which was first awarded in 1907.

With a view of imparting to this trophy a highly artistic and appropriate character, the commission sought to depart from beaten paths and their choice fell on a composition admirably appropriate to the object of the competition. Urania, the muse of astronomy, is represented as reclining gracefully on a celestial sphere, gravely meditating, compass in hand, on the discoveries of astronomy and the measurement of time. She dominates, in a graceful position, a decorative whole, composed of the customary attributes of time.

The work reposes on a base embellished with a series of pretty decorations à la cloisonné. The metal parts are in silver gilt,

combined with white marble and dark blue, producing a beautiful effect. On the front is a scroll, bearing the inscription, "*Coupe Chronometrique de l'Observatoire National de Besançon.*" At the sides of the base small panels are provided, on which will be engraved the names of the various winners of the cup.

It is evident that the artists have devoted to its execution all their skill and that they have been very successful in their beautiful composition. C. A. B.

How a Famous Old English Clock Fell Into the Hands of the Chinese Prime Minister.

IN the 18th century an ingenious jeweler named James Cox of Shoe lane, London, constructed a clock which was rendered perpetual by a cleverly contrived attachment which utilized the rise and fall of the barometer to supply the necessary energy.

The movement of the mercury actuated a cog wheel in such a manner that whether the mercury rose or fell the wheel always revolved in the same direction and kept the weights that supplied the movement of the clock always wound up. The barometer bulb dipped into a mercury cistern. The cistern hung attached to the extremities of two rockers, to the left end of one and the right end of the other.

The bulb was similarly attached to the other extremities of the rockers, which are thus moved every time there is a change in the amount of mercury in bulb and cistern respectively. The rockers actuated a vertical ratchet, and the teeth were so arranged that the wheel they controlled could only move in one direction, whether the ratchet ascended or descended.

The clock itself was an ordinary one, but of very strong and superior workmanship, and was jeweled with diamonds at every bearing, the whole being enclosed in a glass case which, while it excluded dust, displayed the entire mechanism. The fate of Cox's clock was brought to light in a work called "Travels in China," published in 1804 and written by John Barrow.

In this book it is stated that in the list of presents carried by "the late Dutch Ambassador" were "two grand pieces of machinery that were part of the curious museum of Cox." One of these apparently was this perpetual clock, and it was taken by the Dutch Embassy to China, where in the journey from Canton to Peking both the instruments suffered some slight damage. Efforts were made to repair them at Peking, but on leaving the capital it was discovered that the Chinese Prime Minister Hottchang-tong, had substituted two other clocks of very inferior workmanship and had reserved Cox's mechanism for himself."—London Times.

The South Bend Watch Co., South Bend, Ind., is distributing to the trade a 12-page pamphlet, 10¾ inches wide by 15¼ inches high, announcing what the concern is doing in the way of advertising its products to the consumer. The pamphlet contains illustrations of some of the advertisements which are being used, and also of the firm's window displays.

Nickel Steel.

Written expressly for THE JEWELERS' CIRCULAR WEEKLY by H. REINECKE.

DURING the closing year of the last century experiments by Dr. C. E. Guillaume at the Sèvres Office of Weights and Measures have revealed the fact that steel liberally alloyed with nickel produces a compound with a very small co-efficient of expansion. Dr. Guillaume found the co-efficient of expansion of steel alloyed with 36.2 per cent. of nickel to be but eight; in comparison with brass, 189; steel or iron, 108 to 122; glass, 80, and wood, 44.

Professor M. Thury conducted some experiments with the view of determining the variations in the elasticity of Sèvres alloy when subjected to changes of temperature, and he discovered that in a range of temperature of 22° centigrade (+ 15° to 37° Cent.), the elasticity actually increased with a rise in temperature, thus reversing the behavior of steel under similar circumstances.

Later experiments by the firm of Krupp, of Essen, and by Professor Riefler, of the firm of Clemens Riefler, of Neuchwang and Munich, have confirmed in a similar degree the results of such experiments. The only drawback in employing this alloy indiscriminately in horology is the further discovery that it cannot be obtained in a perfect molecular combination from the furnace, and that it requires a further tedious thermal and vibratory treatment to remove an internal tension with which it is permeated. This tension is removed by many successive and gradually decreasing heatings, beginning with about 180 degrees. The metal is belabored and beaten after each heating until a normal temperature has demonstrated that an even molecular condition of the alloy has been reached. Such a process may occupy weeks of time. The early employment of nickel steel for pendulum rods has not been entirely satisfactory, but recent observatory trials of chronometers with Guillaume nickel steel compensation balances have been satisfactory and have shown better results than those of the former brass and steel construction.

The importance of a durable adjustment for marine chronometers is not as great as it was in the time of sailing ships, when the English Government awarded to E. J. Dent a prize for having produced a marine chronometer which preserved a uniform rate at the Greenwich Observatory for 12 months, with a daily variation of 0.54 second under changes of temperature. It is to be hoped that the new discovery of nickel steel may equal or excel such results. Alternate tests of the same chronometer at different observatories have not given much hope of the realization of such expectations. The future, however, may lead us to a better understanding of the new discovery.

Harry Atlas, jeweler of Vallejo, Cal., who was arrested a few weeks ago on a charge of obtaining money under false pretense, preferred against him by Mrs. Pellew, has been released, the charge having been dismissed. The testimony brought out at the preliminary examination showed that there was nothing on which to base the accusation.

STORE KEEPING DEPARTMENT

That this department shall prove mutually beneficial to our readers, it is desirable that the members of the trade generally communicate with THE JEWELERS' CIRCULAR-WEEKLY regarding any advantageous device or plan which they are utilizing in connection with their business.

A Timely Memorial Day Display in Deference to the Blue and the Gray.

MEMORIAL DAY is now observed both by the North and South. In some parts of the country it is popular on that day to bring out the fact that this is a united country and civil war grievances are becoming a matter of tradition. The descendants of the blue and the gray fraternize together and honor the heroes of

names of the prominent generals of both sides. Lay these around the sides of the raised platform.

The background for the flags and streamers should be gray or white, preferably gray, and concealing a wooden frame for supporting the flags, etc. The shield can also be of gray with blue lettering, and

ORIGINAL MEMORIAL DAY DISPLAY DESIGNED ESPECIALLY FOR RETAIL JEWELERS.

both sides alike; so it is appropriate to build up a window with a large loving cup as the central object.

Flank this with two bronze military statues, Union and Confederate soldiers, if possible. Two more smaller loving cups can be placed on either side. In back of these, bank some evergreen for contrast. These objects should be on a raised semi-circular platform but an oblong one could be used instead.

Cut out circulars of cardboard and fasten necklaces, watches and chains around the edges. In the center of these print the

should be made of heavy cardboard. The streamers can be made up of evergreens, immortelles, and various leaves and flowers bound together with wire. Use long branches for the purpose. Place a nice bouquet of roses in the central loving cup.

The rest of the display can be made up from stock or souvenir spoons, patriotic society, fraternal order, college and athletic emblems, pins, charms, medals, rings, etc. It would be appropriate to have the platforms in dark blue for this window design, instead of the usual black, keeping to the bright and attractive effect.

Business Growth.

MODERN business, in order to be successful, requires continuous expansion. To attain this growth one must either sell more goods to old customers or attract new trade.

Additional sales to old customers are necessary to prove that the goods one sells are satisfactory and that one retains the confidence of one's regular patrons, but to depend altogether on them would be fatal to any business, for no matter how loyal they are one cannot get enough extra trade from old customers to offset the natural percentage of loss (of custom) which every firm experiences.

Therefore, to increase volume of business done one must seek to attract new trade. Naturally window displays are of first importance in developing and promulgating retail trade. Proper management will go far toward retaining customers thus attracted.

Impressions made on new buyers entering your establishment are of vital consequence. Particular care should be taken to be most patient with them, as people cannot be expected to "catch on" to the little peculiarities of your store (and every business has some) without explanation. Do not expect them to familiarize themselves with your methods. Being "snappy" about such matters and over-punctilious has cost many a store good customers. An ounce of tact outweighs tons of argument. The successful merchant is he who holds his trade.

Have one price and one way of treating all customers new and old; be polite and considerate, but avoid making distinctions. Petty favoritism shown to some and difference in prices often leads to unpleasantness and consequent loss of trade. Give all your customers a "square deal" and resulting increase in business will be shown.

Manner and manners go far toward securing confidence of the newcomers, which makes steady buyers of them. Impress customers the fact that you want to satisfy them. If customers want goods exchange one must do so anyhow, so why not make it a practice to inform them that if for any reason they are disappointed or displeased with goods purchased they are at liberty to return articles and make another selection. This may involve a little extra work for the salesman at times, but it will do much toward establishing good feeling.

It's the come-back-again trade that you are after, and the best way to get it is

Storekeeping Department.

give people such treatment as will induce them to return.

Quality is another important consideration. A good rule is to conduct your store on such a basis. Keep ahead of the other fellow; the wares you offer should be good quality—the best you can get. This establishes your reputation for good values, and if prices are fair and reasonable one will surely find quality a big drawing card.

Prices count in business nowadays, and right buying is required to enable one to offer inducements equal to if not better than those of competitors. Neither chance nor luck will make the business increase—it is careful buying and liberal selling, combined with intelligence and courteous treatment, that make the successful merchant of today.

OTTO S. JONAS.

The Way of the Enterprising.

A SPECIAL window display of cut glass was made by Hess & Slager, Jacksonville, Fla., just before Easter. This display

ENTRANCE TO THE GROGAN STORE.

was arranged on a dining table and was embellished by flowers, candles and polished silver.

* * *

A unique Easter display made by David Jacobs, a jeweler of Muskegon, Mich., consisted of a scene depicting a lagoon with water fowl. A large plate glass mirror was placed in the base of the window to represent the lagoon, and sand was arranged all about it for the shore. Swans, ducks and other water fowl floated about the lagoon among small sail boats, while rows of trees were represented as growing on the shore. Scattered about the sand were various makes and patterns of watches, etc. In the rear corner of the window was a stuffed white owl with outspread wings. The owl stood in a nest in which eggs were represented by watches.

* * *

The Donavon & Seamans Co., Los Angeles, Cal., has in its north window what is claimed to be the finest display of ecclesi-

astical goods, chalices, candlesticks, rosaries, etc., ever seen in that city. In the other window are more than 30 handsome loving cups, all of different designs.

The New Establishment of the Grogan Co., Pittsburg, Pa.

AFTER an occupancy of more than three-score years of the location at the southwest corner of Fifth Ave. and Market St., Pittsburg, Pa., the Grogan Co., April 1, moved to their new home in the Home Trust Co. building, occupying the southwest corner of Wood St. and Sixth Ave. The new home of the jewelry company was especially equipped for the needs of the firm, and is up to date in every particular. The store is 35 by 60 feet. The room has six show windows, built especially by the company.

The windows are 7½ feet wide, four feet deep and 12 feet in height, and have been upholstered in green silk and satin, giving them a finished and attractive appearance. The dignified portal of the store is of such solid magnificence that it gives one a

the show cases resting on Italian marble pedestals, while the wall cases are heavy and stable. There are comfortable chairs within the store, where one may sit and rest. The store has been well supplied with grandfathers' clocks, and the entire tone of the establishment is dignified and inviting.

The firm was originally founded in 1839 by Henry Richardson. Upon his death Louis McIntosh became the proprietor. J. C. Grogan entered the establishment in 1862, he then being young in years, but with a keen eye for business. In 1878, as a result of the fruits of his labors, he entered into partnership with A. Merz, when the business was taken over by them, the firm being styled Grogan & Merz. This firm continued until 1889, when Mr. Merz retired, J. C. Grogan becoming proprietor.

In 1902 the firm of J. C. Grogan & Co. was organized. In appreciation of the value of the work of the people about him, Mr. Grogan admitted John S. Crawford, Francis A. Keating, William J. Sample and A. L. Boehm in partnership. The firm was incorporated in 1906 under the name of the

INTERIOR OF THE ATTRACTIVE STORE OF THE GROGAN CO., PITTSBURG, PA.

feeling of confidence upon entering the establishment.

On the left of the entrance is situated the clock and watch department, and on the right the repair department and department for special order work. A designer is in charge who submits samples. The jewelry department is in the center of the store, with the silver department in the rear. The basement of the store is used for storage purposes and for shop work and engraving. The pavement was taken out in Sixth Ave. and glass substituted in order to give good light and ventilation. An air of refinement and gentility is carried out in the establishment. Light green is the prevailing color, and the frescoed figures around the border are mere suggestions of frescoing rather than a defined attempt at any theme. Handsome chandeliers, four in number, swing from the ceiling by silken threads and help to form a pretty picture. The lighting arrangements are superb.

The fixtures are finished in mahogany,

Grogan Co., Mr. Grogan becoming president, Mr. Keating vice-president and treasurer, and Mr. Sample secretary. These, with Mr. Boehm and M. L. Cronin, constitute the board of directors, Mr. Cronin having been added to the firm. As an expression of good will, members of the trade, some of them competitors of the firm, sent floral offerings to the house on the date of the formal opening, April 5, when the accompanying pictures were taken.

The Celebration of "Baby Day."

MILWAUKEE celebrated "Baby Day" recently, and efforts were made to collect funds for the aid of the Milwaukee Infants' Home and Hospital. Several jewelers took an active part in the campaign and many unique window displays were shown at various establishments. The Alsted-Kasten Co. had an interesting exhibit of baby jewelry in its window which attracted considerable attention.

A Sketch of the History and Development of the Glass Industry.

(Randolph I. Geare, in *The Glass and Pottery World*.)

IN the world of industrial development the limit of achievement reached by one generation serves, speaking generally, as the starting point for the next one. Thus there is a succession of inventive resources, each period of development linked to and dovetailing into its predecessor.

Not infrequently the beginning of an industry is founded by chance. Thus it was with musical instruments, when the rhythmic sighing of the wind on the willows, and later on strings, suggested a musical scale and the construction of an implement to produce it systematically. So was it, too, in the case of the glass industry.

The discovery of glass is generally attributed to those inventive people, the Phoenicians. A company of merchants preparing a meal on the seashore by chance placed a cooking vessel on a mass of sub-carbonate of soda, resulting in the union of the sand and alkali, which, being subjected to the heat of the fire, produced vitrification. The Egyptians, however, seem to be the first people to have put this discovery to a practical use, for somewhere between 5000 and 6000 B. C. they made sham jewels of glass, and in some of their most ancient tombs scarabs of glass have been found, in imitation of rubies, emeralds, sapphires and other precious stones. Glass beads, which were also made in great profusion, served as a medium of trade.

It is said that the oldest piece of dated glass was an Egyptian amulet made in 3064 B. C., and now in the British Museum. Blown glass is not believed to have been made for about a century later, and the oldest known representation of glass blowers was painted on the walls of tombs at Beni-Hassan in 2851 B. C. No one knows just when the art of making glass was introduced into China, Persia, Greece, Assyria and Italy, but from early data it is gleaned that certain astronomical instruments were made of glass by the Chinese in 2283 B. C., while various kinds of blown glass were made by the Phoenicians (the first discoverers of the substance) at Tyre and Sidon in 1450 B. C.; glass bowls by the Assyrians in 722 B. C.; sculptured crystal glass by the Persians in 532 B. C.; and glass mosaics, also by the Persians, in 521 B. C. A few years later the same enterprising people invented a transparent glass varnish, which they laid over sculptured rocks to prevent them from disintegration, and this siliceous

coating has lasted to the present day, while the rocks beneath are honeycombed from weathering.

In the following century the Grecians became famous for glass making. They employed glass for architectural ornamentation as early as 409 B. C., and made transparent glass drinking cups in 360 B. C. Two years later Alexander the Great, it is said, was placed in a glass coffin.

Rome followed next in line, establishing glass factories in 54 B. C., when blown, cast, wrought, embossed and cut glass of all kinds and colors was made. The objects manufactured took the form of vessels, bowls, bottles, window glass, mosaics, water clocks, dice, chessmen and many kinds of ornaments. Forty years later flexible glass was made in Rome. Nero was the first great collector of glass and a generous patron of its artisans. It is said that one collection of his, which was confiscated from some offending citizen, included enough vases to fill a large theater in his palace. So common had glass then become that a large number of houses in Rome were decorated with numerous devices in glass, and to Scarus is attributed the enterprise of building a theater capable of holding 40,000 people, the second story of which was actually made of glass.

The most celebrated cameo, perhaps, of all time was engraved on a glass vase. It is commonly known as the Barberini, or Portland, vase, which was taken from the tomb of the Roman emperor Alexander Severus, and should perhaps bear his name rather than that of the Duchess of Portland, who purchased it from the Barberini family after it had stood 300 years in their famous Roman gallery. Copies of this vase were made some years ago by Wedgwood and are now staple in jasper ware.

Much more might be told of the spread of the glass industry in those early centuries, but the reader who is interested in such matters can readily glean the facts for himself from the published records. For the purposes of this sketch what has been said in that direction must suffice, and the next era of special interest to be noted with regard to glass making begins about the seventh century A. D., when Venice was the great center and continued to be so up to the medieval and even more recent times. Venice learned the art from Constantinople, and so successful were her artisans that Venetian glass enjoyed the monopoly of

commerce for a long time, while within recent years there has been a marked revival of the skill and enterprise of her craftsmen. The secrets which the Venetians learned might, indeed, have enabled them to monopolize certain features indefinitely but for the inability of a woman to resist the temptation of entrusting all she knew to her lover. It is recorded that Marietta, the daughter of Beroviero, one of the most famous glass workers of the 15th century, learned the secret of producing colored glass from her father, and in an over-confident moment told it to her lover, Giorgio, an artisan in her father's employ. Being not over-scrupulous in his methods of getting rich, he published and sold the recipes for a princely sum. Perhaps his offense may be condoned at this late day, as the world has been so largely the gainer.

Bohemia became a close rival of Venice, and finally surpassed it both in the quality of glass and in the art of decorating it. This superiority, it is claimed, was due to the fact that Bohemia produced better sand, Bohemian glass stood unrivaled until 1630, when England discovered flint or lead glass. It had greater density, or power of refraction, was softer and lent itself more readily to manipulation, and was the first glass suitable for cutting. Glass that could be cut had long been sought, but until that time only faint outlines and engravings had been possible.

A few years before this great discovery America had appeared on the scene—even before the landing of the Pilgrims at Plymouth Rock. In 1608, near the English settlement of Jamestown, Va., a glass factory was built. At first only bottles were made, and these were the first manufactured articles exported from North America. Massachusetts next fell in line, and not long afterwards a glass factory was built in New Amsterdam, now New York. Little by little the industry grew until, in 1787, a Boston glass company secured the exclusive right to make glass in Massachusetts for 15 years. Other factories sprung up rapidly, and in 1865 there was manufactured near Boston a quality of glass equal to the best flint glass that had ever been manufactured in England.

In Pennsylvania the first mention of glass works occurs in a letter written by William Penn, in 1683, to the Free Society of Traders, but it was probably not until 1795 that the glass industry can be said to have been fairly established there. Two years later a factory for making window glass was started by Albert Gallatin at New Geneva on the Monongahela River. It is described as follows: "The furnace was a small one, with eight pots, using wood as fuel and

ashes for alkali. The glass house was 40 by 40 feet, three sides frame and one side stone. The glass was sold at \$14 for a box of 100 feet."

In the previous year Isaac Craig and James O'Hara constructed the first glass house in Pittsburg, where coal was first used as fuel. These works were near the junction of the Monongahela and Allegheny rivers. It is said that among O'Hara's papers, found after his death, was a memorandum in his handwriting, bearing the words, "To-day we made the first bottle, at a cost of \$30,000," from which it is apparent that he must be counted among the most persistent of America's pioneers in the glass industry.

Maryland played quite an important part in the early production of glass. One of the most ardent pioneers was John Frederick Amelung, who, it is claimed, spent over \$100,000 in his efforts to establish the industry. Being unsuccessful, he left Maryland and helped to start flint works at Pittsburg. A few years later (1790) the Baltimore Glass Works were established, and were later managed by the Baker brothers, who kept them in operation until recent years.

Sixteen years before the colonies gained their freedom a German named Wistar started a glass works at Allowaytown, N. J., and almost continuously ever since bottles, jars, vials and window glass have been manufactured at quite a large number of factories throughout the State.

(To be continued.)

Models of Warships Reproduced in Porcelain.

THE *Königliche Porzellanmanufaktur* (Royal Porcelain Works), of Berlin, recently successfully completed the first attempt to produce a model of one of the German warships in porcelain. The armored cruiser *Scharnhorst* (or *Gneisenau* for both are in every detail sister ships) has been reproduced so perfectly that even the naval expert is constrained to admit the success of the attempt. The piece is about 27 inches long.

The hull of the vessel follows the proper lines of construction; the arrangement of the turrets, the deck structures, the fighting tops, funnels, propellers, everything is exactly and carefully modeled in detail, although the reproduction of the ornate railings and the deck accessories presented the greatest difficulties. The cruiser is mounted on an ornamental base, so that the piece can be used as a table ornament.

It may well be supposed that among professionals and connoisseurs such porcelain models of the vessels of the fleet will be well received. Should they meet with success it is the purpose of the Royal Porcelain Works to produce models of the large battleships, small cruisers and other vessels.

The model of the *Scharnhorst* adorns one of the show windows of the works in Leipzig St., where it attracts much attention from passing observers; for even at last year's marine and naval exposition no model of a warship in porcelain was exhibited.

Winslow Bros., Pendleton, Ore., have sold out to W. E. Haseom.

Conditions of the Jewelry Trade and Their Relation to Credits.

"PROVIDENCE and prosperity" is now the watchword in Providence, R. I., looking to the booming of the commercial and industrial conditions. Among the "boom" literature is the following by Palmer M. Taylor, manager of the Providence office of the Jewelers Board of Trade, concerning "Jewelers' Credit":

"From earliest times jewels, precious stones and works of art have been used as collateral evidences of wealth or riches. Royalty has pledged its jewels for the advancement of nations, the recruiting of wars and the amelioration of distress. Our own continent might have remained undiscovered and the most advanced people of the present time held subject to other powers for centuries longer but for the delicate work of artisans who wrought their genius into ceramics and precious ornaments, jewels which a Spanish queen used to secure a loan with which to promote the venture of a 'dreamer.'"

"Are we losing sight of the representative form of value in the stress of our more active commercial age, or is our vision so astigmatized by our close perspective to our own time and work as to distort our otherwise saner judgment? Art in all the beauty of its growth represents in the final analogy brain, energy and a lavish expenditure of creative power which in turn must gain compensation for its product.

"To this business men are giving their lives, and shall it be said that when their judgment would lead them to reject the false, the untrue, they will still overbear that God-given quality of mind, riding down rough-shod their better sense and understanding. Their works, while they represent the product of the age, are the result of the evolution of time to delight, ennoble and enrich the lives of our people, and are as essential to our well-being as the more material substances by which our bodies are nourished.

"The pleasure of the child in its baby ring or the delight of the mother to adorn the pure linen which enfolds its embryo life by fastenings embellished with new designs, is but the reaching out of a soul for high, pure and uplifting influence, which, as the life matures, becomes the natural demand for other forms of product designed by the skilful hands of jewelers' craftsmen.

"Commercial enterprise, where exchange or money is the commodity dealt in, is surrounded and safeguarded to an extent which commands the respect of a thinking mind, but in this merchandising of jewelry too little regard is paid to the character of those with whom one deals—and they are too infrequently held to strict accountability for their conduct as custodians of one's credit advances.

"There is a looseness, laxness, shall I say, almost criminal carelessness evident in the distribution of jewelers' wares through the channels of trade which boomerangs its direful results on one's enterprise, causing needless loss in business, to associate interests, the community and the country.

"The business of a board manager ap-

pears to be to make whole the broken necks of those who plunge head downward, from a precipice, forewarned and many times foretold. In December last a leading manufacturer, who had sold over a thousand dollars' worth of jewelry to a man whose record had been bad, was advised that if he ever expected to get a dollar out of that account the time to act was then, not later. He trusted to blind fortune to pull him through, with the result that the debtor has now gone into bankruptcy, owing \$21,000, and when the law stepped in there was \$125 value of merchandise found on the premises.

"During the month of January and to date in February there have occurred in the jewelry trade 129 insolvencies, with aggregated liabilities of \$1,301,352 and nominal assets of \$345,888, but \$1,000,000 shrinkage in 45 days. Had the same happenings occurred, with a similar loss, under like circumstances among our banks, insurance companies, trustees' estates or other fiduciary custodians, public opinion would be stirred to its foundations, because of trust broken, or confidence abused. Does this million-dollar shrinkage advance or retard the general interests of the jewelry trade? Most assuredly its effect is far-reaching beyond measure.

"Every dollar of new merchandise which one ships will be subjected to the insidious effects of these insolvencies; the honorable merchant is made less secure in his ability to pay 100 cents when surrounded with goods owned by neighboring and competing stores, which cost them but 25 cents, and which they in turn can sell at 100 per cent. profit at a price one-half less than he pays for his goods.

"Thanks to an everpresent and overruling power the percentage of merchants of this class is not great, but greater care should be used to remove such danger from the trade. One needs not to be safeguarded to any great extent to secure himself against loss from merchants when integrity is good, for if they fail in most instances it will be with slight impairment of value, but one should advance every effort tending to reduce the bankrupting tendencies of the time.

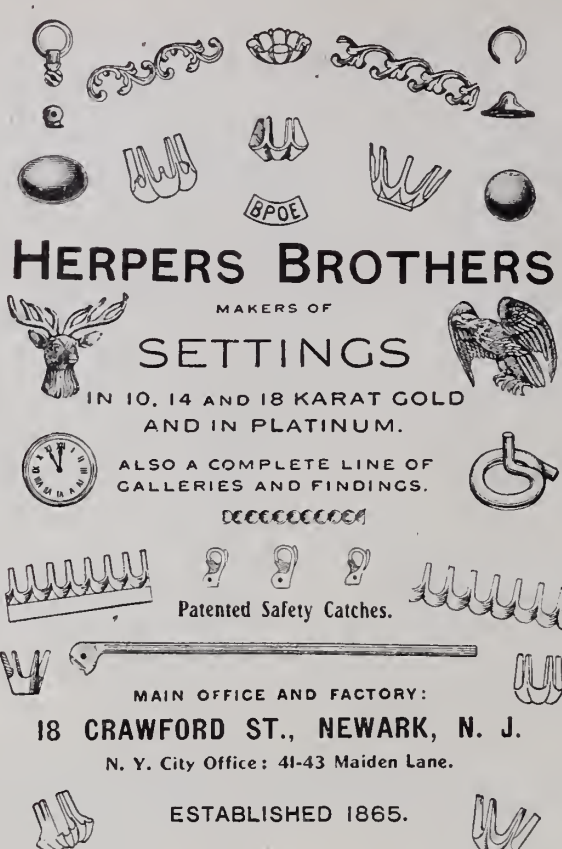

"With the misfortunes incident to trade we can have but the keenest sympathy, and we will, one and all, hold out a helping hand. But for those who attack commercial honor, who abuse our confidence and sacrifice our beliefs in the merit of uprightness, we should furnish no asylum of security."

Kind Words from Readers.

Permit me to say that no live jeweler can afford to be without THE JEWELERS' CIRCULAR-WEEKLY. The fact that it is on hand promptly every week in the year and full of real news, keeping the trade posted on all the good as well as the bad propositions. It is worth many times the small yearly subscription price in keeping the trade wise to the "grafters," "fakers" and "flimflammers," who constantly prey upon those members of the trade who are still in the dark. Yours truly,

A. B. MACDONALD,
Chillicothe, O.

I would as soon think of dropping one meal a day as I would my JEWELERS' CIRCULAR-WEEKLY.

WORKSHOP NOTES AND QUERIES

Answers are also solicited from our readers to the questions published on this page.]
No attention paid to communications unless accompanied by full name and address of the writer.

QUESTION No. 2265.—Aluminum Bronze and Aluminum Silver.—Kindly give a formula for an aluminum alloy which will give me a pale gold color; also a good alloy for an aluminum silver, of silvery appearance. *A. B.*

ANSWER:—A good pale gold appearing aluminum alloy consists of 100 parts of copper and 10 parts of aluminum, measured by weight. This gives a bronze which can be worked like copper. For an aluminum silver alloy use 70 parts of copper, 23 parts of nickel and seven parts of aluminum. This can be highly polished and takes a beautiful silvery color.

QUESTION No. 2266.—Bleaching Coral.—How can I bleach coral? *B. C.*

ANSWER:—To bleach coral, first wash in very dilute hydrochloric acid, then rinse well in water and put in some chloride of lime and water.

QUESTION No. 2267.—Stopping Off Resist for Gilding.—I have difficulty in getting a stopping off resist that will hold in cyanide gilding solution. Can you help me by giving me a good formula? *S. O.*

ANSWER:—It is very difficult to get any stopping off varnish to hold with a warm solution; therefore it is best to use the plating solution cold. The solution, when rich in gold, will work as well as a warm one. Prepare the regular stopping off varnish used in the silver trade by dissolving gum copal in acetone and coloring with blue or purple aniline. Paint this on the article and let dry in the air for a few hours. After gilding, remove the resist with hot potash.

QUESTION No. 2268.—Mercury Spots on Gilding.—Mercury spots often show on gold-plated jewelry which I am unable to remove without doing the piece over again. Is there any method of washing the mercury off so I can save the gilding? *M. S.*

ANSWER:—Mercury spots cannot be washed off unless treated with acid and driven off by means of heat, which, of course, will spoil the gilding already done or will cause it to look faded. The following method, however, is a good one, and is used by many gilders: Hang the gilded piece in the gold solution and touch the mercury spots, one after another, with the corner of the gold anode, several times, using a current strong enough to throw sparks. The mercury will be displaced so the spots can be scratch-brushed and gilded over.

P. Savolainen & Bro., Virginia, Minn., have dissolved, Peter Savolainen continuing alone.

Silver Plating.

By OSCAR A. HILLMAN, in *The Metal Industry.*

AS the present low price of silver has caused an unprecedented demand for sterling and silver-plated articles of almost every description, a large number of platers who have had only limited experience in that line of work are installing silver solutions and are finding that it is comparatively easy to deposit a coat of silver on any metal, but to produce a good, smooth deposit that shall have a guaranteed weight is one of the most exacting branches of plating.

The object of this article is to point out the usual sources of trouble and the way experience has taught to overcome or avoid them. The first point to take into consideration is the available electro-motive force, for unless a current can be obtained that will be adapted to the work it will be a waste of time and money to install the solutions. Pure silver conducts electricity better than any other metal, and as a good solution should be very rich in metal, a current of not more than three volts intensity should be used or the work will burn while plating. As the number of amperes used determines the rate of deposit, it is an advantage to use at least 12 amperes per square foot of cathode surface.

Although all platers know the necessity of having a surface free from all traces of dirt or oxidation, the most common source of trouble in silver plating is imperfectly or carelessly cleaned work, or work that has been bright dipped and afterward exposed to the fumes from acids and become tarnished. All work that has been polished before plating should be washed in a strong soap and ammonia wash, rinsed off, dipped in a hot potash dip, rinsed off, dipped in a cyanide of mercury solution containing 12 pennyweights cyanide of mercury and four ounces cyanide potassium per gallon, rinsed off and struck in the silver strike, then immediately put in the plating tank and left until the desired deposit has been obtained.

SATIN AND OXIDIZED FINISH.

Brass, copper or German silver articles that are to be satin finished or oxidized should be dipped until bright, then satined, after which they are strung up and dipped in a bright dip composed of

- 2 parts nitric acid.
- 1 part sulphuric acid.
- 12 oz. hydrochloric acid per gallon.

rinsed off and dipped in a solution containing per gallon:

- Nitric acid..... 4 oz.
- Mercury 4 dwt.

After receiving a light film of mercury the work should be struck and plated.

If the work to be plated consists of iron or steel as cutlery, manicure sets, scissors, etc., it will be necessary to have the articles polished smooth, then washed off in a strong soap and water solution, afterwards dip in a very dilute pickle of hydrochloric acid and water, then strike at once in the silver strike, and if a good clean deposit is obtained place in the silver tank. If any spots or streaks remain on the work after being struck, give it a good scratch-brushing, wash in the soap wash and dip in potash, strike again, and put in the plating tank.

THE SILVER STRIKE.

The strike solution should be made by dissolving pure silver in nitric acid and precipitating with cyanide of potassium, dissolved in water, until all the silver is thrown down, care being taken not to use too much cyanide, which will dissolve the silver again, causing a loss of metal. For each ounce of silver converted into cyanide of silver dissolve five ounces of cyanide potassium and one-half ounce of caustic soda in a gallon of water, add the silver, which should make the solution a light amber color when it is ready to use.

The reason for using a large amount of free cyanide in the strike is to remove all traces of oxidation, while the caustic soda attacks all oil, crocus, etc., and leaves the work chemically clean, while the thin coat of silver the work receives when in the strike protects it while transferring it to the tank.

THE TANK SOLUTION.

The tank solution in which the work receives a heavy deposit should contain three ounces of silver (converted into cyanide), six ounces cyanide when the solution is first made; after working about two weeks, add an ounce of cyanide per gallon. The tank should be deep enough to allow the work to be suspended in the solution without touching the bottom and wide enough for two anode and one cathode rods. When the plating solution is working right the work should have a smooth, dead-white color after plating and the anodes should have a gray color while working.

If the anodes turn green while working, they contain copper and should be refined or discarded for pure silver ones, or if the anodes turn black it shows a lack of free cyanide or that the solution was made with chloride of silver and contains a large amount of chloride of potassium and needs more cyanide, as good results cannot be obtained for any length of time from a solution that turns the anodes dark. All work that is to be polished after plating should be lightly scratch-brushed and washed off, dried and polished.

Work to be "oxidized" should be dipped in hot water, then dipped in a strong solution of sulphurated potassium until bluish black, and if wanted as oxidized silver, dry scratch-brushed, bright relieved on the high lights on a cotton wheel with fine pumice stone.

For a French gray finish, take the work as soon as blackened and scratch-brush with a brass wire wheel with fine pumice, polish or burnish high lights. Butler finish is produced by scratch-brushing the work after plating, wash and dry, then paint with chloride of platinum, afterward rubbing off with pumice and burnishing.

WE BUY

Old Gold and Silver, Filings, Polishings, Sweeps, Hand Washings, etc. We will make accurate valuations and hold consignment subject to your acceptance. If valuation is not satisfactory, we reship to you at our expense.

WE PAY FOR OLD GOLD:

22 K. 88c. per dwt.	12 K. 48c. per dwt.
20 K. 80c. " "	10 K. 40c. " "
18 K. 72c. " "	8 K. 32c. " "
16 K. 64c. " "	6 K. 24c. " "
14 K. 56c. " "	4 K. 16c. " "

MARKET RATES FOR SILVER AND PLATINUM

WE SELL

Gold, Silver and Platinum, various qualities, rolled flat or drawn to wire of any gauge.

PRICES OF ALLOYED GOLD:

8 K. 42c. per dwt.	14 K. 66c. per dwt.
10 K. 50c. " "	16 K. 74c. " "
12 K. 58c. " "	18 K. 82c. " "

Gold and Silver Solder, either from formulas furnished, or our own. "T. B. H." Alloy, 25c. per oz. Guinea Gold, 75c. per lb. Shot Copper, 40c. lb. We will send tables for alloying without charge. They save figuring.

SPECIAL AND IMPORTANT NOTICE

in ordering Plate or Wire, to avoid delay and errors, be sure to state:

FIRST, THE QUALITY—If Silver, Sterling or Pure. (Coin Silver made up only on order.) If Gold—the Karat. **SECOND, THE QUANTITY**—If Wire, the Thickness and Length. If Plate, the Thickness, Length and Width.

Regarding the thickness it is **most important** to not only state the number, but also the name of the gauge you are using, as there are 13 gauges and no two alike. The most used by us is the Brown & Sharpe **American Standard**, but we will fill your order from any one by stating which you use.

Try us and you will Appreciate our Squareness, Promptness and Accuracy

**SMELTING
FOR THE TRADE**

 KNOWN THE WORLD OVER

Beautifully adapted for the jeweler's stock and show case display—the New Pocket Edition Gillette Safety Razor is becoming an important feature in the best retail jewelry stores.

The demand over the retail counter is astonishing. Every old Gillette user wants the New Pocket Edition and it makes new friends at sight.

The set consists of handle and blade box, either triple silver-plated or 14-k. gold-plated. The pocket case is of gold, silver or gun metal—plain polished or richly engraved in Floral or Empire designs. It is so neat and compact that it will fit like a card case in the waistcoat pocket or slip into the side of a travelling bag—the blades are fine. Prices, \$5.00 to \$7.50.

For the special use of the jewelry trade, the Gillette Company has designed a tray lined with purple velvet, size of the regular watch tray—contains wells for twelve razors. These trays are made in various hardwood finishes to match the store fixtures and are shipped free of cost with the initial order for a dozen razors. Aside from the sales of the razor, the business in blades is a steady income for a store.

Two additions to the Gillette line this season are the Gillette Brush—a brush of Gillette quality, bristles gripped in hard rubber; and the Gillette Shaving Stick—a soap worthy of the Gillette Safety Razor. The stick is enclosed in a sanitary nickel box: both soap and brush are packed in attractive cartons. They will be welcomed by Gillette users everywhere.

Write us for full information. Get our suggestions on popular assortment. Talk to your jobber about it.

ALVIN SILVER

ALVIN MFG. CO.
Silversmiths
 New York

A suggestion at the right time will often consummate a sale.

June is the most popular month of the year for weddings—during June silver will be the first thought for wedding presents, and "The Bridal Rose" is the most appropriate pattern that can be selected; it carries the sentiment of the occasion with it.

Now is the time to stock the full line of ounce goods, fancy pieces and cutlery and be ready for all orders, a single piece or the full set.

WHY!

Fahys Permanent Cases are the Best
Proposition for the Retail Jeweler

BECAUSE!

They have the finish and appearance of a fine
Solid Gold Case.

They have Solid Gold Joints and Solid Gold Bows.

They contain and will assay more gold value
than any other filled case on the market at the
same price.

They have obtained their popularity entirely on
their own merits for **STERLING WORTH** and
INTRINSIC VALUE.

All our cases are made with our patent one-piece pendant,
which eliminates all solder. This patent is
controlled by us exclusively.

Engelsman's Patent "Bayonet" Automatic Locking Stone Tweezer No. 119

The acknowledged superiority of this tweezers over any other of its kind is due to its many improvements and innovations.

First. It will be noticed that the points are grooved, thereby permitting any stone to be gripped *firmer* and *better* than by any other kind of stone tweezers.

Second. It is purposely made a "Bayonet" in shape because any stone can be shown or examined advantageously. It also enables

the user to count particularly small sizes of stones, *easier*, *quicker*, and with much less *exertion* than when using any other style of tweezers.

It has an *extra* part directly above the crossing points to permit the holder to examine the stone without fear of *releasing* it accidentally, which frequently occurs when using the ordinary style crossing tweezers.

Price, Each, \$1.25

GRINDING OUTFIT No. 105

LEATHER DISK. SMALL DISK METAL.

CARBORUNDUM & EMERY PAPER DISKS.

This outfit consists of:

1. Two interchangeable steel disc wheels, 3 3/8" and 1 5/8" in diameter.
2. One interchangeable flexible leather disc wheel, 2 1/8" in diameter.
3. One adjustable hollow spindle for holding the above disc wheels.
4. Eight different grade emery paper discs, 2 1/8" in diameter.
5. Four carborundum paper discs of different grades, 2 1/8" in diameter.
6. Eight different grade emery paper discs 4" in diameter.
7. Four carborundum paper discs of different grades, 4" in diameter.
8. One clamping device for keeping discs flat, when not in use.

Price of Outfit No. 105, complete.....\$1.50
 Separate small emery discs.....per doz. .15
 " large "....." " .20
 " small carborundum discs....." " .20
 " large "....." " .35

This new grinding device should find favor with the trade, being thoroughly practical and complete for all purposes, such as grinding steel tools, glass, enamel or any other metal or substance that can be ground with emery or carborundum. It is of equal value to the watchmaker, jeweler, optician, dentist, lock or gunsmith, platers and kindred trades. It will be found much more economical than solid emery and carborundum wheels. An assortment of solid wheels of twelve different grits would necessitate an outlay of ten times the cost of this outfit, not taking into consideration the trouble of truing up the wheels when worn or glazed.

Full description and directions accompany each outfit.

CROWN CHUCK No. 50

For enlarging or cutting deeper crowns of watch cases. A movable plug in the stem regulates the depth required for various sizes. Four caps of various sizes are supplied with each to hold crowns from small to large. Stem fits in No. 50 wire chuck.

Price, each, \$1.50

For Sale by all Jobbers in the United States and Canada.

ECHARCO WATCH GLASS CABINET No. 15 (Patented)

Price, No. 15, Each \$16.

Top View, Showing Skeleton Frame of Drawer. Accumulation of dust and chips is impossible.

The Most Modern Watch Glass Cases are the Echarco, Nos. 15 and 20.

These Cabinets have many new features not found in any other. Novelty and usefulness are the chief arguments in their favor.

Construction and Material.—The cases are made of oak, finely finished and of attractive appearance. The sides of Cabinet No. 15 are paneled. Partitions are of basswood and put together in the best manner possible.

Partitions are skeleton, preventing accumulation of dust, chips, etc.

The Bottoms of Cabinet No. 15 are hollow, while Case No. 20 has a special drawer to receive chips, dust, etc.

Arrangement for Glasses.—Case No. 15 has nine drawers with a total of 1,547 spaces, and Case No. 20 with four drawers has 784 spaces, to hold glasses in upright position.

Labeling of drawers, as shown in cut, is on the pulls of the drawers and done in gold bronze on black background.

Dimensions and Weight of Case No. 15.—Width, 24 inches; Height, 29 1/4 inches; Depth, 12 inches; Weight, net, 45 lbs.; Weight, including packing case, 75 lbs.

Dimensions and Weight of Case No. 20.—Width, 26 inches; Height, 13 3/4 inches; Depth, 11 3/4 inches; Weight, net, 30 lbs.; Weight, including packing case, 50 lbs.

The construction of drawers, the arrangement of partitions to economize space and weight, and the novel method of showing contents on drawer-pulls are all prominent characteristics and extremely well thought of.

Note What Two Prominent Retail Jewelers Have To Say Regarding The Benefits Derived From Our Catalogs

If You Want to Increase Your Business, Write at Once for Samples and Particulars

STORE OF A. F. HOFFMANN, ST. LOUIS, MO.

Sr. Louis, Mo., April 23, 1909.

THE ARNSTINE BROS. CO.,
Cleveland, Ohio.

Gentlemen—The Catalogs you furnished were an excellent piece of work and would be a credit to any store, likewise the ten thousand large four-page Christmas Circulars. These I had distributed in the section of the city tributary to my store and they brought excellent returns. They had the strength to draw the buying public to my store which made a very large increase in my business.

For ten years previously, I made my own Catalog, but in the future, will send out the ones you make, and the fact that I have just given you a large order for my Fall Catalog proves to you my faith and satisfaction in what you furnished me. I am,

Sincerely yours,

A. F. HOFFMANN.

The Catalogs sent out by this firm in 1908 were made by The Arnstine Bros. Company

PINE BLUFF, Ark., Feb. 10, 1909.
THE ARNSTINE BROS. COMPANY,
Cleveland, Ohio.

Gentlemen—On account of the unsettled condition of the cotton market in this section and low prices, the farmers, as a rule, did not sell their product, thus business in all lines was seriously affected and merchants generally complained of a poor holiday business, but I am pleased to report a large increase in mine over that of 1907, and am convinced that the Catalog accomplished this. I have sent out your Catalogs every year for the past five years, and through them my business has grown from a modest one to the largest in the city and by far overshadowing strong competition.

The goods you furnished, which are illustrated in my Catalog, are of the best standard makes, ready sellers and prices as low or lower than could be procured elsewhere for equal quality. The Catalogs have placed my store most prominently before the people and given it a very high standing.

Will have you make my Catalog again this year. It will be even larger than my 84-page book last year. My mail-order business in the surrounding country is growing nicely. The other large mail-order houses have a strong hold on our farmers, but I am gradually getting it away from them, and I will continue to go after this branch of the business. However, it is in the city where immediate and profitable results are always obtained from the Catalog.

Hoping this information is what you have inquired for, with my best wishes, I remain,

Sincerely yours,
B. GOTTLIEB.

STORE OF B. GOTTLIEB, PINE BLUFF, ARK.

The Catalogs sent out by this firm since 1904 were made by The Arnstine Bros. Company

Our Salesmen visit every State in the Union. If you are interested, and will notify us, our representative will take pleasure in calling on you and explaining our method.

Precious Stones = THEIR DEFINITION ANALYZATION AND ORIGIN

The Products from the Rough of the Himalaya Mining Company

RUBY = SAPPHIRE

(CORUNDUM)

To the Diamond, next in hardness, is Corundum, a specie of mineral consisting of crystallized alumina. There are also small particles of magnesia, oxide of iron and silica in Rubies and Sapphires of colors; but up to the present time it has not been successfully demonstrated what property causes the sapphire to be blue or the ruby red. In artificially making gems to resemble the Ruby or Sapphire, they have been partially successful in coloring the ruby red, but no attempts have been fruitful of securing the sapphire blue in a made stone of the hardness of Corundum. This has only been partly successful in the ruby. Corundum always occurs in crystal formations of six-sided pyramids or prisms, and belongs to the hexagonal or rhombohedral system. The Ruby (Red Corundum) is not quite so hard as the Sapphire (Blue Corundum). Corundum can always be distinguished from all other minerals resembling them in color, as they are invariably dichroic in various colors, and for this reason, by examination with the dichroscope, it will always show with the genuine ruby or sapphire two differently colored squares, and in this manner can be distinguished from all other gems, reconstructed or imitation stones. It is found in all colors, from the deep red of the Siam to the beautiful pigeon-blood of the Burmah ruby, and from the deep ultramarine blue of Burmah to the white of the Ceylon sapphire, and all colors or shades between these, which makes it possible to find the ruby or sapphire in any color or shade.

ASTERIAS — The Star Ruby or Sapphire — is mostly found in cloudy Corundum, very seldom being found in anywhere near to what might be termed a clear stone, and must be cut en-cabochon shape in order to get the best results of the six-rayed star which it shows, and should be cut in such manner that the dome of the stone cuts the principal axis of the prism, the result making this Star, which is due principally to the intimate structure of the crystal.

Star Rubies or Sapphires are very rare in positive colors, and are very commonly found in the light cloudy shades. The principal localities where these gems are found are Burmah, Cashmere, Ceylon, Siam and Montana, U. S. A. Other localities have been worked and Corundum found, but the workings have been abandoned, not being of the paying quality or quantity.

Composition	Alumina
Specific Gravity	3.97 to 4.006
Hardness	9.
System of Crystallization	Hexagonal
Common Forms of Crystal	Double Six-Sided Pyramids, Prisms or as Rolled Crystals

There is no other mineral substance that will scratch a ruby or sapphire except the Diamond. The Sapphire may sometimes make an impression upon the Ruby. Genuine stones can be told from the reconstructed in the following manner:

By a strong microscopic examination, showing the reconstructed or scientific stones in the ruby to be of round strata, closely set one upon the other, or in the scientific, chemically made stone by curved strata and air-bubbles. Very often this chemically or scientifically made stone is harder than the genuine ruby. I would advise, when in doubt, to have these stones tested by an expert mineralogist.

PROVIDENCE, R. I.

CHICAGO: 103 State Street.

This is the season of Graduations, which means *Class Pins*. Why let the business go to the mail order house when with our help, you can secure it. We will send you, on request, our large Catalog of Class Pins illustrating several hundred designs, and will send you sample pins to submit to the class after they have made their selection from the Catalog.

all other necessary information
on every page selected by you

There Are No Strings
tied to our proposition

Our Jewelry Catalog Depart-
ment is in charge of men who
have had many years experience
in this business.

FONTNEAU & COOK CO.

THE name Fontneau & Cook Co. stands out with more prominence to-day than ever before. The goods that we manufacture have given such satisfaction that they have established a foundation as strong as that of the rock Gibraltar—which cannot be wasted away even by a continuous hammering.

The illustrations show samples of a few Bracelets that have aided in giving us prestige.

WE SELL TO THE WHOLESALE TRADE ONLY.

Summer Trade Bringers

SIMMONS LAPEL BUTTON CHAINS

The few patterns shown above will afford an idea of the exceptional style and unusual attractiveness of our new Lapel Button Chains.

These chains will appeal to men who want something especially neat, distinctive and stylish for warm weather wear, and will certainly be good sellers throughout the Summer.

They are made in a first-rate assortment of patterns and, like all Simmons Chains, their dependability is absolutely assured.

Try a sample dozen or two; any prominent wholesale jewelry house will fill your order.

SIMMONS GOLF CHAINS

These chains have amply proved their worth and their salableness in past seasons.

The patent security fastener is unquestionably the most practically and durably constructed safety device for watch chains yet designed. It has won the unqualified approval of all who have worn one and will particularly commend itself to men who engage in out-door sports.

Your stock should surely include a good selection of these attractive negligee chains.

You can't make a mistake in giving your Jobber a trial order for them.

A NEW SALES POLICY AND ITS RELATION TO THE SILVERWARE TRADE

Some weeks ago we announced to our customers that in pursuance of a new selling policy we would close our New York retail store and in future devote our undivided attention to the development of our wholesale trade throughout the country.

This change has now become an accomplished fact. The doors of our retail store at Broadway and 19th Street were closed May 8th and our Executive Offices and Wholesale Showrooms now occupy

THE ENTIRE TENTH FLOOR OF THE SILVERSMITHS' BUILDING

where we are prepared to welcome our friends in the trade.

In making this somewhat radical move we are ourselves convinced that it is a step along the line of definite progress. We believe that Whiting dealers will agree with us.

Certain it is that we are now in a position to give the greatest possible support to our dealers. We shall co-operate with them in every way to promote increased sales in their territory, unhampered by any real or fancied competition from our own New York salesrooms.

Interesting announcements of new patterns and details of our plan of co-operation with dealers may be expected in the near future.

CASSEROLES

Our line of Casseroles is illustrated and described in the new edition of our "Cooking and Serving En Casserole," edited by Janet McKenzie Hill. In this little book we also illustrate

Ramequins
Relish Dishes
Bottle Holders, Etc.

The popularity of our Casseroles has made them a very profitable line for the dealer to handle and the demand is unabated. The Casserole is not a fad, but an extremely useful article.

Our Casserole Chafing Dish, Mission Style, on a Denatured Alcohol Gas Stove, is an innovation that fills a place of its own. Our little book illustrates several styles.

We would also call particular attention to our Casseroles with

Silver Service Covers

The silver cover is substituted for the pottery one just before the Casserole is placed upon the table. This adds to the appearance of the dish, and dealers are finding it a most popular feature.

WE illustrate herewith what is acknowledged to be one of the most handsome Sterling Tea Sets ever placed on the market. It is also **one of the greatest values** offered the trade for a long time. Each individual piece in this set is of Good Heavy Weight—the excellence of finish, the quality of workmanship and the beauty in design make this distinctly a Smith product—which is equivalent to saying that it is beyond criticism.

THE word "Colonial" means much; especially in sterling ware for weddings, as without exception the bride is always pleased to refer to her Colonial ware.

We are the leaders in this line of ware, having made it a specialty for over twenty years.

We have more designs and styles than all of our competitors put together and our prices are the lowest for A-1 goods.

Also write or 'phone us for photos of our new line of sandwich and grape plates.

We also make one of the finest lines of French roll dishes. Prices furnished on application to

"Abel Mountings Have A Tone Of Superiority"

May We Add You To Our List Of Satisfied Customers?

WRITE US for a selection package of the finest diamond jewelry or original diamond mountings that are being made by any manufacturer in this or any other country.

The Abel Solitaire Cluster Diamond Belcher Ring illustrated herewith has been made by us for years past, and is a rapid and profitable seller. It produces the effect of a 1 1/4 carat diamond at 1/8 the cost.

It is composed of 7 full cut white diamonds, mounted in platinum with 6 gold prongs on the outside. Our customers re-order them daily.

Loose Diamonds—At present our stock of loose diamonds is very large. We import every size, from 200 to the carat, to stones of 2 carats each. As we buy these gems abroad from the cutters for spot cash, we are enabled to quote you lower prices, and give a better value than others. If our salesman doesn't call on you—Send for a Selection.

TRADE-MARK

M. B. BRYANT & Co.,

No. 7 MAIDEN LANE,
NEW YORK.

Now, Let's Start to Paint

The "subject" is Sterling Silverware. The "colors" are *your* ideas on the subject. The "brushes" are your words and gestures, or the means of *expressing* your ideas. Now, the "canvas."

The "canvas" is your *customer's mind* on which you must "paint" your "subject"—*Silver*, in strong, glowing colors.

Did you ever stop to think of it in that light?

No? Well, this is only a *hint*.

There are thirty-six full pages of *interesting, instructive* and *profitable* reading matter in our illustrated book—

"SILVER SELLING A SCIENCE"

This book tells how very large "pictures" (silver sales) are painted in detailed sections. It contains the best practical thought and experience of veteran silver men on increasing silver sales.

Every jeweler who puts this book into the hands of his silver salesmen will *realize a larger profit thereby* from his Silver Department.

Every silver salesman who reads and studies this book will *increase his earning power*.

We want the names and *home* addresses of all silver salesmen. We will mail to each of them one of these books *free*, with our compliments.

Jewelers and salesmen, *write for this book at once*. It's yours!

THE Pennsylvania Watch Cases

Trade **XXX** Mark.

A NEW ONE AND A GOOD ONE!

We would suggest that you look into the merits of our cases.

A case of the highest value coming to you at the lowest prices consistent with quality and quantity

A heavy, strong, stiff case of good value.

IT IS A WINNER!

It will mean increased business to the Dealer who carries a line of these cases in his stock.

Our line will be sold exclusively through the Dealer and Jobber. In offering our goods for sale, you will not be up against the competition of Mail Order and Catalogue Houses.

Drop us a line for description and prices.

THE JEWELERS' CIRCULAR

WITH WHICH ARE CONSOLIDATED

THE HOROLOGICAL REVIEW

THE JEWELERS' WEEKLY THE JEWELERS' REVIEW

VOL. LVIII.

WEDNESDAY, MAY 19, 1909.

No. 16.

The "Pala d'oro" of Venice and of Milan.

AMONG the few golden altar fronts that have come down to us the one in the Cathedral of St. Mark, in Venice, doubtless takes first place, while that in the Basilica of St. Ambrogio in Milan also presents many extremely interesting features. We are able to present good photos of both of these masterpieces in this issue.

Among the pieces of this kind described and illustrated in former issues were the golden altar screen from the Dome at Basle,

tal and vertical lines into about 80 panels or spaces, in each of which is a cloisonné enamel on a gold base. The dividing lines consist of bands of richly chased and modified ornament foliated and scrolled, of the late Roman type and the whole is surrounded by similarly enriched bands on the outside.

The center and most important panel of the whole is occupied by the Deity seated. The panel is in a modified vesica shape and is surrounded by four smaller circular

somewhat larger and contain more crowded figure composition. In the center of this is a large winged figure representing the Archangel Michael. The ornamentation of the spandrels and other spaces in this part is also very rich and sumptuous, precious stones being freely used.

The enamel is of the greatest possible interest, artistically as well as archaeologically, and from the fact that its subjects consist of figures naturally attracts a great deal of attention. Yet, says Dawson, one has the feeling that it was the gold work that was first in the mind of the artist which the enamel was intended to enrich. It dates

"PALA D'ORO" AT THE BASILICA OF ST. AMBROGIO, MILAN. FRONT OF TABLE IN GOLD AND ENAMELS. ATTRIBUTED TO WULVINIO.

now to be seen in the Cluny Museum, and the restored altar front in the Church of Our Lady at Aix-la-Chapelle. The only gold altar of ancient origin remaining of which we have knowledge, would be the named retable of the Monastery Klosterneuburg, near Vienna. A very fine altar, made for a Philadelphia church, was recently shown and described in these columns.

The *pala d'oro* of St. Mark's, at Venice, is one of the most famous pieces of Byzantine work that still exist. The design of the whole is architectural in character. It measures about 10 feet four inches by six feet nine inches, and is divided by horizon-

panels in which are conventional representations of the Evangelists and Angels, the flat gold space in which these panels occur being enriched with the same scrolled and foliated ornament as occurs in the bands, with jewels here and there.

On either side of the center are three horizontal rows of canopied niches, in each of which is a saint, angel or figure composition in enamel. In the top row of all and at either end is a smaller row of panels containing figures and incidents carried out in enamel. The upper portion—the whole design being in a manner divided into two portions—is similar, but the panels are

from the 10th century and was repaired at various times later on by Italian artists.

Another great Byzantine work of art is the gold altar of S. Ambrogio, in Milan (illustrated on this page), which is attributed to the German goldsmith Volvinus, or Wulvinio, who flourished 10 centuries ago. The design is less architectural and more appropriate to the art of the goldsmith. It dates from the first half of the ninth century and consists of beaten gold and enamel—no doubt, overlying a wood frame. The enamel is cloisonné on gold, of excellent design.

The scheme consists of a series of sunken

At one time or another some of us have built air-castles; occasionally some of these castles have come into actual existence.

We have been in the manufacturing gold jewelry business for a great many years, and one of our air-castles has been, to some day build a modern jewelry factory for our own use.

Fortunately, this dream or castle in the air has become a reality with us. It takes the form of a new, modern, steel and concrete factory, having all conveniences to produce 14K. and 10K. Gold Rings, 14K. Gold Locket, Sleeve Buttons, Larter Vest Buttons and Larter Shirt Studs in such designs and

at such prices that progressive retail jewelers ought to give Larter & Sons' lines of goods serious consideration.

Our address is 23 Maiden Lane, New York City, where we will be pleased to give attention to any request for the foregoing lines of jewelry from retail jewelers in good standing, either from a personal call or through the mails.

Pacific Coast Representatives:

Reg. U. S. Pat. Office

panels, in each of which is either a single figure or a group in beaten *repoussé* work. Separating the panels are raised bands about two and a half inches wide, which are enriched on the edges with lines of wire, plain, twisted or beaded. Filled in between these wires are running bands of cloisonné enamel. The sunken panels provide the spaces for the figure subjects, which are chiefly Biblical or taken from incidents connected with the lives of the saints and are in this as in other similar pieces in rather high relief.

The enamel work is of great beauty, being on gold with gold wires, partly translucent, partly opaque. Still another example of Byzantine workmanship is the Paliotto or front of the altar in the Church of S. Dominico, at Palermo, which, however, is of silver, and of which we may present a photo at some future date.

Jewelry Exhibited at the Salon of the National Society of Beaux Arts, Paris.

THE exhibition of jewelry in the *Salon de la Société Nationale des Beaux Arts* in Paris this year shows little that is revo-

lutionary in character, most of the pieces being applications of styles familiar to the art world at the present time. This

comment either favorable or unfavorable. The general character of the jewelry and metal work shown is expressed in the few

left being a good example of repoussé chasing, while the small flask on the right may give an idea to craftsmen. Fig. 2

FIG. 3.—BUCKLE AND BOX BY MME. BILLAULT.

is a necklace and pendant showing a development of *art nouveau* style by Miss Hada-way, while in Fig. 3 we have more examples of the work of feminine artists to-day in the horn buckle at the left and the small metal box at the right.

The shade of carved horn shown in Fig. 4 is the work of Mme. Waldeck-Rousseau, and is interesting more for the manipulation of the material used than for the novelty of the design, although the effect of the oak leaves, which are shown in profusion, is both chaste and attractive. The *agrafe de manteau*, or cloak buckle, illustrated on page 61 (Fig. 5), which was exhibited by Mme. Baudin, may have features which will appeal to the craftsman, but has little that will interest the practical jeweler, as the crudeness of the finish is exaggerated to an extent that makes the work look as if it were an imitation of poor craft work.

Stock worth about \$125 was stolen recently by a thief, who broke the show window in the store of J. Kraehmer, Dubuque, Ia., with a brick. There is no clue.

FIG. 1.—METAL WORK BY Mlle. DE FELICE.

Fig. 1 shows three samples of the work of Mlle. de Felice, the tobacco jar on the

Letters from Retail Jewelers and Importers Upon the Marking Provisions of the Proposed Watch and Clock Tariff.

BROOKLYN, N. Y., May 9, 1909.

Editor THE JEWELERS' CIRCULAR—WEEKLY:

I was considerably interested, as an ex-jeweler, in the discussion of the proposed watch tariff that has been going on in your columns, and it seemed to me that though there may be justice in the complaints made by the clock manufacturers against the provisions of the law requiring the stamping of so much description on the dials, they have relief even under the statute if they but read the law as I do.

If I remember correctly the statute reads: "Provided, That all watch and clock dials shall have indelibly painted or printed thereon the country of origin, and if attached to movements, in addition to the country shall have the name of the maker, or makers, of such watch or clock movements indelibly painted or printed thereon," etc. This I take it is a provision to protect the dealer as well as the customs authorities in clearly indicating the origin of the manufacture of the article, and is not intended as an annoyance to the legitimate trade.

If such be the case, what is to prevent the manufacturer or dealer from having all the names required stamped upon the back of the dial, thereby giving the information required to the revenue officers and to the trade, without disfiguring the appearance of the clock itself. The law, as I take it, provides that these words appear on the dial, and does not say whether back or front; under such circumstances I think that the trade can comply with the letter of the law by stamping it on the back.

I do not know whether such a point has been raised in the discussion in Congress, or whether it has occurred to the clock or watch trades. If it has not I think the matter should be looked into at once, because if I am right in my contentions there need no longer be any fight on this section of the proposed tariff.

Yours very truly,

EX-JEWELER.

PHILADELPHIA, Pa., May 11, 1909.

Editor THE JEWELERS' CIRCULAR—WEEKLY:

I would like to say a word in regard to the watch tariff now in the Senate, if you will grant me the space. It is this:

As a watch dealer and repairer, I have been annoyed for years by the sale in this country of certain cheap watches stamped "railroad" and "railway," which have no right to that name, for they are anything but high-grade movements. The sale of these watches has interfered with the business of myself and other jewelers in the high-grade American and Swiss timepieces, suitable for railroad men, and has ended to hurt with the public the name "railroad" and "railway" as applied to watches. If the new tariff bill, as it is drawn, will keep these watches away from the American market it will have a good effect upon our trade. But, there is one point that I want to mention, and that is, a number of watches of this kind which

I have been given to repair (and which I always refuse to work upon) I have often noticed that words such as "railroad," "railway," "adjusted," etc., have been engraved or scratched on in such a way as to leave one to think that this was done in this country or at least long after the movement was made. This makes me think that there ought to be a provision in the tariff to stop this sort of work by making the marks of a movement when it is imported *permanent*; that is, forbidding anyone to change the marks of the names upon a foreign watch or clock movement or add anything to them after it has been brought into this country and duty paid.

Yours very truly,

AN OLD WATCH REPAIRER.

NEW YORK, May 8, 1909.

Editor THE JEWELERS' CIRCULAR—WEEKLY:

We would appreciate very much a small portion of your space to place upon record a few statements relative to the importation of Swiss watches, and especially to place in their proper light some remarks in your issue of April 14, which no doubt unintentionally tend to give an erroneous impression of the Swiss watch industry.

As in most industries which are fully protected by the tariff, there can be no question of inadequate protection in the present revision; therefore another reason was necessary to foster the present changes not only in the schedules of watches, but nearly all other schedules involved in the entire bill as well.

This reason is found in so-called undervaluations and fraudulent markings.

This is advanced by our legislators as the reason for a change to specific duties on movements and watches having not more than 15 jewels.

The arguments advanced to support the plea of under-valuations are far from satisfactory, and even if for purposes of personal convenience and to avoid lengthy and costly trials one or two wealthy importers saw fit to compromise with the Government this should not result in measures which will affect almost the entire importation.

The fact concerning the importation of Swiss watches is that in no branch of foreign trade is there a cleaner record for honesty and straight dealing than in the watch business, and the records for the past 10 years or more as compared with that of any other trade shows the smallest percentage of any suspicion of wrong dealing.

Even in the cases mentioned in your article it is more than questionable if the advantage would not have accrued to the importer upon a trial, and the cases upon record are rather the direct result of the faulty Dingley tariff, which contains no provision for a duty on complete watches, but for movements and cases separately, and the provision of the customs law which provide graduating fines, enabling the Government to sue for practically any amount.

The importers have always desired an

equitable tariff on watches, which, without in any way antagonizing the domestic products, would enable them to bring in their goods on an unquestionable basis; and had the Dingley tariff law contained a provision for an ad valorem duty on complete watches the practices complained of by the Government would never have occurred.

Whether ad valorem or specific or mixed, any form of duty which is properly graded to apply in correct proportion as near as possible to the various grades of watches now imported would be acceptable to the importers. But the specific duty clauses contained in the present revision would apply the same duty of 65 cents to any movement having anywhere between one and seven jewels, and this is certainly an incorrect feature, considering the wide range of cost of watches included in this category.

Considering the difficulty of properly grading a specific duty on movements, to say nothing of *complete* watches, it is the prevailing opinion that an ad valorem duty applying equally on *complete* watches and movements would obviate all difficulties and result in equitable rates.

Regarding the proposed marking on watches, all Swiss movements which now come to this country having more than seven jewels are stamped or engraved with the number of jewels expressed in figures, the same as watches of domestic production.

No American movement having seven jewels or less is stamped with the number of jewels.

There can, of course, be no objection to marking the number of jewels on all watches coming to this country having more than seven jewels, but the objectionable part of the proposed marking is that the jewels should be written in words as well as in arabic figures.

The aim of this paragraph is evidently to prohibit the importation of a certain low grade of movement, which is brought to this country with no marking, and afterwards, when in the hands of the dealer for whom it is imported, is then marked by the dealer regardless of the true quality and number of jewels.

It does not seem right that in order to protect this market from such fictitious markings of cheap watches we should enact drastic regulations which would not only affect the people primarily responsible for this abuse, but also all upright and honest importers and dealers, by enforcing a series of regulations which seriously interfere with correct importation business.

The same applies as a whole to that part of the proposed regulations requiring the name of the maker, country of production, etc., placed on the various component parts of the same watch.

From the importers' point of view there can, of course, be no objection to advertising his makes by so marking his watches, but the proposed regulations are too drastic in this sense—that they apply equally to all sizes and kinds of watches, regardless whether this marking would disfigure the article by reason of its size.

It is evident from the survey of the stocks of various watches in any large retail store that the size of these watches is in many cases so small that if the mark-

ing is enacted as proposed, the dials, to say nothing of the movements, will be entirely disfigured.

Furthermore, there are on this market many very small articles imported on which it is utterly impossible to mark the dials as required, to say nothing of the movements or cases.

Then, again, the proposed regulations directly interfere with the retail jeweler who desires to have his name and place of business on his watches, either on dial or movement, or both, in place of the maker's name.

If the regulations were so arranged as to require either the maker's name or, in place thereof, a registered trade-mark

Every importer and every jeweler of this country would welcome such regulations as mentioned above, and also such Federal laws as would forever protect foreign goods from the spurious articles which bring foreign watches generally into disrepute.

Yours very truly,

IMPORTER.

CHICAGO, May 14, 1909.

EDITOR THE JEWELERS' CIRCULAR-WEEKLY:

There seems to be a misunderstanding on the part of many firms regarding the position taken by Geo. Kuehl & Co. as to Par. 189 of the proposed new tariff regulations on clocks. Geo. Kuehl & Co. do not object to this paragraph as a whole, but only ob-

one clock or dial, which would destroy the appearance of any Black Forest clock.

These clocks are not made in the United States and never will be made in the United States, as no skilled labor can be had for this kind of work, and they are only made in the mountains of the Black Forest or Switzerland in the home industry, where they have been made for generations.

Outside of this we are very much in favor of the provisions of the proposed tariff that on all imported clocks, wherever possible, the name of the manufacturer, as well as the city, shall appear on the dial or case, indelibly painted or printed, where it does not disfigure the clock. In fact, we wish this paragraph would become a law, as it would stop frauds on the public with inferior imported clocks, which are often sold for domestic clocks, and we do not think any reliable foreign manufacturer would take exception to this law.

Yours,

THEO. KUEHL.

Joint Meeting of Minnesota Jewelers and Optometrists to be Held July 19-22.

HASTINGS, Minn., May 14.—The directors of the Minnesota Retail Jewelers' Association have just convened and decided upon the following dates and outline for the Summer meeting. The meeting will be a joint one with the Minnesota Association of Optometrists and the Northwestern Optical Association, and will be held at the West Hotel, Minneapolis, Minn., July 19, 20, 21 and 22.

There have been special arrangements made for the accommodation of exhibitors, and it is hoped that a large number will attend. The subjects on the programme for discussion as outlined will be substantially as follows:

"Fixed Prices, How Can They Be Maintained and Who Is It That Holds the Key to the Situation." (This subject will be thoroughly discussed from all points, including the much misunderstood phase of competition.) "The Association Jeweler Versus the Independent Jeweler"; "Does the Retailer Need the Jobber?" "How Can We Dispose of the Horological Question to the End That the Public May Be Better Served, Either With or Without Special Legislation?" "Advertising, Its Effects Upon Business and What Would Be the Effect of Federal and State Advertising Laws?" "Mutual Insurance for the Jeweler"; "Organization as a Factor in Molded Business Character."

The last day will be entirely given over to entertainment, which will be a trip to beautiful Lake Minnetonka, with a boat ride included. It is expected that this meeting will be very largely attended and most productive of results.

Oscar Watson, Kalkaska, Mich., has sold out to Pangborn & Co. The latter concern formerly conducted a store at Morley, Mich., but discontinued business at that place.

The Towle Mfg. Co., Newburyport, Mass., is sending to retail jewelers post cards entitled "An Old-fashioned Spoon." Held at a distance a fancy spoon is seen, but at close range Darby and Joan are indulging in mutual loving caresses.

FIG. 5.—CLOAK BUCKLE BY MME. BAUDIN.
(See text on page 57.)

known and recognized in this country, or, in place of either of the two, the name and address of some reputable jeweler of this country, this form of marking with such leeway as to be applied on all watches which will admit of either of these markings would, without further discussion, be acceptable to retail jewelers and importers and would embody the desired protection against fraudulent or fictitious markings of any kind.

Besides, it is not through compulsory marking of imported goods that the desired object will be attained, as most of the fictitious markings of number of jewels are placed upon the foreign product in this market, not only by the importers, but by the dealers, for whom these goods are brought over. It follows, therefore, that the correction of this abuse would be effectually brought about by the enactment of a Federal law prohibiting such practices and framed in such a way that no goods marked other than in accordance with the facts could be sold in this market.

ject to part of the paragraph which would include Black Forest clocks (cuckoo clocks).

If this paragraph should apply to Black Forest clocks (cuckoo clocks) it would make it impossible to import in the future any more Black Forest clocks to this country. First, because the carvings of these clocks are made in the home industry in the Black Forest, Germany, and sometimes there are three or four different parties working on one clock case, and if the same should be called manufacturers and their names had to appear on the clock case or dial it would mean three or more names; second, because movements for these clocks, the castings of these movements are cast in the factory, finished in the home industry and also put together in the home industry and then these movements and cases go to another party who assembles the clocks, or they are assembled in this country. If all the names of the makers or manufacturers had to appear on the clock case or dial it would mean six or seven names on

Store of John C. Pierik, Springfield, Ill., Again Robbed of Valuable Jewelry and Watches.

SPRINGFIELD, Ill., May 12.—Some time near midnight on May 10 the jewelry store of John C. Pierik, 6th St., was robbed of diamonds and watches of the value of \$2,500. The burglars entered through a rear window, after having broken the padlock which held the iron gratings in place. The display window in which the jewelry was placed was protected by an iron grating from the outside, but by gaining access to the store from the rear the burglars were enabled to empty the ring boxes and brooch cases, clear the window of a number of valuable watches and make their escape. All the most valuable pieces of jewelry were taken, with the exception of three diamond rings, valued approximately at \$275.

Among the articles stolen were 22 diamond rings ranging in value from \$25 to \$150; three brooches containing diamonds and seven gold watches, each valued at \$22. Over \$3,500 worth of diamond rings and brooches, which had been displayed in the window during the day, had been taken out and placed in the safe a little over an hour before the robbery occurred.

The local police authorities were at once notified, and Mr. Pierik notified the Pinkerton Detective Agency in St. Louis, Mo., who sent a man to work on the case, but so far no clue has been obtained. Within an hour after the robbery bloodhounds were placed upon the trail of the robbers, which they followed as far as Riverton, a small station about four miles east of the city, where it was lost.

This is the second time the Pierik jewelry store has been robbed of many valuable diamonds by bold and clever thieves, the former occurring Dec. 21, 1907.

Syracuse Retail Jewelers' Association Holds Social Meeting—State Association Increases Its Membership.

SYRACUSE, N. Y., May 14.—Charles T. Evans, of Utica, president of the New York State Retail Jewelers' Association, was the guest of the Syracuse Retail Jewelers' Club at Long Branch, last night. It was a social gathering, arranged by the club, and 16 jewelers were present. President E. B. McClelland presided at a short business session, and he was directed to appoint an entertainment committee to arrange for the gatherings of the club. The membership of the club is 22. Bowling was enjoyed after in the evening.

President Evans of the State association made a short address on "The Social Side of the Retail Jewelers' Association."

UTICA, N. Y., May 15.—There are now 100 members of the New York State Retail Jewelers' Association, formed recently in this city, and within a few weeks President Evans expects to report a membership of 100.

Although the State association has decided for the present not to affiliate with the national organization, the latter is planning to have favorable action taken at the Rochester convention in 1910. President Evans and Secretary Sunderlin, of Rochester, will take steps to interest retail jewel-

ers all over the State except in Greater New York.

Boston Jewelry House Robbed of Tray of Rings by Two Clever Thieves.

BOSTON, Mass., May 14.—One of the boldest jewelry store robberies that has occurred here in a long period was reported to the police Wednesday, on which day two thieves got away with nine diamond rings valued at \$800 from the store of J. C. Derby, a jeweler on the second floor of the Berkeley building, 420 Boylston St.

About 1:30 Wednesday afternoon a well-dressed man came into the store and inquired of clerk Porter L. Drew for Ralph Bangs, another of the clerks. Mr. Drew said that Mr. Bangs was at lunch and offered to be of what service he could. The stranger said that on Tuesday he had talked with Mr. Bangs about some scarf pins, and asked if Mr. Drew would show him some samples.

Drew, who was alone in the store at the time, exhibited some inexpensive pins and the prospective customer chose one, asking if it would be possible to have a diamond set in the pin. Mr. Drew said that it would, but not during the afternoon; if the man would leave an order he would have it filled within a reasonable time.

The stranger apparently thought it over, and then replied he would be back later that day. Just before he reached the ground glass door through which is made the only entrance and exit to the store he asked for a catalogue. Having secured a price list, he started again to go out, when a young man entered and walked to the farther end of the show case. The second stranger wanted to see some picture frames, and a number were placed before him for examination.

The younger man seemed especially interested in the stock, and finally seeing some brooch pins on one of the lower shelves of the farther end of the case, he asked to be allowed to examine them, as he was planning to make his aunt a present.

The first caller had not left, but was leaning against the show case, deeply absorbed in the catalogue. When Clerk Drew turned his back and stooped to get out some of the brooch pins for the second customer the first stranger leaned over the show case, slid back the door and extracted from a plush tray the nine single diamond rings. With these he made for the door.

Just as stranger No. 1 reached the door the younger man came to the conclusion he would not buy anything, but would return later with his aunt. Almost at the same moment Clerk Drew discovered the show case had been robbed. He started after the men, but they were too swift for him. It is believed that the thieves made their escape by way of the staircase, for the elevator boy did not remember having seen them go downstairs.

The man who took the rings is described as being about 45 years old, five feet seven inches high, and weighs about 185 pounds. He has a dark complexion, is thick set, and is partially bald. The younger man was between 28 and 30 years old, five feet nine inches tall, and weighed about 155 pounds. He has a smooth-shaven face, light complexion, and wore a light gray suit and a black derby hat.

New England Watchmakers' Club Holds Interesting Exhibition at Boston, Mass.

BOSTON, May 13.—Hundreds of jewelers from all parts of New England have been here this week and enjoyed a visit to the second annual Manufacturers' Exhibit and Business Display, held, Tuesday and Wednesday, at the New England Watchmakers' Club at 17 Bromfield St. In the number of firms represented, in point of attendance and in the show of general interest the exhibit has proved a greater success than that of last year.

Not only was all available space contained in the Watchmakers' Club headquarters occupied, but a second room of even greater size was secured on another floor of the building. Both were made attractive by elaborate decorations in which the national colors were a conspicuous figure. Complete arrangements for the convenience of visitors were made and thoroughly carried out by the members of the club, headed by William B. Garfield, their president, and A. S. Flint, chairman of the committee for the display.

In the club's regular quarters one of the largest exhibitors were D. C. Percival & Co., who showed watch materials, watch tools and jewelry findings. One of the features that commanded unusual attention was the sterling silver cup which the Percival company will award "New England's ablest watchmaker" when the Watchmakers' Club holds its first technical exhibition in March, 1910. In charge for D. C. Percival & Co. was Martin Zerega, who was assisted by William McDermott.

The Globe Optical Co. exhibited a Globe Gem Bench, with grinder, motor, drill, cutter, rear start, polishing head, etc., which was set up and supplied with power, enabling a full test and demonstration.

H. W. Cutting, Waltham, manufacturer of jasper stones, offered for inspection a wide variety of stones of all shapes, sizes and arrangements for polishing brass and gold settings, train wheels, etc. Mr. Cutting personally supervised his booth.

In the room on the floor above were the exhibits of Austin & Stone, of Attleboro, Mass., who exhibited chains, bracelets, lockets, fobs, neck chains, etc. E. A. Cowan & Co., Boston, displayed a full line of watchmakers' tools, and also a large quantity of diamond jewelry. Daniel Pratt's Son, New England agent for the Waterbury Clock Co., showed a varied and highly complete line of their own stock, including French clock pinions, cuckoo clock materials, French clock springs, hall clock materials, French clock keys and clock catgut. O. S. de Zara represented the firm and greeted the visitors. The Holtzer-Cabot Electric Co., represented by R. T. Wells, had installed for demonstration jewelers' polishing lathe motors, electrical sensitive drills and small direct and alternating current motors.

The chief attraction of the American Watch Tool Co.'s display was its new model pivot polisher, which was greatly admired. In addition the company showed many lathes. F. W. Derbyshire, the superintendent of the company, had charge, and was assisted by L. D. Tinker and F. W. Derbyshire, Jr.

DIAMONDS

We offer some exceptionally fine LA VALLIERES in Diamonds and combinations of diamonds and pearls and other precious stones.

These pieces are unusually beautiful in design, are in the latest style and are precisely what is needed to serve the prevailing fashion. The mountings are strictly correct and of the finest finish. Prices are right.

We shall be glad to send you an assortment, on memorandum, including some exceptionally fine pieces. Write us.

Remarkable Feat in Engraving Performed by a Newark Dealer.

NEWARK, N. J., May 12.—A remarkable feat of engraving was recently turned out by the Chas. C. Wientge Co., 32 Marshall st., Newark, N. J., one of whose workmen succeeded in cutting about 750 letters in a disk 15 mm. in diameter, and on one part of it appears the Lord's Prayer in a disk 1 mm. in diameter.

This disk, which is of 14-karat gold, is illustrated herewith in enlarged form and shows the letters in readable size, while the full diagram of the circles shows the actual size of the piece. The work was performed for a man who wished to give something out of the ordinary to his wife, who was a very devout Episcopalian, and a small engraving made for this purpose

DISK ENGRAVED BY NEWARK HOUSE, ENLARGED NEARLY FOUR DIAMETERS.

will no doubt be considered one of the greatest feats of its kind that has been turned out in the city of Newark.

The engraving is mounted in a locket under a buff glass, every letter showing

ACTUAL SIZE OF DISK.

perfectly. On the obverse is a beautiful design, consisting of Easter lilies. The locket is made to contain two photos.

The work in question was done by John Rose, employed by the Wientge concern. Mr. Rose, who is over 60 years old, is an Englishman by birth, but has made his home in Newark for over 40 years. His skill as an engraver has been shown in many ways, but probably never more so than in the work he has just turned out.

James R. Meredith, Chanute, Kans., Offers Creditors a Settlement at Fifty Cents.

CHANUTE, Kans., May 13.—James R. Meredith, a retail jeweler of this town, is offering creditors a settlement on a basis of 50 per cent. on their claims. He has been hard pressed financially for some time past, owing to the poor condition of business in this section.

Mr. Meredith started in the jewelry trade at Blue Mound, Kans., in 1904, to which place he moved from Tennessee. He came

to Chanute in 1904 and the following year formed a partnership with H. Van Meeker, under the style of Meeker & Meredith, to whose business he later succeeded.

The Forthcoming Imperial International Exhibition at London.

LONDON, May 10.—Your correspondent has had the privilege of being the first press representative to visit the grounds of the Imperial International Exhibition, and when the Duke of Argyll (once Governor-General of Canada) performs the opening ceremony at the "Great White City," Shepherd's Bush, at 3:30 p. m., May 20, the vast crowd that will throng the Courts and Palaces distributed over the 170 acres of grounds will be astonished at the spick and span appearance of the gardens and the buildings, and surprised, too, at the excellent condition of the roadways. Indeed, upon improving the roads, alone, of the "Great White City," some £13,000 have been spent.

