I have been remarkably impressed with the simplicity and directness of great men I have met or seen. In a merchandising way, I have been impressed with the simplicity of statement of such great advertisers as Marshall Field & Co. I feel that the next great step in the development of advertising will be in the wider use of a simple, direct statement of facts, leaving out the bombast and the divergence from facts which take place too often in advertising.

Newhouse Bros., Red Cloud, Nebr., have dissolved, E. Henry Newhouse continuing the business on his own account.

By unanimous consent of the Senate, recently, the tariff bill was amended so as to put regalia, gems, statuary and sculpture, for the use of fraternal organizations, on the free list.

UPPER PANEL PUT TO GOOD USE.

day a chronometer. Accurate clocks elegant jewelry is what you find the round at my jewelry store.— My new reflects my being expert in selecting jewelry stock. To save money, buy from Jas. J. Graves, Springfield, Ky.

The school graduate deserves recognition according to the record made. If "good work" has been done, show your appreciation; thereby you will encourage and lead on to better work. Give something lasting. There is nothing more appreciated than a watch or nice piece of jewelry, silver toilet ware for the dressing table, gold and silver mounted umbrellas, books, etc. Our stock is the largest on the eastern shore. Come to us for suggestions. Articles bought here engraved free of charge. J. H. Sides, Chestertown, Md.

Solid Gold Jewelry for June Wedding Gifts.—As gifts to the wedding ushers and maids, and as personal gifts to the bride, there is nothing comparable to Brock & Feagans' distinctive, solid gold jewelry. It may be gem set or not, according to your preference, and to the amount you wish to expend. If the gift is for a gentleman, it may be one of these 14-karat solid gold match boxes, or cigarette cases, or cigar cutters, or pocket knives, or a 14-karat military brush and comb in case, or a full-dress vest chain, enameled and pearl set. If for a lady, one of these 14-karat gold mesh bags or purses, plain or gem set; a card case, plain or engraved and jewel set; a coin holder, a purse mirror, a vinaigrette, a chatelaine perfume pungent, a toilet set, a manicure set, a fancy stone ring with hand-wrought setting, or one of these high-grade coral necklaces at \$3 to \$500 a string. Or, for the bride, one of these beautiful lockets, or lavalieres, or pendants, or pendant brooches, is particularly givable. But these hints are meager as compared to the many suggestions a visit to this department will reveal. We welcome you. Brock & Feagans, Los Angeles, Cal

If you are looking for diamonds that are dazzling in brilliancy and color, flawless in make, at insured prices, "get the elevator habit." In buying diamonds from me there is not the slightest chance of being "stung," nor do you have to inquire of anyone as to their cash value, as I stand ready within the year to return 95 per cent. of the purchase price. Do you realize what this means? You could not buy Government bonds under the same guarantee. I undersell all others. Walter W. Winton, Scranton, Pa.

The Gift of All Gifts for Commencement.—Unquestionably we carry the finest selection of diamonds to be found in this locality. Each one carefully picked by an expert, each one a perfect stone from the tiniest gem to a stone of considerable size. The very ring or pin of your fancy is sure to be here at an admittedly reasonable price. Robert C. Green's Son, Pottsville, Pa.

Diamonds.—This is the season of the debutante, an occasion the memory of which every girl cherishes to the end. It is a pretty custom that inspires the father and mother at this period of a young lady's career to bestow some gift of lasting and intrinsic value upon her. No more appreciated gift than diamond ear screws or

rings. Of either we carry a large line. T. McKinney, Hutchinson, Kans.

June weddings come but once a year. To some men they come never. Perhaps they squeeze the dollar too tight. Quit it. Buy a wedding ring and squeeze yourself into the affections of the one who'll become your June bride. Get it here. Our wed-

STORE KEEPING DEPARTMENT

That this department shall prove mutually beneficial to our readers, it is desirable that the members of the trade generally communicate with THE JEWELERS' CIRCULAR-WEEKLY regarding any advantageous device or plan which they are utilizing in connection with their business.

Aggressive Salesmanship and Its Fruitful Results.

Address recently delivered by H. C. CARPENTER, Sales Manager of the South Bend Watch Co., before the Pennsylvania Retail Jewelers' Association, at Harrisburg, Pa.

THERE is a saying, "I would rather have five complaints as to my prices being too high than to have one complaint of the poor quality of my goods." So say I a thousand times.

Salesmanship simply means the selling of goods at a profit. Aggressive salesmanship means all of that and with it everlastingly keeping at it, for it's the insistent, persistent plugger that is the aggressive salesman, whether selling goods to you as a jeweler or whether the jeweler is selling goods over his own counter. Aggressive salesmanship means, furthermore, that the man selling the goods should go after the things that the other fellow is waiting for. The aggressive salesman is the reaper not the one who follows behind, not a gleaner but he who reaps.

We learn in the study of phrenology that some men have bumps on their heads known as character bumps, others of parental love, bumps indicating strong personality. Some men have bumps upon their heads which indicate, I am told, executive ability, etc., but I also believe that with the wonderful development in commercialism to-day we, some of us, may some day be blessed with a bump of that new science known as salesmanship. That we may develop our judgment or that part of the brain and that we may develop memory and develop all of, shall I say, the mental muscles, is just as probable—this developing of the brain and these mental muscles—as it is to develop any other part of the human body. One can train the body, train the brain, train the eye. The man who makes the most money to-day is he who gives attention to the development of the mental muscles and we must in this age of keen commercialism develop that part of the brain and that part of the man known as salesmanship.

Have you ever stopped to think that it is the salesman who, whether in wholesale or retail, really keeps the smoke belching out of our millions of smokestacks from coast to coast and from Canada to the Gulf? I read in your program a most interesting letter from one of your members where he said: "Success does not come by trying to undersell your competitor, but rather in upholding prices so

that the highest profit can be obtained by all." That is the fundamental principle of it all. Anyone can sell goods on a concession basis. Anyone can sell goods like a slot machine—any kind, any price—but the successful salesman and the successful firm has quality goods at quality prices. This is one sure road to success in business. The man who has only price in his selling argument is not a salesman, never was and never will be. Remember this—all people are not looking for the cheapest place to buy. They want good goods, good service, good treatment. See to it that they get all of these in your store. Many sales are lost because the consumer never knows when the merchant, who has the habit of cutting prices, has struck bottom on his prices.

Do you fully realize what confidence the public put in you. Think—if you go to the bank and deposit \$50 or if you go to the bank and secure \$50 you insist on their receipt and they insist on one also. The same is the case in the express office and in fact for any ordinary transaction in business everywhere. They want these little transactions, if only for a few pennies some times, down in black and white, but if you stop to think people bring diamonds, watches, jewelry and all manner of precious stones, leave them with you and ask for no receipt. They simply leave it in your care with instructions to fix it, as they feel you know how, and they never think again of its safety and you never see them again until they come to see if the work has been done. They simply put their trust in you.

You have the confidence of the people, now keep it. You should advertise in order to keep the confidence of the people. It is no more than fair that you should expect the manufacturer to set the example by helping you advertise and by helping to re-establish the retail trade even more firmly in the minds and in the estimation of the consumer. Many manufacturers ask the jeweler to advertise, but he sets a very poor example himself. Even in the trade papers and in many other cases the example that he sets would, if followed by the dealer, be money thrown away.

Confidence is the basis of trade, national-

ly and locally. Have you ever stopped to think that people never buy goods of and then take them to a department store to see if you beat them. They never buy goods that they buy from you and then take them to a mail order house to see if they beat them. Don't they often come to you to get your valuable opinion and your best judgment as to goods they have purchased from a department store or a mail order house. Right here is the advisability of setting a price or making judgment on goods purchased elsewhere. In some States local associations have decided to appraise goods or make judgment upon them only after the consumer has been willing to pay at least 10 per cent. of the value of the goods such information. Now continue to work in your locality or community so that the confidence they have in you will grow and they would not buy goods from a salesman from a house that you could not rely upon and the people will not buy of you if they can rely upon you.

Now, getting back to salesmanship, the thing that mother earth produces and goes through the various steps of evolution, go through the evolution of commerce, and be the topic of the sale either mineral, vegetable, or labor a salesman understands somewhat in the transaction. I believe that a salesman is justified in doing his best and in using all of the means at his power to effect a sale. I believe in aggressive salesmanship, in one who goes after the things the other fellow is waiting for.

Victory comes to him who is tactful, who has a knowledge of human nature, who is courteous, who has that jewel patina. The salesman of to-day is a man who should command as much respect as an ambassador and who I believe does as much, if not more, respect than the average politician. To be an apt salesman he must possess good sense, a reasonable amount of humor and should be of good character, strong in his argument, must be honest and he must develop his persuasive powers. I have heard it said that all men are as different in these respects as they are in size or stature. Men are of so many different types that no one knows where each class begins or ends. No person seems to be a duplicate of another. As Howells, the editor of the *Atlantic Monthly*, said, there were two times as many men as there were women in the world a man did not seem to know himself until he was married and then he knew other time afterwards.

Salesmanship and imagination go hand

Storekeeping Department.

and the salesman, after he has confidence in himself, confidence in his goods with a fertile imagination that will not lead him astray is on the right track to success. A person representing things to himself with such exactness of reality tries to believe all of the things that he really at first only imagined.

While riding through your beautiful city one afternoon with the jewelers and in the hands of the Reception Committee we walked along the banks of your beautiful river, where rest the ashes of that good old man, John Harris, the founder of Harrisburg, and I thought as I passed his last resting place upon the shady banks of your beautiful stream that Harrisburg was built by imagination. Harrisburg came into existence as it did and where it did because of the most fertile imagination of this good old man, John Harris, who, when his rambles years and years ago could not come from the beautiful stream and land-where a beautiful city could be built. I imagined that he could see just such a city perhaps as you have been instrumental in building. I believe that he imagined he could see these many grand bridges span the river now, one of them the oldest stone bridge in the world. I believe he could see the busy streets, the business-houses, and he could see the sky blacked with the smoke from your busy factories, and I believe that years and years ago when he began the founding of your city that he could imagine happy homes and happy children playing in the streets in color and health in their faces and wings flying from their hair.

May this was imagination, and if John Harris were living to-day, while you may think that it would surprise him much to see your wonderful growth and development. I believe that he had imagined all this as he lay on the bank of your river with no shelter over him on the first night when he slept beneath the stars. I believe you can develop this imagination and I believe that with it you can have better products and you can have more tasty and attractive windows, and here, let me say, the window of the jewelry store is the work of the salesman. I believe that many of you can, and that many of you do, when you come from your business have presentiments, have imaginings and have ideas to tell you that really result in some of the best things about your business. Know this before you and if you can execute and if you will execute some of these wonderful things that come to you in this form of imagination you will have better stores, better business, and will develop faster than if you give no thought to the matter whatsoever.

Imagination, gentlemen, gave us the first steam engine. You may call it discovery, but I tell you that before the great ocean steamships came, before the great locomotives of to-day came, before the telephone and the telegraph, and especially would I mention the wireless telegraph, I say, before these things were possible imagination went on

(To be continued.)

Summer Time Schemes for Enlivening Business.

(Written expressly for THE JEWELERS' CIRCULAR—WEEKLY.)

(Continued from issue of June 23.)

DISPLAYS illustrating the various stages of manufacture of different articles—for instance, the raw material used in making a watch, then the gold, steel, glass, etc., in a finished state and finally all parts assembled in the complete product—would prove most interesting and, if careful arrangement of details is shown, would be an excellent drawing card. The same idea can be used for many articles which you sell.

No big expenditure of money is needed for any of these little plans and no harm can come from experimenting with them. They require quite some brain work, a knowledge of one's business and, above all, sticking qualities. These requirements make fortunes for people who exercise their talents and in the same field where others who merely drift along can barely exist.

If a merchant's business permits him to spend on a more liberal scale some more elaborate ideas can be tried. A series of duplicates of the jewelry of famous actresses might be made up of "paste" and would be interesting; also some of the ornaments of noted society dames could be reproduced and other notable pieces of jewelry imitated.

There is only one way to bring in new business and that is to place your wares prominently where they can be seen to advantage and still attract new customers. Do something different from the other fellows and you'll win out.

Then again, the Summer time offers an excellent season for clearance sales. No matter how cautious you are in selecting your stock one always accumulates a certain quantity of slow-selling goods which one is glad to dispose of at a discount. Why not shove these out at a low price at the time of year when it will least affect your regular trade. One might announce in the window that one had arranged an extraordinary collection of odds and ends and that as the room would be needed in the Fall for new goods they must be disposed of and that prices had been marked down.

Another way to sell slowly-moving stock is to select certain pieces and mark a price on them and reduce this daily, 25c., 10c. or 5c., until disposed of. People will glance at your window each day and watch with interest to see what price is finally realized. In a retail establishment patience is a necessity and good humor is a valuable aid to every salesman. The Summer time will give ample opportunity for cultivation of both these qualities, and they can be acquired if one desires earnestly to do so. Many a man's success is marred by an ugly disposition.

Use every legitimate effort to reach the good trade; the kind that earn and spend money. It is reasonable to suppose that intelligent persistence in trade seeking will bring satisfactory results.

Don't let your business go to sleep in the Summer time, simply because it has become a general custom. There is always "something doing" if you will only try for

it. Learn from the experience of others who have been more successful than yourself and be a step beyond and above where your own unaided efforts would land you.

A well-known physician being consulted by a nervous patient was asked if certain simple household remedies might not be tried. "Certainly," he answered, "they cannot do any harm and might possibly do some good." So it is in business. Simple experiments in advertising may be productive of good profits. Opportunities will be found if sought for and thought about, and can frequently be profitably developed.

Consult your clerks—they also have ideas and will appreciate a chance to discuss their views on store advertising. They can also give you their opinions as to what merchandise will prove most saleable as they come in daily contact with many customers and know their wants. Wonderful results have been brought about by concerted intelligent work.

Tell your clerks you want to bring your Summer sales up above the average and invite them to suggest schemes for store betterment. It would not be a bad idea to say to them: "Last year my total sales in May, June, July and August were so much. Now, this year I want to do more. A certain percentage of my profits, if there is an increase, will be divided among you. Now, let's all work for more business and more pay." This plan brings better results than paying individual commissions as it avoids scrambling for bog customers and means "one for all and all for one."

Firmly resolve that the "good old Summer time" must yield a big harvest of new business. Plan and work accordingly. Encourage intelligent co-operation of your assistants and the result will be a surprisingly satisfactory one.

[THE END.]

A New Burglar Alarm.

A NEW and simple kind of burglar alarm has been invented by a Dresden engineer, according to a report from Deputy Consul-General Bywater. He says it has been thoroughly tested by the police authorities of Dresden and Berlin, and the most experienced criminal experts were unable to find flaws in the apparatus or to enter protected premises without starting the alarm.

The appliance is extremely simple, consisting of a curtain or portiere wire with fine conductors. At certain places on the curtain are affixed small metal knobs which are connected with the wire conductors. The curtain is then drawn across the window or door, or around the safe, and the slightest disturbance of this position immediately breaks the circuit, as the metal knobs are thrown out of contact with each other. Should the burglar notice the wires and cut one or several thereof the breaking of the circuit would start the alarm. Any other attempt to destroy the protecting curtain would also be noticed. Any curtain, unless made of fireproof material, would also act as a fire alarm.

The store of Arthur B. Chapin, Worcester, Mass., was recently destroyed by fire.

THE CONNOISSEUR'S HANDBOOK.

Definitions of Some Technical Terms in Gold and Silver Smithing and Ceramics
Alphabetically Arranged for Easy Reference.

By Clement W. Coumbe.

Continued from issue of June 16, 1909.)

BEACON, or *cresset*. The fire beacon is used in heraldry commemorating the time when such were found on every British hill near the coast to signal the approach of an invading enemy. "It is represented as an iron box containing fire on top of a high pole, or tripod, to which is affixed a ladder."—Milbourne. (See *set* and *blazon*.)

BEAD. A moulding ornamentation of small round beads or berries. Same as *agal* (to which refer). This form of moulding decoration has also been known as *waterasters*.

BEAKER. "Is a vessel having a handle and a spout or beak, and not with a cover as a tankard." "The Chinese *beaker*, so

CHINESE BEAKER SHAPES.

ved, has no resemblance in shape to the above, being without beak or handle."—Mryat. Jacquemart calls the Chinese *beakers* "trumpet-shaped vases." Auctioneer's terms for same: 1. "Beaker (with convex central band)." 2. "Beaker

SILVER BEAKER, DUTCH REPOUSSÉ, XVII. CENTURY.

with a flat central band)." 3. "Beaker vase with oviform body." 4. "Beaker-shaped vase (convex band above the center, globular base on spreading cylindrical stand)." 5. "4 is really a beaker top joined to a

vase base—a process of matching and joining of parts of vases in which the Chinese are great experts. 5. "Narrow beaker (with trumpet mouth and bulbous center)." "This shape generally occurs in *céladon* or other *whole-colored* descriptions. The pieces are often decorated with impressed ornamentation."—Gulland.

The English beaker is sometimes defined as "a drinking cup of large capacity, having no foot."

BEARING, in heraldry, signifies any single *charge* (to which refer) "of a coat-of-arms; but if used in the plural the word is understood to describe the whole coat armorial."—Clark.

BEAR JUGS. "During the close of the XVII. century and throughout the XVIII. century a jug in the shape of a bear with a movable head, constituting a cup, was in common use in the taverns and ale houses in England. Some were in yellowish and reddish-brown stone ware and were made at Nottingham. The black and white ones may be attributed to Chesterfield (Derbyshire) and Staffordshire. The brown ones were generally smooth, but were frequently coated with rough scraps of clay."—Jervis.

BEARD. "An attribute of the prophets, apostles and evangelists (with the exception of St. John), fathers of the church, and hermits. The long *beard* is also worn by two female saints, viz., Paula Barbata in the IV. century, who, in order to escape the addresses of a youth, obtained a *beard* by means of prayer, and St. Galla, at Rome, who procured one by the same method in order to avoid a second marriage. In ancient art the *beard* is an appendage of Jupiter, Serapis, Neptune, of the full-grown Heracles, the aged Aesculapius, the double-headed Janus, Triptolemus, etc. The Asiatic Bacchus was also *bearded*, and therefore the Romans call him *Bacchus Barbatus*, in contradistinction to the youthful god of their own country and of Greece. His companions, the Fauns (satyrs), and Silenus are generally *bearded* and even bristly."—Fairholt.

"BEAR'S CLAW." The *acanthus* (to which refer) of decorative art is sometimes called bear's claw in England.

BEAUMONT. The best landscape painter at the Chelsea works.

BEAU SEANT, or *beauseant*. "The banner of the Knights Templar in the XIII. cen-

tury. It was an oblong flag, black above

BEAUSEANT.

and white beneath."—Clark.

BEAUVAIS, Grès de. Another term for "blue-pots of Savignies." (See *Savignies*.)

BEAVER, or *visor*, "is that portion of the

BEAVER, OR VISOR, DOWN. BEAVER, OR VISOR, UP.

helmet which defends the sight, and opens in the front of the helmet."—Clark.

BECERIL. A famous Spanish goldsmith.

BECKER, Paul. One of those who stole Ringle's (to whom refer) papers. He carried the porcelain formula secrets around from place to place until he came to Hoxter, where he produced some good porcelain. The Duke of Brunswick gave him a pension for life to stop manufacturing, and he retired to Brunswick. This kiln is said to have had only one firing.

BECK IRON. "A T-shaped anvil, or stake, used in gold and silver hammer work. The arms of the T are long; one is round, slender and tapering, the other has a flat under surface."—Wilson.

BECTO. Son of Francisco. Worked on the altar of the baptistery of Florence (1286).

BEDDOES. A ceramic artist at Swansea

14 Maiden Lane, NEW YORK

orks. Noted for his heraldic painting, etc.
BEE. An attribute, in Christian symbol-
 ics, of St. Ambrose. "Bees, in heraldry,
 represent industry."—Clark.

BECK, Willem van (1764). A Delft pot-
 at "The Two Savages" factory. Work
 important. Signed "WVB."

BELLARMIN. Big-bellied jugs having long-
 rded faces as necks. Known also as
 "y-beards." They are so called from
 rdinal Bellarmin, a much-detested char-
 er of his day whose effigy was often im-
 ssed in this ware. He died 1621.
 See also *bartman*.

BELL. In Christian symbolism the bell
 ives exorcism of evil spirits.

BELLEK. Thin porcelain which "takes
 name from a town in County Fern-
 h, Ireland, where it has been made for
 number of years to great perfection. It is
 ed for its great thinness, light weight,
 its beautiful, iridescent or pearly glaze,
 ously tinted."—Barber. "These thin
 ices are usually made by the *casting*
process."

BELLEVILLE (France). A hard paste fac-
 was established here in 1790 by Jacob
 t, a celebrated modeler. Mark, "J P,"
 two dots below, in blue, in the moist

BELLEVEUE (France), near Toul "One
 ed Lefrançois set up this manufactory
 1758; he sold it, May 1, 1771, to Charles
 ard and François Boyer."—Jacquemart.
 y employed Cyflé and other skilful
 asts. By 1806 Boyer, then sole propriet-
 was succeeded by Georges Aubry, who
 nternized it. His grandfather continued
 until recently. Cyflé created fine statu-
 es here in both pipeclay and biscuit
 celain.

BELL, Samucl. "A Staffordshire potter
 whom a patent was granted in 1729 for
 a w method of making a red marble stone
 e to imitate ruby."—Jervis.

BELLI, Valerio. Died 1546. Gem worker
 icenza, surnamed "Il Vincentius."

BELLOWS. An attribute, in Christian sym-
 ics, of St. Genevieve.

BEND. "One of the honorable *ordinaries*.
 In heraldry it is formed by two diagonal
 s drawn from the *dexter chief* to the

tives of the *bend*, and is in size half the
 breadth of a *bend*."—Clark.

BEND-WISE, in heraldry, means displayed
 diagonally as a *bend* (to which refer).

BENDY, in heraldry, "is when a *field* or
charge is divided *bend-wise* into four, six,

BENDY OF SIX

eight, ten or more equal parts diagonally."
 —Clark.

BENEDETTI, Matteo dei. Gem worker of
 Bologna (1523).

BENEDETTO, Maestro. A distinguished
 painter of majolica at Siena (Italy).

BENGRAF. A Höchst potter who was en-
 gaged to start a porcelain factory (1750) at
 Fürstenburg (Germany) by the Duke of
 Brunswick. He died almost immediately
 after the factory commenced work.

BENGRATH, Oppal. Director of the Meis-
 sen porcelain works from 1814 to 1833.

BÉNITIER (Fr.). "A small vessel (the
 lip of which is generally in the form of a
 shell) for holding holy water. It is often
 made of enameled pottery."—Marryat.

BENNETTS. Edwin, James and William,
 Derbyshire potters, who ran a pottery early
 in the last century at East Liverpool, O.,
 where they produced Rockingham and yel-
 low ware. In 1844 they moved their pot-
 tery to Pittsburg. In 1846 Edwin started
 a pottery at Baltimore, making Rockingham,
 yellow ware, majolica and stone ware, fol-
 lowed later by eggshell china and Parian
 in 1884.

BENNETT, John. A ceramic decorator
 from Doulton's Lambeth pottery; came to
 New York in 1876. Started decorating
 Doulton biscuit, but closed his New York
 studio 1882.

BENNOU. An Egyptian "mythical bird re-
 sembling the phoenix, which sprang from
 its own ashes, and was made the emblem
 of the resurrection. It symbolized the re-
 turn of Osiris to the light, and was there-
 fore consecrated to that god."—Mollett.

BENSON, Thomas. A patent was granted
 to him in 1726 for a new method of grind-
 ing flint stone. His process consisted of
 grinding the flint under water, thus doing
 away with the deathly work in the flint
 dust impregnated air of the former method.
 Astbury started to use the system at the
 Ivy House, near Hanley.

BENTEN. The Japanese goddess Benzaiten
 is often so called. (See *Benzaiten*.)

BENTLEY, Thomas. In 1766 this highly
 cultured Liverpool merchant went into
 partnership with Josiah Wedgwood to ex-
 ploit the sale of the art products made by
 the latter. He started a show room in
 London, where his commercial genius com-
 bined with his love for fine ceramics
 brought him a splendid connection and very
 profitable business. The commercial suc-
 cess of the Wedgwood art products were,
 no doubt, due to his enthusiastic work. It
 is declared by some that a number of

BENDY, in heraldry, "is when a *field* or
charge is divided *bend-wise* into four, six,
 eight, ten or more equal parts diagonally."
 —Clark.

BENNETT, John. A ceramic decorator
 from Doulton's Lambeth pottery; came to
 New York in 1876. Started decorating
 Doulton biscuit, but closed his New York
 studio 1882.

BENNOU. An Egyptian "mythical bird re-
 sembling the phoenix, which sprang from
 its own ashes, and was made the emblem
 of the resurrection. It symbolized the re-
 turn of Osiris to the light, and was there-
 fore consecrated to that god."—Mollett.

BENSON, Thomas. A patent was granted
 to him in 1726 for a new method of grind-
 ing flint stone. His process consisted of
 grinding the flint under water, thus doing
 away with the deathly work in the flint
 dust impregnated air of the former method.
 Astbury started to use the system at the
 Ivy House, near Hanley.

Wedgwood's fine pieces were the outcome
 of his own work, for he had considerable
 talent and artistic ability. He died in 1780.

BENTLEY, Thomas. A partner of Josiah
 Wedgwood when the "Etruria" works were
 started.

BENZAITEN, called also *Benten* and *Ben-
 zai-ten-ajo*. The Japanese goddess *Ben-
 zaiten* has been termed the "Madonna of
 Japan." She is numbered with the "Seven
 Gods of Good Fortune" (the national
 household gods). She is "the tutelary
 saint of women, generally shown discour-
 ing sweet music upon a *biwa*."—Bowes.
 Often on pottery she is depicted as the
 goddess of love, richly dressed, attended by
 15 boys, her children.

BERBERINI VASE. (See Portland vase.)

BERETTINO. (See *a berettino*.)

BERENVELT, Samuel van (1648). A Delft
 potter, but not native. Said to be founder
 of "De Dubbelde Schenk Kan" (The Double
 Jug) pottery. No pieces extant proven as
 his product.

BERG, Cornelis de (1730). A Delft pot-
 ter at "De Ster" (The Star) pottery. Un-
 der his superintendence a high state of
 efficiency is recognizable in the pieces ema-
 nating from this factory, its blue ware
 being considered among the best Delft ever
 produced. It is in Oriental style, but with
 highly talented originality displayed in the
 decoration. The noted potter Aalmis
 worked here. Marks vary from a star in
 outline to a star in solid color, or "C B"
 and numerals.

BERG JUSTUS de (1730). A Delft potter,
 whose pieces emanating from and whose
 initials accompany "De Ster" (The Star),
 were of high quality.

BERGERAC (France). A faience factory
 was in operation here up to 1791 at least.
 Pieces unknown.

BERGH, Paulus van der (1759). A Delft
 potter. His work was signed "PVB" with
 "De Blompot" factory's name. This is all
 that is known about him.

BERGHEM, Louis de. Discovered dia-
 mond grinding of facets by diamond dust,
 1475.

(To be continued.)

Novelties of any kind are acceptable to
 the retail jeweler if he can obtain something
 that is unique and useful. A collection of
 such articles may be seen at the salesrooms
 of Theodore Schisgall, 116 Chambers St.,
 New York, where a carefully selected dis-
 play of cuckoo clocks is on exhibition.
 Among these is a clock fitted with a tiny
 automobile in place of the cuckoo. As the
 hour strikes, the automobile dashes out
 from one door of a miniature garage at the
 top of the clock and into another, reap-
 pearing as many times as the clock strikes.
 In the auto are two figures. The honk!
 honk! of the automobile horn is most real-
 istic and at once attracts attention. The
 clock strikes every half hour, and each time
 the automobile appears. Other novelties
 seen at the same salesroom include an air-
 ship alarm clock. The clock is of the
 ordinary appearance, but in place of the
 bell is a cigar-shaped airship, with rudder
 and other accessories all complete. Within
 this miniature airship is the alarm. An-
 other alarm clock has a balloon-shaped
 dome in place of the ordinary bell.

BEND.

ter base, and contains the third part,
 "charged" (see *charged*) "and *uncharged*
 fifth of the field."—Clark.

The term *bend* used by itself always im-
 p the *bend dexter*; when *sinister* is in-
 dicated it must be thus stated.

BENDIGO (New South Wales). A pottery
 was started here by a Scotch potter named
 G. V. Guthrie in 1858. Chief productions:
 Toots (Rockingham), acid-proof stone
 ware and architectural terra-cottas.

BEND SINISTER "is the same ordinary as
bend, but drawn from the sinister chief
 to the dexter base."—Clark.

BENNETT, John. A ceramic decorator
 from Doulton's Lambeth pottery; came to
 New York in 1876. Started decorating
 Doulton biscuit, but closed his New York
 studio 1882.

BENNOU. An Egyptian "mythical bird re-
 sembling the phoenix, which sprang from
 its own ashes, and was made the emblem
 of the resurrection. It symbolized the re-
 turn of Osiris to the light, and was there-
 fore consecrated to that god."—Mollett.

BENSON, Thomas. A patent was granted
 to him in 1726 for a new method of grind-
 ing flint stone. His process consisted of
 grinding the flint under water, thus doing
 away with the deathly work in the flint
 dust impregnated air of the former method.
 Astbury started to use the system at the
 Ivy House, near Hanley.

WORKSHOP NOTES AND QUERIES

Answers are also solicited from our readers to the questions published on this page.]
No attention paid to communications unless accompanied by full name and address of the writer.

QUESTION No. 2293.—Melting of Gold and Silver Sweeps—How can I melt my rings and sweeps and thereby save the gold and silver contained therein? I want to know how to treat small quantities from repair bench. M. O. G.

ANSWER:—Sweeps and filings from the repair bench can be treated in small quantities, and the gold retained may be used for rings or other articles. The mixing of the filings cannot be prevented very well, and they will contain gold, silver, tin and brass, to separate which several processes are necessary. If there be any iron filings in the mass they should be drawn out with a magnet. If there is any organic matter mixed with the sweeps this should be burned off in an iron pan, but clean sweeps should not be mixed with floor sweeps and should be melted separately. Mix the filings, or burned sweeps, with wash, in about equal proportions, then put in a crucible, filling about half full. You may use for heating, and melting the metal, a round sheet iron drum stove, containing coke, unless you have a better arrangement. When the coke begins to get red remove a few pieces from the middle of the crucible can be placed therein. The fire should not be too coarse, but should be close together. On top of the crucible place a piece of flat charcoal. In from 10 to 20 minutes the metal will be melted, and ready to pour out into an ingot. When it ceases to boil up and appears as a clear liquid more coke should be added to the metal to prepare for further heating. The metal is cooled, the foreign substance hammered off, and the metal placed again in the crucible, covered with some powdered wax, and again placed in the coke fire. In 10 or 15 minutes the metal will be melted; then remove the charcoal covering and pour into the crucible some pure saltpeter, but not too much, or it will boil over with the molten metal. It is best to throw in a little at a time, wrapped up in paper; then add a little more when the metal has quieted; finally put in another small quantity of borax, cover with the charcoal and let remain from five to 10 minutes. The charcoal cover must not be removed when the saltpeter is added, but when borax is put in. After from five to ten minutes the charcoal is lifted off, when the metal will appear like stars and flowers on the surface. Then is the proper time to remove the crucible from the fire and let cool. When the cooled crucible is afterwards broken up a button of pure gold and silver will be found, all other metals having been consumed by the saltpeter. The button is again melted in a piece of hollowed

out charcoal and poured into a flat crucible, when it is ready for rolling. As this is an alloy of gold and silver it is suitable for alloying karat gold, and as it often contains enough silver it is only necessary to add the copper required for the alloy wanted. The crucibles to be used should be large enough so that they need be only half filled with the filings and borax. If the gold and silver filings can be kept separate and clean then the melting can be done rapidly and the results are gold or silver in their original fineness. If a gas oven is used the operations will be very simple and clean.

QUESTION No. 2294.—Cleaning of Gold and Silverware.—When making sales over the counter purchasers often question me about cleaning gold and silver articles, i.e., how to proceed and keep them bright. It will please me if you would publish the information in your workshop notes. C. G.

ANSWER:—Gold jewelry may be cleaned by making strong soapsuds out of good white soap, water and a few drops of ammonia. Do not use any of the perfumed soaps, as they often contain sulphur, which causes the jewelry to tarnish. White Windsor cocoanut oil or Ivory soap are all good for the purpose. Place the pieces to be cleaned in the hollow of the hand and brush them clean with the soap suds, taking care to reach all corners and crevices; then rinse off in clean water and dip into alcohol, which will remove the grease which may adhere from the soap. The jewelry is now dried in sawdust, then brushed over lightly. Remove what sawdust remains. If there is no sawdust dry with linen. Jewelry can be treated this way, excepting that which contains settings, medallions or hair ornaments, and it is advisable to have a jeweler clean these. Chains which are used for watches, medallions, or other purposes, should be washed in the above manner two or three times a month, in order to remove the dust which gathers in the links. This dust is very detrimental to any chain, as it will act on the links like emery and grind the links so they become thin and elongated. If the pieces are much oxidized or are discolored by the atmosphere, sulphur or gas, which is often the case with silver, then it will require something stronger than the above washing off. Rubbing will be required to remove the coloring, as washing with soap suds will only remove the dust and dirt. For the cleaning of silver we can use besides the numerous prepared powders for this purpose, one of the most simple things which nearly every housewife is familiar with, precipitated chalk and ammonia. Put

some of the chalk in a saucer, pour over some ammonia and prepare a thin paste. With a soft brush rub on some of the chalk, brush over carefully to remove all the discoloration, using plenty of the paste. On large surfaces or trays the brush should be used only in one direction as a circular motion would cause scratches. After the pieces are brushed over let the paste remain on until dried, then brush off with another brush, removing all traces of the paste. The piece should then appear like new. To prevent oxidizing or discoloring of silverware wash the pieces off with the soap suds and ammonia once a week, then give a light rubbing with a soft chamois cloth or soft linen. There are many cleansing preparations offered in the stores for cleaning silverware, but many of them contain fine ground glass, which will wear off the silver and cause scratches. Only preparations of reputable manufacturers should be used.

QUESTION No. 2295.—To Regulate 400-Day Clock.—Can you suggest some method by which I can regulate a 400-day clock? I have replaced the broken pendulum spring with the weakest of its kind, but the clock still gains one hour in 24 hours.

ANSWER:—If you cannot obtain a weaker pendulum spring, the pendulum let down as low as the base of the clock will do, and the regulating posts may be moved to their extreme points, that you may reduce the strength of the pendulum spring. Place the spring on a piece of flat wood the same size as the spring, and lop it off equally with an emery stick the whole length of the spring. Several strokes with the emery stick lengthwise will suffice to obtain the desirable difference in the timing.

QUESTION No. 2296.—Re-silvering Barometer Dial.—We have several barometer dials which we want to re-silver. How must we proceed to do this? R. & B.

ANSWER:—The *English Mechanic* gives the following information for re-silvering barometer dials: Dissolve $3\frac{3}{4}$ ounces of silver in double the quantity of nitric acid. Next dissolve two pounds of cyanide of potash in $2\frac{3}{4}$ gallons of water. Filter and mix the two solutions. Then add $6\frac{3}{4}$ ounces of whitening and put the fluid in green bottles. Shake the bottle and pour the fluid into the bath. The article, after being silvered, is polished with chalk powder. Clean off all dirt first by making pulverized tartar into paste with water. Then, with a bristle brush, rub some of the paste on the plate. When dirt is removed wash the dial with clean water and dry by gently patting with cloth. Finally expose for a few minutes to a gentle heat.

Soft metals, such as britannia or pewter, should not be cleaned for electroplating in the same potash kettle used for cleaning brass or copper goods. Tin and lead are dissolved by caustic alkalis, and when brass or copper is immersed in the solution a film of these metals is deposited upon the surface. Separate kettles must be used for both kinds of work. Much work is spoiled in this manner, and deposits will not adhere to brass or copper when the film of tin or lead has coated the work. Even when very slight it is dangerous.—Ex.

Illinois Movements—Fahys Cases

116 South 6th Street

SPRINGFIELD, ILLINOIS

I have sold Illinois Movements to the retail trade continuously for almost thirty years. They are better to-day than ever. There is a reason (with apologies to Post). No better watch cases are made than Fahys and a great many not as good. I always carry a complete line of these goods. Orders shipped same day as received; express charges prepaid.

 KNOWN THE WORLD OVER

Beautifully adapted for the jeweler's stock and show case display—the New Pocket Edition Gillette Safety Razor is becoming an important feature in the best retail jewelry stores.

The demand over the retail counter is astonishing. Every old Gillette user wants the New Pocket Edition and it makes new friends at sight.

The set consists of handle and blade box, either triple silver-plated or 14-k. gold-plated. The pocket case is of gold, silver or gun metal—plain polished or richly engraved in Floral or Empire designs. It is so neat and compact that it will fit like a card case in the waistcoat pocket or slip into the side of a travelling bag—the blades are fine. Prices, \$5.00 to \$7.50.

For the special use of the jewelry trade, the Gillette Company has designed a tray lined with purple velvet, size of the regular watch tray—contains wells for twelve razors. These trays are made in various hardwood finishes to match the store fixtures and are shipped free of cost with the initial order for a dozen razors. Aside from the sales of the razor, the business in blades is a steady income for a store.

Two additions to the Gillette line this season are the Gillette Brush—a brush of Gillette quality, bristles gripped in hard rubber; and the Gillette Shaving Stick—a soap worthy of the Gillette Safety Razor. The stick is enclosed in a sanitary nickel box: both soap and brush are packed in attractive cartons. They will be welcomed by Gillette users everywhere.

Fulcrum Watch and Clock Oil

For years it has been practically impossible to secure a satisfactory watch or clock oil. Everyone knows this and has known it for a long time—the Fulcrum Oil Co. learned it—learned that a good oil for such purposes would be in large demand. Experiments were commenced covering a period of several years—the results were most satisfactory. They now claim to produce the most superior oil for Watches and Clocks that has ever been put on the market.

This claim has been proven by every conceivable test and is based on facts.

FULCRUM OIL POSITIVELY WILL NOT GUM.

FULCRUM OIL WILL NOT EVAPORATE.

FULCRUM OIL can be exposed to light and will not discolor or become rancid in any length of exposure.

FULCRUM OIL is the only oil known which is absolutely free from acid, which prevents the corroding of the pivots.

These facts can be proven by the most severe tests that can be devised.

Future advertisements in this paper will tell what some of the leading watch companies of this country think of Fulcrum Oil. For Sale by all Jobbers. 35 cents per bottle; \$3.75 per dozen. A postal card to the factory will bring you a sample bottle by return mail. We want you to try this oil at our expense.

OFFICE AND FACTORY
Attleboro, Mass.

We sell the Wholesale Trade only

NEW YORK OFFICE
3 Maiden Lane

Belcher ring as received with badly worn.

How the same ring looks when stone is reset without new claws. Stone is not secure and point is below inside of ring.

How we splice settings and solder in new claws; seams do not show and rings are as perfect as when originally made.

How ring looks with new claws and stone securely reset. Entire ring is finished like new.

When we tell you that we have received as many as 75 diamond rings in one day for new claws and settings, you will not think us extravagant for using a full page in THE JEWELERS' CIRCULAR to exploit this feature of our business, but will wonder if you are getting your share of claw work.

99 out of every 100 owners of diamond rings willingly pay \$1.50 to \$5 for new claws or settings on their rings, but would not buy new mountings for \$5 to \$25.

It is worth while to familiarize yourself and your employees with this work, as it is one of the important little things that help to make our business profitable.

WENDELL & COMPANY

The firm that did much to change the repair end of the Retail Jewelry Business from a source of worry and dissatisfaction to one of pleasure and profit.

John Street
New York

TWO WONDERFUL SHOPS

256 Madison Street
Chicago

Any ring as received with worn claws. Stone cannot be reset, as it would be too low to look well and the point would come below the inner circle of ring.
(See cut No. 2 of flat belcher.)

How same ring looks with new claws and stone securely reset. Entire ring is finished like new.

Oval Belcher ring as received with claws badly worn. Stone cannot be reset, as it would be too low to look well and the point would come below the inner circle of ring.
(See cut No. 2 of flat belcher.)

How same ring looks with new claws and stone securely reset. Entire ring is finished like new.

THE PRICES QUOTED ABOVE FOR NEW CLAWS AND SETTINGS ARE SUBJECT TO OUR CATALOGUE DISCOUNT. WE CAN PUT NEW CLAWS AND SETTINGS ON MOUNTINGS TAKEN IN TRADE AND REFINISH THEM SO THEY WILL BE AS GOOD AS NEW. WE RETIP CLAWS AND MAKE NEW SETTINGS FOR CLUSTER MOUNTINGS SO THEY ARE AS GOOD AS WHEN ORIGINALLY MADE, AT PRICES THAT MAKE IT ADVANTAGEOUS FOR THE OWNERS TO HAVE THIS WORK DONE.

By carrying no diamonds in stock, entering and tagging each piece of diamond jewelry as received, then giving to each workman but one ring at a time, which is returned before he receives another, prevent any possibility of diamonds being exchanged while in our possession.

CAMEO LOCKETS

Our newest and most popular seller is our beautiful cameo pendant locket; must be seen to be appreciated.

We use only the choicest tone cameos.

Our workmanship and finish are absolutely beyond criticism.

In addition to the above, our general locket line is most complete.

We make 10 different sizes in plain lockets besides a large variety of fancy lockets. Also a fine assortment of hand-engraved lockets in English finish.

REG. IN U. S. PAT. OFF.
Always in Red

**WIDER SCOPE
FOR
NOVELTIES**

¶ The marked tendency to more freedom of colors will be strikingly shown at our coming SEVENTH ANNUAL EXHIBITION, to be held in our offices from August 30th to September 4th, inclusive.

¶ Call it genius, talent, or what you will, the keen brain and active wit of our designers will see in a new combination of colors possibilities of distinction that will be utterly lost upon another. The wider scope for novelty, which current fashion permits, has been eagerly seized upon by our craftsmen as an opportunity too good to be lost.

¶ If you could realize what all this means to you in the selection of your Fall stock, you would certainly visit this display. It will be of important interest to those seeking the very latest for the coming Season. No duplicates of our special productions.

IMPROVED BEZEL AND WHEEL CHUCK No. 26

CUT IS FULL SIZE.

Larger capacity for holding work and improved construction. Will hold wheels or plates from 3 mm. to 52 mm. Bezels, rings, watch cases, etc., from 13 to 62 mm. State name and size of lathe when ordering.

Price, Each, \$9.00

Engelsman's Patent "Bayonet" Automatic Locking Stone Tweezer No. 119

The acknowledged superiority of this tweezer over any other of its kind is due to its many improvements and innovations.

First. It will be noticed that the points are grooved, thereby permitting any stone to be gripped *firmer* and *better* than by any other kind of stone tweezer.

Second. It is purposely made a "Bayonet" in shape because any stone can be shown or examined advantageously. It also enables

the user to count particularly small sizes of stones, *easier*, *quicker*, and with much less *exertion* than when using any other style of tweezer.

It has an *extra* part directly above the crossing points to permit the holder to examine the stone without fear of *releasing* it accidentally, which frequently occurs when using the ordinary style crossing tweezer.

Price, Each, \$1.25

CROWN CHUCK No. 50

For enlarging or cutting deeper crowns of watch cases. A movable plug in the stem regulates the depth required for various sizes. Four caps of various sizes are supplied with each to hold crowns from small to large. Stem fits in No. 50 wire chuck.

Price, Each, \$1.50

ROLLER REMOVER No. 60 (Patented)

A thoroughly efficient and quick acting Roller Remover. The work always plainly in sight. The roller is held in the grooved jaws of t pliers. The adjustable head which holds the screw is quickly brought in position over the staff and the most obstinate roller will instantly yie to the gradual pressure of the screw.

Nickel Plated, Each, \$1.50

GRINDING OUTFIT No. 105

LEATHER DISK. SMALL DISK. METAL.

CARBORUNDUM & EMERY PAPER DISKS.

This outfit consists of:

1. Two interchangeable steel disc wheels, 3 3/4" and 1 3/4" in diameter
2. One interchangeable flexible leather disc wheel, 2 1/4" in diameter
3. One adjustable hollow spindle for holding the above disc wheels.
4. Eight different grade emery paper discs, 2 1/4" in diameter.
5. Four carborundum paper discs of different grades, 2 1/4" in diameter
6. Eight different grade emery paper discs, 4" in diameter
7. Four carborundum paper discs of different grades, 4" in diameter
8. One clamping device for keeping discs flat, when not in use.

Price of Outfit No. 105, complete.....	\$1
Separate small emery discs.....	per doz.
" large ".....	"
" small carborundum discs.....	"
" large ".....	"

This new grinding device should find favor with the trade, being th oughly practical and complete for all purposes, such as grinding steel to glass, enamel or any other metal or substance that can be ground v emery or carborundum. It is of equal value to the watchmaker, jewe optician, dentist, lock or gunsmith, platers and kindred trades. It will found much more economical than solid emery and carborundum wheels. assortment of solid wheels of twelve different grits would necessitate outlay of ten times the cost of this outfit, not taking into consideration trouble of truing up the wheels when worn or glazed.

Full description and directions accompany each outfit.

For Sale by all Jobbers in the United States and Canada.

THE KREMENTZ COLLAR BUTTON

GOES
ROUND.
THE WORLD

ITS FAME—

Wherever there are collars there are Krementz Collar Buttons. They are known the world over—the only ones that have an international reputation. With such recognition and demand, all you have to do is carry them. They sell themselves.

QUALITY MAINTAINED—

The Krementz Collar Button never disappoints. Unequaled in construction and finish, its quality always has and always will be maintained.

ASSAY—

The Krementz Collar Button does not take advantage of the elastic leeway allowed by law. There is really no reason why a solderless collar button should assay a whit less than stamped. You can depend upon it that

Krementz 14-Karat Collar Buttons will assay 14-Kt. or $\frac{584}{1000}$ Fine.

Krementz 10-Karat “ “ “ “ 10-Kt. or $\frac{416}{1000}$ Fine.

You will note that articles assaying 9 to 9½ Karat or 13 to 13½, and sold as 10-Karat or 14-Karat respectively, save the makers a profit.

ROLLED PLATE LINE—

Krementz Rolled Plated Collar Buttons and Studs are made with regular Krementz 14-Kt. stock; which is sweated, not soldered on composition base. Exhaustive tests show Krementz Plate is much heavier than is used on any other rolled-plate jewelry. Their great popularity in hot countries (where perspiration destroys ordinary goods), is largely owing to the thickness and quality of Krementz Gold Plate, similar to that used on highest quality filled cases.

IN ACCORD with a growing vogue, this house is applying notably refined and artistic Enamel Decorations to an interesting line of Cuff Links, Tie Clasps and Scarf Pins.

Colors of Enamel are *White, Navy Blue, Olive Green and Maroon*. Unities of color and design extend to all three items, forming attractive sets and increasing sales.

Particular attention is called to the new Tie Clasps which are a decided advance in articles of this nature. Their form is not only the most graceful but also the most practical.

Safety Pony

No. 7525/84

¶ Having introduced the Lape or Button Chain which has become one of the standard and popular Summer chains, we are introducing for your approval this season another neat chain which can be worn on Vest for office use or on Trousers Band for outing wear; it makes a neat, stylish economical and safe chain to substitute for the old, long, cumbrous useless and unsafe Vest; the clutch is specially made so as to go on and off easily, and is of our own make.

¶ Try one of our samples when our travelers call and see if you do not agree with us. We will have a number of desirable patterns with and without the sliding seal. Also a large lot of other good things, new this season.

The Superb Silver Treasures of the Company of the Black Heads.

By Charles A. Brassler.

JUST as in nature we often encounter the most beautiful spots in remote places, so the choicest treasures of examples of the silversmith's art are sometimes found in the most out of the way spots of the Old World or in unexpected places. Such a treasure is the collection of the "Company of the Black Heads" in Riga, a Russian seaport on the Baltic coast.

Visitors to Riga, a city of the olden-time, are not but be struck with its quaint architecture, its crooked streets and remnants

Hamburg, Lübeck and Bremen; for Riga at one time belonged to the proud Hansa, that powerful and rich league of merchant cities which for a time almost ruled the destinies of the world. At the entrance to the building are to be found the relief pictures of the Virgin Mary and of St. Mauritius. In the interior, however, a great treat is reserved for the visitor, for here he will find many interesting and unexpected treasures. There is the "Golden Book" containing autographs of princely guests. The walls are adorned with paintings of Swed-

who is always represented as a Moor, as their co-patron. The head of St. Maurice is constantly recurring on the various pieces of silver work belonging to the society. The name "Black Heads," although the Moor as St. Maurice, may be emblematic of it, however, originated probably from the black (young) heads of the unmarried guild members in contradistinction to the gray heads of the married ones. One of their festivals falls on the Saturday before "Fast-

TWO REPOUSSÉ DISHES DATED 1672 AND 1684.

former splendor. Almost unconsciously they will drift to the business center of the city where they find the ancient Rathaus town hall, situated on one side of a square, raising aloft its high peaked roof towers. Opposite the Rathaus rises a fine building, the home of the "Company of the Black Heads," a venerable society that had already attained a ripe age when Columbus first set sail to find a new route to India and accidentally discovered America. This building was constructed in the 14th century but has been several times overhauled. Recently, in 1889, the gable was embellished with the statues of Neptune, of Liberty and two others representing Unity and Peace. Above this appear the coats-of-arms of the four Hanseatic cities of Riga,

Lübeck and Russian rulers, and handsomely embellished arms are everywhere in evidence. What interests us most, however, is the fine collection of splendid silver plate that is preserved here, some of which we illustrate to-day.

The *Schwarzhäupter*, or "Black Heads," a body or society of prominent unmarried citizens, appears first in 1413. At first a sort of club of non-resident merchants, it gradually acquired a great deal of influence and power. The "Black Heads" in the small towns of Livonia, however, were military associations which sprang up later and disappeared about 1560 with the decline of the so-called "Orden." The "Black Heads" of Riga chose St. George for their principal patron saint and St. Mauritius, or Maurice,

ing Day," and this is celebrated to this very day in Riga as the Shroove-tide "Drunken," which shows that the influence of this odd body is still felt.

As regards the pieces of fine silver still in possession of this ancient guild, they have been called examples of Russian work because Riga now belongs to Russia. This, however, is far from right, for as is well known, German influence has always been predominant in the Baltic provinces. As a matter of fact, German merchants pushed ahead over Wisby to the mouth of the River Dwina and settled there, finally founding the city of Riga. As far back as 1282 this city joined the Hanseatic League. In the Swedish-Polish wars Riga was taken by Gustavus Adolphus, the Swedish ruler and general in 1621 (after a long investment), and for a time remained with Sweden. This accounts for the presence among the collection of a fine silver epergne with the equestrian figure of the king. Only in 1721 Riga became Russian, together with Livonia. All the inscriptions on the plate

VI.

When rings are produced in quantity by MODERN METHODS and LABOR SAVING DEVICES, the actual cost for the making of a ring is a very small part of the total cost, as compared to the gold and stones used.

When you consider the UNQUESTIONED QUALITY of the gold in our rings, their design, finish and construction, you will find OUR PRICES ARE MOST REASONABLE. You pay only for the material and

workmanship, and the grace and style we give gratis.

We have the largest and most varied 14K. and 10K. Gold Ring stock in the market to-day.

Are you interested in our rings?

in German, and there is not a shadow of a doubt that it is the product of German masters.

Chief among the pieces composing this unique collection is the large oval silver salver in beautiful repoussé work (shown on the front page), bearing the date 1661. On the border appears in millions the coats-of-arms of various members of the society, with their names engraved underneath. The execution of the repoussé work stamps this piece as an object of art of the first class. There are two taller dishes of similar shape, most elaborately decorated, shown in the illustration on page 49. The rim is profusely embellished with handsome designs, showing birds, fruits, etc., and the Moor's head of St. Maurice appears repeatedly thereon. They are dated 1672 and 1684, respectively. There has been engraved on it the following quaint phrase in old German: "Ein Hertz das ohne hülft, nichts weiss von bössen Sachen, in alles mit Gedult, ja, selbst den Neydt erlachen." (A heart that is without guilt

slay the monster who is grasping his shield with its teeth. This group on a pedestal is the oldest member of the collection, dating back to the year 1507. An illustration of it appears on this page.

We now come to the two magnificent cpergnes or table centerpieces which are depicted below. One shows the Swedish king, Gustavus Adolphus, on a prancing horse, while on the other St. Maurice, as a Moor, holding a crown in his hand, is seated on a monster, half horse and half fish. These two are evidently companion pieces, judging from the similarity of some of the ornamental details. Both have a handsomely worked-out substructure and are, like the other pieces, interesting specimens of the highly developed silversmith's art of this period.

There are some interesting "welcome" cups to be found here, too, namely the "Willkommen" of Riga (dated 1616), and the one of the city of Lublin; also some fine mugs (the lids of which we present to-day) and the "welcome" hanap of the Guild

E. W. Sprosty, Cleveland, O., Makes a General Assignment Under State Laws.

CLEVELAND, O., July 1.—E. W. Sprosty, doing business as the E. W. Sprosty Co., 4303 Clark Ave., made an assignment under State laws Tuesday, and his stock was appraised Wednesday by J. F. Risser and C. A. Ramp. The stock inventoried at about \$1,000, but no schedule of assets and liabilities has yet been made public.

SILVER FIGURE OF ST. GEORGE.

The business has been run by Edward W. Sprosty individually, who, after being employed as a watchmaker for several years, commenced here on his own account in 1900. Subsequently he was joined by John F. Sprosty, the present company style being adopted, but John F. Sprosty later withdrew and Edw. W. Sprosty continued the business under the old firm name.

His failure did not cause much of a surprise in the trade here as he has not been strong financially.

There have been strange business combinations in the jewelry trade from time to time, but few men combined more radically different vocations than "Tim" Munsch, who recently died at Manchester, Mo. Mr. Munsch was justice of peace in Manchester, and was a jeweler and barber as well. He was very prominent in his community, and his death, which was sudden and occurred June 25, caused deep sorrow to a host of friends. Mr. Munsch was about 45 years old and is survived by a widow and four children.

HANDSOME CENTERPIECES SHOWING FIGURES OF GUSTAVUS ADOLPHUS AND ST. MAURICE.

and knows nothing of evil things, can laugh at everything, even envy.)

Magnificent examples of repoussé work are also the three covers of mugs or tankards illustrated on page 49. All three show the scenes in the round center, one of them depicting, according to the title, "The storious raising of the siege of the city Narvo." The rim is adorned with arabesques and various coats-of-arms with the names of the owners underneath. They are dated 1701, 1704 and 1705. The sharpness of the features of some of the combatants is admirable.

That the chief patron saint of the "Black Heads" should have come in for a share of attention is but natural, and so we find among the lot a silver statue of the Knight St. George in combat with the dragon. With his uplifted sword he is about to

slay the monster who is grasping his shield with its teeth. Illustrations of these appeared with our article on "Municipal Plate of the Cities of Europe" in the anniversary number of THE JEWELERS' CIRCULAR-WEEKLY of Feb. 5, 1908, and we will not revert to them to-day.

Altogether the objects shown to-day bear eloquent testimony to the high state of development of the silversmith's art of those days when everything was handwork and executed with loving care. The merchant princes of the Hanseatic cities redeemed from provincialism and incited to luxury and display by their far reaching commercial relations bestowed a special amount of attention on the internal comfort and embellishment of their homes and guild houses which made it possible for the workers in the precious metals to display their well-developed talents.

All Sizes and Qualities

THE NEWS FROM ENGLAND.

Unusual Weather Retards Business in London, But Birmingham Trade Is Better—Large Clock Factory Burned Birmingham Jewelers Endorse Daylight Saving—A Thousand Day Clock Jewelry Exhibits at Imperial Exhibition Disappointing.

LONDON, June 23.—The early part of the month gave us an experience of phenomenal weather. No one seems able to remember anything like it in June. Overcoats had to be worn, while umbrellas were continually in request. No wonder the first two weeks of the month were almost barren of trade and despair sat heavily on the jewelry and fancy trades. As I write, a few days of slightly better weather have given place to boisterous winds, lowering skies and intermittent rains. As a consequence it is impossible to place upon record an improvement in London trade. In Birmingham a rather better feeling obtains, manufacturers agreeing that orders are a little more free and that the general outlook is more promising. But while home orders are somewhat better, the shipping trade is practically nil. In Sheffield, trade remains about the same, but there is a more satisfactory tone about the cutlery trade, and much satisfaction is expressed with the increased volume of trade with the United States, while South Africa shows an improving market. The silver and electroplate trade is not good, and manufacturers and work people await with impatience an improved condition of affairs. Scotland is still waiting for better times, though the trade horizon is brighter, while reports from Ireland and the coast towns of England, which should be doing well, are very satisfactory.

* * *

There is an increase of £592,000 in the exports, while the exports show a decrease of £1,541,000, the bulk of which is represented by the unfortunate fact that manufactured goods show a decrease of £1,365,000. It is, however, generally felt that we have reached the end of the depression and that business must revive. South Africa is starting to boom again, and the improving situation will without doubt help the home manufacturers.

* * *

The big fire at the Salisbury clock factory, owned by H. Williamson, Ltd., is a very unfortunate affair, not so much because the extensive buildings were quickly reduced to the ground, but because the valuable machinery and a lot of new plant were destroyed, and just when trade was all on the turn and orders were rolling in a catastrophe came and threw 100 employees out of work.

* * *

The majority of the members of the Birmingham Wholesale Jewelers and Silversmiths' Association have decided by written declarations in favor of the Daylight Saving bill.

* * *

The Imperial International Exhibition, like all others, was not entirely ready for opening on the appointed day. It seems one of the strange fates which help to mar the success that exhibitors will not appreciate

the losses occasioned by delay. I had hoped to write of the Arts and Crafts Palace, in which the nations will exhibit jewelry, silverware and allied objects but, thanks to the dilatory conduct of one large exhibitor, the building was not properly ready. But there will not be much, after all, upon which I can spend time. Apart from the fine show of Catchpole & Williams, whose Medici collar was illustrated in THE JEWELERS' CIRCULAR WEEKLY last year; a really good exhibit by H. W. King & Son (the pioneers of enameled jewelry in Great Britain) of the Cerulean enamels; an exhibit of New Zealand jade jewelry by Frank Hyams, and the exhibit of the Crown Metal Co., there is no one worth mentioning. I understand that at the last minute the bulk of the firms I mentioned in a previous letter backed down. Some have informed me that they are saving themselves for a great effort at the Anglo-Japanese exhibition, which will be held on the same site, and also for the Brussels exhibition of 1910. For the latter the British authorities, through the Board of Trade acting under a Royal Commission, are determined to make a good demonstration if British manufacturers will give their support.

The Arts and Crafts building will probably be really ready early next month, and then I will give some idea of the quality and value of the leading exhibits. Meanwhile the "fakers" are, in the main, the only people ready to do business at the exhibition.

* * *

At the sale of the Rashleigh collection at Sotheby's famous auction rooms no less than £449 sterling were paid for two rare silver pennies of Wiglaf, King of Mercia. One of Egberht, King of Kent, sold for £153, and another of Eadvald for £52. A penny minted by Jaenberht, Archbishop of Canterbury, fetched £93. It seemed a pity that a collection which had taken 120 years to form should be, after all, distributed.

ST. GEORGE.

Trustees' Schedules of Parnes & Fassberg, Pittsburg, Pa., Show Liabilities of \$20,042 and Assets of but \$575.

PITTSBURG, Pa., July 1.—Simon Sher, trustee for the bankrupt firm of Parnes & Fassberg, yesterday filed his schedule of claims and assets against the bankrupt house, showing that the known liabilities are \$20,042.49 and the assets \$575. The petition sets forth that Isaac Parnes has absconded and his whereabouts is unknown. No previous schedule has been filed showing assets and liabilities and the trustee's schedule of the indebtedness of the firm was prepared from papers found on the premises of the bankrupt and are as complete as possible under the circumstances. The paper was made a part of the record

in the case now occupying the attention of the United States District Court.

The schedules show that Parnes & Fassberg, in addition to others for small amounts, are indebted to the following creditors: J. Rogers Silver Co., \$1,127; E. Ingraham, \$822; Bliss Bros. & Co., \$882; W. H. Wilmarth & Co., \$298; Sessions Clock Co., \$198; Morgan Jewelry Co., \$490; Swiss Clock Co., \$185; Hays & McFarland, \$242; Wagner Comb Co., \$56; Gaus Bros., \$203; George W. Dover Jewelry Co., \$362; Ehrlich & Sinnock, \$1,168; Frisch Bros., \$314; Plainville Stock Co., \$357; Leach & Miller Co., \$143; Wm. Weidlich & Bro., \$51; F. H. Cutler & Co., \$114; Depasse Mfg. Co., \$274; Esser & Co., \$111; Lancaster Silver Plate Co., \$631; Wellsville China Co., \$865; Hanlon-Thornton Co., \$161; American China Co., \$1,085; Jones, McDully & Stranton Co., \$243; Michigan Cut Glass Co., \$55; Potters' Co-operative Co., \$785; Oneida Community, Ltd., \$749; Strauss Bros. & Co., \$94; H. C. Fry Glass Co., \$157; New Haven Clock Co., \$343; A. A. Vantine & Co., \$609; N. Packwood & Co., \$93; Western Clock Mfg. Co., \$106; Berbeck, Bowman & Co., \$363; Geo. Rutledge, \$80; Wm. Schimpfer & Co., \$258; Parker Clock Co., \$424; Irving Cut Glass Co., \$173; Gillette Sales Co., \$558; H. D. Merritt Co., \$120; Merrill Bros. Co., \$90; Depasse Mfg. Co., \$212; Wm. C. Greene Co., \$290; Attleboro Chain Co., \$390; A. L. Tuska & Co., \$220; Benedict Mfg. Co., \$225; Eyer & Tsehantz, \$198; A. Poole & Sons, \$774; Kates & Co., \$692; Ernest Regez, \$415.

Simon Fassberg, whom it was alleged was a member of the firm, has shown by court proceedings that he was not connected with the house six months and prior to the filing of the involuntary petition and was therefore relieved of the bankruptcy charge in so far as it connects him with this particular case. It is stated here that Fassberg is just as anxious to get hold of Parnes as his creditors.

The detectives who were employed to locate Parnes found that stock had been shipped to several points in Ohio, but have never been able to catch up with either the goods or Parnes, who has been missing since a few days before Jan. 2 last, when the involuntary bankruptcy petition was first filed.

Parnes had been in business but a few months when he opened up his store in Penn Ave. It was given out that there was considerable money back of him. When the place was closed by the United States Marshal but little stock was found in the store, as is evidenced by the fact that the property found only brought \$575 at a public sale. This price included also the sale of the fixtures. Parnes' failure is regarded as nothing more than a swindle and if he ever comes to Pittsburg he will be arrested and made to answer the charges against him. Some of the creditors contributed to a fund to employ detectives in the hope of running Parnes down. The man deserted his wife and family in this city, who at last accounts knew nothing of his whereabouts.

Creditors of Parnes & Fassberg have been notified that the first meeting will be held before Wm. R. Blair, referee in bankruptcy, in room 24, St. Nicholas building, 450 Fourth Ave., July 10, at 10 A. M.

REPOUSSE' WORK AND CHASING

ILLUSTRATED AND DEMONSTRATED BY AN EXPERIENCED ARTISAN

(Continued from issue of June 2.)

If the lid is to be hinged onto the body of the casket, this is the next thing to be done. The hinge should be carried along the entire length of one of the long sides, and consists of a number of pieces of tubing (termed the "knuckles" of the joint) soldered alternately on the body and lid of the casket, through which a long wire or pin is eventually passed.

MAKING THE HINGE.

The tubing to be drawn for this hinge should measure about one-eighth inch across and should be made of about size 11 metal. For the tubing a strip of metal should be cut about three times the width that the tubing is eventually to be. Then, with the riveting end of an ordinary hammer it can be shaped something like a semi-circle in section on a piece of hard wood previously grooved to that section. One end should be tapered so as to allow of its passing through the draw plate easily. It can then be annealed and passed through successive holes in the draw plate, passing a piece of wire through with it until the edges of the strip meet, so as to preclude any danger of the metal buckling before a complete circle is formed.

When this has been drawn down to the required size the lid and body of the casket should be securely tied together, and a semi-circular groove filed in such a way that the dividing line between the body and lid of the casket comes in the center of the groove. If it be desired to sink the hinge still further the two mouldings—that is, the one on the lid and the other on the body of the casket—can be slightly beveled before the two parts are tied together, and then the groove can be filed in the same way.

The next step is to decide on the number and length of the "knuckles," and cut these off and file the ends true in the joint tool.

Considering the size of this casket, seven will be found a very convenient number to use, soldering four on the lid and three on the body of the casket. The soldering of these on to the lid and body will be found the most difficult part of the work, and requires considerable care and experience to do really well. If possible, a softer solder than any previously used should be employed. All the knuckles should be laid into the groove in the first place, and the corresponding place where they are to be soldered on, either the lid or body, be marked in with a point. The lid and body should then be taken apart and the knuckles just tacked in their respective places.

It will be found an advantage to tack the three on the body before tacking those on the lid, as there are only two knuckles on the lid, which fit in between the three on the body, the other two being at the extreme ends.

When all the knuckles have been tacked on, the lid and body of the casket should be put together to see whether the knuckles fit accurately in between one another. If this is the case, they can be taken apart

and the knuckles soundly soldered, taking care not to use more solder than is necessary, as, to insure a good fitting, it is essential that no solder should get onto those parts of the groove into which the corresponding knuckles fit.

THE KNOB.

The long pin to pass through the knuckles should not be put in until the casket is completely finished. The knob on the lid of the casket is intended to hold a stone or small enamel. If an enamel is used, it should have some bearing on those on the sides of the casket. It measures about 1¼ inches across, and consists of two main pieces, which are shaped with the hammer, and joined together by means of a small moulding. For the lower piece of this knob, which is shaped something like a very shallow communion cup or chalice base, a piece of metal only just a little larger than the size across (1¼ inches) will be required. It can be shaped on a tool something like that used for a chalice foot, with a very narrow collet hammer. The center is then cut out and a small moulding pushed halfway on, leaving the other half of the moulding for the other part of the knob to fit into. This piece is shaped something like one of the collets of the communion cup described some time ago, and can be made in exactly the same way. The circle of metal required for this will have to measure about 1½ inches across, using metal about size 11 for both these pieces. When shaped, the center should also be cut out of this piece and the end pushed inside the small moulding already fitted onto the other piece.

A plate of metal should then be cut out and soldered on top of this collet piece, making it just large enough to project slightly over the collet and form a slight step. This piece is for the stone or enamel to rest on, but all the center can be cut away, leaving just a rim of metal about one-eighth inch wide. A setting can now be soldered onto this, consisting of just a thin rim with either a plain or scalloped edge, and a decorative wire, either twisted or beaded, can be soldered in the angle formed by this setting, and the plate underneath onto which it is soldered. The knob can finally be soldered on with soft silver solder, taking care to thoroughly protect the knuckles of the joint. The foregoing remarks have explained the working of this casket if the sketch published in a previous issue is closely adhered to, but a casket of this kind is possible with many variations.

The knob might, for instance, be left out altogether, and a decorative panel substituted and fitted into a setting which came just inside and closely followed the moulding on the lid already there. If this were done, it would be necessary to substitute a flap or thumb-piece to open the lid by. This would have to be designed in such a way as not to interfere with the circular panel on the front side of the casket. If a thumb-piece is used it will be necessary to

hinge this on in the same way as the lid was hinged onto the body of the casket, and the moulding on the lid will provide good bearing for this. If hinged on in this way, of course, be made to serve a double purpose by arranging for it to slip over the knob or catch soldered onto the body of the casket.

THE PANELS.

The panels being the most decorative feature of the casket, they should be used to illustrate some interesting subject, or a mythological or historical. This would, of course, greatly depend on the use the casket is going to be put to.

If it were intended for ecclesiastical purposes, the four evangelist symbols might be very appropriately introduced, and they would be very successful, as they are exceedingly decorative things to treat the other hand, if the casket were intended to contain the freedom of a city, or an address of welcome, the local arms might be just as successfully introduced.

In the latter case, an inscription might also be made a decorative feature, placed on the base instead of the piercing as indicated on the sketch. Whatever panel is used, they can be treated in several different ways, either as reliefs or enameled, or a combination of both. If treated as reliefs they should not be embossed too high, otherwise they will stand away too far from the rest of the casket, or, if enameled, the panels can be modeled in wax and cast. But this is rather objectionable, as the object which is otherwise entirely white. If treated as painted enamels one should try to harmonize the various colors as far as possible with the color of the metal of which the casket is made in.

Another method of treating which is very effective is to emboss the panels. Set the background very sharply, and then set this in with enamel, using, of course, a color only. The famous Castellani casket in the Victoria and Albert Museum, in Kensington, is designed on the same general lines as the one just described. It is one of the most beautiful caskets in existence, and should be seen and studied by all workers.

(To be continued.)

Paul Simon, for many years mechanical engineer of the Waltham Watch Company, died Monday, June 21, at his home, 66 Ash St., Waltham. His death was the result of a paralytic shock received while in France, last Fall, and compelled his return to this country. His condition was not regarded as critical within a short time prior to his death. Simon was a native of Deluz, France, where he was born 63 years ago. He was a young man when he came to America, and his association with the watch industry covered a long period of years. While in the company's employ he traveled throughout Europe. He was a member of the Chesire lodge of Masons, Combe Prospect lodge I. O. O. F., Waltham lodge, Waltham lodge, A. O. U. W. He is survived by his widow and two sons.

*Illustrated in the anniversary number, JEWELERS' CIRCULAR—WEEKLY, Feb. 8, 1907.

New York and Philadelphia Jewelers Cross Bats.

Nine of the Jewelers' 24-Karat Club of New York Wins Victory Over That of Philadelphia Jewelers' Club at "Gala Day" and Outing of the Latter, Held at Essington, Pa.

PHILADELPHIA, Pa., July 1.—Fine weather and a fun-loving crowd combined to make "Gala Day" of the Philadelphia Jewelers' Club, which was held last Tuesday "The Orchard," the Summer home of Philadelphia Athletic Club, a decided success in every respect. A baseball game between teams representing the Jewelers' 24-Karat Club of New York and the Philadelphia Jewelers' Club was the feature of the afternoon. A fine dinner and vaudeville show completed the day's enjoyment. Although there were not as many members of the Jewelers' 24-Karat Club of New York on hand to cheer their team as

The event of the day began at 2:30 P.M. and was replete with a mixture of good plays and errors, which kept the spectators in a state of uncertainty until near the end of the game when the New York team forged ahead and established a lead which insured victory. The final result showed the Jewelers' 24-Karat Club team with 27 runs and the Philadelphia Jewelers' Club 21.

In the first inning the Quaker City jewelers secured nine runs by timely hitting aided by a comedy of errors on the part of the visitors, who were successful in securing only three runs. In the second session

ceeded in getting two men around in their half. Confident of victory, the 24-Karat players went after the ball hammer and tongs in the last act and added six runs to their total, while the locals fought hard, but only four tallies resulted for them. The final score of 27 to 21, in favor of the New York team, tells the story of the contest. Crippen, the visiting twirler, seemed as fresh at the end as he was when the game began. He was well supported by his infield during parts of the game. Bush, for the Philadelphia team, covered his position at second base in good shape.

The line-up of the teams was as follows:

JEWELERS' 24-KARAT CLUB—L. Schwab, 1b.; H. Schwab, ss.; J. Schwab, c.; Crippen, p.; Allen 2b.; Woodland, r.f.; Power, 3b.; Mouro, c.f.; Canfield and Mamluck, l.f.

PHILADELPHIA JEWELERS' CLUB—Zirkilton, r.f.; Lawton and Provan, c.f.; Lapman, ss.; Rutherford, 3b.; Higham, 1b. and p.; Bush, 2b.; Cregar, 1b.; Spies, p.; Kirtland, c.

Umpire, Weiner. Scorer, Lou White.

After the game the Philadelphia jewelers gave three cheers for the 24-Karat Club.

The special train carried the crowd back to Philadelphia, where the members of the 24-Karat Club were entertained at dinner at the Union League Club. Charles H. Brinck, as a representative of the 24-Karat Club, was also at the dinner.

The dinner was informal and a fine time is reported. "Lou" White acted as master of ceremonies and made a few apt remarks. The menu was as follows:

Little Neck Clams.
Olives, Radishes.
Consomme, a la Jelly.
Cold Crab Meat Served in the Shell.
Cold Ham, Cold Tongue, Cold Chicken Salad.
"Lillian Russells."
Cantaloupe and Ice Cream.
Iced Tea, Iced Coffee.
Cigars.

After the dinner the New York team was entertained at a vaudeville show and sparring contest at the National Athletic Club.

Among those in attendance were: Lou White, A. J. L. Jambre, G. H. Hurlburt, W. H. Long, Jos. E. Cadwallader, E. J. Weil, Lu Müller, J. T. Alburger, Jos. E. Berry, W. F. Reimold, V. L. Burgesser, H. S. Schley, W. H. Taylor, Harry Howell, Fred Bode, D. B. Provan, A. Rutherford, Harry Barry, H. N. Tuckle, F. X. Zirkilton, E. Cooperstone, Mr. Coats, Conrad Atkinson, C. R. Reidifer, E. F. Morse, W. T. Benson, Fred Yockel, Jos. McManus, W. H. Price, H. S. Stevens, Ed Ryan, Z. H. Laud, W. G. Earle, H. B. Somers, Wm. Kemmeras, A. Smith, Geo. Billeau, Lu Belair, H. B. Gause, Wm. Penfold, R. F. Monroe, Geo. Jocuni, L. H. Carpenter, Frank Sloan, C. H. Brinck, Harry Larter, F. W. Way, Wm. Moore, E. H. Herbein, N. Leopold, M. Goldstein, P. C. Burnham, Geo. E. Donaldson, Andrew Smith, Wm. Deeg, P. J. Geilfurs, A. T. Eddy, D. Bowers, A. C. W. Bowers, Jos. Bartter, Chas. Wootten, J. R. Noggle.

The annual meeting of the Fox River Valley Jewelers' Club opened at Green Bay, Wis., June 30. Officers were elected and other important business transacted, after which those present enjoyed a banquet at Bay Beach.

SUMMER HOME OF PHILADELPHIA ATHLETIC CLUB, WHERE OUTING WAS HELD.

hoped for, those who did go unite in thinking that the royal welcome accorded by Philadelphia jewelers and the good provided more than paid them for the

The New Yorkers' baseball team left for Philadelphia over the Central Railroad of New Jersey a little after 10 A.M., and after an enjoyable trip spent in card playing and social gossip reached the B. & O. terminal at 24th and Chestnut Sts., Philadelphia, at 12:30 P.M., where they were met by a reception committee headed by "Lou" White, president of the Philadelphia Jewelers' Club. A special train was in waiting for the crowd of Philadelphians and New Yorkers were soon speeding toward Essington, where the Summer home of the Philadelphia Athletic Club is located. Arriving at their destination, the jewelers went at once to the athletic club, a short distance from the railway station, where they were shown into a large room in the center of which stood a large round table covered with sandwiches and amber liquor. After taking refreshments the jewelers waited the time until the beginning of the game in welcoming late arrivals, many of whom came in automobiles.

As the time for the baseball game approached the spectators found seats beneath the grateful shade of the wide-spreading trees and watched the practice of the two teams, while speculating on the probable outcome of the game and listening to H. Kendel's band, which was on hand to help keep things lively.

The New York tossers got over their stage fright and held their opponents to two runs, securing one tally for themselves. At this period of the game it looked dark for the visitors, and cheering of the Philadelphia "rooters" drowned the weak effort of the New York supporters, who endeavored to encourage their team. In the third and fourth innings the Maiden Lane aggregation hit a batting streak, and when the scorekeeper had figured up the result it was found that the visitors had secured eight runs, placing them one ahead of their rivals, the score reading 12 to 11. In both these innings sharp fielding of the few scattered hits obtained by the Philadelphia players prevented their scoring.

With the turn in the tide of battle in favor of the New York team, the local players put in a fresh pitcher and catcher. The fifth act of the drama saw the teams in relatively the same positions, each having secured a run. In the sixth round the local tossers were presented with a goose egg, while the metropolitan jewelers secured three scores, making the total up to that time 16 to 12 in their favor. The seventh saw a break in the run-getting streak of the New York boys, while the Philadelphia team moved up three notches, placing them within two runs of their opponents, the score then being 17 to 15.

The sensation of the game came in the eighth inning when, with three men on bases, "Bob" Allen drove out a home run for the New York team, which virtually decided the game. The Philadelphians suc-

Third Annual Convention of Ohio Retail Jewelers' Association, Held at Cedar Point, Proves a Busy Session.

CEDAR POINT, O., June 30.—There were about 40 retail jewelers present when President Stebbins called the third annual convention of the Ohio Retail Jewelers' Association to order on the afternoon of Monday, June 28, and appointed C. S. Hartman sergeant-at-arms. The members, however, continued to arrive from time to time, until the attendance nearly doubled before the convention was well on in its session.

Secretary Thoma then made his report and called attention to the fact that when he assumed the duties of his office the association was in a very bad financial condition, there being only 15 cents in the treasury, and that the books were in a mixed-up condition. He told of the trials of a secretary in getting new members and of making the old ones pay up their dues, and how by persistent work order came out of chaos. He told how the officers settled on Cedar Point, O., for the present meeting, the Cedar Point Resort Co. defraying the expenses of a preliminary meeting at Columbus, O., thus making the present convention a possibility. He said the amount received from advertisements in the program was far above the cost, and that part of the surplus was used for boosting the association.

Mr. Thoma referred to the Cincinnati retailers seceding from the Ohio body because of the cessation of the publication of the *Retail Jewelers' Journal*, and deplored its non-continuance. He referred to the favors extended by the South Bend

Watch Co., which helped him with a mailing list of the retail jewelers of Ohio and rendered other valuable assistance. He reported 105 members in good standing at the present date.

After the secretary's report was read, G. J. Daum, the treasurer, reported the total receipts up to date as \$380.65 and the total disbursement \$268.62, leaving a net balance in the treasury of \$112.13.

President Stebbins then made his annual address. He began by saying that the convention would be run on fair and broad lines and that anyone could have the floor to discuss matters of interest to members. He said many jewelers were anxious to know how the association came about and where the association was going to.

The president then reviewed the work of the organization, which started in June, 1907, with 23 original members. He told of its early struggles and got down to the national convention at Cincinnati last year, referring in detail to the events that led up to the discontinuing the publication of the *Retail Jewelers' Journal*. He said a promise had been made by the executive officers of that body to publish a paper in Cincinnati if the *Journal* was dropped, and they had not done so; he felt as though Ohio had been hoodwinked out of her paper. He said that in time Ohio was going to have the best organized State in the union, and plans were under way for concerted action on all sides. He predicted that the members of the association would soon be able to value their mem-

bership in dollars and cents, the wheels of business would go smoother, and there would ring up bigger amounts on the cash registers. He said he was elated over the new policy of the Waltham Watch Co. whereby they intended to market their watches through the retail jeweler only, and said the time was coming when better business ethics would prevail among the manufacturers and jobbers toward retail jewelers.

A round of applause greeted Mr. Stebbins as he sat down.

President Stebbins then appointed the following committees: On membership, W. Lewis, F. W. Birchard and F. H. McKinley; on constitution, A. L. Thoma, C. Schuler and F. D. Ausman; on resolutions, F. D. Ausman, H. R. Boving, B. F. Phillips, Frank L. Young and G. J. Daum; on auditing, C. N. Frazier and Henry Deh-

A. L. Sackett, of the Buck Silver Co. was down on the program for an address on "Modern Advertising," but as he was unable to be present, much to the regret of President Stebbins and the rest of the association, Wm. H. Ingersoll, of R. Ingersoll & Bro., New York, was invited to speak on the matter of retail jewel handling Ingersoll watches.

Mr. Ingersoll began by saying that he was glad to see the spirit of co-operation that prevailed at the meeting, and that he expected the jewelers to become bigger, broader-minded business men through the exchange of ideas indulged in at all meetings. What he had to say had to do with the fundamental principle of merchandising. The question at issue, he said, was whether the jeweler should or should not push the sale of his watches—whether the jeweler should seek to get this trade for himself or whether he should wish

OFFICERS AND MEMBERS OF THE OHIO RETAIL JEWELERS' ASSOCIATION AT THE THIRD ANNUAL CONVENTION, CEDAR POINT, O., JUNE 28-29

consent to let the sale go to other dealers. He said that over half the watches made and sold in this country are Ingersoll watches, and that the proposition of selling them was big enough to merit attention from all retail jewelers. According to the speaker there were 3,500,000 Ingersoll watches sold last year, and as they have come to stay he thought it was wisdom on the jewelers' part to supply the consumer with what he needed and that would not be good policy on their part to allow so large a proportion of the watch-buying public to get their watches from other stores. The more customers they had, he said, the greater would be their guarantee and consequently the greater their general trade.

The speaker claimed that the cheap watch helped the sale of higher grade watches, as it always made the wearer anxious to buy a finer one and that its sale led to future greater business. He said it had its distinct use for the sportsman who does not wish to carry a fine watch on his hunting trips. He said the population of the United States was nearly 100,000,000, and so far only 35,000,000 watches had been made, leaving two-thirds of the population without watches; that jewelers ought to try to sell watches to those who don't own any. He said the retail selling price on these cheap watches was absolutely protected because he believed it was sound principle of merchandising.

He concluded by saying some jewelers took an unwarranted position by refusing to buy his firm's watches, and then complaining because some one else sold them. In answer to a question by President Stebbins, whether the Ingersoll watch should in future be confined to the retail jewelry trade, he said that such a change would have to come about gradually and that it could not be done at the present rate of consumption by the retail jewelry trade.

Mr. Ingersoll's address ended the first of the proceedings. In the evening everyone enjoyed themselves at the various resorts in the place, and a large crowd stayed late at a popular resort known asystal Rock.

TUESDAY'S SESSIONS.

The Tuesday morning session passed the question on the programme, "Can a strictly jewelers' journal published by this association be established and maintained?" This question was taken up by the Committee on Resolutions and their decision will be found among the resolutions passed.

The first thing done was a discussion on the advisability of the Ingersoll-Trenton Co. guaranteeing their seven-jeweled watches for five years. Many wanted to know what was the reason for the guarantee and what meant. Wm. Ingersoll explained that the watch was guaranteed for five years in regard to material and workmanship, except breaking of mainspring, provided the watch was cleaned once a year. He said the public liked a guarantee and would buy a watch with greater confidence if it carried a guarantee with it. He said the stipulation that the watch must be cleaned annually would help the repair department to increase its revenue.

The consensus of opinion of the jewelers present, however, was that a guarantee of five years would not be beneficial to the trade.

Mr. Lovett, of the Rockford Watch Co., said that all watch companies would follow suit and that if every part of a watch except the mainspring was guaranteed for five years free of cost, then the repair department would suffer to a great extent, and that a one year's guarantee was sufficient.

At the suggestion of President Stebbins the question was laid on the table for a year. Mr. Ingersoll agreed that in future the retail jeweler should date the guarantee from the time of sale instead of having the date stamped by the factory.

H. R. Fogelman then delivered an interesting lecture on "Suggestion as a power in

F. D. AUSMAN, PRESIDENT-ELECT.

salesmanship." He referred to the psychological side of selling merchandise and explained the elements of suggestion as applied to salesmanship. He said the fundamental principles of good salesmanship could be traced to just four words: Ability, Reliability, Endurance and Action. The minute a customer entered a store a mental battle took place, and suggestion properly applied to selling goods would result in satisfactory sales. This lecture closed the morning session.

A group photograph of the convention members and their guests was then taken, a cut from which appears herewith.

During the morning session President Stebbins announced the sad death of the father of Chas. M. Slemmons, representative of the Illinois Watch Co. Mr. Slemmons left the convention hall to attend the funeral, and great regret was expressed on all sides for his sudden loss.

Tuesday afternoon the reports of the various committees were heard and accepted. The membership committee reported 50 new members. The auditing committee accepted the report of the treasurer, and the constitution committee recommended the following changes:

Article 4 was changed to provide that the

officers are to be president, first vice-president, second vice-president, secretary and treasurer; the officers of the association are to constitute the board of directors; the officers are to be elected by ballot and shall hold office for one year or until their successors shall have been elected and qualified; the president shall at each meeting appoint a sergeant-at-arms.

Article 8—The annual dues are to be \$2, payable in advance on Jan. 1 of each year.

Article 9—The president shall appoint within 30 days after the annual meeting standing committees, of which he shall be an ex-officio member, each committee to consist of three members. The committees to be on trade interests, trade qualities and trade membership, and other committees if necessary. The trade interest committee to report at each annual meeting such observations and information upon questions of trade welfare as the committee shall deem of interest, together with recommendations for action. The trade quality committee to report annually or oftener, at their discretion, on the quality of jewelry products on the market, the presence or absence of quality marks; the reliability of such marks, together with such other information and recommendations as they see fit. The membership committee to co-operate with the secretary in gaining new members, and to investigate the qualifications of all applicants.

President Stebbins and Secretary Thoma were elected delegates to the national convention at Omaha, and E. J. Daum and L. W. Lewis were elected alternates.

Communications were then read from various sources and various bills allowed.

A telegram from J. P. Archibald, president of the American National Retail Jewelers' Association was read saying he could not be present, as he had promised to go to the Illinois meeting at Peoria.

A vote of thanks was then given to the manufacturers and jobbers who had helped the convention to success by advertising in the programme and by exhibiting in the hall, to the publishers of THE JEWELERS' CIRCULAR-WEEKLY and the *Keystone* for sending representatives to the convention, and to the Cedar Point Resort Co. for the courtesies extended.

The election of officers then took place. President Stebbins refused a third term, saying it was better to have a change than to continue with the same presiding officers all the time. As his successor, F. D. Ausman, St. Mary's, was chosen, as were the following: First vice-president, H. R. Boving, Lancaster; second vice-president, J. W. Puetz, Lima; secretary, A. L. Thoma, Piqua; treasurer, G. J. Daum, Port Clinton.

A vote of thanks was extended to President Stebbins and the old officers for their untiring efforts in building up the association. The meeting then adjourned.

The members took a boat ride on Sandusky bay as the guests of the Cedar Point Resort Co.

In the evening the Most Noble Order of Ku-Kus held their annual reunion, and the officers of the Detroit nest came up to officiate at the initiation of new members. Those from Detroit were Frank Kennedy, "king"; Nelson K. Standart, "prince"; A.

Charlesworth, "scratcher"; J. E. Morese, "keeper of the cash"; A. E. Patterson, "chief," and M. E. Rowley, "guard"—the officers were resplendent in their militia, and headed a procession which met at the Hotel Breakers and marched to the meeting hall, blowing all kinds of horns and other noise-making machinery. There were 18 new members initiated amid various fun, after which all the Ku-Kus, wives and friends, sat down to a banquet at which five-minute speeches were indulged in.

The following were the resolutions adopted by the convention:

Resolved. That we commend the South Bend, Ind., the Howard, the Hamilton and the In-Trenton watch companies for establishing selling prices on their entire products and for their entire products through the legitimate channels.

Resolved. That we commend the Illinois Watch Co. for establishing a protected selling price on its product and condemn their practice of making "dressed" watches for retailing concerns resorting to questionable advertising.

Resolved. That we commend the Elgin and Waltham watch companies for establishing a fixed selling price on their higher grade movements, and for their effort to induce dealers to sell at not more than 10 per cent. above list on low and medium grades, and recognize the need of still further protection.

Resolved. That we heartily commend the Waltham Watch Co. for its recent decision to market its product through the jobber and the retailer.

Resolved. That manufacturers of price protected watches be requested to study carefully into the advisability of placing their watches on sale with small retailers who handle only one or two movements of their lines, as experience proves that small dealers find it easy to cut the price to a sale, not caring whether or not they are cut from future supply, believing that dealers desiring a comprehensive line will be more inclined to protect the price as they have more to lose by doing so.

Resolved. That we commend the South Bend Watch Co. for its advertising campaign to send the consumer to the retail jeweler for watches, in view of transportation difficulties which cause unnecessary expense and annoyance to the consumer.

Resolved. That it is the sense of this association that a restricted retail price list be established by the case manufacturers on their product.

Resolved. That we condemn the contemplated method of marketing watches complete.

Resolved. That we commend the Towle Mfg. Co. for strictly adhering to the retail jeweler as distributor of its product.

Resolved. That we commend the Whiting Mfg. Co. for its recent action abandoning its New York retail store, and that we unceasingly work to induce other manufacturers to follow its example.

Resolved. That we commend the Buck Silver and the Rockford Silver Plate Co. for their judicious policy of marketing their products through the retail jeweler.

Resolved. That we recommend that the American National Retail Jewelers' Association appoint a committee to confer with the several jeweler journals and induce them to adopt a universal code of prices in advertisements, and such information be sent to retail jewelers only and by separate mail.

Resolved. That we recommend that the American National Retail Jewelers' Association appoint a committee whose duty it shall be to strive for legislation making fraudulent advertising a punishable offense.

Resolved. That we the Ohio Retail Jewelers' Association,

in convention assembled, refuse as far as possible to market the merchandise of manufacturers or jobbers who make a practice of selling to the consumer direct, or distribute their catalogues or price lists to other than legitimate jewelers.

Resolved. That we commend the manufacturers of Newark, N. J., who have taken it upon themselves to inform the public in regard to the national stamping act, and that we hold ourselves in readiness to co-operate with them in this respect.

Whereas. At the Cincinnati convention, August, 1908, it was found expedient to dispense with the services of O. C. Lightner as editor of our paper, *The Retail Jewelers' Journal*, and,

Whereas. The National Executive Committee, in compliance with a resolution duly passed by the national convention, agreed to establish a national journal with headquarters at Cincinnati, and if feasible take over the subscription and general financial obligations of both the *Retail Jewelers' Journal*, of Ohio, and the *Bulletin*, of Iowa, upon which agreement it was decided by our State executive committee to abandon the *Retail Jewelers' Journal* a. d.

Whereas. The national executive committee, upon finding it not feasible to take over the financial obligations of said *Journal* and *Bulletin*, met at Chicago and voted to abandon the project of establishing a journal at present, and,

Whereas. We, the Ohio Retail Jewelers' Association, in regular convention assembled, do earnestly condemn the officers of the American National Retail Jewelers' Association for not carrying out the unanimous sentiment of the Cincinnati convention to establish a national journal; therefore, be it

Resolved. That we hereby instruct our State executive committee to take immediate steps to establish a new journal, provided the American National Retail Jewelers' Association does not establish a national journal at the Omaha convention, for the purpose of propagating association work, and that a copy of this resolution be spread upon our minutes and a copy be sent to Secretary Callison of the national association, to be read before the Omaha convention.

Resolved. That the Ohio Retail Jewelers' Association extend our sincere thanks to H. L. Fogelman for his excellent and most highly instructive and appreciated address on "Suggestion as a Power in Salesmanship."

Whereas. Almighty God in His infinite wisdom has seen fit to remove the father of Charles M. Slemmons from this life, and,

Whereas. Charles M. Slemmons has made many warm friends among the members of the Ohio Retail Jewelers' Association, having attended every convention of the association since its organization; be it therefore

Resolved. That we heartily sympathize with him in his bereavement, and, be it further

Resolved. That this resolution be placed upon the minutes of this association and a copy of the same be sent to our friend, Charles M. Slemmons.

Among the Exhibitors.

The wholesale jewelry and optical trades were represented by the following firms and their representatives:

G. E. Potter, assistant sales manager of the South Bend Watch Co., and J. K. Coulter, Ohio traveling man for that corporation, showed a complete line of South Bend watches and gave away badge dials, buttons and watch fobs. They showed their list of customers in Ohio.

C. H. Osmun, representing the Rockford Silver Plate Co., exhibited many of the patterns made by this concern, and gave away small silver plated tankards as souvenirs.

E. J. G. Lovett, sales manager for the Rockford Watch Co., exhibited all the models made by this company, and showed a new 12 size watch which will soon be on the market.

G. Raymond Noyes and J. H. Cragin, representing the Oneida Community, Ltd., exhibited a fine line of silverware and many chests of silver.

C. M. Slemmons, who represented the Illinois Watch Co., of Springfield, Mass., was the biggest man there.

The Ohio Optical Co. was represented by F. T. Prosser.

George B. Convis represented the Johnston Optical Co., Detroit, Mich.

W. H. Alger represented the North American Watch Case Co., Mansfield, O.

Harry Ulmer represented the Kryptok Sales Co. R. H. Ingersoll & Bro. and the Ingersoll-Trenton Co. were represented by Wm. H. Ingersoll, E. L. King and F. M. Loofbourrow. All their makes of watches were shown.

E. G. Seymour, with the Shepard Mfg. Co., Melrose Highlands, Mass., showed a large line of souvenir spoons and cloisonné enamel jewelry.

C. C. Biglow, traveler for the Rockford Watch Co., assisted Mr. Lovett in taking care of the visiting jewelers.

L. W. Lewis, vice-president of the association, exhibited and took orders for "Tarnishoff," his preparation for cleaning silverware.

D. D. Huhbell, F. R. Counts and E. M. Parks represented the White-Haines Optical Co., Columbus, O., and exhibited their staples and specialties. J. B. White arrived on Wednesday night.

Edgar J. Fox, of Lindenberg & Fox, Cincinnati, O., was there, and in addition to boosting his line of jewelry exhibited a green hatching suit with a white and blue label.

R. C. Coughlin represented the New Haven Clock Co. and gave away Tattoo perpetual calendars. These were hung all around the convention hall.

The Rockford Watch Co. gave away aluminum paper cutters in the form of six-inch ruler, and also distributed transparent card cases.

Ierman Poppendick represented Joseph Cowan, Boston, Mass.

"Jack" Spindler represented Bowler & Burdick, of Cleveland, O.

Frank Kennedy & J. E. Morehouse represented the Kennedy Optical Co., Detroit, Mich., while Ben S. Cohen represented the Michigan Optical Co.

W. H. Cohen looked after the interests of King, Raichle & King, of Buffalo, N. Y.

M. E. Rowley was there for the E. H. Pudrith Co., of Detroit, Mich., and A. E. Charlesworth, of the Charlesworth Optical Co., of Detroit, Mich., was there.

Convention Notes.

No better place can be imagined for holding a convention than Cedar Point, O. It is easy of access, is right on Lake Erie, has ideal convention facilities, large exhibit halls and every accommodation one could ask for.

Mrs. J. R. Stehbins surprised her husband by visiting Cedar Court with her friend, Miss Humphrey. This trio, with A. L. Thoma, C. S. Hartman and Louis Ott, caught 73 fish on Thursday morning and enjoyed eating a fish dinner that day.

With the Detroit Ku-Kus came Mrs. Frank Kennedy, Ben. S. Cohen and wife, Mrs. A. E. Charlesworth, Mrs. J. E. Morehouse, whose nephew, J. R. Ballard, a retail jeweler of Merced, Cal., was accompanied by his wife; Capt. John McBride, U. S. A., guest of Mr. and Mrs. Charlesworth, and Mrs. A. E. Patterson.

Among the many retail jewelers present were: C. N. Frazier, Norwalk; C. B. Wanermacher, Ottoville; A. W. Radde and Joseph A. Welf, Cleveland; O. J. Heesen and J. G. Kapp, Toledo; J. P. Stein, Alliance; Arthur L. Cole, Bellevue; Louis E. Dornseifer and George A. Heintz, Cincinnati; W. M. Hale, Cuyahoga Falls; E. J. Tyler, Fayette; William H. Broer, Toledo; C. M. Bent, Cardington; J. R. Stebbins, Ashtabula; A. L. Thoma, Piqua; T. H. Pitkin, Andover; W. H. Michael, Lima; August Schunck and wife, Minster; E. Sensenbrenner, Circleville; J. E. Schottendorf, Defiance; Charles W. Zoellner, Portsmouth; Robert Humphreville, Dillenville; W. L. Wilhelm, Portsmouth; Charles Reinstatler and Joseph H. Kenkel, Cincinnati; B. F. Phillips and wife, Akron; J. W. Puetz, Lima; H. R. Booring, Lancaster; F. D. Ausman, St. Marys; Emil H. Moser and C. S. Hartman, Wapakonea; T. W. Birchard, Tiffin; L. W. Lewis, Columbus; C. F. Pfleger, Carey; L. T. Fenning, Jackson; William A. Inskeep, Jr., Columbus; G. J. Dunn, Port Clinton; J. B. Schaefer, Sandusky; J. W. Slonaker, Scioto; V. E. Willis, with W. C. Fisher, Lorain; H. S. Andrews, Mt. Gilead; P. F. Sharick, Ashland; Frank L. Young, Mount Vernon; Henry Dehnel, Sandusky; F. W. Merriam, Fremont; E. J. Dister, Cleveland; S. C. Nofzinger, Archbold; W. G. Gilger, Norwalk; H. C. Smith, Amherst; A. E. Diefenbach, Brookville; J. B. Avery, Amherst; D. W. Hull, Warren; J. J. Shuster, Jr., Cleveland; O. G. Carter, New London; E. Murbach, Elyria; W. P. Carruthers, Oberlin; J. E. Zimmermann, Chester, W. Va.; Harry Downs, Bellevue; L. A. Ott, Mansfield; B. N. Broer, Toledo; C. C. Morrow, Bellevue; William Kutz, Bellevue; H. L. Wight and wife, Wellington.

JEWELERS BUILDING, 373 WASHINGTON STREET, BOSTON, MASS.

Seventh Annual Convention of the Ohio Optical Association Held at Cedar Point.

CEAR POINT, O., July 3.—The Ohio Optical Association held their seventh annual convention at Cedar Point, July 1 and 2, and entertained their members with an interesting programme, which opened with registration of members and distribution of files.

About 115 members had registered by the time the afternoon meeting began, when President Secretary Jones had read the minutes of the previous meeting, Treasurer J. B. White announced the total expenditures of the year to be \$774.61, the receipts for the year \$820.25 and a balance from the previous year of \$15.55, leaving a total net balance of \$19.

President F. P. Barr then made his annual address, and F. D. Ausman, of St. Paul, Minn., read a paper entitled "Optometry in the future field of the jeweler optician."

Ausman is the new president of the Retail Jewelers' Association.

Dr. E. White next read a paper on the relation between the optical jobber and the optometrist, which was listened to with much interest.

Harry C. Goodwin, advertising manager of the E. Kirstein Sons Co., then addressed the meeting with a few pertinent remarks advertising for optometrists, which was followed by a general discussion of the subject. John C. Eberhardt told of the work trying to get an Ohio optometry law through the last Legislature, and gave some suggestions as to the method of procedure in bringing the bill at the next meeting of the Legislature in January, 1910.

The meeting then adjourned for the day, and in the evening the members attended the theater at Cedar Point as the guests of the Cedar Point Resort Co.

Those having exhibits or representatives on the floor were: White-Haines Optical Co., Ohio Optical Co., Kryptok Sales Co., King-Kennard & Critz Co., Edwin Beckwith, E. Klein & Bro., South Bend Watch Co., Rockford Watch Co., Rockford Silver Co., New Haven Clock Co., Shepard & Co., Euclid Optical Co., H. A. Kirby & Ophthalmoscope Co. and F. W. King Optical Co.

Friday morning's session began with the appointment of a nominating committee by President Barr, after which A. L. Thoma, Piqua, O., read a paper on "Publicity in Optometry." Perle L. Sagebiel, Dayton, O., next on the programme with a paper "The crystalline lens and its investigation," and this was followed by John C. Eberhardt, Dayton, O., who spoke on "The ophthalmoscope in optometry."

The meeting closed with a lecture by Prof. Chas. Sheard, of the Ohio State University on "Some unsolved and partially soluble problems in practical optics," and a group photograph was then taken of the members and guests.

Friday afternoon's session began with the report of the auditing committee and was followed by the report of the nominating committee and legislative committee. Prof. Chas. Sheard read a paper on "The adequate training of the optometrist," and was followed by a paper relating to elevating the profession to a high standard of ethics,

by C. W. Sloan. F. W. King next delivered an address on optics, from the manufacturers' point of view.

The next meeting place was selected to be the first day of the American Optical Association meeting at Cedar Point in 1910.

The officers elected were: President, C. N. McDonnell; vice-president, C. W. Sloan; secretary, E. L. Jones; treasurer, J. B. White. Executive committee—Messrs. Williams, Birchard and Lovett; membership committee, Messrs. Freeman, Dresbrock and Lewis.

Jewelry, Clocks, Watches, Silverware and Kindred Lines Exported from New York.

WASHINGTON, D. C., June 30.—The following were the exports of jewelry, silverware, optical goods, clocks, watches and kindred lines from the Port of New York for the 25th and 26th inst.:

Antwerp: 1 case silverware, \$200; 1 case plated ware, \$100; 3 cases German silver, \$245.

Berlin: 1 case thermometers, \$117.

Bremen: 3 cases plated ware, \$289; 1 package optical goods, \$110.

Buenos Ayres: 11 cases plated ware, \$1,423; 32 cases clocks, \$2,014; 1 case jewelry, \$338.

Calcutta: 30 cases clocks, \$550; 38 cases clocks, \$715.

Hamburg: 2 cases thermometers, \$140; 1 case watches, \$895.

Havre: 2 cases clocks, \$100.

Liverpool: 7 cases clocks, \$1,187; 40 cases clocks, \$730.

London: 17 cases clocks, \$770; 5 cases watches, \$756; 3 cases scopes and views, \$643; 17 packages optical goods, \$10,071; 49 cases clocks, \$284; 2 cases silverware, \$572; 4 cases scopes and views, \$176; 39 cases clocks, \$947.

Mazatlan: 2 cases plated ware, \$123.

St. Petersburg: 1 package optical goods, \$500.

Swakopound: 4 cases clocks, \$130.

Sydney: 37 cases plated ware, \$2,287; 271 cases clocks, \$3,852.

Tampico: 2 cases plated ware, \$171.

Death of August J. Rettman.

PITTSBURG, Pa., July 5.—August J. Rettman, aged 51, a former well-known North Side jeweler, died at his home, 20 Iten St., Thursday night. Mr. Rettman had not been well for several days, and it is believed that the excessive heat hastened his death.

Deceased was born at Black River Falls, Wis., and came to Pittsburg 49 years ago. Early in life he opened a jewelry store, in which business he was actively engaged for a number of years. He is survived by his widow, three sons—Arthur, of New York, Ellsworth and Howard Rettman—and a sister, Mrs. James Henneman, of the North Side.

The funeral took place, Saturday morning, from St. Mary's Catholic Church, of which he was a member.

Market Prices for Silver Bars.

The following are the quotations of silver bars in London and New York, as reported by Zimmermann & Forshay:

	London.	New York selling price, .999 Basis.

Career of the Late Leopold Laubheim.

Although many of his friends in this city and elsewhere had known that he was in poor health, the news of the death of Leopold Laubheim, of Laubheim Bros., wholesale jewelers, 65 Nassau St., New York, published in the last issue of THE JEWELERS' CIRCULAR—WEEKLY, came as a shock and was received with deep regret. He died, Monday, June 28, of apoplexy, and the funeral was held, Wednesday of last week, from the home of his brother, Morris Laubheim, 246 W. 126th St., New York.

Leopold Laubheim was born at Wurtzberg, Bavaria, Jan. 1, 1869, and was a son

THE LATE LEOPOLD LAUBHEIM.

of Aaron and Tressa Laubheim. He spent his early life in the Old World until, in June, 1882, his parents moved to New York. In company with his brothers deceased obtained employment with Adolph Goldsmith, at 38 Maiden Lane. He remained with that firm, and in 1890 was sent out as a traveling representative, covering the southern territory.

In January, 1895, he left Mr. Goldsmith, and with his brothers, Samuel and Max, started the present firm of Laubheim Bros. Samuel Laubheim died in March, 1904, and Morris Laubheim became a partner in the business.

Deceased had been in poor health for the past six months. He was well known in the jewelry trade, and had many friends. His death followed a nervous break-down which occurred some time ago. He was a member of Mount Neboh Lodge, F. & A. M., of New York.

Mr. Laubheim is survived by four brothers, Sigmund, Max, Julius and Morris, and one sister, Mrs. I. Weiss. The funeral services were conducted by the Rev. Dr. Grossman, a close friend of the deceased. The interment was in Bayside Cemetery.

PEARLS

in qualities and sizes especially suited for the requirements of the manufacturing jeweler.

Our Pearl Stock, aside from our regular qualities, just now includes a number of series in manufacturer's sizes ranging from the small to one or one and a half grainers. These series will prove attractive as much for their uniformity of assortment as for their exceptional values.