Six weeks ago the city was more or less a wilderness, deserted since the dispersion of the Franco-British exhibits. Then work began suddenly. First about 1,000 men were employed; then the number was increased to 3,000; then to 5,000. To-day the total number of hands employed is nearer 6,000 than 5,000.

One of the aims of this year's Exhibition is to strengthen an *entente cordiale* between all the great nations. Another of its aims is to provide an International Display of the principal attractions and products of the whole of the civilized world.

The Engineering, Decorative Art, Horticultural—in short, all this year's exhibits will be of great interest, and special facilities have been made for the visitors to reach each exhibit in the shortest time possible. Among these facilities is the petrol tram that will run about the city's "streets." The railway's total length is four miles. Another facility is a new general entrance at the North End of the Stadium, from Wood Lane.

In the Applied Arts Building a representative collection of silversmithing and jewelry will be shown, and from the names of those who have applied for space one may gather that the exhibits will be first-class. The Women's Section will be even more attractive than it was last year. A large number of excellent exhibits have already been placed.

In the Irish Village—which has a rival adjoining it this year, namely, a Scottish Village—there will be an additional attraction, namely, Donnybrook Fair.

Among the almost numberless entertainments is a Scenic Railway a mile long, which stands upon four acres of ground and has a mountain area of between four and five acres. The great Submarine is going to be yet another of the many sensations this year. It travels a distance of 600 feet through deep water, and as the vessel plunges and glides beneath the waters the wonders of the deep will be beheld on either side.

Models of the warships "Dreadnought," "King Edward VII" and "Lord Nelson" will be shown by the Admiralty, and the Commissioner of Police has lent finger prints of notorious criminals. ST. GEORGE.

Jewelry, Clocks, Watches, Silverware and Kindred Lines Exported from New York.

WASHINGTON, D. C., May 12.—The following were the exports of jewelry, silverware, optical goods, clocks, watches and kindred lines from the Port of New York for the week just ended:

- Basle: 1 case jewelry, \$100.
- Bergen: 17 cases clocks, \$267.
- Berlin: 4 cases clocks, \$330.
- Bremen: 1 case plated ware, \$150.
- Buenos Ayres: 1 case watches, \$576; 1 case jewelry, \$127; 1 case jewelry, \$400; 1 case optical goods, \$111.
- Calcutta: 26 cases clocks, \$460.
- Colon: 6 cases clocks, \$232; 1 case thermometers, \$100; 6 cases watches, \$184.
- Copenhagen: 1 case jewelry, \$120.
- Glasgow: 46 cases clocks, \$365.
- Hamburg: 1 case watches, \$1,269; 12 barrels jewelers' sweepings, \$5,000.
- Havana: 4 cases clocks, \$100; 2 cases optical goods, \$2.55.
- Havre: 2 cases jewelry, \$170; 1 case optical goods, \$125.
- Hull: 16 cases clocks, \$306.
- Limon: 6 cases clocks, \$632.

- Vera Cruz: 11 cases plated ware, \$1,842.
- Wellington: 32 cases clocks, \$1,084.

McIntyre & Shortess Co., McAlester, Okla., Make a General Assignment.

McALESTER, Okla., May 14.—An assignment has been made under the State laws by the McIntyre & Shortess Co., conducting a retail jewelry business in this town. The officers are Fred C. McIntyre, president; T. Ray De Lemeter, vice-president and C. K. Shortess, secretary and treasurer. The stock is now in the hands of Frank Craig, as trustee for creditors. The liabilities are said to be but \$6,000, while the stock is valued at \$25,000, so the embarassment is believed to be but temporary.

Mr. McIntyre has been here in business since 1895, at which time he succeeded Klein & Fink. Mr. Shortess started in business in 1904 at Colgate, at which place the present company for a while had a branch store, but later sold it to J. G. Steelbanks. The corporation was formed by Messrs. McIntyre and Shortess in the spring of 1906 with a capital of \$35,000, of which \$31,950 was paid in.

The store in McAlester has been considered one of the finest jewelry establishments in the State. Both partners are young men and well regarded in the trade. Mr. McIntyre managed the business until the Summer of 1907, since which time it has been under the management of Mr. Shortess. The former has gained some fame as an inventor of watch movements.

Executive Meeting of the British National Association of Goldsmiths.

LONDON, May 6.—An important executive meeting of the National Association of Goldsmiths was held in London on the 6th ult. under the presidency of F. G. Godson, the chairman. Twenty-six new members were elected and it was unanimously agreed that as the past year has been one of organization and strengthening by the addition of new members from all parts of the country it was desirable to have as central a meeting place as possible this year. Consequently the decision to hold the annual meeting at Plymouth, which is right in the south, was abandoned, and the annual meeting and reunion will take place in London on Monday and Tuesday, July 19 and 20. Hitherto one day only has been given over to business, but this year not only will Monday be entirely devoted to business, but Tuesday morning will also see the delegates and members in session. The annual banquet will take place on Monday evening.

There has been considerable trouble with ranches owing to new rules which were passed. One result was that Scotland broke away and has now an exceedingly strong association with a membership which possibly surpasses that of the N. A. G. altogether, despite the fact that there is an Edinburgh and East of Scotland Association. But the executive of the N. A. G. has been thinking out a way of trying to conciliate (I do not think they will conciliate the Scotch). Possibly Brighton, which broke away, may return to the fold, but until the new rules are proposed at the meeting in July it is difficult to know what will happen, but I am in a position to state that all ordinary members and members of ranches will, by the new rules, be given no vote at annual and general meetings and elect nine members of the council, who represent the members subscribing direct, by a postal vote. This is following on the lines of the rules of the British Watchmakers' Guild. There is also a suggestion to create life vice-presidents.

Another important matter discussed by the executive was that of bogus auctions, and in connection with this the chairman, vice-chairman, treasurer and secretary of the London Wholesale Jewelers and Allied Trades Association attended as a deputation and expressed the pleasure of the Wholesale Association at being invited to confer on the question. The chairman of the London Wholesale Jewelers' Association, R. M. Marples, stated that the sympathies of their association were entirely with the retail trade in this matter, and he and his colleagues trusted that the meeting and discussion would be of mutual advantage. It was agreed that the wholesale and retail associations should approach the Home Secretary in order to get a strengthening of the law, and moreover to appeal to the Auctioneers' Institute to "cleanse their profession of these undesirable characters."

A particularly important matter was the suggestion that the assay authorities should have power to appoint inspectors to see that the various laws governing the hall-marking of goods were complied with. Sir Walter Prideaux, clerk to the Worshipful Company of Goldsmiths, the premier assay

authority in Great Britain, wrote stating that if the government did entrust the company with such powers, successful working could only come about by the co-operation of the trade as a whole. The London Wholesale Jewelers and Allied Trades Association also stated that they were in entire agreement with the suggestion made.
ST. GEORGE.

Misunderstanding as to Jobbers Cleared Up by President of Missouri Society of Retail Jewelers.

ST. LOUIS, Mo., May 12.—A misunderstanding seems to have arisen in the minds of some of the jobbers of the country in regard to the action taken by the executive committee of the Missouri Society of Retail Jewelers in deciding that donations would not be received toward defraying the expenses of the State convention, to be held in St. Louis in June. It appears that an impression exists on the part of some of the jobbers that the action was directed against them.

Claud Wheeler, Columbia, Mo., the president of the association, greatly regrets the misapprehension. "There is absolutely no intention on our part," he says, "to make a fight on jobbers. We excluded manufacturers from making donations toward our expense just the same. The most of us realize that the jobber is necessary to our business. Through him we get a selection from the lines of all manufacturers, and in the case of the average jeweler he would not desire enough goods from one manufacturer to justify the manufacturer in sending the line to his store.

"The expense of selling under this plan would increase the cost of goods about equal to the jobber's profit, and few jewelers would have the selection to choose from. We desire that the friendliest feeling exist between retailers and legitimate jobbers.

"We expect to wage a fight on jobbers who sell their goods to other than regular retail jewelers. If a jobber does that he may expect us to fight him, and if he does not he will find a hearty welcome at our meetings, and every courtesy will be shown him. We invite all to have representatives at our meeting, and the programme is being arranged to give the members a part of each day to look over the lines on display."

Bank Takes Charge of Business of Gee & Nusbaum Co., Cleveland, O., and Will Sell Off the Stock.

CLEVELAND, May 14.—The United Banking & Savings Co. has taken over the assets of the firm of Gee & Nusbaum Co., which was located in the Republic building. The bank acts as trustee for the benefit of all the creditors. J. M. Blatt, who is managing for the bank, has rented the rooms occupied by the Euclid Ave. Trust Co. and will sell out the entire stock at daily auction.

The business is a corporation of which S. M. Nusbaum is president and F. R. Gee is secretary and treasurer. It was originally established and incorporated under the laws of Ohio, in 1903, with a capital of \$25,000, all paid in. At that time the principal incorporators and stockholders were

W. B. Wingate, Sol. M. Nusbaum and W. A. Rees. In January, last year, the company compromised with its creditors on a basis of 50 per cent., after which Mr. Nusbaum and Mr. Gee purchased the entire business and reorganized it.

Death of Gustav Adolph Kaesser.

QUINCY, Ill., May 12.—Gustav Adolph Kaesser, one of the oldest and best-known jewelers in Illinois, died last Saturday at his home here at the age of 67 years. Although he had been in uncertain health for the past two years a fatal termination was not looked for. He contracted pneumonia, which carried him off within three days. His three sons, Herman, Paul and Alfred Kaesser, who are in the jewelry business at 2326 Franklin Ave., St. Louis, were notified by telegraph Saturday morning that their father was seriously ill. Paul started for Quincy on the next train, but did not reach there until an hour and a half after the death of his father.

Mr. Kaesser was born in Baden, Germany, but came to the United States when he was a young man. He was in the jewelry manufacturing business in New York before the war. Upon the breaking out of hostilities he enlisted and served throughout the war. When peace was restored he went to Quincy and embarked in business. He retired a few years ago, but had continued to carry on business in a private way.

He is survived by his widow, the three sons named and three daughters, Mrs. Charles Bruening, Mrs. Mathew Ohnemus and Mrs. Edward Bartling, all residing in Quincy. The funeral took place Tuesday. Interment was at the Woodman Cemetery at Quincy.

Herman and Paul were connected with St. Louis jewelry houses until they bought the Kemper jewelry business over a year ago. Alfred had been employed with a Quincy jeweler up to that time, but came to St. Louis and became associated in business with his brothers.

Death of Joseph Mehmert, Jr.

CINCINNATI, O., May 17.—Joseph Mehmert, Jr., son of the well-known jewelry material dealer, died at his home in Norwood, O., Friday, May 14, after an illness of three months. The funeral services were held to-day. Though the news of his death was not a surprise it was received with deepest regret by his many friends.

Deceased was born in Cincinnati 34 years ago, and after receiving his education, began his business career with his father. For the past 10 years he had managed the Mehmert retail jewelry store on Freeman Ave. He was obliged to retire from business last February and was not able to return to it since that time. Mr. Mehmert was a member of the Knights of America, Knights of Ohio and several other societies. He is survived by his father, Joseph Mehmert, and his brother, Otto Mehmert, well known traveling salesman.

Philip H. Nevill, Edmore, N. Dak., has accepted a position as manager of a jewelry house in Wisconsin.

Members of West Virginia Retail Jewelers' Association Meet In Convention at Wheeling.

WHEELING, W. Va., May 17.—The fourth annual convention of the West Virginia Retail Jewelers' Association was formally called to order this morning in the assembly hall of the McClure House by President T. A. Westmyer, of the Nail City. A large number of jewelers were present from all over the State, and the greatest interest was manifested in the program. The address of welcome was delivered by Mayor C. C. Schmidt, of this city, Henry Jilliken, of Wellsburg, responding in a happy vein in behalf of the association. The morning session will be devoted to the appointment of committees, the reading of the report of E. Baab, of Parkersburg, secretary and treasurer of the association; the report of the Committee on Credentials, and other routine business. A special invitation has been extended to jewelers in neighboring States, Ohio being just across the Ohio River and Pennsylvania not far away, and here was a sprinkling of well-wishers at the opening session.

This afternoon's programme is as follows:

- 1:30 P. M.—Introduction of resolutions and referring them to the proper committees.
 - 2 P. M.—Discussion, "Shall the National Association Adopt an Official Organ?"
 - 2:30 P. M.—"Is Optometry Beneficial or Disadvantageous to Jewelers?" by A. C. Thomas, president West Virginia State Optical Society. Questions will be asked Mr. Thomas following the talk.
 - 3:30 P. M.—Discussion, "What Shall We Charge or Repairs?" "Shall Watchmakers Be Compelled to Pass a State Examination?" "What is a Fair Fixed Selling Price?"
 - 4 P. M.—Report of the association's representative to the national association meeting at Cincinnati, Aug. 4-7, 1908; C. A. Keefer, Grafton; F. L. Jones, Martinsburg.
 - 5 P. M.—Discussion, "Why Shall We Attend State and National Retail Jewelers' Association Meetings?"
 - 5:30 P. M.—Adjournment.
- Programme for to-morrow, Tuesday, May 18, is as follows:
- 9 A. M.—Meeting called to order. Address, "What the Association Has Done," by T. A. Westmyer.
 - 9:30 A. M.—Discussion, "What Is a Fair Fixed Selling Price?" "Shall We Approve of Manufacturers Opening Retail Stores?"
 - 10 A. M.—"How to Locate Correct Errors in the Lever Escapement," lecture by C. T. Higginbotham, consulting superintendent, South Bend Watch Co. Questions will be asked Mr. Higginbotham following the close of lecture.
 - 11 A. M.—"Question Box" and experience meeting.
 - 1:30 P. M.—Report of committees.
 - 2 P. M.—Address, J. P. Archibald, president American National Retail Jewelers' Association.
 - 2:30 P. M.—"Reading Between the Lines," by Charles E. Baab, secretary of the association.
 - 3:30 P. M.—Unfinished business.
 - 4 P. M.—Election of officers.
 - 4:30 P. M.—Installation of officers.
 - 7:30 P. M.—Entertainment and a good time secured.

Owing to the time the convention met it was impossible to give a detailed account of the convention proceedings in this week's issue, but the convention will be fully reported next week. There are 249 recognized jewelers in West Virginia, and an effort is to be made to get every one of them into the organization.

The present officers of the West Virginia Association are T. A. Westmyer, president; T. A. Warnecke, St. Marys, first vice-president; B. F. Robinson, Clarksburg, second vice-president; C. J. Kinzer, Bluefield, third

vice-president; C. E. Baab, secretary and treasurer.

The Reception Committee of the convention is composed as follows: Charles L. Hancher, chairman; W. J. Linkins, R. S. Dillen, John F. Murphy and J. S. Stimpson.

New Members Elected and Rewards Paid by the Jewelers Security Alliance.

The regular monthly meeting of the executive committee of the Jewelers Security Alliance was held on Friday, the following members being present: Chairman Butts, President Sloan, Vice-Presidents Champenois and Wood, Treasurer Karsch, Secretary Noyes and Messrs. Abbott, Alford, Bowden, Brown and Stern, of the committee.

The following new members were admitted:

- W. E. Blanchard, St. Joseph, Mo.; F. C. Calhoun, Pawnee City, Nebr.; C. H. Neff, St. Joseph, Mo.; N. Nielson, Harlan, Ia.; George A. Sauer, Des Moines, Ia.; C. T. Akers, Cordell, Okla.; Hobson & Gove, Washington, Ia.; Carl Hunnius, Leavenworth, Kans.; J. Kirsch and W. G. McDougall, New York; Joseph Morino, Kansas City, Mo.; H. Greenblatt, Seattle, Wash.; B. F. Humphrey, Centerville, Ia.; J. G. Kapp, Toledo, O.; L. J. Wendel, Creston, Ia.; Viets & Yeager, Grinnell, Ia.; Miss M. L. Addis, Topeka, Kans.; Jos. B. Flatow, Salt Lake City, Utah; F. Melliush, Ottawa, Kans.; R. H. Morehouse, Topeka, Kans.; Schwartz & Gray, Inc., Newark, N. J.; Watch Shop Co., Canal Dover, O.; F. W. Swearingen, Topeka, Kans.; G. S. Barber & Co., Waverly, Ia.; E. L. Brent, Altoona, Pa.; Richard Lec, Waterloo, Ia.; Pfeiffer Co., Cedar Falls, Ia.; D. B. Phelps and George E. Seibert, Waterloo, Ia.; S. H. Simsarian, W. Hoboken, N. J.; C. O. Booth, Oelwein, Ia.; C. W. Brocaw, Carmen, Okla.; C. G. Herrick, Independence, Ia.; C. A. Lund, E. Orange, N. J.; McCarthy-Pearson-Hilgerloh, Manhattan, Nev.; Morrison Bros and H. O. Woodbury, Olathe, Kans.; Charles A. Zemp, Jersey City Heights, N. J.; C. W. Costello, Pleasanton, Kans.; Ed. M. Crellin, Chillicothe, Mo.; George B. Deycn, Dyersville, Ia.; John Gillies, Ft. Scott, Kans.; F. B. Gilrain, Duhque, Ia.; J. H. Greve, Mason City, Ia.; M. Hansen, Hackettstown, N. J.; A. S. Huey, Roseburg, Ore.; M. S. Lanyon Jewelry Co., Pittsburg, Kans.; L. E. Leek, Columbus, Kans.; J. H. Lepper, Mason City, Ia.; C. H. Paxton and J. O. Stott, Paola, Kans.; Collatera Loan Co., Washington, D. C.; Klemme & Co., Albert Lea, Minn.; B. W. Luhman, Chickasha, Okla.; D. D. Michael, San Francisco, Cal.; W. T. Roach, Carthage, Mo.; G. Schleuder, Austin, Minn.; W. H. Wright, Webb City, Mo.; G. W. Haltrom, Ft. Worth, Texas; Kors Bros., Independence, Ia.; J. S. Lang & Sons, Coffeyville, Kans.; D. M. Leach, Caney, Kans.; Shreve & Co., San Francisco, Cal.; Andrew Wilson, Winfield, Kans.; James G. Grant, Augusta, Kans.; Louis Gwirtz, Philadelphia, Pa.; J. C. Hadler, Wichita, Kans.; Herman Kunath, Spencer, Ia.; J. B. Laramore, Washington, Ga.; Perry E. Miller and E. B. Roser, Wellington, Kans.; S. S. Schepps Co., Los Angeles, Cal.; G. M. Smith, Augusta, Kans.; G. M. West and Whitney Jewelry Co., Wichita, Kans.; Ed. Nix, Bentonville, Ark.; San Diego Jewelry Co., San Diego, Cal.; S. F. Hyde, New Philadelphia, O.; G. A. Clark Co., Lorain, O.; H. H. Bowman, Brookston, Ind.; Payne & Crowder, Boulder, Colo.; C. L. Taylor, Uhrichsville, O.; H. L. Dodge, Anacortes, Wash.; W. E. Hanscom, Pendleton, Ore.; E. L. Overjorde, Coeur d'Alene, Idaho; Gescheider Bros., Baltimore, Md.; Scott Jewelry Co., Laurel, Miss.; Jacobson & Furen Co., S. Omaha, Nebr.; A. L. Schaefer, Pendleton, Ore.

The following rewards were ordered paid:

- No. 82.—To Officer James A. Russell, Buffalo, N. Y., for the arrest and conviction of George C. Fowler, who broke into the store of Yung & Debus, of that city, on Oct. 14, and again Nov. 30, 1908, on both occasions stealing miscellaneous jewelry from the show cases. There were no clues upon which to work at the time, but Officer Russell suspected Fowler and a young boy who was intimate with him and watched them closely for nearly six months, when the boy finally weakened under threat of arrest and made a confession re-

sulting in the arrest of Fowler and the recovery of nearly all of the goods. This being the first offense the court sentenced the thief to the Elmira Reformatory for an indefinite period.

No. 83.—To Officers John S. Broyles and William Primm, of St. Louis, Mo., for the arrest and conviction of James Dexheimer and James Groves, who smashed the store window of the Grand Jewelry & Optical Co., and stole a number of umbrellas and gold filled fob chains for which they were sentenced to the workhouse for one year.

No. 84.—To Officers Harry Stege and John W. Farrell, of Kansas City, Mo., for the arrest and conviction of Francis Florados, who smashed the window in the store of Alex. Fuhrman, Jan. 9, and stole jewelry to the value of about \$200. A list of the stolen property was sent to the pawnbrokers and police, and the thief was arrested when he tried to dispose of some of the jewelry and was sentenced to six months in the county jail.

No. 85.—To Officer P. C. Anderson and U. S. Detective G. H. Seaton for the arrest and conviction of Fred Hamilton, who smashed the window of I. Aronson, Portland, Ore., and stole miscellaneous jewelry to the value of about \$1,000. He also broke through the glass door of the G. Heitkemper Jewelry Co., of the same city, and was about to enter when Officer Anderson came up, and, in connection with Seaton, gave chase, finally shooting the burglar in the heel and capturing him. A large part of the goods were recovered and returned to the owners. Hamilton, who was a well-known athlete, was arraigned in the police court and was held for the grand jury, but, before being sentenced, died in a sanitarium where he had been sent for an examination in regard to his sanity, his family believing that he was not responsible at the time of the burglary.

Death of Reinhold Bujannoff, Jr.

SAN FRANCISCO, Cal., May 12.—Reinhold Bujannoff, a well-known manufacturing jeweler, who for many years was located in business at 51 Lick Pl., died suddenly at his residence, 1711 Broderick St.

The deceased was born in Russia 58 years ago and emigrated to New York City when quite young. He went from New York to San Francisco and was at first employed as jeweler and designer for several years. He resided in this city for about 30 years and for most of that time was engaged in the manufacturing jewelry business. His establishment at 17 Lick Pl., here, was burned out in the general fire of April, 1906, when Mr. Bujannoff is reported to have lost about \$10,000. He carried no insurance. He managed to save some stock, however, and began business again.

The deceased was always regarded as an excellent business man and was held in the highest esteem by his intimate friends and members of the trade. Besides his widow Mr. Bujannoff is survived by three daughters.

Receiver Takes Charge of Business of L. M. Solans, Rockwood, Tenn.

Rockwood, Tenn., May 12.—The business of L. M. Solans, a retail jeweler in this town, has been taken in charge by James G. Crumbliss, who has been named as receiver by Chancellor Kyle of Knoxville in a creditor's bill filed by Fred Haggard, a local attorney.

It is said that Mr. Solans' liabilities are in the vicinity of \$1,000, and that the stock which has come into the hands of a receiver is worth about \$800. The principal creditor of Mr. Solans is said to be the firm of Albert Bros., Cincinnati, whose claim is about \$500.

Mr. Solans was formerly employed by J. E. George, and has been in business here for nearly four years. He has been financially handicapped for some time past.

LOUIS J. DEACON, Atlantic City, N. J.

John Nelson Convicted at Providence of Receiving Gold Stolen from Manufacturing Jewelers.

PROVIDENCE, R. I., May 12.—John Nelson, former member of the Rhode Island House Representatives, and the North Main St. tail jeweler and refiner, was yesterday afternoon found guilty of receiving stolen goods, knowing them to have been stolen, by a jury in the Superior Court before Judge George T. Brown. The jurors returned their verdict after a deliberation of four hours.

Immediately upon the announcement of the verdict counsel for Nelson filed a motion in arrest of judgment and sentence, claiming three grounds, involving the validity of the warrant upon which Nelson was taken in charge and questioning the jurisdiction of the Superior Court on technical reasons.

The case came to the Superior Court on the defendant's appeal from the decision and sentence of Judge Christopher M. Lee of the Sixth District Court. Nelson is charged with receiving five lots of gold scrap and metal from William J. Wallace, who was employed by the Fontneau & Cook Co., from whom Wallace testified that he stole the goods. The arrest was made on May 10, 1908, and on that day the testimony showed that Nelson met Wallace on the street and received from Wallace his coat, the pocket of which was a package of the stolen stuff.

During the trial Nelson took the witness stand and testified that he did not know the goods were stolen. He claimed that he bought the scrap from Wallace in the ordinary course of business as a refiner. Wallace was closely cross-examined by Assistant District-Attorney Cross, during which Nelson admitted that it was not his habit to meet people on the street and take packages. The witness said he would meet customers if they asked him to do so.

Asked what he did with the stuff he received from Wallace, Nelson said: "I melted it right away if I needed the money. I didn't need the money I would keep a day or two before I melted it." The witness then explained how he melted the stuff and then sent the bullion to the Government or to a dozen different concerns. Nelson was asked if he was a refiner, and he replied said: "Yes, sir; I've been one for years and have done refining for a great many people."

"Can you give me the name of one jeweler for whom you have done refining?" he was asked.

"No, I can't. They have been hounding me for 14 years and have ruined me, and I'm turning to the Assistant Attorney-General. "are a party to it!" exclaimed the witness, excitedly.

Dr. Joseph M. Bennett was called to testify concerning Nelson's mental and physical condition. He said that Nelson called in his office several times in 1908, and that he also visited Nelson. The defendant's condition was diagnosed as neurasthenia and could not be quickly cured. The purpose in calling Dr. Bennett by the defense was apparently to show that his condition is such as to be likely to produce forgetfulness and a general nervous condition.

There was on Dr. Bennett's certificate and

the testimony of Dr. Hall, of Butler Hospital, that the Nelson trial was postponed in January by Judge Sweetland, owing to the defendant's condition.

A. B. Crafts, of counsel for the defendant, argued to the jury that the evidence and circumstances were such as to raise a reasonable doubt as to the defendant's guilt, and that John Nelson was entitled to the benefit thereof if such doubt existed in the minds of the jurors.

Assistant Attorney-General Cross summed up in behalf of the prosecution. He reviewed the testimony and commented upon the proverb, "Lying in the badge of guilt," which Mr. Crafts had quoted in connection with the testimony of one of the State's witnesses. Mr. Cross applied the text to the defendant's story as told on the witness stand, and arraigned Nelson as a dangerous man to the community because of the temptation to steal placed before others by his business if the charge was true.

Judge Brown read the greater portion of 30 requests to charge as received from the attorneys for the defendant, omitting those which were refused. On motion of Mr. Cross the jurors were kept together, as is customary in a trial for a capital offence. This is usual, but Mr. Cross, when he made the motion at the commencement of the trial, said that the importance of the case

demanding that the utmost precaution be taken against any irregularity that might produce a mistrial.

treasurer, D. L. Florry; vice-president, E. M. Florry; secretary, W. W. Royal.

Employee Swindles Schenectady, N. Y., Jeweler by a New Trick.

SCHENECTADY, N. Y., May 17.—Meyer L. Cromer, jeweler and optician at 810 Albany St., has reported to the local police that an employe, operating under a supposed fictitious name, buncoed him out of \$500. The man had been employed by Cromer for the past eight months as an optician. He earned from \$25 to \$30 a week. He is a man of pleasing address and it is possible that he has left other victims here.

A few weeks ago the employe told the jeweler a story about his expecting to get \$500 from a brother in Buffalo. Then he said he had received the money. He asked Cromer for his bank book so he could deposit the draft. Cromer gave him the book, which the clerk later returned, showing a deposit entry of \$500. Cromer supposed the entry was all right. On May 1 he gave the employe a check for \$300, on May 5 a check for \$100 and \$100 in cash, thus balancing the account. The man then disappeared. Cromer learned that the bank book entry was fraudulent. Cromer says he learned that his employe presented two notes, each for \$250 to the bank when the \$500 entry was made. The endorsement on the notes are said to be forged.

The local police believe that the swindler has worked this game in other cities. It is reported that he passed two worthless checks on local firms and that he has misappropriated some of Cromer's receipts. The police in other cities have been notified.

St. Louis, Mo., Jeweler Shoots Wife After He Had Been Shot by His Son.

ST. LOUIS, Mo., May 17.—August Poos, head of the firm of August Poos & Son, was shot and mortally wounded to-day in his jewelry store, 3564 South Broadway, by his son and clerk, Edward Poos, 19 years old. Edward says he shot in defense of his mother's good name.

As Mrs. Poos ran into the store her husband shot her and both fell to the floor. They were both sent to the city hospital in the same ambulance, but Poos died on the way. The hospital doctors say that Mrs. Poos will die.

Edward Poos is under arrest. He says he shot his father because of a slurring remark that he made about Mrs. Poos.

Death of George P. Osmond.

BORDENTON, N. J., May 15.—George P. Osmond, a well known and highly respected jeweler in this town, died last night in his 60th year. The news of his demise will be received with distinct regret by a large number of friends in the jewelry trade.

Mr. Osmond had been connected with the jewelry trade for nearly 40 years, and had been in the business here since 1879. He was highly regarded in business and social circles and was a member of many organizations, among them the Mt. Moriah Lodge, No. 28, F. and A. M.; Hopkinson Circle, No. 41, B. of A., and Bordentown Lodge, No. 16, I. O. O. F. Outside of business, deceased was noted as a local

preacher and was a class leader of Trinity Methodist Church for many years.

R. H. Ingersoll & Bro. Sue New York Jeweler Who Cuts Prices on Their Watches.

A bill of complaint was filed last week in the United States Circuit Court at New York by Robert H. Ingersoll & Bro. against Leo Strass, a retail jeweler, 745 Sixth Ave., New York, who conducts a small jewelry store known as "The Jewel Box," said to be the smallest store of its kind in the world. It is alleged that Strass infringed on the rights of the complainants by selling watches made by them at a price under the schedule at which such watches are delivered to the retail jeweler for sale.

The complaint sets forth that the concern has been damaged to the sum of \$5,000 by the alleged acts of the defendant and that the damage is a continuing one and asks that a perpetual injunction be issued by the court restricting the defendant or his agents from dealing in these watches except as licensed by the complainant.

The complaint recites that certain lantern pinions and lever escapements were invented by one Ernest H. Horn, who sold his right to the Waterbury Clock Co., and that patents, numbered 784041 and 855950, were obtained to protect these inventions and that the Waterbury Clock Co., in turn, transferred to the complainants in this action their right to the patents. The complaint charges that the defendants sold and is now selling and threatens to continue to sell watches embodying these letters patent in violation and in disregard of the schedule of prices at which retail dealers agree to sell watches containing these patented inventions. The complaint claims that the defendant had knowledge that the watches were subject to restrictions and could not be dealt in by himself or anyone else unless in accordance with the schedule of prices.

It is also claimed that the defendant publicly exhibited in the show window of his place of business a card containing the following inscriptions: "We dare Ingersoll and Gillette. We sell Ingersoll watches at 75 cents and Gillette razors at \$3.50. They both threaten to sue us and we dare them." The complaint further avers that the defendant has undersold quantities of the watches, including the "Yankee" watch, and that his avowed determination to so continue has the effect of encouraging others to infringe upon the rights of the complainant.

Another contention raised by the complaint is that the watches have been for years, and are now, sold with a guarantee to keep them in repair for a year, and that the company must live up to this guarantee whether the watches are sold at the schedule price or for less, as is the case in the case under consideration.

Pending the settlement of the suit, the complaint prays that a preliminary injunction may be issued restraining the defendant from selling the watches under controversy.

Mr. Strauss, in speaking of the matter to a JEWELERS' CIRCULAR-WEEKLY reporter, said that he did not purchase the watches he sold of the Ingersoll concern, and had never had any dealings with them. He said he made a reasonable profit on his sales at the price he charged.

Lancaster, Pa.

S. Kurtz Zook, paid a visit to Pottsville, Pa., last week.

Edward O. Bowers is on a two weeks' trip to Cambridge, Mass.

Emanuel Seibel has taken a position as watchmaker with the Penn Traffic Store at Johnstown, Pa.

Parke J. Fleming, a Louisville, Ky., jeweler, visited relatives here, last week, en route to New York.

James B. Roumford, a well-known salesman, has taken a traveling position with the H. S. Mciskey Co.

A. H. Rosenstein, of the Lancaster Silver Plate Co., was in Philadelphia, last week, with a line of novelties.

Richard L. Beachem has gone to Indianapolis, Ind., to take a position as engraver for his brother, Lloyd P. Beachem.

Word was received here on May 13 of the death in New Orleans, May 11, of John W. Phillips, a former Lancaster watchmaker, who went there several years ago.

E. B. Downs, with Hayden W. Wheeler & Co., was here on his initial trip into this territory, last week, having taken the place of Mr. Cretcher, who takes another territory.

The three beautiful loving cups which were presented, last week, at a banquet by the Green Room Club of Franklin and Marshall College, of Lancaster, to several persons who had helped in a recent dramatic production, were furnished by S. Kurtz Zook.

Among those in attendance here at the annual convocation of the Grand Commandery of Pennsylvania, Knights of Malta, last week, were: A. H. Rohrer, Pottsville, Pa., who was some years ago with H. Z. Rhoads, of this city. Another visiting knight was S. Raymond Snyder, Chambersburg, Pa.

Charles Stoner, employed with N. W. Pinkerton, Manheim, Pa., has entered the Ezra F. Bowman Technical School as a student in engraving and watchmaking. George H. Thomas, Kittanning, Pa., a student of the school, is back after a two weeks' visit home. Lloyd Ehrhart, of Lloyd Ehrhart & Bro., Davis, W. Va., who was taking a course of engraving, has returned home. The school baseball team was defeated, last week, by the local Y. M. C. A. team by a score of 13 to 1.

At a hearing in the bankruptcy proceedings of F. D. Stellar, the Hammondspont, N. Y., jeweler, held before Referee Darrin at the court house in Bath, recently, Mr. Fish was elected trustee and bond fixed at \$5,000.

Mrs. Dehnel, wife of Henry Dehnel, Sandusky, O., died April 30 after an illness of five months. She is survived by her husband and two sons, who have the sympathy of their friends in the trade in their bereavement.

A Great Three Months' Sale for the Dulme Jewelry Co., Cincinnati.
The unprecedented sale for the W. A. Sturgeon & Co. Store, Detroit.
The very profitable sale of stock of Mrs. L. Kircher, Davenport, Ia.

Write for booklet telling how to convert your stock into shining cash.

Philadelphia.

H. S. Kratz, Souderton, Pa., was in town last week.

The Ideal Plating Co. has opened an office at 822 Sansom St.

George Wetzel has removed from 125 S. 7th St. to 813 Allegheny Ave.

William Liener, 2256 N. Front St., has been selling out his stock at auction.

Thomas Bunston, 726 Sansom St., who has been ill for some time, is improving.

L. Weiss, watchmaker, 711 Sansom St., has just returned from a week's trip to Washington, D. C.

C. Sunkenheimer, manufacturing jeweler, formerly with George Wetzel, has opened an office at 726 Sansom St.

Walter Kruse, with George & Child, 20 S. 10th St., went motoring through Delaware and Maryland last week.

Frank Colladay, son of F. A. Colladay, 5241 Germantown Ave., is convalescent after an attack of typhoid fever.

H. D. Stevens, buyer of Strawbridge & Clothier's jewelry department, has just returned from a trip through the east.

James Stewart, 2043 South St., will be official starter at the Marathon race held at Washington Park, 26th and Allegheny Ave.

S. J. Lyons, 2258 N. Front St., is visiting Tamaqua, Pa., on business. Mr. Lyons is interested in the firm of Lyons & MacPherson.

R. Harrison has resigned his position with William G. Restorff, 719 Sansom St., and has accepted a position in Washington, D. C.

Benjamin Ristine, a plater of 123 S. 7th St., who buried his sister last week, is receiving the sympathy of his friends in the trade.

John Oberholtzer, with the firm of Joseph B. Bechtel & Co., is preparing for a trip for this house over the territory covered by Joseph B. Bechtel.

Fred T. Barry, with L. Stern & Co., Providence, R. I., has returned from an extensive western trip and reports business good in the west.

Mr. and Mrs. Jesse L. Brown, Richmond, Va., are visiting friends in New York. Mr. Brown is traveling for M. Sickles & Sons in the southern territory.

The Bailey, Banks & Biddle Co. has on exhibition in its window a silver pitcher, known as the Commodore Prize for the Holly Beach Yacht Club, Holly Beach, N. Y.

Leo Dilger, son of Paul Dilger, watchmaker, 8th Ave. and Chestnut St., was married April 15 to Miss Lydie M. Gale. Mr. Dilger is an engraver and well known to the trade.

Many of the Chestnut St. jewelry stores have in their windows cards bearing the words: Commencing Saturday, May 15, this store will close daily at 5 o'clock P. M.; Saturdays at 12 o'clock.

Louis Sickles will, as usual, spend the Summer months in the country with his family. E. Sickles, of M. Sickles & Sons, is visiting in New York and the down-east factories on business.

Reports were confirmed Saturday of the marriage of Miss Elizabeth B. Bergdoll, heiress and daughter of Louis Bergdoll, the millionaire brewer, to Albert Hall, a

chauffeur, and formerly a salesman in the silver department of M. Sickles & Sons, where he was employed for several years.

Mr. and Mrs. Milton E. Rosenheim, Providence, R. I., were visiting Mr. Rosenheim's parents in Philadelphia this week. Mr. Rosenheim is manager of the L. Stein & Co. factory, Providence, R. I.

Gustave Koshland, eldest brother of Charles Koshland, of the Koshland & Italic Co., 702 Chestnut St., died, Friday evening, from the effects of an operation. Mr. Koshland had been ill for some time.

Max Newman, formerly with J. E. Caldwell & Co., has returned from Panama, where he has spent several months representing the Keystone Watch Case Co. and the Elgin National Watch Co.

J. H. Kelly, who has charge of the watch department for Bailey, Banks & Biddle Co., sails for Europe soon on the *Kronprinzessin Cecilie*. Mr. Kelly will be gone for six weeks in the interest of the firm.

Many well-known jewelers will take part in the exercises in conjunction with the Royal Arcanum convention to be held in this city next week. Among the jewelers who will participate are: E. Diesinger, George Wilhelmi, James MacMillian, Harry C. Barry, Joseph Gumpert and Elmer Horn.

F. Powell, Norfolk, Va., who is taking a six months' course in the Horological College, Philadelphia, has commissioned E. L. Jenkins to take charge of his business during his absence. Most of the work will be sent daily to Mr. Powell, where it will be fixed in the college under expert supervision.

Strawbridge & Clothier have on display in their diamond department an emblem of the Royal Arcanum done in jewels. The piece measures four inches in diameter and is made of diamonds, rubies and sapphires. The emblem is valued at \$10,000 and was designed by William J. Fulton, of the diamond department of Strawbridge & Clothier.

Charles Rose, who for nearly 25 years had a retail jewelry and repair shop at 1026 Pine St., died at his home last week. Mr. Rose had been in poor health for several years. The business was carried on by his son, Charles. Mr. Rose was 68 years old and had been in the jewelry business for 50 years. Charles Rose, Jr., will continue the business at 1026 Pine St.

Blair & Crawford, 1228 Chestnut St., are making for the National Association of Piano Dealers of America a large silver loving cup to be presented to the retiring president. The emblem of the society is mounted on one side and large monogram on the other. The inscription of third side reads: "Presented to C. A. Grinnell, Eighth President, June 15, 1909."

A guest at the Hotel Walton was agreeably surprised a few evenings ago during her dinner when she dug out of a Cape May clam two black pearls of a beautiful color. One of the pearls was of large size and is now set in a heavy gold ring; the other, a much smaller gem, was presented to the waiter. The pearls were appraised at \$600 by a Chestnut St. jeweler.

The following jewelers were visitors to this city, last week: D. H. Krause, North Wales, Pa.; R. W. Quicksall, Mount Holly, N. J.; H. B. McFarlan, E. Downingtown, Pa.; E. K. Bean, Lansdale, Pa.; Mrs. A. Johnson, Smyrna, Del.; Howard Fitzsim-

mons, West Chester, Pa.; Jesse E. Webb, West Chester, Pa.; Frederick C. Maag, Bridgeport, Pa., and F. J. Bloomhall, Conshohocken, Pa.

D. V. Brown, optician, 734-719 Sansom St., has greatly increased his factory space. Mr. Brown has added the three stores adjoining his old store and thrown this space into one large room. The store now is quite a modern factory and salesroom, where everything that relates to the optical trade is manufactured and sold. Mr. Brown is quite enthusiastic about his new store and promises everything new and up to date in the way of its furnishings.

The 11th annual shad dinner of the Philadelphia Jewelers' Club was held Tuesday evening, May 11. The Bingham Hotel roof garden was chosen for the spread, and over 175 guests attended, many jewelers coming from New York. According to Col. J. Warner Hutchins, this dinner was the most successful ever given. An orchestra of 10 pieces played throughout the evening. A vaudeville show followed the dinner, after which the guests adjourned to the club house and the festivities continued till the wee sma' hours of the morning.

J. E. Caldwell & Co. are exhibiting in their window "The Rudder Cup," a silver trophy presented by "The Rudder" to the Yokohama Yacht Club of Yokohama, Japan, as a prize for an ocean race. The design of the cup is classic, tall and graceful in shape, with Greek handles, and is fitted with a cover. On the front are the crossed flags of the Yokohama Yacht Club and The Rudder, the colors being in enamel. The title of the cup and presentation of inscription also appear on the front, while on the reverse is the plate with the words "Won by." The cup will be shipped to Japan in a few days.

The involuntary bankruptcy proceedings that have been begun against George Kite, a wholesale dealer in diamonds and jewelry, 818 Chestnut St., may soon be settled quietly and amicably by the creditors. As there have been no schedules of liabilities and assets filed as yet in the bankruptcy court it will not be possible to give any exact figures for about 10 days. Mr. Kite's attorney, Mr. McCaughy, states that as soon as the value of the assets can be determined efforts will be made to effect a settlement with the creditors. If a settlement is arranged Mr. Kite will continue in business. It is understood that the assets are approximately \$9,500 and the liabilities, \$12,400.

Utica.

William Edelstein, manufacturing jeweler and diamond setter, has opened a place of business in No. 3 Weaver Block, 69 Genesee St.

At Watertown, N. Y., Edward Simpson has won a verdict in the County Court against Joseph Cohen, a well-known diamond dealer of this city, for \$425. Simpson bought a diamond for \$500, claiming that Cohen agreed to buy it back at any time for 15 per cent. less than the purchase price. The first trial in the City Court resulted in a verdict for Mr. Cohen, but Simpson appealed.

C. E. Chapman, Hot Springs, Ark., has been succeeded by Wm. Chapman.

Providence.

John Kelso visited Boston last week on business.

Alaric R. Tuck, of this city, has been granted a patent on an emblem.

L. Castritius, Westerly, was a visitor in Boston, Wednesday of last week.

E. A. Phinney, Pawtucket, has been granted a patent on a separable button.

Waite R. Callender has been elected as trustee of the Providence Public Library.

Charles E. Hancock, of the C. E. Hancock Co., was a visitor in New York last week.

Mr. and Mrs. Erling C. Ostby have taken a cottage at Warwick for the Summer season.

Edward C. Wilde has been elected treasurer of the Men's Club of Central Baptist Church.

Mr. and Mrs. Henry W. Harvey returned on Friday from a visit to New York and Washington.

William Bosselman is calling upon the trade of T. Quayle & Co., of this city, in the middle west.

Frank B. Reynolds, with his wife and daughter, recently returned from a trip to southern Europe.

Robert Scholz, western representative of the George H. Holmes Co., of this city, was in New York last week.

P. G. Baker, representing the Smith, Patterson Co., Boston, was in town on Friday, calling on the retail trade.

Clifford Salisbury, for many years with T. A. Carpenter, is now representing F. A. Simmons among the local trade.

Rufus L. Griffith, president of the R. L. Griffith & Son Co., returned, last week, from a several months' stay in Florida.

An attempt was made to break into the retail jewelry store of E. D. Frey, on Main St., East Greenwich, on Tuesday night.

A. J. Burnes is selling out his stock of watches and jewelry at 675 Westminster St., preparatory to going out of business.

The United States Gas Furnace Co., of this city, have just received a number of large orders from business houses in Japan.

Emory J. San Souci and his nephew, who have been spending the past five weeks fishing and hunting in Florida, arrived home Sunday morning.

George Gow, formerly connected with the New York office of Henry A. Kirby, of this city, has accepted a position with Moser & Whythe, New York.

William G. Lawton will attend the National Federation of Gospel Missions to be held at Jersey City, N. J., the first week in June as one of the delegates.

Lawrence Kennedy, North Attleboro, has accepted a position with the Ostby & Barton Co., of this city. He was formerly foreman for Miller, Fuller & Whiting.

A 32-foot hunting cabin launch of the latest type is being built at Westerly for Horace L. Manchester. She will be enrolled under the Barrington Yacht Club colors.

Percy W. Hatch presided at the dedicatory exercises of the new Masonic temple at Riverside on Friday, as Worshipful Master of St. Andrew's Lodge A. F. and A. M. of that village.

Henry O. Crandall has accepted a posi-

tion as salesman for Julius Mamluck & Co., 204 Westminster St. He was formerly associated with H. Nordlinger's Sons in a similar capacity.

Mr. and Mrs. William E. Aldred are spending a couple of weeks in New York, being registered at the Hotel Walcott, where they entertained at dinner on Thursday evening last.

A. A. Greene & Co., of this city, whose claim was \$2,452.82, was one of the petitioning creditors for bankruptcy proceedings against George M. Kite, jeweler, 820 Chestnut St., Philadelphia.

Among those who were in town the past week, taking advantage of the unusually large number of buyers in town to show their goods, was L. M. Graubarth, of J. Friedman, New York.

The regular monthly meeting of the directors of the Manufacturing Jewelers' Board of Trade will be held Friday afternoon at the room of the organization in the Wilcox building, 18 Weybosset St.

At the annual election of officers of the Providence Marine Corps of Artillery Veteran Association on Wednesday evening Edgar R. Barker was elected major and George M. Grant, assistant commissary.

Fred. M. Ellis, formerly a manufacturing jeweler at Attleboro, but for several years past a salesman in the New York office of the S. & B. Lederer Co., of this city, has been visiting the company's factory here recently.

George A. Forsyth, for more than a quarter of a century with Thornton Bros. & Co., resigned, last week, as colonel commanding the First District Coast Artillery, Rhode Island National Guard, after holding a commission in the militia service of the State for 34 years.

John H. Shepard, Jr., has just returned from a three months' trip in the south. He has wholly recovered from the siege of typhoid fever which he underwent at Palm Beach, Fla. His convalescence after the eight weeks' illness was at Ormond, Fla., Camden, S. C., and Lakewood.

Among the guests at the 91st annual banquet of the First Light Infantry Regiment at the Narragansett Hotel on Tuesday evening were Mayor Fletcher, Major Howard D. Wilcox, Col. Byron E. Daggett and Representative Harry Cutler and Representative George W. Rhodes.

A. A. Charnig & Co., Portland, Ore., has been petitioned into involuntary bankruptcy by counsel of the Manufacturing Jewelers' Board of Trade of this city, which represents 33 creditors. The total liabilities are reported as \$10,800, of which fully two-thirds is held in this city and the Attleboros.

The Rhode Island Novelty Co., 7 Beverly St., this city, of which M. T. Leary is manager, has issued a circular letter to the trade that the concern sells only to the wholesalers and does not intend to sell to retailers. It announces that George C. Mendell represents the firm in the east and middle west and Fred R. Sheridan on the Pacific Coast.

Among the foreign importations received through the Providence Customs House, the past week, were the following: From Bremen, nine packages of imitation precious stones and four packages of jewelry; from Havre, one package of imitation precious stones and one package of manufactures of

metal; from Liverpool, two packages of manufactures of metal.

Chairman William H. Luther, of the Board of Police Commissioners, who is also head of the manufacturing jewelry firm of William H. Luther & Son, has given up the voyage to Europe which he proposed to make during the months of July and August. He already had engaged his passage on a transatlantic liner, but canceled it on account of sickness in his family.

Nathan Cohen, of 432 6. Main St., this city, while peddling jewelry in the town of Cranston one day last week, happened to call at the house of Chief of Police Patrick Trainor, and as a result paid a fine of \$5 and costs for peddling without a license. Chief Trainor asked to see Cohen's license, and the peddler displayed one granted to Abraham Guisberg to peddle tinware.

The portrait of Mayor Henry Fletcher, who is treasurer of the Fletcher-Burrows Co., manufacturing jewelers, was delivered Thursday and hung on the south side of the council chamber in the Providence city hall. The portrait, which is an admirable likeness of the present chief executive, shows him in a standing position beside his desk in the board of aldermen chamber.

The Newbern monument, to be erected at Newbern, N. C., by the State of Rhode Island to the memory of the soldiers from this State who died in the North Carolina campaign during the Civil War, was cast at the Gorham Co.'s works Monday. The operation was carried out in the presence of Governor Pothier, the members of the commission that has charge of the erection of the monument and several other invited guests.

William B. Cummings, 32 years of age, charged with the embezzlement of one lot of rings and rink shanks, valued at nine dollars, from the Ostby & Barton Co., pleaded guilty before Judge Rueckert, in the Sixth District Court on Friday, and was fined \$20 and costs. He was arrested late Thursday afternoon. He had been in the employ of the Ostby & Barton Co. for about a week, recently, although he was employed there previously, having been paid off last Christmas on account of dull business. He was a stamper.

During the Winter, under the auspices of the Young Men's Christian Association, weekly meetings have been held at the Gorham Casino, where at noon Rev. E. A. Hanley, pastor of the First Baptist Church, has talked to the men employed at the plant. The final meeting of the season was held May 11, when Dr. Hanley was presented with a silver water pitcher as a mark of appreciation by the men whom he has addressed, the presentation being made by William G. Lawton, son of Superintendent John F. P. Lawton.

The body of Laura E. Regester, daughter of Charles W. Regester, with the Gorham Co., was found in a mutilated condition in the old Jewish Cemetery near her father's home, near the city line, early Tuesday morning, May 11. Charles Douglas, to whom she was engaged to be married next month, was employed by the manufacturing jewelry concern of A. A. Greene & Co., 94 Point St. Mayor Fletcher has offered a reward of \$500, announcing that if the aldermen do not sanction the offer he will pay the same out of his own pocket.

This recalls the offer of a similar reward for the apprehension of the murderer of William O. Hutchins, the young manufacturing jeweler by a burglar at his home on Angell St. on March 8, 1898, which was never earned.

The local of the Jewelry Workers' Union, which was organized with great eclat a few years ago, has been disbanded because of the lack of interest on the part of the very few members who have contributed to its support. It is proposed, however, to make an effort to unionize the jewelry workers of this city, and a committee, consisting of Charles Lee, State organizer of the American Federation of Labor; Samuel R. Macready, and Lawrence A. Grace, secretary of the Central Labor Union of Providence, has been appointed for the purpose. This committee proposes to visit the several shops and jewelry manufactories and effect an organization, not as a Jewelry Workers' Union, but as an independent local directly affiliated with the American Federation of Labor.

There was an unusual number of buyers in this city during the past week. Among those were the following: David and Max Stone, of Stone Bros., Chicago; Oscar Uhl, of Furstenwuerth-Uhl Jewelry Co., St. Louis; Rudolph Eiseman, of M. A. Eiseman & Bro., Chicago; Joseph H. Rosenberg, J. H. Rosenberg & Son, Detroit, Mich.; representative of K. Landau & Co., Chicago; Miss R. S. Mirebaum, of the Simpson, Crawford Co., New York; Jacob Fishman, of the Fishman Novelty Co., St. Louis; J. Floersheim, of J. Floersheim & Co., Chicago; representative of Goldsmith Bros., Cleveland; H. Seligman, of H. Seligman & Co., St. Louis; Bernard J. Hirsch, of B. J. Hirsch & Co., San Francisco; I. M. Oppenheimer, of M. J. Oppenheimer & Son, Baltimore; S. Schweizer, of Schweizer & Co., Philadelphia; R. W. K. Co., Chicago; Sidney Langsdorf, of Langsdorf Bros. Jewelry Co., St. Louis; representative of Kadden Bros., Baltimore, and Harry Morris, of Morris, Mann & Reilly, Chicago.

Exhibits of architectural and jewelry designing at the Rhode Island School of Design were opened the past week, both collections possessing great interest and merit. In the Japanese gallery of the museum has been placed the jewelry designed and made by Frank Gardiner Hale, of Boston. Those who saw Mr. Hale's previous exhibit will gladly renew their delight in his wonderful color combinations obtained by the use of precious stones and semi-precious stones, together with metal work in gold and silver. This year's collection shows even greater variety of design and unusual combinations. There are exquisitely wrought silver chains, pendants, brooches, rings and scarfpins, set with such jewels as chryso-prase, azurite-malachite, lapis lazuli, garnets, rubies, tourmalines, Mexican opals, chalcedony, jade, olivines, yellow sapphires, pearls and diamonds. A list of these reads like the description of the walls of the New Jerusalem, and the jewels themselves are a revelation in color combinations. There is a silver chain set with great moonstones like bits of captured colored moonlight; a ring set with a pink tourmaline surrounded by diamonds and olivines, which is an exquisite combination of unusual richness, and there is a curious ring set with an opal

matrix; pendant set with Spanish sapphires; another set with lapis lazuli and turquoise, and other unusual and beautiful combinations.

North Attleboro.

The Codding & Heilborn Co. closed last Saturday night for the annual stock taking.

Oscar H. Hornig left Monday on a trip in the interest of the Codding & Heilborn Co.

George O. Paine has returned from a successful western trip in the interests of his firm.

S. Mandalian has returned from a successful trip in the interests of Mandalian & Hawkins.

Orin Clifford left, last Saturday, on a trip to West Virginia in the interests of the G. K. Webster Co.

Station Agent Smith has made arrangements whereby tickets for distant points west and north may be purchased at the local station. It is urged that manufacturing jewelers buy their long-trip tickets from this office. Manufacturers and salesmen going to Boston could also help the town by buying mileage books at this station instead of Attleboro.

At the celebration of Rev. John Whitehill's 40th anniversary as pastor of the First Congregational Church, Mr. Whitehill mentioned the jewelry shops which were in Oldtown at the time he began his duties. There was, he said, four small shops at that time, which employed about 12 hands. One of the firms was William & Shaw, which is now conducted by William Shaw; another was Sadler Bros., which is now running under the same name, and a third shop was Robinson Bros.

Mrs. Walter Ballou, wife of a well-known manufacturer, who for years has been identified with the R. Blackinton Co., died last Thursday evening at the age of 74. Besides a husband, she leaves three children, Mrs. Benjamin S. Freeman, Mrs. Frank H. Cutler and Walter Ballou. The funeral took place from her home on Elm St., Sunday, with Rev. Hazen Conklin, of the Universalist Church, officiating. Burial was at Mount Hope Cemetery. She passed away on the 53d anniversary of her wedding.

A new phase in the troubles of the Miller, Fuller & Whiting Co. is the filing of the bankruptcy petitions by three creditors of the company. The involuntary petition was filed in the United States Court at Boston, May 11. The claims of the petitioning creditors amount to \$620. Deputy Sheriff E. C. Brown announced last Thursday afternoon that the sheriff's sale which had been advertised for Saturday would be postponed. The creditor who instituted the sale sent notice of his intention to revise his original intention.

Edmund Kingman, one of North Attleboro's oldest and best-known residents, died, Tuesday, May 11, at his home on Elmwood St., at the age of 93. Mr. Kingman's death was due primarily to old age. Deceased was born in Norton, Dec. 13, 1816, and received his education at the public schools in Pawtucket. Later he went to the Healey Institute, and after his graduation he moved to North Attleboro. He then entered the employment of H. M.

Richards and became a skilled workman. He accompanied the Richard firm to Philadelphia, but did not like the city, so he returned to North Attleboro and found employment with Tift & Whiting. For 40 years he worked in the Whiting factory, with Tift & Whiting first and then later with the Whiting Mfg. Co. In 1844 he was married to Miss Zephia D. Adams, of Easton, and the union was blessed with three children, Henry E. Kingman, of New York; Edward B. Kingman, the large comb manufacturer of Leominster, and Miss Ida Cargill, of this town. The funeral took place Thursday afternoon at Mrs. Cargill's home on Elmwood St.

Attleboro.

John Albert Sworbel has received a patent on a medal which he has assigned to McRae & Keeler.

E. V. Sweet took up his residence, last Saturday, at his new Summer home at Narragansett Terrace.

Mrs. David E. Makepeace, who has been ill at Jacksonville, Fla., is recovering and is now reported out of danger.

Rapid progress is being made on the new Leach & Garner factory on Hazel St. Contractor Bishop has agreed to have the building completed July 15.

Edward A. Sweeney, one of Attleboro's most prominent jewelers, has given his residence at 9 School St. to the official board of the Methodist-Episcopal Church, to be used as a home for girls.

The case of Arthur W. Campbell against the Attleboro Steam & Electric Co., which went on trial at the New Bedford Court, last week, was settled out of court. Campbell was given \$1,500.

Word has been received here of the death in Medford, Mass., of Francis S. Bailey, aged 79 years. Mr. Bailey was formerly a manufacturing jeweler of this town and employed a large number of men. He retired from the business about 27 years ago.

F. J. Ryder, who has just returned from a western trip for the Walter E. Hayward Co., says that the trade this year is the best he has ever encountered. The south has reversed the usual condition of affairs, he says, and this year is leading the northwest.

The Horton & Angell Athletic Association will hold its annual field day at the Warwick Club grounds, on the Narragansett Bay, on June 26. A big programme of athletic events and social features are being arranged by the committee, which consists of Joseph Heywood, John Hickey and Joseph Brohan.

During the past year a large number of new concerns have been launched in Attleboro. The following concerns were started during the past 12 months: Allen, Lonergan & Co., Attleboro Emblem Co., Art Engraving & Jewelry Co., Bell Finding Co., F. W. Bliss & Co., Joseph Bloom & Co., Chapman Mfg. Co., Douglas Novelty Co., the Metallic Co., Peerless Chain Co., Royal Novelty Co. and Tyndall Bros.

A. P. Staley & Bro., High Point, N. C., have been incorporated as the Walter Staley Co., with an authorized capital stock of \$15,000.

Boston.

R. J. Murphy has been in Maine on business.

David Wells has returned from a business trip to Nebraska.

Henry G. Morris has been in Augusta and other Maine cities on business.

E. E. Hardy, manager for D. C. Percival & Co., is in New York in the interests of his firm.

Martin Zerega is reconstructing his yacht, which will be moored this Summer at Neponset.

The Howard Watch Co.'s factory employees are organizing a baseball team and are looking for games with other watch-makers.

R. A. Kettle, of the Chicago office of the Waltham Watch factory, was in town last week. F. R. Appleton came over from New York last week.

Among the jewelers in town last week were: George A. Drew, Lewiston, Me.; A. W. Avery, Plymouth, N. H.; J. W. Westgate, Nantucket; F. N. Newhall, Lynn; T. F. Ryan, Holyoke, and A. Frisch, Haverhill, Mass.

The local office of Pinkerton's National Detective Agency is sending out circulars to the police, jewelers and pawnbrokers, offering \$500 reward for the recovery of an antique pearl and diamond brooch, with pendant, lost between Feb. 20 and May 3.

L. Henry Juergens, of Snow & Westcott, was here, last week, with H. N. Van Bergen, of the same firm, to call upon his many friends. Mr. Juergens, who formerly traveled through this part of the country, met with much success in renewing old acquaintances and enjoyed himself immensely.

Frank T. Sloan, of Sloan & Co., came to this city, last week, in company with the firm's representative, R. H. Schley. It was Mr. Sloan's annual visit to men of the trade here, by whom he was entertained for several days. Mr. Sloan found a most hospitable greeting, and among other things enjoyed the golf at the Brae Burn Country Club, West Newton.

Charles Nelson, of the Waltham Watch Co.'s factory, received honorable mention for his photograph of Colorado Ave., Pasadena, Cal., in the Boston *Herald's* photo contest. The machinists of the Waltham factory held an outing Saturday, May 8, at Hardy's pond, at which 75 employes were present. Nearly every department was represented. There were athletic events and other outdoor diversions that were greatly enjoyed. The gilding and damascening departments will hold their annual outing at Child's farm, Saturday, May 29.

The employes of Smith, Patterson Co. have organized the Smith, Patterson Co. Benefit Association with 78 charter members. At a recent business meeting they elected these officers: President, James Kingman; vice president, H. L. Reynolds; treasurer, George W. Sammers; secretary, A. G. Gilmore; executive committee, W. R. Tuttle, Charles Ramsdell, Joseph Manning, Thomas Hodgson and Howard Martin.

A news dispatch printed Saturday in the Boston newspapers told of the suicide in Denver, Colo., of Hyman W. Protas, said to be a wealthy jeweler of Boston. The man was said to have been ill with tuber-

culosis and to have shot himself in the presence of his two little sons. The name Protas does not appear in Boston directories of the past 10 years, and leading jewelers, when asked, did not seem to remember the man.

The Foremen's Association of the Waltham Watch Co., had as their guests, Tuesday of last week, Lieut. W. B. Tardy, chief engineer of the battleship *Vermont*; Assistant Surgeon Allan Stuart and Ensign Whitford Drake, both of the U. S. Navy. Ensign Drake is a Waltham boy, and it was through him that the others accepted the invitation of the Foremen's Association. In the afternoon the guests made a complete inspection of the watch factory plant. A dinner was held in the evening, President Stevens, of the association, presiding. The big feature of the night was the presentation to Lieut. Tardy, Assistant Surgeon Stuart and Ensign Drake of handsome timepieces of the latest model.

A man who declared himself to be a jeweler called on Louis Brenner, a tailor at 107 Central Ave., Lynn, about May 7 and asked to rent one of Brenner's windows for a display of jewelry. Brenner was willing, and after the deal was practically completed a poorly-dressed man entered the store and inquired the way to the railroad station. Proper directions were given him and he was about to leave when it suddenly occurred to him that he had two diamond rings he would like to sell. The jeweler (?) became interested, and after examining the rings whispered to Brenner that they were worth \$1,000. The stranger was willing to sell for \$200, but the alleged jeweler had only \$50. After much discussion Brenner was induced to give up \$154 for the diamonds with the understanding that he should keep the gems until his new tenant redeemed them by paying Brenner back his \$154. After Brenner had had the rings several days and no one had shown up he called in the police. A reputable jeweler examined the rings and said that they were of no value. The tailor could give only partial descriptions of the men who swindled him.

Baltimore.

W. Armour Jenkins, of Jenkins & Jenkins, left for Boston, last week.

Maurice L. Reeder, in the Masonic Temple building, has been in New York the past week.

Arthur Wallenhorst, last week, presented the Crusade Commandery, Knights Templar, with a beautiful silk American flag.

Both the silver loving cup and the silver service that was presented to Rev. John Timothy Stone, last week, were made by the Stieff Co., 17 McLane Pl. The service was a hand-beaten design.

Jacobi & Co. have completed a communion set for the St. Paul's Evangelical Lutheran Church at Glenburnie. The set consists of a chalice, flagon and ciborium and was specially designed.

The store of Frederick Gleitsmann, 918 Pennsylvania Ave., was somewhat damaged by the explosion of gas in the cellar caused by the lighted lantern of Chief Shipley, of the Fire Department, igniting gas that is supposed to have been escaping from a con-

nection with the meter. A hole was torn in the cellar ceiling, while the chief was thrown violently against the wall. The show cases were damaged and some jewelry was scattered about the place. The damage is estimated at \$450.

The Hennegan, Bates Co. made the silver punch bowl, platter and ladle that was recently presented to William B. Hurst, foreman of the retiring Grand Jury. It was made in accordance with Mr. Hurst's family silver.

Connecticut.

Walter A. Ingraham, Bristol, has just purchased a new touring car.

The Sessions Clock Co., Forestville, has begun to operate its plant 50 hours a week. It will run nine hours a day, five days per week and five hours on Saturday.

Thieves recently broke into the store of C. D. West, Moosup, and stole about \$1,500 worth of jewelry and other stock. Entrance was gained by breaking open a rear door.

After an illness of about a week H. Jencks, Waterbury, died at his home, 132 E. Main St., in that city, May 14, aged 68 years. The deceased was an inventor of considerable note.

The building formerly occupied by the Connecticut Savings Bank, corner of Church and Center Sts., New Haven, has been renovated and rebuilt for the use of jewelers, many of whom are now moving in.

The E. Ingraham Co., Bristol, is preparing plans for an addition to its movement department. The new building will be of brick and mill construction, 136 by 40 feet and five stories high. It will adjoin the present structure.

The Whiting Mfg. Co., New York, has completed plans to open a factory in Bridgeport. The factory will be built in the east end. Work will be begun in a few days on the foundation, which will be built on a five-acre plot near the tracks of the New York, New Haven & Hartford Railroad Co. H. H. Hamilton, president of the concern, will reside in Bridgeport.

The Upson Jewelry Co., 68 Bank St., Waterbury, has changed its firm style, and hereafter will be known as the Upson-Rogers Co. L. Rogers, Jr., who has been connected with the Davis & Hawley Co. at Bridgeport, as head watchmaker, has purchased a one-third interest in the concern. Mr. Rogers will act as secretary of the company. R. Preusser, who for more than 12 years was located at 64 Bank St., has disposed of his business and is now associated with the Upson-Rogers Co. in the watch and clock repairing department.

A deed was filed for record in the town clerk's office, Bridgeport, May 14, by the International Silver Co., liquidating an indebtedness of \$178,837 on its property on Seaview Ave., together with that on machinery and equipments in its branch, formerly the Holmes & Edwards Silver Co. The deed was a quit claim from H. C. Shelton, trustee and the property comprised the shops forming the local branch of the International Silver Co.'s industry.

Stafford & Sanford, Marshall, Okla., has dissolved, R. L. Sanford continuing the business.

Newark.

Mr. Rogers, of Riker Bros., was in town last week.

E. A. Guenther, of Kohn & Co., has returned from a western tour.

The Delaval cup for hunters and hacks was presented for the Linden Park races by Harry Durand.

William A. Schwarzkopf, of the Schwarzkopf Mfg. Co., Washington St., left on Saturday for a southern trip.

A. L. Wiley, Bridgeton, N. J., has returned from Elmer and reopened his jewelry store at 48 S. Laurel St.

The Kremenz bowlers lost both games to Kneuer in the Mercantile League last week and broke even with the Patton team.

George S. Weiss, of the Schwarzkopf Mfg. Co.'s Chicago office, returned to Chicago Saturday after an extended visit in this city.

Miss L. L. Young, of the Jones & Woodland Co., contemplates a western trip of 10 days' duration. She will go to Martin's Ferry, O.

Emil Vacca, a jewelry polisher employed by Herbert & Wassal, killed himself by drinking carbolic acid in Branbrook Park last week.

Henry Baummeister has rented quarters in the Richardson building, Columbia St. He will do coloring and kindred work for the general trade.

The Rev. H. B. Howe, who has just been appointed assistant to the Rev. Dr. Shaw, of the Second Presbyterian Church, Paterson, N. J., is a son of Geo. R. Howe.

Mrs. Eugene Kraft, wife of a Newark silversmith, is said to have risked her life last week to save her three-year-old son, who had fallen into the Passaic river.

The Daisy Safety Razor Co., Jersey City, filed papers of incorporation at Trenton last week. The incorporators are William H. Rees, Charles C. Kelly, and George W. Rurode. The capital is \$50,000.

The Jewelers' Sick Benefit Society held its annual meeting Friday night and elected officers as follows: Ernest Blaicher, president; Charles Bener, vice-president; Louis Bruening, recording secretary; Henry Mutschler, financial secretary; F. Farnon, Christian Blaicher, Conrad Koffler, trustees.

Whether about \$3,000 given by Edward Blau to his brother Max during the Spring and Summer of 1908 was in the nature of personal loans or an advance payment for goods of the New Jersey Cut Glass Co., bankrupt, was the subject of an examination before Referee in Bankruptcy Edwin G. Adams to-day. Mr. Blau is president of the defunct company.

Thomas Wakefield, 55 years old, formerly employed in Tiffany & Co.'s factory at Woodside, was crushed between the bumpers of two freight cars of the Erie Railroad last week, near the Summer Ave. crossing. He was going on an errand for his wife when he met his death. He had not worked for the Tiffany firm of late because of ill-health. He is survived by a widow, four daughters and three sons.

The handsome \$6,500 residence of Rudolph Pottersmith, a diamond cutter of New York, who lives on Forest Ave., Hawthorne, N. J., was completely destroyed by a fire last week. Mr. Pottersmith was

about to enter his home after walking from the Susquehanna railroad station when he noticed the upper part of his house in flames. He got his family out of the house and together with neighbors began saving furniture.

Diffany & Co., dealers in fancy metal goods, settled their claim last week against John Braly, Spring Lake, for \$338.79. At the time of the Jamestown Exposition Diffany & Co. decided to put some ornamental pocketbooks on the market there. Mr. Braly was engaged as their agent, but the business did not come up to the expectations and he refused to settle with the house. He claimed that the edges of the purses were frayed. Threat of suit resulted in a settlement.

The Newark manufacturers are much pleased with the progress of the movement made to procure the stamping of all goods with the quality mark. A meeting of the good and welfare committee of the Manufacturing Jewelers' Association was held last week, when favorable reports as to the work accomplished were submitted. Mr. Osmun, of the Osmun-Parker Mfg. Co., is chairman of this committee. In response to the circular sent out to all sections of the country more than 1,000 answers have been received, and practically all of the writers indorse the plan to have the karat mark and trade-mark stamped on all goods. They also express a desire to co-operate with the Newark Association in any way possible. It is very likely that this agitation will result in the success of the stamping movement.

Harrisburg, Pa.

Bowman & Co. banqueted their large force of employes at the Hotel Columbus, last week. E. S. Taborn, manager, acted as toastmaster.

A. W. Bogart was arrested in Allentown, last week, and brought to this city to answer a charge of passing a bogus check for \$15 at the jewelry store of Jacob Tausig's Sons.

Governor Stuart has approved the bill requiring loan companies to take out county licenses and prohibiting their charging more than a 10 per cent. premium in addition to 6 per cent. interest.

President Taft has accepted the invitation of the Harrisburg Board of Trade to be the city's guest on Washington's Birthday, 1910. Harrisburg will also entertain the national meeting of the Grand Council, United Commercial Travelers of America in 1910.

As he had done at the hearing before a magistrate, Louis Spealman pleaded guilty in court at Carlisle, last week, of felonious assault with intent to rob, on oath of Jeweler C. F. Reitling, Carlisle. Judge Sadler stated that he wished to make some investigation regarding certain matters before passing sentence on Spealman. Sentence will doubtless be imposed this week.

Representatives of the Harrisburg Board of Trade were in Columbus, O., this week, booming this city as the next convention town for the Brotherhood of Railway Trainmen by means of neat watch fobs made of gun metal, handsomely engraved, with a celluloid face bearing the flag, wheel and lantern of the order. On the reverse

side is the motto "Watch Harrisburg Grow." A leather strap is attached.

Bids will be opened by the State Board of Commissions of Public Grounds and Buildings June 1 at 12 noon, for a large list of supplies for the capitol for the year ending the first Tuesday of June, 1910. Among these supplies are the following: 164 gross nickel plated aluminum pens, cut glass bankers' inkstands, four dozen cut glass paper weights, seven dozen coin silver badges, eight dozen German silver key chains, one dozen air-tight Syracuse watch-glasses, nickel plated alcohol lamps, German silver reading glasses, 13 aneroid watch-pattern barometers, Baccarat glass tumblers, two silver plated postal scales, etc.

Canada Notes.

E. Pommier, Sudbury, Ont., is offering to compromise with his creditors.

E. A. Lapierre, of Ottawa, has sold his jewelry business to H. G. Langford.

J. L. Papineau, Toronto, Ont., has given a chattel mortgage to J. F. Hollis for \$1,000.

Frank Smith, of Melville, Sask., has been found guilty of stealing 27 watches from the store of R. B. Taylor. Sentence was deferred.

Out-of-town jewelers calling on the Toronto, Ont., trade, last week, included: Alex. Grubin, Stouffville, Ont.; H. Heller, Berlin, Ont., and A. Mitchell, Victoria, B. C.

The Orr Plating & Mfg. Co., capitalized at \$40,000, has been incorporated under the laws of Ontario to carry on the business of electro-plating and similar processes at Toronto, with Thomas C. Orr, Wm. H. Cresswell and Ermund P. Ockenden as provisional directors.

R. J. Abbs, western traveling representative of the Goldsmith's Stock Co., Toronto, returned, last week, after a trip to the Pacific Coast. He reports business good in British Columbia, Alberta and Saskatchewan, but conditions not so favorable in Manitoba on account of the late season and recent heavy snowstorms.

A plate glass window was smashed and jewelry and watches to the value of about \$100 removed from the store of C. Bolt, 1613a St. James St., Montreal, on the night of Monday, May 10. Two arrests were made by Constables Arsenault, Clement and Thebault, who were concealed in the neighborhood of the store and caught the men in the act. Between the hours of midnight and one o'clock the constables were attracted by the noise of falling glass. Shortly after they saw two young men running up a side street near Atwater Ave. After a hard chase they were rounded up and gave little resistance to the police. When taken to headquarters they gave their names as Alex. Lefrancois, aged 22, and Alphonse Bonneau, aged 21, both of St. Cunegonde. When searched several watches, chains, bracelets and lockets were found in their pockets. When arraigned before Judge Lett next morning the two men pleaded guilty and were remanded for sentence.

S. R. Livergood, Nora Springs, Ia., and his brother, C. W. Livergood, Reinbeck, Ia., have formed a partnership and will open a store at Mason City, Ia., June 1, under the firm name of Livergood Bros.

GORHAM SILVER

☞ EVERY JEWELER will want to make additions to his stock to meet the special demands of the

An Important Decision.

MERCHANTS and manufacturers who are seeking to control the sale of products within legitimate channels, without coming in conflict with anti-trust and conspiracy laws, may find some points of interest and satisfaction in the recent decision in the Court of Appeals of New York in the suit brought against the American Tobacco Co. This suit, in brief, was brought by a concern to which the company refused to sell its product, the concern asking redress on the ground that the defendants owned and controlled so large a part of the staple articles in its line that no dealer could successfully do business without handling its product; that it made one concern its exclusive selling agent in New York and by its refusal to sell goods to the complainant the business of the latter was ruined. The complainant lost the suit.

In deciding this case the court says "It is unquestionable that the owner of property may sell to whom he chooses and equally he may control his agent," and it is safe to infer from this that he may refuse to sell to any dealer that buys the same kinds of goods from anybody else, or one who does not adhere to a certain scale of prices, or who does not agree to sell under certain restricted agreements. While this principle is understood to apply to an individual, its application to a corporation, the sale of whose product is necessary to the general dealer in its line, is somewhat new. The court seems to hold that the size and extent of the business does not affect the company's inherent right to refuse to sell to any particular individual, and the contention that the company, because of its size, had no right to refuse to sell to the plaintiff is dismissed as untenable. In this suit the question of boycott or coercion did not come in the action, as it simply involved the right of the defendant company to control its products as if it were an individual.

The decision may result in an attempt to obtain a law to take away the freedom to sell or not sell from corporations practically controlling the staple lines necessary for all dealers to do business. On the other hand, it may result in giving heart to those who would establish fixed selling prices or sales contracts that would hold staple articles within legitimate trade channels.

The Design of the Mississippi Silver Service.

THAT sectional feeling has not entirely died out, at least among some of our Representatives in Congress, was manifested recently when Mr. Hollingsworth introduced in the House a joint resolution attacking the design of the silver service soon to be presented to the battleship *Mississippi* by the people of the commonwealth after which it is named. Mr. Hollingsworth's resolutions began with the usual "whereases," speaking of the high ideals and healthy loyalty of the navy, etc., and reciting that only seven of the 37 officers of the *Mississippi* were appointed from States which lately adhered to the Confederacy, and asking that the Secretary of the Navy be requested to inform Congress by what authority the gift of the silver service for this boat is to be accepted, or

Continuity is necessary to make advertising pay the largest profits.

what idea of loyalty was to be taught by the portrait of Jefferson Davis which appears on the centerpiece of the design.

As a matter of fact, the portrait of Jefferson Davis is in an inconspicuous position in the centerpiece, being etched below his old homestead, Beauvoir, which is one of the Mississippi views incorporated in the design. As the head of the late Confederacy was the United States Senator from Mississippi and a prominent son of that State, his portrait will appear to the broad-minded American as absolutely fit and appropriate for such a gift, as its use in the piece is in no way associated with the idea of the Confederacy, but simply with the State of Mississippi.

This resolution cannot alter the design of the silver service, which was illustrated in *THE CIRCULAR-WEEKLY*, April 21, because the service has been entirely completed and will be exhibited at Meridian and Jackson, Miss., prior to its presentation, June 1. Whether or not Mr. Hollingsworth's resolution will hold up the presentation remains to be seen.

Parisian Pearl Market

PARIS, May 7.—Business during April was, on the whole, good, and the market very active, but the greater part was done in the first fortnight, the second half of the month showing a decided drop. The reason for the falling off in sales is said to be especially due to the poor stocks in the hands of the dealers, which show very weak assortments. In fact, many visitors are not able to buy successfully because they cannot get what they want.

Indian merchants are refusing all offers below what is asked for the goods shown, and pearl stocks are poorly assorted and unsettled. However, it is generally believed here that the market will be better off if business comes up gradually than if it experienced a boom all at once.

Colored stones are very much in demand; fine sapphires and fine emeralds are continually asked for. G. K.

Jewelers' Gold Bars Withdrawn and Exchanged at New York.

Week Ended May 15, 1909.

The U. S. Assay Office reports:

LOOK FOR THIS TRADE-MARK

IT IS A MUTE PROCLAMATION OF MERIT

ASIDE from the legal security this trade-mark affords the manufacturer operating under it, it guarantees to the retail jeweler absolute dependability in every detail of construction.

THE gold is of the karat stamped, the designing uncommonly good, and the workmanship of a kind that we vigorously defend by placing it beyond the ambitious efforts of competitors.

H. A. KIRBY

MANUFACTURERS OF FINE GOLD JEWELRY

85 Sprague Street, Providence, Rhode Island
 New York Office: Jewelers' Bldg., 9, 11, 13 Maiden Lane

Buffalo, N. Y.

Roy King, optometrist, recently removed his office to Main St., near Genesee St.

N. M. Kirschner has put in handsome new mahogany fixtures in his store.

William F. Price, representing Barry & Co., is making his initial trip here for that firm.

It is reported that the Elmira (N. Y.) Glass Cutting Co. has removed to a modern plant in that city.

Alexander Maisel, 915 Broadway, recently made alterations in his store and added an optical department.

Miss Mathilda Kaefer, who has been with King & Eisele for several years, is to be one of the June brides.

The wife of Christ. Hopf, jeweler, of Lovejoy St., has left town to spend several weeks in Manchester, N. Y.

L. Block, of the Buffalo Chain & Ring Co., is in New York, where he will spend a week in buying his Fall stock.

King & Eisele are among the generous contributors to what is known as the Greater University of Buffalo extension fund.

The Niagara Ring Mfg. Co. and H. K. Hammond, jewelers, have been elected to membership in the Buffalo Manufacturers Club.

According to a report from Titusville, Pa., Willis B. Gardner, optician and engraver, has been appointed manager of a store in that city.

William H. Cohen, traveler for King Raichle & King, wholesale and manufacturer jewelers, has returned from an extensive western trip.

B. H. Wade, who recently went to Pontiac, Mich., to conduct an auction sale of the stock of Geo. Carhart there, reports a very successful sale.

Eugene Tanke was a prominent speaker at a recent meeting of the Buffalo Assembly of the C. E. at the Kenmore (N. Y.) Presbyterian Church.

J. A. Scherer, 1382 Fillmore Ave., has recovered from the severe illness, from which he suffered for several weeks, and is now back in his store.

Charles Franklin, of the Kirby Chain Co. was one of the callers on optometrists recently. Mr. Nagel, representing the Glob Optical Co., was in town during the week.

L. Van Allen, of the Van Allen Co., jewelers' supplies, left town last week for a trip through Pennsylvania, including stops at Clearfield, Du Bois, Bradford, Butler and Kittanning.

Abe Schapiro, a watchmaker, charged with grand larceny in the second degree has been acquitted. It was alleged that he exchanged a worthless diamond for a good diamond while cleaning jewels belonging to a Buffalo woman, but the charge was not sustained by the evidence.

Among the out-of-town jewelers who recently visited the Buffalo jewelry market were: D. G. Erdle, Cherry Creek; George Engel, Springville; J. J. Carr, Niagara Falls; W. M. Pinney, Arcade; A. Eschelman, Clarence Center; M. J. Bernstein, Niagara Falls; I. Traub, Niagara Falls; E. M. Wittigschlager, Niagara Falls; P. H. Yung, Depew; A. E. Koetsch, Tonawanda.

New York Notes.

Mr. Linz, of Linz Bros., Dallas, Tex., is a visitor in town last week.

J. H. Bnek, curator of metal work at the Metropolitan Museum of Art, sails for Europe June 9.

A. Guggenheim, of Arnstein Bros. & Co., led last week (Tuesday) for Europe on the *Kronprinz Wilhelm*.

J. N. Provenzano, formerly at 114 E. 11th St., has removed to 110 W. 30th St., where he will occupy offices on the sixth floor.

J. W. Levison, of the S. Cottle Co., sailed yesterday on the *Kronprinzessin Luise* for Europe and expects to be gone about six weeks.

H. J. Hooper and W. A. Brokaw, two well-known local jewelry auctioneers, are conducting a successful sale of the stock of G. Schupp, Wilkes-Barre, Pa.

Edward R. Cohn, 41 Maiden Lane, was elected president and treasurer of the Universal Operating Co., a real estate concern, a meeting held last Thursday.

The trustee in bankruptcy of Isaac Wasman who was formerly a wholesale dealer in jewelry at 49 Maiden Lane, has paid creditors a dividend of 14 per cent. Leon Sachs, 7 Maiden Lane, accompanied his wife, expects to start on a trip to Europe next Tuesday. He will sail on the *Rotterdam* and expects to be away until some time in August.

A judgment was filed in the County Clerk's office last week against M. Rothschild for \$1,181.58 in favor of Tiffany & Co. The judgment was for goods sold and delivered.

A. W. Roubaud, of the MacPherson, Roubaud Co., manufacturing jewelers, of Providence, R. I., sailed from this city Wednesday of last week on the *Oceanic* accompanied by his wife.

Julius Wodiska, 40 John St., is making a number of improvements to his place of business which will facilitate the handling of the business and will greatly improve the offices when completed.

It is announced that the name of the firm of Herbert Wild has been changed to Wild Bros., and that the business will be continued at the new offices, 39 Cortlandt St., as dealers in pearls and precious stones.

Included in the list of articles sold at the Fifth Ave. Art Galleries last week were several articles of silver-plate, bronzes, marbles, crystals and rare old French and English prints, together with foreign porcelains and jewelry.

P. F. Eagen, for years one of the leading jewelers of St. Paul, Minn., and who for the past six years has been with the Whiting Mfg. Co. in the watch department, will be hereafter employed by the Durham Co., 36th St. and Fifth Ave.

In the show window of Brown's Jewelry Store at Riverhead, L. I., there has been an exhibition an oil painting of "Amarac" Flint, an erratic old Englishman who is recalled by some of the old people in the vicinity. The picture represents him trout fishing and was executed by Wm. Davis.

David Atlas, of the firm of Atlas & Sheer, Philadelphia, sails from this city

on Saturday on the steamer *Lapland*. He is accompanied by Mrs. Atlas and his little daughter and will take a pleasure trip of a few months, visiting some of the large cities of Europe. Mr. Atlas will also visit the diamond centers.

At the regular monthly meeting of the directors of the Jewelers' Board of Trade, held last Thursday, the following firms were unanimously elected to membership in the board: E. & J. Bass, New York; Hurvitz Bros. & Blume, Rochester, N. Y.; the Edward Lehman Jewelry Co., Denver, Colo., and Philbrick & Webster, Boston, Mass.

S. M. Snider, Durham, N. C., who was a recent visitor in this city, has acquired the stock and fixtures of the store of H. Mahler's Sons, Durham, N. C., and will conduct a retail jewelry business under the firm style of the Snider-Umstead Co. Mr. Snider has been in the jewelry business 40 years, 30 of which was spent in Greenville, S. C. The store will be one of the finest in the South.

The Jewelers' Security Alliance received a telegram last week from Lowe Bros., Port Byron, N. Y., announcing an attempted robbery of their jewelry store at that place. The telegram stated that the window had been broken but the marauders had been frightened away. The Security Alliance wrote the firm that if the burglars could be captured and convicted of breaking the window glass in an attempt to steal that the reward of \$100 would be paid for their capture and conviction, and suggested that the firm so inform the police.

At a meeting of the creditors of B. Braunstein, Hoboken, held last week, an offer of settlement at 30 cents on the dollar was submitted, payable as follows: 20 per cent. cash and 10 per cent. in four months, the notes to be satisfactorily endorsed. The liabilities are placed at \$16,000, with assets of about \$5,000 in stock and fixtures and outstanding accounts of about \$500. Mr. Braunstein says he suffered losses during the last few months in different business ventures. He claims to have paid creditors between \$16,000 and \$17,000 since the first of the year.

The exhibition of art objects to be held at the Metropolitan Museum of Art, in connection with the Hudson-Fulton celebration will include collections of American made silverware, showing specimens of the handicraft of the comparatively large body of silversmiths in New England and New Amsterdam, and will include a number of very rare pieces by Paul Revere. For the silver the Museum is indebted chiefly to R. T. Haines Halsey and George S. Palmer, who have placed the whole of their collections at the disposal of the committee. The exhibit will also include a large collection of pottery and glass.

The Appellate Division of the Supreme Court last week heard the appeal of the Whiting Mfg. Co. from a judgment in favor of Charles E. Bulkley, rendered on the counterclaim of the company in a suit which Mr. Bulkley brought some time ago for \$1,086, the balance of an assignment of salary on account of F. S. Salisbury. Mr. Bulkley was the former president of the house and Mr. Salisbury the treasurer.

Against the former's claim the company set up a counterclaim of \$1,150 and \$3,017. At the trial Mr. Bulkley withdrew his claim against the defendant, and on the counterclaims judgment was rendered in his favor. From this judgment the appeal argued last week was taken. Decision was reserved.

The salesroom and pawnshop of Samuel Mendel, 54 Smith St., Brooklyn, was robbed early last Wednesday morning of silverware, jewelry and other articles valued at about \$75. When Mr. Mendel reached his place of business he found that his safe had had been forced open. He reported the matter to the police and detectives were put on the case. Upon investigation it was found that the burglars had evidently been frightened away, as some of the plunder was piled in a heap in the cellar. The store is directly around the corner from police headquarters and is located in one of the busiest streets in the downtown section of Brooklyn. No information relative to the robbery was given out from police headquarters.

The Brooklyn Police Department has sent out a circular asking for the arrest of Morris Cohen and Charles Levine, who were formerly in business under the firm name of Cohen & Levine at 537 Fulton St., Brooklyn, and who, the police say, obtained a quantity of jewelry from several Brooklyn concerns for the purpose of repairing and polishing it. The police say that the men have disappeared from their place of business and have not been seen for some time and that they are both wanted. Cohen, according to the police circular, was born in Russia, and is about 25 years old, five feet six inches tall and weighs 150 pounds. He has a dark complexion and short black curly hair. He is a jeweler by trade, his specialty being cluster work. Levine was also born in Russia and is about 25 years old. He is described as being five feet eight inches high, and weighs 160 pounds. He has black hair and square shoulders, and is a jeweler by trade. The police think it advisable to warn other jewelers as these two men may try to obtain work elsewhere.

Henry Myers, a designer and salesman in the employ of the Whiting Mfg. Co., 889 Broadway, was arrested late Thursday afternoon on a charge of stealing silverware and money from his employers and locked up in the West 20th St. police station. Frederick B. Lindemann, the floorwalker and store detective, who had suspected that Myers had been stealing from the company, last Thursday afternoon just before the closing hour got a young woman to go into the store with \$8 in marked bills and purchase two articles of silverware. Myers was assigned to wait upon her and the young woman picked out a cigarette case valued at \$5 and a silver crucifix for \$3 and paid the \$8 to Myers. It is alleged that the salesman made out a check for the cigarette case only and put the \$3 for the crucifix in his pocket. After the store was closed for the day Myers was detained and taken into the office where he was searched and the three marked one-dollar bills were found in his pocket, so the police say. A member of the Whiting concern in speaking of

(Continued from page 85.)

matter said that the whole thing was of trivial importance and that the entire loss was less than \$100. He said that nothing more would be heard of the matter.

Mr. H. Harris, optician, has opened a store at 27 W. 34th St.

Mr. Steinfeld, Rochester, N. Y., was a dealer in the Maiden Lane district last week.

Miss Mamie Moorhouse, jewelry buyer at John Wanamaker's local store, has resigned her position.

Mendel Levitz, Albany, N. Y., was among the out-of-town jewelers seen in the Maiden Lane district during the past week.

Pfiesler Bros., formerly manufacturing jewelers at 51 Maiden Lane, have obtained discharge from their debts in bankruptcy. Their liabilities were \$9,354.

The Progress Art Co., New York, has been incorporated to manufacture metal specialties, ornaments and fancy articles, with a capital of \$10,000. Saul Goldberg, former N. J.; Samuel J. Serwer and Max Weinstein, Brooklyn, are the incorporators. Wholesale jobbers in this city are looking forward to the National convention of the association, which will be held in this city, June 9. It is expected that jobbers from all parts of the United States will be in New York and an enthusiastic convention is looked for.

The Frank-Pape Silver Co., of New York, has been incorporated to manufacture and deal in silverware and silver-plated ware, with a capital of \$10,000. Samaan Frank, 313 E. 57th St.; Louis A. Pape, Upton, N. Y., and Joseph F. Pike, 121 71st St., are the incorporators.

Henry Silberfeld, 1395 Broadway, sails by 25 on the *Kaiser Wilhelm der Grosse* for Europe. He will visit the diamond markets of Antwerp and Amsterdam. He will be accompanied by his brother, Arthur Silberfeld, of 129 Second Ave. He expects to return July 5 on the *Kronprinzessin Cecilie*.

The Sinqese, Labouseur Co. has added considerable new machinery to its plant at 2 Fulton St., and is now prepared to turn out high-grade platinum mountings. Mr. Labouseur, of the concern, was formerly the employ of Joseph Fahys & Co., and Sinqese has been in business in New York for some time past.

Mr. Cohn, of Belais & Cohn, assayers, Dutch St., reports that there has been a decline of \$1 per ounce in the price of platinum recently and that now this metal is selling for \$23 an ounce. The price has been at the end of last year at \$24 an ounce. Previous to the panic it reached the selling price of \$38. He says that business is better than it was some time ago and that there is a fair demand for the metal, especially among jewelers, but he does not look for an advance in the price at present.

About eight o'clock last Thursday evening, while a number of people were on Fifth Ave., on their way to the theatres, a crash of breaking glass was heard. It came from the Reed & Barton Co.'s store at 320 Fifth Ave. A crowd gathered, think-

ing that the place had been broken into. The police found the store so securely fastened that no one could gain entrance, and Manager Wm. P. Sackett was notified, and found that half the pane of glass in the front door had been smashed. The door is guarded by an iron grate and behind the grate is a lattice work of iron. An examination of the store showed that nothing had been disturbed.

The Board of United States General Appraisers on Friday handed down a decision in the cases of S. Dessau and other importers, in which it was held that miner's diamonds are not to be regarded as dutiable at the rate of 10 per cent, under the provision in the Dingley Tariff for diamonds improved in value, but instead are entered under the provision for diamonds and other precious stones not advanced in value. General Appraiser McClellan, who writes the decision for the Board, says that as the courts have passed on the question in controversy favorably to the importers it is incumbent on the Board to follow the judicial decision.

The International Silver Co. has just completed a hand-wrought copper punch bowl set for the United States battleship *Mississippi*, which is to be presented to the battleship by the citizens of the city of Natchez, Miss., on May 22. The bowl is of massive construction and is overlaid with hand-worked silver in fruit and leaf effect. The set includes 18 cups, together with the ladle and tray, all of which are of hand-wrought copper. On the face of the bowl appears the following engraving: "To the U. S. S. *Mississippi* from the citizens of Natchez, Miss., in token of their admiration and pride in the Navy of their country, May 22, 1909." The bowl was shipped to Natchez last week where the presentation will take place. This punch bowl set was furnished by the Baker, McDowell Hardware Co., Natchez, Miss.

The Whiting Mfg. Co., silversmiths, has been moving into its new quarters on the 10th floor of the Silversmiths' building, 15 Maiden Lane, during the past week. The concern will occupy the entire floor and will have one of the most commodious and up to date suites of offices and salesrooms in the city. New furnishings in solid mahogany are being installed throughout. The floor is divided into a large show room containing a number of handsome show cases; a smaller special show room, commodious offices, and at the back a splendidly equipped accounting department. Included among the show cases is one specially designed for flat ware so arranged that each piece has a separate groove in which to rest. Another feature of the show rooms is the arrangement of chests for silverware. The floor is equipped with every modern convenience for facilitating the conduction of the business. This will be for the concern's wholesale business only as it has decided to give up entirely its retail department, formerly conducted at 19th St. and Broadway.

An examination in the bankruptcy of Oscar C. Jackle, 866 Third Ave., whose jewelry store was robbed some time ago, was held before Referee Seaman Miller, 2 Rector St., Wednesday afternoon of last week. Mr. Jackle's father and mother were

both present at the examination and were the principal witnesses of the day. Mrs. Jackle was questioned as to when she first heard of the robbery and said that she learned of it through her son. The father testified that he also first learned of it through his son. The lawyers then enquired as to the business owned by the son, and learned from Mr. Jackle, Sr., that he gave the business to his son about two years and a half ago as a birthday present and that he had also loaned him about \$2,000. Mr. Jackle testified that she occupied the rooms above the store but did not hear any noise on the night of the robbery. Oscar Jackle, the proprietor of the store, was present at the examination, together with his wife, but neither of them was called as a witness. After considerable argument by the attorneys the meeting was adjourned until May 20 at 12 o'clock. Mr. Jackle was represented by Attorney I. N. Dittenhofer, and Mr. McKenzie of Hastings & Gleason conducted the examination as attorney for the trustee.

An answer to the bill of complaint filed in the United States Circuit Court, New York, by the Newman Clock Co. against Chas. A. Nanz, doing business under the style of the Watchman's Clock & Supply Co., New York, was filed last week, and is in substance a general denial of the allegations made in the complaint. The complaint averred that the defendant had infringed on the patents protecting certain improvements in watchmen's clocks held by the complainant. The answer admits that an application was filed by Abraham Newman for letters patent, and that patent was issued on June 18, 1901, but denies that the patent is good and valid in law, or that the supposed invention described and claimed therein required invention, or that it contains patentable novelty, or that it was not known or used by others in this country prior to the alleged invention or discovery by Newman. It also denies that Abraham Newman was the first inventor of the improvement in watchmen's clocks as set forth in the letter patents, but says that Newman unjustly obtained a patent for that which was invented by another man named Alois Beyer, of Chicago. The answer then recites a list of names and addresses of men who, it is claimed, had handled and made use of the same inventions prior to the alleged invention by Newman.

Included in the list of recent accessions at the Metropolitan Museum of Art are: Bronze cuirass, North Italian or South French, Hallstatt period, sixth to eighth century; collection of 122 pieces of Siamese porcelain, 17th and 18th centuries; gold watch, Giraud Frères, makers, French, about 1770 (gift of Mrs. R. Stoke); bronze medal, Theodore Roosevelt, obverse by S. E. Barber, reverse by Morgan; bronze medal, Abraham Lincoln, by C. E. Barber; copper medal, Abraham Lincoln, by W. H. Key—American; bronze medal, Rouget de Lisle, by David—French, early 19th century (all the gifts of Mr. and Mrs. Frederick S. Wait); silver loving cup designed and made by Wilhelm Düring, German-American, 1844 (gift

Eberle; Tiger and Gazelle, group in serpentine stone, by Antoine Louis Barye (gift of Mrs. Theodore Kane Gibbs. Included in the list of loans are: Collection of 631 medals, plaques, etc., known as the Medallie Lincolniana—American (lent by Robert Hewitt); silver tea and coffee set, salver, engraved and chased, modern, English (lent by Miss Amy Townsend).

Herman Levy, 65 Nassau St., sails, to-day, for Europe on the *Lusitania*.

Morris Harrison, 1125 Fulton St., Brooklyn, has been succeeded by X. Langenwaller & Co.

Judgments have been filed against the Lenox Watch Case Co., by the State Bank for \$310.93.

The style of the firm formerly known as the Byron & Vail Co. has been changed to the Charles B. Byron Co.

William J. McQuillan, of Mount & Woodhull, leaves for Europe, Saturday, on the *New York* on a purchasing trip.

Harris Fraehtman has succeeded I. Gerr as a retail dealer at 158 Bay 19th St., Bath Beach. He was formerly in business and sold out.

Chas. Hansenstein, connected with the Roger Williams Silver Co., Providence, has been in this city to bid his daughter *bon voyage* to Europe.

Albert Davis, of B. H. Davis, Son & Co., 12 John St., will sail for Europe, May 29, on the *Kaiserin Auguste Victoria* to visit the diamond centers.

Sir Casper Purden Clark, director of the Metropolitan Museum of Art, sailed for London, Saturday, on the *Minnewaska*. He was accompanied by Lady Clark.

Henry Stone, jobber in watches, clocks and jewelry, 24 Forsyth St., announces that he has formed a partnership with Harris Cohen and that the business will be continued at the same address under the firm style of Stone & Harris.

Samuel T. Castleman, Louisville, Ky., has been made a defendant in a suit filed against him in the Circuit Court there by T. Kirkpatrick & Co., of this city. The amount asked for is alleged to be due on account for articles purchased Dec. 10, 1908, and amounts to about \$145.

The old firm of J. Morton, gold pen and pencil makers, for years in the same store with the Derby Silver Co., 25 Maiden Lane, has leased the store and now has increased facilities for serving its many patrons. The business was first established at the present location in the early '50s.

The Jewelers Board of Trade reports that the stock in the estate of W. Bekenstein, Montgomery, W. Va., bankrupt, has been sold for \$645. The total amount of

indebtedness proven up to date is about \$3,500. It is expected that the estate will pay about 5 per cent. A dividend will be declared shortly.

L. Cohen and Mark Weiss have formed a partnership under the firm style of Cohen & Weiss, and will manufacture fine diamond mountings at 68 Nassau St. Mr. Cohen was in business for himself for a short time, and was previously employed by well-known firms. Mr. Weiss was until recently in the employ of the Bonner Mfg. Co.

The Jewelers Security Alliance has received complaints that a man who was formerly employed by the Waterbury Clock Co. and the Art Metal Works, Newark, N. J., has been inducing jewelers to cash his personal checks, which are returned because there are no funds on deposit to meet them. Any jeweler who knows the whereabouts of this party will confer a favor by reporting to the Security Alliance, and it would be advisable for members of the trade to exercise more caution in cashing checks.

Customs inspectors on the American Line pier, North River, Sunday, were considerably worked up by a first cabin passenger who was the possessor of a package of sample precious stones that he was unable to value. He declared them, and an examination showed them to be small specimens of rubies, pearls, emeralds, diamonds, amethysts, opals and earbuckles, and the appraiser on the dock said a rough appraisal would value them at about \$275, but that it would be necessary to send them to the Public Stores for a proper valuation.

Ida Motner, 29 7th St., was held for trial in \$1,000 bail, early in the week, because she had on her arm a gold bracelet which she admitted was given to her by Hillel Katz, 64 E. 108th St., under arrest on a charge of making unlawful entry into a house. Katz was arrested last Thursday morning as he was leaving 43 E. 112th St. Detectives visited the Motner woman and found the bracelet she wore corresponded to one stolen from the jewelry store of Abraham Willerstein, at 1592 Madison Ave., April 19. A charge of receiving stolen goods was made against the Motner woman. Katz was held in \$2,000 bail for trial.

Louis Kohn, a jewel salesman, 345 Grand St., appeared in the Tombs court and complained he had been robbed of \$180 in cash and diamonds valued at \$1,200. He said he felt sure that Timothy Riordan was the man who had picked his pocket. Riordan assured the magistrate Kohn was mistaken. The magistrate, however, after hearing Kohn's story, held Riordan in \$3,000 bail for examination. If the prisoner really was the man who picked Kohn's pocket it must have made him feel disappointed when Kohn said that in his hip pocket at the time of the robbery he had a case containing diamonds valued at \$19,000. Mr. Kohn said that he was boarding a Third Ave. elevated train at Grand St., last Thursday, when he felt some one tug at his pocket, but he did not know he had been robbed, he said, until he had got aboard the train and the gates were closed. The train guard would not permit him to leave the train until he reached the next station. When he returned to Grand St. no sign of the man he suspects was to be seen. He

reported the matter to the police, and from the description he furnished they arrested Riordan.

Association Notes.

The note which appeared in the issue of March 31 to the effect that an agreement had been reached between the Retail Jewelers' Association of Buffalo and the jobbers of that city, whereby the jobbers would not sell at retail, was incorrect; the agreement referred to being to the effect that the wholesale dealers of that city would no longer give articles on memorandum, either to their own employes or employes of other jewelry factories.

The annual meeting of the Michigan Retail Jewelers' Association, which held a district meeting in Saginaw, April 28, will take place in Detroit, Aug. 30, 31 and Sept. 1. At this time there will be special rates on all railroads at half fare the round trip, and President A. B. Hull and the other officers are impressing this fact upon the members and asking that the attendance be as full as possible. Announcements as to the details of the forthcoming meeting will be issued at a later date.

Savannah, Ga.

Richard H. Kadrey is conducting an auction sale of jewelry for I. M. Schwab, optician. Dr. Schwab will discontinue the sale of jewelry.

On Friday morning R. Van Keuren, of R. Van Keuren & Co., in stepping from a street car broke his right ankle, and will probably be confined to his home for several weeks. Mr. Van Keuren had planned to leave, next week, for a visit to his brother in Tacoma, Wash., whom he has not seen in 25 years.

New Orleans, La.

Julius Mehlig, of de Luce, 904 Canal St., is spending two weeks in New York.

Harry W. Grover, a popular newsdealer, who died at his home, 2920 Magazine St., was at one time in the jewelry business. He was born in this city 41 years ago, and as a young man was employed in the jewelry store of Jacob Seligman, but after following the trade for a few years left to join a circus, after which he followed the other lines of business.

Market Prices for Silver Bars.

The following are the quotations of silver bars in London and New York, as reported by Zimmermann & Forshay:

	London.	New York selling price, .999 Basis.
May 11.....	24 7-16d.	\$0.55 ¹ / ₈
" 12.....	24 3-16d.	.54 ¹ / ₂
" 13.....	24 1-4d.	.54 ³ / ₄
" 14.....	24 5-16d.	.54 ⁷ / ₈
" 15.....	24 1-sd.	.54 ⁷ / ₈
" 17.....	24 2-8d.	.55

To accommodate the increased demand for their silver-plated flat ware, the Williams Bros. Mfg. Co. is building a three-story brick addition, 150 by 40 feet, to the factory in Glastonbury, Conn. This will give the company an additional 18,000 square feet of floor space, and it will be in a better position than ever to supply the Fall trade.

Chicago Notes.

E. A. Moore is on a western trip.
 J. W. Tice visited Detroit last week.
 M. Newhouse is on a trip to the north-west.
 John Hellinger is on a trip through the middle west.
 J. B. Hudson, Minneapolis, Minn., was here, last week.
 J. H. Purdy has returned from a trip through Michigan.
 W. G. Grimes, with the Omega Watch Co., is in Missouri.
 C. J. Roehr has returned from a trip through the middle west.
 G. S. Titus, representing the Middletown Silver Co., is in the northwest.
 Ferdinand C. Spies and wife have returned from a visit to southern California.
 Hyman Convisar is no longer connected with the watch jobbing house of Bach & Co.
 George Weidig, representing Joseph Fahys & Co., is back from a far western trip.
 E. A. Dorrance, with Simons, Bro. & Co., has returned from a middle western trip.
 E. J. Walther, representing the D. F. Briggs Co., is back from middle western trip.
 Oscar A. Lessing, with the S. & B. Lederer Co., is making a trip to the Pacific Coast.
 D. W. Wilkens, representing the Ostby & Barton Co., is on a trip to the Pacific Coast.
 W. E. Hunter, retail jeweler at 4251 Cottage Grove Ave., has removed to 463 E. 17th St.
 Henry C. Clark, formerly with Stevens & Co., is now representing the American Optical Co.
 C. E. Reynolds, with the C. H. Knights-Thearle Co., has returned from Wisconsin and Michigan.
 J. R. Mercer, Kansas City, Mo., stopped over here last week on his way home from a European tour.
 R. W. Cohen is on a visit to the factory of the Geo. H. Calhoun Co., which he represents in the west.
 W. M. Allister, of Norris, Allister & Co., accompanied by Mrs. Allister, is taking a vacation at Oconomowoc.
 G. H. Miller, of the Oneida Community, Ltd., visited Oneida, N. Y., last week, and attended a special meeting.

Harry E. Jones, representing the Wadsworth Watch Case Co., has returned from a trip to the middle west.
 Frank Giesey, house salesman for Benj. Allen & Co., has bought the store at 532 Wilson Ave. from Nels Nelson.
 Albert Schild, with M. F. Barger & Co., was called to Paducah, Ky., last week on account of the death of his uncle.
 A. Hirsch, accompanied by his wife and daughter, have left Sulphur Springs, Okla., and gone to Excelsior Springs, Mo.
 The family of R. A. C. Jenkins, retail jeweler at 114 E. 31st St., has been increased by the addition of a baby boy.
 On account of ill health H. W. Gilmore, of H. W. Gilmore & Co., retail jewelers at 504 W. 63d St., has retired from that corporation.
 W. N. Tuscano, of the Knickerbocker Silver Co., has returned from Australia.
 Leon Gross, with the same concern, is in the south.
 D. Leviton has severed his connection with the firm of Bleadon Bros. & Co., and the firm will hereafter be continued as Bleadon Bros.
 J. M. Torbert, traveling from the factory of the Simeon L. & Geo. H. Rogers Co., stopped over here last week on his way home from the west.
 John R. Brophy, formerly an engraver in the Columbus Memorial building, writes from Seattle, Wash., that he opened up for business there May 10.
 The Lorios Jewelry Co., 88 State St., has been incorporated with a capital of \$10,000. The incorporators are L. L. Sachs, Harry Sachs and Morris Sachs.
 C. E. True, an expert watch repairer and author, of Muskegon, Mich., has given up business at that place and is going to rough it in Montana during the Summer.
 C. H. Knights, accompanied by his wife and daughter, have returned from a three and one-half months' visit to the Mediterranean, Egypt, the Holy Land and southern Europe.
 Ed Hotzfield has secured the ring and scarf pin line of Hayden W. Wheeler & Co. and will represent that concern in the middle west in addition to Alfred H. Smith & Co.
 Rodelius & Rosen, retail jewelers at Evanston, Ill., have dissolved partnership, Mr. Rosen retiring to attend to his apple farm in the Yakima Valley, Washington. A. Rodelius will continue the business.
 "Cliff" Coulter, with the Rockford Silver

Plate Co., and "Jess" Coulter, with the South Bend Watch Co., accompanied by their wives, will leave here May 29 for a trip to the Pacific Coast and the Seattle exposition.
 Mr. and Mrs. Edward Cox, Mr. and Mrs. Frank Whiting and Geo. Kissick were entertained last Sunday by Mr. and Mrs. C. E. Edwards on their house boat, the *Larry-bellsky*, a noble craft that ploughs the banks of the Fox River at McHenry, Ill.
 Mrs. Chas. S. Hannan, wife of Chas. S. Hannan, formerly diamond buyer for Spaulding & Co., and now with Wright, Kay & Co., Detroit, was taken from the Congress Hotel, last Saturday, to the detention hospital, suffering from dementia.
 Walter Peterson, son of Andrew Peterson, retail jeweler at Grayling, Mich., spent a few days here last week prior to taking a trip to Idaho, where he intends to open a new jewelry store. He has not yet decided in which city he will begin business.
 On account of the similarity of manner the mail for Barnett Bros., diamond dealers, 72 Madison St., and the mail for Barnett Bros., retail jewelers, 133 Jackson Boulevard, has been mixed up at times. These firms have no connection with each other.
 E. A. Kelly, of the new Des Moines jobbing house of the Kelly, Parritt Co., is making his headquarters in room 603, Columbus Memorial building, where he is now busily engaged in making purchases for the new concern. The Kelly, Parritt Co. will be ready for business about July 1.
 A letter from John D. Planchamp to J. M. Becker states that his wife died on March 27 last. Mr. Planchamp lives at Asnieres, a suburb of Paris, and is 78 years old. He opened the first watch case repair shop in Chicago, and is one of the oldest watch case makers living. He retired in 1895.
 Henry Reinhard, of the Varney Jewelry Co., Wichita, Kans., was here last week and wore a huge gold badge, denoting that he was one of the principal delegates to the Kansas State convention of Elks, recently held at Topeka. The badge was about 12 inches long and weighed enough to make its bearer round-shouldered.
 A decision of importance to foreign corporations, holding that they may bring suit in the Illinois courts to collect debts and that they may send sales agents to take orders for goods without violating the foreign corporation act of 1905, was given by Judge Ball in the Superior Court, last week

Judge Ball held that the bringing of a suit by a foreign corporation to collect a debt is not an exercise of a corporate function within the meaning of the act.

Among the out-of-town retail jewelers here last week were: C. F. Ingalls, Waukegan, Ill.; Frank Ricketts, Charleston, Ill.; Edward Waara, Hancock, Mich.; Andrew E. Rush, Macomb, Ill.; J. F. Wingar, Walnut, Ill.; M. Blumenstock, Ludington, Mich.; O. E. Fletcher, Ellettsville, Ind.; Frank H. Cowler, Flint, Mich.; Geo. Juergensen, Withee, Wis.; W. J. Graff, Boscobel, Wis.; H. E. Volkman, Kankakee, Ill.; A. D. Miller, Braidwood, Ill.; Wm. K. Urbani, Vandalia, Ill.; Mr. Major, of Milliken & Major, Walnut, Ill.; Ed Girzi, Ishpeming, Mich.

The Chicago Association of Commerce is to have its own building, and plans are under way to raise sufficient funds to finance it. The location will be on Washington St., opposite the Court House. The jewelry committee selected to secure subscriptions to a bond issue is composed of E. E. Swadener, of F. A. Hardy & Co.; Walter Frazer Brown, western agent of the Bannatagne Watch Co. So far the amounts subscribed for are as follows: Walter Frazer Brown, \$1,000; F. A. Hardy & Co., \$1,000; Benj. Allen & Co., \$1,000; Elgin National Watch Co., \$1,000; Juergens & Andersen Co., \$1,000.

Abraham Lipman, pioneer jeweler and loan broker of Chicago, died May 11 at Atlantic City, N. J., of a complication of diseases. He was 70 years old. The remains were brought here by August Lipman, his son, who manages the business. The funeral was held from the chapel of Furth & Co., 35th St. and Grand Boulevard, last Friday, and the interment was at Rosehill Cemetery. Mr. Lipman came to Chicago in 1861 and founded the business which bears his name. For 28 years it had occupied the same location on Madison St. He is survived by a son, August Lipman, and two daughters, Mrs. Ludwig Marum and Clara Lipman, the actress. Deceased was a Mason, an Elk and Knight of Pythias.

In regard to the note published last week as to the Hamilton watch sold by "The Fair" department store to John C. Perry, who had been investigating the watch offer of that concern, W. B. Shaw, of "The Fair," stated that the item was wrong in several particulars: namely, that the price at which the movement was advertised was \$18.95 and not \$18.75, that the sale was for but one day (and was repeated again last Saturday); that Mr. Perry paid \$22.95 instead of \$22.25 for the movement which he purchased and that this movement was purchased from a small retailer out of town and was regular stock. Mr. Shaw claims that if such movement is to be considered a second-hand movement every watch or piece of merchandise supplied through jobbers is equally second-hand. He says his company, after buying these movements from retail jewelers, is at liberty to sell them at whatever price it chooses and that it guarantees every watch. On the other hand, THE JEWELERS' CIRCULAR-WEEKLY correspondent learned that this watch was sold by the Hamilton Watch Co. to J. W. Forsinger, who in turn sold it to Webber & Turnell, Danville, Ill., and the

latter reported that they sold it Feb. 19, 1908, to B. Sampson, a switchman on the "Big I" Railroad. It was on the above facts that Mr. Perry contended that the watch was second hand.

Milwaukee.

Joseph Braum, father of John Braum, Two Rivers, recently passed away at the age of 89 years.

E. F. Rohn, 274 W. Water St., is erecting a large double-dial street clock in front of his establishment.

E. L. Feiling, 485 12th St., has purchased a new Model 16 Buick touring car to take the place of his little runabout.

The wife of Dr. I. Greenberg, optician, at the downtown establishment of David Goldman, has returned from an extensive visit at Chicago, her former home.

The Kuesel Bros. Co. will be represented on the annual trip of the Merchants and Manufacturers' Association, which will be conducted through Michigan some time this Summer.

E. H. Warnke, of E. H. Warnke & Co., will be a member of the party of business men which will take the annual trip of the Merchants and Manufacturers' Association this year. The party will leave in June for a tour of Michigan.

R. Peter Rasmussen, Racine, has left with another business man of his city for an extended trip through Europe. Mr. Rasmussen will visit his native country, Denmark, and will later spend some time in the earthquake districts of Italy.

The Fink & Boshardt Co. is moving from 502 Enterprise building to larger and more adequate quarters at 407 in the same building. G. W. Fink, of the company, is now absent from the city, calling on the trade. Although the new company has been in business but a few months, it is meeting with a most satisfactory trade.

Out-of-town jewelers who were recent Milwaukee visitors include: F. P. Beswick, Racine; Henry Bayer, Whitewater; O. C. Boelte, Columbus; J. B. Kimball, Waukesha; W. S. Sargent, New Lisbon; Gustav Slinwinski, Oconomowoc; E. B. Hobkirk, Brandon; John Armbruster, Cedarburg; L. A. Thompson, Mauston; O. E. Lange, Racine, and E. L. Fisher, Reeseville.

August B. Ruge, a watchmaker who has been in the employ of various Milwaukee jewelers, recently met death by drowning in Lake Michigan. Mr. Ruge, who was 34 years old, had been out of work for some time, and friends say that he was despondent. Deceased's body was brought up in a fishing net after his overturned boat had been found floating in the lake a mile from shore.

Wisconsin jewelers have been interested in the fact that a bill has been introduced in the State Legislature by the Assembly Committee on Cities which gives to the common councils of the different cities of the State the right to regulate the sounding of early morning chimes, the ringing of bells and the blowing of whistles. The measure is said to be the direct result of agitation on the part of persons who object to the early chimes and bells of the churches. It is predicted at the Legislature that strong opposition against the bill will surely be developed.

Cleveland.

U. R. Sigler is at his Summer home in Michigan this week renovating his cottage.

Harry B. Forness, who has been in the watch department of the Cowell & Hubbard Co. for some time, recently suffered the loss of his wife.

Frank Mallet, who was in the wholesale department of the Sigler Bros. Co., was in the other day and reported that his health had improved to such an extent that he would be ready for the Fall trade.

The necessity for such a training as is offered by the Newmeyer School of Engraving is leading a large number of engravers who desire to polish up along certain lines to take advantage of the special courses offered.

The Jackson Jewelry Co., Chicago, opened a new store in Cleveland to-day at 430 Euclid Ave., a few doors west of the Colonial Arcade. M. Myron Goldsoll, secretary of the company, will act as manager of the Cleveland branch for the present. The concern expects to make a specialty of watches.

E. S. Myers, who was formerly with the Webb C. Ball Watch Co., intends to open a jewelry store in Fostoria, O., about the first of June. The store will be on Main St. in a new building and will be fitted out in quite elaborate style. Preparatory to this new venture Mr. Myers is taking a special course at the Newmeyer School of Engraving.

A large number of dealers were in from the surrounding territory this week. A few of those in were: Mr. Avery, of Avery & Bemis, North Amherst; L. J. Goddard, Revanna; Chas. Nolf, of Nolf Bros., Wadsworth; H. H. Brainard, Medina; F. N. Prevey, Akron; E. C. Critz, Elyria, O.; E. J. LeHaupt, Detroit, Mich.; C. S. Gould, Daytona Beach, Fla.; and C. M. Harrington, Kirksville, Mo.

A dispatch from Boston this week to the effect that Webb C. Ball had been presented with a \$300 watch by the Order of Railway Conductors, who are holding their convention in that city, was erroneous. The real facts of the case are that Mr. Ball presented the Order of Railway Conductors with a watch which they sold and made a profit on of \$300. The accounts of these two events became mixed, and Mr. Ball was as much surprised as anyone at the story. The dispatch was widely copied and Mr. Ball will be kept busy for some time explaining things to the many friends that hastened to congratulate him.

The watch manufacturers are keeping their eyes on Columbus just at present, as the Brotherhood of Railway Trainmen are holding their regular bi-annual convention from May 11 to 21, inclusive. During the life of the convention S. Y. Ball, of the Webb C. Ball Watch Co., will look out for the interests of his concern. Saturday Dr. C. L. Morris, of the Hamilton Watch Co., gave an illustrated lecture before the convention and the Columbus Retail Jewelers' Association on watch construction and time service. The Columbus jewelers are taking quite an interest in the convention, and there are a number of very fine and some unique window displays.

St. Louis.

S. L. Bauman is expected to return soon from a trip through the south.

W. J. Mulinix has moved his store from King City, Mo., to Holden, Mo.

Ralph Loewenstein, of the R. Loewenstein Jewelry Co., is traveling in Europe.

J. L. Wolf and family, Paducah, Ky., spent several days in St. Louis, last week.

W. F. Wilmes, of the Aller-Newman-Wilmes Jewelry Co., is now in Oklahoma.

A. L. Blankenmeister, of Blankenmeister-Oberting Jewelry Co., will return in a few days from a trip to Kansas.

The Zeitler Jewelry Co. will move June 1, from the present location at 14th and Madison Sts., to 2607 Madison St.

F. W. Drosten, president of the F. W. Drosten Jewelry Co., returned from a business trip to Chicago, last week.

W. S. Noble has returned to his home at Drexel, Mo., from Cincinnati, O., where he was called by the death of his father.

F. C. Brinkoff, formerly of Chicago, has opened a watch case establishment on the sixth floor of the *Globe-Democrat* building.

A. W. Long, of Tower & Long, Holland building, left, Monday, for a trip to Tennessee. W. E. Tower is just in from Kansas.

Francis Warnecke, of the Equitable building, will sail from New York, next Friday, for Europe, where he will spend the next three or four months.

John Doty, who recently sold out his business at Covington, La., is in St. Louis making inquiries about a new location. He expects to go in business in Colorado.

In the bankruptcy proceeding against Edward H. Kniepkamp before Referee Coles, John C. Robertson petitioned for the allowance of \$50 for legal services rendered the bankrupt.

Mr. and Mrs. Harry F. Doty have returned from their eastern wedding trip. Mr. Doty is connected with the Eisenstadt Mfg. Co. Mrs. Doty was formerly Miss Emma Glenn.

Mrs. W. Rosenbaum, Dekalb, Miss., who is here making purchases, is accompanied by her two daughters, Misses Ruth and Losetta Rosenbaum, and they are making the trip one of pleasure as well as business.

The Executive Committee of the Retail Jewelers' Association held a meeting, Friday, at the Mercantile Club. Several questions bearing upon the interests of the local retailers were discussed, but no action was taken.

Herman Mauch, president of the St. Louis Retail Jewelers' Association, spent Saturday and Sunday with a party of Mystic Shriners at the "Oasis," Grimes Lake. The "Oasis," which is a Shriners' club, was opened for the season.

F. W. Hoyt, president of the Hoyt Jewelry Co., will leave, Wednesday, for a trip to Texas and New Mexico. He expects to be gone a month. M. H. Cox, of the Hoyt Co., and who is now in Texas, is expected to return soon.

M. Rosen, formerly with Brenner & Co., has opened a jewelry manufacturing establishment on the third floor of the *Globe-Democrat* building. Associated with him is his brother, A. Rosen, who was also with the Brenner Co. at one time.

Julius Reinhardt, Centralia, Ill., has sent

out a letter to his creditors, asking them to attend a meeting for the purpose of agreeing upon a basis of settlement. He recently gave out a statement that his debts were \$8,000 and his assets \$7,000.

Mayor Christ Keyler, of Nashville, Ill., who recently sold out his jewelry store there, was in St. Louis during the week bidding farewell to friends preliminary to his departure in a short time for a trip to Europe. He expects to be abroad for several months.

St. Louis firms are creditors of the McIntyre-Shortess Co., McAlester, Okla., which made an assignment, Wednesday, to Frank Craig, but the assets are said to be in excess of the liabilities and the firms are confident of getting their money. The firm is the largest in McAlester. The assets are said to be \$25,000 and the deposits \$6,000.

The first shipment of white sapphires, the new hard stones discovered in Alaska, was received, last week, by the Zerweck-Frech Jewelry Co., 312 N. 6th St. A show window demonstration of the hardness of the stones was given by subjecting them to flame, and the windows were constantly surrounded by an interested crowd. A number of good sales were made.

Extensive illustrated accounts of the 80th anniversary of the Mermod, Jaccard & King Jewelry Co. were given by all the St. Louis newspapers. Potted palms, flowers and colored lights formed a beautiful decorative effect. The establishment was crowded all day, and visitors were shown through all the departments. Great interest was manifested in the \$1,000,000 diamond exhibit.

The watchmaking school founded in St. Louis 25 years ago by R. Jaegermann is now installed in its own new building at 5809 to 5815 Easton Ave. When the school was founded it occupied one room at 7th and Locust Sts. In the new building the institution has the best and latest equipment and competent instructors. Mr. Jaegermann is a native of Hamburg, Germany.

At a special dinner given by the Associated Retailers at the Glen Echo Club, at which plans were made to raise a large sum to be placed at the disposal of the Centennial Celebration Committee, the Mermod, Jaccard & King Jewelry Co. was represented by Goodman King, the president, and the Hess & Culbertson Jewelry Co. was represented by S. D. Culbertson, the vice-president. Resolutions were adopted indorsing a plan for more thorough lighting of the downtown streets.

Among the out-of-town jewelers in St. Louis, during the past week, were: C. S. Goulding, of E. H. Goulding's Sons Co., Alton, Ill.; John B. Evans, of the J. L. Duke Jewelry Co., Fayetteville, Ark.; J. L. Wolf, Paducah, Ky.; J. A. Bainbridge, Marion, Ill.; Mrs. W. Rosenbaum, Dekalb, Miss.; T. H. Vineyard, Piedmont, Mo.; A. Ferraud, Granite City, Ill.; A. D. Jones, Benton, Ill.; William Bradley, Windsor, Mo.; F. H. Kassell, Cape Girardeau, Mo.; George C. Hasslinger, Cape Girardeau, Mo.; Clarence Linz, Dallas, Tex.

The National Clock & Electrical Mfg. Co. plans to erect a factory in St. Louis at a cost of about \$75,000. The company was recently incorporated with a capital stock of \$100,000 to succeed the National Clock Works, now at Florissant and Warne Aves. Theodore H. Wurmh holds 499 shares,

Robert Bauman 49 shares, and Joseph G. Beckman, Paul Fahle and George H. Smith one share each. Armando Vieta, who sold out his jewelry business at 1819 Franklin Ave., some time ago, and took a trip to Cuba, is planning to go into the diamond business in St. Louis.

The Hess & Culbertson Jewelry Co. did no business on Saturday. The members of the firm had hoped to keep open at the old store at 6th and Locust Sts., until Saturday night, and open up Monday morning at the new store at 7th and St. Charles Sts., but the magnitude of the task of moving and installing old and new stock at the new store made it necessary to suspend business that day. Strenuous work was done at the new store, and when evening came the bulk of the stock had been arranged and only the finishing touches remained to be put and the decorations placed for the opening at 9.30 o'clock Monday morning. The opening will continue Tuesday and Wednesday, and throngs of visitors are expected.

St. Louis firms that are creditors of the Harvell Jewelry Co., Litchfield, Ill., which went into bankruptcy with liabilities of nearly \$100,000, and against which bankruptcy proceedings are pending in the United States District Court for the Southern District of Illinois at Springfield, have been notified that John Ball, the trustee, has reported to E. S. Robinson, the referee in bankruptcy, that he has \$20,655 on hand. The creditors are notified to attend a creditors' meeting, May 26, at 10 A. M., in the Bankruptcy Court room at Springfield, for the purpose of declaring a dividend of 10 per cent. and directing that it be paid. The Harvell Co. operated stores at Mt. Vernon and Taylorville, as well as Litchfield, and did a large business.

Samuel Gold asks \$30,000 damages in a suit which he has filed in the Circuit Court against the S. Pian Time Payment Jewelry Co., 1100 and 1104 N. 9th St. He alleges that he has been libeled by allusions in six advertisements printed by the Pian company in the *Vorsteher*, a Yiddish newspaper. He makes each of the six advertisements the basis for a separate count in his petition, and asks \$3,000 actual damage and \$2,000 punitive damage on each count. Gold is also in the jewelry business. Although he was not named in the advertisements, he claims that allusions to an unfortunate physical disability left no doubt as to who was meant. The case was called for trial Thursday, but a continuance was taken at the expense of the defendant.

One of the questions to be discussed on the first day of the annual meeting of the Missouri Society of Retail Jewelers, to be held at the Hotel Jefferson, Monday, Tuesday and Wednesday, July 21, 22 and 23, will be "The Retail Jobber." The discussion will be led by a jeweler who has some positive opinions on the subject. Delegates who know something about it will be called upon by name and requested to tell what they know. In a circular letter sent out last week, by Claud Wheeler, Columbia, Mo., the president of the association, jewelers are urged to come "loaded" for this discussion. The letter states that there are to be other subjects for discussion that will be just as interesting. "A great deal," says Mr. Wheeler, "has already been accom-

lished by the organized efforts of the jewelers, but much remains to be done, and this can be done only by the united efforts of every retailer." Jewelers not now members of the association are urged to join at once, and attend the meeting. "Business and pleasure," he says, "will be mixed, so the meeting will be both enjoyable and profitable. It is a time when you can get away without making any sacrifice of business, and the vacation will do you good. Write and tell us you are interested; tell us you are coming, and make your arrangements to be at the Jefferson Hotel, June 21 and 22. If you do, I know that in the midst of it all you will exclaim, 'It is good to be here!'" H. L. Raines, Maryville, Mo., says that from the replies that are being received to the letters sent out to the prospects are flattering for the largest meeting that the association has ever had.

Minneapolis and St. Paul.

Mr. Fraid, successor to Fraid & Falk, Washington and 12th Aves., S., Minneapolis, has discontinued business.

J. B. Hudson & Son, Minneapolis, are sending out post cards illustrating the interior of their attractive retail jewelry establishment.

H. K. Lee, Fosston, Minn., has been in the Twin Cities on behalf of his automobile department, for the purpose of purchasing machines.

Out-of-town jewelers here during the week include: W. M. James, Breckenridge, Minn.; S. A. Gravestine and his father, Lake Park, Minn.; I. Reiner, Hutchinson, Minn.

T. V. Thomsen, 275 Cedar Ave., has just completed the alterations and improvements in his store in Minneapolis, including the installation of a set of mahogany fixtures and plate-glass show cases.

Locomotive firemen on the Chicago, Burlington & Quincy Railway in this territory have been notified to provide themselves with standard watches. Heretofore the engineers have been required to have standard watches, but not the firemen.

Dahl & Fredin, 2402 Central Ave., Minneapolis, have arranged to erect a new building two doors beyond, at 2406, with a plate-glass front. They will move their stock as soon as the structure is completed, which will be about July 1. They will have larger quarters and will carry a heavier stock.

The Transferoid Co. is a new company in Minneapolis, with offices at 41 S. 4th St., making a plastic preparation for transferring engraving designs from one article to another. The material holds the design and gives the imprint upon the article where it is to be reproduced faithfully. The imprint, it is claimed, is quite as satisfactory on irregular surfaces such as spoon bowls, cuff buttons and similar articles, as on plain surfaces.

S. F. Lehman and Perry Tucker, who conduct the Fidelity Jewelry Co., 814 Wash Ave., Terre Haute, Ind., have dissolved partnership, Mr. Tucker having purchased his partner's interest. An auction sale will be held soon to close out the present stock, and Mr. Tucker will procure an entirely new stock of goods.

Cincinnati.

John Bell, Lexington, Ky., was calling on friends here the past week.

Fred J. Kilp, engraver at 95 Perin building, has opened an engraving school.

Julius Heckman, with Henry Korf, has returned from Asheville, N. C., much improved in health.

B. Ganz, of the Gustave Fox Co., is about to leave on a business trip to New York and eastern cities.

Peter Henry, May 1, admitted his son as a partner, and the firm name is now Peter Henry & Son.

Julius Jacobs, of D. Jacobs & Co., and Louis Rauch, have left on an eastern buying trip.

John A. and Wallace Herschede, of the Herschede Hall Clock Co., are spending a week in New York on business.

James Haynes, Newark, O., has been elected commodore of the Buckeye Lake Club, of which there are about 500 members.

Edgar Fox, of Lindenberg & Fox, was visiting the Illinois Watch Co., the past week. Joseph Rosenbaum, of this house, is visiting friends in Chicago.

Joseph Noterman, of Jos. Noterman & Co., and Ed. H. Croninger are arranging to attend the Knights Templar conclave at Ashland, Ky., May 19 and 20.

C. P. Williams, St. Henry, O., has discontinued business for the present on account of the condition of his eyes. He is now under treatment in the hospital.

M. Schwab, of the M. Schwab Jewelry Co., was in Dayton, O., May 16, attending the 57th annual convention of B'nai B'rith as representative of the Grand Lodge.

Wallenstein, Mayer & Co., have added Ray Frankel, of Louisville, Ky., to their traveling force and will give him northwestern territory when he starts out the forepart of June.

The case brought by Max Schepari against Max Greenwald, of the Max Greenwald Jewelry Co., was non-suited, as the complaint names Mr. Greenwald individually instead of the corporation.

William P. Wimmel, son of Mr. Wimmel, watchmaker for Michie Bros., died, May 12, at his residence on Handman Ave. Deceased was 23 years of age, and was for some time an employe of the Oskamp, Nolting Co. He was well and favorably known here, and his many associates speak in the highest terms of him.

A colored man giving his name as Perry Stokes was arrested, last week, after calling at Harry Levi's pawnshop on Central Ave. and stealing a watch. He took the watch from Mr. Levi's desk while the clerk, who was the only one in the store at the time, was waiting on a customer. He was tried and was fined \$25 and costs and given 30 days in the workhouse.

Out-of-town jewelers here the past week purchasing stock included: A. M. Stamm, Williamsburg, O.; Owen Sherwood, Falmouth, Ky.; D. Adler and Fred J. Heintz, Lexington, Ky.; J. Dougherty, Bethel, O.; Frank Liesner, Hamilton, O.; O. C. Beer, Sunman, Ind.; Frank B. Carey, Lebanon, O.; Charles Heisterman, Miamisburg, O.; J. W. Vaughan, Morrow, O.; Herman E. Promnitz, Van Wert, O., and Charles G. Schlenker, Eaton, O.

The suit of A. & J. Plaut vs. Eli Horwitz, a former traveling salesman of the above house, which has been pending for several years, has finally been settled by a compromise. Mr. Plaut gets \$129.67 and Mr. Horwitz assumes payment of all court costs. It appears about five years ago Plaut sued Horwitz for \$306, but the case did not come up until about two years ago, when Horwitz put in a claim for \$40 for salary. The latter got judgment for the \$40 and had credit given him on Plaut's claim of \$306 which reduced the latter claim to \$266. But this verdict was set aside by the judge when Plaut's side was heard. The case did not come up again until May 3, when it was settled by a compromise.

On May 12 a suit was filed in the Common Pleas Court by Marion D. Oskamp, widow of Alfred Oskamp, asking for a partition of the Vine St. real estate now occupied by the Clemens, Oskamp Jewelry Co.'s store. The action is a result of the heirs to the property being unable to agree as to its management. Attorneys for Mrs. Oskamp stated that the action is an amicable one, and brought about solely by the inability of the heirs to agree as to the manner in which the property should be managed to subserve all interests. A sale of the property is asked for. These proceedings have nothing to do with the Clemens, Oskamp Co., which is a stock company and entirely separate from any other business.

Omaha.

H. S. Knapp, with the Shook Mfg. Co., is in from a business trip.

J. O. Stranne has moved his jewelry stock from Tyndall, S. Dak., to Fairfax, S. Dak.

N. Nielson, Harlan, Ia., secretary of the Iowa Retail Jewelers' Association, was a guest in this city for several days, last week.

Albert Edholm, who has been the chief watch inspector for the Union Pacific Railway for the past nine years, has resigned his position.

L. Brandt, Lawrence, Nebr.; E. A. Shepard, Oakland, Ia., and C. S. Myers, Butte, Nebr., were in Omaha, last week, purchasing stock.

L. Kaas, who has been seriously ill for some time, is able to be about, but owing to his weakened condition will not be able to resume his business duties for several weeks.

Mr. and Mrs. S. W. Lindsay left, last Friday, for Chicago, where they will remain for the graduating exercises of the Armour Technical School, May 28, Curtis M. Lindsay, their son, being a member of the graduating class.

Julius Meyer, formerly in the jewelry business in this city with his brother, Max Meyer, now of New York, committed suicide in Hanscom Park, on the morning of May 10. Mr. Meyer had been in ill-health for some weeks, but was convalescing so rapidly and in such good spirits that his many friends were deeply grieved and surprised to learn of his death. Mr. Meyer was general agent for this territory of the Providence Insurance Co. He was 58 years of age.

Indianapolis.

J. H. Reed has returned from Brown County.

J. W. Hudson, Fortville, has purchased an automobile and is making his buying trips to this city in the new car.

Carl L. Rost is home after a two weeks' trip to Goldfield, Nev., where he went to look after gold mining interests.

Louis Feller has renewed the lease on his store at 420 E. Washington St. for a term of five years. He has made a number of improvements in his place of business.

Few jewelers were in this city, last week, buying stock. Among the number were: J. L. Rowe, Frankfort; J. W. Hudson, Fortville, and W. E. Simmons, Franklin.

Charles B. Dyer has not decided definitely whether or not he will make his annual trip to Europe next month. If he goes, Mr. Dyer will remain 70 days, touring the Continent.

In a fire that destroyed a number of business houses in Knightstown, several days ago, the jewelry store of Fred Pennington was badly damaged. The loss was covered by insurance.

I. Grohs, of the I. Grohs Jewelry Co., went to Chincinnati, last Wednesday, to attend an initiation of a class into the Loyal Order of Moose, with which he is prominently connected.

Extensive alterations have been completed by H. H. Bishop to his store in Virginia Ave. A new display window has been built, the optical department enlarged and the walls redecorated.

Local jewelers are moving into their Summer homes. Clinton S. Wallace, house salesman for the Baldwin, Miller Co., and Horace Comstock have taken cottages at Broad Ripple for the season.

Warsaw jewelers are protesting against an ordinance forbidding electric signs across the sidewalks, and Mayor Rigdon, who is also a jeweler, has promised to use his influence in having the measure repealed.

Gray, Gribben & Gray opened their new store at 115 N. Pennsylvania St., last Saturday, and several hundred friends and patrons visited the place during the day. It is operated as a branch of the Illinois St. store.

The first important pearl "find" of the season has been reported from Princeton, where William Hopple found a pearl of 42 grains, valued at \$1,200. He sold it for that amount to Dr. Pepper, a pearl buyer at Mt. Carmel, Ill.

J. P. Mullally, who is supreme vice-president of the American Order of Owls, attended the annual State convention of the order at Muncie, last week. Dr. Fred B. O'Hara, supreme president, Springfield, Ill., visited Mr. Mullally later in the week.

Governor Thomas R. Marshall has appointed Kent K. Wheelock, Fort Wayne, a member of the State Board of Examination and Registration in Optometry. Mr. Wheelock succeeds Dallas F. Green, Fort Wayne, who resigned from the board about one year ago.

A boom to elect Mayor C. A. Rigdon again at Warsaw has been ended by the discovery that a new State law provides that a municipal officer cannot serve more than one four-year term in eight successive

years. Mayor Rigdon is a jeweler, and his administration has received the commendation of business interests.

Los Angeles.

B. Burstein, Imperial, Cal., was here on a business trip during the last few days.

Almon G. Stone, 330 S. Broadway, has been ill and unable to visit his store, but is now convalescent.

S. Meyer, wholesaler in the Germain building, has been out on the road visiting customers for a few days.

H. F. Wallace, 414½ S. Broadway, is now en route from Cleveland to New York City by automobile, having purchased a new car in Cleveland.

A report has reached here that the Snyder Jewelry Co., El Paso, Tex., has suffered the loss of its store by fire. The company carried \$18,000 insurance.

Arthur Turner is traveling through the southern California towns with full sample lines for the E. W. Reynolds Co. Reports from him indicate that he is doing an excellent business.

Montgomery Bros. recently supplied to a delegation of orange growers from Florida visiting southern California three fine loving cups, a \$570 chest of silverware and two diamond-set fobs for presentation purposes.

W. H. Homer, formerly with Shreve & Co., San Francisco, and later with the Emporium, in that city, will take a position as assistant to Mr. Jehlinger, jewelry buyer and manager of the jewelry department in Hamburger's store.

J. H. Birnbaum, of Birnbaum Bros., 457 S. Spring St., has gone on a trip to Mexico with a party of Masons who are conveying the famous traveling trowel to that city. The party visited the Grand Canyon of the Colorado en route.

The Whitney Jewelry Co. recently sold a large and exceptionally fine sterling silver loving cup to the Pacific Mutual Life Insurance Co., of this city, to be presented to Mr. Stewart, the insurance company's agent at Fort Worth, Tex.

The name of the company formerly known as the Tiffany Jewelry Co., Pasadena, has been changed to Chas. H. Kelly & Co. Tiffany & Co., New York, some time ago brought an action in court to prevent the use of the name first adopted.

Brock & Feagans recently supplied a very fine chest of silverware to the officials of the Territorial prison of Arizona, to be given to Hon. Joseph H. Kibbey as a testimonial of esteem at the time of his retirement from the office of Governor of the Territory.

A remarkable exhibit of cups and other trophies has been made in the window of Montgomery Bros. during the last few days. It comprises the entire collection of trophies belonging to members of the fishing clubs of Catalina Island, the total value of which is over \$1,000.

The following jewelers have been in Los Angeles, recently: George L. Dietrich, Anaheim; D. S. Binford, Whittier; J. H. Padgham, Santa Ana; A. Protseh, Redondo; Mr. Reynolds, of Reynolds & Masters, Pasadena; A. P. Stocking and George W. Collis, also of Pasadena; Thos. Walmsley, Santa Ana; William F. Linnett, Oxnard; H. E. Rader, Monrovia.

Detroit.

O. H. Lütz, Ann Arbor, visited the local trade, last week.

A. Brunk, Deerfield, was a visitor in the city, a few days ago.

C. H. Marvin, Howell, was here a few days ago, buying stock.

W. R. Grainger returned Wednesday from a trip to New York.

Mr. Holland, of D. E. Holland & S. Lapeer, was in Detroit purchasing stock last week.

Negotiations are now on for the transfer of the Grainger-Hannan business to the Schwankovsky block on the opposite side Woodward Ave.

Kunz & Rogers will move next week to the new Jewelers' block, at 193 Woodward Ave. Mathauer & Koester have already taken up their quarters there, and Charles A. Berkey Co. will move before June 1.

Wright, Kay & Co. were given the contract, last week, to furnish the city of Detroit's trophy for the Glidden automobile tour, which starts from this city July 1. The Council appropriated \$250 to purchase a trophy, and a number of designs were submitted by local firms. Mayor Brumley, Controller Doremus and Ald. Z. selected the Wright, Kay & Co.'s design which is of china, with a clock base and metal inlaid work.

An assessment of \$50,000 placed upon stock of the old firm of W. A. Sturgeon Co., which was recently succeeded by Grainger-Hannan Co., is to be contested in the courts. Not all of the old firm's stock was sold to the new firm. Included in the portion which remained unsold was a large quantity of precious stones. The assessment placed this assessment thereon, but the stones were soon afterward sold to parties in New York. Upon application made to the Board of Tax Review, that body reduced the assessment to \$40,000, but was deemed too much, and therefore appealed to the courts.

Thomas F. Comerford, secretary-treasurer and manager of the Michigan Optical Co., was elected president of the Detroit Jewelers' Board of Trade at its meeting Friday night in the Griswold House, succeeding Frank Kennedy, of the Kent Optical Co. Henry Luths, of Luths, Iweld-Haller Co., succeeds Richard Rogers, of Kunz & Rogers, as vice-president, and A. E. Charlesworth, of Charlesworth Optical Co., was elected secretary in place of Charles A. Berkey. J. Patterson, of Burr, Patterson & Co., was re-elected treasurer. The principal feature of discussion at the meeting was the assembling of jewelers and opticians for State conventions here Aug. 24 and 25. The jewelers will meet Tuesday and the opticians on Wednesday, the Ku-Kus have their celebration on the latter evening. On Thursday, Aug. 26, there will be a big picnic on the river with varied entertainment features. The State Fair opens the following day, and this, combined with the fact that the Wholesalers' Association excursion takes place that week is expected to bring together the largest gathering of men in the two trades that the State has known in a number of years.

Kansas City.

J. R. Mercer and wife have returned from their trip abroad.

George H. Edwards, of the Edwards & Sloane Jewelry Co., has just purchased an automobile.

J. H. Whitney, with the Edwards & Sloane Jewelry Co., has gone for a stay on his ranch, located near Hymer, Kans.

M. C. Rosenfield, St. Joseph, Mo., has written friends in the trade in this city that his wife is seriously ill, and hardly expected to live.

The Kansas jewelers and opticians will hold their annual convention in Topeka, Kans., in the Y. M. C. A. building, May 25, 26 and 27. Kansas City jobbers and manufacturers will be on hand to show the boys what they have.

Word comes to this city of the comparatively sudden death of C. A. Clement, Springfield, Mo., on May 13. He had been ill only a week, and died of pneumonia. Mr. Clement was one of the most popular retail jewelers in the State, and his death is deeply regretted by the Kansas City jewelers. He was a widower, and leaves two sons to mourn his loss, one being 13 and the other 16 years of age.

The following jewelers were in this market during the past week: J. O. Stott, Paola, Kans.; E. Parker, Gilman City, Mo.; Amos Plank, Hutchinson, Kans.; A. Rosenfield, Leavenworth, Kans.; F. W. Jordan and wife, Minneapolis, Minn.; W. H. Meyer, Lawson, Mo.; Mr. Vail, Bonner Springs, Kans.; Chas. Webber, Lexington, Mo.; J. H. Whiteside, Liberty, Mo.; L. E. DeLanty, Parkville, Mo.; Mr. Stevenson, Effingham, Kans.; M. B. Gordon, Brainer, Mo.

Pacific Coast Notes.

W. F. Wooster, Suisun, Cal., has just returned from an extended trip through Washington, Oregon and Idaho.

Horace Robinson, accused of defrauding H. S. Bock, a retail jeweler of San Jose, Cal., out of a large sum of money, is to be brought back from the east soon to stand trial.

Following the recent disastrous fire at Goldfield, Nev., it was discovered that jewelry and silverware to the value of \$1,100 had been stolen from the store of the Walter A. Lord Jewelry Co. The police were informed, and after several days' careful work arrested the men who are said to have been implicated in the crime and have recovered all of the stolen property. Walter Evans and M. S. Gaskell were the men arrested, and the first clue against them that was secured was through the shipment of a quantity of jewelry to Los Angeles by Evans. When they were arrested the balance of the loot was found in their room.

C. F. Salmonson, Oakland, Cal., who was found guilty of receiving stolen jewelry, knowing that the same was stolen, is to be allowed his liberty on probation if he makes restitution to W. N. Jenkins, from whom the goods were taken. In all about \$1,600 worth of stock was stolen, but with what was recovered, less \$75, which was the amount Jenkins' clerk received for the loot, the guilty man will be able to secure his liberty for \$973. To secure this he has

been compelled to mortgage his home and sell his wedding and engagement presents. The young clerk, Martin, has also been released on probation, and his former employer has found work for him. In testifying before the judge the jeweler stated that he felt that both had been sufficiently punished, and he would be satisfied to recover the cost price of the stock which was taken from him.

Toledo.

J. George Kapp has been appointed on the membership committee of the Business Men's Club.

F. C. Broer, of the Merrill & Broer Co., wholesale jewelers located in the Smith and Baker building, spent the past week on a fishing cruise on Lake Erie. He returned to business duties, yesterday.

Sylvan Basch, formerly local manager for L. Basch & Co., contemplates the opening of a new jewelry store in this city. L. Basch & Co. opened a branch store on Adams St. about two years ago, but recently sold it to Isenberg Bros., who have moved the store from Adams to Superior St. Basch is now interesting local capital, and if successful will open a large downtown store.

The new Taft cup, donated to the Toledo Yacht Club by President W. H. Taft, is expected to reach Toledo some time within the next week or 10 days. Some delay has been occasioned in the manufacture of the cup on account of the intricate design of the President's flag and the flag of the local club, which are united in a neat design in enameled and gold.

Pacific Northwest.

H. C. Madsen, Yoncalla, Ore., has remodeled his store and made a number of important changes.

The question of purchasing a clock for the new city hall at Georgetown, Wash., is now being discussed.

Marshall O. Rose, who recently opened a store at Athena, Ore., has disposed of his business there, owing to ill-health, and has removed to Portland to engage in another line of business.

John P. Nelson, who recently arrived at Wenatchee, Wash., has decided to open a store at that place, and has ordered stock. Pending the arrival of the goods he has opened a repair department in the store he has leased.

J. C. Runyan, formerly of Tacoma, Wash., is looking in Corvallis for a suitable location for a lapidary establishment. He intends to make a specialty of polishing agates that are found in large quantities in the vicinity of Albany.

It is reported from Colorado Springs, Colo., that a large deposit of turquoise had been discovered in Conejo County recently and that the mine, which is said to be the only one of its kind in the State, is now controlled by Charles H. Wyman, a jeweler, of Colorado Springs, and C. G. King and H. E. James, both of Manassa. Mr. Wyman, it is said, has miners at work and will establish a lapidary plant in Colorado Springs.

San Francisco.

Philip Klein, Los Angeles, was a recent visitor in San Francisco.

Shreve & Co. are now exhibiting in their show windows 35 trophies manufactured by them to be distributed at the meeting of the San Francisco Kennel Club.

D. Landa has opened a store at 2663 Mission St., and now has one of the finest establishments in the Mission district. This store is a branch of the one operated at 968 Valencia St.

David L. Thomas, a local jeweler, has been arrested upon the complaint of Mrs. Olive Kraus, who states that Thomas has in his possession a diamond brooch valued at \$400, which was stolen from her and sold to Thomas.

The Diamond House, formerly known as H. Cohn & Co., located at the present time at 1121 Van Ness Ave., has selected a downtown location in the new building being erected on Market St., opposite 5th. The removal to the new store will be made in about six weeks.

What is believed to have been an attempt at a bank and jewelry robbery was frustrated, recently, by the discovery of work that had been commenced by the would-be robbers. The firms that had been selected as victims were the Fano Jewelry Co., the Golden West Jewelry Co. and the Swiss-American Bank, all located in the same building at the corner of O'Farrell and Fillmore Sts. Manager Leo Herringer, of the Golden West Jewelry Co., made the discovery of the preliminary work of the robbers when he entered a vacant store next to the one occupied by his firm. He found a hole sawed in the floor large enough for a man to crawl through, and a tunnel started toward the jewelry store, reaching almost to the spot where the safe stood. The rear door of the store had been forced open with a jimmy and was kept closed with wooden wedges. It is believed that the work was carried on by skilled cracksmen, and that it was their intention to enter the bank and the two stores on the same night when the preliminary work had been completed.

Since the arrest of Kenneth A. Williams, recently, on suspicion of having been connected with the burglary of the store of T. Lundy, a year ago, the police have been working on the case and some surprising developments have come to light. It has been decided that Williams knows nothing of the Lundy robbery, and that the goods found in his possession are not a part of the loot secured from that store, although made by the same manufacturing firm with which T. Lundy does business. It has also been decided that the goods came from the store of the Alphonse Judis Co., a wholesale concern located in the Mutual Bank building, at 704 Market St. Williams has confessed this much, and states that he received the goods from a man named Ralph Johnson. Members of the firm of the Alphonse Judis Co. have identified the articles as theirs. The police are working on the theory that the goods were stolen from the wholesale company by a clerk, and it is announced that additional arrests are expected soon. The members of the Alphonse Judis Co. do not care to discuss the matter at present.

1909-10 Edition Now in Preparation

THE

Buyers' Directory

will aid the selling department of any concern desirous of keeping continually before the buyers from July, 1909, to July, 1910.

It will work every day of the year by keeping your business announcement in the authoritative directory of the trade.

It reaches the buyer at the time he is looking for the kind of goods you sell.

THE BUYERS' DIRECTORY is a complete, up-to-date, classified and geographically arranged index of Manufacturers, Importers and Jobbers of the Jewelry and Kindred Trades.

It covers every line of Jewelry, Silverware, Precious and Semi-Precious Stones, Watches and Watch Cases, Clocks, Gold and Fountain Pens, Optical Goods, Supplies, Materials, Tools, Leather Goods, Art Goods, Bric-a-brac, Assayers, Refiners, etc., etc.

5 YEARS' EXPERIENCE GAINED IN 1

The young or middle-aged man who desires to learn Engraving, to grasp the finer points of Watchmaking and Optics, finds it necessary to spend at least five years in a store before he has attained a thorough knowledge of the business. In less than a year's time this complete knowledge can be gained at our college. We get telegrams and letters every day, offering positions to our graduates, which shows what practical storekeepers think of our course. Send for Prospectus NOW. A position awaits you.

IN WHICH IS CONTAINED A LIST OF THE LATEST PATENTS GRANTED BY THE UNITED STATES AND GREAT BRITAIN, THE UNITED STATES PATENTS THAT HAVE EXPIRED AND THE REGISTERED TRADE-MARKS.

UNITED STATES PATENTS.

ISSUE OF MAY 11, 1909.

21,007. STYLOGRAPHIC PEN. EVELYN DE LA RUE, London, England. Filed June 12, 1908. Serial No. 438,109.

In a stylographic pen, the combination of a barrel, an air duct in the barrel leading from the top thereof down into the barrel to a point below the normal ink level therein, a cap containing an

er and ink trap connected to the outer or upper end of the barrel above the upper end of the air duct, and means operated by the movement of the cap for closing the air duct.

21,126. ENGRAVING-BLOCK-JAW ATTACHMENT. ARLINGTON L. LEATART, Los Angeles, Cal. Filed Aug. 29, 1908. Serial No. 430,880.

An attachment for engravers' blocks, comprising a pair of jaws provided with adjustable attaching

means in the bottom thereof, and having one or more jewelry holding depressions or recesses.

21,221. HAT-PIN. THOMAS M. FRAEHLICH, Roundup, Mont. Filed Nov. 30, 1908. Serial No. 465,127.

A hat-pin comprising two sections, a keeper upon one section, a fastening pin upon the other sec-

tion to engage said keeper, a telescopic connection between the sections, and a spring associated with said telescopic connection to draw the sections together.

1,280. TIME-INDICATING SYSTEM. ALBERT A. RADTKE, Chicago. Filed June 29, 1908. Serial No. 440,843. Renewed Jan. 25, 1909. Serial No. 474,152.

In a system of the class described, the combination of a master clock, a plurality of time indicating units, time indicating mechanism for each unit, armatures for each unit connected with the

time indicating mechanism, a plurality of electro-magnets arranged about the armature, contact mechanism driven by the master clock, and electrical circuits connecting said contact mechanism with said electro-magnets, said contacts and mech-

anism being driven by the clock mechanism to cause the circuits to be affected to cause successive energization of the electro-magnets of the units whereby the unit time indicating mechanisms are actuated to indicate time in accordance with the time indicated by the master-clock.

921,355. ORNAMENTAL GLASS. GEORGE H. BRABROOK, Taunton, Mass. Filed March 20, 1908. Serial No. 250,973.

The process of making imitation leaded glass consisting of painting upon vitrified material with metallic paint lines which form a design, coating

with enamel portions of the surface of the glass which are not covered by the metal lines, subjecting the glass to heat to fix the metal to the glass and to fuse the enamel and electroplating the lines of metal.

921,421. FASTENER FOR JEWELRY. NATHAN LIEBERFREUND, New York. Filed Oct. 17, 1908. Serial No. 458,202.

In a jewelry fastener, a female member comprising a plate having an aperture, a communicating radial slot, a slitted tubular sleeve fitted into the aperture and having a notched edge, a radial recess in the back of the plate that communicates with the aperture and with said notched edge, a

stop on the back of the plate in proximity to the radial recess, a housing mounted on the plate, and a spring within the housing, combined with a male member comprising a stem and bit rotatable after entering said plate, said bit being adapted to be spring-pressed into the radial recess to thereby obstruct the withdrawal of the bit through the aperture of the plate.

921,445. MATCH-BOX HOLDER. LEONARD PADEN, Columbus, O. Filed May 2, 1908. Serial No. 430,616.

A match-box holder having a match holding chamber and an auxiliary chamber, a match-box in said holding chamber, a sliding tray positioned therein, a member adapted to be applied to said

holder to form the top and front sides thereof to inclose said box and tray, and means of access through such member to said tray.

921,517. PIN. CALVIN DEAN and ERNEST F. RUECKERT, Providence, R. I.; said Rueckert

assignors to said Dean. Filed Aug. 6, 1908. Serial No. 447,313.

An article of manufacture comprising a base

plate provided with a transverse marginal slot and a longitudinally disposed aperture into which the slot leads, an integral projection at the base of the aperture extending into the slot, and a catch upon the plate.

921,566. MOUNTING FOR EMBLEMS OR MONOGRAMS. GUSTAVUS A. SCHLECHTER, Reading, Pa. Filed May 22, 1908. Serial No. 434,253.

An article adapted to be worn, in combination with an emblem plate of substantially circular form, fastening means on the under side of said emblem plate substantially at the center thereof

and concealed by said plate, for securing said plate to said article, said plate having a disked form and tending to assume a small diameter, said article having a retaining rim formed thereupon adapted to engage the edge of said plate when depressed centrally to secure the same by said fastening means.

REISSUE.

12,954. PIN. GEORGE W. DOVER, Cranston, R. I. Filed March 20, 1909. Serial No. 484,994. Original No. 896,810, dated Aug. 25, 1908. Serial No. 422,075.

In a pin of the type set forth, the combination with a base plate of journal ears cut inwardly from the margin of the plate and extending upwardly from the plate at points remote from the

margin of the plate, a catch member also cut inwardly from the margin of the plate and extending upwardly from the plate at a point remote from the margin of the plate, an ornamental front plate, and a flange upon the front plate overlapping the entire margin of the base plate.

DESIGN.

39,982. GLASS VESSEL. ALBERT STEFFIN, New Bedford, Mass., assignor to the Pairpoint

Corporation, New Bedford, Mass. Filed Dec. 31, 1908. Serial No. 470,278. Term of patent 7 years.

UNITED STATES TRADE-MARKS

[The following trade-marks have been adjudged entitled to registration under the act of Feb. 20, 1905, and are published in compliance with Section 6 of said act. Said section provides:

"Any person who believes he would be damaged by the registration of a mark may oppose the same by filing notice of opposition, stating the grounds therefor in the Patent Office, within 30 days after the publication of the mark sought to be registered, which said notice of opposition shall be verified by the person filing the same before one of the officers mentioned in Section 2 of this act. If no notice of opposition is filed within said time the commissioner shall issue a certificate of registration therefor, as hereinafter provided for."

Marks which are stated to have been "Used 10 years" are registrable under the last proviso of Section 5 of said act, which is as follows:

"And provided further, that nothing therein shall prevent the registration of any mark used by the applicant or his predecessor, or by those from whom title to the mark is derived, in commerce with foreign nations or among the several States, or with Indian tribes, which was in actual and

ABRIDGMENTS OF SPECIFICATIONS, 1908, FROM *The Illustrated Official Journal.*

ISSUE OF APRIL 28, 1909

5. FASTENINGS FOR BRACELETS, ETC. S. BETTS, London. Jan. 1.

Relates to snap-fastenings for bracelets, necklets, etc., of the type in which the free notched end of a V-shaped blade on the one part engages a slot in a box-shaped socket on the other part. The spring blade *f* has a catch-piece *g* engaging behind the bridge *i*, Figs. 1 and 3, of a mouth-piece *c*, which stands as high or higher than the

thumb-piece *g*¹, to prevent accidental unfastening. A slot *h* between the catch-piece and thumb-piece may be lengthened, as shown in Fig. 10, so that the catch *f* is not simultaneously disengaged from both the mouth *d*, Fig. 3, and the bridge *i*. The thumb-piece *g*¹ may be dispensed with, this form being applied to a snap-padlock, as shown in Fig. 11.

Applications filed April 13 to April 17, 1909.

4,718. HAT PIN. PETER F. AUGENBRAUN, London.

4,868. SPECTACLE FRAME. GUY E. DRUIFF, London.

4,869. EYEGLASSES OR PINCE-NEZ. GUY E. DRUIFF, London.

Complete Specifications Accepted April 21, 1909. 1908.

0,645. CASE OF NEEDLES, VISITING-CARDS, CIGARETTES OR OTHER ARTICLES. JOHNSON.

74,648. CUFF HOLDER. WM. C. SHAW, Chicago, Ill.

74,792. ORNAMENTAL CHAIN LINK OR TIP. E. B. BULLOCK, Attleboro, Mass.

Pittsburg.

W. O. Harrison, of the Marsh, Brown & Mather Co., was in New York last week on business.

Sol Cerf & Co. are painting the front of their building, on Liberty Ave., and making repairs to it.

R. H. Wolfe, Smithton, who has been elected a director in the Smithton National Bank, was in Pittsburg, last week, calling on his friends.

The Pittsburg Chamber of Commerce is making its trade extension tour, this week, through western Pennsylvania and other places, and a big time is assured.

Chris Hauch, who opened in a new location in Diamond St., a few weeks ago, is well pleased with the business he is doing. He says his trade is following him.

The Pittsburg Chamber of Commerce, at its last meeting, passed a resolution recommending the appeal of the mercantile tax law, which local merchants believe is a hardship on the dealers.

Sam F. Sipe's photograph, and that of his excellent horse, "Do-Tell," hitched to a handsome turnout, appeared in last Sunday's *Gazette-Times*. He entered the horse in the Pittsburg Horse Show.

Among the out-of-town jewelers in Pittsburg last week buying stock were the following: T. N. Smith, Morgantown; A. Katzermyer, Burgettstown; F. H. Hayes, Washington; B. B. Brown, Monessen.

The United States court has confirmed the sale of the stock and fixtures belonging to Sol Friedman, bankrupt, Greensburg, sold two weeks ago to Hyman Fried for \$630. Friedman's liabilities are about \$5,000.

The Pittsburg Association of Credit Men, at a meeting held last week, approved of a resolution requesting Congress to look into the tariff question and report the result of its investigation to Congress.

An assessment of \$45 a share has been levied on the stockholders of the Cosmopolitan National Bank, which failed several months ago, to assist in liquidating the affairs of the bank. Several local jewelers were caught because of the failure of the bank.

The wholesalers of Pittsburg have agreed to close their establishments for the remainder of the Spring and Summer at 1 p.m. on Saturdays and 5 p.m. other week days. All of the local wholesale jewelers agreed to this proposition last Summer and were well satisfied with it.

T. H. McNary, Washington, Pa., has been elected president of the Washington Board of Trade. He was in Pittsburg, last week, in the interest of having some new manufacturing concerns locate in his town. Washington is one of the liveliest towns in Pennsylvania, and local jewelers are glad that Mr. McNary has been so signally honored.

Israel, Abe I. and Samuel H. De Roy have purchased the five-story office building at 408 Smithfield St., from S. E. Marks for \$130,000. The purchasers are members of the firm of I. De Roy & Son, 218 Market St. Samuel H. De Roy will occupy the ground floor of the building just purchased, and is having this altered and remodelled to accommodate a first-class and up-to-date

jewelry store. The upper floors will be used for office purposes.

Carl B. Gillespie, of Gillespie Bros., left last week, for Cincinnati by boat, taking the trip down the Ohio river. From there he went to St. Louis by rail, and from St. Louis he goes to Texas. He has not taken a vacation for two years. P. C. Gillespie, of the same firm, has just bought two splendid lots in Melwood St., for which he paid \$16,000 cash.

The fight over the solvency of the Union Potteries Co., East Liverpool, O., was officially ended here, last week, by Judge Charles P. Orr in the United States District Court, after the company had made a five-year struggle against the bankruptcy act. Judge Orr reversed a former decision of the referee and declared the company a bankrupt.

A number of the local jewelers last week made handsome window displays in honor of Pittsburg's annual horse show. The windows of the Grogan Co. were especially beautiful, this firm devoting six windows to the display, which was most elaborate. The display of cups was one of the finest made. The Hardy & Hayes Co. also had its window decorated in keeping with the occasion, and in addition displayed some handsome pearl necklaces, one of which was valued at \$15,000. W. W. Wattles & Sons had a dainty display of cups and articles of jewelry appropriate for wearing at the horse show. E. P. Roberts & Sons made a display of cups. Most of the jewelers did a very profitable business in the sale of cups given as prizes at the horse show. Sam F. Sipe's horse "Do-Tell" captured a yellow ribbon at the big show.

The United States District Court, last week, dismissed the bankruptcy petition filed against Parnes & Fassberg, in so far as it affects Simon Fassberg, a member of the firm. Fassberg some time ago filed a petition stating that for six months prior to the filing of a petition against Parnes & Fassberg he had not been a member of that firm, and the referee in bankruptcy, to whom the petition was referred, so holds. Parnes is missing, and it is alleged that he absconded with \$30,000, and Fassberg has been endeavoring to find him. Fassberg was interested in the produce business with Parnes, under the name of Parnes & Fassberg, Inc. Nothing has been heard of Parnes since his disappearance. Now that Fassberg is not a member of the firm, by decision of the referee he cannot be held liable in so far as the jewelry creditors are concerned.