Members of the Illinois Retail Jewelers Association Conclude Interesting and Instructive Convention at Peoria.

PEORIA, Ill., June 30.—The second annual convention of the Illinois State Jewelers' Association, the opening session of which was reported in the last issue of THE JEWELERS' CIRCULAR—WEEKLY, proved a success in every way and the members who attended have gone home feeling that the meeting has been a valuable one in every sense of the word, and that they have gathered inspiration as well as a great deal of trade information that will be of service to them in the conduct of their business affairs.

The two days, June 29 and 30, were busy ones and were crowded with addresses from men prominent in the trade and discussions of questions of interest to the jewelry business in the State. In fact, the great amount of business which the officers found necessary made the time seem short, and the work too hard, and next year when the retailers gather in Springfield for their meeting they will take three days instead of two.

The men who have been instrumental in forming of the State convention are highly gratified at the way the retailers in the State have responded and at the instantaneous success which the young organization has enjoyed.

This was the second meeting, as the association was formed a short 14 months ago, and, in spite of the intense heat from which Peoria is now suffering, 200 from all over the State were in attendance. The convention held in the National was a sweltering one, yet the sessions were followed with interest and the meeting was a most enthusiastic one.

The success up to date argues well for the convention next year, as each and every man in attendance went home filled with the member-getting spirit and by next June practically every jeweler in the State of Illinois will be enrolled under the association banner.

The members of the State Society of Optometrists, who met with the jewelers, have decided hereafter to hold their meetings separately, as they are rather overshadowed by the larger organization, and they are of the opinion that they can accomplish more meeting alone. Next year the optometrists will probably gather at Elgin, Ill., although the executive committee have not definitely decided.

Great credit is due the local committee for its work to make the convention a success and the entertainment features were particularly pleasing. The visiting ladies were taken by the wives and daughters of the Peoria jewelers for an automobile ride over the city Tuesday afternoon, while their husbands, fathers and sweethearts perished in the convention hall.

However Tuesday evening everyone was given a chance to pick out a cool breeze and get it lower their temperature, when the delegates and visitors were the guests of the Peorians on board the steamer *David Swain* for a lake trip. The Illinois River, which is one of the scenic streams of the country, here at Peoria, widens into a large lake, which for miles up the river presents a silver expanse of water, bordered by

wooded bluffs that is said to rival the Hudson and Rhine. The *Swain* is one of the finest river packets on the river. The jewelers were taken up the lake and enjoyed the moonlight trip immensely. Returning, a short stop was made at Al Freseo Park, the local Coney Island. The trip made a big hit with the visiting delegates, who were beginning to think that Peoria was nothing less than a permanent and perpetual Turkish bath.

Wednesday the convention was brought to an end by a banquet at the National Hotel that was a most elaborate affair. On account of the heat dress suits were tabooed, and it is needless to say that no one mourned their absence. The menu was all

FRED. A. MAREAN, PRESIDENT.

that could be desired and the famous chef of the National Hotel lived up to his reputation.

An impromptu programme had been arranged and wit and humor sparkled like a diamond. The hit of the evening was the toast of H. C. Carpenter, who responded to "Diamonds and Pearls," and his talk was received with great applause, especially from the ladies, whom he said were the diamonds and pearls of our every-day life. At the conclusion of his talk the toastmaster, Charles T. Higginbotham, said that Mr. Carpenter showed as much knowledge of the fair sex as he did of the jewelry line. The Rev. B. G. Carpenter, of the First Universalist Church of this city, spoke on "Good Fellowship," and his talk was heartily enjoyed. The Hon. P. G. Rennie, United States Collector of Customs for this district, told a few funny stories, and the toasts were brought to a close by a short talk on Art by Eugene Baldwin, publisher of the *Peoria Daily Star*, and his talk, applying art to the jewelry business, was brilliant and full of poetry.

But in the convention itself, the real sessions, where the delegates got down to business, every minute was utilized and the

complete programme went off without a hitch. The last thing Wednesday afternoon was the election of officers, and here the delegates were a unit that Fred A. Marean, Belvidere, the president of the organization, and George B. Elbe, Chicago, the secretary, must be retained in the offices which they had so ably filled the last year was evident on all sides. It was greatly owing to the untiring efforts of these officers that the organization was formed and that it has had the success it has enjoyed the past year. So as one man the delegates insisted that these two officers go on with the work they have started. After making this start the secretary was instructed to cast a ballot to reelect Paul Lackritz, Chicago, as treasurer. John C. Pierik, Springfield, was selected to fill the position of first vice-president. Mr. Pierik is a "live wire" and is one of the most enthusiastic members of the association. It is due to his generalship that Springfield was selected as the next convention and he promised that the reception of the Capitol City of Illinois would be hearty and intimated that there would be a real hot time when the boys gathered there next June. C. H. Trask, a Galesburg member, was named for second vice-president.

Frank Smith, Pontiac, Ill., T. A. Brown, Quincy, and Richard Wieting, Peoria, were chosen as directors. The last named, Mr. Wieting, was a member of the local entertainment committee and many of the pleasant features of the meeting are due to his efforts. Delegates were also chosen to the National Convention, which will be held at Omaha, in August, as follows: F. A. Marean, Belvidere; George B. Elbe, Chicago; F. B. Wade, Galesburg; Frank Smith, Pontiac; Paul Lackritz, Chicago and J. C. Pierik, Springfield. The alternates are: F. Ferguson, Chicago; F. C. Lamphere, Galesburg; A. Bolander, Rockford; A. Johnson, Chicago; E. R. Randolph, Farina; H. Schelzer, Centralia, and J. Raniser, Rock Island.

The opening session was called to order Tuesday morning at 9:30 by President Marean and Mayor E. N. Woodruff of Peoria was introduced. He cordially welcomed the delegates to Peoria, said that the keys had been lost after everything had been unlocked and for the visitors to go as far as they liked, that the town was theirs. He expressed his pleasure, and that of the citizens, that the jewelers had chosen the Still City for the meeting place and congratulated them upon the attendance, and the fine looking bunch that were in the city.

Vice-president Frank Smith, of Pontiac responded to the mayor's speech and thanked him for his courtesy and that of the citizens of Peoria. He said that the jewelers were pleased with the town and in love with the hospitality of the citizens. Then followed the annual address of President Marean. This was received with great applause from the delegates. He rapidly sketched the formation and growth of the association from the day April 9, 1908 to the present time. In part Mr. Marean said:

The plan adopted was the organization of this association, hoping through the machinery of co-operative effort to bring to light everything of a hurtful nature to the retailer, and

the same means to find and apply a proper remedy to devise ways and means for the abatement of many of the evils which hindered the progress and success of our craft, and to promote by mutual effort the general welfare of the retail jeweler. In addition to our obligations to our officers, to the manufacturers, the press and the rank and file, is that obligation, beyond words of mine to express, which we owe to the trade journals, everywhere, for their never-ending consideration and countless times shown us and the organization effort at various times, without the help of whom the whole movement, instead of being to-day a vital issue all the States, would have been long since dead, with none to do it reference.

For long years the retail jewelers sat in the back place seeing every other craft, calling, blood and profession being organized by its members, seeing also that these organizations in every instance, when conducted along safe and sane lines, brought about a bettering of conditions, commercially and intellectually to those organized.

It finally dawned upon his mind that what was true for everybody else would be good for him; and came to realize that in all this land there was no branch of human effort involving systematic action, or with so much capital invested, as the retail jewelry business, but was and had been for many years completely organized.

After speaking fully on the ways and means of reform of organization Mr. Mareau picked up some of the reforms that organization was responsible for. He said:

A few months ago it was a rare thing for an advertisement to be read, "We sell to the exclusive retail jeweler only;" to-day it is the rule which distinguishes the fair dealer from the unfair, the genuine from the counterfeit, the honest man from the fakir.

In closing Mr. Mareau said:

Every day we offer abuse where we should substitute reason, when we substitute denunciation and railing for argument, threats for facts, that the organization boat will go upon the rocks, if we keep our own purpose in view, without trying to exploit or destroy the interests of others, avoiding lopsidedness, hobby-horse methods, and the idea schemes, having always that regard to the interests and rights of others who come with us in trade which simple justice and common sense demand, we can go on to a harvest of success and increasing profits and obtain to this end consummation with the respect of others and of ourselves.

Mr. Mareau's effort was listened to attentively and was heartily received by the delegates.

Following the address, Secretary George and Treasurer Lackritz read their reports which showed that the association was in a flourishing condition.

The regret was deep when it was announced that Mack A. Hurlbut, of Fort Dodge, Ia., ex-president of the American National Jewelers' Association, who was unable to give a talk on "Organization," was unable to attend.

The first address on the program for the afternoon session was the talk by Prof. C. Hart, of the Bradley Horological Institute, of Peoria, on "The Ethics of the Trade." Professor Hart, as an instructor in the largest school of horology in the country, was listened to with close attention, and his remarks were extremely interesting. He dwelt at length on the community of interests between the jewelers. This was followed by Jacob Franks, president of the Rockford Watch Co., who spoke of the "Dawn of Prosperity." Mr. Franks could see nothing but good things ahead for the jewelry business, and said so in well-chosen words.

L. C. Carpenter, of the South Bend (Ind.) Watch Co., then spoke on "Advertising, and What It Means to You." The delegates were kept busy taking notes while

National Monthly Import and Export Statistics.

WASHINGTON, D. C., July 6.—The records of the Treasury Department contain the following comparative statistics, of interest to the jewelry trade, for May, 1908 and 1909, and for the 11 months ending May, 1908 to 1909:

he elaborated on the value of well-placed advertising and told what the right kind properly placed would do for the retail jeweler.

This ended the business for Tuesday, and the convention adjourned early to allow the members to visit the displays of the various jobbers and manufacturers in the hotel. There were a great many of these, and some fine exhibits were shown. Many costly souvenirs were given, and the delegates were all sporting badges, small clocks and watch dials on their coat lapsels.

Wednesday morning O. V. Berry, president of the State optometrists, read his annual address. He spoke of many things that were of interest to the jewelry line as it related to optical goods, and his remarks were attentively listened to by the jewelers as well as the optometrists present. Then William G. Swartzchild, Swartzchild & Co., Chicago, spoke at length on repair department hints. He gave some very valuable information along this line. Following this there was a free-for-all debate by the members present on any subject they wanted to bring up for discussion, and everyone had a few words to say for the good of the trade.

Then the address, one of the big features of the convention, followed in the speech of W. J. Pitkington, Des Moines. He is the publisher of the *Merchants' Trade Journal*, and demonstrated that he could talk as well as write. His address aroused the convention to enthusiasm. He talked on "Retailing of Merchandise a Science." His remarks were forceful and elicited great applause. He dwelt on every branch of retailing, and showed where improvements should be made.

The afternoon was devoted to the election and other important business, and the address of J. P. Archibald, president of the A. N. R. J. A., was heard. His speech took up many important practical topics and was listened to with the deepest attention. This closed the convention's proceedings.

Bridgeport, Conn., Jewelers Seek to Recover Quantity of Jewelry Recently Lost in That City.

BRIDGEPORT, Conn., June 30.—The Davis & Hawley Co., of this city, are seeking to recover a large amount of jewelry lost by one of the concern's customers, Friday, June 25. The loss occurred while a circus was here, which brought a number of strangers to this city. Any jeweler who may have an offer of these articles for examination or for sale is requested to communicate direct with the Davis & Hawley Co.

The missing articles include: Diamond bracelet with 11 diamonds in a knife-blade setting, marked and dated Jan. 11, 1893, hinged and clasped; gold chain bracelet, with padlock; pair woven gold thread bracelets, with balls on ends and springs inside; silver bracelet, set with blue Egyptian stones with pendants; watch fob of three amethysts, graduated in size, cabochon cut gold setting and joined with gold chains; diamond stud with screw back; diamond and ruby ring, a three-stone hoop ring with ruby between two diamonds, gold setting; sapphire ring, a five-stone hoop ring with eight small diamonds in setting, gold setting, hand chased; turquoise ring, set with diamonds, turquoise turned green, gold setting; Mexican opal ring, set in gold; child's cameo ring, set in gold; \$1 gold piece; solitaire diamond stick pin, with small gold guard pin attached with gold chain to diamond pin; D. A. R. pin, with blue enamel, set with 13 stones (semi-precious) from the 13 original States, and a solitaire diamond center; pair gold earring settings, without stones; \$40, more or less.

A. J. Mueller, a well-known jeweler of Nome, Alaska, donated a Howard watch to A. A. Allen, driver of the winning team in the second annual race of the Alaska Sweep Stakes Dog Race, which took place some time ago. This is the great event of the season.

Imports of Clocks, Watches, Jewelry, Etc., Into the Philippine Islands.

WASHINGTON, D. C., July 2.—The imports into the Philippines during the year ending Dec. 30, 1908, were valued at \$29,661,20, as against \$30,453,810 in 1907, which, by the way, was the highest value for the imports of any year since 1903. Of these imports only \$5,101,836 was supplied from the United States.

The total value of the clocks imported to the Philippine Islands during the past year was \$9,107, as compared with \$11,135 in 1907 and \$13,149 in 1906. While we still maintain our supremacy in this line with a value increased from \$2,270 to \$3,004, yet we are forced pretty closely by Germany and Japan, the former with a value of \$2,001 and the latter with \$2,038. The other countries who sent clocks to that market were: France, \$1,033; Switzerland, \$262; Spain, \$211; United Kingdom, \$150; Austria, \$85; British East Indies, \$13, and Panama, \$10.

While the value of the importations of watches do not compare with that of three years ago, \$56,760, still they increased from \$6,614 to \$43,055; in this field we lead with a value increased from \$7,265 to \$21,437; France stands second with a slight reduction from \$13,615 to \$13,266, while Switzerland has nearly doubled her share of the trade, her value last year being \$7,631, as against \$3,619 for 1907. Other contributors were: Germany, \$266; United Kingdom, \$204; Italy, \$60; Spain, \$54; China, \$44; Japan, \$40; Australia, \$34; Netherlands, \$8; Hong Kong, \$5; Cuba, \$3; French East Indies, \$2, and Belgium, \$1.

The importations of cutlery were valued at \$69,393 last year, as compared with that of \$84,710 in 1907. In this field Germany was the lead with a value of \$32,205, as against \$30,603 for the preceding year; Belgium stands second with a value reduced from \$16,281 to \$12,485, while the United States stand third with a slight increase from \$10,039 to \$10,480. The United Kingdom's share of the trade shows a decrease from \$11,790 to \$7,697. Other sources of supply and the value of their contributions were: China, \$529; Switzerland, \$354; British East Indies, \$204; Spain, \$56; Hong Kong, \$45; Japan, \$38; Austria, \$36; Australia, \$6, and Netherlands, \$5.

There has been very little change in the importations of jewelry into the islands during the last two years, as the value for 1907 was \$29,928 and in 1908 \$28,985. In this our share is very satisfactory, and is \$11,705, as against only \$5,944 for 1907, and this has given us the lead in the field which was formerly enjoyed by France, which now stands second with a value decreased from \$16,496 to \$9,528. Germany stands third with an increase from \$1,988 to \$4,052, and China fourth with an increase from \$784 to \$1,996; on the other hand, Japan shows a decrease from \$2,143 to \$642. The other contributors were: Austria, \$346; British East Indies, \$238; Japan, \$110; Italy, \$147; United Kingdom, \$86; Spain, \$85; Australia, \$23; French East Indies, \$16; Switzerland, \$9, and Siam, \$2.

The exports of all other manufactures of gold and silver to the islands reached a total value of \$31,385, as against \$26,186 in 1907, and again we stand in the lead with a

value of \$20,151, as compared with \$12,755 last year. France, who stands second, does so with a value reduced from \$5,680 to \$4,096. Other contributors were: Japan, \$1,952; China, \$1,522; Germany, \$1,447; United Kingdom, \$956; British East Indies, \$691; Hong Kong, \$440; Austria, \$77; Spain, \$32; Switzerland, \$6; Belgium, \$3, and Canada, \$2.

The imports of plated ware were only valued at \$16,549, as compared with \$50,424 for the preceding year. And here again we lead with a value increased from \$17,779 to \$20,635, while France still stands second, although it is with a value reduced from \$17,388 to \$11,424. Germany contributed \$9,165; Japan, \$2,749; United Kingdom, \$1,010, while 10 other countries shared in the small balance.

Death of A. J. Nelson.

MASSENA, N. Y., July 1.—A. J. Nelson, of this town, an old and widely known jeweler, and father of James R. Nelson, is dead. He was overcome with heart trouble while in his store and soon passed away.

Mr. Nelson was born in Ireland about 50 years ago, but he had conducted a jewelry store here for 30 years. He succeeded F. S. Kellogg in 1881 and in 1885 bought out the stock of Fiske & Clarke. He continued until 1906, when he turned his business over to his son, James R. Nelson.

He was a member of the Masonic fraternity, the nobles of the Mystic Shrine, the Odd Fellows and the Foresters. He was also chief of the Massena fire department and one who will be greatly missed in Massena. The deceased is survived by five children. Mrs. Nelson died several years ago, and his devotion to his motherless children showed the fine sterling qualities of Mr. Nelson.

Paris Jeweler Reported to Have Been Robbed in London of Pearls and Diamonds Worth \$500,000.

Cable dispatches from London Friday stated that a man bearing the name of Goldschmidt, a Paris jeweler, had been robbed of jewelry worth over \$500,000 in that city. Goldschmidt took luncheon recently with a customer at the Café Monico, and went to the lavatory to wash his hands. He placed a bag containing valuable jewels in front of him. While his hands were immersed in water a man jostled against him and another snatched the bag and bolted out of the place.

Goldschmidt started in pursuit of the thieves, but he was impeded by a third man, who fell in front of him. The thieves escaped.

The bag contained 10 or 11 pearl necklaces, over 1,000 loose pearls and a number of loose diamonds.

Henri Lemoine, Alleged Diamond Maker, Sentenced in Paris to Six Years' Imprisonment.

A cable dispatch from Paris, Monday, stated that Henri Lemoine, who, on pretense of being able to make diamonds, defrauded Sir Julius Wernher, head of the De Beers Mining Co., of a large sum of money, was sentenced to six years' im-

prisonment, and a fine of \$600, after a long trial.

The court pronounced Lemoine "a vulgar fakir, whose pretensions lacked the semblance of scientific procedure."

Career of the Late Joseph Nelson.

DUNKIRK, N. Y., July 1.—Joseph Nelson, of Central Ave., who died Monday, as reported in the last issue of THE JEWELERS' CIRCULAR—WEEKLY, was one of Dunkirk's most prominent merchants. The funeral was held yesterday afternoon at 4 p. m. and was largely attended. Deceased was born at Dromore in the north of Ireland,

THE LATE JOSEPH NELSON.

of Scotch ancestry, who as Covenanters had left Scotland at the time of the Restoration. His maternal grandfather, Dr. Gilbert, a Covenanter, became a Presbyterian clergyman. His father's mother, Annie Knox, was a direct descendant of John Knox, the Scotch reformer.

Mr. Nelson came to Dunkirk in 1850 and continuously made his home here from that time. His father was a manufacturer and exporter of clocks in Banbridge, Ireland, so deceased inherited his liking for the business. In Dunkirk Mr. Nelson and his brother, Robert, started on a small scale a jewelry and watch repairing shop, which early became a well-established wholesale business. He at one time had his son-in-law, H. F. Vander Voort, as partner, but Mr. Vander Voort withdrew in 1889, and after that Mr. Nelson continued alone for many years. Recently he had associated with him in the business J. Lyman Van Buren and Frank Gilbert, and the surviving partners will now continue the business under the old firm name.

Mr. Nelson never sought or held public office. In 1854 he became a member of the Baptist Church. He married Miss Julia A. Bartholomew, June 29, 1858.

W. B. Ligon, a jeweler in the employ of W. Zurhellen, Natchez, Miss., sustained several contusions about the legs, one night recently, by an automobile which collided with him at the corner of Main and Pearl Sts.

Thomas Murphy, a popular jeweler, and ngaged in business with his father, in

Blondina St, Utica, N. Y., was married last week to Miss Katherine Hogan, of New Hartford. They will take up their residence in the Konatenah, where they will be at home after Aug. 1.

F. J. Wemett, a well-known jeweler of Livonia, N. Y., and Miss Nina Jacobs, Dans-ville, were married, Thursday evening, July 1, at Springville, N. Y., the Rev. Frank Wemett, cousin of the groom, officiating. After an extended automobile trip through the New England States, the happy couple will make their home in Livonia.

A dispatch from Berlin, Saturday, stated that the Colonial Secretary, Herr Dern-burg, on that day informed a deputation of members of the Reichstag who called upon him to inquire regarding the newly discovered diamond fields in southwest Africa, that these mines were valued at \$250,000,000. He explained that the value of his recently formed coalition of the di-iamond interests in the German Southwest Africa was indicated by the fact that a rep-resentative of the De Beers Co., which con-trols the diamond market, had offered to make a reciprocal selling agreement in or-der to keep up the prices on diamonds. This was rejected by the Colonial Secre-tary.

The jewelry stock of F. W. Reich, Col-umbus, Ga., was sold at public outcry by Sheriff Beard, June 28, to satisfy a mort-gage in favor of William Chambers, the sale being pursuant to an order by Judge G. Y. Tigner, of the City Court of Colum-bus. There was present quite an interest-ing crowd of spectators, among them being three bidders. The bidding opened at \$5,-000, those making offers being Frank C. Reich, F. Theodore Petri, of Kinzel & Petri, and J. L. Treadaway, representing, it is said, some out-of-town bidder. The sum offered gradually advanced in bids of \$100 after the \$8,000 mark had been passed, until Mr. Petri offered \$10,900. Mr. Reich raised this to \$11,000, and the stock was sold to him at that figure. The stock was appraised at slightly less than \$22,000, and the appraisalment is said to have been on quite a conservative basis.

W. R. Livingston recently opened a store at Lindsay, Cal.

C. E. Bishop will shortly engage in busi-ness in Seattle, Wash.

M. Amundson has engaged in business in New England, N. Dak.

Elmer Barrett will open a jewelry store in Painesville, O., about Aug. 1.

Mr. and Mrs. Albert E. Stevens are Summering at Shawomet Beach, where they have a cottage.

Samuel Amberg is sending some good orders to the Rhode Island Ring Co. from the western circuit.

F. A. Simons, 39 Dorrance St., is closing at 1 o'clock every Friday afternoon during this month and next.

The silver service for the new battleship *South Carolina* will be made by the Gorham Co., in this city.

A. R. Vaughan and family, Pawtucket, left Thursday for Wells River, Vt., where they will remain for a month.

Louis Stern and Frederick Barry, of L. Stern & Co., of this city, were in New York the latter part of last week.

A. Rosenbach, of Rosenbach & Goodman, New York, was in this city recently, placing orders with the manufacturers.

William L. Mauran, of the John T. Mauran Mfg. Co., was a guest the past week at Greene's Inn, Narragansett Pier.

Thomas H. Tarbox, Pawtucket, has returned from the convention of the American Association of Optometry, at Atlanta, Ga.

G. R. Alexander, 45 Dorrance St., is closing his place of business at one o'clock every Friday afternoon during July and August.

The executor of the estate of James Tiffany has sold to Jacob Ernstof, a lot of land on Chestnut St. and Goulds lane for \$7,000.

Edgar Wilton Guild, New York, and Isabel Sylvia Woodbury, also of New York, secured a marriage license in this city recently.

Charles H. Fuller has been drawn upon the jury list in the City of Pawtucket for service during the Fall term of the Superior Court.

Fred V. Kennon, of the John T. Mauran Mfg. Co., was in New York the past week, supervising affairs at the firm's office on Maiden Lane.

R. T. Kleckner, western representative of the Theodore F. Foster & Bro. Co., of this city, has returned to Chicago from the Pacific Coast.

The Central Loan Co. is preparing to open a branch store, with a full line of watches, jewelry, etc., at 675 Westminster St., corner of Stewart St.

R. Foster Reynolds, son of Mr. and Mrs. Frank B. Reynolds, who graduated from Harvard College a few days ago, left June 26 for a trip abroad.

Frank T. Barton, representing the George N. Steere Co., Pawtucket, and the Fontneau & Co., Attleboro, is making an extended trip through the northwest.

Ralph Hoxsie, with Mason, Howard & Co., New York, is spending a short vaca-

tion with his parents at Hoxsie Village, in the southern part of this State.

H. C. Van Ness & Co., San Francisco, are now carrying the new line of gold filled jewelry and novelties manufactured by MacPherson, Roubaud & Co., of this city.

A large number of the manufacturing jewelry establishments of this city closed down Friday or Saturday of last week for one or two weeks, or in some instances 10 days.

Tenants in the Bowen building, Page and Friendship Sts., were closed up the past week on account of the annual inspection and cleaning up of boilers and engines.

The Gorham Co. has received the contract for a bronze memorial to the late Bishop Phillips Brooks, to be erected in Trinity Church, Boston. The model is by St. Gaudens.

Friends of Milton S. Rodenberg, of Rodenberg & Dunn, have received postal cards from him from Hamburg, Germany. He reports having a good time and being in good health.

Timothy D. Pratt, who retired from the manufacturing jewelry business about three years ago on account of failing health, is getting out a new line of samples, preparatory to re-engaging in business.

Clarence M. Dunbar, treasurer of the Cook, Smith Co., attended the Yale-Harvard boat race at New London, on Thursday. He made the trip in his new yacht *Artmar*, flagship of the Edgewood Yacht Club.

Harris Fellman, Woonsocket, has returned from a pleasure trip through the south with his wife. During his absence he attended the convention of the American Association of Optometrists, at Atlanta, Ga.

The James Hanley Co. is to erect a modern six-story brick building at Peck, Pine and Orange Sts. for manufacturing purposes. Inquiries have already been made by several manufacturing jewelers for shop room.

A meeting of the board of governors of the New England Manufacturing Jewelers and Silversmiths' Association was held at the rooms of the association Thursday afternoon. Two applications for membership were favorably considered.

Mr. and Mrs. A. Tingley Wall, their daughter, Miss Constance, and E. D. Clapp, Chicago, the latter the fiancee of Mr. Wall's other daughter, Miss Helen, were members of an automobile party at the Imperial Hotel at Narragansett Pier, June 28.

Hermann A. Ockel, of this city, was one of the passengers, June 26, on the *Kaiserin Augusta Victoria* from New York for Hamburg, Germany, where he will spend the next three months with relatives and friends at his old home.

Creditors in this vicinity have received notice that a five per cent. dividend had been declared in bankruptcy proceedings in the case of Samuel Mendelsohn, Boston. The liabilities aggregate about \$25,000, of which the larger portion is held here.

William T. Wilson, of McDonald &

Wilson, this city, returned last week from Atlanta, Ga., where he had been attending the annual convention for the American Association of Optometry, as a delegate from the Rhode Island Society of Optometry.

Fire was discovered last Wednesday evening in the shop of John O'Neil, corner of Eddy and Clifford Sts., emblems. Quick work prevented serious damage, but not before the flames had communicated with the shop of Edward J. Gilbain, plater, and the shop of John Heathcote, jewelers' tools and machinery. The entire damage was estimated at about \$500.

William H. Richardson, treasurer of Flint, Blood & Co., who was stricken blind while on the annual outing of the New England Manufacturing Jewelers and Silversmiths' Association, June 18, is reported as being considerably better, with the chances more in his favor for recovering his eyesight. It will be several months before he will be free from the doctor's care.

The W. J. Feeley Co. furnished all the cups, badges, fobs and other prizes for the Columbus Club athletic tournament in this city, June 28. One of the most conspicuous was the Gov. Pothier trophy. The entire collection was displayed for several days in the show window of the Tilden-Thurber Co., Westminster and Mathewson Sts., and attracted considerable attention.

The Advertisers Novelty Co., J. William Peacock, manager, Banigan building, has secured the contract for furnishing the official badge for the ladies' auxiliary of the United Commercial Travelers of America. The pins are very neat and are made of solid gold, gold plate and silver. Already more than 3,000 have been furnished the supreme council of the order, through whose hands distribution is made.

Among the foreign importations received through the Providence Custom House the past week were the following: From Bremen, one package of manufactures of metal; one of jewelry; one of precious stones and two of imitation precious stones. From Hamburg, one package manufactures of metal; three of manufactures of silver and gold, and one of imitation precious stones. From Havre, two packages manufactures of metal and one of imitation precious stones; from Liverpool, one package of china; from London, one package imitation pearls. From Rotterdam, one package of emery wheels.

At the drawing of jurors for services in the Superior Court during the Fall term, the following connected with the manufacturing jewelry industry were drawn by the Board of Aldermen on Thursday: For Grand Jury—John M. Buffinton, Joseph P. Cory, George R. McAuslan and Albert A. Walker. For Petit Jury—John F. P. Lawton, George A. Forsyth, Herman A. Ockel, William P. Otis, Henry Lederer, Bradley M. Graffam, Charles L. Kettley, Henry A. Lincoln, C. Walter Pabodie, Frederick B. Luther, Charles W. Bowen, Ralph G. Ostby, A. Norton Dorchester, George H. Cahoone, Edward M. Cook, Edward N. Slade, William P. Chapin, Samuel A. Baldwin, Calvin

NEVER MIND THE COST

Can You Sell It?

You want it if you can
You don't want it if you can't

A pocketful of diamonds wouldn't be much use to a hungry man alone on a desert isle—

A big stock of jewelry isn't much use to a jeweler *if he can't sell it.* Anyone can put out junk—and the prices will be cheap—

But you can't buy gold dollars for fifty cents, and you can't buy CHECO Jewelry at the price of junk—But

Checo Jewelry Sells Itself

Stone-Setting

Careful and discriminating jewelry buyers appreciate the value of good stone-setting, for many an otherwise beautiful production has been miserably spoiled by careless and incompetent workmen.

All of our stones are neatly and perfectly set. Bright-cutting around half pearls is a special feature with us, and greatly enhances the effect of our pearl set designs. We employ in this department only the most skillful stone setters, and every piece must pass a most rigid inspection before shipment. We invite a most careful comparison.

The Crescent Metal Coloring Co. has taken shop room at 129 Eddy St.

The D. R. Child jewelry manufactory at Swansea shut down Friday night for a week.

J. W. Greenhalgh, Pawtucket, furnished ties and badges for the British Day, to be held on Aug. 7.

Addison P. Darling has removed from 36 Pine St. to 91 Friendship St., the shop that was occupied for so many years by Thomas Willis.

The annual outing of the Outlet Employees' Mutual Benefit Association will be held at Vanity Fair on Friday, 9th inst., the fair closing at 12 o'clock for the day.

Mr. and Mrs. Theodore W. Foster left, on a 29, on an automobile trip, which included a run across Connecticut, up the Hudson, and home through Bennington, N. Y., and the Berkshires.

Joseph S. Gettler, Joseph Samuels, Walter A. Griffiths and Samuel Steiner are members of the committee for the erection of the proposed \$10,000 club-house at the Edgewood Casino Club.

The defendant's motion for a new trial in the case of James H. Orpin against the Westmacott Gas Furnace Co. was heard before Justice Christopher M. Lee in the Superior Court on Friday and denied.

George W. Dover has advertised both of his automobiles for sale, having decided to give up automobiling altogether. This decision was reached by Mr. Dover after his recent experience, in which he was arrested twice within 24 hours for alleged speeding.

John Creelman, associated with the W. Feeley Co., was married last Wednesday afternoon to Miss Emma Chace, daughter of Mr. and Mrs. George W. Chace, East Providence. After the ceremony Mr. and Mrs. Creelman held an informal reception and then left on their honeymoon.

George E. Towne, formerly with the Calhoun Watch Co., and later an inspector of watches for the New York, New Haven & Hartford Railroad Co., has just recovered from a long siege of sickness, lasting for a period of two years. Mr. Towne was formerly located in Boston, but has secured a new room in the Dayling store, with Leslie & Co., at Westerly, where he will do watch, clock and jewelry work.

Lieut.-Gov. Arthur W. Dennis, who is financially interested in one of the larger manufacturing jewelry establishments in Attleboro, Friday entertained at dinner at the Pomham Club the Society of Colonial Wars in the State of Rhode Island, of which he is Governor. After the business session Supreme Justice John T. Blodgett, on behalf of those assembled, presented Governor Dennis with a magnificent loving cup, suitably engraved.

At the regular weekly meeting of the advisory council of the New England Manufacturing Jewelers and Silversmiths' Association, held at the association rooms in the Wilcox building, last Thursday afternoon, with President Harry Cutler in the chair, considerable routine business was transacted. The treasurer rendered his report of the recent outing, which was very

satisfactory, and showed that it was the largest gathering of the kind ever held by the organization. Several matters pertaining to the trade were the subject of general discussion.

Mr. and Mrs. Samuel K. Grover observed the 25th anniversary of their marriage at the Roger Williams Park Casino, Friday evening. About 150 relatives, friends and invited guests participated in the observance. The spacious reception hall was decorated with palms, ferns and potted plants, the beauty of the scene being enhanced by the attractive gowns of the women. Mr. and Mrs. Grover received beneath a bower of palms and ferns in the great alcove. They were the recipients of many presents as well as of hearty congratulations and well wishes.

The members of the Washington and Lee Statue Commission of Virginia visited the Gorham Co.'s foundry July 2, and inspected a bronze replica of Houdon's famous marble statue of George Washington, which the local concern has been making for them. The bronze statue is an exact reproduction of the original marble statue which stands in the rotunda of the capitol at Richmond, Va. It will be sent by that State as a present to the National Government at Washington, where it will be a companion piece to a statue of Gen. Lee, which Virginia is also sending to the National Capital.

Attleboro.

C. T. Eden and family have taken up their residence in Providence.

The Horton-Angell Co. closed, last Saturday, for a two-weeks' vacation.

J. H. Carmody, western representative of C. H. Eden & Co., was at the factory, last week.

Frank T. Barton is making a trip to the northwest in the interests of Fontneau & Cook.

Fred L. Torrey was installed, last week, as Noble Grand of Orient Lodge, I. O. O. F.

All the jewelry factories were closed, last Monday, on account of the Fourth of July holiday.

C. D. Lyons has been entertaining Mr. Carries, who is an expert orange grower of Florida.

The J. T. Healy & Son baseball team is leading the contest of the Jewelers' National League.

C. D. Lyons, of the C. D. Lyons Co., Mansfield, was in New York, last week, in the interests of his concern.

F. D. White returned to Chicago, last week, from a trip to the northwest in the interests of C. O. Sweet & Co.

Frank Fontneau, of the Fontneau & Cook Co., has returned to the factory after having been confined to his home by illness.

The Hall Mfg. Co., Ltd., Toronto, Can., of which F. D. Hall is president, has made an assignment and will go out of business there.

The State Treasurer has received, this year, \$253.62 on account of the inheritance taxes levied on the estate of Charles E. Bliss.

John M. Fisher appeared before the selectmen, last Wednesday evening, and made

a strong plea for more drinking fountains for the horses in town.

A lawn party under the direction of the Ladies' Aid Society was held, Wednesday evening, on the spacious grounds about the home of A. S. Ingraham.

About 25 employes of J. M. Fisher & Co. gathered at the home of George H. Smith, Thursday evening, and enjoyed a musical programme and a collation.

A special town meeting will be held, July 9, for the purpose of discussing the construction of a new road to the land where the new Mossberg factory will be built.

The Finberg Mfg. Co. closed down, last Wednesday until Tuesday, for the annual inspection of boilers. W. H. Payson, salesman for the company, is taking a vacation at his home in Maine.

Jacob Heilborn, of the Chicago office of the C. H. Eden Co., has been visiting the factory, and intends to leave in a short time for Europe, where he will enjoy a three-months' vacation.

James E. Blake, who is one of the park commissioners of Attleboro, is receiving much praise for the way he is looking after the interests of the children who play in Capron Park.

The national holiday was fittingly observed, last Monday, by a celebration in the day and fireworks in the evening. The manufacturing jewelers helped to make this possible by subscribing liberally to the general fund.

C. O. Sweet & Son Co. has posted notice to the effect that the Summer vacation will commence July 24. Some of the firms in the Robinson building will close for the last week in July and others during the first week in August.

W. B. H. Dowse, treasurer of Reed & Barton Co., Taunton, has filed the following corporation report: Real estate, \$150,000; machinery, \$100,000; cash and debts receivable, \$485,020; manufactures and merchandise, \$1,539,101; total, \$2,274,121. Capital, \$750,000; accounts payable, \$526,274; surplus, \$100,000; profit and loss, \$897,847; total, \$2,274,121.

Baltimore.

Lemmert & Schmelz, jewelers and opticians at Fremont Ave. and George St., this city, recently dissolved partnership, and the business is now being conducted by Wm. F. Schmelz.

The offices of the National Optical Co., formerly at 207-209 W. German St., are now located on the second floor of the Flatiron building, Hopkins Pl., Baltimore and Liberty Sts., where the concern has larger floor space and greater facilities than ever before.

Fred Knell, a well-known jeweler of Perry, Ia., died of heart disease, June 24, while riding home in the midst of a heavy rainstorm. Knell was alone at the time and his death was not discovered till the horse he was driving walked up in front of the residence of F. M. Hoeye, postmaster, and stopped. Knell was dead when Mr. Hoeye reached the buggy. Mr. Knell was 30 years of age, and is survived by a widow, four children and two brothers.

North Attleboro.

Warren Willett has purchased the home of B. F. Brown on Ash St.

Fred Barry was in town, last Thursday evening, calling on friends.

Herbert I. Straker spent the Fourth at a summer house at Westport.

Walter S. Darrach returned from New Bedford, Thursday, after doing jury duty.

William A. Bartlett is on a trip in the interests of the Stafford Ring Co., Providence.

Alpin Chisholm and K. Lucius Taylor enjoyed a short vacation at Shelter Island, N. Y., last week.

Woodbury Melcher and family will spend the summer in New Hampshire, at their summer home.

The large chimney which is being erected by the Webster Co.'s factory is rapidly nearing completion.

William Peckham, New York representative for J. H. Peckham & Co., spent a few days in town, last week.

William H. Bell, of the W. H. Bell Co., attended the high school reception, last week, in Red Men's Hall.

The committee in charge of the Webster Co.'s outing, July 17, met, last week, and made necessary arrangements.

George K. Webster, of the Webster Co., attended the graduation exercises of his daughter at Wellesley, last week.

Edward Gilbert has severed his connection with F. S. Gilbert, and will take a position with the Shepard Co., Providence.

Joseph Straker, Providence, father of Herbert J. Straker, has purchased two lots on Colburn St., this city, and expects to take his home here.

A large number of the factories closed, last Thursday, until Tuesday morning, so as to allow the help to enjoy a short vacation over the Fourth.

Herman Grover, son of a Providence jeweler, who was married in town some time ago, was remarried in Providence, last week, under the Jewish ritual.

John P. Bonnett, who has been in the Emerson Hospital for the past few months on account of being obliged to undergo an operation for blood poison, returned home, last Friday.

The local manufacturers have not as yet been able to agree on any date for summer vacations, but it is likely that most of them will close the last week in July and the first week in August.

Fred Riley died at his home on Elmwood Ave., Friday morning, after an illness of about a year, aged 53. He leaves a wife and three brothers: W. H., of the Riley & French Co.; Elmer and Charles E., of the Geo. L. Paine Co.

H. F. Barrows, treasurer of the H. F. Barrows Co., has filed the following corporation report: Real estate, \$42,529; machinery, \$24,457; cash and debts receivable, \$131,407; manufactures and merchandise, \$71,839; total, \$270,230. Capital, \$175,000; accounts payable, \$20,000; surplus, \$75,230; total, \$270,230.

Leroy Arthur Metcalf, whose father is a member of the Plainville Stock Co., and of which concern he is a salesman, was married, last Wednesday evening, to Miss Ethel Armstrong Barbour. The wedding

took place at the home of the bride's mother, on High St. At the conclusion of the ceremony Mr. and Mrs. Metcalf received the congratulations of their friends and then started on an extended wedding tour.

Among the passengers on the White Star Line *Celtic*, which sailed from New York, Saturday, was John H. Harmstone, head designer for R. Blackinton & Co. During the month of July, Mr. Harmstone will visit the Royal College of Art at South Kensington, London, and the Sheffield School of Art, of which institutions he is a graduate. Several weeks will be spent in London, Paris, Berlin and other art centers of England and the Continent, in the interests of his house. Mr. Harmstone will return to North Attleboro about Sept. 15, and it is expected that his work will be even more brilliant and successful than that which has already been presented to the trade.

Newark.

The Elm Mfg. Co., of this city, is moving from 19 Liberty St. to much larger and more commodious quarters at 391 Mulberry St.

H. Bliss, of the B. M. Shanley, Jr., Co., Governor St., left, Friday, for San Francisco, Cal., and the west, where he will spend some weeks.

The Eastwood-Park Co., Murray and Austin Sts., have established two new western agencies. The Chicago office is in the Columbus Memorial building, and the San Francisco address is 704 Market St.

The Newark Brush Co., 12 Green St., closely affiliated with the jewelry trade, is erecting a new building at Mulberry St., near Franklin St. The plans call for a three-story structure of the most approved style. Fire Commissioner Edward E. Gnichtel is secretary and treasurer of the concern.

Practically every manufacturing jewelry house in the city closed down Saturday afternoon for a period of one or two weeks. The big factory buildings will be given a thorough overhauling during that time and the equipment put in condition for what is expected to be the busiest summer and fall in several years.

Leo Marks, a retail jeweler at 170 Market St., has filed a voluntary petition in bankruptcy. He was at one time employed by M. & J. D. Michel, New York, and afterward went to California, where he was in the auction business a few years. For a time he was a member of the firm of Hyman & Marks, San Francisco, Cal.

George B. Yeitter, assistant manager of the jewelry department of the American Oil & Supply Co., was married yesterday to Miss Josephine Geisler at the German Presbyterian Church in this city. Mr. Yeitter is one of the most popular of the younger men in the trade hereabouts, and his bride is equally well known to a wide circle. They left on an auto tour to Atlantic City and other shore resorts.

Cross-questioning by Victor Martin, who keeps a pawnshop in Washington St., Paterson, N. J., led to the arrest of Michael Dennis on a charge of stealing a \$150 diamond from Mrs. Millie Sallow, of 440 Har-

ison St., Passaic, N. J. Mrs. Sallow missed the stone and notified the police. Detective Titus was put on the case. He happened to be in the Washington St. shop when Dennis came in and tried to sell the gem for \$50. He was questioned closely and declared he purchased the diamond for \$5. This sounded unlikely and the arrest followed. In the Police Court of Paterson, Dennis still maintained that he bought the stone, but the judge sent him to jail for 30 days and returned the gem to Mrs. Sallow.

Trans-Atlantic Voyagers.

TO EUROPE.

J. C. Sipe, Indianapolis, Ind., sails July 10. Ewald Dietz, Newark, N. J., has sailed for Europe.

I. J. Roe, New York, sails to-morrow on the *Oceanic*.

E. H. H. Smith SILVER CO'S

"Multi-Silver
Fortified Back"

Showing the
extra thick
plating on
entire back.
This is the
"Multi-Silver
Fortified
Back"

Showing
silver
plating on
front of
spoon

IN addition to our extraordi-
nary standard plating we put
a "Multi-Silver" plating on
the entire back of every spoon and
fork—the place wear-resistance is
most necessary:

As our *Multi-Silver* plating is
accomplished in one operation, but
a new patented process which we
control exclusively, we get the
extra fortification at but a trifling
more than the cost of the additional
silver:

Our goods have a *standard price*
and profit for the dealer, because
we take advantage of every inven-
tion to make them better:

Send your orders *now* for deliv-
ery in time for the Spring house
cleaning and moving season:

BRIDGEPORT, CONN.

Philadelphia.

F. C. Maag, a Bridgeport jeweler, will spend his vacation in Boston.

S. Eisenberg, 2930 Richmond St., opened his new store last Monday.

L. P. White will leave this city for Hot Springs about the middle of July.

Charles Koshland, 702 Chestnut St., will start on his southern trip early in July.

Ivan Jensen & Co. will move into their new building at Riverside, N. J., Aug.

Joseph B. Bechtel, 725 Sansom St., left July 4 with his family in the country.

Mr. Edward Evans, jeweler, 3018 Frankford Ave., will visit his old home in England shortly.

A. E. Self, engraver, has opened an office in the Commercial building, 8th and Chestnut Sts.

A. E. Keepport, head watchmaker for I. Diesher, Reading, is preparing for an outing in the suburbs.

Ermer Horn, of M. Sickles & Sons, with Mrs. Horn, will spend a few days with friends in Reading, Pa.

Frank Davis, son of F. Davis, 5153 Market St., is confined to his home with a severe case of sunburn.

Mr. and Mrs. J. E. Caldwell are spending a few weeks at Atlantic City, stopping at Marlborough-Blenheim.

Fred Moore, watchmaker for J. E. Caldwell & Co., spent the week-end with his family at Wildwood, N. J.

Henry Rubenstone, son of J. Rubenstone, 125 S. 7th St., is spending a few weeks at New Egypt, N. J.

A party of the Chestnut St. stores made a day holiday, complimentary to the fourth, closing all day Saturday.

William Brand, with M. Sickles & Sons, took part in the Fourth of July celebrations held at Aubudon, N. J.

A. F. Dorn and wife, who have just returned from New York, will spend the month of July at Asbury Park.

William Heinsman, with William Gibbons, 40th and Market Sts., will go to the coast for an indefinite stay.

Lifford Spoerhase, son of L. Spoerhase, jeweler, 4078 Lancaster Ave., is spending his vacation at Wildwood, N. J.

Mrs. W. S. Hart, wife of a prominent jeweler of Kennett Square, is preparing to return to her old home at Bedford County, Pa.

Fred Barry, with L. Stern & Co., has returned from an extensive western trip. His reports business very much improved.

V. R. Esenhower, who has charge of the diamond department of J. E. Caldwell Co., returned last week from a trip to Europe.

Mr. and Mrs. Henry Koshland, the parents of Chas. Koshland, 702 Chestnut St., celebrated their golden anniversary, July 19.

Miss Easton, with Joseph B. Bechtel & Co., will soon go to Cape May, and Andrew DeWitt, with the same house, will spend his vacation at Lansdale.

Harry F. Everline, with E. Deisinger, 10th and Sansom Sts., will spend several weeks in Newark and New York visiting different factories.

Mr. Sisson, with E. A. Bennet & Co., New York, was a recent visitor to this city, with his wife. Mr. and Mrs. Sisson will spend some time at Atlantic City.

S. A. McMasters, an Avondale jeweler, is able to be about again. Mr. McMasters met with a serious accident, a short time ago, while ejecting a negro from his store.

George Stetson, who is associated with his brother, William Stetson, at 7th and Sansom Sts., has been confined to the house for the past month with rheumatism.

The stock and fixtures of George M. Kite, 818 Chestnut St., were sold at auction last week by a receiver in bankruptcy. The sale was entirely satisfactory, excellent values being realized.

Hoover & Smith are the manufacturers and designers of the cups now on exhibition in their show windows. These prizes are to be presented by the city on July 5 at the athletic games at Fairmount Park.

The following jewelers were visitors to this city during the week: E. P. Yane, Christiansia, Pa.; R. W. Quicksall, Mount Holly, N. J.; D. H. Krause, North Wales, Pa.; E. H. Bean, Lansdale, Pa.; W. B. McFarlan, E. Downingtown, Pa.; B. C. Forster, Bristol, Pa.; H. S. Kratz, Souderton, Pa., and Henry Bolte, Atlantic City, N. J.

L. A. Breitingger, president of the American Cuckoo Clock Co., has been entertaining his friends during the hot spell on his roof garden that he had built over his residence some time ago. Among the guests was Mr. Sherbow, a celebrated violinist of Prague. W. J. Browne, of J. B. Whitney & Co., the San Francisco representative of the American Cuckoo Clock Co., was east during the week and stopped at the factory.

Maxwell & Berlet, corner 13th and Walnut Sts., are the manufacturers and designers of the prizes for the ocean races of the Yachtsmen's Club of Philadelphia, which will take place at Beach Haven, N. J., July 10, 1909. The prizes are unique and novel in design and consist of the sidelight, steering wheel, propeller, odd-shaped loving cups and a shield built of copper, gold, silver and brass. On this shield is the picture of an old-time sailing vessel.

The buying season for the out-of-town retail jeweler began June 30. The season is expected to last well into September, and therefore the Association of Wholesale Jewelers of Philadelphia have arranged to refund visiting purchasers their transportation, where the fare does not exceed one per cent. of their aggregate purchases. Special trains will run from central points, and the houses offering these advantages expect to make great sales in clocks, watches, jewelry, precious stones, optical goods, and jewelers' tools.

A window that was attracting unusual attention this week was that of J. E. Caldwell & Co., the Chestnut St. jewelers. In it were silver shields, 25 by 16 inches, with a full-modeled figure of an oarsman standing on the prow of the racing shell, which protruded from the body of the shield. Suspended from the racing shell, by small chains, are oars which designate the event; for single and pairs two oars are used, for doubles and fours, four oars are used, and

for the eight-oared races eight oars and the rudder are used. Engraved on each oar is the name of the winner. These prizes were made for the People's Regatta, which took place July 5, 1909, on the Schuylkill.

Announcement was made this week at a meeting of the Simon Muhr Scholarship Commission of the awarding of five scholarships to young men and women, graduates of the higher public schools. This is three more than the usual number, the increase being due to the fact that the estate of the late Simon Muhr paid over to the Board of City Trusts at its last distribution a sufficient amount to warrant a change from two to five awards. The holders of the Muhr scholarships receive \$400 a year for four years.

While walking backward across the lawn of his home in Jenkintown, Wednesday, Furman Foy, a jeweler, fell into an excavation 30 feet in depth and was seriously injured. In his fall Mr. Foy crashed through one platform, struck a second and then rolled to the bottom of the pit. It was necessary to hoist the injured man out with ropes. Although badly hurt, he was conscious when brought to the surface. It was at first believed that both legs and his back had been broken. Dr. W. A. Cross hurried Mr. Foy to the Jewish Hospital, where the X-ray examination showed serious injury to the spine, a possible dislocation or fracture. His condition is regarded as very grave.

At a meeting of the creditors of Abe Orman, 507 South St., Philadelphia, Pa., which was held Wednesday afternoon of last week, a discussion occurred relative to Mr. Orman's financial condition, and an offer of 25 per cent. in settlement of claims was made. The offer was 10 per cent. cash and 15 per cent. in notes without indorsement. Mr. Orman owns one store at 507 South St., Philadelphia, and one at Slatington, Pa., and he has been in the jewelry and notion business about three years. The liabilities are placed at \$11,000, of which about \$2,000 is for merchandise. The assets consisted of stock at the Slatington store valued at between \$800 and \$900, and stock in Philadelphia at \$1,500, together with book accounts to the value of between \$600 and \$700. The creditors thought that the offer of 25 per cent. was not all that can be obtained from the business, and a committee was appointed to make an investigation and report whether or not it would be advisable to accept the offer. Practically all of the large creditors are in New England, and their claims are controlled by the Manufacturing Jewelers' Board of Trade.

E. Fraser will continue the business formerly conducted by Fraser & Cramm, Leavenworth, Kans.

The firm of the Myers Jewelry & Millinery Co., Cherokee, Kans., will hereafter be known as Harry B. Myers.

The police of Watertown, Mass., are seeking to locate a clock and watch thief who paid that town a visit two months ago and solicited work in his line. The thief, one of the recent residents, is a man of the name of [redacted]. One woman, [redacted], of the recent residents, [redacted] felt, nevertheless, that he had stolen a watch worth \$88.75, \$4. claims that he had stolen a watch worth \$27,354.00, to her. From a year until 1905. How the thief and has not been compared with pre-

GORHAM LEATHER GOODS

A SEASONABLE SUGGESTION

¶ July and August are undeniably the "Travel Months" of the year, a fact which further suggests the increasing attention that is paid by people of refinement to the appearance and quality of their traveling equipments.

¶ For this reason the Gorham Company desire to call attention to the high character of workmanship, originality of design and the admirable quality of material displayed by the products of their Leather Goods Department.

¶ Especially notable is the assortment of Travelers' necessities, including Kit and Club Bags, and Dress Suit Cases for both Ladies' and Gentlemen's use, either plain or fitted with toilet and traveling conveniences in Gorham Silver, Ivory and Turtle Ebony, also Dressing Rolls in a variety of Leathers and Fittings.

WHEN the agitation for the so-called "Daylight Saving Bill" began in England some time ago, it was a subject of many humorous paragraphs in the press of this country, and many jokes were made upon our English cousins and their attempt to "make time" or "beat time" or "get ahead of time" by turning back the clock in the Summertime in order to give their working people more leisure in the daylight hours of these months. However, the recent serious consideration given to the subject in some quarters on this side of the Atlantic shows that we, as a nation, are not in a position to laugh at the English. It appears to prove that, no matter what the nation, adults are nothing but children of a larger growth, as the whole scheme seems as fine an example of the game of "Let's Pretend" as any ever credited to the little heroine in Mrs. Burnett's charming story. To the man of ordinary intelligence there appears to be no reason why, if we want to go to work and break off earlier in the Summer time than in the Winter, we cannot do so without setting the clock back and "pretending" that the time is an hour or more earlier than it is. Is there any reason why we cannot do the sensible thing without deluding ourselves into the belief that we are not changing our regular habits?

THAT June is the great month of the jewelry trade was a subject of remark in this journal recently when the announcement was made of some of the principal gatherings of jewelers that was to take place during that month. Never in the history of THE JEWELERS' CIRCULAR-WEEKLY has there been an issue with so many conventions reported as in the issue of last week, which, in addition to containing a number of notes on gatherings of local associations, gave full reports of the conventions of the State associations of Iowa, Illinois, Missouri, South Dakota, Tennessee, Arkansas and Virginia, as well as an account of the annual meeting of the American Association of Opticians held at Atlanta, Ga. Unfortunately the lack of space caused us to condense a number of these reports to a greater extent than we wished, and also forced us to omit a number of papers and addresses delivered at these gatherings that would otherwise have been published. However, many of these will be published from time to time in our columns, some of them appearing this week.

In this issue is given a full report of the concluding session of the State association of the Illinois jewelers, and a full report of the convention of the Ohio jewelers, held at Cedar Point, June 28-29. There are now but a few large State associations yet to meet before the convention of the American Retail Jewelers' Association at Omaha, Aug. 3-6. Among these are the Wisconsin convention at Milwaukee, July 20-22; the Texas association at Dallas, July 20-21; the Minnesota association at Minneapolis, July 26-29; the North Dakota association at Grand Forks, July 27-29; while the Nebraska association's convention will take place

Advertising should not be regarded as an expense but as a business investment. Rightly done, it will produce good results.

during the session of the National Association. The only large State association to meet after the National Association, of which we have record, is that of the Michigan association, which will take place at Detroit, Aug. 30 to Sept. 1.

Encouraging Gem Imports. IF the condition of the diamond and precious stone trades of the country is to be judged by the amount of the importations of gems, it should be considered at present to be as good as, if not better than, at any time for many years past at this season. June importations at the port of New York for the month of June just passed were not only far above the normal, but were within about one-quarter of a million dollars of the largest importations that have ever been brought in in any month of June, namely, in June, 1906.

According to the statistics compiled for the Treasury department, the precious stones which passed through the appraiser's store last month amounted in all to the enormous sum of \$3,626,362, which was over five times the amount imported at the same time a year ago and over \$2,200,000 more than the importations of June, 1907. Of the total last month the value of cut precious stones and pearls was \$2,809,475, and the value of uncut stones, principally diamonds, amounted to \$816,886. How conditions have changed since last year will be noted from the fact that in June, 1908, the value of cut precious stones and pearls was \$437,394 and that of uncut stones \$264,475. Unless the gem trade of the United States is doing a very much bigger business than people have been led to believe, the above figures are hard to understand.

A comparison of the importations of last month, as compared with Junes of previous years, will be seen at a glance from the following table:

	Uncut.	Cut.	Total.
June, 1909.....	\$816,886	\$2,809,475	\$3,626,362
June, 1908.....	264,475	437,394	701,869
June, 1907.....	665,012	1,749,555	2,414,567
June, 1906.....	632,007	3,255,886	3,887,893
June, 1905.....	834,537	2,607,505	3,442,043
June, 1904.....	950,766	1,053,682	2,004,448
June, 1903.....	781,190	1,879,486	2,660,676
June, 1902.....	568,399	1,786,626	2,355,026
June, 1901.....	149,097	1,943,922	2,093,019
June, 1900.....	390,849	1,081,375	1,472,224
June, 1899.....	576,732	1,523,718	2,100,450
June, 1898.....	265,549	421,191	686,740

As June completes the fiscal year of the Government, the figures for the port of New York are now available, and though they include July, August and September of last year, when the effects of the recent depression were still strongly felt, nevertheless the total for the fiscal year, \$27,354,003, is ahead of any year until 1905. How the statistics of last year compare with pre-

Our Trade With Canada. **T**HE effect of recent business depression upon jewelry trade of

Canada is shown in the statistics of the amount of watches, clocks, jewelry and gems imported into the Dominion in the 12 months ending March last, which appeared in detail in the last issue of this journal. On the whole, however, an analysis shows that American trade with the Dominion compares very well with previous years, while showing a slight decrease in line, stood up well by comparison with the trade of other countries.

In the clock trade the total amount diminished from \$359,600 in 1908 to \$310,000 in 1909, while the clock importations from the United States dropped from \$274,000 to \$249,300. The decrease with our largest competitor (Germany) was more evident, dropping from \$55,100 in 1908 to \$37,300 in 1909. In the importations of watches the total figures fell from \$962,700 in 1908 to \$784,500 in 1909, but American products dropped only from \$693,500 to \$538,300, while that of our largest competitor (Switzerland) dropped from \$199,300 to \$172,000. The importations of jewelry showed very little decrease, i.e., from \$1,142,700 in 1908 to \$1,000,000 in 1909. Of this the United States supplied \$731,700 in the former year and \$689,000 in the latter, while our next largest competitor (Great Britain) dropped from \$206,900 in 1908 to \$181,700 in 1909. In manufacture of gold and silver the United States led in the two years, but divided the market pretty well with Great Britain. Our total of \$563,800 in 1908 and \$449,100 in 1909 we supplied about \$272,000 in the former and \$242,100 in the latter, while Great Britain supplied \$232,400 in the former and \$153,900 in the latter.

Altogether the importations of the Dominion indicate, as far as statistics of the kind can do so, that the consumption of foreign products by the jewelry trade in Canada held up very well in the past year and also clearly show the predominance of the American product in this market despite the many adverse influences that have been brought to bear and the hardships which some of our manufacturers have had to suffer when trying to compete with the British manufacturers.

Comrie & Brokaw, jewelry auctioneers, 14 Maiden Lane, New York, are clearing out the stock of the Henry C. Wisner, Rochester, N. Y., for Receiver A. V. Dewey. This business has been established nearly 50 years, and is one of the best houses for high-class china, silverware and art goods in western New York.

New York Notes.

Sol. Cerf, a Pittsburg jeweler, was in town last week.

Marcus Edelstein, Lancaster, Pa., was a recent visitor in this city.

M. Rosenberg has moved from 100 Norfolk St. to 107 Norfolk St.

M. J. Rubenstein, Syracuse, N. Y., was a recent visitor in this city.

Cooper & Wolkowitz started a manufacturing jewelry business, recently, at 107 E. St.

Charles L. Scale, 180 Broadway, sailed Saturday for Europe on the *Philadelphia*.

J. Roc, diamond importer, 36 Maiden Lane, sails for Europe to-morrow on the *onic*.

H. Keene, a wholesale jeweler of Fort Worth, Tex., was in town buying goods last week.

Hyman, of B. Hyman & Co., returned last week, from a buying trip in Europe on the *Lucania*.

Alph Hoxsie, city representative for Marshall, Howard & Co., is spending a vacation in Roxe, R. I.

Laum & Crawford, retail jewelers of Birmingham, Ala., are in this city making purchases for the Fall trade.

Red. Perry, far western salesman for F. H. Sadler Co., Attleboro, is spending a vacation in this city.

David L. Gluck, 65 Nassau St., spent the month of July holidays at Lake Chodikee, Highland, Ulster County.

B. Weiser, of the Porter & Weiser Jewelry Co., Kansas City, Mo., is in the city for three weeks' vacation.

Federick Sage, president of the Middlesex Silver Co., Middletown, Conn., was in the Maiden Lane district recently.

M. Kohn, of Herzfelder & Kohn, 35 Maiden Lane, sailed for Europe Saturday on the *Philadelphia* for a purchasing trip.

Erance Ware, employed in the local office of Thomas G. Frothingham & Co., spent last week end and the Fourth at North Attleboro.

T. Bennett, jewelry buyer for the Toronto department store, Toronto, Can., was in town last week, looking over goods for trade.

Henry Fischer, a diamond broker of Antwerp, wishes to notify his friends in this city that he has removed his offices to 1 bis Rue Quellin.

A. Segel is the name of a new concern which has just started in business as dealers in diamonds, watches and jewelry at Chrystie St.

Simon, local representative for the Lyons Co., started from this city Saturday, to spend a two weeks' vacation at Bluff, Mass.

P. Peckham, of J. H. Peckham & Co., 13 Maiden Lane, is making plans to visit the Alaska-Yukon-Pacific Exposition at Seattle, Wash., and expects to be away five weeks.

Customs officials took two gold watches from a foreigner, last week, as he disembarked from the steamship *Oceanic*. The watches were later sent to the appraisers' office and valued at \$100.

H. DeJong, a diamond importer, 35

Maiden Lane, accompanied by his wife sailed yesterday on the *Ryndam* for a trip abroad. Mr. and Mrs. DeJong will visit the diamond centers of Europe.

Robert N. Macomber, son of Robert E. Macomber, president of the Nowlan Co., jewelers of Richmond, Va., sailed from this port, recently, on an extended trip to Europe, Ireland, Scotland and the Continent.

It is announced that the business of the estate of Henry Rosenberg, importer of diamonds, watches, etc., at 69 Columbia St., has been discontinued. All accounts will be liquidated by Jacob Rosenberg, 232 S. 6th St., Newark, N. J.

F. B. Platt, New York, representative of the W. H. Saart Co., Attleboro, Mass., accompanied by his wife and brother, E. P. Platt, of the Inlaid Co., Providence, R. I., expects to take a Summer outing by automobile. They will make a trip to Sugar Hill, N. H.

A fire which originated in the rooms of Jeweler Ephraim Greenspan in the large apartment house at 161 Clinton St., last Monday night, did damage estimated at \$3,000. The janitor and elevator man succeeded in emptying the building, although the fire threw the tenants into a panic. Mr. Greenspan's maid servant spread the alarm as she went screaming down the stairs.

Edward A. Currier, 50 years old, who was well known in the Maiden Lane district as secretary and treasurer of the Calculgraph Co., 9 Maiden Lane, died at noon, last Friday, at his home, 8 Shepard Ave., East Orange, N. J., from a stroke of paralysis. He was the son of the late John A. Currier, who conducted the old Currier restaurant in Fulton St. He leaves a widow and two sons. The funeral services were held from his late home, Sunday.

Members of the 14-Karat Club, an organization of the younger men in the Maiden Lane jewelry district, have decided to postpone their outing until some time in September. The secretary of the club sent out cards a short time ago to find out how many of the members would attend an outing which it was planned to hold on Staten Island on July 10, but so many of the club members are away at this season of the year that it has been decided to postpone the outing until later.

J. H. Mednikow, of J. H. Mednikow & Co., wholesale watch material dealers, Sioux Falls, S. Dak., was a caller at the offices of THE JEWELERS' CIRCULAR-WEEKLY, last week, and announced that he is about to move his business to Oklahoma City, Okla., where he has purchased the stock of A. L. Cohen. Mr. Cohen gave up business because of poor health. Mr. Mednikow reports that business in his section of the country has been steadily improving of late, and says he looks for a brisk Fall trade.

Isador Landau, who was arraigned before Magistrate O'Connor in Yorkville Court, last Thursday, for attempted suicide, was sent to Bellevue Hospital and will be transferred to the Montefiore Home. Mr. Landau was a prosperous jeweler at 174 Bowery a few years ago. One day a car crashed into a carriage, and he rushed from the store to grab the horse and stop a runaway. The horse stepped on his foot and blood poisoning ensued, with the result

that he lost both of his legs. When he left the hospital his cash and business was gone and he became despondent.

The funeral of William Matschke, formerly a wholesale jeweler in this city, which was held from his late home, 37 McDonald St., Brooklyn, Tuesday of last week, as stated in our last issue, was attended by a number of his friends in the trade. Mr. Matschke was 55 years old. He began his career in the jewelry trade many years ago, and was for a time connected with the firm of Ardizzone, Davis, Miller & Co. Later for many years he was with Kuhn, Dorflinger & Co. After the failure of the latter firm in 1893, he went into business for himself, traveling on the road a great deal. He leaves a widow, a son, Griffith B., a sister and five brothers.

A rare \$4 gold piece will be the most interesting feature of the coin sale to be held at the Elder auction rooms, in this city, Friday. This coin, which is dated 1880, is of curious but handsome design and represents a denomination never regularly adopted by the Government for circulation. This coin was made at the mint to meet a demand for an international gold coin that would be interchangeable at a specific value with Austria. The eight-florin piece of the latter country was taken as a basis. The latter coin was worth intrinsically \$3.88, and Dr. W. W. Hubbell, the inventor of the gold metal at one time prominently considered for the coinage of the United States, was the designer.

Magistrate Furlong, in the New Jersey Avenue court, Brooklyn, last Wednesday, held Miss Annie Fordinsky, of 1869 Pitkin Ave., in \$1,000 bail for further examination for alleged diamond robbery on the complaint of Charles Gafmer, a jeweler of 1870 Pitkin Ave. Before the court, Gafmer explained that on June 19 Miss Fordinsky told him that she could sell some diamonds for him, as she knew several people whom she thought would purchase them. So he let her take \$300 worth. A day or so later he asked her whether she had sold them yet, and she said that she had lost them. She explained that she was carrying them in her stocking and that they must have fallen out through a hole in the hosiery. Miss Fordinsky was held.

Samuel Goodman, a jeweler at 72 Murray St., advertised, last week, for an office boy. When he reached his store at 8 A. M. he had to plow his way through a crowd of 50 boys to open the front door. When he had unlocked the door the crowd pushed in, knocking over several show cases and scattering jewelry around before Goodman could quiet them. When Goodman picked out 12-year-old Jacob Cosmere for the job the disappointed ones filed out, but stopped in front of the store while four of the larger boys locked the front door. Then some of them threw a packing case through the show window, followed by a shower of cobble stones, before the police came. When they did get there only one boy was found to arrest. He was Julius Sladon, age 15, of 637 Tinton Ave. He was arraigned in the Children's Court and Justice Olmsted adjourned the case.

New York Notes.

(Continued from page 81.)

5th Ave. left Liverpool, Saturday, home-ard bound on the *Maurctania*.

V. Hirsh, of Veit Hirsh & Co., sailed yesterday for Europe on the *Kronprinz Wilhelms*.

Lester B. Smith, formerly with Dominick Hafl, is now with F. M. Whiting & Co. in charge of their New York office.

Charles W. Gengenbach, formerly a retailer at 66 Greenwich Ave., died recently. He established the business in 1884, having previously been in the employ of H. F. Titka.

M. J. Averbeck, 10 Maiden Lane, has purchased a Summer home at Spark Hill, in Westland County. The property formerly belonged to his grandfather and has been in the family for years.

Morris Lissauer starts out this week as representative of Louis Strasburger's Son & Co., 2 Maiden Lane, for a trip through the south. He met with a railroad accident some time ago, and has not been able to work before this time.

M. L. Van Moppes, of Van Moppes & Son, 87 Nassau St., and S. A. Van Moppes, with his wife and family, sailed for Europe yesterday on the *Ryndam* on a trip which will last about two months. L. Van Moppes will manage the business during the absence of the voyagers.

Harry C. McKay, a traveling representative for Colyer & Co., jewelry jobbers at 90 Broadway, was married June 28 to Miss Louise Widdows, of Brooklyn. They went to the Catskills for a honeymoon trip, and will reside in Brooklyn upon their return. Friends in the trade extend congratulations. The loss of \$2,100 in a novel attempt to make money by a chemical process was responsible for a fight and subsequent sensational disclosures following the arrest of Morris Silver, a jeweler at Tompkinsville, N. Y., on complaint of David S. Saffron, owner of a store at the same place, last week. Saffron charges that he was assaulted by Silver with a knife, and the latter retaliates with a counter charge of assault and larceny. The tangle is to be adjusted by Magistrate Marsh's court to-day.

Last Wednesday Dreicer & Co., 560 Fifth Ave., advertised a reward of \$1,000 for the return of a package containing valuable jewelry believed to have been lost or stolen on the Erie ferryboat *Passaic*, June 2. The package contained a large diamond brooch, a diamond tiara, a "diamond-ved" watch, and a large emerald. It was lost on the ferryboat on the trip from Jersey City about 10.40 A. M., and the fact is reported to the railroad company late in the afternoon. A search of the boat failed to reveal the missing package.

William H. Jennings, for over 40 years employe of the firm of Theodore B. Barr, 203 Fifth Ave., died suddenly last Wednesday in California. Word of his death was received by the firm last week. He was on a vacation trip with his wife and had planned to visit his two sons, who are in business on the Pacific coast. He died on a train nearing Los Angeles. Deceased was 65 years old and held a position

as financial secretary and head bookkeeper. Mr. Jennings had lived in South Orange, N. J., for the past 30 years. A widow and two sons survive him.

Burnett Y. Tiffany, son of the late Charles L. Tiffany, has brought an action in the Supreme Court to restrain his father's executors from cutting his annual income from \$18,000. When Charles L. Tiffany died he left a codicil to his will directing that the executors allow Burnett only \$3,000 a year. The will, however, gave the executors power to increase this. They raised it to \$18,000. Recently Burnett learned that the executors of the estate were contemplating reducing his allowance. He applied to Justice Blanchard for an injunction against them.

The June bulletin of the Merchants' Association of New York publishes a letter received by the secretary of the association from Wm. Loeb, Collector of the port of New York, relative to the devising of means for preventing the thefts of goods from cases sent to the public stores for appraisement. It also takes up the matter of a new fire alarm service in this city, and the removal of the west side railway tracks. Attention is given to the Fall merchants' rates on railroads arranged by the association, which will go into effect during July, August and September. Several other matters of general interest are taken up.

Among the recent acquisitions of the historical museum at the Jumel Mansion, Washington's old headquarters, on Washington Heights, New York, are a pewter teapot and cream pitcher, and a sterling silver cup made by Paul Revere. The most striking of the three pieces is the teapot, which is of very graceful design. On one side is depicted in high relief Monticello, and on the reverse Jefferson's Mill. The main theme is artistically embellished by a rococo design. The motif of the silver cup is very similar to that of the productions in pewter. These fine old examples of silver-smithing were rescued during a fire from an old shop in New York a short time ago.

Supreme Court Justice Blanchard heard argument last week on a motion by the defendant to set aside an order granted by Justice Giegerich for the examination of Katherine C. Gould in a suit brought by Cartier, a Paris jeweler, against Howard Gould, to recover \$20,875 for jewels purchased by Mrs. Gould in 1906. Among the articles that the jeweler said were purchased between March 15 and July 18, 1906, are: A dog collar containing 1,597 brilliants and other jewels worth 20,000 francs; "la valliere" chain of five strings containing 1,000 brilliants, 1,200 pearls and 530 rose diamonds, valued at 9,000 francs; a necklace of pink corals valued at 6,150 francs; and a chain of brilliants and ornaments worth 5,500 francs. There was also a gold watch worth 1,300 francs and a jeweled card case costing 2,000 francs. Justice Blanchard reserved decision on the motion.

At a recent examination of Bernard Braunstein, a retail jeweler at 121 Washington St., Hoboken, N. J., which was held before Referee in Bankruptcy E. A. S. Mann, Jersey City, Mr. Braunstein was examined at some length in regard to his financial dealings by Frank Hasting, receiver in bankruptcy. It was learned that

the jeweler had lost in a mining venture to the amount of \$6,000 and had also sunk about \$3,000 in a mail-order business. At one time he was located on W. 23d St., in this city, where he sold cheap jewelry, and there it is claimed he lost about \$5,000. The receiver also questioned him about \$1,275 worth of pawn tickets for jewelry which had been found. Testimony was taken to the effect that the jewelry that was pawned was given to Mrs. Braunstein by her husband three or four years ago and was pawned when hard times came. At a meeting of the creditors, held previous to the time of the appointment of the receiver in bankruptcy, it was claimed the jeweler had about \$20,000 worth of stock. When the receiver took charge he found only about \$6,000 worth of jewelry. There will be another hearing to-morrow.

New Orleans, La.

Simon Caro, Newark, N. J., was in town for a couple of days.

E. J. Garcia and M. Dorenfield, with Leonard Krower, arrived during the week from Porto Rico, having been away in the tropics since June 6.

Adrian J. Morais, whose business is in the Godechaux building, expects to send representatives on the road shortly, and is now busy receiving his Fall stock.

Tuesday morning of last week workmen started demolishing the division wall between the present and the adjoining building for the enlargement of B. Barnett's new store, in Poydras St.

Among the arrivals the steamship *Momus* brought in on Tuesday morning were: Arthur Moore, of Moore & Sons; Dan Havens, of the International Silver Co., and Charles Forsyth, of the Meriden Cutlery Co.

Charles Greenberg Co.'s new store in Canal St. is about completed, and is a great improvement over the one formerly occupied on the opposite side. It is in a famous spot long looked upon as a jewelry center, with a clock by which the city has long set its watch.

Henry Kron, only son of the man whose name he bears, who was identified with the jewelry business for a long period of years, connected with the T. Hausmann & Sons, Ltd., and later with the M. Scooler house, has gone to Cleveland to perfect himself in the mechanism of the Peerless Automobiles, whose sole agency he has secured for New Orleans. Mr. Kron expects to return in August to open business.

A show window in the store of Herbert L. Fox, Dunkirk, N. Y., was broken, recently, by a thief, who stole a gold watch chain and a gold neck chain. A young man, who, a short time ago, was paroled from the State Reformatory, to which he had been sentenced for two years, was later taken into custody suspected of knowing something about the crime. A watch chain found in his possession was identified by the jeweler as the one which had been taken from his store. The suspect, when arrested, was intoxicated and vigorously protested his innocence.

VOL. LVIII.

CHICAGO, WEDNESDAY, JULY 7, 1909.

No. 23.

Chicago Notes.

H. Hughes, of Hughes & Son, Lima, O., has been spending a vacation here.

Ferdinand C. Spies, father of the Spies Bros., is confined at his home, sick.

A. L. Fuller, of the Chicago office of the Towle Mfg. Co., has returned from a trip east.

The Yale Mfg. Co. has added to its gas lamp business a mail order jewelry department.

H. H. Miller, representative of Hutchison & Huestis, recently returned from a southern trip.

C. D. Warner, traveler for Henry Paulson & Co., leaves this week on a Wisconsin trip.

James Mawer, formerly with the Mahone-Matthews Co., is now with Henry Paulson & Co.

G. A. Le Roy, advertising manager of the Western Clock Mfg. Co., was a recent visitor in Chicago.

F. W. Kaiser, manager of the silverware department of Norris, Allister & Co., is away on a vacation.

R. H. King, of the Chicago office of Ostby & Barton Co., is spending his vacation in northern Michigan.

P. B. Noyes, General Manager of the Oneida Community, Ltd., was a recent visitor to the Chicago office.

C. A. Kiger, Kansas City, Mo., made a short visit here recently on his way home from the Jobbers' convention, held recently in New York City.

S. E. Strang, G. S. Robinson, O. L. Tribble and Hugh McSweeney, traveler for L. H. Schafer & Co., leave this week for their respective territories.

H. Schwartz sailed June 30 for Amsterdam and Antwerp on a buying trip. During his absence his son, Meyer Schwartz, will have charge of the business.

The estate of A. Lupo, in bankruptcy, after the legal exemptions of \$400 allowed Mr. Lupo, will not be able to pay any dividends and hardly pay costs of administration.

R. W. Morris, manager of the Chicago branch of R. Wallace & Sons Mfg. Co., is taking a vacation at eastern points, including a visit to the factory at Wallingford, Conn.

Mr. Lewis, of Lewis & Van Sickle, Oskaloosa, Ia., accompanied by Mrs. Lewis, has been spending some days in this city. The

firm will remove their business to Des Moines, Ia., about Sept. 1.

The Pioneer Comb Mfg. Co., Chicago, has been incorporated with a capital of \$5,100 to manufacture and deal in combs, novelties, fancy goods, and jewelry. The incorporators are: Henry A. Gardner, Jr., Sol Salins, Michael Feinberg.

A. Loeck, assistant jewelry buyer for Carson, Pirie, Scott & Co., was recently stricken with appendicitis and operated on at the Homeopathic Hospital. He is now well on the road to recovery.

L. Nystrom, of the Chicago office of R. Wallace & Sons Mfg. Co., and J. H. Nicholas, traveler, from the same office, were in attendance at the Illinois Retail Jewelers' convention at Peoria.

G. H. Miller, of the Chicago office of the Oneida Community, Ltd., has just returned from a trip in Iowa and attendance at the Iowa Retail Jewelers' convention. W. E. Scanlon, of the same office, recently attended the Illinois convention at Peoria.

All travelers from the Chicago office of the Alvin Mfg. Co., left last week for their respective territories. W. E. Hayward, manager of the office, leaves this week for a two weeks' trip to Pacific Coast points and a visit to the Seattle Exposition.

The factory of the Western Clock Mfg. Co., La Salle, Ill., will be closed for two weeks for the annual overhauling of machinery and equipment. Advantage will be taken of the shut-down to connect with the new factory building which increases the factory space nearly 100 per cent.

Diamonds seized in the rooms of Josef La Faille, a circus performer, several weeks ago by special agents of the Treasury Department, were sold at auction in the United States marshal's office in the Federal building recently. It was alleged that the diamonds were smuggled from Belgium. The stones were appraised at \$705, but brought only about \$300 when sold at auction.

Milwaukee.

W. S. Mortenson, Warrens, was a recent visitor at Waupaca, Wis.

Theodore Dresen, one of the oldest jewelers at Madison, is erecting a new flat building.

E. H. Warnke, president of E. H. Warnke & Co., has just returned from his annual fishing trip at Wild Rose, Wis.

Ingolf G. Larson, an expert watchmaker

and engraver, has been made manager of the establishment of Mr. Flek, Janesville.

W. H. Upmeyer, of the Bunde & Upmeyer Co., is expected back from Mexico within a few days. Mr. Upmeyer was away both on pleasure and business.

John A. Jones, Columbus, who has been carrying on a drug business in connection with his jewelry line, has purchased the Wothersdorf pharmacy at that place.

David Goldman has been awarded the contract to erect a new tower clock in the administration building, at the National Soldiers' Home, this city. The dial will be four feet in diameter.

Among the out-of-town jewelers who visited this city, last week, were: L. P. Newberg, Nenno; E. M. Potter, La Farge; F. P. Beswick, Racine; J. B. Kimball, Waukesha, and John Armbruster, Cedarburg.

Klimck Bros., Thief River Falls, Minn., will soon open a new jewelry store in Superior. The store will be modern and up to date, and will be located in the Waterman block. Klimck Bros. have been conducting a large jewelry business at Thief Falls for some time.

The entertainment committee of the Milwaukee Jewelers' Club had another meeting, last week, to complete arrangements for the coming convention of the Wisconsin Retail Jewelers' Association, which will be held here July 20, 21 and 22. A theater party and an automobile outing for the ladies were some of the events decided upon.

On the charge that they stole two rings valued at \$16 each from the store of F. E. Williams, Janesville, James Moran and Charles Schmidt are being held by the police, pending further investigation. The men engaged the clerk in conversation while he was showing them jewelry, and an investigation showed that they had made away with two rings.

The jewelry store of George Logemann & Sons Co., 211 Water St., had a narrow escape from destruction by fire, recently. A blaze starting in some rubbish at the rear of the store caused much excitement for a time, but was finally extinguished before doing serious damage. The stock was damaged somewhat by smoke, but the entire loss is fully covered by insurance.

T. J. Greene & Co., Dickinson, N. Dak., are installing new fixtures and otherwise improving their store.

Cleveland.

W. S. Miller returned Thursday from a fishing trip at Buckeye Lake.

Norman Brenner spent the double holiday in Youngstown with his parents.

C. O. Goodrick, Altoona, Pa., was in town, this week, visiting W. L. Newmeyer.

The family of C. C. Sigler have gone to their farm in Cortland, O., for the Summer.

A big delegation of Cleveland jewelers and opticians left Tuesday of last week for the State conventions at Cedar Point.

Elmer Barrett will open a new jewelry store in Painesville about August 1. Mr. Barrett was formerly with the Gee & Nussbaum Co.

C. F. Bishop, formerly with John Rich, Painesville, is going to Seattle, Wash., to engage in business after visiting his parents in Piercecon, Ind.

The Cleveland Ad Club took an excursion to Put-in-Bay and Detroit, Saturday and Sunday, June 27 and 28, and had a most enjoyable time.

Charles Liebenauer, 10551 Euclid Ave., recently opened a small shop opposite the Vandemere car barns, in East Cleveland, and is making a specialty of watches.

Willard's Cleveland branch store on Prospect St. has large signs all over its front advertising that the firm is going out of business, and that stock and fixtures are for sale.

Domnick Nctrefa, a jeweler of Lorain, O., wanted to answer the charge of grand larceny, in the central police station, June 29. The arrest was made at his home, 861 E. 89th St.

The Standard Clock Co., Cleveland, has been incorporated at Columbus, O., with a capital of \$15,000 by Morris Abraham, Gust. Zemore, Morris A. Goodstone, Sidney Sidman and Jesse Seidman.

F. Nelson, who recently opened a shop at 1629 Prospect Ave., heard a noise upstairs the other day, and was surprised to see a man's leg protruding through the ceiling. It developed that the man was not a burglar, but a workman who had stepped through a hole where the floor was being repaired.

A man recently approached R. C. Dodd, of the Dodd-Rogers Co., with a proposition to manufacture pocket sun dials, to compete with the cheap watches. Mr. Dodd had to explain that a sun dial was only good in the latitude in which it was figured, but the man went away, vowing that he would make sun dials good anywhere.

William Earl Hidden, F.G.S., B.N.S., A.N.S., the famous Canadian numismatist, is visiting in this city, last week. Besides being a geologist and gem expert of note Mr. Hidden also is interested in stamps and owns a large collection of very valuable issues. While here he spent some time looking at the collection of Commodore George Worthington.

Frank Force, Ben Sands and A. D. Weed were subpoenaed by Federal Judge Landis.

Chicago, to appear against a man who worked a clever swindle on several Cleveland jewelers a year ago last Christmas. Officers of the Post Office Department followed the man all over the country and he was arrested a few months ago. The man retained a pad of post office money-order

blanks in some manner and made out orders to himself. He presented himself at the stores of several jewelers and purchased articles in each place, tendering in payment the forged order. The amount of the purchase in each case was but a small fraction of the face of the money-order and he cleaned up quite a sum before the fraud was discovered.

There has been considerable talk recently of reviving the Retail Jewelers' Association, which has ceased to be active for some time. The agitators in the movement to revive it advocate more of a social organization than was first planned. The old organization started in by condemning several things, and, as a result, a large number of jewelers who were not in sympathy with such action withdrew their support. The new idea is to revive the old association along social lines and for mutual exchange of ideas and acquaintanceship that is lacking in the fraternity at present. It is believed that an organization of this kind could eventually grow strong enough to take a stand in regard to trade matters and maintain it without antagonizing the majority of its own members.

Kansas City.

P. R. Hassig, of the Hassig Jewelry Co., just moved into his new home in the Roanoke district.

J. K. Greer, Victoria, Tex., and wife, were in this city last week, on their way home from a visit to Paris, Mo.

G. A. Frank, Dexter, Kans., who has been in the drug business at that point, was in this city last week, purchasing jewelry stock.

A. Manifold, Beloit, Kans., stopped off in Kansas City on his return from a visit to the Alaska-Yukon-Pacific Exposition in Seattle.

Martin Hanson, the employe of the Meyer Jewelry Co., who was recently crushed by a freight elevator in the Boley building, is recovering.

F. J. Nevin, of Nevin Bros., has just returned from a short trip to McAllister Springs, Mo., where he was accompanied by his mother.

The Kansas Wholesale Jewelry Co. has taken a 10 years' lease on the second floor of the building to be erected at 1121 and 1123 Walnut St.

C. E. Linton, formerly with A. J. Marks, of this city, and more recently with A. H. Richards, El Paso, Tex., was here last week, on his way east.

Steve Smith, western representative of the Keller Jewelry Mfg. Co., and of Hamilton & Hamilton, Jr., who makes his headquarters in this city, is now taking his vacation.

M. F. Kohler, Parsons, Kans., was in the city, last week, with his son, Sam M. Kohler, Jr., who is attending a Kansas City school of engraving.

All travelers of the Woodstock-Hoefler Watch & Jewelry Co., will start out on the road again this week, with trunks well supplied with the latest offerings in the jewelry line.

Al Borsheimer, Julius Donnelly, Otto Knecht and Herman Fallek, with the Meyer

Jewelry Co., took advantage of the excursion to visit St. Louis Saturday, Sunday and Monday.

J. Johnson, son of J. A. Johnson, a jeweler of Independence, Kans., who started around the world with Jack London, has been heard from in Paris, where he is interesting himself in airships.

W. C. Schumann, M. S. Murray, P. N. Nelson, Fred Cateron and A. R. Norton, all traveling representatives for the C. B. Norton Jewelry Co., left for their respective territories last week, with their new Fall lines.

The Meyer Jewelry Co. has been furnishing a large share of jurors of late. Herbert Koppel has just been released after serving on the jury in the criminal court. Ben Fricke has been serving on the jury in the Circuit Court, and Mr. Lewis has been for the past two weeks serving on a jury in the courts of Kansas City, Kans.

The following jewelers called on the trade here, during the past week: W. F. Kirkpatrick, St. Joseph, Mo.; Walter Starcke, Junction City, Kan.; A. S. Eby, Bartlesville, Okla.; Mr. Jones, of the Crawford Jewelry Co., Temple, Tex.; C. C. F. Lloyd, Rush Center, Kans.; Carl Ricker, Emporia, Kans.; W. H. Pontius, of F. E. Pirtle & Co., Anthony, Kans.; S. A. Noble, La Cygne, Kans.; G. H. Church, Oak Grove, Mo.; M. F. Kohler, Parsons, Kans.; Roy Smithers, Cameron, Mo.

Pacific Coast Notes.

Jere J. Wilson, Dunsmuir, has moved his stock to a new store in the Wells building. Here he has more room and has added new showcases and stands and is branching out to meet the requirements of his trade.

W. R. Livingston has decided that Lindsay, Cal., offers a good field for a store and has just opened a neat establishment in the Seegmiller building. In addition to carrying a stock of jewelry he will do repair work.

The search for F. P. Shepherd, the San Francisco engraver who was lost recently, in the Yosemite Valley, while attempting to climb a peak in the fog, has been given up by the military authorities there and but little hope are entertained of finding him either dead or alive.

E. G. Shorsh, formerly of Abilene, Tex., has taken charge of the work of the jewelry establishment of T. M. Gillenwaters, Azusa, Cal., and contemplates remaining there. When he left Texas, he sent his family to Los Angeles, where he planned to live, but will probably send for them to come to Azusa.

W. C. Schimmel, who was employed as a traveling representative for P. H. Shuey, Red Bluff, Cal., and who was arrested a short time ago on a charge of embezzling about \$400, has been held to answer for the crime and has engaged counsel to defend him. It is stated that he will make the allegation that he was robbed and that he did not embezzle either the money or the jewelry.

Freeman & Stewart is the style of the business heretofore conducted by J. W. Stewart, Shelbyville, Mo., Mr. Stewart having taken a partner.

Bauman. Antwerp.

Reserve bargains in Diamond Purchases for our Trade here.

THE first cablegram was from our Mr. Alvin L. Bauman who is now in Europe. The second one was our reply. These diamonds were purchased by us, in the rough, before the recent advance and at such advantageous figures that we could have resold the entire lot, in the European market, at good profit, but we preferred to give the American trade the benefit of our favorable purchases.

Before Buying Diamonds Consult Us.

L. BAUMAN JEWELRY CO.

CENTURY BUILDING

ESTABLISHED 1844

ST. LOUIS, MO

St. Louis.

Yonge & Co. have moved from 612 Charles St. to 905 Lucas Ave.

Ador Ellers has moved his store from Rimond to Excelsior Springs, Mo.

F. Reeves, of the Reeves-Kemper Co., returned from a 10 days' business trip to Chicago.

The jewelry business of the late Frank Meier, at St. Charles, is being closed out by his father.

Charles Stephan, Staunton, Ill., and Fred Gold, Jerseyville, Ill., were here, making purchases, last week.

E. Tower, of Tower & Long, left Tuesday on a business trip through Oklahoma and Texas.

F. Maritz, of the Maritz, Kober Jewelry Co., returned Tuesday from a business trip in the west.

Mr. and Mrs. August Kurtzborn left Saturday for Battle Lake, Minn., where they will spend the next two months.

Frederick Meier and Frank Meize, of the St. Louis Clock & Silverware Co., have returned from a pleasure trip to Kansas City.

North's Credit Jewelry Co. has filed a petition in Justice Moore's court against J. W. Frank. The amount declared is \$75.

Dolph Bruner, of the E. H. Kortkamp Jewelry Co., left, Friday, on an extended sure trip to St. Paul, Seattle and Alaska.

C. Campbell, formerly with the Carl Jewelry Co., Richmond, Mo., has gone to business on his own account at Excelsior Springs.

Red Gross and wife, of the L. Bauman Jewelry Co., have returned from French Springs, Ind., where they spent the last two weeks.

Decided amending the articles of incorporation of the Henry Lowenstein Jewelry Co. has been filed in the office of the Recorder of Deeds.

H. Loevenhart, of the Crown Jewelry Co., 427 N. Broadway, has gone to Wright City, Mo., on a fishing trip. He is accompanied by his wife.

William Mauch, in business at 1436 South Broadway, is convalescing from a severe illness and is now able to take fresh air in a new automobile.

Thomas Humphreys, of the Lucios Jewelry Co., will leave shortly for a visit to his home at Leicester, England. He will be accompanied by his wife.

E. Friede, with the Quaker City Glass Co., whose home is in St. Louis, will leave Saturday for Texas and the southwest. He will be gone eight weeks.

C. O'Brien, of the Hess & Culbertson Jewelry Co., will leave July 8, accompanied by Mrs. O'Brien, for Asbury Park, N. J., where they will spend two weeks.

Frank Cordes, financial secretary of J. W. Coy & Co., Globe Democrat building, will leave shortly for a trip to Boston and New York. He will be gone two weeks.

R. Horton, member of the firm of C. EBanta & Co., Pittsburg, Kans., is in St. Louis making purchases. Before returning home he will visit relatives in Springfield.

Jacob Stephan, of the F. W. Drosten Jewelry Co., is getting ready to go to North Dakota for a stay of a month. Frank Ger-

ber, of this company, is on his vacation this week.

The H. Abrahams Jewelry Co. has taken out a merchant's license to go into business at 1810 Rutger St. In the application for the license the value of the stock is given as \$3,000.

Adam A. Hainer, Sr., Taylor, Tex., the father of Adam Hainer, Jr., Desoto, vice-president of the Missouri Association of Retail Jewelers, is recovering from a serious illness.

I. N. Hahn, president of the S. A. Rider Jewelry Co., left last Sunday for a trip to Denver, Salt Lake City and Los Angeles. He may conclude to visit the fair at Seattle before returning.

Andrew Wardenski, charged with stealing \$1,000 worth of jewelry from the store of Joseph Galandsky, at 1413 N. 8th St., waived preliminary examination and was released on bond.

I. M. Kosminsky, proprietor of the Rose Jewelry Co., 818 Franklin Ave., returned Thursday from New York, where he was called by the serious illness of his mother, who is now better.

L. D. Culbertson, vice-president of the Hess & Culbertson Jewelry Co., accompanied by his wife and daughter, left Wednesday night for Waupaca, Wis., where they will spend the heated term.

William H. Denber and A. C. Lindsley, of the J. Bolland Jewelry Co., are getting ready for a motor boat trip up the Black River in Arkansas, to study the pearl industry, buy pearls and have a good outing.

Mrs. Martha Faulkner, the only woman delegate to the State convention of Missouri retail jewelers, was featured by one of the St. Louis newspapers, which printed a picture of her and told of her work as a jeweler at St. Charles, Mo.

Loftis Bros. & Co. have just closed a new lease for five years of the quarters occupied by the firm the past five years on the second floor of the Carleton building and are having the interior redecorated.

D. P. Richards, of the Maschmeyer-Richards Silver Co., Carleton building, will leave Saturday night for a trip of business and pleasure to the Pacific Coast. He expects to be gone three or four weeks.

J. L. V. Rogers, of the McCoy-Rogers Jewelry Co., who is a lieutenant of the Missouri National Guard, will go soon, with his regiment, to Fort Leavenworth, for the annual encampment and maneuvers.

Albert Mauch, one of the jewelers who attended the turnfest at Cincinnati, O., has returned. He is a member of the Concordia Turners, the St. Louis organization that took the first grand prize in class drill.

H. C. Grawe, 2318 Carr St., in business at 613 North Broadway, who is helpless from an infirmity, will be taken, Tuesday, by Mrs. Grawe to the country near Troy, Ill., where both will stay five or six months.

F. McCooles, of the Sudheimer & McCooles Co., Holland building, is preparing for a three weeks' outing in the Ozarks. He will hunt and fish. Later A. G. Sudheimer, of the same firm, will take his vacation in the same section.

A. L. Blankenmeister, of the Blankenmeister-Oberting Jewelry Co., Wright building, will return next week from Florida, where he has been spending his vacation. George Oberting, of the same firm, is spending his

vacation in Colorado. Lawrence Oberting is traveling in Missouri.

John A. Gerst, of the Whelan-Aehle-Hutchinson Jewelry Co., has gone to the Ozark Mountains for a stay of several weeks. John Wells, of this company, will leave Saturday for a two weeks' trip to Oklahoma, on pleasure.

S. W. Reisen, Texas representative of the St. Louis Clock & Silverware Co., will arrive Tuesday from his home in Fort Worth to get his samples for his Fall work. He will be in St. Louis about 10 days. Edward H. Meier and Jesse H. Cummings, of this firm, are getting ready to go on the road July 15.

All the cups, medals, etc., awarded at the Scottish Clans picnic held July 5, at Normandy, and the cups awarded to the winners in the Marathon race of 10 miles from 12th and Olive Sts. to Normandy, were purchased of the Hess & Culbertson Jewelry Co. and have been on exhibition in the windows of the firm.

E. W. Bornmiller, of the John Bolland Jewelry Co., went to Alton, Ill., Wednesday night, to be best man at the wedding of Fred R. L. Jones, of this city, and Miss Edith Lea Brenholt, Alton. Mr. Jones is a son of H. R. L. Jones, formerly one of the directors of the Mermod & Jaccard Jewelry Co. The bridal couple have gone on a trip to Chicago and the northern resorts.

William E. Susong, Iowa representative of the Bauman-Massa Jewelry Co., is here, getting ready to start out on a trip through his territory, next week. C. R. Gross, of the same firm, will leave next week for Kansas and Oklahoma, covering the territory formerly covered by A. V. Bauer, who is going to try farming in Nebraska. Mr. Gross formerly traveled in the south.

John D. Furstenwerth, son of the late D. Furstenwerth, started out last week on his maiden trip as a traveling salesman. His first stop was at Springfield, Mo., where he obtained a good number of orders for the Furstenwerth-Uhl Jewelry Co. He is headed for Texas and will cover the territory formerly covered by G. W. Jones, who has been compelled by ill-health to give up his work.

Arthur Carroll Dingelstedt, proprietor of a roller skating academy, who filed a voluntary petition in bankruptcy in the United States District Court Wednesday, states in his petition that the J. Bolland Jewelry Co. holds diamonds and a gold watch worth \$1,600 to secure a debt of \$1,981, and that S. Van Raalte & Co. have a ring and other jewelry of Mrs. Dingelstedt valued at \$425 to secure a debt of \$565.

David Feiss, western representative of Ingomar Goldsmith & Co., New York, with headquarters in the Commercial building, returned from Des Moines, Ia., where he attended the annual convention of Iowa retail jewelers. He will leave next week on a trip to the Pacific Coast, accompanied by his son, Arthur S. Feiss, who will make his maiden trip as representative of the Pennsylvania Watch Case Co., York, Pa., and four other companies.

Charles H. Schoen, who has represented the Elliott Jewelry Co., during the past year, has changed his position and is going to represent factory lines in this city. The territory formerly covered by him will be visited by Al. P. Wolff and Frederick W.

Haverkamp. Mr. Wolff left Tuesday for a trip through Kentucky, Tennessee, Louisiana and Texas, to be gone three months. Geo. B. Moore, of this company, left, Thursday, for a trip through Missouri, Kansas, Nebraska and Colorado, to be gone three months. Mr. Haverkamp will start Monday on a trip through Missouri.

D. H. Golding, Alton, Ill., and B. Massie, Granite City, Ill., were among those who called, last week, on the local trade.

T. L. Stange, of the L. Bauman Jewelry Co., accompanied by his wife and daughter, is spending several weeks in Chicago.

The next time Eugene Snowden, a bank clerk, and Peter A. Simpson, a city fireman, want to buy diamonds they will go to a reliable dealer and pay the price. Mr. Snowden gave Nathan Woodson \$10 for a diamond represented as worth \$135, which turned out to be paste and worth about 10 cents, and Mr. Simpson gave the same man \$13 for a diamond ring alleged to be worth 10 times that much, but which was not worth one-tenth as much. They complained to the police and Woodson was arrested.

Henry Loewenstein, who has been in the retail jewelry business in St. Louis for 22 years, has just completed the organization of the St. Louis Loan Society and has opened offices at the southwest corner of 8th and Olive Sts. The enterprise was formed to advance a fair proportion of the real value on diamonds and other valuable jewelry and advance money on the basis of one and one-half per cent., monthly, including all charges. The plan is an innovation here, but is said to have been successfully operated in other large cities.

Goodman King, president of the Mermod, Jaccard & King Jewelry Co., accompanied by Mrs. King, departed, Saturday, for New York, on their way to Europe. They will sail, July 15, on the *Friedrich Wilhelm*. While in New York, Mr. King will stop at the Plaza Hotel. He will meet his domestic buyers there and hold a business consultation with them before going abroad. Mr. and Mrs. James Hopkins, parents of Mrs. King, who live in New York, will make the European trip with them. From Bremen the party will go to Carlsbad, where Mrs. King and Mr. and Mrs. Hopkins will remain two months. Mr. King will make a tour of the large diamond and jewelry marts of the continent, visiting Dresden, Amsterdam, Antwerp, London, Paris, and probably Vienna. Mr. King expects to return to St. Louis about Sept. 15.

According to the schedules filed by Edward T. Gotsch, until lately in business at 412 Olive St., but now undergoing bankruptcy proceedings, his creditors will not receive a very large number of cents on the dollar. He gives his resources as 90 cents cash on hand, a note for \$91, stock worth \$100, household goods worth \$210 and books worth \$10. In addition there is an equity which he estimates at \$627 in jewelry that he pawned for \$1,075, and he has owing to him by customers \$271.05. His principal creditors are the Eisenstadt Mfg. Co., \$756, and the Maritz-Kober Jewelry Mfg. Co., \$575. Other creditors, for smaller amounts, are the St. Louis Cloak & Silverware Co., the Sol. Loewenstein Jewelry Co., the Geneva Optical Co., the Bauman-Massa Jewelry Co., Jarvis & Peterson, the

Elliott Jewelry Co., the Masehmeyer-Richards Silverware Co., J. Kabeinell and J. R. Wood & Sons. Chase Morsey, the receiver, is doing his best to assemble the assets.

Minneapolis and St. Paul.

Thomas H. Weld, Minneapolis, has returned from a visit to Cincinnati, O.

E. A. Barker, North Minneapolis, is a member of the Gateway Park Commission.

J. J. Yaeger, Minnesota St., St. Paul, has been confined to his home by an attack of rheumatism.

Harold Johnson, with the American Jewelry Co., Minneapolis, is suffering from an injured finger.

F. L. Bosworth, of the F. L. Bosworth Co., Minneapolis, has returned from a visit to New York.

Mr. Stewart, Carver, Minn., was in the Twin Cities, attending the Pythian convention, last week.

W. V. Jean & Son, Minneapolis, have retired from business and will go to California to engage in mining.

Quade Weld, of Weld & Sons, Minneapolis, was married, June 30, to Miss Fay Kent, at St. Paul's Episcopal Church.

E. H. Brandes, of the Paegel Jewelry Mfg. Co., Minneapolis, visited his former home at Aberdeen, S. Dak., last week.

Edward Langen, buyer for the jewelry department of the Powers Mercantile Co., Minneapolis, has gone east on a buying trip.

Axel Madsen, of Rettig, Hess & Madsen, Minneapolis, has returned from his vacation spent at Lake Sylvia, near Annandale, Minn.

F. W. Seaman, St. Clair, Minn., formerly a retailer in St. Croix Falls, Wis., was in the Twin Cities the past week. Mr. Seaman is looking for a new location.

White & MacNaught, Minneapolis, have had a demonstration of the manufacture of cut glass in their display window, the Eagle Cut Glass Co. having installed a bench and workman.

The American Jewelry Co., Minneapolis, was recently incorporated with a capital stock of \$50,000, Benj. Banks, Max A. Kohen and Samuel Alexander being the incorporators.

Dahl & Fredin, 2407 Central Ave., Minneapolis, have moved into the adjoining store, at 2409, where they have larger quarters. The firm started four years ago, and has built up a good business.

Among the jewelers in the Twin Cities during the week were: A. G. Feinberg, Brownton, Minn.; Miss Bertha Diacon, Chaska, Minn.; A. G. Scherf, Red Wing, Minn.; F. L. Brown, Owatonna, Minn.; H. P. Marx, Shakopee, Minn.

The Paegel Jewelry Mfg. Co. completed the contract to manufacture the prize trophy offered to the winning team at the Twin City Pythian Festival. The trophy was a silver punch bowl with ladle, 24 cups and tray, all of the same design. Each piece was marked with the Pythian shield and the initials F. C. B.

A recent tournament of firemen at Devil's Lake, N. Dak., attracted a number of jewelers from surrounding towns, including the following: E. H. Gross, Kenmare, N. Dak.; Paul Berens, Westhope, N. Dak.; P. L. Peterson, Rugby, N. Dak.; S. M. Smith, Williston, N. Dak.

Detroit.

TRADE CONDITIONS.

Business has been very good during the season just closed, better by far than last year and rather beyond the expectations of the boom prior to the panic of 1907. All lines of the report favorably and the general feeling is that business is on the up-grade and will continue to improve.

John Turek, Wayne, was in the city on a purchasing trip, a few days ago.

William Arnold and wife are planning a six-weeks' trip to the Pacific Coast.

M. E. Rowley, with the E. H. Purdy Co., will soon go with his wife to Michigan to spend his vacation.

Joseph Miller, Ypsilanti, who was in the city, last week, says that he has been very busy lately and finds trade excellent.

R. J. F. Roehm left, Saturday, for a month's trip through the east. He will meet old acquaintances in the eastern cities.

Charles R. Miller, secretary of R. J. Roehm & Co., was in Chicago, all last week, attending the Sigma Chi fraternity convention.

James H. Garlick has disposed of his branch store at Grand River and 14th to Alva Hunn, who has been his neighbor.

George T. Baker, Bemidji, Minn., was here, last week, with his wife, and to the advantage of the occasion to get acquainted with the trade.

Wright, Kay & Co. have closed their retail department for two weeks, during which time some alterations and repairs will be made.

Charles J. Thiry, James H. Garlick, A. Guthrat and E. A. Buchbinder were in Los Angeles with the local Elks, and are working to land the 1910 reunion order for Detroit. It is their intention to take in some of the other coast cities while west, and perhaps to visit the St. Louis exposition.

Burglars attempted to break into a wholesale jewelry store of Noack & Goff, 100 Woodward Ave., Monday night last week. They evidently made attempts to force one of the rear doors, but were frightened away. Two policemen of the relief squad noticed that an outer door had been forced and made an effort to locate the men, but the thieves escaped.

A successful trip was made by the Detroit team from Detroit Nest, No. 5, Noble & Co. of Ku Kus to the Ohio Jewelers' convention at Cedar Point, last week. The party included Frank Kenyon, A. E. Charlesworth, M. E. Rowley, A. Patterson, Nelson K. Standart, George Convis, John Morehouse and Ben. S. Several of the Detroiters took their wives.