F. Powell, Berkley, Va., has moved from 13 Berkley Ave. to 3 Berkley Ave., where he has fitted up an attractive establishment.

D. L. Flory and W. W. Royal have bought the fixtures and machinery of J. R. Sprague's jewelry store, Newport News, Va., and will be in business at the same stand after June 1, when Mr. Sprague finishes disposing of his stock. The new owners left, recently, for New York to purchase their stock. The new concern will be called the Flory-Royall Co., Inc., and will retain the same force employed by Mr. Sprague, with one or two additions.

Now It's The Lord Elgin

The demand to-day is for thin watches.
The public have been waiting for a
thin Elgin Watch—now it's here—the

LORD ELGIN

The
Thinnest
Watch
Made
in
America
with
Enamel Dial

the thinnest watch made in America
with enamel dial.

Like all Elgin Watches—it was not
put on the market until worthy to carry
with it the Elgin reputation for reliability.

Every Lord Elgin is cased at the fac-
tory and timed in the case—the most
accurate thin watch in America.

Four grades—7, 15, 17, and 17
Jewels adjusted. 18K and 14K solid
gold cases, also 25 year filled cases.

Furnished with metal dials, plain or
engraved, gilt or silver.

Prices furnished on application by
your jobber, or write the Company for
only authorized price list.

ELGIN NATIONAL WATCH COMPANY,

Factories, Elgin, Ill., U. S. A. New York Office, 15 Maiden Lane
General Offices, 131 Wabash Ave., Chicago.

THE HOROLOGICAL REVIEW

Interesting Facts About the Pendulum.

Effect of the Different Positions of the Weight.

IN planning a clock the pendulum claims first attention. Though apparently a simple adjunct to a clock, the pendulum is in reality the most important part of its construction, for the value of the clock as a reliable time-keeping machine depends upon its free and regular movement. The function of the pendulum is to control the velocity of the going train with uniformity, and at a fixed rate, and it must be uninfluenced by the train except in receiving a sufficient amount of impulse to keep up its vibration.

Before commencing to make a pendulum for a new clock or to supply the place of a lost one it is very desirable to know something of the laws and properties of pendulums. The simplest form of pendulum may be described as consisting of a weight suspended by some flexible substance and free to swing when moved on one side and then released. The power which operates upon the pendulum is gravity, and the velocity it attains is proportional to the height fallen, notwithstanding the fact that the curve which the weight describes offers a resistance tending to neutralize in some degree the gravitating force.

The effective force of gravity in producing the motion of the pendulum depends upon the position of the weight in relation to the vertical. The greater the distance the pendulum is moved from the vertical, the greater is the impelling force of gravity. From this two important facts may be learned: First, that a pendulum of a given length moves quicker in proportion to the distance it swings, and therefore it will move through a large arc in the same time as a short one, and vice versa. In other words, when the extent of vibration is very little gravity exercises but little force; but as the vibration increases in amount the force of gravity becomes proportionately greater, causing the pendulum to move through a large arc in the same time as through a short one.

In one instance it moves through a large space quickly, in the other through a small space slowly, the time occupied being the same in both cases. Strictly speaking, that is not true of a pendulum moving in a circular arc, but it is so with a pendulum

moving in what is known as a cycloidal curve. A cycloid is a curve of the shape traced out by a point in the rim of a circle rolling upon a straight plane.

This cycloidal curve corresponds to a certain distance from the vertical with the circle. The vibrations of pendulums are generally of small extent, and any pendulum suspended by a spring never moves exactly in a circle. For these reasons it has been found sufficiently correct for all ordinary purposes to reckon that in pendulums of the same length unequal arcs are equally timed. This peculiar property of the pendulum is called its isochronism, and the difference between the time of vibration of a simple pendulum influenced only by gravity, swinging in a circular arc, and one of the same length moving in a cycloidal curve, is known as the circular error.

Another important fact is that theoretically the vibrations of a pendulum are not altered by the weight of material of the bob, unless it is so light as to suffer from the resistance of the air. Consequently a pendulum of a given length may have a bob of any material, either light or heavy, and it will vibrate in the same time. In practice it is found that from various causes weight, and therefore material, does make some difference in the time of vibration of a pendulum.

There is another cause which disturbs the uniform rate of vibration in a pendulum which must be just noticed—that is the varying density of the atmosphere. The effect of this is known as the barometric error, and to reduce it as much as possible the bob must be made as small as it can be for its weight, and also of such a shape as will allow it to pass through the air with the least resistance and without any tendency to "wobble." In a pendulum swinging $2\frac{1}{2}^\circ$ each side of zero, the barometric error is stated to be exactly compensated by the circular error.

The above reasoning shows that the velocity which the pendulum attains or its time of vibration is in proportion to the height fallen. The circumference of a circle may be considered to be 3.1416 times its diameter, and it is to be proved that the time of vibration of a simple pendulum will be $3.1416 \times$ the time required for a

body to fall vertically a distance equal to one-half the length of the pendulum. It being well known that the times of falling from different heights are proportionate to the square root from the distances fallen, it follows that the time of vibration of a pendulum varies as the square of its length.

Perhaps this will be better understood by stating that a pendulum one foot long would vibrate four times during one swing of a pendulum two feet long and nine times during one swing of a pendulum three feet long. This reasoning applies properly to what is termed a simple pendulum—that is, one in which the rod is supposed to be without weight, the entire weight of the pendulum being at the point of the extremity. Such a pendulum cannot actually be made, and therefore the application of the rule has to be considered in relation to pendulums as they are usually met with. Pendulums commonly in use have the rods made either of wood or metal sufficiently large and strong to support the heavy bob at the bottom.

Comparing the theoretical pendulum with the actual, a considerable difference exists owing to the weight at the end. In the former, weight is only at one point; in the latter it is distributed from the suspension spring at the top to the regulating nut at the bottom. To understand the effect of this, refer to a common pendulum, with a rod of proportionate size and weight. It is evident that each atom of the substance forming the rod, being at different distances from the point of suspension, would, if separated from every other, vibrate in different times. Those atoms nearest the point of suspension would vibrate more quickly, and those nearer the bottom more slowly, than they do when together. They form a pendulum as a whole. These atoms nearest the point of suspension tend to accelerate the pendulum motion, while those at the bottom retard it. There must be some atom, however, which vibrates in the same time as it would disconnected from every other atom forming the total weight of the pendulum. This point is called the center of oscillation, and it would be very convenient if this position could be found by calculation or by measurement of every shape of pendulum. The exact length required could then be obtained with certainty and without any further trouble. This cannot be done with less trouble than it is to obtain the length approximately, and then raise or lower the bob as may be found necessary upon trial.

The method usually adopted to find the length of a pendulum to make any required

Horace Greeley

Waltham Watches

Horace Greeley said about Waltham watches: "Americans should buy American watches, not because they are **American** watches, but because they are the **best** watches."

At that time Waltham watches were the only American watches.

Ralph Waldo Emerson in an Essay on Eloquence said, in speaking of a man whom he described as a Godsend to his town: "He is put together like a Waltham watch."

Ralph Waldo Emerson

**The Waltham Factory
the Pioneer**

The Waltham Watch Company is the oldest watch manufacturing concern on the American continent, the Waltham factory having been built in 1854. The only other watch company that at all approaches it in age and continuous existence was an offshoot from the parent Waltham factory and was established in a Western State in 1864.

**The Largest in the
World**

The capital of the Waltham Watch Company is larger, the assembly and the value of its automatic machinery is larger, the factory is larger, the number of its employees is larger and the daily output is larger than that of any other watch manufacturing concern that ever existed.

Premier Honors

Waltham watches have received the highest award at every international exposition wherever shown, from the Centennial Exhibition to date. No other American made watches have received similar awards.

Progress

Every permanent advance in American watch manufacturing during the past half century has originated with the Waltham Watch Company. "This Company," to quote Chambers's Encyclopedia, "has revolutionized the industry it transferred from the old world to the new."

Quality

There has never been in the world's history of watchmaking, a grouping of expert labor and marvelous machinery like this, nor anything like the unity of results shown by the sixteen million accurate and durable Waltham watches that have been produced.

Waltham Watch Company

Waltham, Mass.

number of vibrations per minute is to multiply the approximate length of a pendulum, which vibrates seconds, by the square of 60 (number of seconds in a minute) and then divide by the square of the number of vibrations desired. The length of a pendulum beating seconds in this latitude is 39.14 inches nearly. Therefore we use the formula—

$$\frac{39.14 \times 60}{\text{vibrations required}}$$

For example, to find the length of a pendulum beating 120 vibrations per minute, first multiply 39.14 by the square of 60. The square of 60 = $60 \times 60 = 3,600$; $39.14 \times 3,600 = 140,904$.

Now divide 140,904 by the square of 120 (the number of vibrations required). The square of 120 = $120 \times 120 = 14,400$; $140,904 \div 14,400 = 9.78$ inch, the length of pendulum required. As it is always necessary to multiply the length of the seconds pendulum by the square of 60, the rule may be stated in this way:

$$\frac{104,904}{\text{vibrations required}}$$

Required the length of a pendulum to vibrate 90 times per minute; then vibrations required are equal to the square of $90 = 90 \times 90 = 8,100$; divide 104,904 by 8,100, and we get 17.39 inches.

Another method of finding the length of a pendulum, which is very useful in some cases, is to divide the required number of beats per hour by 3,600 (the number of vibrations of a seconds pendulum); then square the product and divide into the length of a seconds pendulum. Required the length of a pendulum to beat 9,360 times per hour.

Dividing 9,360 by 3,600 = 2.6.

The square of this product is 6.76 divided into 39.14 = 5.78 = the length required.

It must be remembered that these lengths thus obtained are only the approximate lengths to the center of oscillation, and not the full length of the pendulum. In practice it will be found sufficiently near for all ordinarily shaped pendulums to assume the center of oscillation to be in the center of the bob. Make the pendulum the length given from the point of suspension to the center of the bob, leaving a regulating screw of average length at the bottom to bring it exactly to time. The effect of the spring upon the pendulum's vibrations must also be taken into consideration. A very stiff spring increases the number of vibrations considerably. If a pendulum is beating too quickly or too slowly, it may be brought to exact time by the following rule:

Multiply twice the length of pendulum by the number of seconds gained or lost, and divide the result by the number of seconds in a day. The quotient will give the number of inches, or parts of an inch, the pendulum is to be lengthened or shortened.—*From The Clock Jobbers' Handbook.*

Chas. Abel, Milnor, N. Dak., will soon erect a one-story building, with pressed brick front and plate glass windows, for his jewelry store.

Time—Solar and Sidereal.

(A lecture by PROF. LEAHY, of the University of Sheffield, before the Sheffield and District Watchmakers and Jewelers' Association, At Sheffield, Eng., March 24.)

(Continued from issue of May 12.)

CHANCES OF TESTING.

LET us now suppose an observation of this kind to be taken, and all the results reduced. Tables of the stars give the sidereal times when about 500 different stars, known as black stars, cross the meridian—that is to say, are to our north or south. About 400 of these stars can be seen in these latitudes, so that about 16 clock-stars pass each hour. An astronomer furnished with a transit instrument and a clock has, therefore, about 16 chances each hour of testing whether his clock is going correctly or not, to the accuracy of a tenth part of a second; since the tables give him what the clock should mark when the star crosses his meridian, the observation gives him the tenth part of a second what the clock did actually mark when the star crossed.

You will note, of course, several advantages of the stars over the sun. In the first place the sun, which is about the same size as the moon, takes a long time—as much as four minutes—to get across a wire; so we have to take the time when the sun just touches the *a* wire on one side, then the time when it touches on the other, and take half the sum of these times to get the instant when the center of the sun crossed. The time of contact is not at all so easy to take as the time of passage of a star; so that there is here a distinct source of error. But the most important advantage that the stars have is that they all keep time with one another, while the sun does not even keep time with himself.

A clock adjusted to give solar time would need added to it tables to give how far the sun is wrong on different days and on different hours of the day—sometimes 14 minutes slow by a solar clock, sometimes 16 minutes fast. The errors of stars on a sidereal clock do not generally vary by a second throughout the whole year; so that the tables and consequent reduction are much simplified by a stellar clock.

ERRORS OF THE CLOCK.

I have now to mention, when we have the accurate way of testing the clock, some of the errors of the telescope and the errors of the clock: and I shall begin with the clock. The first point is the temperature change. You probably know that the rate of a pendulum depends on its length; and a small change will produce a serious error. If a seconds pendulum, whose length is about 39 inches, be lengthened by as little as a twentieth part of an inch, it will lose about 55 seconds in 24 hours; if it is lengthened by one two-hundredth of an inch, it will lose about five seconds in the 24 hours.

A rise of temperature of 20° Fahr. will make a steel pendulum lengthened by a little less than a two-hundredth of an inch; and such a pendulum will lose very nearly five seconds a day for a temperature change from 32° to 52° Fahr. A brass pendulum will, for the same change of temperature, lose very nearly nine seconds a day, or about a minute a week.

TO OBTAIN ERRORS.

There are several ways of getting rid

of this source of error; one is the gridiron pendulum, formed of rods of brass and steel. As the temperature rises, the steel rods expand, thus lengthening the pendulum; the brass rods also lengthen, thus pushing up the supports of the steel rods and shortening the pendulum. The proportions of the lengths of the brass and steel rods should be as five to nine, and if the pendulum is properly made it will remain at a constant length for changes of temperature.

There are several other ways of getting pendulums of invariable length, but the most popular one among astronomers is to use the mercury pendulum. The principle of this is that the bob of the pendulum consists of a glass jar containing mercury, suspended by a steel rod. If the temperature rises the steel rod lengthens, lowering the glass jar, but at the same time the mercury rises, raising the center of gravity, so that, if there is the right amount of mercury in the jar, the center of gravity is kept at the same distance from the point of support, whatever the temperature may be.

The calculations have to take account of the expansion of the glass, but the rough result is that the length of the column of mercury should be two-fifteenths of the length of the steel rod in order to insure a constant temperature. I have said that astronomers greatly prefer the mercury to the steel pendulum, and this for a good reason. An astronomer does not like to rely on instrument makers; he prefers to do things himself. If there is too little mercury in the jar he can add more; if there is too much he can take it away. He has, as you remember, his real clock, the absolute standard of all time—the motion of the stars—and can tell at once whether his clock is going correctly or not. With a possible error, if things are very bad, of about half a second, even a small observatory is as certain as Greenwich is. There is no need for an astronomer to rely on anyone else; he can tell if the temperature correction is correct or not, and while alteration of the gridiron pendulum would entail calling in the maker to alter it he can make the temperature correction for the mercury at his own pleasure as soon as he sees whether the clock goes faster or slower when the temperature rises.

You will, perhaps, realize that the accuracy of this correction is more important to an astronomer than to an observer in a house. A house is usually at nearly the same temperature throughout the day, and does not really get very cold, even at night; but a delicate clock in an absolutely unwarmed observatory varies often 50° to 60° during the 24 hours, and it is especially necessary to have the correction made really well.

There is an instrument which, besides two compensating pendulums, has an ingenious arrangement for winding up the clock without varying the pull of the weight. Without going into detail, the plan is to have two weights, one much heavier than the other, passing over the top pulley, which is geared to the driving barrel. The weights are hung from pulleys, the endless cord which joins them passing over an idle wheel, which is also geared to the barrel; but when the clock is to be wound the

tchet at the side is to be lifted, the idle wheel is then set free from the barrel, and the weights can be wound up, their pull on the driving barrel at the top being practically unchanged. There are other plans for ranging that the clock shall not stop while being wound up, the usual one being to rely on a spring; the pulley arrangement seems better, but needs skill to set it up and a fair knowledge of the laws of motion to fully understand it.

There are several other forms of pendulums for making temperature corrections. The different arrangements are ingenious, but, as I say, we prefer the mercury, which we can adjust ourselves. The usual way of putting the pendulum roughly right is a screw which fastens the pendulum bob to the rod. In my pendulum in the University Observatory one-thirteenth of a turn of a very fine screw alters the rate by a second a day. For still finer adjustments a sliding weight on the pendulum rod is used; if this weight is pulled down the center of gravity, which is below the slider, is lowered; if it is pushed up the center of gravity is raised and the time of swing is shortened. No one, it is needless to say, expects his clock to be right. What he wants it to do is to have a steady rate of gain or loss in a day, and if this is about half a second, and is unaffected by temperature, it is all we want, and more than we usually get.

The constancy of the rate is, however, important, and the correct correction for temperature is of more importance than finishing the rate from half to a quarter second. The check on the observation is found the starry heavens. Our clocks are adjusted to lose about half a second a day. When the error amounts to one minute we rush on the minute hand. If we know our clock to be steady we can get at any moment, by a short calculation, the time to half a second or so.

Once I saw in Brussels an ingenious plan for getting rid of the error introduced by changes in barometric pressure. There was, where you see the small sliding weight, a little glass syphon containing mercury, with a partial vacuum above the closed end of the syphon, fixed to the rod. As the pressure of the atmosphere increases, the air tends to retard the pendulum, but at the same time that it does so it pushes mercury up the long closed leg of the syphon, raises the center of gravity and quickens the pendulum. I have not seen this anywhere else, but it is probably valuable where, as subtle as the case in Brussels, they have the more important temperature correction absolutely correct.

TIME AND LENGTH OF SWING.

I ought to mention one well-known fact, and that is that the time of swing of an ordinary pendulum does depend on the length of the swing. The change is very small if the arc of swing does not exceed a few degrees, and if we take care that the rate is always the same—that is, if we start the pendulum correctly—we get rid of this very small error. The most scientific way of getting an absolutely constant swing is to make the pendulum's support of a flexible rod, which bends at each swing of the pendulum so as to touch two cheeks made in the shape of a curve called a cycloid.

The effect of this is to make the bob of the pendulum describe, not a circle, but a cycloid; and as the time of swing of a bob moving in a cycloid is an absolute constant, whatever the arc of swing may be, many attempts have been made to get this cycloid motion. The difficulty is, however, in the tape at the top.

The only material which will bend and yet be strong enough to support a heavy pendulum is a tape of steel. This has the disadvantage of being elastic, and the error due to the variation of the elasticity of the steel tape is worse than the error we seek to avoid. What is wanted is a material which is very strong to resist tearing, and will at the same time bend readily. The great weight of the mercury used for our clocks makes it apparently impossible to get the proper suspension; but all practical clockmakers should and probably do know the advantage of the cycloidal cheeks. Probably light and small pendulums, which swing to and fro several times in a second, could be sensibly improved by a flexible strong tape which wraps and unwraps itself on two cycloidal cheeks and at each swing of the pendulum.

ERRORS OF THE TELESCOPE.

I shall not try to describe different forms of escapement, but go on from the errors of the clock to the errors of the telescope. Telescopes are in themselves pretty much the same, except that some are larger than others; the difference, so far as we are concerned, is the way in which they are mounted. For purposes of observation the most important and the largest telescopes are mounted equatorially, so as to follow the stars in their motion throughout the night. The description of these is very complicated, and I do not propose to try to describe them in detail, but refer you to one of the largest telescopes in the world—the great Lick telescope.

This telescope has an object glass three feet across, and is itself nearly 70 feet in length. For purposes of time measure such an elaborate mounting would be of no use; and each observatory, together with its big equatorial, contains the less ambitious but more accurate transit. This telescope can turn on one axis only; it swings in a vertical plane passing north and south, which we have before called the meridian. It rests on two piers, built three or four feet below the surface of the ground, so that the oscillations of the earth should not disturb it, which they usually do very seriously. Its weight is borne by two counterpoises, and finally rests on two delicate supports, each in the shape of the letter "Y," called the "Y's." One of these, the leveling "Y," can be moved up or down by a fine screw; the other can be moved east or west. The level "Y" has to be altered when necessary to make the telescope swing in a really vertical plane; the other makes it swing in a plane which is really north and south. A lamp sends light into the telescope through the hollow axis, so as to illuminate the cross wires which I showed you some time ago.

The telescope is usually furnished with a divided circle, to tell us how high it is pointing above the horizon. This circle is here a very small one. The wires are at the eye end of the telescope, and it is sub-

ject to three errors, all of which have to be closely noted—the level error, the deviation error and the collimation error. I should mention that we never take anything human to be right. When a clockmaker tells you, if he ever does, that his clocks are absolutely right, he is telling—well, a terminological inexactitude. We will take him to mean that the error is what may be called negligible. But we always have errors. They may be seconds, they may be tenths or hundredths of seconds, and the astronomer's aim is to get to know his errors as closely as he can, to make them smaller by every possible means, but always to know them and to alter when necessary. The first error that I shall mention is the deviation error. When we have to set up a telescope we first make the level and collimation errors as small as we can, and set up the piers as accurately east and west as we can possibly manage, leaving the top stone of one pier movable. We go down at night, when some star which moves slowly, like the pole star—for the pole star, like other stars, does move—is just passing to the north.

(To be continued.)

Useful Book for the Clock Repairer.

THE MODERN CLOCK; A STUDY OF TIMEKEEPING MECHANISM: ITS CONSTRUCTION, REGULATION AND REPAIRING. By WARD L. GOODRICH, author of "The Watchmaker's Lathe, Its Use and Abuse." Numerous illustrations and diagrams. 502 pp., bound in cloth. Published by Hazlitt & Walker, Chicago.

THIS book was issued, as stated in the first chapter by the author, to supply the need of valuable information regarding clocks to those about to enter the trade. The work explains scientifically the natural laws governing the pendulum, and illustrates many points by interesting experiments. The various errors, such as barometric error, circular error, temperature error, etc., are discussed briefly, and there is also a tersely written paragraph on the expansion of metals as they are applied to the making of pendulums.

Compensating pendulum rods are illustrated and described at some length, and the principle of the so-called torsion pendulums for 400-day clocks is well enunciated. Following the chapters on the pendulum is a description of the different kinds of escapements.

Besides the regular clockmaking methods of the man at the bench, improved machinery used in the different factories is illustrated. These include automatic pinion-making machines, automatic pinion drills, pinion drilling machines, wheel-cutting machines, and so on. As every house clock is generally a striking one, the author saw fit to give considerable space to a discussion of striking trains. Included in this part of the work are ships' bells striking works.

The watchmaker who has a bent for making astronomical clocks will be especially interested in a number of pages devoted to the construction of simple and perpetual calendars.

Among the topics treated are: "The Cleaning and Repairing of Cuckoo Clocks," "Electric Clocks," "Synchronizers," "The Construction and Repairing of Dials," "The Making of a Regulator" and "Clock Casing and Case Repairing."

Learn Watchmaking

Refined, profitable labor. Competent men always in demand. We teach it thoroughly in as few months as it formerly took years. Does away with tedious apprenticeship. Money earned while studying. Positions secured. Easy terms. Send for catalogue. Address

St. Louis Watchmaking School, St. Louis, Mo.

**HOW
GOOD
WATCHES
ARE MADE**

AN INTERESTING STORY

Of the making of a good watch is told between the covers of the booklet "How Good Watches Are Made" and it has helped to sell thousands of SOUTH BEND WATCHES.

These booklets are sent out to customers to help them in the sale of the SOUTH BEND WATCH and we are continually devising means and plans for assisting our customers to sell our goods.

It pays to sell SOUTH BEND WATCHES, as 12,300 Legitimate Retail Jewelers selling them to-day will verify, and they will tell you SOUTH BEND WATCHES are price protected goods of quality.

Sold complete, timed in the cases, or cases and movements separately. Write us for full particulars on how you can secure one of these booklets and derive the benefits of our co-operative policy.

STORE KEEPING DEPARTMENT

That this department shall prove mutually beneficial to our readers, it is desirable that the members of the trade generally communicate with THE JEWELERS' CIRCULAR-WEEKLY regarding any advantageous device or plan which they are utilizing in connection with their business.

A Timely Display for the Fishing Season.

Prepared expressly for The Jewelers' Circular-Weekly.

MAKE a river of jewelry—place a large mirror on the base of your window and edge it irregularly with green crepe

paper (of course real turf, if easily procurable, is more realistic), so as to form "grassy" banks. Watches, watch charms,

fobs, rings, bracelets and other small pieces of jewelry are made to appear as if "floating" on this river. At one side of the "shore" sits a fisherman, who is partially concealed by a "ridge" formed of heavy pieces of silverware, etc., only his arms, shoulders and head being visible. An old hat, a coat, a cheap mask and an old pair of gloves can be constructed into a good representation of an angler by hanging these various articles on a simple frame.

Fig. A represents a flat, broad plank which are nailed smaller pieces of board. These are then covered as shown in Fig. B and Fig. C, and form the fisherman. A strong, slender pole is used for the fishing rod. The heavy end rests on the base of the window, and is slanted so that the other end will be over the "river." The upper end could be fastened to the ceiling of the window as shown in Fig. E, where is a staple to which the cord representing a fishing line is tied. For a few cents a tinsmith will make you a pattern of a fish with a few strokes of a paint brush one can mark out the eye, fins, tail, scales, etc. The "fish's" weight will pull the line taut. Use twine of a good quality. When motion is desired, the clerk reaches into the window and gives the "fish" a twist, the cord will slowly wind and unwind a number of times and thus create a simple moving window effect that attracts the eye, and yet is inexpensive and easy to arrange. With the approach of warm weather, so the fishing becomes popular, this window will be found peculiarly interesting.

Signs could be made on fish-shaped pieces of cardboard, and price tickets also.

DIAGRAM SHOWING HOW TO CONSTRUCT THE FISHERMAN'S WINDOW.

You catch 'em right here.

You'll be content with what you get here.

A river of jewelry overflowing with novelties.

We are flooded with fancy articles.

A stream of jewelry at current prices.

Matt Irion & Sons, Louisville, Ky., are doing some vigorous advertising, both in the newspapers and by the distribution of original folders. The firm recently used space of 10½ inches by 17 inches, announcing the change in the firm style owing to the admission to the business of Mr. Irion's two sons, William M. and Alvin B. In the advertisement were shown half-tone illustrations of the members of the firm at the employees. The business was established in 1872.

Storekeeping Department.

The Spirit In Which You Work.

By JEROME P. FLEISHMAN, in *The Book-keeper*.

THE minute hand on that clock up there against the wall has stopped moving, hasn't it?

No, young man, it hasn't. It is you who have stopped moving. You have stopped moving successward long enough to wish for six o'clock and the closing bell.

What does that mean? It means that you are not putting enthusiasm into your work—that you are not doing your whole heart to yourself or to your employer.

The spirit in which you work is everything. The man who tackles his daily tasks in a I-don't-care-whether-I-ever-finish-this-or-not frame of mind may be a good employe, so far as ability goes, but he falls down with an awful thump when it comes to reliability.

To be reliable you've got to be enthusiastic. To be enthusiastic you've got to be heart, head and hand in league with the work the world has given you to do. Enthusiasm is the outward expression of spirit. You can't be enthusiastic about anything without putting spirit into your thoughts and words and actions.

Get spirit. It begets enthusiasm. Enthusiasm begets the confidence and courage that move mountains. You'll never move that little mountain of work on your desk if you don't come up with the do-or-die spirit and sail in.

The fellow who muses over that big job in front of him and wishes it were out of the way has to get out of the way himself when the chap who takes off his coat and wades into things comes along.

If you can't put your heart into your work—and heart means spirit—better go on a still hunt for other work. Not because "the boss" may fire you some fine day for neglecting your duty, but because you owe it to yourself to work with all the spirit that is in you, or quit.

Water seeks its level. The overworked and under-worked-for god of Suc-

cess will never strain his eyes looking for the man who hasn't got spirit enough in him to do the work that is his. The fellows who can't do things in this world are trampling all over one another in the struggle for a bare existence, while the men

Window Display With Lattice Work Background, Violets and Easter Lilies.

AN Easter window display made by the Johnson Jewelry Co., Anderson, Ind., is shown below. The window contained a

A WINDOW DISPLAY BY THE JOHNSON JEWELRY CO., ANDERSON, IND.

who do things are up there on the heights enjoying the view.

It isn't your work that is holding you down. Not a bit of it. Failure or success is yours, according to the spirit in which you work.

A written guarantee is being given with all watch repairs by R. Schlick, jeweler, at Rice Lake, Wis. This is rather a unique custom in that portion of the State, but one that Mr. Schlick has found profitable.

generous assortment of timely and well-chosen Easter stock, including traveling clocks, Spring jewelry, such as belt pins, watch fobs, la vallieres, cut glass, etc.

The window is 10 feet long and six feet deep. As will be seen from the picture, there was a lattice-work arrangement in the background, and the foreground was decorated with puffed white material.

The floral accessories included violets and Easter lilies. There were also suspended three large baskets brimming over with violets. The baskets were covered with crêpe paper.

The Retail Jewelry Store of C. S. Wiley, Pittsburg, Pa.

THE store of C. S. Wiley, Pittsburg, Pa., is illustrated this week. The establishment is 75 feet by 20 feet, and divided into three parts, the first part being the store proper. Directly following is the office, containing an excellent business equipment consisting of filing cabinets, desks, tables, writing machines, etc.

The workroom is arranged well in the rear, and is well lighted by means of three large windows, near which are the work benches, lathes, tables and a large sink with hot and cold water. The machinery is operated by means of electric motors of an improved type.

The show windows are each six feet wide and five feet deep. They are illuminated from above by 16 electric lights, each light being arranged in an aluminum reflector and rendered invisible from the outside.

THE CONNOISSEUR'S HANDBOOK.

Definitions of Some Technical Terms in Gold and Silver Smithing and Ceramics
Alphabetically Arranged for Easy Reference.

By Clement W. Coumbe.

(Continued from issue of May 5.)

BACCHA (Gr. and Lat.). A bacchante to which refer).

BACCHANALIA (Lat.). Festivals held in honor of Bacchus. (See Dionysia.)

BACCHANTE. A woman who celebrates the mysteries of Bacchus in the temples of the god, or in the Bacchic orgies. They are depicted in art carrying a *thyrsus* (to

BACCHANTE.

which refer) in their right hands and crowned with a wreath of ivy or vine leaves.

BACCHIC AMPHORA. This type of amphora represents the very prevalent one occurring during the best period of the black figure vases. Birch defines them as having necks taller in proportion to the body than the Tyrrhenian or the Egyptian. The handles are not cylindrical, but ribbed, being produced from a mould. They range from five to 20 inches high."

BACCHUS, Thomas. A Staffordshire potter at Lane End, who married the widow Astbury.

BACHELIER. First director of the Sèvres factory (1753). A talented sculptor.

BACILE (It.). A deep bowl.

BACINETTE (It.). A deep saucer for *torcivia* (to which refer).

BACINO (It.). A highly colored dish found imbedded in the walls of mediæval buildings.

BACON. An English sculptor. In 1755, at 14 years of age, he was apprenticed to Crispe, of Bow Churchyard (London), a prominent porcelain maker. After learning modeling on groups he was employed in painting figures on plates. His "Duck in the Pond," "Angler and His Rod," "Hunter With His Hounds," are known to us.

BACULUM, or *baculus* (Lat.). Any kind of a staff except those representing office or dignity of some kind.

BADEN. A porcelain factory here, started by the widow Sperl, 1753, under the patronage of the reigning Margrave, turned out pieces very successfully with workmen from the Höchst factory. In 1778 its owner, Pflazer, to meet a debt, sold out to Meyer, a tanner. He turned it into an inn, and it still exists as the "Grün Winckel" hostelry. Characteristics: Very much like Palatinate ware. Marks: Two axes are supposed to indicate this ware. A single axe is sometimes used. "The porcelain is very fine."—Jacquemart.

BADDELEY, Ralph B. Had a pottery at Hanley in 1794. In 1796 John and Edward were in the business.

BADDELEY, R. & J. They were the first potters to produce salt-glaze ware on a large scale, at Shelton, early in the XVIII. century. About 1750 they commenced blue painting under the glaze, a process quickly imitated by the other English potters.

BADDELEY, William, "commenced making brown ware at Eastwood, Hanley, in 1720. In 1740, having invented an engine lathe, he began to make turned articles in brown and cane ware. He was succeeded by his son William, who made imitation Wedgwood ware, marking it EASTWOOD, but the first syllable was always illegible, so that it was often mistaken for Wedgwood ware."—Jervis.

BADGE, or *cognizance*. "A device adopted by some families as a distinctive mark beyond the usual accessory of a coat-of-arms. Badges may also be used on livery buttons of household servants. They may be distinguished from *crests* by the fact that a badge is complete in itself, while the *crest* should always be shown with a *crest-wreath*, coronet, or *cap of maintenance*. Badges fell into disuse about the XVI.

century, and they are borne by only a few families in England. Royal *badges* are very numerous. The Prince of Wales badge (three ostrich feathers) is well known."—Robson.

BADIN (Fr.). A ribbon used in France to suspend the fan to the belt.

BAENSCH, Henri. "A china manufacturer, Lettin. Established 1858."—Jervis.

BAGGLEY, Jacob. "Joint partner with Joseph Machin and William Machin, 1809 to 1840 (about), at a Burslem pottery, now operated by T. and R. Boote.

BAGNALL, Charles. "One of the six Staffordshire potters, who purchased Champion's patent. He was probably the son of a potter of the same name, a maker of butterpots at Burslem, 1790."—Jervis.

BAGNOLO, Francesco Duranno worked here in 1533 on majolica creations.

BAGULEY, Isaac, "of Rotherhithe, England. First a ceramic painter at Derby, then at the Rockingham factory. On its closing (1842) Baguley started decorating independently."—Jervis. He continued the use of the Fitz William crest as a trademark.

BAHUT (Fr.). A "press" or "coffer." A box given to the bride to hold her dresses. It usually was most elaborately decorated.

BALJOIRE. "A medal or coin on the obverse of which were two faces in profile, placed one over the other."—Mollett.

BAILEY, William. In partnership with William Batkin, at Shelton, in 1823, he produced lustered earthen ware. They claimed they were sole patentees of the process.

BAILLY, Antoine. French goldsmith of the middle XVIII. century. Worked for La Trinité.

BAIN, Pierre. Goldsmith to Louis XIV. Domiciled in the Louvre. Did enamel work.

BALANCE, or scales. In art the ancient terms are used thus: The scale or shell =

BALANCE.

A = Ansa or handle; J = Jugum or beam; L = Lanx or shell.

lanx; the beam = *jugum*; the central handle = *ansa*.

In ecclesiastic symbolism the *balance* sym-

polizes the Last Judgment. Justice is also personified as holding the balance. (See *vilana*.)

BALDACHIN. A canopy or hood of metal, stone or wood over altars, thrones, beds,

BALDACHIN.

etc. As a canopy for sacred articles the baldachin is often much decorated in gems and precious metals. Bernini's great bal-

PAPAL PROCESSIONAL BALDACHIN.

dachin at St. Peter's at Rome over the bodies of St. Peter and St. Paul is perhaps among the most noted. German art greatly favored this form of furniture. At coronations portable baldachins are carried to protect the newly crowned king's person, and such are still used by Eastern dignitaries and in Papal processions to this day.

BALDRIC, or bauldrick. A band or girdle worn across the body diagonally and hang-

BALDRIC.

ing from one shoulder. It was used to suspend sword, dagger or horn during feudal times. Often the baldric encircled the waist and denoted the wearer's rank. It was sometimes hung with bells.

BALL-FLOWER. "An ornament characteristic of the decorated style of the XIV.

BALL-FLOWER.

century. It represents the 'knop' of a flower. Ball-flowers may be seen in the cathedrals of Bristol, Gloucester and Hereford."—Mollett.

BALLIN, Claude. Goldsmith to Louis XIV. Died 1678.

BALLIN, Claude. Nephew of the elder Claude Ballin. Made the crown worn at the coronation of Louis XV. Died 1734.

BALLISTER. "A small pillar swelling in

BALLISTER SHAPE.

the center or toward the base."—Fairholt. (See *balustre*.)

BALTEUS, or balteum (Lat.). "(1) A baldric, or wide belt which passed over one shoulder and beneath the other, for the purpose of suspending a sword, buckler or any other arm. (2) The ornament on the baldric on which was marked the number of the legion to which the soldier belonged. (3) A richly ornamented band of leather placed round a horse's breast below the *monile*" (to which refer), "or throat band. (4) The broad belt in the sphere, which contains the signs of the zodiac. (5) The bands surrounding the volutes of an Ionic capital" (to which refer).—Mollett.

BALTHEUS. The mediæval term for *balteus* (to which refer).

BALUSTRE. A spindle shape, such as the

SIEGBURG BALUSTRE-SHAPE JUG, XVI. CENTURY. balustre jugs of Siegburg. (See *ballister*.)

BAMBERGS. The ancient greaves or shin armor. (See *greaves*.)

BAMBOO. On Chinese porcelain the *bamboo* (*chuh*) is often depicted. It is one of the emblems of longevity. Frequently it is seen with two sticks projecting from it, as shown in the engraving. In this case it represents a musical instrument, the two

BAMBOO TUBE WITH TWO RODS FOR BEATING IT. (YU-KU.)

sticks being used to beat the cane. The "bamboo grove" (often pictured on Chinese ware) is the resort of scholars. The Japanese also use the *bamboo* very much in their decoration.

To the Japanese, the *bamboo* is also an emblem of longevity. Known to them as *také*, it figures as a decoration on most articles. In decoration "the pine tree, the *bamboo* and the plum tree in association are known as *Sho-chiku-bai*, which signifies Good Fortune, for they are emblematic of longevity, rectitude and sweetness; they are also known as the Three Friends of Winter—symbolizing eternal friendship, which is proof against chilling frosts and snows."—Bowes.

(To be continued.)

Depression in the Glass Industry in Bohemia.

THE unfortunate position of this industry is due in a great degree to the American crisis, but economic difficulties in other countries have had something to do with it as well, says the *London Pottery Gazette*. The export to Persia has nearly ceased altogether, and the Turkish boycott is still in existence.

The production of articles de luxe has been most affected. The manufacture of bottle glass is almost kept up to its former level, thanks to the discovery of new markets; nevertheless, this branch of the industry has fallen away to a certain extent. The plate glass industry has also suffered, and in spite of suspension of work for two months, it was not possible to get rid of stocks during the other 10 months of last year. Hungarian competition has also been felt very keenly.

During 1908 14 manufactories have become extinct, and in the districts of Haida and Gablonz the workmen have only been employed on part time every week. Many of the hands are beginning to seek other occupations.

A sneak thief recently stole several spoons, knives and forks from the store of J. W. Zimmermann, Chattanooga, Tenn. The burglar is believed to have entered through a rear door by means of a latch key.

WE BUY

Old Gold and Silver, Filings, Polishings, Sweeps, Hand Washings, etc. We will make accurate valuations and hold consignment subject to your acceptance. If valuation is not satisfactory, we reship to you at our expense.

WORKSHOP NOTES AND QUERIES

Answers are also solicited from our readers to the questions published on this page. No attention paid to communications unless accompanied by full name and address of the writer.

QUESTION No. 2269.—**Britannia Metal.**—*Can you tell me how britannia metal is made?* C. R. L.

ANSWER:—A comprehensive article on the manufacture of britannia metal appeared in a recent issue of the *Brass World*. We think the following extract will answer your question:

Although it is a popular belief that britannia metal has practically passed out of existence, as a matter of fact more is now used than ever before. This apparent paradox is explained by the fact that in former times britannia metal was used for such plating and was known and sold as such. Fifty years ago a britannia metal teapot or sugar bowl was considered one of the luxuries of the household. In fact, it replaced pewter of an earlier period. To-day, however, the same teapot or sugar bowl—more elaborately adorned, perhaps, and made of the same metal—is extensively used in the greater proportion of homes in civilized countries. They are not, however, made with the britannia metal surface exposed, but are silver plated. It is the fact that they are silver plated which prevents the knowledge that they are actually britannia metal. The consumer is not aware of it, nor does he care. Although practically no ware is now sold under the name of britannia metal, the mixture which is used for making the silver-plated goods has not changed at all, and is the same as that employed when all articles were left with the bare surface of the base metal. It will readily be appreciated, therefore, that although britannia metal is not used in name, the actual consumption in the shape of silver-plated goods is greater than ever before. Britannia metal is an outgrowth of pewter. Pewter, so extensively used in former times, contained a large proportion of lead. The poisonous nature of lead brought about the desire to eliminate it from britannia metal, which contains no lead, and as therefore evolved. According to the best authorities, britannia metal was first made by Hancock & Jessop, of Sheffield, England, in the year 1770. The name, of course, was used to perpetuate or designate the fact that it was a British product. Previous to this time many cases of poisoning by pewter were constantly arising. It is probable that some confusion existed during that period in regard to the terms britannia metal and pewter, and according to some authorities a small quantity of lead was often added to cheapen it. At the present time, however, no lead is used in the United States in the manufacture of britannia metal, nor has it been used for the last 25 years. Experience has taught

the maker that it is dangerous to the user of the goods, even though plated. In time, when the silver wears off and the base metal is exposed, lead would contaminate foods to a greater or less extent. Makers who desire to use a cheap product now employ a lead and antimony alloy. The advantage of britannia metal lies in its non-corrosive properties. Tin is the principal constituent, and it is the most inert of the common metals. The small amounts of antimony and copper that are added to harden it do not affect its non-corrosive properties to any extent. Although there is no uniform formula for britannia metal and it varies with the different makers, the difference between them is very slight. They all consist of tin, antimony and copper. The antimony and copper are added to the tin to harden it, as pure tin is too soft to be of service, and although it can be rolled and cast with ease, articles made of it will not hold their shape. The desired quality in britannia metal is that it should be of sufficient hardness to hold its shape and yet not be refractory in rolling or spinning. One of the largest manufacturers of plated hollow ware (hollow ware, of course, is the general name for all articles other than spoons, forks and knives) in the United States uses the following britannia metal mixture:

Tin	150 lbs. =	92.0 per cent.
Antimony	10 lbs. =	6.2 per cent.
Copper	3 lbs. =	1.8 per cent.

The preceding mixture is used for both rolling into sheet to be used for spinning or stamping, and for casting handles, ornaments, etc., in metal molds. Another large maker employs the following proportions of metals for making his goods:

Tin	140 lbs. =	92.2 per cent.
Antimony	9 lbs. =	5.9 per cent.
Copper	5 lbs. =	1.9 per cent.

One of the smaller concerns, but makers of good goods, uses the following mixture:

Tin	210 lbs. =	92.8 per cent.
Antimony	12 lbs. =	5.4 per cent.
Copper	4 lbs. =	1.8 per cent.

Comparison of the preceding formulas will at once indicate that there is very little difference in the various formulas of britannia metal of the different makers. A tray tested recently was the product of a manufacturer who was one of the pioneers in this line of work, and makes no other line of goods. An analysis of it was made in order to find the formula which he uses. The results are as follows:

Tin	94.19 per cent.
Antimony	4.08 per cent.
Copper	1.73 per cent.

The maker of the tray was one not included in the britannia metal manufacturers

previously given. In making britannia metal it is unwise to use cheap metals. Pure Straits tin, the best antimony and a highly refined copper should be used. The best and usual method of making the mixture is first to make a "hardening" of the tin and copper which can be melted with the tin and antimony. The melting point of copper is so high that it cannot be melted in the iron kettle used for the tin. A plumago crucible, therefore, is necessary. To make the "hardening" equal parts of tin and copper are melted together and poured into small bars so that they may be easily broken. This mixture will readily melt with the tin. To make the britannia metal mixture, twice the amount of hardening is taken that there is copper. At the same time half the weight of the hardening must be deducted from the tin. In other words, if a britannia metal mixture consisting of the following proportions is to be used—

Tin	150 lbs.
Antimony	10 lbs.
Copper	3 lbs.

then to make it by the use of the "hardening" the change would be made to the following proportions:

Tin	147 lbs.
Antimony	10 lbs.
Hardening	6 lbs.

The "hardening" may be made in quantities so that it will be unnecessary to make a copper melt every time a bath of britannia metal is mixed. In making the britannia metal, the antimony and hardening are placed in the bottom of the kettle and the tin on top. When the whole is melted it is thoroughly stirred and scrap added to cool it. The cooling is necessary for the reason that in order to melt the hardening and antimony, it is necessary to heat the metal hotter than the temperature used for casting it. In fact, the pouring temperature should be as low as possible or the metal will crack in rolling. Harder or softer britannia metal mixtures may be made by increasing or decreasing the quantities of tin and copper. Too great an excess of copper will render the metal too hard to roll and increase its melting point so that it is not easily cast. For both casting in metal molds and for rolling into sheet to be afterwards spun or stamped the preceding mixtures will be found satisfactory, as they are in daily use, and are the result of many years' experience on the part of the leading makers of hollow ware.

L. E. Garnett, Chanute, Kans., has invented a device by which a passing train sets a block signal for the succeeding one. It was tested on the Santa Fe railroad, May 1, and the railroad officials present declared it will revolutionize the present system of operating trains by block signals and reduce the number of rear-end collisions to a minimum. The device is purely automatic and mechanical, and there is no cost of maintenance. It is operated by the wheels of a passing train bringing direct pressure on a lever which releases the signal and automatically holds any subsequent train in the block for a prescribed interval. Should any part of the mechanism break at any time, safety springs immediately set a semaphore at danger.

 KNOWN THE WORLD OVER

Beautifully adapted for the jeweler's stock and show case display—the New Pocket Edition Gillette Safety Razor is becoming an important feature in the best retail jewelry stores.

The demand over the retail counter is astonishing. Every old Gillette user wants the New Pocket Edition and it makes new friends at sight.

The set consists of handle and blade box, either triple silver-plated or 14-k. gold-plated. The pocket case is of gold, silver or gun metal—plain polished or richly engraved in Floral or Empire designs. It is so neat and compact that it will fit like a card case in the waistcoat pocket or slip into the side of a travelling bag—the blades are fine. Prices, \$5.00 to \$7.50.

For the special use of the jewelry trade, the Gillette Company has designed a tray lined with purple velvet, size of the regular watch tray—contains wells for twelve razors. These trays are made in various hardwood finishes to match the store fixtures and are shipped free of cost with the initial order for a dozen razors. Aside from the sales of the razor, the business in blades is a steady income for a store.

Two additions to the Gillette line this season are the Gillette Brush—a brush of Gillette quality, bristles gripped in hard rubber; and the Gillette Shaving Stick—a soap worthy of the Gillette Safety Razor. The stick is enclosed in a sanitary nickel box: both soap and brush are packed in attractive cartons. They will be welcomed by Gillette users everywhere.

Write us for full information. Get our suggestions on popular assortment. Talk to your jobber about it.

ALVIN SILVER

ALVIN MFG. CO.
Silversmiths
 New York

A suggestion at the right time will often consummate a sale. June is the most popular month of the year for weddings—during June silver will be the first thought for wedding presents, and "The Bridal Rose" is the most appropriate pattern that can be selected; it carries the sentiment of the occasion with it. Now is the time to stock the full line of ounce goods, fancy pieces and cutlery and be ready for all orders, a single piece or the full set.

WHY!

Fahys Permanent Cases are the Best
Proposition for the Retail Jeweler

BECAUSE!

They have the finish and appearance of a fine
Solid Gold Case.

They have Solid Gold Joints and Solid Gold Bows.

They contain and will assay more gold value
than any other filled case on the market at the
same price.

They have obtained their popularity entirely on
their own merits for **STERLING WORTH** and
INTRINSIC VALUE.

All our cases are made with our patent one-piece pendant,
which eliminates all solder. This patent is
controlled by us exclusively.

A Few of the Best Business Getters of the Year

We have a very large and varied assortment of the above enameled goods in various styles which we have not room to illustrate. In addition to our beautiful line of goods of this character we are putting forth every effort to have something new and salable for our trade.

The great success we have had with our stone jewelry in Buttons, Scarf Pins, Collar Pins, Handy Pins, Fobs, etc., etc., has encouraged us to add to it very largely for the Fall and if you were surprised at our wonderful showing in the Spring you will be even more so at the display we will put before you when our salesmen call on you for your Fall orders.

If they don't call on you let us send you a

memorandum package and convince you of the facts we have set forth.

Our interests are mutual. We want your business and are going to give you the goods and prices that will get it. Write us for our catalog proposition—your name only appears.

Precious Stones = THEIR DEFINITION ANALYZATION AND ORIGIN

THE EMERALD

The Emerald belongs to a class of stones which is known to the mineralogist as Beryl. The differences of color are due to particles too small to be determined with any exactness. The chemical make-up and the crystalline form of all the varieties are practically the same. The form is a regular six-sided prism and belongs to the Hexagonal (Rhombohedral system). This prism is often striated both internally and externally with many fine lines and fissures, which are parallel with its sides. It is composed, principally, of a mineral—Silicate—consisting largely of a substance known to chemists as Silica. In the Emerald, the Silica is combined with the oxides of two metals, one aluminium and the other glucinum or beryllium, a very rare metal. For this reason the Emerald, Beryl and Aquamarine are practically the same mineral with very little distinction between these varieties, the difference being of color and other characteristics of slight value to the chemist, though of immense importance as to their commercial value. The dichroism of some forms of Beryl is exceptionally strong; this particularly is the case with the Emerald. By examination with the dichroscope, two figures of the Emerald are seen to be of different hues of green, one bordering on yellowish-green, and the other green with a slight tinge of blue. The same effect may also be seen in cut Emeralds.

Emeralds have been found in India, Burmah, Egypt, Siberia, Brazil and the Ural Mountains. Other localities have also been mentioned as bearing Emeralds, but these have not proven of much worth. The most famous Emerald mines are those of Muso, Republic of Colombia. The value of the Emerald depends entirely upon its color and clearness. A stone, free from flaws, of fine color, being hard to find. The Emerald has been proven by test to derive its color through oxide of chromium, to which it principally owes its beauty.

Composition	Silica 66.8 to 68. Alumina 18. to 19.1 Glucina 14. to 14.1
Specific Gravity	2.66 to 2.07
Hardness	7.5 to 7.75
System	Hexagonal
Form of Crystal	Hexagonal and Di-Hexagonal Prisms of Different Modifications

The Emerald is a stone which is most deceptive. It is very difficult to discern from a well perfected imitation, as the Aquamarine has been artificially colored to so minutely resemble the Emerald that it has taken scientific tests to discover it. Other stones have been so successfully reconstructed as to make it difficult to tell the difference. Genuine Emerald tops have also been used together with crystal backs, and by placing the color in between, it makes an absolutely perfect Emerald appearing stone of fine quality. These are generally shown mounted, and without thorough tests would deceive most anyone. I should therefore suggest to one in doubt as to the real worth of an Emerald, to have it thoroughly tested by an expert mineralogist

Engelsman's Patent "Bayonet" Automatic Locking Stone Tweezer No. 119

The acknowledged superiority of this tweezer over any other of its kind is due to its many improvements and innovations.

First. It will be noticed that the points are grooved, thereby permitting any stone to be gripped firmer and better than by any other kind of stone tweezer.

Second. It is purposely made a "Bayonet" in shape because any stone can be shown or examined advantageously. It also enables

the user to count particularly small sizes of stones, easier, quicker, and with much less exertion than when using any other style of tweezer.

It has an extra part directly above the crossing points to permit the holder to examine the stone without fear of releasing it accidentally, which frequently occurs when using the ordinary style crossing tweezer.

Price, Each, \$1.25

GRINDING OUTFIT No. 105

LEATHER DISK. SMALL DISK. METAL.

CARBORUNDUM & EMERY PAPER DISKS.

This outfit consists of:

- 1. Two interchangeable steel disc wheels, 3 7/8" and 1 5/8" in diameter.
- 2. One interchangeable flexible leather disc wheel, 2 1/2" in diameter.
- 3. One adjustable hollow spindle for holding the above disc wheels.
- 4. Eight different grade emery paper discs, 2 1/2" in diameter.
- 5. Four carborundum paper discs of different grades, 2 1/2" in diameter.
- 6. Eight different grade emery paper discs 4" in diameter.
- 7. Four carborundum paper discs of different grades, 4" in diameter.
- 8. One clamping device for keeping discs flat, when not in use.

Price of Outfit No. 105, complete.....	\$1.50
Separate small emery discs.....per doz.	.15
" large....."	.20
" small carborundum discs....."	.20
" large....."	.35

This new grinding device should find favor with the trade, being thoroughly practical and complete for all purposes, such as grinding steel tools, glass, enamel or any other metal or substance that can be ground with emery or carborundum. It is of equal value to the watchmaker, jeweler, optician, dentist, lock or gunsmith, platers and kindred trades. It will be found much more economical than solid emery and carborundum wheels. An assortment of solid wheels of twelve different grits would necessitate an outlay of ten times the cost of this outfit, not taking into consideration the trouble of truing up the wheels when worn or glazed.

Full description and directions accompany each outfit.

CROWN CHUCK No. 50

For enlarging or cutting deeper crowns of watch cases. A movable plug in the stem regulates the depth required for various sizes. Four caps of various sizes are supplied with each to hold crowns from small to large. Stem fits in No. 50 wire chuck.

Price, each, \$1.50

For Sale by all Jobbers in the United States and Canada.

ECHARCO WATCH GLASS CABINET No. 15 (Patented)

Top View, Showing Skeleton Frame of Drawer. Accumulation of dust and chips impossible.

The Most Modern Watch Glass Cases at the Echarco, Nos. 15 and 20.

These Cabinets have many new features not found in any other. Novelty and usefulness are the chief arguments in their favor.

Construction and Material.—The cases are made of oak, finely finished and of attractive appearance. The sides of Cabinet No. 15 are paneled. Partitions are of basswood and put together in the best manner possible.

Price, No. 15, Each \$16.

Partitions are skeleton, preventing accumulation of dust, chips, etc. The Bottoms of Cabinet No. 15 are hollow, while Case No. 20 has special drawer to receive chips, dust, etc.

Arrangement for Glasses.—Case No. 15 has nine drawers with a total 1,547 spaces, and Case No. 20 with four drawers has 784 spaces, to be glasses in upright position.

Labeling of drawers, as shown in cut, is on the pulls of the drawers and done in gold bronze on black background.

Dimensions and Weight of Case No. 15.—Width, 24 inches; Height, 21 inches; Depth, 12 inches; Weight, net, 45 lbs.; Weight, including packing case, 75 lbs.

Dimensions and Weight of Case No. 20.—Width, 26 inches; Height, 11 inches; Depth, 11 3/4 inches; Weight, net, 30 lbs.; Weight, including packing case, 50 lbs.

The construction of drawers, the arrangement of partitions to economize space and weight, and the novel method of showing contents on draw pulls are all prominent characteristics and extremely well thought of.

Ye MOUNT VERNON PATTERN
Rogers, Lunt & Bowlen Co. Greenfield MASS.

Write for Catalog

WE illustrate herewith what is acknowledged to be one of the most handsome Sterling Tea Sets ever placed on the market. It is also **one of the greatest values** offered the trade for a long time. Each individual piece in this set is of Good Heavy Weight—the excellence of finish, the quality of workmanship and the beauty in design make this distinctly a Smith product—which is equivalent to saying that it is beyond criticism.

THE KREMENTZ COLLAR BUTTON

GOES ROUND THE WORLD

ITS FAME—

Wherever there are collars there are Krementz Collar Buttons. They are known the world over—the only ones that have an international reputation. With such recognition and demand, all you have to do is carry them. They sell themselves.

QUALITY MAINTAINED—

The Krementz Collar Button never disappoints. Unequaled in construction and finish, its quality always has and always will be maintained.

ASSAY—

The Krementz Collar Button does not take advantage of the elastic leeway allowed by law. There is really no reason why a solderless collar button should assay a whit less than stamped. You can depend upon it that

Krementz 14-Karat Collar Buttons will assay 14-Kt. or $\frac{584}{1000}$ Fine.

Krementz 10-Karat “ “ “ “ 10-Kt. or $\frac{416}{1000}$ Fine.

You will note that articles assaying 9 to 9½ Karat or 13 to 13½, and sold as 10-Karat or 14-Karat respectively, save the makers a profit.

ROLLED PLATE LINE—

Krementz Rolled Plated Collar Buttons and Studs are made with regular Krementz 14-Kt. stock; which is sweated, not soldered on composition base. Exhaustive tests show Krementz Plate is much heavier than is used on any other rolled-plate jewelry. Their great popularity in hot countries (where perspiration destroys ordinary goods), is largely owing to the thickness and quality of Krementz Gold Plate, similar to that used on highest quality filled cases.

The Sales Value of an Idea

There are two views of silver—(1) Common merchandise, *ornamented*. (2) The expression of an artistic conception combined with utility, with silver as the basis of the work or the medium of expression. The view you take determines the following question:

Salesman or Order Taker—Which?

If you are merely an "Order Taker" you accept the first view—the apathetic, don't-care view. If you are a real Salesman you take the better view, because you *have to* take this view in order to display *real salesmanship*.

When you look upon silver as the medium for the expression of an idea—when you have a proper understanding of the artistic and historic significance of the symbols employed in silver designs, then you appreciate *the sales value of an idea*.

This is only one of the many interesting and vital topics discussed in the new, thirty-six page, illustrated book—

"Silver Selling a Science"

Every Salesman should have a copy. Every dealer should have one, and see that each salesman is provided. It means larger sales and increased profits in the Silver Department. It means greater earning capacity for the Salesman.

We will mail one of these books free to any silver salesman or jeweler.

Safety Pony

No. 75251 84

Having introduced the Lapel or Button Chain which has become one of the standard and popular Summer chains, we are introducing for your approval this season another neat chain which can be worn on Vest for office use or on Trousers Band for outing wear; it makes a neat, stylish, economical and safe chain to substitute for the old, long, cumbrous, useless and unsafe Vest; the clutch is specially made so as to go on and off easily, and is of our own make.

Try one of our samples when our travelers call and see if you do not agree with us. We will have a number of desirable patterns with and without the sliding seal. Also a large lot of other good things, new this season.

Some Interesting and Beautiful Silver and Silver-Gilt Pieces Attributed to Benvenuto Cellini.

By Charles A. Brassler.

OF the many handsome specimens of gold and silverwork ascribed to the famous Italian master of the craft, Benvenuto Cellini, only very few can be attributed with absolute certainty to the great artist, chief among which is the celebrated salt cellar of Vienna. For all that, contemplation of these pieces is none the less interesting to the modern worker in

basin measures 62 centimeters (24½ inches) in diameter. The subject of the decoration is borrowed from the myth of Orpheus. On the basin the bard of Thracia charms and soothes by the sounds of his lyre the animals with which he is surrounded and among which figure the deer, the boar, the bull, the bear, the camel, the unicorn, the lion, the elephant and the goat.

watch dog, a wolf caught in a trap, a cat, a fox, a monkey and a hare. The style of ornamentation of the framing of these medallions and the complement of the border is borrowed from the antique in respect to

ORPHEUS BASIN ATTRIBUTED TO BENVENUTO CELLINI

ORPHEUS EWER.

the grotesque, combined with Renaissance motifs.

On the body of the ewer large medallions, in which appear landscapes and animals, alternate with decorative compositions consisting of foliage, leafwork, masks and fantastic figures. A sort of frieze composed of smaller medallions and of Renaissance designs fills the portion above the body of the vessel, bearing on each side a mask, one under the handle and the other under the spout. The neck is embellished with a decoration analogous to the frieze, while the spout has been given the shape of a half open leaf. The handle, partly consisting of the bust of a siren, ends in a child's head placed at the rear side of the spout. On the foot masks alternate with oval medallions, in which marine animals are seen disporting themselves in various ways.

The richness of the ornamentation does not detract from the decorative harmony of

the precious metals and we present to-day a few that are supposed to be Cellini's work and in any case certainly belong to his school.

Illustrated on this page are a ewer and basin from the silver treasure of the Medici. These two superb specimens, replete with ornamentation in high relief and semi-relief, are in silver gilt. The pitcher is 55 centimeters (21¾ inches) high, while the

The surrounding landscape represents the most varied aspects of valleys, mountains and rivers. Fortresses and habitations remind of human life; they are placed in the midst of trees of various species, among which can be noted the willow and the palm.

On the border of the basin in six oval medallions are represented other animals, each in the center of a landscape, viz., a

The goal or finishing line at the end of a Marathon race looks a long ways off to the contestants who are about to start in such a race—it takes a lot of energy, a lot of will-power, a lot of perseverance to cover the 26 miles 385 yards and reach the goal at the end.

That is just exactly the way with a good many things in life that are worth doing well. The goal aimed for looks a long ways off, with many obstacles to overcome.

We have reached one of our goals by building our own factory, for we have had this idea in mind for a great many years.

In reaching this goal, we have put in a big lot of talk, thought,

and planning in making our new factory a modern jewelry plant for the production, by up-to-date methods of 14K. and 10K. Gold Rings, 14K. Larter Shirt Studs, Larter Vest Buttons, Sleeve Buttons and Locketts.

When Larter & Sons' travelers call it will be worth your while to look over their lines as a proof that the goal was worth waiting and working for, or by calling at or writing to our New York Office, No. 23 Maiden Lane, we would be pleased to be of service to retail jewelers in good standing.

the pitcher and basin, which claims only admiration. Another illustration shows the Medici pax. In an architectural framework of other heavy composition appears a bas-relief representing Jesus surrounded by the apostles and raising the folds of His cloak show St. Thomas the wound in His side. His pax, which is in silver gilt 21 centimeters (eight and one-quarter inches) high and 13 centimeters (five and one-quarter

colors of which are rather indistinct. This coat-of-arms is commonly supposed to be that of Francesco de Medici, but Plon in his work on Cellini has declared it to be that of Wolf Dietrich of Raitenan, Archbishop of Salzburg. This beautiful piece shows all the wealth of decoration and fruitful conception so characteristic of the school of Cellini.

The reader will also find in the illustration below a very odd pitcher in the shape

which figures among the illustrations. The elegance of the workmanship, the marvelous execution of the details and the seductive effulgence and finish of this piece have caused Labarte and others to name Cellini as the maker.

It is well known that for quite a while after Cellini's death the goldsmith's art

DOLPHIN PITCHER THAT GOES WITH AMPHITRITE BASIN.

PAX ATTRIBUTED TO CELLINI.

followed faithfully in the footsteps of the Italian master, and if a number of the many pieces generally attributed to him were not immediate products of his hand some of them were doubtless executed by his assistants under his supervision and others by his pupils and followers.

... broad at the base, was kept for purposes of worship in the Chapel of the Pitti Palace at Florence. It is only about 30 years ago that it was placed on view in one of the cases of the gallery of the ground floor containing the Medici treasures. The attribution to Cellini borrows all its grounds from the fact that the piece has been from time immemorial in the Chapel of the successors of Cosimo I de Medici, the Duke of Tuscany, who was one of the most ardent patrons of Cellini.

In the large silver gilt oval basin appearing on the front page, the artist has depicted in semi-relief the legend of Neptune and Amphitrite. The latter, as is well known, was the daughter of the sea god Neptunus and of Doris, or, according to Apollonius, of a daughter of Oceanus, and became the wife of Neptune. According to the legend, when the latter demanded her in marriage she fled to Mount Atlas, but was discovered by a dolphin which Neptune sent after her and borne back to him. Amphitrite, goddess and queen of the sea she is usually represented with her husband's trident in her hand, sitting in a car of shells borne by Tritons, or on a dolphin before which a cupid swims.

The dish measures 64 by 53 centimeters (25 1/4 by 21 inches). In the hollow portion in the center appears a coat-of-arms, the

of a dolphin, which doubtless belongs to the Amphitrite basin, both on account of its relation to the legend and the fact that its foot fits in the exact center of the basin.

There is another piece in the collection, bearing the same coat-of-arms, viz., a cup of enameled gold, one of a set of three

C. Lumsden & Son, Inc., Richmond, Va., was recently incorporated with a capital of \$75,000, of which \$50,000 has been paid in. The incorporators are: D. E. Lumsden, president and general manager; A. L. Lumsden, vice-president; W. M. Myers, secretary; O. D. Pitts, treasurer, all of Richmond.

Members of West Virginia Retail Jewelers' Association Hold Fourth Annual Convention at Wheeling.

WHEELING, W. Va., May 19.—Watch re-cutting, the selling of silver and plated ware by manufacturers to legitimate jewelers only, the practice of jobbers and manufacturers selling at retail and an endorsement of the plan of the various companies establishing a fixed retail selling price on their products, were among the most interesting of many topics considered at the fourth annual convention of the West Virginia Retail Jewelers' Association which closed its sessions late yesterday afternoon. The next place of meeting will be determined later. While the attendance was not as large as had been anticipated, there was much enthusiasm. The verdict was that much good had been accomplished.

The convention opened Monday morning at the McClure House, the meeting being presided over by President T. A. Westmyer, who introduced Mayor C. C. Schmidt, of the Nail City, who in well-chosen words extended to the visitors the freedom of the city. The address of welcome was responded to by State Senator Henry Zilliken, of Wellsburg, who is one of the best-known retail jewelers in the State. The first matter taken up was the appointment of committees, which were named as follows: Auditing, J. S. Stimpson, Wheeling; J. B. Perry, Benwood. Resolutions, W. L. Jones, Martinsburg; C. A. Keefer, Grafton; A. C. Thomas, Sistersville. Constitution and By-laws, Mr. Zilliken, Wellsburg; T. C. Maurer, Elm Grove, and C. A. Clarke, Nitfield.

Secretary Charles E. Baab, of Parkersburg, submitted his annual report showing a gain in membership. The business of the session during the morning was largely of routine character. The address of the day was delivered by A. C. Thomas, president

of the West Virginia State Optical Society, whose subject was "Optometry, Beneficial or Disadvantageous to Jewelers."

There was a discussion of the subject "Shall Our National Association Adopt an Official Organ." This was referred to again

CHAS. N. HANCHER, PRESIDENT-ELECT.

yesterday by President J. P. Archibald, of the American National Retail Jewelers' Association, who said that an official organ was about as much use to an association of jewelers as a fly was to a wagon wheel, or words to that effect. He said that all jewelers' publications were liberal to all asso-

ciations in devoting space and opening their columns to any legitimate discussion.

Other matters discussed were "What Shall We Charge for Repairs?" "Shall Watchmakers Be Compelled to Pass An Examination?" "What Is a Fair Selling Price?" On the first proposition a uniform price for repairs is favored. No action was taken on the second proposition and a fixed selling price is favored. Monday night the visitors attended a circus, which was in town, and ate peanuts and drank the regulation circus lemonade, much to the delight of everybody.

Yesterday's session was full of interest, and concluded with the election of officers. The session was opened by an address by Mr. Westmyer, who told the members present what the association had accomplished during the last year. This was followed by a discussion of "What Is A Fair Fixed Selling Price?" "Shall We Approve of Manufacturers Opening Stores?" and the last-named subject brought out many expressions of opinion and showed that the West Virginia jeweler is opposed to any such move on the part of manufacturers.

The lecture of C. T. Higginbotham, consulting Superintendent of the South Bend Watch Co., followed, and Mr. Higginbotham was asked many questions. His subject was "How to Locate and Correct Errors in the Lever Escapement," and he illustrated his talk by producing an enlarged escapement, explaining many points about it. It was admitted by all that his talk was not only instructing, but exceedingly entertaining.

Mr. Higginbotham's address will be published in full in a later issue.

Following Mr. Higginbotham President Archibald, of the national association, was introduced and talked for more than an hour in a most entertaining manner. Among some of the things he said, which is not given in his address as printed below, was that many manufacturers would be present at the national convention to be held in

JEWELERS BUILDING, 373 WASHINGTON STREET, BOSTON, MASS.

ha in August. He also hoped that the national convention would not take the action that the Oklahoma convention did in recommending the sale of movements in lots. He favored this being done with 17 jewel movements, but no more. He predicted that the time is coming when there will be a fixed price on all standard watches. He deplored the fact that drug stores engaged in the jewelry business at a profit of 10 per cent. and a fixed price for jewelry meant that the jeweler would come into his own. Job all over the country are, he said, begging to quit selling at retail. President Thomas favors the passing of a horological law for the licensing of watchmakers. On this he favored a tariff, saying that 92 per cent of the watches sold in America are American watches, and he advocated the holding of a jeweler's club or "round table" in every community and paid special reference to the splendid Jewelers' 21-Karat of Pittsburg, but recently organized, and told the association members how they benefit financially by having such an organization.

On the question of having a fixed selling price for watches he assured them that there would be no violation of the anti-trust act; that he had been given legal opinion on the subject by some good lawyers.

He said that about one-half of the lawyers sit at the bench with an eyeglass in one eye and let business get away. On other points Mr. Archibald spoke as follows.

MR. ARCHIBALD'S ADDRESS.

It is gratifying to see such an enthusiastic interest in the association work in the Mountain State, which proves that the jewelers are alive to their own interests and are filled with enthusiasm and inspiration in the work. Without doubt each jeweler in this State has read month to month the most excellent accounts of association work throughout the United States. The Mountain State is not alone in organization for she has more than 30 sister States working daily and hourly to elevate the retail jewelry business. You have read of the organization and action of the States of Colorado, New Jersey, Delaware and South Carolina. You have read of the organization of New York. You have read of the great convention held in the 46th star State of Oklahoma. Such conventions as have been held in the past few months are sowing the seed of organization deep in the hearts of active jewelers.

At a convention as we have here to-day will be remembered by the jewelers of West Virginia. Your president, T. A. Westmyer, has been a war horse in convention work. We found him three years ago in the organization meeting at Rochester, N. Y., with his coat off working for the betterment of the retail jewelers. We find him to-day still at the helm. He has been your president for several years. He has done a noble work for you in this State. Your other officers have also been active and the retail jewelers of this State should congratulate themselves upon efficient representatives.

Our minds now turn to some of the work that has been accomplished recently in the work of the jewelry associations. Through the efforts of the American National Retail Jewelers' Association milestone stones of progress have been passed. In every two years ago we had very few watches sold on a fixed selling price; but to-day we have a long list of watches that are so distributed. Among them are the Hamilton watch, all grades; Howard watch, all grades; South Bend watch, all grades; Rockford watch, all grades; Ingersoll-Trenton watch, all grades; and the Elgin, Waltham and Hampden watches. These last three companies have promised that there will be more watches on the fixed price. We maintain that the question shall be solved when all watch movements are sold at a uniform fixed selling price, and inclosed in a

gold-filled case with a fixed selling price. In other words, a watch movement with a fixed selling price and a gold-filled case with a fixed selling price will solve the problem.

This is the slogan for organization work throughout the United States this year. To this the association has been bending its energies for months.

There has been an agitation throughout the country of late for all watch movements (cased) to be sold with a fixed selling price on the combined case and movement. The illustration of this is more easily given by citing the Howard or the Lord Elgin. Every retail jeweler knows what it means to sell a Howard watch with a specific case bearing the license mark. It is an easy matter to sell a watch movement cased in a specific case which the retail jeweler dare not change. We are using this means of warning the retail jewelers of this State as well as other States that it is a dangerous proposition. We wish to warn the retail jewelers that if every watch company in the United States cased every movement in a gold-filled case or a solid-gold case and placed upon it a fixed selling price that a great injustice would be done the retail jeweler. There are about 250 different grade movements of watches made in

the instrumentality of the retail jewelers' organizations is the minimum prices secured in some brands of silverware, and also the placing in the hands of the legitimate retail jeweler much of the best grades of silverware. We believe that all leading silverware companies will soon be glad to place in the hands of the retail jewelers only their standard makes of silverware. We do not believe that the time will ever come that all the cheap grades of silverware will be placed in the hands of the retail jewelers, but we believe that all standard makes of good silverware will be confined to the jewelry line.

The national organization of retail jewelers is working on a trade-mark proposition which will be very profitable to the retail jewelers. The trade-mark has been agreed upon and the contracts written and signed. The purpose of this trade-mark is to have manufacturers make goods bearing the association trade-mark, which goods will be sold only to members of the jewelers' associations. By this means association goods will be pushed through the retailers selling them, and will become popular for the reasons that they will contain a fixed quality and a standard mark, showing who the maker is, what the karat is and also guaranteeing the above facts to be true.

We believe that every State should have a horological law requiring watchmakers to be examined and licensed by a committee appointed by the Governor of each State. By means of such a law cheap watchmakers, or those having no experience and no training, would be eliminated from the business until they prepared themselves fully to pass a State examination. Such a measure would be helpful to every retail jeweler.

The relationships existing to-day between the manufacturer, the jobber and the retail jeweler is harmonious. Meetings have been held between the executive committees of these respective bodies and a feeling of harmony exists.

For about four months we have advocated the organization of round tables or jewelers' clubs in every town and every city throughout the United States. This seems to be a popular chord, for in many cities and towns round tables and clubs have already been organized. These clubs where organized are meeting, some once every week and some every two weeks, and others once a month. Subjects referring to their business and the difficulties arising daily are discussed at these meetings. They have been most helpful so far. The greatest factor in these weekly or monthly meetings is the good feeling and fellowship that exists among the retail jewelers attending such functions. The word "competitor" has been a harsh, cold word used for generations in the past, and the retail jeweler has always had an ill feeling toward his competitor. This is being eliminated daily through the round-table movement. It has taken hold of so many thousands of jewelers throughout this country that we believe the time has come when we should entirely eliminate the word "competitor" and should use the word "business associate."

We believe that in organization work there are great results to be accomplished. Only the elements of success have been achieved. Only the seed has been sown. This seed must grow and ripen into fruit before all the desired results can be obtained. It is now important that each retail jeweler should become interested in association work and help to uplift himself and his brother jeweler. Our own welfare and our own business interests depend entirely upon our attitude in association work.

The report of the treasurer showed that there was \$238 contributed last year. The expenditures were \$188, leaving a balance in the treasury of about \$50. Senator Zilliken assured the jewelers, when the repair lien bill was under discussion, that he could have it put through the West Virginia Senate. The jewelers want a law passed enabling them to sell a watch left for repairs after it has been in the watchmaker's hands a certain length of time.

The election of officers was then taken up, resulting in the selection of the following: Charles N. Hancher, Wheeling, president; Charles E. Baab, first vice-president; Senator Henry Zilliken, second vice-president; Ralph Erhard, Davis, third vice-president; C. A. Keefer, Grafton, fourth vice-president; W. T. Eisensmith, Charleston, fifth vice-president; A. C. Thomas,

A. C. THOMAS, SECRETARY.

the United States. If we place the average price of \$15.00 on every complete watch, the total cost of these would be about \$3,500 to have one complete watch of each kind in stock, and no live jeweler could afford to have in his stock only one grade of each watch, so in order to have the minimum stock that each retail jeweler could carry in order to do business he would be compelled to have two or three complete watches of each grade, thus costing him from \$10,000 to \$15,000 to carry a small stock of watches. This would be an impossibility with more than 50 per cent. of the retail jewelers of the United States. We believe that the retail jewelers should be careful in making resolutions and recommending that the watch companies should case their movements and sell them cased only. We believe that the better method is to have a fixed selling price on all movements without a case and to have a fixed selling price on every case without the movement. We will admit that it might be wise to have complete watches sold in the special high grades, but not in all grades. We agree that the 17- and 21-jewel goods should be cased, but no more.

Again, a great injustice would be done the watch case companies if we even could have all watch movements sold cased, for the largest gold-filled watch case companies make cases only, and if all watch movement companies sold their watches cased, some of these companies would evidently have to go out of business or become a manufacturer of watch movements.

For these reasons we wish to warn the retail jewelers of this State to be careful in the resolutions and the steps taken relative to this question of a complete watch.

Occidental Gem Corporation ST. PAUL BUILDING
220 Broadway, New York

Stersville, secretary; B. F. Robinson, Clerkburg, treasurer.

The representatives to the national association selected are Senator Zilliken and M. Jones, and the executive committee included Mr. Westmyer, chairman; Mr. Jones, C. M. Powers, New Martinsville; H. J. Hurich, Huntington; W. J. Lukens, Wheeling. The association will appoint two national representatives to the national convention if the membership warrants it.

Mr. Westmyer refused to serve again as president, having held that office for five years. Mr. Hancher, who was elected to succeed him, is recognized as one of the leading jewelers of the State, having the best store in Wheeling. Mr. Thomas, who was elected secretary, is president of the State optical organization, and the indications are that the two associations will hold joint sessions next year. Mr. Thomas did not want to take the office, but was prevailed upon to do so. The new officers will endeavor to get every jeweler in the State interested in the organization.

The following resolutions were adopted:

Resolved, That we commend and express appreciation of the various watch companies who have made efforts to confine the sale of their product to legitimate jewelers, and especially the South Bend Watch Co., who, by its method of advertising, tends to strengthen our position with the consumers, and, be it further

Resolved, That we commend the Rockford Watch Co. for its recent change in their selling plan of offering their product to the retail jewelers, and, be it further

Resolved, That we commend all silver and plated ware manufacturers who confine the sale of their product to the legitimate retail jewelers, and, be it further

Resolved, That we, the West Virginia retail jewelers, do all in our power to co-operate with the companies who are confining the sale of their products to the legitimate retail jewelers

Resolved, That we condemn the practice of manufacturers and jobbers maintaining retail sales, selling at retail or supplying hotels and restaurants direct, thereby robbing us of profits which should be justly ours. We pledge ourselves as far as practical to confine our purchases to manufacturers and jobbers not doing a retail business.

Resolved, That we heartily endorse the plan of various companies in establishing a fixed retail selling price on their products.

Resolved, That we endorse the provisions in the bill now before the United States Senate so far as it refers to the stamping of all foreign watches, and insist that they require the makers' names, the number of jewels and place of manufacture to be plainly stamped thereon.

Resolved, That we endorse any Federal legislation that will prevent fraudulent advertising or distribution of the same through the United States mails or otherwise.

Resolved, That we heartily endorse the action of the National Association as regards their commendation of the *Merchants' Trade Journal*, of St. Louis, Mo., for its untiring efforts in behalf of the retail jewelers.

Resolved, That the thanks of this association be tendered to the Honorable Mayor of the City of Wheeling for his attendance and pleasing address; to the Wheeling papers for their complete reports concerning our meeting; to the various manufacturers and jobbers who have attended our meeting and made displays for the convenience of our members; to C. T. Higginbotham, of the South Bend Watch Co., for his very instructive and entertaining lecture on "How to Locate and Correct Errors in the Lever Escapement"; to the Wheeling members of this association for their hospitality, kind attentions and entertainment during our stay in the city; to the McClure Hotel management for courtesies extended, and to all who have assisted in making this meeting a grand success.

It was after 6 o'clock before the proceedings of the convention came to a close. Most of the members left at 5 and 6 o'clock

for their homes, but a few remained over to enjoy riding in automobiles provided by the association.

Some of the visitors stood for their pictures at noon yesterday in front of the Board of Trade building.

Among the representatives present were: W. A. Nichol, with the White-Planes Optical Co.; R. J. Sine, Julius King Optical Co.; V. C. Regan, South Bend Watch Co.; G. E. McDonald, J. T. Lauren Co.; J. M. Rosenbach, Rockford Watch Co.

Omaha Department Store's Advertisement as to Sale of Joseph Brown & Co. Stock Declared Misleading.

OMAHA, Nebr., May 19.—The advertising of jewelry, watches and diamonds by Bennett's department store in the past week has caused considerable comment in the jewelry trade, owing to the fact that this house in big letters announced the sale of a \$40,000 bankrupt stock of jewelry, cut glass, etc., of Jos. Brown & Co. which the advertisers claimed had been bought from the American Trust and Savings Bank of Chicago as receiver for Jos. Brown & Co., at 50 per cent. of the manufacturer's cost.

While the trade here have heard from time to time of the selling of Jos. Brown & Co.'s stock in various parts of the country, the announcement of the sale of \$40,000 worth by the department store caused considerable surprise owing to the fact that from the news stories that have appeared in the past the Brown stock must have been sold many times over in the last year. Another thing that caused surprise was the big announcement of diamond jewelry in view of the fact that it is understood that the diamonds which came into the hands of Brown's receiver amounted to but \$300.

CHICAGO, May 20.—The announcement of the Omaha department store of the sale of \$40,000 worth of jewelry, cut glass, etc., from the bankrupt stock of Jos. Brown & Co. is believed here to be without foundation, and but for its bad effect upon the retail jewelry trade would be considered a distinct joke, owing to the fact that these Jos. Brown sales have been going on all over the country, from Texas to the Lakes.

The receiver for Jos. Brown and Co. was the American Trust and Savings Bank, but Mr. Sessinghouse, who had charge of the bankruptcy department of this institution, when told of the advertisement in question pronounced the statement that \$40,000 worth of the stock had been sold by his company to the Omaha department store, as absolutely and unqualifiedly false. He said that the American Trust and Savings Bank has not sold \$1 worth of this stock to anyone. Mr. Brown settled with his creditors at 25 cents on the dollar, and the receiver, said Mr. Sessinghouse, turned over the stock to Brown when the compromise was confirmed by the court.

A recent dispatch from Iowa City, Ia., reports that 150 panes of glass in the Puritan Mfg. Co.'s plant at that place were broken during a heavy hail and wind storm. About 25 feet of the roof of the same building was blown off.

Exports of Jewelry, Silverware, Clocks, Watches and Kindred Lines from the Port of New York.