J. H. Dunaway & Co., Burlington, Wash., are offering creditors a settlement on the basis of 60 per cent., 20 per cent. payable on acceptance, 20 per cent. in 30 days and 20 per cent. in 90 days. Jos. Dunaway is president, his associate in business being M. G. Launn. Mr. Dunaway has been in the jewelry trade since 1904. The business he founded was taken over by the Dunaway-Ferguson Co., which was formed Feb. 18, 1908. This corporation later dissolved and was succeeded by J. H. Dunaway & Co.

Indianapolis.

Carl Walk will spend his vacation in Indiana.

J. Kiefer will go to Lake Maxine, next week, for a two weeks' fishing trip.

C. Sipe, July 10, will sail for Amsterdam, where he will purchase a stock of goods.

Markowitz, secretary of the I. Grohs' Jewelry Co., left, last Saturday, for a two months' business trip through Texas. The Baldwin-Miller Co. has obtained the services of J. R. Shepard as house salesman. He was formerly with the I. Grohs' Jewelry Co. in a similar capacity.

J. P. Mullally, who is president of the Catholic orphan home, had charge of card tables at the St. Vincent's Hospital festival, held at Fair Bank, all of last week.

W. Pearson, a mussel digger, arrived at Evansville, one day last week, with a pearl, said to be the finest that has been found in the Wabash River for several years.

B. Jones, watchmaker for J. P. Mullally, has purchased a motorcycle and expects to make a number of trips this summer. He made a run to Martinsville and back, last Sunday.

Charles W. Lauer, of C. W. Lauer & Co., and J. Hoffman & Lauer, has returned after an eastern trip of three weeks. He attended the convention at Philadelphia, after which he went to New York.

Several retail jewelers were in this city, last week. Among those who called on the trade were: George Spahr, Lebanon;

Pickett, Newcastle; J. W. Owen, Wood, and G. C. De Camp, Shirley.

R. Mauzy will leave, Aug. 1, for the city at Seattle, Wash., and from there will go to California, where he will remain for one month. He will join Mrs. Mauzy, who has been in California for the last two months.

The Marion County Review has about completed its work of fixing valuations of property for tax assessment purposes. Last week the valuation of Julius C. Walk was placed at \$25,310, and of the I. Grohs Jewelry Co. at \$2,000.

In making his committee appointments for the year beginning July 1, Albert Baker, president of the Indianapolis Board of Trade, named Charles Mayer, of Charles Mayer & Co., as a member of the Local Interests and Shipping Committee.

Lawrence Kohlmeyer, a diamond setter employed by Carl Rost, was married Tuesday, June 30. The bride was Miss Mary Gehring, of Bloomington, Ill., the wedding taking place in that city. After a short wedding trip they will live in this city.

J. Ertel, a pawnbroker and jeweler, and Wilbur S. Smith, optician, with Gray, Green & Gray, are being talked of as candidates for the city council, to fill the unexpired term of six months made vacant by the resignation of Councilman W. O. Smith.

A new record in taking an inventory was established by Julius C. Walk & Son, last week, the work being accomplished in

one day. Formerly the work has required two or three days. Preparations were made several days in advance, the stock being assorted so that the invoicing was greatly expedited.

The following jewelers have signed an agreement with other retail concerns to close their stores at 5 p.m. daily, from July 6 to Sept. 3: Julius C. Walk & Son, Chris Bernloehr & Bro., F. L. Bryant, Horace A. Comstock, H. Cohen & Sons, L. F. Kiefer & Son, Charles Mayer & Co., who will close at noon on Saturday, also Lon R. Mauzy, Fletcher M. Noe and the New York Store.

Cincinnati.

Joseph Melmert is on the road looking up the southern trade.

Miss Davis, with the Miller Jewelry Co., is away on her vacation.

Sol. Gilsey, of S. & H. Gilsey, has left on his regular southern trip.

Roy Keagy, of Thoma Bros., and wife and daughter are away on a pleasure trip.

George Detmering and Gus Frank, with the M. Schwab Jewelry Co., are out on the road.

Jno. Otting, bookkeeper for Herman & Loeb for the past 23 years, is away on his first vacation.

Mr. and Mrs. A. G. Schwab, after spending three weeks at Carlsbad, will spend the month of July in Switzerland.

George Greyer, Anderson, Ind., surprised his many Cincinnati friends recently by marrying Miss Kidwell, of Los Angeles, Cal.

A. A. Oaks, manager of the Oskamp Jewelry Co., leaves, this week, for the north and east, on business and pleasure combined.

Charles Swigart has returned from his vacation, and Jno. Francis and family, of the Swigart firm, leave, this week, for Buckeye Lake, O.

The many friends of Anthony Westhoff, of the Frank Herschede Co., have extended to him their sympathy, owing to the death of his mother, Mrs. Gertrude Westhoff.

William Pflueger, with Jos. Noterman & Co., leaves, the first week in July, for the Georgian Bay (Canada) regions, spending a much-needed vacation fishing and resting.

William S. B. Oskamp, of the Oskamp Jewelry Co., leaves, this week, for Europe, to purchase diamonds and other precious stones for their new store at 7th and Race Sts.

Wallace S. Miller, of the Miller Jewelry Co., was married, recently, to Miss Margaret Berry, of Marshall, Ill. They are spending their honeymoon in a bungalow in the woods.

Mr. and Mrs. Herman A. Rohs, Cynthia, Ky., recently spent a few days in the city on their way to Los Angeles, Cal., where they are going to attend the Elks' big convention.

Frank Smith, who for many years was in the jewelry business at Parkersburg, W. Va., but is now postmaster of the town, was in this city during the past week, calling on his old friends.

George Nagel, who has a retail jewelry store at Liberty and Race Sts., was robbed of \$75 worth of jewelry, June 27, by thieves

who broke his show window. The loss is covered by insurance.

A. G. Rubin, with the Julius Friton Jewelry & Gem Co., St. Louis, Mo., and his bride have returned home after spending their honeymoon most delightfully in Cincinnati, attending the Turners' convention and visiting friends.

The following jewelers were in the city buying stock, recently: J. L. Sherwood, Ewing, Ky.; J. L. McCoy, Benham, Ind.; A. Schaeppi, Minneapolis, Minn.; J. H. Cunningham, Muncie, Ind.; Phil. Horr, Aurora, Ind.; J. C. Meyer, Harrison, O.; William M. Smith, Leesburg, O.; G. H. Ashton, Middletown, O.

A pretty wedding took place, last week, at the residence of Mr. and Mrs. Charles A. Nolting, of Clifton Heights, when their daughter, Miss Myrtle Nolting, was united in marriage to Frederick Siehl. An altar was arranged before which the ceremony took place, the Rev. P. G. Safran officiating. Miss Florence Nolting, the bride's sister, was maid of honor, while Benjamin Siehl, the groom's brother, was best man. The wedding supper followed the ceremony, which took place in the presence of the immediate families only. The bride and groom left for a wedding journey in the south, and on their return will live in the pretty new house presented to them by Mr. Nolting, on Lyon St., Clifton Heights.

Toledo.

C. C. Winans will leave within a short time for his annual vacation, which is usually spent in Chicago.

Sylvan Basch has just started an optical business in connection with his jewelry business and has employed Warren Boice as manager.

The announcement of the impending marriage of Mary Ruth Locke has just been made. Miss Locke has for several years conducted a small art store in the residence portion of the city.

J. J. Freeman & Co. did not hold their annual firm outing, which has, during past years, been held on July 4. Owing to the several holidays coming together this year, the affair has been held over on account of several employes desiring to take trips to various points. Whether it will be held later in the season has not yet been decided.

The final hearing in the litigation between Isenberg Bros. and Sylvan Basch was scheduled to take place this week. The court will decide whether or not a permanent injunction is to be granted Isenberg Bros., prohibiting Sylvan Basch operating under the firm name of Basch & Co. Isenberg Bros. some months ago, purchased the business of L. Basch & Co., which had been established by Sylvan Basch's father and of which business Sylvan Basch was manager. Subsequently the younger Basch started another business under the firm name of Basch & Co.

Part of the stock stolen from Kline Bros.' store at Baxter, Ia., June 4, has been recovered at New Ulm, Minn.

Snyder & Homan, Prescott, Ia., have dissolved partnership, Park Homan continuing the business on his own account.

San Francisco.

TRADE CONDITIONS.

While acknowledging that their trade was rather light during the last few weeks they were located on Van Ness Ave., in their temporary quarters, one large concern, states that since its removal to a new store business has been in the nature of a record breaker. April and May business was not only far ahead of what it was last year but was heavier than had ever been experienced during those months, even in the days before the fire. The June business has been rather lighter on account of vacations and a large part of the jewelry purchasing public is now out of the city. However, even with this drawback, business is of satisfactory volume and a constantly increasing tourist trade is to be noted.

L. H. Smith, one of the traveling salesmen for A. I. Hall & Son, will soon become a benedict.

Mr. Brown, representing Carter, Howe & Co., was in San Francisco, last week, with the lines of that firm.

Ray Bossler made a trip up north recently and while away visited the Alaska-Pacific-Yukon Exposition, at Seattle.

J. J. Valentine, of the traveling force of A. I. Hall & Son, has just returned from a prosperous trip through the territory north of San Francisco.

H. L. White, Ashland, Ore., was here recently on his way to the Yosemite Valley. On his return he visited some of the large wholesalers and placed orders for Fall stock.

The S. & G. Gump Co. has moved to its three-story store building at 268 Post St. This firm carries considerable in the jewelry line at times, special attention being paid to Oriental goods.

Among the jewelers who visited San Francisco, during the past week, for the purpose of purchasing stock, were: B. Levy, Newman; A. E. Howard, Merced; A. Howard, Oroville; J. J. McEvoy, Kennett, and T. G. Patton, Placerville.

Charles Gilbert, 731 Market St., has filed a petition in bankruptcy, with liabilities of \$3,307 and assets of \$3,872. Jan. 5 he transferred his stock and pledges to Benjamin Michaels on agreement that he was to pay all the creditors.

Shreve & Co., in their new quarters at Grant Ave. and Post St., are in a better position to cater to the needs of the discriminating public, as the new location could hardly be improved upon. The firm has a store far in advance of anything ever attempted by it before and business has greatly increased.

Hirschman & Co. are now located in their fine new store on Grant Ave., just above Post St., and almost directly across the street from Shreve & Co. The new store is fitted out along the lines of the stores that have been conducted by this concern in the past, room being one of the first considerations. The furnishing of the place is very fine, the woodwork being of mahogany with walls of white and gold. The Van Ness Ave. store was closed about the middle of the month and the selling force moved to the new establishment.

The Jewelers' building has been filling up very rapidly of late and is now practically full. Some other members of the wholesale trade would have liked to have been able to have secured quarters in this building, but have been prevented from doing so by leases on the quarters now occupied by

them. Among the more recent arrivals in the Post St. building have been C. G. Creyk, handling watch materials; George M. Kyle, representing among others the American Silver Co. and the Aldrich Mfg. Co.; George Larson, engraver; the J. H. Merrill Co., H. Paulson & Co., handling watch materials; W. E. Robins, watchmaker, and H. Schiller, engraver.

Following the seizure by Collector of the Port Stratton of the thousands of dollars' worth of Oriental art goods consigned to California importers, it has been learned here that the Treasury officials at Washington have ordered Marion DeVries, president of the General Board of Appraisers, to conduct an investigation. It is known that Local Appraiser Mattos has been working for months with secret agents of the Treasury Department in Oriental ports, with the object of uncovering what is generally believed to be a smuggling ring of gigantic proportions. Systematic undervaluation of foreign shipments is the chief charge made by the customs officials here.

Los Angeles.

Louis Roessler has returned to his old place in the sales force of the Whitley Jewelry Co.

R. H. Schwarzkopf has returned from Honolulu. He reports a very pleasant and successful trip.

Most of the leading jewelers in the retail trade will close their stores at noon during July and August.

Eugene A. Reboul, head engraver with the Donovan-Seamans Co., accompanied by his wife, has gone on an automobile trip to San Diego.

Fifteen employees of the E. W. Reynolds Co. enjoyed an outing together, a few days ago, on a yachting and fishing trip along the Pacific Coast.

C. C. Noble, chief salesman in the diamond department of Montgomery Bros., who has been suffering from ill health recently, has gone east for a short rest.

The work of repairing S. B. Bailey's store, which was recently badly damaged by fire, is nearly completed. Mr. Bailey began a sale of his damaged goods there, July 6.

Out-of-town jewelers who have been here, recently, include: R. H. Wilson, Ocean Park; F. E. Wolfarth, Covina; J. D. Morrow, Oceanside; T. R. Jones, South Pasadena; E. J. Pollock, Riverside; W. W. Hunt, Avalon, and E. B. Smith, Santa Ana.

There was an exceptionally large demand for wedding rings and wedding goods generally, during the latter part of June. On account of a new law going into effect which is more exacting than the old one in the conditions of obtaining license to marry, there was a rush of applications at the County Clerk's office.

The Whitley Jewelry Co. has been selected as the official timer for the Santa Monica Road Race, to be held July 10. This race will be the greatest of its kind ever held in the west. Fifteen automobiles have been entered. The winner is to receive a \$1,000 trophy, a cup designed and made by the Whitley Jewelry Co. I. B. Lothrop will be the head timer, assisted by Joseph Lawton and 15 others.

Among the traveling representatives who on the trade in Kansas City, Mo., during the week, was G. F. Peusch, Vallorbes Jewelry.

Among the travelers who visited Buffalo, N. Y., last week, were: J. T. Griffith, Jr., Ter, Howe & Co.; Alfred Nathan, Henry I. Kopf; H. L. Straus, Nathan Wallach, W. S. Cory, Clark & Noon.

Traveling representatives in Boston, Mass., week, included: B. F. Griscom, Bippart, Gr. & Osborn; Arthur Connitt, Link & Angell; G. W. Read, Larter & Sons; Mr. Gowell, H. Schmidt, H. E. Slater, Whiteside & Blank, Neveus, Harvey J. Flint Co.

Traveling representatives who visited the in Omaha, Nebr., last week, were: A. S. A. George B. Hurd & Co.; Charles Jacot, Friedl Spidel; M. E. Van Bergh, Van Bergh Plate Co.; Charles Ballin, Ballin Bros.; S. Rosenau, Steiu & Hochberger; C. L. Waj Laughlin Mfg. Co.

The following traveling representatives on the trade in Pittsburg, Pa., recently, C. Frank, Worthington & Raymond; Mr. Fisher, Swift & Fisher; Emil Herbeck, Herber Co.; Harry B. Kennion, Parks Br. Rogers; George A. Schuetz, Snow & W. Co.; Charles T. Dougherty, Osmer-Dougherty.

Traveling representatives in St. Louis, Mo., during the past week, were: M. L. Barnard, I. & Sons; F. R. Horton, Carter, Howe & C. E. Jacobus, Bride & Tinckler; John A. Abel Bros. & Co.; George L. Jann, C. F. R. & Sons; Abel King, Emrich, King & Sch. C. A. Holbrook, Sloan & Co.; Rudolph Schw. H. Z. & H. Oppenheimer; George A. Jochu Cornhelsen; W. J. Harber, Enos Reha & Co.

Omaha.

E. W. Brookman, Dubuque, Ia., was visitor in Omaha, last week.

C. B. Brown, accompanied by his wife, left, Sunday, July 4, for a three weeks' trip through Colorado.

F. Lyman, formerly of Denver, Col., has taken a position with Carson & B. manufacturing jewelers of this city.

Miss Margaret Gorman, with Albert Holm, has been confined to her home several days on account of illness.

Mrs. F. L. Combs and children are expected to return home, this week, after a month spent at Detroit and the lakes.

A valuable 18-kt. hunting case chronograph watch was purchased, last week, from Mawhinney & Ryan Co. as a graduation gift.

L. B. Hoyer, jeweler of Woodbine, Chas. Threen, Lyons, Neb., and C. Melick, Orleans, Ia., were in this city week, purchasing stock.

O. L. Wright, formerly bookkeeper for the Mawhinney & Ryan Co., spent a few days in this city, last week, en route to Lincoln to St. Paul, Minn.

Rosaire Morin, Crookston, Minn., admitted a partner into his business, firm style becoming Morin & Dufault.

The Kirkpatrick Jewelry Co. has been incorporated in Oklahoma City, Okla., with a capital of \$20,000, by A. J. Kirkpatrick, B. Kirkpatrick and others.

Boston.

Ralph Leroy Harlow has returned from trip to New York.

A. W. Armington is in Europe in the interests of the Shreve, Crump & Low Co. A. S. Hirshberg and family are guests for the Summer at the Pine Hotel, Cotuit, Mass.

Percival S. Nichols is making his residence at Cohasset during the Summer months.

Benjamin D. Shreve and family are occupying their beautiful Summer home at Islesey Island.

The E. Howard Watch Co. factory was closed, Wednesday of last week, for a two weeks' vacation.

Curtis W. Pierce spent a most enjoyable month of July at the Pierce homestead in Middleboro. Mr. Pierce is immensely fond of outdoor sports, and especially successful golf and polo.

Jeremiah Foster, a popular jeweler of Lancaster, is a member of the citizens' committee which is planning a big celebration in honor of President Taft's visit to Lancaster, Aug. 4.

Jewelers in town, last week, were: John W. Liso, Providence; B. G. Couri, Portland, Me.; Charles H. Sinclair, Concord, N. H.; D. Loring, Plymouth, and G. Willis Whipple, Salem, Mass.

William J. Hardigan, an employe in the Waltham Clock Co.'s factory, has brought suit against George F. Bailey, superintendent of the Waltham screw factory, to recover damages, alleging that on April 19 Bailey's automobile struck a baby carriage in which the Hardigan infant was seated, and that as a result of the collision the baby carriage was wrecked and the little one injured.

Three boys entered the store of J. F. Brown, Harvard Sq., Cambridge, Monday afternoon of last week, and asked to be shown a picture frame. The young woman in charge was obliged to go to the rear of the store to show the frame to one of the boys. While they were talking the other boys left. After the third boy had departed it was discovered that two diamond rings were missing.

The mailing of 20,000 catalogues of the Waltham Watch Co., last week, made a lot of extra business for the Waltham postoffice. Each catalogue weighed 1½ pounds and required 12 cents in postage. The receipts at the Waltham postoffice from the watch company, last week, amounted to about \$2,500. Foreman George Adams, of the adjusting department, is spending his vacation at his Summer residence at Egypt Beach, Scituate, while Foreman Herbert Sanders, of the balance department, is visiting in Maine.

Parker Ridler, well known in the trade for the past 40 years, died, Monday night of last week, at his home in Somerville after a short illness. Death was due to diabetes, and though Mr. Ridler had suffered with it for some years it did not prevent him from attending to his business duties. It is believed that the extreme hot weather hastened the end. He was out of business only four days prior to his death. Mr. Ridler was a native of Chelsea, Massachusetts, in which city he was born 60 years ago. A young man of 20 Mr. Ridler entered

the employ of the house of H. T. Spear, with which he remained for 25 years, or until the firm went out of business. For the past 15 years he was associated with Harwood Bros. Possessing a genial nature and kindly disposition, Mr. Ridler had a wide circle of friends, who sincerely mourn his death. Moreover, he was a most efficient salesman, and his ability was recognized throughout the trade. A widow survives him. Funeral services were held Thursday. A lodge of Odd Fellows, of which he was a staunch member, assisted in the burial exercises. The interment was in Woodlawn Cemetery.

Connecticut.

Simon Cverka, a jeweler of New Haven, was recently recommended to be discharged from his debts in bankruptcy.

The New Haven Clock Co., New Haven, closed July 2 for two weeks. An inventory will be taken during the interval.

The factory of the Seth Thomas Clock Co., Thomaston, will close July 22 and will resume operations, Tuesday, Aug. 10.

H. Kohn & Sons, Hartford, made and supplied the beautiful trophy which was awarded to the yacht *Sigma* by the Hartford Yacht Club recently.

Irving H. Chase, secretary and treasurer of the Waterbury Clock Co., Waterbury, accompanied by his family, left, last week, for his Summer home in Narragansett Pier.

The E. Ingraham Co., Bristol, closed June 26 and will reopen for business July 27. The unusual length of this vacation is due to the fact that the concern wishes to install several new boilers and make other extensive improvements in the plant.

Some time early in the morning of June 28 thieves broke into the store at Wallingford, occupied jointly by the jewelry business of A. A. Hull and that of a millinery concern. Though the robbers looted the shelves of the latter concern they took nothing from Mr. Hull's stock, due, he believes, to the fact that he prominently displayed the sign showing his membership in the Jewelers Security Alliance.

A seizure by Constable Edward J. Lacy of a grip, containing \$5,000 worth of diamonds, belonging to A. Isserman, Newark, N. J., created considerable excitement in Vogel's jewelry store on Main St., Hartford, Thursday afternoon. The seizure was in the nature of an attachment for the benefit of Jacob Aronberg, Waterbury, but, according to Isserman and his attorney, Morris Older, Constable Lacy did not have a proper writ for the attachment. When the officer took hold of the grip containing the diamonds, Isserman resisted most vigorously, but the officer finally extracted about \$2,500 worth and gave the rest back to Isserman. The jewels, which he attached, were locked up in the safe of a local jewelry store. The trouble was over a suit for \$300 damages claimed by Aronberg. According to Mr. Older Aronberg and Isserman each put in \$3,000 into a partnership to import diamonds. Later Aronberg thought that he needed money and wanted to withdraw it, Isserman giving him all except \$300, which he kept for expenses of the firm. Over this \$300 the suit, which is now in the Court of Common Pleas, was begun.

Aronberg says that, on May 9, 1907, Isserman gave him a note for \$150, which was payable two months after date at the Union National Bank of Newark, N. J., but that Isserman never paid it. A writ was said to have been issued on this matter of the note and given to Constable Lacy, who waited for Isserman until he appeared in town when he seized the diamonds.

Lancaster, Pa.

Marcus Edelstein paid a visit to Philadelphia, last week.

Frank S. High is spending a two weeks' vacation in Albany, N. Y.

Dr. C. L. Morris, missionary for the Hamilton Watch Co., has returned from a trip to the west.

Oliver Dean, Columbus, O., is visiting his brother in this city, which was where he learned the jewelers' trade.

Howard T. Percival, Louisville, Ky., en route from a visit to New York and Boston, stopped over a few days in Lancaster, last week, to see relatives.

Martin M. Weaver, Fort Wayne, Ind., in company with J. H. Young, a former student of the Bowman Technical School, has been here visiting his old home.

George R. Weber, of Louis Weber & Son, is conducting the arrangements for the big outing which the local Knights of Columbus will hold at Hershey Park, July 13.

George Folckner, with G. C. Burrell, Weston, W. Va., who was on a visit to his old home, Shrewsbury, Pa., paid a visit, last week, to Lancaster, where he has many friends.

F. A. Huber, of the H. S. Meiskey Co., left, recently, on an extended trip over his regular territory, and Roman Kircher, of the sales department, is spending his vacation in New York.

George S. Fulmer, Pittsburg, Pa., was married, last week, to Miss Isabel Wilson, residing near Lancaster. The couple will locate in Denver, Colo., in the Fall, where Mr. Fulmer will open a jewelry store.

Traveling representatives will find it advantageous to remember that the jewelry stores close every day at 5 p. m. except Mondays and Saturdays. Friday afternoons will be observed as a half holiday until Sept. 10.

Alfred W. Moyer, manager of the Non-Retailing Co., and Milo B. Herr, one of the board of directors of the same concern, with their wives, have gone for a fortnight's trip along the New England coast and as far north as Nova Scotia.

Charles D. Rood, president of the Hamilton Watch Co., a few days ago, entertained over 400 employes of the watch factory with an outing on the lawn of H. S. Williamson's country residence near Lancaster. All sorts of amusements were provided, and luncheon was served.

T. R. Helms, Hamlet, N. C., visited Lancaster, last week, and other jewelers who were recent visitors are H. E. Tice, Myers-town, Pa.; Fred. Kaufhold, Columbia, Pa.; C. E. Hinkle, Ephrata, Pa.; H. F. Maurer, Strasburg, Pa.; Harry Wertsch, Lititz, Pa.; John B. Paules, Baltimore, Md.; D. G. Pointer, Detroit, Mich., and Elmer Good, Pittsburg, Pa.

Pittsburg.

TRADE CONDITIONS.

The street car strike, which began Sunday morning a week ago, terminated 48 hours later, much to the delight of the business interests of the city. Monday, following the strike, very little business was done in any section of the city, for many employes had great difficulty getting to and from work, on account of the complete tie-up of the cars. Shoppers remained at home. The termination of the strike was most joyous news to all merchants, and there is little likelihood of fresh trouble starting.

Wm. Hoffman, who went to Philadelphia to bid his sons *bon voyage* on their trip to London has returned to his desk in Pittsburg.

F. H. Hayes, Washington, Pa., and Harry Blosser, New Kensington, were among the out-of-town merchants who were in Pittsburg, last week, on business.

E. P. Roberts & Son have been making some very attractive displays of golf and tennis trophies, which jewelers are finding a market for at present in this section.

Abraham Lewis will probably obtain his discharge in bankruptcy July 6, which is the date this formality will be brought to the attention of the United States District Court.

Heeren Bros. & Co., Pittsburg, recently made all of the badges used by the employes working on the Philadelphia traction lines. The order, which was a large one, kept their shop working for some time.

R. L. Kirkpatrick, Butler, leaves in a few days for California with his lodge of Elks to attend the convention of that order in the Golden Gate State. He intends to see some of the country before returning home.

George S. Dunbar, who made a trip through the Yellowstone Park, the Grand Canyon and other wonder spots of the far west, has returned to Pittsburg and will go on the road again shortly for the Geo. B. Barrett Co.

The new Fifth Ward School on the North Side is to have a tower 170 feet high which will be illuminated and in which will be installed a handsome clock. The clock, it is stated, is to be one of the largest in the city, made necessarily so because of the great height of the tower.

A. A. Kerr, Philadelphia, furnished the medals which were distributed to Fourth of July contributors of the fund collected by the mayor of Pittsburg. Most of the jewelers, along with other business houses, were sent certificates in denominations of \$10, or whatever amount it was desired that they should give. In return each contributor received a metal badge entitling him to all of the privileges at the festivities which were held Monday in Schenley Park.

John West, alias George West, Robert Wilson and James Orris, who were arrested some time ago for working a swindling game, pleaded guilty in Criminal Court, last week, to a charge of conspiracy, but were not sentenced because Orris and West were also charged with larceny from the person. It is said that the men would enter a store and drive a bargain to sell a watch on the pretense that they must have money. Shortly after the sale would be made another would come to the proprietor and threaten him with prosecution unless he turned the watch over to the one making

the demand. As a result the men got into trouble. The man would claim that the watch had been stolen. Gahel Middleman, however, refused to be worked in that way and had the men arrested.

Atlantic City, N. J.

Louis J. Deacon, it is reported, will open a store at Cape May, N. J.

A. P. Noble, of 2230 Boardwalk, will open a new store at 2270 Boardwalk.

L. K. Soddy, 801 Boardwalk, will go out of the jewelry business and only handle laces, etc.

A. Karsa & Son, 825 Boardwalk, have opened a store at 1507 Boardwalk, handling Oriental lines.

Giacomo Barone, has opened a new store at 161½ S. Virginia Ave., handling coral, cameos and mosaic.

S. Alkazin, 823 Boardwalk, has given up the jewelry lines and will only handle leather goods and novelties.

Jacques Packer, 829 Boardwalk, has opened a new leather goods store and will put in lines of jewelry also.

Krikorian & Manookian, 1109 Boardwalk, who handle Turkish jewelry, have a store at 16 E. 18th St., New York.

H. F. Meyers has opened a store recently and carries jewelry, porcelain and china at Atlantic Garden, on the Boardwalk.

I. L. Resnick & Co., manufacturers and retailers of fancy and burnt leather novelties at 1303 Boardwalk, have enlarged their store.

H. R. Prall, of the Prall Mfg. Co., 922 Filbert St., Philadelphia, has opened a store here for handling novelties and fountain pens.

Henry Bolte, Jr., one of the youngest councilmen here, has greatly enlarged his store, taking double the space he had before, at 926 Atlantic Ave.

J. C. Fenton, manufacturer of monogram jewelry at 12th and Filbert Sts., Philadelphia, has opened a branch store at 105 S. Kentucky Ave., in charge of T. J. Gallagher.

Freund Bros., opticians at Maryland Ave. and Boardwalk, have enlarged their store and put in new machinery and carry a large line of optical goods and photographic goods, etc.

Gilbert F. Cosnette, Bridgeton, N. J., has opened a store called the "Sign of the Hammer," handling hammered copper, brass and silver novelties, made by himself, at 2611 Boardwalk.

J. E. Coatsworth, optician, who was at 1628 Atlantic Ave., has opened a new store at 1635 Boardwalk and put in his own machinery for grinding lenses. He will also carry a full line of jewelry.

D'Launperic, importer of Italian and Scandinavian works of art, jewelry, etc., at Pennsylvania Ave. and Boardwalk, has also stores at Lakewood, N. J.; Florence, Italy; Copenhagen, Denmark; London, England.

Mrs. R. P. Schwartz has closed her store at 1437 Boardwalk, which she had for 10 years, and started a new store at 1421 Boardwalk, carrying a fine line of ladies' goods and complete lines of jewelry and optical goods.

Jennie E. Lyall, 1003 Boardwalk, has the

exclusive sale of brooch pins, made in Philadelphia by a Frenchman, and mounted herself in mother-of-pearl cameos, abalone shell and abalone pearl, moss agate and other stones.

William J. Adler, optician and jeweler, 1625 Boardwalk, who has been in business here 15 years, and is one of the oldest on the Esplanade, has opened a new store at 1913 Boardwalk and has put a new store in at the Boardwalk store at 1625.

T. D. Dunn has opened a new store at 1945 S. Carolina Ave., as importer, manufacturer and originator of Italian mosaic jewelry, cameos, the near diamond, etc. retail and wholesale. He recently gave his store at 7th and E Sts., N.W., Washington, D. C.

Mable Little, of the Stephen Girard building, Philadelphia, has invented a pin holding up ladies' long skirts and has other uses, has opened a store at 1 Boardwalk, to display her new invention. She will organize a company, with a capital of \$125,000, to manufacture and sell the article, made of gold, silver, bronze and metal, etc.

A few weeks ago a statement was published that there were 60 firms in the jewelry business here. By actual count there are 110 in the business, which is more than in any other year. The permanent population here now is 45,000; the transient population in Winter is 150,000 and in Summer 300,000. It is in the Winter time that the finest lines of jewelry are sold, but in Summer everyone looks for some new or novelty and they want it as cheap as possible. Many firms get up some novelty and when others handle the same thing they get rid of their stock and something else.

Association Notes.

The Syracuse Retail Jewelers' Club completed arrangements to have its members close their stores on Saturday afternoons of July and August at 1 o'clock. Members of the club, whose stores will be closed, are H. J. Howe, Stetson & Croft, E. W. Frost, E. B. McClelland, S. Kaman, E. M. Coykendall, K. Krause, Vandenburg & Durney, C. H. Miller, Harry Clark, C. B. Hendrickson and A. Roth.

The membership of the newly formed Retail Jewelers' Social Club, of Elmira, includes the following: Charles H. Bess, William C. Comfort, John Drake, Walter Hamilton, W. D. Jacobus, Walter Le mate, E. B. Patterson, Fred H. Rees, James E. Swarthout, Clarence Sayles, Len B. L. Shrieblman. As noted last week, officers are: President, Thomas J. Redge; vice-president, Clarence Sayles; secretary and treasurer, Walter Hamilton.

Although the change in the date of meeting was announced some time ago, members of the trade seem unaware of the fact that the Minnesota Retail Jewelers' Association will hold its convention in Minneapolis, July 27, 28 and 29, instead of July 19-22, as originally planned. The change was made owing to the fact that the former dates were set conflicted with those of the Wisconsin Retail Jewelers' Association, which holds its annual convention Milwaukee, July 20-22.

PROPOSALS FOR EYEGLASSES FOR INDIAN SERVICE.—Department of the Interior, Office of Indian Affairs, Washington, D. C., June 28, 1909. SEALED PROPOSALS plainly marked on the outside of the envelope "Proposals for eyeglasses for the Indian Service," and addressed to the Commissioner of Indian Affairs, Washington, D. C. will be received at the Indian Office until two o'clock p. m., of July 28, 1909, for furnishing and delivering at Phoenix, Arizona, as required during the fiscal year ending June 30, 1910, such eyeglasses as may be prescribed for Indians during that period. Bidders should give a definite price per pair for spherical and cylindrical lenses and the two in combination, fitted ready to frame, and should quote prices per pair for steel, aluminum, German silver and gold filled frames. All lenses and frames will be subject to rigid inspection and test by a competent person. The right is reserved to reject any or all bids or any part of any bid, if deemed for the best interest of the Service. Each bid must be accompanied by a certified check or draft on some United States depository or solvent national bank, made payable to the order of the Commissioner of Indian Affairs, for at least 5 per cent. of the proposal. Each check or draft shall be forfeited to the United States in case a bidder receiving an award shall fail to execute promptly a satisfactory contract in accordance with his bid; otherwise, to be returned to the bidder. For further information apply to F. E. LEUPP, Commissioner.

LEARN JEWELERS ENGRAVING

"The Engraving School that Graduates Experts." A fascinating, high-salaried and easily learned trade, taught thoroughly and practically by correspondence. Your instructor is the foremost authority and master workman in the world. We will teach the beginner better engraving by correspondence than he can gain in years of rigid apprenticeship. We will improve the skill of any engraver one hundred per cent. and make him master of the trade. The demand for competent engravers far exceeds the supply. Send for handsome, illustrated prospectus. **PAGE-DAVIS COMPANY.** Suite 10, 90 Wabash Avenue, CHICAGO.

Always Buy Watches of a Retail Jeweler

A Mail-Order House, Although It May Sell a Good Watch, Cannot Adjust It To Your Person.

NO watch you buy by mail will keep perfect time, no matter who made it, how perfectly it is made or what its reputation. A good time keeper must be regulated to your person as carefully as a good tailor fits a coat. In no other way can you secure perfect time-keeping service. No one but your jeweler can do this. Watches you buy of mail-order concerns are not and cannot be so regulated. That's the reason they never keep perfect time and always run too fast or too slow. The variation of even one-thousandth part in the vibration of the delicate watch balance which governs the movement, means a loss or gain of a minute and a half each day. South Bend Watches are sold only by reliable jewelers. They are never sold by mail, because South Bend Watches are so good that we do not want their great reputation for reliability and accuracy injured by improper regulating. We make South

A SOUTH BEND WATCH.

Bend Watches as nearly perfect as it is possible to make a watch and pay the jeweler to regulate it to keep perfect time in your pocket. A watch which is a perfect time keeper in one man's pocket, very likely will not keep time at all in another man's pocket. If you carry a South Bend Watch you will know that the watch you carry will stand tests that are twice as severe as any that you are ever likely to give it. It might be frozen solid in a block of ice,—it would still keep satisfactory time. Every adjusted South Bend Watch, before it is sent to your jeweler, is baked in an oven heated to 100 degrees Fahrenheit and kept for hours in a refrigerator at freezing point. It must keep perfect time in every position and not be affected by the jars and jolts of railway trains, horseback riding, etc. It is built to stand the hardest wear and usage you can give it. A South Bend Watch, although it is the best watch in the world, costs you no more than other good watches. Your jeweler will gladly show them to you and tell you why they are the best watches for you to buy. Send coupon today for our handsome book, "How Good Watches Are Made," and an interesting little device showing how South Bend watches adjust themselves to every temperature. Don't fail to talk with your jeweler about watches before you buy any watch.

South Bend Watch Company, South Bend, Ind.

The Ads That Ring True

to the cause of the Retail Jeweler are the SOUTH BENDS. Men may talk and men may promise you protection against unfair competition, but we have gone further—we have put ourselves in black and white before the 80,000,000 of Uncle Sam's people, stating clearly that SOUTH BEND WATCHES are not sold to mail order houses.

What other manufacturer of watches has ever unqualifiedly come out for the Retail Jeweler? We are giving you quality goods. Now get in the bandwagon and help drum the mail order man out of the retail jewelers' camp.

Send for prices and literature to-day.

THIS DEPARTMENT CONTAINS A LIST OF THE LATEST PATENTS GRANTED BY THE UNITED STATES AND GREAT BRITAIN, THE UNITED STATES PATENTS THAT HAVE BEEN REPEALED AND THE REGISTERED TRADE-MARKS.

UNITED STATES PATENTS.

ISSUE OF JUNE 29, 1909

9,089. EXPANSIBLE BRACELET. JOSEPH BAGNALL, North Attleboro, Mass. Filed Oct. 1, 1908. Serial No. 455,780. A device of the class described a plurality of units having corresponding ports in their walls, a pair of crank arms on one side of each unit with their free ends toward each other and yielding held toward the unit wall on that

a pin on the end of each crank arm, a roller link within each unit and inclosing said pin, said link entering the ports of the unit adjacent on the opposite side and inclosing the wall between.

9,277. WINDING-INDICATOR FOR CLOCKS. WILLIAM J. A. MIELKE, Grafton, Wis. Filed March 29, 1909. Serial No. 456,548.

In combination with a clock having a spring and a dial formed with an arc-shaped slot, and graduation marks along said slot, of a bell crank lever in rear of the dial and having one arm adapted to project through and move in said arc-shaped slot in the dial to provide a pointer which acts with said graduations, a rocking lever ful-

crated intermediate its ends and having one end bearing against said spring, a spring for actuating said lever in one direction and a link connecting said lever and the other arm of the bell crank.

9,329. WATCH. ERNEST H. HORN, Waterbury, Conn., assignor to the Waterbury Clock Co., Waterbury, Conn. Filed Nov. 25, 1907. Serial No. 403,710.

A stem-winding and stem-setting watch, the combination with the pendant thereof, of a one-piece crown-stem located therein, projecting at its distal outer end therefrom, formed at its inner end with an annular retaining-flange coating with its inner end of the pendant and also formed with a living-edge projecting from the center of the top face of the said flange; a crown applied to the threaded projecting outer end of the said stem, and independently formed winding-and-setting stem attached at its outer end to receive the said driving-

edge of the crown-stem, a setting-wheel fixed upon the outer end of the winding-and-setting stem, and

a winding ratchet loosely mounted upon the inner end of the said winding-and-setting stem.

926,383. BUTTON LINK OR FASTENER. EDWARD B. BAYLISS, Dayton, O. Filed July 21, 1908. Serial No. 444,675.

In button links or fasteners an elongated fastener comprising unobstructed side and end portions and a spring portion forming a shank-holding

recess, said spring portion being located between the unobstructed side and end portions and in the same plane therewith, for the objects set forth.

926,401. SAFETY WATCH-GUARD. LOUIS FREEDMAN, New York. Filed Nov. 19, 1908. Serial No. 463,413.

A device of the class described having a body terminating in a hook at its upper end for engagement with the edge of a garment and a hook at its lower end for receiving the ring of a watch,

two separate retainers pivoted to said body in cooperation with said hooks, and a single pivot pin for connecting both of said retainers to said body.

926,454. ALARM-CLOCK-SETTING MEANS. WILLIAM A. ARMOUR, Thomaston, Conn., assignor to the Seth Thomas Clock Co., Thomaston, Conn. Filed July 18, 1908. Serial No. 444,167.

In combination, a clock movement, an alarm mechanism, holding means for normally preventing the operation of said alarm, a 24-hour dial member geared to the clock movement so as to be rotated

thereby at all times at a speed of one revolution in 24 hours, a let-off device normally rotated by the clock movement only once in 24 hours but adjustable with relation thereto whereby said let-off device may be caused to operate at any predetermined time, a hand-operated indicator adjustable

around said dial and connected to said let-off device to adjust the same.

926,487. SHUTTER FOR CHAFING-DISH LAMPS. EVERETT D. HOLLEY, Forestville, Conn., assignor to the American Silver Co., Bristol, Conn. Filed Jan. 26, 1909. Serial No. 474,345.

A shutter for chafing-dish lamps consisting of the lamp top, two whiffletree levers pivoted thereto at the middle of their length, and a pair of shutter

wings provided with arms and pivoted to the outer ends of the said levers, one of the said wings being provided with an operating handle.

926,602. JEWELRY-CLASP. ALEXANDER J. POLLOCK, St. Louis, Mo. Filed May 16, 1908. Serial No. 433,214.

A jewelry-clasp or the like comprising a socket-member having a chain-attaching member at one end thereof and cut-out portions in its wall near the other end thereof, and a catch-member adapted to removably fit within said socket member and consisting of a body-portion, resilient prong-mem-

bers extending from said body portion, and a notch and shoulder on each of said prong-members adapted to co-operate with one end of said socket-member and with said cut-out portions in its wall to lock said socket and catch-members together, the outer end of said prong-members being adapted to extend beyond the body of said socket-member when said socket and catch-members are locked together.

926,657. JEWELER'S DISPLAY-STAND. MAX JERSEMAN and LOUIS WAGNER, New York. Filed Nov. 30, 1908. Serial No. 465,073.

A display device comprising a combined base and frame, a pad arranged upon said base, and within the frame a fastening means arranged upon the

back of the pad and projecting through the base, and a supporting means adapted for connection with the fastening means, whereby all of said parts are connected and supported.

PRINT.

548. Title "WEBSTER-WHITCOMB PUMP CENTER HEADSTOCK FOR JEWELING." (For Pump Center Headstocks.) AMERICAN WATCH TOOL CO., Waltham, Mass. Filed June 22, 1909.

BRITISH PATENTS.

ABRIDGMENTS OF SPECIFICATIONS, 1908, FROM The Illustrated Official Journal.)

ISSUE OF JUNE 16, 1909.

566. STUD FASTENINGS. W. STELZIG. Saxony. Feb. 17.

A device for fastening together textile material documents comprises a plate 1, Fig. 2, bearing studs 2 adapted to be passed through holes in the material and to be retained by a cap 11.

The cap 11 comprises a bottom plate 10, Fig. 4, having keyhole slots 14 to receive the heads of the studs, and a plate spring 12 having bends 13 placed over the enlarged parts of the slots 14. This spring keeps the studs in the small ends of the slots. In a modification, Fig. 9, for use with material of different thicknesses or for documents, the plate 1 slides on the studs and has springs 16 placed between it and a fixed bottom plate 15.

625. JEWELRY, ETC. A. KIEHNLE, Pforzheim, Germany, Feb. 18.

A fastening for bracelets, necklaces, or waistbands consists of a V-spring b having straight or curved limbs, which slide within a casing c constructed so that the spring is more strongly compressed as it is withdrawn, complete removal being

prevented by a stop d or otherwise. Two springs such as b may be employed with a duplicated casing, as shown in Fig. 3. Similarly, two springs joined at the apex may be utilized with appropriate casings.

672. STUDS AND SOLITAIRES. A. OWEN and A. ALLEN, Birmingham. Feb. 18.

The shank g of the removable head is provided with shoulders g² and grooves g³ at right-angles to

these shoulders. When the shank g is pushed down the tube a of the base of the stud, its pointed end forces apart the sides c¹ of the spring clip c and these then engage either the shoulders g² or

the grooves g³ according to position of the head relative to the base. To release the head, it is turned so that the spring clip first engages the shoulders g², after which a quarter-turn of the head expands the clip so that it may be withdrawn.

3,686. PENS. E. W. HOUGHTON and OMISTON & GLASS, London. Feb. 18.

To provide a grip and to ornament a reservoir

pen, the body a and cap c are covered with a suitable material such as leather or silk.

3,703. CANDLESTICKS. A. A. ROLAND, Greenville, O., U. S. A. Feb. 18. (Date applied for under Section 91 of Patents, etc., Act, 1907, Feb. 18, 1907.

Candlesticks are constructed with feeding-means comprising two disks D, F, of different sizes mounted on a bolt C, which screws in a collar nut E and is provided with an actuating-knob c. The disk F is preferably rigid with the bolt C,

and the disk D is revolvably mounted on the disk F. The nut E is also externally threaded to receive a nut e which connects the socket B to a boss a¹ on the base A. The knob c and disks D, F, serve to prevent the disconnection of the nut C from the socket, and the disks are made smaller than the socket to prevent binding. The base A is formed with a flattened annular portion a.

3,893. SPOONS, ETC. S. W. ABBOTT, Middlesex. Feb. 20.

Spoons and ladles are provided with a hook such as that shown for purposes of suspension

from the edge of a vessel. The hook may be made separate from the spoon and may be detachable.

Applications filed June 1 to June 5.

12,798. CONSTRUCTION OF TUBULAR ARTICLES FOR PIN-POINT PROTECTORS AND THE LIKE. THOMAS WALL, Birmingham.

13,047. COLLAR FASTENINGS. PERCIVAL E. HAZLEMAN, Purley.

13,137. PROCESS OF TREATING ENAMELED METAL PLATES AND THE LIKE. JAMES NOAD, London.

Complete specifications accepted June 9, 1909, 1908.

19,922. TRAY OR SALVER. WAREHAM. 22,618. BOWS FOR WATCHES. GINNEL. 1909.

7,708. HAT-GUARD AND LIKE CLIPS. EDMONDS.

8,953. POWDER-PUFF BOXES. SHENBERG.

UNITED STATES PATENTS THAT HAVE EXPIRED.

Lack of Registration Causes Infringement of American Trade-Marks in China.

CONSUL-GENERAL Charles Denby, of Shanghai, under date of Feb. 26, 1909, notified the Department of State that a suit has just been decided in favor of an American company in the mixed court in that Chinese commercial metropolis.

This case should be of great interest in showing the necessity of having trade-marks lawfully registered in all the principal countries in the Far East. The company in question has for over 20 years been engaged in trade in China. Owing to the uniform superiority of its article of manufacture and the efforts of its representatives, its name and trade-mark are sufficient guarantee and advertisement.

A European company exported to China a similar article of inferior quality, with the trade-mark and boxing of exact pattern and size, except one or two minor changes, so that it was possible only after minute examination to discover the difference. This copy was placed only in the native shops where the small difference in the label would not be discovered and the general appearance would vouch for the sameness of the article. The court fined the Chinese handling the goods and made him give security that he would not sell the bogus brand in the future, and all the articles in his possession were confiscated.

The court had, of course, no jurisdiction over the European company which manufactured the imitation, but if the American merchant had had his trade-mark registered abroad he could no doubt secure full satisfaction for the infringement, and in all probability the foreign manufacturer would not have attempted to use the trade-mark in this fraudulent manner.

“Have
You
 the
 Elgin
 with
 the
 49
 Dial?”

“H AVE you the Elgin with the 49 Dial? Such a question will soon mean money to you, because it's one that is going to be asked everywhere and often.

Back of it is the demand that is being created for the new Railroad Elgin through the medium of advertising in Railroad magazines, telling of this innovation among watches.

This watch is making a strong appeal to railroad men and others because of its readable dial. The hands are large, the figures big and plain, the dial either of white enamel or silver finished metal. This latter is the *only* metal dial with hard *inlaid enamel figures*. It catches the faintest glimmer and is easily legible in dim light, besides being proof against the chemical action of cleaning fluid.

This new Railroad Elgin is the thinnest and most compact 18 size movement made, and is cased at the factory.

Don't wait until you see two or three prospective customers go elsewhere before you lay in a stock, but write now, RIGHT NOW, for prices and terms. Your jobber can give you full particulars. Or write direct to the Company.

Be ready when the demand is made for the Railroad Elgin with the “49 silver” or “49 enamel” dial.

These are the four grades and established retail prices as advertised:

	GRADE		20 YEAR GOLD-FILLED	25 YEAR GOLD-FILLED
VERITAS		23 JEWELS	\$46.00	\$48.00
VERITAS		21 JEWELS	\$43.00	\$45.00

THE HOROLOGICAL REVIEW

An Eight-Day Watch with Two Balances.

Translated expressly for The Jewelers' Circular-Weekly.

In the second volume of his "Essai sur l'Horlogerie" Ferdinand Berthoud describes an eight-day watch, with cylinder escapement and two balances, constructed by him, by means of which he was enabled

FIG. 1.

counteract exterior influences on the watch.

There is a little story connected with the idea that prompted Berthoud to undertake this construction. Romilly, it seems, had constructed, about the middle of the 18th century, a seconds watch, the balance of which made one oscillation per second. The

FIG. 2.

idea even of making a watch the hands of which, like our pendulum clocks or seconds indulum clocks, should in an analogous manner record the full second, did not give Berthoud any rest, and his progressive intellect led him to the double balance. For-

mer experiments along the same lines with rapid oscillating balances had not proved very successful, and Berthoud's hope that this would be effected with a slowly moving regulator system also proved futile. Certainly, however, a French watchmakers' almanac of 1906 went to extremes when it pronounced the escapement, or regulating system, shown in Figs. 1 and 2 as hardly capable of operating, and remarked that Berthoud had published it without comment. Both statements are notoriously erroneous.

In Fig. 1 the entire escapement and rate-regulating portion is shown in perspective. As may be seen, the 30-toothed escape wheel G, which, at each revolution, allows the balance, oscillating in full seconds, to make $30 \times 2 = 60$ oscillations, consequently completed a turn in a minute and carries on its pinion the seconds hand, engages with the cylinder that carries the balance B, and the latter communicates its movement, by means of the two small wheels *a* and *b*, to the free balance A.

In Fig. 2 it will be seen that it is this second balance A that carries the balance spring. Its tension renders the small but unavoidable shake in the depthing of the two small wheels *a* and *b* harmless. The arms of the two balances are so formed that they allow arcs of oscillation of almost 360 degrees.

Berthoud so arranged the same watch that he could remove the two balances and substitute for them a single correspondingly heavy one. Comparison of the two rates, in the various positions and at different temperatures, revealed the fact that the watch with two balances performed no better than the watch with only one.

Remembrance of this watch, the construction of which dates back 150 years—A. L. Breguet's tourbillon regulator that to a certain extent served the same purpose of rendering the influence of position on the rate harmless was not made until 40 years later—is unwittingly recalled on reading a treatise on the "Impartial" which embodies the description and illustration of an original watch with two balances, made in the French Jura.

In this case it is not, says the *Leipziger Uhrmacher Zeitung*, a cylinder watch, but

a lever watch, with seconds from the center. In the center of the works plate (Fig. 3) is a pallet wheel, with 30 teeth that engages a lever in the usual manner. But the fork of the lever operates, not one, but two balances, of which the first, driven direct by means of a jewel pin, consists of a simple train wheel, equipped with a balance spring, and runs under a cock with index. This train-wheel balance, however, is again connected, by means of a peripheral toothing, with a pinion which car-

FIG. 3.

ries an actual balance, apparently even a compensation balance, but which has no spring.

The operation of the mechanism is easy to understand. The level imparts an impulse to the first balance, which results at first in only a slight oscillation; this is transmitted by the gearing to the second balance, and this does not make, as in the case of Berthoud's watch, many oscillations, but several turns; because in this case a large wheel engages a small pinion. The balance spring, now under tension, carries both balances back and effects the release of the lever and imparts a new impulse.

Without considering the originality of his invention, the unknown inventor appears to have been held in the fetters of old things, inasmuch as he attaches the hairspring to the part that exercises the function of the additional balance. There can be no doubt that under normal conditions he would have done better if, as in the case of Berthoud, with his double-balance cylinder watch, he had fitted the spring to the last part, viz., the actual balance. This balance, shown here as running free, as things are, in its natural tendency to sustain the motion imparted to it—in other words, its inertia—will exercise a marked contracting and expanding effect on the spring, consequently, in the course

WALTHAM WATCHES

FIFTY YEARS AGO

FRIDAY, APRIL 22, 1859.—The proprietors and workmen of the watch factory at Waltham were entertained by Gov. Banks at his residence today. About 200 men and women were present.

From Boston Advertiser, April 22, 1909.

The Waltham factory had existed five years. Here was the first successful effort to realize the dream of Dennison, father of American watch-making. Here was the first and only structure in the world erected for manufacturing pocket timepieces. Three hundred people were employed, the largest number ever assembled in such an enterprise. General Banks was proud of Waltham, where he was born and where he had worked as bobbin boy in a cotton mill. He found time, while Governor of a great State, to greet and encourage the operatives of this watch factory, because he believed that they were creating an imperishable industry. He lived until the word WALTHAM had symbolized the perfect watch in every country on the globe.

In that year, 1859, the total number of Waltham watches manufactured was 12,304; in 1906, the product was 855,000; to-day there are 16,000,000 in use. The Waltham factory was the parent factory. It is now the corner-stone of an industry that gives a livelihood to more than 100,000 persons in the United States. In 1859, it was the only institution of its kind here or anywhere else; every other watch factory came later. The Waltham factory is distinguished by its achievements as well as by its age. Waltham watches have always exemplified the highest type of watch construction, and public recognition of their superiority is attested by the highest awards at all the great Expositions wherever they have been shown.

The history of the WALTHAM WATCH COMPANY is the history of watch manufacturing on this hemisphere.

time, an injurious influence. On the other hand, if the last (second) balance is equipped with a balance spring, in the above described system of transmission from balance to balance there would hardly be any unlocking, whereas two wheels of equal size, as shown in Berthoud's watch, work with more friction.

Furthermore, in the form of construction shown in Fig. 3, the influence of the rake between the balance wheel and balance pinion would make itself very noticeable, not only on the movement of the balance at the moment of reversal of the oscillations, but likewise on the wear of the pinion teeth.

It is by no means to be supposed that the same idea occurred to this inventor as Berthoud, i.e., to render the escapement of the watch independent of external influences, especially of unfavorable movements in carrying. It seems much rather at the object to insure for the seconds impulse of the escape wheel, which carries the seconds hand, the necessary slow movement of the first balance wheel—3,600 oscillations per hour—has been the reason for the addition of the second balance. Consequently, normal conditions, in the sense as we have above discussed them, do not here come under consideration.

One Clock Made to Strike in Several Rooms.

HOW one striking clock may be made to strike in several rooms was recently demonstrated in *Modern Electrics*. First, in the case of an eight-day mantel clock,

remove the back, which is usually held by four flat-head machine screws. Then take the weight from the pendulum, to prevent injuring the delicate mechanism at the top of the pendulum. Locate the hammer that strikes the gong. Cut from a piece of rather springy sheet brass a strip about six inches long and one-half inch wide.

Examine the base of the clock to see if it is made of wood, which is nearly always the case. If so, mount the strip of brass on copper, as shown in Fig. 1 at S. When

the hammer H (Fig. 1) is raised, indicated by dotted lines, it will make contact with the spring S, which is held in place by the bolt B passing through the spring S and the bottom of the clock. In case the bottom of the clock is not made of wood or some other insulating material (which would be a rare exception), the bolt and spring must be insulated from it by rubber or leather washers X (Fig. 2). The hole K in the base of the clock will have to be

about three times the diameter of the bolt, so that the bolt will not touch the sides of the hole (Fig. 2). The washers P are brass or copper.

In the case of cabinet clocks, the spring S is bolted to the side or back of the cabinet. With the reader using a little judgment this automatic circuit closer can be easily constructed. The arrangement of the striking circuit is shown in Fig. 3.

Common electric bells may be used as strikers by connecting both terminals of the electro-magnet to the binding posts of the bell. A four-ohm telegraph sounder may be used by putting a piece of rubber over the end of the upper set-screw, so that the armature will make no noise on being released. These bells or sounders are connected in series, as shown in Fig. 3. The

number of cells of battery required depend upon the length of circuit and number of strikers used. Common dry cells, or sal-ammoniac batteries, give good service.

The Elgin National Watch Co. has decided to build an observatory in Elgin, Ill., and establish its own standard of time. Prof. William W. Payne, of Goodsell, Minn., has been engaged to oversee the erection of the plant and to take charge of it upon completion.

Technical Quiz for Wisconsin Watchmakers.

MILWAUKEE, Wis., June 30.—Wisconsin jewelers have taken the lead in an active movement to bring about better efficiency among the watchmakers of the country by appointing a special committee to formulate plans for a complete system of examination to be required of applicants for positions in the watchmaking field. A permanent board of examiners, made up of members of the Wisconsin Retail Jewelers' Association, was appointed, and this board has prepared a model set of questions which are being sent out to the jewelers of the State.

Jewelers everywhere have taken an active interest in the matter, and the whole plan is expected to work out successfully. Secretary Franklin Thomson, of the State association, is now receiving letters from jewelers all over the country commending the system.

The following set of questions have been sent out by the examining board:

1. What is the purpose of the escapement?
2. What length has a seconds pendulum?
3. What are the escapements most in use in watches?
4. What advantages does the lever escapement offer over the cylinder?
5. What is it you have to observe in examining the cylinder escapement?
6. What is the purpose of the banking pin on a cylinder balance?
7. What is it you have to observe in examining the lever escapement? (Sketch on the blackboard.)
8. Show on the board how the roller jewel should enter the work; the position of roller table, jewel and fork. (Rough sketch.)
9. What is the result when the pallet is too wide in proportion to the wheel?
10. In what position should the escapement tooth fall on the pallet? (Rough sketch.)
11. What shape should a conical pivot have? (Sketch) and a hole jewel for such?
12. What is the ideal shape for such hole jewel?
13. What will be the result if upper and lower pivot of a balance staff are of different thickness if otherwise the holes fit?
14. What may be the cause if a watch makes no motion?
15. What is the purpose of the hairspring?
16. What different hairsprings are in use?
17. What advantage has the Breguet hairspring over the flat one?
18. What correct shape should a Breguet hairspring have? The overcoil? (Sketch.)
19. How will you make the overcoil?
20. What is the cause of doubling of the hairspring, and how will you remedy this?
21. How will you select a hairspring, with the old one as sample? Without a sample?
22. What is meant by compensated balance?
23. What is the object of using such balance?
24. What is meant by adjustment of a watch?
25. What are the different adjustments?
27. What effect, if any, has magnetism on a watch?
28. How can you tell when a watch is charged and how do you remove the magnetism?
29. Why are some of the screw threads in some balances left longer than the rest, and what do you call these screws?
30. What is the advantage of a double roller escapement over the single?
31. What is a deepthing?
32. In what way may a deepthing be defective and how is this to be remedied?
33. What will you do if a plate jewel is out of its place and the setting is so ruined that you cannot center the hole?
34. What is the cause of overbanking in a cylinder watch? In a lever watch?
35. Describe how you replace a tooth in a mainspring barrel?
36. If barrel cover is loose, how do you tighten it?
37. How much room inside a mainspring barrel should a mainspring occupy, and how many revolutions should a barrel make with a well-fitting mainspring?
38. How are the number of vibrations calculated in a watch?

Rockford

THE manufacturers of the **ROCKFORD** Watch offer absolute insurance to every retail jeweler.

- 1st.—The ROCKFORD Watch is factory-priced and tagged. This price must be maintained—thereby insuring legitimate profits. Price-cutters will not be tolerated.
- 2d.—The jobbers have been eliminated. The ROCKFORD Watch is sold only direct to the legitimate jeweler—thereby guaranteeing the retail jeweler that he will not come in competition with mail-order houses or department stores when selling the ROCKFORD Watch.
- 3d.—The ROCKFORD Watch is the watch of Quality and Efficiency—and the retail jeweler can guarantee his customers one hundred cents watch value for every dollar spent on ROCKFORD Watches.

ROCKFORD WATCH CO.
ROCKFORD
ILLINOIS

39. How do you ascertain the number of teeth a missing wheel?
 40. What causes hands to go up and down on dial, regularly and irregularly, and how is this remedied?
 41. How do you fit a new dial if posts do not?
 42. Give us some method of tightening the can on pinion.
 43. What will you do if the large pivot of the inter-wheel is worn beyond the thickness of the bush?
 44. If a watch begins to gain suddenly about 10 minutes a day, what do you look for then?
 45. If a watch loses a good deal sometimes and again keeps correct time, what may be the cause?
 46. If it gains suddenly and then again keeps without the hairspring doubled?
- Some fundamental knowledge in geometry: angles, squares, circle and degrees, etc. Some historical facts about watchmaking are available. The Waltham Watch Co. have prepared a nice little book, which contains the most important facts which a watchmaker should know, which, we believe, they send for the asking. Practical work will be asked to be done on the day in filing and finishing in steel, some part, turning and finishing a screw. Making of a complete setting for a jewel and setting same. Pivoting. Making of a staff. And the day: Repairing and cleaning of a watch. Watchmaker who can answer intelligently the foregoing and some other questions which, for various reasons, we cannot publish beforehand, will be given the required work in a workmanlike manner and all the chances to receive the certificate.

THE BOARD OF EXAMINATIONS.

- W. H. BECKEN, Beaver Dam.
- EMIL BACHMANN, Milwaukee.
- J. SAUERMAN, Milwaukee.
- JOE WELLSTEIN, Milwaukee.

System in the Repairing Department.

Address of WM. SWARTSCHILD, before the recent convention of the Iowa Retail Jewelers Association, at Des Moines, Ia.)

AM glad to have the opportunity to address you on a subject that so vitally interests all of the repair department. You all know that the repair department is very often given insufficient consideration. It is of the greatest importance to the man who keeps in closest touch with the financial end of his business, and he is the one that is the strictest attention under all conditions. The man who neglects his repair department is bound to realize its importance in times of panic or financial distress, such as confronted us recently, and then he plies it with his entire energy, and realizes what a great role it can be made to play, not only in defraying expenses of business, but also in affording him means of defence.

The question now arises what method to pursue in the department to a standard of perfection whereby the greatest results and satisfaction are obtained, both for the jeweler and his customer. A suggestion might be offered regarding the watchmaker. He must be capable, efficient and scientific. When a customer of yours brings a watch in for repairs, he is usually unaware of what it needs; in fact, he does not care what part of the watch is to be replaced or repaired, but what interests him is that it be returned in ready time, and, as your customer would term it, "running right." Above all, it must continue to run right. It is to the interest of the watchmaker to leave absolutely nothing undone which might lead to the repeated return of the watch for correction, and which gives the impression of incompetent work. A successful method of avoiding this unpleasantness and giving universal satisfaction is as follows:

Thoroughly examine the watch and make a careful memorandum of what is necessary. Report the same to your customer, stating the time in which the work will be completed, always allowing sufficient time to accomplish the required results. If, in doing the work, you discover that you have underestimated the amount, it is advisable to complete the repair, though an additional charge is made, rather than turn out the work in an unsatisfactory condition. No written guarantee should be necessary. The guarantee which is the highest in the world is the enviable reputation which a jeweler establishes through the highest standard

of workmanship and the complete satisfaction thereby rendered.

Now, as to what price to charge for a repair. This is a most difficult proposition, and must depend in watchmaking, as in any art, principally upon the class of work. A man who fits a balance staff with the sole object of making a balance oscillate and get the watch to run is not entitled to the same compensation as when he fits the staff properly, sees that the balance is true in the flat and in the round, properly poised, and that the pivots fit the jewel with the correct amount of in-shake so that the friction is equalized in all positions.

Again, one man's idea of cleaning a watch is to brush it out and oil it, the amount of work done being only sufficient to make it run, whereas another man would clean a watch thoroughly, take it apart, remove all winding and setting wheels, cap jewels and mainspring from barrel, go through every operation necessary, place the parts in cyanide of potassium or cleansing solution, then water, then alcohol, and throw in boxwood sawdust to dry—doing the work thoroughly from start to finish. Still further, one will purchase the highest grade of material, and another look to price rather than quality.

Gentlemen, the charge that should be made for a certain piece of work must be determined by the class of work rendered, and this class of work determined by each and every one of you individually.

I have been requested to say a few words with regard to system. This is a very narrow word, so to speak, but very broad in meaning. System carries with it the meaning of an arrangement, particularly in business, whereby the greatest amount of work can be done perfectly in the shortest time—stocks so arranged that articles are handled to the greatest advantage with the least inconvenience. In short, system may be defined as a time saver, labor saver and money saver. System dictates that it is absolutely necessary to have at least the principal and staple articles, such as mainspring, balance staffs, balance and roller jewels, clock springs, setting wheels, screws, watch glasses, etc., so subdivided that any particular one can be located and selected in an instant. Of the many so-called staple items, undoubtedly the one that is given the most attention in this direction is the item of watch glasses.

One may raise the point here that system is essential only in large businesses where the head or heads of the business are not in direct touch with the specific department, but this is not true, for it has been found in almost every instance that when the right system has been employed, no matter how small a department or business may be, it becomes indispensable. In the few cases where system has failed to succeed, the fault did not lie with the idea of the system, but with the misapplication thereof. Through these faults of application, some merchants have conceived the idea that a system must entail a lot of red tape. This so-called red tape, however, is more likely to exist in a large corporation, such as a \$1,000,000 steel plant, where a certain system is followed by reason of the fact that each individual order, article, or whatever it may be, must pass through a number of hands, and possibly departments, before properly adjusted, but even in these cases the end justifies the means.

Now let us take system in each of its three component parts and prove its advisability. One instance as a time saver, is the system of keeping stock. Possibly the clearest example of a systematically kept stock is the matter of watch glasses. If you have a bezel to fit with a glass and select a size you deem correct and find that it is too small, you immediately look to the next partition, which should contain a larger size. If this size is too small, you go to the next larger. This is an example of system in its simplest form. But even through this you readily realize how valuable it is as a time saver, if you can immediately locate what you want instead of rummaging through a poorly kept, badly mixed stock.

Again, anything that entails a considerable loss of time, naturally carries with it the same loss of labor. Now what should be accomplished in jobs which should be done, is lost hand in hand with time wasted in the aforesaid manner.

Lastly, as a money saver, it has often been the case that a man is overstocked on one article, while on another his stock is exceptionally low or completely exhausted, whereas if the right system had been installed, his stock would not be allowed to reach this state. How often has the case been, for instance, where a staple article, such as mainsprings, is low, while there is a large stock of an

item seldom used, in which he has invested money? With the use of the correct system this condition could never exist.

To go further into the subject, one would ask just how much does my repair department pay me? This can only be answered through the use of system. Records must be kept accurately. Today we want to know facts, and records are facts. This must also be remembered when a system is installed, that it is absolutely necessary to follow that system continuously and religiously, or it will lose its entire value. It must be maintained by each and every man in your store, it must be observed in every detail, no matter how seemingly trivial. If you will assist a system the system will assist the business.

The repair department to-day is no longer a small corner in your store, but is an important well-paying business in itself. It might be interesting to you gentlemen to know that it is said that the repair department alone of a certain retail jewelry store in a large metropolis does a business in the neighborhood of \$40,000 annually. This may seem incredible and unbelievable, but nevertheless it is authoritatively stated. The repair department of this concern receives the closest possible attention in every direction, and this attention, gentlemen, is not the result of the business, but on the contrary, the large volume of business resulted from the close attention it received.

Still further, the jewelry department reaps its benefit from the well regulated repair department. For the customer who obtained satisfaction, attention and courtesy at the repair counter will feel assured of the same treatment at the jewelry counter. There is nothing that succeeds like success.

Old Pocket Clock and Snuff Box.

THIS novel pocket clock or watch and snuff box combined is over 100 years old, yet keeps excellent time to-day. Instead of the works and dial being enclosed in a round case, with the dial over the works, as has been the custom since the pocket timepiece first came into use, the

OLD COMBINATION WATCH AND SNUFF BOX.

works are above the dial and show when the cover is opened. The back part of the case is a snuff box.

The case is of silver, lined throughout with gold. The back is handsomely engraved in flowers and other designs, and the outside of the front lid bears the design of a dial, vines, etc. The height of the case is 2 3/4 inches, the width 1 3/8 inches and the thickness 3/4 inch. The works are pronounced a marvel in construction by all jewelers who have examined them.—*Popular Mechanics*.

John H. Oswald recently moved from Hicksville, O., to Warren, O.

Very few jewelers who have looked *thoroughly* into the "I-T" watch proposition—its quality and trade policies—have felt that they could let it pass.

They have been glad to discover something new that means money to them—a watch that is *advertised* and is selling *right now* wherever it is displayed.

If your watch trade is slow, it will pay you to try the new Ingersoll-Trenton.

The coupon below will bring information.

RING OUT THE OLD—RING IN THE NEW

Why travel in the same old rut the balance of your natural life, and buy the same antiquated styles of Nickel Alarm Clocks your grandfather used to buy, just because some manufacturers have not thought it necessary to produce new designs in Nickel Alarms, as they do in other clocks?

We have some new ones, superior to anything heretofore made, and to introduce them and put a set into the hands of every jeweler, we will, on receipt of \$6.00, deliver east of the Rocky Mountains, express prepaid, one sample of each, consisting of eight clocks as described.

Don't fail to avail yourself of this opportunity to see a complete line of up-to-date alarm clocks.

See coupon at bottom of page.

That this department shall prove mutually beneficial to our readers, it is desirable that the members of the trade generally communicate with THE JEWELERS' CIRCULAR-WEEKLY regarding any advantageous device or plan which they are utilizing in connection with their business.

Aggressive Salesmanship and Its Fruitful Results.

Address recently delivered by H. C. CARPENTER, Sales Manager of the South Bend Watch Co., before the Pennsylvania Retail Jewelers' Association, at Harrisburg, Pa.

(Continued from issue of June 30.)

TO-DAY salesmanship means first of all that you should be contented. You should be satisfied and it is to be regretted that the great majority of men are discontented with their lot in life. They feel that their neighbor has an easy time of it and the fact is that the other fellow is thinking the same thing of him. A knowledge of our way is the biggest part of your journey and there is another motto that I have always remembered that I want to tell you and that is, "Plan your work and work your plans." I spoke of being contented with the State you live in, being contented with the county, being contented with your city.

I have before me a page of the *Literary Digest*, one of the recent issues, and on page 944 I find an article, "Activity in the Building Trade." I find that in Pennsylvania during the month of April and in the City of Philadelphia, there was an increase of 54 per cent. over corresponding month a year ago. In Pittsburgh there was an increase of 85 per cent. In Wilkes-Barre there was an increase of 44 per cent. In Williamsport 164 per cent., and in Harrisburgh an increase of 168 per cent. Why should you not live and be contented when such wonderful progress and such wonderful building up of your State and city is going on? Never feel that the bottom has gone out of things. There is an old saying that "When the whole blame world seems gone to pot and everything's on the bum, a cheerful grin and a lifted chin helps some, my boy, helps some."

Now, with all of these opportunities before you, are you aggressive? Are you a follower or are you a leader? If you should have a purpose, you should look well to your character, you should not only know your people, but you should know yourself. See to your will power, your health. How about your honesty? You should develop judgment. You should study advertising and how it can apply to your own business. You should strive to serve one master, and this master "Success." Drive doubt, fear, superstition out of the way. Never say "Can't," for while some men are saying, "It can't be done," those men are always being interrupted by somebody

doing it. I tell you, gentlemen, in order to be a successful salesman you must give more thought to yourself. I have seen some men attempt to sell goods when they seemed to take no interest whatever in the sale and the thought came to me of the fisherman who cast his line into the dusty road—he would catch no fish—and some salesmen might as well be fishing in the dusty road as far as earnestness and energy are concerned that they put into the sale.

Do you suppose that the company which it is my fortune to represent could have in five years put 12,700 retail jewelers on their books if it had not had a purpose and with sleeves rolled up and by the sweat of the brow honestly and conscientiously did its best to carry out that play. You should never lose confidence in yourself, you should never lose confidence in your goods or in your position. You should never lose confidence in your city or in the people in your community so that you can in the retail business hire your clerks according to what is expected of them. You know there are three kinds of clerks. There are those who work for the sake of the work itself. They command the respect of their fellowmen and they build up the business as well as extract from their labor wholesome pleasure of appreciating and realizing their ability. There is another class of clerks; those who earn what they are paid and no more. They wonder why they are not as lucky as other people. Still another class are the drones; those who act as if they were superior to those who employ them. Do not get the hard luck story into your selling talk. Talk good business. With the country developing in only a few years from a population of 81 to almost 90 millions of people and with value of live stock on farms, which has increased from \$2,900,000,000 to \$4,300,000,000, and with farm products increasing from \$5,000,000,000 to \$8,000,000,000, and right here in your own State the coal product would interest you and the latest statistics show that the coal product has increased from \$314,000,000 to \$420,000,000, and with railroads springing out and covering the United States almost like a cobweb, and in the last five years close to

20,000 miles of new road have been built do not get it into your head that time are "on the bum."

Smile, hustle and let the other fellow do the grumbling and if you do the smiling and hustling he will have occasion to grumble. Confidence and enthusiasm backed by determination form a combination that overcomes all obstacles and wins success and fortune for the salesman who possesses them.

You should not feel that you must do all of the little things about the store. You should do the planning; you should do the thinking. A general does not pull a trigger in a battle, but if the battle is victorious it's his victory since he planned the campaign. He gave the orders. He had time to dig trenches, no time to do the thousand and one little things, he was busy planning and thinking. His imagination was busy. We must have generals and we must have privates, but don't you let the general do the private's work. You are worth too much money to yourself, you must direct your business.

It has been a pleasure to come and talk to such a lot of men as you. Many of you have been wonderful successes in business, but we can all learn from one another. I expect to take away with me just as many ideas as it may be my good fortune to leave with you. Salesmanship, as I have said before, is a science. The organization brings us closer together, fellow craftsmen, brings us together and broadens us so that we may appreciate more fully the motto "Live and let live" and I would to-day have you know that the organization is one of the greatest blessings that has been offered to the retail jeweler, not only so that he may know himself and conduct his business in a more businesslike manner, but that he may meet his fellow man, look him in the eye, and with that handshake at greeting and the handshake at parting he may feel that life is sweeter and that there are some of the best men that live to-day in the jewelry business and that they are your friends and our friends.

[THE END.]

In commemoration of the 25th anniversary of the city of Waltham, Mass., the *Daily Free Press-Tribune* recently issued a special edition containing an exhaustive article describing the progress of the Waltham Watch Co. The article was accompanied by half-tone illustrations of the factory and portraits of the officers.

Storekeeping Department.

Opposed to Partisan Trade Journalism.

Address by H. E. SCHMIDT, Boonville, Mo., before the recent convention of the Missouri Society of Retail Jewelers.)

AN official organ would probably be of some good if confined to its proper purpose and used to give official information of the work of the association and interest only to its members, but if intended to supplement all or any of the excellent trade journals we now have, I could decidedly say no. We have quite a number of journals and papers and magazines devoted to the interests of the jewelers, full of good articles of practical value to every jeweler, and I have not the slightest doubt that each one of them is perfectly willing, in fact quite anxious, to devote all the space that is needed to report in full all of the doings of not only the National association but that of every State association as well. Could an official organ do any more? I doubt if as much. Each jeweler has his favorite journal, which he has all confidence, and it seems to me that the publication of the work of the association in the many trade journals will reach more readers than could be done by an official organ, for in no way could the publication be so distributed as to get to many readers.

An official organ would mean the launching of another journal, costing much money and requiring an editor of peculiar fitness and ability, live a doubtful and stumbling existence for a few years and finally fail. It has been suggested by some that one of the journals already in the field be selected as the official organ. To do that would incur the enmity of all the other journals, as well as that of their friends, the readers. I think, when considered in all its phases, the majority of the members will believe it to conserve the best interests of the association we had better steer clear of any such dangerous and expensive experiment, and continue to do in the future what we have done in the past, give all the publications all the information of what we do and desire to accomplish that they are willing to print, and then the one that gives us the most and puts it before us in the best manner will soon have the best circulation and by its popularity among its readers be recognized as the official organ without the brand of the association to make it such, and only so long as it continues its efforts to give us the best will it be able to retain that distinction. With such an incentive it would use all the journals to give us the best. It is un-American to show favoritism. We give every one a square deal and a fair show and let the best man win.

Among the business to be transacted at this meeting is the selection of delegates to the National convention, and I hope it will be the sense of this meeting that they be instructed to oppose the establishment of an official organ.

Walter Alexander, Sac City, Ia., will soon open a store in the old bank building, Des Moines, Ia.

The Conscientious Trade Paper.

A FAIR idea of what a conscientious trade paper aims to do, and how it may be read to advantage, is embodied in the appended extract from an editorial published in the *Twin City Commercial-Bulletin*:

"The trade paper is the merchants' idea man, only it doesn't demand a very large salary. Two dollars a year would not be much to pay a man who would come into your store every week in the year and tell you all the latest and most important news of your trade, show you how to put in a new and attractive window trim, how to get up an effective advertisement, put new life and hope and enthusiasm into you and all your force, furnish you with a lot of new, useful, helpful ideas and give you a few tips on what to buy and how to sell it.

"Some merchants get a great deal more out of their trade paper than others do; some men get a great deal more out of everything than others do. Some merchants read their trade papers in a careless, desultory sort of way, but the merchant who gets full value out of them reads them carefully, thoughtfully, systematically. Many merchants require that all their clerks shall read their trade papers, and each clerk is required after reading the paper to sign his initials in a certain space in order to show that he has read it. The attention of clerks is especially called to articles of particular value and importance.

"The majority of merchants either keep a complete file of their trade papers and have them bound at the close of the year, or else keep a scrap-book in which important articles are carefully pasted and indexed for ready reference. In this way they secure a library of priceless information. Without some system of keeping track of valuable articles it is impossible for the merchant to get full value out of his trade paper.

"There is another way in which merchants might not only get more out of their trade papers for themselves, but also make them more helpful to other merchants, and that is by writing to them oftener. The editorial staff of a trade paper, no matter how complete it may be, or how well equipped those who compose it, cannot possibly think of all the helpful little ideas, the useful plans, the short cuts and economies and conveniences that occur to all its readers in the course of their daily business. If all the readers of a trade paper would take the trouble to send in to the paper the ideas which they have found helpful, how much they could help all the other readers.

"Many merchants don't do this, simply because they are not used to writing for publication, and they have an idea that they must turn out something remarkable from a literary point of view. Nothing could be farther from the truth. The greatest writers strive to express their thoughts in the simplest way, using the shortest words.

"Write to your trade paper. Send in the news you think would be interesting to other merchants and the ideas you know would help them. You will be surprised to see how much more your trade paper means to you."

Proposed New Building for I. McGill Walker, Baltimore, Md.

A VIEW of the proposed new store of I. McGill Walker, Baltimore, Md., is shown below. The dimensions of the building will be 119 feet by 26 feet. The material used in its construction will be limestone. The front will be of marble and plate glass, with a show window 14½ feet by five feet. The window will have three separate compartments and will be finished with a very attractive background of Circassian walnut.

A feature of the interior will be the unique fixtures which will be of etched egg-shell mahogany. A show case of the horseshoe pattern will extend 85 feet back from the front of the store. On the south

A UNIQUE JEWELRY STORE FRONT.

side there will be three cases for silverware, extending back 80 feet.

Back of these will be an elaborately furnished reception room for women patrons, with a lavatory. This reception room will be 12½ feet by 10 feet, and the finish will harmonize with the fixtures. The furniture of the reception room will include a large Colonial center table, cheveled glass writing desk, four easy chairs and a Persian rug.

A cleverly designed crystal room, for the display of cut glass, will also add to the beauty of the establishment. Adjoining the crystal room will be a private telephone booth of mahogany. Immediately adjoining this will be an umbrella and cane stand, and then another private telephone booth, next to which will be the private office of Mr. Walker and the accounting department. The flooring of the store will be of white tiles with a black border.

Ample light will be obtained in the store during the day from a skylight, 28 by 12 feet. In the evening illumination will be obtained from a number of arc lights, the lighting fixtures being particularly handsome. The watch-repairing department will be located well in front of the store, just back of the window.

L. Diacon, an aged jeweler of Chaska, Minn., died, recently, of a complication of diseases, after an illness which continued several months. During the Winter he became ill, and it was then thought that he could not survive.

The Thrower's Wheel.

THE potter sits at his wheel, and seems to breathe life into the clay, as it falls before him and assumes the shape he wills, says a writer in the London *Illustrated*. So they made their vessels of clay the days of the Pharaohs. China, clay and stone from Cornwall, flint from Devon and ball-clay from Dorsetshire compose the material in which he works his miracles. Much grinding and mixing, kneading and pressing does it undergo before it is kneaded into a workable consistency. In the days of Omar it was who—

Watched the Potter thumping his wet Clay,
And with its all obliterated Tongue
Murmur'd, 'Gently, Brother, gently, pray.'

But still less fraternally is the hapless clay dealt with in these days; and even deprived of all power of protestation, for it has passed finally through what is nothing more than a huge sausage-machine, complete with rollers and mixers, issuing, however, as "paste," which at a later stage becomes "slab," in anticipation, it may be supposed, of the double baking it has to undergo.

Various terms and implements are characteristic of this ancient handicraft. A slip of a cow is used as a pad for smoothing the surface of the fashioned ware; and it may be mentioned that the same race also supplies the potter with "shank," which, being ground and substituted for the Dorset clay, brings about the production of translucent porcelain instead of opaque chinaware. It is called the "thrower's wheel" in Staffordshire, and the potter is the "thrower." Literally, he throws things into shape. The wheel is really a circular table or disc, caused to revolve by a simple mechanical appliance, and is only in the latter respect that it differs from the wheel used by the Egyptians. The potter turned it himself in those days; at first by the hand, and later, when a rather and larger table was fixed lower down on the same axis, by means of the "lathe."

But in its essential principle the thrower's wheel is precisely what it was at the beginning, and this time-honored art is thus one of the few which "power" machinery has not filched from the craftsman, and in which the individuality of the worker is still allowed free play. Any wheel the lines of which are not quite round must be made in a mould, though even in this operation a considerable degree of manual skill is called for; but an endless variety of beautiful shapes can be turned on a wheel, and notwithstanding the changes in methods of finishing, and in composition and glazes, no sub-

stitute has been found in five thousand years for the primitive wheel—or for the thumb of the potter.

The thrower sits straddle-wise over a triangular trough, in the middle of which rises the pivot whereon the thrower's wheel revolves. Even the driving-wheel which puts it in motion is worked by human agency. The man—or it may be a woman—at the driving wheel has a more important rôle than might be imagined. He must work in absolute harmony with the thrower, increasing or slackening speed with minute obedience to the directions given by the latter. Machine power cannot supply the requisite force tempered with discretion. Two partners who have worked together for some time become as twin souls, and scarcely a word is necessary from the thrower, so instinctive is the understanding between them. From the mass of "paste" at his side the thrower seizes a lump, seemingly without regard to its size, but a little later you will see how accurately he has gauged the quantity required. The clay is thrown smartly down on the disc, which is now whirling at a rapid pace. The hand of the thrower, as by magnetic attraction, draws it up into a sugar-loaf pyramid. Down the clay is pressed again, all the time spinning swiftly round. Now it is hollowed out, as the thrower's fingers play the part of a lathe and "turn" the interior of the mass. Next a long, graceful neck rises, as it were spontaneously, and the potter's thumb and forefinger resting lightly on it, the top spreads outwards like a child putting its lips, and becomes a rim, perfect in shape and proportion. "Steady" comes the command—rather is it a whisper as if the thrower were "thinking aloud" over his work—and the pace of the disc decreases almost ere the wish is expressed; his companion has been watching with equal heedfulness. While the disc still revolves, twirling its burden incessantly though now more slowly, the final touches are given, and a vase of exquisite symmetry stands forth. Not a scrap of clay remains, so unerringly has the artist—for such he is—judged what could be created from the shapeless clod he took up a minute or two ago.

The celerity of his working, indeed, is not less astonishing than his skill. One after another, different forms resolve themselves out of the clay under his hands; now a bowl, now a wide-mouth jar, now a tapering flower-vase, now a piece quaintly shaped, now one of simple but faultless outline; or he will make successively a dozen similar objects which appear as uniform as if they had been

turned out by a machine and as accurate in detail.

By other hands his work will be "figured," fired, and glazed. The firing will coax to the surface the "stain" or color now hidden in the clay; a handsome gloss will be imparted by giving it a glaze. But the finished product will owe its beauty chiefly to the form which the mind and hand of the thrower, working in perfect unison, gave it on the wheel.

And such skill as the thrower's is attained only after years of practise. Perhaps, too, something is due to the inherited ability; or so they think in this country of potteries and coal mines. It is said that a potter's son takes more kindly to the craft than the descendant of a long line of colliers. And this lad of 14 whom you see bending over a sauce-boat, which his 'prentice hand has tremulously fashioned with the help of a mould, is on the first rung of the ladder that is to lead him to the thrower's wheel, where now his father works with a hand that, alas! must ere long lose its cunning; and where once his grandfather also "wrought work on the wheels" * * * as it seemed good to the potter to make it."

Pottery and Glass in European Turkey.

CONSIDERING the events now transpiring in Turkey, the report of A. Tinsley, the French vice-consul at Adrianople, has considerable topical interest. According to this report Adrianople is a very receptive market for glass ware. The days have now gone by when exclusive use was made of metal cups, goblets and plates. Nowadays, in all houses, glass cups, dishes, plates, goblets and the like are common, and their use is increasing daily.

If it be borne in mind that there is not one glass factory in Turkey it can easily be imagined that these goods are extensively imported from abroad. Glass ware, properly so called, comes from Austria-Hungary and Germany; glass hollow ware from Belgium, lamp glasses from Austria and Germany, window glass from Belgium, crockery from Alsace and Lorraine, china ware from Austria and Germany. A small quantity of glass and china also comes from France. German glass and china is sent over by railway in bulk, *i. e.* wrapped round with straw and placed in trucks; hollow ware and good china are put up in casks; crockery arrives in bulk, and lamp glasses in cases. Belgian goods are sent by sea.

The consul concludes by saying that if French firms would only study the requirements of the Turkish market and send over competent travelers a good trade could be

Art in Pottery.

(From the London Pottery Gazette.)

THE Worshipful Company of Turners of London is doing excellent work, and manufacturers of pottery would do well to support it by contributing funds for additional prizes, and by encouraging their apprentices and students to compete for them. An art student whose heart is in his work will always find satisfaction in success, but even a true artist will have greater satisfaction when his work is recognized. The first prize offered by the Turners' company includes the Freedom of the City of London. Surely this is a distinction well worth striving for! The more students from the potteries compete for this the better it will be for the trade.

The specimens submitted in the recent competition were classical and art forms, showing that the competitors had been trained in the production of purely art subjects. What we should have preferred to see would have been the application of art to the production of useful pottery. Students who are to become modelers and designers of pottery for domestic purposes should aim at producing the most pleasing forms—and those are always hand-made, and not mechanically produced shapes. Our budding potters should be encouraged to give us art *in* pottery, as distinct from what is usually understood by "artistic pottery." Competitors for the prizes offered by the Turners' company have an absolutely free choice of subjects, and utility would, no doubt, be an additional recommendation rather than a detriment.

Thanks to technical classes and art schools, the cheaper grades of domestic pottery of to-day are far superior, from an artistic point of view, to those of a quarter of a century ago, and there is no reason why further improvements should not be effected. There are many processes in the manufacture and ornamentation of pottery in which mechanism has been an immense service in contributing to rapid and economical production. But there are other processes in which machines, however ingeniously devised, can never surpass the hand in the beauty and delicacy of the work produced. It is a commercial necessity that we must now have dinner, tea and toilet ware produced as economically and, therefore, as rapidly as possible. But it is surely worth while to give attention to art in pottery. The consideration of beauty in form and in color is an important one, and need not be lost sight of in the production of even inexpensive pottery. It will not be overlooked if our young potters have learnt to love excellence for its own sake in the things they make. Manufacturers and workers are too often content if they produce things that will sell, but a conscientious worker ought not to be satisfied with anything that does not give him pleasure in the making.

In reply to a remark in almost these words very recently, a manufacturer said: "That is all very well from an artistic point of view, but we have to look at the com-

mercial side of the question." He evidently still labored under the impression that a beautiful form is necessarily a more costly one. This was for a long time a fault in our trades, but it is rapidly being corrected, though our rising potters require to be constantly instructed in the connection of the sense of beauty with utility in pottery.

Unfortunately, these qualities are too often considered as quite distinct, but in the early history of human industries of all kinds it was not so. Ancient records—and more especially modern discoveries—show that among the Greeks, for instance, there was no thought of separating beauty from utility. Whatever pottery the ancient Greek produced he made as useful as he could, but at the same time he was careful always to make it as beautiful as he could. We have far surpassed the early potters in the number and variety of useful articles made of clay, but we have something to learn from them in the combination of beauty with utility. We do not expect too much, but we look for progress in this direction. Competitors for prizes in pottery production are quite right to present artistic forms, but instead of limiting those forms to Attic vases and Roman urns we should like to see specimens of them in connection with articles in use in daily life.

How American Manufacturers May Protect Their Trade-Marks in Mexico.

OUR Consul at Matamoras, Clarence A. Miller, quotes from the Mexican *Herald* the following statement by Ing. Manuel S. Carmona, director of the Mexican Patent and Trade-mark Office, to which the Consul adds a comment:

The patent and trade-mark office has only the attributes of a public registry, with no legislative power whatever. In cases of infringements on patents or trade-marks which have been registered in this office, I can but submit the records to the civil court in whose docket a suit may be filed, it not being in my power to grant decisions or annul marks registered in this office.

I realize that there are a great many infringements practiced here in Mexico, these being frequently called to my notice by parties who represent themselves as affected prejudicially by the alleged illegalities. Notwithstanding this, and the fact that the law provided penalties for infringements of trade-marks, the majority of complainants refuse to have recourse to the courts by which they could obtain damages.

I am willing and anxious to assist by every means in my power owners of infringed or imitated trade-marks to recover damages from their unworthy competitors. I have almost begged several firms, which I know to have suffered considerable loss in this way, to take legal action, being in a position to have almost guaranteed a favorable decision without great loss of time or expense. Yet at every hand I meet with fear of litigation, which ties my hands completely.

The most efficient remedy for the existing state of affairs, according to Mr. Carmona, would be for all owners of trade-marks to prosecute imitators of designs. Marks or names which are protected in other countries should be registered in the Mexican office, which charges only 5 pesos (about \$2.50 United States currency) for registration during 20 years.

A new town clock will shortly be erected in Wapello, Ia. The timepiece will be placed in the tower of the Wapello County Court House.

NOVELTIES IN AMERICAN POTTERY

A NEW ware, made by the Buffalo Pottery Co., affords the enterprising jeweler an opportunity to select a line for attractive display which will brighten up his stock. This is known as "Deldare" ware, and is proving popular in many quarters. The body of this product is olive green and the decorations in hand-work color effect depict characters from "The Vicar of Wakefield" and other old English characters and scenes. The pieces include tankards, steins, plates, etc. Quaint jugs and rail plates are also a product of this concern. The decorations are in original hand-work under-glaze effect, and represent characters and scenes from history, literature and art.

FIGURES IN AMPHORA PORCELAIN

SPECIAL interest is being shown at Berlin in the varied collection of the Amphora Porcelain Factory, of Turn-Teplitz, Bohemia. Among the principal figures are a Marcus Antonius group, Antonius in a chariot, and several "Wild West" groups. Arabian and Indian types, which were shown last year, again find a place, with a limited amount of colored ornament instead of gold effects. "Picnic" groups in Watteau, Biedermaier and modern costumes form another novelty. Other "Amphora" products shown are Vienna faïences in "Copenhagen" style. Porcelain vases are displayed in enameled decoration, the designs including trees, reeds, etc. In all the above the modeling is carefully executed, down to the smallest detail; the colors never being harsh and loud, but always in harmony with the plastic effects of the articles.

DANISH PORCELAIN FIGURES

AT the establishment of Frank W. Jenkins & Co., 42 Park Pl., New York, is exhibited a collection of figure subjects from animal life reproduced in porcelain. The work is that of Bing & Grøndahls, Copenhagen, for which this house is the American agent. The exhibit covers all kinds of domestic animals as well as wild beasts and birds. It is noteworthy that the skill employed in the making of these objects is most accurate in the anatomy tone and expression of the subjects reproduced. These articles appeal strongly to collectors of pottery and lovers of animals. The reproductions are made from a study of the living animals, and include a wide variety for selection. Beside the animal subjects very interesting single pieces and groups of human figures are also exhibited.

WORKSHOP NOTES AND QUERIES

Answers are also solicited from our readers to the questions published on this page.]
No attention paid to communications unless accompanied by full name and address of the writer.

QUESTION No. 2297.—Restoring Gilded Clock.—I was recently given an old-fashioned brass clock to be re-gilded. The stomer insisting, I was compelled to set price, supposing I was high enough to be rejected against loss. When I endeavored to have the clock gilded I was informed it would cost about \$5 more than I would give for the job. What can I do under these circumstances, and how can I get the clock gilded and not sustain a loss?

R. G. C.

ANSWER:—It is advisable not to set a price on such work. The clock may be gilded as follows, and will resemble a good old plate. Have all burnished parts polished in a thorough manner, then clean the whole carefully. Secure a good gold-colored lacquer and proceed to brush the clock over with a camel's-hair brush. Cover every part of the clock. Do the work in a warm room and let dry in a warm place.

QUESTION No. 2298.—To Prevent Gold Turning Pale After Soldering.—I've noticed some gold jewelry will turn a paler color after soldering. How can we prevent this?

P. G.

ANSWER:—All alloys show a paler color after having been hard-soldered than they formerly possessed, through their surfaces coming oxidized by the heat required to make the hard solder. When they have been cooled out, a greenish-gray appearance is shown over the whole surface which had received the heat, a certain boil is produced, which has to be removed by polishing, etc., before the articles can be made presentable again and restored to their natural color. A considerable portion of this paleness may be prevented by coating the articles with a paste of the consistency of cream, of equal parts of powdered borax and vegetable charcoal, whereby they remain almost their original color. The borax is good in the process, as it prevents the pieces from being oxidized and helps to retain the original color. The charcoal absorbs any gases which arise during the soldering that is necessary to cause the solder to fuse into the places to be joined.

QUESTION No. 2299.—Burnished Surfaces.—I have a lot of gold medals which are frosted, or Roman colored, and want to give the outer edges a bright burnish. I cannot polish the edges without coming in contact with the frosted part. How can I bring out the bright edges?

P. B.

ANSWER:—A small blood stone burr used with some stale beer gives the best finish to gold. The burnishing is done very light, and there will be no difficulty in following the small pieces in the other hand.

Keep the bloodstone polished with putty powder on leather and keep perfectly clean.

QUESTION No. 2300.—Restoring Garnet Jewelry.—How can I restore garnet jewelry which has become dim from exposure in show cases?

R. G.

ANSWER:—To restore the luster to garnet prepare lampblack by placing in a ladle and heating to a red heat to burn out all the grease or oil. The calcined lampblack is used dry by brushing some on the jewelry with a soft-bristle brush; also rub some of the black into a soft piece of chamois and finish by rubbing the jewelry until a clean gloss is obtained.

QUESTION No. 2301.—Acid for Etching Glass.—What kind of acid can I use in order to etch glass?

A. E.

ANSWER:—Acid which attacks glass is hydrofluoric or fluorhydric acid. This is usually somewhat diluted with water for etching purposes. Vessels made of lead or gutta-percha must be used to hold this acid.

QUESTION No. 2302.—Steel Blue on Nickel.—I have some nickel parts which must be turned blue to match some others which are finished in steel blue. How can I plate or color them?

S. B.

ANSWER:—It is not necessary to plate the nickel black, but simply to stain it, which can be done with the dip composed of four ounces of hyposulphite of soda and four ounces of acetate of lead in one gallon of water. Bring the dip to a boil and dip the polished and thoroughly cleaned nickel pieces in the hot dip until the steel blue appears. After the articles have been rinsed and dried they should be treated to a dark, heavy lacquer, which will protect the blue so it will retain its color for several years. This dip is suitable to produce steel blue on nearly all metals, but gives the nicest blue effect on nickel pieces.

QUESTION No. 2303.—Precautions for Soldering.—How can solder be prevented from running where not wanted? Also tell me how to protect previously soldered parts from starting to run.

P. S.

ANSWER:—For articles to be re-soldered, hard solder should be used for the first operation. The second soldering should be done with a little more easily flowing, and a still softer solder should be used for each following soldering operation. By this method each soldering can be done without interfering with the previously soldered part. To prevent solder from running over the work, make a creamy paste of crocus powder, or rouge, by wetting with water. Paint this on the article, except where it is to be soldered, and let dry. Solder will not flow on the painted parts. Another means

of protection consists in painting over with graphite and water; when dry, scrape the paint away where the soldering is to be done. For tin solder the simplest protection is writing ink, which may be painted on; when dry, scrape away for the solder. Asbestos pads, dry plaster plates or charcoal should be used to hold the heat.

QUESTION No. 2304.—Hardening Copper.—We want to cast some copper articles which must be very hard. How should we proceed?

H. C.

ANSWER:—To produce something harder than that which is known as commercial hard copper use, for every 40 pounds of pure copper, two pounds of alum and eight ounces of arsenic. When the copper is thoroughly melted the alum and arsenic should be added and well stirred in. After pouring, the casting should be allowed to cool gradually.

QUESTION No. 2305.—Center Seconds Watch.—What is the construction of a center seconds watch?

H. T.

ANSWER:—In center seconds watches the train is so arranged that the fourth wheel carrying the seconds hand is in the center of the dial. Stop watches usually have center seconds, and in some cases independent center seconds. This latter is a movement consisting of two distinct trains, so that when the seconds hand, which is driven independently by one train, is stopped the other hands continue to go on. In fact, the watch indicates the time continuously, whether the independent is stopped or going. The motion wheels in center seconds movements are generally placed in the usual position, a stud being fixed in the center having a hole through its center to allow the seconds pivot to pass over the stud, the other wheels being as usual. The motion is usually imparted from a duplicate of the cannon pinion on the set hand square of the center pinion, gearing with the minute wheel. Independent seconds watches, on the other hand, have two independent trains of wheels and pinions driven by separate mainsprings. One train drives a seconds hand, which may be stopped at any time without interfering with the other train, which drives the ordinary set of hands. For greater exactness in timing watches are made to indicate the fraction of a second, most frequently fourths or fifths, and the seconds hand may be stopped at these fractional parts of a second.

To Drill Holes in Glass.

A HOLE can be rapidly made in a piece of glass by using a steel spindle ground at the extremity with three or four faces, and hardened in mercury. This spindle may be rotated between the finger and thumb, or driven by a bow, the point being moistened from time to time with turpentine. The glass operated upon should be held against the blade with the thumb or a pad immediately behind it, and should receive a gentle rocking motion, so as to prevent the drill from choking in the hole formed, and as soon as the point appears on the other side the drilling should be resumed at that side.

 KNOWN THE WORLD OVER

Beautifully adapted for the jeweler's stock and show case display—the New Pocket Edition Gillette Safety Razor is becoming an important feature in the best retail jewelry stores.

The demand over the retail counter is astonishing. Every old Gillette user wants the New Pocket Edition and it makes new friends at sight.

The set consists of handle and blade box, either triple silver-plated or 14-k. gold-plated. The pocket case is of gold, silver or gun metal—plain polished or richly engraved in Floral or Empire designs. It is so neat and compact that it will fit like a card case in the waistcoat pocket or slip into the side of a travelling bag—the blades are fine. Prices, \$5.00 to \$7.50.

For the special use of the jewelry trade, the Gillette Company has designed a tray lined with purple velvet, size of the regular watch tray—contains wells for twelve razors. These trays are made in various hardwood finishes to match the store fixtures and are shipped free of cost with the initial order for a dozen razors. Aside from the sales of the razor, the business in blades is a steady income for a store.

Two additions to the Gillette line this season are the Gillette Brush—a brush of Gillette quality, bristles gripped in hard rubber; and the Gillette Shaving Stick—a soap worthy of the Gillette Safety Razor. The stick is enclosed in a sanitary nickel box: both soap and brush are packed in attractive cartons. They will be welcomed by Gillette users everywhere.

Write us for full information. Get our suggestions on popular assortment. Talk to your jobber about it.

SMELTING FOR THE TRADE

Fulcrum Watch and Clock Oil

For years it has been practically impossible to secure a satisfactory watch or clock oil.

Everyone knows this and has known it for a long time—the Fulcrum Oil Co. learned it—learned that a good oil for such purposes would be in large demand. Experiments were commenced covering a period of several years—the results were most satisfactory. They now claim to produce the most superior oil for Watches and Clocks that has ever been put on the market.

This claim has been proven by every conceivable test and is based on facts.

FULCRUM OIL POSITIVELY WILL NOT GUM.

FULCRUM OIL WILL NOT EVAPORATE.

FULCRUM OIL can be exposed to light and will not discolor or become rancid in any length of exposure.

FULCRUM OIL is the only oil known which is absolutely *free from acid*, which prevents the corroding of the pivots.

These facts can be proven by the most severe tests that can be devised.

Future advertisements in this paper will tell what some of the leading watch companies of this country think of Fulcrum Oil. For Sale by all Jobbers. 35 cents per bottle; \$3.75 per dozen

A postal card to the factory will bring you a sample bottle by return mail. We want you to try this oil at our expense.

FULCRUM OIL CO., Franklin, Pa., U. S. A.

The Proof of the Pudding

The proof of ability in any line consists in doing the things that others have failed in doing.

This we have done repeatedly, and can furnish the proof.

We sold \$20,300 in one sale where another auctioneer had thrown up his hands after selling only \$3,000

In another sale we sold three times as much as the combined sales of two other auctioneers, and realized much better prices.

We have repeatedly taken dead sales—the result of the work of incompetent auctioneers—put new life and vim into them, and closed out the stock at a profit.

However, it is not the large amount of goods sold that counts so much as the net results in the profit and loss account—the small amount of new goods used, compared to the percentage of your goods, and your dead stock in particular, that are disposed of, and that larger and more important question of the after effects of your auction sale upon your customers, and, consequently, upon your future trade.

We believe we have solved the problem of how to conduct an auction sale so it will be to your profit, in both dollars and cents, and in the building up and permanency of your regular business.

We will furnish you evidence that sales, at this time of the year, when regular business is dull, can be made as profitable as during the seasons when regular business is booming.

You can do a holiday business during the hot months.

We would be pleased to talk with you about it.

CONCENTRATION AND SPECIALIZING

An ambitious young woman wrote short tales for the magazines while she made pickles for the household. Most of the stories came back to her. The pickles were eaten. Very soon the corner grocer gave her an order for pickles, the quality of which began to be discussed by the neighbors. She wrote more stories—and made more pickles. The stories kept coming back. After a while a traveling representative of a wholesale firm heard of the famous pickles and wrote to his employers. The young woman received from them a standing order so large that to fill it required the erection of a small factory. She built the factory and gave up story writing. To-day that pickle factory, quadrupled in size, ships its products to the four quarters of the globe.

¶ Versatility, once so admired as a fine trait, has given way to specializing. We believe in it. Our whole time, attention and efforts are given to specializing in our chosen field—

THE COMPLETE IMPORTERS AND MANUFACTURERS OF FINE DIAMOND JEWELRY.

¶ We have no other interests, no other departments, to distract us from our all absorbing work. How much thus may be accomplished by concentration is shown in

THE DISTINCTIVE ELEGANCE, WHOLESOME QUALITIES AND SUPERIOR FINISH

of our productions, which will be displayed at our coming SEVENTH ANNUAL EXHIBITION, to be held in our offices from August 30th to September 4th, inclusive.

ROLLER REMOVER No. 60

(Patented)

A thoroughly efficient and quick acting Roller Remover. The work is always plainly in sight. The roller is held in the grooved jaws of the pliers. The adjustable head which holds the screw is quickly brought into position over the staff and the most obstinate roller will instantly yield to the gradual pressure of the screw.

Nickel Plated, Each, \$1.50

Engelsman's Patent "Bayonet" Automatic Locking Stone Tweezer No. 119

The acknowledged superiority of this tweezer over any other of its kind is due to its many improvements and innovations.

First. It will be noticed that the points are grooved, thereby permitting any stone to be gripped *firmer* and *better* than by any other kind of stone tweezer.

Second. It is purposely made a "Bayonet" in shape because any stone can be shown or examined advantageously. It also enables

the user to count particularly small sizes of stones, *easier, quicker*, and with much less *exertion* than when using any other style of tweezer.

It has an *extra* part directly above the crossing points to permit the holder to examine the stone without fear of *releasing* it accidentally, which frequently occurs when using the ordinary style crossing tweezer.

Price, Each, \$1.25

GRINDING OUTFIT No. 105

LEATHER DISK. SMALL DISK METAL.

CARBORUNDUM & EMERY PAPER DISKS.

This outfit consists of:

1. Two interchangeable steel disc wheels, $3\frac{5}{8}$ " and $1\frac{1}{2}$ " in diameter
2. One interchangeable flexible leather disc wheel, $2\frac{1}{2}$ " in diameter.
3. One adjustable hollow spindle for holding the above disc wheels.
4. Eight different grade emery paper discs, $2\frac{1}{8}$ " in diameter.
5. Four carborundum paper discs of different grades, $2\frac{1}{8}$ " in diameter.
6. Eight different grade emery paper discs, 4" in diameter.
7. Four carborundum paper discs of different grades, 4" in diameter.
8. One clamping device for keeping discs flat, when not in use.

Price of Outfit No. 105, complete.....	\$1.50
Separate small emery discs.....	per doz. .15
" large ".....	" " .20
" small carborundum discs.....	" " .20
" large ".....	" " .25

This new grinding device should find favor with the trade, being thoroughly practical and complete for all purposes, such as grinding steel tools, glass, enamel or any other metal or substance that can be ground with emery or carborundum. It is of equal value to the watchmaker, jeweler, optician, dentist, lock or gunsmith, platers and kindred trades. It will be found much more economical than solid emery and carborundum wheels. An assortment of solid wheels of twelve different grits would necessitate an outlay of ten times the cost of this outfit, not taking into consideration the trouble of truing up the wheels when worn or glazed.

Full description and directions accompany each outfit.

CROWN CHUCK No. 50

For enlarging or cutting deeper crowns of watch cases. A movable plug in the stem regulates the depth required for various sizes. Four caps of various sizes are supplied with each to hold crowns from small to large. Stem fits in No. 50 wire chuck.

Price, Each, \$1.50

For Sale by all Jobbers in the United States and Canada.

The
Case
with
Bull-Dog
Tenacity

The
Wadsworth
"Permanent"
Filled
Case

THE FELLOW who said, "Wadsworth PERMANENT Cases are *bully*," hit the mark. Let us consider the bull-dog, gentlemen, if you please. Look at him. He is built to stand his ground against all comers, catch as catch can. Well, so is

THE WADSWORTH "PERMANENT"

When the bull-dog takes hold it is for keeps. If anything gives way, it's not the dog. Similarly when a Wadsworth PERMANENT Case takes hold of a movement, the movement may give out but not the Case. Strong on looks, too. Profitable.

"Worthy of its Name"

The Wadsworth Watch Case Co.

We beg to call your attention
to our extensive

Card Jewelry Line

consisting of medium priced

10K. Solid Gold Brooches, Scarf Pins,
Baby Pins, Handy Pins, Ear
Screws, Pendants, etc.

These goods are sold through the jobbing trade at very attractive figures. An examination and comparison will at once prove them to be ready sellers and profit makers in the stock of any jobber.

New patterns have been brought to a point of especial distinction, and all bear our mark of quality and reliability

It is our earnest desire to establish the same reputation for Finish, Originality, Quality and Reliability for this CARD JEWELRY LINE as is borne by our ring lines.

Samples will be cheerfully sent to jobbers and we heartily commend this line for a profitable business in 1909.

THE KREMENTZ COLLAR BUTTON

GOES ROUND THE WORLD

ITS FAME—

Wherever there are collars there are Krementz Collar Buttons. They are known the world over—the only ones that have an international reputation. With such recognition and demand, all you have to do is carry them. They sell themselves.

QUALITY MAINTAINED—

The Krementz Collar Button never disappoints. Unequaled in construction and finish, its quality always has and always will be maintained.

ASSAY—

The Krementz Collar Button does not take advantage of the elastic leeway allowed by law. There is really no reason why a solderless collar button should assay a whit less than stamped. You can depend upon it that

Krementz 14-Karat Collar Buttons will assay 14-Kt. or $\frac{584}{1000}$ Fine.

Krementz 10-Karat “ “ “ “ 10-Kt. or $\frac{416}{1000}$ Fine.

You will note that articles assaying 9 to 9½ Karat or 13 to 13½, and sold as 10-Karat or 14-Karat respectively, save the makers a profit.

ROLLED PLATE LINE—

Krementz Rolled Plated Collar Buttons and Studs are made with regular Krementz 14-Kt. stock; which is sweated, not soldered on composition base. Exhaustive tests show Krementz Plate is much heavier than is used on any other rolled-plate jewelry. Their great popularity in hot countries (where perspiration destroys ordinary goods), is largely owing to the thickness and quality of Krementz Gold Plate, similar to that used on highest quality filled cases.

Imperial Westminster Electric 1/4-Hour Chimes

Operated from ANY clock at ANY distance by 10 wet or dry batteries.
On Exhibition at our salesrooms, 81 Nassau St., N. Y. One hundred sets in use.

Received Diploma and Highest Award Medal at the Lewis & Clark Centennial Exposition, Portland, Oregon, U.S.A., October, 1905.

The music of the chimes is the same as the famous Cathedral Chimes of Westminster Abbey, London. Makes a quarter-hour Chime of any silent or striking clock, converting it into a wonderful outside Chime Timepiece.

SPECIAL NOTE.—By the old methods, to obtain an Outside Clock Chime Timepiece, and the wonderful volume of sound, and the sweet, clear tones in the chimes—to be heard on the street at a great distance—they could only be procured at an enormous expense, while these are within the means of every jeweler and occupy very little space. Placed in vestibule, or outside of building. Write for particulars and testimonial letters.

No. 24.

Beautiful Cup Presented by President Taft to the Toledo Yacht Club.

THE President's Cup, given by President William H. Taft to the Toledo Yacht Club, was recently finished and has been on display in the salesroom of the Merrill, Broer Co., Toledo, O., who furnished it according to drawings and specifications submitted by that firm several months ago to President Taft.

The cup is nautical in design throughout, and is one of the finest trophies ever offered by any of the Toledo yacht clubs, and is said to be also one of the finest cups ever offered for yacht racing on the Great Lakes. The cup proper is 16 inches high, with a base five inches high (not shown in the illustration, which appears on the front page of this issue), making the total height of the cup 21 inches. It is of heavy sterling silver, with a gold lining, and is ornamented with gold, silver and enamel designs.

The wheel and flags which form the central ornaments are of solid gold, hard enameled in colors, and stand out in relief. The flag at the left is an exact reproduction of the President's personal flag, Mr. Taft forwarding his emblem here that no mistake could be made in reproduction. The flag to the right is the pennant of the Toledo Yacht Club, both of these being produced in colors. The lettering at the top of the cup, "The President's Cup," is etched, while the cat-boat and the letters "Cat Boat Trophy" are etched.

The handles are of dolphin design, and their anchors are suspended from the sides of the cup, each being supported by a silver plate which circles the cup immediately beneath the upper fastenings of the handles. At the junction of the cup proper and base there is a rim made up of seashell designs. The base on which the cup rests contains on the forward side a silver shield with the following inscription etched upon it: "Presented by William Howard Taft, President of the United States, to the Toledo Yacht Club, 1909." There are six other silver shields on the base, on which the names of winners may be etched from time to time.

On the reverse the cup contains an etched picture of the United States Capitol, with 30 American flags draped immediately beneath.

The design was submitted by the Merrill, Broer Co., the cup itself being made by the Wilcox & Evertsen branch of the International Silver Co.

It may be interesting in a general way to know the events leading up to the gift of the cup by President Taft, the principal facts in the story being as follows: While making his campaign for president Mr. Taft was a guest of certain Toledoans, spending a part of his time in Toledo and around some of the yachts which abound at the Great Lakes ports. Whether his

entertainment had anything to do with the gift has never been made public, but at all events some time after the visit members of the Toledo Yacht Club requested him to add a trophy to the long list which was being prepared for this season's races. He acceded to the request and three designs were submitted, that of the Merrill, Broer Co., of this city, being chosen by Mr. Taft, who immediately issued orders to have a cup made according to the drawings accepted.

By the deed of gift, forwarded some time ago to the Toledo Yacht Club, that club is to be the permanent owner of the cup, but it is to be raced for each year. The winner of the cup is to place it on display in the club house of the club to which the

cup is offered for various yacht races at Toledo this season, and entrants from any port on the Great Lakes are eligible. The list includes a cup from Governor Gilbert Harmon of Ohio, cups by several former commodores of the local clubs and cups by private Toledoans, some of which are equally as large as the President's Cup.

A Handsome Specimen of Repousse Work in the Green Vault at Dresden.

IN the columns of THE JEWELERS' CIRCULAR-WEEKLY from time to time there have been depicted and described many fine examples of repoussé chasing of the present and past ages, but of the many that have been shown, none are more beautiful or de-

SILVER REPOUSSÉ DISH IN THE GREEN VAULT, DRESDEN.

winner belongs until the following June, when it is to be returned to the Toledo Yacht Club to be again raced for. The winner's name and club to which he belongs is to be inscribed on the cup, and the Toledo Yacht Club is not to be disbarred from competing. Entries, however, are to be limited to the cat-boat class.

Incidentally it might be stated that 13 other trophies of a similar nature are to be

depicted the power of conception or skill of the artist of old to a greater extent than the beautiful dish illustrated herewith. This work, which is of the period of the German Renaissance, is part of the collection of the Green Vault in Dresden, Germany.

For the illustration we are indebted to our esteemed London contemporary, the *Watchmaker, Jeweler, Silversmith and Optician*.

OLD PROVERBS

"HONESTY IS THE BEST POLICY"—Unquestioned quality of our 14K. and 10K. gold rings.

"EXPERIENCE IS THE BEST TEACHER"—44 years' experience in gold ring making.

"CONFIDENCE IS THE COMPANION OF SUCCESS"—We have some customers who have been selling our rings ever since we first made them. They are still in business, and so are we.

"VARIETY IS THE SPICE OF LIFE"—A most varied assortment of rings, for man, woman or child.

"A SINGLE FACT IS WORTH A SHIP LOAD OF ARGUMENTS"—Year after year, an increased sale of Larter rings.

"BUYERS WANT AN HUNDRED EYES—SELLERS NONE"—Be wide awake to see the many desirable rings we make.

Reg. U. S. Pat. Office

Reigning Jewelry Fashions Noted in Paris.

Dainty Novelties in Gold, Silver and Gems Now in Demand Among the People of Taste in France's Capital.

PARIS, June 30.—The elaborate coiffure being imperative, back and side combs are an important part of a woman's get-up. The wide tortoise is usually preferred, with wavy tops set with real or simili gems. The wide comb is not high, but rather broad. The tiara is, of course, an evening ornament. Some are ponderous and uncomfortable, while others are light and of exquisite workmanship, exhibiting a variety of patterns, among which those embodying fruit and flower are preferred. A charming lapidary ornament, a present from the King of Spain to his queen, is in the form of a couple of wheat ears in diamonds, the beads being of platinum. For young women there are bandeaux of dull gold, a wreath of laurel leaves or a simulated pearl in colored enamel.

The boa pin, as long as a finger, extremely narrow and encrusted with precious stones, finds its place in every lady's dressing case, for it serves to keep together the stole of fur, tulle or feathers, the lace or the draped satin wrap.

Buckles and clasps are not as much seen as formerly, the dressmakers employing other modes of finishing the waist. However, there are magnificent clasps, looking as if rifled from the sword belt of some Roman warrior, observable on some of the historic moyenage costumes, now the fashion. Others are slender buckles of enamel in various colors, with a design in tiny forget-me-nots or rosebuds. Clasps sometimes hold the drapery on the hips or hold a brooch in place upon one shoulder.

Very elegant tie clasps or tiny buckles of silver or other simili gems ornament the abbé tie, several glittering ornaments being set on the several straps of a bag.

Large burnished gold or enamel shoes are seen on other low footwear. The lorgnon is an ornamental adjunct to the feminine dress. Savoring of the fashion of the x and belles of the Empire period is the one or two glass lorgnon. It is often richly encrusted with precious stones, not only trimming the frames, but also the handles. More modern are those enclosed in a frame which often bears the monogram or is encrusted in diamonds, or is in translucent enamel or blonde tortoise-shell, gold etched. The mesh purse is the complement of the well-dressed woman, those of gold being more elegant every day. Clasps are magnificent, and a novelty is a mesh purse with flap, that and the clasp being set with a design of rubies between shining lines of brilliants.

There are bags of gold and platinum in solid or striped pattern, beautiful ones of platinum powdered with diamonds, while others show clasps consisting of a golden wreath with rubies set a *jour*. An artistic bag is of heavy tarnished gold, with the design in high relief picked out with dark enamel, and on each side two eagles' heads with open beaks and ruby eyes. A bag of tortoise shape is a tortoise of gold meshes, the scales being indicated with platinum.

The head and flippers are diamond studded. However, these rather eccentric shapes are not as desirable as the bag, which is often drawn together with a golden cord and fringed with great baroque pearls or cabochon gems.

Jewelers are selling handsome gold or silver cigarette cases for ladies' use. They usually hang from a chatelaine or a chain about the waist. Match boxes come to correspond. The vanity box is universally used, and is square or oblong, of gold or silver, repoussé or jeweled, according to the fancy of the wearer.

Tiny fans not more than a finger long, with painted Watteau figures and pearl sticks, gold inlaid and gem studded, are often worn upon the sautoir.

Umbrella handles are among articles de luxe, the jewelers being patronized for these costly mountings. Sticks of painted wood are continued by handles of tortoise shell or coral, carved or plain. Great knobs of rose quartz, of jade, of lapis, of amethyst matrix, are among the newer forms of decoration. A woman of sporting proclivities had a parasol with a long handle, the top being a flat disk of gold studded with precious stones, which, on being opened, disclosed a game of *Petits Chevaux*.

The small automobile parasol is in favor and is almost indispensable. These little affairs are of taffeta, generally white, veiled

the bridge player or she who is addicted to roulette, nearly always wears a *porte bonheur* in evidence or concealed about her person. Very pretty are disks thickly encrusted with diamonds, while in the center is a golden numeral a *jour* in the same stones. Any number is obtainable, but at present the once fateful 13 is elevated to the highest place as a luck-bringing factor. Other breloques are of jade or quartz or New Zealand lucky stone, applied with a golden number. The four-leafed clover and the horseshoe are little seen, newer devices being substituted. A coral hand to keep away the evil eye is in high favor, also little ivory and jade elephants, black cats, pigs, etc., each person having some pet superstition in regard to their potentiality. The hand of Fatima presumably possesses much virtue. Ladies hang these little ornaments on the sautoir or bracelet, while a man's watch chain is usually the receptacle for the small object in which he puts faith. COUNTESS DE MONTAIGU.

Silver Set Presented to Wife of Pay Director T. J. Cowie, U. S. N.

THE silver set illustrated herewith was made by Jenkins & Jenkins, Baltimore, Maryland, and is considered one of the most elaborate and handsome made for local private presentation for some time. The set is a combination coffee and tea resting on a large tray with a water set on the side. The entire combination is of a special design and engraving and cost \$1,100. The large tray measures 33 inches by 20 inches.

The set was presented to Mrs. Thomas J. Cowie, wife of Pay Director Thomas J.

SILVER SET PRESENTED TO WIFE OF PAY DIRECTOR T. J. COWIE, U. S. N.

with Chantilly or Point de Bruxelles lace. Carved coral handles or those topped with a great ball of lapis, quartz or enamel are liked. Others are of elaborately carved ivory or of mother-of-pearl in iridescent colorings. Cut crystal balls look well with covers of ruffled white taffeta.

A chapter might be written in regard to the breloque, which often assumes the guise of a fetish, or good-luck charm. The motorist, the woman who rides hard to hounds, or engages in any hazardous sport, also

Cowie, U. S. N., at Annapolis, by the clerks in the paymaster's office in appreciation of the interests of her husband in their welfare.

C. F. Warner, Two Harbors, Minn., recently sustained a loss of several thousand dollars by fire.

The Wetteroth Jewelry Co., St. Joseph, Mo., which has been engaged in business for the past 40 years, is moving to a new location at 717 Felix St.

Suicide of Nelson A. Soggs, Niagara Falls, N. Y., a Result of Despondency Caused by a Series of Misfortunes.

BUFFALO, N. Y., July 8.—Intense sorrow was expressed in the jewelry trade here on account of the suicide of Nelson A. Soggs, a prominent jeweler of Niagara Falls, yesterday. Mr. Soggs had a wide acquaintance in Buffalo, and his death came as a shock to his many friends, who held him in the highest esteem. Despondency caused by the loss of his business, coupled with poor health, is the motive attributed by his wife for his act.

For several weeks Mr. Soggs had been acting in an unusual manner. He arose early yesterday and donned his undershirt and trousers. He went downstairs, soon

THE LATE NELSON A. SOGGS.

afterwards returning upstairs, and went immediately to the bath room adjoining his apartment. His wife, noticing that his actions seemed queer, at once followed him, reaching and opening the bath room door in time to see her husband with a large bread knife in one hand and a bottle labeled with a poison symbol in the other. Nearby on a table lay an open penknife. She begged him to leave the bath room and return to his apartment, but this he declined to do.

Mrs. Soggs then called for assistance. Mrs. Leo Gordon, of Corry, Pa., his sister, who was visiting the Soggs at the time, quickly came to her aid. Then followed a fierce struggle between Mr. Soggs on one side and Mrs. Soggs and Mrs. Gordon on the other for possession of the bottle, which they finally wrenched from his hand.

However, before the struggle Mr. Soggs had emptied a bottle containing prussic acid, and it is thought a considerable quantity of laudanum from another bottle which was hidden from sight of the women. After the struggle Mr. Soggs returned to the bathroom, and the women were afraid to follow him because of the knives he had left there. Mrs. Soggs at once hurried to the telephone and summoned Dr. Walter A. Scott, and he arrived within 10 minutes. When Dr. Scott entered the room Mr.

Soggs was lying face downward on the floor, unconscious. The doctor quickly telephoned to the Memorial Hospital, and a stomach pump was hurried to the house, but proved of no use, as Mr. Soggs died about 20 minutes later.

Nelson A. Soggs had been in business in Niagara Falls for about eight years. He formerly kept a jewelry store on 3d St., of that city, but a year and a half ago he opened a large jewelry store at Falls and 1st Sts. He went to great expense in this undertaking, and a few weeks ago he was forced into bankruptcy as a result of illness and a series of personal troubles. He was mentally affected for some time, and last year he was sent to a Buffalo sanitarium. When he returned he seemed improved. However, his business troubles had been bearing upon him, and for a week or more he had been much depressed and extremely nervous.

Mr. Soggs was one of a family of eight children, and the only one surviving is a sister, who resides in Corry, Pa., with whom Mr. Soggs' mother, Mrs. Eunice Soggs, lives. Last Fall Leslie Soggs, a brother, who was in the jewelry business in Binghamton, N. Y., fell ill of typhoid fever. The brothers were intimate in their business relations and strongly attached to each other, and when Nelson Soggs heard of his brother's illness he hurried to Binghamton and remained at his bedside until the brother's death. When Nelson Soggs returned home his demeanor denoted the grief which afflicted him, and he was plunged into melancholy for several weeks. It was about this time that Mr. Soggs suffered from an attack of nervous exhaustion and was removed to a Buffalo sanitarium, which he left, apparently much improved, shortly before going into bankruptcy.

Mr. Soggs had been married twice, his first wife being Millie Excell, of Lima, N. Y., who died some years ago in Alaska, whither Mr. Soggs had gone after being in the jewelry business in Binghamton. The wife surviving was formerly Miss Anna White, of Buffalo, a member of a well-known family here. She and Mr. Soggs were married five years ago.

Mr. Soggs went to the Cataract city in 1901 and went into business, managing the "Third St. Jewelry House." He afterwards took the business for himself, as before noted.

Deceased was a member of St. Paul's M. E. Church and of the Fraternal Order of Eagles and the Odd Fellows Lodge. He also was a member and prominent in the affairs of the Niagara Falls Board of Trade. He was a man of many sterling qualities, sincere, honorable and forceful, and his tragic death or at least his mental derangement was the result of a series of personal and business misfortunes for which he was in no way responsible.

New York Assay Office Institutes Measures to Prevent the Depositing of Stolen Precious Metal.

Through the withdrawal from the United States Assay Office, at New York, of a Central Office detective, who had been put there to detect deposits of stolen gold, it became known recently that for the last six months systematic efforts have been made by the Police Department, with the co-operation of the United States Government officials, to put an end to the turning in to the Assay Office of stolen watches and other gold jewelry which had been taken in this city by thieves and pickpockets.

An investigation, undertaken last January, definitely established that a number of deposits made at the Assay Office represented stolen jewelry, and the conclusion was reached by the Police Department that good would come of placing a Central Office man in the Assay Office to watch all deposits of gold, with the purpose of helping the police in running down and capturing the thieves from whom this gold was bought, and in turn deposited by the purchasers in the Assay Office.

There are about 1,000 depositors who from time to time turn old gold over to the New York Assay Office. The majority of these are jewelers, banks and others well known to the officials, but included in the number have been many pawnbrokers in this city and nearby places. Upon some of these suspicion rested even before the police started their work in the Assay Office last January. The evidence collected by the Central Office men detailed to this work established definitely that perhaps a dozen of these pawnbrokers were depositing stolen gold.

In the opinion of those familiar with the work that has been done as a result of this co-operation between the Assay Office and the police much good has already been accomplished by frightening off some of the "fences" who were in the habit of buying stolen gold and bringing it into the Assay Office.

It is the purpose of the New York Assay Office to make it an institution as pure as any banking house, where depositors may be sure of the standing of their fellow depositors.

B. Yehley, Delaware, O., is on a 10-weeks' trip to Europe. He will visit his former home in Germany and many other points of interest.

Severe Fire at Hardy & Hayes Co.'s Building in Pittsburg, Does Damage Estimated at \$50,000.

PITTSBURG, Pa., July 7.—Spontaneous combustion caused a fire in the jewelry store of Hardy & Hayes, 213 Fifth Ave., Saturday July 3, entailing a loss of about \$50,000. The fire was a spectacular one, and caused considerable excitement in the downtown section of the city. Several firemen were injured by falling glass and one man was overcome by smoke and taken to the Homeopathic Hospital.

Alexander Hardy, a member of the firm of Hardy & Hayes, was the hero of the occasion, and he assumed charge of the operation soon after arriving on the scene. Hardy displayed even more courage than the firemen, climbing the fire escape to the second floor and opening the way for the firemen to combat the flames. He entered the fourth floor through the skylight, and, although the smoke was stifling and had frightened several of the fire-fighters to retreat, he fought his way to the third floor and led a squad of firemen to the second floor. The smoke on the second floor was so dense that everybody was forced to retreat. Mr. Hardy was so overcome by the smoke that he tumbled on the fire escape and a clerk of the store supported him until he was able to gain his strength.

The blaze was fighting its way from the front, and the inability of the firemen to gain access to the second floor was a considerable handicap. When Mr. Hardy reached the sidewalk he shouted instructions as to how to open the second-story windows. The firemen tried to follow his directions, but Mr. Hardy was obliged to descend the ladder and direct the fire-fighters. The first intimation of the fire was received from the Holmes Electric Protective Association, which has a wire system in the building. Herbert J. Clarke and Henry Danforth, who were in the office, located but a few doors away, noticed that the company's alarm had sounded and rushed to the building. The smoke was pouring through the windows at this time, and they sounded the alarm.

A fire engine company was the first to arrive on the scene, and Fireman Ross Reynolds broke into the rear door and carried a hose to the center of the basement. Several other firemen followed, but the smoke drove them all back. Reynolds clung to the fire escape and carried it to the storage department, where the fire had started. He was overcome by the heat and smoke, and fell when he called for help. On account of the dense smoke it was several minutes before his companions could locate him, and he was finally carried from the building unconscious and taken to the Homeopathic Hospital.

The fire continued to gain headway, and ladders were used to bore holes in the wall of the building to get at the bed of the fire. The first hole was made by firemen and the flames were driven back by the flames that burst through the opening. Several more holes were made, and several streams of water were directed on the bed of the fire. An elevator was used directly above the storage room and was used as a draught for the fire, but it was out of control after the openings were made in the wall. The basement is divided into

several apartments, used as storage rooms. Each of these is separated from the others by a brick partition, and this handicapped the firemen and made it difficult to get to the fire.

Considerable commotion was caused when several of the firemen climbed to the top of the building at the corner of Fifth Ave. and Market St. The building was formerly occupied by the May Drug Co., and is now being remodeled to be occupied by the Rosenbaum Co. As a line of hose was being drawn up the side of the wall a portion of the wall fell to the sidewalk and a number of firemen escaped serious injury.

The building, which is four stories high and occupied by the Hardy & Hayes Co., is owned by the Floyd estate. The present concern is now erecting a new building in Penn Ave., and intended to move to its new location within the next few weeks. The basement of the Fifth Ave. building is used exclusively for storage and for the shipping department. The top floor is stocked with cut glass, the third with paintings, and the second with silverware. Though the fire did not reach the second floor, all the silverware and paintings were damaged by smoke and water. It was said that a number of paintings in this department were valued at \$25,000 each.

Mr. Hardy says the firm was carrying about \$500,000 worth of stock, but he estimated that the loss would not exceed \$50,000, the bulk of the valuable articles being in the vaults.

Manufacturing Jewelers of Providence and the Attleboros Who Will Close Their Plants from July 31 to Aug. 9.

PROVIDENCE, R. I., July 7.—The following is a list of the manufacturing jewelers of this city and the Attleboros who purpose to close their factories from July 31 to Aug. 9:

Providence—E. L. Logee & Co., Williams & Anderson Co., A. A. Greche & Co., Payton & Kelley Co., E. A. Bennett Co., Fletcher-Burrows Co., Frank E. Guild Co., Parks Bros. & Rogers, Waite, Evans Co., Potter & Buffinton Co., E. A. Potter Co., Aetna Optical Co., Adolph Tanzer, O. R. Mitchell Co., J. A. McCanon & Co., S. K. Merrill Co., Jeannette Jewelry Co., L. Davidsburg & Co., F. T. Pearce Co., George N. Babington, P. S. Eddy & Son.

Attleboro—W. E. Richards Co., Fonteneau & Cook Co., D. & D. Chain Co., Attleboro Mfg. Co., Attleboro Chain Co., D. F. Briggs Co., F. H. Sadler Co., Bliss Bros. Co., Barden & Hull, Austin & Stone, J. N. Fisher Co., Smith & Crosby, R. F. Simmons Co., C. O. Sweet & Son Co.

North Attleboro—Doran, Bagnell & Co., T. G. Frothingham & Co., H. D. Merritt Co., W. & S. Blackinton Co., A. H. Bliss Co., Sturtevant & Whiting, Cheever, Tweedy & Co., R. Blackinton & Co., J. H. Peckham & Co., W. H. Bell & Co., Bugbee & Niles Co., Standard Chain Co., F. H. Cutler & Co.

Plainville—Whiting & Davis, H. A. Gardner Co., Plainville Stock Co.

Rombach Bros. have bought out the business of Johnson Ater, Columbus, O.

Death of Wesley Wellington Wattles.

PITTSBURG, Pa., July 9.—Pittsburg lost one of its best known and most prominent business men when pneumonia caused the death of a well-known jeweler, Wesley Wellington Wattles, aged 65 years. Mr. Wattles was called by death while surrounded by his family, Tuesday morning, July 6, at his late home, 330 South Lang Ave., after only one week's illness.

Mr. Wattles was born in Gettysburg, Pa., and was educated in the schools of that city. He was a thorough business man, as was shown by his success since he left school. He moved from Gettysburg to Piqua, O., where he engaged in the jewelry business, and 25 years ago came to Pittsburg. Since that time he had been connected with the jewelry house of the Hardy & Hayes Co., Fifth Ave.

Deceased was an active member of the First English Lutheran Church, and was a member of the Independent Order of Odd Fellows. He leaves his widow, who was Miss Lida Zeigler; two brothers, William W., of W. W. Wattles & Sons, and W. Warren Wattles, of Pittsburg, and three sisters, Mrs. Eliza Fry, wife of the Rev. Dr. J. Fry, of Philadelphia; Mrs. Louisa Moser, wife of the Rev. D. M. Moser, of Schuylkill Haven, Pa., and Mrs. Kate Kuhn, wife of the Rev. D. A. Kuhn, of Corunna, Ind.

The funeral, which was largely attended, was held yesterday afternoon. The services were held at the Wattles home in South Lang Ave., and the interment took place at Homewood Cemetery.

Death of Howard L. Oberlin.

LANCASTER, Pa., July 12.—Howard L. Oberlin, senior member of the firm of H. L. Oberlin & Bro., Columbia, Pa., died, last week, of a complication of diseases after an illness of some duration. The news of his death was received with deep regret by his many friends in the vicinity of Columbia, Lancaster and in other towns in this section, where he was well known and highly regarded.

Deceased was in his 50th year. He learned the jewelry trade with H. F. Yergey in Columbia, and later engaged in business for himself. He started in 1886, and in 1892 was joined by his brother, William Shelley Oberlin, who was about eight years his junior, under the style of H. L. Oberlin & Bro. He built up a nice business and gained the confidence and esteem of his customers and associates in the jewelry trade. The business will be continued by William S. Oberlin.

Friends of S. Callison, Dexter, Ia., secretary of the American National Retail Jewelers' Association, have been congratulating him and his wife upon the arrival of little Ruth Callison, July 4.

Creditors of Gustav Rengalle, Sandusky, O., have received notice of the first meeting of the creditors to be held at the office of Referee-in-Bankruptcy C. B. De Witt, in the Bittner building, Sandusky, Monday, July 19, at 10 A. M. At this time the creditors may determine the question of payment of dividends together with any other matters that may come before the meeting.

President Archibald Talks on the Programme of the Fourth Annual Convention of the A. N. R. J. A. at Omaha, Aug. 3, 4, 5, 6.

LAIRSVILLE, Pa., July 7.—In speaking of programme of the fourth annual convention of the American National Retail Jewelers' Association, to be held in the Hotel, Omaha, Aug. 2 to 6, inclusive, President Archibald said: "This programme will be carried out very nearly as here given. A few men will be added to this programme. Three or four men have been invited to speak have not decided as yet. We expect to have present the men who are booked in the programme. This programme is very materially different from those given in the past

Wednesday, Aug. 4, is called 'Manufacturers and Jobbers' Day.' The speakers for day are nearly all presidents or men in authority in their respective firms. We contemplate this day to be a revelation and different from all former programmes. We hope that the subjects will open up a new way for our serious consideration and will give the retail jeweler, the manufacturer and the jobber in much closer relationship. We wish to urge every State to send its quota of delegates to our convention. We hope that every delegate will make it a special point in his business to be at this convention. Members should not permit a trivial excuse or expense to keep them away. Suppose it costs \$25, \$50 or, say, \$75 to attend this great convention of retail jewelers, it will be worth more than that to anyone in one year's business.

We wish to assure every retail jeweler that this convention will be made up of the best class of jewelers in the United States. When they look over this programme and the noted men who will address this convention outside of the retail jewelers, they will realize that it surely will be a treat for them. In addition to the presidents and managers of large companies who will address us, the retail jewelers who will speak are men capable of making an address or they would not be invited to speak. We invite all retail jewelers and jobbers, manufacturers and trade press and secret press to be at this convention. We have secrets to keep. This convention will be strictly of business.

We hope each member who owes for his dues will send the amount to his State secretary at once. We hope each retail jeweler who is not a member will send his dues and ask to be made a member.

We wish to impress upon every retail jeweler in the United States that many resolutions have been brought about during this year. We wish to further say that we have only made a beginning; that the 'harping' of progress of our work has only been sounded. The only difficulty is that this year has been too short.

Every retail jeweler in the United States should read this programme with care and study the themes here given for discussion, opportunities will be given for large discussions on these subjects.

Special entertainment will be provided for the ladies who attend this convention. Each retail jeweler is invited and urged to bring with him his good wife. In the past

conventions the large number of ladies who attended gave inspiration to the occasion. May we have the presence of hundreds of the good wives of our brother jewelers!" The programme is as follows:

Monday Evening, Aug. 2.
Initiation into "Aksarben."
Tuesday, Aug. 3—Morning Session.
9.00.—Registration of delegates.
9.30.—Music.
10.00.—Call to order. Invocation, Rev. Loveland, Omaha.
10.00.—Address of welcome by Mayor of Omaha.
10.30.—Response, A. E. Paegel, Minneapolis, Minn.
10.50.—Appointment of committees.
11.00.—Report of national secretary, S. Callison.
11.00.—Report of national treasurer, R. C. Bernau.
11.30.—Address, "Why Are We Here?" C. H. Williams.
12.00.—Adjournment.

Afternoon Session.
1.30.—Music.
1.30.—Report of credentials committee.
2.00.—President's address, J. P. Archibald, Pennsylvania.
2.30.—Address, "Trials and Tribulations of a Country Jeweler," Senator Henry Zilliken (Jeweler), Wellsburg, W. Va.
3.00.—Address, "The Retail Jeweler as an Advertiser," R. D. Worrell, Missouri.
3.30.—"The Social Life of the Retail Jeweler," A. F. Jahnke, Richmond, Va.
4.00.—Address, "The Financial Advantages of Local Jewelers' Clubs," John C. Pierick, Springfield, Ill.
4.30.—Address, "Value of Horological Education and Horological Laws," T. L. Combs, Omaha, Nebr.
5.00.—Question box (two-minute talks).
5.45.—Announcements and adjournment.

Evening Session.
Lecture by Charles Higginbotham, consulting superintendent, South Bend Watch Co.
Wednesday, Aug. 4—Morning Session.
MANUFACTURERS AND JOBBERS' DAY.
9.00.—Music.
9.30.—Call to order.

Thursday, Aug. 5—Morning Session.
9.00.—Music and call to order.
9.10.—Report of executive committee.
9.15.—Report of other committees.
9.30.—Address, "The Panama Canal: Panama and Its Future Prospects," Hon. S. O. Bigney, Attleboro, Mass.

10.00.—Election of Officers.
12.00.—Announcements and adjournment.
Afternoon Session.
1.30.—Music and call to order.
2.00.—Address, "Betterments in Business," A. F. Sheldon, president Sheldon School, Chicago.
3.00.—Announcements and adjournment.
Evening Session.
Public reception and viewing exhibits.
Friday, Aug. 6—Morning Session.
9.00.—Music and call to order.
9.15.—Address, "The Federation of Mercantile Organization as a Factor in Modern Business Methods," A. E. Barker, Minneapolis, Minn.
10.00.—Report of Resolution Committee.
10.30.—Adoption of resolutions.
11.00.—Announcements.
11.30.—Adjournment.
Afternoon Session.
1.30.—Music and call to order.
1.45.—Unfinished business.
2.30.—New Business.
3.30.—Love feast and farewells.
4.00.—Adjournment.
Evening Session.
Initiation into "Ku Ku's."

Rabbi Sought by St. Louis Police on Charge of Embezzling \$7,500 Worth of Diamonds.

ST. LOUIS, July 10.—Solomon Suskind, an ordained rabbi of the orthodox Jewish church, who has been ministering to the Alvah-Anshey-Romana congregation at 1011 N. 19th St., and maintaining an office as a diamond salesman in the Holland building, is sought by the police under a warrant issued at the instance of Isadore Fishlowitz, a diamond merchant with offices in the Holland building, charging him with the embezzlement of diamonds valued at \$7,500.

The diamonds were turned over to Suskind to be sold on commission. Suskind gave Fishlowitz as security a quit claim deed to property which he said was worth \$16,000. Fishlowitz says he has found that it is not worth more than \$2,500. Suskind came to St. Louis two years ago from Austria, and shortly afterward took charge of the congregation. He embarked in business as a diamond importer, receiving frequent shipments from a cousin in Europe. Several months ago his wife and five children came to St. Louis. The family have been living at 2022 Carr St.

About a month ago, Suskind's uncle, Harry Steinhaur, came to St. Louis from Los Angeles, Cal., and attempted to interest members of Suskind's congregation in the formation of a diamond company. Steinhaur stopped at the home of his brother, Jacob Steinhaur, 1425 Blair Ave.

Mrs. Suskind says her husband left, Thursday, saying he was going to Chicago and perhaps to New York. She thinks he will return. Steinhaur had expressed an intention of taking Suskind to California with him. It is not known where Steinhaur is at present. Several checks issued by Suskind against the Cass Ave. Bank have been returned marked "insufficient funds."

Detectives have found 100 loose diamonds in a Franklin Ave. pawnshop, which were placed there by Suskind as security for a loan of \$300.

For the fourth time within a year the store of J. Friedberg & Son, 210 Woodward Ave., Detroit, Mich., was entered by burglars. On the first occasion \$600 worth of stock was stolen, and recently \$200 worth of diamonds and watches were taken.

JEWELERS BUILDING, 373 WASHINGTON STREET, BOSTON, MASS.

Jewelry, Watch and Precious Stone Schedules of the New Tariff as Passed by the Senate.

WASHINGTON, D. C., July 10.—The proposed new tariff bill passed the Senate Thursday night, and will now go to the Conference Committee of the House and Senate, where it will finally be whipped into shape for passage by both houses. As the bill was reported out of the Senate committee to that body it contained the amended jewelry, watch and precious stone schedules, which have already been published in THE JEWELERS' CIRCULAR—WEEKLY, but before it was finally passed by the Senate the watch schedule was amended so as to eliminate a part of the marking provisions as to the manufacturers' names, which have been the subject of much discussion.

The watch, jewelry and precious stone schedules, as they go to the Conference Committee, are as follows:

Sec. 189. Watch movements, including time-detectors, whether imported in cases or not, if having more than seven jewels, 65 cents each; if having more than seven jewels and not more than 11 jewels, \$1.35 each; if having more than 11 jewels and not more than 15 jewels, \$1.85 each; if having more than 15 and not more than 17 jewels, \$1.25 each and 25 per centum ad valorem; if having more than 17 jewels, \$3 each and 25 per centum ad valorem; watch cases and parts of watches, chronometers, box or ship, and parts thereof, 40 per centum ad valorem; lever clock movements having jewels in the escapement, and clocks containing such movements, \$1 each and 40 per centum ad valorem; all other clocks and parts thereof, not otherwise provided for in this section, whether separately packed or otherwise, not composed wholly or in part of china, porcelain, parian, bisque or earthen ware, 40 per centum ad valorem; all jewels for use in the manufacture of watches or clocks, 10 per centum ad valorem; enameled dials for watches or other instruments, costing not more than 10 cents each, 1½ cents per dial and 40 per centum ad valorem; costing more than 10 cents each, three cents per dial and 40 per centum ad valorem; *Provided*, that all watch and clock dials, whether attached to movements or not, shall have indelibly painted or printed thereon the country of origin, and that all watch movements, lever clock movements with jewels in the escapement, and cases of foreign manufacture shall have the name of the manufacturer and country of manufacture cut, engraved, or die-sunk conspicuously and indelibly on the plate of the movement and the inside of the case, respectively, and the movements shall also have marked thereon by one of the methods indicated the number of jewels and adjustments, said number to be expressed both in words and in Arabic numerals; and none of the aforesaid articles shall be delivered to the importer unless marked in exact conformity to this direction.

Sec. 195. Articles or wares not specially provided for in this section, composed wholly or in part of * * * nickel, pewter, * * * gold, silver, platinum, aluminum or other metal, and whether partly or wholly manufactured, 45 per centum ad valorem.

Sec. 417. Beads and spangles of all kinds, including imitation pearl beads, not threaded or strung, or strung loosely on thread for facility in transportation only, 35 per centum ad valorem.

Sec. 444. Chains, pins, collar, cuff and dress buttons, charms, combs, millinery and military ornaments, together with all other articles of every description, finished or partly finished, if set with imitation precious stones composed of glass or paste (except imitation jet), or composed wholly or in chief value of silver, German silver, white metal, brass or gun metal, whether or not enameled, washed, covered, plated or alloyed with gold, silver or nickel, and designed to be worn on apparel or carried on or about or attached to the person, valued at 25 cents per dozen pieces, one cent each and in addition thereto three-fifths of one cent per dozen for each one cent the value

exceeds 25 cents per dozen; all stampings and materials of metal (except iron or steel), or of metal set with glass or paste, finished or partly finished, suitable for use in the manufacture of any of the foregoing articles (except chain valued at less than 30 cents per yard other than nickel or nickel-plated chain), valued at 72 cents per gross, three cents per dozen pieces and in addition thereto one-half of one cent per gross for each one cent the value exceeds 72 cents per gross; rope, curb, cable and other fancy patterns of chain, without bar, swivel, snap or ring, composed of rolled gold plate or of silver, German silver, white metal or brass, not exceeding one-half of one inch in diameter, breadth or thickness, valued at 30 cents per yard, six cents per foot and in addition thereto three-fifths of one cent per yard for each one cent the value exceeds 30 cents per yard; finished or unfinished bags, purses and other articles, or parts thereof, made in chief value of metal mesh composed of silver, German silver, or white metal, valued at \$2 per dozen pieces, 10 cents per piece and in addition thereto three-fifths of one cent per dozen pieces for each one cent the value exceeds \$2 per dozen; all the foregoing, whether known as jewelry or otherwise and whether or not denominatively or otherwise provided for in any other paragraph of this act, 25 per centum ad valorem in addition to the specific rates of duty herein provided; all articles commonly or commercially known as jewelry or parts thereof, finished or unfinished, including chain, mesh and mesh bags and purses composed of gold or platinum, whether set or not set with diamonds, pearls, cameos, coral or other precious or semi-precious stones, or imitations thereof, 60 per centum ad valorem.

Sec. 445. Pearls and parts thereof, drilled or undrilled, but not set or strung, 10 per centum ad valorem; diamonds and bort, coral, rubies, cameos, and other precious stones and semi-precious stones, cut but not set, and suitable for use in the manufacture of jewelry, 15 per centum ad valorem; imitation precious stones, including pearls and parts thereof, for use in the manufacture of jewelry, doublets, artificial or so-called synthetic or reconstructed pearls and parts thereof, rubies or other precious stones, 20 per centum ad valorem; diamonds and other precious stones, rough or uncut, and not advanced in condition or value from their natural state by cleaving, splitting, cutting or other process, including glaziers' and engravers' diamonds not set, five per centum ad valorem.

Sec. 449. Bags, baskets, belts, satchels, card cases, pocketbooks, jewel boxes, portfolios and other boxes and cases, made wholly of or in chief value of leather, not jewelry, and manufactures of leather, or of which leather is the component material of chief value, not specially provided for in this section, 40 per centum ad valorem.

Sec. 462. * * * sculptures, not specially provided for in this section, 15 per centum ad valorem; but the term "sculptures" as used in this act shall be understood to include only such as are cut, carved or otherwise wrought by hand from a solid block or mass of marble, stone or alabaster, or from metal, and as are the professional production of a sculptor only. * * *

Sec. 549. Miners' diamonds, whether in their natural form or broken, not set, and diamond dust, free.

Sec. 709. Works of art, drawings, engravings, photographic pictures and philosophical and scientific apparatus brought by professional artists, lecturers or scientists arriving from abroad for use by them temporarily for exhibition and in illustration, promotion and encouragement of art, science or industry in the United States, and not for sale, shall be admitted free of duty, under such regulations as the Secretary of the Treasury shall prescribe; but bonds shall be given for the payment to the United States of such duties as may be imposed by law upon any and all such articles as shall not be exported within six months after such importation; *Provided*, that the Secretary of the Treasury may, in his discretion, extend such period for a further term of six months in cases where applications therefor shall be made; free.

The conferees on the House side are

Messrs. Payne, Dalzell, Boutell, McCall, Fordney and Calderhead, Republicans; and Clark, Griggs and Underwood, Democrats. On the Senate side the conferees are Messrs. Aldrich, Burrows, Penrose, Hale and Cullom, Republicans, and Daniel, Money and Bailey, Democrats.

Resolutions Adopted by the Illinois Retail Jewelers' Association at its Recent Convention in Peoria.

The following were the resolutions passed by the Illinois Retail Jewelers' Association at the convention held in Peoria, June 29-30:

Resolved, That the Illinois Retail Jewelers' Association, in convention assembled, commends such manufacturers as by their co-operation are aiding the retail jeweler to remove the evils which beset the trade. Be it further

Resolved, That we specially commend the South Bend, Illinois, Rockford, Hamilton, Howard and Ingersoll-Trenton watch companies for establishing and maintaining retail selling prices on their entire line and confining them to the retail jeweler.

Resolved, That we also commend and welcome the announced policy of the Waltham Watch Co. of restricting its output in the future to the retail dealer, and recommend to the company that it establish a minimum retail selling price on its entire product.

Resolved, That we recommend to the manufacturers of gold-filled watch cases that they establish a minimum retail selling price which shall afford a reasonable profit to the retailer.

Resolved, That we commend those manufacturers of silver plate who confine their product to the legitimate trade.

Resolved, That we condemn the practice of jobbing jewelers who sell at retail and pledge our support to those jobbers who do not, and earnestly request those jobbers and manufacturers who issue catalogues to use greater care in their distribution.

Resolved, That we express our thanks and appreciation to the trade journals for the support they have uniformly given to the cause of trade organization.

Resolved, That we extend thanks to our officers for the work done by them during the past year. Especially do we commend our President F. M. Marean, and Secretary George B. Elbe, for their untiring energy and the results they have produced.

The resolution committee consisted of J. A. Rovelstad, Adam H. Bolander, Louis J. Jeoman, Thos. O. Brown and A. W. Johanson.

B. Reiner, Bangor, Pa., Files Voluntary Petition in Bankruptcy.

BANGOR, Pa., July 8.—B. Reiner, who conducted a jewelry business in this town under the style of B. Reiner & Co., has filed a voluntary petition in bankruptcy in the United States Court. His trouble is due to lack of cash capital and business reverses.

Mr. Reiner was formerly in business in South Bethlehem, Pa., and came to Bangor in 1908. He has been industrious and attentive to business, but was not able to overcome the handicap of lack of capital, and recently some of his creditors have been pushing him, and it was thought best to file the bankruptcy petition.

The Babcock Jewelry Co., Canisteo, N. Y., of which L. H. Babcock is manager, has taken over the business of W. H. Hills.

S. L. Friedman, Fort Dodge, Ia., is now on the way to Seattle, Wash., Portland, Ore., Victoria and Vancouver, B. C., and other western points on an extended trip. C. N. Ober will take charge of his business during the absence of Mr. Friedman.

PEARLS

in qualities and sizes especially suited for the requirements of the manufacturing jeweler.

Our Pearl Stock, aside from our regular qualities, just now includes a number of series in manufacturer's sizes ranging from the small to one or one and a half grainers. These series will prove attractive as much for their uniformity of assortment as for their exceptional values.

Death of William Bergmann.

ST. LOUIS, July 10.—William Bergmann, Union, Mo., committed suicide by shooting himself through the head, Thursday evening, at the Portland Hotel, on Market St., opposite Union Station. In a letter which he left to the management of the hotel he stated that his act was due to trouble with his wife. By others his act is attributed to business failure.

Bergmann formerly worked as a watchmaker here. He said he was a member of a wealthy family in Germany, but was prevailed upon by his relatives to absent himself in America and was encouraged to gain away from home by regular remittances. Six years ago he went to Union and entered the employ of John Mueller. He married his employer's daughter and thereafter acquired the business, but by his erratic course he lost the confidence and affection of his wife and became involved in business and, over a week ago, when the sheriff levied on his stock, his father-in-law gave him \$40 on his promise to leave Union, and he came to St. Louis.

When Mrs. Bergmann was notified, she said that her husband's failures in life could be overlooked and he would be given a proper burial. Her father, Mr. Mueller, came to St. Louis and took charge of the body.

The deceased is stated to have been popular in Union. He provided entertainment for the townspeople by his stories of adventure and by his penchant for acquiring strange animal pets. It was said of him that he would take anything from a rattlesnake to a canary bird and tame it and make a pet of it. Traits which made him popular made him fail as a business man. He was 38 years old.

Thief Steals Package of Small Diamonds from Boston, Mass., Jewelers and Escapes.

BOSTON, Mass., July 9.—A diamond thief secured a package of small stones, valued nearly \$300, at the store of Thomas Long Co., on Summer St., this afternoon. The man's description tallies with that of a diamond operator known to the police, but whose name is withheld until more evidence as to his recent whereabouts can be obtained.

The man is known to have visited other Boston stores, being in John C. Sawyer's store, where he was suspected and watched closely, and where his assumed errand was the same as the one employed by him at the establishment of the Thomas Long Co.

Producing a Masonic charm with a diamond missing from the setting, he asked to be shown something that would fit the vacant space. Some unset diamonds were placed before him, in the cage where diamonds are shown, but the clerk's attention was called for a brief space of time to another matter by a fellow salesman and the diversion sufficed to enable the thief to grab the package, open the cage door, which proved not to have been locked, and make his escape.

The thief is of middle age, above medium height and of slim build. His hair is black and his eyebrows are black and heavy, the eyes being a very dark brown. He was

clean shaven and wore a panama hat and dark clothes.

Executive Committee of the New York State Retail Jewelers' Association Meets at Rochester.

ROCHESTER, N. Y., July 8.—A meeting of the executive committee of the New York State Retail Jewelers' Association was held here to-day, in connection with the monthly outing of the Rochester Retail Jewelers' Association.

The visitors were met at the depot by Messrs. Sunderlin, Scheer and Burritt, and were hospitably entertained by automobile rides, luncheon at the new Hotel Seneca, by naphtha launch ride on Irondequoit Bay, by a baseball game, which was participated in by the Rochester association as opposed to the combined Syracuse and Utica delegation. Following dinner at the Rochester Canoe Club, the meeting of the executive committee was held with the following present: President Chas. T. Evans, Utica; Emil J. Scheer, Rochester; E. B. McClelland, Syracuse; Chas. E. Sunderlin, Rochester; Chas. A. Crouse, Syracuse; Albert Zilliox, Buffalo, and Wm. A. O'Donnell, Utica.

The meeting was called to order by President Evans. The committee was organized upon motion of Mr. McClelland, seconded by Mr. Scheer, with the president and secretary of the State association as chairman and secretary of the executive committee.

It was moved by Mr. O'Donnell, seconded by Mr. McClelland, that the president write to the Elgin, Waltham and Keystone companies, relative to the stand which they propose to take regarding the granting of the privilege of the jobber's discount to those who are jobbers in theory but retailers in actual practice. This was carried.

It was moved by Mr. Zilliox, seconded by Mr. Sunderlin, that the committee indorse the efforts being made by manufacturers and fair-minded jobbers to distribute their goods through the legitimate retail jeweler, and recommend to manufacturers to extend to these manufacturers their patronage wherever possible. This was also carried.

The committee approved of the actions of the manufacturers who are willing to back their goods by stamping them with the quality and their trade-mark.

Each member of the executive committee was authorized to write a letter to the president outlining his views of how best to approach the retailing jobber, and endeavor to persuade him that the best interests of himself and of the retail jeweler will be best promoted by each occupying the field which he has chosen for himself in which to make his living.

Many interesting matters were discussed, and the policy of the association more definitely defined. The executive committee of the association and the other members of the Syracuse association, who were present were enthusiastic in their praises of the hospitality and good fellowship shown by the Rochester association, and if the entertainment afforded the visitors is any indication of how the State convention will be entertained, it is worth while planning now to attend the convention at Rochester next year.

Imports of Clocks, Watches, Jewelry and Gems Into Canada During April.

C. L. Harrington, Arrested at Cape Girardeau, Mo., Admits Charge of Smuggling.

ST. LOUIS, July 10.—C. L. Harrington, who has been representing himself as a first lieutenant of the United States Marine Corps, is under arrest at Cape Girardeau, Mo., and has confessed that he is a diamond smuggler.

Harrington's exposure was the result of a controversy with the Frisco Railroad Co. about a trunk which he claimed had been lost and for which he demanded cash indemnity. When the trunk was found, the railroad people opened it to identify it. They found in it a quantity of diamond rings.

Harrington at first said he did not know how they got into his trunk, but later confessed that he had smuggled them into the country by bribing a customs' official at Vancouver, B. C. After he was locked up he tried to kill himself with morphine, but his life was saved. The charge against him is an attempt to commit fraud, and he is held for trial.

Lester R. Ralston, Argos, Ind., has removed to Culver, Ind.

Colorado Retail Jewelers' Association and Colorado State Optical Society Hold Joint Annual Convention at Denver, Colo.

DENVER, Colo., July 7.—The jewelers' convention was called to order here at 10 A. M. June 29 and continued until 10 P. M. The program was an extensive and elaborate one.

The opticians' convention was called to order at 10 A. M. June 29 and lasted until 6 P. M., at which time they adjourned so as to give the members a chance to attend the banquet tendered to both associations, after which all were taken in special cars to the White City, where an enjoyable evening was spent.

Both associations were well represented by members from various parts of the State, and a great many were members of both associations. This added to the convention's great success, much enthusiasm being shown by every member present.

The meeting of the retail jewelers was called to order by President A. J. Stark. The secretary read the minutes of the last meeting, which were approved and adopted, and the treasurer's report showed a flourishing condition. President A. J. Stark delivered his address, "Benefits of Organization and Results." He brought out some very interesting and enlightening information, after which he introduced H. G. Petty, Fort Collins, who addressed the convention on "Live and Let Live Policy." He evidently gave his subject much thought, as it was one of the most interesting talks heard. The next speaker was J. C. Bloom, Denver, a member of the Executive Committee of the Retail Jewelers' Association, president of the Denver Nugget Club and president of the Colorado State Optical Society. He brought out a great many good points and introduced a number of letters, telling the policy which many of the wholesalers and manufacturers have adopted in reference to selling goods at retail. The title of his subject was "Shall the Jobbers Sell Goods at Retail?"

The afternoon session was called to order at 2 P. M., when the president, A. J. Stark, introduced Mr. Brannan, Loveland, who made a talk on "Trade Repair Shops Soliciting Retail Trade." Mr. Brannan handled this subject ably and every word was enjoyed by the entire convention. W. J. Farrell, Montrose, spoke on "Benefits of and Enforcement of Honest Stamping Laws," and was listened to with unusual interest.

The next speaker was Charles Doersam, Denver. He took for his subject "Shall We Send Our Customers to the Wholesale Business?" This is a matter which has been given a great deal of thought and study, and Mr. Doersam showed he was a master of his subject.

In the absence of A. F. Wehrle, Denver, F. J. Mund, Leadville, took his place and spoke on "Social Intercourse Among Competitors." Mr. Mund's discourse was thorough and comprehensive.

The next number on the programme was informal talks by members and visitors. A great amount of discussion was elicited.

A committee was then appointed to visit

all the jobbers in the city and invite them to be present at the evening session, to give them opportunity to hear what action had been taken in the convention on subjects pertaining both to them and to manufacturers. Among those present were Edward Lehman and Rufus Hawkins, of the Edward Lehman Jewelry Co.; Chas. Lewis and Mr. Fulton, of the Lewis Jewelers' Supply Co.; Chas. Wathan and Mr. Ehrét, of Chas. Wathan & Co.; Mr. King, of W. W. Hamilton Jewelry Co.; Chas. H. Clark, of C. H. Clark & Co.; Wm. Muckle and George Hirt, of the Denver Watch Case Co. These gentlemen all announced their policy and agreed to discontinue selling at retail.

At the meeting letters were read from the Edward Lehman Jewelry Co., Watson & Newell Co. and Wilcox & Wagoner Co.

A motion was made that the convention commend the policy taken by these members of the trade in eliminating all retail business, and that the co-operation of all retail jewelers throughout the State should be asked to help carry out this policy and extend all wholesalers who comply with this policy as much business as can be given.

A committee consisting of seven members was appointed to solicit applications for membership of all the jewelers in the city of Denver who are not members at this time. The committee reported in the evening that they had obtained the application of every jeweler in the city who was not a member at the time. They reported the following applicants: Henry Bohm; Frank P. Allen, of the Bohm-Allen Jewelry Co.; Sam Mayer; H. B. Kortz; Evan Freedheim; H. G. Cosley, Olsen & Wanguild; C. C. Stone; William Oppenheim; Paul Haberl; P. F. O'Neill; G. H. Daniels, and P. A. Wagner.

It was agreed that the minutes of the convention as well as the minutes of the previous meeting and the constitution and by-laws of this body, as well as the names of the members be gotten up in book form and distributed to all members throughout the State.

The officers elected for the ensuing year are: A. J. Stark, Denver, president; W. H. Brannan, Loveland, vice-president; Fred P. Syman, Denver, secretary-treasurer; J. C. Bloom, Denver, and H. G. Petty, Fort Collins, members of the Executive Committee.

Representatives to the National convention: A. J. Stark, Denver; W. F. Plambeck, Denver, and H. G. Petty, Fort Collins.

The following were elected as alternates: L. F. Cornwell, Pueblo, and Michael O'Keefe, Denver.

RESOLUTIONS PASSED BY THE COLORADO RETAIL JEWELERS' ASSOCIATION.

Resolved, That we extend our sincere thanks to the management of the Albany Hotel for their kindness and hospitality in donating the use of their convention hall to this body.

Resolved, That we do not favor the establishment of an official organ for the reason that we consider the present trade journals entirely capable in representing and protecting us.

Resolved, That we do not favor manufacturers

selling complete watches except in special high grade movements.

Resolved, That we heartily favor the co-operation of our members in upholding the stamping laws, and commend the Manufacturing Jewelers' Association, Newark, N. J., for their interest in the matter.

Resolved, That we emphatically condemn the practice of certain railroads in selling watches direct to their employes.

Resolved, That we condemn the practice of manufacturers and jobbers sending out net prices in open mail, and we request that the trade journals discontinue the practice of advertising net prices in their journals.

Resolved, That in the sense of this association we concur and hereby ratify the action of the several associations upon their efforts to obtain the fixed selling prices of movements and cases as presented to the manufacturers.

Resolved, That we heartily commend those watch manufacturers who are marketing their products entirely through the legitimate jobber and retail jeweler.

Resolved, That we recommend to watch, jewelry and kindred material dealers the adoption of a new discount key, to be known as the association key, to be used in all their catalogues and advertisements, the key to be disclosed only to the legitimate retail jeweler, and in every case to be sent under separate cover from the catalogue house and as sealed mail only.

Resolved, That we ask the makers of gold filled watch cases not to exchange any guaranteed cases unless returned by the original sellers.

Resolved, That the thanks of this association be and are hereby tendered to the Denver Nugget Club of the City of Denver for the courtesy extended to this association in its assistance and financial aid towards entertaining the members of this association.

Resolved, That the thanks of this association be and are hereby tendered to the several members of the craft for their able addresses and discussions of matters of interest to the association.

Resolved, That we commend the action of the association during the present year.

That the thanks of this association be and are hereby tendered to the officers of the association for their untiring efforts and interest taken in the welfare of this organization.

That the thanks of this association be and are hereby tendered to the several members on the committee who so successfully entertained the convention.

Resolved, That this body instruct its delegates to urge the national convention that they adopt a code of ethics to be distributed among its members.

Resolved, That they instruct all representatives to insist on national stamping law to be complied with.

The next matter under discussion was "How Shall We Combat Fake Notions and Free Engraving?" which took up considerable time, and it was the sense of the meeting that the free engraving be cut down to a minimum.

After this discussion the association invited all jobbers and manufacturers to join in the banquet. After discussing different subjects and topics, the meeting was adjourned.

THE MEETING OF THE OPTOMETRISTS.

The Colorado State Optical Association's meeting was called to order by President J. C. Bloom.

After transacting considerable business the convention adjourned until 1.30 P. M. so as to give the secretary time to get a number of records which had not been turned over to him by the former secretary.

The afternoon meeting was called to order promptly at 1.30. President J. C. Bloom delivered his address of welcome, recommending a great many things that needed correction. He dwelt upon the optometry law and the effect made on the Legislature by the committee in their endeavors to get this law passed at the last session.

The secretary presented a number of

LOUIS J. DEACON, Cape May, N. J.

names whose applications had been presented for membership in the association. The applications of W. E. Bauer, Trinidad; Francis Murphy, A. W. Fredricks, Hayden; W. J. Farrell, Montrose; W. J. Burkhart, Denver; W. F. Warren, Colorado Springs; L. A. Moore, Denver; Abram Somidt, Denver; P. W. Clark, Colorado City, and L. Abramson, Denver, were referred to the membership committee, who reported favorably. A number of applications were referred to the membership committee for investigation, which could not be acted upon at this meeting, and will be taken up at a special meeting at an early date.

The reports of officers showed a healthy condition of the association and a steady growth during the past year.

The report of committees followed. R. B. Finch, chairman of the Legislative Committee, reported the experience and progress made in trying to get the optometry bill passed by the last legislature. This report was of great interest and gave the convention much information. Mr. Finch is an eloquent speaker and handles his subject in an interesting manner.

The convention voted its thanks to the committee, and especially to Mr. Finch, for untiring efforts in behalf of the work attempted. Then the order of unfinished business was taken up, after which the president introduced C. W. Zeiger, Colorado Springs, whose subject was "Opticians and Optometrists," which was very instructive.

J. P. Wilcox, Idaho Springs, who was on the programme for a talk, was taken ill.

There were a number of informal talks, which proved interesting and added much to the entertainment of the members.

The regular order of business was suspended and the election of officers began.

The first office to be filled was that of president. J. C. Bloom was nominated and the nomination was closed. It was moved by Mr. Fairbairn, seconded by H. H. Frumess, that the secretary cast the white ball for J. C. Bloom as president. Mr. Bloom was unanimously elected.

C. W. Zeiger, the present incumbent, was re-elected vice-president.

Then came the office of secretary-treasurer. The man who held this office the unexpired part of the past term was unanimously elected.

The officers for the board of directors for the ensuing year are: R. B. Finch, Denver; F. J. Mund, Leadville; L. F. Cornwell, Pueblo, and D. J. Kramer, Salida.

The next order of business was to appoint a committee to attend a meeting called by some of the opticians in the city of Denver to form another optical society. The chairman appointed Dr. Allen, Mr. Stephen, Mr. Cutting, R. B. Finch, P. F. O'Neil and Dr. B. I. Price.

The discussion, "How Can We Combat the Fake Opticians, and Why Not Adopt a Uniform Minimum Price List?" brought out lengthy talks of much interest.

Following this was a talk by F. J. Mund on "General Practices Concerning the Optical Profession." Mr. Mund handled this matter very ably.

Then came up the always disturbing proposition as to how more interest in the Colorado State Optical Society could be awakened. It was unanimously agreed that

each member get the application of his neighbor. There were a number of applications for membership which had been previously overlooked on a former ballot. The following names were proposed which the committee had recommended for admission to the society: Thos. D. Allen, Denver, and C. C. Patton, Denver.

The following resolutions were introduced and adopted:

Resolved, That we extend our sincere thanks to the management of the Albany Hotel for their kindness and hospitality in donating the use of their convention hall to this body.

Resolved, That we extend our thanks to the Denver Nugget Club for their efforts in assisting us in securing the names of all opticians.

Resolved, That the thanks of this association be and are hereby tendered to the officers of the association for their untiring and unceasing efforts to further the interests of this association.

Resolved, That the thanks of this association be and are hereby tendered to the members of the legislative committee for their untiring efforts and the masterly way in which they fought for the successful passage of the optometry law.

Resolved, That the thanks of this association be and are hereby tendered to the members of this association throughout the State who took such an active interest through their representatives and senators in the last session of the legislature, sending their petitions, which did so much good in obtaining a hearing before the legislature.

Burglars Steal Watches and Rings from Store of Lewis Jewelry Co., Cleveland, O.

CLEVELAND, O., July 13.—Burglars gained an entrance to the store of the Lewis Jewelry Co., Colonial Arcade, some time early Sunday morning or Sunday night, and got away with about \$500 worth of loot. Lights were burning in front of the safes and the show cases were locked, so the burglars went directly to the front windows and took watches and solid gold band and gem set rings. They were probably frightened away, as much more valuable stock was in easy reach and was untouched.

One of the men cut himself severely in making the escape, and the police were able to trace the flight for several blocks by the blood stains. It is thought it will be impossible for the men to escape.

C. H. Lewis, president of the company, made the discovery Sunday morning, and began the work of checking the loss at once. The police had the numbers of the stolen watches Monday night.

Death of Otto C. Lenz.

PROVIDENCE, R. I., July 12.—Otto C. Lenz, for many years a prominent manufacturing jeweler of this city, died late Saturday night at his home, 150 Camp St. About a week ago Mr. Lenz was seized with an attack of lung trouble, but towards the latter part of the week apparently recovered. Saturday evening he was about the house in good spirits. He retired early and shortly afterwards, after he had been resting comfortably but a short time, he was seized with the attack that caused his death. He was in his 73rd year.

Mr. Lenz was born in Stuttgart, Wurttemberg, Germany, May 18, 1837. He came to this country when he was 17 years of age and settled in Warren, R. I., where he made his home for several years. From Warren he came to this city and became identified with the manufacturing jewelry industry, shortly after his removal here becoming a member of the firm of William Smith & Co.

This firm did an extensive business, and in addition to the Providence factory has had an establishment in New York.

About 20 years ago Mr. Lenz retired from active business life, and since that time has devoted himself to the study of horticulture. At his place on Camp St. he had a large greenhouse, in which he raised a great variety of rare and valuable plants.

Mr. Lenz was twice married and is survived by six children by his first wife. His wife and one son by his second marriage also survive.

Death of Adolph L. Frankenthal.

Adolph L. Frankenthal, a well known watch manufacturer and importer, died, Sunday, of pneumonia after a short illness, at his home, 3505 Broadway, New York. News of his death was received with sincere regret by the many members of the jewelry and watch trade, who have known him and liked him throughout his long career in the business.

The deceased, who was a manufacturer of watches at Berne, Switzerland, and who had headquarters at 170 Broadway, New York, was originally located at Boston, where he began business in 1870, but was burned out the following year. Subsequently he entered the employ of a toy-importing concern, remaining until 1898.

Mr. Frankenthal was a capable man of strong character, and his ability was never better shown than through his long service as American Consul at Berne, a post which he held through the administration of Presidents Cleveland, Harrison, McKinley and part of President Roosevelt's term. Finally his business interests became too great, and he was unable to attend to them and to his consular duties. He eventually gave up the latter to devote his entire attention to the watch business, opening an office at 170 Broadway, New York and retaining his factory at Berne. His son is at present vice-consul at that city. While at Berne he often visited New York, at which times he made his headquarters with W. Green & Co. 81 Nassau St.

The deceased, who was 58 years of age, is survived by his widow and son. The funeral services were conducted from his late home.

Jewelers' Gold Bars Withdrawn and Exchanged at New York.

Week Ended July 10, 1909.

The U. S. Assay Office reports:

ILLUSTRATED CATALOGUE

R. Ransch has begun business as a jeweler in Willits, Cal.

T. Cornwall has opened a store in the Grey block, Corning, Cal.

W. Halstead has opened an optical and jewelry store in Oroville, Cal.

Henry P. Reeney has engaged in the manufacturing jewelry business at 119 Pine Street, Providence, R. I.

Philip Bassist will soon commence business in Elgin, Tex., under the management of Charles Denitz.

The Buffalo Loan Co. will shortly open a new shop and jewelry store at 242 Massachusetts Ave., Indianapolis, Ind.

Haynes & Knight, manufacturers and dealers of sterling silverware, have engaged business at 727 Sansom St., Philadelphia, Pa.

The Baltimore Silver Buckle Co. will engage in the manufacture of silver buckles, and similar novelties at 800 N. Gay St., Baltimore, Md.

The Rust, Beckwith Jewelry Co., in charge of Theodore Rust, is the name of a new concern which has begun business at 4 Franklin St., Tampa, Fla.

D. Williams has opened an optical store in the Colonial Arcade, Cleveland, O. He was formerly in charge of the optical department in the store of the Guyon Jewelry Co., in the same building.

The Bastheim, Adams & Abel Co. has been incorporated in Los Angeles, Cal., to do wholesale jewelry business. The concern will be open for business about August and will be located at 424 S. Broadway.

The Imperial Jewelry Co., Ltd., is the name of a new concern which recently incorporated under the laws of Ontario with a capital of \$40,000. The firm will manufacture and deal in jewelry. The business will be located in Toronto.

Connecticut.

Thomas F. Wheelahan died, July 6, at his home, 632 N. Riverside St., Waterbury, after an illness of five weeks.

The factory of the American Silver Co., in Bristol, closed, July 3, for a short period, during which a new steam plant will be installed.

The New Haven Clock Co.'s factory will be reopened, July 19, after having been closed for inventory and repairs for about two weeks.

Jewelers of Bridgeport have agreed to follow the plan of the large dry goods stores there by closing each day except Saturday at five o'clock.

John B. Mauran, well known as a singer, for several years in the employ of the New England Watch Co., died, July 3, at St. Mary's Hospital, Waterbury, after a few months' illness.

George W. Alexander, an optician, was

severely injured, July 5, when he was run down by a team of horses. He was rendered unconscious for a time, but was finally able to return to his home.

Walter Camp, of the New Haven Clock Co., New Haven, and his family, have arrived at their cottage at Pine Orchard, 10 miles from New Haven, and will remain there for the rest of the Summer.

Since the recent burglary at the store of A. W. Hull, Wallingford, the question of increasing the police force of that place has been discussed. It is claimed that the town of Wallingford is inadequately protected.

North Attleboro.

Percy Clapp returned, last week, from a business trip.

J. J. Sommer & Co. started on an eight-hour schedule, last week.

Clarence Fisher, of E. I. Franklin & Co., is spending a vacation in Maine.

L. A. Metcalf and wife are spending the Summer at the Wesley House, Oaks Bluffs.

William Peckham will attend the Alaska-Yukon-Pacific Exposition at Seattle, Wash.

Charles Peckham, western salesman for J. H. Peckham & Co., is in town enjoying a vacation.

The Riley & French factory was closed, Tuesday afternoon, during the funeral of Fred S. Riley.

Louis Blackinton returned, last week, from a successful trip in the interests of the W. & S. Blackinton Co.

Clarence Ware, New York salesman for T. G. Frothingham & Co., was in town, last week, on a visit to the factory.

Herbert K. Sturdy has returned from an extended pleasure trip, which was passed in the different countries of Europe.

Herbert K. Sturdy and Fred B. Byram have been named as the administrators of the will of the late Frank M. Sturdy.

The firms in the Union Power building started up, last Wednesday, after a week's shut-down for the annual stock taking.

The employes of the G. K. Webster Co. are planning to have an enjoyable time at their outing at Boyden Heights, July 17.

Charles Van Ness, New York representative for the Coddling & Heilborn Co., was at the factory, last week, for several days.

George G. Wheeler, manager of the W. & S. Blackinton Co., sung at the municipal celebration of the 4th of July at Providence.

A block of wood fell 80 feet, Saturday, and hit one of the workmen employed in building the large chimney at the G. K. Webster & Co. factory. The man was considerably stunned and bruised.

The Paye & Baker Manufacturing Co. resumed business, Monday, after a week's shut-down for inspection of boilers. Frank Kennedy, salesman for the Paye & Baker Mfg. Co., spent the holiday in town with his parents.

Albert Bliss has returned home from the Eye and Ear Infirmary of Boston, where he has been undergoing treatment for the past three weeks. Mr. Bliss, on June 4, met with a bad accident, a splinter from a nail flying and penetrating the ball of his left eye. At one time it was thought that he could not get better, but finally after careful treatment he has been able to be out again, although he has been obliged to abandon all hopes of ever seeing with the left eye.

Baltimore.

The Hennegen, Bates Co. is devoting one window to the display of a collection of trophies for all character of sport, including automobiling, rowing, bowling and athletics.

Erle R. Sheppard, manufacturers' agent, 53 Maiden Lane, New York, is visiting his old home here after a four-months' trip to the Coast. He will be in New York in another week.

Emil Gruebel, 1319 N. Gilmore St., has awarded the contract for the erection of a new building at 7 S. Green St. The building will have a plate glass front and will be of ordinary brick construction.

S. I. Rodberg & Son, 26 W. Baltimore St., is running a special diamond sale. He has a page from THE JEWELERS' CIRCULAR-WEEKLY about the tariff on diamonds in a prominent place in the show window.

Hughes & Woodall, successors to the late William H. Saxton, have moved to temporary quarters at 320 N. Charles St. while their permanent location at 322 N. Charles St. is undergoing extensive improvements.

Simon Janowitz & Sons, 316 N. Charles St., will move to 320 N. Charles St. as soon as Hughes & Woodall move out and some improvements can be made. The latter firm is occupying the premises temporarily.

The Maryland Retail Jewelers' Association has secured permanent quarters in the Royal Arcanum building, 18 W. Saratoga St., where they will meet regularly the second Wednesday in each month. The first meeting was held there Wednesday night, July 14.

Charles E. Edwards and Charles A. Zanner, formerly with R. Harris & Co. for a number of years, have bought out L. S. Kahn, 432 7th St., N. W., Washington, D. C. They will conduct a sale to get rid of some undesirable stock, and will then put in a line in gold similar to that handled by R. Harris & Co.

Charles C. Crooks, the local watch inspector, has been in communication with A. C. Smith, the general watch inspector and superintendent of time service for the railways of Mexico who desire to reprint in two languages Mr. Crooks' booklet, "What Is the Meaning of Standard Time?" Mr. Smith's letter sets forth conditions in Mexico that will be of interest to watch manufacturers and jobbers in this country. He queries Mr. Crooks on many points pertaining to the trade in general, and in particular as to just which watches are giving the best results and are being pushed. He asserts that due to conditions in Mexico watches of 18 size are required and that 90 per cent. of the watches in use there are Elgins, with a few Walthams, Illinois and Rockfords. He also asked what proportion of 16 and 18 size is in service on roads of which Mr. Crooks is inspector. Mr. Crooks' answer went over the field carefully in this country and explained in detail the points desired as to what watches came under his notice most frequently and their standing. He also told of many conditions in this country that are foreign to Mexico and will eventually aid in bettering conditions there.

Herbert Knox & Co., Elgin, Ore., have removed to Copperfield, in the same State.

GORHAM UMBRELLAS

A HINT TO JEWELERS.

¶ In order that Umbrellas and Canes may form an appropriate and profitable feature of the Retail Jeweler's Stock, it is essential that they should be characterized by an individuality of appearance so marked as to readily distinguish them from the purely commercial offerings of the dry goods stores. Thus only will they command the consideration of the most desirable class of customers.

¶ Especially notable in this regard are the Gorham Company's productions. Fashioned by expert workmen, of the most admirable materials, the originality of their artistic treatment confers an aspect of exclusive distinction in harmonious accord with that of fine jewelry and elaborate silverware.

Failure Statistics ACCORDING to the analysis of the failure statistics which has been made by *Dun's Review*, the figures showing the insolvencies in June just passed, and in the second quarter of the year, give many indications of the improved commercial condition of the country and bear striking evidence of the general recovery of business since the set-back in the latter part of 1907. Both in number and amount of liabilities the failures of last month throughout the country were less than June of the preceding year, while the figures of the second quarter (including April, May and June) show this improvement to an even more striking degree. According to *Dun's Review* the total failures last month were 1,063, with liabilities of \$12,600,000, as against 1,112, in June, 1908, with liabilities of \$14,700,000, while the figures for the second quarter showed the total number of failures to be 2,981, with liabilities of \$44,000,000, as against 3,800 in the corresponding period of 1908, with liabilities of \$48,600,000.

As far as the jewelry trade itself is concerned the figures are proportionately encouraging. According to the table of failures by branches of business compiled for the same journal, there were but 17 insolvencies among dealers in jewelry and clocks last month, whose liabilities amounted to \$104,263, as against 23, with liabilities of \$526,806, in June, 1908; five failures, with liabilities of \$11,690, in June, 1907; 13 failures, with liabilities of \$77,237, in June, 1906; 20 failures, with liabilities of \$119,431, in June, 1905. As far as the second quarter is concerned, 49 failures were reported in the jewelry trade, with liabilities of \$373,058, which compared most favorably with this quarter of the four previous years, 72 being recorded in 1908, with liabilities of \$1,064,952; 11 in 1907, with liabilities of \$314,249; 43 in 1906, with liabilities of \$452,662; 49 in 1905, with liabilities of \$650,246.

From the above it will be seen that the failures in the second quarter were far below the average in the last five years, and almost as low as figures of the lowest year reported in that time.

Danger in Advance THE attempt that has been made by the Senate of the United States to put a 15 per cent. duty on cut precious stones and a five per cent. duty on rough, while born of ignorance on the part of those who demand a duty on luxuries, will, if enacted in the law, be little more than a crime upon the jewelry trade of the country and the result of pigheadedness and stupidity on the part of our legislators to whom the situation has been explained in detail by the members of the diamond and jewelry trade. Fortunately the experience of the past has proven to the Treasury Department the facts (1) that 10 per cent. is the maximum duty that can be collected on cut diamonds; (2), that even under this duty a large amount of gems are smuggled, and (3), that with a higher duty the smuggling would be enlarged to such an extent as to result in a decrease in revenue to the Government and a demoralization of the legitimate dia-

The leading paper in every field is the one that holds the greatest interest for the largest number of subscribers of the greatest buying influence.

And advertising, concentrated in such papers, produces the most results at least cost per result.

"Scatteration" is neither good logic, good policy nor good business.

mond importing trade. These facts are beginning to be known so well that any attempt by the conference committee of the Senate and House, which now has the bill in charge, to fly in the face of them will be little more than malicious stupidity.

There is one feature of the duty question, however, that is not so generally known, and that is that a tariff on rough diamonds would probably see the doom of the diamond-cutting industry in this country. Cutters here pay the highest salaries in the world, their employes' wages averaging \$44 per week, and in many instances amounting to \$60 and \$70. They cannot cut at a profit anything but the large sizes of rough and those qualities which are in demand generally in this market. *Melée*, if cut at all, must be cut at a loss. Therefore, the proposed five per cent. duty would amount not to five per cent., but nearer 7½ per cent. to the cutter, because the ends left over from the sizes that can be cut could not be cut in this country, but must be sent abroad, and either sold at a loss (as duty had been paid on their value when the rough was imported) or cut again and reimported again at an additional 10 per cent. duty.

The American cutting industry has been built up upon the superiority of the workmanship and not on cheapness in cost. The margin which permits it to be done now is very small, and an increase in the cost by a duty on rough would probably wipe out all profits for the American cutters.

These facts should be impressed upon those who imagine that because a 10 per cent. duty may be collected on cut stones a five per cent. duty can be placed upon the rough without any harm to the industry.

It is hoped that when the proposed tariff law gets before the conference committee appointed by the Senate and House the blunder made by the Senate in increasing the duty on cut gems and putting a duty on rough will be remedied. The members of this committee should hear from the jewelry and gem trades in no uncertain fashion as to the necessity of restoring the present rates.

PERHAPS WE ARE TIRESEMELY PERSISTENT IN DWELLING ON THE INTEGRITY OF KIRBY JEWELRY. HOWEVER, WE FEEL THAT IN AN ERA OF COMMERCIAL SUBSTITUTION AND MISREPRESENTATION THE ABSOLUTE HONESTY OF KIRBY PRODUCTS CANNOT BE TOO INSISTENTLY OR TOO FREQUENTLY BROUGHT TO THE ATTENTION OF THE TRADE. OUR UNIMPEACHABLE RECORD AS MANUFACTURERS OF THOROUGHLY GOOD, ARTISTIC AND INEXPENSIVE GOLD JEWELRY SHOULD CREATE IN THE SKEPTICAL AN ASSURANCE OF FAIR TREATMENT AND A CURIOSITY TO SEE THE KIRBY LINE.

H. A. KIRBY

MANUFACTURERS OF
FINE GOLD JEWELRY

PROVIDENCE, R. I.
85 SPRAGUE STREET

NEW YORK OFFICE
9-11-13 MAIDEN LANE

Lancaster, Pa.

Charles Weidner, with Reed & Barto Taunton, Mass., is spending his vacation his old Lancaster home.

John Conlin, with G. William Reine has returned from a trip to Atlantic City N. J., and Wilmington, Del.

J. Walter Smith, with John B. Rot Jr., is spending his vacation in Maryland along the Susquehanna River.

Martin M. Weaver, with J. H. Young Fort Wayne, Ind., has returned home after a two weeks' visit to Lancaster.

Oliver Wentzer, foreman of the jewelry department of Ezra F. Bowman's Sons, home from a two weeks' trip to Bridgeport, Conn.

Edgar G. Bierer, late with J. L. Hayes Richlands, Va., has taken a position watchmaker and engraver with A. G. Stein, at Braddock, Pa.

Edw. Mason, head salesman for S. Kurt Zook, and his wife, are on a trolley vacation trip to Philadelphia, Boston and Delaware Water Gap, Pa.

Lancaster friends of Guy K. Herr, formerly of this city, now with Charles Kinzer, Bluefields, W. Va., will regret to learn he is ill with typhoid fever.

Oscar M. Lowrie, formerly of the firm of Keller & Lowrie, Lancaster, now with Faust & Co., Allentown, Pa., was married in Lancaster, last week, to Miss Mary S. Moyer, also of Allentown.

John B. Troast, A. Frank Bowman and William Gardner, formerly with the Hamilton Watch Co., now at the factory of the South Bend Watch Co., are spending several weeks in Lancaster.

George Metzger, a clerk at Lichtenstein's jewelry store, fell upon a show case last Thursday, breaking the glass and sustaining an ugly wound on the left hand, necessitating a physician's attendance.

Abraham Lichtenstein, father of Benjamin and James Lichtenstein, Lancaster jewelers; of Mrs. Joseph Zacks, wife of jeweler of Steelton, Pa., and of Mrs. A. Kaplan, wife of a jeweler of Williamsport, Pa., died, last week, at Steelton, where he was in business many years. He was 77 years old.

The Hamilton Watch Co.'s factory which shut down July 2 for the summer vacation, will resume work July 19. John H. McKechnie, head of the damasked department of the factory, and wife are visiting Brooklyn, N. Y. A battery of new boilers is now being placed in position at the watch factory, and as soon as this work has been completed the erection of a new annex to the plant will be commenced.

C. H. Arnisy, Painesville, O., has entered the Ezra F. Bowman Technical School as a student. Ralph Sprenger, a student, has left the school to take a position with a jeweler of Uniontown, his home. Calvin M. Newroh, Sharon, Pa., has also left the school to take a position there. Both are watchmakers and engravers. Dr. D. L. Buchen, Hanover, Pa., spent a couple of days, last week, with his son, A. Leslie, a student at the school. Clyde Wilhelm, a student, is visiting his home at Salisbury, N. C. Carl Buecing, a student, has taken a position at his old home, Wellsville, N. Y.

New York Notes.

F. Lande, Elmira, N. Y., was a visitor to prominent city salesrooms, this week.

M. Gold, 2206 Seventh Ave., has taken larger quarters and refitted his store in modern style.

David Mayer, 14 Maiden Lane, who has been abroad for nearly two months, will return about July 20.

Walter Lederer, of the S. & B. Lederer Co., Providence, R. I., was at the New York office, this week.

Edward M. Coe, New York representative of the Bliss Bros. Co., started on his Summer vacation, July 10.

Edwin S. Strauss, of Jacob Strauss & Sons, 14 Maiden Lane, returned from Europe on the *Lucania* last week.

Leopold Stern, of Stern Bros. & Co., 68 Nassau St., and his wife, left for Europe on the *Kronprinzessin Cecelie*, July 13.

L. Levy, Syracuse, N. Y., was in town, this week, looking over the preliminary Fall offering and buying for immediate needs.

Frank T. Sloan, treasurer of Sloan & Co., 21 Maiden Lane, will spend the month of August camping in the forest glades of Maine.

Meyer Goodfriend, of Goodfriend Bros., 9-13 Maiden Lane, left Paris for New York, July 3, on the *Mauretania*, arriving home last week.

Hugo Kreig, with Goodfriend Bros., 9-13 Maiden Lane, starts on his Summer vacation, July 16. He expects to pass the time at New Jersey resorts.

I. Tisch, formerly at 2292 Eighth Ave., has removed to 318 W. 125th St., where he occupies commodious quarters that have been attractively fitted up.

G. V. Short, with the Havens & Geddes Co., Indianapolis, Ind., was in the market this week, making his headquarters at the firm's city office, 72 Leonard St.

Emil Lewy, of Lewy & Cohen, importers, 530 Broadway, returned from Europe, July 5, on the *Kronland*. He spent three weeks abroad, making extensive purchases.

Richard Ryan, who for a number of years was foreman for W. S. Hicks Sons, gold pens, 235 Greenwich St., died suddenly a few weeks ago. He was 68 years of age.

Edward Wolfstein, of the American Thermo-Ware Co., 15 Warren St., is now in France obtaining ideas and impressions of the optical trade for use during the coming season.

The Trachtenberg Co. has been incorporated to manufacture jewelry and ornaments. Capital, \$3,000. The incorporators are David Trachtenberg, Benson Schwartz and Max Klieman.

The Moser & Whyte Co., Jersey City, N. J., has incorporated with a capital of \$100,000, to engage in the jewelry business. The incorporators are: Max Moser, Howard Whyte and Joseph P. McLean.

At the regular monthly meeting of the directors of the Jewelers Board of Trade the following firms were unanimously elected to membership: Kaufer & Krengel, this city, and J. S. Voss & Sons, Cincinnati.

Col. John L. Shepherd, New York manager of the Keystone Watch Case Co., 21 Maiden Lane, left on his vacation, July 3.

He is stopping at his Summer home at East Haddam, Conn., and will return to business, July 19.

Franz Zahn has retired from partnership in the Empire Silver Plate Co., 260 Washington St., Brooklyn. Louis J. Gloeckner, the remaining partner, is now associated with Paul Roemer, and will continue the business under the same title and at the same address.

Still another big office building is to be added to the group of structures along upper William St. for the housing of jewelry interests. The latest addition is to rise at 123 to 133 William St. and will be 12 stories high.

The George Pollack Co., Brooklyn, has been chartered by the State Department to engage in the silver and goldsmith business, with a capital of \$1,000. The directors are George Pollack, Louis Meckenberg and Jeanette N. Meckenberg.

Through a typographical error, the name of Korones Bros., wholesale jewelers, at 46 Maiden Lane, appeared as Korones Bros. & Co. in the advertising index, last week. There has been no change either in the personnel or style of the firm.

An erroneous statement in last week's issue spoke of Blaum & Crawford as retail jewelers in Gotham, Ala., whereas the firm is in the wholesale business only and is located in Dothan, Ala. J. N. Blaum has been in town for two weeks, stopping at the Astor House.

Theodore Schisgall, importer of clock and art goods, at 116 Chambers St., has left on his Summer vacation. He will spend a week at Bradley Beach enjoying the surf bathing, and will then hic away either to Sharon Springs, N. Y., or to the mountain section of Sullivan county.

Fred C. Kopf and Eugene F. Corwin will have charge of the exhibit which is to be made by Powers & Mayer at the convention of the American Retail Jewelers' Association at Omaha, Aug. 2-6. This is the first time that the firm has exhibited for the benefit of the western trade, and elaborate preparations have been made.

Tiffany & Co. have produced a handsome silver tablet, in the shape of a scroll, 10 x 12 inches in dimensions, which is to be erected in memory of the late President Henry L. Palmer in the offices of the Northwestern Mutual Life Insurance Co., Milwaukee, Wis. The tablet bears a resolution adopted by the general agents of the company, extolling the services of President Palmer. It is a work of art and rests in a bronze case with glass front.

Word is received from A. K. Sloan, president of Sloan & Co., 21 Maiden Lane, who has been in Labrador for a month past, that his catch of salmon exceeds all previous records. He was ably assisted on this fishing excursion by E. C. Fitch, president of the Waltham Watch Co., and by Thos. Carroll, whose piscatorial prowess is disputed every night as the three nimrods gather in their fishing lodge. Mr. Sloan will return to New York about Aug. 1.

Supreme Court Justice Blanchard has denied a motion for the appointment of a receiver for the Knickerbocker Jewelry Co., 250 Sixth Ave., made on behalf of Sanford Erlanger, a broker, who had recovered a judgment for \$5,000 on Jan. 12 last, which

the sheriff had returned unsatisfied. The motion was denied on the affidavit of Lewis J. Seleznick, who had been served in the judgment proceedings as president of the concern. Seleznick denied that he had been president for the past six months. Erlanger declared in an affidavit that Seleznick had taken from the assets of the jewelry firm about \$25,000, which he had applied in furthering his own personal projects, and eventually lost the money.

Supreme Court Justice Erlanger, on application of Rosa Ludwig, has directed that the bond of \$250 given by Theodore Ludwig as security for costs in a suit brought by him against her as the executrix of the will of Adolph Ludwig, head of the firm of A. Ludwig & Sons, 907 Broadway, be increased to \$2,250. Rosa Ludwig, in an affidavit submitted to the court, sets forth that the presence of the deputy sheriff in the store caused a great falling off in her business; that she pays \$600 a month rent for the store, and she is worth \$50,000 more than her liabilities. She alleges that Theodore Ludwig is financially irresponsible and that the attachment obtained by him was wrongfully executed, as he had only given the statutory bond of \$250 as security for her costs, should he be unsuccessful in his suit.

Powers & Mayer, 258-260 Fifth Ave., were quite surprised the other day to hear that two jewelers from Mexico would attend the firm's seventh annual exhibition, which is to be held from Aug. 30 to Sept. 4. Many visitors come from Canada and some from other countries, but this is the first time that Mexico has evinced an interest. Preparations for the exhibition are progressing rapidly, and every day sees some new creation that has been produced especially for this display, which this year will be even more extensive than heretofore. Powers & Mayer sent two designers to Europe recently, and they visited museums and scoured the markets of the old world seeking for ideas that might be used in fashioning jewelry for the American people. The result of this enterprise will be seen at the exhibition.

On the initiative of the Rock Island-Frisco System, the Western & Southwestern railroad has authorized for the Fall season reduced fares to this city for merchants, their representatives and members of their families. The reduced rate will be full fares to New York; one-half fare returning. Tickets must be purchased July 17 to 20, July 31 to Aug. 3, Aug. 12 to 15, all inclusive. The return limit on the certificate is 30 days, including the date of issue. Special round-trip tourists' fares, which are somewhat lower than the merchants' fare-and-one-half on the certificate plan announced above, will be in effect to New York City from Chicago, St. Louis and other points in the western portion of Central Passenger territory, and the Merchants' Association suggests that, in coming to New York this season, buyers avail themselves of the tourists' fares if they are lower than the merchants' certificate plan arrangement, which can be ascertained by consulting the ticket agent in the buyer's town.

Walter Daboll, who represents the G. C.

New York Notes.

(Continued from page 71.)

Judson Co., 14 John St., spent a few days at the factory, last week.

Henry G. Curtis, North Attleboro, Mass., was in town, recently.

L. Seligman, Chicago, was a recent visitor to the big market.

M. & A. Segel is now in the jewelry business, at 80 Chrystie St.

J. J. Roe, diamond importer, 36 Maiden Lane, sailed for Europe, July 7, on the *Oceanic*.

E. B. Meyrowitz, 104 E. 23d St., returned from Europe on the *Prinz Friedrich Wilhelm*, June 26.

Matthew Dunn, of Dunn & Rodenberg, Providence, R. I., was a visitor in the metropolis, last week.

Roman Kircher, with the H. S. Meiskey Co., Lancaster, Pa., stopped in this city, recently, for a few days.

John Frankel, of Jos. Frankel's Sons, 576 5th Ave., was a traveler on *La Savoie*, July 8, en route to Europe.

J. A. Montgomery, Los Angeles, Cal., who was in town recently, left for Europe on the *Pennsylvania*, July 7.

A. A. Heller, of L. Heller & Sons, 68 Nassau St., left New York, July 8, on *La Savoie* for a trip to European centers.

C. H. Eden, president of the C. H. Eden Co., Attleboro, Mass., arrived in town this week, and will remain for a few days.

The register of the Astor House, last week, bore the name of Louis Hodges, of E. A. Potter Co., Providence, R. I.

Charles G. Rathgen, of Ferd. Bing & Co.'s successors, 10 Washington Pl., sailed for Europe, June 29, on the *Kaiser Wilhelm*.

Monroe Engelsman, of the World Novelty Display Co., 71-73 Nassau St., is stopping at Far Rockaway for rest and recreation.

A. L. Strasburger, of Louis Strasburger's Son & Co., 2 Maiden Lane, returned from Europe on the *Kronprinz Wilhelm*, recently.

Mrs. Gisella Kohn, 19 years old, wife of Morris Kohn, said to be a diamond cutter, recently committed suicide at her home, 540 149th St.

E. Weber, who represents the L. Witsenusen Co., 47-49 Maiden Lane, in the stern States, celebrated his 26th wedding anniversary, July 10.

The motion for the discharge in bankruptcy of Maurice Dreshfield, which came before the United States District Court, July 7, was adjourned.

A judgment for \$743.16 obtained June 22 by J. Beck and others against Alfred Reind has been satisfied. Mr. Beck until 10 years ago was engaged in the manufacture of chains at 10 Liberty Pl.

Harry Moscovitz, formerly of the firm of Goldberg & Moscovitz, 513 Grand St., Brooklyn, which dissolved, last March, has filed an individual petition in bankruptcy. His liabilities aggregate \$1,802 and he has no assets.

M. Gugenheim, importer of Parisian novelties, 33 Union Sq., who is now abroad, reports that jet still predominates in jewelry and hair ornaments. At the races, he says,

the principal trimmings and jewelry worn consist of jet and pearls.

Betty Lener, 16 years old, has been held in \$2,000 bail for the Grand Jury on the charge of grand larceny. According to allegations she robbed her employer, Mrs. Emma Newton, 1369 Fulton Ave., Bronx, of jewelry valued at \$165.

Fliza T. Mathey, widow of the late August S. Mahey, of Mathey Bros., Mathez & Co., 21 Maiden Lane, died, July 6, at her home, 925 Hudson St., Hoboken, N. J. She was 70 years of age and had been in poor health for some time.

Chief of Police Timmons, of New Rochelle, N. Y., has apprehended two 16-year-old youths, George Haerman and Gustave Lautern, who, it is alleged, have robbed several places in Brooklyn, among them being a jewelry store, where they stole 30 watches. The boys have been turned over to the Brooklyn police.

David Suffran, residing on Staten Island, has been indicted for grand larceny by the Richmond County Grand Jury Suffran and a man known only as Goldberg are charged with stealing \$2,100 from Mandel Silvers, a wealthy jeweler, of Tompkinsville. Goldberg escaped and the police are scouring the country for him. He also is indicted for grand larceny.

Herman Sacks, who keeps an optical and jewelry shop on Fulton St., Brooklyn, will face trial on an indictment brought in Jersey City, in connection with the giving of an alleged worthless bail bond for Vincent Shevlin, murderer of Harry Marshall. Sacks is now in the Tombs, but will be brought to Jersey City. Joseph M. Noonan, counsel for Sacks, declares that he is anxious to plead and is certain of acquittal.

The power boat race from Albany to New York, held under the auspices of the Albany and Colonial Yacht clubs, was won by S. W. Granbery's *Irene II*. Mr. Granbery, who is a member of the firm of J. A. & S. W. Granbery, 13 Maiden Lane, has won other trophies with his fast boat, as it recently finished first in the long distance race from Marblehead to New Rochelle. The run from Albany was made in less than 15 hours.

L. A. Wilkinson, a first cabin passenger on the steamship *Colon*, from the Panama Zone, who arrived July 6 "forgot" to declare watches, rings and stickpins. Apparently acting on advance information, Inspector Isaac Wilson and Special Employee James F. York met the ship at her pier on the North River and rounded up Wilkinson, who said that most of the articles found by the customs officers had been purchased by him chiefly in pawn shops in South America and that his business is that of speculator in jewelry of this character.

For the fourth time in the last ten months the Charles T. Cook home, 584 Fifth Ave., southwest corner of 48th St., was sold, July 9. The property passed into the possession of Black, Starr & Frost, Fifth Ave. and 39th St., who will erect a new business structure on this and adjoining property at 4 E. 48th St. Building will begin this Fall, or in the Spring, and upon its completion the firm will remove to the new premises. Black, Starr & Frost have a lease until 1913 on the quarters now occupied, and no disposition has yet been made of the latter.

Samuel Lowey, said to be a diamond merchant, and living at 242 E. 83rd St., was thrown from the rear end of the Springfield express of the New York, New Haven & Hartford Railroad into a crowd of passengers at the 125th St. station of that line and was seriously injured, the amputation of several fingers being necessary. In his fall diamonds to the extent of \$18,000 were scattered in the crowd. Just before the 125th St. station was reached he went to the rear platform. When the train reached the curve at the station there was a sudden jar, which caused Mr. Lowey to pitch head foremost to the platform. Mr. Lowey counted his diamonds after his removal to his home and asserted that only two stones were missing. He paid a high compliment to the honesty of the strangers who had assisted in their restoration.

By a recent Surrogate's decision permission was denied about 40 claimants to the estate of Charles Rubens, also known, as Wogg, to intervene as parties to an accounting of the estate, which is said to be worth about \$1,200,000. Mr. Rubens died in France in 1906. He was founder of the firm of Charles Rubens & Co., which until 1873 was engaged in the importing of watches at 25 Maiden Lane, at which time the business was bought by Louis Strasburger, father of A. L. Strasburger, now head of Louis Strasburger's Son & Co. The contestants in the controversy over the will contended that the testament was invalid in this country on several grounds, one of them being that the testator was not naturalized here under his legal name and that at the time of his death he was a resident of France, and in consequence the paper purporting to be his last will was not executed according to the laws of France. These objections were overruled by the Surrogates' Court, upheld by both the Appellate Division of the New York Supreme Court and by the Court of Appeals.

David Kaiser, chairman of the outing committee of the Jewelers' 24-Karat Club, has sent out the second and last call for the big outing which has been planned for Saturday, July 31. He is particularly desirous that all members should respond quickly, sending in the names of the guests they expect to invite, as a record-breaking attendance is foreshadowed by the responses that have already been received. A most attractive programme has been prepared by J. Warren Alford, chairman of the athletic committee, a special feature being the return baseball match between the Jewelers' Club of Philadelphia and the 24-Karat Club. Another interesting event will be the 24-karat race for the handsome silver cup donated by President Charles L. Power, and besides this there will be numerous prizes for the usual events. The athletic committee is mailing to the members full particulars regarding the athletic contests. The programme of sports for the outing is as follows: Baseball game, Philadelphia Jewelers' Club vs. the Jewelers' 24-Karat Club; story-telling contest, blue pencil publicity contest and the 24-Karat contest. The latter is open to members only, and the president's cup will be presented to the winner. The clambake is open

all, and a glass mug will be loaned to everybody.

S. B. Ross, 68 Nassau St., returned from Europe, July 10.

Mr. Woodland, of Kent & Woodland, Newark, N. J., and 12-16 John St., this city, arrived in this city from a trip abroad, July 10.

Samuel Swartzchild, of Swartzchild & Co., Chicago, is in the east with his wife, stopping at Sea Gate, L. I. He will be here for the next three weeks.

Lee Reichman, of Reichman Bros., 65 Nassau St., sailed for Europe to-day on the *Mauretania*. He will visit the Antwerp and Amsterdam diamond markets.

H. D. Mix, who represents the Wightman Hough Co., has the sympathy of his many friends in the trade owing to the death of his wife, which occurred at Providence, July 9.

Dr. Geo. F. Kunz, of Tiffany & Co., 37th St. and Fifth Ave., left New York about a week ago for a brief trip through the water-gate places of the New England coast. He'll return next Monday.

The first sheets of "A Book on Precious Stones," by Julius Wodiska, 40 John St., have been received from the publishers. His work, which promises to be an interesting and authentic volume, will be issued in September.

Retter & Rosenbaum, 266 and also 302 Broadway, whose effects were recently attached by Jacob J. Schinnskler, 131 Canal St., have been sold out by the city marshal. The firm was composed of Harry Retter and Max Rosenbaum, who started in 1908.

Trans-Atlantic Voyagers.

TO EUROPE.

P. C. Gillespie, Pittsburg, Pa., sailed this week.

J. J. Roe, New York, sailed, July 7, on the *Oceanic*.

J. A. Montgomery, Los Angeles, Cal., sailed, July 7, on the *Pennsylvania*.

Leopold Stern, of Stern Bros. & Co., New York, sailed on the *Kronprinzessin Cecilie*, July 13.

Meyer Goodfriend, of Goodfriend Bros., New York, sailed for Paris, July 3, on the *Harland* line.

Samuel F. Sipe, Pittsburg, Pa., and Lee Reichman, of Reichman Bros., New York, left on the *Mauretania* to-day.

Charles G. Rathgen, of Ferd. Bing & Sons, Successors, New York, sailed, June 28, on the *Kaiser Wilhelm II*.

John Frankel, of Jos. Frankel's Sons, New York, and A. A. Heller, of L. Heller & Son, New York, were passengers on *La Savoie*, July 8.

FROM EUROPE.

Emil Lewy, of Lewy & Cohen, New York, returned, July 5, on the *Kroonland*.

Edwin S. Strauss, of Jacob Strauss & Sons, New York, returned recently on the *Mauretania*.

A. L. Strasburger, of Louis Strasburger's Sons & Co., New York, returned on the *Kronprinz Wilhelm*, June 22.

Newark.

Leo Marks, 170 Market St., has filed a voluntary petition in bankruptcy.

Mr. Guenther and Mr. Childs, of Kohn & Co., have started on their southern trips.

Frank Schmitz, of Schmitz, Moore & Co., is in Los Angeles attending the Elk's convention.

Harry Rigby, of the jewelry department of the American Oil & Supply Co., is at Lynn, Mass., for a short stay.

E. P. Kohn, of Kohn & Co., Camp and Orchard Sts., is spending July at the Maplewood, White Mountains, N. H.

Mr. Lafayette, of the jewelry department of the American Oil & Supply Co., is spending his vacation in New York State.

George Bowerman, of Charles H. Wientge & Co., is at Belgrade Lake, Me., for his vacation. He reports first rate fishing.

The majority of the jewelry factories of this city remained closed during last week, and some have announced that they will not reopen until the last week of the month.

It is reported that the offices of the Crown Supply Co., Trenton, N. J., have been closed and the fixtures sold. The whereabouts of the members of the firm is unknown.

Leon Friedman, 196 Market St., Paterson, N. J., was one of the committee in charge of the Market St. Business Men's Improvement Association's entertainment, given at Eastside Park, July 5.

S. W. Granberry, of J. A. & S. W. Granberry, won the Albany to New York motor boat race with his *Irene II*, which covered the course of 135 knots in 14 hours and 25 minutes. The victory earned for the winner the Thomas Fleming Day cup.

S. S. Yardley, of the William F. Renziehausen Co., 95 Oliver St., is at Sunapee Lake, N. H., recuperating from an attack of typhoid fever. Mr. Yardley has been ill about two months. In a letter to friends he says he expects to be about again next week.

David Williams, one of two negroes who entered the S. Broadway jewelry store of Samuel Gordon, at Long Branch, N. J., is being held in that city awaiting action by the Grand Jury. Williams and another man entered the store and asked to see some jewelry. While Williams tried on a ring his partner decamped with two gold watches. When Williams was caught one of the watches was found on his person. The same pair was suspected in connection with the robbery of some jewelry and a small sum of money from the J. W. Cunningham cottage in Ocean Ave.

Unsurpassed nerve was displayed by Matthew Ash, who is in jail in Trenton, N. J., under \$300 bail, waiting the action of the Grand Jury on the charge of stealing two gold watches from Peter A. Peterson, N. Broad St., Philadelphia. Ash was employed by the Union News Co. He wandered into the Peterson store and asked to be shown a good line of timepieces. Shown one, he said he'd pay \$2 on account, and then, when the dealer's back was turned, got away with a \$28 watch. Peterson did not miss the watch until later in the day. The next evening Ash came in again, asked to see some watches and stole one from a

tray of 10. He was arrested, however, just as he was trying to get out, the jeweler's suspicions having been aroused. Mrs. Peterson summoned the policeman. In court Ash declined to make any statement. He pleaded "not guilty."

Pittsburg.

TRADE CONDITIONS.

Business prosperity has at last arrived at Pittsburg, and merchants feel positive that there will be a splendid Fall and Winter trade. The mills and factories generally are working up to about 85 per cent. of their capacity, wages are being advanced and the wage earner who has been in debt, due to the hard times of the last two years, is slowly paying off his obligations. Jewelers generally in this section believe that there is every evidence at hand now to insure splendid Fall business and an exceptionally good holiday trade. Some branches of the local industries report an actual scarcity of labor, which is always a forerunner of good times. Few mills and factories cut wages when the last panic overtook this section, but the concerns which did so have been restoring the old scale of wages.

Charles S. Moore, who has been in New York spending his vacation, returned home last week.

Theodore Frey, of the North Side, has installed two handsome dome lamps in his show windows which add greatly to the attractive jewelry displayed by him.

P. G. Gillespie, of Gillespie Bros., sails to-morrow for Europe on his annual diamond buying trip. He will visit some of the large cities of the Old World before returning to Pittsburg.

Quite a number of jewelers have recently installed the observatory time system in their places of business. A few have provided an electrical arrangement which shows the tick of the second by the flashing of light through the medium of a red bulb.

Steele F. Roberts, president of the Jewelers' 24-Karat Club of Pittsburg, expects to spend his vacation in Canada, next month, after returning from the American National Retail Jewelers' Association convention in Omaha, where he goes to make an address.