WASHINGTON, D. C., May 17.—The following were the exports of jewelry, silverware, optical goods, clocks, watches and kindred lines from the Port of New York for the week just ended:

- Algoa Bay: 108 cases clocks, \$1,976; 2 cases watches, \$349; 1 case jewelry, \$100.
- Barbados: 1 case watches, \$100.
- Berlin: 2 cases clocks, \$130.
- Bombay: 10 cases clocks, \$141; 3 cases plated ware, \$338.
- Bremen: 1 case plated ware, \$200.
- Buenos Ayres: 2 cases optical goods, \$538.
- Christiana: 6 cases clocks, \$246.
- Colon: 8 cases plated ware, \$857; 8 cases clocks, \$439.
- Conarkey: 252 cases clocks, \$2,261.
- Copenhagen: 10 cases clocks, \$264; 1 case thermometers, \$125.
- Demerara: 13 cases clocks, \$169.
- Glasgow: 83 cases clocks, \$997.
- Guayaquil: 4 cases clocks, \$125.
- Hamburg: 3 cases watches, \$2,507; 4 packages optical goods, \$868.
- Havana: 1 case plated ware, \$722; 3 cases plated ware, \$214; 31 cases clocks, \$415; 4 cases jewelry, \$1,364; 3 packages optical goods, \$163.
- Havre: 6 cases scopes and views, \$575; 1 case jewelry, \$500; 4 packages optical goods, \$343; 1 case watches, \$112.
- Kingston: 3 cases watches, \$296; 1 package optical goods, \$129.
- Liverpool: 4 cases silverware, \$4,093; 13 cases clocks, \$685; 3 cases jewelry, \$6,149; 3 cases watches, \$1,200; 41 cases clocks, \$1,173.
- London: 102 cases clocks, \$3,660; 17 cases watches, \$3,134; 1 package optical goods, \$370; 2 cases thermometers, \$395; 7 cases watches, \$1,394; 42 cases clocks, \$998; 3 cases scopes and views, \$315; 16 packages optical goods, \$5,641.
- Melbourne: 17 cases plated ware, \$1,551; 235 cases clocks, \$6,054.
- Montevideo: 4 cases plated ware, \$114.
- Para: 42 cases clocks, \$1,589.
- Port Antonio: 1 case watches, \$116.
- Rio de Janeiro: 48 cases clocks, \$908; 2 packages optical goods, \$436.
- Stockholm: 11 cases clocks, \$367.
- Sydney: 7 cases plated ware, \$609; 55 cases clocks, \$1,176; 4 cases scopes and views, \$925.
- Vienna: 1 case jewelry, \$2,140.
- Valparaiso: 1 case watches, \$300.
- Vera Cruz: 2 cases plated ware, \$115; 139 cases clocks, \$2,879.
- Wilmington: 38 cases clocks, \$267; 3 cases plated ware, \$146.

Career of the Late Clement A. Clement.
 SPRINGFIELD, Mo., May 19.—Clement A. Clement, who died at St. John's Hospital May 13 of pneumonia, was a well known and highly respected jeweler of Springfield, and his death is a loss both to the jewelry trade and to the business community of this town. The funeral services, which were held Sunday afternoon from his late residence, 414 E. Elm St., were conducted by the Rev. F. L. Moffet, pastor of the South Street Christian Church, of which the deceased has long been a member. The interment took place in Maple Park Cemetery.

Mr. Clement was a native of England, having been born in London 18 years ago. He came to this country as a young man and established himself in the jewelry trade, and was for a while at Prescott, Wis., from which city he came to Springfield in 1887. By close attention to business he built up an excellent trade, and he gained a reputation of honesty, integrity and business ability of which any man might be proud. He prospered as years passed on and became a power in the business world.

At the time of his death Mr. Clement was a stockholder in the State Savings Bank and was interested in a number of business enterprises in Springfield. Always a public-spirited citizen, he did much for his town and was interested in every movement that tended to build up Springfield as a business and social center.

Mr. Clement visited Kansas City about two weeks ago and while there contracted a severe cold. This developed into pneumonia, and on his return home he was taken to the hospital, and though the best medical aid was given him, his condition soon became critical and proved fatal. The deceased's wife passed away five years ago, and he is survived by two sons, Alvin, 17, and Arthur, 14 years old.

Death of James Cary, Jr.

James Cary, Jr., one of the best known and most highly respected salesmen in the retail jewelry trade of New York, who has been last connected with Tiffany & Co., 1 Theo. B. Starr, died at his home, 77 Madison Ave., Friday morning, at 4 A. M., of paralysis. He suffered a stroke about two months ago, and since that time has not been able to be at his work.

Mr. Cary was born in Newburyport, Mass., May 14, 1848, where he spent his early life and received his education. He came to New York City in 1866 and obtained a position with the old firm of Starr & Marcus, who were in business at that time at 22 John St. He served with this firm and its successor, Theo. B. Starr, as a salesman for a period of 37 years, during which time he formed a wide acquaintance both in this city and in other parts of the country. He is remembered by his many friends as a man of kind disposition, pleasing manner and sterling worth. For the last five years he has been connected with the house of Tiffany & Co. He was one of the early members of the Jewelers' League.

The funeral services were held, Sunday afternoon, from the Church of the Trans-

figuration, 29th St. between Fifth and Madison Aves. The interment occurred at Newburyport, Mass., his boyhood home.

Deceased is survived by one brother, William S. Cary, who is connected with the firm of Black, Starr & Frost, and one sister, Marietta G. Allen.

Wisconsin Association's Board of Examiners for Watchmakers to Hold First Session for Candidates July 15 and 16.

MILWAUKEE, Wis., May 20.—The board of examiners of watchmakers appointed at the last annual convention of the Wisconsin Retail Jewelers' Association has taken its first step in the movement to protect employers against the risk of engaging incompetent workmen, and protect the competent workmen against competition with the poor mechanics. Announcements have been sent out to jewelers with the information that the first examinations of the board will be held on July 15 and 16, which is the week preceding the next annual convention of the Wisconsin Retail Jewelers' Association. Certificates will be awarded to successful applicants by the president of the association during the convention.

The movement is meeting with a ready response from jewelers of the State, and the names of nearly 300 watchmakers have already been received from the jewelers. The questions which will be given at the coming examination have been prepared by the board of examiners, and are now in the hands of the printer. Any watchmaker, whether employer or employe, member of the State association or not, whether a resident of Wisconsin or any other State, may apply and take the examination. The certificates of efficiency which will be awarded to the successful applicants will be of great value to the watchmaker. The fee for the examination has been placed at \$10, although if a certificate is refused one-half of the fee will be refunded.

The aim of the Wisconsin Retail Jewelers' Association in establishing the examining board for watchmakers is to furnish evidence and assurance that the man who offers his services is actually able to do the work required of him. Moreover, it is believed that it will impress apprentices with the value and importance of their calling and that it will give an impulse for a deeper study and perfection of the trade.

The board of examiners which has the matter in charge is made up of Theodore Schelle, Milwaukee, chairman; W. H. Becken, Beaver Dam; Emil Bachman, Milwaukee; J. Sauer mann, Milwaukee, and Joseph Wellstein, Milwaukee. Secretary Franklin Thomson, of the Wisconsin Retail Jewelers' Association, is lending his efforts to the movement, and has issued a neat pamphlet explaining the entire plan.

W. C. and L. H. Carpenter, who had a drug and jewelry business at Antrim, N. H., have sold out their jewelry and stationery business, it having been purchased by Scott & Co., who will continue it at the old stand. W. A. M. Scott, of this concern, was formerly employed by the Waltham Watch Co.

Trustee in Bankruptcy of Oscar C. Jackle Seeks Facts About the Robbery of His Store.

A meeting of the creditors of Oscar C. Jackle, formerly a retail jeweler in business at 866 Third Ave., who filed a voluntary petition in bankruptcy some time ago, after his store was robbed of a large quantity of jewelry and about \$5,000 in cash, was held before Referee Seaman Miller, 2 Rector St., New York, Thursday of last week, at which time Elizabeth Jackle, the wife of the bankrupt, and Mr. Jackle himself were the witnesses.

Mrs. Jackle was first examined by Attorney McKenzie, representing the trustee. She testified that she remembered that the robbery occurred about Christmas time and that she went to Terrace Garden on the evening before the robbery. She said that she kept her jewelry in the safe in the store, and that she requested her husband to bring some of her jewelry to her on that night, and that he forgot what pieces she wished to wear and brought the whole case. Questioned as to what the jewelry consisted of, she described the various pieces.

Asked about how often she was in the store during the last year her husband was in business, she said that she could not say exactly, and did not know of what the stock of jewelry consisted, as she did not discuss the matter of his business with her husband.

The attorney next called her attention to the fact that she was a creditor of the bankrupt, and asked her to explain how she came to be included in the schedules. After considerable argument she was allowed to refer to a memorandum which she had with her, and testified that she obtained money from her father's estate and took the money to banks, but that one of them would only take \$1,000 and the other \$1,500 and that she took the rest home with her. Later she entrusted some to her father-in-law and loaned her husband some of it.

The witness said that she first heard of the burglary through her father-in-law, who on the morning after the burglary had been committed came upstairs where she lived and said her husband had been robbed of everything. When she went downstairs she said that he found a policeman there but said that she could not remember the others there at the time because she was so excited. She said she did not know how much money her husband had in the store. She said that her husband told her that he needed the money which he borrowed from her for his business.

Mr. Jackle was then called as a witness, and certain stock, sales and other account books were offered in evidence and marked. Mr. Jackle testified that he had in his employ a watchmaker named Sam Adder, but employed no one else. The book was shown him, containing figures on the volume of business done during the year of 1907, which amounted to \$5,487.97, which he said, so far as he knew, was correct.

Adjournment was taken until May 28.

E. H. Bellamy, Prince Albert, Saskatchewan, has sold out to A. Zillias.

Details of the Tragedy in Which St. Louis Jeweler Shot His Wife After Being Fatally Wounded by His Son.

ST. LOUIS, Mo., May 20.—At the conclusion of the inquest into the death of August Pooos, jeweler, who, as noted in the issue of THE JEWELERS' CIRCULAR-WEEKLY, was shot by his son and business partner, Edward Pooos, at the Pooos jewelry store, 3564 South Broadway, Monday, a verdict of homicide was returned, and the young man, who is 19 years old, will be held for the action of the Grand Jury. He is confident, however, that it will be shown that his act was justifiable.

Mrs. Pooos, wife of August Pooos and mother of the parricide, who was shot by

THE LATE AUGUST POOS.

her husband after he had received a mortal wound from the revolver of the son, was expected to survive more than a few hours, but she continues to hover between life and death.

The tragedy was the culmination of strained family relations which had existed for several years. Edward and his sister, Miss Alvina Pooos, say that their father is jealous of their mother without reason. A slurring allusion by Pooos to his wife was the direct cause of the killing, as was uttered to the daughter. She told her brother. Edward reproached his father for what he had said. He denied the language attributed to him. The daughter was called into the store to verify the language and her father attacked her. Edward went to her defense, and his father aimed two shots. He drew a revolver and fired two shots.

As Mrs. Pooos, hearing the shots, ran to the store, her fatally injured husband picked up a revolver that was kept behind the counter and fired two shots at her. The bullet penetrated the abdomen.

The bullet fired by Edward had lodged

near the heart of his father. Husband and wife were placed in the same ambulance. Pooos expired before the hospital was reached.

Mrs. Pooos, in a statement made before she lapsed into unconsciousness, indicated that she supposed her husband had shot himself, and she was not informed that her son had shot him.

August Pooos had been in business on S. Broadway many years, and was well known in that part of the city, and had a good business. His son grew up in the business and was finally taken into partnership.

The store was temporarily closed during the week. Friends of Edward Pooos, led by Miss Anna Hensel, to whom he is engaged, obtained his release on bond. A prominent attorney has been retained to defend him.

Newark Police Capture Man While He Is Trying to Saw His Way Into a Jewelry Store.

NEWARK, N. J., May 22.—A man who gave the name of Charles Jeones was discovered trying to saw his way through the floor in the jewelry store of George J. Busch, 57 Springfield Ave., last Thursday night, and was captured by three policemen. He made an attempt to escape before he was placed in a cell at the First Precinct Station, but was foiled in the effort. On Friday morning he was held in \$1,500 bail charged with breaking and entering with intent to steal.

The prisoner said that he was 26 years old and lived at 92 Charlton St., and upon investigation by the police it was found that he had been living there during the last two months. Jacob Weinstein, who has a jewelry store at 144 Prince St., said that he had known Jeones about a year, and understood that he was a jobber in the same line of business as himself. He saw him, he asserted, at his home shortly previous to the robbery and said that he had purchased goods for his store from Jeones on a number of occasions.

When the prisoner was taken to police headquarters detectives were unable to identify him as having been in custody before. Detective Harris, however, claimed he recognized the name as that of a former employe of Strobell & Crane, manufacturing jewelers at Kinney and Orchard Sts. Jeones, the missing employe, disappeared about the time that a thief went through their factory on the night of May 12. According to Detective Harris, the man was seen loitering about the place shortly before the robbery occurred.

When detected in an attempt to break into the jewelry store of Busch, Jeones, working from underneath, had bored four holes through the flooring of a show window of the jewelry store and had sawed eight inches through the boards. A cloth casing used for display purposes, which was several inches above the floor of the show window, hid the tools Jeones was using from people passing in the street.

After the man was captured Jeweler Busch said that he believed that it was the intention of the prisoner to secure goods from the store window before they had been put in the safe for the night, and added that he had about \$5,000 worth

of diamonds, watches, rings and other valuables in the window. It is the opinion of the police that the man who was captured had an accomplice on the outside who signalled him when in danger of being detected.

It was about 9:45 p.m. when the arrest was made. About 15 minutes previous to that time a policeman tried both the front and side doors in the Busch establishment. He heard the sawing, and seeing no lights though it was queer. He waited some time until a private watchman, named Ward, appeared and consulted with him. They were joined by two other policemen and then Ward went down an area-way on the High St. side of the building and unlocked the door, whereupon the officers burst into the cellar. Jeones, who is a heavily built and muscular man, made a lunge at Ward and a dash for liberty.

CHAS. JEONES, UNDER ARREST IN NEWARK. (From photograph by the Newark News.)

but was stopped by the policemen. Finding that he had no weapons, they gathered up his tools and started with him for the police station.

Most of the tools which Jeones had were new, they consisted of a bit and brace, a jimmie, circular saw and other equipment for his work. In his pockets were found \$9.25 in cash and a gold watch and chain.

Senate Passes Watch Schedule After a Discussion—Subject to Come Up Again Later.

WASHINGTON, D. C., May 22—As reported in the daily press, all effort to bring about any definite date for taking a vote on the tariff is not only a failure, but seems to stir up a further contention, and the matter is still incomplete. Diamonds, watches and jewelry have served at various times to lighten out the debates.

The watch schedule came up for discussion during the past week with the result that the amended paragraphs read as follows:

Sec. 189. Watch movements, whether imported in cases or not, if having not more than seven jewels, 75 cents each; if having more than seven jewels and not more than 11 jewels, \$1.35 each; if having more than 11 jewels and not more than 15 jewels, 1.85 each; if having more than 15 and not more than 17 jewels, \$1.25 each and 25 per centum ad valorem; if having more than 17 jewels, \$3 each and 25 per centum ad valorem; watch cases and parts of watches, chronometers, box or ship, and parts thereof, 40 per centum ad valorem; clock movements having jewels in the escapement, and clocks containing such movements, \$1 each and 10 per centum ad valorem; all other clocks and parts thereof, not otherwise provided for in this section, whether separately packed or otherwise, if composed wholly or in part of china, porcelain, parian, bisque, or earthen ware, 40 per centum ad valorem; all jewels for use in the manufacture of watches or clocks, 10 per centum ad valorem; enameled dials for watches or other instruments, 60 per centum ad valorem; *Provided*, that all watch and clock dials shall have indelibly printed or printed thereon the country of origin, and, if attached to movements, in addition to the country of origin shall have the name of the maker, or makers, of such watch or clock movements indelibly painted or printed thereon, and at all watch movements, lever clock movements with jewels in the escapement, and cases of foreign manufacture shall have the name of the manufacturer and country of manufacture cut, engraved, or die-sunk conspicuously and indelibly on the plate of the movement and the inside of the case, respectively, and the movements shall so have marked thereon by one of the methods indicated the number of jewels and adjustments, and number to be expressed both in words and Arabic numerals; and none of the aforesaid articles shall be delivered to the importer unless marked in exact conformity to this direction.

With reference to the proviso that watches must have engraved thereon the country of origin and the name of the manufacturer, Senator Beveridge suggested that only the name of the country should appear and not that of the manufacturer, on the ground that in many instances it would be a physical impossibility to inscribe on many watches both requirements on account of their minute size. To this Senator Lodge took exception, stating that there is no watch so small that it cannot be legibly printed with the name of either the maker or the importer, nor would there be any difficulty in placing it on clock movements. As an example, he exhibited a small medal, struck off by the Philadelphia Mint in 1882, on the back of which was legibly engraved the Lord's Prayer, and yet this medal is smaller than a small watch. He also exhibited a very small watch on which is inscribed "Fifteen jewels, Francillon, Bielmer, Switzerland."

In response to an inquiry from Senator Wiley as to why such markings are required, Senator Lodge called the attention of those present to the Ball watches manufactured in this country, particularly for railroad men. These are an expensive movement, though frequently sold in cheap cases. He exhibited a Swiss watch marked

"Time Ball Special, 7 jewels, adjusted," but which, as a matter of fact, was a Swiss watch of the commonest kind and which had never been adjusted at all, yet which was sold as an American watch as a Ball watch, but at a very low price. It is to prevent this that the committee amendment has been added, specific reference being made to the number of jewels as it is on that the cheaper grades of watches are sold; also that it is necessary to have the name of the maker to prove the quality of the watch.

Senator Beveridge still held to his contention that on many watches, such as those used for charms and the very small watches used by ladies, such requirements would be a physical impossibility, and also that it would destroy the beauty and ornamental value, the things for which these small watches are purchased. He took the ground that the purpose would be equally well subserved by simply placing on such articles the name of the country of origin.

He went on to show that these particular watches are not, and as yet cannot be, made in this country, but that the jewelers all over the United States have built up good trades for them, many of whom as a guarantee of good faith have their own names engraved on the watches instead of that of the manufacturer, and this would be destroyed if it is insisted that the name of the manufacturer must also be added.

Senator Lodge, in further support of the committee amendment, called attention to the fact that American invention has entirely revolutionized the entire business of watchmaking, and that there is no class of watch that cannot be manufactured in this country.

While the amendment was agreed to, considerable feeling still exists upon the matter, and it will be taken up again when the bill, as a whole, reaches the Senate. Jewelers in many parts of the country are appealing against the passage of the amendment in its present form.

Senator Beveridge has given fair warning that the matter will not be dropped. In insisting upon further consideration of this provision he takes occasion to call attention to the fact that he will vote for the protection of American watch manufacturers, but he still insists that the question is not the protection of the American watch industry, but whether or not they shall destroy the business interests of men all over the United States who are making their living on watches. He has reserved the right to amend the bill when it shall come up in the Senate.

Fred Runkel, Oshkosh, Wis., Goes Into Voluntary Bankruptcy.

MILWAUKEE, Wis., May 19.—Fred Runkel, 129 Main St., Oshkosh, Wis., has filed a voluntary petition in bankruptcy in the United States Court, his schedules showing assets of \$3,563 and liabilities of \$3,972. Among the principal creditors are: M. Wolfe, \$450; A. Wittnauer Co., \$408; Stein & Ellbogen Co., \$363; Kuesel Bros. Co., \$342; Benedict Mfg. Co., \$215, and the Dreyfus Mfg. Co., \$567.

Mr. Runkel has been in business in Oshkosh since Feb. 15, 1908, at which time he succeeded the Askin Co.; prior to that he

had been located at Fond du Lac, Wis. He is a practical watchmaker of ability, but financially has not been in good shape for some time.

Reward Offered for Information Leading to Arrest of Missing Brooklyn Jewelers.

The police in New York and Brooklyn are active in attempting to locate Morris Cohen and Chas. Levine, who were formerly in business under the firm name of Cohen & Levine, at 537 Fulton St., Brooklyn, and who the police say obtained a quantity of jewelry from several Brooklyn concerns for the purpose of repairing and polishing it. According to the police, they both disappeared from their place of business about Feb. 10, with the goods, and have not been seen since. Warrants were

MORRIS COHEN, MISSING BROOKLYN JEWELER.

sworn out for these men some time ago, and an indictment found against them by the King's County grand jury. A reward is offered for information leading to their arrest and conviction.

Cohen formerly lived at 41 Clinton St., New York. He was born in Minsh, Russia, and is about 25 years old, five feet six inches tall and weighs 150 pounds. He has thick lips, dark complexion and short, black curly hair. The photograph reproduced herewith may help locate the man. He is a jeweler by trade, his specialty being cluster work.

Levine was also born in Russia and is about the same age as Cohen. He is described as being about five feet eight inches tall and weighs 160 pounds. He has black hair and square shoulders, and is a jeweler by trade. His last known address was 736 Myrtle Ave., Brooklyn, neither of the men have been seen by the police authorities for some time, and it is thought advisable to warn other jewelers, as these two men may try to obtain work elsewhere.

Both the men formerly worked for several New York and Brooklyn concerns, among whom are P. W. Taylor, 466 Fulton St., Brooklyn, and from Mr. Taylor and others the police say that the men have obtained about \$2,500 worth of goods. They are both wanted on a charge of larceny in the first degree.

LOUIS J. DEACON, Atlantic City, N. J.

Hess & Culbertson Jewelry Co. Open Its Handsome New Building in St. Louis, Mo.

St. Louis, Mo., May 20.—The glitter of jewelry and gems, the perfume of flowers and the strains of music made brilliant and bewitching the scene at the opening of the new store of the Hess & Culbertson Jewelry Co., at 7th and St. Charles St., Monday, Tuesday and Wednesday. The three floors occupied by the firm were thronged with visitors who came to admire and many of whom hurried to purchase.

The popularity of the firm, even among competitors, was shown by the profusion and costliness of the floral pieces and clusters that were sent by way of congratulation. Roses and carnations were distributed by the firm to all callers on the three days of the formal opening.

The three floors are each 85 by 70 feet. The basement floor is used for receiving and shipping and there is an employes' lunch room and a complete photographic room.

The entire furnishings of the main floor are in light or natural mahogany, mounted

and the cut glass room, lighted from the ceiling with colonial fixtures of brush brass, with the cut glass prisms of that period sparkling in the flood of electric light. The leather goods share with the new china department the adjoining space. The art room, devoted to marbles, bronzes, etc., occupies the southeast corner of this floor. The new optical department has spacious quarters. The bookkeeping and advertising staff have well lighted offices. There is a private room for President George J. Hess and a directors' room. The second floor is finished in red mahogany with brush brass finish.

The entire eight-story building has been leased by the firm for 15 years. The seventh floor will be occupied by the manufacturing department. Other floors will be occupied as need arises.

The decorations on the opening days were beautiful. The show windows were festooned with garlands of spring flowers, tied at intervals with white satin ribbon. American beauty roses and maiden-hair fern were tastefully disposed. Among the jewelry and optical firms sending flowers

trade and spent the remainder of his life in that business. For a while he worked at his trade in Boston, but came to this town in 1845 and started in business for himself on Main St. This he conducted until about 10 years ago, when his advanced age and bad health caused him to retire.

During his residence in Boston he met and married Priscilla Keith, who preceded him to the grave. He is survived by the following children: James Annin, Jr., of Caledonia; Charles Annin, Chicago; Miss Elizabeth Annin, Cleveland; Frank Annin, Toledo; Mrs. Hattie Annin Baker, Le Roy; Herbert Annin, Margaretsville, N. Y.; and Mrs. Claude Pettingill, Seattle, Wash.

Thief Gets Rings from Providence Manufacturing Jewelers on Pretense That He Came from a Customer.

PROVIDENCE, R. I., May 20.—The police are trying to locate a suave young man who swindled the firm of Tuck & McAllister, manufacturing jewelers, 131 Washington St., out of four diamond rings, valued at \$300, yesterday forenoon. The

GENERAL VIEW OF THE FIRST FLOOR OF THE NEW BUILDING OPENED BY THE HESS & CULBERTSON JEWELRY CO., AT ST. LOUIS, MO.

and finished in brush brass. The decorative scheme of walls and ceilings is in pastel shades of green, touched lightly around cornice and capitals with gold and silver, while a bit of red shows in the fresco of ceiling, harmonizing with the classic lines of the beautiful electric light fixtures.

The plate glass of the cases, mirror-faced columns and myriads of Tungsten lights make an ideal environment for the diamonds, watches, gold jewelry, sterling silver and silver-plated ware displayed on this floor. A floor of mosaic green and white art tile contrasts with the mahogany and brass in beautiful effect. The stationery department is in the southwest end of the floor and here the art glass is in "envelope" design.

The repair department is at the west end and behind it the great vaults with steel doors that protect the gems of vast value committed to their care.

The 7th St. and St. Charles St. fronts are almost one complete sheet of plate glass. The rear glass of the show windows is a rough plate, pebbled to a miter. The glass of the diamond room shows eight different nuances of clear glass, producing a beautiful effect.

An elevator and broad iron stairway communicate with the second floor. Here is lo-

and congratulations were the Eisenstedt Mfg. Co., Eichberg & Co., Bauman-Massa Jewelry Co., Illinois Watch Co., Western Optical Mfg. Co., A. S. Aloe Optical Co., St. Louis Clock & Silverware Co., S. Ruby Jewelry Co., A. Kurtzborn & Sons, William Weidlich & Bro. and H. A. Kirby. The presentation on behalf of Mr. Kirby was made by James R. Palmer, who was in the city during the opening, and consisted of a magnificent bunch of orchids.

On the opening days the entire force, considerably augmented, acted as a reception committee, the feminine employes all being gowned in white.

Death of James Annin.

LE ROY, N. Y., May 18.—James Annin, a retired jeweler, of this town, well known in the trade, died early yesterday morning of apoplexy at his home in Myrtle St. He was found by his daughter lying on the floor in an unconscious condition. A physician was summoned, but the patient was then beyond medical aid.

Mr. Annin was a native of Le Roy and first saw the light in this town, July 29, 1828. He began to earn his own living when about 11 years old in a dry goods store in Mt. Morris, but in 1840 returned to Le Roy, where he learned the jewelry

man got the rings, representing himself as sent from the Tilden-Thurber Co., saying his firm wanted the rings for a customer.

Mrs. Alarie R. Tuck, wife of one of the members of the firm, was in the office when the stranger appeared, shortly before the noon hour. The caller, who is described as tall and slim and fairly well dressed, said he had been sent over to get four diamond rings for a customer of the Tilden-Thurber Co. Mrs. Tuck, thinking the man was what he represented himself to be, picked out the rings and handed them to him. Thanking her, the stranger bowed and took his leave.

Later, a suspicion entering the minds of the members of the firm, the Tilden-Thurber people were communicated with. They disclaimed all knowledge of the man who got the rings, and said that no one had been sent from their store for that purpose. Mr. Tuck reported the matter to the police as soon as he received this information, and the inspectors were at once detailed to search for the thief.

The jewelry store of E. L. Rudert, Saxonburg, Pa., was recently robbed by thieves who took away property worth \$300, but left a number of gold bracelets and quantities of pennies on the counter.

Association Notes.

What the Retail Jewelers' Organizations Are Doing in Various Parts of the Country.

The Maryland Retail Jewelers' Association will hold its regular meeting at the Roman Hotel (also known as the Maryland Hotel), Wednesday evening, June 2. The Railway Watch Inspectors' Association of the United States and Canada will hold its convention on the morning and afternoon of the same day. J. J. Bartholomew, Baltimore, is president, and F. J. Miller, also of Baltimore, is the recording secretary of the Maryland Retail Jewelers' Association.

A letter from C. S. Wiley, secretary of the Pennsylvania Retail Jewelers' Association, says that he has heard that a number of the Pennsylvania jewelers were of the opinion that because they were not members of the association and were not personally solicited to attend the convention they are not wanted. Mr. Wiley says not so; it is this the exact opposite of the truth, and if there is any jeweler in the State who has not been asked to join the association he wants to know it at once. In the name of the organization he herewith invites every jewelry merchant within the boundary of the Keystone State to send in his application for membership to both the State and national associations and to come to Harrisburg, June 3 and 4, and participate in the proceedings of the convention. Formal invitations to the trade will again go out this week, together with a souvenir programme. Any jeweler not receiving the same should notify Mr. Wiley at 3602 Forbes St., Pittsburg, Pa.

Plans for the entertainment of the 500 delegates who are expected to attend the annual convention of the Wisconsin Retail Jewelers, to be held in Milwaukee July 20, 21 and 22, were discussed at the recent monthly meeting of the Milwaukee Jewelers' Club, held at Blatz Hotel. The entertainment committee, composed of A. J. Sessel, E. H. Warnke and Harry Stoutmeyer, was instructed to make preliminary arrangements and to report at the next regular meeting. The Wisconsin Association of Optometrists will hold its annual convention in Milwaukee on the same date as the jewelers' convention, and the two societies will divide up the time. The headquarters of the association will be at the St. Charles Hotel, where the jewelers' convention will also meet. It was the original intention of the optometrists to hold their convention at Madison, but it was their belief that the sessions would be more profitable and would be more largely attended if they were held in Milwaukee at the time of the jewelers' gathering.

The Omaha Jewelers' Club, of which T. Combs is president and A. Mandelberg, secretary and treasurer, is putting forth strenuous efforts to make the coming convention of the American National Retail Jewelers' Association, which is to be held at that city, Aug. 3 to 6, one of the most interesting and enjoyable occasions in the history of the association. The club has

sent out notices to about 1,500 manufacturers and jobbers calling attention to the unusually good facilities which will be afforded to all exhibitors, and the advantages to be gained to the manufacturer and retailer by the installation of instructive and up-to-date displays. A diagram of the convention and exhibit hall in the Rome Hotel can be had on application to this club. This diagram, which appeared in THE JEWELERS' CIRCULAR-WEEKLY of April 28 (page 73), shows the auditorium and the exhibition hall, which are on the first floor, to be the best that the association has ever had. The auditorium or convention hall is 40 by 88 feet, adjoining the exhibit hall, and all those going to or from the convention must pass through the latter.

The executive committee of the Iowa Retail Jewelers' Association met recently at Des Moines, to arrange the final details of the State convention. This convention will be held June 23, 24 and 25 in the Auditorium of the Y. M. C. A. building, Des Moines, and no hotel is selected as headquarters. It was decided by the executive committee that the association will handle all expenses and entertainment features itself without soliciting aid from jobbers, manufacturers and other outside sources, therefore, there will be no regular exhibit nor program containing advertisements. The program of the convention will consist of speeches and papers dealing with practical, every-day questions which will be of direct benefit to the retail jeweler, and the speakers will be selected with reference to their special ability in the lines suggested to them as topics. The amusement features as well as the business part of the convention will receive proper attention, and detailed daily programs will be sent to the members in due season. The members of the Iowa association have just received a report from President Mack A. Hurlbut, telling of what has been done in regard to the coming convention, and also one from Secretary N. Neilson containing a number of suggestions as well as detailed information on various topics of interest.

Death of D. N. Furstenwerth.

ST. LOUIS, Mo., May 21.—D. N. Furstenwerth, president of the Furstenwerth-Uhl Jewelry Co., 1009 Washington Ave., died suddenly, May 19, at his home, 3932 Castleman Ave., of heart failure superinduced by rheumatism. He was 58 years old.

Mr. Furstenwerth was born in Germany, near Hamburg, but came to America in his youth. He traveled for years for the Providence Jewelry Co., but left that company over 10 years ago to join with C. R. Hettel in organizing the Hettel Jewelry Co. Eight years ago his partnership with Hettel was dissolved, and he organized the Furstenwerth-Uhl Co. His partners in that company were Oscar F. and Arthur Uhl. Although the exigencies of business did not require it, he continued to travel up to the time of his death. The business will be continued under the same firm name.

Mr. Furstenwerth was a member of Cosmos Lodge, A. F. & A. M. He leaves a widow, four daughters and one son, Detlef, who has been connected with the firm for four years.

M. Elwood has opened a store at Central-point, Ore.

Ole Jackson has started a watch repairing shop at New Auburn, Wis.

Garrie O. Sill has just opened up a new jewelry store in Eufaula, Okla.

Blackstone Bros. will open a new jewelry store in Grand Junction, Colo.

Reuben V. Faegley, Lancaster, Pa., has opened a store at Mount Joy, Pa.

I. T. Anthony has started a jewelry factory at 123 Spencer Ave., Toronto, Ont.

F. G. Niems & Co., formerly of Ogden, Utah, have opened a store at Sawtelle, Cal.

Hollander & Fleishman will open a new jewelry store at 46 S. 8th St., Philadelphia, Pa.

T. L. Fenlon, Olympia, Wash., has moved to Yacolt, Wash., and is opening a store there.

Charles Hodson, Creston, Ia., has embarked in the jewelry business at Fontanelle, Ia.

The Lucios Jewelry Co. has opened a new store at 6th and St. Charles Sts., St. Louis, Mo.

Joseph, Frank and Charles Steinberg have engaged in the jewelry and pawn-brokerage business at 16 Monroe Ave., Detroit, Mich.

The Gerber-Buschmann Cutlery & Silverware Co. was recently incorporated in St. Louis, Mo., to deal in cutlery, silver and glass ware.

Wilson & Hiller is the name of a new firm which has just started as dealers in watches, diamonds, jewelry, silverware and optical goods at 3526 Broadway, New York.

The Lorios Jewelry Co. was recently incorporated in Chicago, to deal in jewelry, with a capital of \$10,000. The concern will be located at 90 State St. The incorporators are L. L. Sachs, Morris Sachs and Harry Sachs.

Iola, Wis., Jeweler, Despondent from Ill Health, Hangs Himself.

IOLA, Kan., May 19.—W. S. McNeil, who committed suicide here May 14 by hanging, was a prominent local jeweler and a member of the firm of McNeil Bros. Ill-health is the supposed cause of his rash act.

Mr. McNeil came here from Morantown and started in business in 1894. In the Spring of 1900 he was joined by his brother, when the firm of McNeil Bros. was formed.

Deceased was highly regarded in the vicinity and his death is generally regretted.

Burglars, about a week ago, entered the store of U. Q. Sturgis, on Main St., Onancock, Va., and after opening the safe and rifling it of its contents escaped. Thus far no clue has been obtained.

Former Jeweler and Salesman Commits Suicide in Police Station After His Arrest.

PITTSBURG, Pa., May 20.—Word was received in Pittsburgh to-day announcing the death of Henry S. Davis, who is alleged to have committed suicide in a cell at police headquarters in Cleveland, last Monday night. His death is said to have been tragic and swift, following his arrest on a charge of embezzlement.

Davis was formerly a jeweler, according to information given out here by local jewelers. Seven or eight years ago, he was a traveling salesman for Albert H. Gerwig. When he went to Mt. Gilead, O., and opened a store which he later sold. He moved then to Galion, O., where he went into business and failed, paying his creditors about 15 cents on the dollar. During the last three years he had been employed as a bookkeeper by the Cleveland Window Glass & Door Co., and he is alleged to have been short \$228 in his accounts.

When he was taken to the police station, the police noticed that Davis put something in his mouth, and it was thought that he was eating a piece of candy. Death came swiftly, however, and it was discovered that the man had swallowed cyanide potassium. Davis was removed to the Lakeside Hospital, but after a brief examination it was discovered that he was dead, and the body was removed to the morgue.

Davis was 28 years old, and is survived by his widow and one son, 6 years old. He lived in E. 82d St., and when his clothes were searched it was found that he bought a railroad ticket for Pittsburgh. He had but 4 cents in money. A pawn ticket was found, and showed that he had pawned his watch and fob.

Montreal, Can., Jewelers Suffer from a Number of Burglaries and Window Robberies.

MONTREAL, Can., May 24.—The jewelry establishment of J. A. Allen & Co., 106 St. Lawrence Boulevard, was broken into at 3:30 Saturday morning and more than \$50 worth of goods were stolen. Entrance was effected by burglars breaking the windows with a brick. The hole was just big enough for an arm to go through. Almost a dozen watches and some watch bracelets were among the plunder. The brick fall-in among the goods did much damage.

About the same time the jewelry establishment of Joseph L'Heureux, 665 St. Cherine St. E., Montreal, was broken into and jewelry to the value of \$40 was extracted, but more damage was done than the value of the stolen goods. Both firms are insured in the Dominion Burglary Guarantee Co.

A few days before a plate glass window was smashed and jewelry and watches to the value of \$100 were removed from the store of C. Bolt, 1613A St. James St. Two arrests were made by constables, who caught the men in the act. They heard the falling glass in the early hours of the morning, and saw two young men running up a side street. After a hard chase they were rounded up and gave little resistance. The prisoners gave their names as Alex.

Lefrancois, aged 22, and Alphonse Bonneau, aged 21, both of St. Cunegonde. When searched several watches, chains, bracelets and lockets were found in their pockets. They pleaded guilty, and have been remanded for sentence.

The Diamond Markets.

ANTWERP, May 2.—The Antwerp market is experiencing at this time the usual reaction that follows the brisk trade of the Easter season. Transactions, therefore, are not important, and buyers are few. The demand, however, for the *grosseurs* continues, and most merchants are able to dispose of that class of goods with ease. The Americans who visited Amsterdam and Antwerp have made important purchases, one order, it is reported, aggregating 2,000,000 francs. Good workmen are still eagerly sought after.

London, with an eye to the main chance always open, has taken advantage of this state of things to keep the prices of the rough very firm; there has even been a tendency to a rise. I estimate, however, that it is necessary to move with great precaution; the effects of the last crisis not having yet sufficiently passed away, incline us to rush forward too eagerly.

The colony of Ottoman diamond traders in Antwerp—and it is a numerous one—is joyful over the pacification of Turkey and the accession of Sultan Mohammed V. One of the most influential merchants of the colony stated that one of the probable results of these events would be an expansion of trade in precious stones, Turkey showing marked favor to the jewel, which is there held in great honor.

Sincere regret is expressed over the death of Leopold Spitzel, who was greatly esteemed by a very wide circle of friends.

LONDON, May 14.—Business in the diamond trade here remains about the same as far as the sales to local dealers and manufacturers are concerned. However, the rough market is very strong, and here and in diamond mining circles a very optimistic feeling is evident. People connected with the diamond mines and financial authorities interested in the sale of the shares say that the demand for rough stones is increasing rapidly, especially for the best, and that the sales to Amsterdam and Antwerp are very satisfactory. In fact, the De Beers people report that they are effecting excellent sales all along the line, and stones are being forwarded to the cutters as fast as possible. There is absolutely no comparison between conditions now and those that were experienced during the recent depression, everything indicating that a substantial recovery has already taken place.

Three young men visited the store of S. P. Douglass, Martinsburg, W. Va., recently, and while two of them occupied the proprietor's attention in looking at some guns the third, it is charged, rifled the repair drawer, opened the show cases and extracted a number of rings. The goods stolen are said to be worth \$500. The boys escaped, but an effort is being made to capture them in one of the surrounding towns, to which it is believed they have gone.

John W. Wilson Vindicated in Suit Brought by Wilson Bros. Co., Boston, Over Money Which Disappeared Some Time Ago.

BOSTON, Mass., May 22.—The report of Bowdoin S. Parker, who was master in the equity session of the Superior Court of Suffolk County in the suit of Wilson Bros. Co. *et al.* vs. John W. Wilson *et al.*, has vindicated the latter in regard to various affairs of importance in reference to the conducting of the business of the Wilson Bros. Co., jewelers at 95 Court St. The complainants, who brought the suit, consist of the Wilson Bros. Co., a corporation, and one Willard D. Lombard, the latter being a stockholder of the said corporation and also its treasurer. The respondents were: John W. Wilson, a stockholder of said corporation and the president and general manager of that company; Julia E. Blanchard, the owner of the balance of the capital stock not owned by Lombard and Wilson, and Eleanor Muse, cashier of said company.

The trouble seems to have arisen from the fact that Lombard, who was treasurer, owned one-half of the capital stock of the company, while John W. Wilson and Mrs. Blanchard owned the other half. The two latter acted together as directors, and, as Lombard acted in opposition for himself, they could not agree as to the management of the business, especially the financial part.

Two paragraphs in the complainants' bill referred to the sum of \$4,000, which disappeared from the safe of the company, and which Wilson alleged was stolen while in his care. It was sought to have Wilson make good personally the loss. The report of the Master found that Wilson was not guilty of negligence or improper conduct such as would make him personally liable for the loss of said money, and that no evidence was presented indicating that said John W. Wilson was in any way implicated in the abstraction and theft of said money from the safe of said company.

Under paragraph 8 of the complainants' bill it was alleged that said John W. Wilson had taken from the funds of the corporation, without authority or right, sums amounting to \$3,292. Upon the evidence it was found that there was not sufficient evidence introduced that said Wilson had improperly or illegally received to his personal use or benefit the alleged amount of \$2,892, and that the payment of \$400 to B. B. Dewing was for services performed as an attorney-at-law for the said corporation, and was rightly paid from the company's funds.

In closing, the Master found that there was no reason or necessity for an accounting between said John W. Wilson and the said corporation, and that the business of the company is reasonably well conducted by the said John W. Wilson as president and general, while Eleanor Muse is a suitable person to act in the capacity of cashier and is an efficient employe of the said company.

Dexter B. Phelps, who conducted a jewelry store in the Black Hawk National Bank building, Waterloo, Ia., has secured a new location on 4th St., into which he recently moved his stock.

News Gleanings.

Geo. B. Rhodes, El Dorado, Kans., is disposing out his stock.

W. H. Reighart, Minot, N. Dak., has purchased a Reo motor car.

W. A. Curtis, Cherryvale, Kans., has purchased an automobile.

Michael Kane has bought the stock of M. Cornwell, St. John, Kans.

Isaac Jacobs, Joplin, Mo., has moved his stock from 117 W. 5th to 635 Main St.

Paul Pieton, Overly, N. Dak., will open branch jewelry store in Willow City, N. Dak.

M. G. Parker, Cherryvale, Kans., will open a retail store at Wagoner, Okla., July 1.

W. D. Spencer, Belle Fourche, S. Dak., has sold his stock and business to C. J. Radshaw.

Wm. Lynn, Preston, Ia., has improved the front of his store by the addition of plate glass.

Bruno Zimmerman, who conducted a jewelry store at Parkers Prairie, Minn., is on the road for a fountain pen concern.

L. S. Robinson, Glenwood, Ia., has been appointed watch inspector at Hastings and Pacific Junction, by the Burlington road.

D. G. Gallett, the pioneer jeweler of Aberdeen, S. Dak., will celebrate his 26th anniversary in the jewelry business in that city, June 1.

Ed. Lommel has resigned his position with the Weber Jewelry & Music Co., St. Cloud, Minn., to go west. He is succeeded by Nick Mohs.

Mendel Rothschild, Reading, Pa., who began the erection of a business building at 636 Penn St., a short time ago, sold that building to A. J. Stief.

Lawrence Hasselquist, of Chariton, Ia., has accepted a position as traveling salesman with the American Standard Jewelry Co., of Detroit, Mich.

F. E. Burrige and J. M. Connett, Erie, Pa., have purchased the fixtures and lease of Lewis & Van Sickle, Oskaloosa, Ia., and will open there, June 14.

Robinson & Miller have moved into their new store at Cando, N. Dak. At their opening, May 22, each lady was presented with a beautiful souvenir.

S. Baum, Holyoke, Mass., has leased quarters at 315 High St., where he will move shortly from his store in Main St., which he has occupied for 24 years.

The Conner Jewelry & Optical Co., Caldwell, Kans., has wound up its affairs. Ira

Gabbert, who was burned out recently, will move into his new store next week.

Pawnbrokers of Ogden, Utah, have been notified that unless they conform to the provisions of the statute recently passed, requiring them to make daily reports of loans to the sheriffs, they will be prosecuted under the law.

C. A. Stevens, Nickerson, Kans., is again circularizing the west with a description of the property stolen from his store May 1901. A reward of \$100 is offered for the arrest and conviction of the thieves, and Mr. Stevens hopes to get them.

The A. & A. Drug Co., of which L. Ardrey, Hutchinson, Kans., is president, is opening a long string of drug and jewelry stores in central Kansas. The company

has already in operation stores at Stafford, Garden City, St. John and Sterling.

W. H. Chapman, for many years a leading jeweler of Dodge City, Kans., died of paralysis, May 8, aged 56 years. He leaves a widow and three children. The oldest son, Frank, will continue the business, with the assistance of B. A. French, who was formerly in business for himself at Dodge City.

G. J. Forster, formerly of Soldiers' Grove, Wis., has located in the jewelry business at Aberdeen, S. Dak., on S. Main St. A practical joker threw a clock, valued at \$24, which Mr. Forster had for advertising purpose, and which was standing by his store, into the street, where it was run over by a wagon and ruined.

Opticians met at South Bend, Ind., recently, for the purpose of organizing an optical society to include interurban towns. Ten local opticians were present. It is proposed to have the organization formed within three weeks. Prominent speakers will be asked to make addresses. It is the intention to have regular meetings of social and scientific nature.

At the annual meeting of the stockholders of the Paul-Gale-Greenwood Co., Norfolk, Va., the following officers were elected: President, Fred Greenwood; vice-president, John L. Roper; secretary, Frank Paul; treasurer and general manager, D. P. Paul. The directors are the above and J. E. Cole, Frederick Lewis, John B. Jenkins, H. H. Trice and Dr. A. Weck.

Death of Thomas Rice.

Thomas Rice, a well known New York jeweler, who conducted a retail jewelry business at 588 Fifth Ave., under the style of the Bartens & Rice Co., died at his home, 47 W. 127th St., New York, Saturday, of a complication of diseases. He had been sick for seven weeks, during which time he was able to be down to the store twice. He grew weaker of late and death resulted Saturday.

The business of which Mr. Rice was the head was begun by Charles Bartens in 1865, on John St. In 1875 Mr. Rice became a partner and the business was conducted under the firm style of Bartens & Rice, on John St. In 1895 the business was incorporated under the style of the Bartens & Rice Co. In 1900 Mr. Rice bought out the other interests and has since continued the business alone. The store was moved from John St. to 328 Fifth Ave. 10 years ago, and in 1906 was moved to the present location.

Thomas Rice was born in New York City in July, 1848, where he spent his early life and obtained his schooling. As a boy he became an employe of the old firm of Ball, Black & Co., with whom he stayed for some time. Later he was a salesman for the old firm of Starr & Marcus, then located at 20 John St., with whom he remained until he joined forces with Mr. Bartens.

Deceased was a member of the Assurance League of America (Jewelers League) and belonged to the Seventh Regiment of New York. The funeral services were held Monday evening, at 8 P.M., from his late residence. Interment was at Woodlawn Cemetery.

Trans-Atlantic Voyagers.

TO EUROPE.

J. H. Buck, of the Metropolitan Museum, New York, will sail on June 9.

C. A. Keene, accompanied by his wife, sailed to-day on the *Mauvretania*.

J. Albert Caldwell, of J. E. Caldwell & Co., Philadelphia, Pa., sailed last week.

A. Guggenheim, of Arnstein Bros. & Co., sailed on the *Kronprinz Wilhelm*, recently.

Wm. J. McQuillin, of Mount & Woodhull, New York, sailed Saturday on the *New York*.

Albert Davis, of B. H. Davis, Son & Co., New York, sails Saturday on the *Kaiserin Auguste Victoria*.

William T. Gough, of Carter, Howe & Co., and Herman Levy, New York, sailed Wednesday, of last week, on the *Lusitania*.

A. W. Roubaud, of MacPherson, Roubaud & Co., Providence, R. I., sailed on the *Oceanic* recently, accompanied by his wife.

Charles L. Van Vliet, of Adolph Goldsmith & Son, will sail on the *Princess Alice*, Thursday. He will be accompanied by his wife.

Sir Casper Purden Clark, director of the Metropolitan Museum, accompanied by Lady Clark, sailed recently on the *Minnetwaska*.

Moses Kahn, of M. & L. Kahn & Co., and J. W. Levison, of S. Cottle Co., New York, sailed Tuesday, of last week, on the *Kronprinzessin Cecilie*.

A. L. Strasburger, of L. Strasburger's Son & Co., New York, Henry and Arthur Silverfeld, New York, sailed yesterday on the *Kaiser Wilhelm der Grosse*.

Pittsburg.

Sam F. Sipe's horse, "Do-Tell," captured three ribbons at the local Pittsburg Horse Show.

R. A. Noble, Wellsville, has opened a law store at East Liverpool, he having decided to move his business to the pottery town.

The Heeren Bros. & Co.'s employes are arranging a game of baseball to be played with the employes of the Rodney Pierce Optical Co.

Some of the retail jewelers will begin closing their establishments at 5 P.M. next month, the present closing time being 5:30 P.M. A few of the stores will close at 1 o'clock, Saturdays. All of the wholesale houses do so now.

Out-of-town jewelers in Pittsburg last week included J. R. Thorn, Toronto; E. A. Moser, New Kensington; John Burry, Wellsville; F. J. Liljedahl, Braddock; R. A. Noble, East Liverpool; John J. Linbrink, Rochester.

W. G. Ingham, of the Geo. B. Barrett Co., was last week elected a delegate to the National Association of Credit Men, which will meet in annual convention in Philadelphia, next week. Mr. Ingham, along with a number of other Pittsburg business men, will represent the Pittsburg Association of Credit Men at the gathering. Local jewelers take a deep interest in the credit men's association.

The Pittsburg police, last week, arrested Charles Hahn and May Walker and locked them up on a charge of shoplifting. It is alleged that they have been doing an extensive business, and detectives upon opening their trunks found a large quantity of jewelry and other articles, which storekeepers are endeavoring to identify. The couple will be held pending an investigation into their record.

Due to the fact that Isaac Parnes, the missing jeweler, who is alleged to have abandoned with \$40,000, cannot be located, the trustee of his estate, Simon Sher, is advertising that Parnes will be adjudicated bankrupt after May 29. It is alleged that items shipped goods valued at \$5,000 to Cleveland and Canton. Sher hired the Roberson detective agency to look into the matter, and used some of the money deducted from the sale of the stock in an effort to locate the goods. This money was sent, in addition to a fund raised by the creditors, in the hope of locating the missing man. Since personal service could not be obtained on Parnes, the only thing left to do was to advertise and give him notice in the way as to what would be done.

Burglars are reported to have gained access to the store of F. S. Mohr, 104 Smithfield St., on Tuesday night of last week, and to have gotten away with a large amount of jewelry. According to the statements made by the police, it is asserted that an entrance had been forced to the store from the rear and that when Mohr awoke at his store he told the police that nothing was missing. Later, however, Mohr is said to have notified the police that a large amount of stock was gone, and detectives Will and McDonald were detailed to the case. Among the articles stolen were 12 watches, 72 gold rings, six silver purses,

18 gold bracelets and a number of earrings, scarf pins, eyeglasses and set rings. So far as known, the police have no clue.

Newark.

Mr. Noon, of Cory, Clark & Noon, was in this city, last week, after a western tour.

J. H. Reid, of this city, has obtained a patent on a new method of refining metal.

Charles H. Terstegen, an Elizabeth, N. J., retail jeweler and optician, is a member of the May petit jury panel for Union County.

L. Kartsen announces that he has removed his jewelry store from 491 Broad St. to 398 Springfield Ave.

H. B. Bliss, of the B. M. Shanley, Jr., Co., together with the western representative of Alling & Co., left for the road, last week.

The 50 clocks in the Newark city hall have been keeping bad time of late, and the Council has decided to repair them. The Howard Clock Co. will do the work.

Employes of Scofield & De Wyngaert were given a half holiday, on Friday, to attend the circus. Some of the other concerns also gave their workers a brief vacation.

The Scott Fountain Pen Co., Jersey City, N. J., has been incorporated with a capital of \$150,000. The incorporators are: Frank M. Whitecar, John O. Seifert and Neil M. McDonald.

The Shiman-Miller Co. was completely located in its new building within a week after moving began. The concern has been forced to run a night schedule because of the change.

The American Oil & Supply Co. is among the creditors of the Harrison & Knight Mfg. Co., Verona Ave., manufacturers of fine tools, which has been thrown into bankruptcy.

The firm of Otto Fessler & Co. has been incorporated as manufacturers of jewelry, with a capital of \$35,000. The incorporators are O. Fessler, A. Fessler and H. H. Picking, all of East Orange.

William Schafe sailed, last week, for a trip to South America in the interests of Nessler & Co. Mr. Schafe will be away for an extended period, and will visit several of the southern republics.

The Charles Blakeman Sons Co. has been incorporated to manufacture pearl buttons, with a capital of \$2,000. The incorporators are Charles Blakeman, George R. Blakeman and John Blakeman, all of Newark.

The Mueller Mosaic Co., Trenton, N. J., was incorporated, last week. The capital is \$50,000. The incorporators are H. C. Mueller, G. W. Grigsby and J. H. Grigsby. The company will manufacture earthen ware.

S. Schoonmaker & Son are hurrying the work on their new store, 167 Market St., Paterson, N. J., in the hope of getting it opened by June 1. A delay has been caused by it being necessary to have all their fixtures made to order.

The W. B. Kerr Co. contemplates the erection of a two-story brick factory at 184-186 Emmet St. for the manufacture of gold leaf. It will cost about \$10,000, will have a frontage of 50 feet on Emmet St., will extend back 100 feet, and will be of slow-burning construction.

The J. E. Mergott Co., Jelliff Ave.,

manufacturers of metal goods, will erect a new addition to their big plant to cost \$15,000. The addition will be of fireproof construction, two stories high, and will cover an area 40 by 90 feet. It will be built of brick, with reinforced concrete floors and roof.

Manufacturing jewelers have taken much interest in the recently organized State Industrial League formed at Elizabeth, N. J. Many of them believe it will result in great good in developing skill among young men through the establishing of trade schools, which is its chief object. George R. Howe is one of the active spirits in the new organization.

The committee of the Market St. Business Men's Association, appointed to make arrangements for the opening of the "Great White Way," is working to make the event a credit to Newark's business men. While no definite date has been set as yet, tentative plans are being made with a view of having reduced excursion rates to Newark. The opening will take place on the last three days of the week, and a parade is one of the contemplated features.

Detroit.

W. F. Hittig, Dundee, visited the wholesale houses here recently.

Albert Schaub is away on a tour of Germany and other European countries which will last until about Aug. 1.

E. S. Barnes, Rochester, was among the buyers in Detroit last week, as was M. E. Griswold, with Schweitzer Bros, Ypsilanti, looking over Spring stocks.

Joseph Frank and Charles Steinberg have established a new jewelry and pawnbroking store at 16 Monroe Ave. Mr. Frank was formerly with Louis R. Grosslight.

Judge Hosmer decided last week that the personal property assessment of \$40,000 placed upon the goods of the old firm of W. A. Sturgeon & Co. by the city board of tax review should stand.

Justice DeGaw rendered a decision adverse to Traub Bros. in a suit which the latter brought to recover from Kenzie Smith for goods furnished to the Wolverine Kennel Club, of which he is a director. This organization had purchased medals valued at \$300 from the jewelry firm but made a failure of their exhibition.

William H. Murray, who has been appointed receiver for Henning & Koch, Ann Arbor, Mich., states that the assets of the firm amount to \$6,720 on appraisal, while the liabilities amount to \$6,000. He is convinced that the firm will pay 100 cents on the dollar to its creditors. The receivership is understood to be a means toward dissolution of the partnership.

I. Lachmann & Co., wholesale jewelers, Seattle, Wash., announce that they have sworn out a warrant for the arrest of E. H. Van Gelder, who was for over a year a traveling salesman for the house. Mr. Van Gelder, who is accused of robbing the concern of a large quantity of jewelry, recently left for parts unknown some time ago and his former employers are seeking to discover his whereabouts. Anyone learning where he is is requested to notify I. Lachmann & Co. immediately.

GORHAM SILVER

NO SECOND BEST

¶ There are no "seconds" in Gorham Silver, for every piece bearing the Gorham mark, is finished with the same careful attention. Thus there is only one quality and that is "the best."

¶ The same artists who design the most elaborate and expensive center piece or trophy, bestow the same thoughtful consideration on the most trifling article for use or ornament.

¶ In other words, on every piece of Gorham Silver, without any exception, there is brought to bear the perfection of craftsmanship and the highest degree of constructional integrity.

¶ And yet, owing to the advantage of consummate organization, Gorham Silver costs no more than goods displaying neither fine taste nor honest workmanship.

Lemoine Again on Trial. PARIS has again been treated to a statement of the claims of that arch-charlatan and "faker," Henry Lemoine, the self-styled "diamond maker," whose second trial on a charge of fraud preferred by Sir Julius Wernher began May 16 and will be continued June 14. However, there is a big difference between the reception of Lemoine's statements as to his ability to make diamonds, given at this and at the first trial, and the newspapers are no longer devoting large space to speculation as to what will happen to the diamond market should Lemoine's formula be correct. The prisoner's flight during his examination seems to be generally taken as a confession of guilt.

At the hearing last week Lemoine acknowledged that the formula deposited in the bank in London was nothing more than a jumble of words, but he said this was done to protect his real secret, and that he was now willing to show the court his whole process, saying that it was based on his discovery that he could submit a crucible to the high temperature of 2,000 atmosphere for several hours. But what the man has to gain by insisting that he is able to make diamonds is hard to see, as Maitre Labori, his counsel, has stated that he did not intend to plead that Lemoine had or could manufacture diamonds, but would base his defense merely on the ground that the alleged swindle had not been proved against him.

The Value and Function of the Trade Press.

THE importance of the trade press as a commercial force and as an institution not only to facilitate the marketing of products, but also to educate the members of the trade which it represents, has been recognized more and more as the years go on among business men, but it is only within the last few years that the daily press has begun to realize the function of a reliable trade press and to give it the recognition it deserves. In fact, it is only very recently that editors of daily papers have begun to see what the manufacturers, wholesalers and retailers in all lines have been appreciating for many years, namely, that the trade press is not a luxury, but a necessity—a time saver for the business man who has little opportunity to properly read the daily papers for the news of his particular trade; that it is an educational institution, and, in fact, a teacher to the merchant and his clerks, as well as a clearing house for all business information connected with its trade.

The function and affairs of the trade press in the business life of the merchant was very well stated in the following extract from a recent article in the New York Journal of Commerce:

In the very nature of things the man of affairs, with multitudinous and various cares pressing sorely on his time and attention, necessarily becomes self-centred and preoccupied. So engrossed is he in the proper attention to his own immediate problems that he can find no time—even if he had the inclination—to observe those of his neighbor. Least of all has he the incentive to step out from his own circumscribed world, banish from his mind the narrow things, level self and individuality, merge them all in a common

The most effective advertisements are those which tell the truth, and are written with the aim of giving all necessary information.

and impartial landscape and then calmly and fairly study the situation.

Such a man is this—and variations from type are only in degree—the man for whom the trade press stands as an invaluable ally. While he digs and delves in his own tasks, the trade press is his reliance for more basic information than he imagines. The ordinary press gives him the product of its daily observations in the doings and misdoings of the big round world of optics and society, but what it brings is only a diversion; a stepping aside from his grind. It may refresh him, but it does not aid him in his money-making slavery.

But the trade press has an entirely different function in his life. While he toils in his office or warehouse the trade press is performing for him the task of confidential messenger to the rest of the commercial world. Its human machinery is finely tempered and carefully adjusted. Its men are trained, not merely in the collection of interesting facts of ordinary happening, but in the observation of those events and developments which have a direct bearing on the commercial side of life. They have learned just what information the busy man needs to supplement his work of application. The events which transpire in the lives of other merchants are gathered together and presented to him in the most concise and digestible form; the changeable values of commodities, not only in one shop, but throughout a large field, are carefully noted and calculated in such a way that he may judge them at a glance. The doings of legislatures throughout the country, all having a direct bearing on the busy merchant's very business operations, are reported, with discriminating accuracy, selection and brevity. The doings of foreign States, from whose ports he draws his stocks, are carefully reported by the co-operated effort of hundreds of trained watchers and correspondents. The incidents which pass in front of his very eyes, but which escape more than cursory attention in the rush of his daily cares, are fitted into their place with other events which he has not seen, and from them are deduced the delicate course of trade evolution.

The trade press is his organ of communication outward as well as inward. Circulating, as it does, among his fellow tradesmen, both in a local field and throughout the country, he has but to say the word and his message is disseminated among the very men most interested in his ideas. If trade conventions furnish him a medium for the exchange of ideas—a clearing house of trade information and advice—the trade press is one perpetual convention; a clearing house open to him and all his fellows every day in the year. No man who has ever watched the development of any great trade movement can deny that, without an intelligent, trustworthy trade press, it would have been impossible.

Of course, the above applies only to the absolutely independent, fearless and conscientious organs, as the writer of the article later goes on to explain. The moment a paper claiming to represent a trade uses its force and power in the interest of any number, clique or faction of its trade, or of its advertisers, that moment its power for good has disappeared and it becomes a detrimental instead of a beneficial element in the machinery of the business of the industry which it represents. Absolute adherence to the highest ideals of the journalistic profession both as to the honesty of opinion and the completeness of service is more important to attain proper success in the field of trade journalism than in any other line of the publishing business.

LOOK FOR THIS TRADE-MARK

IT IS A MUTE PROCLAMATION OF MERIT

ASIDE from the legal security this trade-mark affords the manufacturer operating under it, it guarantees to the retail jeweler absolute dependability in every detail of construction.

THE gold is of the karat stamped, the designing uncommonly good, and the workmanship of a kind that we vigorously defend by placing it beyond the ambitious efforts of competitors.

H. A. KIRBY

MANUFACTURERS OF FINE GOLD JEWELRY

85 Sprague Street, Providence, Rhode Island
New York Office: Jewelers' Bldg., 9, 11, 13 Maiden Lane

Connecticut.

Thomas F. Callahan, employed by the Wilcox Silver Plate Co., Meriden, was married to Miss Clara May Wollschlager, May 19.

The employees of the Sessions Clock Co. Forestville, raised a purse of \$80 for Charles Stanley, who is detained in the Hartford Hospital awaiting amputation of his leg at the knee.

Rocco Gilletti and Francesco Barattini were arrested in Middleton on the charge of stealing jewelry from the store of Clark & True, George J. Fisher and Joseph Pinsker. They were sentenced to three months in jail and also fined.

The American Silver Co., Bristol, has plans and specifications prepared for the installation of a new steam plant. The new boilers of 200 horse-power capacity each will be installed next July, when the plant closes down for the usual Summer vacation.

At the meeting of the Hartford Business Men's Association, held May 20, the question of Summer closing was discussed. A committee was appointed to confer with department store managers to see whether they would consent to close their places of business on Wednesday afternoons, in place of Friday afternoons, during July and August, as was the custom last year. The committee consisted of Edgar F. Burnham, chairman; Foster E. Harvey, George Ford and Charles A. Pease. A. M. Kirby for the jewelry interests, said that he would do as the rest did.

Washington, D. C.

Selinger's jewelry store, F and 9th streets, has been constantly surrounded for some time past by a crowd of curious onlookers who stop to watch the mysterious clock which he has on display in the window. The clock consists of nothing but a pair of hands fastened to a glass two feet square suspended by a brass chain. Not only have the passers-by been puzzling their heads to how the clock works, but the daily newspapers have taken up the subject and published notes about the window attraction, asking subscribers to look at the clock and propound a theory as to how the hands worked.

An accident which occurred at the store of Elmer D. Cole, 434 7th St., N. W., May 15, caused damage estimated between \$2,000 and \$4,000 and also resulted in an injury to Mr. Cole's leg. The jeweler had been waiting on a customer who wanted a watch and started to reach up to a shelf when he felt the fixtures moving. Noticing that the mirror-backed shelving, which is 24 feet long and 12 feet high, was about to fall, he shouted to C. C. Wilson, a clerk, to help him, but before the clerk could reach the side the weight of the fixtures overcame Mr. Cole's strength, and he jumped to the floor. The fixtures then came down with a crash, smashing the front of the store, filled with jewelry and throwing the pieces, such as the clocks, etc., all over the store. In jumping Mr. Cole wrenched his leg and fell to the floor stunned. Mr. Cole says the loss will fall entirely on him, as he has no insurance. He has been continuing business, however, without interruption.

New York Notes.

Howard Grant, of Riley & French, North Aleboro, Mass., was in town last week.

I. Block, of the Niagara Ring Mfg. Co., Buffalo, N. Y., was in town last week.

Solomon E. Isaacs has been employed as a salesman by Henry Silberfeld, 1395 Broadway.

A. Keene, New York, accompanied his wife, sailed for Europe to-day on the *Mauretania*.

Isaac Uhl, of the Furstenwerth-Uhl Jewelry Co., St. Louis, Mo., was a caller in town last week.

Harry Morris, of Morris, Mann & Reil, Chicago jobbers, was a visitor in town during the past week.

M. B. Rosenback, of Wm. I. Rosenfeld, returned from Europe Thursday of last week on the *Adriatic*.

Joseph Aricsohn, 94 Columbus Ave., has opened a new store at 510 Amsterdam Ave. He will conduct both stores.

Albert H. Cohn, Chicago, who has been in town during the past week, made his headquarters at the Astor House.

Lee Reichman, of Reichman Bros., 65 Nassau St., returned recently on the *Lusitania* from a purchasing trip abroad.

Samuel Weinhaus, of S. & B. C. Weinhaus, Pittsburg, Pa., was among the out-of-town buyers in this city last week.

It is reported that D. Harris & Co., Albany, N. Y., will move to this city and occupy a place of business at 611 Broadway.

S. Hyman, of B. Hyman & Co., 2 Maiden Lane, sailed Saturday on the *Lapland* to visit the European diamond centers.

A negro was arrested and fined \$5 last week on the East Side for peddling jewelry without a license. He gave the name Levi Schmoll.

Abraham Roseman, 13 Maiden Lane, sailed Saturday on the *Lapland* for Europe. He will visit Antwerp, Amsterdam and Paris, and expects to be gone about a month.

Mr. Thompson, of King & Eisele, Buffalo, was a visitor in this city last week on his return from a trip in the east. He made his headquarters with the Keystone Watch Case Co.

Justice Fitzgerald, in the Supreme Court, last week announced that he would grant Isadore Baumgold, of Baumgold Bros. Co., jewelers at 266 Grand St., annulment of his marriage to Anna Baumgold.

In the note which appeared last week regarding the partnership which has been formed between Henry Stone, 24 Forth St., and Harris Cohen, an error appeared which made the note read that the firm style is Stone & Harris. It should have read Stone & Cohen.

The Monitor Jewelry Co. has been incorporated under the laws of the State of New York to manufacture jewelry, with a capital of \$5,000. The incorporators are James R. Allison, 315 W. 97th St., New York; Robert J. Jump, Jr., Wilmington, N. J., and Edith Pirro, 304 Prospect Pl., Brooklyn.

H. H. Rogers, vice-president of the Standard Oil Co., who died last week, was the husband of Augusta Randall, daughter

of the head of the old firm of Randall, Barcmore & Billings, which has since been succeeded by Chester Billings & Son. He was married in 1896, his first wife having died 14 years ago.

The Jewelers Security Alliance received information last week that a window in the store of A. S. White, 16 E. North St., Danville, Ill., was smashed on the night of May 17 and \$75 worth of jewelry and watches stolen. The robbery occurred about 1 A. M. Mr. White notified the Pinkerton Detective Agency and the local police, who are now working on the case.

Dr. George F. Kunz, of Tiffany & Co., has written an 11-page article for the *Century Magazine* on the "Two Greatest Diamonds in the World—The Cullinan and Excelsior." The article will appear in the June issue. In speaking of the present demand for black opals, Dr. Kunz said that they are a fad at the present moment, and that more were being imported than formerly. He explained that they were obtained only in one locality in Wales.

A sale of the assets of Benjamin F. Samuels, formerly in the jewelry business at 949 Broadway, was conducted last week at 113 Leonard St. The sale consisted of a small stock of miscellaneous jewelry, together with tables, trunks, etc. Robert G. Perry, trustee in bankruptcy, reserved the right to withdraw any of the property unless it brought at least 75 per cent. of the appraised value. The petition in bankruptcy filed some time ago by Mr. Samuels showed liabilities of \$4,773 and assets of \$312.

Antique jewelry, silverware and other art objects gathered by the Empire Loan Co., 386 Eighth Ave., during the past 30 years are being shown at the offices of the company, where they are to be sold on the last day of this month. The collection includes many rare heirlooms, Parisian jewels of barbaric design, antique brooches, etc. The most important objects of the collection are jewelry and diamonds. The value of the entire collection is about \$250,000. Frank E. Walker will be the auctioneer.

Ludwig Nissen, of Ludwig Nissen & Co., was the toastmaster at the banquet last Wednesday night at the close of the session of the National Association of Manufacturers, held at the Waldorf-Astoria. Mr. Nissen introduced the German Ambassador, who was the guest of honor of the evening. The German Ambassador, Count von Bernstorff, spoke of the trade relations between this country and his. John Kirby, of Dayton, O., was elected to the presidency of the association to succeed J. W. Van Cleave.

The Jewelers Security Alliance received a telegram last week from the Chief of Police, Allentown, Pa., announcing that A. W. Bogart, a traveling salesman of this city, who was formerly in the employ of the Waterbury Clock Co. and the Newark Art Metal Co., is being held for trial in that city for the week of June 7, unless he desires to plead guilty. The telegram stated that the man is also wanted in Harrisburg, Reading, Lancaster and other Pennsylvania cities. He was committed to jail to await an answer to a charge of securing a watch, chain and charm under

false pretenses and of skipping a board bill at the Hotel Allen, Allentown, Pa.

According to the regular monthly report of the Bureau of Statistics at the Customs House the value of dutiable goods remaining in bonded warehouses at this port, of interest to the trade, for the month ending April 30, 1909, as compared with the same time last year, are given as follows: Clocks, etc., \$16,781; watches, \$88,153; diamonds unset, \$6,107; precious stones, \$33,002; jewelry, \$1,544; manufactures of gold and silver, \$10,619. As compared with these figures, those for April 30, 1908, are: Clocks, \$19,258; watches, \$136,930; diamonds unset, \$6,107; precious stones, \$33,821; jewelry, \$1,759; manufactures of gold and silver, \$3,998.

The Jewelers Board of Trade reports that the bankruptcy sale of the stock of Max I. Dorevski, Philadelphia, Pa., brought about \$1,200, and the estate has paid the first and final dividend of 3.3 per cent. In January, 1907, Dorevski claimed liabilities of \$12,000 and assets of \$4,000, and made an offer of 25 per cent. to creditors. The Board of Trade at that time called attention of the creditors to apparent false statements made by the bankrupt to the Board and to other creditors, and the offer was subsequently refused. The defendant then filed an involuntary petition in bankruptcy and, through the efforts of the Board of Trade, L. P. White of Philadelphia was elected trustee. The discharge in bankruptcy was successfully opposed and the matter will now be argued by attorneys for the Board of Trade in the next term of the District Court.

Jewelers in various parts of the city have complained during the past week of a man who has been going about obtaining goods on memorandum under alleged false pretenses and asking for repair work, claiming that he represented various business houses in this city. The man, according to the report, was employed for some time by Henry Davidson, 51 Maiden Lane, and afterwards for a short time by M. Kameras. J. M. Macher, 54 Maiden Lane, says that he gave the man a watch case on memorandum upon the presentation of a card bearing the name of R. Bachrach. The card read: "Mr. Macher, kindly give bearer an 18 size E. G. case on memorandum." This, the dealer claims, was a forged order. N. Pecora, a retail jeweler at 203 Spring St., says that the same man obtained from him \$25 worth of chains on memorandum, and that he has not received the chains nor has he heard from the man since. Several other jewelers in various parts of the city have complained that the same man has obtained from them goods on memorandum or has solicited repair work which has never reached its intended destination, and these men also join in stating that they have never seen the offender. The man is described as being about 23 years old, weighing 135 pounds, and is slightly cross-eyed. The jewelers who claim they have been defrauded by him say that the man is a clever rascal, and they join in warning other jewelers to be careful in having any dealings with him. According to a report received from the firm of

ozar & Baumwurz, manufacturers of jewelry and silverware cases at 115 Nassau St., the man visited their place of business a week ago and said that he had formerly worked for Henry Davidson, and asked for a number of ring trays to take out and see. He took a few samples and came back again later and said that he could do with sample trays, and asked that he be given expense money and be allowed to go to Providence, R. I., where he could sell more cases. This the firm did not think it to do, but gave him 24 different cases of a new telescope holder. He left the office of the concern, and they now report that they have not seen him since that time.

H. H. Tomes, with W. J. Ward, will sail for Europe, June 8.

Ed. Sickles, of M. Sickles & Sons, Philadelphia, is in town this week.

Chas. F. Hartshorn, of Alling & Co., returned, recently, from a western trip.

Michael Leary, of the Rhode Island Jewelry Co., was a visitor in town last week.

William Hofman, of Eichberg & Co., 65 Nassau St., sailed, yesterday, on the *Rotterdam*.

J. S. Pitcairn, importer of china, 41 Murray St., sailed, Saturday, on the *Baltic* for Europe.

Andrew Brown, of D. V. Brown, Philadelphia, Pa., sailed from this city, Saturday, on the *Baltic*.

Alphonse Brahe, representing M. A. Mead & Co., returned to this city from a four weeks' trip, recently.

Simon Frankel, of Jos. Frankel's Sons, 578 Fifth Ave., sailed for Europe, Saturday, on the *Baltic*.

There has been a display of amethyst jewelry at John Wanamaker's, in this city, during the past week.

David Feiss, representing Ingomar Goldsch & Co. in the middle and far west, is absent in this city.

Berhard Faber, manufacturer of pencils, has moved the New York office at 299 Broadway to 200 Fifth Ave.

Edwin S. Strauss, of Jacob Strauss & Sons, 14 Maiden Lane, sailed yesterday on the *Rotterdam* for Europe.

Wm. T. Gough, of Carter, Howe & Co., Maiden Lane, sailed, Wednesday of last week, on the *Lusitania* for Europe.

John Hudson, formerly with F. W. Sadler & Co., has taken a position with Hutchinson & Huestis in this city.

Wm. L. Strasburger, of L. Strasburger's Sons & Co., 2 Maiden Lane, sailed, yesterday, on the *Kaiser Wilhelm der Grosse* for Europe.

J. H. Kernan, manager of the export department of the L. E. Waterman Co., 173 Broadway, was a recent visitor in Buffalo, N. Y.

Samuel Mendelsohn, formerly in business for himself in Boston, has been engaged by Korones Bros., 46 Maiden Lane, as salesman.

Moses Kahn, of L. & M. Kahn & Co., 70 Broadway, sailed, Tuesday of last week, on the *Kronprinzessin Cecilie* for the European diamond markets.

C. J. Dierckx, who represents several cut glass and china houses in this city, sailed, Saturday, on the *Laplant* for Europe. He expects to return some time in August.

Alphonse Judis, of the Alphonse Judis Co., San Francisco, Cal., is a visitor in this city, and is making his headquarters with L. & M. Kahn & Co., 170 Broadway.

Leo M. Sachs, 7 Maiden Lane, accompanied by his wife, sailed, yesterday, on the *Rotterdam* for Europe. Mr. and Mrs. Sachs will spend some time abroad visiting European cities.

Chas. L. Van Vliet, of Adolph Goldsmith & Son, 68 Nassau St., will sail on the *Princess Alice*, Thursday, for a sojourn through Germany and France. He will be accompanied by his wife.

George Wells, of the American Optical Co., Southbridge, Mass., and Edward Bausch, vice-president of the Bausch & Lomb Optical Co., Rochester, N. Y., sailed on the *Rotterdam*, yesterday.

W. G. Pollack, of W. G. Pollack & Co., 68 Nassau St., sailed on the *Laplant*, Saturday, and will visit Antwerp, Amsterdam and other European diamond markets. He expects to be away about five weeks.

J. H. Ling, formerly of Ling & Stewart, 66 West Broadway, has accepted a position as buyer for B. Altman & Co., and is at present in the European markets. Mr. Stewart will continue the business alone.

Samuel Hotchner, formerly of A. Hotchner & Son, diamond importers of St. Louis, Mo., will be in this city after June 5, and will then sail for Europe, June 12, on business. He expects to remain until Aug. 15, where he will purchase a stock of diamonds.

A trustee's sale of precious stones, formerly part of the stock of the Bohm-Bristol Co., was held yesterday morning at 113 Leonard St. A sale of silver, cut glass, umbrellas, etc., formerly part of the stock of the M. Scooler Co., also took place at the same address.

Wilson & Hiller is the name of a new firm which has just started in business as dealers in watches, diamonds, silverware, jewelry and optical goods at 3526 Broadway. Mr. Hiller was formerly an optometrist and Mr. Wilson a watchmaker and jeweler, and now they have combined the two businesses.

Black, Starr & Frost, 436 Fifth Ave., are exhibiting a fac-simile of the Cullinan diamond which was presented to King Edward VII., Nov. 9, 1907. The models show the diamond in its original state and after it had been cut into several smaller diamonds, the largest of which is known as the Cullinan first, a pendelogue pendant, weighing 516½ carats.

Max and Samuel Fineburg, wholesale jewelers in this city, with private detectives are searching in Boston, Mass., for trace of their sister, Sophie Fineburg, of Brooklyn, who, they claim, eloped with a vaudeville actor of Revere, Mass. The brothers told the police at Revere that they were certain their sister went away with one Findel, that they were married in Washington, and that the couple are now stopping somewhere in Revere. They said the girl is 20 years old.

The Jewelers' 24-Karat Club, New York, has issued a booklet containing a list of

all the officers and members of the club, together with a copy of the certificate of incorporation and the constitution. The attention of the members is called to Article II, section 2; Article VIII, section 2, and Article IX, section 1, which contains changes in the club's constitution. Members can obtain keys to the club room at the Silversmiths' building, 15 Maiden Lane, on application to the secretary, George L. Stebbins, 170 Broadway.

The Trunk Line Association has authorized merchants' reduced railroad rates of a fare and a half for the round trip to New York City for the coming fall buying season, having acted favorably on the application of the Merchants' Association of New York. This rate may be had between these dates: July 17 to 20, Aug. 14 to 17, Aug. 28 to 31, and Sept. 11 to 14. Trunk line territory includes New York, Pennsylvania, New Jersey, Delaware, Maryland, part of West Virginia, Northern Virginia and the District of Columbia.

The Maiden Lane Outing Club is completing arrangements for its annual outing at Eckstein's Park, West New Brighton, S. I., Saturday, June 5, and has decided to hold a ball game between the New York and eastern representatives at 10:30 o'clock in the morning. The captain of each team will be expected to file his line-up for the game with the president at least seven days prior to the contest. The afternoon will be given over to a variety of outdoor sports, and in the evening a dinner will be served at Eckstein's Hotel. From present indications this year's outing will be the most enjoyable that the club has ever held.

A young man went into the jewelry store of H. Lewkowitz, 106 Eldridge St., Saturday, and asked to see some watches. Clerk Louis Rockoff promptly put a tray of timepieces on the counter, and a moment later saw it being carried through the open door in the arms of the stranger. Detective King, who was lounging on the steps of the police station, leaped to the sidewalk and started for the thief. Captain Day and Detective Thompson heard Rockoff's shouts for help and hurried outside. The four men easily captured the tray-bearer. In the Essex Market Court the prisoner said he was Harry Berger, 34 years old, of 168 W. 116th St. He was held in \$2,000 bail for General Sessions.

The second exhibition of art and manual training work in the Polytechnic Preparatory School was held at that institution last Thursday afternoon. The exhibit this year displays a perfection in manual arts which probably has never before been attained in Greater New York. The work is displayed in the libraries and the office rooms on the main floor of the building. The work of the third, fourth, fifth and sixth grades is displayed in the offices to the left of the hall, and here is found some of the most remarkable work ever seen in a school exhibit. Silver brooches, rings, scarf pins and buckles, showing work in enamels and oxidizing; copper lamps for oil, gas and electricity, large and small trays, candlesticks, tobacco jars, etc., are shown; also leaded glass and advanced leather and woodwork. The exhibit also includes examples of pot-

New York Notes.

(Continued from page 79.)

which have been designed, made, fired and glazed by the boys.

John Kahn has moved his business from Jersey City to New York.

Frederick Miskam, 105 Bergculine Ave., Wehawken, N. J., has been succeeded by Joseph Wighard.

Rubenstein Bros., 14 Maiden Lane, have involved I. M. Rubenstein will continue in this city and Passaic, N. J., and George Rubenstein at Williamsport, Pa., both about change of style.

Sale of eight pieces of bisque and glass ware and outstanding accounts of S. Schwarz, formerly in business as Schwarz Bros., in this city, will be held, May 3, at 113 Leonard St. Leo Oppenheimer is the trustee in bankruptcy.

C. Morine, of Robert O'Donnell & Co. wholesale jewelers, 9 Maiden Lane, is sending creditors for a statement of their accounts with the firm, with a view to determining what settlement can be offered. The liabilities are said to be over \$4,000.

Motion to have Mrs. Daniel J. Sully, widow of the former "cotton king," declared in contempt of court for refusing to be examined before trial in a suit brought against her by Theodore B. Starr, 206 Fifth Ave., was made by counsel for the firm before Supreme Court Justice Guy, Monday. Decision was reserved. The action arises from a \$400 bill for stationery which, it is alleged, Mrs. Sully owes the firm, which, with interest, now amounts to about \$1,000.