Harry Meyer, Bernard Albert Spanel, Nathan Samuel Spanel, individually and trading as H. Meyer & Co., of this city, who were adjudicated bankrupts Nov. 23 last, have applied for a discharge of their debts in bankruptcy. A hearing on this petition will come up in the United States District Court, July 24, at 10 A. M., and creditors who may have objections are asked to attend.

Sam F. Sipe and his son, Sam M. Sipe, sail to-day on the steamer *Mauretania* from New York for Europe, and will return to Pittsburg, next month, on the *Lusitania*. This is Mr. Sipe's son's first trip abroad. Mr. Sipe, as well as other merchants, are hurrying to the diamond-buying centers in order to secure their goods before the new tariff bill goes into effect, as it may mean quite a saving in duties.

A fire which occurred in the Simons jewelry store, 930 W. Market St., Louisville, Ky., was believed by the police and the proprietor to have been caused by robbers who had previously looted the place. The fire was extinguished before much damage was done. Mr. Simons estimates the loss of jewelry at \$400 to \$500.

FOR
Jewelers and Watchmakers

100 Pages New Matter
Containing 300 Pages (size 7½x10½ inches)
Bound in Cloth, Stiff Covers

A collection of the latest practical receipts on the manufacture and repairing of watches and clocks, and on the various processes entering into the manufacture and repairing of jewelry, as coloring, polishing, enameling, annealing, oxydizing, etc., in short, a thorough compendium of the numerous mechanical departments of the jewelers' and watchmakers' shop.

This book is the most useful, comprehensive and perfect publication for the workman at the bench, and should be in the hands of every jeweler and watchmaker in the country. It is the only book of its kind published.

Price, by mail postpaid, \$2.50

The
LINE of QUALITY

Stone-Setting

Careful and discriminating jewelry buyers appreciate the value of good stone-setting, for many an otherwise beautiful production has been miserably spoiled by careless and incompetent workmen.

All of our stones are neatly and perfectly set. Bright-cutting around half pearls is a special feature with us, and greatly enhances the effect of our pearl set designs. We employ in this department only the most skillful stone setters, and every piece must pass a most rigid inspection before shipment. We invite a most careful comparison.

**Prices Low
Quality Considered**

Manufacturers of 14k. and 10k. Brooches, Diamond Mountings, Festoons, Pendants, Scarf Pins, Links, Tie Clasps, Studs, Locketts, Bracelets, Ear Screws and Drops, Collar Buttons, Hat Pins, Cuff Pins, and Combination Sets.

Philadelphia.

Bertram Magee, Trenton, N. J., has taken cottage at Atlantic City.

Author Johnson, Smyrna, Del., was a visitor to this city, last week.

E. Leslie, casemaker, 722 Sansom St., is seriously ill with heart trouble.

Willis Porter, Burlington, N. J., spent last week in New York on business.

Oliver Cox, New Egypt, N. J., spent last week in this city with Mrs. Cox.

E. L. Thomas, a Phoenixville jeweler, made a business trip to Lancaster, last week.

William Lehmkuhl, Jr., son of William Lehmkuhl, 102 N. 2nd St., was married, last week.

George Long, 1629 South St., has taken his family to Ocean City, where they have cottage.

F. S. Shaw, Camden, N. J., is convalescent after a serious illness and is again attending to business.

J. A. Harron has resigned his position with the Wm. L. Gilbert Clock Co., to enter the hosiery business.

Thomas Moore, watchmaker for Milton Reed, Doylestown, Pa., is spending his vacation at Minersville, Pa.

George Koehler, 6225 Woodland Ave., is making alterations to his store prior to installing an optical section.

Col. J. Warner Hutchins will spend Camp Week at Mount Gretna with the officers in Governor Stuart's staff.

Baynes & Knight, 727 Sanborn St., is the name of a new concern manufacturing and designing sterling silverware.

M. Rosenbaum, 222 N. 8th St., has sent his family to Southampton, Pa., where they will spend the entire Summer.

John Oberholtzer, with Jos. B. Bechtel & Co., 725 Sansom St., will spend his vacation with his family in Bechtelsville, Pa.

T. J. Wilkinson, formerly of Lyons & Wilkinson, this city, will return east, shortly, and will again start in business.

J. Leitch, 502 N. 4th St., Wilmington, Del., was a visitor to this city, last week, looking for a good business location.

Harry Weir, Manayunk, Pa., with several friends, spent the week end at Anglesea, N. J., where they have a fine motor-boat.

George Hunt, diamond setter for M. Nickles & Sons, has been spending the past week at his bungalow at Grassy Sands.

Miss Martha Moock, daughter of Otto T. Moock, manufacturing jeweler, 809 Sansom St., is spending the Summer at Atlantic City.

M. C. Williams, Trenton, is receiving the congratulations of the trade upon the recovery of Mrs. Williams after a serious illness.

A. M. Yeakel, Perkasio, who recently underwent an operation for cataract on the eyes, is being congratulated upon his successful recovery.

The Bailey, Banks & Biddle Co. made and designed the loving cups to be presented at the annual regatta of the Ocean City Yacht Club.

James Kelly, representative of the watch department of Bailey, Banks & Biddle Co., has just returned to this country after a pleasant trip abroad.

The Philadelphia mint is undergoing repairs and a general cleaning up. With the

minting of the new cent coins, bearing Lincoln's head, the mint has quite a busy outlook.

Thomas Callahan, with Lyons & Wilkinson, and John Beyers, of M. Sickles & Sons, won the diamond studs that were given as prizes at the sports, July 5, at Belmont.

At a recent flag raising in this city, the occasion being the presentation of a flag to Deputy Coroner James L. Waldin, the address and presentation was made by Coroner John W. Ford, who is a jeweler, 618 E. Girard Ave.

George N. Schaeffer, who was convicted at Allentown, June 18, of the murder of Leopold Ermann, the Philadelphia jewelry salesman, on his farm near Schenecksville, about Nov. 18, 1908, has filed eight reasons for a new trial, through his counsel, Kline & Kline.

Burglars again attempted to try their luck on the jewelry store of William Fussman, Gloucester, N. J. This time the attempt was futile, the burglars being caught after an exciting chase. Mr. Fussman's store has been a target for this particular line of work many times in the last two months.

E. J. Berlet, of Maxwell & Berlet, and president of the Walnut St. Business Men's Association, is taking an active interest in the appeal that is being made by the different business men's associations for better rates from express companies. A movement has been started to advocate a parcels post.

Furman L. Shaw, a Camden St. jeweler, has taken up the reins of business again after four weeks' confinement due to carbuncles, which were finally subdued by resorting to the knife. Though the siege of pain he passed through caused him to lose considerable weight, Mr. Shaw is quite himself again.

James Borhek, at one time a prominent optician at 628 Chestnut St., died last Thursday night following an operation in the German Hospital. Failing health, his advanced age and the oppressive heat of the last few weeks combined to retard his recovery. Mr. Borhek was 69 years of age and is survived by a widow.

The following jewelers were visitors to this city during the week: Joseph Loeb, Reading, Pa.; M. Lampert, of H. Zimmern & Co., New York; Calvin Solliday, Lambertville, N. J.; R. W. Quicksall, Mt. Holly, N. J.; John H. Merz, Hopewell, N. J.; D. H. Krause, North Wales, Pa., and H. B. McFarlan, East Downington, Pa.

J. E. Caldwell & Co. are showing an exclusive line of china, known as the Healey Gold China. These pieces are exquisitely beautiful both in design and finish, the effect is one of solid gold rather than china. This special process is made of 14 karat gold and manufactured in Washington. It is warranted not to rub nor tarnish.

Solomon Efler was arrested, last week, by Detective Walsh, of the City Hall, who has been investigating a swindle in which Benjamin A. Silverman, a jeweler at 705 S. Second St., claims he lost his life savings, which amounted to \$5,000. It is said that members of a band of thieves visited Silverman, two weeks ago, and sold him diamonds for \$200 that he disposed of next day for \$500. After the successful deal Sil-

verman's confidence in the men was strengthened and it took very little coercion on the part of the thieves to get him to enter an empty house and settle for another deal, where they were to sell him stones worth \$15,000 for \$5,000. When Silverman had paid over the \$5,000 supposed detectives entered the house. Silverman escaped out the back way. Later in the day Silverman was called to the 'phone and told to keep the affair quiet, that his money would be returned as soon as possible. When several days passed and no effort was made to return the money he grew worried and called in the police. Silverman declares he has been ruined, as he has used \$3,000, his savings for years, and \$2,000 borrowed from friends. Efler has been held in \$800 bail.

Buffalo, N. Y.

TRADE CONDITIONS.

Although the regular June rush has passed, Buffalo jewelers have not noticed any extraordinary decrease in business. All are keeping busy, and are satisfied with present trade conditions.

George W. Hoff, 334 Connecticut St., was married recently.

C. A. Randecker and A. G. Pape, travelers for King & Eisle, left, last week, on their Fall trips.

A bronze medal for general excellence at the Eric Pape School of Art in Boston for the year 1908-09 has been awarded to a Mr. Becker, of Buffalo.

Henry Nise, jeweler of 523 William St., recently purchased a large business block near his present location and will move his store into larger quarters.

One of the prominent weddings in Buffalo, recently, was that of Miss Weiser and Edward Nadeau, both of the office staff of Charles F. Damm, manufacturing jeweler, 520 Main St.

A. D. Bliss, a watchmaker of Albion, N. Y., while driving an automobile across East Ave., in Lockport, N. Y., collided at Washburn St. with a rig containing Daniel R. Sillesky, Jr., aged 19 years, throwing him to the sidewalk and injuring him badly.

Among the jewelers who recently visited the Buffalo jewelry market were: C. L. Kerr, Silver Springs; L. J. Reznor, Port Alleghany, Pa.; A. B. Davis, Rushford; F. M. Fitch, Ellicottsville; Mr. Holl, Attica; F. D. Kelsey, East Aurora; W. H. Hills, Canistota.

A bronze tablet was unveiled at Herkimer, N. Y., last week, in honor of General Spinner, former treasurer of the United States. The tablet was erected by Miss Mary R. Spinner Harvey, great-granddaughter of General Spinner, who was born in Herkimer.

The show window of Herbert L. Fox's jewelry store in Dunkirk was broken open, last week, and a gold watch and chain and a neck chain were stolen. Later, John Cudzoil was arrested because he had been seen in the neighborhood of the robbed store, and on his person were found the watch and chain, which were positively identified by Mr. Fox. Cudzoil was on parole from the State reformatory at Elmira.

Harry Freed, the man who was arrested for selling a stone to a Dunkirk man on

the recommendation of local jewelers and then shifting stones when the delivery was made, was fined \$10 and released. The police say Freed was adept at shifting diamonds. Jeweler Stapf, Dunkirk, was one of the men who pronounced the stone Freed sold to a Greek at that place as genuine, and later examined the stone, to find it had been changed.

A beautiful silver loving cup was recently bought from the silverware department of Weed & Co. by Henry S. Fisher, general manager of the Lake Erie Excursion Co., owners of Crystal Beach, a popular Summer resort near Buffalo. The cup was presented to the Spanish War Veterans, who recently held an outing at the beach. Mr. Fisher has bought a number of silver and other trophies for patrons of the resort. He recently purchased a number of prizes from Best & Co., Genesee St. jewelers.

E. A. Eisele, of King & Eisele, wholesale jewelers, and his wife have just returned from a three weeks' automobile trip with a party of friends through the New England States. A. G. Pape, W. I. Goodfellow, F. N. Crown and C. A. Randecker, road men for King & Eisele, are preparing to start out with jewelry lines about July 15, to cover their respective territories. The annual outing of the King & Eisele establishment was held on July 10, and included a trip down the Niagara River and around Grand Island. The store was closed all day.

Boston.

A. Paul, of A. Paul & Co., resides at North Scituate for the Summer.

E. E. Franks, of Myers & Franks, has returned from an extended automobile trip to New York and western Massachusetts.

C. W. Sweetland and family are at Friendship, Me., where Mr. Sweetland has a Summer country place.

L. E. Sweetser, of the Sweetser & Bennett Co., is at Attleboro for a brief period for rest and recuperation.

Ezra C. Fitch returned to his cottage at West Manchester recently from a long yachting cruise in Canadian waters.

George C. Taylor, formerly with the Waltham Watch Co., has taken a position as watchmaker with Wilson Bros. Co.

I. P. Klous, of Meyerowitz Bros., New York, who makes his headquarters in Boston, leaves this week on a trip through the New England States.

Geo. E. Homer, 45 Winter St., has received a large order of sterling silver souvenir spoons to be used at the Shoe and Leather Fair, held here this month.

The factory of the Waltham Watch Co., which has been closed for the Summer vacation since June 23, will resume operations in practically all departments to-morrow, July 15.

Albert Harrison, 373 Washington St., who was injured in one of his eyes a few weeks ago, returned to his office last week. He was threatened for a time with entire loss of sight, but is gradually regaining the use of one eye.

Arthur G. Mansur, Burlington, Vt., furnished the sterling silver cups and punch bowl for the prizes awarded in connection with the Lake Champlain tercentenary fête

last Thursday in that city, the outfit being valued at upward of \$2,500.

Lawrence F. Percival in his Sonder class yacht *Sally V* was the winner of second place in the Corinthian Yacht Club races last Saturday off Marblehead. There were nine competing yachts.

Among the visitors to the trade in the past week were: John Peer, from L. H. Keller & Co., and F. R. Hollister, of Chapin & Hollister, who is at his Summer place in Kennebunkport for the greater part of the months of July and August.

J. P. Slattery, assistant superintendent for Wilson Bros. Co., who has been sick in the hospital for several months, has returned to business much improved in health. Charles S. Wilson, treasurer of the Wilson Bros. Co., has gone to Burnham, Me., for a midsummer outing.

Buyers in town, during the week, included: Joseph Stuhlbach, Stafford Springs, Conn.; George E. Proulx, Southbridge; H. S. Hewett, Brockton; F. M. Weber, Hyannis; A. B. Chapin, Worcester; I. I. Harper, West Upton; E. F. Lilley, G. W. Wilcox, Milford; Henry Eager, Marlboro, Mass.

Herman Poppendick, western salesman for Joseph Cowan, who has been at home over the July holiday, starts this week on his Fall trip. Robert Taylor and W. F. Macomber, respectively southern and south-western salesmen for E. A. Cowan, have started this week on their long trips with Fall samples.

Mayor Hibbard, of Boston, has vetoed an order passed by members of the Common Council for the expenditure of \$750, or \$10 apiece, for a gold badge for each of the 75 members of the council. This is the customary annual order. Last year a similar order was vetoed by the same mayor, but it was passed over his veto.

Rahlin & Golman, of 2019 Washington St., have closed up their business and creditors in the trade state that they are uninformed regarding the whereabouts of the two men. The stock was removed prior to the closing of the place, and several jobbers would like further knowledge about them and the goods they had on hand.

Rochester.

The local police have been active against jewelry peddlers and "fakers" recently.

Employees of the Bausch & Lomb Optical Co., this city, have presented to the company a bronze tablet in memory of the late Capt. Henry Lomb, and a solid Sienna lectern upon which the tablet will rest. "Think of others first, yourself afterwards," a favorite motto of Capt. Lomb, is inscribed on the tablet as well as the following: "This tablet is given in testimony of our love for our true friend and counselor, who by his noble deeds and good life gave to us a rare example of simple greatness to study and emulate, by unanimous vote of the employees of the Bausch & Lomb Optical Co." The tablet also bears the date of Capt. Lomb's birth, "1828," and the year of his death, "1908." The presentation of the tablet was accompanied by appropriate exercises. The presentation was by William V. Moore and William Wishart, and the tablet was accepted by John Jacob Bausch, president of the company.

Attleboro.

F. Milton Eldredge left, Sunday, for a brief business trip.

Walter E. Haywood, at one time a prominent manufacturer, is confined to his bed by illness.

J. M. Fisher addressed a large audience in the Methodist Church, last Sunday evening, upon the liquor question.

F. R. Truell, western salesman for the William H. Saart Co., returned, last week from a successful western trip.

Hermon T. Regnell, a former manufacturing jeweler, but who is now living in Oregon, was in Attleboro, last week, on a visit.

W. E. Harwood, representing the Fontneau & Cook Co. in New York, was in town, last week, enjoying a vacation with his parents.

Charles Perry, salesman for the C. M. Robbins Co., has purchased a cottage at Harwichport on the Cape and will spend the Summer there.

The selectmen were the guests of S. O. Bigney, last Friday, who carried them to New Bedford in his automobile, where they inspected the streets of that city.

The Standard Button Co.'s employees enjoyed their annual outing, last Saturday, at Boyden Heights and Crescent Park. The Watson-Newell Co.'s outing is scheduled for July 31.

The Regnell-Bigney factory was closed last week, for the annual cleaning and inspection of boilers. The W. H. Saart Co., Holbrook Mfg. Co. and the Regnell-Bigney Co., who occupy this building, therefore took a vacation.

Charles M. Robbins, a prominent manufacturing jeweler of this town and a resident of Harwich, on Cape Cod, is endeavoring to form a cranberry trust. He has interviewed the leading cranberry growers on the Cape with the idea of organizing in protecting their product.

After an illness of less than a week, Sanford Hamilton, manager of the C. S. Best Co., a jewelers' supply house, died, Sunday morning, at the Attleboro Sanitarium where he was operated on a few days ago.

The deceased was born in Nashua, N. H. and for over 20 years acted as a traveling salesman for glass ware firms. He was a member of the Murat Shrine, of Murat, and later of Palestine Shrine of Providence. At one time, while living in Cleveland, O., he was acting mayor of the city. He was buried Saturday afternoon from his home on John St. Ezekiel Bates Lodge of Masons officiated.

George A. Barrows, a veteran jeweler, died, last Friday evening, at his home, Pleasant St. He worked, as usual, at the factory of J. M. Fisher during the day and appeared to be in the best of health. He ate his supper and went down street in the evening. He was suddenly seized with heart failure as he was preparing for bed. He ceased to be born in Wrentham and worked in the jewelry business for over 51 years. Last March he attained his 70th year, but still retained his vigor despite his years. Mr. Barrows is survived by a widow and two sons, George N. and Charles L., the latter being a member of the Bay State Optical Co. The funeral was held Monday.

Chicago Notes.

Chas. Purdy is back from a three weeks' trip.
 Harry Miller is taking a vacation at Mackinac.
 Theo. Jacobs, of T. Jacobs & Co., is making a western trip.
 W. J. Leighton, Sault Ste. Marie, Mich., is here, last week.
 J. Murovec has opened a new jewelry store at 250 W. Chicago Ave.
 The family of Ed Moore has been congratulated by the arrival of a boy baby.
 W. A. Fay, with the Potter & Buffinton Co., made a short trip northwest, last week.
 Chas. J. Jacobs, manager of the Knickerbocker Silver Co., is making a northwestern trip.
 H. C. Graffe, of Graffe & Stanek, accompanied by Mrs. Graffe, is at Powers Lake, Wis.
 John S. Braude, with the Keller Jewelry Co., is on a trip through the middle West.
 James W. Clark, president of Moore & Adams, is visiting at his old home in Connecticut.
 E. Matz, of E. Matz & Co., is taking a vacation in the country near Benton Harbor, Mich.
 R. F. Prochrow and Carl Weibezahn have just returned from a very successful mining trip.
 Dan Douglas, of the Dueber Watch Case Co., Canton, O., was a recent visitor to the trade here.
 A. M. Kelly, formerly of Jefferson, Tex., now in the jewelry department of Norris, Alister & Co.
 J. A. Lucas, representative here for A. Bliss & Co., is taking a 10 days' outing in northern Michigan.
 L. E. Fay, representing the R. F. Simmons Co., has just returned from a month's trip on the Pacific Coast.
 Chas Hoffman, of the Hoffman Jewelry Co., Springfield, O., stopped over here a few days on a trip to the west.
 H. H. Hughes, secretary of Hughes & Son Jewelry Co., Lima, O., was here, last week, taking a short vacation.
 L. H. Schafer, of L. H. Schafer & Co., has been confined for several days at his home on account of a sore foot.
 R. T. Hunter, representative of Geo. L. Brown & Co., Attleboro, is spending a two weeks' vacation in New York City.
 Nathan Silverman, who only recently

opened a retail jewelry store at 107 Madison St., has discontinued business.
 S. C. Eppenstein, of the Illinois Watch Case Co., accompanied by his wife, is taking a vacation at St. Joseph, Mich.
 Nathan Roff, retail jeweler at 910 W. 59th St., has given a bill of sale for his fixtures to Morris Karnes for \$700.
 J. J. Donnelly, C. L. Caliger and P. H. Winterberg, with Sproehle & Co., left for their respective territories, last week.
 "Jack" Adler, manufacturer's representative on the Pacific Coast, stopped over here, last week, after a long visit east.
 H. A. Beckwith, formerly watchmaker for Frank Whitfield, has engaged in the retail jewelry business at 1655 Lincoln Ave.
 B. Meyerowitz, of Meyerowitz Bros., New York, is now showing the Chicago trade the recent importations of that firm.
 The wife of Morris Feinberg, retail jeweler at 11,208 Michigan Ave., was taken to a hospital, last week, to undergo an operation.
 Walter Frazer Brown, western representative of the Bannatyne Watch Co., is on a vacation with his family, near Davisburg, Mich.
 J. H. Carmody, city representative here for the C. H. Eden Co., has returned from a visit to the firm's factory at Attleboro, Mass.
 A. E. Madsen, of Rettig, Hess & Madsen, whose home is in Minneapolis, reports the recent arrival of a daughter at his home.
 C. E. Wilson, secretary and general manager of the New York Standard Watch Co., was here, last week, on a western business trip.
 G. W. Cureton, representative here of Henry G. Lefort, is making a trip to the factory at Newark, N. J., also visiting in New York.
 Harry E. Farquharson, with E. D. Gilmore & Co. and the E. A. Potter Co. lines, has just returned from a six weeks' Pacific Coast trip.
 Geo. E. Hunter, superintendent of the factory of the Elgin National Watch Co., paid a visit to the Chicago offices of that corporation last week.
 Alberti & Miglioni Co. is the title of a new retail jewelry store at Polk and Morgan Sts. Mr. Alberti was formerly in business at 142 West Madison St.
 The name of the corporation Jones & Dreyer, installment jewelers, in the Chi-

cago Savings Bank building, has been changed to the Fred D. Jones Co.
 Arthur Schuman, of the Chicago office of the Theodore W. Foster & Bro. Co., is at Minocqua, Wis. J. A. Limbach, manager of this office, is now making an eastern trip.
 M. H. Cowen, A. E. Madsen, M. A. Cohen and F. E. Emerson, comprising the traveling force of Rettig, Hess & Madsen, left for their respective territories, last week.
 W. G. Bryan, former manager of the Chicago branch of the New England Watch Co., is now interested and connected with the American Bankers' Insurance Co.
 H. A. Hammond, city salesman for the Stein & Elbogen Co., was recently presented with a diamond set past master's jewel by the Ashlar Lodge No. 308, A. F. & A. M.
 H. D. Vognild, manager for E. L. Vognild, the Milwaukee Ave. jeweler, is on a six weeks' trip to the Seattle Exposition, where he will join his mother and his three sisters, who have been visiting there.
 Harry J. Bably was united in marriage, Saturday morning, July 10, at the Holy Name Cathedral, to Miss Margaret Prindiville. They will take an extended honeymoon trip on the Lakes. Mr. Bably is head of the diamond department of Moore & Evans.
 L. A. Eppenstein, of L. A. Eppenstein & Co., has left for a six weeks' western and northwestern business trip. Sam Groak has returned from New York and is now on his usual southern trip. Lee Wechter, with the same concern, is on a seven weeks' western trip.
 Lathan Carr, popularly known as "Bud" Carr, for over 20 years in the material department of Lapp & Flershem, resigned his position with that firm recently, and after a month's rest will open a retail jewelry store at some point in Michigan not yet decided upon.
 An adjourned meeting of the Chicago Jewelers' Association was held, last week, to consider a change in the constitution of that body, whereby the scope of the association will be much enlarged. Action was postponed until the next meeting, which will be in September.
 Emil Noel sustained injuries last week while getting on a 12th St. car. Mr. Noel's right side was severely bruised. He at first made light of the affair, but upon ex-

amination by a physician his ninth rib was found to have been broken. It will be two weeks, at least, before Mr. Noel will be able to attend to his regular duties.

The American Monogram Co. is a new concern at 109 E. Randolph St., doing engraving and making monograms and letters for fobs, leather goods, etc. The concern is composed of T. C. Erpenbeck, formerly with Marshall Field & Co. and the Shourds, Adcock, Teufel Co., and Herbert Smith, formerly with J. W. Colgan, Boston, Mass.

The Rockford Watch Co. entertained its traveling representatives at the factory, Thursday and Friday, July 1 and 2. Thursday forenoon was spent in an inspection of the factory, the salesmen being particularly interested in the new 12-size movement, which they saw for the first time, and which will be ready for their sample lines within a few weeks. During the afternoon A. M. Cole, St. Louis, gave an interesting address on "Scientific Salesmanship." A boat ride several miles up Rock river and a banquet at the Nelson finished the first day of instruction and entertainment. Friday forenoon was given over to a discussion by the various salesmen of the recently adopted policy of selling direct to the retail jeweler and an outline of the Fall business campaign. The convention ended Friday afternoon with an interesting and instructive talk by President Jacob Franks. The meeting was attended by Jacob Franks, president; Alfred Holtz, manager; Earl J. G. Lovett, sales manager; J. M. Rosenbach, special representative; L. H. Covert, who covers Nebraska, Minnesota and the Dakotas; C. C. Biglow, Ohio and Indiana; W. X. Brown, Missouri and Kansas; Chas. O'Brien, Colorado and the Northwest; Geo. H. Ford, New York State; I. Kling, New York City and vicinity; B. F. Hodgins, Virginia and the southeast; Robt. Friendly, Wisconsin and Michigan; J. Schultze, Oklahoma and Texas; Philip Ruprecht, Pennsylvania and New Jersey; A. L. Biglow, Kentucky, W. Virginia and Tennessee, and A. M. Shepard, Chicago and vicinity.

Association Notes.

There are now 105 members of the New York State Retail Jewelers' Association, a doubling of the membership since the organization meeting here in March. This increase has been had without any especial effort on the part of the State organization.

The annual convention of the Michigan Retail Jewelers' Association will be held in Detroit, Mich., Sept. 6, 7, 8, at the Hotel Cadillac Monday evening, Sept. 6, will be devoted to a reception, while Tuesday, Sept. 7, will be the real business day, the session lasting all day long. This meeting is for retail jewelers only and plain talks among the members and heart-to-heart conferences on how to better conditions will be the programme for the daytime, while in the evening fun, foolishness and frivolity will prevail. A reunion of the Ku Kus, a banquet and dancing will be some of the features of the entertainment. Wednesday the jewelers who are not members of the Michigan Optical Society can visit the exhibits, call on the jobbers and spend a pleasant day.

Los Angeles.

Fred Walter, Jr., secretary of the Carl Entenmann Jewelry Co., is now in New York.

S. Crone, watchmaker with the S. S. Schepps Co., spent the Fourth at San Diego.

Mrs. Ada Self has been engaged as bookkeeper and saleswoman for the S. S. Schepps Co.

The majority of the prominent jewelers will from now on close their stores at noon on Saturday.

F. Stansfield has just shipped to R. N. Dickey, Jacksonville, Fla., a 20th century facet-cutting machine.

James Thomas, formerly in business on 5th St. in this city, but now of San Diego, spent the Fourth here.

Arthur Turner is now looking after the city trade for the E. W. Reynolds Co. in some special factory lines.

S. B. Bailey is engaged in selling off his stock damaged by the recent fire. He has about 25 salespeople in his employ.

Isidore Behrstock, traveling representative of S. Meyer & Co., has returned from an extended trip through the northwest.

Mrs. E. Fisher, formerly Miss Ina Davis, who was for several years with E. Gerson, has again taken a position with him as saleswoman.

R. H. Gilmore, of Gilmore & Lee, who has returned from a trip to San Diego and other southern towns, will remain home for two weeks or more.

George Feagans, of Brock & Feagans, is now in the east, having left this city July 2. George Dickson, of the stationery department of the same firm, is also in the east on a buying trip.

Douglas B. Sterrett, of the United States Geological Survey, is expected to be in southern California in July or August. He has notified some of the dealers in gems of his intention and is expected to visit the mines in this section.

Brock & Feagans are making a special display in their silver department of reproductions of early Dutch masterpieces in solid silver. They have just sold to a Chinaman in this city a solid silver plate and spoon to be given as a present to a Chinese baby, just arrived, and named Tom Taft.

C. H. Snell, head of the optical department of the E. W. Reynolds Co.; H. B. Lewis, salesman of the same company; Fred Detmers, president of the State Board of Examiners in Optometry, and Milton Sandfelter, representative of D. F. Briggs & Co., celebrated the Fourth by a fishing trip.

The increasing business of S. Meyer & Co. has made it necessary for him to have more space. He has acquired possession of the room adjacent to his office recently occupied by the Pacific Jewelry & Supply Co., and will remove the partition wall, thus adding about one-third to the floor room he has had.

The California Gem Co., doing business in the Bumiller block, has received from a mine bonded by it in the Klondike district, Nevada, samples of black matrix which promises to attract considerable attention. It is said to be quite hard and is the only deposit of the kind on this coast, so far as

known. It contains a considerable variety of blues and greens.

The Los Angeles Gem Co. and the Argelus Jewelry Mfg. Co., heretofore at 4 S. Broadway, are moving into the new factory built especially for them at 126 1/2 Jefferson St. They expect to open for business in the new location, July 19. The new building is 140 feet long and 100 feet wide, and will be one of the best equipped as well as one of the largest in the west.

Albert Fink, who has been with the J. P. Trafton Co., this city, for a number of years, has gone into the brokerage and jewelry commission business, and has located in the Broadway Central building. The style of the firm is Albert Fink & Co. Mr. Fink expects to do a general brokerage and diamond business. He will make his regular trips as heretofore, following up his established trade, in his old territory, comprising the Pacific Coast and Rocky Mountain region. He expects to take on one or more eastern solid gold lines.

The Carl Entenmann Jewelry Co. is straddling the full capacity of its shop. It had the contract to furnish for the P. A. and A. A. U. the championship gold silver and bronze medallions given as trophies for championship in the field event, wrestling matches and Marathon race held here during the national meeting of the Elks. These comprise 23 solid gold, 10 sterling silver and 16 copper medals. The company has also been awarded the contract for the sole manufacture of Elk solid gold brooches. They also have made the medals for the southern California swimming championship under the auspices of the swimming association.

The J. P. Trafton Co., which has been in business in this city for about 20 years has gone into liquidation and will be discontinued. Mrs. Fleming, formerly Mrs. Trafton, has for some time past desired to be relieved of the care which the business imposed upon her. Chas. Adams, who has been the manager of the concern, having gone into business on his own account made the time opportune for Mrs. Fleming to close out. The stock on hand, said to be valued at about \$135,000, has been sold to George M. Williams, proprietor of the Geneva Watch & Optical Co., this city, and a local trust company will take charge of the collection of outstanding debts, said amount to something like \$150,000. Mr. Williams will remove the stock to his store, 305 S. Broadway, and close it out rapidly as practicable.

The Bastheim, Adams & Abel Co. has been incorporated for the purpose of doing a wholesale jewelry business in this city. The members of the firm are Ed Bastheim, formerly with Alphonse Judis, San Francisco; Chas. Adams, former manager and buyer for the J. P. Trafton Co., and Clarence C. Abel, road representative of the Trafton Co. Spacious quarters have been engaged in the Broadway Central building, 421 S. Broadway, and are now being fitted for the company's use. Three members of the firm have a wide acquaintance in the western jewelry trade. Their stock and fixtures will be entirely new. The firm will deal in 14 and 10-karat jewelry, diamonds, watches, etc.

Cleveland.

F. M. Loofborrow, of R. H. Ingersoll & Co., was in town this week.

The Bowler & Burdick Co.'s salesmen will start out on the Fall trip this week.

J. J. Schuster, 2718 W. 25th St., has recently been appointed watch inspector for the Erie Railroad.

C. A. Gracy, Logan, O., is in charge of the optical department of the Buyon Jewelry Co. for a few days.

Theo. F. Gieger, engraver, with the Graham Co., New York, is in town for a month or so visiting his parents.

Bamber & Gains furnished the big cup which was offered by the Catholic Club of Painesville, O., to the winner of the Marathon race, held July 5.

H. D. Williams, who was formerly in charge of the optical department of the Buyon Jewelry Co., Colonial Arcade, has opened offices at 37, same building.

Beddow & Co., wholesale watch supplies, whose offices in the Permanent building, have gone out of business, and G. L. Beddow is now with the Jackson Jewelry Co.

The following out-of-town jewelers were in town this week: Alvin Kintner, of the Kintner Jewelry & Optical Co., Painesville.

W. Scott, Piqua; J. O. McClintock, Agrin Falls; E. D. Davis, Kent, and Harry Dehnel, Sandusky.

H. W. Beattie, in the Euclid Arcade, has probably the most unique window displays in town. His entire display invariably consists of precious stones formed in one single design in the center of the space, which is covered entirely with black velvet. On Sunday July 4 Mr. Beattie had a shield composed of diamonds, rubies and sapphires.

The May Co., one of Cleveland's large department stores, has opened a watch repair shop in connection with their jewelry department. The idea is distinctly new in Cleveland. The May Co. secured J. W. Roberts to take charge of this venture, Mr. Roberts having had a wide and varied experience both in this country and abroad.

The mutilated and crushed body of Harry R. Cowell, son of H. J. Cowell, of the Webb C. Ball Watch Co., was found in the Mississippi River, near St. Paul, Wednesday. The police of that city believe that the young man fell from a 90-foot bluff, and if not killed by the fall drowned afterward. He was employed by the Winton Motor Car Co. in its branch office in Minneapolis.

Fire in the Power block on E. 4th St., early Saturday morning, did considerable damage to the plant of the L. Rosenthal manufacturing jewelers, which is on the sixth floor. The L. Rosenthal Co. had recently installed some new machinery, which, with the stock which was also comparatively new, was damaged to the extent of about \$1,500. Fire did not reach this portion of the building, and the damage was caused by smoke and water. Mr. Rosenthal stated that the loss was well covered by insurance and that the business would not be interfered with to any great extent.

Judge Landis in the Federal Court in Chicago, last week, sentenced Harry Will-

iams to two years in the federal prison for passing bogus United States money orders on a number of merchants all over the country. Several Cleveland jewelers who were victims of Williams were subpoenaed. The trick was worked during the holidays of 1907, and the witnesses had some trouble in identifying the man, but he finally pleaded guilty and confessed that the money order blanks were stolen from a suburban office in Chicago during that Fall. The statement was made in these columns last week that Ben Sands was subpoenaed, but although Mr. Sands was one of the victims the federal authorities in some way overlooked him and he did not appear at the trial.

Cincinnati.

B. M. Davis, of the Miller Jewelry Co., is enjoying his vacation in the east.

C. S. Miller, with the Ansonia Clock Co., was in the city, last week, looking up his old friends.

Richter & Phillips report that five salesmen who are out are sending most encouraging letters to the firm.

Mr. and Mrs. Jerome Thoma, of the Thoma Bros. Co., have returned to Cincinnati after a delightful trip east.

George Gruen, of D. Gruen, Sons & Co., received a cablegram, last week, stating that Mr. and Mrs. Fred Gruen sailed for home July 8 by the steamship *Amerika*.

J. Chas. Ernst and Wallace Harwitz, with L. Gutmann & Sons, have gone east on a vacation. E. Frommeyer and C. E. Payne, of the same firm, have returned from their outing.

Miss Reilly, who for many years has been in the optical department of E. & J. Swigart, is receiving the sympathy of her many friends for the loss of her mother, who died July 5, after a long illness.

Jos. Kenkel and Ray Reinstatler, son of Chas. Reinstatler, a jeweler of Central Ave., are touring through southern Indiana in Mr. Kunkel's new automobile. They expect to put in a week very pleasantly.

The members of the local Retail Jewelers' Association will hold their annual picnic Aug. 18 at Chester Park. Anthony Schemel and Robt. Freisens are the committee making the final arrangements.

Mrs. B. L. Kruckemeyer and child, after spending several weeks in this city visiting friends, was joined by her husband, who is the leading jeweler of Evansville, Ind., and after a short trip they will return home.

Herman A. Rose, Cynthia, Ky., also one of the Kentucky representative jewelers at the Elks' reunion at Los Angeles, Cal., with his brother Henry and their wives, are spending a month touring through California and the Yellowstone Park.

The following were in the city recently replenishing their stocks: A representative of the Conn Jewelry Co., Bowling Green, O.; Wm. M. Smith, Leesburg, O.; G. H. Ashton, Middletown, O.; G. F. R. Ireland, West Union, O.; H. F. Shellow, Dayton, O., and Duncanson Bros., Lynchburg, O.

Randolph & Mittendorf, Williamson, W. Va., were very much surprised, July 5, to receive a letter from their trusted clerk, Wm. Runyon, saying: "If I am not at the

store Monday morning, don't expect me to return." This note immediately led to an investigation, when it was discovered that late Saturday night he had left town for Cincinnati; also on the same train a young lady disappeared who was supposed to visit relatives nearby in Ohio, but her relatives have not seen or heard from her. Both were seen together at Portsmouth, July 4, and both had their baggage checked to Cincinnati.

Minneapolis and St. Paul.

Chas. Wahlberg, 519 Central Ave., Minneapolis, is adding new fixtures to his store.

Edwin H. Brandes, of the Paegel Jewelry Mfg. Co., Minneapolis, is away on his vacation.

R. W. Kelner, Clark, S. Dak., was in the Twin Cities on his way home from a trip to the west, last week.

W. C. Leber, Minneapolis, announces that during July and August the store will close at one o'clock on Saturdays.

W. V. Jean & Son, 426 Central Ave., Minneapolis, have discontinued their retail business and left for California.

Axel E. Madsen, representing Rettig, Hess & Madsen, Minneapolis, is in Chicago, visiting the home office of the firm.

C. D. Calhoun, formerly watchmaker for William M. Stone, Minneapolis, is now with the R. G. Winter Jewelry Co., of the same place.

The Emporium Department Store, St. Paul, announces a special sale of jewelry, preparatory to its removal to the new building, about Aug. 1.

G. A. Anderson, Isanti, Minn., was in the Twin Cities, last week. He is about to leave for Sweden to settle up the estate of his brother, who died recently.

Among the visitors in the Twin Cities, last week, were C. Frank Halbkat, Watertown, S. Dak.; Swan Anderson, Willmar, Minn.; I. M. Radabaugh, Hastings, Minn.; A. L. Mealey, Deano, Minn.

The officers of the Minnesota Retail Jewelers' Association are all working hard preparing for the Summer convention, which will be held July 27, 28 and 29, in Minneapolis. A great many letters have been sent out calling attention to the meeting, and a number of replies have been received. All jewelers of Minnesota will be welcome to attend the meetings and to participate in the workings of the convention, whether they are members or not, and they are also extended an invitation to participate in all the entertainments, including the trip to Lake Minnetonka, which will occur July 29. Arthur E. Paegel, Minneapolis, first vice-president of the National Association, has spent a great deal of time and labor on the preparations for the meeting. This association is working strongly in favor of the passage of a fraudulent advertising act by the State Legislature. The association hopes to set the example by a State law, to be followed by a national law. A number of other matters will come before the organization which are all calculated to work for the betterment of conditions in the retail jewelry trade. It is believed that steps will be taken at this meeting which will be the starting point, at least, of reform work which will prove of general benefit to the jewelry trade.

We Are Ready

With our entire Fall Line of Diamonds, Watches, Gold Jewelry and Fine Plated Jewelry. More beautiful, more complete than ever. Our traveling salesmen have started on their routes and will visit the trade in the following order:

Mr. MORRIS BAUMAN, Kansas, Colorado and the West.

Mr. FRED BROSS, Illinois, Kentucky, Tennessee.

Mr. HARVEY HUBBARD, Texas, Oklahoma.

Mr. MARK EISEMAN, Alabama, Mississippi, Georgia.

Mr. OTIS L. ROSS, North and South Dakota, Wisconsin, Minnesota.

Mr. C. L. STANGE, Missouri, Indiana, Iowa.

The efforts of these gentlemen are augmented by a home force of competent people, who will attend to the wants of the Retail Jeweler and give your mail orders prompt and particular attention.

We solicit a continuance of your valued patronage.

L. Bauman Jewelry Co.

Century Building

St. Louis

St. Louis.

M. H. Cox, of the Hoyt Jewelry Co., left, Saturday night, for the south.

A. J. Lee, of the Lee-Kehl Mfg. Co., returned, Friday, from a business trip to Chicago.

Herman Mechlin, of William Weidlich & Bro., has gone to Moline, Ill., for a two months' visit.

G. Eckhardt will go to King's Lake, next week, for a 10 days' outing. He will take his family with him.

Henry Mueller, New York, became associated, this week, with the Erber Jewelry Mfg. Co., 610 Pine St.

J. H. Booth, Alton, Ill., is moving from his old location into his own new building few doors away on 3d St.

Julius Newman, of the Aller-Newman-Julius Jewelry Co., will leave, Monday, on a business trip through Missouri.

George Oberting, of the Blankenmeister-Oberting Jewelry Co., returned, Thursday, from a two weeks' pleasure trip to Denver, Colo.

E. J. Helmerich, of the Hess & Culbertson Jewelry Co., accompanied by his wife, spending a week on the Gasconade river, Missouri.

Aubrey C. Lindsley, of the J. Bolland Jewelry Co., with his wife and a party of friends, enjoyed an outing of three days at Ohvan, Mo.

S. J. Arnold, manager of the jewelry store of Charles S. Erber, Texarkana, Ark., is on a business and pleasure trip, and will remain two weeks.

J. O'Brien, of the Hess & Culbertson Jewelry Co., accompanied by his wife, left, Tuesday night, for Atlantic City, where they will spend 10 days.

L. Goulding, of E. H. Goulding & Sons, Alton, Ill., will leave, Aug. 1, accompanied by his wife and child, for a month's visit to Boston and New York.

V. G. Drosten, of the F. W. Drosten Jewelry Co., left, Wednesday, for a 10 days' trip to the east. Charles Spindler, of this company, is now enjoying a vacation of 10 days.

Arthur S. Feiss will leave, Sunday night, on a trip through the middle west with manufacturers' lines. He will be gone five months and will return by way of Texas.

Smith's Credit Jewelry Co. has brought an action in Justice O'Halloran's court against John C. Benseck & Son, under an assignment of wages, for \$40. The case is set for July 15.

W. Hoyt, president of the Hoyt Jewelry Co., who is visiting the Alaska-Yukon Exposition, at Seattle, has written that he will return July 17. He was accompanied on the trip by his wife.

Mrs. J. J. Burke, wife of the proprietor of the Brooks Jewelry & Optical Co., is in a dangerous condition at St. Anthony's Hospital, following an operation that was performed on her a few days ago.

Amuel H. Bauman, president of the Bauman-Massa Jewelry Co., who has been traveling with his wife in Europe for three months, sailed on the return voyage, July 13, and is expected home about July 20.

A. Goodshaw has moved his place of business from the Commercial building to

the Holland building. He has employed as an assistant J. A. Voges, formerly with the I. D. Strelitz Jewelry Co., in the Third National Bank building.

Out-of-town jewelers here, during the past week were: E. A. Short, Prescott, Ark.; Samuel Tetley, Farmington, Mo.; S. J. Arnold, Texarkana, Ark.; A. H. Krause, Greenville, Ill.; Fred Simon, Collinsville, Ill.; C. L. Goulding, Alton, Ill.

A. L. Blankenmeister, of the Blankenmeister-Oberting Jewelry Co., returned, Monday, from a pleasure trip to Georgia and Florida. He was accompanied by his wife and daughter. He left, Wednesday, for a business trip through Missouri.

Leo S. Bauman, of the Bauman-Massa Jewelry Co., left, Wednesday, for New York and Providence to make purchases for the firm. C. R. Gross, Kansas and Oklahoma representative, and S. L. Loewenstein, Missouri and Arkansas representative, will start Monday for their respective territories.

Charles Hellwig, 1209 Olive St., will go to Chicago in a few days, accompanied by his wife, for a visit to his brother, Robert Hellwig. R. F. Reeves, of the Reeves-Kemper Jewelry Co., has returned from a business trip to Cincinnati. The Reeves-Kemper Co. is making the annual invoice.

Nadich & Steffelmann, to meet the demands of increasing business, will enlarge their place of business in the Holland building by renting an adjoining room, and expect a little later to occupy two additional rooms. M. Steffelmann, of the firm, returned, Thursday, from a business trip to Kansas City and St. Joseph.

E. F. Maritz, president of the Maritz-Kober Jewelry Mfg. Co., returned from a trip to Kansas City, on which he was accompanied by his wife. Ulysses Couley, of this firm, is on a two weeks' vacation trip to Keokuk, Ia., accompanied by his wife. Miss Edna Saltzman will leave, next week, for Chicago and other places in Illinois.

The first meeting of creditors of E. T. Gotsch, formerly in business at 1402 Olive St., against whom bankruptcy proceedings are pending, will be held, Tuesday, at the office of Referee in Bankruptcy Coles. Creditors will then have an opportunity to prove their claims, appoint a trustee, examine the bankrupt and transact such other business as seems desirable.

Henry Falkenhainer, father of Miss Augusta B. Falkenhainer, cashier of the F. W. Drosten Jewelry Co., died, Wednesday night, at the family home, 3010 Lemp Ave. The funeral took place Saturday. The body was cremated. Mr. Falkenhainer was 78 year old. He was a member of Hassen-deubel Post, G. A. R., and the funeral services were conducted by the post.

The traveling representatives of William Weidlich & Bro. have started out on their Fall trips. H. L. Hollister left for Iowa, J. E. Durick for Illinois and Wisconsin, L. B. Hale for Indiana and Michigan, H. F. Hines for Kansas City and other western cities, H. D. Wachholder for Arkansas and Texas. N. W. White has come in from Kansas and will return to his field in two weeks.

Mr. and Mrs. Albert Rubin returned, Wednesday, from their bridal trip. They were away three weeks. Part of the time was spent at the National turnfest, at Cin-

ciunati. They were married June 16. Mrs. Rubin was formerly Miss Emily Friton, daughter of Julius Friton, jeweler at 121 N. 7th St. Mr. Rubin is Mr. Friton's watchmaker. The couple are at home at 2919 Miami St.

F. B. Weidlich has sold the fixtures of his jewelry store at De Hodiament to W. S. Townsend, formerly in the jewelry business in Oklahoma, who will carry on a jewelry business at Mr. Weidlich's old stand. Mr. Weidlich, after taking a vacation of a couple of weeks, will return to his old home at Bridgeport, Conn., and be again connected with the Weidlich Bros. Mfg. Co. there.

G. R. Stumpf, 610 Franklin Ave., will leave, Sunday evening, accompanied by Mrs. Stumpf, for their annual pleasure trip. This time they will visit the Canadian National Park, Vancouver, Alaska, and the Yukon Exposition at Seattle, and will stop at Yellowstone Park on their way back. En route they will visit friends at Boise City, Idaho; Denver, Idaho Falls, Colorado Springs and Portland. They will return to St. Louis about Sept. 1.

Charles Hellwig will either dispose of his store at 752 S. 4th St., or close it up and consolidate the business done there with that done at 1209 Olive St. The business on S. 4th St. was established by his uncle, Charles G. Osterhorn, in 1875, and when Mr. Osterhorn died Mr. Hellwig assumed charge of it. Three or four years ago he opened at his Olive St. location and considers it so much better than the other that he wants to confine his attention to that.

S. W. Reisen, Texas representative of the St. Louis Clock & Silverware Co., whose home is in Fort Worth, spent the week in St. Louis getting ready for his Fall campaign. He will leave, Monday, for his territory. He says that business in Texas has been "spotted," but that more uniformly good conditions are expected in the Fall. Next week E. H. Meier, Alabama and Mississippi representative, and Jesse Cummings, Nebraska, Missouri and Arkansas representative, will take to the road.

Information has been received here of an attempt made early last Sunday morning to rob the store of A. Basse, at 518 Main St., Quincy, Ill. At two o'clock in the morning a brick was hurled through the plate glass front of the store. A man who heard the crash ran to the spot and the brick thrower took to his heels without getting any of the \$2,000 worth of jewelry that had been left in the window over night. Mr. Basse had but recently altered the front of his store and put in the plate glass front that was smashed.

The wholesale jewelry business of this city has recognition to the extent of a full page in the centennial edition of the St. Louis Times. The article states that the 17 exclusively wholesale jewelry houses and two manufacturers' agents do an annual business of between \$4,500,000 and \$5,000,000, and make up one of the most important branches of trade in St. Louis. For about 60 years St. Louis has carried on an extensive wholesale jewelry business. The territory now served by the city is greater than is served by any city in the United States in the jewelry lines, except New York, it is claimed. The majority of the St. Louis

houses make their own importations, a number of the firms sending their own buyers to Europe each year. Heads of firms and traveling salesmen are quoted as saying that the prospects for next year's trade are better than they have been in the history of the business, especially in the Texas, Oklahoma, Kansas and New Mexico territory. A suggestion is made that there ought to be a large cut glass house in St. Louis.

Detroit.

E. A. Cress, Minden City, was a buyer in this market last week.

Quite a party of Detroit jewelers were in the Elk drill squad which left last week for Los Angeles, Cal.

John Kay & Co. begin the alteration and enlargement of their store in the Majestic building, this week.

E. R. Gilmore is now covering the territory formerly covered by E. C. Avery, as salesman for the C. A. Berkey Co.

The Jewelers' Board of Trade met Friday evening and discussed plans for the entertainment of visiting merchants during the time of the buyers' excursion the week of Sept. 6. No effort will be spared to make this the biggest gathering of jewelers ever held in the State.

Wright, Kay & Co. have on exhibition the \$10,000 Indianapolis Motor Speedway cup, which weighs 5,000 ounces. It is of silver and decorated with scenes representing automobile racing. This immense cup has been the center of attraction for the past week, the Glidden tour visitors having taken an especial interest in it.

The Grainger-Hannan Co. has begun proceedings to regain possession of a necklace sold to Mrs. Martha Easterly, a fashionable dressmaker, some time ago, just before the purchaser began bankruptcy proceedings. Mrs. Easterly was arrested in Chicago and brought back to Detroit on a charge of concealing goods which should have been sold for the benefit of her creditors.

The July meeting of the Detroit Nest, No. 5, Noble Order of Ku Kus, was postponed an account of the hot weather. It was to have been held on Tuesday of last week in Duffield Hall, but may be allowed to go over entirely. A big time is expected when the Ku Kus of the State gather in Duffield Hall, Tuesday evening, Sept. 6. Preparations are already being made for this event, Mayor Breitmeyer having been persuaded to lead the Detroit degree team.

Columbus, O

The local jewelers and opticians are joining the ranks of merchants closing for a half holiday during the Summer. They announced last week that they would close their places of business at noon each Friday until September.

The Columbus Savings & Trust Co. has added a most artistic street clock to its building, the new timepiece having been placed over the High St. entrance to the banking rooms. The clock is of bronze with cathedral chimies, which strikes the quarters, and it is quite an addition to the timekeepers along High St.

A. F. Limbright, formerly of Flat Rock, Mich., is now at Northville, Mich.

Milwaukee.

Several additional improvements have been made in the jewelry store of A. F. Puls, located in the Public Service building.

Louis A. Kuesel, secretary and treasurer of the Kuesel Bros. Co., has moved his family to his Summer home at Okauchee Lake, Wis.

The stock of Francis D. Bancroft, who recently went into bankruptcy at Waukesha, has been sold at public auction by the receiver to A. J. Dopp for \$1,200.

The Kuesel Bros. Co. have remodeled their display rooms and offices in the Enterprise building. New fixtures, including new show cases, wall cabinets, etc., have been installed.

Franklin Thomson, secretary of the Jewelers' Mutual Fire Insurance Co., Wisconsin, was a recent visitor at Beloit, Wis., upon business connected with the new insurance company.

Albert Stamm, formerly of Milwaukee, now of Dillon, Mont., where he is the proprietor of a jewelry store, visited his mother and other relatives here, last week. Several years have elapsed since Mr. Stamm's previous visit to Milwaukee.

Among the out-of-town jewelers in this city, last week, were: August Wiggenhorn, of A. Wiggenhorn & Son, Watertown; A. F. Mirlach, of A. F. Mirlach & Bro., Beaver Dam; J. B. Kimball, Waukesha; M. F. Peters, Mauston, and E. M. Potter, La Farge.

Present indications are that more than 300 Wisconsin jewelers will be in attendance at the coming annual convention of the Wisconsin Retail Jewelers' Association, which opens in Milwaukee, July 20. Arrangements have now been completed, and the programs are expected to be out very soon.

Archie Tegtmeyer is the organizer of the new Hatless Club of Milwaukee, membership in which is secured if the applicant is the possessor of a bald and highly polished pate. Mr. Tegtmeyer is acting upon the suggestions offered by Dr. Z. D. Clark, of Omaha, who declares that men are losing their hair because they wear their hats too much.

Reton Bros. & Co., Stevens Point, Wis., furnished the identification of a watch carried by Patrick Corrigan when he was murdered at Spokane, Wash., last March, and the evidence offered by the jewelers will probably prove the means of running down the murderer. The watch was purchased at Stevens Point and was pawned three days after the murder.

The stock and fixtures of J. G. Ferry & Co., Eau Claire, have been purchased by George F. Duncan and A. E. Osterberg, and the new firm is now being conducted under the name of the Duncan-Osterberg Co. Since the business change the new firm has purchased much new stock, and the intentions are that one of the largest and most varied stocks of cut glass in the city will be carried.

Mrs. Otto Nelson, wife of a well-known jeweler at Marinette, died, last week, as the result of burns which she received in a Fourth of July fire. The jewelry establishment caught fire from firecrackers thrown by boys and burned rapidly, causing a loss

of several thousand dollars. The family resided over the store, and Mrs. Nelson attempted to secure valuable papers which were in the building and was so badly burned that she died. In trying to rescue his wife Mr. Nelson was badly, although not seriously, burned.

The Fox River Valley Jewelers' Association recently completed one of the most successful conventions in the history of the organization held at Green Bay, last week. The following officers were re-elected: President, J. R. Chapman; vice-president, W. H. Krumer; secretary, A. W. Anderson; treasurer, H. A. Kamps. Appeto Fifteen jewelers from the Fox River valley were in attendance and enjoyed the varied entertainment offered, some of the features being a trolley ride to Bay Beach. The gathering was brought to a close by a banquet. Berlin was selected as the location for the next convention.

Omaha.

L. A. Borsheim has returned from a trip to Sulphur Springs, Ark.

Henry Copley and family have returned from a 10 days' sprint in Colorado.

C. A. Williams, of C. A. Williams & Co. is meeting with great success on a business trip through Iowa.

Fred Brodegaard & Co. supplied the silver service to the employes of the Union Pacific to be given as a wedding present their employer.

Mr. Allen, of the Bohm-Allen Jewelry Co., Denver, Colo., remained in Omaha a few days, of last week, visiting relatives and calling on the trade while en route on an eastern trip.

Wm. B. Graves, O'Neill, Nebr.; C. Meyers, Butte, Nebr.; B. F. Smith, Vallejo, Nebr.; O. C. Zinn, Hastings, Nebr., and Frank Anshutz, Shenandoah, Ia., were in the city, last week, purchasing stock.

At the last meeting of the local Jewelers' Club S. S. Callison, secretary of the National Jewelers' Association, was present. A complete outline of the programme was made and definite plans were made. Letters are still being received from manufacturers and jobbers for reservation of space.

San Diego, Cal.

F. S. Chambers, late of Atlanta, Ga., has taken a position with the Ernesting Co. as an additional watchmaker.

Joseph Jessop, head of the firm of Jessop & Sons, was married recently to Mrs. Elizabeth L. Burner. Mr. and Mrs. Jessop have gone to Seattle on their wedding trip.

Salmons & Ernesting, owners of the Pacific Chief tourmaline mines, have on exhibit at the Alaska-Yukon-Pacific Exposition a magnificent collection of tourmalines and kunzite. A suggestion has been made that the latter gem be made the national gem of the United States. Visitors to the exposition will find the gem exhibit in the California building.

C. R. Michel, Portage, Wis., has opened a branch store at Cambridge, Wis.

Indianapolis.

C. Sipe left Saturday for a European tour of several weeks.

Emil Mantel and wife have returned home after an eastern trip of three weeks.

C. J. Kiefer has gone to Lake Maxinkuckee for two weeks. Upon his return his brother, L. A. Kiefer, will go to that sort.

Mr. and Mrs. Joseph E. Reagan and children left last week for their Summer home at Ludington, Mich., where they will remain some time. Mr. Reagan is manager of the Baldwin-Miller Co.

While riding in his automobile one day last week, Ferd L. Mayer, of Charles Mayer Co., accidentally ran down Harry Cnbal, who was riding a bicycle. The lad was not seriously injured.

A tray of jewelry valued at about \$25 was stolen from the store of Charles W. Ross, Dover, one day last week. A small amount of cash was also taken from the safe, which was forced open.

U. Bonifield, Warren; William Beatty, West Lebanon; F. L. McKee, Cloverdale; W. Hudson, Fortville, and J. A. Miessen, Decro, were among the retail jewelers in the city last week, buying stock.

Julius C. Walk & Son, L. S. Ayres & Co., Charles Mayer & Co., Horace A. Comstock, Cohen & Sons and Carl L. Rost have donated prizes for the baby show to be held the Summer Mission for Sick Children. Local jewelers, during the last week, received shipments of a novelty clock made along the lines of "Dickory, dickory, dock, the mouse ran up the clock." When the clock strikes one, the white mouse, which moves as the minute hand, falls and begins to climb over again.

A clock owned by Mrs. Hannah Peterson, at New Ross, has attracted much attention. It was made by Eli Terry & Sons, Plymouth, Conn., and has wooden wheels. It has been in the family of which Mrs. Peterson is a member since July 4, 1826, and the cabinet is still in good condition.

M. and L. Amdur will open a pawnshop and jewelry store at 242 Massachusetts street, this week, under the name of the Buffalo Loan Co., occupying the quarters recently vacated by the Popular Jewelry Co. They came to Indianapolis from Buffalo, N. Y., where they were in business for some time.

After several weeks' consideration of the matter J. P. Mullally has decided not to be a candidate for the mayoralty nomination. He was urged to make the race by a number of business men, but has decided that he cannot spare the time from his business to make the race or to serve in the office should he be elected.

At the wedding of R. O. Gable and Miss Gertrude Dustman, Hartford City, last week, the wedding ring was of gold panned by Gable in Alaska, some time ago. Two years ago, as a director of the Bijou Gold Mining Co., he went to Alaska and while there panned the gold, which he later had polished by a jeweler.

The city council, in special session, has elected Wilbur S. Smith a member of that body to complete the unexpired term caused by the resignation of Councilman Wendell Bangs. Mr. Smith is employed by Gray, Ribben & Gray, and has never been active

in politics. He was elected unanimously and will serve until Jan. 1.

The silver trophy to be offered by Wheeler & Schebler this Summer in connection with the automobile races to be held on the Indianapolis Motor Speedway, has arrived in the city and is on display in the show window in the store of L. S. Ayres & Co. It was made by Tiffany & Co. and was described in THE JEWELERS' CIRCULAR—WEEKLY, some time ago.

The marriage of Charles W. Lauer, Jr., to Miss Margaret Merwin, New Haven, Conn., took place Wednesday evening, at the home of the bride's sister, 2160 N. Illinois St., in this city. The ceremony was performed by the Rev. G. B. McKee, pastor of the North Park Christian Church. Mr. Lauer is the son of Charles W. Lauer, of Charles W. Lauer & Co., wholesale jeweler, and is a traveling salesman for that company.

San Francisco.

Harry Dana, of Shreve & Co., is away on a vacation trip.

A. Kohn, New York, is in San Francisco, visiting the trade.

R. Friedberger, Stockton, and G. C. Wilkins, Red Bluff, Cal., were trade visitors here, last week.

J. O. Bellis, a silversmith of 328 Post St., has divided his store down the center, placing his store on one side and his factory on the other.

The Macey Jewelry Co. has moved from its old location on Fillmore St. to a new store at 904 Market St. in the newly reconstructed retail district.

J. J. McEvoy, Kennett, Cal., was in this city last week. He has left his family at Sweetbriar for the Summer. He is preparing to remove his business from Kennett.

Charles Gilbert, 731 Market St., has filed a petition in bankruptcy. He places his liabilities at \$3,307 and his assets at \$3,872. He reports that on Jan. 5 of this year he transferred all his stock and pledges to Benjamin Michaels on condition that the latter should pay all the creditors.

Pacific Northwest.

F. G. Will, Albany, Ore., is moving his store into the new Will & Stark building, in that city.

J. H. Haas, formerly in business in Salem, Ore., died in that city, last week. He had been in the jewelry trade at Salem for 45 years.

R. Mansfield, 102 S. 6th St., Grant's Pass, Ore., who has recently been afflicted with the partial loss of his eyesight, is preparing to close out his business at that place.

The store of H. A. Barnhart, Monroe, Wash., has been purchased by C. C. Loop, formerly of Everett, in the same State. The new owner will add an optical department.

During the temporary absence of the night-watchman, a thief recently entered the store of the Malloy Mercantile Co., Scappoose, Ore., and robbed the jewelry department of about \$100 worth of stock.

E. H. VanGilder, charged with embezzling \$2,000 worth of jewelry from I.

Lachman & Co., 1210 Second Ave., Seattle, his former employers, has been arrested at Denver, Colo. Mr. VanGilder disappeared, May 7, and was traced through the efforts of the Jewelers' Protective Association of New York.

G. T. Vandecar, who has been with the John G. Barr Co., Salem, Ore., for the past two years, has resigned his position with that house and will travel for several eastern concerns. He will cover the States of Idaho, Washington, Oregon and California and will make his Coast headquarters at Los Angeles, Cal. Mr. Vandecar is now in the east, visiting the factories he will represent. His wife will spend the summer at Coos Bay, Ore., and will later remove to Los Angeles.

E. B. Wheat, Enterprise, Ore., who has been closing out his stock, took the remainder of it to the neighboring town of Joseph, last week, and endeavored to close it out at auction. The city council of the town held a special afternoon session and established a license fee of \$10 per day to shut out the auction. This was paid, but a mob, said to include business men of Joseph, broke up the sale and compelled Mr. Wheat to return to his home town. He claims to have been unable to obtain police protection.

Pacific Coast Notes.

E. Sutter, Pomona, Cal., who has been in the east for some time, has returned to his home.

Max Meyerowitz, of Meyerowitz Bros., New York, is now making a trip through the Pacific Coast States.

Johnson Bros., Riverside, Cal., have dissolved partnership. W. E. Johnson will continue the business, Henry Johnson leaving the firm.

C. L. Mathews, the jeweler of Colton, Cal., who has been in the present location for 15 years, will soon move to a larger store a short distance away.

Mr. Ferguson, owner of the John T. Reed opal mines near Barstow, Cal., reports that a number of men formerly employed in the opal mines of Mexico had reached the mines and will be put to work during the coming week.

Recent Reappraisements.

Recent reappraisements made the Board of General Appraisers include the following:

SILVERWARE—From Ernest Gideon Bek, Pforzheim, exported June 4, 1909, entered at New York; findings of Hay, G. A.: Cigarette cases, 841, entered at 8.50, advanced to 11 marks each; do., entered at 12.40, advanced to 17 marks each; do., entered at 12.40, advanced to 17 marks each; do., entered at 11, advanced to 15 marks each; German silver, do., entered at 2.40, advanced to 3.20 marks each; do., entered at 2.70, advanced to 3.60 marks each; do., entered at 2.70, advanced to 3.60 marks each; do., entered at 1.70, advanced to 2.25 marks each; gun metal, do., entered at 1.70, advanced to 1.80 marks each; do., entered at 1.70, advanced to 1.80 marks each; do., entered at 2.85, advanced to 3.80 marks each; do., entered at 3, advanced to 4 marks each; gun metal cigar cutters, entered at 1 mark each, no advance; silver, do., entered at 1.10, advanced to 1.50 marks each. And similar goods.

The Paul-Gale-Greenwood Co., Norfolk, Va., has purchased the valuable property occupied by its new eight-story building on Granby St. for \$90,000.

Kansas City.

Sam Bloom, with the Meyer Jewelry Co., started on a trip through Kansas, Monday, July 12.

Frank Hardaway, with Nevin Bros., dealers in jewelers' supplies, is enjoying a vacation in Kansas.

Ed. Hickman, who has been ill with typhoid fever at Excelsior Springs for several weeks, has had a relapse.

Leslie White and J. W. Brown, representing D. B. Ward & Co., have replenished their trunks and are again on the road.

Mr. and Mrs. J. W. Schmandt, Holden, Mo., spent a couple of days in town, last week. While here Mr. Schmandt purchased an automobile.

E. B. Wiser, of the Porter & Wiser Jewelry Co., is enjoying the baths and breezes of the Atlantic coast at Long Island. His vacation will cover several weeks.

C. B. Norton, president of the C. B. Norton Jewelry Co., with his wife and daughter, left Saturday evening for a month's fishing trip in northern Wisconsin.

Mrs. Fred Patrick, with the Meyer Jewelry Co., left Des Moines, Ia., Monday night, for this city. Owing to floods she was compelled to return, and did not arrive here until Wednesday night.

Mr. Johnson, representing the Jewelers Board of Trade, New York, has been in this city for several days. He is making an extended tour of the Trans-Mississippi territory in the interest of the board.

The following jewelers were in this city during the week: Charles Weber, Lexington, Mo.; D. B. Williams, Emporia, Kans.; Harry E. Richardson, Caldwell, Kans.; Roy Pierce, Odebolt, Ia.; Mr. Morrison, of Morrison Bros., Olathe, Kans.

A. E. Pittinger, manager of the Kansas City Horological and Optical School, says that the school last year enrolled 51 students. The enrollment to date this year is 49. Finding the present quarters inadequate the three-story building adjoining the one now occupied on the west has been leased. The new quarters will give 9,000 feet of floor space and will be occupied in September. P. O. Minish, instructor of engraving, has been succeeded by Henry Bawsher, and Dr. C. H. Nudles, instructor in optics, has resigned on account of ill health. His successor has not yet been named.

Toledo.

L. M. McKinstry, 614½ Cherry St., has just added a new sign to his store.

The Merrill-Broer Co. has just had the large clock in front of its storeroom overhauled and cleaned.

Consistent rumors are afloat that the building partially occupied by Saelzer & Armstrong, at the corner of Adams and Superior Sts., is to be torn down to make room for a much larger building, which is to be occupied by a large clothing house.

J. George Kapp has had his share of burglars this week. Wednesday evening, about four o'clock, while the family was sitting on the front porch, sneak thieves entered the house and looted his residence of all jewelry to be found readily. The next night Watchman John Sheehy discov-

ered a man in Mr. Kapp's store, 415 Summit St., and immediately notified the police, who found the man in the repair shop on the second floor. When taken to the station the prisoner gave his name as Fred Foster, alias Frank Russell, age 28. When searched a number of small jewelry articles were found, and also several pawn tickets. While the officers were examining the pawn tickets Foster snatched them away, and before anyone could interfere tore them into bits. They, however, have been patched together.

Canada Notes.

Frank T. Parker, Toronto, has assigned to R. Cooper.

J. W. & W. Easton, Toronto, Ont., have given up business.

The death of L. C. Mitchell, Crystal City, Man., is announced.

R. M. Haddad, Winnipeg, Man., has assigned to C. H. Newton.

H. A. Burns has purchased the business of Henri Massonat, Vernon, B. C.

The firm of Ferguson & Page, St. John, N. B., has been dissolved, H. C. Page continuing the business.

H. D. Cameron has purchased the stock of W. A. Fenwick, Shelburne, Ont., and will continue the business.

H. Pollack, formerly of Killaloe, Ont., has purchased the fixtures of the late Solomon Fogler, 98 Queen St. W., Toronto, and will continue the business.

E. I. Scott, Summerland, B. C., who was formerly in business at Sault Ste. Marie, Ont., has disposed of his store at Summerland and is returning to Sault Ste. Marie.

J. F. Logan, with the Goldsmiths' Stock Co., Toronto, Ont., is spending his vacation at Old Orchard Beach. R. J. Abbs, with the same firm, is summering at Lake Rosseau, Muskoka.

Out-of-town jewelers calling upon the Toronto, Ont., trade, last week, included T. C. W. Watson, Newmarket; Joseph Park, Bradford; J. Hollingshead, Tottenham, and N. McLeod, Carrington, all Ontario.

A. Nettleton, Collingwood, Ont., and J. E. Nettleton, Pentanguishene, Ont., accompanied by their father, John Nettleton, and another brother, have returned home after spending two months in England and the European Continent.

The Imperial Jewelry Co., Ltd., has been incorporated under the laws of Ontario with \$40,000 capital to manufacture and deal in jewelry at Toronto. The provisional directors are John T. Loftus, James H. Hoffman and John A. Milne.

Savannah, Ga.

John Thomas, of J. & C. N. Thomas, is building a house on 34th St.

Thus & Co. and R. Van Kenren & Co. made donations to the picnic committee of the Order of American Firemen, Savannah Council No. 1.

J. & C. N. Thomas will, on Oct. 1, remove from Whitaker and State Sts. to 22 Broughton St., west. The firm has just had new fixtures and a large safe installed in the present location, but owing to increased

business have been compelled to secure larger store.

New Orleans, La.

Mr. Armstrong, of the Loewengardt Armstrong Co., is quite ill.

A card has been received by local friends from L. E. Waterman, of the fountain pen house, who is enjoying the sights of Dresden.

The International Silver Co. had five representatives of their different factories in town at the same time, recently, and the jewelers were somewhat flattered at the attention shown the New Orleans trade.

Wm. Frantz's son, Louis T. Frantz, left here, last week, by steamer for New York. Young Frantz was one of two men who won the scholarships in the technology department of Tulane University, and he goes direct to the General Electric Works at Schenectady, N. Y., for a two-year course.

Recently Judge Fisher opened the Fifth City Criminal Court in its new quarters. These had been handsomely fitted out in the public works department, but a job was overlooked. Messrs. T. Hausmann & Sons, Ltd., noticing the lack, presented the tribunal with a fine wall clock at the first sitting in the cosy room.

Vincent Esposito, a young Royal Society jeweler, was held for arson in connection with a fire at his home, uptown. The family was out at the time and the accusation is based on the fact that a bowl of turpentine was found on the floor. Esposito says the turpentine was left from a furniture cleaning company, points to the utter lack of motive and to his own prosperity and reputation and laughs at the police suspicions.

In another fortnight Gustave Kreihs will celebrate his 32d anniversary of unblemished service in the house of Wm. Frantz & Co. Few of his old comrades are near him to-day. Mr. Kreihs was born in Lutzerath, Rhein-Pfalz, Germany, Nov. 9, 1876. When New Orleans had few jeweler's stores Mr. Kreihs learned the watchmaking trade at the house of Fred Zimmermann, when a young boy. In 1899 he went to Switzerland and worked hard in the largest watch factories. Returning to the home of his adoption he opened for himself a business which he only remained at for a couple of years when he finally accepted his present position, and is a trustworthy and valuable employe of the firm.

Among the jewelers who have been busy for the past two months manufacturing medals and trophies for commemorative occasions and festivals were: Coleman E. Adler, of Hausmann & Sons, Wm. Frantz & Co., Jacob Young and J. J. Weinfurter. Frantz & Co. had four dozen gold, silver and bronze medals for the Pelican Veterans meet, J. J. Weinfurter made the medals for the First Troop, Louisiana Cavalry, prize 7 Hausmann & Sons the Daily States public school trophy in the form of a plaque, the center mounted in a hand chased shield enameled, and surrounded by eight silver shields. The Hausmanns also have just finished the silver plaque donated by the New Orleans Railroad Co. to the successful indoor basketball team of the public schools.

Providence.

Harvey J. Flint has been granted a patent for a brooch.

John Kelso, this city, was one of last week's visitors to Boston.

William H. Draper was registered at the National Hotel, Block Island, last week.

Samuel Berlin, New York, was in the city, last week, calling upon his customers.

Albert Walker has commenced the erection of a large dwelling house on Ayrault St.

Mr. and Mrs. William A. Copeland are ending a few days with friends at River View.

Paul Shocker and family are occupying their Summer cottage at Longmeadow for the season.

Frank T. Pearce is contemplating spending his vacation, this Summer, among the lakes of Maine.

Harry B. Kennion was through the middle west, the past week, with Parks Bros. Rogers' line.

Gustave Saacke and family have rented the South Twin cottage at Prudence Park for the season.

Ired C. Somers and family, this city, have taken a cottage at Matunuck beach for the season.

Mr. and Mrs. Ethan McIntosh and family are spending their fourth season at Warwick Downs.

J. K. Roumain, Baton Rouge, La., is ending his fifth Summer as a sojourner Narragansett Pier.

Harry B. Little and family are at Warwick Downs, Narragansett Bay, at their camp for the Summer.

Col. Samuel M. Nicholson entertained a party of friends from this city on his yacht *Sandoga* over July 4.

Jacob Hammelstein, Chicago, was called upon by the manufacturers of this city, the first part of the week.

George A. Schuetz has been on a short business trip through the middle states for New & Westcott, this city.

Mr. and Mrs. O. C. Deveraux and family are occupying Windmill cottage at Prudence Park, for the Summer.

C. T. Eden and family have taken up their residence in this city, removing here the past week from Attleboro.

The Central Loan Co., J. Bartman, proprietor, has opened its store at 675 Westmaster St., corner of Stewart St.

Charles E. Westcott, of the Snow & Westcott Co., is at Cotuit, Mass., where he is recuperating for a couple of months.

Mr. and Mrs. M. F. Williams have just returned from a long tour to Sharon Springs, N. Y., in their new touring car.

A mortgage of \$4,000 on real estate belonging to Joseph H. Fanning has been discharged the past week by Alfred K. Potter.

Mr. and Mrs. Henry G. Thresher and family are away for a two weeks' motoring through Vermont and New Hampshire.

Clark Streicher has been granted a permit by the inspector of buildings to make extensive alterations to his shop at 65 Wilbur Ave.

William A. Schofield has been elected one of the directors of the Buttonwoods

Hall Association, with Edward B. Hough as president.

Oscar E. Place & Sons Co. will close their shop, the first week in August, for an overhauling of machinery and taking account of stock.

Henry P. Reeney has started in the manufacturing jewelry business at 119 Pine St., where he will make a full line of plated rings and novelties.

The factory of the Theodore W. Foster & Bro. Co. has been closed, the past week, for the annual overhauling, cleaning up and taking of stock.

Mr. and Mrs. George F. Williams and family arrived, on Friday, at Prudence Park to spend the Summer at the South-Right-and-Left cottage.

Mr. and Mrs. William H. Manchester are spending a two weeks' vacation touring in their automobile through New Hampshire and Vermont.

Mr. and Mrs. William H. Manchester are spending a two weeks' vacation touring in their automobile through New Hampshire and Vermont.

The Pearl Glass Co., Calmar, Pa., has brought suit against David Miller, this city, to recover \$1,000. The amount due on book account is \$675.58.

G. H. Goodheart, New York, who for the past year has managed a retail jewelry store at Narragansett Pier, has opened a branch store at Watch Hill.

All of the jewelry factories located in the Fitzgerald building on Eddy St. are closed down, the past week, on account of the annual inspection of boilers.

T. Leslie Tranter, for several years superintendent of the Shepard Co.'s store, has resigned his position and gone to California on account of his health.

The Keer Watch & Clock Co., L. A. Williams, manager, 6 Arcade, has joined the early closing movement and shuts the store at 1 o'clock Friday afternoons.

The monthly meeting of the Ostby & Barton Co. Employees' Mutual Benefit Association will be held at the rooms of the association on Friday evening next.

Horace A. Carpenter has gone to Camden, Me., with his family, where he will remain for a month or more. His family will remain the remainder of the season.

The monthly meeting of the directors of the Manufacturing Jewelers' Board of Trade will be held at the rooms of the association in the Wilcox building, Friday.

All the shops in the Dyer St. Land Co. building on Dyer, Orange and Peck Sts., have been closed, the past week, for the annual inspection of boilers and general repairs.

Edward N. Cook, president and treasurer of the Edward N. Cook Plate Co., has the sympathy of the trade in the recent death of his wife last Sunday night after a long illness.

James P. Sullivan, with the Ostby & Barton Co., who is a member of the Common Council, was a member of the municipal committee on the celebration of the Fourth of July in this city.

Joseph P. Cory has commenced the erection of two one-story brick store buildings on Aborn and Fountain Sts., a one-story store building on Hayden St., and a similar building on Fountain St.

Ellis MacAllister has disposed of his interest in the firm of Tuck & MacAllister. The business will be continued by Alaric R. Tuck and Eugene Blakeley, under the old name, at 131 Washington St.

Engelhardt C. Ostby, president of the Ostby & Barton Co., and Arthur O. Ostby, superintendent of the company's factory, are expected home, in a few days, from an extended trip through Europe.

Albert Wylie was fined \$15 and costs by Judge Wright in the Sixth District Court, Tuesday morning, for the larceny of a lot of stock valued at \$5 from the factory of the Roger Williams Silver Co.

Charles H. Ballou & Co. are getting out a new line of chains, scarf pins and brooches in rolled plate. Their chain line, including lorgnettes, neck chains and lavalieres, is already on the market.

The Wolcott Mfg. Co. and the John T. Mauran Mfg. Co. are having a general clean-up of their offices and factories. The ceilings are being whitened, walls painted and benches and floors scrubbed.

Fourteen silver loving cups of handsome design are to be presented to the players and managers of the champions of the Inter-City Baseball League. They will be furnished by a Pawtucket concern.

Sanford L. Hamilton, manager of the Attleboro branch of C. S. Bush & Co., is at the Attleboro Sanitarium, where he has been undergoing an operation. He is in a precarious condition, and his recovery is doubtful.

E. P. Platt, of the Inlaid Co., this city, has arranged to enjoy his Summer vacation by an automobile trip with his brother, F. B. Platt, the New York representative of the W. H. Saart, Co., Attleboro, to Sugar Hill, N. H.

Mrs. Mary J. Donle, 77 years of age, died at Somerville, Mass., last week. She was the widow of Abner J. Donle, one of the best known jewelers' toolmakers of his day, and was the mother of Charles B. Donle, this city.

Capt. Thomas W. Manchester, for many years one of the best known traveling salesmen in the trade, and later a manufacturing jeweler, returned, the first of the week, from Guam, where he has been for a couple of years.

George H. Mowry, of Harris & Mowry, Woonsocket, accompanied by his wife and daughter, left, the first of the week, for a month's stay at Mr. Mowry's cottage at Provincetown, Mass. The party made the journey by automobile.

By the shutting down of the power in the Theodore W. Foster & Bro. Co. building the past week the following manufacturing jewelry concerns were closed: T. Quayle & Co., Fessenden & Co., Fisher & Prenter and P. Wunderle & Co.

A horse ran away at Arctic Centre, Thursday afternoon, and crashed through two panes of French plate glass in the front of Henry Denomme's store before he was secured. The damage is about \$250, with no insurance on the windows.

Among the foreign importations received during the past week through the Providence Custom House were the following: From Bremen, two packages of imitation precious stones and one of jewelry; from Hamburg, three packages of

manufactures of glass; from Havre, one package of imitation precious stones.

An application has been granted by the inspector of buildings to remodel the building at 35 N. Main St. for use as a workshop by the Rhode Island School of Design. The changes will be the removing of partitions and replacing of floors.

The case of the Tilden-Thurber Co. against S. B. Mickiewicz, on book account, was heard in the civil session of the Sixth District Court, before Judge Rueckert, and decision was given for the plaintiff for \$53.30 and costs by submission of the defendant.

At the recent annual encampment of the United States Spanish War Veterans of Rhode Island, Edgar R. Barker was elected senior vice-department commander, and George A. Forsyth and Harry Wolcott were elected members of the council of administration.

The property of Mark Streicher, the M. S. Comb Co. (Mark Streicher, proprietor), and the H. Rosenhirsch Co., were attached, the past week, by Henry Shaw for \$1,200 in a case of assumpsit. The property attached consists of real estate on Broad and Whitmarsh Sts., this city.

John Shepard, Jr., this city, won the cup offered by the president of the Gold Club at Great Barrington, Mass., last week, for the best net score of the day over the links of the club. Mr. Shepard is at Great Barrington, and offered a cup for the best gross score in the same tournament.

Members of the Shartenberg & Robinson Co. Employees' Mutual Relief Association, Pawtucket, went to Island Park, Friday afternoon, for their annual outing. The steamer *Pontiac* was chartered for the occasion, and the sail down the bay, with dinner and field sports followed by a moonlight sail home, made a day of uninterrupted enjoyment.

Ernest B. Rhodes, with the Warwick Sterling Co., this city, and Miss May Collinson were married at the home of the bride's parents at Greyston, Saturday evening, Rev. Alva E. Carpenter, pastor of St. Peter's Episcopal church, officiating at the ceremony. Among the wedding gifts were sterling silver spoons from Mr. Rhodes' associates.

Notwithstanding the lateness of the season, several jewelry buyers were in this city, the past week, calling upon the manufacturers. Among those noted were: Edward Bastheim, of Bastheim, Adams & Abel Co., a new jobbing concern of Los Angeles, Cal.; Louis Block and Oscar Kind, of S. Kind & Son, Philadelphia, Pa., and S. H. Cohen, Buffalo, N. Y.

The Cherry & Webb firm entertained its employes, Friday afternoon, by a trip down the bay, and a most enjoyable time was the result. There were about 175 persons in the party, and the outing included a sail down to Newport, on the yacht *Sagamore*, by way of Seaconnet river, the famous 10-mile drive and bathing at Newport and sail home in the evening by moonlight, with refreshments and dancing on the steamboat.

Mayor Henry Fletcher, of the Fletcher-Burrows Co., accompanied by his wife, left here, Thursday night, for New York, on their way through New York State to

Canada. They will proceed from New York up the Hudson to Albany, and thence to Buffalo and Niagara Falls. They expect to visit Toronto and Montreal, and up the St. Lawrence river and back by way of the White Mountains. The whole trip will take about two weeks.

Col. Emory J. San Souci and Henry C. Luther were members of the official party on the annual visitation of the State Board of Soldiers' Relief to the Soldiers' Home at Bristol, on Thursday. They were entertained by Capt. Benjamin Hall, the commandant, who was formerly a manufacturing jeweler of this city. During the afternoon Col. San Souci stepped on a stone while walking about the premises and in falling sustained a fracture of the right leg just above the ankle.

Harry B. Fletcher, son of Mayor Fletcher, of the Fletcher-Burrows Co., manufacturing jewelers, was nearly drowned Sunday morning, when a boat in which he was rowing with two friends capsized off the Edgewood Yacht Club, throwing its three occupants into the rough sea. Harvey J. Flint, a manufacturing jeweler and a prominent yachtsman, made a flying dive from his boat, which was fortunately near at hand, and succeeded in rescuing two of the party, while the third swam to a boat and was taken in.

Judge Tannor handed down a final decree in the Superior Court, last week, in the case of Stevens & Co. against Ned C. Stiles, forever enjoining and restraining the defendant from using names and addresses of complainant's customers obtained while in the employment of the said complainant. This is a case that has attracted considerable interest. The defendant was in the employment of Stevens & Co., opticians, and while there was in the habit of making a note of the names and addresses of customers that came to the complainant's store on Mathewson St. After a couple of years the defendant left the complainant's employ and started in the same line of business for himself and sent his business circulars to the persons whose names and addresses he secured while in the complainant's employ. A preliminary injunction against using the names thus secured was granted some time ago, and the decree just given makes that injunction permanent.

An opinion was handed down by Judge Johnson of the Supreme Court, on Thursday, in the case of Thomas F. Baynes, *pro amico* against Henry A. Billings and others, in which the court says the case should have gone to the jury on the questions of the plaintiff's due care and of the defendant's negligence. The direction of a verdict for the defendant was an error and the plaintiff's exception thereto sustained and the case remitted to the Superior Court for a new trial. The plaintiff was employed as an errand boy by Warren & Williams, manufacturing jewelers, in the Billings block, owned by the defendant. On July 11, 1904, the boy while on the fourth floor of the building, was injured in the elevator and suit was brought against the owner of the building for damages. On Nov. 5, 1908, after a trial the court directed the jury to return a verdict for the defendant. The plaintiff took exceptions and a new trial has now been granted.

A motion for a new trial of the case of the State against John Nelson, charged with receiving stolen property, knowing the same to have been stolen, was heard by Judge Brown in the Superior Court on Saturday mainly on affidavits. Nelson was tried by a jury in the Superior Court a short time ago for receiving gold and gold plate scrap alleged to have been stolen from the jewelry manufactory of the Fountneau & Cool Co., of Attleboro, and he was found guilty. The petition for a new trial is based on the claim that new evidence has been discovered in his favor. One of the affidavits was that of Cornelius H. Farrell, of New York, in which a talk with the State's principal witness, William Wallace, who is alleged to have stolen the gold and sold it to Nelson was recounted and in which it is alleged that the arrest of Wallace was prearranged to incriminate Nelson. Affidavits denying this were made by a detective and others. Judge Brown reserved decision.

The executive committee of the Jewelry Workers' International Union are to meet in this city, this week, for the transaction of the regular business of the association and also for the consideration of any other matters that may come before it. Considerable attention will be devoted by the executive board to the standing and condition of the Jewelry Workers' Union of this city and the situation in which the Providence local finds itself. Nothing has been heard recently from this local, which at one time claimed to have a membership of between 800 and 900. The fact that there are upwards of 10,000 jewelry workers employed in this city leads labor leaders to believe that a strong and influential union should be maintained here. This is said to be one of the principal reasons why Providence was chosen as the meeting place of the board, and it is understood that an effort will be made during the stay of the International officers in this city to restore the Providence local, and ways and means will probably be discussed with that purpose in view. The members of the International board who will be present at the meetings here will be International President William C. Wulff, Chicago; First Vice-President G. W. Batchelder, Collingwood, N. J.; Second Vice-President H. Schoellhamer, Newark, N. J.; Third Vice-President George Ehert, Denver, Colo.; Fourth Vice-President George Brady, this city; International Treasurer F. Berstak, Buffalo, N. Y., and William Schade, Philadelphia, Pa.

"How Can a Jeweler Live Long and Be Happy" will be the feature address of the annual meeting of the Texas Retail Jewelers' Association, which will be held in Dallas, July 20-21. President Arthur A. Everts is busy with preparations for the convention. He is making arrangements for an elaborate banquet for the members and their ladies and afterward theater party in one of the open air or Summer theaters. An auto ride will follow the banquet. Mr. Everts intends making a feature of the matter of stamping all solid gold articles with a mark by which the exact quality of the metal may be shown. Matters pertaining to the early closing of all jewelry shops during the Summer will also be considered.

BUSINESS OPPORTUNITIES.— Continued.

FOR SALE, well established jewelry store located on the leading business street; cause for selling, death of the owner. For particulars address 10 Sullivan Ave., Port Jervis, N. Y.

10 TO 20 PER CENT. saved by sending your surplus watches, diamonds and jewelry to me; highest prices paid on receipt of goods; bank references. Emil Noel, 550 E. 46th Place, Chicago, Ill.

RAISE MONEY quick, by sending your diamonds and watches to me; liberal cash prices remitted on receipt of goods; business confidential; National Bank references. H. Schwartz, 903 Heyworth Bldg., Chicago, Ill.

RARE OPPORTUNITY, a well established jewelry business in a manufacturing town of 10,000, best location in city, situated next to post office; low rent; repair work over \$100 per month; sales \$300 to \$700 per month, with increasing business; will invoice about \$1,800; can reduce if necessary; reason for selling, other business interests elsewhere; a snap for someone; will not sell after Aug. 1; call or write. "Jeweler," 232 S. Main St., Monmouth, Ill.

A GOOD paying manufacturing jewelry shop, employing at the present time 12 people; will sell at a sacrifice, everything goes, tools, dies, models and good will; the shop is situated in one of the largest cities of the middle west, doing practically all of the city work and have good trade from the surrounding towns; reason for selling, proprietor has interests out of the city. Address "N., 831," care Jewelers' Circular-Weekly.

DO YOU WISH TO RETIRE? Are you looking to raise ready cash quick? We are ready to purchase your entire or surplus stock of diamonds and jewelry, no matter how large it may be; we also advance liberal cash on same; highest prices paid for entire stocks; communicate with us before consulting others and get quick returns; communications strictly confidential. Address Brooklyn Purchasing Syndicate, 608 Broadway, Brooklyn, N. Y., Telephone, 2328, Williamsburg.

Exchange.

WILL EXCHANGE for about a 1½ flawless well cut stone the best life insurance obtainable; to a dealer counterplating some life insurance it will be a mutual exchange. "J. G.," Room 510, 128 Broadway, New York.

For Sale.

FOR SALE, 200 dozen Crown watch crystals, in cabinet; the sizes are all standard; will sell for the best offer; good assortment. Address Edward Lindsay, 15 W. Main St., Amsterdam, N. Y.

FOR SALE, a genuine Chicago Watch Tool Co. modern outdoor electric flasher watch sign, complete with written guarantee, at a bargain. Address "A. G., 510," care Jewelers' Circular-Weekly.

PATENT RIGHTS for several recently patented articles, collar and cuff buttons, for sale at double of cost; inventor wants to dispose on account of failing health. Address "S., 945," care Jewelers' Circular-Weekly.

FINE English regulator, 9 ft. high, carved case with base, mercurial pendulum, jeweled pallets, all pivots capped; price, \$100; photograph sent on request. Address W. Zimmerman, 81 Montgomery St., Poughkeepsie, N. Y.

FOR SALE, one six-volt Hanson & Van Winkle dynamo, one power draw bench, two double head polishing lathes with zinc lined tray-bench and dust collector complete; also one American Gas Furnace Co.'s positive pressure blower No. 1; all little used and practically good as new; price reasonable. Taylor & Co., Inc., 47 Chestnut St., Newark, N. J.

Miscellaneous.

PROPOSALS FOR EYEGLASSES FOR INDIAN SERVICE.—Department of the Interior, Office of Indian Affairs, Washington, D. C., June 28, 1909. SEALED PROPOSALS plainly marked on the outside of the envelope "Proposals for eyeglasses for the Indian Service," and addressed to the Commissioner of Indian Affairs, Washington, D. C., will be received at the Indian Office until two o'clock p. m., of July 28, 1909, for furnishing and delivering at Phoenix, Arizona, as required during the fiscal year ending June 30, 1910, such eyeglasses as may be prescribed for Indians during that period. Bidders should give a definite price per pair for spherical and cylindrical lenses and the two in combination, fitted ready to frame, and should quote prices per pair for steel, aluminum, German silver and gold filled frames. All lenses and frames will be subject to rigid inspection and test by a competent person. The right is reserved to reject any or all bids or any part of any bid, if deemed for the best interest of the Service. Each bid must be accompanied by a certified check or draft on some United States depository or solvent national bank, made payable to the order of the Commissioner of Indian Affairs, for at least 5 per cent. of the proposal. Each check or draft shall be forfeited to the United States in case a bidder receiving an award shall fail to execute promptly a satisfactory contract in accordance with his bid; otherwise, to be returned to the bidder. For further information apply to F. E. LEUPP, Commissioner.

Lost.

LOST, a lady's open face Tiffany Watch, No. 117465, monogram "A. A. G." on back, inscription inside "A. A. G. from O. S. G., June 5, 1858-1908;" liberal reward for information leading to recovery. Address "A., 947," care Jewelers' Circular-Weekly.

To Let.

STORE room for rent; corner brick store, room size 20 x 45 feet, splendid location for watch repairing and jewelry store in booming Lorain; a hustler with a little capital is sure of making a success; reasonable rent. Inquire of Klein & Drechsler, 1728 Penfield Ave., Lorain, O.

UNITED STATES PATENTS.

[NOTE.—Owing to a delay in the printing of the official report of the Patent Office the list of American patents in the jewelry trade, issued July 6, had to be omitted this week. They will appear, together with those of July 13, in the next issue.—EDITOR.]

BRITISH PATENTS.

ABRIDGMENTS OF SPECIFICATIONS, 1908, FROM THE Illustrated Official Journal.)

ISSUE OF JUNE 23, 1909.

4,367. BRACELETS. W. CLARK, London—(J. Emrich, Pforzheim, Baden, Germany.) Feb. 26.

In a bracelet fastening of the type in which two or more links can be folded together or pushed over one another and are held by spring pressure to fasten the bracelet, the links when folded lie in the same plane and are held by the mutual spring pressure of the links. The links a, b, c, Fig. 2,

are pivoted together, the middle link b being a spring bow. When the links are folded, Fig. 3, the spring bow b engages with grooves d on the outside of the link a, and with grooves f on the inside of link c, Fig. 4. The links a, c have projections g, h in the form of rings to allow the fastening to be released. Two links only may be used, and the links may be pushed into one another, as shown in Fig. 6, instead of being folded.

4,616. TIME-RECORDERS FOR WORKMEN, ETC. A. R. JENNINGS, London, Feb. 29.

Time-recorders for workmen, etc., are provided with means for printing a special symbol during irregular times or during special times, the means being either controlled or directly actuated by the clock. Fig. 1 shows an apparatus in which the times are printed on the paper E, by a hammer D, an ink ribbon A, and time-wheels C, as in the Bundy recorder. By the side of the time-wheels and on the same spindle is mounted a disk F having a projection G, by means of which a star or other symbol is printed on the paper. The projections may be moved away from or to the ribbon by means of a link H connected to the clock mechanism. A star-wheel J, Fig. 2, having an odd number of teeth is turned intermittently through a pawl-and-ratchet gear K, L, which is actuated through a lever O by pins M fixed in a 24-hour wheel N of the clock-train. The wheel L, which is operated directly by the lever O, has 10 teeth while the star-wheel J has only five. The star-wheel J is therefore turned through a distance equal to half a tooth at each operation. A lever P bears against the teeth of the star-wheel on opposite sides of the wheel, and is oscillated thereby. The other end of the lever P is connected to the link H. This mechanism may also set a tilting device by which the impression disk is moved when

the machine is next used. Electric coils may be employed to operate the impression lever. To

enable the symbol to be printed in a special color, a two-color ribbon may be employed.

Complete specifications accepted. 1908.

19,922. TRAY OR SALVER. WAREHAM.
22,618. BOWS FOR WATCHES. GINNEL.

New Japanese Patent Law Affords More Protection to Manufacturers' Designs and Marks.

THE amended patent, design, trade-mark and practical new design laws, which were approved by the Japanese Diet, have been published. The more important features of the revision comprise the following items:

Patent Law.—In this law a strong guarantee has been given to the rights of patentees; the enjoyment of private rights has been brought into harmonious accord with the public interests; the rate of fees has been reduced; and the procedures for application for patents have been much simplified. The legal period for filing applications for patents has been extended to suit foreign applicants, and the provision relating to the cancellation of patents has also been revised in order to make the law adaptable to the recent progressive developments of the world and to practical convenience.

Designs Law.—In this law the rate of fees has been reduced; a secret designs system has been inaugurated in order to enable the applicants to hold the designs under application secure for the period of three years, and thus to enable them to place articles of their designs in the market at the most favorable opportunity, and the procedures for examination of designs under application have been simplified with a view to quick despatch, so as to enable the applicants to cope with ever-changing fashions.

Trade-Marks Law.—In this law a provision has been made whereby the applicants are entitled to use a trade-mark not only for the articles they have worked upon, but for the articles which they have chosen, certified or dealt in. The colors used in trade-marks are also protected; the number of registrable trade-marks has been increased in order to provide an exception to the principle of priority of application, thus to protect the interests of honest traders and manufacturers who have neglected to effect the registration of their marks against more alert and dishonest applicants who claim the benefit of priority in application. Provision has also been made regarding the cancellation of the trade-marks through the disuse of registered marks over one year after registration in order to protect the business of honest traders and manufacturers.

Jewelry, Clocks, Watches, Silverware and Kindred Lines Exported from New York.

WASHINGTON, D. C., July 7.—The following were the exports of jewelry, silverware and optical goods, clocks, watches and kindred lines from the Port of New York for the week just ended:

- Berlin: 1 case of thermometers, \$119.
- Bremen: 3 cases plated ware, \$289; 1 case optical goods, \$110.
- Hamburg: 2 cases of thermometers, \$140; 1 case watches, \$885.
- Havre: 2 cases clocks, \$100.
- Saint Petersburg: 1 case optical goods, \$500.
- Swakopound: 4 cases clocks, \$130.
- Tampico: 2 cases plated ware, \$171.

The Queen mother of Portugal is the possessor of the finest rope of pearls in the world. It is valued at \$1,300,000 and it has excited the cupidity of the republican party in the little monarchy, says a daily paper. During the years when the fat King Carlos was on the throne he lengthened the rope at every birthday celebration of the Queen, who delights in pearls. Since Carlos was assassinated she has not worn the pearls, and it is reported she has sent them to England to prevent any attempt at seizure. The republicans insist that the pearls are State jewels, and advocate their seizure and sale for the benefit of the lean government treasury. The rope consists of several hundred of the finest pearls found in Ceylon in the last 30 years.

Drive-Wheels in Your Business

A line of Elgin Railroad movements will prove a strong drive-wheel in your business. Not only will the Railroad Elgin command the patronage of railroad men in your district, but it will also attract *other* trade, for it is only natural that the man who wants a reliable timepiece will go where the railroad man, who is *compelled* to have a correct, durable watch, buys his.

Briefly stated, these are the advantages of the Railroad

Elgin

Large plain hands and figures; large spring which will run longer on one winding than that of any other railroad watch; silver finish, metal dial easily seen in faint light—the only metal dial with inlaid figures of hard enamel (or, if preferred, watch can be had with plain enamel dial). The thinnest railroad watch made. Cased at the factory and timed in the case.

Another business drive-wheel is that Elgin is the most popular watch word everywhere—a popularity maintained by Elgin advertising and, in itself, a distinct asset to the dealer—to *you*.

Advertising in railroad magazines is creating a demand for the Elgin with the "49 silver dial" or the "49 enamel dial," and your stock should be in readiness to anticipate the demand. Your jobber or the Company will furnish prices on request.

These are the four grades and established retail prices as advertised:

	GRADE		20 YEAR GOLD-FILLED	25 YEAR GOLD-FILLED
VERITAS		23 JEWELS	\$46.00	\$48.00
VERITAS		21 JEWELS	\$43.00	\$45.00
FATHER TIME (VERITAS MODEL)		21 JEWELS	\$38.00	\$40.00
B. W. RAYMOND	" "	19 JEWELS	\$34.00	\$36.00

ELGIN NATIONAL WATCH COMPANY
Factories: Elgin, Ill., U. S. A.

THE HOROLOGICAL REVIEW

Truing Clock 'Scapewheels in the Shop.

Written expressly for The Jewelers' Circular-Weekly by Walter Gribben.

IN THE JEWELERS' CIRCULAR-WEEKLY of April 28 a method was described of grinding up an eccentric 'scapewheel by honing off the high teeth with an oilslip, but of course the job can be done much better and quicker if a few shop facilities are available. The fixture shown in plan view in Fig. 1, side elevation in Fig. 2 and end view in Fig. 3, was made to be used in conjunction with a small disc grinder to true the points of clock 'scapewheel teeth and B are pieces of $\frac{3}{4} \times \frac{3}{16}$ cold rolled steel, A having a series of tapped holes. Piece B has a slot through which passes

emery paper stuck on with beeswax. Fig. 5 is a diagrammatic view of the flat face of K, showing the effect of placing the 'scapewheel in different positions. If the 'scapewheel is placed in position one, with its arbor at the same height as the spindle on which K is mounted, the emery paper where it touches the teeth will be moving in a direction practically parallel with the plane of the 'scapewheel, so the action at that position will be a tendency to rotate the 'scapewheel with little or no tendency to grind off the teeth.

If the 'scapewheel is placed in position two, where the plane of the wheel passes through the center of the grinder spindle,

of A that brings the teeth nearer to K also brings the 'scapewheel arbor more nearly parallel than it was before. If not properly set this fixture will grind a slight bevel on the ends of the teeth, but this is not as serious a defect as having the 'scapewheel teeth of various lengths when measured from their axis of rotation.

A Wonderful Model of the Strasburg Clock.

(From the *Scientific American*.)

IN the Technological Museum of Sydney, Australia, is a working model of the famous Strasburg clock, which has been running for 20 years. The medieval original is considered one of the wonders of the world. Mr. Richard B. Smith conceived the idea of making a model of this clock. He began the task on Jan. 26, 1887, the 99th anniversary of the discovery of Australia, his native country, and completed it at the end of 1889.

The work is all the more remarkable, because Mr. Smith has never seen the original Strasburg clock and could find no accurate description of the mechanism. The books simply told him what functions the clock performed, and he set about the task of building a clock which would perform all the functions of the original and others in addition. For that reason the operative mechanism of Mr. Smith's clock probably differs from that of the Strasburg clock. Every part of the mechanism as well as the outer case (with the exception of the carvings and paintings) was made by Mr. Smith himself.

The Strasburg case is built of marble, and stands 60 feet high. The case of the model is constructed of cedar and is 12 feet high. In the first alcove in the central tower the procession of the 12 Apostles takes place. As the clock strikes 12 an organ is heard playing sacred music. The doors on the right of the alcove are seen to open and the first Apostle, Andrew, appears. As he comes forth the doors swing open and the figure of the Saviour emerges. Andrew turns as he reaches the center and bows his head.

The Saviour responds with a bow and raises His hand in salutation as each Apostle passes by, until the sixth Apostle—Peter—appears. As Peter comes forward Satan appears in a window to the left. He lifts his hand and tempts Peter, who turns his back on the Saviour. Simultaneously the cock on the weight tower flaps his wings and crows three times, in celebration of Peter's steadfastness. The other Apostles

a screw, H, that binds A and B together. B has two pieces of sheet metal, E and F, screwed to its sides to prevent it from slipping when moved along A to a different position. The uprights, C and D are made of sheet steel and are screwed and doweled to the ends of A and B, respectively. C and D each have a V groove at the top in which to lay the pivots of the 'scapewheel arbor, and D also has the tall plate G, which serves to take the end thrust of the arbor during grinding and prevents the shoulder from coming in contact with D, and thus makes the arbor run more freely. G is omitted from Fig. 3 in order to show the V groove more plainly. The piano wire springs, S, S, are to put a slight pressure on the pivots to hold them down in the V grooves and prevent the arbor from jumping out while doing the grinding.

Fig. 4 shows the fixture clamped to the table of the disc grinder, with a 'scapewheel in place ready for truing the teeth. K is a cast-iron disc on the end of a rotating spindle, the flat face of K having fine

then the emery paper where it touches the teeth will be moving parallel to the 'scapewheel arbor, and the tendency will then be to grind off the tooth in contact with K without any tendency whatever to rotate the 'scapewheel. But if the 'scapewheel is placed at some intermediate position between one and two, as at three, for example, then the action of the emery paper on the 'scapewheel will be partly to rotate it and partly to grind off the ends of the teeth, the rotating tendency being less as position two is approached.

In clamping the fixture to the grinder table, if only one clamp is used, and it is located very near to the plane of the 'scapewheel, but not quite coincident with it, having the clamp not very tight, and then by swinging the distant end of A the 'scapewheel teeth may be made to approach the disc K by a very small amount.

When the fixture is first placed on the grinder table and the teeth do not touch the disc K, the 'scapewheel arbor should be not quite parallel with the face of K, but should be so placed that the swinging movement

WALTHAM WATCHES

FIFTY YEARS AGO

FRIDAY, APRIL 22, 1859.—The proprietors and workmen of the watch factory at Waltham were entertained by Gov. Banks at his residence today. About 200 men and women were present.

From Boston Advertiser, April 22, 1909.

The Waltham factory had existed five years. Here was the first successful effort to realize the dream of Dennison, father of American watch-making. Here was the first and only structure in the world erected for manufacturing pocket timepieces. Three hundred people were employed, the largest number ever assembled in such an enterprise. General Banks was proud of Waltham, where he was born and where he had worked as bobbin boy in a cotton mill. He found time, while Governor of a great State, to greet and encourage the operatives of this watch factory, because he believed that they were creating an imperishable industry. He lived until the word WALTHAM had symbolized the perfect watch in every country on the globe.

In that year, 1859, the total number of Waltham watches manufactured was 12,304; in 1906, the product was 855,000; to-day there are 16,000,000 in use. The Waltham factory was the parent factory. It is now the corner-stone of an industry that gives a livelihood to more than 100,000 persons in the United States. In 1859, it was the only institution of its kind here or anywhere else; every other watch factory came later. The Waltham factory is distinguished by its achievements as well as by its age. Waltham watches have always exemplified the highest type of watch construction, and public recognition of their superiority is attested by the highest awards at all the great Expositions wherever they have been shown.

The history of the WALTHAM WATCH COMPANY is the history of watch manufacturing on this hemisphere.

pass by the Saviour and bow. When Judas approaches, Satan appears again and tries to tempt Judas, who pretends to be more faithful and bows more lowly.

In the alcove beneath are the four ages of man. At the first quarter of the hour a child is seen with a ball in its hand. At the close of the quarter the child moves on, and in so doing he strikes a bell on the right once with his ball. At the second quarter of the hour a youth appears with a bow and arrow. As the quarter closes the youth walks on and strikes the bell twice. At the third quarter a huntsman appears who, as he passes away, strikes the bell with his gun three times. At the fourth quarter an old man appears who strikes the bell four times with his stick. A skeleton in the background strikes the bell once on the

The planets are represented by ivory spheres. The nearest ivory planet to the sun, Mercury, revolves in 87 days 22 hours. Next comes Venus, revolving in 225 days, the earth in 365 days 5 hours 45 minutes 48 seconds, Mars in 687 days, Jupiter in 12 years and Saturn in 29½ years. Those

quarters and the other of whom turns the hour glass. Beneath the dial are the seven ancient deities representing the days of the week, Opollo (Sunday), Diana (Monday), Mars (Tuesday), Mercury (Wednesday), Jupiter (Thursday), Venus (Friday), Saturn (Saturday). In the center of the

A, Twelve apostles mechanism; B, four ages of man (old man out of view); C, main clock movement, going and striking trains; D, lunar and tidal train; E, orrery mechanism; F, annual train, driving the orrery; G, mean time dial; H, astronomical dial; I, heathen deities

mechanism (chariots); J, chief cities dial mechanism; K, cycle of sun mechanism; L, solar time mechanism; M, cycle of the moon; N, cock mechanism; O, going train-weight; P, striking train-weight; R, main driving shaft.

R. B. SMITH'S MODEL OF THE STRASBURG CLOCK

left—a death knell indicating the close of life.

Next is seen a sphere within a semi-circular niche, which represents the moon, one half black and the other silvered. The sphere shows the phases of the moon as it revolves in 29½ days. Beneath this sphere Mr. Smith has introduced in his model a tidal dial which shows the rise and fall of the tides, a feature not to be found in the original clock at Strasburg. Around the niche containing the sphere is the English equivalent of the German inscription: "What is there equal to the dawn, beautiful as the moon, radiant as the sun?" Beneath this we read: "Deus Lux Mea Quem Timebo." (God is my light, whom shall I fear.) The dates 1838-1842, between which the old clock in Strasburg was reconstructed, appear between the Latin and English inscriptions in the center of the main case. Beneath the date is a grand golden orrery on the Copernican system. In the center of the orrery is a large gilded ball representing the sun, around which the solar system revolves.

MAIN PARTS OF MECHANISM OF MODEL OF FAMOUS STRASBURG CLOCK MADE BY RICHARD B. SMITH.

are the six primary planets, all that are shown in the original clock. Mr. Smith has added Uranus in the model, which planet revolves in 87 years, and also Neptune, which has a period of revolution of 164 years. Below the orrery is the dial showing mean time. On each side of the dial is a cherub, one of whom strikes the

clock at its base is the grand astronomical dial, showing the apparent motion around the earth of the sun, moon and stars from the first to the fifth magnitude. The original clock at Strasburg shows a planisphere of the northern hemisphere, while Mr. Smith's dial shows the southern hemisphere. The dial shows the times at which these

RING OUT THE OLD—RING IN THE NEW

Why travel in the same old rut the balance of your natural life, and buy the same antiquated styles of Nickel Alarm Clocks your grandfather used to buy, just because some manufacturers have not thought it necessary to produce new designs in Nickel Alarms, as they do in other clocks?

We have some new ones, superior to anything heretofore made, and to introduce them and put a set into the hands of every jeweler, we will, on receipt of \$6.00, deliver east of the Rocky Mountains, express prepaid, one sample of each, consisting of eight clocks as described.

Don't fail to avail yourself of this opportunity to see a complete line of up-to-date alarm clocks.

See coupon at bottom of page.

**THE
E. INGRAHAM
CO.
BRISTOL, CONN.**

STANDARD.—30-hour time. Alarm with "shut-off" switch. Height, 6 1-2 in.; Dial, 4 1-2 in.; Case, seamless brass nickeled.

THE RATTLER.—30-hour time. Alarm with "shut-off" switch. Height, 6 1-2 in.; Dial, 4 1-2 in.; Case nickeled and highly polished.

LONG ALARM.—30-hour time. Six-minute Alarm with "shut-off" switch. Height, 6 1-2 in.; Dial, 4 1-2 in.; Case, seamless brass nickeled.

ALTERNATOR.—30-hour time. Repeating Alarm, rings alternately every fifteen seconds for twelve minutes, with "shut-off" switch. Height, 6 1-2 in.; Dial, 4 1-2 in.; Case, seamless brass nickeled.

DI-ALTERNATOR.—30-hour time. Repeating Alarm, rings alternately every fifteen seconds for twelve minutes, with "shut-off" switch; extra large bell. Height, 7 in.; Dial, 4 1-2 in.; Case, seamless brass nickeled.

"THE ALARM CLOCK WITH THE CONCEALED BELL"

See cut of interior view showing bell located entirely within the case. The unsightly visible bell eliminated. Bell cannot be disarranged or thrown out of adjustment.

SIREN.—30-hour time, Long Alarm (four minutes), with "shut-off" switch. Large bell inside of case. (See interior view.) Height, 6 in.; Dial, 4 1-2 in., solid brass; Case, nickeled and highly polished.

VIBRATOR.—30-hour time, Repeating Alarm, rings alternately every fifteen seconds for twelve minutes, with "shut-off" switch. Large bell inside of case. (See interior view.) Height, 6 in.; Dial, 4 1-2 in., solid brass silvered; Case, solid brass, old brass finish.

ROTATOR.—30-hour time, Repeating Alarm, rings alternately every fifteen seconds for twelve minutes, with "shut-off" switch. Large bell inside case. (See interior view.) Height, 6 in.; Dial, 4 1-2 in.; Case, seamless brass nickeled.

THE E. INGRAHAM COMPANY, BRISTOL, CONN.:

Gentlemen Enclosed find \$6.00. Please send me by express, prepaid, your "Introductory Assortment" of eight alarm clocks, consisting of "Standard," "The Rattler," "Long Alarm," "Alternator," "Di-Alternator," "Siren," "Vibrator" and "Rotator." Yours truly,

Name Address

odies rise, south, and set, the age of the moon, and its phases, the date, the time of day or night, and the signs of the zodiac, through which the sun and moon pass during the year. To the right of this dial is shown the cycle of the sun, which shows the position of the sun in the constellations every 28 years. At the end of this cycle the sun is in the same position as it was the beginning and in the same constellation. The central dial indicates solar time, and shows when the sun passes the meridian. Thus on April 15, June 14, August and December 25 it passes the meridian precisely at noon. At other times it varies from 16 minutes to noon to 15 minutes past. The next dial shows the cycle of the moon, which is 19 years.

All the phases of the moon appear on the same day and date as they did 19 years before. To the left of the astronomical dial the original Strasburg clock the feast and fast days of the church are indicated. Instead of these Mr. Smith's model shows the time in some of the chief cities, New York, London, Dublin, Berlin and St. Petersburg.

There are a number of oil paintings on the case. Those around the orrery represent the four seasons. Around the astronomical dial are paintings of the four kings, Louis, Dagobert, Charlemagne and Louis XIV., each in their time patrons of the arts. In front of the weight tower are paintings of Urania, the Muse of Astronomy; Nicholas Copernicus, the famous astronomer; J. B. Schuilguc, the maker of the reconstructed Strasburg clock; three fates spinning, measuring and cutting the thread of life. A spiral staircase in the original adds to the mechanism in the central tower and to the church tower.

In 1890, at the instigation of the Hon. Bruce Smith and Sir William McMillan, the New South Wales government decided to purchase Mr. Smith's model, and appointed the Hon. Bruce Smith, Q. C., minister for public works, and the Hon. J. H. Farruthers minister for education to make the purchase for the Sydney Technological Museum.

Should Watch Companies Sell Only Complete Watches.

Paper read by ANDERSON BLANTON, Paris, Mo., before the recent convention of the Missouri Retail Jewelers' Association, at St. Louis.)

THIS practical subject is being agitated from one end of the country to the other. Though of vital interest to the trade, it is a question on which retail jewelers may honestly and earnestly differ.

In one respect, many jewelers say, it might prove a dangerous experiment to require manufacturing companies to sell watches complete. It would not only be a gigantic undertaking for the factory people, but might prove a very expensive thing to the retailer, from the fact that he would be compelled to handle a larger stock than his trade would justify, in order to supply a demand for the various grades and makes now meeting with popular favor. The fact that hundreds of grades of watches are being manufactured and exploited in the United States would necessitate the investment of a small fortune by the retailer even though he should buy but one of each grade, should each movement be cased by its maker. Such an investment would be entirely out of the question with a jeweler whose store is in a small town. It would furthermore seem unfair to the case maker, because he would be forced to embark in the manufacture of movements or go out of business, while the watch companies that have established minimum selling prices for

their products would have no recourse but to shut up shop or branch out into the manufacture of cases. Either horn of this dilemma would work a hardship on the companies, from the fact that it would reduce them to a choice between closing their doors or investing an enormous amount of capital in a branch of industry in which they were totally inexperienced. That this would be an injustice will be admitted by those who are familiar with their constant efforts to protect the retail jeweler. The above arguments may be made by those who oppose the sale of complete watches.

On the other hand, is there a jeweler in the State of Missouri who can honestly claim that the policy of the Howard Watch Co. works a hardship on him? Are we making more than a legitimate profit on the complete watches put out by this company? Do we find them harder to sell because they are complete? I answer, emphatically, no!

An overwhelming majority of jewelers will testify that it is not only a pleasure to handle such goods, but that they have the satisfaction of knowing their price-cutting competitor dare not retail one of these timepieces for less than the established price—a price that guarantees him a legitimate, though not excessive, profit on his investment. The same thing is true of the Lord Elgin and some other standard makes.

To have an established price on one part of the watch and not on the other part is little if any protection against the price-cutter. While maintaining the price of the movement, for instance, he will sell the case for any price he thinks the customer will stand, or, if necessary, will furnish the case at absolute cost, on the theory that having lost nothing on one part of the watch while making a profit on the other part he is still ahead.

Another argument against the present policy is the fact that department stores frequently sell watches for less money than we retailers pay for them at the factory. A jeweler who was visiting in St. Louis the latter part of last Winter, was attracted by a very large display of watches in the show window of one of these establishments. A study of window signs revealed the fact that 18-size Elgin or Waltham seven-jewel movements in 20-year cases were on sale at only \$5, while 15-jewel movements could be had at \$7.50. Is there a retailer in Missouri who can sell watches at such prices and keep out of bankruptcy? Nay, verily. An examination of the cases in the display mentioned revealed the fact that the cases, while finely finished and fully guaranteed by reliable department store people, were devoid of trademarks.

My contention is that if these movements had been cased by the factory which made them they would never have gone on the market at such ridiculous prices, because the retail jewelers, who are the main support of these factories, would not stand for any sort of discrimination in favor of the department store.

In this connection it might be pertinent to ask who is responsible for the success of any special make of watch movement, or for the very large demand for the better class of cases? The answer is obvious. It is due to the energy and judgment of the retail jeweler, whose endorsement gives these goods standing with the buying public.

If the Howard Watch Co. finds it profitable to sell its goods complete and maintain the selling price, would not other companies find such a policy advantageous? The Howard people do not manufacture their filled cases, but have an agreement with two of the best case makers in the world for their output. What one company can do with profit to itself and protection to its trade, any other company, it seems to me, could likewise do.

There really is nothing in the argument that every jeweler would be forced to handle every make and grade if this policy were adopted. The fact is his trade requires nothing of the kind. The average dealer specializes on certain makes—a policy that suits the trade and at the same time keeps stock from accumulating to unprofitable proportions.

Should watch companies sell only complete watches? For the reasons above advanced, and for other reasons that are perfectly legitimate, the general opinion seems to be that they should sell none but complete watches. The fact that it would protect the retail jeweler from the unfair competition of mail order houses and millionaire department stores, would be sufficient ground for this opinion, even though no other reason could be given. The mail order and department

store people may handle watches without profit as a means of impressing the unsuspecting with the notion that everything they offer is much cheaper than the goods sold by retailers, while the retailer handles the goods because they are staples that rightfully belong to his branch of business.

My opinion is that if the watch case product should have a minimum selling price, and the watch movement an established minimum price, the retailer would have no just cause for complaint. This would be the best solution of the question. If such cannot be done, I am personally in favor of watches sold complete only.

Self-protection, which is the first law of nature, demands that retail jewelers awaken to the importance of this question.

Medical Aspects of Daylight Saving.

SIR THOMAS BARLOW, physician to His Majesty's Household, in giving evidence before the Select Committee considering the Daylight Saving Bill, said he thought the medical case for the bill was that it sought to make it possible for working people in some slight degree to approximate to a more natural mode of living. He thought most people would agree that in a temperate climate like our own the most natural mode of living was to be out in the open air and sunshine as long as possible in the day and to reserve the dark hours for sleep. That method was one which generally obtained in the country districts among those engaged in agricultural pursuits.

But in towns there was a continual shrinkage in the open-air life and of available sunshine, both from the crowded dwellings in which the working people lived and from the long hours spent in workshops and offices which were apt to be dusty and where work was carried on in a great measure by artificial light. Of late years people had come to look upon sunshine and open-air facilities as the most important means of neutralizing the ill-effects of indoor exhausting occupations. Town life made its influence very markedly felt in producing anæmia or poverty of blood, and they had learned of late of the enormous advantage of sunshine and open air in this respect not only in the way of bloodmaking, but in the increased power of resistance of the respiratory organs to various damaging influences. This was especially marked in those who were living just above the borderline of ill-health.

If the principle of the bill were accepted it would lessen the amount of employment of artificial light in many workshops and offices, and thereby do a great deal for safeguarding the eyesight of the workers.

The general result would seem to be that it would in some definite degree provide opportunities for living the open-air life. Nobody could doubt that the bill would be an advantage from the standpoint of civilization and culture, and from a medical point of view it would be an enormous advantage to the health of the community. Those were the main reasons which induced him to regard the case as a strong one for the bill, always supposing that its economic effects were not such as to prevent its acceptance.

C. C. Briese, Franklin, Tenn., is sending out attractively printed post cards, showing a view of the interior of his store.

When you favor us with an order, New York References are preferred (if not rated). Also give Shipping Instructions. All goods shipped F. O. B., N. Y. We fill orders from any Clock Catalog issued in the Country. A call at our Establishment will pay you; we have 6,000 square feet devoted to Clocks.

Wait for Our Monthly Circular Ad.

From the Resolutions of the Missouri Society of Retail Jewelers

We advise you to investigate the proposed action of Robert Ingersoll & Bro. regarding the exclusive sale of their watches to the retail jewelers, and if you find it as favorable as we believe it to be, that you carry and sell their line as far as your trade conditions will permit.

This recommendation refers to the

Ingersoll-Trenton Watch

the sale of which is confined to responsible jewelers and which is sold direct to the retail dealer only.

The retail prices are restricted.

We will gladly lend assistance to "jewelers from Missouri" in any investigation which they may undertake regarding the "I-T" watch in response to this recommendation of their resolutions committee and in which our aid will be of service.

Always Buy Watches of a Retail Jeweler

A Mail-Order House, Although It May Sell a Good Watch, Cannot Adjust It To Your Person.

To watch you buy he must will keep perfect time, no matter who inside it, how perfectly it is made or who its regulator. A good time keeper must be regulated to your person as carefully as a good tailor fits a coat. In no other way can you secure perfect timekeeping service. No one but your jeweler can do this. Watches you buy of mail-order concerns are not and cannot be so regulated. That's the reason they never keep perfect time and always run too fast or too slow. The variation of even one one-thousandth part in the vibration of the delicate watch balance which governs the movement, means a loss or gain of a minute and a half each day. South Bend Watches are sold only by reliable jewelers. They are never sold by mail, because South Bend Watches are so good that we do not want their great reputation for reliability and accuracy injured by improper regulating. We make South

Bend Watches as nearly perfect as it is possible to make a watch and pay the jeweler to regulate it to keep perfect time in your pocket. A watch which is a perfect time keeper in one man's pocket, very likely will not keep time at all in another man's pocket. If you own a South Bend Watch you will know that the watch you carry will stand in its that are twice as severe as any that you are ever likely to give it. It might be frozen solid in a block of ice, it would still keep satisfactory time. Every adjusted South Bend Watch, before it is sent to your jeweler, is baked in an oven heated to 140 degrees Fahrenheit and kept for hours in a refrigerator at freezing point. It would keep perfect time in every position and not be affected by the jars and jolts of the hardest wear and usage you can give it. A South Bend Watch, although it is the best watch in the world, costs you no more than other good watches. Your jeweler will gladly show them to you and tell you why they are the best watches for you to buy. Read response cards for our handsome book. How Good Watches Are Made - and an interesting little device showing how South Bend watches adjust themselves to every temperature. Don't fail to talk with your jeweler about watches before you buy any watch.

The Mail-Order Jeweler—How to Compete With Him

Paper read by R. E. MEEHAN, Norborne, Mo., before the recent convention of the Missouri Society of Retail Jewelers, in St. Louis, Mo.

MAIL-ORDER houses are to-day one of the difficult problems of legitimate commerce. Their nefarious work is seen in every town and village in decreased prosperity for merchant and customer alike, and in the consequential arrested development of the community in general. Of course, the merchant feels the loss of sales first, then the town in general, and then the farmer, who sees his lands decrease in value and his social and school advantages deteriorate in proportion as his town declines in business activity. Unwittingly and unthinkingly, the townsmen and the man with the hoe, who send to "Shekago" for their merchandise, for a pin or a buggy, a watch or a clock, all contribute to bring about this condition.

They have sent their money far away, and it never comes back to improve the town, or benefit anybody. They have fooled nobody but themselves—like the Irishman who cut off the bottom of his blanket and sewed it on the top to make it longer. Laboring under the delusion that they are saving money and preventing the home merchant from getting rich off them, the mail-order house customer continues to order goods and be hoodwinked.

The catalogue tells them they are getting the same goods for less money than the home merchant can sell them because they (the mail-order houses) buy in larger quantities and are closer (geographically) to the manufacturer, thereby saving freight, etc., etc., ad infinitum. The catalogue shows the power of the printed page. People forget that, in this age of cheap printing, anybody can have almost anything printed for a few cents, and that there is no more reason why what appears in print should be believable or dependable than the words of a total stranger with whom we are taught to be guarded and careful. The catalogue is an entire stranger with a very plausible story to tell, and, like the stranger, should not be believed because they look good, talk good and apparently act good.

As other merchants suffer from the mail-order evil so does the retail jeweler—perhaps more so. The mail-order jeweler is the bugbear of the legitimate retail jeweler. He is the old man of the sea who refuses to be drowned, but I believe that the time

is coming when we will be able to hold his old repulsive head under water so long that he will not be able to bob up again. So far, he has kept bobbing up continually and keeps eternally at it, which is, I believe, the secret of all the success which now comes to him. He never gets lazy, and inaction is unknown to him. He keeps sending his catalogues, notwithstanding that he knows that probably half of them are consigned to the waste basket and the grate. That people who cuddle these catalogues and order from them are deceived goes without saying. We know they are deceived, more so in the jewelry line than in any other, because 30c. worth of gold can be so skilfully spread upon a piece of base metal that it will look like \$30 worth—for a few days. A lumberman once remarked that 30c. worth of paint could work wonders. A customer of his ordered a beautiful mottled front door for his residence. It came duly to hand, was hung and after it was storm beaten for a short time the knots began to fall out until it looked like a screen to keep out the chickens. The door was simply an aggregation of knots glossed over with 30c. worth of paint, giving it that "beautiful mottled appearance" so touchingly spoken of in the catalogue.

People who buy from mail-order houses are hoodwinked and deceived, and therein lies our strength to fight them. Right must and will prevail, and truth crushed to earth will rise again. It is our duty, and to our advantage, to keep eternally hammering at these pirates of the jewelry trade, for our cause is just and must win out. The first thing to do, I think, in fighting the mail-order house is to get acquainted with its methods. Get its catalogue and study it, its exaggerations, its deceptions and sophistries, its pries, its buncomb in general from "Kiver to Kiver," and thus be prepared to talk intelligently to the customer who has been perusing the mail-order catalogue. You will then be prepared to meet every argument. You will be able to show the customer that he is making a mistake either in the supposed quality of the goods described in the catalogue or the deceptive price.

All this can be done in a firm, convincing,

yet pleasant way. To get excited or angry with the mail-order customer is fatal; you are posted you should be able in a nice, cool, collected manner, to show the customer why it is to his advantage every way to purchase of you. Personally I get samples of the mail-order house goods, particularly watches, and when a hating customer who has been innocently hit by the catalogue virus comes in I apply the curative toxin of a comparison of a standard watch with that of the mail-order house; then the appearance, quality, price and my guarantee win out easily. I can very readily show that my watches carried in stock are superior in every way to the ordinary catalogue watch. If, perhaps, a standard watch is advertised in the catalogue the difference in price is so small that the customer sees it is folly to order when he can buy the same thing at home and see exactly what he is buying and have a guarantee and services in keeping it in good order for a year.

A jeweler should also keep himself thoroughly conversant upon every manufacturer's goods, and be able to recognize a well-known make of goods under a different name, as he can then compare them before the customer, and show him that he is really saving nothing by ordering. It is almost always getting the worst end of the bargain.

A jeweler should advertise in his home paper, changing the advertisement frequently, calling attention to the strictly first-class goods to be found in his store. Advertising one thing at a time, I think, is better than trying to cover too much ground in a single insertion. Small, well-worded advertisements from time to time are better. With the local editors' assistance I try to make attractive ads., that will be read and tend to draw people to the store to see the goods advertised. The treatment of the pernicious practice of ordering goods by mail, and the detriment to the community arising therefrom, I leave to the editor who can handle the subject better than I can and from a much better vantage point. The paper in my town, the *Norborne Democrat*, one of the best edited country newspapers in the country, refuses to take a line from any mail-order concern. Its columns are patronized by the home merchants who are rewarded by this policy of the paper refusing to accept foreign advertisements and in publishing editorials and articles showing its readers the evils of the mail-order traffic, and the sin of buying goods away from home. If every country newspaper in the country could have the same

Storekeeping Department.

port of its merchants, and it in turn follow this policy regarding mail-order houses, a hard and telling blow would be struck against them. To cultivate and patronize your home paper is, I think, another most effective way of fighting the mail-order house.

The country banker is another man whose services are good to enlist against mail-order houses. None knows better than he the disastrous effects of the people of a town not patronizing their home merchants. As a rule, the country banker is a man of good judgment and foresight and uses his best efforts to discourage his patrons from sending away the money of the community, which should be kept at home as much as possible. I know that some country bankers are helping us fight the mail-order houses from the fact that they (the mail-order houses) now advise their customers to remit by money orders, saying that they are much safer and better in every way. Of course, we know better and that it is merely a ruse, a piece of misrepresentation in keeping with the entire contents of the catalogue, to keep the customer from going to the banker to get a draft, which any good business man knows is a simpler way to remit money.

Probably no other man in the community receives more jewelry catalogues and "flattering" offers to help sell jewelry than the country banker. As a rule, he it said to his credit he does not swallow the mail-order house taffy served up to him something like this: "Mr. Country Banker, on account of your influential position in your town (the fame of which, of course, has reached Chicago through a bank directory) if you will use a few minutes of your valuable time to call the attention of your customers to our excellent line of jewelry listed in our catalogue sent you under separate cover and secure us a few orders we will send you as a souvenir a handsome pair of link cuff buttons, fire enameled, with your initial baked on in red. These cuff buttons are now all the vogue with the most stylish dressers, and we know you will wear the pair we send you with a great deal of pride and pleasure. Send on the orders and your initial, and we will at once bake the buttons for you." Or perhaps something like this: "Mr. Banker, you probably know of some of your customers who are thinking about diamonds; we will send you a small selection (our very own) to exhibit them; all you will have to do is to quietly (follow directions closely and do it quietly) call in the prospective purchaser and as suavely and ingratiatingly as you know how call his attention to the fact that the diamonds are from a large house which imports direct and sells direct to customers, and is therefore cheaper to buy from than from the home jeweler who is trying to get rich quick, etc., ad infinitum. Upon any sales you may make we will allow you a commission of five per cent., or send the baked cuff buttons as you may prefer."

There are in the banking business, as well as in others, penurious, short-sighted, grasping men who need educating along this line of mail-order house traffic. Trying to make a few dollars on the side by

slily ordering goods out of town is bad policy, and must sooner or later operate as a boomerang and damage the perpetrator. The sinner may be sure his sin will find him out. We have had several of them in our town, but I don't believe there is any now. One "moved away," and the other got wise and sins no more. They were cured by all the merchants in the town uniting in a combined attack on the enemy. In union there is strength. The jeweler cannot do all this fighting himself, but all the merchants of a town must work together. Educating and enlisting the services of the country banker is, I believe, another important way of fighting the mail-order house business.

Use the United States mails the same as the mail-order house does. Get a list of the patrons of the post-office of your town, and from time to time mail literature and advertising of all kinds pertaining to your stock. Your printed page will appeal and be just as powerful as the printed page of the catalogue house, if it is as well executed. Is there any reason in the world why it should not? There is a fascination about the well-printed page which attracts and holds, and a certain novelty of receiving something by mail for some people, which accounts for some of the orders to mail-order houses. Is there any reason why your ads. and literature cannot be made as subtly entertaining and effective, and as capable of arousing that inimitable curiosity which leads to a visit to your establishment to see the beautiful goods—ultimately to purchase?

Calling the customer's attention to the difference in our guarantee and that of the mail-order house is another effective way of fighting them. I try to show the customer that I am permanently located in the town, and that my guarantee is built on this hope of permanency, while the mail-order house a thousand miles away cannot be reached without trouble and expense and dissatisfaction on both sides. If complaint is made to a mail-order house, the house will show the deluded customer that he got just what he ordered from the catalogue, and if he had sent more money they would have sent a better article, etc., etc. Upon the other hand, if anything proves defective bought from me I take it back without quibble or secure a perfect duplicate of the article for the customer. Talks to customers along this line of guarantee I find effective.

Ridicule when judiciously used is also very remedial. The merchants of our town have entirely cured some men of ordering goods from mail-order houses by calling them Sawbuck & Co., Happyward & Co. Continued ridicule of people who practice the mail-order habit tells in time. I recall a certain mail-order house individual here who ran for school director and was overwhelmingly beaten upon that ground. His opponent started the report that if "Sawbuck" were elected he would be in favor of sending to "Sawbuck & Company" in Chicago for the school teachers for the next term. This story caused so much laughter that the would-be school director was made ridiculous and badly beaten. And, by the way, he was forever cured of ordering goods from "Shekago," and his case served as a warning to others.

Now I realize that what I have said on this subject is commonplace and hackneyed. I have said nothing new and all my methods of fighting the mail-order house are almost self-evident propositions. I believe our only trouble in opposing the encroachments of the mail-order house is lack of action. We are too prone to inertia. We know what to do, but leave it to the other fellow. We think that our little influence will not be felt by the common enemy, if directed against him. The way to fight is to fight. If every retail jeweler in the land would use what weapons he has against the mail-order house, the result would be cumulative and terrific.

Summing up all that I have tried to say about this subject, I believe that the way to fight the mail-order house is to advertise, to use the United States mails, and to get thoroughly acquainted with the methods and the catalogues of the mail-order houses. Keep abreast of the times, be up to date, be conversant with the march of events, especially in your own line, that you may be able to show people the sin of buying goods away from home. Enlist the services of your local editor, your banker and the other merchants of your town in the fight. Do a strictly legitimate business, carry a first-class, clean stock of goods. Do good and prompt work at the bench, and thus gain the confidence of the people which will stand the competition of anything in the world when once gained and retained. Confidence can be established, if merited, and attention be given to details.

All this requires work and effort, and a willingness to "do it now." No lazy jeweler can stop a mail-order house from doing the business in his town. A breeze from the windy city will cover up his little store with catalogues so deep that it can't be found or seen. Let us use what weapons we have and use them continuously, and I believe in time the mail-order house will be obliged to give it up.

The Way of the Enterprising.

DIAMONDS in the rough were shown recently in the display window in the store of Emerick, Barrett & Co., Freeport, Ill. The display was watched with a great deal of interest and attention by many passersby.

The F. L. Wilson Co., Danbury, Conn., is displaying in its show window a modern lens grinding machine in operation. The machine is operated by electric power. Besides the lens grinder there is a cutting and drilling attachment.

The celebration of the 50th anniversary of the business career of E. Gundlach & Co., Hartford, Conn., a short time ago, was signalized by the concern's giving a 10 to 50 per cent. discount on its entire stock. The sale began June 10 and will continue until June 26. The present location of the firm has been used for a jewelry store since the building was erected, more than 100 years ago. The business has been conducted by some member of the Gundlach family for over half a century.

A. O. Putnam, White River Junction, Vt., has moved to Brandon, Vt.

THE CONNOISSEUR'S HANDBOOK.

Definitions of Some Technical Terms in Gold and Silver Smithing and Ceramics
Alphabetically Arranged for Easy Reference.

By Clement W. Coumbe.

(Continued from issue of June 30.)

BERLIN. In 1751 a merchant named William Gaspar Wegeley, who "had obtained the secret from the Höchst workmen who were in possession of copies of Ringler's papers (see Ringler), established a factory here. It was abandoned as a commercial failure. John Ernest Gottskowski, banker, in 1761 continued the factory very successfully. Frederick the Great, when occupying Dresden in the 'Seven Years War,' sent large masses of the clay from that place to the Berlin factory, together with the best Meissen modelers and painters. Among these forcibly expatriated artists are the names Meyer, Klipsel and Böhme. After the war the king purchased the works and enlarged them, and made good yearly profit from the output. Magnificent presents were made, and the court and household used much of the ware. No factory excels Berlin in form and painting unless it be Dresden."—Marryat. It is celebrated for its rose or pink, a color the manufactory of Meissen had not been able to attain. It was invented before the *Sèvres rose du Barry*. Marks: Under both Wegeley and Gottskowski, W. Under the sovereign a scepter was adopted which closely resembles a sword. It is brown on painted and gilded ware; blue on white ware. Since 1833 on painted and gilded porcelain, scepter, eagle, and imperial globe in brown. Scepter and letters "K P M" (Königlich Preussische Manufaktur) in blue on white ware. Berlin biscuit figures are very fine. The transparent pictures in biscuit to hang in windows ("lithophanes") were much in vogue. The table ornaments of 1772 presented to Empress Catherine, ornamented with flowers and groups of figures in the different Russian costumes, are noted, as also the Prussian king's present (1816) to the Duke of Wellington—a costly service, each piece exquisitely painted with battle subjects, etc.

BERNADI, Giovanni (1523). A gem worker of Castel Bolognese.

BERNARDI, Johannes de. A famous intaglio cutter of Castel Bolognese, Italy (Cellini's time).

BERNART, Jehan. Secretary to Helene de Langest. (See *Faience d'Oiron*.)

BERNE (Switzerland). "Emanuel Jean Rutting established at Berne, in the second half of the XVIII. century, a manu-

factory of faience plaques for stoves, decorated in fresh and harmonious colors, or with landscapes in cameo blue under the glaze. These were usually marked with his initials and a date—E. J. F., 1772.

"Heimburg, near Thoun, in the Canton of Berne, also possessed factories of faience decorated in a somewhat individual style that are commonly, though erroneously, designated as 'faience of Berne.' Some excellent reproductions are now in the market."—Jervis.

BERTRAM, Bernhard (Luftenburg). "Manufacturer of majolica."—*Jervis*.

BERTUZZI. Goldsmith of Venice (1300).

BERNWALD. Bishop of Hildesheim. Was made bishop A. D. 992, and "ruled his see" 993 to 1022. Tutor to young Emperor Otto III. He was an expert goldsmith. The Magdalene Church at that place contains a gold crucifix set with stones, a chalice set with antique cameos and gems, candlesticks, etc., said to be his work. They give a good idea of the high stage of the goldsmith's art of the XI. century in enameling

BERNWALD'S CROSS, HILDESHEIM MUSEUM.

as well as goldsmithery. He founded a great goldsmiths' school. Was of noble family. He is considered by many to be the father of goldsmithing in Germany; certainly his work has done much to stimulate the gold and silver smithing industry in that city.

BERWICK, John. "One of the original potters in the Worcester works."—*Jervis*.

BESA. A Greek and Roman "drinking vessel, also called *bessa* and *bession*. It was wider at the bottom than at the top, and in shape much resembled the *bombylos*" (to which refer).—*Mollett*.

BESANCON (France). Glot's list states that in 1791 three furnaces were active here, one of which produced porcelain, the rest faience.

BESANT, or bezant, "are the roundlets of gold without any impression, so called from

BESANT.

the ancient gold coin of Byzantium, now Constantinople."—*Clark*.

BESSA. (See *besa*.)

BESSON. (See *besa*.)

BESNIER, Nicolas. A French goldsmith of the XVIII. century. Domiciled in the Louvre. Died 1752.

"BESTIONS." A term denoting the fantastic animals which occur in design of the Decorative or Florid period. It originated from Philibert Delorme.

BETEN. Old English term for embroidering with fancy subjects.

BETROTHAL DISHES. (See *amatorii*.)

BEVINGTON. A manager of the Swansea porcelain works, whose name often appears on this ware.

BEVINGTON, Ambrose, John, James and Thomas. All Staffordshire potters at Hanley.

BEVINGTON & Co. When Dilwyn left the Swansea works in 1817 it is presumed Bevington must have been proprietor of a department. There are pieces marked Bevington & Co., Swansea, with date from 1817 to 1820. Rose closed the works in 1820, and took the plant to Coalport.

BEYERLE, Jean Louis de, Baron. Founded the Niederwiller fabrique, 1752.

BEYERLE, Madame de. (See *Niederwiller*.)

BZANT. (See *besant*.)

BZANTÉE CROSS. "Formed of *bezants*

CROSS BZANTÉE.

conjoined, like the cross of Golpes."—*Robson*. Spelled sometimes *bezanty*.

BEZANTÉ, or bezanty, in heraldry, is a field "indiscriminately strewn with bezants, their number or position not being specified."—Clark.

BEZEL. In general *bezel* means the signet, stone or other part of the ring differentiated from the hoop or loop. Originally it defined the flange only that held the signet to the loop.

BIACCA (It.) "White carbonate of lead; a pigment."—Mollett.

BIAGO. An Italian ceramist at Ferrara, 1501.

BIANCO ALLATATO (It.) Milk-white glaze produced in Florence.

BIANCO FISSO (It.) Literally a fixed white. A pigment that remains permanently white in ceramics after firing.

BIANCO SOPRA SMALTIATO (It.) A ceramic term meaning white on a gray ground.

BIBELOT. An object worthy the collector's attention. Either arms, bronze, faience, ceramics, etc.

BIBLOT. (See *bibelot*.)

BICOS (Gr.) (See *bikos*.)

BIDON (Fr.) A pilgrim's bottle.

BIEN-HOA, or ben-hoa (Hindoo). "A kind of stone employed by the Khmers, or ancient inhabitants of Camboja for their sculpture; they also called it *bai-kriem* (roasted rice), which it exactly resembles. Its deep yellow color recalls in a striking degree that of old white marbles which have been long exposed to the sun and air in warm countries."—Mollett.

BIFRONS (Lat.) "Having two fronts or faces. Libraries and picture galleries generally contained statuary of heads or busts

BIFRONS JUG.

coupled together back to back, but especially of Janus, emblematic of his knowledge both of the past and the future. The illustration represents a Greek vase, in imitation of the statuary described."—Mollett.

BIGA (Lat.) A car or chariot drawn by

VICTORY URGING ON HER BIGA.
ANTIQUÉ SARDONYX CAMEO.

two horses abreast. (See also *birotus*.)

See also *triga* (three-horsed) and *quadriga* (four-horsed).

BIGATI. Roman coins (*denarii*) having on them the device of a two-horsed chariot (*biga*).

BIJOUQUE. "The double or yoked bottle

BIJOUQUE.

(*bijouque*) is found in Egypt, and again in Chili and Mexico."—Marryat.

BIJOUTERIE (Fr.) This term refers to jewelry in general as distinguished from *joaillerie*, meaning stones mounted in a small proportion of metal work.

BIKOS (Gr. and Lat.) "A large earthen ware vase adapted to hold dry provisions, such as figs, plums, etc."—Mollett.

BIANX (Lat.) A balance with two scales, or dishes. (See *balance*.)

BILBO. "A light rapier invented at Bilbao."—Mollett.

BILL. Old English term for a species of pike used by the XIV. and XV. century

BILL HEAD.

soldiery. It had a long curved blade. Some, made for gala occasions, were beautifully chased or damascened in gold, etc.

BILLET. In heraldry, an "oblong square, by some taken for a piece of wood, and by

SHIELD WITH SIX BILLETS.

others supposed to be letters made up in that form."—Clark.

BILLETÉ, or billetty, "signifies, in heraldry, a field strewn with *billets* when they exceed 10, otherwise their number and position must be expressed."—Clark.

The *billet* ornament, in architecture, etc., consists of rows of cylindrical forms placed

BILLET ORNAMENT.

alternately in the moulding members. (See *cut*.)

BILLING, Thomas. In 1722 he was granted a patent "for making the most refined kind of earthen ware, of a nature and composition not only transparent, but so perfect in its kind as, contrary to the nature of all other earthen ware, to resist almost every degree of heat." Billing was a Staffordshire man.

BILLINGSLEY, William. Familiarly known as "Beely," he was England's greatest ceramic flower painter. Robert Drane says of his work: "The petals of the tulip have

the very sap of life in them. The rose has the soft bloom of youth and floats in being, not by the brush, but by the painter's volition. No man in the history of porcelain ever painted roses as this man did." He was a pupil of the Derby painter, Bowman, and was an expert potter as well as decorator. He worked at Worcester, Swansea and Coalport, and started the Nantgarw works. The Pinxton factory was under his management, 1795 to 1801. The body of the Pinxton ware was, during this period, very fine and transparent, and he produced the same body for the Nantgarw and Swansea factories. Of irascible temper, he rarely stayed long in one place. He left Derby 1796 for Pinxton; left Pinxton 1800; at Mansfield 1800 to 1802; at Torksey (Lincolnshire) decorating 1802-1808; at Worcester (Barr, Flight & Barr) 1808-1811; at Nantgarw 1811-1814; Swansea 1814-1817; Nantgarw again 1817-1819; Coalport 1819-1828, when he died. He invented a new paste, which was wonderfully transparent, but of so glassy a nature it could not hold up under the furnace's heat. The immense percentage of loss in his "firings" always proved disastrous financially.

BILYCHNIS (Gr. and Lat.) "A double

BILYCHNIS.

lamp with two beaks and two wicks, so as to give out two different flames."—Mollett.

BINGLEY, Thomas. He took up the pottery at Swinton (Rockingham) 1778, and enlarged it. White and blue-and-white dinner and tea services were added, of superior quality to the former common earthen ware.

BIPENNIS, or bipenne. "An axe with a double blade or edge, used as an agricultural instrument; an adze, or a military

BIPENNIS.

weapon. The Greeks never made use of it. It was used especially by barbarous nations, such as the Amazons, Gauls, etc. The engraving represents a Gaulish *bipennis* taken from one of the *bas-reliefs* on the triumphal arch at Orange."—Mollett.

BIRAGO, Clemente (1546). Diamond engraver of Milan.

BIRIDI. Damascening with design in silver wire is termed by East Indians *biridi*.

BIROTUS, or birota (Lat.) "Anything having two wheels, and so a two-wheeled carriage or chariot."—Mollett. (See *biga*.)

BISCUIT. In ceramics, the term *biscuit* means the piece as it comes from the first firing without decoration or glaze. It is sometimes called *bisque*.

BISCUIT, "PARIAN." Introduced by a Derby ceramist named Battam.

(To be continued.)

Our Oval Spinning and Turning Lathe

Our cuts show headstock of Lathe and variety of elliptics produced on same, retaining minor axis.

WORKSHOP NOTES AND QUERIES

[Answers are also solicited from our readers to the questions published on this page.]
 No attention paid to communications unless accompanied by full name and address of the writer.

QUESTION No. 2306.—Gun-Metal Finish on Silver.—Can you tell me how to produce the gun-metal finish on silver? I have difficulty in obtaining a finish that looks like the real thing. V. B.

ANSWER:—A method of producing the gun-metal finish was well described in a recent issue of the *Brass World*. While the genuine gun-metal finish is done upon iron or steel, says the writer, an excellent imitation and one very extensively used is the oxidized finish produced on silver by means of liver of sulphur. A large variety of articles are daily manufactured and sold with such a finish, and as it can be applied to any metal—brass, copper, bronze or the soft metals—it is a useful one, and also is quite durable. The advantage of using silver rather than copper for oxidizing with liver of sulphur is that the color is better and adheres to the silver more tenaciously. This latter property is of much advantage, as it allows scratch-brushing to be carried out without danger of stripping the black deposit. If the article is of sterling silver, the oxidizing may be done without plating, but other metals require a silver deposit. If a good finish is desired without danger of removing the silver during the oxidizing, then a fairly heavy silver deposit must be given the article. From one-half an hour to one hour is usually necessary to obtain the desired thickness of silver. The regular silver solution is employed, and should not be the bright silver solution containing bisulphide of carbon, as this does not oxidize as satisfactorily as the regular deposit. The silver is put on "soft" or with a weak current (about one volt), and should come out white and uniformly dead. A good solution consists of three ounces of chloride of silver dissolved in just enough cyanide solution to take it up. Then add more water to make up to one gallon, and three ounces of cyanide are then dissolved in it to give the necessary quantity of free cyanide. The solution is then ready for use. The silver deposit is scratch-brushed in the usual manner by means of a fine brass scratch-brush wet with bran water or similar material, and is then ready for oxidizing.

For oxidizing the silver, liver of sulphur is used. The addition of ammonia to it, as practiced in oxidizing silver for French-gray work, is not recommended, as it renders the deposit soft and apt to be removed in scratch-brushing. The object is to obtain as strongly adherent deposit as possible, and this can be accomplished by the use of the liver of sulphur alone. The following proportions of liver of sulphur and water are recommended:

Water	1 gallon
Liver of sulphur.....	3 ozs.

As silver is not readily attacked in the cold, it is necessary to heat the solution before immersion of the article to be oxidized. The hotter it is the more rapid the oxidizing, but in ordinary work, where the liver of sulphur solution is contained in a stone crock heated by hot water it is difficult to obtain a temperature much greater than 120 to 150 degrees F. This temperature, however, answers well. When the solution is in the right condition the silver will not become black immediately when immersed in it, but passes through a brown stage and finally becomes dead black. When this has taken place, the article is removed, rinsed in cold water, then in hot water, and dried in sawdust. Careful rinsing should be done, as it prevents spotting after the work has been finished. The silver now presents a uniform black color, but dead. In order to bring out the luster it is necessary to scratch-brush it. This must be done dry and with a soft brass scratch-brush, revolving rather slowly. The luster of the oxidized surface is thus brought out to its best advantage. A lacquer suitable for the purpose is now put on the article and it is completed. The lacquer used should be of a grade made expressly for the purpose, as much better results are obtained with it than with one not so adapted. The manufacturers of lacquer make lacquer particularly for such a purpose. It protects the surface, and at the same time does not destroy the color or luster. The black color on the silver is, of course, not an oxide, although usually called an "oxidize." It is the sulphide of silver. It is extensively used on purse and bag frames, buckles, hat pins, mourning jewelry, comb ornaments, mesh bags, and many other lines of goods where a better and more durable color is desired than it is possible to obtain with oxidized copper. The oxidized silver finish, when well done, very closely resembles the genuine gun metal. In oxidizing metals by means of liver of sulphur there is one feature which must be carefully looked after, and that is the cleanliness of the silver before oxidizing in the solution. Grease is equally as injurious on the work to be oxidized as it is on that to be plated. Unless clean, the scratch-brush is apt to cut through and expose the silver. Cleanliness is as essential as any other part of the oxidizing operation.

O. A. Dupstadt, Vandegrift, Pa., has purchased the stock of C. A. Hines and will continue that business.

Gold and Silver Plating Articles of Wood, Bone and Leather.

It is well known that articles of wood, bone, leather, etc., do not conduct the electric current, all organic substances being non-conductors. If we desire to give such articles a galvano-metallic coating, the first step is to impart conductivity to them—to metallize them, so to say.

The best-known means of effecting this is, first of all, graphitizing; secondly, the coating of the object with a solution of nitrate of silver and then reducing the silver nitrate to metallic silver.

Electroplating can then be accomplished on a well-graphited surface or on the reduced silver.

If we desire to obtain our conductive surface with the aid of graphite, or plum-

FIG. 1.

bago, the employment of the finest possible double-washed graphite is essential. Even better, although more expensive, is the employment of so-called "gold graphite."

Suppose we have a wooden walking cane handle which we wish to silver, says George Nicolaus, of Hanau, in the *Deutsche Goldschmiede-Zeitung*, the following plan of operation may be recommended.

The handle must first be thoroughly scratch-brushed with a sharp brass wire brush and soap and water; the wood may be wetted to the extent that the moisture penetrates into it. Then the handle

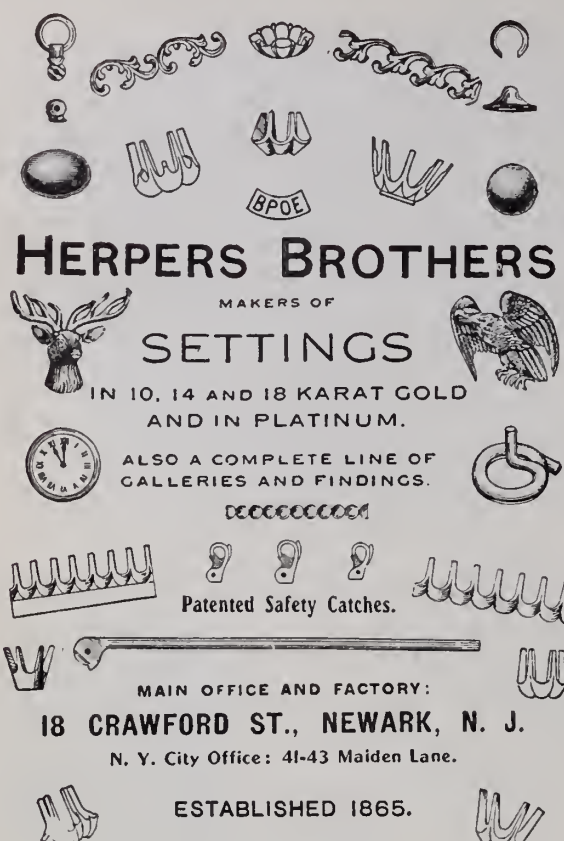

FIG. 2.

is dried off somewhat with a clean cloth; on a piece of paper a little heap of the finest washed, best graphite is meanwhile made ready, then with a narrow, hard-bristle brush dip into the graphite and vigorously brush the wooden object until it has become gradually and uniformly coated with the graphite and assumes a shining black appearance. Not the smallest spot must remain uncoated with graphite. The graphite must not be lightly deposited on the object, but must, to a certain extent, be incorporated with the wood.

Before undertaking the graphitizing in the manner described, it is advisable, in order to establish contact points at different (three or four) places on the article, where they will be concealed and least conspicuous, to bore holes and insert copper wire pins (Fig. 1a).

We can even select a spot that may

ventually not be wholly invisible. In such case, after the object has been electroplated with copper, the wire may be snipped close off, the place carefully hammered down and led over, and then, when silvering is completed, it will not be very conspicuous.

In this manner several contact points are prepared, if possible, equidistant from one another. Inasmuch as the electro-deposit of copper always starts from the contact points and gradually grows together, it will be evident that with several contact points, the work will be completed much more rapidly than if we have but one or two such points.

To simply unwrap the object to be plated at a convenient point in the sus-

FIG. 3.

ending wire, and by this means to hang in the bath would be a great mistake; the elastic object would grow onto the suspension wire, which could not be detached without injuring the deposit.

Having prepared the contact points in the manner described, the graphitizing must be effected with extraordinary care, so that the point of contact between the wood and the copper may also be thoroughly graphitized, in order that no interruption of the contact may here occur.

The article being thus thoroughly graphitized, special attention being bestowed on depressions and elevations, to see that they have also taken the graphite, the article is ready for the following electroplating: A suitable plating bath for this purpose may be made up as follows: One liter (1,000 parts) water, 200 grammes (200 parts) crystallized sulphate of copper, and 20 grammes (20 parts) sulphuric acid, 66 per cent., free from arsenic.

First, pour the water into an earthen ware jar or bowl, then carefully stirring the while, the sulphuric acid; next add the sulphate of copper, stirring until it is dissolved. A slight remaining undissolved excess of sulphate will do no harm.

To accelerate the solution a little heat may be applied. For such a walking-cane handle we require two copper anodes, as heavy as possible and of pure copper, preferably electrolytic copper, of a length corresponding to that of the suspended cane handle. The anodes are not hung from thin copper wires, but from sheet metal strips, the thin wire being very easily cor-

roded and affording bad contact. It is best to immerse only to its upper edge of the anode (Fig. 2).

The bath being so far prepared and furnished with two anodes, we take the graphitized cane handle and connect the contact pins with longer wires, by means of which the handle is suspended from the goods rod. As the wooden object does not sink in the bath it may be weighted with pieces of lead or iron. A sufficiently heavy piece of porcelain may also be used for this purpose.

Iron and lead must first be coated with a dense, well-covering varnish (thoroughly dried), so that no copper will be deposited on them.

Fig. 3 shows us the cane handle suspended by means of its three prolonged contact points. To the central suspension contact we attach a wire ring (Fig. 3a), which must be so large that it does not come in contact with the article itself and leaves sufficient space to prevent copper deposited on the ring during the process coming in contact with the deposit on the article itself and growing in with it; moreover, the whole must be so firmly held in the wire that possible vibrations could cause no contact between the ring and the object. To *b* we then attach a sufficiently heavy piece of lead, iron, etc., which sinks and holds the whole in the bath. Should this not suffice to retain the object in a vertical position in the bath, we can effect a similar arrangement from the side contact points.

The current we limit to four volts, and the object must not be placed too near the anode; at least, 10 centimeters (four inches), but not more than 15 centimeters (six inches), away from it.

We shall then note that the accumulation of the deposit commences at the contact point and slowly but surely spreads over the object, finally uniting. At this point it is necessary to carefully watch the strength of the current; it is preferable, rather, to allow it to fall off a little than to exceed the four volts, otherwise the deposit will be too slack, with a weaker current; we obtain a more homogeneous deposit, which, from the standpoint of durability, and as regards subsequent treatment, is of material advantage.

A walking cane handle, after six hours, with an initial current of four volts, decreasing to two volts, was thoroughly covered, on all sides, with copper, so that I could smooth it over with a very fine, easy file, which is unavoidably necessary, the deposit being always somewhat warty.

On account of this filing, however, it is necessary that the deposit is of sufficient thickness, otherwise it will be injured by it and the entire work, as a consequence, destroyed, for as soon as the deposit rises or flakes off at any one point it can be peeled right off, because no intimate intergrowth with the object has been effected, only an enveloping of the latter. This enhances the importance of a thoroughly connected and uninjured coating.

The copper anodes, during the process, will have considerably diminished, and if they have become brittle and spongy should be replaced with new ones. I may add that those undertaking this work must notice that too powerful a current will entail

a loose, even a spongy, deposit, while too weak a current will excessively prolong the working period and difficulties may also occur in regard to the coalescing of the deposit.

A proper regulation of the current is, therefore, a fundamental condition for the success of the work. I have not considered here any grinding and polishing of the deposit, inasmuch as this requires a much heavier deposit and much longer time.

We have now reached a point at which the gilding or silver-plating of the object may be undertaken with but little difficulty. For this purpose it is advisable, as already often described, to amalgamate the covered article before gilding or silver-plating it, and then finishing it in the familiar manner.

Should the later deposit become matt, it is advisable not to render it matt with the centrifugal brush, but to employ the rouge stick, as the force of the centrifugal brush is too liable to injure the metal coating.

The Clock That Ticks.

AMID the shadows of the room,
When ghostly moonbeams fall,
A cheering "tick, tock" breaks the gloom;
The clock against the wall
Speaks through the night as seconds fly,
And hours on hours roll,
As if a friendly spirit nigh
Addressed the lonely soul,
Within the clock is genius throned,
Near human is each wheel,
And by its ticks are monotoned,
Emotions that seem real.
It tries to speak in knowing tongue
Of men and deeds and kings,
Of his'try since the world was young,
Of joy, or sorrow's flings.
"Tick, tock" it tells the tale of time;
"Tick, tock" in steady rote,
Until, as lulled by music chime,
To dreamless sleep we float,
As slumber touches down the lid,
In peace that sweetens rest,
"Tick, tock" it says, "see what I did;
Tick, tock, I did my best."
And now they've made a clock all mute,
As voiceless as the dead;
No more shall seconds give salute,
But silent pass instead.
And ever through the day and night,
As time goes on apace,
No ears shall mark its steady flight,
As soundless seconds race.
We'll keep the good, old-fashioned clock,
No fol-de-rols or fads;
We want the one that says "tick, tock,"
The timepiece of our dads.
And as we wind it every day
We'll feel a grateful glow,
That Time can never sneak away,
For we can hear him go.

—Philadelphia Ledger.

Watch Once Owned by Governor Trumbull.

SEVERAL old watches of considerable historic interest have been acquired by William Henry Shelton for exhibition in the museum at the Jumel mansion, on Washington Heights, New York, once General Washington's headquarters. Not the least interesting is a French watch loaned by Mrs. Benjamin F. Church. This watch, which is still in an excellent state of preservation, was at one time owned and carried by the first Governor Trumbull of Connecticut, of whom Mr. Church is the great-great-grandson.

Homer Humphreys recently moved from La Conner to Burlington, Wash.

THE PENNSYLVANIA WATCH CASE COMPANY
YORK, PA.

NEW YORK OFFICE. 65 NASSAU STREET

 KNOWN THE WORLD OVER

Beautifully adapted for the jeweler's stock and show case display—the New Pocket Edition Gillette Safety Razor is becoming an important feature in the best retail jewelry stores.

The demand over the retail counter is astonishing. Every old Gillette user wants the New Pocket Edition and it makes new friends at sight.

The set consists of handle and blade box, either triple silver-plated or 14-k. gold-plated. The pocket case is of gold, silver or gun metal—plain polished or richly engraved in Floral or Empire designs. It is so neat and compact that it will fit like a card case in the waistcoat pocket or slip into the side of a travelling bag—the blades are fine. Prices, \$5.00 to \$7.50.

For the special use of the jewelry trade, the Gillette Company has designed a tray lined with purple velvet, size of the regular watch tray—contains wells for twelve razors. These trays are made in various hardwood finishes to match the store fixtures and are shipped free of cost with the initial order for a dozen razors. Aside from the sales of the razor, the business in blades is a steady income for a store.

Two additions to the Gillette line this season are the Gillette Brush—a brush of Gillette quality, bristles gripped in hard rubber; and the Gillette Shaving Stick—a soap worthy of the Gillette Safety Razor. The stick is enclosed in a sanitary nickel box: both soap and brush are packed in attractive cartons. They will be welcomed by Gillette users everywhere.

Write us for full information. Get our suggestions on popular assortment. Talk to your jobber about it.

WHAT SOME LEADING WATCH FACTORIES OF THIS COUNTRY THINK OF Fulcrum Watch and Clock Oil

THE NEW ENGLAND WATCH CO. says: "It is first-class in every way."

THE E. HOWARD WATCH CO. says: "We consider yours an improvement over any domestic oil we have ever seen."

THE SOUTH BEND WATCH CO. says: "We have completed a test with your watch oil, in extremes of temperature and other conditions, and are pleased to report the result of the trial is most satisfactory."

Find another Watch or Clock Oil which has ever received such favorable comment from people who know.

Fulcrum Oil positively will not gum — will not evaporate — will not discolor or become rancid in any length of exposure — will not corrode the pivots, because it is free from acids of all kinds.

It is the only Watch or Clock Oil ever known which is absolutely free from acid, AND WE CAN PROVE IT.

DELFT JEWELRY—For the Summer Trade

DELFT WARE has long been in popular favor; in fact, during the centuries that the Dutch have made Delft goods they never lost their popularity. The reason lies in the fact that Delft possesses a peculiar charm, an individuality, which is lasting; the rich shades of deep blue on the snowy white enamel are typical of that cool, cleanly refinement so characteristic of the Dutch people. Delft is therefore especially appropriate for Summer wear.

This unique line of novelties is done on sterling silver; the patterns are all taken from original Dutch tiles. Let us send you samples of these Delft goods. We furnish them as belt pins, Dutch collar pins, hat pins, veil pins, waist sets, cuff and collar sets, etc.

That Increase Their Business up to 100%

STORE OF WILL H. BECK CO., SIOUX CITY, IOWA.

A Perusal of Our Customers' Letters Should Convince You of their Success

[Extracts from Letter.]

SIOUX CITY, Ia., Feb. 1, 1900.

THE ARNSTINE BROS. Co.,

Cleveland, O.

Gentlemen:—After a very busy Holiday Season, we desire to say that our 1908-9 Catalog has certainly again done the business for us. This was our Seventh Annual Catalog and we were taxed to our capacity to fill our orders during the entire month of December and during January have been receiving mail orders every day.

We are, with best wishes,
Sincerely yours,

WILL H. BECK, Co.,

Will H. Beck, Pres.

This firm used The Arnstine Bros. Company's Catalogs in 1904, 1905, 1906, 1907 and 1908.

LANCASTER, PA.,
Jan. 9, 1909.
(Copy of original letter.)

ARNSTINE BROS. Co.,
Cleveland, O.:

Gentlemen:—The catalogs of 1908-9 were far ahead of anything you have ever before produced, both as a book and a business bringer. Printed matter and cuts furnished were of high character and were used with beneficial results, and could be used with stimulating effect throughout the year. My business was very good, and I felt the pressure of catalog business from the time of their distribution.

Wishing you much success for the coming year, I am,
Yours truly,
S. KURTZ ZOOK.

STORE OF S. KURTZ ZOOK, LANCASTER, PA.

The Catalogs sent out by this firm since 1904 were made by The Arnstine Bros. Company.

We are represented in every State in the Union. If you are interested in our proposition, and will notify us, our representative will take pleasure in calling on you and explaining our method.

LAKEWOOD

The lines are complete in each pattern. The beauty of this plated ware pleases particular people at sight—its splendid wearing qualities will make them permanent customers.

All our regular Spoons and Forks receive a sectional deposit on the parts most exposed to wear, enabling us to guarantee that our goods will strip 25% more silver than standard plate and will outwear any and all other brands of silver plated ware.

WARREN

The WARREN Pattern Sterling Silver Tableware must have real merit, having withstood the vagaries of fashion practically unchanged for over 150 years.

It is still in demand by those who appreciate the dignity of pure silver, nice proportion, and grace of outline.

With a family crest, or a cipher monogram, an Old English or even a plain script initial nicely engraved on its clean surface, the harmony is complete and above criticism.

TRADE  MARK

Factory: North Attleboro, Mass.

AS the season is now at hand for sporting and athletic contests of all sorts, we wish to advise the Trade and Club Committees before deciding on cups and trophies, that we carry a full line of cups, both plain and artistic in shape and design which we offer at special low prices.

We will be pleased to furnish at all times, on short notice, designs and estimates of cups and trophies, free of charge.

Nothing is too large or too small for us.

We also carry in stock a large selection of toilet ware in all its branches for the accommodation of tourists, which we can supply on short notice.

We further extend to the Trade a cordial invitation to visit our factory and showroom should they happen in Providence during the Summer season, as we have an attractive line of new samples of hollow ware, plates, fancy pierced and engraved baskets for the Fall Trade.

“Things do not turn up in this world until somebody turns them up.”

FONTNEAU & COOK CO.

have been turning things up. They have been working unceasingly with the object in view of giving the public goods that have quality, goods that will sell. We have not been waiting for others to turn things up, neither have we been waiting for them to turn up themselves. We have turned them up by hard, consistent labor, and by such means have been able to place the finest line that there is on the market.

We have developed a line that is a seller. If you handle our line it will turn up an increase of business for you.

THE KREMENTZ COLLAR BUTTON

GOES ROUND THE WORLD

ITS FAME—

Wherever there are collars there are Krementz Collar Buttons. They are known the world over—the only ones that have an international reputation. With such recognition and demand, all you have to do is carry them. They sell themselves.

QUALITY MAINTAINED—

The Krementz Collar Button never disappoints. Unequaled in construction and finish, its quality always has and always will be maintained.

ASSAY—

The Krementz Collar Button does not take advantage of the elastic leeway allowed by law. There is really no reason why a solderless collar button should assay a whit less than stamped. You can depend upon it that

Krementz 14-Karat Collar Buttons will assay 14-Kt. or $\frac{584}{1000}$ Fine.

Krementz 10-Karat “ “ “ “ 10-Kt. or $\frac{416}{1000}$ Fine.

You will note that articles assaying 9 to 9½ Karat or 13 to 13½, and sold as 10-Karat or 14-Karat respectively, save the makers a profit.

ROLLED PLATE LINE—

Krementz Rolled Plated Collar Buttons and Studs are made with regular Krementz 14-Kt. stock; which is sweated, not soldered on composition base. Exhaustive tests show Krementz Plate is much heavier than is used on any other rolled-plate jewelry. Their great popularity in hot countries (where perspiration destroys ordinary goods), is largely owing to the thickness and quality of Krementz Gold Plate, similar to that used on highest quality filled cases.

We Are Now Making

a line of

LADIES' GOLD SHOE BUCKLES

That in beauty and variety of design is unequalled. The line includes examples of the best class of engraved, engine turned and applied work, jeweled and plain, at a wide range of prices.

These goods are now in great favor amongst careful dressers and the demand for them increases daily. You should include a few in your stock. You would find them good sellers.

Write for samples on memorandum.

B. M. SHANLEY, JR., CO.

Salesroom: 527 Fifth Ave., New York

Office and Factory: 11-13 Governor St., Newark, N. J.

DO YOU REALIZE what it means to manufacture gold chains of excellent quality and faultless construction and sell them at prices much below what the retailer ordinarily pays for chains of similar quality? It means that we have a well organized factory and prefer selling these chains ourselves directly to the trade, thereby giving you the benefit of what it would cost to maintain a necessarily expensive organization of traveling men.

THAT NEW CHAIN we are exploiting is solderless and flexible, without stringing, 15-inch lengths only. **IT SELLS AT SIGHT.**

Write for a sample.

THE "EDGEWOOD" BAR PIN

¶ The "Edgewood" Bar Pin, shown above is one of our latest productions.

¶ The design is patented, and the pin will be made in fourteen karat gold only and sold exclusively by us to the finest class of retail jewelers.

¶ This means that you can assure your customers of having, in this article, a pin that will not be duplicated in an inferior grade of goods.

¶ These pins are made in four stock colors of enamel: Light Blue, Navy Blue, Black and White, but can be furnished in any color desired.

¶ We suggest an effective set, comprising two No. 1090 and one No. 1091.

¶ Upon request, we will be pleased to send a selection of these goods on memorandum.

¶ We prepay all packages: Let us prepay one to you.

THE JEWELERS' CIRCULAR

WITH WHICH ARE CONSOLIDATED
 THE HOROLOGICAL REVIEW
 THE JEWELERS' WEEKLY THE JEWELERS REVIEW

VOL. LVIII. WEDNESDAY, JULY 21, 1909. No. 25.

Richly Jeweled Pectoral Cross Presented to Archbishop O'Connell.

ARCHBISHOP William H. O'Connell, of Boston, who returned from Europe recently, brought with him a magnificent pectoral cross, the gift of Pope Pius X., who thus saw fit to honor the distinguished Massachusetts prelate on the occasion of his 25th jubilee. The cross, which is a beautiful specimen

ad limina to the Pope and also to attend the 60th anniversary of the American College. The cross was presented to him personally by his holiness.

Fine Mexican Silver Repousse Casket.

IT will doubtless interest our readers to see an old example of the art of the silversmith from our sister republic, Mexico. This work, which is illustrated

one time in an exhibition held in Madrid. The ornamentation is so clearly shown on the fine photograph that it does not require any detailed description. C. A. B.

A Handsome Elks' Emblem Made by an Indiana Jeweler.

ONE of the most beautiful emblem charms that has ever been manufactured in Evansville, Ind., was recently displayed in the window of Kruckemeyer & Cohn's jewelry store during the last reunion of the Elks in that city.

This piece, which is in the form of an Elk charm, is of solid gold and weighs 111 pennyweights. It contains 42 diamonds, whose

PECTORAL CROSS PRESENTED TO ARCHBISHOP O'CONNELL (EXACT SIZE).

of the goldsmith's art, is exquisitely carved and measures about five inches in length. The tree and arms contain large rubies surrounded by diamonds, while in the center is a rare cameo of the Madonna.

The archbishop went to Rome to pay his

on the front cover in the shape of a handsome casket, with lock in fine silver repousse work. It is a product of the 16th century.

That this casket is regarded as a prominent specimen of Mexican workmanship is authenticated by the fact that it figured at

A HANDSOME ELKS EMBLEM.

aggregate weight is 14½ carats, and also contains two beautiful rubies; the total value of the piece is placed at \$1,800. The body of the gem is made of 22-karat gold.

The piece, as will be seen from the illustration herewith, is of chaste design, perfectly finished and deserves the favorable comments which it excited.

The following undersigned jewelers of Altoona, Pa., have agreed to close their places of business at 12 o'clock, noon, on Fridays during July and August for the employees' half-holiday, except pay weeks, July 9 and Aug. 6; Clayton G. Brenneman, M. Berman, George M. Bitner, Webb jewelry store, C. W. Mallory, manager; W. C. Davis, S. Silverman, G. Rudisill, W. F. Sellers & Co., C. F. Wood, Shannon Bros.

OLD PROVERBS

"HONESTY IS THE BEST POLICY"—Unquestioned quality of our 14K. and 10K. gold rings.

"EXPERIENCE IS THE BEST TEACHER"—44 years' experience in gold ring making.

"CONFIDENCE IS THE COMPANION OF SUCCESS"—We have some customers who have been selling our rings ever since we first made them. They are still in business, and so are we.

"VARIETY IS THE SPICE OF LIFE"—A most varied assortment of rings, for man, woman or child.

"A SINGLE FACT IS WORTH A SHIP LOAD OF ARGUMENTS"—Year after year, an increased sale of Larter rings.

"BUYERS WANT AN HUNDRED EYES—SELLERS NONE"—Be wide awake to see the many desirable rings we make.

The Maximum and Minimum Provisions of the Tariff as Applied to the Jewelry, Clock, Watch and Kindred Schedules.

WASHINGTON, D. C. July 14.—As the tariff bill has gone back to conference with 847 amendments, and with the House in the mood that it is, with the House conferees consisting of Representatives Payne, Dalzell, Bartell, Calderhead, Clarke, Underwood, Griggs and McCall, it may be well

to take up for comparison the rates as proposed by the House bill, with its maximum and minimum provisions, as afforded by Sec. 3 of that bill. For instance:

Under paragraph 92 are clock cases, with or without movements, composed wholly or in part of china, etc., on which the minimum rate would be 60 per cent., the maximum 75 per cent., or an increase of 15 per cent.

Other items of interest are the following:

	Minimum. Per cent.	Maximum. Per cent.	Increase. Per cent.

New Members Elected and Rewards Paid by the Jewelers Security Alliance.

The regular monthly meeting of the executive committee of the Jewelers Security Alliance was held on Friday, the following members being present: Chairman Butts, Vice-Presidents Wood and Champenois, Treasurer Karsch, Secretary Noyes and Messrs. Alford, Bowden, Brown and Stern.

The following new members were admitted:

Cole & Hull, Winterset, Ia.; R. S. Dillon Co., Wheeling, W. Va.; J. W. Haskell, Northeast, Pa.; R. Hille, Menominee Falls, Wis.; Kruckeneyer & Cohn, Earlington, Ky.; LeBolt & Co., Chicago; George A. Nami, New Orleans, La.; R. D. Worrell, Mexico, Mo.; C. B. O'Neill, Clymer, Pa.; F. B. Smith, Montrose, Pa.; T. G. Bellamy, Slater, Mo.; S. M. Feldman, Seattle, Wash.; F. L. Giesey, Chicago; A. C. Fuchs Co., Stoughton, Wis.; Lebolt & Co., New York; E. E. Crofut, Malta, Mont.; H. S. Bailey, San Francisco, Cal.; Jacob Bersche, Waterloo, Ill.; T. S. Euper, Brownwood, Texas; Gordon Jewelry Co., Ltd., Shreveport, La.; Nat'l Langford, New York; E. E. Wilcox, Avoca, Ia.; E. L. Graves, Camp Point, Ill.; W. D. Mackay, Detroit, Mich.; A. J. Rankin & Co., White Sulphur Springs, W. Va.; R. V. Fegley, Mt. Joy, Pa.; P. W. Folsom, Ashland, Nebr.; J. L. Wanne, and W. N. Warren, Paducah, Ky.; J. A. Peterson, Elk Horn, Ia.; J. White & Son, Rolfe, Ia.; A. E. Robinson, Bay Shore, N. Y.; Worrell-Bass Jewelry Co., Louisiana, Mo.; Harry Engle, Trenton, Mo.; A. Green, Spencer, N. C.; Flory-Royall Co., Newport News, Va.; E. H. Lefferts, Council Bluffs, Ia.; Upson-Rogers Co., Waterbury, Conn.; Dahl & Fredin, Minneapolis, Minn.; Kelly-Parritt Co., Des Moines, Ia.; Layman & Straus Co., Newark, N. J.

The following rewards were ordered paid:

No. 87.—To Detectives Reagan and O'Connor, of the San Francisco police force, for the arrest and conviction of Otto A. Ross for breaking the show window in the store of M. Farber, 954 Market St., Feb. 12, and stealing about \$175 worth of merchandise. The attention of the police was called to the reward offer, and, Feb. 15, Ross was arrested while endeavoring to pawn some of the stolen property, and, on conviction, was sentenced to five years in State's prison. A large part of the stolen property was recovered from various pawnshops, and also property which had been stolen in the same manner from the Davis Co., W. Glindemann and C. A. Kline & Co.

No. 88.—To Officers P. D. Ward and Frank Munsil, of the St. Louis police force, for the arrest and conviction of Harry Dickerson, Emil Dillard and John W. Lynch, who broke into the store of the W. F. Mueller Jewelry Co. on the night of May 4, and stole \$150 worth of miscellaneous jewelry. All the property was recovered and two of the prisoners were sentenced to one year in the workhouse and the third one to three years at the Missouri Training School for Boys, he being under age.

At the meeting a letter was presented from A. W. Hull, Wallingford, Conn., stating that his store was broken into by burglars and considerable millinery goods stolen from the concern which occupied the store jointly with him, but not even a collar button was taken from his stock, which he attributes to the presence of the Jewelers Security Alliance signs, and expressing his thanks to N. H. White & Co., who influenced him to become a member.

Albert F. Birkett, who was employed by E. C. Ely, Carbondale, Pa., for nine years, has purchased Mr. Ely's store and fixtures and will continue the business on Salem Ave. Mr. Ely continues to devote considerable time to other business interests, but for a while will remain at the establishment of Mr. Birkett.

LETTERS TO THE EDITOR.

President Evans of the New York Association Explains Its Attitude on Question of Affiliation With the A. N. R. J. A.

UTICA, N. Y., July 14, 1909.

EDITOR THE JEWELERS' CIRCULAR-WEEKLY: I am inclosing you a copy of a letter which I have mailed to the president of the Cincinnati Retail Jewelers' Association, which I wish you would read and publish if you see fit.

The New York State Association has no complaints to make regarding the national association, and has no reason to criticize or censure the national association for any of its acts. We did not affiliate because it did not seem wise to us to do so in view of the fact that there was a difference of opinion regarding same.

You are familiar with some of the jewelers who are identified with the association, and realize that their non-affiliation was not because of financial reasons or unwillingness to unite with the other States.

Yours very truly,

C. T. EVANS.

THE ENCLOSURE.

July 10, 1909.

John Bertling, President Cincinnati K. J. A., 1115 Vine St., Cincinnati, O.:

Dear Sir—I am in receipt of a letter from the secretary of the Cincinnati Retail Jewelers' Association, in which the statement is made that New York State had also withdrawn from the National Retail Jewelers' Association.

I wish to correct this impression, as it is not a correct one. New York State was organized on March 25, 1909, and has never affiliated with the national organization; therefore no withdrawal could be possible. We did not affiliate at our organization meeting because there seemed to be a difference of opinion as to the advisability of us doing so at that time.

The national organization informed us that, if we affiliated, that they would solicit members for us in our State. This we did not wish to have them do, as we resolved when we organized that we would build our organization from selected material; going slow, if necessary, but nevertheless making each member as gained an additional strength to the organization.

Many maintain that "in union is strength." None can deny this. But we maintain that it is much better for us to conduct our own affairs during the period of formation than to turn over the management to those who were not familiar with the conditions as they exist.

We are selecting the best jewelers throughout New York State, and are presenting the advantages of membership in our association, and are meeting with pronounced success. Our membership has been increased over 100 per cent. since our organization; workers are developing in the different cities; local associations have been formed in Syracuse, Albany and Elmira, which have all started off under most favorable conditions.

Your proposition to have an official organ I do not agree with, for the following reasons:

I believe in giving matters of interest to the retail jeweler the greatest publicity possible. The trade papers are very willing and anxious to publish news items of this kind, which are read by members of associations and those who are not members. Such publicity furnishes information to the membership of what the officers of the various associations are endeavoring to do in behalf of their associations, and advertise to the non-member the fact that these organizations are well worth belonging to. Many applications are the natural consequence.

Another objection to an official organ, is the fact that one man cannot very well voice the opinions of a large association, and his enthusiasm, often misplaced, will lead him to make statements and claims which cannot be substantiated, and which consequently result in confusion.

I believe that organization work is along proper channels. I believe that conditions are greatly improved since these organizations have been

formed. I believe that the jewelry trade is going to elevate itself to the benefit of the individual socially and financially.

New York State has no quarrel with the national association. Mr. Archibald understands the situation and, although disappointed that we did not affiliate, he knows that our executive committee, composed of representative jewelers, decided that was unwise at this time. Our non-affiliation was not because of the expense of such membership, although I understand that many have inferred to that effect. At our organization meeting it was suggested that we should make our annual State dues \$1, with the idea that a larger proportion of the 4,000 jewelers of our State would join than if a higher rate was in effect. The gentleman who suggested this did not do so in his own behalf, or of those present. He has since taken his family on a European tour, which would indicate that \$1 more or less was not an item of the consequence that some would have it appear. The promoters of our organization realized that for legitimate expenses, such as printing, postage and so on, that \$2 would be absolutely necessary. The discussion regarding the dues occupied possibly three minutes of our meeting, so that it is apparent to all that the question of annual dues was not a momentous one.

When we stop to consider that the wave of organization has swept the country during the past few years, and that practically every officer who is serving in these organizations is new in such work, it seems wonderful to me that the various trade abuses existing have been so materially decreased and the general conditions so much improved.

To my mind the local society has a great work to accomplish, that of bringing about a friendly feeling among those engaged in the same line of business, and whose interests are identical. Much of the cutting of prices is eliminated by jewelers becoming acquainted and comparing notes.

I wish for your association an abundance of success, and will be glad to hear from you at any time in relation to the various questions engrossing the attention of the retail jewelry trade.

Faithfully yours, CHARLES T. EVANS,
President New York State Retail Jewelers' Association.

Jewelry, Clocks, Watches, Silverware and Kindred Lines Exported from New York.

WASHINGTON, D. C., July 14.—The following were the exports of jewelry, silverware, optical goods, clocks, watches and kindred lines from the Port of New York for the week just ended:

Athens: 1 case silverware, \$433.
Basle: 1 case watches, \$275.
Berlin: 1 case silverware, \$125.
Buenos Ayres: 17 cases stereoscopic goods, \$140.
Bombay: 21 cases clocks, \$376.
Calcutta: 5 cases clocks, \$177.
Cape Town: 45 cases clocks, \$917; 5 cases watches, \$600; 1 case watches, \$544.
Colon: 2 cases jewelry, \$218; 2 cases watches, \$100.
Hamburg: 4 cases plated ware, \$276; 21 packages jewelers' sweepings, \$5,500; 5 cases optical goods, \$875.
Havana: 3 cases plated ware, \$135; 1 case jewelry, \$182; 46 cases clocks, \$781; 5 cases plated ware, \$725.
Havre: 3 cases clocks, \$665; 1 case optical goods, \$125.
Iquique: 1 case optical goods, \$132.
Liverpool: 10 cases clocks, \$1,896.
London: 1 case watches, \$327; 41 cases clocks, \$1,137.
Melbourne: 106 cases clocks, \$1,953.
Port Antonio: 1 case clocks, \$128.
Singapore: 1 case plated ware, \$115; 17 cases clocks, \$361.
Yokohama: 16 cases clocks, \$312.
Zurich: 1 case clocks, \$200.

H. H. Houghton, 25 years old, who was said to be a jewelry salesman of a Cincinnati house, was found dead in bed at the Tremont Hotel in Mansfield, O. His room was filled with gas and the keyhole had been stuffed, leading the authorities to believe that he had committed suicide.

ELSIE BEE'S FASHIONS.

ATTRACTIVE NOVELTIES NOTED IN A LADY'S RAMBLES AMONG THE JEWELERS

THE diamond bows in which silk ribbon is introduced are increasing in variety of design. They are too effective not to be fashionable.

Barrettes, having reached the extreme limit of size, remain unchanged, save for novelty of designs.

A vanity case, oblong in shape, is of the broad basket design in polished gold. Each of the apparent interstices between the strands of the braiding is filled with a diamond or a ruby.

The large two-prong hairpin is appearing in all manner of outlines and decorations. Of shell, gold or jet, it is banded with engraved or polished gold, or set with small diamonds in artistic effect.

The gold or silver case for glasses has been superseded by the leather one trimmed with plain or engraved gold. It is a great improvement on the metal case, which was extremely heavy. Auto goggles come in similar cases.

Judging from the supply of that little veil pin of the hairpin description, seen in a prominent shop, the demand is not on the wane. There are no new designs. Plain gold and tiny pearls constitute the only materials used.

A beautiful pendant, which may be detached and worn as a brooch, is in an irregular wreath design in tiny diamonds, a central motif being wonderfully set off upon thread-like bars of platinum that fill in the circular space of the wreath. The whole has a dainty, lacy effect that is charming.

A new vanity case, made in polished or engraved silver, appeals to the buyers of inexpensive jewelry. It is round and flat like a watch, and is thus convenient in size and shape to be worn on a chain or carried in a bag. It is constructed in two different styles of clasp—one of the push-button kind, such as is used upon a watch, and the other in which the small lid springs open on one side. Within are mirror and powder puff.

The evolution of the mesh bag is one of the most interesting developments just now, and some of the new designs are marvels of beauty and art. One of these is a striped effect in platinum and red gold, as fine and pliable as a piece of cloth. The bar is exquisitely wrought in the engine turned engraving, and the chain is in simple large links. Others are in green or yellow gold in herringbone and basket weaves, the mountings being handsomely engraved and pierced. The silver bags are even more numerous than the gold ones, and they all possess a common noticeable feature—they are larger than formerly, ranging up to seven and eight inches in length, with a comparatively increased depth.

Schedules for Watches, Jewelry and Kindred Lines in Proposed Tariff for the Philippine Islands.

WASHINGTON, D. C., July 19.—The Payne-Aldrich-Taft tariff bill is attracting so much attention that little, if any, attention is being paid to what is being done with the Philippine tariff, which is also before Congress for revision.

Present paragraphs 24 and 25 it is proposed to combine into a new paragraph to be numbered 13. The rate has been left unchanged, but to the paragraphs have been added diamond dust and bort, which do not appear anywhere in the present tariff. The paragraph, as recommended by the Committee on Philippines, will read as follows:

"Precious and semi-precious stones, including jade, tiger-eye, chalcedony, opal and similar stones not otherwise provided for, any of the foregoing cut or uncut, but unmounted and unset; and not further manufactured, pearls unmounted and unset, diamond dust and bort, 15 per centum ad valorem."

The imports last year under this paragraph included \$58,425 of stones, \$9,238 of pearls.

It is proposed to change the rate of duty on doublets and other imitations of precious and of semi-precious stones, and imitation pearls, unset and unmounted, from 15 per cent. to 30 per cent., and to change the paragraph number from 26 to 14.

It has been found that the present system of assessing duty on glass, crystal and similar articles by their gross weight is inequitable, as the common and cheaper articles are usually much heavier than those of finer manufacture. They propose to substitute ad valorem rates, believing they will result in larger importations and increased revenues. It is proposed now to place a duty of 25 per cent. ad valorem on decanters, glasses, tumblers, cups, goblets, saucers, plates, dishes, pitchers, bowls, candlesticks, lamps and other articles of table service when composed of glass, crystal or glass imitating crystal, when neither cut, engraved, painted, enameled or gilt. When they are ornamented in any of these manners, then they are to be dutiable at 50 per cent. ad valorem.

It is proposed to change the rate on spectacles, eyeglasses and goggles, also lenses for same, either mounted or unmounted, from the present rate of 25c. per dozen to 25 per cent. ad valorem, this to include also the value of the mountings. The imports of the cheaper grades are very large, and they would not be penalized as they are under the present rate.

Flower stands, vases, urns and all similar articles of glass for toilet and decorative purposes, when neither cut, painted, enameled or gilt, will be dutiable at 40 per cent. ad valorem; and if cut, painted, enameled or gilt, 60 per centum.

A new paragraph has been introduced for manufacturers of glass not otherwise provided for or in which glass in the component material of chief value, at 35 per centum ad valorem.

The rate of gold, platinum and alloys thereof will be as follows:

In jewelry, plate and goldsmith's wares,

not otherwise provided for, \$12.50 per hectogram.

The imports last year under this rate and classification were valued at \$19,271. The duty collected was \$5,067, or an equivalent to 26.3 per cent. ad valorem.

The same set with pearls or with precious stones or semi-precious stones, \$25 per hectogram.

The same set with doublets or with imitations of pearls or precious or semi-precious stones, \$17.50 per hectogram.

Articles or manufactures of gold or platinum (except jewelry), composed in part of other material, in which the component material of chief value is gold or platinum, not otherwise provided for; pellets for use in dentistry, solder and foil, \$3 per hectogram.

Silver and alloys thereof:

In jewelry, plate and silversmith's wares, not otherwise provided for, \$1 per hectogram.

The same set with pearls or with precious or semi-precious stones, \$5 per hectogram.

This rate is proposed as an equivalent of 33 per cent. ad valorem. At the present time the rate is \$15.50, and is 104 per cent., being practically prohibitive.

The same set with doublets or with imitations of pearls or precious or semi-precious stones, \$5.

This will be an equivalent to 27.5 per cent., as against the present rate of \$8, which amounts to 43.1 per cent.

Articles or manufactures of silver (except jewelry), composed in part of other materials, in which the component material of chief value is silver, n. o. p. f., solder and foil, 40c. per hectogram.

Gold and silver plated wares:

For jewelry, \$2.40 per kilo; ad valorem equivalent to 26.7 per cent.

In lamps, n. o. p. f., picture frames, knives, forks and spoons * * * 60c. per kilo.

Wares not otherwise provided for, \$2 per kilo.

Under the present tariff in paragraph 238 watches, watch cases, movements and parts are dutiable at 20 per cent. Under (a) of the same paragraph parts for repairs and watch crystals are also dutiable at 20 per cent. Under 239 clocks and clock materials are dutiable at 25 per cent.; 240 provides the same rate for tower clocks, and 241 the same on chronometers and cases, crystals and other parts of same. It is now proposed to include all these in one paragraph, 184, which will read as follows:

"Clocks, chronometers, watches, cyclometers, pedometers, odometers and similar devices, and cases, crystals, movements, parts and accessories for any of the foregoing, n. o. p. f., 25 per centum ad valorem."

Watchmaker's, engraver's, jeweler's and glass cutting tools will be made dutiable at 20 per cent. ad valorem under paragraph 193.

Trinkets and ornaments of all kinds (except those of gold or silver, or of gold or silver plate, or in which the component material of chief value is amber, jet, jade, tortoise shell, coral, ivory, meerschaum or mother-of-pearl), including the weight of the immediate containers, \$1.25 per kilo.

Provided, that no article classified under this paragraph shall pay a less rate of duty than 30 per cent. ad valorem.

Amber, jet, tortoise shell, coral, ivory, meerschaum and mother-of-pearl:

(a) Unwrought, n. o. p. f., 15 per cent. ad valorem (present rate \$1 per kilo, or about 15.2 per cent.).

(b) Wrought, n. o. p. f., 35 per cent. ad valorem (present rate \$3.50 per kilo, or about 34.2 per cent.).

Shells, n. o. p. f.:

(a) Not further advanced in condition than polished, 10 per cent. ad valorem.

(b) Further advanced, manufactures in which shells, n. o. p. f., are the component material of chief value, 25 per cent. ad valorem.

Reservoir pens and parts and points thereof, of whatever material, 25 per cent. ad valorem.

The above is a new classification.

* * * Thermometers, appliances for sight testing, telescopes, microscopes and parts for same, 25 per cent. ad valorem.

It is proposed to place an export duty of \$2 per 100 kilos on tortoise and mother-of-pearl shells, and of 50c. per 100 kilos on other shells. This is proposed not only as a revenue measure, but with the view of encouraging the manufacture of the shells at home.

American Exposition to be Held at Berlin, Germany, April, May and June, 1910.

All arrangements have been perfected for holding an American exposition at Berlin in the months of April, May and June, 1910. This exposition is designed primarily as an exhibit of distinctively American products, and the management is especially desirous that American manufacturers of novelties take part. The intention is to make aparent to the people of Europe, and especially Germany, the importance and excellence of American manufacturers, and to this end the German committee will advertise the exposition throughout the German Empire and elsewhere and will cooperate with American manufacturers and exporters in every way to popularize and exploit American products.

Baron R. von Brandenstein is at the head of the German advisory committee, and Dr. George F. Kunz, of Tiffany & Co., New York, is at the head of the American committee, the headquarters of the latter being at 50 Church St., New York, and Max Vieweger is in charge.

It is announced that the price of space per square foot will be \$4, which will include all incidental expenses. Blank applications for space and all information in regard to the exposition may be obtained from Mr. Vieweger.

Donald Ellmore, Philadelphia, and Frank Sheldon, New York, who were recently held for examination as suspicious characters, while attempting to sell jewelry in Niagara Falls, N. Y., were exonerated and allowed to go by the police, Thursday last. The police learned that the jewelry in their possession was of little value, and there was nothing to show that they had not proper title to it.

Watchmaker Arrested at Wheeling, W. Va., Charged With Stealing from His Employers.

WHEELING, W. Va., July 17.—Fred Greis, watchmaker and engraver employed by Sheff Bros., of this city, has been taken into custody charged with robbing his employers. The arrest is considered important by the local police, who believe that it may later lead to the clearing up of a number of mysterious robberies that have been perpetrated in the trade. The exact amount stolen from Sheff Bros. is not yet known, and will not be until the stock has been checked.

The prisoner, who is but 24 years of age, came from New York to this city last June and brought excellent references from a well known firm, but these, Sheff Bros. say, were not verified. After his employment with the jewelers they claim that they began missing small articles, but he was not suspected. Sunday Greis went away to Cleveland, stating that he would be back Monday morning, but did not return until Tuesday, when he told a story of having been robbed by a negro of considerable jewelry.

Friday afternoon, when some jewelry and watches were missing, Mr. Sheff called in the police, who made an investigation, and suspicion pointed to the watchmaker. A warrant was sworn out and Greis was arrested at 9 o'clock this morning. After the man had been taken to jail, the police went to his room, and though they found only a small amount of jewelry, they say they found about 150 letters, many from his former employers, who complained of missing jewelry and asking Greis where it went. The police then visited the pawn-shops in the city and succeeded in finding a number of articles.

The police of Cleveland have been notified to look into the matter, as it is thought that the jewelry has been pledged in that city. Greis has refused to talk, except to deny that he is guilty.

Death of Solomon Weida.

READING, Pa., July 16.—Solomon Weida, who died in the Reading Hospital, Wednesday, from a complication of diseases, aged 84 years, was one of Reading's oldest and most favorably known citizens. Years ago he was a prominent jeweler. He was admitted to the hospital July 6.

Mr. Weida was born in the upper part of Lehigh County on his father's farm. He learned the jewelry trade at the store of John Stein, of Allentown. After he completed his apprenticeship he went to New York, and later to Rochester. In the Spring of 1848 he came to Reading, and, with George Stein, a partner, engaged in the jewelry trade at 625 Penn St. The firm dissolved partnership in a year, and Mr. Weida moved to 426 Penn St., where he opened another jewelry store. In 1885 he purchased the property at 545 Penn St., moved his family into the place and conducted a large business until he sold out to Rhode & Waterman, in 1872.

Mr. Weida's wife, Elizabeth (nee Haas), died in 1883, and he is survived by two children, Charles A. Weida and Katharine, wife of John B. Rasen, Select Councilman

of this city; one sister, Mrs. Hoffman, of Reading; four grandchildren and one great grandchild.

Paul W. Towner, Waverly, N. Y., Puts His Stock in the Hands of a Trustee.

WAVERLY, N. Y., July 15.—Paul W. Towner, jeweler in Broad St., has transferred his stock and other property to W. H. Wright, of Binghamton, acting as a trustee for creditors whose claims amount to about \$10,000.

Under the agreement Mr. Wright is to sell the stock and liquidate Mr. Towner's debts, as it is believed his affairs can be adjusted better for the creditors by a trusteeship than under bankruptcy proceedings or a receivership.

Mr. Towner has been in the jewelry business here since 1893. The business was started by W. H. Mendeville in 1892, and Mr. Towner became his partner 16 years ago, the style becoming Mendeville & Towner. The firm dissolved in 1899, since which time Mr. Towner continued alone.

Paul W. Towner was in New York this week, making his headquarters at the office of W. H. Wright, 65 Nassau St., who stated that the business is being continued as heretofore, and that Mr. Towner will assume control as soon as claims are met, which, according to present prospects, will be in a very short time.

Iowa Retail Jewelers Thank the Jewelers' Circular-Weekly.

STORM-LAKE, Ia., July 14, 1909.

Editor THE JEWELERS' CIRCULAR-WEEKLY:

At the fourth annual convention of the Iowa Retail Jewelers' Association a resolution was passed that we extend to you our thanks for the able assistance given the association.

We assure you that we appreciate the efforts put forth in our behalf.

Yours very respectfully,

IOWA RETAIL JEWELERS' ASSOCIATION.

By A. G. Hoch, Sec.-Treas.

Court Denies Motion for New Trial of John Nelson Convicted at Providence of Receiving Stolen Gold.

PROVIDENCE, R. I., July 17.—The case against John Nelson, the N. Main St. retail jeweler and refiner, which has been pending in court for more than a year, on the charge of his having received stolen scrap gold and gold-plate from the manufacturing jewelry plant of Fontneau & Cook Co., Attleboro, knowing the same to have been stolen, was advanced toward a final issue, yesterday, when Judge George T. Brown, in the Superior Court, denied a petition for a new trial. The case will in all probability now be taken to the Supreme Court.

The petition for a new trial was based largely on alleged newly discovered evidence. In the course of the rescript Judge Brown says:

At another trial the only purpose for which the newly discovered evidence could be used would be to contradict the evidence of Wallace in case he should appear and reaffirm his testimony given upon a former trial. At that trial he appeared before a jury a confessed thief. They had no right to convict the respondent upon his testimony unless it was corroborated, and they were so informed by the court.

How much it is reasonable to suppose upon another trial in the estimation of another jury the testimony of this confessed thief will be depreciated by the fact that since the last trial he has made conflicting statements or told another lie is somewhat speculative. The court will grant a new trial upon the discovery of new evidence when the evidence is of such a character that it is reasonable to suppose that another jury will reach a different result. It is seldom, however, that the court grants a new trial for the purpose of letting in evidence, merely of an impeaching character. In this case the newly discovered evidence would go simply to impeach the testimony of a confessed thief, and is not of such character as to warrant the granting of a new trial to enable the respondent to produce it at such trial.

It is claimed that William J. Wallace stole jewelry entrusted to him to work on and that he sold it to Nelson, who knew that Wallace had stolen it from the Fontneau & Cook Co., of Attleboro. In support of the motion for a new trial, affidavits of Maurice A. Murray and Cornelius H. Farrell were read to the effect that Wallace told them the jewelry was not stolen but was taken by permission of the Fontneau & Cook Co., or their agents, for the purpose of selling it to the respondent and prosecuting him for receiving stolen property, and that Bernard Goldowsky, the State's star detective, knew this. The State filed counter affidavits of Wallace, Goldowsky and the officers of the Fontneau & Cook Co., denying the statements made in the affidavits for Nelson.

John C. Reidel, Paris, Ill., Files a Voluntary Petition in Bankruptcy.

PARIS, Ill., July 17.—A voluntary petition in bankruptcy has been filed in the United States Court, Danville, by John C. Reidel, a jeweler of this town. His failure is said to be due to poor business and over-buying. It is hoped by his friends that he will be able to arrange a settlement with his creditors and continue.

Mr. Reidel, who is a young man and practical jeweler, was originally in the employ of W. T. Cook, but started for himself in a small way about two and a half years ago. His principal creditors are in Chicago.

F. J. Schroeder has taken charge of the watch repairing department in the store of G. W. Stolz, Saginaw, Mich.

JEWELERS BUILDING, 373 WASHINGTON STREET, BOSTON, MASS.

The German Output of Diamonds and De Beers Consolidated Mines, Ltd.

LONDON, July 10.—A Rueter message dated Berlin, July 8, states: With reference to the account published here of the conference which Herr Dernburg (the Colonial Secretary) had with certain members of Parliament on the subject of the southwest African diamond industry, an authoritative statement from the Berlin financial correspondent of the *Frankfurter Zeitung* notes that Herr Dernburg has already denied having said that the diamond deposits of southwest Africa were valued at a milliard of francs. He says:

"The account of a British proposal to form a diamond trust is also based on a misunderstanding. The conference at the Reichstag took place on July 1, while Mr. Oats, of the De Beers Co., only saw Herr Dernburg on July 2. Mr. Oats did not come to the minister to negotiate a prices convention, for here only the German Diamond Régie Co. is competent, nor was Mr. Oats himself competent to act, as the De Beers Co. has transferred its sales to the London Diamond Merchants' Syndicate. The object of Mr. Oats' visit was rather to investigate the productive possibilities of the southwest African deposits."

The correspondent continues: "The explanations which were given to Mr. Oats, and the views on the subject prevailing at the Colonial Office, show that the Diamond Régie will avoid as far as possible anything calculated to upset the stability of the market. The interests of De Beers and of the German producers are nowise divergent on this point. Germans would make a mistake if, relying on the advantage derived from the fact that the costs of production at Luederitzblucht are about a quarter of those at Kimberley, they took steps which would eventually break the market. Such a policy might not only lead to premature exhaustion of the deposits, but reduce prices, and it is therefore inopportune to speak of the Germans dictating prices."

"On the other hand, it is now regarded as definite that the German Diamond Sales Organization is strong enough to place the products at its disposal at good prices without aid from the London Syndicate. Consequently it is not felt to be a necessity for the German producers to enter into an international combination yet. The interests of both parties are so similar that a conflict would be superfluous. On the whole, the German Régie has no reason to adopt an unfriendly attitude towards British interests, nor any occasion to abandon its independence, as long as the present state of things prevails in the market, whereby the Régie has hitherto easily been able to place its whole produce of about 36,000 carats monthly, without prejudice to the sales of British mines."

With reference to the above statement, *The African World* of this city, to-day, states that it is informed on best authority that the production of the new diamond fields in German Southwest Africa is, so far, in no way interfering with the sale of other South African diamonds. It is not anticipated that the new fields will affect the market as long as the production is kept within reasonable limits, which the German Government evidently view as very desir-

able. In best-informed quarters it is understood that the production this year from Luderitz Bay fields will not exceed 400,000 to 500,000 carats. Nor does there seem to be any intention on the part of those controlling the properties to increase the output for some time to come.

"T. W." writes to the *Standard*, enclosing a letter from a friend at Luderitzbucht, from which the following are extracts: "The diamonds, although of superb quality, are very small, about a quarter of a carat each. Although undoubtedly the primary cause of the deposits was water that has long ceased and wind taken its place and is daily carrying on the work of concentration. It blows a hurricane 29 days out of 31, and one is struck on the face not only with coarse sand but by pieces of rock and pebbles. This may appear an exaggeration, but I can assure you that it is a fact; to this action I ascribe the wonderful richness of the deposits. The smaller diamonds are, even at the present day, wind-borne." The writer proceeds: "On the face of this, the average individual would think that it is the easiest possible thing to make a fortune in a week, but Nature guards her treasures, too well for that. On account of the lack of water most of the places are inaccessible except for a few hours at a time. The desert is waterless, and the furthest one can penetrate at a time is two and a half days away (about 50 miles), as it is impossible to carry sufficient water for man and beast for longer than five days. Every drop of water has to be taken from here, and it is therefore most precious. The mode of traveling is: Two saddled horses, a Scotch cart, and team of six mules, on which is loaded water and provisions for man and beast sufficient for five days; if one were to place a man on the cart the load would be too heavy on account of the heavy sand. If additional animals are in-spanned you must also add in proportion to your water and fodder supply. An expedition such as I have mentioned will cost about £90. It will, therefore, be seen that things are dear, and one cannot go in for these little trips for fun or pleasure—they are only to be undertaken when a certainty occurs."

Canadian Dealer Admits He Set Fire to His Store, Using an Ingenious Device to Start the Blaze.

TORONTO, Can., July 17.—A fire which, July 2, destroyed the jewelry store of Dake & Belmont, Enderly, B. C., has been found, on investigation by the police, to have been started by the proprietors, one of whom, Belmont, made a confession when arrested and charged with the crime.

The crime was committed in a very ingenious manner, so as to avert suspicion. Belmont states that he fixed up an alarm clock so that it would turn an emery wheel, placing matches so that they would be ignited at the time for which the clock was set and underneath these shavings saturated with oil. The partners then went to the nearby town of Armstrong to await developments.

The fire was duly started at 1:30 A.M., consuming stock which had been insured for \$2,500.

Numbers and Description of Watches Reported by Retail Jewelers as Having Been Stolen.

[Under this head THE JEWELERS' CIRCULAR-WEEKLY will publish descriptions and numbers of watches reported by retail jewelers as having been stolen in their vicinity. Members of the trade are requested to save these lists as they are published, and consult them when taking watches in trade or to be repaired from parties whom they do not know. Jewelers who may be offered any of the watches described are asked to communicate directly with the dealer announcing the loss.]

C. C. Breese, Franklin, Pa., reports the following watches as having been stolen in his vicinity in the past month: 16s. Crescent, 25 years, hunting, No. 1769449; Elgin, 15 jewel, No. 13155825; 16s. B. & B. Royal, 20 year O. F., No. 6053194; South Bend, "C. C. Breese on dial," No. 497202; 12s. Pilot, 25 year O. F., E. T., No. 1126449; Swiss, 15 jewel, "Milton Lillie" on dial, instead of x figures; 16s hunting, 14K. gold, No. 142280; L. & L. movement, No. 307915, "Harry L. Dix" engraved on back of case.

The following is a list of the numbers of the works and cases of the watches stolen from the store of the Lewis Jewelry Co., Cleveland, O., July 12: Illinois 1825207 in Brooklyn 6311145 O.F.; Molly Stark 2019922 in Dueber 6068811 Htg.; Waltham 14334829 in Dueber 6906789 Htg.; Waltham 14402430 in Crown 8755406 O.F.; Elgin 13727518 in Crown 8458610 O.F.; Hampden 2320752 in Dueber 7155078 O.F.; Hampden 2325520 in Dueber 7194602 O.F.; Hampden 2325517 in Dueber 7194619 O.F.; Imperial 558369 in Wadsworth 1269866 O.F.; Hampden 2490173 in Dueber 7169444 Htg.; Waltham 14721785 in B. & B. Executive Board of the International Jewelry Workers' Union Holds Long Session at Providence.

PROVIDENCE, R. I., July 15.—After a continuous session, that began Monday morning, the Executive Board of the International Jewelry Workers of America adjourned, late Thursday evening, and the members immediately dispersed to their respective homes. While the officials gave out statements of entire satisfaction concerning the results of the gathering here, little, if anything, could be learned of the business that actually was transacted.

One of the first things that was done by the Executive Board after opening its session, Monday, was to summon representatives of the different factions of the Providence Local before it in conference, for the purpose of adjusting any controversies that existed and straightening them out, also to strengthen the membership and standing of the local. It is claimed that the Board found that the local that was organized some two or three years ago in this city has maintained an existence, though not having been very active during the past 12 or 15 months, owing to factional differences that have occurred. What these differences were the members of the Executive Board declined to state. These, they claim, were overcome after a short conference, and it is believed that the local will resume activities and become one of the largest in the trade throughout the country.

It is understood that much of the time of the business sessions was devoted to considering the complete unionizing of the jewelry industry in this city, and to this end mass meetings were held each evening, at which the entire situation from the union standpoint was explained, as well as the reasons why all the jewelry workers should be unionized. The principal reason advanced was in order that the jewelry workers of this country may meet the alleged changed conditions that will be brought about through the provisions of the new tariff. Another important matter considered was the growth, influence and importance of the jewelry industry on the Pacific Slope, chiefly at San Francisco, Seattle and Spokane. It is claimed that during the last two years many skilled jewelry workers have gone to those places from this city, the Attleboros, Newark and other manufacturing jewelry centers of the east.

It was announced when the Executive Board began its sessions that the final adjournment would occur on Tuesday evening, but matters took such a turn that the stay of the members was prolonged until Thursday night. Heretofore it has been customary on the occasion of the annual meetings of the Executive Board to hold mass meetings for the purpose of interesting the jewelry workers and addressing them upon the advantages of the union, but conditions in this city were found to be such that it was decided to be more beneficial to the movement of unionizing the trade here to confer with the manufacturers themselves, explain the scope and purposes of the union and secure the interest and co-operation of the manufacturers.

According to the statement of President

Wulff of the Exchange Board, all of Wednesday was devoted by the international officers to calling upon the larger and more influential of the manufacturers, and President Wulff, in an interview with the representative of THE JEWELERS' CIRCULAR—WEEKLY, expressed himself as well satisfied with the result of the Board's visit to this city. He pointed out that he had been cordially received on the part of the manufacturers, which was entirely different from what he claimed the Executive Board officers had been led to expect, therefore a different line of action had to be mapped out to meet these changes in conditions. He expressed the belief that this apparent change of front on the part of the manufacturers was due in a large measure to the influence of the jobbers' and retail jewelers' associations, which have been organizing during the past two years. These, President Wulff claimed, are invariably favorable to the union, or rather to the International Jewelry Workers' Association, and he claims that the manufacturers throughout the country are beginning to feel the influence of these associations.

When asked to give the names of the manufacturers who had expressed themselves as willing to co-operate with the unionizing plan President Wulff said that this would be impossible, as he was confident that the manufacturers would not care to be known in the matter, and he did not think that the union would gain anything by announcing the names of the manufacturers who favored them, at least at this time. Mr. Wulff also refused to give the names of the manufacturers who had been called upon by the Executive Board except to say that it was impossible to call upon all of the manufacturers, and so the Board had selected the larger and more important and influential manufacturers in the various lines of the industry.

The counting of the ballots for the members of the new Executive Board was a long and complicated task owing to the referendum system in vogue in the organization. Every member of the association throughout the country has the right to nominate and vote for any man, and the result is that there are almost as many candidates as there are members of the union. William C. Wulff, of Chicago, against whom a bitter fight was conducted, was re-elected international president by a small plurality. The other officers were not announced.

M. Sternberg, Savannah, Ga., Wins Homestead Suit, Thereby Securing Two Exemptions.

SAVANNAH, Ga., July 14.—A novel point of law involving the right of a person to claim the statutory homestead after having been adjudged a bankrupt and after having been given an exemption of \$1,600 in the Bankruptcy Court, was decided by Judge McAlkin in the Court of Ordinary on Monday, in the case of M. Sternberg. This gives Mr. Sternberg two exemptions, amounting in all to \$3,200.