Boston.

L. Houghton has been in Portland, Me., on business.

James S. Blake has opened his Summer residence at Point Allerton.

Walter Harris has returned from a successful trip in the northern part of New England.

Walter E. Knight has been elected a lieutenant in the Ancient and Honorable Artillery Company.

Among the jewelers in town last week were J. H. Hanson Peabody and J. A. Brightman, Southbridge.

R. Vaughan, of Vaughan & Burnett, Middleboro, Vt., was in town, last week, along on friends in the trade.

William Bond & Son, jewelers and opticians, established 1793, have removed from where they have so long occupied at 148 State St., to 4 Congress St., which is also the heart of the financial district.

A serious fire, believed to be of incendiary origin, occurred in the Crossman block on Central Ave., Lynn, wherein the store of Yellow Bros. is situated. Their loss is estimated to be \$8,000, covered by insurance.

It was announced, Monday, by United States Commissioner Hayes, when the case of John L. Nudd, jeweler and engraver, charged with using the mails in a scheme of fraud, came before him on a continuance that it was his intention to hold the defendant for the June term of the United States Grand Jury.

Last Saturday the employes of the Waltham Watch Co. who are to be in charge of

the company's exhibit at the Alaska-Yukon-Pacific Exposition, left for Seattle. They are Thomas MacKenzie, Mrs. Lillian L. Libby, Miss Clara Stronach, Miss Lettie Sherman and Albert S. Flint. Mr. Flint is accompanied by his wife.

It has been decided by the Waltham Watch Co. to sell 3,000 tons of anthracite coal at \$6.75 a ton to its married employes, each householder to be allowed to buy whatever he requires. The subject has been discussed a great deal of late in Waltham, and the coal dealers there went to the factory management asking for a conference. The result was the above announcement.

S. M. Shore, manufacturing jeweler and dealer in diamonds, who has an office in the Jewelers' building, Washington St., assigned on May 18 to George V. Phipps. An involuntary petition in bankruptcy was filed against him May 19 by the following: Bliss Bros. Co., Attleboro, goods sold, \$106.02; Standard Button Co., Attleboro, goods sold, \$381.16; R. B. MacDonald Co., Attleboro, goods sold, \$282.44.

Vincenzo Marrazzo, one of the lower stewards on the White Star Line steamship *Romanic*, walked ashore from that vessel Tuesday afternoon, May 18, with \$5,000 worth of real coral concealed in his blouse and was accused of smuggling. There is great mystery as to what Marrazzo intended doing with the gems. They number 3,700 in all and appear both in a finished and natural state ready for setting in stickpins and other jewelers' ornaments as well as for stringing into neck chains. A thorough investigation is being made by U. S. Treasury agents here and in New York.

Large delegations from the national convention of the Order of Railway Conductors, which has been in session here for about 10 days, inspected the plants of the Waltham Watch Factory on Monday, Tuesday and Wednesday of last week. An event of much social interest to the many employes of the factory was the surprise party tendered Job-Master Charles B. Gilson, of the jewelry department, and Mrs. Gilson in honor of their 25th wedding anniversary. The affair took place Saturday evening, May 15, at the residence of Foreman Charles Horner, of the train department of the E. Howard Watch Factory, 28 Fiske St., Waltham.

Maurice D. Connor, well known in the trade for many years, died Monday morning, May 17, at his home, 51 M St., South Boston, after an illness of more than 12 months. Mr. Connor was born in Boston in 1862, and after receiving his education in the public schools he engaged in business, entering the employ of the George H. Richards Co., jewelers, on Washington St., in 1882. He remained there until the change of the firm and then continued with their successors up to the time of his death. He was a member of the South Boston Council, Knights of Columbus, and the Young Men's Catholic Association of Boston College. He is survived by a widow, three sisters and a brother.

The annual meeting of the stockholders of the Waltham Watch Co. was held Thursday afternoon at the factory building in Waltham. Last year's board of directors was re-elected with one exception, E. A. Marsh being chosen to fill a vacancy. The

annual report covering operations for the fiscal year ending March 31, 1909, as submitted to the meeting, gave the total assets at the close of the year as \$13,002,713. Of this amount \$111,884 was in cash, \$1,880,154 represented watches in process of manufacture and \$1,335,932 represented supplies. The accounts payable were given as \$609,444, and the total surplus as \$893,268, or \$39,315 more than at the close of the preceding year.

The Waltham Jewel Co. is the latest trade industry in the Watch City. The company not only cuts natural stones, but is making scientifically jewels and gems, which it declares to approximate in luster, durability and color the precious stones. It commenced operations about eight weeks ago and is now running 13 hours daily, with two shifts of men. The officers are as follows: President, George A. Fiel, also president of the Waltham Business Men's Association; vice-president, Mayor Edward A. Walker, of Waltham; treasurer, Warren B. Page, of Newton; secretary, James H. Green, of Stoneham. Others of the directorate are: Edwin D. Chaplin, of Dorchester; George S. Wyman, of Waltham, general manager of the plant; John H. Lewis, of Waltham; S. D. Whittemore, of Newton, and Frank W. Sawin, of Marlboro. Among the orders the company has been filling is one for 5,000 jewels to be used by the Stewart & Clark Mfg. Co., Chicago, in speedometers.

The police believe they have cleared up the mystery surrounding the theft of \$1,200 worth of jewels from Mrs. Emily Shattuck, Orleans, Mass., which has already been told of in these columns. Mrs. Shattuck lost the bag on a train and reported the affair. Detectives took an East Boston jeweler into custody, who was later cleared of any connection with the theft. He it was, however, who gave the police a good description of the stranger who tried to sell him some rings. The result was that on May 18 Special Officer O'Neil went to a roadhouse between Epping and Exter, N. H., and arrested Harry Merchet, alias Merchant. According to the police Merchet was on the train and saw Mrs. Shattuck drop the bag of gems. He, it is alleged, pretended to help her find them, at the same time slipping them in his pocket. He was held in \$1,500 for the Grand Jury. Three of the four rings stolen have been recovered and restored to Mrs. Shattuck, while the other is thought to be in Peabody, where Merchet lived.

Market Prices for Silver Bars.

The following are the quotations of silver bars in London and New York, as reported by Zimmermann & Forshay:

	London.	New York, selling price, .999 Basis.
May 18.....	24 3-16d.	\$0.54½

Gus Huber, of Faber & Bunker, Superior, Wis., is on a trip to Europe, and will return in August.

Mrs. F. B. Tinker, whose mother died recently in Los Angeles, is on a trip there to visit her father and sisters.

W. H. Wyatt, 445 E. 63d St., has discontinued business at that address without making public where he has gone.

J. H. Miller, with the Oneida Community, Ltd., is in the northwest. W. E. Scanlon is on a trip to Michigan and Indiana.

Alphonse Judis, of the Alphonse Judis Co., San Francisco, Cal., stopped over here, last week, on his way to New York.

News is received here that Wilbur W. Dwight, retail jeweler at Niobrara, Nebr., has discontinued business in that town.

Arthur H. Jacobs, son of Theo. Jacobs, of Theo. Jacobs & Co., formerly in charge of the office, will hereafter travel on the road.

The jewelry store of J. Salk, on W. 12th St., near Halsted St., was recently destroyed by fire. The loss was covered by insurance.

On account of his store being leased over his head, Wm. H. Whitmore, 637 W. Madison St., is temporarily without a place to do business.

The Chicago Manufacturing Jewelers' Association held its monthly meeting at Vogelsang's, May 17. Routine business was transacted.

H. G. Rettig, of Rettig, Hess & Madsen, was in the Northwestern "L" railroad wreck, last week, but was fortunate enough to escape injury.

The King Boat Co., Bass Lake, Ind., is a corporation operating two passenger boats, which were built by Don W. King, son of Hugh E. King.

Weaver & Murray, representing the Sheff Ring Forging Co., Pittsburg, Pa., have opened headquarters in room 707, Columbus Memorial building.

Half of the \$1,000,000 required for the new Chicago Association of Commerce building has been subscribed. The project is now an assured success.

C. W. Harmon, of Joseph Fahys & Co., was here, last week, on his semi-annual visit, accompanied by Mr. Leavitt, superintendent of the watch case factory.

L. M. Levy, sales manager for the Philadelphia Watch Case Co., was here, last

week, and, together with F. E. Hyatt, is making a trip through the middle west.

A. P. DuPuis, jewelry buyer for Gimbel Bros., Milwaukee, Wis., stopped over here, last week, on his way to New York, from which city he sails, this week, for Europe.

J. Lannes & Co., retail jewelers at 3540 S. Halsted St., will remove to their new premises, 3625 S. Halsted St., about July 1. An entirely new set of fixtures will be installed.

Bliss Bros. Co.'s middle west representative, C. P. Crane, who has charge of their Chicago office, is now a visitor of the jobbing trade, visiting principally Cincinnati, St. Louis and Pittsburg.

Silas R. Livergood, Nora Springs, Ia., and C. W. Livergood, Reinbeck, Ia., have formed a copartnership under the name of Livergood Bros., and have opened a new jewelry store at Mason City, Ia.

Among the diamond men here, last week, were Mortimer Adler, of Chas. Adler's Sons; Henry E. Hart, of Albert Lorsch & Co.; Frank Huff; Sig. Stern, of Stern Bros. & Co., and Robt. Allan, of Power & Allan.

In a notice in these columns in the issue of May 12 it was stated that Anton Rominski, son of Frank Rominski, retail jeweler at 695 Milwaukee Ave., had opened a new jewelry store at 1499 W. North Ave. This was an error, the proprietor's name being Anton P. Okoniewski, who is a nephew of Frank Rominski.

The Seth Thomas Clock Co. recently sold to Hopkins & Witty, Dubuque, Ia., a two-dial street clock with 40-inch glass dials; has supplied a Cedar City, Utah, church with a four-glass-dial clock, three feet six inches in diameter, and has furnished the Red Key, Ind., city hall with a tower clock having four five-foot wooden dials.

The bill introduced into the Illinois Legislature by the Illinois State Society of Optometrists was defeated in the House on May 21 by an overwhelming majority. The bill needed 77 votes to pass and received but 28 votes. Fifty members voted against it. The officers of the society have not lost hope, but will continue their efforts to have a bill passed.

A very unique game of baseball was played, last Saturday afternoon, between various members of the jewelry trade here. The game was called at 2:30 p. m. on the property of George G. Gubbins, at Ravenswood, and when it was over the score stood 96 to 95, one of the closest amateur games

ever played in this locality. The play was most brilliant. A few of the elm trees on Lawrence Ave. were knocked down by some hot liners. After the game the players were the guests of Mr. and Mrs. Gubbins at their home, 132 Giddings St., where a supper was served and good fellowship prevailed. Mr. Gubbins sang a number of German songs, in the singing of which few can excel him.

Abraham Sternberg, who was charged with stealing 38 watches from the Elgin National Watch Co., was brought back from Trenton, N. J., to Elgin early last week and held in \$2,500 bail. Sternberg was a former employe of the company. The watches were found in a Chicago pawnshop and the accused was traced to Trenton, N. J., where he was captured.

Among the out-of-town retail jewelers here, last week, were: Adam Immig, of Adam Immig & Son, Sheboygan, Wis.; Harry L. Berg, of the Berg-Arduser Co., Dubuque, Ia.; George Block, of the L. Block Jewelry Co., Milwaukee, Wis.; R. A. Woodward, Sandwich, Ill.; H. F. Steck, Washington, Ia.; S. R. Mace, Moulton, Ia.; J. W. Neasham, Ottumwa, Ia.; G. M. La Pierre, Niles, Mich.; M. Plain, of Trask & Plain, Aurora, Ill.; Capt. H. W. Klopff, Neillsville, Wis.; C. F. Ingalls, Waukegan, Ill.; Mr. Rystrom, of the Bauer Jewelry Co., Elgin, Ill.; Mr. Aarons, jewelry buyer for J. L. Brandeis & Sons, Omaha, Nebr.; Mr. Barrett, of Emerick, Barrett & Co., Freeport, Ill.; A. C. Fuchs, Stoughton, Wis.; Herman Oberreich, Oberreich & Arnold, La Porte, Ind.

The House of Representatives of the Illinois Legislature has passed a bill amending the act to punish misrepresentation of assets or liabilities so as to cover misrepresentation by any officer or member of a firm or corporation. The present law has been construed to be inoperative as to the member or officer of a firm or corporation who misrepresents the assets of that firm or corporation, and thereby defrauds persons or institutions extending credit on the representations made them. The bill was introduced by Representative W. T. ApMadoc. It is provided in the measure that any person who makes misrepresentation knowingly of his assets and liabilities, or of those of a firm or corporation of which he is a member or officer, in writing and signed by himself, and thereby obtains credit for himself or for such firm or corporation and defrauds any person of money, shall be liable to a fine of \$2,000 and imprisonment in the county jail not exceeding one year, and shall be sentenced to return the money fraudulently obtained if it can be done. Senator Hay will take charge of the bill in the Senate.

In the sight of a number of pedestrians a man threw the window of the jewelry store of Ernest Strassburger, 563 Lincoln Ave., last week, and after stealing jewelry valued at \$1,500 escaped. The stolen goods consist of four solitaire diamond rings, one brooch and several stick-pins.

C. E. Colvin has leased a portion of a millinery store at Addison, N. Y., where he will open up as a jeweler and optician about the first part of June. Mr. Colvin comes from Woodhull.

Cincinnati.

Godfrey M. Braham, of A. & J. Plaut, has started on a southern business trip.

"Steve" Leubuscher, of L. Gutmann & Sons, and his wife are home from a stay at French Lick Springs, Ind.

The Oskamp Jewelry Co., at 5th and Vine Sts., has added an engraving and stationery department to its business.

G. F. Gallup, Catlettsburg, Ky., called on the trade here on his return from French Lick Springs, Ind., last week.

William Schultz, New Orleans representative of Hahn & Oppenheimer, was here, last week, replenishing his line.

The Ku-Kus, Nest No. 2, held a Dutch lunch and bowling tournament at the close of the regular meeting, May 21.

Joseph Noterman, of Joseph Noterman & Co., and wife are enjoying a 10 days' sojourn at French Lick Springs, Ind.

Henry Mehmert has returned to his home in Olney, Ill., after attending the funeral of his nephew, the late Joseph Mehmert, Jr.

J. W. Keller, Georgetown, Ky., was here, last week, on his way home from the Knights Templar conclave at Ashland, Ky.

L. Lindenberg, of Lindenberg, Strauss & Co., and A. J. Thoma, of Thoma Bros., have returned from a short stay in Chicago.

R. Moss, of Owensboro, Ky., stopped over here on his return from the B'nai Brith Convention, held last week at Dayton, O.

O. W. Smith, Carrollton, Ky., was here, last week, on his way to St. Petersburg, Fla., where he expects to remain about a year on account of his health.

The members of the Cincinnati Wholesale Jewelers and Manufacturers' Association met May 20 and passed resolutions to close their manufacturing and jobbing houses here on Saturday afternoons through June, July and August.

As yet the local police have not found the thieves who broke into the pawnshop of S. C. Marx, Central Ave., recently. The robbers entered the place by springing the bars of a window in the rear and stole jewelry valued at \$100.

The A. A. Spiegel & Co. receivership was ended May 22, and the business is conducted now by Mr. Spiegel alone, as he was successful in making a satisfactory settlement with all his creditors. Mr. Spiegel has moved his business to room 208 in the Neave building, opposite his old quarters, and has started on a business tour among his customers in the south and southwest.

Out-of-town jewelers who were here the past week buying stock included: R. W. Clark, Burlington, Ky.; C. B. Durbin, Peru, Ind.; F. K. Barton, Pebles, O.; W. A. Meyer, with G. W. Meyer Jewelry Co., Chattanooga, Tenn.; O. E. McWaters, wife and daughter, Somerset, Ky.; C. A. Curry, Smiths Grove, Ky., and Mr. Conn, of the Conn Jewelry Co., Bowling Green, Ky.

Abner Thorp, trustee of the estate of Albert Harry Feltman, a former 14th St. jeweler, filed his report in the United States District Court, May 20, in regard to the selling of the Feltman real estate by public auction, May 10. A brick house of four rooms at 212 Church St., appraised at \$1,600, was sold for \$2,005; a frame dwelling at 1406 Tower Ave., appraised at \$3,300,

brought \$2,500, and a vacant lot, 50 x 11, Tower Ave and Church St., appraised \$1,000, sold for \$750. The report was approved by the bankruptcy referee.

Owing to the fact that the creditors of the Duhme Jewelry Co. are insisting on the payment of their claims, R. de V. Carre receiver, made application to the United States District Court, May 20, for an order permitting him to sell the assets of the Duhme Jewelry Co. to settle claims, as the company could not meet its agreement to pay 100 cents on the dollar as the claim came due.

The 30th anniversary of the National American Turner Bund will be celebrated here from June 19 to 27. The Miller Jewelry Co. has contracted to furnish 12,000 German silver medals and 2,000 souve watch fobs for the occasion. The medals, which are unique and handsome, are 1 1/2 inches in diameter. On the top, in relief shown the ancient Greek discus thrower also the victor's wreath of laurel and olive. The medal is suspended from a bar by means of ribbon in the national colors—red, white and blue.

Denver.

C. L. Beard, Longmont, Colo., was in Denver, recently, buying goods.

H. W. Blackstone, Palisade, Colo., sold his business to C. B. Stover.

Col. J. D. Lewis, auctioneer, left, recently, for Beaumont, Tex., to conduct an auction sale.

F. N. Crocker, Cunningham & Crocker, Silverton, Colo., was in the city, this week, buying goods.

E. Klinger & Co., formerly at 900 1/2 St., have consolidated their business with Harry B. Kortz.

H. G. Petty, Fort Collins, Colo., passed through Denver, recently, on his way to attend his father's funeral.

Alvin Herman, Brighton, Colo.; Hebert Curtis, Littleton, and S. Salomon, Platteville, were in the city, this week.

J. J. Hoffman, Fort Collins, Colo., was a visitor here, last week, and bought a bill of goods from the local jobbers.

Charles H. Brink, formerly in business at 404 16th St., has sold his business to J. Hensen. Mr. Brink will leave for New York to accept a position.

The Enterprise Jewelry Co. has donated a diamond ring which will be offered as one of the prizes for the bicycle Marathon to be held in this city, June 5.

H. W. Protos, who had been doing business at 1784 Larimer St., opposite the Windsor Hotel, committed suicide, recently. Protos was an invalid and came here several years ago to benefit his health, which, however, did not improve. He leaves a widow and two small children.

The Executive Committee of the Colorado Retail Jewelers' Association held a meeting, May 15, at the store of Al Stack & Co. to arrange for its convention and decided on June 29 and 30 as the dates. All of the arrangements were planned, including a banquet and several other entertaining features. All who attend are assured of having the time of their lives. The organization is gaining members, and its outlook is bright.

Los Angeles.

Bert Lissner, Oakland, Cal., and his wife have been visiting in this city for a short time.

William Petry, lapidary, 114 S. Spring St., will soon visit his new mining property in Nevada.

Miss C. Wiederman, of the Whitley Jewelry Co.'s sales force, is spending a short time in San Francisco.

J. Wiesenberger, 453 S. Broadway, has come to San Luis Obispo to remain at the springs for about a week.

Ed. T. Willis, representing Hambricht & Walsh, has gone on a trip through the north, expecting to be gone two months.

James B. Cohn, formerly of the Diamond Palace, this city, who has been spending his honeymoon here, will open a loan office in San Francisco about June 1.

The Ellis Jewelry Co.'s store in the main building was closed for a few days recently, but reopened again, and has been advertising a sheriff's sale at cut prices.

Arthur Turner, traveling salesman for E. W. Reynolds Co., has recently purchased a handsome automobile and has been entertaining many of his friends with it.

Karl Zimmer and A. Moltzen, of the German-American Turquoise Co., 114 S. Spring St., have recently received several shipments from the Montezuma mine, Nevada, which they own.

O. L. Wuerker, 229 S. Spring St., was recently called suddenly to his former home at Alton, Ill., by the illness of his mother. He was too late, however, to see his mother alive.

Lonnie Feagans, son of George Feagans, Brock & Feagans, has, with his wife, returned to his home in Joliet, Ill., where he is in charge of the jewelry business formerly conducted there by his father.

Montgomery Bros. during the past week have been exhibiting in their window the dogs of the Southwestern Kennel Club, about 150 in number. This number is sufficient so that every dog may have not only a day, but his cup.

The Jupiter Consolidated Jewel Co., 414 S. Broadway, have just manufactured a large line of original designs in pins, brooches, etc., which is given the title of hand-craft, since the line embraces a variety of handsome stones.

The work of remodeling F. Selkinghaus' store, 502 S. Broadway, has been completed. The optical department has been placed in a gallery in the rear, new front windows on up-to-date lines have been constructed, and the store generally presents a much improved appearance.

J. Walter, who recently met all his financial obligations and received back his former stock, has rented a store at 729 S. Broadway, where he will open for business, June 1. The store is not so large as the one he occupied on Spring St., but is in a locality that is rapidly developing in a business way.

J. N. Dickey, Jacksonville, Fla., vice-president of the Hammatt-Dickey Co., has been the eastern sales agency for the 20th Century facet-cutting instrument, of which F. Stansfield, of the Jupiter Consolidated Jewel Co., this city, is the inventor and

patentee. Mr. Stansfield has established a machine shop for the manufacturing of the instrument in this city.

The Chief of Police a few days ago asked the Police Commission to revoke the license of C. H. O'Conner as an auctioneer at 532 S. Main St. The Chief reported the names of three persons who, it is alleged, have been swindled by buying cheap watches at the place, which he says is filled with a gang of "bidders, shillabers, boosters and cappers." The commission cited O'Conner to appear for trial.

Dick Ferris, a local theatrical man much interested in automobiling and ballooning, announces that he will give a \$1,000 trophy as a prize for a coming automobile race at Santa Monica, near this city. A committee has been appointed to secure designs for the cup, and as it is Ferris' wish that the cup be bought in this city, it is expected that there will be considerable rivalry in bidding for the order. Ferris will give \$25 for a suitable design which the committee will accept.

Minneapolis and St. Paul.

J. B. Hudson, of J. B. Hudson & Son, left, this week, for a trip to Europe, accompanied by his wife.

Mr. Nelson has resigned his position with S. Swanson, and will go out selling optical instruments and supplies.

J. Voolley is a new watchmaker for H. Banks, succeeding Mr. Gustafson, who resigned to take a position with S. Swanson.

Further attempts have been made at smashing the windows of jewelers in Minneapolis, but the contemplated thefts have been averted.

Wholesale jewelers of the Twin Cities are seeking to work out a plan of more and better publicity for the Twin Cities as a market for buying jewelry.

Recent visitors during the week included W. C. Kayser, Millbank, S. Dak.; Bruno Zimmerman, Parkers Prairie, Minn.; A. Feinberg, Brownton, Minn.

C. P. Crane, the middle west representative of Bliss Bros. Co., Attleboro, Mass., and manager of their Chicago office, has been visiting the jobbing trade here recently.

The A. H. Schultz estate, 257 Cedar Ave., Minneapolis, started an auction sale May 22, to close out the stock. Mr. Schultz has been dead for nearly a year, during which time the widow has continued the business. The sale is in the hands of the C. L. Bouton Co., which makes a specialty of clearance sales.

D. Marx's Sons, wholesale jewelers, St. Paul, will erect a \$25,000 building on Cedar St., near 8th, as an investment. The foundation will be put in for a four-story structure, but only two stories will be built at present. The firm will continue in the present location in the wholesale district at 4th and Sibley Sts.

The trustees for the creditors of John D. Bodfors, 304 Nicollet Ave., Minneapolis, have instituted an auction sale of the stock, the auction being in charge of H. T. Stapleford, New York. This stock has been in the hands of trustees for several weeks, and it has been decided to have an auction sale of the stock to turn it into money.

A special train will convey a party of

Minneapolis jobbers on a tour of the country opened up by the new line of the Chicago, Milwaukee & St. Paul Ry. Stops will be made at all stations from Lemmon, S. Dak., to Harlowton, Mont. The return will be over the main line of Northern Pacific, with stops at all points west of Bismarck, N. Dak. The trip will take a week. Jobbers of all lines will be represented in the party.

Pacific Northwest.

J. Shaul, Raymond, Wash., has been granted permission to auction his stock of jewelry.

The court house at Tacoma, Wash., is to be equipped with a clock and striking mechanism.

J. B. Hunt, Henderson, Nebr., is in Newberg, Ore., with his family, and is looking for a location for a store.

J. T. Young, Hunters, Wash., is erecting a building at that place that will be used both as a store and a residence.

Copperfield, a new town in Oregon, is to have a jewelry store, H. Knox & Co., of Elgin, Ore., having decided to open there.

E. M. Young has purchased the stock of C. A. Nutt at Rainier, Ore., and has assumed control of the business.

In order to steal a diamond valued at \$75, thieves broke two plate glass windows valued at \$40 each, at Ballard, Wash., recently.

Dawson Harris, who has been with Winslow Bros., Pendleton, Ore., for some time, has left for Coeur d'Alene, Idaho, where he will engage in business.

Pacific Coast Notes.

O. W. Halstead, Corning, Cal., will shortly open a store in the Marks building, at Oroville.

S. A. St. Cyr, Yreka, Cal., and Mrs. A. Hansen, Sheldon, Ia., were married at Yreka, recently.

A brick building, to be occupied by English's jewelry store, is now in course of construction at Lindsay, Cal.

Read McCraney, Sonora, Cal., announces that he is to retire from the jewelry business, and is selling out his stock at a special sale.

Interest is centered on Oroville, Cal., where the United Diamond Mining Co. has been working on a claim which is reported very promising. Several small stones have been found on the old mining dumps near Oroville of late, and the local jewelers have sent a number away to be cut and polished.

Kenneth Williams, who was arrested some time ago on suspicion of being one of the burglars who got about \$48,000 worth of gems a year ago from the Lundy Jewelry Co., San Francisco, has been discharged. After Williams was arrested a quantity of watch chains were found on him and were identified as having been taken from the store of the Alphonse Judis Co., but Mr. Judis would not swear to a complaint and Williams is believed to have received the chains from the real thief, whose name is not known.

Milwaukee.

In order to reduce its stock of china and glass-ware, the C. F. Graff jewelry establishment at Elkhorn is conducting a special sale.

M. S. Bush, a Northfield (Minn.) jeweler and optician, has taken charge of the jewelry department of J. E. Daly, Grand Rapids, Wis.

The Calkins Jewelry Co.'s baseball team of Waukesha will represent that city in the Milwaukee City League this season and will play its first game this week.

Secretary Franklin Thomson, of the Wisconsin Retail Jewelers' Association and of the Jewelers' Mutual Fire Insurance Co., of Wisconsin, was in Chicago last week on business connected with the new insurance company.

A branch of the Michel Jewelry Co. has been opened at Cambria, Wis., by Carl Michel and Fred Schultz. Mr. Schultz will have charge of the Cambria establishment and Mr. Michel will remain manager of the store at Portage.

A. H. Blaschka, Watertown, Wis., employed for the past year in a jewelry store at Wilkes-Barre, Pa., who has been confined to his home at Watertown by a serious injury to one of his limbs, has recovered and has been made traveling salesman for a jewelry firm of Cleveland, O. Mr. Blaschka will cover Wisconsin territory.

F. L. Eltzroth, Elkhorn, is under the doctor's care at the present time, and the opening of his new stock of jewelry has been postponed for a time. Mr. Eltzroth has announced that he will present a handsome gold watch to one of the graduates of the Elkhorn high school, the winner to be decided by a vote of the students of the school.

Archie Tegtmeyer, 392 National Ave., had a narrow escape from death last week which he will not soon forget. Mr. Tegtmeyer is taking an active part in the campaign which is being waged for a new depot to be erected at the Allis station on the Chicago & Northwestern Railway. With Attorney Fred C. Lorenz he was looking over the ground, when he narrowly escaped being run down by a switch engine. Mr. Tegtmeyer owes his life to Attorney Lorenz, who pulled him from the path of the engine just as he was about to be struck. "It was a close call," said Mr. Tegtmeyer. "There were so many engines around there that I did not hear one of them coming behind me. Suddenly I heard Mr. Lorenz shout. He grabbed me at the same time and pulled me to one side while the engine shot past."

Milwaukee jewelers are beginning to think that an epidemic of jewelry robberies has struck the city. Added to the string of robberies of the past few weeks two more were executed last week. Smashing the plate glass window with a brick a thief raided the show window of Herman S. Miller, 181 Mitchell St., at an early hour and made away with 15 gold watches and a valuable ring, all valued at about \$250. Detectives on the case believe that the theft was committed by the same thief who looted the window of the August H. Stecher Co. two weeks ago. The store of Saul Lipski, 158 30th St., was entered not long ago and the burglars made away with

jewelry and second-hand goods. Arthur Zimmer was arrested for the crime and has just been sentenced in the Milwaukee municipal court to three years in the State penitentiary at Waupun.

Kansas City.

The Hassig Jewelry Co. has been so busy lately that night work has been necessary.

Orville Schrack, of W. H. Schrack & Son, Pratt, Kans., was married in that city, May 12.

Press dispatches report the death by suicide, May 14, of W. S. McNeil, of McNeil Bros., Iola, Kans.

The six-year-old son of L. Randazzo, Missouri avenue, near Grand avenue, died, Wednesday, of scarlet fever.

J. Ludwig, St. Louis, is visiting his son, Leo H. Ludwig, vice-president of the Edwards & Sloane Jewelry Co.

The Greene Jewelry Co. reports business as very good, this being the season when the force is employed in getting out college and school pins and emblems.

Invitations for the wedding of Will Lewis and Myrtle Brown, both of this city, are out. Mr. Lewis is a jeweler in the employ of Margolis & Metzger. The wedding will take place June 2.

Leo H. Ludwig, vice-president of the Edwards & Sloane Jewelry Co., is back from a trade trip with the Commercial Club through northern Missouri, southern Iowa, Nebraska and Kansas. He reports having a tip-top time.

E. J. Gross, representing the Niles Ring Co., is back from a Spring trip through Missouri, Kansas and Nebraska, and reports a good business. He will remain in the branch office here until July, when he starts out again.

Garrie O. Sill, who formerly lived in Kansas City, has just opened a new jewelry store in Eufaula, Okla. Mr. Sill has purchased an entirely new stock and new fixtures, and his store is one of the most attractive in that section of the country.

The following retailers from Kansas City territory were in town during the week: D. C. Clark, Lockwood, Mo.; B. E. Kidd, Corder, Mo.; S. J. Huey, Excelsior Springs, Mo.; Fraser & Cramm, Leavenworth, Kans.; J. H. Whiteside, Liberty, Mo.

Marvin L. Truby, Independence, Kans., was elected Grand Commander of the Knights Templar of the State, May 12, at the convocation of the order in that city. Mr. Truby has been the recipient of a number of congratulations from the jewelers of this city.

The Meyer Jewelry Co. is bound to maintain its reputation as being the favored abode of the little god with the bow. Gus Fraust, an employe of the company, and Miss Gerta Arhund will be married, May 29, in this city, according to the handsomely engraved announcements that are being sent out.

D. B. Ward & Co. are now installed in their new quarters in the Boley building. New and strictly up-to-date fixtures and furnishings give the company a home of which it has reason to be proud. With glass front on the east and south, it has all the light that is needed, while the location in itself is one of the best in the city.

Indianapolis.

TRADE CONDITIONS.

Local jewelers are looking forward to a trade during June, the month of brides and grooms. Indications are that trade in wedding graduation gifts will be much larger than in last year, for many inquiries are being made. Inquiries are also for higher grades of goods that were purchased last year.

J. H. Reed has returned from a week spent on his farm.

Will Schafer has taken a position with Hoffman & Lauer. He was formerly with George S. Kern and Elmer Stokes.

A baby boy was born to Mr. and Mrs. David Pevny at their home, 806 S. Alabama St., on May 16.

Donald A. Hickman, who has conducted a trade shop for several years in N. Madison St., has gone out of business.

Dyer Bros. made 29 gold and silver medals for the High School athletic team held at Richmond, last week. Charles Dyer attended the meet.

Among visitors in the city, last week, Col. P. M. Hacker, Louisville, Ky., a well-known composer and writer of songs, was the guest of Charles J. Kiefer, who in addition to being a jeweler, is a craftsman of considerable ability.

Peru, Ind., will have a home-coming and celebration of its 75th anniversary beginning Aug. 9. Merchants will prepare for several thousand visitors. Omerman has been appointed chairman of a committee to arrange the special attractions.

The Indianapolis Merchants' Association to which many downtown jewelers belong have decided to close at 5 p. m. except Saturday during June, July and August closing at noon Saturday. The association will have its annual outing at Blooming Glens, Thursday.

Local jewelers will write to Senator Eridge congratulating him on his stand on the watch provisions in the tariff bill. Recently the jewelers protested to the Senator relative to the provision requiring the print of the maker's name and address on foreign watch dials.

Elmer Stokes, who some time ago purchased the watch repair shop of George Kern in the State Life building, has taken A. O. Pickett into partnership. Pickett, who has been employed watchmaker by Mr. Kern, is the son of A. Pickett, a jeweler at Newcastle.

The jewelry store of A. E. Davison, which was burned on May 17, the loss estimated at \$5,000, on which there was \$2,500 insurance. The fire started in a jewelry store and spread rapidly to adjoining business buildings. Mr. Davison was absent from home at the time of the fire. Besides the loss on the building and \$350 in bills were burned.

From the number of retailers in the city last week, there was apparently a noticeable increase in trade for wholesalers and manufacturers. Among those in the city: J. E. Kiser, Muncie; Joseph Myers, Ellettsville; John Kennard, Rushville; J. K. Wells, Otterbein; I. H. Barnes, Greencastle; John Bauchert, Noblesville; A. B. J. Sheridan; E. M. Young and George Man, Seymour; S. E. Anderson, Bedford; C. R. Van Meter, Greenfield and Hoke, Winchester.

St. Louis.

E. Massa, of the Bauman-Massa Jewelry Co., recently returned from a 10 days' trip to Iowa.

W. Haberman, of Haberman & Co., Hotel building, has gone to Kansas City on business trip.

A son has been born to Arthur Widdighe, city salesman of the St. Louis Clock & Silverware Co.

Samuel Kober, of the Maritz-Kober Jewelry Co., returned from a trip to Oklahoma, Texas and Arkansas.

W. Beardsley, Litchfield, Ill., who spent part of the week in St. Louis, was accompanied by his wife.

J. Burke, president of the Brooks Jewelry & Optical Co., returned, recently, from business trip to Memphis.

Sam Gold has filed a replevin suit against Herman Dorman in Justice O'Halloran's court. The amount declared is \$28.75.

Bert F. Reeves, of the Reeves Co., left, Sunday morning, for New York, where will spend 10 days making purchases.

Mrs. Jacob Ryser, whose husband died lately, is closing out the jewelry business at 325 Franklin Ave., which he conducted to his death.

William F. Baier, 1811 S. Broadway, has returned from Los Angeles, where he has ranch business. He will remain in St. Louis until Fall.

Arthur Rombach, of Rombach Bros., who recently removed from Texas to Canton, Miss., was in St. Louis during the week, making purchases.

E. Jeffries, heretofore with Theo. G. Eckhardt, Jefferson City, Mo., has taken employment with the Reeves Co., in the new building. He will go out on the road a little later.

Rudolph Bros., Clarence Heyman, C. L. Lange and Morris Bauman, travelers for the Bauman-Massa Jewelry Co., returned, this week, from their Spring trips, and will be in town until the Autumn.

Edward Meier, of the St. Louis Clock & Silverware Co., left, Sunday night, for a trip through southern Missouri and Illinois. George H. Cummings, of the same company, has gone to northern Missouri.

In the bankruptcy proceedings pending before Referee Coles against Edward H. Diepkamp, W. O. Anderson was allowed \$100 for legal services rendered petitioning creditors and \$34.12 for costs advanced.

Herman Anderson, who is associated with his father in the jewelry business at Florville, Ill., spent a few days in St. Louis on his return trip from Decatur, Ala., where he attended the wedding of a friend.

Henry Lowenstein, formerly in the jewelry business on S. Broadway, and more recently engaged in the real estate business, has opened a jewelry and diamond brokerage business on the second floor at 800 Olive St.

On the 10 days' tour of the southwestern States, arranged by the Interstate Merchants' Association of St. Louis for the purpose of boosting St. Louis, the Mermod, Jaccard & King Jewelry Co. is represented by C. L. Bates.

Medals to be given to successful players in the *Post-Dispatch* Baseball League and to the winners in the Interscholastic

League track and field meet have been made by the Mermod Jaccard & King Jewelry Co., and are on exhibition in the windows of the firm.

The annual meeting of the Missouri State Association of Retail Jewelers, to be held in June, is going to be a retailers' meeting in the full sense of the word. Advance information about the program indicates that practically all of the addresses and papers are to be by retail jewelers, and the discussions will naturally be participated in almost exclusively by the retailers.

Herman Mauch, president of the Retail Jewelers' Association of St. Louis, who is also Potentate of Moolah Temple, Nobles of the Mystic Shrine, will leave, June 6, at the head of his Shriners, for Louisville, Ky., to attend the annual Imperial Council meeting. He and his party will go on a special train. A band of 24 pieces, a patrol of 36 men and a choir of 23 men will be taken along.

Among the out-of-town jewelers in St. Louis during the week were J. W. Strain, Carrollton, Ill.; Arthur Rombach, Canton, Miss.; J. Edward Bost, Morrisonville, Ill.; William C. Buoy, Buoy & Daveleit, Springfield, Ill.; Edward L. Meyer, St. Charles, Mo.; Otto Rink, Carlyle, Ill.; W. K. Urbani, Vandalia, Ill.; E. E. Gibson, Marissa, Ill.; James A. Bainbridge, Marion, Ill.; A. Gerber, Edwardsville, Ill.; W. T. Woolford, Potosi, Mo., and C. W. Beardsley, Litchfield, Ill.

Prof. Walter Edward McCourt of the department of geology of Washington University, St. Louis, just back from Pike County, Ark., delivered a lecture on "Arkansas Diamonds" at last week's meeting of the Academy of Science. It was illustrated with stereopticon slides. He says there is reason to believe that diamonds will be found at a much greater depth than any of the diamond miners have as yet gone. No shafts have been sunk deeper than 30 feet up to this time. Development work has been carried on mostly up to this time by the natives, he says, and has been of a crude character. He believes the development of the field is yet in its infancy. Professor McCourt says his examination of the rock formations convinces him that the occurrence of diamonds is due to volcanic action.

Toledo.

The Lion Store is displaying a fine line of cut glass, which has been taken on for Summer and Fall trade.

J. J. Freeman & Co. have just arranged with the Libbey Cut Glass Co. to handle and show the company's new lines of glass.

Judd, Gross & Co., successors to the M. Judd Co., are holding a special sale on all lines of watches, jewelry, marked with the old firm name.

Stanley Basch, formerly manager of the Toledo store of L. Basch & Co., is arranging to open a jewelry store on Summit Street under the firm name of Basch & Co. The store will be ready about June 1.

The Merrill & Broer Co. is now receiving the last of a series of 13 loving cups, which are to be offered in yacht races in Toledo this Summer. The cups are designed in serial form and include the W.

H. Taft cup, known as the "President's Cup," the Gilbert Harmon cup, known as the "Governor's Cup," three commodore cups and others offered by local parties or publications. Later on the cups are to be grouped and photographed. In addition to the foregoing, a 14th cup will be offered by the *Toledo Blade*.

Omaha.

Sidney Taylor, bookkeeper for T. L. Combs, is serving on the jury.

H. W. Alexander has sold his jewelry interests in Sac City, Ia., to C. L. Stiller.

The store of A. Mandelberg is being repaired and decorated, which will add greatly to the appearance.

H. S. Knapp, traveling representative for the Shock Mfg. Co., left last week on a trip through Nebraska.

Albert Edholm and family spent a couple of days fishing at Ouana, Ia., and a catch of fine bass was made.

O. C. Zimm and son, of Hastings, Neb., were in Omaha a few days recently visiting and purchasing stock before returning home.

J. F. Mawhinney, formerly of the Mawhinney & Ryan Co., stopped off a few days recently to visit old friends in this city before leaving on an eastern trip.

Mr. Carlson, formerly with C. D. Peacock, Chicago, has recently accepted a position as watchmaker for E. H. Lefferts, leading jeweler of Council Bluffs, Ia.

The following out-of-town jewelers were in the city replenishing their stocks: Mr. Paeker, Geneva, Neb.; Fred Stitt, Carson, Ia.; E. A. Shepard, Oakland, Ia.; J. Jones, Logan, Ia., and John Albright, David City, Neb.

Carson & Banks made a very fine Grand Army jewel, set with diamonds, to be presented to Eli A. Barnes, Grand Island, Neb., retiring commander of the Grand Army of the Republic, Department of Nebraska.

A former Pullman car porter, giving the name of Frank C. McDermott, was sentenced to 30 days last week for trying to steal a watch valued at \$150 at the Mawhinney & Ryan Co.'s store. He entered the store during the day time and Harry Ryan, son of George Ryan, waited on him. While showing him a tray of watches young Ryan noticed the porter covering a watch with his hand, and when he slipped it into his vest pocket Mr. Ryan demanded that it be handed back. McDermott was allowed to leave the store, but the officers were at once notified, and after two days' search landed him in jail. When the case reached a jury the charge was changed from grand larceny to vagrancy, on which McDermott was convicted.

George Carhart, who has been engaged in the jewelry business in Pontiac, Mich., for the past 31 years, is retiring from business and disposing of his stock at auction. He also is offering his fixtures as well at the end of the sale. Burton H. Wade, a jewelry auctioneer of Buffalo, is conducting the auction sale. Mr. Carhart intends to travel and will probably take up his residence in California.

San Francisco.

TRADE CONDITIONS.

The wholesale trade during the past week has shown some improvement, largely because of the fact that so many retailers from the country have been here selecting stock. More visitors have been seen in the local warerooms than for many months, and some very large bills of goods have been selected. Jewelers in the mountain sections are stocking up for the Summer trade that always comes with the commencing of lumbering and mining operations.

C. O. Herz, Reno, Nev., is here at the present time.

Alphonse Judis, of the Alphonse Judis Co., has left for the east.

Lawrence Moot, son of J. T. Moot, Los Gatos, is here spending a short vacation.

Nat Shiman, of the Shiman-Miller Mfg. Co., New York, has been calling upon the local wholesale trade.

Joseph Schwartz, who represents the Keystone Watch Case Co. in the Hawaiian Islands, is here on a visit.

C. Benninghausen, Seattle, Wash., was here a short time ago. He was on his way home from a trip around the world.

Fire was discovered on the morning of May 14 in the store of the Royal Jewelry Co., 355 Kearny St., but was extinguished before serious damage was done.

G. Grossman, who has been conducting a store on Market St., near the ferry, decided to get closer to the business district and will shortly establish himself in a store on Market St., near Grant Ave.

Buyers who have been here during the past week are: A. White and G. E. Bangle, Vallejo, Cal.; L. A. Schaufele, Monterey, Cal.; J. J. Wilson, Dunsmuir; S. F. Hollander, Eureka, and F. J. Stumm, Benicia.

The Hotel Monroe Co. is prosecuting an injunction suit against Shreve & Co., to prevent that firm from operating heavy machinery in a building adjoining the hotel, which is located at 1822 Sacramento St.

One of the most noticeable characteristics of business in San Francisco at the present time is the tendency on the part of retailers to dispense with the usual cutting of prices and to ask full rates for all goods sold. They have concluded that there will be just about the same amount of goods sold no matter how low a price might be named, and have also come to the realization that the margin of profit allowed by them previous to the fire is not sufficient in many cases to meet the new order of things. The difference between the low rentals on Van Ness Ave. and Fillmore St. and what are being paid downtown at the present time are also quite marked, and the Van Ness Ave. rate is not being maintained by many dealers. As one prominent retailer said, "The expense of conducting a retail establishment is now very much greater than it was three years ago, and it is absolutely necessary that we figure a larger margin of profit on the goods we handle." One encouraging feature of trade that is very noticeable is the fact that the tourist trade that formerly was such a factor in San Francisco is showing itself again and this is expected to help out materially. Since the fire retailers have had to depend largely upon local trade, but now that the city

is filled with fine hotels and travelers are commencing to learn that they can be cared for here as well as ever they are commencing to come this way again.

Cleveland.

TRADE CONDITIONS.

The wholesalers report considerable increase in the number of inquiries, but as yet little improvement in business. Buyers are getting into town and looking over the lines, but orders are small.

Joseph Cowan, a Boston jobber, was in town this week calling on the trade.

G. W. Scribner, of the Scribner & Loehr Co., is in Passaic, N. J., visiting his daughter. He will be there several weeks.

After conducting a very successful 10-days' sale the Diamond Shop in the Colonial Arcade is temporarily closed while new fixtures are being installed. The members of this firm expect to have one of the most attractive shops in the Arcade.

The Scribner & Loehr Co., manufacturing and wholesale jewelers, 2047 E. 9th St., have taken space for an exhibit at the Cleveland Industrial Exposition, to be held in this city June 7-19. The concern will exhibit a line of the emblem goods which it manufactures, principally gold Masonic pins.

It is almost a certainty that the Webb C. Ball Watch Co. will use the entire space of the Kingman building. Recently the lease of a cigar concern who had store room on the ground floor was bought up by the Ball interests. This leaves but very little leased space except such as will run out in a short time.

Russell Clarke, who bought the block at the corner of E. 55th St. and Lexington Ave., is very much pleased with his location. Mr. Clarke had been just across the street for several years previous, but his present location, which is at a busy transfer point, is far superior to the old stand. The store has a circular front, and Mr. Clarke takes great pride in making his show windows artistic and attractive.

Among those in town last week were: D. A. Beswick, Berea; H. S. Summer, Akron; E. C. Critz, of the Critz, Haserdt Co., Elyria; W. C. Fisher, Lorain; A. H. Coleman, Massillon; Benj. Mosley, Willoughby, O.; Frank Dyer, Caro, Mich.; George High, Medina; M. Backenstos, Niles; A. Kintner, Painesville; Miss Lamphere, of the Willoughby Jewelry and Optical Co., Willoughby, and Mrs. W. N. Crow, Millersburg.

A. W. Radde, 7401 Woodland Ave., advertised the other day for a watch which he described as "a turnip brass watch, not worth a dollar, but will pay \$5 if returned." The watch was left with Radde for repairs and was given to the wrong man. The owner claimed he paid \$60 for the watch 25 years ago, but Radde said that most of the gold had worn off, exposing the brass. Incidentally, it must be a pretty good "dollar" watch that will last that long.

Tony and Antonio Taddeo, who were some time ago convicted of stealing a diamond from the store of the Scribner & Loehr Co., must serve the two years' sentence imposed upon them by Judge Ford, the Circuit Court having confirmed the

sentence on appeal last week. As noted in THE JEWELERS' CIRCULAR—WEEKLY at the time, the men, who were cousins, took a stone weighing 2½ carats, of good color, from a paper in which it had been shown to them, and left in its place a badly imperfed stone weighing 1¾+1-16 carats. At the trial they claimed that the "switching" was done accidentally, but the jury found otherwise. A third man, who was said to be a brother of Tony Taddeo and who was implicated in the transaction, had not yet been tried.

The St. Louis police have been asked to apprehend one Adolph Steinberger, who was yesterday indicted by the grand jury. Steinberger obtained goods from a number of jewelers in town after presenting letters of introduction with the understanding that he would sell the goods on commission. Altogether he got about \$500 worth of jewelry. The grand jury returned four separate indictments, and each of these contains three counts—embezzlement, larceny and obtaining goods under false pretenses. The indictments charge that on April 18 Steinberger obtained jewelry valued at \$61.35 from Max Male bracelets and watches worth \$61.35 from Nathan Miller, \$300 worth of jewelry from Isaac Miller, and the same amount from David Lightman. Steinberger is supposed to have gone to St. Louis, and the police of that place have been asked to look for him.

The Twenty-third trade extension excursion of the Wholesale Merchants' Board of the Chamber of Commerce, May 23-24, will be an invasion of lower Michigan. Several of the local jewelry houses will have representatives on the trip. H. V. Burdick will represent the Bowler & Burdick Co., G. L. Sigler the Sigler Bros. Co. and C. F. Kime the Scribner & Loehr Co. The Cleveland merchants were the first to see the possibilities of an invasion of that sort, and the idea has been widely copied. No goods are sold, the object being simply to get acquainted with the retail merchants in the towns visited and let them know figuratively, that Cleveland is on the main Territory that was considered as outside the Cleveland range has thus been opened up to Cleveland products, and the trade extension excursion is recognized as a rapid means of opening up territory that it would take a traveling salesman years to even get a foothold in. As arranged on the present trip no less than 35 towns within a radius of 200 miles of Detroit will be visited in five days. The party will take the steamer to Detroit and the special train will convey the party to the remainder of the trip.

The principal jewelers of Rome, N. Y., recently signed an agreement to close their places of business at 6.30 every evening except Saturdays, carnival nights during county fair week in September and during the Christmas holidays; every Friday evening June, July, August and September a noon, and also all day May 31, July 5, S. 6, Nov. 25 and Jan. 1. The agreement was signed by H. C. Midlam, M. J. Engelbert Co., S. E. Williams, Mrs. A. P. Williams, Thos. W. Singleton.

Philadelphia.

A. E. Baylis, Bristol, Pa., was a visitor this city, last week.

William Kinna, of the Elgin Watch Co., is in town, last week.

C. H. Meinhoefer, jeweler, Allentown, Pa., is away on a fishing trip.

William Faber, silversmith, has moved his new store, 728 Sansom St.

Paul Gesswein, with the Wm. Dixon Co., New York, was in town, last week.

James C. Tinsley, 2848 5th St., is confined his home with a severe attack of grippe.

J. W. Beath, jeweler, 129 S. 12th St., has returned from a trip to Suray Cavern.

The De Witt Wire Clock Co. has brought in Court No. 5 against the Sharpless & Sons Co.

Max Emhorn, with M. Sickles & Sons, left the week end with friends in New Haven, Conn.

Percy Savory, with the Wadsworth Arch Case Co., was a visitor to this city, last week.

W. Estis, watchmaker, 709 Sansom St., will spend the Summer at Vineland, N. J., with his family.

Nat Kinckiner, with M. Sickles & Sons, is slowly recovering from an attack of food poisoning.

F. B. Wallen, Broadway, Camden, N. J., went Sunday at Wildwood, N. J., with a party of friends.

John G. Koch, watchmaker, has accepted position with Strawbridge & Clothier in their jewelry department.

Richard J. Metzgar, student at the Philadelphia College of Horology, is spending a few days at Aliquippa, Pa.

Frank T. Koons, Allentown, Pa., was in town, last week, and purchased an automobile. Mr. Koons made the trip back in his new auto.

Miss Helen Diesinger, daughter of E. Diesinger, case maker, 720 Sansom St., will spend the month of June with friends in Newark, N. J.

Ira D. Garman, 101 S. 11th St., will preside at the convention of the Pennsylvania State Jewelers' Association at Harrisburg early in June.

Joseph B. Bechtel, manufacturing jeweler, 725 Sansom St., was an attendant at the anniversary exercises at Girard College on May 20.

George Bouchenhuner, Baltimore, Md., manufacturer of leather fobs and chains, and his wife have been spending the past week in Philadelphia.

Edmund Spring, a jeweler of Bristol, Pa., is receiving the sympathy of his friends owing to the death of his mother, Thursday. Mrs. Spring was 90 years old.

J. Albert Caldwell, of the firm of J. E. Caldwell & Co., sailed for Europe, last week.

Mr. Caldwell will spend five months abroad and will combine business and pleasure.

Robert Ottinger, an old-time jeweler, of Camden, N. J., is receiving the sympathy of the trade on account of the death of his wife, May 19. Mrs. Ottinger was 76 years old.

E. J. Berlet, Walnut and 13th Sts., has been appointed a member of the reception committee at the banquet of the Business Science Club, in commemoration of Stephen

Girard's birthday. Mr. Berlet is vice-president of this club.

Mr. Harron, of the W. L. Gilbert Clock Co., has just returned from his four months' trip through the south. Mr. Harron is now interested in the Philadelphia trade.

John G. Buseman, 2828 Germantown Ave., president of the Germantown Ave. Business Men's Association, was a delegate to the General Business Men's Association of Philadelphia.

N. Snellenberg & Co. have made and designed the prizes to be awarded the winners at the annual meet of the Artisans' Athletic Association, which will take place June 5, 1909.

Andrew Brown, son of D. V. Brown, optician, 734-740 Sansom St., sailed Saturday on the *Baltic* for Europe. Mr. Brown will be gone for a month and will combine business and pleasure.

Among the wills probated last week was that of the late Albert S. Cooper, of this city, who died at Mandeville, Jamaica, W. I., devising \$56,000 to the testator's widow, Lillie B. Cooper, absolutely.

"Jack" Johnson, champion prize fighter, purchased immediately after his bout with Jack O'Brien, last week, a diamond ring from Charles Dean, diamond broker, 117 S. 8th St., valued at \$1,800.

M. E. Hunter, Beverly, N. J., was in this city, last week, to complete the arrangements for his new boat that he is having built to sail on the upper Delaware. Mr. Hunter is a member of the Beverly Yacht Club.

Col. J. Warner Hutchins was one of the officers on Governor Stuart's staff who accompanied President Taft and his party to Petersburg, last week, at the unveiling of a monument erected by the State of Pennsylvania.

Many of the Philadelphia jewelers have special window displays complimentary to the 56th annual conclave of the Grand Commandery, Knights Templar, Pennsylvania, to be held on Monday, Tuesday and Wednesday of this week.

J. E. Caldwell & Co. have made and designed for the "Rose Tree Hunting Club" the silver prizes, which consist of tray, loving cup and pitcher, presented by Daniel Bertch Wentz to the winners at the Spring meeting, May 22, 1909.

Hollander & Fleishman will open a new jewelry store at 46 S. 8th St., May 29. Souvenirs will be given to all customers on that day. A complete line of diamonds, watches and jewelry will be carried. Goods will be sold on credit system.

J. E. Caldwell & Co. have on exhibition in their windows the prizes to be awarded at the seventh annual regatta of the American Rowing Association, Schuylkill River, May 22, 1909. These prizes have been made and designed by the Caldwell firm and consist of shields, steins and loving cups.

The following jewelers were visitors to this city, last week: M. K. Laudenslager, Souderton, Pa.; A. M. Kendall, Millville, N. J.; D. H. Krause, North Wales, Pa.; E. K. Bean, Lansdale, Pa.; M. E. Hunter, Beverly, N. J.; H. B. McFarlan, East Downingtown, Pa.; W. K. Schlotterer, Schwenkville, Pa.; R. W. Snicksoll, Mount Holly, N. J.; Miss Clara Goldsmith, Quakertown,

Pa., and George K. Ware, Atlantic City, N. J.

George J. Pequignot, 1331 Walnut St., will be married June 17 to Miss Dorothy C. Cooper. Mr. Pequignot's father, Z. J. Pequignot, who holds the unique position of jeweler for the church, is momentarily expected to die, but it is his earnest desire that the nuptials of Miss Cooper and his son take place before he dies. Mr. Pequignot has been ill for the past 17 months suffering with a complication of diseases.

Baltimore.

W. Armour Jenkins, of Jenkins & Jenkins, has returned from a trip to Boston, Mass.

The finishing touches are being rushed on the fine new quarters of Arthur C. Macy on Charles St., above Lexington, which, it is claimed, will be ready for occupancy June 1. The show windows have been completed, as well as an entire re-arrangement of the interior, and the show counters and wall cases are being installed.

Charles C. Crooks, of the Charles C. Crooks Co., has entered the present controversy between the city and the Pennsylvania Railroad over the building of a new Union Station. The railroad has submitted a plan calling for certain franchises and promises a new station to cost \$500,000 with a radical change in trackage. Most of those in charge of the city government think a \$500,000 station is not adequate for a city the size of Baltimore. Mr. Crooks has had prepared a petition which he will circulate among the business men of the city setting forth the fact that the city has nothing to gain by opposing or delaying the railroad's plans, and that if the city refuses to grant this permission, our chances for an improved station will be delayed indefinitely.

On June 2 Hotel Kernan will accommodate two meetings important to the local trade. During the day the National Watch Inspectors' Association of the United States and Canada will hold two sessions; in the morning at 10 o'clock and an afternoon session at 2 o'clock. This convention will likely be called to order by Charles C. Crooks, of the Charles C. Crooks Co., who are the only railroad watch inspectors in Baltimore. Mr. Crooks will make an address that will likely contain some interesting facts to those interested in this particular line throughout the country. At 8 o'clock, p. m., the Maryland Retail Jewelers Association will hold a meeting which is calculated to stir up additional interest in that organization. Invitations have been issued setting forth the advantages of having a strong organization of this character and some of the national officers are expected to address the meeting.

The latest thing in metalized novelties is the "Texas Horned Toad" hat pins. These hat pins are made from horned toads which have been subjected to a process of metalizing which gives a perfect representation of the living toad. Men are employed in catching the toads, which are shipped to the factory of the Metallic Reproducing Co., Chicago, where they are metalized, colored and made up into hat pins.

PATTERNS IN STERLING SILVER

The variety of our patterns in Sterling Silver Flatware is merely suggested by the illustrations. We invite careful inspection of the many designs we have at our warerooms. Our ware is in substantial weights shows careful workmanship and will be found satisfactory in every way.

INTERNATIONAL SILVER COMPANY

MAKERS OF

A new Seth Thomas Clock has been installed in the passenger station of the New York, New Haven & Hartford Railroad at Woonsocket by Charles E. Dallman.

William P. Chapin, of Chapin & Hollister Co., accompanied by his wife, son, Robert C., and daughter, sailed from Boston Saturday for a visit of several months in Europe.

The manufacturing jewelers of this city are watching with considerable interest the outcome of the meeting of the National Jobbers Association at New York, beginning June 9.

Harry Shartenberg, of the Shartenberg & Robinson Co., Pawtucket, has purchased the J. Milton Payne property on Walnut and Denver Sts., consisting of 17,500 square feet of land.

James M. McCarthy & Co.'s Woonsocket department store has been having a big run on jewelry the past week, having bought the entire stock of one of the Attleboro manufacturers.

William H. Manchester, of the Manchester Mfg. Co., and wife, who have been motoring through New York State, stopping at Albany, Poughkeepsie and Saratoga, arrived home Friday night.

The Charles E. Hancock Co. is working full time with a good book of orders ahead. John W. Sherwood, of the Solidarity Watch Case Co., New York, was in town May 20 calling upon the jobbing trade.

The jewelry business formerly conducted at 33 Broad St., Pawtucket, for the past 22 years by Louis V. Guertin, who recently died, will be continued under the firm name of The Louis V. Guertin Estate, by his widow, Mrs. Eliza Guertin.

The first annual banquet of the Rhode Island Golf Association was held last week at the Crown Hotel, and John Shepard, Jr., was re-elected president. Among those present were Arthur L. Aldred, Albert S. Vennerbeck and Walter R. Callender.

S. D. Binge, of the Sterling Silver Mfg. Co., has purchased two building lots at the corner of Elmwood Ave. and Mawney St., where he intends to erect a fine residence at once and remove his family thereto from New York.

The case of the Rhode Island Ring Co. against Samuel S. Taylor was called in the Sixth District Court Civil Session before Judge Rueckert, last Wednesday, and on motion judgment was entered for plaintiff for \$15 for costs.

Howard C. Randall has been appointed by the Municipal Court as administrator of the estate of Walter C. Randall. It is his intention of closing out the business which

his brother conducted as an enameler at 129 Eddy St.

Arthur Folis, formerly a jeweler in this city, died on Wednesday in San Francisco, where he had been living for nearly three years. He was 52 years of age and of English birth. He came to this city when very young and learned the jeweler's trade.

Barton A. Ballou, of B. A. Ballou & Co., Inc., Mrs. Ballou and son, C. Rathbone Ballou, have gone to Europe for a three months' trip through England, Ireland and Wales. They have taken their touring car and intend to enjoy automobiling during their visit.

The bronze department of the Gorham Mfg. Co. is being operated to its full capacity, and the company has orders enough to keep busy for months to come. It recently received one order of nearly \$250,000 for bronze structural work for one building in the west.

Englehardt C. Ostby, Miss Helen Ostby and Mrs. Erling C. Ostby are spending a couple of weeks in touring the Berkshire region of Massachusetts in Mr. Ostby's automobile. Erling C. Ostby is making a trip of the west on business for the Ostby & Barton Co.

William L. Mauran, of the John T. Mauran Mfg. Co., and the Wolcott Mfg. Co., was one of the incorporators of the Holmes Mfg. Co., incorporated last week under the laws of Massachusetts, with a capital of \$600,000 preferred and \$600,000 common stock, to be located at New Bedford for the manufacture of fine cotton yarns.

The regular monthly meeting of the board of directors of the Manufacturing Jewelers Board of Trade was held at the rooms of the association, 42 Weybosset St., May 21. There was a good attendance, President Robert E. Budlong presiding. Considerable routine business was transacted and seven new members added to the rolls.

The court has denied the motion for arrest of sentence of John Nelson, the N. Main St. retail jeweler and refiner, who was found guilty last week of receiving stolen scrap from William J. Wallace, an employe of Fontneau & Cook Co. of Attleboro. Exceptions have been filed by his counsel, and these will be heard by the Supreme Court.

The Gorham Baseball League was organized Thursday evening with a circuit of six teams taken from the various departments of the Gorham Co. William G. Lawton, son of Superintendent John F. P. Lawton, was elected president, Robert Durfee, secretary, and Walter Crawford, treasurer. A committee consisting of Robert Durfee, Eddie Peters and Walter Miller was appointed to draw up a schedule.

The Fitzgerald building, Eddy St., will close during the first week in July for the annual inspection and repairing of boilers, engines, etc. Among the firms in this building are Samuel S. Wild & Son, S. K. Grover Co., Fowler Bros., Harvey & Otis, George H. Holmes Co., Manchester-Smith Co., Hutchison & Huestis, M. Fitzgerald & Co., T. F. McDermott & Co., Otis Bros. Co., Baker & Winsor, H. E. Brown & Co., and W. J. Feeley Co.

Among the foreign importations received last week through the Providence Customs

House were the following: From Bremen, 12 packages of imitation precious stones, one package of jewelry and one of silverware; from Hamburg, six packages of emery wheels, one of china and one of manufactures of metal; from Havre, three packages of manufactures of metal; from Liverpool, two packages of manufactures of metal; from Venice, one package of glasses.

A number of the manufacturing jewelers were present at the opening bake of the season at the Pomham Club, May 18, among them being A. H. Beals, Boston, who was accompanied by two guests. Edward B. Hough, Everett L. Spencer and William A. Schofield are members of the executive committee that has had charge of the improvements of the grounds. This year's officers include Albert A. Remington, president, and Henry G. Thresher, vice-president.

Aram Vartanian, 19 years of age, foreman for the Standard Enameling & Plating Co., 159 Orange St., shot the 16-year-old daughter of the proprietor, Hampick Arabian, through the arm and then committed suicide by firing a bullet through his head, May 18. The girl was seriously but not dangerously injured. Vartanian had been employed by Arabian for more than a year and had his employer's permission to pay his attentions to the daughter. The latter, however, spurned his advances.

Nearly 100 members and guests were present at the annual dinner and smoker of the Rhode Island Society of Optometry, which was held in Arcanum Hall, Weybosset St., last Monday evening. This meeting was really a celebration of the victory won by securing the passage recently of the optometry bill through the General Assembly. After the dinner President William T. Wilson outlined the work of the society, and told of his great efforts in the past three years to secure the passage of the bill.

George Brodbent, formerly of this city, died last week Monday, at Southern Pines, N. C., after several months' illness. Mr. Brodbent's health began to fail about two years ago, and his physician advised him to seek a warmer climate. He had been at Southern Pines since that time. He held an interest in the electroplating business of Frank Cutter, 101 Sabin St., at the time of his death. He was a member of the Pawtucket Canoe Club and of the Sunset Club. He was married Jan. 12 last to Miss Helen Rogers of this city, who survives him.

According to the records at city hall, ex-Governor James H. Higgins has purchased the property on the northwest corner of Beverly and Sabin Sts., including 4,000 square feet of land, from Alfred S. and Abby L. Martin. Later Governor Higgins stated that he bought the property as attorney for the Manufacturers' Building Co., which owns the real estate adjoining. The property just purchased consists of several small buildings. While nothing positive concerning the matter is given out by the corporation, it is understood that it is the intention to build thereon to conform with the present Manufacturers' building, which is entirely devoted to manufacturing jewelers.

The City Council Committee on Finance has decided to recommend to the City

Council of Woonsocket at its next meeting the granting of the petition of the manufacturing jewelry concern of Thornton & Hanlon, North Attleboro, for exemption from taxation for a period of 10 years on their building and plant if they locate in that city. According to the statements made by Mr. Hanlon, the company agrees to erect a wooden factory building 125 feet in length, two or three stories in height and will employ 200 hands. The lowest wage paid will be \$1 per day for small help, while the pay of other operatives will be considerably in excess of that figure. As yet no site has been secured, but if the exemption is granted the company will locate in Woonsocket as soon as possible.

Among those who visited this city the past week for the purpose of examining lines of goods and placing orders were the following: George Boehm, New Orleans; Bernard J. Hirsch, of B. Hirsch & Co., San Francisco; I. N. Hahn and J. O. Ballard, of S. A. Rider Jewelry Co., St. Louis; David and Max Stone, of Stone & Co., Chicago; Julius D. Jacobs and Louis Rausch, of D. Jacobs & Co., Cincinnati; E. C. Pfersich and William T. Yacek, of A. L. Pfersich & Co., Philadelphia; E. A. Stacy, of Stacy & Co., New York; S. Langsdorf, of Langsdorf Bros. Jewelry Co., St. Louis; Eugene M. and Louis Stern, of Stern Bros., New York; J. Floersheim and W. A. Steinberg, of J. Floersheim Co., Chicago; Harry Morris, of Morris, Mann & Reilley, Chicago; Joseph Mayer, of A. Steinhart & Bro., New York; A. L. Stone and R. Kahn, of Stone Bros., Chicago; I. M. Oppenheimer, of M. J. Oppenheimer & Sons, Baltimore; B. S. Rothschild, of F. Lewald & Co., Chicago.

The Advisory Council of the New England Manufacturing Jewelers and Silversmiths' Association held its regular weekly meeting in the rooms of the association, 42 Weybosset St., May 20, and had a lengthy session. In addition to the consideration of routine matters the subject of the annual outing was discussed at length, but the only point decided was to hold the outing on Friday, June 18. The committee reported that a steamer would be chartered and a shore dinner partaken of at Field's Point. Beyond that the plans are purely tentative. The matter of closing the factories for the summer shutdown was discussed, but the committee having this matter in charge reported that as yet there had not been sufficient returns to make any positive statements. Edward A. Potter, who is in charge of the labor and information bureau established by the association at the rooms, reported that J. Richards, who had been acting as secretary since the opening of the bureau the latter part of February, had resigned to devote himself to other lines of business, and that H. E. Durfee had been appointed as secretary.

The incorporators of the Rueckert Mfg. Co., whose certificate was filed in this city, May 18, are George C. Rueckert, Edward Rueckert and Arnold C. Brown. The business which this concern will carry on was originally founded by Zimmerman & Lenzen, and later George Rueckert bought out Mr. Zimmerman's interest, the firm becoming Lenzen & Rueckert. About two years ago Mr. Rueckert succeeded to the business

and changed the name to the Rueckert Mfg. Co. Edward Rueckert has been in the cutlery and leather novelty business for over 25 years, and after being connected with the Gorham Co., Tiffany & Co. and the American Morocco Case Co., was for the past five years superintendent of the Rueckert Mfg. Co. Mr. Brown, the incorporator, is also a graduate of the Gorham Co., with whom he was employed from September, 1884, until May of this year. He was identified with the case department that concern since 1886, and had been in charge of that department since May, 1889. The new concern manufactures a variety of boxes, cases, trays and novelties for jewelers and silversmiths.

North Attleboro.

William H. Bell returned last week from a western trip.

S. Mandalin was confined to his bed last week by illness.

A. B. Chace has resigned as western salesman for Mandalin & Hawkins.

Louis Barrows has purchased a new motor boat for use on the Cape.

Walter Duncan is back from a trip in the interests of C. Ray Randall & Co.

A new boiler has been installed at the factory of George K. Webster & Co.

The George L. Paine Co. started its work on a 13-hour schedule Monday.

Harry Pierce has returned from a western trip in the interest of the T. I. S. Co.

Thomas G. Frothingham has returned from a western trip in the interests of his firm.

A number of want advertisements for purse makers were noticed in the local papers last week.

Edward Cargill, New York representative of E. B. Kingman & Co., Leminster, was in town last week.

The Coddling & Heilborn Co. resumed work Monday after a 10-days' shutdown for stock taking.

Edwin Coddling, W. H. Bell, Sylvester Stanley and A. W. Stanley acted as bearers at the funeral of Mrs. Isabel Cushman Friday.

W. C. Sherman has returned from a western trip for the estate of O. M. D. Charles Stanley, New York representative for the estate, was in town last week a few days.

Wm. Breese, engraver with the Bug Niles Co., and Miss Florence Knight married, Tuesday, May 18, at the parlors of the Congregational Church. They immediately started for New York, and will spend their honeymoon in the south.

John P. Bonnett underwent a serious operation last week at the Emerson hospital. After many months of suffering, it was necessary to amputate the right hand. An effort was made to save the member, but it was of no avail. Mr. Bonnett is reported resting comfortably.

F. L. Baker, treasurer for the F. L. Baker Mfg. Co., has filed the following incorporation report: Real estate, \$37,450; machinery, \$60,880; cash and debts received, \$15,633; manufacturers and merchandise, \$77,936; patent rights, good will, and other intangibles, \$20,000; total, \$241,907.

\$28,867; surplus, \$41,382; reserved for depreciation, \$32,207. Total, \$211,207. C. Ray Randall, treasurer of the C. Ray Randall Co., has filed the following annual corporation report: Machinery, \$17,900; cash and debts receivable, \$28,638; manufacturers' merchandise, \$20,745; merchandise, \$2,033; good will, \$15,000; total, \$105,076. Total, \$100,000; accounts payable, \$3,927; assets and loss, \$1,149. Total, \$105,076.

Attleboro.

Henry E. Carpenter, bookkeeper for Bliss Co., is spending a vacation at Harport, Mass.

S. Spaulding, the Mansfield manufacturing jeweler, has been elected vice-president of the Mansfield Co-operative Bank.

Joseph L. Sweet was elected State treasurer at the convention of the Universalist day schools held at Malden last week. Attleboro is to have a \$33,000 fire house. A. Luther, Edward A. Sweeney, Harold Sweet and James E. Blake are members of the building committee.

Ed Atkinson, a Providence jeweler, was married in Attleboro last Thursday to Miss Belle Rowbarger, of Providence. The wedding took place at the Methodist parsonage.

O. Bigney delivered an address at the Board of Trade meeting last week describing his trip to Panama. The address was very interesting and was enjoyed by the members.

Louis Chitron and John Such, employees of the Rothschild & Levy Co., were slightly injured last Monday while hoisting a piece of machinery. The rope broke and allowed the machinery to fall to the floor.

Two young men—Charles Beauleau and Frank Glancy—were arrested last week for stealing a quantity of pipe from the factory of the Cornell-Andrews factory. Both pleaded guilty and were held in \$100 bonds for trial.

At the meeting of the Board of Trade last week President Bigney announced that \$100 of the required \$40,000 needed for a new building by which the Mossberg Co. might be induced to remain in Attleboro has been raised and he thought the remainder would be raised within a few days. The Mossberg Co. had announced that it would be forced to leave the town unless a new building was provided for the concern, and was planning to go to Woonsocket.

In an appreciation of the many years of faithful service that Joseph L. Sweet, of the R. F. Simmons Co., has given to the Attleboro Steam & Electric Co. as its president, the stockholders of the company presented him last week with a beautiful silver loving cup. The presentation was made by Charles P. Keeler, of McRae & Keeler and Raymond M. Horton, of W. E. Richards & Co. who were appointed a committee for the purpose. The cup is a handsome souvenir and was made at the factory of Watson & Newell Co. and bears the inscription, "Presented to Joseph L. Sweet by the Stockholders of the Attleboro Steam & Electric Co."

Homer M. Daggett, one of the best known and highly respected citizens in At-

tleboro, died last Monday at his home on North Ave. He was in his 89th year and was one of the oldest banking men in the State. He was born in Attleboro Jan. 27, 1821, and attended an academy in Wrentham, the North Attleboro Academy and the Worcester High School. At the age of 17 he went to work as clerk in an Attleboro Falls store and in 1849 he formed a partnership with his brother as manufacturer. Mr. Daggett, in 1875, assisted in the organization of the First National Bank of Attleboro and was elected its first cashier, a position he held until four years ago when his health began to fail him. He leaves three children to mourn his loss—Homer M., Jr., Sanford and Alice A. The funeral was held Wednesday afternoon from the First Baptist Church.

Buffalo, N. Y.

Among the Buffalonians who expect to attend the convention of the New York State Optometrical Society, to be held at Albany, June 7, are: L. W. Aldridge, R. F. Williams, John G. Miller, E. V. Syrcer, J. W. Jarvis, George R. Fox, J. P. Simcox and A. J. Gray.

A. Zilliox, jeweler, 413 William St., is going to have a new front built on his store this Fall. In about two years' time Mr. Zilliox intends to erect an entirely new store, the building to be three stories in height and to be built of bricks. He is now having plans prepared for the new building.

J. K. Thompson, jewelry buyer for King & Eisele, wholesale jewelers, is making an extensive eastern trip buying for that firm. Mr. Thompson is making arrangements for compiling a new catalogue of the King & Eisele stock. The catalogue will be very carefully gotten up, and will be the most up to date of any that firm has yet published.

Among the creditors of Fred C. Dreher, a jeweler of Middleport, N. Y., who filed a voluntary petition in bankruptcy in the United States District Court, are: King & Eisele, \$1,800; Wm. D. Andrews, \$110; W. J. Feeley & Co., \$16.75; A. J. Demminger, Rochester, \$165; Albion Power Co., \$90; Compton & Bennett, \$83; Braddock Bros. & Co., \$53, and Lewis H. Spalding, \$31.

Among the jewelers who recently visited the Buffalo jewelry market were: M. J. Bernstein, Niagara Falls; C. D. Barnes, Gowanda; C. F. Hurd, Medina; I. Traub, Niagara Falls; C. L. Kerr, Silver Springs; F. J. Keelwray, Silver Creek; L. J. Reznor, Port Allegheny, Pa.; S. S. Prentiss, Lockport; P. M. Riley, Holland; W. M. Pinney, Arcade; Max H. Elbe, Niagara Falls; F. D. Kelsey, East Aurora.

Canada Notes.

F. X. Carrier, Edmundston, N. B., was recently burned out.

Horace Dorer, New Brunswick, B. C., has disposed of his business to J. B. Gray.

J. Louis Papineau, Toronto, has given a chattel mortgage for \$1,000 to J. F. Hollis.

P. W. Ellis & Co. have obtained judgment for \$337 against Cornelius & Co., Halifax.

Robert J. Agnew, Meaford, Ont., has

given a chattel mortgage for \$700 to R. Agnew.

W. R. Bishop, optician, London, Ont., has given a chattel mortgage to G. T. Hiscock for \$300.

Charles M. Leach, a jewelry traveler of Halifax, England, who endeavored to commit suicide a few weeks ago in Toronto by shooting himself, died at the General Hospital, Toronto, on Friday, May 14.

Out-of-town jewelers calling on the Toronto trade, this week, included: J. C. Diggins and T. Binkley, Hamilton; J. Buzza, Owen Sound; R. L. Bassett, Whitby; J. S. Beck, Brampton; W. D. Laskey, Paris, and Alex. Gibson, Peterborough, all Ontario.

On the night of Saturday, May 15, the plant of the British-American Smelting Co. at Chippewa, Ont., was destroyed by fire caused by lightning striking a barrel of gasoline. The loss is estimated at \$15,000. The structure was only built about one year ago, and in addition to smelting Cobalt ores, the company was largely engaged in refining jewelers' waste.

Asbury Park, N. J.

Nathan Schainer, optician, has moved from the Frederick to 300 6th Ave.

Louis Miller, the leading jeweler of Long Branch, will open a jewelry store on Kingsley St.

Joseph H. Ladomus, Chester, Pa., will open a new jewelry store at Asbury and First Aves.

William A. Vescelius, 615 Mattison Ave., reports a legacy of Chicago property willed to his wife.

Morris L. Weinstein, 625 Cookman Ave., jeweler, will open a new store on Cookman Ave., near the beach.

S. Raffel, who had a retail jewelry store at 615 Vine St., has opened a repair shop for the trade at 163 Main St.

A. Goldberg, who has been in business 14 years at 722 Cookman Ave., is now the second oldest jewelry firm in the city.

Heath on the Boardwalk is getting ready to open a jewelry and novelty store on Cookman Ave., near Kingsley St.

Hyman Goldberg, 611 Cookman Ave., has just renewed his lease for three years and has put in three new show cases.

Frank & Connet, wholesale optical goods, of 71 Nassau St., New York City, was represented here recently by Albert Frank.

Miss McMurray, buyer for the jewelry, silverware and cut glass departments of the Steinbach department store, has been in New York buying stock.

A. Cornelius, of 649 Cookman Ave., has one of the finest stores and largest stock of goods in the city. He will open up a new store on the Boardwalk.

The I. J. F. King Co., of St. Augustine, Fla., at 59 King St., will open at Grand and Cookman Aves., a store to do repairing, gold and silver plating, optical business, jewelry, diamonds, cut glass, china, novelties, etc.

Yoshimi & Co., of Atlantic City, N. J., at 1925 Second Ave., Birmingham, Ala., and 403 E. Broad St., Richmond, Va., will open up a new jewelry store on Kingsley St., handling ivory, silver, antique jewelry, bronzes and fine china.

1909-10 Edition Now in Preparation

THE

Buyers' Directory

will aid the selling department of any concern desirous of keeping continually before the buyers from July, 1909, to July, 1910.

It will work every day of the year by keeping your business announcement in the authoritative directory of the trade.

It reaches the buyer at the time he is looking for the kind of goods you sell.

THE BUYERS' DIRECTORY is a complete, up-to-date, classified and geographically arranged index of Manufacturers, Importers and Jobbers of the Jewelry and Kindred Trades.

It covers every line of Jewelry, Silverware, Precious and Semi-Precious Stones, Watches and Watch Cases, Clocks, Gold and Fountain Pens, Optical Goods, Supplies, Materials, Tools, Leather Goods, Art Goods, Bric-a-brac, Assayers, Refiners, etc., etc.

THIS PAGE CONTAINS A LIST OF THE LATEST PATENTS GRANTED BY THE UNITED STATES AND GREAT BRITAIN. THE UNITED STATES PATENTS THAT HAVE BEEN ISSUED AND THE REGISTERED TRADE-MARKS.

UNITED STATES PATENTS.

ISSUE OF MAY 18, 1909.

921,702. BARRETTE. CHARLES A. HOWE, Leominster, Mass. Filed July 22, 1908. Serial No. 444,749.

An article of manufacture, a barrette having a longitudinal continuous rigid and solid central strengthening rib on the back thereof, having a rounded outer surface partaking of the shape of the barrette, of substantially uniform width and thickness throughout, connected directly to the barrette from end to end, a fastening

consisting of a wire having two resilient, substantially parallel legs pivoted at one end of the bar and bent inwardly slightly toward each other at their ends whereby they substantially and snugly engage the opposite solid sides of said rib and means at the opposite end of the rib for engaging the free ends of the pin.

921,719. HOOK. ALBERT K. LOVELL, New Haven, Conn. Filed Nov. 28, 1905. Serial No. 289,495. Renewed Oct. 10, 1908, Serial No. 457,171.

A hook formed of two members, each formed of a single piece of metal, a curved bill of the S-shape formed in one end of each member in the same direction and adapted to register together to form a single bill when closed, a par-

closed loop formed by bending the other end of each member in opposite directions to form a ring, means for pivotally connecting said members at the eye end of the hook so that said members may be rotated on their pivotal supports to receive or discharge a ring or link from the eye end of the hook, for the purpose set forth.

921,801. POCKET CIGAR-SCISSORS. HENRI CLAUS, Fremont, O. Filed Jan. 10, 1907. Serial No. 351,610.

An article of manufacture comprising the opposite jaw members pivoted together at one end and in parallel relation, each of said jaw mem-

having a concavity in its inner edge, a thin blade mounted upon the flat side of one of said jaw members and supported thereby to render it operative for cutting, said blade having a straight

cutting edge crossing the concavity of said jaw member and being secured at its ends on opposite sides of said concavity, the edge of said blade co-acting with the concavity in the other jaw member in the operation of cutting.

921,816. CHAIN-CLASP. HUBERT E. KERLEY, Marietta, Ga. Filed June 18, 1908. Serial No. 439,238.

A clasp of the class described comprising a sleeve member formed with a shoulder, and a second member comprising a locking element which is bifurcated and is provided upon one of its

furcations with a boss for engagement with the shoulder of the first mentioned member, and means rigidly connected with one of the furcations and engaged by the other furcation to limit the springing of the last mentioned furcation away from the first mentioned furcation.

921,859. WATCH MECHANISM. ROBERT L. MARSHALL, Elizabethtown, Ky. Filed Sept. 15, 1908. Serial No. 453,080.

In a watch or clock mechanism, top and bottom plates, one of said plates being provided with a recess and an annular flange on the edge of said

recess, a recessed cap provided with an annular groove arranged to receive said annular flange and a spring box provided with teeth on its periphery arranged to enter the registering recesses of said cap and plate and to be guided by peripheral guide members on said cap and plate.

922,013. WATCH. WALTER B. MEHL, Waltham, Mass., assignor to the E. Howard Watch Co., Riverside, N. J. Filed Aug. 1, 1908. Serial No. 446,377.

In a watch, a dial plate, a case center upon

which said dial plate rests, and means secured to the dial side of the dial plate, whereby to adjustably attach said dial plate to said case center.

922,021. GONG FOR CLOCKS. WILLIAM C. MORGAN, Roxbury, Mass., assignor to Bigelow, Kennard & Co. Filed July 29, 1908. Serial No. 445,968.

A gong and a bridge fast thereto and extending

laterally therebeyond whereby two hammers may be utilized to strike said bridge.

922,095. APPARATUS FOR ADJUSTING BAL-

ANCE-WHEELS. FRANK R. CUNNINGHAM, Medford, Mass., assignor to Kendrick &

Davis, Lebanon, N. H. Filed Nov. 6, 1907. Serial No. 400,936.

A tool for the purpose specified, comprising an arm having portions to support and retain a balance cock, a base, and a holder for said arm rotatably connected with said base.

922,096. WATCH-HAND REMOVER. FRANK R. CUNNINGHAM, Medford, Mass., assignor to Kendrick & Davis, Lebanon, N. H. Filed Dec. 24, 1907. Serial No. 407,898.

A tool for removing the hands of watches and the like, comprising in combination, a handle, an

operating rod movable longitudinally through the same, hand-removing levers having co-operating prying arms, connections from said levers to said handle and rod, and a retainer co-operating with said arms for holding the hand after removal from the arbor.

922,197. WATCH MOVEMENT. HENRI SANNOZ, Tavannes, Switzerland, assignor to the Tavannes Watch Co., Tavannes, Berne, Switzerland. Filed Sept. 5, 1907. Serial No. 391,517.

A strong movement for thin watches, comprising front and back plates, a barrel, a pinion meshing

with said barrel, said barrel and the leaves of said pinion extending from front to back plate.

922,212. JEWELRY. HARRY TROPIN, New York. Filed March 11, 1909. Serial No. 482,807.

An article of jewelry comprising a U-shaped member, a jewel setting pivotally mounted therein,

and means co-acting with the said U-shaped member and jewel setting for securing the latter in any one of a plurality of positions within the former.

922,256. TIME-CONTROLLED APPARATUS. JOHN T. CALLAWAY, Greenfield, Ill. Filed Aug. 1, 1908. Serial No. 446,428.

In an apparatus of the class described, an oscillating rod, tanks mounted on the ends of said rod, self-closing valves arranged in the lower ends of the tanks, fixed means for engaging said valves to open the same, a movable member actuated by

the oscillating rod, a tank arranged above one of the first mentioned tanks, and chronometrically actuated mechanism for permitting the contents

of the second mentioned tank to discharge into one of the first mentioned tanks.

DESIGNS.

39,985. BADGE. ALEXANDER DICKINSON, Seattle,

Wash. Filed Jan. 18, 1909. Serial No. 478,029. Term of patent 3½ years.

39,986. BADGE. METHOD J. HYNK, Chicago.

Filed March 24, 1909. Serial No. 485,549. Term of patent 3½ years.

39,987. FRATERNAL EMBLEM. CLARENCE

WILBUR TABER, Chicago. Filed Feb. 10, 1909. Serial No. 477,260. Term of patent 14 years.

Farmersville, Cal. Filed Feb. 6, 1909. Serial No. 476,569. Term of patent 7 years.

39,990. SPOON, FORK OR SIMILAR ARTI

CLE. HENRIK HILLBOM, Wallingford, Conn., assignor to R. Wallace & Sons Mfg. Co.,

Wallingford, Conn. Filed March 29, 1909. Serial No. 486,626. Term of patent 7 years.

39,991. SPOON, FORK OR SIMILAR ARTICLE. JEANNE S. WOODS, New York. Filed

March 19, 1909. Serial No. 484,586. Term of patent 7 years.

39,992. DISH. CHARLES GRAFF, New York, as-

signor to Graff, Washbourne & Dunn, New York. Filed March 15, 1909. Serial No. 483,648. Term of patent 14 years.

39,993. GLASS VESSEL. HARRY HADEN, Pittsburgh, Pa., assignor to the H. C. Fry Glass

Co., Rochester, Pa. Filed Nov. 16, 1908. Serial No. 462,987. Term of patent 3½ years.

39,994. GLASS VESSEL. ALBERT STEFFIN, New

Bedford, Mass., assignor to the Pairpoint Co., Bedford, Mass. Filed Feb. 10, 1909. Serial No. 477,250. Term of patent 7 years.

UNITED STATES TRADE-MARKS

[The following trade-marks have been adjudged entitled to registration under the act of Feb. 20, 1905, and are published in compliance with section 6 of said act. Said section provides:

"Any person who believes he would be damaged by the registration of a mark may oppose the same by filing notice of opposition, stating the grounds therefor in the Patent Office, within 50 days after the publication of the mark sought to be registered which said notice of opposition shall be verified by the person filing the same before one of the officers mentioned in Section 2 of this act. If notice of opposition is filed within said time the commissioner shall issue a certificate of registration therefor, as hereinafter provided for."

Marks which are stated to have been "Used seven years" are registrable under the last proviso of Section 5 of said act, which is as follows:

"And provided further, that nothing therein shall prevent the registration of any mark used by the applicant or his predecessor, or by those from whom title to the mark is derived, in common with foreign nations or among the several States or with Indian tribes, which was in actual exclusive use as a trade-mark of the applicant or his predecessor from whom he derived title for seven years next preceding the passage of this act."

PUBLISHED MAY 18, 1909.

Ser. No. 41,250. (CLASS 13. HARDWARE AND PLUMBING AND STEAM-FITTING SUPPLIES.) LANDERS, FRARY & CLARK, Britain, Conn. Filed March 18, 1909.

Universal

Particular description of goods.—Chafing-dishes

TRADE-MARKS REGISTERED MAY 18, 1909.

73,745. WATCHES. MARSHALL FIELD & MASON, Chicago.

Filed Jan. 19, 1909. Serial No. 40,009. Term of patent 14 years.

73,748. BADGES AND BUCKLES AND BUCKLES FOR PERSONAL WEAR. FREDERICK RHODES, Washington, D. C.

Filed April 25, 1907. Serial No. 26,924. Term of patent 14 years.

5,209. WATCH CASE. W. H. FITZ GERALD and A. BEUCKE, Newark, N. J.

Design issued May 7, 1895, for 14 years.

271. LINK CUFF-BUTTON. J. A. FLOMER-FELT, New York.

Design issued Nov. 7, 1905, for 3 1/2 years.

643. CLOCK CASE. W. E. PARDRIDGE, Detroit, Mich.

Although 82 years of age, Daniel Drawugh, the Eberly's Mills, Pa., inventor, is still busy on certain devices. Among these a "time transit," a little time-registering instrument somewhat smaller than a watch. With the aid of the sun the correct time may be told by it within a fraction of a second. There are no breakable parts to the instrument. All it consists of is a magnetic needle, a lens and a dial enclosed in a case. The needle is flattened at the south end and is split, leaving a space of about one-hundredth of an inch. The dial is in two sections, one section being inside the other. On one the minutes and hours are marked and on the other the degrees. The outer section is moved until the zero mark is at the north point of the needle. The lens is then focused so that the little sun spot is on the split of the south end of the needle. This spot shines through on the section of the dial which contains the hours and minutes and shows different colors. This section is then moved around until two red spots of the same shade appear. A shadow line appears between the two spots and points to the correct time.

Speech of President C. T. Evans, of the New York State Retail Jewelers' Association, Before the Syracuse Jewelers' Club.

IN forming an organization, whether among jewelers or other business men, the question naturally arises, what does such an association propose to do; in what direction does it expect to employ its efforts, and lastly, and not in the least important question, is, what does it propose to do for me? How am I to be benefited by such an association?

Many will expect such an organization to show results from the start. This will prove an impossibility. Many men have many minds. Each man will have his idea of the particular line of work to take up. Each man will have some particular trade abuse, which he thinks needs correcting, and which he thinks should be the particular matter for the association to take up. When we circulated the paper in Utica, outlining the proposition and had submitted it to the various stores for their agreement to be represented at the meeting, when called, we distinctly stated that no attempt should be made by a majority vote to bind the membership to a course of action, unpleasant or undesirable to the individual member. Notwithstanding that, when we came together, several matters were introduced before we had hardly made a start towards organization. Some wanted a committee to prepare minimum prices on various standard articles; others wished to have the stores closed evenings, by agreement. In fact so many different ideas were suggested that it looked very much as though the initial meeting would prove to be the beginning and the end.

However, the wisdom of those who had promulgated the organization, prevailed, and all such matters were deferred, pending organization. The question of prices has never been decided by the association, but the early closing movement, not by agreement, but by general custom, has been brought about.

If you state a proposition to a man with whom you are not on friendly terms, he will view that proposition in a narrow manner. He will figure that because it is desirable from your standpoint, that it must be undesirable from his. Prove to that same man that you are friendly with him, and make the same identical proposition to him, and nine times out of 10 he will perceive that your interests and his are identical.

Five years ago we would have believed that to close our store evenings would have been suicidal from our standpoint. To have forced a vote on the matter would have prejudiced us against association work. In talking the matter over one day, with several of the jewelers, we decided that we would close every evening but Saturday, and to-day practically every jeweler is doing voluntarily what you could not have compelled him to do.

One reason why we didn't decide that we would not adopt measures relating to the conduct of the individual stores by majority vote, was because members could not be gotten in any other way. Jewelers previously unacquainted sometimes feel that the promoters have some axe to grind and prefer to remain outside of the association until they see what is going to be done. Thus it was in our city. Some firms did not join until the association had been running several years and its policies well defined.

Many claimed that if the organization was merely social that was no need of having it. They seemed to feel that unless resolutions were passed providing for some drastic action that the work of the association was useless. Many do not seem to understand that the old quotation, "Convince a man against his will, he's of the same opinion still," applies to this association work, and that a man can resign from the association or remain away from its meetings if he chooses.

This brings me to the particular subject of my address, the social side of a retail jewelers' association. When we finally got around to the idea of having a social session, with lunch or supper, we began to get out a full attendance, and the membership began to get together and discuss questions of mutual interest. If jewelers get together in a social way, bowl, play billiards, or go to ball games together, they are discussing other matters than business. They discover that there is a common ground on which they can get together. Friendship and good fellowship formed in this way cannot help but build up a confidence in each other's well meaning.

What follows? A confidence in a brother jew-

eler's integrity, so that the little jealousies do not creep in; the soreness does not exist which is caused by customers quoting statements of their own creation and attributing them to another jeweler whom you know, in preference to taking the word of the customer?

Lancaster, Pa.

Alvin Wolf, Lancaster, has taken a position with the New York Standard Watch Co., Jersey City, N. J.

William A. Garden has gone to South Bend, Ind., to take a position in the South Bend Watch Co.'s factory.

A. R. Bair, Lancaster, lately employed at York, Pa., has taken a position as watchmaker with a Baltimore firm.

Kendig H. Bare, head watchmaking instructor of the Technical School, spent several days in Philadelphia, last week.

Charles E. Foosc, E. R. Kant and Fred A. Wheeler, of the Non-Retailing Co., are now covering their respective territories.

John G. Wood, Uniontown, Pa., late a student at the Bowman Technical School, has returned home for a short visit before going to Akron, O., to take a position with J. P. Halc.

Tracy Dodge, formerly of Albany, Pa., who went to Granite Falls, Wash., six months ago and opened a jewelry store, writes to friends here that he is the father of an heir.

C. H. Reitling, the Carlisle jeweler who was assaulted and seriously injured by an individual who demanded credit for some jewelry, has now almost recovered from his injuries.

The baseball team of the Technical School was defeated, last week, by the Lancaster Business College, 15 to six, while it defeated the Y. M. C. A. by a score of 14 to two.

Ralph A. Clark, Hartford, Conn., late a student in engraving at the Technical School, has taken a position with J. C. Stevenson, Philadelphia, and Herbert Shiffer has taken a position with E. E. Coble, at Elizabethtown.

Abram L. Barr, with Aug. Rhoads, was one of a party of Lancaster Masons, members of Zembo Temple, of Harrisburg, who attended the ceremonial session of Rajah Temple, at which Admiral Schley was the guest of honor, last week.

The following board of directors was elected, May 19, by the stockholders of the Non-Retailing Co.: A. F. Hostetter, Esq., John W. Eshleman, Milo B. Herr, S. O. Frantz, Dr. H. E. Bowman, Willis B. Musser, H. H. Shomo, M. L. Weidman and E. E. Bruen.

In order to accommodate their business the H. S. Meiskey Co., 25-27 W. Chestnut St., has leased the adjoining building, which is now being remodeled and will be used for the tool, material, findings and manufacturing department. The old building will be devoted exclusively to jewelry, cut glass, etc.

Among the visiting jewelers here lately were: A. T. Heberling, Parkesburg; Geo. Happ, Lititz; David Frymeyer, Lola; W. J. Frazer, Lincoln; H. Frank Maurer, Strasburg; J. H. Sensenig, New Holland; S. H. Miller, Mt. Joy; A. K. Brubaker, Columbia; Emanuel Shields, Pittsburg; Donald R. McKelvey, Nashville, Tenn.

Now It's The Lord Elgin

The demand to-day is for thin watches.
The public have been waiting for a
thin Elgin Watch—now it's here—the

LORD ELGIN

The
Thinnest
Watch
Made
in
America
with
Enamel Dial

the thinnest watch made in America
with enamel dial.

Like all Elgin Watches—it was not
put on the market until worthy to carry
with it the Elgin reputation for reliability.

Every Lord Elgin is cased at the fac-
tory and timed in the case—the most
accurate thin watch in America.

Four grades—7, 15, 17, and 17
Jewels adjusted. 18K and 14K solid
gold cases, also 25 year filled cases.

Furnished with metal dials, plain or
engraved, gilt or silver.

Prices furnished on application by
your jobber, or write the Company for
only authorized price list.

ELGIN NATIONAL WATCH COMPANY,

Factories, Elgin, Ill., U. S. A. New York Office, 15 Maiden Lane.
General Offices, 131 Wabash Ave., Chicago.

THE HOROLOGICAL REVIEW

A Simple Method of Setting Watch Jewels.

Written expressly for The Jewelers' Circular-Weekly.

OWING to the convenience of obtaining jewel-holes in settings to fit most of American watches, the art of jewel-setting has become a lost branch of watch repairing to many young watchmakers. Considering the accuracy, which is required in jewel-setting it is not at all surprising to find occasionally some watches in which jewel setting has been entirely neglected. In order to put such movement in good condition the repairer must know how to make new jewel-settings.

The jewel-settings in most of the watches of foreign make are made in the plate, and turned in the shape of a bezel. A broken jewel from such setting may be removed, and after the setting-cover has been carefully raised with a conical point, a new jewel-hole of exact size may be inserted and the setting-cover again reburnished. A very important point in this operation is to clean the setting thoroughly before the jewel is inserted, as the insignificant chips and dirt in the broken jewel, if not removed from the setting, are very apt to force the jewel to one side, thus bringing the jewel-hole out of center and causing complicated errors.

We will assume that the new jewel-hole is that of a train wheel pivot, either upper or lower. If accidentally set out of center it will throw the wheel out of upright, and cause the pivots to run in their respective jewel-holes in an oblique position. It will not disturb the depth between the wheel and pinion. It is not a very rare occurrence to find that after a balance-jewel has been unsuccessfully set in a thin model watch, if the balance is thrown slightly out of upright, the balance will have very little clearance between the pallet bridge and balance-cock and, although the balance may not strike at first, it will eventually cause stoppage after a little dust has accumulated on the pallet-bridge or balance-cock.

When a repairer undertakes to correct such error it will be found advisable and the simplest method to fit a solid bushing into the old setting and after a hole has been centrally drilled the new setting may be made and a jewel-hole fitted. It is not essential to solder the bushing into the old setting, as is very often noted. The old setting may be broached somewhat larger than its original size and countersunk on both sides. A plug may then be turned

on the lathe to fit the hole very tight and provided with a conical shoulder at the bottom to fit the countersink. The upper part of the plug may then be reduced to the desired height and countersunk at the top, thus submitting the plug to be riveted with a round punch and throwing the superfluous surface into the countersink of the plate.

This method of bushing a hole has been tried by the writer and proved far superior to that of soldering the bushing into the plate. Besides giving the job a neater

DEVICE FOR SETTING WATCH JEWELS.

and cleaner appearance it also eliminates all possibilities of rust, which is frequently the case after soft solder has been used.

When the bushing has been completed great attention must be given to the centering in order to get the upper and lower jewel-holes absolutely in line with each other. The slightest neglect in this operation will cause the balance to hang out of upright and complicated errors in the jewel-pin and guard-pin action will arise.

A good method of ascertaining the exact center is as follows: We presume, for example, that the new setting is to be made in the balance-cock. After the old hole has been plugged in the above-mentioned manner the balance-cock may be screwed on to the pillar-plate and properly leveled. The balance-cock is then removed, the pillar-plate mounted in the lathe and centered with the tail-stock. If the centering has not been very accurate it can be detected by holding a long piece of pointed peg-wood or bone against the jewel-hole; lean it on the T-rest of the lathe. When the pillar-plate revolves attention should be given to

the outer end of the peg-wood or bone. It will be noticed that, if the jewel-hole is exactly in the center, the end of the bone will remain perfectly still, otherwise the jewel-hole will slightly move the point of the bone and will show its movement plainly at its opposite end. When this test has been made and the required changes performed the balance-cock may be screwed on to the pillar-plate and centered with the tail-stock.

The next operation is the drilling of the hole (which is also done on the lathe), and the turning of the setting may begin. The device illustrated herewith was recently devised and constructed by a watch repairer, and, after many experiments, has proved to be a very accurate little tool for watch jewel setting. It may easily be made and attached to the tail-stock of any lathe. The ingenuity of this little tool enables a practitioner to turn the exact size of setting simply by placing the jewel which is to be set between the steel jaws a and b. The jaws are attached to the brass bars c and d, by means of steady-pins, and the screws and the bars are held in position by a joint screw e. The bar c is provided with an arbor f, to fit the tail-stock of the lathe. The arbor g, which is designed to receive the cutter, is riveted to the second bar d. In constructing this tool scrupulous care must be given to the alignment of the arbors f and g, as it is of great importance to have both arbors in perfect line with each other when the jaws a and b are in contact.

The jaws are closed and opened by means of the adjusting screw h, which runs in a tread attached to the bar c, and operates the bar d, by a special designed head on its extreme end, interlocking with a small strip of steel which is inserted in a dove-tail in the bar d. By this method the adjusting screw opens and closes the jaws to receive various sizes of jewels. The device is also provided with a thumb-screw k, which operates on a treaded arbor projecting from the bar c, and locks the jaws by clamping both bars together.

Another important point in constructing this tool is to adjust the arbors f and g exactly in the center of the tool. By this is meant that they should be in a uniform distance from the joint screw and the jaws, as the slightest neglect in this process is likely to be disastrous to its efficiency as a means of perfect accuracy.

When the tool is used it should be pressed in the tail-stock of the lathe, upwardly, at a right angle to the jaws. The jewel may then be placed between the

WALTHAM WATCHES

FIFTY YEARS AGO

FRIDAY, APRIL 22, 1859.—The proprietors and workmen of the watch factory at Waltham were entertained by Gov. Banks at his residence today. About 200 men and women were present.

From Boston Advertiser, April 22, 1909.

The Waltham factory had existed five years. Here was the first successful effort to realize the dream of Dennison, father of American watch-making. Here was the first and only structure in the world erected for manufacturing pocket timepieces. Three hundred people were employed, the largest number ever assembled in such an enterprise. General Banks was proud of Waltham, where he was born and where he had worked as bobbin boy in the first cotton mill on this continent. He found time, while Governor of a great State, to greet and encourage the operatives of this watch factory, because he believed that they were creating an imperishable industry. He lived until the word WALTHAM had symbolized the perfect watch in every country on the globe.

In that year, 1859, the total number of Waltham watches manufactured was 12,304; in 1906, the product was 855,000; to-day there are 16,000,000 in use. The Waltham factory was the parent factory. It is now the corner-stone of an industry that gives a livelihood to more than 100,000 persons in the United States. In 1859, it was the only institution of its kind here or anywhere else; every other watch factory came later. The Waltham factory is distinguished by its achievements as well as by its age. Waltham watches have always exemplified the highest type of watch construction, and public recognition of their superiority is attested by the highest awards at all the great Expositions wherever they have been shown.

The history of the WALTHAM WATCH COMPANY is the history of watch manufacturing on this hemisphere.

was and adjusted to the exact size of the jewel, thus at the same time changing the distance of the cutter toward or from the center to correspond with the diameter of the jewel. The jewel may then be removed and the jaws clamped in position by the thumb-screw. The turning of the setting is then performed, simply by pressing the tail-stock against the plate, which has first been accurately centered.

After the recess for the jewel has been turned out the jewel may be set in and the projecting metal turned away with an ordinary graver, leaving only sufficient stock above the jewel to allow for the finishing. The burnisher is then interchanged with the cutter, and by lightly pressing it against the setting a burr will be thrown over the jewel to insure its safety. In connection with this will perhaps be interesting to add that the end-stones are set by the same method. Jewel-holes, it is essential to leave sufficient stock above the surface of the end-stone. When in position the distance between the jewel and end-stone should be about two hundredths of a millimeter.

If the jewel and end-stone are allowed to be in actual contact the oil is prevented from flowing freely about the end of the lance-pivot, and will run down the balance-staff or be drawn between the settings, leaving the jewel-hole without a rivet. C. R.

Time—Solar and Sidereal.

Lecture by PROF. LEAHY, of the University of Sheffield, before the Sheffield and District Watchmakers and Jewelers' Association,

(Continued from issue of May 19.)

THE POLE STAR.

MENTIONED that most stars get across my telescope in three minutes; the pole star takes about an hour to move over the field of view. When I set up the transit in Western Park I got the foreman of the works (I was told that no one else would work at such an hour) to go down at about four o'clock at night with me, when the pole star was to cross. We pointed the telescope to the pole star, and when this star, which takes about 12 minutes to get from one wire to another, was getting near the central wire we moved the stone so that the pole star was, as nearly as we could judge, on the wire at the right time—as far as we could get the time.

We then poured cement around the stone and left it to set, hoping that, as one second error in the position of our telescope would make the pole star about 50 seconds wrong, we were not more than four or five seconds wrong. Having got our clock more accurate, and the other errors of the instrument below a second, I adjusted the collimation screw, after several observations of the pole star and other stars, so that I think the deviation error is now less than a second. I have gone into this because this error, the deviation one, can only be found by the stars. The pole star is of special use because its motion is so slow that the errors are magnified by it, an error of one second in its time of coming to the wire being represented by one-fiftieth part of a second in the telescope's position;

but for many purposes other stars are more useful.

The other two errors have to be corrected without the stars. The level error is roughly corrected by the striding level, which is placed on the pivots of the instrument, and if the level does not read truly (and it easily indicates an error of a second or two) we adjust the level screw in order to correct. The sliding level, with its forked ends, to rest on the pivots of the telescope, is shown on the screen. I shall not try to describe it at length, but show you a more accurate method. For this observation we point the telescope vertically down to a bath of mercury, which is usually fixed under a transit and covered over when not needed.

An eye-piece of special construction allows light to pass down the telescope, shows us the wires, and at the same time lights up the reflected images of these wires in the mercury. If a tram does not happen to be passing we can see not only the real wires but their reflections in the absolutely horizontal mirror made by the reflecting mercury; and if the telescope is free from level errors the reflected central wire exactly covers its image. If it does not cover its image we alter the level screw till it does. The wire at present in Western Park covers its image; but, although the wire is a delicate thread from a spider's web, the level error seems to work out at about nine-tenths of a second.

THE COLLIMATION ERROR.

Finally we have the collimation error, which is, as a matter of fact, usually corrected first. This error is due to the fact that the central wire is not exactly in the center of the telescope. In order to estimate and correct this error we set up a stone as nearly south of the telescope as we can manage, with a plate fixed to the stone, on which a small cross is engraved. The telescope is pointed to this stone, and the cross is adjusted so that it is exactly on the middle line. We then take the telescope out of its bearings, and turn it right over, so that the side of the telescope which was to the east is now to the west. We point again to the stone, and usually find that the cross is now not on the wire, because the wire was not accurately in the middle.

We move the wire in the telescope by means of a third fine screw, called a collimating screw, so as to halve the error, move the cross, so as to get it again on the wire, and reverse again; repeating the operation until the reversal of the telescope does not move the cross away from the central line. Better equipped instruments have finer and better means of adjustment and measurement of this important error; but the method I have described reduces the error down to about half a second.

I have, perhaps, gone too fully into these adjustments, but you will see that we can get our transit telescope pretty accurate, so as to be in a good position to get our time by the stars. A night's observation over about a dozen stars gives variations of time as given by different stars of about three-quarters of a second altogether, and we have means of calculating and measuring the causes of this small variation in ways that I will not describe.

All these results give us the true time by the stars here in Sheffield. In order to know the Greenwich time, we have to know how far we are to the west of Greenwich. As the earth turns on its axis the stars come to the Greenwich meridian, and about four minutes later reach our meridian; so that, if we once know our exact longitude, or our time behind Greenwich, we can get from direct observation of the stars our time to about three-quarters of a second. So far as I can make out at present our longitude seems to be three minutes 58 seconds.

THE NAUTICAL ALMANAC.

You will probably ask me how we get the time by an ordinary clock, when we have found our time by the stars. Oddly enough, the time by the sidereal clock was right by Greenwich time to-day, at four o'clock in the morning, but it will not be right again for about six months. In the ordinary almanacs, like the Nautical Almanac, there is a table showing what the time by a sidereal clock is each day at noon—the time to-day at noon, five minutes 16 seconds. The ordinary clock, five minutes 16 seconds behind the observatory clock to-day at noon, or would have been if Sheffield gave its time to England; but, as this is not the case, we have to take the Greenwich time, which is four minutes in front of ours. Hence anyone who had set his watch by the Observatory clock would have to take five minutes 16 seconds away from the time given, and then to add four minutes for longitude; he would, therefore, have to take one minute 16 seconds behind our clock to get the Greenwich time.

The Sheffield solar time was at four o'clock this morning about four minutes behind the sidereal time; the Greenwich time was still, of course, four minutes in front of ours, so that we should have got the true time given on the sidereal clock at four o'clock this morning. The difference between the solar and the sidereal clock changes rapidly, at the rate of three minutes 56 seconds a day, so that, by the beginning of May, the clocks will differ by three hours; by June they will differ by six hours; but the time can at once be found by the help of the nautical or other almanacs, and the actual calculation need not take more than a minute. You will, I hope, understand these main facts.

Accurate time can only be got, in the end, from the telescope. We may use the sun—and have to use him, approximately, as his position is so important to us—but it would be most objectionable to rely on observation of the sun. His course is so irregular, he changes his position so quickly, that an observation of the sun needs a great deal of reduction, which is quite unnecessary in the case of the stars. Also the sun can only be obscured once a day, and he is so large that it is difficult to get the exact instant when the center of the sun is exactly to the south. In the case of the stars a fully equipped observatory can get the time to within one-tenth of a second by a single observation, and about a dozen stars can be observed every hour.

All time is, therefore, taken in the first instance by the stars; in order to reduce not to the true sun, which is so irregular that we could not make any clock to keep

IMPORTANT TO KNOW!

Every jeweler who even pretends to keep abreast of affairs in his trade should know this about the most prominently advertised watch before the public to-day—

The "I-T" is an entirely reconstructed and improved product absolutely superior to **any** 7-jewel watch heretofore on the market, regardless of price or reputation. If this is true—and an examination will prove it—should you not be informed about it? The coupon below will bring the evidence.

ROBT. H. INGERSOLL & BRO.

pe with him, but to a sort of mean position of the sun, we use, in the first instance, a clock which is set and regulated by the stars. Without disturbing the sun from his place as a practical time-keeper, we therefore use the stars as our guides, and take in the first instance our time from them. The daylight bill—which I always thought reasonable that I did not think it ever had a chance of passing—should get through, the error we shall introduce in the reckoning of time is not very much more serious than the errors which we allow at present. Our clocks are reckoned by the sun, 14 minutes fast in February, 16 minutes slow in November. In Sheffield we are 14 minutes fast when we take Greenwich time, as of course we do, always about four minutes fast on our real time, and we are 18 minutes fast in February. In Cornwall they are about 32 minutes fast in that month. That whatever may be the arguments for or against the daylight bill, the necessity of measuring by the sun can hardly be added against it.

There is perhaps one other point on which I have to touch. That is whether the motion of the stars is a truly correct measure of time or not. There are theoretical reasons for supposing that the earth's rotation is slowly slackening; in other words, that the day is getting longer. The slackening has been calculated to amount to the change of one second a day in the course of 100,000 years, but the last word has not yet been said on this point. It has been suggested that the time of vibration of a sodium particle may some day be taken as a more constant measure of time than the time of rotation of this earth. At present for the present I think that you will agree that we have got what is a pretty good standard, and for probably many thousands of years the standard of time will be the time the earth takes to turn on its axis—in other words, stellar time.

[THE END.]

Horological Repartee.

THE recent application of A. & C. Feldenheimer, Portland, Ore., to move its clock from the old location to a new site was refused by the city council and caused a little amusing repartee.

"The main objection to granting this permit," said Mayor Lane, "is the fact that the clock never kept correct time."

"That is plain on the face of it," retorted one of the councilmen.

"The clock feels the humiliation," said another; "I've often noticed that it does. It holds its hands over its face nearly all the time."

"Yes, and at other times it gives the passer-by the glassy stare, and really ought to be regulated," replied the Mayor.

"I don't believe in running the clock down," said Councilman Cottle. "Let us either grant this permit or keep quiet about it."

Although the permit was refused, the jewelry company was advised to go ahead and remove the clock, as all special permits are without authority of law.

Edward Kouch, St. George, Minn., has purchased a jewelry store at Henderson, Minn.

Automaton Clock Made by a Watchmaker in Wisconsin.

HERE is a quaint automaton clock which has just been completed by John Bast, Superior, Wis. The clock is 16 inches wide and nine inches thick. It is three feet two inches high from the base to the top of the eagle, which surmounts the little tower.

The timepiece really consists of two stories. On the first is seen a watchman, who completes his sentry trip, or regular beat, in 90 seconds. On the second story,

CLEVER TIMEPIECE WITH AUTOMATIC FIGURES.

or gallery, is another automaton, who enters at the left-hand side and makes his exit at the right, completing his little journey in 15 minutes. When he is at the extreme front he turns and faces the public, as it were, raises his trumpet and blows it. A sweet melody is then heard. This, of course, is accomplished by means of a musical attachment in the clock. At the same time the electric light just above the dial blazes out like a beacon and allows one to see the time at night.

A man in the tower also has a duty to perform, which is to strike the hours and half hours on a bell. This quaint little timepiece runs eight days with one winding. The case is made of red sycamore and is stained to a dark color.

Theodore and Henry Blickle, Rochester, Minn., have moved into their new store at 21 W. Zumbro St.

The Time in Turkey.

IT is a coincidence worthy of notice," says a writer in an exchange, "that the year which is likely to see daylight-saving legislation enacted in England should have been chosen by another country for abandoning the most thoroughgoing daylight-saving system it is possible to conceive." He refers to the Turkish system. But the simplicity which has converted so many to Mr. Willett's plan has no place in the complicated device which has been marked out for destruction by the reform party in Turkey.

For centuries the Turks have had 12 o'clock every day of the year at sunset; but this has only been made possible by altering clocks and watches every evening, when the local official told off to keep his eye on the sun proclaimed that the orb had set. If the official is at all busy about the time of actual sunset, he naturally makes the announcement when it best suits him—sometimes before the event. And as everyone is not able to alter his timepiece to 12 o'clock just when sunset is proclaimed, in a fair-sized town there may be almost as many times as timepieces.

Some little inconvenience, too, results from the habit formed by railway officials of using both local sun time and eastern European time. It is a notable achievement in some places to discover by which system a particular train is timed. For telegraphic purposes, again, the government—eager to please everybody—uses three times—sun time, "Frank" time, and Constantinople mean time; the two last respectively two hours and one hour 56 minutes 53 seconds fast of Greenwich mean time.

In fact, to know just how you stand in Constantinople, you want to carry three watches, one of which you are continually pushing backward or forward. It must have been a watchmaker who invented the Turkish system of timekeeping.

However, a calendar and time reform bill has been presented to the new Turkish Parliament, and if it gets through the Mussulman lunar calendar will be restricted to religious purposes, and a system adopted for civil purposes, in agreement with the Gregorian calendar in general use in civilized countries. Further, the legal time of Turkey will be Eastern European time and the officials whose principal duty has been to complicate the timepieces of the country are to be pensioned off.

Charles E. Durst, Hamilton, O., has the sympathy of his friends in the trade owing to the death of his brother, Henry S. Durst, who passed away recently of paralysis in the 52d year of his age. Deceased was born in Natchez, Miss., and came to Hamilton in 1865. He had been employed in the C. E. Durst jewelry store for many years.

The detective department of Fort Worth, Tex., last week, made public the news of the robbery of the T. A. Jansson jewelry store at 1407 Main St., which took place Saturday, May 8. The stolen articles include a large number of watches, bracelets and other jewelry valued at over \$500. A reward of \$100 is now offered for the recovery of the property and the arrest of the thieves.

BLACK OPALS

IN MOUNTED JEWELRY
REMARKABLE—IRIDESCENT—BEAUTIFUL
Pearl Pins—Pins—Rings—Brooches—Pendants

BLACK opal, a recent Australian discovery, is one of the most beautiful stones ever found.

These remarkable stones exhibit a wonderful play of brilliant colors, ranging from light to calid blues, with flashes of violet, from delicate shades of peacock green and all shades of red, merging into orange and yellow tints.

We have the largest stock and variety of mounted Black Opals in the South-west. No two alike in the world—each piece a distinct color creation which can never be duplicated.

See our magnificent collection of Black Opal Jewelry.

A BIRTHDAY AD. BY ROBT. C. GREEN'S SON.

proper cuts for every purpose. Buy your cuts and have them right. A manufacturer may send you a fine screen half-tone that won't be worth the paper it's printed on for newspaper work. Good cuts are worth buying because they will make your ads. look as though you meant what you said when you said the article was pretty. Line cuts on coarse half-tones from wash drawings are best and can be had in any city.

Don't say, "We have the largest stock of watches, clocks, diamonds, jewelry and silverware in town," and then next week or next year say the same thing. Don't do that—he specific!

If you have a good thing, say so. Say it so it will be understood. If it's good value, describe it, put a price on it and then don't get cold feet—stick to it!

Be logical, too. When you see a good thing in some wholesaler's line, buy it. Buy it with the advertising point in view—and don't be a piker.

You cannot afford to devote a quarter-page ad. to an article of which you have purchased one-twelfth of a dozen, assorted. That won't be good advertising nor a good

purchase either. Buy enough of a kind make it worth shouting about, and then the shouting—long, loud and deep.

Buy your goods to sell at a profit, but they don't sell at a profit sell them ar way—somehow! Don't keep them forev just to look at, and when you begin to s them don't go at it as though you want to ruin the jewelry business in your to forever. Do it legitimately. Sell the thin you will not replace, at cost, if you ha to, or, if necessary, at less than cost. I don't sell the staples—the things you l over again at a price that will forever tablish a precedent and make it impossi to make a profit on that class of goods.

Advertising is store news; treat it such. If every person who reads your would come in and listen to you, you co

ness, built on broad lines and sane business principles, build your ads. the same. Be sincere, be frank, tell the truth and them believe it. Show your individual and business characteristics in all your advertising.

Don't vacillate. Don't try to sell

Retail Advertising Department.

...de merchandise one day, and if a customer comes in the next day and asks for something cheap, rush in all the cheap trash you can find. The jewelry business is built entirely on confidence, and the only way you can get and retain the confidence of your patrons is by selling a grade of goods that is a little better than that usually called "cheap." Continually strive to "work up" on the grade you are selling. To run down grade requires no particular effort.

Watch your moods. If you are working on an obstinate, ornery watch, don't damn it. Watch trust and wait on a customer in that frame of mind. And don't change your ads. while in that frame of mind either, nor while the printer's boy is waiting for the copy.

If you don't know how to write good copy—learn. If you can't learn or haven't had time, hire some one that does know how and has the time. Don't pay for space that gets no benefits—but don't quit advertising. AL. BRUCKNER.

The Simplicity of Advertising.

...HERE are times—not so very frequent, I confess, but occasional—when the question of advertising seems to me a very simple one. And I am pretty well persuaded that these illuminating moments show the question in its truer light.

To illustrate what I mean, take the case of the manufacturer or the business house placing or selling an article or articles sold by women. The situation of either is, in any way, of the A B C variety.

...in the warehouse or storehouse is a stock of merchandise waiting to be sold. There is a market for it. The owners of those goods know it. It's only a matter of getting in touch with that market.

...every woman in the country is a unit, and the aggregate constitutes the market in sight. The thing to do is to reach these units. The ideal way would be to talk to each of these women individually by word of mouth. But that is manifestly an impossibility. It is, however, possible, feasible and indeed very simple to talk to them collectively, not by word of mouth, but by the printed word.

...suppose the manufacturer or the merchant seeks the acquaintance of a publisher whose periodical is distinctly a woman's publication. Here, ready at hand, is a ready aggregation of just the "units" that a moment ago we agreed make up the market sought. And the columns of the periodical in question are open to all who desire a message not intended to deceive or to defraud.

...Advertising, it has been said, is "the truth so attractively," and it is right here that the merchant or manufacturer is likely to experience his greatest difficulty—that of being (in print) the truth about his goods so attractively as to bring his audience to the buying point, or at least to the inquiry point.

...But this, after all, is no insurmountable difficulty, nor, indeed, a very serious one. A little good judgment, such as every successful business man is supposed to have,

and a comparatively small expenditure of money ought easily to solve the problem.—*World-wide Publicity.*

What Some Jewelers Say.

A SIGNET ring, beautifully engraved with initial or monogram, makes a pleasing gift that will last forever. We have an assortment that will satisfy every imaginable taste. In plain band rings we can meet any requirement in weight and carat. Look at our display. Set rings are so captivating to the eye of every woman. From time immemorial a ring has been the token of friendship and love. They are ideal gifts. Otis W. Bailey, Calais, Me.

If it's a ring, this is the place to get it. Diamond rings, splendid values, \$10 up. Great variety of others. Pretty stone rings

from this store you are absolutely sure of its quality. For 22 years this store has been supplying Leavenworthians with diamonds. For 22 years the name of Wuerth has stood for honesty and quality in the diamond trade. And 22 years is a long time to be in one line of business, but for 22 years the reputation of this store has stood the test. Even if you could do no better in your diamond purchases elsewhere—even if we purchased diamonds through the jobber—you would still have that reputation of 22 years staring you in the face, and that reputation has been secured only by absolutely honest dealings with the public. But you can do better here, for we buy direct from the importer. You can do better here, because we carry the largest assortment of diamonds in the State. You can do better here, because we guarantee

THE ADDIS

JEWELRY STORE

THE Addis Jewelry Store, owned, managed and conducted by a young woman jeweler, has broken all records the past year. This store was established less than three years ago and its success has been remarkable. And what is more, the extra large increase in the business of the Addis Jewelry Store proves its standing to be reliable and worthy, for it has earned a State-wide reputation through advertising and has established, in addition to the splendid local retail business, a large and growing list of mail order customers. The great success of this store has shown the remarkable ability, tact, energy and resourcefulness of its manager, who enjoys the implicit confidence of a buying public.

THE ADDIS JEWELRY STORE
EIGHT SEVENTEEN KANSAS AVENUE
Repair Department

DISTINCTION in Jewelry is her motto. No woman in Kansas has been more successful in business and her store is destined for greater things in the business world. Herewith is presented a splendid interior view which reflects this store's artistic arrangement.

Mail Orders

In this department Miss Addis excels because she personally supervises the department, so she does every other department in the store. This class of orders receives, at all times, the most careful and prompt attention and are conscientiously filled, and if any errors occur they are cheerfully corrected, and every patron made to realize that honesty has been the central idea of the dealer—this remarkably successful Woman Jeweler—who will deal with you by mail the same as if you were at the store.

VIGOROUS ADVERTISING BY A WOMAN JEWELER, WHO BUILT UP A PROSPEROUS BUSINESS IN THREE SHORT YEARS.

...from \$1.50 up. Handsome signet rings, engraved free. Watches, chains, lockets, link buttons, stick pins, bracelets, fobs, brooches, etc. Prices low, at S. Wood's, Fall River, Mass.

We can't do the impossible. If it is not advisable to make the effort we will tell you so. Our specialty is watch repairing. So if you need your watch repaired, cleaned or regulated bring it to us. Regularity is the keynote of success in a watch or clock; if it doesn't keep time you might as well sell it for old metal. Every timepiece which leaves this establishment is in A1 order. Gordon's, Shreveport, La.

There's many a time when a few minutes out of the way may mean a big difference to you. It won't be the fault of the watch if you miss your train or appointment, provided you bought it here. We have watches for everybody and for every purse. Our showing of the new thin model in both the low-priced as well as the more expensive varieties is exceptionally complete. But whatever you pay you get a good time-keeper regulated and guaranteed. Dodds, the Jeweler, Coffeyville, Kans.

As an investment, as a social asset, a diamond is supreme, and if the stone comes

every stone to be just as represented. You can do better here, because you can buy a better stone for less money. We invite you to come to this store and inspect our diamond showing. We invite you to compare our diamonds and prices with those you are offered elsewhere. And if you are contemplating the purchase of a diamond, whether large or small, don't forget that our 22 years of honest diamond selling, our direct purchases from the importer and our knowledge of diamonds will prove of valuable assistance to you in making your diamond selections. Mounted diamonds, \$10 to \$500. Wuerth & Son, Leavenworth, Kans.

The June bride-to-be will much appreciate a diamond solitaire at about this season. Try one of ours and see if we didn't guess right. If it doesn't fit her fancy or her finger, bring it back and we'll gladly exchange it. We're always glad to aid in Cupid's campaigns, and so make our prices as low as we can and maintain our high standard of quality. Diamond solitaires and other good rings all guaranteed. Talk it over with us confidentially. We are always ready for interviews. See J. Spahr, Tarentum, Pa.

STORE KEEPING DEPARTMENT

That this department shall prove mutually beneficial to our readers, it is desirable that the members of the trade generally communicate with THE JEWELERS' CIRCULAR-WEEKLY regarding any advantageous device or plan which they are utilizing in connection with their business.

A Novel Way to Display Alarm Clocks.

Prepared expressly for The Jewelers' Circular-Weekly.

A GOOD display suitable for advertising alarm clocks is shown herewith. This attractive feature, to use as a centerpiece for a show window, is built as follows:

loon will do) to roll through easily. Insert in the passageway a piece of cardboard rounded (i.e., rolled) to fit between the boxes and so form a smooth surface.

on it the outline of a face (B). your fan inside the cardboard and attach to the center of the fan gun stout string, to the other end of which balloon is tied firmly.

Place all in position as shown in sketch C and D (both of which are side view). Next set the fan to work and the will bob up and down and look come its apparent effort to crawl out.

The "struggling" of the head to can be made even more lifelike by an elastic cord, as this will permit a movement. Be careful that your cord not too long, as this would permit "head" to jump out too far, revealing *modus operandi* and spoiling the effect.

Be sure your fan is concealed, as power is hidden the display, which certain extent is mysterious, is always interesting.

To properly adjust your fan and may require a few moments' patience. However, will be practically all the expense as the balloon costs only five cents a sheet of cardboard and elastic cord equally cheap.

Signs to accompany this display are

- Don't oversleep—one of these will get you.
- You'll sleep well—but they will wake you.
- Hurry up—these will wake you.
- Always on time—our alarm clocks.
- Sure to wake you in time, ———— cc.

Paragraphs from an English Contem

BUSINESS sincerity is as rare as blossoming aloe. We know some sometimes, and that's about all.

To hear some advertising men you would think they were specially selected gods for the gift of genius.

The advertiser who skates on ice may be sure of a ducking, if of a more serious.

Cleverness and the will to labor are often allied. That is why the plodder gets there first.

Rebuffs stiffen the back. If there are no disappointments there would be nothing. The opinion of the expert ad man is everything. His fine ad, may, at times, does, fail to please the public.

Be in front of Time, it's no good behind him. Ad. men who give out copy take this to heart.

The astute advertiser is often

A MECHANICAL WINDOW DISPLAY FOR ALARM CLOCKS.

Make a stack of alarm clocks left in the original boxes as shown in Fig. E, leaving the center space on the bottom row vacant. The room must be left large enough to permit a balloon (an ordinary toy bal-

loon will do) to roll without the wear and tear which would result if one allowed it to be pounded against the square edges of the boxes.

Use a yellow or white balloon, and paint

Storekeeping Department.

He makes a great business at
ring at gnats, but he swallows camels
about a gag!
Experience of the world is a cemetery
which the ghoulish ad. man is always
digging for new ideas.
A good proposition, backed by honesty
sustained by ability, will pull the world
to business.
Sincerity, when it is not transparent, is
a gloss to cover up deceit.
A good business asset is self-confidence.
Have some other quality to give it
a reality.

Though publicity is imponderable, yet its
effects are more far-reaching than anything
in birth.

"Fool and his money are soon parted"
is a good old proverb, but many adver-
tisers do not discover its true application
until after they have launched a bad propo-
sition.

The successful advertiser is he who has
climbed up the ladder of experience.
There is no other way.

How room is a good thing even in the
cemetery. How many ads. are buried in a
man's grave?

Some men were as clean in their state-
ments as they are personally, there would
be so many advertisements that "won't
pay."

A lady often uses a "puff" to cover up
a wrinkle, the ad. writer often uses a
puff to puff a doubtful article.

Indoor publicity never disappoints. It
states what it represents itself to be, and you
know where you expect.

The good ad. is like a pretty woman,
designed to attract attention.

Never lay a foundation until you are
sure of building your fabric. There are
many foundation builders who never rear
a edifice.

A good story will bear repeating, so will
a good ad. It's very easy, though, to work
both to death.—*Progressive Adver-*

143.

Friendly Influence.

SHOPMAN.—Mr. Sellem, a gentleman
has come in to buy a watch. What
do I charge him for this one?

SELLEM.—Let me see. Well, let him
pay it for \$25.

SHOPMAN.—But he was recommended
to me by your friend, Mr. Amicus, who told
me you would give him a liberal dis-
count.

SELLEM.—Ah, that alters the case.
I charge him our regular price is \$50; but, see-
ing he is a friend of Mr. Amicus, we will
give him it for \$37.50. But tell him to be
careful and let nobody know what he
paid for it. We positively cannot afford
to sell them at that figure.

The gentleman pays the \$37.50 and goes off
in the belief that he has made a big
gain. He esteems Mr. Amicus more
than ever; so does the shopkeeper.
—*change.*

Rob Van der Zanden, Green Bay, Wis.,
will soon open a branch store in that town.

The Way of the Enterprising.

DISPLAYED recently in the show win-
dow of the store of S. Silverthau &
Sons, 790 Chapel St., New Haven, was the
gold shield which was presented to De-
tective-Sergeant H. J. Donnelly by his
friends in the order of the Alhambra, a special
degree of the Knights of Columbus.

A window display which attracted a great
deal of attention was made recently in To-
peka, Kans., by Miss M. Addis. The dis-
play included a number of Kansas souvenirs,
hand-painted china, etc. The base of the
window was covered with a large valuable

**The New Store of David Goldman, Mil-
waukee, Wis.**

ONE of the attractive jewelry establish-
ments in Milwaukee, Wis., and of the
Northwest, is the new store of David Gold-
man, at the corner of Grand Ave. and
W. Water St. The location is in the new
Caswell building in the heart of the Mil-
waukee business district.

The picture shows a part of the interior
of the new jewelry store taken during the
opening days. Crowds thronged the estab-
lishment upon the opening day, and it was
necessary to line up the people for the dis-

INTERIOR VIEW OF THE STORE OF DAVID GOLDMAN, MILWAUKEE, WIS.

piece of Mexican drawn linen. Women
were particularly interested in this odd
display.

Displayed in the store of Stephen Thomas,
Jr., & Bro., Charleston, S. C., is a gold
punch set which was presented by the
German Artillery to Captain and Mrs. F.
W. Wagner on the 50th anniversary of
their wedding. The set was designed and
made by S. Thomas, Jr., & Bro.

Foster & Blanchard, Gloucester, Mass.,
have erected on their sidewalk clock in
front of their establishment, a large at-
tractively designed thermometer and
barometer.

An Easter window which attracted a
great deal of attention was that of Taylor
& Gregory, Derby, Conn. A timely assort-
ment of jewelry was shown and lilies and
daffodils were used as a very attractive
background for the display, which attracted
much attention.

J. Jessop & Sons, San Diego, Cal., have
filed articles of incorporation, with a capi-
tal of \$150,000, divided into shares of a
par value of \$100 each. The concern will
do a wholesale and retail jewelry business.
The directors named for the first year are:
Joseph Jessop, A. Jessop, A. D. Jessop,
James Jessop and Richard Jessop, all resi-
dents of Coronado.

tance of a whole block, so anxious were
they to see the beauties of the new place
and to receive some of the souvenirs which
were distributed.

The south side establishment of Mr.
Goldman is being maintained as a sep-
arate business.

Nine Negative Nuggets.

DON'T allow your expenses to grow
disproportionate to the business.

Don't undervalue customers' complaints.
Investigation often leads to valuable in-
formation.

Don't accumulate slow-moving stock.
Be cautious when purchasing novelties.

Don't be satisfied with your business; in-
variably that means decadence.

Don't increase your force before stimulat-
ing efficiency of help employed.

Don't dislike your occupation. Enthusi-
asm is necessary to achieve success.

Don't neglect your health. Without it
success is barren victory.

Don't lose your temper or cause custom-
ers to become irritated.

Don't forget that tact and politeness are
your best assistants. O. J.

A Sketch of the History and Development of the Glass Industry.

(Randolph I. Geare, in *The Glass and Pottery World*.)

(Continued from issue of May 12.)

STRANGE as it may seem, New York State does not seem to have been very prominent in the glass industry, although some of its factories have had a national reputation. One of the earliest was operated by Leonard de Neufville at Dowsborough, not far from Albany. In 1823 Gillard established in Brooklyn the South Ferry Glass Works. He had the name of producing the finest flint glass made in this country, and at the London Exposition in 1851 won a medal for his products. Later he failed, and the works passed out of existence.

The discovery of natural gas proved to be a powerful factor in promoting the erection of flint glass furnaces. A number of manufacturers formed a stock company known as the United States Glass Co., and bought up 15 of the largest establishments in Pennsylvania, Ohio and West Virginia. After they built a large plant at Gas City, Pa., and followed this by buying 500 acres of land near McKeesport, Pa., where they erected two 15-pot furnaces. This was said to be the largest flint glass works in the world. The natural qualities of glass, such as its transparency, brilliancy and degrees of both varieties of colors, have always attracted the savage as well as civilized man; but to the person of taste it has an interest other than common, because it is susceptible of being on an exquisitely delicate finish more than any other material known in carving. At one time, indeed, glass surpassed gold, not only in value as a material, but in forms of vases and drinking vessels, wrought into various patterns by means of wheels and lathes. The lathe of the glass engraver is larger than that used for engraving gems. The wheels, made of copper, are also larger, and while in motion they are supplied with oil and emery of different degrees of fineness. They revolve by means of the ordinary treadle and foot wheel. The carving lathes are of steel, the wire being first carefully tempered and ground down to different angles, which meet and diminish until sharp points are formed. Glass vessels of only one color carved in relief, and of one color formed on another, like the Barberini Portland vase, already alluded to, probably come under what Pliny meant by "*rud argenti modo caelatur*"; sometimes mistaken for a certain kind of molded figure work in glass. The Barberini vase is a marvel of its kind, and in considering its

beauties it should be remembered that the degree of perfection attained in ancient times by the carvers in glass must be attributed in no small degree to their religion and simple habits of life.

It may be added that glass engraving as done at the lathe is in principle the same as seal engraving. But the engravers of precious stones and crystals have a special advantage. The material they work on, being of high value as compared with glass, pays for being engraved to the utmost nicety of finish. After all, the intrinsic value of any natural production, be it diamond, ruby, crystal or anything else, is small as compared with the art excellence it may be made to exhibit.

Cut glass is chiefly distinguishable from engraved, carved, etched and otherwise ornamented glass by the more or less geometrical lines of its patterns, which form prisms and facets of generally four, six or eight sides, and also by lines that do not form prisms or facets. Glass cutting does not offer such a wide field for inventive genius and artistically finished work as does glass engraving or carving. Diaper all over the body of a jug, decanter, etc., facet with facet, prism with prism alike, is what the glass cutter in general best likes to do. His wheel, while cutting a line, lends itself freely to his continuing it as far as the vessel allows, up and down, horizontally or diagonally. His natural tendency is to repeat this operation by crossing and recrossing the line. The result is manifest; his patterns are almost painfully geometrical, and therefore the pattern lacks variety. It would be perhaps better if the glass cutter would lend himself more to idealizing leaves, flowers and fruits. By looking out for artistic effects, he will at any rate not lower the tone or the purity of the best flint glass.

Cut glass is a thing of comparatively modern date. A cutter of iron and steel, named Caspar Lehmann, is said to have invented the art, though some authorities, who seem to have confused carved and engraved work with cutting, as applied to glass, believe that he merely revived the art. His patent was granted in 1609 by Emperor Rudolphus II. of Bohemia, to whose court he became lapidary and glass cutter. But it was at Nuremburg near the beginning of the 18th century that glass cutting began to show really fair claims to be reckoned as an art. In England, about

that time, and later in France, potash and oxide of lead were added to the silex in the manufacture of glass in place of soda and lime, and it is beyond question that without the use of lead the clear, bright sharpness of modern cut glass would never have been attained.

Pressed and molded glass is often made in imitation of cut glass, as we all know, but the edges are duller and the pattern more rounded. Pressed glass is made in presses with mechanism so contrived as to yield great quantities of glass rapidly with but little tax on the mind of the operator.

Geometrical arrangements of prisms and facets, polished clear so as to readily deflect rays of light falling on them, generally characterize cut glass; but all kinds of lines and forms of various depths may be graven in glass and polished. Engraved glass, therefore, unlike cut glass proper, is capable of true artistic treatment. Engraving by means of the point and also by use of the revolving wheel, was practiced on scarabs and cylinders of cardonyx, carnelian, chalcedony and other stones by the Egyptians, Phoenicians, Assyrians, Babylonians and East Indians, and the application of both processes to glass may therefore be about as ancient as the discovery of glass itself.

In recent years wonderful strides have been made on the artistic side of the glass industry, and the achievements of the Tiffany Studios, through the invention of their exquisite favrile glass and other kinds (the outcome of a long chain of experiments carried on by Louis C. Tiffany), of the Libbey Glass Co., Toledo, O., and of other advanced manufacturers spring up at once into the reader's mind. The body of the beautiful favrile glass, several exquisite examples of which are on exhibition in the United States National Museum, is of amber material, overlaid with iridescent glass of various colors effected by a secret process. It would, however, be quite out of place to dwell on the work of one or two firms in a general article of this kind, nor would it be possible to do justice to their remarkable inventions. Fortunately, however, the data relating to the history of their achievements can be readily procured by anyone who wishes to make detailed studies in that direction.

A. R. Herrick, for many years engaged in the jewelry business, died at his home in Central Village, Conn., May 11, aged 93 years. Mr. Herrick at one time represented the town of Plainfield in the General Assembly and held many other positions of trust.

Waterman's Fountain Pen

Safety Pen

Showing how it is sealed when closed.

A style that can be carried in any position, upside down, right side up, side ways or end ways, and cannot spill.

All the superior features and patented parts in the regular Waterman's Ideals are combined in this fountain pen, in addition to it being so made that the gold pen conveniently screws back into the barrel permitting the cap to screw down on the open end and positively seal the barrel.

An excellent style for ladies' use as they may be carried in purse, hand-bag or trunk with perfect safety.

A general traveling style of fountain pen.

Showing how it is sealed when open.

Made in 3 styles and 6 sizes, with increasing ink capacities and sizes of gold pens.

Actual size No. 12, Vest Safety, Plain—closed

No. 12 v. s. (4¼ in.)...\$3.00

No. 14 v. s. (4¾ in.)...\$4.00

No. 15 v. s. (4¾ in.)...\$5.00

Also in long sizes

No. 12 s. (5 in.)...\$3.00

No. 14 s. (5½ in.)...\$4.00

No. 15 s. (5¼ in.)\$5.00

Made in Plain, Chased, Mottled and Cardinal. Also with gold bands and Sterling Filigree Mounting.

DEALERS' ASSORTMENTS

should include, with the regular styles of Waterman's Ideals, a few of the Safety Pens, as well as the Self-Filling Pump Pen. They make your stock complete and permit every demand, for special styles, being fulfilled from one complete stock. Write for our suggestions.

W. L. Waterman Co., 173 Broadway, N.Y.

THE Pennsylvania Watch Cases

Trade **XXX** Mark.

A NEW ONE AND A GOOD ONE!

We would suggest that you look into the merits of our cases.

A case of the highest value coming to you at the lowest prices consistent with quality and quantity

A heavy, strong, stiff case of good value.

IT IS A WINNER!

It will mean increased business to the Dealer who carries a line of these cases in his stock.

Our line will be sold exclusively through the Dealer and Jobber. In offering our goods for sale, you will not be up against the competition of Mail Order and Catalogue Houses.

Drop us a line for description and prices.

President Archibald Writes of the Work of the American National Retail Jewelers' Association and the Coming Convention.

BLAIRSVILLE, Pa., May 19, 1909.

of THE JEWELERS' CIRCULAR-WEEKLY:
The principal questions discussed at the last national convention of the American National Retail Jewelers' Association, were:

1. Is a time guarantee necessary for the increasing of the retailer's stock? 2. Trade-marks on goods for association members. 3. Relation of jewelers to jobbers and manufacturers. 4. The selling price.

These questions were discussed at length. The results were that many resolutions were adopted.

The first question brought forth a specific resolution which reads: "That this association favors the elimination of a time guarantee from watch contracts, provided that a law preventing fraudulent advertising be passed." Several bills have been introduced into Congress covering this specific resolution. So far no national law has passed prohibiting fraudulent advertising.

The discussion of the trade-mark proposition brought forth a resolution which passed. It reads: "I favor an association trade-mark, controlled solely by the association, the privilege of the use of said trade-mark to be confined exclusively to such jewelry only as is sold to regular association jewelers. The character of the trade-mark shall be such as to permit its stamping on the average article of jewelry. And the composition of the trade-mark to be such as will permit the jeweler to recognize at a glance the maker and country. That the executive committee be authorized and empowered to take such steps as they may deem advisable to bring about this result."

The executive committee appointed three able men on this committee: C. Z. Rowe, Indiana; A. Barker, Minnesota, and Joseph Mazer, of Oklahoma. This committee has been hard at work on this trade-mark proposition and the same has been presented to the executive committee for consideration. I believe the proposition has been fully worked out. No doubt the whole proposition will be read at the National Convention at Omaha in August.

The discussion on the subject, "Relation of the Retailers to the Jobbers and Manufacturers," closed the adoption of a resolution which reads: "That we recommend empowering the executive committee with full authority to arbitrate all the disputes which might arise between jobbers and retailers, or manufacturers and jewelers, and act to extend such invitations for joint conferences and take any other such action as they may see fit for the promotion of friendly relations and the advancement of mutual interests."

Since the adoption of this resolution the executive committee of the jewelers' association and the executive committees of the various associations met and discussed many questions. A mutual agreement was consummated between these two bodies which has proved of much benefit to both organizations. There is a most harmonious feeling between these two bodies in the jewelry business. Likewise conferences have been held with many manufacturers and an "era" of good feeling is prevailing in all branches of trade.

It has been a privilege of the writer to have many long and important conferences with the presidents of many large manufacturing companies of watches, watch cases, silverware and kindred lines. We can assure the retail jeweler that there is a spirit of good feeling and hearty cooperation between the different branches of our trade.

The last national convention passed a resolution compelling all manufacturers of watches, jewelry and kindred lines who have established a minimum selling price on their products, and also its members promising to lend every effort to the maintenance of such "fixed" prices.

The question of a "Fixed Selling Price" is our main question this year. This has been given much attention during the present administration. A committee of five representative men has prepared a complete tabulated fixed selling price on all watch movements and all gold filled watch cases. This has been given most careful consideration. This tabulated "fixed selling price," which takes in every combination of watch movement and gold

filled case, will be soon put before every watch company and gold filled case company in the United States for their ratification or rejection.

We believe the time has come when all watch companies will market their goods with a "fixed selling price" on every grade. Also that the gold filled watch case companies will do likewise. A watch movement with a "fixed selling price," sold in a case with a "fixed selling price," will solve the problem. Likewise in many other lines we are bending our energies to secure a "fixed selling price." Specific work has been done by the writer along these lines.

Organization of new States has been a strong factor in our work this year. It requires a great deal of labor and also money to organize a State. The State of Texas affiliated with the national association this year. New York State organized. The States of New Jersey, Colorado and Delaware were all organized and affiliated with the national association within a few weeks past, also South Carolina a few days ago.

There has been a very large increase in membership in most States. The best months for organization and increase of membership are before us. It is important that we increase our membership. We should have more new States before this year closes. We should have many new recruits in our ranks. A great responsibility rests upon the officers of each State. It is expected that each officer will be an active worker for a larger membership. No man should accept any office in the State association who is not willing to give much time, energy and patience to the work of his organization. Every State has enough active men who are willing to devote time and energy to the work.

Get rid of the drones in office and put in the active men. No State can afford to have inactive men in any office.

We believe the coming national convention will be a representative meeting. This meeting will be held in Omaha, Neb., Aug. 3, 4, 5 and 6, at the Rome Hotel.

The convention hall and the exhibit space are both on the first floor. I have not seen better accommodations for a convention. I can assure you that every accommodation will be given to the visitors and to the exhibitors. The Omaha committee are making elaborate preparations for the entertainment of the delegates and friends. You will receive a hearty welcome in the great western city. Make your plans now to attend this meeting. The programme will be somewhat varied from the past years. On Aug. 4 we expect to have a jobbers' and manufacturers' day. We expect to have men of national reputation to speak. These men will be presidents or heads of the large manufacturing and jobbing establishments. This day will surely be a crowning event in our association work. In the evening of the same day there will be a banquet for all visiting jewelers, at which it is expected to have Gov. John A. Johnston, of Minnesota, and Hon. Wm. J. Bryan to speak.

We have three days more, during which time some of the best talent in the retail jewelry business will address us on live topics. Music will also be a feature of this convention.

No doubt the "fixed selling price" will be a big question at this convention. The horological question will also be considered, and also the question of what goods should be confined to the retail jeweler exclusively, how to eliminate trade abuses, how to improve the retail jeweler, co-operation of retailer and jobber and manufacturer, credits and rating, advertising, and many other questions will be considered.

The jobbers' and manufacturers' day will open up a new field for thought and discussion. The subjects for discussion by these men have not all been selected. We can assure you, however, that a day given up to the addresses of men of affairs, who have made marked successes in their own business, will be most helpful to the retail jeweler.

We urge each State to send its full quota of delegates to this convention and as many more of its members as can be persuaded to attend. This convention will be a convention of business.

Yours truly, J. P. ARCHIBALD,
Pres. American Nat. Retail Jewelers' Association.

THE SEASON THAT CALLS OUT FANS

IN order to prepare for the demand of the thousands of girl graduates who will be

in need of artistic fans at commencement exercises all over the country, in June, enterprising jewelers are on the outlook for the latest creations in this line. White fans are always the most desirable, and should be carefully selected. Imported fans with real ivory handles handsomely carved, which are embellished with hand-painted designs and silver and gilt spangles, are always in demand, and those shown at the salerooms of Lewy & Cohen, 530 Broadway, New York, are especially attractive, as are also others with ebony, sandalwood, mother-of-pearl and bone sticks. Some of the fans shown for this season's selection are made with the finest lace and gauze of durable material, dotted with silver or gold spangles, while others combine hand-painted landscapes and rural or court scenes with the gold and silver spangles in decorative effects. The use of gilt is noticed in the newer creations for the coming season.

*

NOVELTIES IN ROYAL DOULTON

THE fine product of the Royal Doulton china factories is too well

known to need introduction to the enterprising retail jewelers who carry a line of china. The new designs in service plates on exhibition at the salerooms of W. S. Pitcairn, sole agent for the United States and Canada, 44 Murray St., New York, include many pleasing offerings, prominent among which are the plates showing landscape scenes by some of the most famous of modern artists. Views of English castles in splendid colorings are in themselves a most interesting exhibit, and are displayed on plates decorated in raised gold work with acid gold borders. One plate shows a cottage almost hidden by trees, and especially fine because of the vivid and lifelike coloring. In the more popular-priced lines shown by the same firm scenes from Venetian life are used in the decorative scheme. Graceful gondolas propelled by brightly dressed gondoliers are shown on jugs, plates, etc., of quaint shapes. This line has a rival in the articles decorated in "sunset" effects, showing attractive English landscape scenes in graceful coloring.

THE RAMBLER.

W. L. Hornbuckle, Terre Haute, Ind., recently filed with the Circuit Court his assignment of property to A. Levinson as trustee. An assignment of fire insurance on all stock and fixtures was also made. Following the assignment Mr. Levinson filed a petition to keep the store open and continue the business.

WORKSHOP NOTES AND QUERIES

[Answers are also solicited from our readers to the questions published on this page.]
No attention paid to communications unless accompanied by full name and address of the writer.

QUESTION No. 2270.—**Antique Finish on Brass.**—How can I produce an antique finish on brass jewelry? A. F.

ANSWER:—For a good antique finish on brass proceed as follows: Clean the pieces by polishing and scratch brush with a circular brass wire brush, moistened with water and a little fine pumice. Rinse off in water and pass again through boiling clear potash; then rinse again in water and finally dip in a cyanide solution, then immerse in the prepared antique solution consisting of yellow sulphide of antimony dissolved in caustic soda, and when the desired shade is obtained rinse off in hot water and dry in sawdust. It is advisable to immerse for only a few moments in the yellow sulphide to obtain a light shade. After drying, repeat the dip in the yellow sulphide until the desired shade is obtained. A good coating of lacquer must be used to protect the finish from fading away.

QUESTION No. 2271.—**Reducing and Melting Silver.**—Please instruct me how to melt a few ounces of silver. I want it to come out as pure silver. R. A. M.

ANSWER:—To melt silver and have it absolutely pure it should first be reduced, with nitric acid, then melted. This is done as follows: Cut the silver into small pieces and drop them into a glazed earthen jar containing nitric acid. The acid should be heated over hot sand or water and, when the silver is all reduced add a little water and stir the whole, then pour in some strong salt water—enough until all the silver has been precipitated to the bottom. The clear liquid is poured away and the remaining white chloride is washed by boiling water. Let settle and pour away the top. Repeat this until there is no longer a salty taste. After this, dry the chloride on an iron plate, then put into a crucible and cover well with bicarbonate of soda. Melt it down and the result will be pure silver.

QUESTION No. 2272.—**German Putz-pomade for Silver.**—Please inform me what are the ingredients used for making the German putz-pomade, used for polishing silverware. G. P.

ANSWER:—The formula for what is considered to be the genuine putz-pomade contains the following: Oxalic acid, 1 part; chloride of iron, 25 parts; rottenstone, 30 parts; palm oil, 60 parts; vaseline, 4 parts. The oxide of iron and rottenstone must be free from grit. A pomade, much simpler, contains 100 pounds of common vaseline, melted. Stir in 20 pounds of fine colcothar.

Transparent Metals—New Interesting Experiments With Silver.

By J. HORTON, in *The Metal Industry*.

IT is well known that metals under ordinary conditions are opaque, not only to light, but also to the Roentgen rays. Up to the present time the only case of transparency known is that of gold, which, when beaten into sheets of one three-hundred-thousandth of an inch in thickness transmits a characteristic green tint. About 50 years ago Faraday showed to the Royal Society that thin sheets of gold and silver, when heated in glass plates, became transparent.

Until very recently no experiments had

1. Silver heated in air to 240° C.
2. Silver heated in air to 260° C.
3. Silver heated in air to 335° C.

been made along this line, when Professor Turner took up the question and has shown that in the case of silver the glass plates become as transparent when covered with silver leaf about one hundred-thousandth of an inch in thickness as when no matter is present. He has shown that this action commences at a heat of 240° Centigrade, and only occurs in the presence of air or oxygen. It does not take place if the silver is heated in a vacuum or in hydrogen.

Curiously enough, silver does not become any heavier, nor does the oxygen alter in bulk, so that at first sight it may appear difficult to account for oxygen being necessary. But it is suggested that there is a temporary combination of the oxygen with the silver, which is afterwards broken up. It is easy to show that the silver, though transparent, is still there. Perhaps the easiest way is to write on the glass with

an agate stylo, and it will be found that the characters are clearly outlined in bright silver.

A new observation in connection with these experiments has been that thin leaves of copper become quite transparent when heated in air and transmit light of various shades of green, according to the degree of heat used.

With regard to thickness of the metal, Professor Turner has shown, in the case of silver, that metal one ten-thousandth of an inch in thickness, or upwards, does not become transparent when heated, and assuming that the action goes on from both sides of the sheet at once the thickness actually operated upon is apparently one four-millionths of an inch.

The illustrations represent sheets of silver placed upon glass and heated to the temperature and in the atmosphere as indicated.

Copper is not affected if heated in coal gas, or away from oxygen. But when a very small quantity of oxygen has been absorbed by the copper, the metal transmits a beautiful emerald green light, and this becomes darker and darker as more and more oxygen is absorbed, until at last the familiar black cloud is produced. The transparent material obtained still contains metallic copper, and if it is treated with

4. Silver heated in air to 390° C.
5. Silver heated in coal gas to 375° C.
6. Silver heated in coal gas to 500° C.

a dilute acid a brilliant film of metallic copper is left behind.

The peculiarity of copper in this state is that it is quite transparent and allows white light to pass through, and if examined under a microscope it is seen to be uniform in texture and translucent. Other metals have been examined, such as aluminum and Dutch metal, and these do not become transparent when heated in air to any observed temperature.

The jewelry store of H. N. Clark, 432 S. Salina St., Syracuse, N. Y., was recently robbed by burglars, who pried apart the iron bars in the rear, broke the glass of the window and opened the lock in this way. After picking up a large number of articles the men were evidently frightened away, because they left a number of pieces scattered about the place.

Diamonds, Watches, Jewelry and Art Goods

Sales For Reputable Jewelers Only

NOW CLOSING OUT A \$20,000.00 STOCK OF JEWELRY FOR GEO. CARHART OF PONTIAC, MICH.

KNOWN THE **Gillette** WORLD OVER

Beautifully adapted for the jeweler's stock and show case display—the New Pocket Edition Gillette Safety Razor is becoming an important feature in the best retail jewelry stores.

The demand over the retail counter is astonishing. Every old Gillette user wants the New Pocket Edition and it makes new friends at sight.

The set consists of handle and blade box, either triple silver-plated or 14-k. gold-plated. The pocket case is of gold, silver or gun metal—plain polished or richly engraved in Floral or Empire designs. It is so neat and compact that it will fit like a card case in the waistcoat pocket or slip into the side of a travelling bag—the blades are fine. Prices, \$5.00 to \$7.50.

For the special use of the jewelry trade, the Gillette Company has designed a tray lined with purple velvet, size of the regular watch tray—contains wells for twelve razors. These trays are made in various hardwood finishes to match the store fixtures and are shipped free of cost with the initial order for a dozen razors. Aside from the sales of the razor, the business in blades is a steady income for a store.

Two additions to the Gillette line this season are the Gillette Brush—a brush of Gillette quality, bristles gripped in hard rubber; and the Gillette Shaving Stick—a soap worthy of the Gillette Safety Razor. The stick is enclosed in a sanitary nickel box: both soap and brush are packed in attractive cartons. They will be welcomed by Gillette users everywhere.

Write us for full information. Get our suggestions on popular assortment. Talk to your jobber about it.

ALVIN SILVER

ALVIN MFG. CO.
Silversmiths
 New York

The Orange Blossom Pattern of flatware (the very name is suggestive of weddings) is made in the full line of ounce goods and cutlery for presents, or fancy pieces for more moderate gifts. It is made in over a hundred different articles to meet all requirements.

If your stock is appropriate for the occasion your sale is half made. With the Orange Blossom Pattern you are sure of pleasing your customer.

Winning on its Merits!

Far above them all, the name of FAHYS is carried over the world owing to the superiority of FAHYS GOLD FILLED CASES.

A Few of the Best Business Getters of the Year

We have a very large and varied assortment of the above enameled goods in various styles which we have not room to illustrate. In addition to our beautiful line of goods of this character we are putting forth every effort to have something new and salable for our trade.

The great success we have had with our stone jewelry in Buttons, Scarf Pins, Collar Pins, Handy Pins, Fobs, etc., etc., has encouraged us to add to it very largely for the Fall and if you were surprised at our wonderful showing in the Spring you will be even more so at the display we will put before you when our salesmen call on you for your Fall orders.

If they don't call on you let us send you a

memorandum package and convince you of the facts we have set forth.

Our interests are mutual. We want your business and are going to give you the goods and prices that will get it. Write us for our catalog proposition—your name only appears.

Our Customers' Letters Should Convince You That Our System Brings Results.

(Copy of Original Letter.)
 ATLANTA, Georgia, Jan. 11th, 1909.
 THE ARNSTINE BROS. COMPANY,
 Cleveland, Ohio.

Gentlemen:—We take great pleasure in saying that we had the largest December business in our history, which we attribute to the use of your Catalogues, our increase over the previous December being \$6,500.

Wishing you a prosperous New Year, we beg to remain,

Yours very truly,
 EUGENE V. HAYNES CO.

The Catalogs sent out by this firm since 1907 were made by The Arnstine Bros. Company.

SALIDA, Colo.
 Feb. 3, 1909.

THE ARNSTINE BROS. CO.,
 Cleveland, O.

Dear Sirs:—In regard to your recommendation, I say that I am satisfied my holiday business was materially increased by the use of your Catalogs. Notwithstanding exceptionally quiet conditions, owing to the recession, trade in December was GOOD, far beyond expectations, and I am glad to give your Catalogs credit for the whole or portion of it. I am ready to place my order for your 1909 Catalogs.

With best wishes for a prosperous year in 1909,
 I am,

Respectfully yours,
 W. C. ALEXANDER.

Precious Stones — THEIR DEFINITION ANALYZATION AND ORIGIN

THE TOURMALINE

A Product of the Mines of the Himalaya Mining Company and one of the few gems which, for beauty and diversity of color, is a gem of interest both to the connoisseur and the mineral collector.

Few minerals present greater complexity of chemical composition than the Tourmaline, and its colors consist of every shade. It is also very interesting for its optical structure. Its hardness is 7.5 to 7.75 which is sufficient to protect it from most any usage, while the range of quality and colors would commend it to all who appreciate beauty and artistic value in jewelry. Its brilliancy compares most favorably with that of the Diamond. It often happens that the color is not the same throughout the stone so that only part may be pink while other portions of the same crystal may be decidedly pink, white blue or most any color.

The mineralogical terms, "Indicolite" (blue), "Rubellite" (Red), "Schorl" (black) and "Achroite" (colorless) form but the same species—Tourmaline. The Tourmaline consists of differences of color which are accompanied by differences of composition, forming a variety of Tourmaline, which, while a certain proportion of the silica it contains is fairly constant, its base really consists of the oxides of iron, magnesium, sodium, manganese and aluminium in varying proportions.

The principal location in which the best Tourmalines have been found as stated in the report of the U. S. Geological Survey at Washington, is at the property of the mines of the HIMALAYA MINING COMPANY, situated at Mesa Grande, Cal., which has produced the most abundant, largest and finest Tourmaline Crystals of recent times. They have also been found in Ceylon, Siberia, Ural Mountains, Saxony and the Isle of Elba.

The optical properties of Tourmaline are most striking. When viewing a crystal along the direction of its principal axis, it will be less transparent and of a different color than when viewing it across the axis. The color varieties of most Tourmalines absorb to different degrees the ordinary ray of light which is polarized in a plane parallel to its axis, while it allows the extraordinary ray polarized in a plane perpendicular to its line, to pass.

Some of the handsomest specimens in the world of pink and green Tourmaline have been found on the property of the HIMALAYA MINING COMPANY. The Tourmaline occurs in crystals in forms of prisms, belonging to the Rhombohedral system. Most of the faces are striated or even channeled. They very often occur with double terminations and in two or more crystals combined into one, making very beautiful combinations.

Composition	Complicated and varied
Specific Gravity	3.0 to 3.25
Hardness	7.5 to 7.75
Crystalline System	Rhombohedral
Form	Prisms striated vertically and terminated differently at either end.

The Tourmaline can be distinguished from most other stones, first, by its great brilliancy secondly, its hardness; thirdly, doubtful specimens can always be identified by the quality of color which this gem shows. It has a powerful dichroism upon the appearance of a faceted cut Tourmaline; and for this reason can be easily determined by examination with a dichroscope. When in doubt as regards to it, a test by an expert mineralogist will easily determine its nature. Tourmaline is a stone which cannot be successfully imitated owing to its complicated composition.

Engelsman's Patent "Bayonet" Automatic Locking Stone Tweezer No. 119

The acknowledged superiority of this tweezer over any other of its kind is due to its many improvements and innovations.

First. It will be noticed that the points are grooved, thereby permitting any stone to be gripped firmer and better than by any other kind of stone tweezer.

Second. It is purposely made a "Bayonet" in shape because any stone can be shown or examined advantageously. It also enables

the user to count particularly small sizes of stones, easier, quicker, and with much less exertion than when using any other style of tweezer.

It has an extra part directly above the crossing points to permit the holder to examine the stone without fear of releasing it accidentally, which frequently occurs when using the ordinary style crossing tweezer.

Price, Each, \$1.25

GRINDING OUTFIT No. 105

LEATHER DISK. SMALL DISK. METAL.

CARBORUNDUM & EMERY PAPER DISKS.

This outfit consists of:

1. Two interchangeable steel disc wheels, 3/8" and 1 1/8" in diameter.
2. One interchangeable flexible leather disc wheel, 2 1/4" in diameter.
3. One adjustable hollow spindle for holding the above disc wheels.
4. Eight different grade emery paper discs, 2 1/4" in diameter.
5. Four carborundum paper discs of different grades, 2 1/4" in diameter.
6. Eight different grade emery paper discs 4" in diameter.
7. Four carborundum paper discs of different grades, 4" in diameter.
8. One clamping device for keeping discs flat, when not in use.

Price of Outfit No. 105, complete.....	\$1.50
Separate small emery discs..... per doz.	.15
" large "..... " "	.20
" small carborundum discs..... " "	.20
" large "..... " "	.35

This new grinding device should find favor with the trade, being thoroughly practical and complete for all purposes, such as grinding steel tools, glass, enamel or any other metal or substance that can be ground with emery or carborundum. It is of equal value to the watchmaker, jeweler, optician, dentist, lock or gunsmith, platers and kindred trades. It will be found much more economical than solid emery and carborundum wheels. An assortment of solid wheels of twelve different grits would necessitate an outlay of ten times the cost of this outfit, not taking into consideration the trouble of truing up the wheels when worn or glazed.

Full description and directions accompany each outfit.

CROWN CHUCK No. 50

For enlarging or cutting deeper crowns of watch cases. A movable plug in the stem regulates the depth required for various sizes. Four caps of various sizes are supplied with each to hold crowns from small to large. Stem fits in No. 50 wire chuck.

Price, each, \$1.50

For Sale by all Jobbers in the United States and Canada.

ECHARCO WATCH GLASS CABINET No. 15 (Patented)

Top View, Shows Skeleton Frame. Drawers. Accumulation of dust and chips impossible.

The Most Modern Watch Glass Cases the Echarco, Nos. 15 & 20.

These Cabinets many new features found in any other elty and usefulness the chief argument their favor.

Construction and Material.—The cases are of oak, finely finished of attractive appearance. The sides of Cabinet 15 are paneled. Part are of hawwood and together in the best manner possible.

Price, No. 15, Each \$16.

Partitions are skeleton, preventing accumulation of dust, chips, etc. The Bottoms of Cabinet No. 15 are hollow, while Case No. 20 has a special drawer to receive chips, dust, etc.

Arrangement for Glasses.—Case No. 15 has nine drawers with a total of 1,547 spaces, and Case No. 20 with four drawers has 784 spaces, to glasses in upright position.