The application was caveated and a stubborn fight was made against it, but the judge found no law to authorize any other decision than the one which he rendered.

The judge in the course of his decision said:

The applicant was examined at great length as to the amounts of his purchase and disbursements, and although the court allowed counsel to go fully into the items, still the court is not satisfied that any accurate conclusion can be arrived at, except to develop the fact that the applicant invested considerably more money in his stock than the balance of the amount allowed him in bankruptcy; and that according to the figures submitted the applicant paid out several hundred dollars more than he had invested in stock, and was still several thousand dollars in debt.

A great deal of testimony was introduced to refute the claims set up in the amendment of the applicant. At the conclusion of the testimony counsel withdrew the amendment and relied entirely upon his original application.

There were several interesting legal questions eliminated by the withdrawal of the amendment. The two questions left for our consideration are: First, whether M. Sternberg, the applicant, can have set aside to him a homestead after having passed through bankruptcy and having had \$1,600 exempted by the bankruptcy proceedings? Second, if he is entitled to the homestead exemption, how much can be set aside to him under the evidence in this case?

The first question we think is clearly settled by the ruling in the case of Holland vs. Withers, 76 Ga., 667. In that decision the difference between the allowance in bankruptcy and that of the homestead exemption under the State law is clearly and definitely brought out by Chief Justice Jackson, when he says:

"He could, if he chose, sell or waste the bankrupt exemption; he could mortgage it or cover it with all manner of liens. He may have done so in this case; if so, shall his wife and children have no home and nothing to live upon? He may have contracted new debts since the bankrupt exemption; shall these debts deprive his family of a home, while all others contracting and owing debts at the same time may save a home for their families?"

We, therefore think, in the light of the foregoing language, that there can be no doubt as to Sternberg's right to apply for and have set aside to him a homestead that will protect his wife from being homeless. I am unable to find any intimation as to the period of time that may elapse between the setting aside of the bankruptcy exemption and the application of the Georgia exemption.

Without questioning the soundness of the foregoing decision, it would appear in my humble judgment that the bankrupt is in a position to have \$3,200 as his capital with which to defraud his creditors. The \$1,600 set aside in bankruptcy cannot be touched by debts previously incurred, and he can use that amount as the foundation for establishing another line of credit on which to start business as in the case under consideration.

The second question therefore arises: How much is he entitled to have set aside? We know that the applicant, M. Sternberg, paid a debt with part of the bankrupt exemption, and there is evidence that he admitted having paid other debts with it. On the other hand there is evidence that he added several hundred dollars to the amount he claims to have invested in the stock from which he is now claiming homestead.

It appears to the court that the ruling in the case of Holland vs. Withers would enable the applicant to have set aside for the benefit of his wife, \$1,600, if that amount could be found, no matter how much of the bankrupt exemption he may have sold or wasted.

It is therefore, considered, ordered and adjudged that the application for homestead made by M. Sternberg, filed in this office June 10, 1909, be and the same is hereby approved and ordered to record; and that the caveats filed to the granting of said homesteads, be and the same are hereby overruled and dismissed.

O. A. Duppstadt, Somerset, Pa., has removed to Vandergrift, Pa., where he has bought out the business of C. A. Hines.

H. Mills, who conducted the "Dependable Store" at 220 Marietta St., Atlanta, Ga., is now associated with his brother under the style of Mills & Co., and the brothers have moved to Sioux City, Ia., where they have located at 2401 Grand St. in that town.

Evening Attendance at Museums.

ACCORDING to a report from Paris the question of allowing access to the museums in the evening has frequently been discussed in management circles without anything having been done in this direction. It is impossible to overlook the requirements of the large number of persons who are prevented from coming by their daily avocations. It is just these people who are compelled to work for a certain number of hours who require, after the day's toil, an opportunity to seek mental and spiritual culture in the evident beauty of the productions of art and skill, but who, for lack of the evening hours of opening, are not able to gratify their riches in this direction.

The public will also be able to attend, free of charge, lectures on painting, architecture, art trades, literature, etc., illustrated by lantern slide pictures. There is no doubt that by means of this evening opening of museums art and artistic trades will be promoted in more than one direction. An imitation in other countries would be exceedingly commendable.

Supplementing the above, it may be stated that in the early 70s the directors of the South Kensington Museum in London undertook to throw open its priceless art treasures to the public every evening until 10 p. m. Suitable means of illumination having been provided, this was done, and every evening, except Sunday, a numerous and appreciative attendance bore witness

Six Yachting Trophies of the Present Season Made by a Philadelphia Firm.

THE six trophies illustrated upon this page were made and designed by the firm of Maxwell & Berlet, Inc., Philadelphia, Pa. They possess many very original features, and are considered by many, to use the yachtsman's expression, "the best that ever came over the bay." The contract was awarded the firm in competition with a number of leading jewelry houses of New York and Philadelphia.

Of these trophies three are in the form of plaques made of black oak and are unique in design. One depicts a steering wheel, with a miniature port hole in the center. This port is made of glass, through which can be seen an etching of the Corinthian Yacht Club. Another shows a brass propeller, with silver and gold ornamentations, while the third is a hand-wrought copper shield, with a full-rigged sailing yacht in white enamel.

The two loving cups shown are also considered noteworthy on account of their artistic etchings. The one used as a prize for the power boat race is an ordinary yacht lantern, with glass removed and a Pompeian copper insertion made instead. This is also decorated with silver and gold.

Altogether originality of design, cleverness of detail and fineness of workmanship are well brought out in these pieces.

Death of

W. A. Kennedy.

ROCHESTER, N. Y., July 15.—William A. Kennedy, a veteran jeweler of this city, and said to be the oldest man in the jewelry business here, died at his home, 110 West Ave., this morn-

ing. He was 71 years old. Several years ago Mr. Kennedy conducted a jewelry business in Newark, N. Y., but later moved here, where he conducted a store for many years at 318 North St. He is survived by his widow, two sons, William and Frank, and one brother, Justia.

Henry Peterson, Calumet, Mich., is now at Laurium.

H. Hedland has disposed of his jewelry business at Ulen, Minn., and will locate at Lakefield, Minn.

to the public recognition of the value of the privilege. The Metropolitan Museum of Art in New York is also open two evenings a week.

Only One Bidder for Contract to Supply Medals and Pins to Navy Department.

WASHINGTON, D. C., July 14.—Robert Ledding, of Washington, was the only bidder on a recent call by the Navy Department for 1,000 good conduct medals and 500 bronze pins, the amount of his bid being \$387.50.

SIX UNIQUE YACHTING TROPHIES OF THE PRESENT SEASON.

NEW HOTEL BALDWIN TROPHY, FIRST PRIZE FOR POWER BOATS

is therefore gratifying to know that ally, overcoming theoretical objections, effort is to be made, by opening the outfit collection in the Petit Palais on two evenings in the week to ascertain whether provision for evening attendance is opportune or not.

For the present the collection in question on each Tuesday and Friday evening, from 8 to 10 o'clock, will be on exhibition. Of especial significance is the fact at the curator in person will be in charge and will explain the most important objects.

Winter, Enos Richardson & Co.; Ralph B. Mead, M. A. Mead & Co.

Association Notes.

The Utica (N. Y.) Retail Jewelers' Association will have an outing at Trenton, N. J., to-day (July 21). The jewelers, their wives and invited guests will leave this city in special cars at 1.35 p. m. There will be a ball game and other sports.

F. I. Combs, a prominent retail jeweler of Omaha, Nebr., and president of the Nebraska Retail Jewelers' Association, spent several days in Chicago, last week, on business connected with the coming national convention of the American National Retail Jewelers' Association. Mr. Combs reported that the exhibit spaces well sold, and said every indication pointed to the largest and best attended convention of retail jewelers ever held. When interviewed by a JEWELERS' CIRCULAR-WEEKLY reporter Mr. Combs said he would exert all his efforts at the Omaha convention towards getting the various State organization officers to agree to hold exhibits at their annual State meetings in future. Mr. Combs said that many State associations have been asking manufacturers and jobbers to take space at their meetings, and as both manufacturer and jobber realize the impossibility of exhibiting at all State conventions on account of the large expense involved in doing so, many possible exhibitors are deterred from taking space at some State conventions for fear they may antagonize the States in which they do not exhibit. Mr. Combs thinks that by eliminating the exhibit feature of the various State conventions and leaving only one grand exhibit at the na-

tional convention that nearly all manufacturers and jobbers would be pleased at the idea and would support a national exhibition far more than they have ever done heretofore.

Trade Gossip.

A unique advertising device is being distributed by the New Haven Clock Co. New Haven, Conn., in the form of a pull-out postcard, showing the effectiveness of the Tattoo nickel alarm clock.

The American Oil & Supply Co., Newark, N. J. has begun the distribution of a 638-page catalogue. The volume is being sent to all the principal jobbers and wholesale firms in the country. It is adequately bound, excellently printed, and contains, among other things, a list of offerings in the way of fine tools, specialties and machinery for manufacturing jewelers and silversmiths.

M. O. Discher, the inventor of the combined charm and cigar cutter, recently visited the factory of the Irons & Russell Co., Providence, R. I., which is making this charm in the shrine emblem, and was a guest of C. F. Irons, president of the company, at a clambake of the Pomham Club. Mr. Discher is a prominent banker as well as inventor. The Irons & Russell Co. is now making a shrine lapel button in Mr. Discher's patented design, which embodies all the emblems of the order with a novel arrangement of the urn on top of the head of the sphinx.

Items From Here and There.

W. C. Ruddock, Colony Center, Cal., has moved to Fullerton.

C. H. Hartman, who is now at Harrisburg, Pa., will open a store of his own at Hanover, Pa., shortly.

An agreement has been signed by local jewelers of Auburn, N. Y., to close their stores on Monday evenings in July and August.

J. W. Buehler, Jr., Cresco, Ia., and his brother, E. J. Buehler, Baraboo, Wis., have purchased the jewelry stock of the Knapp Co., at Osage, Ia., and will take possession Aug. 1.

H. W. Houghton & Co., John Lewis, R. L. Anderson & Son, Willard Levee and G. A. Opfel's Sons, Little Falls, N. Y., have agreed to close at 1 p. m. on Wednesday's until Sept. 1.

John R. Champlin, who died at Laconia, N. H., July 13, was at one time a jeweler and conducted a store on Mill St., that city. In 1857 he became associated with L. & C. Harwood in a jewelry and confectionery business, which he later purchased and ran alone until 1861.

Charles Frey, aged 83, pioneer jeweler of Boulder, Colo., died at his home there, July 9, shortly after noon, while his family was at dinner. Mr. Frey was a native of Germany, and came to Boulder 40 years ago. He is survived by his widow, four daughters and three sons.

Herman Tafel, son of Richard G. Tafel, a Louisville, Ky., jeweler, recently saved a companion from drowning at Six Mile Island, near that city. Young Tafel modestly said nothing about the incident, and it was several days before the details of his heroic rescue were made public.

Roy Lathrop will open a store about Aug. 1, at Laurel, Nebr.

Seth Laraway will open a new store at Eugene, Ore., Aug. 1.

A new store will also be opened in Nevada, Mo., by T. S. Terry, Aug. 1.

Jas. B. Cohn & Co. recently opened a store at 12 Eddy St., San Francisco, Cal.

Klimek Bros. have opened their new store at 1125 Tower Ave., Superior, Wis.

S. Eisenberg has opened a retail jewelry store at 2930 Richmond St., Philadelphia, Pa.

McKinnie & Son have opened a repair shop at 65th St. and Woodland Ave., Philadelphia, Pa.

The Metal Perforating Co. has commenced business at 151 Pine St., Providence, R. I.

The Central Loan Co. has opened a jewelry establishment at 31 Eddy St., San Francisco, Cal.

Stewart & Avison is the name of a new concern in Toronto, Ont. The store is located at 558 College Ave.

T. J. Parker has located in the B. Y. Rainey building, at Lacrosse, Wash., where he conducts a jewelry store.

J. T. Williams, formerly with Wm. Frantz & Co., New Orleans, La., will shortly engage in business on his own account.

George A. Boehm, formerly connected with the Southern Jewelry & Optical Co., New Orleans, La., has begun business for himself.

Joseph Karoley, Marysville, Cal., is preparing to open a jewelry store at that place. He will be located at 305 D St., in the Odd Fellows building.

M. E. Harmstead, for many years jeweler and watchmaker for Rudisill Bros., Altoona, Pa., has opened a store of his own at 1106 11th St., at that place.

The Gale-Ford Jewelry Co. will soon begin business in Norfolk, Va. The business will be directed by E. R. Gale and F. R. Ford. The store will be opened about Aug. 10, and will be located at 10 Granby St.

The Columbia Jewelry Co. is the name of a new concern which has begun business in Cambridge, Mass., with a capital of \$28,000. The officers are: President, J. J. Vians, Arlington; treasurer and clerk, F. E. Vians, Cambridge.

THE NEWEST GEM

BLACK OPAL, a recent Australian discovery, is the most beautiful variety of the Opal Group. Although called "Black," these stones have a wide range of colors, shading from light to cobalt blue with flashes of violet; from delicate shades of green to peacock tints, from light yellow to orange and from soft gray to black, often mixed with wonderful flashes of red fire.

BLACK OPAL has come "to stay" and no jewelry stock is complete without specimens of this remarkable stone.

We cut these stones from the rough and therefore can furnish them in various sizes, shapes and qualities at reasonable prices.

R. N. BROMLEY & SON, Tampa, Fla.

Pittsburg.

George S. Dunbar takes to the road this week for the Geo. B. Barrett Co.

Joseph K. Crawford is in New York spending his vacation, where he is visiting his sister.

Mr. Bigelow, of Bigelow & Clark, Washington, Pa., was in Pittsburg a few days, last week, on business.

Miss Jean McFall, of West, White & Co., left Saturday night, for Cleveland on a two weeks' pleasure trip.

Henry A. Barrett, who has been in northern Michigan for a rest, has returned to Pittsburg, and is steadily regaining his health.

Joseph A. Burton, of Heeren Bros. & Co., is at Conneaut, and Miss Sarah Prescott of the same house is spending her vacation in the mountains.

W. E. Bobinger leaves in a few days on a 300-mile drive through the country. He starts at Columbus, O., and will drive to Lewiston just for the novelty of the outing and the outdoor life.

A. Lippman, Altoona, has erected a number of sign boards along the main line of the Pennsylvania Railroad, showing that he is one of the progressive merchants of western Pennsylvania.

Steele F. Roberts leaves next week for Omaha to attend the American National Retail Jewelers' Association convention where he has a speech prepared for the convention which contains some timely suggestions.

J. C. Crawford and W. S. Roe and their wives recently celebrated the 25th anniversary of their marriages. These well-known jewelers, who are cousins, were married on the same night. Mr. Crawford is a wholesaler with offices in the Bessemer building, and Mr. Roe has a very pretty store in Beaver Ave., North Side.

Jewelers locally are taking a great interest in the outcome of the big strike of the employes of the Pressed Steel Car Co., and along with all of the other business interests of the city are urging for a speedy settlement of the differences existing between employer and employe, believing that a prompt adjustment of the trouble is for the best interests of the entire community.

The following out-of-town merchants were in Pittsburg, last week, buying goods: George Eckert, Jeanette; B. E. Brown, Connessen; J. R. Thorn, Toronto; A. Katzmeyer, Burgettstown; P. J. Manson, Jeanette; Frank Theakson, Brownsville; L. A. Burston, Beaver; A. B. Kurtz, Conellsville; Harry Furtwangler, Greensburg; J. Teplitz, McKeesport; R. H. Wolfe, Mithton; Frank Worrell, Canonsburg.

The Hardy & Hayes Co., which experienced a serious fire on the night of July 3, is as not as yet secured an adjustment with the fire underwriters, but Mr. Hardy said, last Saturday, that he hoped for an adjustment within a few days. The building is rapidly being put in proper repair. While the fire did much damage, yet it has not interfered to any great extent with the business of the house, the store having been opened for business every day since the conflagration. The firm, however, has experienced considerable inconvenience. He reports that this firm was to move into

a new building in Penn Ave., which has been erected by Mr. Hardy, is erroneous, as this house has no intention of moving there and will continue in the present location, which is one of the best in the city. The building which Mr. Hardy erected adjoins the Penn building, which is also owned by Mr. Hardy.

Jewelers were very much interested, last week in the arrest of Joseph Feldman, who, upon being searched by the Pittsburg police after he had been taken to Central Station charged with being a suspicious person, was found to have in his possession a number of valuable pieces of jewelry, among the lot being eight diamond rings. The local police believe that Feldman's arrest will clear up the celebrated Ridell robbery at Toronto, Canada, seven months ago. A detailed description of the jewelry was telegraphed over the United States. Feldman gave his address as 964 N. 10th St., Philadelphia. Some of the jewelry recovered were gifts from European royalty. The jewelry is said to have been the property of Annie Abbott, known as the "Georgia Magnet," one of the pieces, a locket, being a gift to her from George, Duke of Cambridge; a three-set ring, the woman wears, was a gift from the late Czar Alexander of Russia. Feldman was peddling the jewelry in an effort to dispose of it, when taken into custody by the police.

An exciting game of baseball was played, Saturday afternoon, on the Shadyside Academy grounds, the opposing teams being nines picked from among the members of the Jewelers' 24-Karat Club, of Pittsburg, with the wholesale and retail trades. The game was suggested by President E. P. Roberts in THE JEWELERS' CIRCULAR—WEEKLY, several weeks ago. THE JEWELERS' CIRCULAR—WEEKLY correspondent was to have been one of the umpires, but having returned from a two weeks' vacation arrived at the grounds a few minutes late, and Messrs. Herron and Scott acceptably filled the position. The game was won by the wholesalers by a score of 10 to 12. The lineup of the "wholesalers" follows: Johnston, catcher; Staley, pitcher; Jones, 1b; Allison, 2b; Harrison, 3b; Holyland, ss; Stevenson, lf; Hetzel, cf; Ruter, rf. The retailers' lineup was: Freund, catcher; Parlet, pitcher; Crawford, 1b; Fozel, 2b; Weiss, 3b; Borland, ss; Strake, rf; Howells, lf; Stitt, cf. The chief rooters were E. P. Roberts, W. J. Johnston, George West, C. W. Wattles and other well-known members of the trade, a large crowd, including the wives of some of the members, witnessing the game. Mr. Roberts suggests that the retailers and the wholesalers organize a bowling league from among the members of the club, and his suggestion is likely to be acted upon. Mr. Roberts paid for the use of the ground, while the Hardy & Hayes Co., R. Siedle and John M. Roberts donated cups to those who made the best plays. Mr. Roberts also presented the teams with a box of cigars at the conclusion of the game.

The large plate glass show window in the store of A. Cohen, 393 Hamilton St., Allentown, Pa., was broken one night, recently, and a small amount of merchandise stolen. There is no clue to the thief.

Cape May, N. J.

William Phillipi has been in Philadelphia engaging a watchmaker to work for the season.

L. C. Ashburn, optician, has started in business at Broadway and York Ave., West Cape May.

Belford Garrison, 305 Washington St., has engaged Frank Rubenstone, an optician of Philadelphia, to spend one day a week at his place.

Louis Deacon is staying for the summer at 822 Columbia Ave., and is showing his line of semi-precious and Oriental stones, of which he carries a large line.

A. Barsa, 35 Broadway, New York, and Ocean City, N. J., has a fine store here on the Boardwalk. He has given up his store at 205 Walnut St., Harrisburg, Pa.

Cape May is one of the oldest resorts in the State, attracts a wealthy class of people, and the residents have not cared to advance the place any, letting well enough alone. Now a more progressive element is taking hold and trying to make this place known to the general public.

Connecticut.

H. L. Clark, of the firm of Clark & True, Middletown, is ill at his home on Loveland St.

An itinerant jewelry vender known as "Old Honest Joe" died about a week ago at the Hartford Hospital of jaundice. The deceased was well known in Thomaston, which place he visited frequently.

Walter H. Bradley, president of the Bradley & Hubbard Mfg. Co., and also of the J. D. Bergen Co., Meriden, recently purchased the Hotel Bonsile property, at Woodmont, near New Haven, for a consideration of \$25,000. The hostelry will be considerably improved.

Samuel W. Forbes, a well-known resident of Bristol, and at one time foreman of the finishing department in the factory of the E. N. Welsh Co., and later with the Sessions Clock Co., died at two o'clock on the morning of July 12, at his home at Prospect Pl., after a week's illness. The deceased was born in the section known as White Oak, in the town of Farmington, May 4, 1830.

Albany, N. Y.

The A. Barrick's loan office has removed from 63 N. Pearl St. to 45 Beaver St.

Burglars secured much plunder in the E. J. Peters' Co.'s jewelry store, 45 Green St., recently. A good share of the stock in the display cases was taken, but there was no attempt to get at the safe. There is no clue to the burglars.

A fire in the United Jewelry Co.'s store, 407 State St., Schenectady, last week, is believed to have been of incendiary origin, although no clues have been obtained by the police. The fire was discovered among some pasteboard boxes.

There will be a meeting of the creditors of Morris H. Dubb, Schenectady, before Referee Scott in the Parker building there, July 28, to pass upon the report of the trustee, William D. Loucks. It is expected that a dividend to Dubb's creditors will be ordered at that time.

For All Manufactures in Coral

We have ready some line lots of Coral-Cameos, flat-oval and round Cabochons in all sizes and shades. Send your order immediately. All special sizes will be cut to order at short notice.

Memorandum package will be sent to reputable jewelers upon request.

It Takes Something More

Than hammer and tongs and a bit of gold to make a proper ring. It takes taste, knowledge, artistic feeling, judgment in selecting and combining stones and highly trained artisans to carry out the ideas of the designer. All these we have and we use them all, every day, in our business. We put our best work into "LK" Rings, therefore they cannot be excelled in merit and selling qualities.

11 John Street, New York

New Orleans, La.

Wm. Cooper, of Cooper & Forman, is visiting in this city.

Arthur H. Moore, of Moore & Son, Newark, N. J., was in town, last week.

M. F. Carrano, of 810 N. Claiborne Ave., left with his brother Elks, last week, for Los Angeles, Cal.

J. T. Williams, for many years the outside man for Wm. Franz & Co., is shortly to embark in business for himself.

After a three months' tour abroad, Morse Waldhorn and his wife expect to reach New York, en route home, Aug. 16.

I. Popkin, J. T. Collins, James Jackson, H. S. Lilius and L. Moonshine were among the buyers in town, last week.

George A. Boehm, formerly an active member of the Southern Jewelry & Optical Co., has gone into business for himself.

W. Motteram, representing Frank M. Whiting & Co., North Attleboro, Mass., is in the city, with his bride, on their honeymoon trip.

J. Itzkovitch has leased the prominent corner at University Pl. and Canal St., and will shortly open a modern jewelry and loan office place.

Isaac Popkin, Franklin, La., was among the first of the buyers from the country who are beginning to come to the city for their Fall stocks.

The Louisiana Optical Association, which will hold its convention in Shreveport, will be attended by George Boehm, of the Leonard Krower house.

The travelers of the Leonard Krower house, who returned last week from Central America, brought back with them very satisfactory returns and report conditions encouraging.

John C. Meyer & Son, the well-known jewelers in Decatur St., who have been identified in business in the same neighborhood for the past 50 years, are arranging to renovate and improve their store.

An addition to the recently established store of the Marx Isaacs Co. is a handsome jewelry department. Mr. Isaacs, with his wife and two daughters and three buyers, are at present in Europe after the latest novelties.

While supervising the remodeling of his new store, recently, Bernard Barnett met with a most painful accident to one of his limbs, which required his confinement to his bed for the past week, for a high fever set in and the case required careful nursing.

The Public School Athletic League, by installing competitions among the pupils, has brought about a considerable business in the manufacture of prizes. The latest is the J. Walter Danziger trophy, offered for the milget championship. Faches, of the Griswold firm, has designed a silver plaque mounted on an oaken shield, that is quite artistic and attractive.

After a three weeks' stay at Hot Springs, Wm. Cosby, of A. B. Griswold & Co., has returned to the city, completely restored to good health. Denis Barry, who has charge of the watch department of the firm, expects to enjoy a month's vacation in August on the Virginia mountains, while Christopher Gorsch will spend two

weeks in New York. A. S. Palfrey will join his wife, next month, at Saluda, N. C., where she is summing.

A. B. Griswold & Co. have just completed a magnificent silver, gold-lined loving cup for the citizens of Colon, Panama, to be presented to U. S. Consul James C. Kellogg. The latter is in the States on his vacation, and the gift will be tendered him upon his return. It is a tribute from several hundred citizens in recognition of efforts in the cause of education, the establishment of a public library and the promotion of friendly relations. The cup is inscribed in Spanish. The Griswold house took special pains to produce a splendid creation, for the firm has made many medals which the consul ordered as prizes for the Panama schools, in which he took deep interest. Another production of the house is a big championship cup, offered by the Gulf Coast Yachting Association to the yacht winning the largest number of races during the present season. It is a solid silver trophy, simple but massive, and has occasioned the rivalry between the pleasure craft between Mobile and New Orleans.

Columbus, O.

J. T. Mathison, who is visiting at his old home in Europe, is expected home about Aug. 1.

Many Columbus jewelers and opticians are closing their stores on Friday afternoons during July and August.

G. D. Harrington, secretary of the Harrington Co., will spend the next two weeks at Summer resorts on Lake Erie.

F. F. Bonnet, of the F. F. Bonnet Co., will go to Michigan, the last of this week, to spend a few days at his Summer home with his family.

A fine new street clock, with chimes, has been erected over the entrance to the Columbus Savings & Trust Co.'s banking room, at Long and High Sts.

R. N. Whitford, who severed his connection with the Hofman Jewelry Co., some time ago, to go west for the benefit of his health, is now in Colorado, and word has been received from him to the effect that he is much improved.

Herman Trivella has, during the past week, been added to the hustling merchants of the North Side. He was formerly a watchmaker for the Hofman Jewelry Co., but resigned and has opened a retail store at 543 N. High St.—a good location north of the High St. viaduct, near Goodale St.

Canada Notes.

C. L. Saxton is closing out his business at Aymer, Ont.

G. A. Gledhill has purchased the business of J. C. Scott, Fort Frances, Ont.

Stewart & Avison, a new firm, have opened a jewelry store at 558 College Ave., Toronto, Ont.

Out-of-town jewelers calling upon the Toronto, Ont., trade, last week, included: T. C. W. Watson, Newmarket; W. J. Hollingshead, Streetsville, and R. M. Bell, Erin, all Ontario.

Fritz Dein, alias Frank A. Chapman, now under arrest at Los Angeles, Cal., for an attempted diamond robbery and having

a record as a remarkably skilful thief, is wanted at Windsor, Ont., for a theft committed recently at the store of Howell Bros., of that city.

Pacific Coast Notes.

Pollock Bros., Riverside, Cal., will move to larger quarters about Aug. 1.

H. E. Denton, Lompoc, Cal., is now out on his regular watch inspection trip for the Southern Pacific Railroad.

H. W. Schuler, Fortuna, Cal., has moved into a new store at that place and now has much more space for the proper display of stock.

K. G. Schwartz, Alameda, Cal., attracted considerable attention to his store through awarding a handsome cup at the Fourth of July celebration there.

Joseph Karoley, of Marysville, Cal., is preparing to open a new store at that place and is now in San Francisco purchasing supplies. He will have an office at 395 D St., in the Odd Fellows building.

Dr. C. L. Marlene, who has been in the optical business at San Bernardino, Cal., for about a year, has decided to branch out into the manufacturing jewelry business, and has added machinery for turning out work of this class. R. F. Daniel has been engaged to look after this new department and work is being solicited from outside towns.

A. H. Whitman, Pomona, Cal., is preparing to make substantial changes and improvements in his store at that place. At the present time the appointments are all that could be desired from the standpoint of beauty, but the present fixtures do not allow of the display of the increased amount of stock that Mr. Whitman plans to carry. New wall cases and show cases of the latest design will be installed.

A. C. Mellinger, who has for some time been connected with the firm of P. E. Anderson, Arcata, Cal., has decided to enter business there for himself, and within the next few days will open in the location formerly occupied by Chas. Renner. Mr. Renner recently announced that he would quit the business on account of failing health, and Mr. Mellinger at once proceeded to secure the location and arrange for stock.

Pacific Northwest.

J. Linder, Prescott, Wash., has moved his stock to a new location at that place, opposite the postoffice.

Philip Rosummy, 246 Burnside St., Portland, Ore., who was recently arrested on the charge of receiving stolen property and failing to comply with the city regulations in regard to the entry of pawned goods, is being held for trial.

One of the finest exhibits of the kind at the Seattle Exposition is that of the Waltham Watch Co. H. E. Duncan, who has had much previous experience in exhibition work for this company, has charge of the exhibit here, and has prepared a very attractive one. A number of machines are in operation at the exhibit showing how the delicate parts of a watch are manufactured. An exhibit that is attracting considerable attention comprises the watches and movements that were ruined in the San Francisco fire.

THE GORHAM COMPANY

PRODUCTIONS IN GOLD.

Recognizing that the popular demand for gold wares of every description is a rapidly growing and an insistent one, the Gorham Company has so increased its goldsmithing facilities that it is amply prepared to meet all requirements in this direction.

The special attention which is paid to its goldsmiths' department enables it not only to undertake all special commissions, such as Presentation Vases, Loving Cups, etc., but also to offer to the Trade a complete line of such articles as most appropriately represent the very highest achievement of modern goldsmithing.

These include several specially attractive patterns in Men's and Women's Toilet Sets, as well as Manicuring Articles, Cigarette Cases, Match Boxes, Cigar Cutters, Pocket Knives, etc., etc.

A Great Convention THE coming convention of the of Retail Jewelers. American National Retail Jewelers' Association, which will be held in the Rome Hotel, Omaha, Nebr., Aug. 2 to 6, inclusive, bids fair to be the greatest and most important convention ever held by the retail trade in the United States, and will surely surpass both in the number attending and the importance of subjects treated any other meeting that has been held by the organization since its formation. As will be noted from the programme, which was published in full in the last issue of THE JEWELERS' CIRCULAR-WEEKLY, the convention, while nominally opening on the evening of Aug. 2, actually starts Aug. 3, on which day the meeting will called to order at 10 A. M. A perusal of the list of speakers and the various subjects which will be treated in the morning, afternoon and evening of the four days that will be occupied by the sessions is enough to convince jewelers of the importance of the convention from business, educational and social standpoints, and assure them that a trip to Omaha on these dates will be well worth the time and money spent.

Many innovations are to be found in the programme, not the least important of which is the giving over of one day, Wednesday, Aug. 4 (which will be known as "Manufacturers' Day") to discussions by heads of the leading houses in the manufacturing and jobbing trade on vital trade topics from their standpoint. These talks are to be given by heads of some of the largest watch case, watch and silver concerns, and others, speaking from their standpoint, and will also include an address by the secretary of the National Wholesale Jewelers' Association on the common interests of manufacturer, wholesaler and retailer. A special entertainment is promised for the ladies who attend the convention, and in the invitations sent out by the officers members are particularly requested to bring their wives.

Members of the trade who are going to the convention by way of Chicago will be interested in the announcement of the C. B. & Q. Railroad, that a special rate has been instituted by this road from Chicago to Omaha during the convention. The charge will be equal to a fare and a half for the round trip, which is to be made on the certificate plan. Tickets will be on sale from July 22 to Aug. 4, with the return limit to Aug. 10. The rate also applies to intermediate points.

How Smugglers THERE is no meaner factor disturbing business lines nor one with which the merchant and manufacturer is less able to contend than smuggling, whether this be done in a professional way by the dealers or for personal gain only by tourists. Owing to the small bulk and great value of the lines which he handles, the jeweler, of all merchants, is one of the greatest sufferers in this matter, and consequently the members of this trade in particular feel gratified at the present firm attitude taken by the customs officials on the smuggling question. For the first time in

Advertising should not be regarded as an expense but as a business investment. Rightly done, it will produce good results.

many years an indictment is reported to have been found by the Federal Grand Jury against a wealthy woman on the charge of smuggling, and it was also reported that proceedings have also been begun to compel the payment of duty upon, or a forfeiture of, a valuable necklace, which she is also said to have brought here. In fact, the attitude of the Collector at New York and the official action of his department within the past few weeks have shown that the Treasury Department will hereafter no longer tolerate evasion of the customs laws by the respectable (?) tourists, and if the policy announced is carried out, not only will the attempt be made to collect full duty on each article of luxury brought in, but in addition drastic action will be taken to punish every attempt at smuggling, whether made by tourist or dealer, or whether in a business way or for private gain.

Unfortunately, for years past the private individual, particularly the woman tourist, has risked little in attempting to smuggle, because even if the attempt was detected she had reason to expect that there would be no serious effort made to invoke the penal statutes, and that the case could generally be settled by full payment of duty. Now, however, with a threat of prosecution staring them in the face and a realization of the fact that Treasury agents "mean business," and are serious in trying to stop all clandestine importations of all kinds, the tourists will think twice before attempting to violate the customs laws of the country.

It would seem that the Treasury Department has now an excellent opportunity to test one clause of the customs laws that, as far as the jewelry trade is concerned, has never been a subject of a court decision in a strenuously fought case; namely, that provision in the statute that provides for the confiscation of goods in a civil action brought against the articles themselves, under which a penalty of three times the value of the article may be assessed against the smuggler in addition to the decree of confiscation. It is easy to realize the difficulty that the United States Attorneys will have in getting convictions from juries when criminal actions are brought on smuggling charges against private individuals because of the unwarranted sympathy by the petit jury. This sympathy or leaning to the defendant in such cases comes from the mistaken idea that it is only the Government which has suffered, and does not take into consideration the demoralization of legitimate business which comes from the practices sought to be punished. However, in the actions *in rem* brought by the Government to obtain a confiscation of smuggled articles, the conditions are entirely different. These are essentially civil

actions against the articles themselves and do not involve the stigma of a criminal charge, even if the full statute is invoked and the triple penalty asked for, in addition to the decree of confiscation. It should be comparatively easy to punish the smuggler in this way when the evidence of smuggling is sufficient to cause the goods to be forfeited to the United States.

Undoubtedly the criminal courts should be invoked whenever and wherever the district attorney has clear evidence of smuggling and intent to defraud the Government, but where the evidence as to the latter is weak and the circumstances of the case are such that he feels that a criminal conviction is doubtful, it would seem that the Government should not lose an opportunity to ask for the penalty in the separate action which it always brings to sustain the seizure of the articles brought in by the smuggler.

LANCASTER, Pa.

H. C. Kionka, of H. C. Kionka & Co., visited Lancaster, last week.

Frank T. Watson is on a two-week trip to New York and Rochester.

Elmer Patton was married, last week, to Miss Julia Troop.

H. Holmes Boyd, optician, last week spent several days in Washington, D. C.

M. Lane, of Morris Rosenbloom & Co., Rochester, N. Y., visited Lancaster, last week.

Jeweler S. R. Stibgen, Marietta, and wife have gone to Seattle, Wash., to visit their son, Barr Stibgen.

Ellis Bowers left, last week, on a month's trip west, which will include the Alaska-Yukon-Seattle Exposition.

Charles Johnson, head of the shipping department of the H. S. Meiskey Co., is spending his vacation at Atlantic City.

H. C. Knodt, bookkeeper for the Non-Retailing Co., is with a party of friends camping out on the Susquehanna River at Peach Bottom, Md.

Alfred W. Moyer and Milo S. Herr, manager and director, respectively, of the Non-Retailing Co., and wives are here from a trip to the New England states.

Warren Kistler, who went to Arizona several months ago from this county for the benefit of his health, died there, July 14, from pulmonary troubles, aged 31 years.

John J. Bowman, of Ezra F. Bowman's Sons, a former National Guardsman, and his brother, Charles E. Bowman, were visitors to the National Guard camp at Mt. Gretna, last week.

Word was received here, July 15, of the death of a former Lancaster watchmaker at St. Louis, Walter Cosgrove. In leaving a train he stepped in front of another and was instantly killed. He was 47 years old and leaves a widow and two children.

The following jewelers visited Lancaster last week: Benj. A. Cline, Philadelphia; Walter Vetterlein, Baltimore; Sidney Carroll, Baltimore; John McCook, Pittsburg; Archie K. May, York; C. E. Hunk, Ephrata; R. V. Fegley and S. H. Miller, Mt. Joy, and H. Frank Mowrer, Strasburg.

Wood Bros. have bought out the business of Wilbur T. Cook, Paris, Ill.

New York Notes.

Mr. Brown, of Brown & Mills, Providence, R. I., was in town, last week.

Jules H. Lacroix, watches, etc., 35 Maiden Lane, has retired from business.

George H. Goodheart, dealer in precious stones, 320 Fifth Ave., has closed out his business.

C. D. Lyons, of C. D. Lyons & Co., Mansfield, Mass., was in town for several days last week.

Mr. Kadison, of Fera & Kadison, 65 Nassau St., returned from Europe, recently, on the *Mauretania*.

L. Metzberg, buyer for Sears, Roebuck & Co., Chicago, was in the market, this week, looking over silverware lines.

Harris Levin, 79 Nassau St., will spend his Summer vacation in Reusslaer County, near Albany, N. Y., visiting his brother.

W. C. Otte, buyer for the Ahns & Doepke Co., Cincinnati, O., was in the market, last week, inspecting lines of fancy leather goods and jewelry notions.

Newton H. Rogers, of Hayden W. Wheeler & Co., 2 Maiden Lane, returned from a trip to Europe, July 13, on the *Kaiser Wilhelm der Grosse*.

Fred Gruen, of D. Gruen, Sons & Co., Cincinnati, O., arrived in New York, last week, on the *Amerika*. His wife accompanied him on the trip abroad.

The display window of A. F. Jammes, 195 Fifth Ave., was smashed July 13 by a thief, who took jewelry valued at \$400. The audacious miscreant cleverly made his escape.

The Gorham Co., 15-19 Maiden Lane, has declared the regular quarterly dividend of 2½ per cent. The Silversmiths' Co. has also declared a quarterly dividend of one per cent.

Erle R. Sheppard, manufacturers' agent, 53 Maiden Lane, returned to-day from his four months' trip through the west. He will be found at his office regularly until Aug. 15.

S. Saltman, a practical watchmaker and jeweler, has opened a well-equipped store at 1762 Madison Ave., carrying a line of diamonds, watches and jewelry. He makes a specialty of repairing.

The J. M. Miller Co., 141 Fifth Ave., which specializes in jewelry for haberdashers, will have an exhibit at the exposition of wearing apparel, to be held at Madison Square Garden, Aug. 14-21.

Harry C. Adler, of Chas. Adler's Sons, 527 Fifth Ave., returned, July 13, from Europe on the *Kaiser Wilhelm der Grosse*. He was abroad about four months on a purchasing trip to the diamond markets.

The many friends of J. N. Kipp, of the Depasse Mfg. Co., 41-43 Maiden Lane, were glad to hear, last week, that his wife returned home from the Passaic Hospital, after a successful operation for appendicitis.

Levy & Co. is the style of a new concern to engage in the cutting, polishing and sawing of diamonds at 47-49 Maiden Lane. The partners are Ab. Levy and A. Groenman, who was formerly at 37-39 Maiden Lane.

Hammel, Riglander & Co., 49 Maiden Lane, have filed incorporation papers. The capital is placed at \$300,000, and the incorporators are: L. Hammel, M. Hammel, J.

W. Riglander, M. M. Riglander and M. J. Straus.

Wm. G. McDougall, formerly manager for the Hawkin's store, 727 Eighth Ave., has opened an attractively furnished establishment at 927 Eighth Ave., corner 55th St. He carries a well-selected line of diamonds, watches and jewelry.

Chas. M. Ruhman and J. M. Tuttle, buyers for Hyman Berg & Co., Chicago, were in town Monday and Tuesday, and left for Providence, last night, where they will remain until July 23. They will be in New York again from July 26 to 30.

The Crosby Co., with branches in Paris and Berlin, has opened a new store at 1457 Broadway, under the able management of Lothair Rich. The concern has an attractive establishment, handsomely furnished and most conveniently arranged.

Jerome L. Davis, who was with the late firm of B. H. Davis & Co., and Naum Welikson, who took charge of the manufacturing for the same concern, have formed a partnership as Davis & Welikson, with factory and office at 45 John St.

W. F. Kirkpatrick, of W. F. Kirkpatrick & Co., St. Joseph, Mo., was in New York, recently, and sailed with his wife, July 15, on the *Prinz Friedrich Wilhelm* for Europe, where he will visit the jewelry centers of Germany, France and England in search of novelties.

Abraham C. Finkel, 392 Grand St., is not very much frightened over the receipt of a "black hand" letter, threatening to blow up his store unless \$500 be paid. Mr. Finkel says no "black hander" will get any money from him, and if any one tries to blow up his establishment he's going to be on hand when the explosion occurs.

Eisler & Sussman, Inc., is the style of a concern recently organized at 51-53 Maiden Lane to engage in the manufacture of diamond mountings in gold and platinum. The members are Morris Eisler and N. Sussman. Mr. Sussman has been located for some years at 2573 Atlantic Ave., Brooklyn, and will continue to maintain that establishment.

Jewelers in the Maiden Lane district who reside in New Jersey are rejoicing over the new means of transit to their suburban homes. Last Monday was opened the Hudson Tunnel, from the Terminal building, Church and Cortlandt Sts., to the Jersey City depot of the Pennsylvania Railroad. The first official train was run after 10 A. M., when Miss Harriet McAdoo, daughter of the president of the Hudson & Manhattan Railroad Co., touched the button which started the motors.

Abel Simon, residing in the Bronx, was arraigned in the Jefferson Market Court, July 13, charged with the larceny of a diamond ring from Samuel Haskelowitz, 405 6th St., and was held in \$1,000 bail. The young man is deaf and dumb, and detectives say he would go into a store and make signs he wanted a ring or earrings. These shown him, it is alleged that he would motion that he wanted a pencil and paper, and that when the owner of the store was going after these the mute would decamp with jewelry.

I. Koppelman, 106 Delancy St., is vigorously protesting against the obstructing of that thoroughfare, which is the main out-

let from the Williamsburg bridge. Wreckage strews the street and the excavations retard traffic, so that all merchants complain that business is hampered. "When I first came into my store years ago," said Mr. Koppelman, "I was making more than double my present income. This bridge approach has ruined the business of every man on Delancy St., and I don't see why we cannot collect heavily from the city for being deprived of rights to the street, for which we pay heavy taxes."

Albert Jansen, 31 Bowery, who said he was a peddler of jewelry, was held in \$10,000 bail by Magistrate O'Connor in the Centre St. Police Court, July 17, on the charge of being a confederate of Giro and Schlicman, now under indictment for murder, in many robberies on both sides of the East river. Jansen's arrest was brought about by the confession of Schlicman to Inspector McCafferty. His alleged share in the work was to find purchasers for stolen jewelry, and it is believed that he is the last of a party of thieves that have burglarized Manhattan and Brooklyn houses for a number of years. Jansen sold a lot of the stolen jewelry to a Hester St. retailer.

E. H. H. Smith, president of the E. H. H. Smith Silver Co., Bridgeport, Conn., was in New York, recently, and gave a very interesting account of his trip abroad. Mr. Smith stated that he was pleased to find that the trend of the trade in Europe was away from cheap merchandise, and that the existing demand was for the better grades of stock in heavy plated silverware. He visited England, France, Switzerland, Austria, Germany, Holland and Belgium, and found that similar conditions existed in all these countries. Mrs. Smith took the trip with him, and after an absence of 10 weeks they returned, July 4, via the St. Lawrence resorts, Montreal and other Canadian towns.

A feature of the 24-Karat Club's outing, July 31, at the Port-au-Peck Hotel, Long Branch, N. J. is the blue pencil publicity contest. A great deal of mystery surrounds this event, as those who are aware of the essential facts will not divulge the particulars, for the edict has gone forth that while the "details are perfectly fit for publication, they will not be announced until the event is called." Furthermore, and in addendum, "last year's carrots are extinct, but the athletic committee will supply fresh carrots for one of the prime sporting events. No guarantee, however, is forthcoming that the competitors will be "fresh" when the grueling contest is over. Don't be alarmed at this threat—it sounds worse than it is, and the fattest member can compete with impunity. The prizes to be awarded are now being exhibited by the Julius King Optical Co., 12 Maiden Lane, and for the first time in the history of these pleasant outings the baseball teams will wear uniforms that have been designed for the occasion.

The United States District Court, of Chicago, has issued an order turning over \$5,000 worth of diamonds to Isaac F. Lloyd, of this city. For more than six years the diamonds had been held by the Government as smuggled jewels, when in

New York Notes.

(Continued from page 71.)

fact they were stolen from Mr. Lloyd's New York home by a burglar.

James A. Pitts, Toronto, Can., was a New York visitor last week.

Edward Schroder, 439 E. 9th St., has been succeeded by Herman L. Schroder.

D. G. Barnett has joined the selling force of M. J. Averbek, 10-12 Maiden Lane.

The W. F. Doll Mfg. Co., 175 Broadway, has been succeeded by the Bennett Mfg. Co.

Theodore Burke has assumed charge of the New York territory for A. Burke & Co.

E. A. Stacy, of Stacy & Co., 738 Broadway, has returned from a New England trip.

J. C. Dowd, of J. C. Dowd & Co., 524 Broadway, sailed for Europe, July 17, on the *Lapland*.

John Davison, importer of china, 12 Barclay St., returned from Europe, July 17, on the *Campania*.

Samuel Osterweil, with David Kaiser & Co., 11 John St., is spending his vacation on Long Island.

Henry Lewis, of Henigbaum & Lewis, 15 Maiden Lane, returned, July 17, from a purchasing trip in Europe.

Mr. Davidsburg, buyer for Abraham & Straus, has returned from an extended trip through European markets.

David Feiss, representing Ingomar Goldsmith & Co., 180 Broadway, is now on his summer trip to the Pacific coast.

Morris Rosen, formerly at 61 John St., has removed to larger and more adequately equipped quarters at 102 Fulton St.

I. T. Polak, with the firm of Van Antwerpen, Van den Bosch & Co., 45 John St., sailed for Europe, last Wednesday.

I. Berman, of S. & I. Berman, 11 John St., returned, last Saturday, on the *Lucania* from a seven weeks' trip in Europe.

M. Van Wezel, of S. L. Van Wezel, accompanied by his wife and son, sailed for Europe, July 14, on the *Mauretania*.

Richard H. Trested, local representative of the Standard Button Co., Attleboro, Mass., is spending his vacation at Rehoboth, Mass.

Charles L. Power, of Power & Allan, Inc., sailed, Tuesday, on the *Potsdam* to visit the diamond markets of Amsterdam and Antwerp.

Kasai & Co., 1231 Bedford Ave., Brooklyn, have opened a new store on the Boardwalk at Sea Isle City, N. J. China, jewelry and novelties are shown.

The wife of C. P. Goldsmith, of the C. P. Goldsmith Co., 87 John St., is recovering from a serious operation performed in one of the prominent hospitals in New York.

Arthur Feiss, who represents the Pennsylvania Watch Case Co., and is a son of David Feiss, with Ingomar Goldsmith & Co., is now on an extended western trip.

An application for discharge in bankruptcy was filed July 14 by John J. Ashley, Jr., and David S. Merwin, formerly of the firm of Ashley & Merwin, who were in business in Brooklyn.

A. B. Stralser, Detroit, Mich., arrived in town July 16. He is on a buying trip, looking over lines for current needs and for the Fall season. He will remain in New

York until next Friday, when he goes east, stopping at Providence and Attleboro.

Upon the recent arrival of the *St. Louis* from Europe, Special Customs Inspector Donohue uncovered four watches, a pair of gold bracelets and a valuable diamond ring in the pockets of Harris Kaplinsky, 86 Graham Ave., Brooklyn. He seized the goods.

Elliott H. Goodwin has been appointed receiver in the bankruptcy of the New York Export & Import Co., 138 Front St. The total liabilities of the concern is stated to aggregate \$140,000, and among the creditors is the Seth Thomas Clock Co., 15 Maiden Lane.

The Etna Brass & Bronze Works, of Brooklyn, has been incorporated to manufacture articles of brass and bronze articles and silver plating, etc., with a capital of \$2,000. The incorporators are: Henry F. Hoffman, 275 Etna St.; Jefferson Marand, 41 Euclid St.; Johanna Hoffman, 275 Etna St., all of Brooklyn.

Wm. M. Green, New York representative of the George L. Brown Co., Attleboro, Mass., returned, Monday, from a two weeks' vacation at Matunick Beach, R. I. While on his vacation Mr. Green distinguished himself by saving the life of Miss Mary McDowan, of the Pawtucket *Times*, Pawtucket, R. I., who got in the undertow and would have drowned but for his heroic efforts.

Officials at Police Headquarters have issued a general alarm for Felix F. De Veux, who disappeared from his home, 273 S. 11th St., Newark, N. J., May 16. As reported in *THE JEWELERS' CIRCULAR—WEEKLY*, a few weeks ago, he went away one Sunday to take a walk and smoke a cigar, and it is Mrs. De Veux's belief that her husband has either met with foul play or is wandering about the country suffering from aphasia.

William A. Brady, the theatrical manager, was presented with a giant potato before he left Ireland. It tipped the beam at two and seven-eighths pounds, and Mr. Brady was so proud of it that he made up his mind to show the tuber on the stage in one of his plays. Special Customs Inspector Timothy Donohue spoiled Mr. Brady's plans, for he sliced the spud from end to end, and seemed disgusted when he found no diamonds hidden in the tuber.

An involuntary petition in bankruptcy was filed, July 19, in the U. S. District Court against Harry Retter and Max Rosenbaum, individually, and as co-partners in the firm of Retter & Rosenbaum, 266 Bowery. The petitioners are: Louis Halpert, 51 Maiden Lane, \$160; Jacob L. Goldenberg, 37 Maiden Lane, \$109; Kaufner & Krengel, 102 Fulton St., \$284. Judge Hand has appointed Joseph W. Spencer, 15 William St., as receiver of the firm's property, under a bond of \$250, and it is directed that all persons, firms or corporations in possession of property of the alleged bankrupt firm, shall turn such property over to the receiver.

On demand of customs officers a necklace valued at \$23,000 was surrendered by the attorneys for Mrs. Fremont B. Chesbrough, who is said to be under indictment for smuggling goods in the false bottom of her trunk. The arrival of Mrs. Chesbrough with the false bottom trunk came at a time

when the customs officials, under the new régime, were especially active in examining the baggage of incoming travelers. The officials say they are unwilling to compromise this case because they believe that a few convictions of rich persons for smuggling will go far toward discouraging such attempts on the part of many who have been suspected of smuggling in the past.

The directors of the National Association of Manufacturers, 170 Broadway, have issued a statement, addressed to Congress, setting forth their views on an income tax. The principle of such an impost is indorsed, but the association declares emphatically against a system of graduation. "We deplore," say the directors, "the effort of demagogues to segregate American citizens, and make Government supporters of one class and charity recipients of another." They, therefore, recommend the enactment of a measure providing a just tax on all citizens, exactly in proportion to their ability to support the Government. As an illustration, they suggest one-eighth of one per cent. on all incomes. This would require 75 cents from the man who receives \$600 a year and \$1,250 from the man who receives \$1,000,000 a year.

Buffalo, N. Y.

Harry Platten has entered the employ of J. House, jeweler at Welland, a Canadian town a few miles from Buffalo.

A party of members of the Buffalo Optical Society recently took a long walk along the banks of the Niagara River.

The Buffalo Credit Men's Association, to which belong some wholesale jewelers, recently held an outing at Niagara River Summer resorts.

Walter Warner's jewelry store in Austin, Pa., was recently destroyed by fire, which swept the business section of the town, causing a total loss of \$60,000.

According to a report from Fredonia, N. Y., Frank S. Jolls, a retired jeweler of that city, has a black pony which has developed so great a craving for chewing tobacco that Mr. Jolls has to buy it for his horse whenever he buys a cigar or plug for himself.

Among the jewelers who recently visited the Buffalo market were: P. M. Riley, Holland, N. Y.; I. Traub, Niagara Falls; E. R. Muller, Batavia; W. H. Fuller, Silver Creek; F. D. Kelsey, East Aurora; S. S. Prentiss, Lockport; J. J. Carr, Niagara Falls; F. J. Kelloway, Silver Creek.

Levant L. Mason, Jamestown, N. Y., reports that he will retire from business. He has been in the trade for more than 60 years, and has been located at one place for half a century. Mr. Mason is 80 years old and is noted for being a skilful engraver. For many years he has been employed at free-hand engraving. So far as years are concerned, he has been longer in business than any other merchant in that city.

J. H. Dey, Evergreen, Ala., has moved his stock into larger quarters, adjoining his former location.

H. S. Siebel has purchased a parcel of real estate on N. Hanover St., Saginaw, Mich., where he will soon erect a new jewelry store building.

SWARTCHILD & COMPANY

THE LARGEST WATCHMAKERS' AND JEWELERS'
SUPPLY HOUSE IN THE WORLD

HEYWORTH BUILDING, MADISON ST. & WABASH AVE. CHICAGO, ILL.

Philadelphia.

Jesse L. Brown, with M. Sickles & Sons, is on his way to the south.

S. Eisenberg has opened a retail jewelry store at 2930 Richmond St.

John Bechtel, engraver, has removed from 129 S. 7th St to 41 N. 9th St.

E. Jaschik, 2137 Front St., has been making extensive alterations to his store.

McKinnic & Son, jewelers, have opened a repair shop at 65th St. and Woodland Ave.

John G. Geist, with Joseph B. Bechtel & Co., will spend his vacation at Atlantic City.

L. Kiebler, jeweler, 2317 Germantown Ave., spent several days in New York, last week.

James Kelly, with the Bailey, Banks & Biddle Co., is away on a vacation with Mrs. Kelly.

George Linnekin, with M. Sickles & Sons, will spend his vacation at Atlantic City and Wildwood.

Emil Pick, with Hammel, Riglander & Co., New York, was a visitor to this city, last week.

Thomas Judge, representing Joseph B. Bechtel & Co., will start on his southern trip Aug. 1.

John Leslie, case maker, who has been confined to his home for several days, is convalescent.

H. W. Asquith, formerly 564 Chew St., Germantown, has removed his business to Hatboro, Pa.

Colonel J. Warner Hutchins was a guest, last week, on board Commodore English's yacht, *Givalda*.

A. Lynde, watchmaker for F. L. Shaw, a Camden jeweler, died, last Wednesday, from an acute attack of indigestion.

W. R. Eisenhower, a member of the firm of J. E. Caldwell & Co., will shortly leave this city for a trip to the Adirondacks.

C. N. Weaver, representing the diamond department of the Bailey, Banks & Biddle Co., returned, last week, from a trip to Europe.

D. H. Krause, North Wales, Pa., purchased an automobile in this city, last week. Mr. Krause expects to make frequent trips to town in his new car.

Charles Muth has improved his branch store, 5 S. 8th St., by the recent addition of a window, in which is displayed an attractive line of jewelry.

George Long, associated with the registry department of J. E. Caldwell & Co., is seriously ill at his home, having suffered a stroke the early part of this month.

I. A. Diesher, Reading, Pa., was in town, last week, buying and visiting throughout the trade. Mr. Diesher is vice-president of the Retail Jewelers' Association.

H. B. McFarlan, Downingtown, Pa., motored with Mrs. McFarlan to this city, last week. The ride was so thoroughly enjoyed that Mr. McFarlan will make frequent trips to town during the Summer.

Max Greenfield, watchmaker, 702 Chestnut St., has the sympathy of his friends in the trade owing to the death of his wife, which occurred July 15. Mrs. Greenfield had been ill for some time.

Miss Lillian E. Bates, daughter of John F. Bates, 3402 Market St., is the proud

possessor of a four-year scholarship at the University of Pennsylvania. Miss Bates was a student at the Girls' High School and was selected from a class of 371.

J. E. Caldwell & Co. are exhibiting in their window the special prize trophy for the open regatta of the Ocean City Yacht Club. The trophy is a large silver-covered cup, and is offered for a one mile dash for motor boats against the American record.

Gus Du Bosq, 722 Chestnut St., the only pearl stringer in this city, is dangerously ill at his home. Mr. Du Bosq has always been identified with pearl and onyx jewelry, repairing and stringing for the best houses in this country, and though more than three score and 10 has been actively engaged in business for the past 40 years.

Max Einhorn, watchmaker for M. Sickles & Sons, and Harry Hall, messenger from Allentown, Pa., narrowly escaped death, last week. Mr. Hall, with Mr. Einhorn, had just crossed to the other side of Market St., when the building collapsed at 11th Market Sts., causing so many deaths. Coroner Ford, after examining the ruins, said the disaster was caused by shifting sills upon which the shores rested and not by a girder striking one of the shores.

Harry A. Saunders, a negro, was arrested, last week, for wilful destruction, having in the past month ruined more than 100 plate glass windows along Chestnut and Market Sts. Jewelers, opticians and other merchants suffered alike. Saunders was caught in the act while trying to prove to Detective Muldowney that a diamond in a cheap locket was genuine by scratching a window with the stone. He was immediately arrested, and is suspected of being a bogus jewelry worker.

The following jewelers were visitors to this city during the week: Josiah B. Hechler, Mainland, Pa.; W. R. Cobb, Pawtucket, R. I.; Charles Butts, representing Geo. H. Fuller & Son Co., Pawtucket, R. I.; Louis Glick, New York; E. W. Carter, Glassboro, N. J.; F. Leibman, with E. P. Reichhelm & Co., New York; M. K. Landenslager, Souderton, Pa.; Ivan Jensen, Riverside, N. J.; B. C. Foster, Bristol, Pa.; W. K. Schlotterer, Schwenksville, Pa., and W. H. Bowser, Ford City, Pa.

A rare "Peach Blow" vase of the most antique origin, dating back to 1600, the end of the Ming Dynasty, has been found in Memorial Hall, in the collection presented to the Pennsylvania Museum in 1882 by Mrs. Bloomfield Moore. This vase is a beautiful Chinese porcelain, 16 inches high, with a globular body and slender neck, and is worth a small fortune. The creation of its wonderful hues is a lost art, workmen being unable to handle the gold oxides which make the colors. This vase is said to be the only one of its kind in the city, and to be the largest and oldest of its kind in the country. An idea of its real value may be gained by a comparison of a "Peach Blow" vase bought in 1886 at the sale of Miss Mary Morgan's collection in New York, \$18,000 being paid for a "Peach Blow" eight inches high, Miss Morgan having paid \$12,000 for it.

T. S. James, Petersburg, Va., has the sympathy of his many friends in the trade owing to the recent death of his mother.

Newark.

Rothwell Taylor, of the jewel department of the American Oil & Supply Co., has returned from a vacation trip in New York State.

Jacob Rothschild, an aged jeweler, 44 Breunall Pl., was stricken with apoplexy, July 11. His condition is said to be critical.

Very few manufacturing jewelers in Newark reopened their factories last week, practically all of them deciding to keep the workrooms dark for two weeks.

Henry George Allsopp, of Allsopp Bros., has returned from an extended pleasure trip. Mr. Varley, of the firm, has returned from a very enjoyable vacation.

The Empire Jewelry Co., 46-48 Oliver St., has been incorporated. Authorized capital, \$50,000. The incorporators are Charles A. Hohnhold, Jacob Hoehing & Ufford C. Jones.

Gustavus Sickles, general manager of the Eastwood-Park Co., Murray and Austin Sts., has just returned from a five weeks' trip to San Francisco, Los Angeles, New Orleans, and intervening cities.

The Park-Mulberry Realty Co., 26 Mulberry St., has been incorporated with an authorized capital of \$100,000. The incorporators are: George R. Howe, East Orange; William T. Carter, this city, and William T. Gough, Plainfield.

The police of Deal, N. J., and surrounding towns have made a thorough canvass of every pawnshop in the district in an effort to locate \$1,500 worth of jewelry stolen from the home of Mrs. Albert M. Gross. The robbery is only one of several which have occurred in the last few weeks. A man who entered the Gross home in the guise of an inspector of meters is believed to have been responsible for the latest, which occurred in the afternoon.

Miss Marie Kopp, bookkeeper in the jewel department of the American Oil & Supply Co., is back at her desk after a vacation in New Egypt. E. E. St. Hoor, western representative of the American Oil & Supply Co., and Mrs. St. Hoor are in Newark for a short stay. Mr. St. Hoor reports western trade conditions much improved over this time last year, and says manufacturing jewelers there are looking forward to the best season in years.

John O. Merrick, 79 Greene St., remains in a serious condition at St. Barnabas Hospital, the victim of an explosion of an alcohol lamp in his room, last week. Mr. Merrick is 88 years old and has been employed as a jeweler for 50 years. He was saved from death only by the prompt arrival of Mrs. Mary Smith, who keeps the boarding house in which he lived. She and friends whom she had summoned in response to his cries found the aged man a living torch writhing on the floor. Everything in the room was ablaze. Men from nearby factories extinguished the flames with hand apparatus, and the first precinct ambulance was summoned. The mishap occurred while Merrick was preparing his breakfast. When the lamp exploded the bottom of a half-gallon can, out of which he was pouring oil, struck him in the face and he was blown across the room.

"Multi-Silver Fortified Back"

Showing silver plating on front of spoon

IN addition to our extraordinary standard plating we put a "Multi-Silver" plating on the entire back of every spoon and fork—the place *wear-resistance* is most necessary:

As our *Multi-Silver* plating is accomplished in one operation, by a new patented process *which we control exclusively*, we get the extra fortification at but a trifle more than the cost of the additional silver:

Our goods have a *standard price and profit for the dealer*, because we take advantage of every invention to make them better:

Send your orders *now* for Fall delivery.

Superior Finish

The coloring department is a very important part of a jewelry factory, especially where fine goods are made, for artistic designing and superior workmanship demand the finest finish that experience and skill can give.

Our goods are all beautifully finished and the effect is rich and lasting. Every design is considered separately and is finished in the most effective manner. It is this painstaking care in our coloring department that gives tone to our line.

E. A. Stacy, of Stacy & Co., New York, was a visitor in this city, the past week. He went to Leominster, Mass., after a couple of days' visit here.

The Mackenzie-Walton Co., manufacturers of plated stock, are removing their plant from 92 Westfield St. to their new factory on Pawtucket Ave.

Raymond C. Ostby and Ralph G. Ostby, of the Ostby & Barton Co., this city, are among the latest arrivals at Newcastle, in the White Mountains, N. H.

S. A. Gordon, of Samuel Gordon & Co., Oklahoma City, Okla., formerly of Rochester, N. Y., was in the city, the past week, calling upon the manufacturers.

Zare White has purchased from the executor of the estate of Patrick Tracy the lot and improvements thereon at the corner of Courtland and Tell Sts. for \$2,500.

The timely discovery of a fire in the basement of the building occupied as a workshop by the Tilden-Thurber Co., on Fountain St., the other night, prevented a dangerous blaze.

Mr. and Mrs. George H. Cahoon and daughter, who recently sailed for Europe, are making an automobile trip through Great Britain. They expect to return August 12 on the *Celtic*.

The Charles M. Robbins Co., of Attleboro, has the contract to furnish the souvenir badges for the 90th anniversary field day of the Rhode Island Independent Order of Odd Fellows, to-day, July 21.

The George H. Fuller & Sons Co., Pawtucket, announces that it will close the factory from July 28 to Aug. 9 for the annual vacation and repairs. The office, however, will continue open during that period.

Word was received, the past week, from Mr. and Mrs. George H. Holmes and Miss Ruth Holmes, who sailed to Europe several weeks ago, telling of a coaching trip through Scotland en route to Edinburgh.

The Gorham Co. closed, Saturday noon, for two weeks' vacation and repairs. Some of the departments, especially the bronze foundry, will be closed but a few days, however, owing to the press of orders on hand.

Arthur D. Stearns, manager of the jewelers' supply department of the Charles S. Bush Co., of this city, is temporarily in charge of the firm's branch store at Attleboro owing to the recent death of Sanford Hamilton.

George J. Kelley, of the W. H. Saart Co., Attleboro, who is Rear Commodore of the Edgewood Yacht Club, of the Narragansett Bay Racing Association, donated a handsome price in the long distance race, last week.

Joseph Savoie and Napoleon Herbert, both of Central Falls; W. Hunter Brown, of Cranston, and Edward C. Glines, of this city, are the incorporators of the Savoie Optical Co. which was recently chartered in Delaware with a capital stock of \$250,000.

Byron E. Daggett, Arthur W. Dennis and Howard D. Wilcox were among the special guests of Col. Joseph E. Fletcher at the Pomham Club, last Thursday, on the occasion of the complimentary dinner ten-

dered by him to the entire First Light Infantry Regiment.

F. H. Drake is on a trip through Michigan and Indiana in the interests of Hamilton & Hamilton, Jr. A. V. Mammersberg is making a tour of the trade for the same firm in the northwestern States with satisfactory results. He expects to be several weeks on his rounds.

William E. Aldred left this city, Wednesday, for New York and sailed the following day on the *Prince Frederick Wilhelm* for Europe. He will go direct to Paris, after which he will make an extended tour through France, Switzerland, southern Germany and England, returning in the early part of September.

The case of Charles D. Heaton, die sinker at 32 Garnet St., against the Providence Mfg. Co., manufacturing jewelers, 25 Calender St., was called in the Civil Session of the Sixth District Court before Judge Gorham, last week. This is a suit on book account and decision was entered for the plaintiff for \$74.50 and costs.

Mr. Taylor, who has been local manager for the Jewelers' Board of Trade for several months, has resigned, and during the past week D. L. Safford, of New York, was in the city attending to matters pertaining to the Providence office. Frank E. Knowles, of the New York office, will have charge of the office here for the present.

At the regular monthly meeting of the directors of the Manufacturing Jewelers' Board of Trade, held at the rooms of the association, on Friday, two new members were elected. The usual routine business was transacted. Announcement was made that the association's new address books were ready for distribution to the members.

Commodore Clarence M. Dunbar and Fleet Captain Aldridge G. Pearce are being complimented by yachtsmen on the choice they have made in the prizes for the port-to-port races during the coming cruise week of the Rhode Island Yacht Club. The innovation of offering articles which are useful on shipboard originated with them and the prizes were furnished by the Tilden-Thurber Co.

The employes of Sulzberger Bros., manufacturing jewelers, 26 Fountain St., journeyed to Palace Gardens, Warwick, Saturday, and enjoyed their annual outing. The party, which numbered about 100, embarked on special cars and upon their arrival at the grounds a lunch was served and afterwards a programme of athletic events was run off which were participated in by members of both sexes. After the sports the gathering enjoyed a shore dinner, with the best of fixings, at which Milton Sulzberger, one of the members of the firm, presided. Later in the evening dancing was indulged in until about 9:30 o'clock.

Judge Stearns, in the Superior Court, Friday, denied a petition for a temporary receiver in the case of John Levesque against L. J. Roy Co., a manufacturing jewelry concern at 53 Clifford St. The petitioner admitted that the defendant firm was solvent when he was called upon by the court to testify in the case. The allegations made in his declaration were to the effect that the petitioner, who is foreman of the firm's factory, owned 13 shares of the stock of the company, but that he did

WORKSHOP NOTES

For JEWELERS and WATCHMAKERS

100 Pages New Matter

Containing 300 Pages (size, 7½ x 10½ inches), Bound in Cloth, Stiff Covers

A collection of the latest practical receipts on the manufacture and repairing of watches and clocks, and on the various processes entering into the manufacture and repairing of jewelry, as coloring, polishing, enameling, annealing, oxydizing, etc., in short, a thorough compendium of the numerous mechanical departments of the jewelers' and watchmakers' shop.

This book is the most useful, comprehensive and perfect publication for the workman at the bench, and should be in the hands of every jeweler and watchmaker in the country. It is the only book of its kind published.

PRICE, by mail postpaid, \$2.50

11 JOHN STREET, COR. BROADWAY (Corbin Building), NEW YORK

not have access to the books of the company, and also contained allegations concerning the firm's business.

Mr. and Mrs. Frank P. Daughaday were Narragansett Pier visitors over Sunday.

Mr. and Mrs. George N. Steere are at Fairview cottage at Fousset for the Summer.

Mr. and Mrs. Charles W. Batty left, Wednesday, for a visit of several days in New York.

The employes of the Attleboro Mfg. Co. will have an outing at Borden Heights on Saturday next.

The Tilden-Thurber Co. has recently added an auto-car of 32 horse-power to its delivery department.

Mr. and Mrs. Louis S. Darling and children left their Summer cottage at Cole's Station on Tuesday for an auto trip through Connecticut.

The first annual outing and field day of the L. Dimond & Sons, Inc. Mutual Benefit Association will be held Friday, the 23d, at Vanity Fair.

George W. Rhodes, with the Gorham Co., was one of the guests of honor at the banquet of the British Club of Rhode Island on Friday evening.

Mr. and Mrs. William R. Dintemple left this city Friday for New York, where they sailed the following day for a two weeks' trip to the Bermuda Islands.

D. L. Safford, of the Jewelers' Board of Trade of New York, accompanied by Miss Safford and Miss J. E. Safford, comprised one of the week-end auto parties at Narragansett Pier over Sunday.

The D. M. Watkins Co. was incorporated at the office of the Secretary of State last week with a capital stock of \$250,000. The corporation is formed for the purpose of dealing in metal products and the incorporators are David M. Watkins, Fred H. Watkins and Albert A. Baker.

Sixty-six employes in the hardening department of the Brown & Sharpe Mfg. Co. had an outing Saturday afternoon at Boyden Heights. The party went to the resort by train and upon their arrival a shore dinner was served. After dinner there was an exciting game of baseball between teams drawn from the married and single men. The single men went down to defeat by the score of 9 to 8 in a contest that had numerous "feature" plays. The committee of arrangements included I. L. Cameron, W. S. Wilbur and Louis Zourie.

Among the foreign importations received through the Providence Customs House, the past week, were the following: From Bremen, seven packages of imitation precious stones, one package of jewelry; from Genoa, eighteen packages of terracotta; from Hamburg, one package of manufactures of metal; from Havre, one package of imitation precious stones, one of imitation pearls, one of manufactures of brass, one of clocks and one of manufactures of metals; from Liverpool, eight packages of manufactures of metals; from Southampton, one package of copper; from Venice, one package of glass ware.

Orlando W. Hawkins, a manufacturing jeweler of Attleboro, whose automobile struck and killed James Martin on N. Main St., this city, on the night of June 15, was given a hearing in the Sixth District Court,

July 13, before Judge Gorham, on a charge of manslaughter. He was adjudged probably not guilty, the court saying he could find no evidence of carelessness either in the operation of the machine at the time of the accident or in the rate of speed at which it was being operated. According to the testimony of eye witnesses of the affair, Mr. Hawkins was in no way responsible for the tragedy, and he was discharged from custody.

The Shepard Co.'s Employes' Mutual Benefit Association made a trip down the river, Friday afternoon, taking advantage of the early closing of the store. The merry-makers left the City Hall at 1:30 o'clock on six chartered electric cars, headed by the Second Regiment Band. The cars were prettily decorated with the colors of the association and each member carried a small banner containing a black "S" on a yellow background. The party proceeded to Vanity Fair, where dinner was served followed by athletic sports and a baseball game. The officers of the association are: President, C. Holmes Little; vice-president, H. L. Jacobs; treasurer, James Rayner; financial secretary, William Lichtenstein; recording secretary, Miss Helena Kenney.

Eighty-five of the employes of the Rueckert Mfg. Co. held their annual field day and outing at Boyden Heights, last week, Saturday afternoon. The party went down to the shore resort on the east side of Narragansett Bay by special car, leaving this city after the closing of the factory at noon for the remainder of the day. After a special shore dinner a programme of field sports, which included a baseball game between the "Giants," representing the employes of the third floor of the factory, and the "Red Sox," representing the second floor, was won by the former by a score of 9 to 8 after a close contest from start to finish. Supper was served at 7 o'clock when the winners of the various events received the prizes offered. The presentations were made by Arnold C. Brown, of the firm. Dancing was then enjoyed for the remainder of the evening. The committee in charge of the outing consisted of Guy Wing, chairman, Walter Pickering, Frank S. Lord, William McCarthy and Miss Margaret Innes.

Making the excuse that he was carrying the emblems home to put in a little extra work polishing them that they might look better than the products of his fellow employes, John F. McCaffrey, 15 years of age, pleaded guilty before Judge Rueckert in the juvenile division of the Sixth District Court yesterday morning to the charge of the larceny of several gold emblems in process of manufacture, the value of which was about \$10, from Charles C. Darling & Co. Judge Rueckert thought that the excuse was a rather flimsy one and fined McCaffrey \$10 and costs. McCaffrey was arrested the previous day by a detective of the Jewelers' Protective Association on suspicion that he might know something about the disappearance of pieces of gold from the jewelry manufactory of C. C. Darling & Co., on W. Exchange St. After a talk with Chief Inspector Horton the youth was locked up for the night. The inspectors discovered, several weeks ago, that small pieces of gold were being sold about town, but failed to

learn where they came from until a few days ago.

Attleboro.

C. H. Eden spent a few days in New York, last week.

H. E. Sweet returned, last week, from an outing spent at Bass Rock.

Charles H. Tappan, who is ill at Falmouth Heights, is reported as resting comfortably.

J. H. Carmody, of the C. H. Eden Co., has returned to Chicago, after a visit to the factory.

John Gray, salesman for the Watson-Newell Co., returned, last week, from a successful trip.

Robert Hunter, who has charge of the Chicago office of George L. Brown & Co., is enjoying a vacation in New York.

The contract for the new Mossberg factory will be given out the latter part of this week, and work will be started immediately.

The death of George J. Barrows, which was recorded last week, was the second that has occurred among the active employes of the J. M. Fisher Co. in 28½ years.

C. M. Robbins, of the C. M. Robbins Co., was in town, last week, for a few days. The latter part of the week he entertained E. S. Horton and others at his Summer home at Robbins' Nest.

A. D. Sterns, manager of the jewelers' supply department of C. S. Bush Co., Providence, has taken temporary charge of the C. S. Bush Co.'s Attleboro office in place of the late Sanford Hamilton.

The Attleboro Mfg. Co.'s employes will hold their annual outing, Saturday, at Boyden Heights. A ball game has been arranged with the Mossberg Co., whose employes will have an outing on the same day.

Work on the Leach & Garner factory on Pearl St. is progressing rapidly. The building is to be completed by the middle of August. The framework is being rushed and the outline of the large building can now be seen.

George J. Kelley, of the W. H. Saart Co., who is rear-commander of the Edgewood Yacht Club, donated a handsome prize, a ship's clock, to the first 18-footer to cross the line in the recent long distance race for the Tribune cup.

It is reported that an attempt will be made to unionize the jewelry workers of this town. The report is not taken very seriously by the manufacturers, who point to the way in which the movement fizzled out a number of years ago when it was attempted.

John Purdy, who has left for an extended visit in the far west, was surprised by his factory associates last Friday. He had been superintendent of the C. H. Allen & Co. factory for a number of years and is now in poor health and will take a vacation for an indefinite period. The employes and members of the firm assembled, last Friday, and presented him with a beautiful gold watch.

The jewelry stores of Monmouth, Ill., close every Tuesday evening during the Summer months.

Boston.

E. M. Wilder, trade engraver, has a Summer home at Onset, Mass.

Elmer Knight, of the Jewelers' building, has returned from an outing in Maine.

Charles May has returned from a brief outing trip to Block Island, Long Island Sound.

C. P. Penno sends his friends an attractive post card with a photographic reproduction of camp life at his place in Pattem, Me.

Buyers in town during the week included: Luigi Taddeo, Worcester; Mr. Jalbert, Jalbert & Farrington, Woonsocket, R. I.; John Pierce, South Paris, Me.

Louis Nordlinger, of L. & M. Kahn & Co., was in town during the week on his way home from a trip to the White Mountain region, New Hampshire.

Henry W. Patterson, of the Smith, Patterson Co., has a cottage at Marblehead, this Summer, for the season. M. N. Smith's Summer place is at Scituate.

Leon C. Remick, with the F. F. Place Co., of this city, is visiting his father at Colebrook, N. H. The elder Mr. Remick has been a jeweler in Colebrook for upward of 30 years.

Lawrence F. Percival's yacht *Sally X.* is entered in the preliminary races, beginning Aug. 17, to decide upon a competitor for the cup offered by the German Emperor for boats of the sonder class.

Timothy O'Connell, art department buyer for A. Stowell & Co., is in Europe on a business trip for the house. He left Paris recently to go to Berlin. Mr. O'Connell will be abroad about two months.

John H. Gilman, for a number of years watchmaker and engraver for the E. B. Horn Co., died suddenly, last week, while on his vacation, at Portsmouth, N. H., his former home city, whither he had gone to spend two months with his daughter.

Maj. C. H. Crump, of the Shreve, Crump & Low Co., sailed for Europe on the Cunard Line, last week. He is accompanied by Mrs. Crump, and they will be abroad several weeks. Major Crump makes a buying trip to England and the Continent annually.

Inspectors Rooney and McCamley, Thursday, arrested Edward M. Robinson, 33 years old, of 15 Vincent St., Dorchester, charged with the larceny of a gold watch from the jewelry store of Charles E. Richard, 232 Grape Vine Ave., Needham. Robinson gave \$200 bail for his appearance in the Dedham court.

Frank McCarthy, 32 years old, who claims he has no home, was arrested, July 13, by Inspectors Pierce, Burr and Smith, charged with the larceny of nine diamond rings valued at \$1,053 from the store of the John C. Derby Co., in the Berkeley building, May 21. McCarthy denies all knowledge of the robbery.

C. G. Shaw, of the Shaw jewelry stores, 49 Winter and 118 Tremont Sts., has leased the store at 61 Temple Pl. of George A. Carpenter. This store is in the new Blake building, built by Mr. Carpenter, who is also the principal owner of the Jewelers' building, where he occupies an office as the selling agent of the Crescent and other watch and case companies.

Old Home Week in Salem, Mass., beginning July 26, will be signalized by the presence in the port of the United States cruiser *Salem* and the presentation to the ship of a silver service, manufactured by the jewelry house of Daniel Low & Co., of that city. The set comprises 17 pieces, including a punch bowl, cups, salver and candelabra, and was purchased with a fund raised by dime contributions from the inhabitants of the city.

North Attleboro.

G. C. Hudson and K. Lucius Taylor spent a few days, last week, at the Cape.

John Thompson was in attendance at the horse races at Woonsocket, last week.

H. J. Straker, of Freeman & Straker, left for Maine, last week, on a pleasure trip.

F. S. Gilbert spent a few days, last week, at the Cape, where he enjoyed a fishing trip.

A. B. Randall, salesman for the Codding & Heilborn Co., left, last week, for the south.

George Whiting returned, last week, from a trip in the interest of Sturtevant & Whiting.

Martin Kettelty left, last week, on an extended trip in the interests of the A. H. Bliss Co.

Walter C. Daboll, with G. C. Hudson & Co., was at the factory, last week, for a few days.

St. Elmo Coombs is traveling in the south in the interests of the Paye & Baker Mfg. Co.

George L. Paine and Clarence King, of the Geo. L. Paine Co., were in New York, last week.

E. D. Sturtevant, of Sturtevant & Whiting, is enjoying a five weeks' vacation at York beach.

J. P. Benjamin has resigned his position as salesman for Boss & Baldwin Co., Attleboro Falls.

E. C. Bliss was a guest at the Worcester Branch of National Metal Trade Association, last week.

H. F. Barrows has returned from the White Mountains, where he has been enjoying a vacation.

T. I. Smith has taken up his Summer residence at Oaks Bluff and will spend the next two months there.

An advertisement in the local paper, last week, calling for 1,000 purse makers, attracted a great deal of attention.

A large tract of land on Richards Ave. has been sold by C. Charles Draper and Mrs. Annie Hale to Straker & Freeman.

William B. Peckham left, last week, for Billings, Mont., where he will spend a short vacation. Before returning he will visit the Seattle Exposition.

Dr. E. E. Hale returned, last week, from a three weeks' vacation passed in New Hampshire. While there he attended the 25th reunion of the Dartmouth class of 1884, of which he was a member.

Michael T. Leary, a native of this town, has purchased an interest in the Rhode Island Novelty Co., located in Providence. The business in the future will be known as Leary & Penfold. Mr. Leary will be the manager.

Mrs. Jane Shepardson, widow of the late Isaac Shepardson, who was one of North Attleboro's earliest jewelers, died, last week. She left a stepson, Frank L. Shepardson, who now conducts a jewelry shop under the style of F. L. Shepardson & Co.

G. H. French, treasurer of the W. & S. Blackinton Co., has filed the following corporation report: Machinery, \$30,904; cash and debts receivable, \$145,631; merchandise, \$36,202; total, \$212,737. Capital, \$150,000; accounts payable, \$1,592; surplus, \$61,145; total, \$212,737.

Other manufacturing jewelers who intend to close from July 31 to Aug. 9, and whose names were not mentioned last week, are: Estate of O. M. Draper, H. H. Curtis Co., John P. Bonnett & Son, A. L. Lindroth & Co., Bishop Co., E. Ira Richards & Co., North Attleboro Enameling Co., Maintien Bros. & Elliot, E. I. Franklin & Co., and Mandalian & Hawkins.

A first meeting of the creditors of the Miller, Fuller & Whiting Co. was held in Taunton, last Tuesday afternoon, July 13, before Referee Clifford P. Sherman. Seven claims were received and approved. A second meeting will be held in Taunton on July 28. The Manchester Bank of New Hampshire has a claim of \$5,000, and is the largest creditor. A. R. White, East Taunton, was appointed trustee.

Trans-Atlantic Voyagers.

TO EUROPE.

A. Rosenfeld, Leavenworth, Kans., sailed this week.

J. C. Dowd, New York, sailed, July 17, on the *Lapland*.

C. L. Power, of Power & Allen, New York, sailed Tuesday on the *Potsdam*.

M. Van Wezel, of S. L. Van Wezel, New York, sailed on the *Mauretania*, July 14.

Maj. C. H. Crump, of the Shreve, Crump & Low Co., Boston, Mass., sailed last week.

Capt. R. E. Burdick, of the Bowler & Burdick Co., Cleveland, O., sailed, Saturday, on the *Lapland*.

Goodman King, of the Mermod, Jaccard & King Jewelry Co., St. Louis, was a passenger on the *Kaiser Wilhelm der Grosse*, July 20.

W. F. Kirkpatrick, of W. F. Kirkpatrick & Co., St. Joseph, Mo., sailed, July 15, on the *Prinz Friedrich-Wilhelm*. William F. Aldred, Providence, R. I., sailed on the same boat.

FROM EUROPE.

John Davison, New York, returned, July 10, on the *Campania*.

Mrs. E. M. El Khoury, Atlantic City, N. J., returned, July 13, on the *Carmama*.

Mr. Kadison, of Pera & Kadison, New York, returned, recently, on the *Mauretania*.

C. N. Weaver, of the Bailey, Banks & Biddle Co., Philadelphia, returned, last week.

Henry Lewis, of Honigbaum & Lewis, New York, returned, July 17, on the *St. Louis*.

Newton H. Rogers, of Hayden W. Wheeler & Co., New York, returned, July 13, on the *Kaiser Wilhelm der Grosse*, also Harry C. Adler, of Charles Adler's Sons, New York.

VOL. LVIII.

CHICAGO, WEDNESDAY, JULY 21, 1909.

No. 25.

Chicago Notes.

E. H. Pudrith, Detroit, Mich., was here, last week.

"Sig" Stern, of Stern Bros. & Co., visited his city, last week.

Max Gross, diamond dealer, is confined to his home by illness.

John Abel, of Abel Bros. Co., was here, last week, visiting the trade.

Fd. O. Baumgarten, with M. F. Barger & Co., left for the west, last week.

Chas. M. Waara, with E. A. Waara, Hancock, Mich., was here, last week.

Frank T. Barton, with the Fontneau & Cook Co., is on a visit to the factory.

Harold A. Forbes, well known in watch circles, is spending a few days here.

Chas. L. Lande, a retail jeweler at 3518 S. State St., was married, last week.

Jules S. Mayer, with the Mauser Mfg. Co., is on his way to the Pacific Coast.

C. L. Stange, with the L. Bauman Jewelry Co., St. Louis, Mo., was here, last week.

J. A. Limbach, with Theodore W. Foster & Co., is on a visit to the factory.

Leo M. Schneidman, 3536 S. State St., has discontinued his retail jewelry business.

John Strain, Carrollton, Ill., has returned from a vacation at Lake Minnetonka, Minn.

Richard F. Spies, of Spies Bros., is on a trip to New York and eastern Summer resorts.

W. E. Heyward, Chicago manager for the Mylin Mfg. Co., is on a trip to the Seattle exposition.

Clarence Roehr is on a visit to the factory of the Bassett Jewelry Co., at Providence, R. I.

Sam Zimmern, of Henry Zimmern & Co., was here, last week, on his way to the Pacific Coast.

Paul Wittstein, jewelry jobber, is on a six weeks' trip to Europe, accompanied by his daughter.

A. L. Williams was recently called home from a vacation at Duluth by the death of an old friend.

Oscar Arnold, Ottumwa, Ia., is spending a month in California, and is expected home about Aug. 15.

Jay B. Johnson, Goodland, Ind., has bought out the store of W. F. Laraway, Glenwood, Ia.

Walter Volkman, Kankakee, is with an automobile party making the Glidden tour to Denver, Col.

Miss Mary E. Thompson, daughter of W. L. Thompson, with the Rockford Silver

Plate Co., is on a visit to friends in Colorado.

P. Kern, formerly at 198 E. 55th St., has removed to a larger store three doors east of his old location.

Walter G. King, of the Julius King Optical Co., visited the Chicago offices of that corporation, last week.

Fred Rowe, retail jeweler at Hoquiam, Wash., reports the unexplainable loss of a quarter-carat diamond.

H. Grossman, 227 S. Halsted St., has added new fixtures to his store, and has completely remodeled it.

John G. Dunker, with the Matthewson-Pelz Jewelry Co., Marshall, Tex., spent his vacation here, last week.

Henri Didisheim, Chicago manager for Hipp Didisheim & Bro., has returned from a 10 weeks' European trip.

Wm. A. Emerson has been engaged as private secretary to Jacob Franks, president of the Rockford Watch Co.

L. H. Schaefer, who was confined to his home for a week with a sore foot, is again able to attend to his duties.

L. Seligman has returned from a European trip which included a visit to his native city, Munich, Bavaria.

Ernest M. Lunt, Chicago manager for the Towle Mfg. Co., is back from a trip to the factory at Newburyport, Mass.

L. Eisenbach and S. Newman, of the traveling force of A. Hirsch & Co., leave for their respective territories this week.

Jay B. Johnson, Goodland, Ill., has sold out to Carl M. McKee, Wolcott, Ind., who will still continue in business at Wolcott.

Fred Hyatt, with the Philadelphia Watch Case Co., and H. W. Hedge, with the New York Standard Watch Co., are on a western trip.

Caro & Co., 338 State St., have taken a lease of 206 State St., and will open a jewelry store there as soon as alterations are completed.

It is reported here that Seth Laraway, manager for W. F. Laraway, Glenwood, Ia., will open a new jewelry store about Aug. 1, at Eugene, Ore.

F. Lane, 11439 Michigan Ave., has completed the erection on his property at 111th St. and Michigan Ave. of a three-story store and flat building.

E. R. Tyler, who recently removed from Huntington, Ind., to North Manchester, Ind., was here, last week, buying his fixtures and his opening stock.

W. A. Bowen, retail jeweler at Kewanee,

Ill., was here, last week, buying fixtures for his new store, which will be ready for occupancy about Aug. 1.

Geo. N. Ford, a retail jeweler who retired from business about six years ago, has again entered the retail jewelry business at 5131 S. Ashland Ave.

C. B. Norton, Kansas City, Mo., stopped over here, last week, on a fishing trip to Spider Lake, Wis., and was accompanied by his wife and daughter.

The estate of Geo. C. Schreiber, who died at Lincoln, Ill., over a year ago, has been wound up. Creditors have received 10 1/4 per cent. of their claims.

C. M. Rhuman, buyer of gold jewelry, and John Tuttle, silverware buyer for Hyman, Berg & Co., are in New York for a two weeks' purchasing trip.

Mr. Lewis, of Lewis & Van Sickle, Des Moines, Ia., was here, last week, buying machinery for a jewelry shop to be run in connection with the business.

Fred G. Bohem has secured the line of the Cutler Jewelry Co., Providence, R. I., which he will represent here in addition to the line of Dunn & Rodenberg.

Alvah J. Munson, formerly of Ames, Ia., is on a trip west, looking for a good town in which to open a retail jewelry store, and will probably settle in Washington.

Miss Louise Wechter, formerly bookkeeper for S. Wechter & Co., is recovering from her recent illness, but will not again enter upon her duties, as she intends to remain at home.

A. Rosenfield, Leavenworth, Kans., accompanied by his wife and mother-in-law, stopped over in this city, last week, en route to New York, from which port they will sail for Europe.

Fred Neasham, Fred Nyman, S. R. King, Ed. Reynolds and "Bob" Barlow, of the traveling force of the C. H. Knights-Thearle Co., all leave for their respective territories this week.

Wm. Lambrecht, a retail jeweler at 1576 Milwaukee Ave., has installed a new front to his store and has otherwise made his premises more attractive with new electroliers and other fittings.

T. S. Terry, who recently sold his retail jewelry store at Downs, Kans., to A. Wolfert, was here, last week, buying the opening stock for his new store at Nevada, Mo., which he will open about Aug. 1.

J. Harry Ott, salesman for Kreis & Hubbard, umbrella manufacturers, will leave soon on his holiday trip through the entire

south. This is his fifth successful year in this territory with the K. & H. lines.

Paul Strain, formerly of Rolla, Mo., who bought out Howe, of Bloomington, Ind., has one of the finest stores in that State. Mr. Howe, it is reported here, intends to open a jewelry store in the State of Texas.

A. L. Scrcomb, Chicago manager for the International Silver Co., was married July 3, to Mrs. K. Johnson. The wedding was private. Mr. and Mrs. Scrcomb are on a honeymoon trip to the eastern Summer resorts.

Lydia K. Schuette, wife of B. Schuette, jewelry jobber in the Heyworth building, died suddenly, last week, and was buried on July 13 at Grauland Cemetery. His friends in the trade extend to Mr. Schuette their heartfelt condolence in his bereavement.

F. H. Pitcher, Benton Harbor, Mich., has sold his store to Hamilton Bros., St. Joseph, Mich. The latter have installed new fixtures in the Benton Harbor store and carry it on under the name of Hamilton Bros. & Co., the "Co." being a nephew of the Messrs. Hamilton. Mr. Pitcher will locate in California.

W. A. Fay has joined the ranks of the Chicago dog fanciers, and is the proud possessor of a fancy bred English bulldog which has a pedigree as long as the drainage canal. "Twister," as the dog is called, has a fine voice, which is becoming sweeter every day on account of being fed exclusively on canary bird seed.

The following members of the trade are on their vacations: W. H. Wiley, gold jewelry buyer for C. D. Peacock, to his native town in Pennsylvania and eastern resorts; Herman Hirsch, with A. Hirsch & Co., to Elkhart Lake, Wis.; Oscar Hirsch, of Hirsch & Oppenheimer, to Michigan on a fishing trip; W. S. Sims, with F. E. Morse Co., at Bay City, Mich.; A. B. Paulsen, with Waite & Thresher Co., to Lauderdale Lake, Wis.

The following members of the trade have returned from their vacations: Mr. Malmstrom, of Pearson & Malmstrom, from Wisconsin; "Bob" Barlow, with the C. H. Knights-Thearle Co., from Vermont; Sig. Thein, with I. Schwartz, from Long Lake, where he caught an 18-pound muscullonge; Fred Goldberger, manager for S. Buchsbaum Co., from Brown's Lake, Burlington, Wis.; H. C. Graffe, of Graffe & Stanek, from Power Lake, Wis.; J. W. Tice, with Adolph Schwob, from Lauderdale Lake, Wis.

Among the retail jewelers in Chicago, last week, were: Elisha Thayer, Rockford, Ill.; Bert Brown, Peoria, Ill.; Dave Lochman, Springfield, Ill.; Hy. Liming, Peru, Ill.; Will Dale, Sullivan, Ind.; Chas. F. Bauer, Saginaw, Mich.; Geo. W. Koerper, Mendota, Ill.; L. M. Bird, Aurora, Ill.; Wm. D. Roeder, Dwight, Ill.; H. E. Volkman, Kankakee, Ill.; A. D. Miller, Braidwood, Ill.; A. E. Rush, Macomb, Ill.; B. Reingold, Jr., Sioux City, Ia.; A. W. Ford, Freeport, Ill.; Louis Tschumy, Galveston, Tex.; Geo. Youmans, Waukegan, Ill.; W. G. Riley, Gary, Ind.

Mrs. Williams, wife of William P. Williams, toastmaster at all of the banquets of the Chicago Jewelers' Association, was injured, last week, as a result of her heroism while risking her life to save the lives of

others. As she was waiting for her husband at the station at Mukwanago, Wis., where their Summer residence is, an automobile frightened the horse attached to Mrs. Williams' buggy. The animal became unmanageable and ran down the road toward some women, who were directly in the path of the runaway. Mrs. Williams, in order to avoid running down the women, drove the horse into a tree and was thrown from the vehicle. She was picked up in an unconscious condition and was taken to her home.

An order has been entered here turning over \$5,500 worth of diamonds held by the United States Customs authorities to Isaac F. Lloyd, of New York. For four years the 278 diamonds have been held as smuggled property, and their ownership has been in dispute for that time. About four years ago a jeweler on West Chicago Ave., named Bohl, was arrested in a saloon for offering diamonds at a low price and which he claimed were smuggled. Bohl named one Henry Hoffman as his principal, and the later was arrested for smuggling. He was tried and found guilty and served 10 years in the federal prison at Leavenworth, Kans. The diamonds were proved to have been stolen by him and a woman accomplice, and Hoffman was glad to serve 10 years in Leavenworth instead of getting a much longer term in New York for the robbery.

A man named Evans, alias Ryan, alias Larkin, was arrested here, last week, with two women, charged with stealing a diamond ring valued at \$85 from Turner Bros., retail jewelers at 331 W. Madison St. Late one afternoon, while C. W. Turner and a clerk were in the store, the trio entered and said they wanted to buy a diamond ring. They selected one stone at \$30 and paid \$1 deposit on it, saying they would call for it later. When Mr. Turner handed over a receipt for the money he looked over the tray he had been showing and found a white stone ring had been substituted for an \$85 stone. Mr. Turner ran out of the store and caught one of the women, and the clerk followed and caught the other woman. The man who had disappeared during the chase was subsequently arrested. Upon hearing of the arrest Edward Alberti, retail jeweler at 900 Milwaukee Ave., called at the police station and identified the prisoners as the trio who had played the same trick on him and stolen a diamond ring from him valued at \$100. Mr. Alberti recovered his ring from a pawn ticket in possession of one of the women. Turner Bros. have not yet recovered the property.

The store of B. T. Jones, Cortland, N. Y., was the scene of a burglary on Monday, of last week, but the thieves were evidently frightened away before securing any plunder.

Judgment was affirmed, recently, by the Superior Court in the case of the City of Scranton against Charles B. Engel and several other jewelers of that place. The jewelers had been charged with operating pawn brokerage establishments without a license, and the police magistrate fined them \$100 each in order to test the law. An appeal was taken to the Superior Court, with the result that the legality of the city ordinance was affirmed.

Los Angeles.

Mr. and Mrs. Frank LeMont, Tempe, Ariz., are visiting in Long Beach.

Sam Mayer, Denver, was in attendance during the Elks' recent convention here.

M. Greenwald, of Greenwald & Adams, Tucson, Ariz., is spending some time at Ocean Park.

L. Tannenbaum, New York, and August C. Fried, of La Sécia, Fried & Co., were in this city, recently.

Louis Burger, formerly with T. B. Clark, in the jewelry business in this city, is now sojourning at the beach.

Newton Moore is home again after a trip of five weeks, during which he visited the City of Mexico, Washington, New York, Boston, St. Louis, Chicago and Denver.

Chas. McNiff, buyer of gold jewelry for Brock & Feagans, has gone east. He will join Mr. Feagans at Joliet, Ill., and they will go together to New York and other eastern points.

All the jewelers decorated their stores liberally during the national convention of Elks. As a courtesy to the Elks all the large street clocks were stopped, leaving the hands standing at 11 o'clock.

Brock & Feagans has just made new medals from their own original designs as prizes at the Venice of America Kettle Club. They are made of bronze, surrounded by a dog's head in sterling silver.

E. Gerson, 545 S. Broadway, has a prominent window display of elks' teeth and other Elk goods, produced in his own factory during the convention. A unique feature of the display was a number of California stones cut in the shape of an elk's tooth.

Out-of-town jewelers who have been here, recently, include: George Dierker, Anaheim; George Krybe, Santa Ana; M. J. Kallher, Whittier; Dr. L. C. Sawin, River side; J. F. Reed, Santa Monica; L. W. Ernsting, San Diego; H. W. Pruner, San Diego; Mrs. John Parker, Whittier; Walter Hegge, Globe, Ariz., and H. M. Furl, San Diego.

Montgomery Bros. have been exhibiting a number of elegant trophies in the show windows of their establishment. The trophies include a large cup for the winner of the automobile races from San Francisco to Los Angeles, a silver trophy for the band tournament at Long Beach, and three large cups to be awarded at the regatta in Santa Monica Bay. A unique display in another window comprises 367 genuine elks' teeth.

Percy H. Greer, of this city, has in his possession a very rare necklace made of 50 \$1 gold pieces coined in 1876. The pieces are of different styles, one considerably larger than the other. All are suspended on a gold chain worked out in filigree. The ornament was made as a present to be given at a golden wedding celebrated in 1876. The only inscription on it is "Married in 1826. S. A. S. Celebrated 1876." Descendants of the recipient of this necklace afterward pawned it with a Chicago resident.

H. F. Wallace has returned from a two-months' trip through the east. He traveled most of the time by automobile, having purchased a new White steamer in Cleveland

From Cleveland he went by way of Pittsburg to Washington, and thence to Baltimore, Philadelphia, New York, Providence, Boston, New London, through the Berkshire Hills, thence from Albany to Buffalo and Chicago. He reports having a most delightful trip, having had but three punctures during the trip of 3,000 miles and no mechanical trouble whatever. He is having the automobile shipped from Chicago here.

Brock & Feagans recently displayed in their window the beautiful \$500 Leon Shettler perpetual challenge cup donated by Mr. Shettler, of this city, to the winner of the Santa Monica automobile road race. The cup stands 18½ inches above a base which is about eight inches high. On one side is the finely-etched portrait of Mr. Shettler and the initials of the words "Automobile Dealers' Association of Southern California." On the reverse side are the words "May the best car win." About the base of the cup is a series of winged wheels. The ebony base is surrounded with silver shields. The cup was designed by Brock & Feagans and made by the Gorham Co.

Minneapolis and St. Paul.

Wm. M. Stone, Minneapolis, has been enjoying an outing trip for a week.

E. H. Brandes, of the Paegel Jewelry Mfg. Co., Minneapolis, has returned from Aberdeen, S. Dak., where he spent his vacation.

O. D. Bush, formerly in the retail business at Berthold, N. Dak., was in the Twin Cities, last week. Mr. Bush is seeking a new location.

C. A. Tostenson, watchmaker for R. A. Peterson, Sisseton, S. Dak., was in the Twin Cities, en route for his old home at St. Peter, Minn., last week.

Henry Birkenhauer, of the Birkenhauer-Thomsen Co., Minneapolis, who has been ill and confined to his home for several days, has recovered. C. M. Thomsen, of this house, is spending his vacation near Milaca, Minn.

C. A. Agnew, a manufacturing jeweler, committed suicide at his rooms, 211½ Nicollet Ave., Minneapolis, by inhaling gas. He left a letter stating that enemies were pursuing him and he sought relief in suicide. No relatives are known.

The development of the department stores in the Twin Cities is rather marked. As they all have jewelry departments, their growth is of interest to the trade. In St. Paul the Emporium is about to move into a handsome new building, which will afford larger room for all departments. Bannon & Co., St. Paul, are remodeling the three upper floors of their building, and will utilize them for retail business. The Golden Rule, St. Paul, is doubling its frontage on 7th St., as well as building additional room above. In Minneapolis the Leader Department Store has secured a lease of the entire building at the corner of 3d St. and Nicollet Ave., which adjoins the Leader, and will occupy the entire space, as well as its own.

S. Remholdtson, Lake Park, Minn., has taken charge of the jewelry store of P. H. Holm, Warren, Minn.

Milwaukee.

A. C. Fuchs & Co., Stoughton, have joined the Jewelers Security Alliance.

F. E. Garner, Rockton, recently found a pearl in the Pecatonica river valued at several hundred dollars.

Klimek Bros. have opened their new jewelry store at 1125 Tower Ave., Superior, and are already meeting with a good trade. An optical department has been opened.

The Grand Ave. Merchants' Association was organized at a meeting held in Milwaukee, a short time ago. Adam Bloedel, a retail jeweler, is among the merchants interested.

Gross & Sachs, 319½ 3d St., have extensively remodeled their jewelry establishment. A new safe has been installed, new wall and display cases have been added and the store has been made one of the finest in the city.

Among the out-of-town jewelers in Milwaukee, last week, were: E. M. Potter, La Farge; J. B. Kimball, Waukesha; F. H. Coburn, East Troy; M. F. Peters, Mauston; Henry Bayer, Whitewater, and William F. Notbohm, Oconomowoc.

E. H. Warnke, president of E. H. Warnke & Co., Milwaukee, took a prominent part in the big celebration held in Milwaukee, last week, by the Elks' lodge. Mr. Warnke was a member of the privilege committee and a special deputy for the week.

For the purpose of making Grand Ave. more sanitary and better lighted, about 60 merchants have organized the Grand Ave. Advancement and Sanitary Association. Jewelers have taken an active interest in the matter, and Herman Bloedel, representing the Adam Bloedel Jewelry Co., was one of the organizers of the new association.

Miss Estella Dunn, aged 32 years, daughter of Imri Dunn, a jeweler at Bloomington, Ill., met a tragic death in Milwaukee, last week, when she jumped from a second story window of the public museum. The young woman, who was temporarily deranged, had been an inmate of the Milwaukee sanatorium at Wauwatosa for some time.

A wonderful cross of steel, made of 2,000 small pieces of metal and valued at about \$1,000 by A. Werner, a well-known silversmith of Milwaukee, who made the piece, has returned to Milwaukee after it has been on exhibition in nearly every large city of the country. The cross was described in THE JEWELERS' CIRCULAR—WEEKLY, July 18, 1909.

The annual meeting of the Jewelers' Mutual Fire Insurance Co., of Wisconsin, was held on the evening of July 20, the opening day of the annual convention of the Wisconsin Retail Jewelers' Association. According to the constitution, the meeting should be held on July 19, but it was postponed in order that the jewelers would not have to arrive in the city one day earlier.

The latest victim of burglars is George Durner, 695 3d St., whose store was robbed of 10 gold bracelets, a number of watches and a neck chain, valued in all at about \$100. A round hole in the front window, with a circumference a little larger than a man's arm, led the police to believe that the window smasher was an experienced bur-

glar. The fact that only cheap jewelry had been left in the window accounts for the loss being a small one. No trace of the robber has been found. The store figured in a sensational robbery, a year ago, when more than \$3,000 worth of diamonds were stolen while the store was crowded with Christmas shoppers. In their flight the pursued burglars dropped about \$2,400 worth of the stones, which were later recovered.

The programs for the fourth annual convention of the Wisconsin Retail Jewelers' Association and the ninth annual convention of the Wisconsin Association of Optometrists are out and have been sent to jewelers and opticians all over the State. The cover is artistically done in green, and the whole program is especially handsome. Francis A. Cannon, secretary of the Citizens' Business League, of Milwaukee, has written the greeting to jewelers and opticians on the opening pages of the book, and a hearty welcome is accorded. The jewelers' gathering will be held in Milwaukee, July 20, 21 and 22, while the optometrists meet on July 20 and 21. The St. Charles hotel will be the headquarters of both conventions. John P. Hess, Fond du Lac; W. H. Becken, Beaver Dam, and J. R. Chapman, Oshkosh, will be the leading speakers before the jewelers' convention. Special attention will be given to the matter of exhibits by manufacturers and jobbers, and this feature will be one of the most attractive of the gathering. The principal subject to be taken up by the optometrists will be that of legislation. Ernest Eimer, secretary of the Michigan Society of Optometrists, through whose efforts an optometry bill was passed by the last session of the legislature, will deliver the leading address. Other speakers will be: T. O. F. Randolph, president of the Wisconsin Association of Optometrists; Hugh McEwan, Fond du Lac; W. A. Pfister, Sheboygan, and Prof. George A. Rogers, president of the Chicago College of Optometry. The clinical address by Prof. Rogers is expected to be one of the most elaborate of its kind ever presented before a State convention.