Labeling of drawers, as shown in cut, is on the pulls of the drawers done in gold bronze on black background.

Dimensions and Weight of Case No. 15.—Width, 24 inches; Height, 48 inches; Depth, 12 inches; Weight, net, 45 lbs.; Weight, including package, 75 lbs.

Dimensions and Weight of Case No. 20.—Width, 28 inches; Height, 48 inches; Depth, 11 3/4 inches; Weight, net, 30 lbs.; Weight, including package, 50 lbs.

The construction of drawers, the arrangement of partitions to economize space and weight, and the novel method of showing contents on drawer pulls are all prominent characteristics and extremely well thought of.

ECHARCO WATCH GLASS CABINET No. 20 (Patented)

Price, No. 20, Each, \$7.75

SIMMONS ARMILLA

IN POINT of simplicity, practicability and substantiality, Simmons Armilla is admittedly the best of the joint and catch bracelets.

In the matter of designs and finishes the Armilla is also pre-eminent (no wider range of salable patterns has ever been offered in a bracelet line) while the question of quality hardly needs to be touched upon—that is vouched for by the high character of all Simmons products.

With these facts in mind, and with the prospect of an assured demand for bracelets this Summer, no jeweler should hesitate to put in a good showing of Simmons Armillas for the coming season.

The
Wadsworth
25-Year
"PILOT"
Watch Case

A Winner

BACK A WINNER and keep ahead of the game. Put your money on a case that has been a leader from the start. Don't let the stakes slip through your fingers from poor judgment. Inferior cases from doubtful sources are "dark horses" and unlucky. Here's a "straight tip." Put your money on

WADSWORTH 25-YEAR "PILOT"

and pocket your gains. This case has staying power for the whole course, and comes up fresh at the winning-post. It excels also in looks; it has the lines that appeal to judges—the slender models so popular in horses and cases. It wins applause. It's backed by a guarantee. Easy money for the dealer.

KARNAK BRASS

ISIS

GODDESS OF THE NILE

Worshipped by the Egyptians as the Great Benefactress.

KARNAK BRASS

KARNAK BRASS

SPHINX

AN EGYPTIAN MYTHOLOGICAL MONSTER

Worshipped the Protectress of Egypt.

The ancient Egyptians were great builders—such Temples as Karnak, built by the Seti over fifteen centuries ago, the ruins of which are still standing in an excellent state of preservation, prove them GOOD BUILDERS.

We are metal workers, and the fact that our business has grown to its present proportions proves us GOOD WORKERS also.

Our latest line is "KARNAK BRASS" founded on the principles of utility and Art, of which we illustrate herein a few pieces—both forms and decorations express the ideal features of Egyptian ornamental art. Each piece is hand decorated and finished in a most attractive combination of dull brass and antique green. Each piece has a distinct individuality.

We wish particularly to call the trade's attention to the fact that this is a unique line—one in which every number is certain to prove a quick and profitable seller.

Write for complete price list and catalogue of Karnak Brass. Full line on display at our New York Office, 409 Broadway; including Hand Hammered Copper and Brass Art Goods, Silver Plated Hollowware and Flatware, Gold Plated Novelties, Clocks and Jewels, Metallized Real Rose Hat Pins.

JOHN W. SHERWOOD ————— General Selling Agents ————— FRANK E. HARMER

**THE
KREMENTZ
COLLAR BUTTON**

**GOES
ROUND
THE WORLD**

ITS FAME—

Wherever there are collars there are Krementz Collar Buttons. They are known the world over—the only ones that have an international reputation. With such recognition and demand, all you have to do is carry them. They sell themselves.

QUALITY MAINTAINED—

The Krementz Collar Button never disappoints. Unequaled in construction and finish, its quality always has and always will be maintained.

ASSAY—

The Krementz Collar Button does not take advantage of the elastic leeway allowed by law. There is really no reason why a solderless collar button should assay a whit less than stamped. You can depend upon it that

Krementz 14-Karat Collar Buttons will assay 14-Kt. or $\frac{584}{1000}$ Fine.

Krementz 10-Karat “ “ “ “ 10-Kt. or $\frac{416}{1000}$ Fine.

You will note that articles assaying 9 to 9½ Karat or 13 to 13½, and sold as 10-Karat or 14-Karat respectively, save the makers a profit.

ROLLED PLATE LINE—

Krementz Rolled Plated Collar Buttons and Studs are made with regular Krementz 14-Kt. stock; which is sweated, not soldered on composition base. Exhaustive tests show Krementz Plate is much heavier than is used on any other rolled-plate jewelry. Their great popularity in hot countries (where perspiration destroys ordinary goods), is largely owing to the thickness and quality of Krementz Gold Plate, similar to that used on highest quality filled cases.

MILTON L. ERNST

Twelve Dutch Street NEW YORK

For the Jobbing Trade Only

Popular Priced 10 and 14 K. Jewelry

DO YOU REALIZE what it means to manufacture gold chains of excellent quality and faultless construction and sell them at prices much below what the retailer ordinarily pays for chains of similar quality? It means that we have a well organized factory and prefer selling these chains ourselves directly to the trade, thereby giving you the benefit of what it would cost to maintain a necessarily expensive organization of traveling men.

THAT NEW CHAIN we are exploiting is solderless and flexible, without stringing, 15-inch lengths only. **IT SELLS AT SIGHT.**

Write for a sample.

NEW YORK OFFICE & WORKS—E. 5th
409 BROADWAY / SYRACUSE N. Y.

"Many a man talks himself into a sale, then talks himself out of it again," like the king in the nursery rhyme—

"The King of France, with forty thousand men,
Marched up the hill, and then marched down again."

HOLD THE FORT

When you once get "up the hill" to the buying point, quit marching, and *stick*—hold the fort!

The four steps up the hill to the buying point: (1) Getting attention, (2) Creating interest, (3) Arousing desire, (4) Bringing about resolve to buy—are fully outlined in our new book—"Silver Selling a Science."

"The most valuable piece of printed matter ever put into the hands of the jeweler or his salesmen"—that's what competent critics say of this new, thirty-six page, illustrated book—

"SILVER SELLING A SCIENCE"

Just look at the live topics discussed: "The Sales Value of an Idea," "Your Real Competitor," "Fostering the Collecting Instinct," "The Family Silver Idea," "Silver a Form of Wealth, not Expense," "Leading the Customer's Mind by Imparting Real Information," "Meeting Objections," "Four Kinds of Knowledge Every Salesman Should Have," "Every Customer an Assistant Salesman for You." These are only a few of many.

Every silver salesman in America should have a copy of this book. Send in names and home addresses of your salesmen—or, *Salesmen*, write us direct—and we will forward copies free of charge.

THE JEWELERS' CIRCULAR

WITH WHICH ARE CONSOLIDATED

THE HOROLOGICAL REVIEW

THE JEWELERS' WEEKLY THE JEWELERS' REVIEW

LVIII.

WEDNESDAY, JUNE 2, 1909.

No. 18.

A Magnificent Gold Chalice.

A magnificent chalice, 14 inches high, a gift to the Jesuit Church, Orleans, was recently made by D. A. [Name], a jeweler at 135 Bourbon St., that had been the subject of considerable comment from the trade and alike. The chalice, which is said to be of the finest that has been presented to a church in the south, is the gift of Miss [Name] McNeil, and is valued at \$3,500. The design, which is on Gothic lines, was the work of Mr. Walter, who was four months in perfecting the work. The material of which the chalice is composed is 18-karat gold, except the inner cup, which is of 24-karat gold.

On the base are four panels depicting the life of Christ, the Crucifixion, the Sacred Heart and St. John; each of these is encircled by raised gold frames and ornamented with blue and white enamel.

The outer frame holding the gold cup is decorated with raised scroll work, and is set with diamonds. An illustration of the piece appears on the front page of this issue.

Design of the M. Robert Guggenheim Automobile Trophy.

The design of the Guggenheim trophy for the automobile race between New York and Seattle, Wash., was recently the subject of a competition, and as noted in THE JEWELERS' CIRCULAR-WEEKLY a few weeks ago, the prize of \$250 for the design was awarded to Shreve & Co., San Francisco, Cal. In addition to the prize money was also awarded the contract to make the cup. The finished trophy is one of the finest that Shreve & Co. have ever turned out, and will be symbolic not only of the race itself, but of the Alaska-Yukon-Pacific Exposition and the western country as well.

The cover of the cup represents the northern hemisphere, showing the continent of North America in 18 karat gold. Upon the hemisphere is poised on a flying wheel, is a figure of ivory. The figure is draped with a banner on which are the words, "New York to Seattle." At the base of the hemisphere are shown polar bears suggestive of Alaska.

Immediately below are four panels, enclosing the cup, two of which only are shown in the illustration on this page. One shows a scene of the main street of Seattle, and in the other a view of the exposition buildings; these, however, were the designer's suggestions, as other designs may be used in the finished cup. Separating these four panels is a totem pole, encircled with enameled panels. Below the name of the exhibition, instead of "Alaska-Yukon-Pacific Exposition," as used, will appear "M.

Robert Guggenheim Trophy," the letters made of gold nuggets.

On the base is a wreath of laurel and

gold sprays, holding a large nugget of Alaska gold. Below the panels, encircling

PRIZE DESIGN FOR TROPHY FOR AUTOMOBILE RACE FROM NEW YORK TO SEATTLE, WASH.

I.

Nowadays there is as much an "UPLIFT" IN ADVERTISING as in anything in commercial life. Advertisers, advertising managers, copy-writers, all want facts that can be backed up by merchandise when planning an advertising campaign.

The GREAT STOREHOUSE of ADJECTIVES is being drawn upon less and less by concerns who care what they say in their advertisements.

During all the many years we have been advertising our various lines of goods, we have NOT OVER-STATED A FACT. In this style, on this page, for a series of weeks, we are going to try and make clear to the

retail jewelers of this country what are the HONEST FACTS about Larter & Sons' lines of 14K. and 10K. Rings for man, woman or child.

We wish to interest only those who care about what kind of gold rings they sell.

Are you in this class?

Our address is

Reigning Jewelry Fashions Noted in Paris.

Faintly Novelties in Gold, Silver and Gems Now in Demand Among the People of Taste in France's Capital.

AS, May 24.—In men's jewelry there is a wide variety, and the articles are for masculine usage savor more of the conventional. Some latitude is possible in cigarette and match holders which look best when they correspond. A to-date man wears his match box on a watch chain in guise of a locket, and is often sufficiently ornate to be substituted for one.

It is quite the most useful and utilitarian metal for this purpose, and the jeweler silversmith with his instinct for frequently works out an original design utilizing several colors, almost black polished silver, associated with pale or a white variety, the body of the ring usually of the darker-toned while the etched or repoussé decoration worked out in lighter tones. For example a cigarette case of dark gray dead silver with a raised pattern of a holly mistletoe or lily pads in a more delicate tone is very artistic. Others reveal an ingenious combination of aluminum and a basket pattern, while still others furnished gold barred with sparkling synthetic rubies or other stones. Grooved designs are another fancy, while there are others in stripes or plaids resembling the material of a man's shirt.

There are rich cases of translucent enamel with corners of thick-set precious stones while some show exquisite *genre* or religious subjects in miniature painting. A floral tracery in gold relieved a surface of *gris bleu*, empire green or mauve while there are dead white surfaces painted wreaths or bouquets strewn over the surface. Golden sun ray effects unveiled with translucent enamel of ethereal hues are charming. A roulette board in enamel occupies the face of a silver cigarette holder, while other are a series of sporting emblems, a card showing the ace of hearts, a man's head, a ballet dancer and a jockey. There are tartan plaid designs in cold enamels, or those of silver with a background of ruby flies or gray-blue swallows. There are diaper patterns, ribbed designs in black enamel and aluminum, enamels with a chain gold borders and others of silver in an intricate design; also burnished silver with an oval picture of a man's head in the center. Bright and silver in stripes is effective, while Toledo work is elegant.

Some links are often of exceeding richness although as a rule men of good taste shun the showy jeweled buttons, preferring unobtrusive round ones of mother-of-pearl rimmed narrowly with gold or silver, with a tiny stone where the eye of the button should be. Others consist of small stones as in a checker-board pattern in black enamel and brilliants; or perhaps of amethysts or rubies embedded in an almost invisible setting. There are triangular links of sapphire, and of topaz amazonite or emerald quartz, malachite or lapis-lazuli or others of striped or plaid enamel.

Still others are of baroque pearls or of balls thickly incrustated with brilliants crossed with narrow lines of dark blue or red enamel or tiny precious stones of a color. Instead of taking the circular form, other links are oval or square, or of colored gold etched or in repoussé work.

WATCHES.

The men over here wear watches which would appear almost too showy for masculine use elsewhere, some very pretty ones in very flat shape being of solid colored enamel divided by concentric rings of white as fine as a thread, while others are solid colored, the enamel framed in a circle of gold. Others show sun-ray effects inclosed in an ornamental border of enamel in palish tones.

Blackened silver watches with a raised or etched pattern in pale gray and bright metal are more practical, while others are of silver with raised gold decoration. Open-faced watches have a dial of emerald green.

Marie Louise blue or purple with golden numerals are liked. Such watches are worn with rather heavy gold chains or on a fob of black moire with a fetiche, a medal or a reproduction of an old fashioned seal intaglio hanging from the end.

CANES AND UMBRELLAS.

Canes come in great variety and in many fancy designs. Crooks are preferred to knobs and lend themselves to endless decoration. The woods are pimento, malacca, ebony and bamboo. Some terminate with a top of the same occasionally carved. However, the crook or knob is usually of ivory or silver, the former often showing a design in reticulated silver or a succession of graduated metal rings on wood. There are grinning dragons or serpents heads in dull silver repoussé; also handles of Toledo work in gold inlay on steel.

There are cane umbrellas containing tiny electric lights, others with flat tops to hold cigarettes and matches. There are sticks of rhinoceros hide with handles of clear horn. Also beautifully carved images in ivory, a warrior's head or an African in black enamel. Quaint are the animal heads; that of an ape, a pug dog, a black cat or a parrot. Some canes have a place in the top for a pipe; very convenient for the inveterate smoker. There are great balls of silver or gilt with metallic over-decoration.

Umbrella handles are of rough wood studded with silver nail heads. Others are flattened knobs through which a metal ring is passed, or crooked handles, silver bound or banded; others show a horse's hoof in horn with silver nails, or represent golf sticks of stained or natural wood. Straight wooden handles are entwined with a silver ribbon, while there are others in interlaced or lattice work decoration.

Cravat rings are of gold or aluminum set with small precious stones, while a pretty design shows a gold racket with pearl ball.

There are finger rings of aluminum very plain and wide, set with a single large diamond or several smaller stones; also heavy gold rings in which are sunk colored gems.

For the sentimental man there are heavy gold seal rings, which on being opened disclose the features of the loved ones so small that a magnifying glass is used to inspect it.

Scarf pins are popular in the form of some animal, wild or domestic—an elephant or deer, a dog, a cat, etc., in gold repoussé. Others are in the comic style made famous by Benjamin Rabier, such as frogs, crocodiles, birds and horses. They are but rude silhouettes of animals, but have become quite the fashion. As *porte bonheurs* the silhouette of a grasshopper or jockey are liked, especially carved upon a thin silver disk.

Automobile medals to carry when one is traveling are greatly in demand, being usually in the shape of the image of a saint or some heathenish fetiche. St. Christopher, the patron of travelers, is often invoked, and a late design shows the head of the saint in high relief of silver set in a circlet of gold with a prayer engraved. Others of Egyptian or Persian origin are quaintly engraved in Arabic characters with some motto characteristics of good luck or there are symbolic images on elongated pieces of turquoise matrix of Chinese jade.

Mascots for the house are also fashionable, and everywhere one sees such ornamentation on the mantel; even though one does not put faith in their efficacy they are worthy of acquisition because of their artistic quality. Such things are closed in a leather and satin-lined case, which is left open and makes a charming background. There are ravens as black as a coal exquisitely carved and perched upon a column of rose or green quartz with a golden tracery. A black pug emerging from a golden kennel on a slab of malachite or lapis lazuli, or an ebony cat with its back up lying on a bit of rock crystal are liked.

COUNTESS DE MONTAIGU.

Design of the M. Robert Guggenheim Automobile Trophy.

(Continued from page 51.)

the cup, are the words in Yukon nuggets "Alaska-Yukon Exposition. At the base of the stem, above the pedestal, is shown the State of Washington flower, the rhododendron, modeled in full relief, which rests on classic pillars upon the base.

The pedestal upon which the cup is mounted is of curly redwood, partly encircled by a silver band showing a sketch of automobiles. At each corner of the base, and standing out beyond the cup proper, are four busts of Indian chiefs of the north, with the bust of Chief Seattle showing prominently.

A woman believed to be a sneak thief was arrested in Northampton, Mass., May 20, on the complaint of Miss Ula Graves, bookkeeper for Frank E. Davis, who claims she saw the prisoner steal a vase as she was going out of the jewelry store. Miss Graves followed the woman to a drug store and then into Phelps & Gare's jewelry store, where she had her arrested. The missing vase was found in an umbrella which the woman carried. The prisoner was held for examination to-morrow in \$300 bail.

REPOUSSÉ WORK AND CHASING

ILLUSTRATED AND DEMONSTRATED BY AN EXPERIENCED ARTISAN

(Continued from issue of May 5.)

BEFORE soldering the sides of the casket to the base, the top moulding on which the lid will eventually fit should be soldered all round the sides. The settings enclose and hold the center panels, and especially also the long narrow panels at the corners, should be made and soldered so that in case the sides should be worn out of shape in the fire, when these items are soldered on, they can be roughly set before going on to the base. It is rather difficult to do much to them when they are once soldered on. The settings need only be plain bands of thin metal about 1/12 in. high, which can be made to the size and shape required. If they do not fit accurately the uppermost edge of the setting need then only be burnished or it may be slightly scalloped, in which case the panels should be enameled, as little pressure as possible should be applied to the enamel, which easily splits. The panels, if the metal is very thin, or made of silver, can be pressed over the panels with very little force. The top moulding can be either cast in brass or swaged, like the mouldings on the base, and fitted on in the same way, being taken that the various pieces fit snugly close on to the sides, as a gap between the two would be very noticeable when the casket was opened.

When soldering the sides on to the base the difficulty is to keep the sides square. They are very liable to be pulled out of shape with the heat. The general tendency is to be for the sides to sink in, owing to the fact that the corners, because of their being naturally stronger, and therefore their shape better than the long sides which have no support. The only way to counteract this tendency is to provide some support by means of a small square soldered all round on to the base, in a manner that when the sides are soldered on they will just butt up against this and so be prevented from sinking in during the soldering.

The sides can be further strengthened by using two or three pieces of binding wire all round, making loops at each of the corners, using the binding wire in the same manner as when the sides were soldered together. (See sketch in issue of May 5.) To keep the sides down on to the base during soldering, binding wires should be placed right over the top of the sides and soldered to the base. Another advantage of placing a wire on to the base before placing the sides in position is that it prevents them from shifting during soldering, which easily happens if the two parts were merely tied together with binding wire. The solder should be used than that used usually, and all solder lines and joints should be protected with rouge and whiting, to preclude any danger of the joints being eaten.

The lid may be made to either fit in with the bezel all round, or it can be hinged on.

Whichever way of fitting can be used, the construction will be the same. The lid in the case under consideration consists of two main parts, viz., the actual lid, which is made in one piece and shaped with the hammer; and the knob, by which it is lifted

forms the outline of the lid, and the plan is then complete. A reference to the sketch will make this clear. The lines should be gone over again with a steel point, so as not to lose any of them in working.

Although this lid looks rather difficult to shape, it is a comparatively easy piece of work, and can be done almost entirely with one or two hammers and punches on the sandbag, and a fairly thick block of wood; the ordinary bench in the workshop answering quite well for the purpose.

With a punch about 1/4 in. long, shaped

PLAN

SECTION AT A-B

PLAN AND SECTION, THE LATTER SHOWING THE LID, PART OF THE SIDES AND THE WAY THE TWO PARTS FIT TOGETHER. XX INDICATES THE BEZEL WHICH IS SOLDERED ON TO THE LID.

up or pulled out, whichever the case may be.

For the lid an oblong piece of metal, measuring about 9/8 x 5 1/8 in. and about 12 in. in thickness, will be required. The plan of the lid should next be set out. Its outline is the same as that formed by the sides of the casket, while the raised table in the center, on which the knob is soldered has the same proportions and outline on a smaller scale, measuring 3 x 1 8/12 in., with the corners in proportion. When drawing the plan two lines should be drawn for the raised table in the center, the one 1/8 in. inside the other, so as to form a slight moulding which can be embossed from the back.

The corners of the center table should now be connected by straight lines with the corners of the larger oblong which

something like a very broad blunt tracer, the metal can be embossed to form the moulding enclosing the center table. Then with a tracer—which must, of course, be much narrower than the one just used, but not sharp enough to cut the metal—the lines connecting the center table with the outer edge of the lid should be marked in: marking them in fairly deep at the center moulding and allowing them to die away as the outer edge of the lid is approached. It will be found that working on the sandbag the tracer will not make much of an actual line, but will rather have the tendency to force the whole of the metal round about the line downwards, according to the strength of the hammer blows. After hammering with a punch along these eight lines connecting the center with the outer edge it will be found that the center has lifted

ceptibly from the outer edge. If now the metal is annealed, the center can be further raised by using one or two hammers, and the slight dip half-way between the center and outer edge can be hammered in from the front with a hammer, holding the metal firmly on the board. It will be found that, provided the metal is annealed once or twice, and due care is exercised, the action of the lid can be got quite easily without the use of shaped steel tools. All that is necessary is that, after having obtained your final shape, the lid should be filled with soft pitch, and carefully planished with the hammers previously used. The eight corners or miters turned up one or two flabbish punches, letting the lid away quite gradually towards the outer edge of the lid. The moulding which encloses the center table can also, if the lid is on pitch, be carefully worked to whatever position is required. The moulding which encloses the outer edge of the lid should be made just a trifle higher than the moulding along the sides, so as to form a slight step between the lid when the casket is closed. This moulding can also be varied according to the wishes of the craftsman.

As will be seen on reference to the drawing, the moulding should not be soldered to the lid, but the lid should fit into the groove on the side of the moulding, and be held in place by solder. This step can be made in various ways. It can be filed or chiseled into the moulding in strips—i.e., beveled and mitered together, or if the strips are cast it can be provided for in the casting pattern, and will then only need a dressing up after the pieces have been cast. Another way would be to solder a square flange all round on the inner side of the lid.

The chief difficulty in making this moulding will be to make it correspond exactly to the moulding on the top of the sides. In mitering the various pieces together the work should always be tested on a plain surface and found quite accurately. If this plan is carefully worked to, when making the sides and the lid, the two should correspond fairly accurately when brought together.

The moulding of the lid when completed should, however, be placed on the table and any slight error rectified with the files, or, if need be, by cutting one of the corners and soldering it up again. It is impossible to alter any of the angles of the lid has been soldered in.

Whether the lid be hinged or not, it will be necessary to make a bezel to be soldered to the lid, which will fit into the body of the casket. If the lid is not hinged this bezel will, of course, form the sole fitting, and will have to fit very accurately, as otherwise the lid will be continually jarred and dropping out when the casket is opened. Even if hinged, the lid will fit more closely down much better if a bezel is soldered on. This bezel should be about 1/8 in. to 3/8 in. wide, and made of size 12 metal. It should be carefully fitted to the lid, making it a thing, on the small side, stretching across when soldered up with a hammer on a flat surface. If possible it should be made out of a strip of metal, as this is much the

quickest and most satisfactory way, filing about two-thirds of the way through the metal with a three-square needle file at each of the corners in order to obtain a sharp angle. If the bezel should not butt against the moulding on the lid a line should be marked with the dividers all round on the lid where it is to be soldered, and a number of small stitches put in in order to ensure its remaining absolutely square while it is being soldered, as, if it should shift, the whole lid would be thrown out when it is fitted on to the body of the casket.

(To be continued.)

Alaska-Yukon-Pacific Exposition Opens Its Doors at Seattle, Wash.

SEATTLE, Wash., June 1. When President William H. Taft at noon to-day presses the electric button that is to signalize one of the greatest achievements of the 20th century, the gates of the Alaska-Yukon-Pacific Exposition will be formally opened, and the great fair, for which six years of preparation have been devoted, will be in full swing.

The slogan spread throughout the land, "The Fair That Will Be Ready," has already been justified. The fair stands ready to-day, and only waits the electric ring from the executive hand to make it officially complete. It has been an accomplishment of well planned purpose such as has not been previously chronicled in exposition annals, for this exposition, of all those recorded, might have opened before its scheduled day.

Seattle's 300,000 population has already been swelled by an influx from all quarters of the globe, and as the tide of eastern visitors has only begun to arrive it seems certain that the most sanguine predictions as to the attendance will be borne out by facts.

The Alaska-Yukon-Pacific Exposition is primarily beautiful because of its remarkable location. Mount Rainier, the highest mountain in North America, seems almost within walking distance of the grounds, though, as a matter of fact, it is 80 miles away. The Cascades, the Olympics and the Selkirk ranges make an amphitheater of the low land about Seattle in which the exposition has been reared, and two beautiful lakes, Washington and Union, together with far-famed Puget Sound, fringe the boundaries with a sheet of water. There has been little or no need for artificial landscaping.

The heart of the exposition is the Court of Honor. Here the United States Government building stands as the central figure. Cascades of water, to be brilliantly illuminated at night and bounded by flaming masses of the most brilliant flowers, tumbled down the center of the court. On either side are the buildings of Alaska, Hawaii, Europe, the Orient, Agriculture and Manufacture, all designed with a view toward the symmetry of the whole. A monument depicting the spirit of the fair looks down upon the scene.

Seven of the exposition buildings are to be permanent, and upon the closing of the fair, Oct. 16, will revert to the University of Washington, upon the grounds of which the exposition stands. These are fine examples of dignified art, two of them—the Forestry and the Arctic Brotherhood structures—being constructed of logs, and per-

haps the most striking buildings on the grounds. The first named is remarkable for its colonnade of log pillars, 134 of them in all, and each of five feet in diameter. Washington, Oregon and California have handsome State buildings.

As its three-part title indicates, the exposition is to exploit Alaska, the Pacific Islands and the Orient as much as the pushing western States, perhaps the most interesting of the exhibits installed go to show the resources, the progress, the advantages of these contributors. Alaska is proven to be more than a land of gold and snow, and the Pacific and the Orient are revealed as homes for civilization and industry as well as native melodies and fascinating art.

A great pile of gold, said to amount to \$5,000,000, is deposited in the center of the Alaska building and panoramas of the northland, of Hawaii and of northwest counties and cities are among the remarkable things numbered among the exhibits.

China and Japan have outdone all previous attempts at comprehensive and artistic displays, and Korea and Formosa have become their rival exhibitors. The Philippines have a building typical of their simple architecture, and various of the most famous of the island tribes will have picturesque villages among the many colonies.

The Pay Streak is the amusement way of the exposition and promises to have much that is new and novel.

Many exhibits that will interest jewelers have already been installed, prominent among which are those of the Waltham Watch Co., the International Time Recording Co. and Jos. Mayer & Bros.

Death of Nathaniel Leonard.

BOSTON, Mass., May 28.—Nathaniel Leonard, a well known Charlestown jeweler, with a store on Main St., that district, died Wednesday afternoon at his home, 5 Prescott St., Charlestown. Since last Fall he had been in poor health and for two weeks prior to his death was confined to his bed. His death was due to a complication of diseases.

Mr. Leonard was born in Camden, Me., July 9, 1833. His early education was secured at the Westbrook High School and the Farmington Normal School. When 18 years old he came to this city and found employment in the leather finishing industry in Charlestown, and several years later he succeeded his brother in the jewelry business.

In 1891 Mr. Leonard was appointed by Judge H. H. Bragg a probation officer of the Charlestown police court, and these duties he performed with a high degree of efficiency, while continuing his jewelry store. He had resided in Charlestown 57 years, and was always active in local affairs, having been one of the earliest and staunchest members of the famous artillery association.

Thirty-seven years ago Mr. Leonard married Miss Adeline Marshall, who, with his sister, Mrs. Gammons, survives him. The funeral services were held at 2 o'clock this afternoon at the house. Rev. John Evans, pastor of the First Universalist Church, Charlestown, officiated. The body was taken to Augusta, Me., for interment.

The Oriental Turquoise Matrix

This gem, unparalleled in beauty by anything in the blue variety of opaque stones, and positively occupying the first position in the matrix family, is in every respect superior to anything of its kind yet known in the stone market. Being of an exquisite color that does not fade, varying in shade from the most delicate sky blue to the deepest azure, superbly marked by veins of golden brown or pure black matrix, and lastly, by reason of its superior hardness admitting of the highest polish ever attained by any turquoise, it is one of the most beautiful of gems.

Its possibilities, as a part entering into the composition of jewelry, are absolutely unlimited.

Jewelers Recover from Pawnbroker Articles Entrusted to a Salesman but Pledged by His Agent.

Very interesting suit affecting the rights of jewelers and pawnbrokers has just been decided by Justice Bischoff of the New York Supreme Court, in an action brought by Freudenheim Bros. & Levy, wholesale jewelers at Maiden Lane, against Bernard Levison, a pawnbroker on the Bowery, Manhattan.

The action arose in this way: Freudenheim Bros. & Levy had a salesman named Levison, to whom they entrusted mounted jewelry and goods and loose diamonds for sale, obliging to pay him a certain commission on all goods sold. Levison was to sell in the territory west of Pittsburg. Immediately after obtaining the goods, and while en route, he sent some of the goods to a clerk of his in New York, directing him to pawn them and to apply the moneys so received from pawnbrokers in payment of certain notes of Levison, or to deposit it in Levison's bank to meet certain of Levison's obligations.

On his conduct on the part of Levison was discovered by Freudenheim Bros. & Levy until about a year after the employment of Levison, and upon discovering that the jewelers demanded their goods of the pawnbroker, who refused to deliver them unless he was paid the amount advanced. This Freudenheim Bros. & Levy declined to do, and thereupon brought suit in replevin to recover their property.

This action came on for trial before Justice Bischoff in the Supreme Court, on Tuesday, May 25, and was concluded on Wednesday, at which time Judge Bischoff delivered a verdict in favor of Freudenheim Bros. & Levy for the recovery of the merchandise.

The pawnbroker, through his attorney, pleaded that he was protected in the advertisements under what is known as the Factor Act of New York State, a statute which provides that where one person entrusts property to another person for the purposes of such person shall be deemed the true owner thereof, so far as to give validity to a contract made by such agent with any other person for any money advanced upon the faith thereof.

The plaintiffs' counsel, on the other hand, contended that in order for a pawnbroker to lend to other person to avail himself of this statute, and to acquire a lien upon the goods pledged, it must be shown that the money was advanced to the person who had been given possession of the goods by the pawnbroker and upon the faith of such possession; and that inasmuch as the clerk to whom Levison sent the goods pawned held the goods without the consent of the plaintiffs, and the transaction was with him and not with Levison, that the pawnbroker could not acquire any lien upon the property. And the jewelers further contended that any authority existing on the part of Levison could not be delegated by him to any other person.

Judge Bischoff directed a verdict in favor of the plaintiffs for the recovery of the goods upon the ground that the possession of Levison's clerk was not with the consent of the plaintiffs, and that the pawnbroker

was not protected under the Factor act in dealing with him, and could not acquire any lien such as he claimed.

The plaintiffs were represented on the trial by Isaac H. Levy, their attorney, and Daniel P. Hays, of Hays, Hershfield & Wolf, as counsel, and the defendant was represented by Max D. Steuer.

The suit is a test case, as other actions of the same kind are to follow, and it is therefore expected that it will be appealed at once and the points at issue brought finally to the highest courts for adjudication.

Jewelry, Clocks, Watches, Silverware and Kindred Lines Exported from New York.

WASHINGTON, D. C., May 26.—The following were the exports of jewelry, silverware, optical goods, clocks, watches and kindred lines from the Port of New York for the week just ended:

- Adelaide: 39 cases plated ware, \$2,016; 50 cases clocks, \$466; 2 packages optical goods, \$503.
- Antwerp: 1 case plated ware, \$10.
- Berlin: 3 cases clocks, \$300.
- Bolivar: 3 cases plated ware, \$230.
- Bombay: 33 cases clocks, \$660.
- Buenos Ayres: 18 cases plated ware, \$2,770; 55 cases clocks, \$3,498; 1 case watches, \$404.
- Calcutta: 140 cases clocks, \$2,320.
- Callao: 3 cases plated ware, \$370.
- Colombo: 71 cases clocks, \$1,234.
- Christiania: 21 cases clocks, \$919.
- Colon: 2 cases jewelry, \$188; 8 cases clocks, \$1,159; 1 case silverware, \$346; 4 cases jewelry, \$124.
- Copenhagen: 6 cases watches, \$277; 4 cases clocks, \$100.
- Glasgow: 2 packages optical goods, \$154.
- Hamburg: 3 cases watches, \$2,892; 1 package optical goods, \$125; 3 cases plated ware, \$190; 19 barrels jewelers' sweepings, \$900; 5 packages optical goods, \$1,110.
- Havana: 1 package optical goods, \$189; 5 cases jewelry, \$440; 13 cases clocks, \$204; 1 case plated ware, \$125; 2 packages optical goods, \$202.
- Havre: 5 cases jewelry, \$703.
- Hong Kong: 43 cases clocks, \$375.
- Honolulu: 1 case clocks, \$260.
- Kingston: 8 cases clocks, \$178; 3 cases watches, \$190.
- Liverpool: 2 cases jewelry, \$931; 58 cases clocks, \$1,019; 1 case jewelry, \$500; 7 cases clocks, \$355; 3 cases watches, \$1,200.
- London: 61 cases clocks, \$1,860; 2 cases silverware, \$400; 22 cases clocks, \$841; 3 cases watches, \$675; 1 case scopes and views, \$300; 13 packages optical goods, \$6,026.
- Manila: 1 case silverware, \$411; 1 case plated ware, \$275.
- Matanzas: 5 cases plated ware, \$590.
- Melbourne: 4 cases plated ware, \$775; 127 cases clocks, \$3,770; 3 cases watches, \$110; 1 package optical goods, \$221.
- Montevideo: 11 cases plated ware, \$2,083; 12 cases clocks, \$272.
- Rio de Janeiro: 33 cases clocks, \$530; 1 case watches, \$277.
- Rome: 1 case jewelry, \$200.
- Santiago: 37 cases clocks, \$299.
- Shanghai: 41 cases clocks, \$680.
- Southampton: 5 cases watches, \$1,053; 1 case plated ware, \$175; 2 cases watches, \$450.
- Valparaiso: 3 cases plated ware, \$276.
- Veracruz: 16 cases plated ware, \$1,749.
- Wellington: 2 cases plated ware, \$109; 23 cases clocks, \$296; 193 cases clocks, \$2,893; 17 cases plated ware, \$1,218.
- Yokohama: 87 cases clocks, \$1,611.

The Boyd Park Jewelry Co. was recently incorporated to take over the jewelry business of Boyd Park at 170 Main St., Salt Lake City, Utah, in payment of the full capital stock of \$100,000. Boyd Park is president; C. Park, vice-president and treasurer; while the directors are the above, with Margaret B. Park, J. H. Stuterd and A. R. Thomas, secretary.

Preparations Complete for the Convention of the Pennsylvania Retail Jewelers' Association.

PITTSBURG, Pa., May 29.—Everything is now in readiness for the fourth annual convention of the Pennsylvania Retail Jewelers' Association, which is to meet in Harrisburg, June 3 and 4. Secretary C. S. Wiley of this city mailed out 2,000 programmes Thursday, giving the details of the subjects to be discussed, order of business to be followed and a short history of the organization.

Secretary Wiley told the JEWELERS' CIRCULAR correspondent that the organization has enjoyed a wonderful increase in membership during the last year, as his figures will indicate. A year ago the association boasted of between 60 and 70 members, and now there are 225 on the rolls, an increase of nearly 400 per cent. in a year. Included in the new members are many of the leading if not nearly all of the leading jewelers of the State. Practically all leading retailers of Pittsburg are now enrolled. About 20 new applications were received this week, mostly from merchants of Allentown, Easton and Bethlehem.

The indications are that a large delegation will go from this city. Among others W. F. Steinmacher, Mr. Wiley and John M. Roberts.

The programme is as follows for Thursday, June 3.

- THURSDAY, JUNE 3.
- Call of convention to order by President Ira D. Garman, 1:30 P. M.
- Roll call and reading of minutes.
- Appointment of audit committee and appointment of committees on by-laws and constitution.
- The president's address, Mr. Garman, of Philadelphia.
- Applications for membership.
- Secretary and treasurer's report.
- Report of audit committee. An adjournment will then be taken until 7:30 P. M.

- THURSDAY EVENING.
- Address, "Aggressive Salesmanship," H. C. Carpenter, South Bend Watch Co.
- Address, "Organization," Col. J. Warner Hutchins, Philadelphia, Pa.
- Address, "A Fixed Selling Price," John M. Roberts, Pittsburg, Pa.
- Informal talks by members and visitors.
- Adjournment.

- FRIDAY, JUNE 4.
- "Shall Watch Movement Companies Sell Only Complete Watches?" discussions by the members.
- Unfinished business and consideration of new business.
- Report of resolutions committee and constitution committee.
- Adjournment for lunch.
- Address, "Pioneers and Protectors," A. L. Sackett, of the Buck Silver Co., Salamanca, N. Y.
- Nomination and election of officers and consideration of "Where Shall We Meet Next?"
- Election of delegates to American National Retail Jewelers' Association.

The present officers of the association are Ira D. Garman, president; C. S. Wiley, secretary; J. Warner Hutchins, P. C. Yetter, I. A. Deisher, F. C. Bode, W. F. Steinmacher, vice-presidents; J. P. Archibald, A. C. Graul, H. F. Seltzer, executive committee.

The various committees are made up as follows: Trade Interests, Frank Kind, Steele F. Roberts, W. H. Thompson, Jr.; Legislation, C. S. Powell, Geo. S. Katz, H. F. Freeman; Qualities, Wm. Gibbons, S. Kurtz Zook, W. W. Ridsill; Membership, Hugh A. Jackson, C. H. Hamer, August Rhoads; Reception, Mr. Diener, E. L. Rickenbach, Robert C. Gitt.

DIAMONDS

We offer some exceptionally fine LA VALLIERES in Diamonds and combinations of diamonds and pearls and other precious stones.

These pieces are unusually beautiful in design, are in the latest style and are precisely what is needed to serve the prevailing fashion. The mountings are strictly correct and of the finest finish. Prices are right.

We shall be glad to send you an assortment, on memorandum, including some exceptionally fine pieces. Write us.

Death of Robert Stewart Cutting.

PROVIDENCE, R. I., May 28.—Robert Stewart Cutting, one of the old-time manufacturing jewelers of this city, died at his home on Walden St., West Barrington, Wednesday evening, after an illness of four weeks. His death is regretted by a large number of business and personal friends and the jewelry trade of this vicinity, as he was one of the few living who may be called jewelers of the old school.

Mr. Cutting was born in this city Sept. 18, 1831, and received his education in what then the Friends' School, now the Friends' Brown School. After his graduation from that institution he was apprenticed, at an early age, to learn the jewelry business, which he was identified until his death. He learned his trade in all departments in the shops doing business just preceding the outbreak of the Civil War. During the latter days of the war he had a factory to make certain parts of the Burnham's, which were manufactured by the Providence Tool Co., in this city.

Mr. Cutting started in the manufacturing jewelry business under his own name about 30 years ago, being located at 409 State St., as R. S. Cutting & Co., where, on the fourth floor, the firm had a shop 20 by 25 feet. At that time separable buttons were all the rage, and with numerous other manufacturing jewelers Mr. Cutting had a "cut button," which was marketed with considerable success. The average output of the factory was about 1,000 gross pair per month, meeting with a ready sale not only throughout the Union, but in England and Canada, the firm having a brisk export business, with a New York office and salesroom at 104 Duane St.

For several years he conducted a lucrative business, but reverses during the dull years of 1893 caused him to remove to a smaller shop in the down-town section and for several years past he has been located at 57 Orange St., where he had continued manufacturing in a modest way since. He retired from active business about two years ago. He never was a visitor among the trade of the country, devoting himself especially to the personal superintendence of the factory, having a practical adaptability for the mechanical end of the business.

Mr. Cutting was twice married, first to Ruth Aldrich, of this city, by whom one son, William Aldrich Cutting was born, and in 1873 he married Julia Mott, of Bristol, by whom he had two sons, Frederick S. and George E. Cutting. He is survived by all three sons and his widow.

The funeral was held this afternoon from 10 o'clock on Walden St., West Barrington, at 1 o'clock, and the burial was at Swan Point Cemetery, this city.

Received by Isthmian Canal Commission to Supply Eight-Day and Marine Clocks.

WASHINGTON, D. C., May 26.—The Purchasing Agent of the Isthmian Canal Commission has received the following proposals for supplying clocks:

For 30 eight-day clocks—Ansonia Clock Co., \$75.30, \$104.10, 14 days; Manhattan Supply Co., \$96, \$105, 30 days; Manning, Maxwell & Moore, \$114, 30 days; Fox Bros. Co., \$89.70, 30 days.

For 24 marine clocks—F. S. Banks & Co., \$629.76, 31 to 40 days; Chelsea Clock Co., \$108, 60 days; Manhattan Supply Co., \$753.60, 30 days; James P. Marsh & Co., \$840, no time; Syracuse Steam Gauge Mfg. Co., \$360, 60 and 40 days; Fox Bros Co., \$407.76, 30 days.

Court Denies Motion to Sell Assets of Duhme Jewelry Co.—Examination in Keck Case Resumed.

CINCINNATI, O., May 28.—In the United States Court Judge Thompson has denied the petition of Receiver Robert de V. Carroll, of the Herman Keck Mfg. Co., to sell the assets of the Duhme Jewelry Co. in order to pay off claims against the Duhme concern. This request was denied on the ground that the Duhme Jewelry Co. has not been adjudged bankrupt, and is not before the court in the bankruptcy proceedings.

About two weeks ago Mr. Carroll paid off 50 per cent. on claims due creditors against the Duhme company aggregating over \$20,000, but there is still due creditors about \$25,000. As it has been maintained during these proceedings that the Duhme concern is solvent and able to pay its creditors dollar for dollar. Receiver Carroll also appealed to the court for an order authorizing him to borrow about \$20,000, to pay off claims, instead of selling the assets. This, however, was denied for the same reasons as for the request for an order of sale. Instead, Judge Thompson, of the United States Court, instructed Bankruptcy Referee Greve to resume the taking of testimony with reference to the two companies and report as soon as possible.

In the meantime the creditors will have to wait on their settlements unless they decide upon some other action.

The taking of testimony with reference to the bankruptcy proceedings against the Herman Keck Mfg. Co. was resumed, May 25, before Referee Greve. J. H. Schmidt, bookkeeper for the two corporations, which were conducted under a joint management and the same set of officers, was asked to differentiate between the affairs of the two concerns in the matter of the bankruptcy proceedings against the Keck company. The object of this testimony is to determine whether or not the Duhme company is also bankrupt.

Mr. Schmidt was asked to go over the books for 1907, at this hearing. He said that on Jan. 1 of that year there was on hand \$253,045 worth of diamonds, pearls, rubies and semi-precious stones. Also during that year there were purchased \$270,132.40 worth of these stones. The hearings will continue until the taking of testimony is completed.

A demurrer has been filed in United States District Court to the claim of Attorneys Jones and James for \$1,500 fees against the Duhme Jewelry Co. for services rendered in the past. They were not in the list of creditors when Judge Thompson authorized the payment of the 50 per cent of the Duhme debts. Creditors are anxious for the sale of the Duhme assets as soon as possible.

W. B. Ragland is now settled in his new location at 506 Austin Ave., Waco, Tex.

Death of Charles A. Wilkinson.

PROVIDENCE, R. I., May 27.—Stricken while in the Elmwood garage, Potter's Ave., this city, Charles Allen Wilkinson, of the firm of C. A. Wilkinson & Co., and well known in the trade, succumbed to an attack of angina pectoris, last evening. He had been out for an automobile ride and had just run the car into the garage when he was stricken with intense pains around the heart. Dr. John E. Donley was summoned, but before his arrival Mr. Wilkinson died.

Mr. Wilkinson, who was in his 58th year, was the head of the firm of C. A. Wilkinson & Co., manufacturers of eyeglass and spectacle frames, with a place of business at 53 Aborn St., this city. He had a Summer home at Riverview and during the Winter lived with his father-in-law, Walter S. Hough, 334 Broadway, this city.

A native of Fall River, Mass., he was born March 3, 1852, and was brought to this city when very young and educated here in the public schools and Schofield's Business College. After two years' service in the office of a manufacturer of cotton goods, he became bookkeeper of the old Union Bank, serving as such for about 14 years.

Twenty-two years ago he formed a partnership with Dutee Wilcox, of D. Wilcox & Co., and his brother-in-law, Walter S. Hough, Jr., the firm name being W. S. Hough, Jr., & Co., in the jewelry manufacturing business, with the factory in this city in the Dyer Land Co. building, Peck St., and an office in New York, of which later Mr. Wilkinson took charge. During his business connection with this concern, which lasted for 10 years, he lived in Brooklyn, N. Y. The firm was dissolved about 12 years ago, when Messrs. Wilkinson and Wilcox formed a partnership as C. A. Wilkinson & Co. for the manufacture here of eyeglass and spectacle frames. Mr. Wilkinson returned to Providence to live and continued in the business the remainder of his life.

Mr. Wilkinson was married Oct. 28, 1874, to Eliza R., daughter of Walter S. Hough, president and treasurer of the Wightman & Hough Co., manufacturing jewelers. Although a member of the Churchmen's Club, Board of Trade and West Side Club, his social relations were not conspicuously those of a clubman, but rather those due to a characteristic sympathetic fellowship which made for him warm friends in business, personal and church circles. In early life he was a member of the Beneficent Congregational Church of this city, but after his return from Brooklyn he became a member of All Saints' Memorial Episcopal Church, of which he was a vestryman at the time of his death.

Deceased is survived by a widow and by three sons—Howard H., Frederick C. and Ralph A. Wilkinson—all of whom are actively identified with the firm of C. A. Wilkinson & Co.

J. R. McLellan, of the Howe jewelry store, Wichita, Kans., is obtaining fame as an inventor. He is a patentee of an ironing board which is about to be manufactured, and is also the inventor of an aluminum mailing device for jewelers, opticians and others. In addition, he has a patent pending on an automobile lamp.

The Diamond Markets.

ANTWERP, May 19.—The general condition of the diamond market here is good. It is the fact that certain goods, especially small sizes, are somewhat neglected. Why they are not called for is difficult to understand, as in all other parts of the trade business is brisk. Goods continue to arrive in large numbers and this is considered a very gratifying indication as far as the future is concerned. It is generally believed that if the market remains firm and international politics do not develop an unexpected crisis the diamond market will soon be as brisk here as in the best periods of the past.

As previously noted, the diamond dealers of Antwerp have decided to work collectively for the success of the Brussels exhibition. All the important men in the trade will participate in the movement to go along, and a prominent and brilliant exhibition from the trade is expected. The Belgian Government is appointing the king and the members of the groups in charge of the jewelry, silver and gemstone section of the exhibition, following appointments having already been made public: Louis Coetermans, president of the city, deputy-president of the exhibition; J. Ryziger, of Brussels, vice-president; Member Ad. Adler, Antwerp, president; A. Adler, vice-president, and the members are Messrs. Dreyfus, banker, Limdy; S. Kleinberg, F. Schulz, Tolkowsky, Tom, Heydt, Rondeau, Wolfers & Antoni, Antwerp; Mr. Mans-Hayden, Brussels.

It is reported that the members of the organizing committee in Brussels intend to form a syndicate for the buying, selling and cutting of diamonds. Turkish dealers in this city have formed a club here and will establish a list of diamond traders known as the Constantin Union. O. Pauwels, who controls the Sté Ame and Club, and E. Hermans, have been elected members of the *Conseil des Prud'hommes*.

AMSTERDAM, May 20.—Little or no change has been felt in the condition of the diamond market here within the past few weeks, but American as well as European buyers seem to be eager to get all the available goods that they can. Light brown goods of large sizes have been in demand to a considerable extent, but have been very scarce in the market of late.

Not only large goods, but *mêlée* and small goods of good quality have been finding buyers recently, and the attitude of American customers has given the local dealers reasons to hope for a boom in the diamond trade in the near future. It is generally believed that as soon as the tariff question is settled in the United States and the market resumes its normal proportion the demand for diamonds will be greater than the supply. In fact, it seems that many dealers have been acting on that supposition by buying diamonds of good quality in the belief that these stores will be higher priced and harder to find in the Fall than they were before.

The manufacturers are taking rough in all qualities as soon as it is shown by the Syndicate and the factories are all working with full forces.

Among the American buyers in this market were representatives of the following firms: L. & M. Kahn & Co., Irving Baum, H. A. Groen & Bro., Powers & Mayer, H. E. & J. E. Julels, Reichman Bros., Oppenheimer Bros. & Veit, Van Gelder Bros., all of New York, and Mr. Levison, of the California Jewelry Co., San Francisco.

The condition of the diamond market in New York has shown a marked improvement of late, and the increased amount of cut and uncut goods imported has again revived the diamond-cutting industry in this city, until now a large percentage of the diamond cutters are employed and practically all the factories are being run under full time. This condition of affairs is the more remarkable when it is considered that last year at this time there were 300 diamond cutters out of work in New York and Brooklyn. It is reported that large orders for rough, to be shipped in June, have been placed with the Syndicate in London, and this would indicate that practically the entire force of diamond cutters will be at work within a few months. The difficulty which dealers find in getting fine-cut goods abroad indicates that the diamond-cutting industry in this country will grow to much larger proportions than before the panic.

Market Prices for Silver Bars.

The following are the quotations of silver bars in London and New York, as reported by Zimmermann & Forshay:

	London.	New York selling price, .999 Basis.
May 25.....	24 1-4d.	\$0.54 3/4
" 26.....	24 1-4d.	.54 3/4
" 27.....	24 1-8d.	.54 1/2
" 28.....	24 5-16d.	.54 1/8
June 1.....	24 3-8d.	.55

The firm of Lang & Schlom, Greenville, Miss., dissolved recently, Mr. Schlom retiring. Mr. Lang continues the business under the style of W. F. Lang & Co.

A. H. Bahns has opened a retail store at Seymour, Ia.

John Wallace is starting a new business in Grover, Colo.

L. A. Messing has opened a store at North Powder, Ore

E. M. Hengerlon has started as a wholesale jeweler at Watertown, S. Dak.

George E. Fatzinger is opening a new jewelry store and repair shop at Janesville, Wis.

J. S. Kirstein has recently engaged in the retail jewelry business at Garretson, S. Dak.

A. H. Goetz, formerly a traveling salesman, has opened a new jewelry establishment at Mukwonago, Wis.

The Reminder Clock Co. is being organized in Easton, Pa., to manufacture and sell Mission clocks. The capital is \$50,000.

A. S. Higbee will open a jewelry and optical store in Roodhouse, Ill. He recently graduated from a watchmaking school in St. Louis.

J. A. Light & Co. is the name of a new wholesale jewelry concern of Minneapolis, Minn., with offices at 1134-1135 Lumber Exchange.

E. R. Cook Jewelry Co., 59 Page St., Providence, R. I., is a new concern at that place, and will manufacture gold front and plated jewelry.

It is announced that a new jewelry store will be opened at Champaign, Ill., about June 20. The proprietors will be John O. Smith, of that town, formerly employed as watchmaker and engraver, and M. Paul Williamson, Bluffton, Ind. The establishment will be located at 74 N. Neil St., in the Storer block.

F. M. Bronson, who some time ago was engaged in the jewelry business in Watertown, S. Dak., has returned to that town and announces that he is opening a wholesale jewelry and optical house there. In addition to the wholesale department he will have a general repair shop. For the present he will be situated in Midway, but will later move to more commodious quarters.

Jewelers' Gold Bars Withdrawn and Exchanged at New York.

Week Ended May 29, 1909.

Prizes Awarded for Jewelry Designing and Working at the Rhode Island School of Design.

PROVIDENCE, R. I., May 27.—At the graduation exercises of the Rhode Island School of Design on Wednesday special mention was made of the advancement shown in the jewelry department since the exhibition of a year ago. Many charming pins, brooches, buckles and other articles of more unusual practicability have been made under the direction of John H. Harmstone. Some of the best work exhibited is by Miss Juline Waldron and Miss Christelle Wilcox and Messrs. Ernest A. Valva, Arthur Latham and James Edgar

winning the scholarships, diplomas and medals awarded were the following: Department of jewelry design, three years' course, Miss Ethel Juline Waldron and Miss Christelle Wilcox. Medal of excellence in jewelry design, presented by Messrs. Ernest A. Valva, Arthur Latham and James Edgar.

The prizes given by a friend for excellence in evening work in the jewelry department: First, \$15, Ernest S. Valva; second, \$10, James Edgar Essex; third, \$5, Anna M. Poland.

Medals—Department of jewelry design, James Edgar Essex, for three years' evening work in jewelry design; Hubert Arthur Latham, three years' work in jewelry design and modeling; Miss Anna Marie Wilcox, three years' evening work in jewelry design; William Rafferty, three years' evening work in drawing and one year's evening work in jewelry design.

The exhibition, which is now open to the public, there is much of interest, especially the designs done under the direction of John H. Harmstone and Charles B. Wilcox. The cases containing jewelry done by the pupils of Mr. Harmstone have a distinguished place of honor on the left near the entrance.

Local Jewelers of Albany, N. Y., Form Association and Elect Officers.

ALBANY, N. Y., May 27.—The retail jewelers of this city formed an organization last evening, to be known as the Albany Retail Jewelers Association, which went out with a membership of 25. The organization is of a social character, on the lines of similar organizations in other cities.

The officers elected at the first meeting were: President, E. F. Wentworth; vice-president, Fred. Mix; secretary, John L. Latham; financial secretary, H. Seaman; treasurer, P. D. F. Jennings; sergeant-at-law, E. J. Peters. After the formal business session had been held the members adjourned to the Hampton, where a banquet was served.

The association is planning an interesting entertainment for the next meeting, which will be held in the Chamber of Commerce rooms, as will be the gatherings in the future.

The firms represented at the first meeting were: James Mix, R. P. Thorn & Son, William Kennedy, F. L. Hunke, John L. Latham, B. Limberg, M. Kunkle, Marston & Son, F. D. P. Jennings, Miller Bros,

H. J. Pilantz, William F. Antemann & Son, Julius F. Mende, Otto Mende, A. Crouse, Ernest H. Miller, E. H. Souder, E. Peters, Peter J. Buenau, E. Max Fasoldt.

Death of Capt. Andrew Brown.

FLORENCE, Ala., May 26.—Captain Andrew Brown, an old and well known jeweler of this section, and head of the firm of Andrew Brown & Son, died Friday last, after a long illness of a complication of diseases. Captain Brown had been in poor health for a year and has not been able to attend the business in that time. His death, while not unexpected, was a severe blow to his many friends.

Captain Brown was over 70 years of age, and his career in the jewelry trade had been a long and honorable one. For some time he had been associated with his son, Robert, as a partner, and the latter now continues the business. The deceased was noted for his skill as a jeweler and watchmaker, and was also prominent as an optician, being a member of the Alabama Optical Association. Two daughters, as well as a son, survive him.

The funeral services, which were conducted Saturday evening from the First Presbyterian Church, were in charge of Dr. E. D. McDougall and were largely attended.

LETTERS TO THE EDITOR.

American Gems Should be Introduced to the World.

NEW YORK, May 29, 1909.

Editor THE JEWELERS' CIRCULAR—WEEKLY:

Through your esteemed paper I desire to address in general all those who are interested in promoting and making known to the world the native gem minerals of our country and to interest and co-operate with them in this work. As is well known, after America was discovered the Spanish brought lots of gems and other precious stones back to Europe, but with time the knowledge of this died out and Europe did not receive or hear any more of our native stones. As is usual, history repeats itself with our American gems, and the mining of our very precious, precious or minor precious stones of adornment has been taken up again and the stones are again going to the old world.

America does not need to take a back seat with other parts of the globe where mineral wealth is concerned. Our country produces many fine colored gems, and before long we will mine diamonds. Our tourmalines, tourmaline matrix, turquoise, turquoise matrix, amatrice varisites, uvalites, chrysoprase, azure-malachite, azulite, Californian jade, azates, garnets, sapphires, opals, opal matrix, emerald matrix, hedderite and last, but not least, our kunzite are becoming world known.

It is now "up to" our miners and mine owners and those who handle the output of the mines to assist the scientists, mineralogists, etc., in introducing our native precious gems and especially our unique minor gems in all foreign countries. It would be advisable and of great importance to gather collections of the different gem minerals and let them be sent around on a traveling ex-

position under the protection and supervision of the United States Government through its consuls. This would help to introduce the new gems and get the others known again.

Thanking you for calling the attention of the trade to the matter, I am,

Respectfully yours,

EMIL FREUND.

Death of Frank E. Harmer.

Frank E. Harmer, for the last five years one of the general selling agents of the Solidarity Watch Case Co., New York, died at his home, 392 1st St., Brooklyn, Sunday night, of internal trouble, after an illness of over a year. His health began to fail in March, and he was unable to attend to his work after that time. His heroic fight for life and the patience and forbearance with which he suffered were characteristic of his life. He was an unassuming man of quiet and pleasing manner, and won for himself a host of friends not only in New York, but throughout the trade.

Frank E. Harmer was born in Brooklyn, June 6, 1863, where he spent his early life and received his education. He started his business career as an office boy with the Solidarity Watch Case Co., and always remained in the employ of that concern, working his way upward until, by his attention to business and his natural ability, he reached the position he occupied at the time of his death. He traveled for the concern as western representative, and during that time formed a wide circle of out-of-town friends and acquaintances, who will learn with deep regret of his death.

Deceased is survived by a widow, a mother and one brother.

The funeral services were held from his late home, last evening, and were attended by representatives of the office and factory force of the concern, who brought a beautiful floral offering in testimony of the respect and esteem in which he was held. Interment was at Cedar Grove Cemetery, Brooklyn.

Thieves Poison Watch Dogs, and Then Rob Scranton, Pa., Store of Jewelry and Clothes.

SCRANTON, Pa., May 27.—The jewelry and general merchandise store of Sam Mosecovitz, Main St., Priceburg, Pa., was looted early yesterday morning by burglars, who first killed with poison two dogs that guarded the store. The thieves, after they had despatched the dogs, helped themselves to watches, rings of every description, clothing, shoes and other apparel. The loss cannot be determined till an inventory has been taken of the stock.

Mr. Mosecovitz discovered that things were amiss when he opened the store. The cellar door had been pried loose from the hinges, and upstairs the store was turned upside down. The burglars had also selected good suits and, divesting themselves of their old duds, dressed up.

County Detective M. A. Rafter and also the chief of police of Priceburg, John Munley, think that the work was done by the dog-poisoning brigade which a few weeks ago killed two dogs in Throop before they plundered a store.

COLORED OPALS

We are cutting a number of colored Opals in oval and fancy shapes, suitable for scarf-pins, brooches, pendant sets, etc.

These stones vary from pink to red, light to deep yellow, all shades of green, soft grays and blues ranging from delicate tints to darkest cobalt.

These new varieties of Opal are inexpensive and most effective.

Philadelphia.

J. I. Laning, Bridgeton, N. J., was a visitor to this city during the week.

Alrt Bandschapp, 468 N. 8th St., is being a few days at Newfield, N. J.

I. Stephens, with Strawbridge & Clark, will sail for Europe next week.

as Tinsley, 2848 N. 5th St., who has been seriously ill, is able to be about again.

abet has taken a position as watchmaker with Joseph Kern, Wilmington, Del.

C. Hart, watchmaker, with F. B. ... Camden, N. J., is suffering from poisoning.

rk Markey, repairer, 1323 N. 11th St., broke his leg a few weeks ago, is still confined to his home.

Kincker, with M. Sickles & Sons, is bringing the good wishes of his friends, hope for his speedy recovery.

Gaunt, jeweler, Paulsboro, N. J., has been confined to his home with rheumatism, is able to be about again.

George E. Ridge, wife of a Langwiler, is seriously ill in Philadelphia and is about to undergo an operation.

well & Berlet, jewelers, Walnut & ... have just completed the loving care of the Philadelphia Clinic for Homeopaths.

W. Ford, 618 W. Girard Ave., will be the party of politicians entertained by Samuel Lit at "Meadowbrook." Ford is coroner of Philadelphia.

Caldwell & Co. have on exhibition in their windows the silver loving cups presented as prizes at the annual Horse Show held at St. Martin's Green, May 31 and 5.

Brown, optician, 734-740 Sansom St., was robbed early last week. The burglar was frightened off by the ringing of the alarm. Mr. Brown is minus a few pairs of gold eyeglasses.

m C. Williams, with C. H. O'Bryon, Sansom St., attended the banquet given by D. Hetzell at the "18th Ward Club." Mr. Williams is a councilman on the Highway Committee.

as Koshland, manufacturing jeweler, Chestnut St., is one of a number of jewelers who went on a fishing trip on the Squahanna. In the party are F. C. Andrew Smith and Herman Wolf.

Bailey, Banks & Biddle Co. is showing in the window the prizes for the West Philadelphia Horse Show Association and the Yacht Club. This house has also been awarded for the principal silver loving cups for the yacht races.

United States Circuit Court Judge ... on filed a decree in the case of ... Co., opticians, against Roentgen ... granting rule on Henry Green ... to cause why attachment should not be against him for contempt.

em of T. B. Hagstoz, Ltd., has been dissolved by mutual consent. The business of smelting, refining, assaying, etc., has been continued under the firm name of Hagstoz & Son at 709 Sansom St., where all accounts due the old firm will be received and all debts liquidated.

se of old and rare china and pottery, Sevres vases and dinner sets, antique rings and seals, historical miniatures, crucifixes, antique and rare laces, art and

historical jewelry, was held at the Philadelphia Art Galleries, 15th and Chestnut Sts., May 25, 26, 27 and 28. The collection is said to be the finest of its kind offered at public sale in many years, and attracted widespread attention.

Emma L. Kane, 16 years old, 206 Washington St., Chester, was arrested Thursday for shoplifting by store detectives. The girl had jewelry and other articles which were alleged to have been stolen from the department store. Not long after arrest she attempted suicide, but was frustrated in the attempt by Detectives Coogin and Humphries.

The following jewelers were visitors to this city during the week: H. Fitzsimmons, West Chester, Pa.; John MacPherson, Mauch Chunk, Pa.; Joseph Kern, Wilmington, Del.; J. W. Parrish, Newark, Del.; George K. Ware, Atlantic City, N. J.; R. W. Snicksall, Mount Holly, N. J.; S. Ludwig, Easton, Pa.; Frank Kline, Spring City, Pa.; D. H. Krause, North Wales, Pa., and E. K. Bean, Lansdale, Pa.

While making alterations on the building of Levi & Joseph, opticians, 733 Sansom St., one of the workmen Friday suffered a severe accident through the breaking away of the ropes on the scaffold. A quantity of debris and bricks fell and hit the man, who was working directly under the scaffold, on the head, cutting and bruising him severely. The injured man was taken to the Jefferson Hospital.

The contract for the shields for the fourth annual national hill climb for the Wilkesbarre Automobile Club has just been completed by the Bailey, Banks & Biddle Co. These shields are finished in bronze, silver and gold plate. The principal feature of the shield is a beautiful modeled relief of "Giant's Despair." The famous Hollenbach trophy which the Bailey, Banks & Biddle Co. made last year will again be competed for.

The jewelers attending the Knight Templars' Conclave were: J. H. Heim, Sunbury, Pa.; F. C. Maag, Bridgeport, Pa.; James Neilson, Camden, N. J.; D. Clark, Easton, Pa.; J. Schlichter, Reading, Pa.; J. C. Schmidt, Lebanon, Pa.; C. A. Feil, Wilmington and C. Rudolph, Wilmington, Del.; George Welzel, R. T. Ferguson, H. Garman, William Broug, Theodore Lindhorst, L. P. White, J. Warner Hutchins, Elmer Horn, Theodore Beck, George Grau, John W. Ford, John Buseman, Philadelphia; W. W. Fisher, Sunbury, Pa.; T. T. Heberling, Parkesburg, Pa., and James Wheeler, Salem, N. J.

By the aid of "flyers" sent out by the detective bureau, the valuable diamond ring stolen from the jewelry store of Jacob Rubenstone & Co., 125 S. 7th St., May 22, was recovered Thursday in a downtown pawnshop, where it had been pledged for \$5. The pawnbroker was brought to Rubenstone's store, where he was confronted with a messenger in the store, who disappeared a few moments before the ring was missed. The pawnbroker said the ring was brought in by a boy who closely resembled the employe, but failed to identify him. The boy, was promptly discharged from the store, however.

Joseph K. Davison & Sons, manufactur-

ers, 718 Sansom St., have completed the contract for 10,000 medals for the Grand Army. This order was placed by a special committee selected by the Grand Army, and headed by the Commander-in-Chief, Henry M. Nevins. The medals are made of bronze and most artistic in design. On one side is the profile of Abraham Lincoln, strongly portrayed. Around the edge of the medal are the well-chosen words of the late President, "With malice toward none, with charity for all." The base has the date 1809-1909. On the reverse is a garland of beautiful leaves, and in the center is the inscription: "This medal was struck for the Grand Army of the Republic in commemoration of the 100th anniversary of the birthday of Abraham Lincoln."

Buffalo, N. Y.

J. R. Graves, Corry, Pa., recently spent a few days in this city.

Mr. Waldert, of the E. Kirstein Sons Co., is now in Buffalo, calling on the trade.

A. M. Thomas, a Niagara Falls jeweler, has been making a short stay in Buffalo.

Arthur King, of King, Raichle & King, has returned from an extensive trip on the road.

F. D. Bonner, of F. & F. Felger, Newark, N. J., has been spending a few days in Buffalo.

Mrs. Otto Miller, Olean, N. Y., was the guest of Buffalo friends over Saturday and Sunday.

George Nagel, of the Globe Optical Co., was in Buffalo very recently, calling on members of the trade.

George J. Champlin, of the Simcox Optical Co., Buffalo, is going to Syracuse University very shortly to take part in the exercises to be held there by his class.

Among the jewelers who recently visited the Buffalo jewelry market were: R. C. Holmes, Gowanda; B. M. Frary, Medina; L. N. Austin, North Collins; F. D. Kelsey, East Aurora; M. J. Bernstein, Niagara Falls.

A. E. Sipe, diamond importer, left, May 26, for a short stay in Providence, R. I. Mrs. E. H. Drinkwater, wife of a jeweler of Toledo, O., and a sister of Mr. Sipe, has been spending a few days in Buffalo as his guest.

Harrisburg, Pa.

H. G. Seibert, formerly with Edward Rinckenback, has opened a jewelry store at 1902 N. 6th St.

Lewis Spealman, of this city, who pleaded guilty in court at Carlisle to felonious assault on C. F. Reitling, of that city, while attempting to rob the latter's store of a diamond ring, was sentenced, May 17, to serve five years in the Eastern Penitentiary.

Among the charters granted, last week, by the Governor were the following to concerns dealing in jewelry: Van Elten Co., Strousburg; capital, \$5,000; directors, Wm. L. Hommedian (president), Milton L. Hommedian, James B. Van Elten, Cornelius Van Elten and Stewart S. Shafer. H. Frank Gump & Sons, Inc., Everett; capital, \$50,000; directors, H. Frank Gump, Sr. (president), Clarence B. Gump, A. F. Gump, E. Y. Gump and H. Frank Gump, Jr.

Pittsburg.

Most of the jewelry stores closed last night on account of it being Decoration

Day. Cleland, of Butler, who submitted a report in the Mercy Hospital, several weeks ago, has recovered sufficiently to go home.

John Parnes, against whom a petition in bankruptcy has been filed, and who is missing from the city, and has been for months, has been adjudicated a bankrupt.

Mary Reinhardt, the widow of Emil Reinhardt, a well known jeweler in this city, died last week, at the home of her son, Charles Bradley, in this city.

Mohr has leased a portion of the building to the Fifth Ave. Hippodrome and opened a store at 221 Fifth Ave., in a few days. Mr. Mohr was formerly engaged in business in Liberty Ave.

Wm. Berston, formerly engaged in business in Dawson, Pa., will open a new store here, June 1. Mr. Berston had in contemplation opening a store at St. Mary's, W. Va., but gave up this project.

Following out-of-town jewelers were in Pittsburg, last week, buying goods: John DeGori, Punxsutawney; J. B. Shafer, Erie; T. L. McWilliams, Irwin; J. V. Smith, Irwin; John Burri, Wellsville.

DeJardy & Hayes Co. is advertising as a feature of the fact that they have finished estimates on the remounting of jewelry. There appears to be a demand here just now for antique

Harris' stock at New Philadelphia, Pa., was sold last week. Harris' troubles here have already been set forth in THE JEWELERS' CIRCULAR-WEEKLY. It is known here as yet what the stock was but he had a well-equipped establish-

ment was made on the show window of Standard Jewelry Co.'s store at 702 Third St., a few days ago, and a quantity of jewelry stolen. A policeman found the window had been broken. An effort is being made to apprehend the thieves, and the local pawn shops are being

visited. De Roy & Co., who bought the building at 408 Smithfield St., will open a store there in about a month. Alterations are now being made to the building. De Roy stated that the upper floors of the building will be used as offices. The building was formerly tenanted by the Casper Jewelry Co. The location is close to the postoffice.

Clinger has leased the store room at Liberty Ave. for a term of years and will move from his present location at Second and 12th St. Mr. Gallinger is one of the oldest jewelers and loan brokers in Pittsburg and will occupy the new quarters. He makes extensive alterations to the building.

The Pittsburg Chamber of Commerce members returned last Friday night from their ninth extension tour, which this time was in the towns of the northwestern part of Pennsylvania and a few over the New York State. Sam F. Sipe was a member of the party, being chairman of the publicity committee. Nearly 100

houses were represented on the tour. It is stated that no other city has run as many excursions of this kind as Pittsburg, and results are being obtained.

Jewelers are warned to be on the lookout for a swindler who is posing as an army officer and offering checks in payment for jewelry and in other ways to victimize merchants. The man recently swindled a prominent Fifth Ave. house of this city. At this place he succeeded in having a check for \$17 cashed. He bought goods for that amount, and as he wore a United States Army uniform and claimed to be a first-lieutenant the clerks in the store after considering the matter decided to take a chance and let the stranger have the goods. The check was not honored. The man, who looks well in the uniform he wears, is of medium height, has smooth shaven face and is of middle age. The local recruiting station officers are also anxious to get their hands on him. He has been in Cincinnati, where he is said to have swindled some hotels, and it is possible that jewelers elsewhere have been worked the same way. In other cities the man pretended to have been the victim of pickpockets in order to induce persons to cash his checks. War has been declared by the Pittsburg Association of Credit Men on representatives of business firms of other cities who open sales rooms in Pittsburg hotels and conduct an itinerant retail business. The legislative committee of the association will make a strong effort to stop this practice. Much business is said to be diverted from local merchants by tactics of this kind.

Minneapolis and St. Paul.

Wm. M. Stone is spending a few days at his Summer home at Annandale, Minn.

E. J. Swedlund, of Williston, N. Dak., was in the Twin Cities, last week, having been called east by the death of his father, which occurred at Atwater, Minn.

The engagement has been announced of Abbott S. Kuderling and Miss Bradley. The wedding will take place early this month. Mr. Kuderling is a traveling salesman for the H. E. Murdock Jewelry Co.

The Powers Mercantile Co., Minneapolis, which has a considerable jewelry department, is included in the merger of the H. B. Claffin Co. stores which will become the United Dry Goods Co., with \$51,000,000 capital.

Recent visitors in the city from the country were: Wm. Follett, Sandstone, Minn.; Dr. A. J. Klimek, Thief River Falls, Minn.; W. C. Kayser, Milbank, S. Dak.; J. L. Moody, Ellsworth, Wis.; E. A. Erhart, Lisbon, N. Dak.; Fred Green, Buffalo, Minn.; Mr. Prescott, Zimmerman, Minn.

The Aaron Jewelry Co. mailed a package of jewelry recently to R. H. Knudvig, Reynolds, N. Dak. The stamp was canceled in the Minneapolis office, but before it was sent to the train it was noticed that one end of the package had been torn out and the box was empty. Detectives are looking over the matter.

A somewhat unusual state of affairs exists on Nicollet Ave., in that three store rooms between 3d and 4th Sts. are vacant

and for rent, something that has not been the case for some time. They will probably not remain vacant long. One of them is now occupied by a jeweler whose stock is being closed out at auction.

J. A. Light has withdrawn from B. F. Simpson & Co., wholesale jewelers, and has engaged in the wholesale business for himself at 1134-1135 Lumber Exchange, under the firm style of J. A. Light & Co. He will carry a regular wholesale line of jewelry. Mr. Light expects to travel on the road most of the time, but will have his store open at all times to accommodate visiting trade. Mr. Light is getting in stock steadily, and is prepared to handle orders at once.

Canada Notes.

The stock of W. H. House, Sault Ste. Marie was sold out May 19.

P. W. Ellis & Co., Montreal and Toronto, have obtained judgment for \$22 against W. J. Walker, Westmount.

Benjamin Kent, of B. & H. B. Kent, Toronto, returned this week from a five-weeks' trip to New York and the eastern jewelry centers.

J. Wilmott, traveling representative of the Gundy-Clapperton Co., Toronto, has returned from a successful trip to the Maritime Provinces.

Among the Ontario jewelers calling on the Toronto trade this week were George Hynds, Acton; P. G. A. Webster, Durham; W. E. Breakley, Trenton; J. W. Phillips, Caledon East; W. A. Fenwick, Shelburne, and W. G. Patterson, Wingham.

The jewelry and novelty store of A. L. Jackson, St. Catharines, Ont., was destroyed by fire on May 22. Mr. Jackson carried a stock of fireworks, and was showing how to set them off when a spark fell among the goods causing a general explosion. The fire spread very rapidly through the building. The loss is \$3,500, with \$1,500 insurance.

The jewelry store of J. A. Allen & Co., 106 St. Lawrence Boulevard, Montreal, was broken into on May 22 by a robber who threw a stone through the plate glass window, making a hole large enough for him to get his arm through. He secured rings, watches and other goods valued at about \$300. The jewelry store of H. L'Heureux, Montreal, was broken into the same night and goods to the value of about \$40 taken.

On the night of Friday, May 21, the store of William McKendry, 13 Queen St. E., Toronto, was entered by burglars and diamond rings, lockets and other articles to the value of about \$1,200 stolen. The front window had been specially dressed for race week, and displayed a quantity of valuable diamond goods, which the proprietor supposed were safe, as the store was kept brightly lighted. The thieves, however, worked for several hours in full view from the street, carefully selecting the more valuable articles and rejecting the others. They also rifled the store drawers, taking only the best goods, having evidently an expert knowledge of jewelry. The robbery was not detected until the store was opened on the following morning. No trace of the burglars has so far been discovered.

Providence.

TRADE CONDITIONS.

There is a general improvement reported by the manufacturers in this vicinity, although the present sight betterment over conditions of a few weeks ago is not expected to be of very long duration. The manufacturers, however, are looking forward to an unusually early and brisk Fall trade. There have been a large number of buyers in this city during the past three or four weeks, but they have not bought heavily, appearing to be looking at new lines and sizing up the situation. All promise good orders in August.

G. U. Meyer has been granted a patent for making ornamental blanks.

George W. Dover has been granted a patent on a new design for a pin.

Peter Crossin, of Crossin & Co., is now on a two weeks' trip in the west.

Harold W. Ostby and family are at their cottage at Warwick for the Summer.

W. E. Aldred and wife were registered at the Chalfonte, Atlantic City, recently.

Charles B. Donle is to build an addition to his Summer cottage at Field's Point.

Mr. Weber was a recent visitor in the city, representing Henry Fine & Co., New York.

Harry C. Lindol & Co. are working full time with good advance orders on their books.

ton Bros. Co., has been appointed as range officer in charge of the State militia rifle range at Rumford.

The Woonsocket Loan Co., 88 Main St., Woonsocket, is conducting its annual auction clearance sale of watches, clocks, diamonds and jewelry.

O. C. Devereux is so driven in his pearl goods department that he finds it impossible to secure the pearl findings fast enough to keep the men going.

John H. Stone was one of the officials of the tenth annual field day sports of the Rhode Island Interscholastic League, held recently, at Andrew's Field.

Max Deutz, manufacturer of combs and novelties at 26 Fountain St., has sailed for Europe, where he will remain several months seeking for novelties.

Col. Arthur H. Watson, of the Nicholson File Co., and wife, who have been traveling in Europe since their marriage, in March, have arrived home.

Aldridge G. Pearce, of the Frank T. Pearce Co., has resigned from the Republican City Committee as a member from the Seventh Ward, of this city.

Frederick A. Ballou, of B. A. Ballou & Co., Inc., is having a new cottage built for his chauffeur at his country home at Nyatt Point, overlooking Narragansett Bay.

Among the entries in the opening regatta at the Edgewood Yacht Club are A. E. Austin's *Flash*, W. Louis Frost's *Medric*, and William Streeter's *Nector*.

E. Frank Aldrich, for many years associated with the Gorham Co., has just returned from an extended trip in Egypt, the Holy Land and other foreign countries.

Among those who attended the last members' night of the season of the Providence Art Club were Theodore W. Foster and wife and Joseph W. Fowler and wife.

The E. R. Cook Jewelry Co. is the name of a new concern that has started in business at 59 Page St. for the purpose of manufacturing gold front and plated jewelry.

George H. Grant was chairman of the committee on entertainment of the recent affair of the Grand Comandery of Massachusetts and Rhode Island, Knights Templar.

The marriage of Robert Ordway Smith, secretary of the Cook, Dunbar & Smith Co., and Miss Laura Ida Smith took place, June 1, at the Union Congregational Church.

Pembroke S. Eddy, of P. S. Eddy & Son, was one of the veterans who attended the annual reunion of the 10th Regiment, Rhode Island Volunteers, at Boyden Heights.

Daniel K. Barrett, with D. Wilcox & Co., is a member of the committee on entertainment of the National Council, Order of the United American Mechanics, in this city, in August.

The Shepard Co., in its silverware department, under the management of E. Merle Bixby, is making a special feature of prize cups and trophies of all descriptions this season.

Charles L. Kettlety, president of Marden & Kettlety Co., has been elected second vice-president, and William H. Waite, president, of the Waite-Thresher Co., a director of the Rhode Island Baptist Union.

N. Albert Jacobs, one of the oldest best known journeymen jewelers of city, died on May 23, at Howard, R. I., his 74th year. During the Civil War was a member of Troop C, First Rhode Island Cavalry.

Sparks from a forge are believed to have caused a fire that broke out in the shop of Alfred Marshall & Co., on the fourth floor in the Bowen building, 107 Friendship St., May 23. The flames were soon extinguished and the damage was slight.

Charles C. Carey, formerly a member of the John T. Mauran Mfg. Co., died recently at his home, 1045 Elmwood Ave., of Bright's disease. For the past nine years he had been employed as designer in the establishment of C. C. Darling & Co. He is survived by his widow and two children.

A large bronze casting, representing a soldier of the Civil War period, with an angel of peace with spreading wings, carried through this city from the works of the Gorham Mfg. Co., Wednesday morning. It is for the Soldiers and Sailors' Memorial at Winter Hill, in Somerville, and was unveiled on Memorial Day.

There was an enjoyable gathering of the family and friends of Mr. and Mrs. F. Lassell at their home on Friend St., May 23, on the occasion of the anniversary of their marriage. Mr. Lassell is prominently employed in the department of the Theodore W. Foster Bros. Co. Mr. Foster and wife were among the guests.

Among the foreign importations received through the Providence House during the past week were the following: From Bremen, nine packages of imitation precious stones; from Hamburg, 11 packages of glassware; from Hanover, packages manufactures of metal; from Liverpool, packages of clocks; from Southampton, Eng., one package of enamels.

Capt. E. Merle Bixby was elected president, and Capt. Edgar R. Foster, member of the Executive Board, at the recent annual meeting of the Officers Association of the Rhode Island National Guard. Lieut. Henry A. Crockett was elected to membership. Among those present were: Brig.-Gen. George W. Smith, Lieut. Joseph Auty, Jr., Capt. A. Corcy, Capt. Martin, S. Fannin, Horace L. Manchester and Major D. Wilcox.

At an early hour, May 26, a burglar entered the window of the jewelry store of Nicolet, Fall River, and succeeded in getting away with a tray containing watches, valued at between \$350 and \$400. The break was committed without the shadow of the police station. The burglar escaped. It is thought that he may be the same one who operated in Providence a few days previously. An alarm was sent throughout New England by giving warning against window burglars.

Members of the Chas. E. Hall jewelry store, during the past week, have expressed themselves as exceedingly optimistic about prospects for the coming season. Their predictions for a prosperous business based not only on the indications to come, but also upon

number of orders that have been arriving in the last two weeks. A member of the company stated, last week, that as far as he could see all indications pointed to one of the largest year's business that the concern has ever enjoyed.