Toledo.

William H. Broer, 427 Summit St., has improved the appearance of the front of his store by the addition of a handsome new sign.

Arthur Christen, 719 Cherry St., jeweler, in addition to his annual midsummer house-cleaning has repainted both his signs and his store front.

The Libbey Glass Co.'s plant has just closed down for its annual Summer vacation. The company will put a number of new designs on the market for next year.

The new store room of W. A. Rankin, on Superior St., is rapidly nearing completion, and when finished will be one of the most up-to-date stores in the city. An entirely new front is being installed, while new cement sidewalks, new ceiling, new decorations and an entirely new line of furniture will be added before the room is occupied. Mr. Rankin has also arranged to greatly increase his stock over that carried at his present location on the second floor of the Denison building.

St. Louis.

Samuel Hotchner, of A. Hotchner & Son is now in Europe, making purchases.

S. Vandervort, of Vandervort Bros., Buffalo, N. Y., was a visitor in the city, last week.

W. C. Lewig is getting ready to go to Eureka Springs, Ark., for a stay of two weeks.

Martin Hacker will leave, Monday, for Flathead Lake, Mont., where he will spend a month.

C. B. Robbins has joined the ranks of the automobilists, having purchased a machine, last week.

Charles Spindler, of the F. W. Drostens Jewelry Co., returned, Saturday, from a vacation trip.

John Schmid, a jeweler of this city, has disposed of his property at 1419 and 1421 Market St., in this city.

L. W. Braun, of S. Ruby & Co., has returned from a business trip of 10 days to New York and to Atlantic City.

Ralph Loewenstein, of the R. Loewenstein Jewelry Co., has returned from a trip to Europe. He was accompanied by his wife.

J. Bolland, president of the Jno. Bolland Jewelry Co., will go east in a short time to join his family, who are spending the Summer there.

E. E. Smith, president of Smith's Credit Jewelry Co., will leave shortly for a vacation trip to Arkansas. He will be away three weeks.

The B. H. Stief Jewelry Co. filed suit in Justice Pfeffle's court against Henry P. Nelson for \$73.95 on account. The case is to be heard, July 29.

Mr. and Mrs. A. L. Bauman returned, last week, from a stay of several months in Europe. Mr. Bauman is president of the L. Bauman Jewelry Co.

A fire which originated in the building at 617 Pine St., this city, did considerable damage to the American Plating Co. The loss is estimated at about \$2,500.

Edwin A. Tufts, of the Whelan-Aehle-Hutchinson Jewelry Co., is spending his vacation in beautifying his already attractive new home at Belleville, Ill.

Cups and other trophies to be awarded to the winners in the Priester's Park marathon, to be run Sunday, were made by the Hess & Culbertson Jewelry Co.

C. Spencer, with Solomon Ruby, 511 N. 6th St., left Saturday, accompanied by his wife, for Kampsville, Ill., on the Illinois river, where they will spend a week.

S. H. Bauman, president of the Bauman-Massa Jewelry Co., returned, Wednesday, from his trip to Europe. He was accompanied on the trip by Mrs. Bauman.

Mrs. Ida J. Spieldock, formerly with the Hess & Culbertson Jewelry Co., has taken a position as bookkeeper with the Erber Jewelry Mfg. Co., 610 Pine St.

C. P. Hutchinson, vice-president of the Whelan-Aehle-Hutchinson Jewelry Co., is out of the city on a vacation trip. John Wells, of this company, is spending his vacation in Muscogee, Okla.

Israel Tendler, Elgin, Tex., who has been here for several days making purchases, will go to Peoria, Ill., before returning home, to visit his son, who is tak-

ing a course in a watch-making school there.

A letter received in St. Louis from H. Estinghausen, proprietor of the Attleboro Jewelry Co., announces his arrival at Ketchikan, Alaska. He stopped at the Seattle Exposition for a few days on his way out and will stop for a longer visit on his return trip.

Louis Harris, of the Harris & Goldman Diamond Importing Co., who left last week for a trip to Europe, will be abroad about six weeks and will visit the leading diamond markets and make extensive purchases.

F. H. Grawe will go to Troy, Ill., Sunday, to visit his father and mother, Mr. and Mrs. H. C. Grawe, who are spending the summer there. The condition of Mr. Grawe, Sr., who is an invalid, is not improved.

Mrs. J. J. Burke, wife of the proprietor of the Brooks Jewelry & Optical Co., who underwent an operation at St. Anthony's hospital, and was in a critical condition, last week, is now considerably improved and is thought to be out of danger.

E. B. Westphall, who says his home is in Nashville, Tenn., tried to dispose of some dental gold at the jewelry store of W. Hellingrath, Belleville, Ill. Mr. Hellingrath was suspicious and called a policeman. The man was taken to the police station. He admitted having stolen the gold from a dentist at Dupon, Ill.

F. W. Hoyt, president of the Hoyt Jewelry Co., returned, Monday, from an extensive western trip, on which he combined business and pleasure. He was accompanied by Mrs. Hoyt. They visited the exposition at Seattle, and most of the principal western cities and resorts. They left St. Louis at the end of May.

Arthur Widdicombe, of the St. Louis Clock & Silverware Co., has gone to Chicago, accompanied by his wife and baby, to visit friends. Miss Ella Buchfelder, of this firm, will leave, Monday night, for a river trip up the Mississippi to Keokuk, Ia. Miss Helen Hitch returned, Friday, from a two weeks' river trip to St. Paul.

Floods in the territory adjacent to this city have injuriously affected business by hampering the movements of traveling men and preventing buyers from coming to St. Louis. The crest of the flood in the Missouri and Mississippi rivers were reached Friday, and the waters are now expected to subside unless more rain falls.

Mrs. William F. Baier, of South Broadway, has gone to Los Angeles, Cal., on account of the serious illness of her husband. Mr. Baier has stores in St. Louis and Los Angeles, and he went to Los Angeles three weeks ago, expecting to remain there until Fall. He was taken sick soon after his arrival and had to be taken to a hospital. A letter just received from Los Angeles states that his condition is not now as serious as it was formerly.

Out-of-town jewelers in St. Louis, during the past week, were: E. A. Short, Prescott, Ark.; A. Y. Boswell, Tulsa, Okla.; I. M. Blitz, Topeka, Kans.; W. Westphal, St. Charles, Mo.; S. A. Whitley, El Dorado, Ill.; W. K. Urbani, Vandalia, Ill.; W. R. Tetley, Farmington, Mo.; Israel Tendler, Elgin, Tex.; Adam Haffner, De Soto, Mo.;

Otto Friedrich, Cape Girardeau, Mo.; W. H. Jahn, Pacific, Mo.; Otto Rink, Carlyle, Ill.; Mr. Pelz, of the Mathewson-Pelz Jewelry Co., Marshall, Tex.

Paul Ducommon, who has a jewelry store at 2731 Chouteau Ave. near Jefferson Ave., is temporarily incapacitated from business by reason of a severe cut which he received in an unusual manner. Mr. Ducommon went into a barber shop in the vicinity of his store one day this week to be shaved. While the barber was stropping his razor a fly annoyed Mr. Ducommon repeatedly. In his exasperation he struck at it just as the barber was about to resume shaving him. His hand came in contact with the razor with such force that it was cut to the bone.

The creditors of Edward T. Gotsch, formerly in business at 4102 Olive St., had their first meeting, Tuesday of last week, at the office of Referee in Bankruptcy, Coles. The meeting resulted in the appointment by Referee Coles of Lilber E. Richardson, as trustee. His bond was fixed at \$1,000. The meeting adjourned until July 19 at 11 A. M. Mr. Richardson later filed his bond and it was approved, and he filed a report, which was also approved. He was allowed \$25 for his services and was authorized to retain a small amount of money in his hands on account thereof.

J. J. Menges, general buyer, and Rudolph Niehaus, china buyer, of the Mermod, Jaccard & King Jewelry Co., who have been buying in New York, the past week having accompanied Goodman King, president of the firm, that far when he started on his trip to Europe, both left New York, Monday, to spend two weeks' vacation at the eastern resorts. J. McPherson Reeder, manager of the cut glass department of the Mermod, Jaccard & King Jewelry Co., has returned from a two weeks' trip to New York. Daniel O. Rice, of the stationery department, has gone on a river trip to St. Paul. Charles F. Stevens, trophy and medal specialist of the firm, has gone to Kansas City on business.

Omaha.

Earl Roscoe, with W. C. Flatau, has gone to Fort Dodge, Ia.

C. L. Shook has returned from a business trip through the State.

Clarence Bergman, son of Sol. Bergman, is visiting relatives in Milwaukee, Wis.

Curtis Lindsay, son of A. W. Lindsay is attending the exposition at Seattle, Wash.

E. O. Furen, of Jacobson & Furen Co., South Omaha, is taking a course in optometry.

J. P. Holliday, of Mawhinney & Ryan Co., has returned from a visit to Memphis, Tenn.

A. C. Thomas, with H. P. Sinclair & Co., and Alex. I. Teplitz, with Schnefeld Bros., were in Omaha, last week.

F. L. Combs, president of the local jewelers' club, left, last week, on a short business trip to Chicago and New York.

The work of remodeling the store of Fred Brodegaard & Co. has already begun. The interior of the establishment will be considerably improved.

A. C. Blackney, Edgemont, S. Dak.; C. S. Meyer, Butte, Nebr.; O. C. Zinn, Hastings, Nebr.; and J. H. Crabill, Plattsmouth, Nebr., were in Omaha, purchasing stock, last week.

Cleveland.

J. H. Welf is at Mt. Clemens on a three weeks' vacation.

C. E. Keim, of the Scribner & Loehr Co., went to Rochester, N. Y., Saturday, for a short vacation.

J. J. Schuster recently fitted out an optical department which is a model of convenience and equipment.

C. F. Fischer, 2700 W. 25th St., remodelled his place of business, recently, and installed a new set of fixtures.

Clyde Campbell, in charge of the watch department of the Sigler Bros. Co., became the father of a fine daughter, July 14.

Fred K. Leland, treasurer of the Lewis Jewelry Co., married Miss Olga Winzer, of Cleveland, July 8. The couple went to the St. Clair flats for the honeymoon.

Stanley G. Scharbach, son of Geo. Scharbach, of the firm of Scharbach Bros., of Toledo, is in Cleveland, taking a course at the Newmeyer School of Engraving.

Capt. R. E. Burdick of the Bowler & Burdick Co., sailed for Amsterdam, Saturday, July 17, on the *Laplund*, of the Red Star Line. The trip is in the interests of the concern.

The Wm. Griffith Jewelry Co., 2916 W. 25th St., is conducting a sale to reduce stock preparatory to selling out its business. This is one of the oldest jewelry houses on the West Side.

Eimer Abrahamson is fitting up a new store next to his old stand, 3019 W. 25th St. He will have about twice as much space and in addition will have a fine optical department.

The following out-of-town jewelers were in town, last week: Kurt Arnold, Akron; H. H. Bath, Sandy Lake; H. S. Sumner, Akron; Ed. Nolf, Wadsworth, and S. J. Gilger, Norwalk, O.

Mr. Beddenhorn, salesman for the Hampden Watch Co., had his son in Cleveland with him on a recent trip. He put the boy on a car, with directions how to find the home of a relative, but the youngster got confused and was lost for several hours.

J. C. Knittle and Ignatius Longtin is doing business under the name of Knittle & Longtin, 1929 W. 25th St., dissolved partnership, June 30. Mr. Knittle will continue the business at the old place, and has engaged Andrew Warner to take charge of the watch department. Mr. Knittle will open a new store at 1792 W. 25th St., which is a block away, in a short time.

It was quite evident that the robbers who invaded the store of the Lewis Jewelry Co., last week, were frightened away, as the cash register, containing \$400 in cash, and a sample case that had over \$3,000 worth of precious stones in it, were not tampered with. In the window that was looted there were rings and other jewelry with diamond settings worth more than the pieces taken.

In a recent issue of a trade paper it was stated that John Hudgeon, Colonial Arcade, was offering 40 cents on the dollar to his creditors. Mr. Hudgeon, when seen by a JEWELERS' CIRCULAR-WEEKLY reporter, denied that such was the case. He says that he bought a bill of goods amounting to \$36 from a jobbing house in Pittsburg, and after having the goods some time desired to return them but that they refused to accept

them and sued him. A settlement was then made at 40 cents. Mr. Hudgeon asserts that he never was in better financial condition.

Joseph A. Welf, who was among the Clevelanders at the convention at Cedar Point, returned home very enthusiastic. Mr. Welf was the secretary of the Cleveland association, and he has expressed himself as anxious to lend his support in the revival of that body. Claude C. Lewis, president, is in accord with Mr. Welf, and a call will be issued for a meeting of the executive committee to formulate plans for reorganization in the near future. The members of the committee are C. C. Lewis, president; J. J. Schuster, vice-president; E. J. Dister, treasurer; Jos. A. Welf, secretary, F. B. Guyon, Fred Leland and J. H. Welf.

Indianapolis.

A. C. Joss has moved his store from 314 to 348 Indiana Ave.

The shop and offices of the A. P. Craft Co. have been improved.

H. C. Schergens, who was injured recently while starting his automobile, has recovered and is at his store again.

Don A. Hickman, formerly in the manufacturing jewelry business, has taken a position with E. B. Johns, who is engaged in similar business.

Clarence James, watchmaker, is spending a two weeks' vacation visiting friends in northern Indiana and Chicago, making the trip on a motor cycle.

Another large pearl was found a few days ago near Mitchell, this time by Homer Carr, of that city, who is conducting a mussel camp. It weighed 40 grains and was of a light, rich color.

Local jewelers know nothing of a Joseph Feldman, who was reported to have been arrested in Pittsburg, last week, with \$15,000 worth of diamonds. Feldman gave his address as Indianapolis.

Among out-of-town jewelers in this city, last week, were: J. Kennard, Rushville, who came in his automobile; J. W. Hudson, Fortville; C. W. Neal, Franklin; C. B. Durbin, Peru; Daniel Beauchamp, Fairmount, and W. C. Simmons, Franklin.

Work has been started on alterations and an addition made to the business rooms of Dyer Bros. A gallery is to be built across the rear of the salesroom and a one-story brick building in the rear, the latter to be used as a workshop and by an arts and crafts class.

Claude Bradford, 19 years old, and William Feller, 18 years old, both with a number of aliases, were arrested by the police on the night of July 12 while robbing the Best Plating Co. at Delaware and Market Sts. They had a book containing a list of half a dozen places they had robbed. A pedestrian saw them robbing the place and notified a police officer, who made the arrest.

I cannot afford to miss a single copy of THE JEWELERS' CIRCULAR-WEEKLY. It is a post graduate course on the several branches of the jewelry business and the show is on all the time; it is a continuous performance.

LESTER B. PRATT.

Lima, O., July 13, 1909.

Cincinnati.

G. M. Braham, with A. & J. Plant, left July 19 for the south and west.

W. W. Howe, president of the Loring Andrews Co., returned this week from an outing in Michigan.

A. A. Oaks, manager of the Oskamp Jewelry Co., has returned from Illinois, where he spent a delightful two weeks' visiting relatives.

The following out-of-town jewelers were in the city the past week: E. Glitz, Topoka, Kans.; K. F. Eipper, Springfield, O.; C. McLean, Athens, O., and A. Cloney, Maysville, Ky.

The employes of the Frank Herschede Co. went camping Saturday and Sunday on the banks of the White Water river, near Brookville, Ind., spending most of the time catching big fish.

E. J. Fox, of Lindenberg & Fox, returned Thursday to the city after a two weeks' vacation; Jos. Rosenbaum and Lee Horn, with the same firm, have returned from very successful trips west and south.

Defective wiring in the store of the Frank Herschede Jewelry Co., 24 E. 4th St., July 12, caused a fire in that establishment, which was extinguished by the crew of Engine Co. 3, with only slight damage.

Bankruptcy Referee Whittaker recently announced to the creditors of A. Harry Feltman, the W. 5th St. jeweler, second and final dividend of 18 $\frac{3}{4}$ per cent., payable by Trustee Abner Thorpe, Jr. The first dividend was five per cent.

Christian Simper, father of Edward, George and Fred Simper, Vine St. jewelers, died recently at the home of his son Edward, where he had lived for the past 12 years. His death was very sudden and therefore a great shock to the family. Deceased was 79 years old.

The members of the Wholesale Jewelers and Manufacturers' Association of Cincinnati gave their quarterly dinner Thursday, July 15, at the Sinton Hotel, which was followed by the regular monthly business meeting of the association; theme of discussion, "Boom Cincinnati, the Queen City of the west."

Bankruptcy Referee Greve recently overruled the motion of Attorneys Hoffman and Bode to dismiss the bankruptcy proceedings instituted against the Herman Keek Mfg. Co. He held that while it was not clearly proved that the corporation is bankrupt, still there is some evidence that is in dispute and that it will have to be cleared up by the defense. The motion was made after the petitioning creditors' testimony had been completed. The defense began taking its testimony last week, and it is believed that it will take up about 10 days.

Jules Clement Chaplain, the famous French medallion engraver, who died, last week, at Paris, was born, July 12, 1839, at Montagne. M. Chaplain was a member of the Institute of France, was an officer of the Legion of Honor and had had charge, as foreman, of the workshops of l'Ecole des Beaux Arts. Some of Chaplain's notable works were medals of Victor Hugo, of the presidents of the republic of France, the Duc d'Aumale, Liard, Gréard and other distinguished men.

San Francisco.

Mr. Knapp, with Bigalke & Eckert, is here at the present time.

H. J. Kouchler, Stockton, was here, recently, on his way to Seattle.

J. Auerbach is now out upon the road for the William L. Gilbert Clock Co.

Henry Untermeyer, with Chas. Keller & Co., is calling upon the local trade.

J. Longwill and J. Hartzberg are preparing to start out upon the road for the Henry Abrams Co.

The marriage of H. L. Smith, with A. I. Hall & Son, and Miss Rosa E. Bell, of Napa, Cal., is announced.

J. C. Miller will soon represent the Alphonse Judis Co. in the southern territory, and is preparing to start out on his trip.

Julius A. Young's traveling man, Mr. Johnson, has just returned from a trip down the coast and reports an increase in business.

Radke & Co.'s new store on Post St. is rapidly assuming shape, and the contractors have promised to have it ready for occupancy some time in August.

Otto Herz, of Richard Herz & Bro., Reno, Nev., is spending his vacation at Santa Cruz, and it is one of the famous California watering places close to San Francisco.

Mr. Greenwald, of Greenwald & Adams, Tucson, Ariz., passed through this city with his family, last week, on his way to the Alaska-Yukon-Pacific Exposition, Seattle.

Mr. Wise, formerly a partner of J. S. Lehrberger, has been heard from in Germany, and it is announced that he will probably remain there for a year and a half, or longer.

Among the out-of-town jewelers in town during the past week were: W. H. Warren, Sacramento; C. Cerine, Tomales; T. White, Vallejo; P. H. Shuey, Red Bluff, and M. F. Noack, Santa Rosa.

Fred Roth, buyer for M. Schussler & Co., left Europe for the United States, July 13. He has made some very heavy purchases this season in the gem line. The greatly increased demand for diamonds has caused him to make three trips to Amsterdam this season, and on the last trip he laid in an extensive supply for the holiday demand.

The Gorham Co., which has been located in Oakland ever since the fire, is moving to permanent quarters in San Francisco again, and will be located on Geary St., near Grant Ave. This concern is very busy at the present time, and among the large orders that have been received of late is one from the Palace Hotel for more than \$60,000 worth of silverware for the new hostelry, which opens its doors on the old site in November.

Col. Andrew's Diamond Palace, on Kearny St. just off Market St., is nearing completion, and will be thrown open to the public within the course of the next few days. The old location on Van Ness Ave. was vacated some time ago and stripped of its decorations, and these have been installed in the new store. Business in the meantime is being done in a temporary store located close to the old one, but no efforts are being made to make an extensive display.

According to the present plans the Baldwin Jewelry Co. will have one of the largest jewelry stores in the city when the move

is made to the new location at Kearny St. and Union Square Ave. A six-story steel frame structure is being erected here on a lot 60 by 115 feet, and this company will occupy most of the ground floor. The structure will be known as the Baldwin building, and will be ready for occupancy in eight or nine months. Efforts are being made to rush it to completion as speedily as possible, but it is not considered likely that it can be made ready for the holiday trade. The retail firm is still located on Van Ness Ave., near Sutter St., and will remain there until the new store is ready.

Kansas City.

J. R. Mercer and wife leave shortly for a fishing trip to Canada.

Walter Sperling, Seneca, Kans., and wife have gone out to Seattle to attend the exposition.

Sam Bloom, with the Meyer Jewelry Co., came in last week from a trip over his territory.

John Wyche, traveler for the Woodstock-Hoefer Watch & Jewelry Co. in Texas, paid the house a visit last week.

G. Rothfelder was in this market last week. He has moved his jewelry store from Formosa to Summerfield, Kans.

Robert Graves and Guy Wilhite have accepted positions in the material department of the Edwards & Sloane Jewelry Co.

T. S. Sinnall, of the office force of D. B. Ward & Co., is spending his vacation visiting his old home at Sweet Springs, Mo.

C. H. Wardell and wife, Nowata, Okla., passed through this city last week on their way to Seattle, Wash. They will stay four or five weeks.

H. B. Carswell leaves the latter part of this week for Nevada, Mo., where he will attend the annual camp of the Missouri National Guard.

Dave Finkelstine, 39½ Central Ave., Kansas City, Kans., has left for a vacation trip to the northwest, and will take in the big show in Seattle, Wash.

J. H. Smythe, a jeweler of Fort Smith, Ark., passed through this city last week on his way to Seattle, Wash., to attend the Alaska-Yukon-Pacific Exposition.

C. D. Ragsdale, of the old firm of Ragsdale & Hill, in Smith Center, Kans., is making a trip to Seattle, to attend the Alaska-Yukon-Pacific Exposition.

J. W. Brown, with D. B. Ward & Co., who started out on the road last week, was forced to come back on account of the high waters. He left immediately for other territory.

Sam Ludwig, with the American Cutlery Co., was in Kansas City last week, after spending eight hours coming from St. Joseph, Mo., the delay being caused by the flood.

Leo Ludwig, of the Edwards & Sloane Jewelry Co., leaves for New York this week in the interest of the material department. He will be away for a couple of weeks.

C. C. Hoefer, of the Woodstock-Hoefer Watch & Jewelry Co., left last week with his family for a trip to the Alaska-Yukon-Pacific Exposition in Seattle. They will remain in the northwest about a month.

J. H. Whitney, with the Edwards &

Sloane Jewelry Co., last Saturday fell and strained his ankle while playing ball, and has been forced to stay at home since that time. He expects to be out again this week.

The Brenner Jewelry & Loan Co., at 11 W. 5th St., gave up business, July 1. The stock and fixtures having been taken over by T. Brenner, president of the concern, who has removed them to 117 E. 5th St., where he has been for the past six years.

The following out-of-town jewelers were in the market during the past week: A. W. Holmes, Bonner Springs, Kans.; H. W. Starcke, Junction City, Kans.; C. H. Wardell, Nowata, Okla.; J. O. Stott, Paola, Kans.; and T. L. McHugh and wife, Sheridan, Mo.

W. H. H. Schrickenaust, Pattonsburg, Mo., was a visitor to Kansas City last week, and says that the recent flood which damaged that little city so greatly reached a height of four and a half feet in his store and of three feet in his house. Both buildings were on the high ground.

Detroit.

George Kipp, Wheeler, was a visitor in this city, last week.

Henry Luths recently spent two weeks' vacation at Walled Lake.

E. H. Pudrith recently returned from a two weeks' trip in the northern part of the State.

I. G. Hawkins, formerly with Thomas Balkwill, is now in the sales department of Kunz & Rogers.

Peter Merckenich, 677 Gratiot Ave., took a trip to Muskegon, last week, as delegate to a fraternal convention.

George Blashill, Marlette, and W. T. Blashill, Oxford, were both in this city, last week, with their families.

F. R. Johns, formerly with Scribner & Loehr Co., Cleveland, O., has taken charge of the factory of Burr, Patterson & Co.

J. Friedberg & Son have purchased the stock of Hugo A. Fehheimer and placed it on sale at their store, 210 Woodward Ave.

Burr, Patterson & Co.'s factory, 73 Ford St., W., has been closed for repairs for two weeks. Extensive alterations are being made.

Robert Kay leaves the city, this week, for a vacation trip to Canada. He will camp with a party of friends in northern Ontario.

Denver.

There is talk among local jewelers of forming a large party to attend the Ontario convention of the A. N. R. J. A. next month.

An organization known as the Colorado Horological Society has been formed by the watchmakers of Denver. The officers are: President, Emil Rose; vice-president, George Geer; treasurer, E. Wangull; secretary, J. A. Freeman; sergeant-at-arms, A. Kaufman. The society, which was organized for social, practical and technical improvements, has its headquarters in suite Laidauer block.

Sammel Snyder, Council Bluffs, Ia., has sold out to A. J. Gilinsky.

THIS COLUMN IS CONTAINED A LIST OF THE LATEST PATENTS GRANTED BY THE UNITED STATES AND GREAT BRITAIN THE UNITED STATES PATENTS THAT HAVE EXPIRED AND THE REGISTERED TRADE-MARKS.

UNITED STATES PATENTS.

PUBLISHED JULY 6, 1909

926,741. JEWELRY. JOSEPH L. HERZOG, New York. Filed Nov. 11, 1908. Serial No. 462,084.

An article of the character described comprising interchangeable outline letters of sheet-metal, all of which are constructed to contact with each

other between their upper and lower ends when assembled in horizontal line, and coaxing fasteners located on the back of said letters whereby to lock the same together at their contacting points.

927,007. MEDICINE-TIMER. AMOS J. SCRITCHFIELD, Janesville, Wis., assignor of one-half to Walter W. Woodring, Janesville, Wis. Filed Dec. 17, 1908. Serial No. 468,035.

In a device of the class described, the combination with a clock, of an annular member remov-

ably secured thereto, channel ways formed upon said member, and different colored pointers movable in said channel ways and adapted to designate a particular time.

927,177. FOUNTAIN-PEN. AMOS J. SCRITCHFIELD, Janesville, Wis., assignor of one-half to David Heenan, Janesville, Wis. Filed Oct. 23, 1908. Serial No. 459,238.

In a fountain-pen, the combination with a barrel, nib-holder, and nib, of a plug closed at the outer

end and open at the inner end, an ink-channel, and an air-duct both communicating with a common orifice in the plug opposite the nib.

927,199. EAR-JEWEL FASTENING. CHARLES WELLS, Newark, N. J. Filed July 1, 1908.

An ear-jewel comprising a yoke having on one arm a jewel, the other arm being provided with a bearing, a shank slidable through the bearing, said bearing having its inner end provided with an annular bead, the bead being slotted cup shaped clamping members on the first named arm and on the inner end of the shank, said clamping members

having their concave faces toward each other for the purpose set forth, the one on the shank being provided with a hook for engaging the bead, and

a spring within the bearing and acting on the adjacent clamping member to move it toward the opposite member.

BRITISH PATENTS.

(ABRIDGMENTS OF SPECIFICATIONS, 1908, FROM THE Illustrated Official Journal.)

ISSUE OF JUNE 30, 1909.

4,640. BRACELETS. L. F. BRENNER, London, Feb. 29.

A bracelet is formed by threading beads or bead-like ornaments *b*, on two or more thin flat springs *a* placed together. The beads are prevented from slipping off and the springs are se-

cured by means of buttons *c*. The edges of the outer springs are turned back at *d*, and the edges of the buttons *c* are turned inward to fix them upon the springs.

4,689. ELECTRIC CLOCKS. A. R. UPWARD, London, March 2.

Clocks are actuated or controlled at the required intervals by a secondary current produced by a transformer, the primary winding of which is connected to a source of current of low electromotive force at the required times. The source of current may be one or two large cells, but is preferably a thermopile, with or without an intervening secondary battery. The transformer has two primary windings in opposite directions, through one and then the other of which the current is switched. The current reverser shown in Fig. 2 has alternate sectors connected to the ring contact

7, Fig. 3, of one primary 4, and the other sectors connected to the ring 5 of the other primary 5. The reverser shown in Figs. 3 and 4 has a pair of contacts, 24, 27, and a pair, 25, 26, connected to the rings 7, 8, respectively. With the latter form of reverser, the wasteful passage of steady current between the reversals is avoided without connections to a secondary battery. An additional pair of contact-plates 28 makes the circuit of the secondary winding only during the reversal, and breaks it before the make-and-break.

4,867. CLOCKS. ONE YEAR ELECTRIC CLOCK CO. GRUNDKE & LAZARUS, March 3. (Date applied for under Section 91 of Patents, etc., Act, 1907, March 4, 1907.)

Electric Clocks; Winding Mechanism.—The circuit of an electromagnet 1 being open, a loaded ratchet lever 10 sinks from the position shown in Fig. 1, driving the ratchet-wheel 12 and turning the armature 3 to the position shown in Fig. 3. A heavy unstable finger 6 provided on the armature

accordingly falls from its rest 9 against an external pin 7 and completes the circuit. As the

armature swings back under the attraction, the contact-finger is thrown back again to the rest 9.

4,919. JEWELRY FASTENINGS. A. NOEL, Clerkenwell, London, March 4.

To one of the parts to be fastened is attached a bent spring *a*, notched at *a*¹ and carrying on its free end a semicircular operating-plate *a*², notched at *a*³ to facilitate the depression of the spring. The face-plate *B* of the other part if formed as shown in Fig. 4, and is of such a height as to

project slightly above the edge of the operating-plate when the fastening is locked. When the parts are pressed together, the shoulder *a*⁴ first catches behind the plate *B*, and then, on further pressure, the free end of the spring engages behind the plate *B* and locks the parts in contact.

5,054. CLOCKS. J. NEALE and E. POWELL, both of Tunbridge Wells, March 5.

Electric Clocks; Striking-Mechanism.—The horizontal armature 2 under a vertical electromagnet 1, being attached to the frame by a spring-plate 3, acts by gravity to drive a ratchet-wheel 28 by a pawl 22. It is wound so as also to constitute an electromagnet, and beneath it is an insulated lighter armature 7. The pair of armatures constitute make-and-break terminals, and when the upper

one has sunk into contact with the lower one, the latter rises with the former till a stop 20 separates them. Such an electromagnet arrangement as the above is provided for striking a gong 36 by a hammer 35 on the main armature 2, and for advancing a counting-wheel 27. Normally, the main armature rests on a stop 28, but at the hour a lever 30 pulled by a spring 32 hits up the auxiliary armature 7 into contact, and therewith detaches a detent 19 from the counting-wheel. The descent of the hammer 35 is retarded by a flyer 40, the spindle 38 of which has attached to it a cord 37 leading from the hammer to a spring 41.

5,121. BUTTONS, STUDS, ETC. P. AVERY and INVENTORS' CO-OPERATIVE SOCIETY, London, Sept. 7. Period for granting patent not yet expired.

One part, which may be either the head or base of a two-part button, stud, paper fastener, or the like, is provided with two holes, *c*, *c*¹, of unequal size which are connected by a slot *c*². The other part *b* is stud-shaped, and has a head *b*² which

can be passed through the hole *c*¹ but not through the hole *c*. The shank *b*¹ of the member *b* is flattened at *b*², as shown in section in Fig. 5, so

that, when the planes of the flattened portion are parallel with the length of the slot *c*², the shank can be passed along the slot from the hole *c*¹ to the hole *c*, to secure the members together.

Applications filed June 14 to June 19, 1909.

14,086. DEVICE FOR CLEANING AND POLISHING METAL ARTICLES. AGNES EDMOND, Birmingham.

14,113. CIGARETTE CASE. NEVIN B. LE FEVRE, London.

14,183. COLLAR STUD. CHARLES GARLEY, Northampton.

14,369. HEAD FOR LADIES' HAT-PINS, BUCKLES, BUTTONS, SOLITAIRES AND THE LIKE. WILLIAM H. HASLAM, Derby.

14,385. FASTENING FOR BRACELETS, NECKLETS AND THE LIKE. ALBERT W. SMITH and JOSEPH H. SMITH, Birmingham.

UNITED STATES TRADE-MARKS.

[The following trade-marks have been adjudged entitled to registration under the Act of Feb. 20, 1905, and are published in compliance with Section 6 of said act. Said section provides:

"Any person who believes he would be damaged by the registration of a mark may oppose the same by filing notice of opposition, stating the grounds therefor, in the Patent Office, within 30 days after the publication of the mark sought to be registered, which said notice of opposition shall be verified by the person filing the same before one of the officers mentioned in Section 2 of this act. If no notice of opposition is filed within said time the commissioner shall issue a certificate of registration therefor, as hereinafter provided for."

Marks which are stated to have been "Used 10 years" are registrable under the last proviso of Section 5 of said act, which is as follows:

"And provided further, that nothing therein shall prevent the registration of any mark used by the applicant or his predecessor, or by those from whom title to the mark is derived, in commerce with foreign nations or among the several States, or with Indian tribes, which was in actual and exclusive use as a trade-mark of the applicant or his predecessor from whom he derived title for 10 years next preceding the passage of this act."

Get the Railroad Trade

CONTROL the railroad trade in your district and you are assured of a good business. Railroad men are compelled by regulations to keep correct time. *To them a watch of the greatest accuracy and durability is a necessity.*

It is also true that other trade follows railroad trade, because the patronage of railroad men at once stamps your stock as *reliable*. The Railroad

Elgin

is designed especially to meet the requirements of the railroad man. The silver finish metal dial is most popular because the faintest ray of light illuminates it. This is the *only* metal dial made with *inlaid* figures of *hard enamel*. Some prefer the white enamel dial.

The Railroad Elgin is the thinnest 18 size watch made. It is timed and cased at the factory, and will run longer on one winding than any other railroad watch.

Another sales factor is *Elgin prestige*; for the Elgin is the most popularly known watch in the country, and this particular Elgin is everywhere recognized as a standard railroad timepiece. Advertising in railroad magazines is familiarizing it among railroad men who are anxious to see it and who are asking for the Elgin with the "49 silver dial" or the "49 enamel dial."

You can't control the railroad trade with a poor watch; but you *can* with the Railroad Elgin. Write to your jobber or to the company direct for prices.

These are the four grades and established retail prices as advertised:

THE HOROLOGICAL REVIEW

The Adjustment of Watches.

Written expressly for The Jewelers' Circular-Weekly by H. Reinecke.

(Continued from issue of June 30.)

DURING my career as a watchmaker, which began in the year 1839, I enjoyed a 12 years' residence in the island of St. Thomas, West Indies, during which time I had a valuable experience in repairing the best of watches and in repairing and rating ships' chronometers, which latter branch a self-made regulator, an artificial horizon and a circle of reflection had enabled me to do.

Commercial conditions caused me to change my residence to the city of New York, where I arrived in the year 1855. Here I found much which was new to me and much which I could do. The watch trade was active; watch movements were imported and cased in New York. England and Switzerland sent us their best pocket chronometers, duplex and lever. Everybody tried to make the last named equal to the first in timekeeping qualities. The adjustments of the chronometers were tried on watches with the lever escapement, with the addition of the position adjustments.

Even the latter adjustments were hardly new, for during my residence in St. Thomas I had tested a pocket chronometer by Dent which equaled any watch which I have tested since, and of which I have had any knowledge, and I have lived nearly 60 years since. This pocket chronometer was presented by the English government to an American sea captain by the name of Samuel Travers, of Baltimore, as a reward for saving the crew of an English ship off the coast of Venezuela. In this connection it must be said that it is easier to adjust a fusee watch to positions than one with a going barrel, and this is done by having the balance vibrate exactly one turn (360°) during the 24 hours in the hanging position, and one turn and a quarter (450°) in the lying position, by using the quarter screws for changing the poise of the balance.

Charles Fradsham is known to have changed the vertical position errors in his marine chronometer in the same way. In like manner the Liverpool and London watch manufacturers adjusted the moderately priced lever watches, and isochronized the motion of the balances by lengthening or shortening flat balance springs by unpinning them at the stud.

I have seen a pamphlet by one Sandoz, a Swiss, who explained how far such adjustments could be made effective in flat spirals, and in Reid's treatise, issued in the year 1826, of which a fourth edition was issued in the year 1849, we see it recorded that Le Roy is the author of rules embodying this one. While such information is perhaps out of date, it is given to direct the attention to the utility of reading and studying all works within reach which treat on practical isochronism, which is much more useful and instructive to the workman than isochronism as a theory in the abstract.

In bringing forward the subject of adjusting watches I am influenced by the aim to elevate the profession of the individual watchmaker in this great country. The manufacture of watches has reached that point where no watch, however mechanically excellent, can render that service of which it is capable without a final adjustment, which can only be attained by a thoroughly competent watchmaker. The final adjustment of watches rests, like that of a marine chronometer, on technical knowledge as much as it does on empirical rules established by practice and experimental experience, to the elucidation of which rules I propose to contribute my mite as far as I feel justified by a long experience and observation.

(To be continued.)

R. B. Smith, American Inventor, Admitted Into Royal Society.

R. B. SMITH, the well-known inventor of New York, who constructed a model of the famous Strasburg clock for the Australian Government several years ago, and who invented among other things a unique shadow clock which will be presented to ex-President Roosevelt upon his return from Africa, was honored, June 30, by election to membership in the Royal Society of Arts, in London, of which the Prince of Wales is president.

At the formal opening of the jewelry store of Burrige & Connett, Oskaloosa, Ia., 1,500 souvenir spoons were given away.

Old Augsburg Clock.

THE city of Augsburg in times bygone was famous not only for its productions in the precious and other metals, but also for those of horological mechanisms, and it is not astonishing that from the combination of the two should have resulted those fine old Augsburg clocks that can be found in various museums and private col-

FAMOUS CLOCK AT AUGSBURG.

lections. These clocks naturally possess a high value as antiquities and works of art.

The Barker collection contains one, of which we present an illustration. The case, a pleasing structure of gilt metal, is handsomely engraved with scrolls. It dates from the 16th century, a time when clocks generally had only one hand. The cupola top and pilasters at the angles give the clock a highly unique appearance, and it is very likely that it is the only specimen of its kind.

E. E. Bassett, Wahpeton, N. Dak., visited relatives recently at Grafton, Ill.

WALTHAM WATCHES

FIFTY YEARS AGO

FRIDAY, APRIL 22, 1859.—The proprietors and workmen of the watch factory at Waltham were entertained by Gov. Banks at his residence today. About 200 men and women were present.

From Boston Advertiser, April 22, 1909.

The Waltham factory had existed five years. Here was the first successful effort to realize the dream of Dennison, father of American watch-making. Here was the first and only structure in the world erected for manufacturing pocket timepieces. Three hundred people were employed, the largest number ever assembled in such an enterprise. General Banks was proud of Waltham, where he was born and where he had worked as bobbin boy in a cotton mill. He found time, while Governor of a great State, to greet and encourage the operatives of this watch factory, because he believed that they were creating an imperishable industry. He lived until the word WALTHAM had symbolized the perfect watch in every country on the globe.

In that year, 1859, the total number of Waltham watches manufactured was 12,304; in 1906, the product was 855,000; to-day there are 16,000,000 in use. The Waltham factory was the parent factory. It is now the corner-stone of an industry that gives a livelihood to more than 100,000 persons in the United States. In 1859, it was the only institution of its kind here or anywhere else; every other watch factory came later. The Waltham factory is distinguished by its achievements as well as by its age. Waltham watches have always exemplified the highest type of watch construction, and public recognition of their superiority is attested by the highest awards at all the great Expositions wherever they have been shown.

The history of the WALTHAM WATCH COMPANY is the history of watch manufacturing on this hemisphere.

Two Fine Clocks from the Wallace Collection.

THE famous Wallace collection is noted not only for its paintings, miniatures, furniture, etc., but also for its splendid clocks. Illustrated on this page are two fine specimens from this collection—one a clock and barometer in an ebony case embellished with gilt metal, and the other a

created the monument-like timepieces which are found in various collections.

A Spiritualistic Clock.

PROFESSIONAL spiritualists are usually wonderful sleight of hand experts, says G. Delannoy, of Bethune, in *La France Horlogere*, and it was after attending a

with a motion work, furnished with a ratchet and pawl. A pull, every minute, on the cord attached to this clickwork causes the hands to advance. As the spirits are usually in league with the devil, it is Satan, the roguish master of the nether world, who maliciously holds the dial. The serpent, the slimy, cold reptile, is his most evil auxiliary and probably belongs to the boa species, because its tail encircles the neck of a cat and stifles its last howls. We must not forget that the spirits in spiritualistic seances manifest themselves only during a period of great stillness and accompanied by profound meditation. On a tapering platform a female figure, disheveled and astride a goat, is the emissary of time, the representative of the hour of the witches' dance.

The tablet and knifelike triangular support on which the platform balances are of

TWO ARTISTIC OLD CLOCKS FROM THE FAMOUS WALLACE COLLECTION.

A NOVELTY FOR THE WATCHMAKER'S WINDOW.

glass. If a movement of the lever is produced, that is, repeated every minute, the spiritualistic clock tells the time. At this moment we evoke the aid of our faithful spirit and summon electricity to our assistance.

In the base of the clock is concealed an electro-magnet, connected by a wire with a regulator or electric clock, which establishes the circuit every minute. Under a concealed and ingenious form, the spiritualistic clock is nothing more than the recording dial of electric time.

In reality the lever platform is so balanced that the least increase of weight at the end where the goat's head is will cause its depression. It suffices to attach to the underside of the rocking lever, in the clear space beneath it, pieces of soft iron to correspond with the poles of the electro-magnet, so that at each re-establishment of the circuit by the regulator clock the lever will be attracted in spite of the interposition of the glass plate. While glass is a bad conductor of electricity, it does not interrupt the magnetic influence.

It is needless to state that the electro-magnet is concealed under a light covering

spiritualistic seance that the idea of a spirit clock suggested itself. I merely availed myself of a trick, frequently employed by those who pretend to demonstrate the existence of an invisible world.

But let us first consider the decoration of this show piece; our readers will then better understand the manner in which the spirit we invoke is manifested.

A glass dial is equipped, behind the hands,

clock and pedestal in Boule work and gilt metal, both dating from the 18th century.

During the Renaissance clocks outgrew the Gothic wrought-iron cases and became products of the gold and silver smith. The baroque and rococo styles connected the clock and pedestal in Boule work and gilt, ornamented it into a piece of furniture until finally Louis XVI. and the Empire styles gave a rich employment of marble and bronze

RING OUT THE OLD—RING IN THE NEW

STANDARD.—30-hour time, Alarm with "shut-off" switch. Height, 6 1/2 in.; Dial, 4 1/2 in.; Case, seamless brass nickelled.

THE RATTLER.—30-hour time, Alarm with "shut-off" switch. Height, 6 1/2 in.; Dial, 4 1/2 in.; Case nickelled and highly polished.

LONG ALARM.—30-hour time, Six-minute Alarm with "shut-off" switch. Height, 6 1/2 in.; Dial, 4 1/2 in.; Case, seamless brass nickelled.

ALTERNATOR.—30-hour time, Repeating Alarm, rings alternately every fifteen seconds for twelve minutes, with "shut-off" switch. Height, 6 1/2 in.; Dial, 4 1/2 in.; Case, seamless brass nickelled.

Why travel in the same old rut the balance of your natural life, and buy the same antiquated styles of Nickel Alarm Clocks your grandfather used to buy, just because some manufacturers have not thought it necessary to produce new designs in other clocks?

We have some new ones, superior to anything heretofore made, and to introduce them and put a set into the hands of every jeweler, we will, on receipt of \$6.00, deliver east of the Rocky Mountains, express prepaid, one sample of each, consisting of eight clocks as described.

Don't fail to avail yourself of this opportunity to see a complete line of up-to-date alarm clocks.

See coupon at bottom of page.

THE E. INGRAHAM CO. BRISTOL, CONN.

DI-ALTERNATOR.—30-hour time, Repeating Alarm, rings alternately every fifteen seconds for twelve minutes, with "shut-off" switch; extra large bell. Height, 7 in.; Dial, 4 1/2 in.; Case, seamless brass nickelled.

"THE ALARM CLOCK WITH THE CONCEALED BELL"

See cut of interior view showing bell located entirely within the case. The unsightly visible bell eliminated. Bell cannot be disarranged or thrown out of adjustment.

SIREN.—30 hour time, Long Alarm (four minutes), with "shut-off" switch. Large bell inside of case. (See interior view.) Height, 6 in.; Dial, 4 1/2 in., solid brass; Case, nickelled and highly polished.

VIBRATOR.—30-hour time, Repeating Alarm, rings alternately every fifteen seconds for twelve minutes, with "shut-off" switch. Large bell inside of case. (See interior view.) Height, 6 in.; Dial, 4 1/2 in., solid brass silvered; Case, solid brass, old brass finish.

ROTATOR.—30-hour time, Repeating Alarm, rings alternately every fifteen seconds for twelve minutes, with "shut-off" switch. Large bell inside case. (See interior view.) Height, 6 in.; Dial, 4 1/2 in.; Case, seamless brass nickelled.

TEAR THIS OFF AND MAIL TO-DAY

THE E. INGRAHAM COMPANY, BRISTOL, CONN.:

Gentlemen—Enclosed find \$6.00. Please send me by express, prepaid, your "Introductory Assortment" of eight alarm clocks, consisting of "Standard," "The Rattler," "Long Alarm," "Alternator," "Di-Alternator," "Siren," "Vibrator" and "Rotator." Yours truly,

Name..... Address.....

of wood, or, better still, if the poles touch the glass tablet one of the surfaces is depolarized. If we suppose the wire concealed, it is easy to imagine how the spirits cause the clock to work.

It is to electricity, this classical and elementary fluid invisible to mediums and spirits, that we have had recourse.

Specific Duties Suggested as a Remedy for Certain Difficulties in the Watch Trade.

WASHINGTON, D. C., July 16.

Editor THE JEWELERS' CIRCULAR-WEEKLY:

Watches and watch materials form two of the three important articles of export from Geneva to the United States. All other exports amount to but little. In regard to watches at that point, it is said to be a very complicated problem. As a rule, the plates of the Geneva watches are stamped out by machinery, all parts being finished by hand with more or less care, the finishing making, as a rule, the price of the watch, and not the jewels. Unless, therefore, there should be an expert attached to the consulate whose duty it would be to examine one by one all the watches sent out to the United States and check their value with the invoice, the consul has to rely, after careful examination of the invoices, upon the declaration of the exporters as to correct valuation, since exporters have no price list and cannot have one.

The larger Geneva exporting houses are said to keep their prices high; they do not seem to vary to any extent, and their valuations, it is thought, have never been questioned by the American customs appraisers. Moreover, as a rule, watches made there for the United States do not sell anywhere else in Europe. In fact, they cannot be sold in wholesale quantities for European consumption. There is one house in Geneva which had a large stock of watches in the United States at the time of the panic in 1907. They tried to get rid of a large part of their large stock of watches in the United States in Europe at greatly reduced prices; they finally succeeded in selling three watches over there, the balance being declared unsalable for that trade.

However, there is one firm that has sold certain watches in the United States at a lower price than they have sold them in Geneva. They claim for them export price, that they send few and that they are compelled to do it in order to compete with the price of the American article; and further, they claim that they gave the correct value for exports of watches to the United States.

In response to inquiry another firm has admitted that the requirements for watches are different in different countries, that the quality differs somewhat, and that for goods of like quality sold in like quantity there is only one price, whether customers are in Europe or in the United States.

Writing from Paris, in response to inquiry along this line, the Consul states that the practice referred to has been gradually developed and perfected in its working details during a long course of years, and is more or less the result of two fundamental conditions, viz: An ad valorem tariff system in which duties are assessed

in the United States upon the complex and varying market values of a vast range of manufactured merchandise, and secondly, the requirement that the dutiable value of merchandise so imported shall be its wholesale market price at the place of production; in other words, the price at which it is freely offered for sale to all purchasers in the markets and currency of the country in which it has been produced.

Theoretically, no fairer principle of fixing dutiable values could be devised, and for a number of years the system worked equitably and well. European goods were in those days purchased and imported largely by the great wholesale merchants of New York and other American cities, men of high principle and unquestioned financial credit, who sent their expert buyers abroad twice each year to examine, select and purchase for cash the goods to meet their requirements, and who imported them under consular invoices, scrupulously exact as to every detail of price, discounts, packing charges and other conditions of the transaction. There was then no concealment of the origin or cost of production of any article—the price for which it had been sold and bought in open trade between manufacturer and purchaser was the one fact which the Consul had to verify and the appraiser to know.

As the years passed and the competition among European manufacturers for the rich and growing trade of the United States became more intense, American Consuls in certain districts of Germany, France and Switzerland were met, when seeking to conform invoiced values, by the statement on the part of manufacturers that their goods shipped to the United States had no home-market value; that they were made exclusively for the American market; were never sold at home or to buyers from European countries, and that it was therefore impossible to confirm their invoiced prices by the record of actual sales of similar merchandise. This was the beginning of the divergence from the straight path, the inception of the practices which have been developed into the system which prevails to-day.

The remedy, it is thought, may be largely found in the assessment of specific duties, which are used now in both France and Germany, whose tariffs are the result of the work of years by commissions appointed for the purpose.

In the local watch trade of Switzerland the middle man is excluded. The country is so small, postal facilities so excellent, that the retailers and small watch dealers buy direct from the manufacturers, and are thus in a position to obtain better prices. They even send for repairs direct to the factories whatever watches are turned over to them for that purpose. In 1908 Swiss watches were sold in England at from 15 to 20 per cent. cheaper than similar goods as usually invoiced to the United States. The intention was to prevent American prices from dropping any further. The watch industry is well controlled by the Treasury Department. Unless they are smuggled, it is not possible that Swiss watches and movements can be sold in the United States below domestic price.

A. F. T.

Mysterious Disappearance of Watches and Jewelry Solved by Store Rats.

WASHINGTON, D. C., July 14, 1909.

Editor THE JEWELERS' CIRCULAR-WEEKLY:

On June 12 I sold to a customer a lady's 14-karat gold watch, hunting case, heavily chased, with Riverside Waltham movement. The watch was left with me to be regulated. As I was quite busy, I put it in a chamois bag and laid it on a shelf about three feet above the floor.

On June 17 the customer called for the watch, but no watch could be found. We searched the store, but could find no trace of it, and I reported the loss to police headquarters, offering \$10 reward.

On June 21 I received two watches from New York, where I had sent them for repairs. I laid one on my desk and instructed my bookkeeper to inform the customer that it was ready. The other I gave to the watchmaker, who was to regulate it. Both were in chamois bags.

Upon my return to the store the next morning I found that the watch on my desk had disappeared. We were now much puzzled. The second watch was an inexpensive one, and I could not believe that anyone would risk stealing a cheap watch.

Rats being rather numerous in my store, my daughter suggested that probably they had taken the watches in order to obtain and eat the chamois bags, so I substituted three dummy watches in the cases and placed them where the other watches had been, adjusting a string to them as a tracer. On my return to the store I found that all three watches had disappeared. Upon a thorough search we found the three watches in a rat hole behind our big safe, the chamois bags having been eaten off. Besides the watches we found several other pieces of jewelry which had been stolen by the rats.

SALVATORE DESIO.

Cincinnati's Daylight Saving Scheme.

THE National Daylight Association of Cincinnati, O., is distributing literature calling the public's attention to the association's proposed manner of saving one hour of daylight each day for the five Summer months from May 1 to Oct. 1 of each year. The association suggests that from two o'clock on the morning of the first day of May in each year until two o'clock on the morning of the first day of October in each year the standard time shall be one hour in advance of the standard time now in use.

The revolution in time is to be brought about by the very simple process of advancing the hands of the clock one hour on May 1 and moving them back one hour on Oct. 1. In one of its pamphlets the association assures the reader that no railroad will be compelled to change a single schedule nor any factory its hours of work on account of the innovation, for people "would so quickly adjust themselves to it that it would be forgotten in a day or two, for the world lives by the clock." The Mullen Daylight Ordinance proposed by Michael Mullen, a member of the council from the Eighth Ward of Cincinnati, was passed by a unanimous vote of the council of the city.

Always Buy Watches of a Retail Jeweler

A Mail-Order House, Although It May Sell a Good Watch, Cannot Adjust It To Your Person.

No watch you buy by mail will keep a perfect time, no matter who made it, how perfectly it is made or what its reputation. A good time keeper must be regulated to your person as carefully as a good tailor fits a coat. In no other way can you secure perfect time-keeping service. No one but your jeweler can do this. Watches you buy of mail-order concerns are not and cannot be so regulated. That is the reason they never keep perfect time and always run too fast or too slow. The variation of even one one-thousandth part in the vibration of the delicate watch balance which governs the movement, means a loss or gain of a minute and a half each day. South Bend Watches are sold only by reliable jewelers. They are never sold by mail, because South Bend Watches are so good that we do not want their great reputation for reliability and accuracy injured by improper regulating. We make South

Bend Watches as nearly perfect as it is possible to make a watch and pay the jeweler to regulate it to keep perfect time in your pocket. A watch which is a perfect time-keeper in one man's pocket, very likely will not keep time at all in another man's pocket. If you carry a South Bend Watch you will know that the watch you carry will stand tests that are severe as severe as any that you are ever likely to give it. It might be frozen solid in a block of ice, it would still keep satisfactory time. Every adjusted South Bend Watch, before it is sent to your jeweler, is baked in an oven heated to 180 degrees Fahrenheit and kept for hours in a refrigerator at freezing point. It must keep perfect time in every position and not be affected by the jabs and jolts of the hardest wear and usage you can give it. A South Bend Watch, although it is the best watch in the world, costs you no more than other good watches. Your jeweler will gladly show them to you and tell you why they are the best watches for you to buy. Send coupon today for our handsome book, "How Good Watches Are Made," and an interesting little device showing how South Bend Watches adjust themselves to every temperature. Don't fail to talk with your jeweler about watches before you buy any watch.

NEW YORK OFFICE, 65 NASSAU STREET

Foresight in Preparing the Advertising Campaign.

Written expressly for The Jewelers' Circular-Weekly.

WHEN the Franco-Prussian war was declared an officer awoke Von Moltke at midnight, supposing he would partake, in a certain measure, of the excited preparation. Instead, the silent general directed him to a certain pigeon-hole in his safe, where he would find a paper, the contents of which were to be telegraphed to the various military stations of the empire; then he turned over and went quietly to sleep again. With his usual foresight he had carefully prepared at his leisure plans for beginning just such a campaign, should it ever be necessary, and could meet the excitement of the hour with carefully matured arrangements.

Practically every advertising campaign can be anticipated without any special gift of foresight, even the holidays of the year having a habit of coming at well-established periods and most of the special events and seasons arising out of social or industrial cycles being known somewhat in advance of their occurrence. Is there any reason, then, why advertising plans should be scraped together with unseemly haste and half ruined by their incompleteness?

There is usually no better time to lay plans for any special season's advertising than the year before it is undertaken. No one is quite so fully imbued with the Fourth of July spirit as on the fourth day of July, and the same principle holds in relation to any other holiday. We enter into the full spirit of the time on the one day we celebrate, then lay our real interest aside until another year. Then why not cage a little of our enthusiasm on that day in anticipation of a similar occasion to be catered to another year?

There is never any other time, either, when outside suggestions are so plentiful. People are enthused with the occasion; their comments teem with pertinent ideas. "Why doesn't some enterprising merchant think to do so and so?" or "Isn't that window decoration hideously inappropriate for this occasion?" Such comments, as well as compliments and helpful suggestions, may be heard on every hand. Is it excusable for us to make a similar mistake or fail to profit by popular comment in 1910 because we forget the criticisms of 1909 and neglect to enter them on the proper page of our advertising idea book?

There is no more valuable ledger to any merchant in his entire bookkeeping system than the one in which he records advertising suggestions as they come to him in the wear and tear of actual business life. Some of them may have to be remodeled a year

hence and brought up to date, but we may count on human nature remaining much the same from season to season, and the best way to reach the enthusiasm of 1910 is to carry that of 1909 along with us as we chart out our future plans. We will find the Fourth of July suggestions this year brought a better foundation upon which to build appeals to popular enthusiasm a year hence

SEASONABLE AND WELL WRITTEN.

than any premature interest we can drum together in our own hearts in anticipation of another Independence Day after our interest in the present one has died out.

The spirit of the hour is in our hearts in all its freshness when the occasion itself puts it there and is not diluted by conscious effort. The ideas that come to us then may, if recorded, be dressed up later on in the leisure of relaxation, and our plans for executing them perfected without any undue haste.

The spirit of any occasion to which we wish to cater is best supplied by a similar occasion. The application of that spirit is

best provided for in the calm of leisure hours. There is an inspiration in excitement that adds wonderfully to the vigor and freshness of our efforts, but a little calm reflection will often quell dangerous waves of enthusiasm that would otherwise carry away our saner judgment, and the best advertising efforts are those to which we have given both the inspiration and the leisurely correcting touch.

THE BEGINNING OF A GOOD ADVERTISEMENT.

The real campaign of the successful advertiser originates neither in the copy nor in the medium used, but in the business policy of the house. There must be something in the store to invite the public; something in the business policy that will sell goods. The object of advertising is merely to sell *more* goods; to spread this initial attraction out before a larger number of possible buyers than the personality of the selling force could otherwise reach. It is of vital importance, then, that all of that portion of the campaign enacted by the selling force and the stock on sale should be in absolute harmony with the printed offer in the newspapers.

SALESMEN SHOULD STUDY THE ADVERTISING.

It is not enough that there should be in stock an article that will make good every claim of the advertisement. It is absolutely necessary that every salesman in the place

**A Diamond

be entirely familiar with all of the store's advertising and with the special line of goods being advertised. After the impression has been made upon the public that some special line of bargains is being offered, or that something of more than ordinary value is being presented, or that, for any other reason, the store advertised is an especially attractive place to trade, a little hesitation on the part of the salesman in deciding upon the goods advertised creates the impression that, after all, in the eyes of the store's own people there is nothing of distinguishing merit in the offer, then the entire advertising is discredited.

No matter whether the advertising is prepared by the proprietor himself or by a special advertising manager, a copy of it should be furnished every salesman as well as failingly as it is served upon the newspaper, and every clerk should be required to become familiar with its contents and the business up his stock of knowledge in relation

Retail Advertising Department.

tion to the special article offered. If it is a certain line of watches, see to it that the entire selling policy of the store lends itself to the sale of those particular watches; that the stock is conspicuously represented by the window trimmer, and that every clerk is familiar with that line, its record for reliability, with every distinguishing point of merit.

It is not enough for him to know the entire stock of watches in the store so well that he is able at a moment's notice to pre-

quired to handle, but many salesmen stop at that; they simply know. It is the man who really *feels* who surpasses his comrades in writing the completing sentences of the newspaper ad.; whose blood is boiling with faith in the claims he makes, and whose interest, acquired in his special study of the subject, compels him to throw something of his own personality into each sale without being aware of it himself. This means that the origin of his faith and of the store's printed advertising must represent something of honest value that can command the genuine respect of the man who really understands all of its merits and short-comings.

In other words, there is no room for false pretenses in an ad. that is to be backed up as it should be by the personality of the entire house. If the origin of the ad. is in any way a sham, either the selling force must fail in backing it up with proper enthusiasm or else the clerks themselves will become quickly demoralized and devoid of that enthusiasm which comes out of earnestness because of the falsehood.

The close bond of sympathy between the selling force and the advertising management is not difficult to provide for, once the necessity of it is understood. In the beginning a prize offer, given out quietly among the employes of the house, for any idea that can be utilized in future ads. may aid in getting clerks into the ad-reading habit. That will insure close attention for a time at least; then, after the novelty of this has worn away, the more efficient clerks will be found to have the habit fixed upon them, while the others had better be weeded out. If they still fail of attention at this point they will surely be found remiss in the many little details that are constantly arising in the course of any business day to distinguish the "time-killer" from the true salesman.

There has been too much tendency to charge the entire efficiency of an advertising campaign against the advertising manager only, but this is wholly unfair. If he hasn't the backing of the whole store policy his best efforts are in a great measure wasted. Like the pitcher of the baseball team, much depends upon the skill of his delivery; but if it is too swift for the rest of the force to hold, it is worse than useless to them; in fact, no baseball manager worthy of his place would permit his team to enter the diamond without first seeing to it that all its members were prepared to handle the very best work their own pitcher could give them.

It is equally important that no proprietor should permit his sales force to lose touch for a day with the best curves and speediest delivery of his own pitcher, the advertising manager of the firm. R. F. N.

O. B. Marvin & Co., Findlay, O., formally opened their new store a short time ago. During the opening an orchestra dispensed music, and souvenirs in the shape of carnations were given to the ladies.

A boy, while shooting off firecrackers, July 4, caused a fire in the jewelry store of Smith Bros., 183 High St., Holyoke, Mass. A still alarm was sent and the blaze extinguished before doing any serious damage.

Recent Business Literature.

"FADS, Fancies and Facts" is the title of a very attractively printed booklet which was sent out, a short time ago, by Maier & Berkele, Atlanta, Ga. The cover pages are of a light bluish-gray color, the front page being adorned by an embossed wreath design bearing the firm's monogram and enclosing the title, which is also embossed. The inside pages, of which there

CATCH PHRASE O. K., DISPLAY CONGESTED.

sent any watch attractively, though he should be prepared to do that, too. His knowledge of this one watch, freshly acquired, should render him enthusiastic on that particular subject, so that he feels as well as knows. The printed ad. has given the impression of something especially interesting, and it is certainly up to the store management to show a special interest in it. Nothing is more chilling to the buying instinct than indifference on the part of the salesman, where enthusiasm is expected.

HANCHER

Precious Stone Jewelry

Besides the quality of our gems, there's the originality of Hancher mountings that should be considered.

Distinctiveness of design is a feature of all Hancher productions. We are in close touch with the greatest foreign fashion centers and the latest gem fads of Paris and London reach the Hancher "Diamond Shop" shortly after they are out.

If you want first quality gem and up-to-date mountings, buy them at

Hancher's 1223 Market Street

A DISTINCTIVE ANNOUNCEMENT BY AN EXTENSIVE ADVERTISER OF WHEELING, W. VA.

It is, then, the business of every clerk to make such a special study of the advertised line that for the time his whole enthusiasm is wide awake when the line is mentioned, and it is the business of the store management to see that every clerk has done this.

Every salesman worthy of the name has a good knowledge of the goods he is re-

Brock & Feagans' Diamonds

Q The well-known integrity of this house and the confidence it inspires, make this the one place in Los Angeles where anyone, however unfamiliar with diamond values, may purchase gems without any possible element of risk.

Q We confine our diamond stock entirely to perfect extra white and blue white gems—perfectly cut and flawless in every detail.

Q Such diamonds are as staple in value as gold or government bonds. And every diamond here is priced at its actual market worth.

We here illustrate one of our many exquisite new styles in diamond brooches

Brock & Feagans

DIAMOND TALK BY BROCK & FEAGANS, LOS ANGELES, CAL.

Georgia and West Virginia, an eight-page booklet three and one-half inches by six inches, calling special attention to his facilities for jewelry repairing, manufacturing and engraving. Prices are quoted for the different kinds of repairs, in every instance. Mr. Salamonsky recently enlarged his establishment.

STORE KEEPING DEPARTMENT

That this department shall prove mutually beneficial to our readers, it is desirable that the members of the trade generally communicate with THE JEWELERS' CIRCULAR-WEEKLY regarding any advantageous device or plan which they are utilizing in connection with their business.

A Window Display for the Baseball Season.

Prepared expressly for The Jewelers' Circular-Weekly.

AN original idea for the baseball season, utilizing the moving ball scheme in a novel manner is outlined herewith. A cardboard box somewhat larger than your fan is formed into an inverted funnel, as shown in Figs. A and B, and placed be-

Fig. C also shows the entire arrangement in detail. All joints of the air chute and funnel can be made air tight by pasting paper carefully over them.

The place where the "bat" is attached to the connecting tube should be most care-

DIAGRAM SHOWING HOW TO PREPARE THE BASEBALL DISPLAY.

neath a platform, C, which conceals the motive power. The bat lying on this platform is made by forming a sheet of cardboard into a tube about the size of a baseball bat, and having holes cut near each end—one at the bottom and the other at the top. These holes should be of a size to accommodate your celluloid ball, which is marked to imitate stitching and thus resemble a baseball.

Figs. D and E show how the paper tube is made to simulate a bat, being simply a paper tube covered with successive wrappings of manila paper smoothly pasted on.

fully hidden. The effect desired is that of a bat lying in the window and a ball continually rolling on it and not falling. Naturally, if all is carefully built and the motive power skilfully hidden, the passerby will be greatly mystified, and will also tell his friends to go to see the show.

The apparent simplicity of this display will make it doubly attractive. The cost of the entire moving apparatus (excepting, of course, the electric fan and current consumed) need not be over 25 cents. The dull Summer months require an extra effort, and as the time used is the main cost

in preparing this window one will find it to be a paying investment to devote some leisure time to its construction.

Catchy signs for the baseball window should be worded in the slogan of the national game:

The attraction of the "DIAMOND" is in its safe value.

Our Dollar Alarm Clocks Make a BIG "STRIKE"

Buy our guaranteed Silverware we're RIGHT on the "PLATE"

Everybody "ROOTS" for our high class goods.

"NINE" of our most seasonable novelties.

"A HOT GAME" Trying to beat our values

"A THREE-BAGGER" Our 25-cent Pin Guards.

These "MASCOT" Pins we are having a "RUN" on.

The price at which we "PITCH" out these specialties will surely "CATCH" you.

Small cut-outs of a diamond shape might be stenciled with a ball and bat and used in connection with this window for price tickets.

Fighting the Mail-Order Houses.

A NEW method of fighting the mail-order houses has been invented in Chattanooga, Tenn., where a number of representative retailers in various lines have united in the preparation of a joint catalogue, which they have spread widecast in the territory surrounding Chattanooga. The cost of the catalogue being divided, the individual expense is very slight; while the fact that it is comprehensive and substantial insures its preservation where separate and less bulky catalogues would soon find their way into the waste basket.

The Chattanooga firms represented include furniture, vehicles, farming implements, jewelry, office supplies, musical instruments, drugs, etc.

Storekeeping Department.

What is a "Fair Fixed Selling Price"?

(Address delivered by L. A. SPURLOCK, Rockport, Mo., before the recent convention of the Missouri Society of Retail Jewelers, in St. Louis, Mo.)

A DEATH struggle is never inviting, either physically or in a business sense; but frequently, in one's lifetime, the "horns of the dilemma" present themselves, and one must oppose force to force and put good, sound business sense against that of his competitor. The business dilemma I speak of is the mail-order house, and the "good, sound business sense" I wish to oppose against it is the "fair, fixed selling price," which places the smallest retailer on an equal footing with the greatest mail-order house extant.

I have noticed the many articles circulating throughout the press with reference to this "fixed price," some advocating a small fixed profit with an advance on repairs; others holding for the 100 per cent. plan, and still a third class adopting the percentage as laid down by some of the most successful jewelry manufacturers. Of the three methods I would choose the latter; but having an idea of my own respecting this subject I wish to place its humble weight against the three theories above.

Every dealer, of whatever line, is entitled to a fair profit. As to the third party, the purchaser, he is entitled to a fair price and goods that correspond in value to the money paid. For example, say the extension price of the "X" watch is \$7.75, and the manufacturer has fixed your minimum profit, or selling price, at 60 per cent., which would put the watch up to the purchaser at \$12.40. This is a fair selling price, both as to yourself and the buyer—fair to yourself because it enables you to include the percentage of breakage, rent, clerk hire and the other incidentals which must be saddled onto the staple articles of sale, and fair to the buyer because it gives him a good article at a reasonable, business man's price, and does not subject him to a sliding scale of prices that may be balm to his pocketbook one moment and a two-edged knife at another.

Remember that the salvation of the "fixed price" is embodied in the word "medium"; it must be neither too high nor too low. Remember that when this convention trives for a "fixed price" it must place it so that there will be no "crawfishing," so that "from the jump" the public may regard the price as so "fixed" that the article and its price may become a by-word in the business world. Hence everyone must be satisfied at the outset, for nothing so shakes the confidence of the public as discontent among dealers.

Now, to show the advantage of the 60 per cent. fixed minimum profit, allow me to take up the three propositions seriatim.

First, the small profit plan, and the advance on repairs to make up the deficit. This hardly needs an answer, but one should win on the strength of his own argument, and not on the weakness of the other party's. As far as my business experience has taught me, the small profit is only bait, and the necessary increase in some other line of

the business, as repairs, is to make up the requisite amount to meet the unavoidable expense enumerated above. Now, Mr. Retailer, can't you see a happy medium between bait and increase in the fixed price that comes neither too high nor too low, and doesn't scare a customer like a yellow quarantine flag? A medium, steady, "fixed price," at 60 per cent., will do more for you than a "fixed bait," and the consequent elevation of prices in other articles. As I see it, the "fixed small profit" simply throws the sliding scale of prices on other articles, while the "fixed, medium price" of 60 per cent. will satisfy all parties, and leave other articles and branches of the business normal.

Second, the 100 per cent. plan needs no argument with reference to the class of articles I am dealing with in this discourse, for I am advocating this "fixed selling price" only on watch cases, movements, some plated flat ware and hollow ware, and not on the lesser articles, such as scarf pins, stationery, etc. To put the price at 100 per cent. on such plated wares, etc., would be plain highway robbery, and would be upholding the black mask, slung-shot and dark nights as an honorable profession.

Third, the percentage as adopted by many of the leading jewelry manufacturers I have not much quarrel with, because they have struck the right principle, and are only lacking in that their percentage is too high in many cases and too low in others. For example, one firm lays down the 66 $\frac{2}{3}$ per cent. rule, and has succeeded, too, in its business; another firm says 33 per cent. is the correct estimate. But, as stated before, there is a happy medium of 60 per cent. that falls between the two, and that I think will prove satisfactory to the manufacturer, retailer and buyer. It has the advantage of being fair, not used as bait, and prevents a sliding scale on other parts of the business, keeping them normal in price, and holds out the retailer as a business man who conducts his business on a steady level. Let me close this part of my paper by asking this question: Where is the retailer who does not wish his business to have an even tenor, with no deep valleys and the consequent tall hills in his prices? Sixty per cent. is, I think, the remedy.

Touching the mail-order houses, I have to say that the "fixed price" is the weapon for our salvation. It reminds one of Spencer's "Fairy Queen," wherein a single knight vanquished the fiery dragon with his sword of faith; for now in the list is posed the retailer with as effective a weapon as that in the legend, to fight a greater dragon than the storied one ever dared be. Our "fixed price" enables us to extend our territory and to reclaim what we have lost; for where is the buyer who would not prefer to trade at home at the same price he could trade abroad? Yes, and even cheaper, because at the fixed rate the home dealer requires no postage, freight or express charges, while the mail-order house does. So I see nothing but a brilliant future for our business if we "get down to our knitting" and put our good advice to work. Remember, a business is no stronger than what a man puts into it. This convention is not only advisory, it must have redder blood than that. Let us practice

our maxims and advice in our own bailiwick. Co-operating with the manufacturer, we will find him only too ready to adopt a reasonable fixed price, which I place at 60 per cent., because we three—the manufacturer, retailer and buyer—depend on each other.

Distraction a Frequent Cause of Jewelry Losses.

THE recent experience of a jeweler in New Haven, Conn., who voluntarily gave a woman \$100 as a loan for a cheap ring which the woman led the jeweler to believe was very valuable, but upon which she placed no valuation, should serve as an effective lesson to storekeepers. Since the woman placed no valuation upon the ring, but merely submitted it to the jeweler for his inspection with the request that he lend her the sum of \$100 and keep the ring as security, the jeweler has no legal redress.

Every jeweler who conducts a store should make it a point to ask at least such questions as will allow him to have a proper remedy in law. Jewelers are, of course, not lawyers, but a little thought and common sense help a great deal. It certainly seems a simple matter for a jeweler to inquire as to the value of a ring, but this clever female caught the jeweler napping, or at what many would call the psychological moment.

The woman entered the store when the jeweler was busily engaged in conversation with a customer. With feigned or genuine haste and excitement she nervously called him aside. She was dressed well and in unusually refined taste, and, politely declaring that she was temporarily in need of funds, flashed what appeared to be a magnificent diamond ring before the jeweler's eyes and with the utmost courtesy and affability made a strong plea for the above-mentioned loan. Had the jeweler been alone in the store at the time, and had his mind not been distracted or his attention divided between the two persons, he would probably have thought more cogently before "contributing" his \$100 to this wily woman.

At any rate, herein lies a warning against hasty business procedure. A business transaction with one customer should always be completed before beginning a new one with another customer. Employ more help, if necessary.

Distraction is a most frequent cause of jewelry losses, and if a man is exceedingly absent minded he should even go so far as to resort to a physical reminder in the form of a card bearing the inscription, "Cave" (beware), which could be so placed as to be invisible to those who enter the store, and ever visible to the eyes of the jeweler. One jeweler in a large city has this word printed in Greek on all his diamond trays.

A. L. Butler, Ansley, Nebr., recently sustained a loss of about \$500 during a fire at that place.

Henry S. Miller, a jeweler of Avon, N. Y., while riding a motorcycle recently, met with injuries which were at first thought serious. Mr. Miller was on his way home from a trip to Penn Yan when he collided with an automobile.

DELLA ROBBIA RELIEFS.

By Charles A. Brassler.

THE delight in plastic art which characterized the early Italian Renaissance, and the resulting demand for works of this kind, caused the artists of that day to seek materials which would allow more rapid execution than is the case with marble, and in which their work could also be more easily reproduced. Bronze won a very wide use. A few works of the "Trecento," technically very imperfect, were followed in the 15th century by such perfection of bronze casting that this became the most valued material for plastic art. It was very expensive, however, and thus only small arti-

fashion of glazed pottery or earthen ware. This artist (1400-1481) was at first a goldsmith, but soon turned to sculpture. As early as 1438 he had finished the famous marble frieze in the Church of Santa Maria

says, a new process, and finally invented tin glazing. If this fact is not a certainty—since we have faience ware from the Trecento—he at least understood how to apply the faience technique to large plastic works with a beautiful effect never afterwards attained. The clay model was lightly burned, then painted, and enameled, and burned a second time. The painting shows few colors, the figures being mostly white on a blue or green ground. The opal-like

MARY AND CHILD. LUCA DELLA ROBBIA (1400-1482).

cles were within the reach of persons of moderate means. For larger works a cheaper substitute had to be found. The Italian artists took what Nature afforded—sandstone, limestone, wood, but first of all clay, which will always be for the plastic artist the easiest means of direct expression for his ideas. Studies and models in clay were followed by real works in the same material, lightly burned and painted in water color. If they were intended for out-of-doors they were varnished. But this was not a great protection, and Luca della Robbia, in Florence, in 1440, conceived the idea of glazing such work directly after the

ALTAR FRONT, BIRTH OF JESUS. GIOVANNI DELLA ROBBIA (1469-1529).

de Fiore in Florence, and other masterpieces of marble and bronze have been established as his work. In order to make his work in clay lasting he sought, Vasari

milky white of the della Robbia glazing is put on so thinly that the clay shows through; the blue is of a quiet tone, the green yellowish, and the halos of his saints

580-582 Broadway - - New York

are either white or gilded, never yellow. Besides his authentic faience work, which is in Florence, della Robbia made a great number of lunettes, tabernacles and altars, and many reliefs. Most of the latter show

BUST OF ST. CATHERINE. ANDREA DELLA ROBBIA (1437-1526).

the same design, the Virgin and Child, either alone or with attendant saints or angels. Luca della Robbia's work is characterized by the beauty of the figures, the

"THE FLAGELLATION," XV. CENTURY, NOW IN FLORENCE MUSEUM.

seriousness and dignity of their expression, and the delicacy of the relief. His faience reliefs, quietly colored and framed in by volos, bands of beading and leaves of sea plants, more rarely by garlands of flowers, won recognition from his contemporaries no less than from posterity, and to them he owed his popularity and a considerable

fortune. As far as is known, his works bear no signature.

The production of the glazing seems to have remained a secret of the atelier, and the method was the inheritance of his nephew, pupil and co-worker, Andrea (1437-1526), who continued to work in his uncle's fashion. Vasari says that his works were numberless, and scattered all over Tuscany. In his sense of beauty, the taste of his arrangement and in skill of technique he equals his master, but his figures are inferior in dignity and seriousness of expression. His Madonna reliefs are fascinatingly beautiful, characterized by simple naturalness of conception and an expression of calm, bright joy. They are outwardly distinguished from Luca's work by the heavy framing (except where, for architectural reasons, the frames are omitted), in which garlands of fruit and angels' heads predominate.

Of Andrea's four sons, all of whom were his pupils, only Giovanni, who died as early as 1529, comes into consideration as his successor. Many of the reliefs attributed to Andrea are undoubtedly the work of his sons, especially of Giovanni, who at first followed in his father's footsteps, but afterward adopted a different and inferior style, and worked in polychrome.

Many of the faience reliefs of the della Robbias are extant in Florence, and the museums of Berlin, Kensington, the Louvre and Cluny, also possess collections of them. The prices of reliefs of the Robbia school are very high; in the last few years they have brought from \$750 to \$2,500. Conse-

quently there have been many imitations of this work, especially in central Italy.

W. B. Bartling, Grand Island, Nebr., is seeking a settlement with his creditors, and his store at that place has been closed. Mr. Bartling, who is a young man, began business in Grand Island, October, 1906.

Handsome Vase Used as Trophy for Glidden Automobile Tour.

THE trophy for the winner of the Glidden automobile tour from Detroit, Mich., to Denver, Colo., which started July 12, this year, takes the form of a beautiful china vase with a clock set in the base. It was supplied by Wright, Kay & Co., Detroit, Mich., and cost \$250.

The vase, as will be seen from the illustration below, is in Sèvres style, hand painted, with ornaments and handles of

VASE USED AS AUTOMOBILE TROPHY.

silver and gold plate. The panels are the conventional style surrounded by rococo borders. At the top on the rim or lip appear the words "Detroit" on one side and "Denver" on the other.

The trophy has been much admired since it was put on exhibition by the jewelry firm which supplied it.

Ceylon Lippitt, Cooperstown, N. Y., and Miss Florence R. Potter, Mt. Vision, N. Y., were married, recently, at the home of the bride, Rev. J. C. Russell, D.D., officiating. QUESTION NO. 2307.—**Boiling-Out Apparatus for Jewelers.**—Please give description of suitable apparatus for boiling out and warming of cements. B. O. A.

ANSWER:—Useful apparatus for boiling

FIG. 1.

out, for heating water, for warming cement and melting the soft metals were illustrated, some time ago, in the *Deutsche Goldschmiede Zeitung*. The devices are very simple and inexpensive, and can be made by

FIG. 2.

the jeweler himself. Fig. 1 shows a three-footed wire stand, which has a metal band fastened to the legs. A Bunsen burner is secured and held in place with a strip of sheet iron and connected with a rubber tube for bringing the gas. The burner has air holes in the sides which may be partly

closed with iron plugs, and thereby the amount of flame or heat may be regulated. Fig. 2 shows a similar apparatus which may be fastened against the wall, thus being out of the way. The burner is made out of an ordinary gas bracket shortened and bent upwards and having soldered into it a smaller tube with a small opening, which enables one to use a very small flame if desired for warming purposes only. At a suitable distance above the lamp a ring is made to hold the dish or pan to be used. This ring can be made out of iron wire, bent round, with one end carried to the wall and then bent downwards and secured with two wire staples. The hood shown in Fig. 2 can be used for both apparatuses. It is intended to carry off the fumes from acid or the moisture from any of the boiling liquids. This is a very desirable feature, especially where there is silverware, jewelry or cutlery close by. With the above apparatus in a repair shop one can keep liquids warm all day, the expense of gas being very small, and the saving of time to a repairer being considerable. The boiling liquids are too hot to use with the fingers, and it is therefore best to construct a tin or sheet-iron basket, a little smaller than the vessel used for the acid or cleaning liquid, so that it can be set inside of it. The basket should have small holes in the bottom and a wire bail for a handle. When cement, glue or shellac are to be warmed, the bottles or cans may be placed in the little basket and held in the hot solution until warm enough. Jewelry or other objects to be boiled out may be placed in this little basket, which serves as a quick method of handling small pieces.

QUESTION NO. 2308.—**Porous Gold Castings.**—How can I prevent the number of small holes in gold castings? I use a cuttlefish shell for moulds. P. G.

ANSWER:—This may be avoided by adding to the alloy about 5 to 6 per cent. of yellow brass, or brass wire. In case of colored gold use a little less, also an equal quantity less of copper and silver, pouring the metal into the mould, which should not be too hot. If the gold is completely melted, so that it stands level, wait until signs of solidification pass over the surface, and at this moment pour out. The use of good, pure gold for casting is, of course, the first consideration. If you wish to test it, saw off the runner and examine it with a lens. If the cut surface shows no bubbles, the entire casting is successful.

Walter S. Warner, Austin, Pa., recently sustained a loss by fire.

Simplified Electroplating for Jewelers.

(Written expressly for THE JEWELERS' CIRCULAR—WEEKLY by "R. B.")

INTRODUCTION.

THE many inquiries that have come in regarding cleaning, polishing and re-finishing of shopworn jewelry, silver and plated ware, nickel, silver and gold plating indicate that there is a general desire for a simple and practical method of instruction—a method which any out-of-town jeweler or watchmaker might adopt with little effort and much profit.

It is not an infrequent occurrence, as many will admit, that after the lapse of several weeks, impatiently awaiting the return of work sent out of town to be colored, silvered or gilt, one finds that instructions given have not been followed, e.g., an article which should have been "Roman colored" is plated Rose color, and *vice*

FIG. 1.

FIG. 2.

versa. And, what is of greater moment, one is very often called upon to warrant the deposit of metal, be it gold or silver, to wear for a number of years.

It is a relief to a conscientious jeweler to be able to warrant his own work, instead of that of another. It is very easy to go on multiplying the advantages to be secured in doing one's own gold, silver and nickel plating of such articles as clock trimmings, candlesticks, watch cases, watch chains, rings, bracelets and such other articles as are in common use.

For the purpose of meeting the exigencies of certain cases, therefore, we have secured the services of an expert who for many years had charge of and, personally conducted a large establishment in New York.

The plater will not only tell how to

FIG. 3.

do things, but will also tell what not to do, in order to avoid trouble.

It is not unusual, for example, to hear of a watchmaker cleaning a metallic clock or watch dial by mechanical means, and before he is half through to find to his dismay that he has not only removed the undesirable stains or spots, but that the figures have also disappeared, and, what is of greater consideration, it will take two weeks to have the dial repainted and involve an expense of several dollars.

At the very outset it is necessary for every jeweler to equip himself with a foot lathe of considerable size, of the type commonly in use by the trade. Of course, one that is operated by the least exertion and

Workshop Notes Department.

develops the greatest speed or largest numbers of revolutions is to be preferred. The greater the speed, the higher the polish and the quicker will the work be finished.

While speed is beyond question of great consideration, special attention is called to the polishing head, for upon the construction of the polishing head the result sought to be accomplished greatly depends. For instance, if the polishing head is but five or six inches above the table or bench proper, with arms or spindles of limited length, it will readily be seen that what is commonly called "big work," such as candlesticks, trays or clocks, cannot be handled. In order to be able to clean, polish or brush such articles as above mentioned it is essential that the left arm or spindle of the polishing head should be of the length equal to one-half of the article to be brushed or polished. (See Fig. 1.)

It will therefore be apparent that the height of the polishing lathe is equally deserving of our attention, for if the polishing head rises but five or six inches above the bench or table upon which it rests, it will allow only a small article to be placed under its arms or spindles. (Fig. 2.)

For the reason pointed out it is important that the jeweler supply himself with a lathe the polishing head of which rises at least eight or 10 inches above the bench or table upon which it is placed, and, in addition to that, that the head is arranged for removable spindles, so that when one is polishing small work a small or short spindle may be used at will, thus requiring little effort in speeding the lathe. When occasion requires, a longer spindle may be inserted and larger or heavier work done. (See Fig. 3.)

Another important feature, of which it may be convenient to speak here, which is not likely to be referred to hereafter, is that the table or bench at the left of the base and under the left arm or spindle should be either removable or capable of being lowered so as to enable the operator to handle a large, bulky article with ease and convenience under the left arm of the polishing lathe. (Fig. 3.)

Once equipped as herein set forth, any article that comes to the jeweler will be polished or brushed after plating, as is frequently necessary, with ease and facility.

POLISHING JEWELRY.

To obtain satisfactory results in polishing jewelry, watch cases and silverware, first of all, scratches and marks of wear should be removed, thus rendering the surface of the article perfectly smooth and even. Unless the scratches and indentations are removed no high polish can be secured.

To remove scratches, marks and imperfections from small jewelry a two or three row circular bristle brush of about three or four inches in diameter should be used. A cutting preparation or paste, known to the trade as soft tripoli, should be prepared as follows:

- 2 tablespoonfuls of powdered tripoli.
- 1 tablespoonful of Dinamo oil.

This mixture should be thoroughly stirred and is presently ready for use.

A little quantity of this soft tripoli

should be placed upon the article to be polished from time to time as the work progresses, and put to the brush. When a fairly fast speed has been attained it will be found, after giving the article a good brushing, that all the scratches and imperfections have disappeared. If, for instance, the article to be polished happens to be a chain, each link should be gone over separately, going over the left of one side and the right of the same side, and thereafter the other side, thus subjecting each and every link of the chain to a thorough brushing. After several applications the operator will readily learn to appreciate the cutting power of this preparation. The very same process should be employed on all kinds of small jewelry and watch cases.

If the articles to be polished happens

will be ruined by becoming saturated with the oily substance.

After the article is well washed, as directed, it should be run through a solution commonly known as potash.

This solution consists of
2 spoonfuls of XXX lye.
1 quart water, used warm.

The work should be left in the solution of potash for a short interval, giving the solution a chance to dissolve whatever greasy matter still adheres to the article after washing. After removal from the potash it should be well washed in cold water, thereafter plunged into hot water, causing it to dry quickly.

The article may then be dried and wiped with a towel or thrown into boxwood sawdust and removed when dry, when it will

ENAMELED GOLD PASS CASE MADE FOR A. L. ERLANGER.

to be a tray frame or spoon, or article having a large plain surface, a rag buff—that is, a buff made of heavy cloth—should be used instead of a brush. The brush should be employed on parts that are raised, ornamented or perforated, as no buff is capable of getting at depressed and hollowed places. From time to time hard or bar tripoli should be used for the rag buff, with an occasional application of the soft tripoli.

After several applications the operator will learn to determine when the scratches have been removed without much loss of time. A ready and quick way is to have a soft cloth at hand so that the operator can quickly wipe clean the tripolied part and see its condition.

If knicks and scratches are still noticeable, the operation of brushing on the lathe should be continued. If found to be smooth and even the article, be it gold or silver, should be placed in hot water containing a reasonable quantity of washing soda. It should be allowed to remain therein for about five minutes, after which time a hard bristle brush occasionally immersed in strong ammonia water and soap should be applied and the article mechanically washed perfectly free and clear of the tripoli and oil.

So long as the article remains greasy and sticky, no attempt should be made to proceed to polish for a finish, as no high polish can be attained while the article is greasy, and besides the rouge buffs and brushes

be ready for what is known as the rouging process. The latter process puts on a very high polish.

(To be continued.)

Goldsmith's Work in Card or Pass Cases.

AN artistic example of the goldsmith's art is shown in the accompanying illustration of a card case given by Frederic Thompson of Luna Park to A. L. Erlanger, of Klaw & Erlanger, theatrical managers.

The case contains an annual pass and is of 14 karat gold. On the cover is shown in raised work the figures of an elephant in 18 karat gold. The blanket on the elephant is in dark red enamel, set with rubies, emeralds and diamonds and contains the inscription "A. L. E. Maharaja of Luna Park." The case measures two by two and one-half inches and weighs 106 pennyweights. Inside the case besides the pass is a leather holder for cards.

It was furnished by Chas. L. Trout & Co., New York, who also furnished the gold key used to officially open Luna Park.

Samuel Bernstein, Portland, Me., has leased the building at the corner of Oak and Congress Sts., and will remodel it and open a jewelry store there.

Mr. Barrett, Painesville, O., has leased larger quarters in the old Dollar Savings Bank building, on the south side of Main St., and will move there about Aug. 1.

AUGUST GRIFFOUL 280-286 CHESTNUT ST., NEWARK, N. J.

 KNOWN THE WORLD OVER

Beautifully adapted for the jeweler's stock and show case display—the New Pocket Edition Gillette Safety Razor is becoming an important feature in the best retail jewelry stores.

The demand over the retail counter is astonishing. Every old Gillette user wants the New Pocket Edition and it makes new friends at sight.

The set consists of handle and blade box, either triple silver-plated or 14-k. gold-plated. The pocket case is of gold, silver or gun metal—plain polished or richly engraved in Floral or Empire designs. It is so neat and compact that it will fit like a card case in the waistcoat pocket or slip into the side of a travelling bag—the blades are fine. Prices, \$5.00 to \$7.50.

For the special use of the jewelry trade, the Gillette Company has designed a tray lined with purple velvet, size of the regular watch tray—contains wells for twelve razors. These trays are made in various hardwood finishes to match the store fixtures and are shipped free of cost with the initial order for a dozen razors. Aside from the sales of the razor, the business in blades is a steady income for a store.

Two additions to the Gillette line this season are the Gillette Brush—a brush of Gillette quality, bristles gripped in hard rubber; and the Gillette Shaving Stick—a soap worthy of the Gillette Safety Razor. The stick is enclosed in a sanitary nickel box: both soap and brush are packed in attractive cartons. They will be welcomed by Gillette users everywhere.

22 K. 88c. per dwt.	12 K. 48c. per dwt.
20 K. 80c. " "	10 K. 40c. " "
18 K. 72c. " "	8 K. 32c. " "
16 K. 64c. " "	6 K. 24c. " "
14 K. 56c. " "	4 K. 16c. " "

MARKET RATES FOR SILVER AND PLATINUM

WE SELL

Gold, Silver and Platinum, various qualities, rolled flat or drawn to wire of any gauge.

PRICES OF ALLOYED GOLD:

8 K. 42c. per dwt.	14 K. 66c. per dwt.
10 K. 50c. " "	16 K. 74c. " "
12 K. 58c. " "	18 K. 82c. " "

Gold and Silver Solder, either from formulas furnished, or our own. "T. B. H." Alloy, 25c. per oz., Guinea Gold, 75c. per lb. Shot Copper, 40c. lb. We will send tables for alloying without charge. They save figuring.

SPECIAL AND IMPORTANT NOTICE

in ordering Plate or Wire, to avoid delay and errors, be sure to state:

FIRST, THE QUALITY—If Silver, Sterling or Pure. (Coin Silver made up only on order.) If Gold—the Karat. **SECOND, THE QUANTITY**—If Wire, the Thickness and Length. If Plate, the Thickness, Length and Width.

Regarding the thickness it is **most important** to not only state the number, but also the name of the gauge you are using, as there are 13 gauges and no two alike. The most used by us is the Brown & Sharpe **American Standard**, but we will fill your order from any one by stating which you use.

Try us and you will Appreciate our Squareness, Promptness and Accuracy

WHAT SOME LEADING WATCH FACTORIES OF THIS COUNTRY THINK OF
Fulcrum Watch and Clock Oil

THE NEW ENGLAND WATCH CO. says: "It is first-class in every way."

THE E. HOWARD WATCH CO. says: "We consider yours an improvement over any domestic oil we have ever seen."

THE SOUTH BEND WATCH CO. says: "We have completed a test with your watch oil, in extremes of temperature and other conditions, and are pleased to report the result of the trial is most satisfactory."

Find another Watch or Clock Oil which has ever received such favorable comment from people who know.

Fulcrum Oil positively will not gum — will not evaporate — will not discolor or become rancid in any length of exposure — will not corrode the pivots, because it is free from acids of all kinds.

It is the only Watch or Clock Oil ever known which is absolutely free from acid, AND WE CAN PROVE IT.

35 Cents per Bottle. \$3.75 per Dozen

FOR SALE BY ALL JOBBERS

Try it — a Postal to the Factory will bring you a small Sample Bottle Free of Charge

FULCRUM OIL CO., Franklin, Pa., U. S. A.

The Proof of the Pudding

The proof of ability in any line consists in doing the things that others have failed in doing.

This we have done repeatedly, and can furnish the proof.

We sold \$20,300 in one sale where another auctioneer had thrown up his hands after selling only \$3,000

In another sale we sold three times as much as the combined sales of two other auctioneers, and realized much better prices.

We have repeatedly taken dead sales—the result of the work of incompetent auctioneers—put new life and vim into them, and closed out the stock at a profit.

However, it is not the large amount of goods sold that counts so much as the net results in the profit and loss account — the small amount of new goods used, compared to the percentage of your goods, and your dead stock in particular, that are disposed of, and that larger and more important question of the after effects of your auction sale upon your customers, and, consequently, upon your future trade.

We believe we have solved the problem of how to conduct an auction sale so it will be to your profit, in both dollars and cents, and in the building up and permanency of your regular business.

We will furnish you evidence that sales, at this time of the year, when regular business is dull, can be made as profitable as during the seasons when regular business is booming.

You can do a holiday business during the hot months.

We would be pleased to talk with you about it.

NEW YORK OFFICE
3 Maiden Lane

Flat Belcher ring as received with claws badly worn.

How the same ring looks when stone is reset without new claws. Stone is not secure and point is below inside of ring.

How we splice settings and solder in new claws; seams do not show and rings are as perfect as when originally made.

How ring looks with new claws and stone securely reset. Entire ring is finished like new.

When we tell you that we have received as many as 75 diamond rings in one day for new claws and settings, you will not think us extravagant for using a full page in THE JEWELERS' CIRCULAR to exploit this feature of our business, but will wonder if you are getting your share of claw work.

99 out of every 100 owners of diamond rings willingly pay \$1.50 to \$5 for new claws or settings on their rings, but would not buy new mountings for \$5 to \$25.

It is worth while to familiarize yourself and your employees with this work, as it is one of the important little things that help to make your business profitable.

WENDELL & COMPANY

The firm that did much to change the repair end of the Retail Jewelry Business from a source of worry and dissatisfaction to one of pleasure and profit.

47 John Street
New York

TWO WONDERFUL SHOPS

256 Madison Street
Chicago

Tiffany ring as received with worn off claws. Stone cannot be reset, as it would be too low to look well and the point would come below the inner circle of ring.
(See cut No. 2 of flat belcher.)

How same ring looks with new claws and stone securely reset. Entire ring is finished like new.

Oval Belcher ring as received with claws badly worn. Stone cannot be reset, as it would be too low to look well and the point would come below the inner circle of ring.
(See cut No. 2 of flat belcher.)

How same ring looks with new claws and stone securely reset. Entire ring is finished like new.

THE PRICES QUOTED ABOVE FOR NEW CLAWS AND SETTINGS ARE SUBJECT TO OUR CATALOGUE DISCOUNT.

WE CAN PUT NEW CLAWS AND SETTINGS ON MOUNTINGS TAKEN IN TRADE AND REFINISH THEM SO THEY WILL BE AS GOOD AS NEW.

WE RETIP CLAWS AND MAKE NEW SETTINGS FOR CLUSTER MOUNTINGS SO THEY ARE AS GOOD AS WHEN ORIGINALLY MADE, AT PRICES THAT MAKE IT ADVANTAGEOUS FOR THE OWNERS TO HAVE THIS WORK DONE.

Carrying no diamonds in stock, entering and tagging each piece of diamond jewelry as received, then giving to each workman but one ring at a time, which is returned before he receives another, prevent any possibility of diamonds being exchanged while in our possession.

DELFT JEWELRY—For the Summer Trade

DELFT WARE has long been in popular favor; in fact, during the centuries that the Dutch have made Delft goods they never lost their popularity. The reason lies in the fact that Delft possesses a peculiar charm, an individuality, which is lasting; the rich shades of deep blue on the snowy white enamel are typical of that cool, cleanly refinement so characteristic of the Dutch people. Delft is therefore especially appropriate for Summer wear.

This unique line of novelties is done on sterling silver; the patterns are all taken from original Dutch tiles. Let us send you samples of these Delft goods. We furnish them as belt pins, Dutch collar pins, hat pins, veil pins, waist sets, cuff and collar sets, etc.

SEARCHING CRITICISM

¶ The very things next to a beautiful gown or dress suit that are subject to the most searching criticism are the Jewels that are worn with either. According to the eternal fitness of things, freakish Jewelry is intolerable; therefore, the Jewels that are designed for the purpose of such wear must be faultless. Added to distinctive modeling, our craftsmen devote indefinite attention to many details usually conspicuous by their absence from ordinary Jewels.

¶ Our beautiful mounted goods will demonstrate to you the advisability of making it a point to visit our SEVENTH ANNUAL EXHIBITION, which will take place in our offices from August 30th to September 4th, inclusive.

WARREN

The WARREN Pattern Sterling Silver Tableware must have real merit, having withstood the vagaries of fashion practically unchanged for over 150 years.

It is still in demand by those who appreciate the dignity of pure silver, nice proportion, and grace of outline.

With a family crest, or a ciphers monogram, an Old English or even a plain script initial nicely engraved on its clean surface, the harmony is complete and above criticism.

KARNAK BRASS

ISIS

GODDESS OF THE NILE

Worshipped by the Egyptians as the Great Benefactress.

KARNAK BRASS

KARNAK BRASS

SPHINX

AN EGYPTIAN MYTHOLOGICAL MONSTER

Worshipped as the Protectress of Egypt.

The ancient Egyptians were great builders—such Temples as Karnak, built by the Seti over fifteen centuries ago, the ruins of which are still standing in an excellent state of preservation, prove them GOOD BUILDERS.

We are metal workers, and the fact that our business has grown to its present proportions proves us GOOD WORKERS also.

Our latest line is "KARNAK BRASS" founded on the principles of utility and Art, of which we illustrate herein a few pieces—both forms and decorations express the ideal features of Egyptian ornamental art. Each piece is hand decorated and finished in a most attractive combination of dull brass and antique green. Each piece has a distinct individuality.

We wish particularly to call the trade's attention to the fact that this is a unique line—one in which every number is certain to prove a quick and profitable seller.

Write for complete price list and catalogue of Karnak Brass. Full line on display at our New York Office, 409 Broadway; including Hand Hammered Copper and Brass Art Goods, Silver Plated Hollowware and Flatware, Gold Plated Novelties, Clocks and Jewels, Metallized Real Rose Hat Pins.

KARNAK BRASS

LOTUS

THE SACRED LILY of Egypt—much used in the Decorative Art of the Ancients.

KARNAK BRASS

PAPYRUS

A SPECIES OF REED common in ancient Egypt—used as a writing material. Also in their decorative art.

BENEDICT MFG. CO. East Syracuse, N. Y.

We beg to call your attention
to our extensive

Card Jewelry Line

consisting of medium priced

10K. Solid Gold Brooches, Scarf Pins,
Baby Pins, Handy Pins, Ear
Screws, Pendants, etc.

These goods are sold through the jobbing trade at very attractive figures. An examination and comparison will at once prove them to be ready sellers and profit makers in the stock of any jobber.

New patterns have been brought to a point of especial distinction, and all bear our mark of quality and reliability

It is our earnest desire to establish the same reputation for Finish, Originality, Quality and Reliability for this CARD JEWELRY LINE as is borne by our ring lines.

Samples will be cheerfully sent to jobbers and we heartily commend this line for a profitable business in 1909.

OSTBY & BARTON COMPANY

NEW YORK: 9-13 Maiden Lane.

PROVIDENCE, R. I.

CHICAGO: 103 State Street.

THE KREMENTZ COLLAR BUTTON

GOES ROUND THE WORLD

ITS FAME—

Wherever there are collars there are Krementz Collar Buttons. They are known the world over—the only ones that have an international reputation. With such recognition and demand, all you have to do is carry them. They sell themselves.

QUALITY MAINTAINED—

The Krementz Collar Button never disappoints. Unequaled in construction and finish, its quality always has and always will be maintained.

ASSAY—

The Krementz Collar Button does not take advantage of the elastic leeway allowed by law. There is really no reason why a solderless collar button should assay a whit less than stamped. You can depend upon it that

Krementz 14-Karat Collar Buttons will assay 14-Kt. or $\frac{584}{1000}$ Fine.

Krementz 10-Karat “ “ “ “ 10-Kt. or $\frac{416}{1000}$ Fine.

You will note that articles assaying 9 to 9½ Karat or 13 to 13½, and sold as 10-Karat or 14-Karat respectively, save the makers a profit.

ROLLED PLATE LINE—

Krementz Rolled Plated Collar Buttons and Studs are made with regular Krementz 14-Kt. stock; which is sweated, not soldered on composition base. Exhaustive tests show Krementz Plate is much heavier than is used on any other rolled-plate jewelry. Their great popularity in hot countries (where perspiration destroys ordinary goods), is largely owing to the thickness and quality of Krementz Gold Plate, similar to that used on highest quality filled cases.

SILVERSMITHS AND JEWELERS

NEW YORK SALESROOMS:
15-17-19 Maiden Lane

Factory: North Attleboro, Mass.

To Buyers Visiting New York:

- ☞ We want you to see the many new tea and coffee sets, child's goods, small dishes, etc., that we have added to our standard patterns of Sterling Hollow Ware.
- ☞ We will therefore conduct an elaborate exhibit at the Hotel Marlborough in New York City, from August 15th to September 11th.
- ☞ We will show the most extensive line of Sterling Hollow Ware ever offered to the trade.
- ☞ The lines we offer are all bright and snappy. They are in no sense obsolete or shop-worn goods. They are inexpensive. In fact, the prices are much better than we have ever before been able to quote for goods of similar quality, design and weight.
- ☞ It is seldom we advertise prices in connection with Smith Silverware. When we do, it is a certainty that we can talk straight to the "orders" point with you.
- ☞ This is an opportunity that occurs only once in many years. You know us and our methods well enough to take our word for it as fact. It behooves you, therefore, to visit us just as early as possible.
- ☞ REMEMBER — Hotel Marlborough, New York, commencing August 15th.

TRADE

MARK

THE NOTE of harmony is being emphasized in jewelry. There should be a pleasing relationship between Chain and Lorgnette, though absolute identity of design is not essential. Appropriateness there should be. Durand Fancy Chains furnish this. Make two sales instead of one.

PRICES: \$10.00 to \$600.00.

We take pleasure in bringing to the attention of the **JOBGING TRADE A NEW AND ARTISTIC LINE OF**

La Vallieres **Festoons**
Seed Pearl Jewelry **Pearl Chains**

MILTON L. ERNST
12 Dutch Street **NEW YORK**

DO YOU REALIZE what it means to manufacture gold chains of excellent quality and faultless construction and sell them at prices much below what the retailer ordinarily pays for chains of similar quality? It means that we have a well organized factory and prefer selling these chains ourselves directly to the trade, thereby giving you the benefit of what it would cost to maintain a necessarily expensive organization of traveling men.

THAT NEW CHAIN we are exploiting is solderless and flexible, without stringing, 15-inch lengths only. **IT SELLS AT SIGHT.**

Write for a sample.

Novelties in 10K. Jewelry

While we make an entire Staple Line, this year we are showing in our
 Fall Samples the most artistic and novel effects ever produced in 10K. Jewelry.

The Fittings of Jewel Cases

A Word about Trays, Ring-Blocks, Linings, etc.

IN THESE HANDSOME and well-made, though inexpensive Jewel Cases, nothing is omitted, nothing overlooked. The convenient and attractive Trays are all supplied with Ring-Block, such as jewelers use. Ring-Block is included also in many of the Cases without Trays. Lock and Key are practical and substantial, the former often receiving rich decorative treatment. Satin and Velvet Linings are of good quality in appropriate tones. Write for Illustrated Catalogue.

Jewelry of Distinction

The design of the above pins is patented, and we will promptly prosecute any manufacturer who infringes on same.

THE "EDGEWOOD" BAR PIN

¶ The "Edgewood" Bar Pin, shown above is one of our latest productions.

¶ The design is patented, and the pin will be made in fourteen karat gold only and sold exclusively by us to the finest class of retail jewelers.

¶ This means that you can assure your customers of having, in this article, a pin that will not be duplicated in an inferior grade of goods.

¶ These pins are made in four stock colors of enamel: Light Blue, Navy Blue, Black and White, but can be furnished in any color desired.

¶ We suggest an effective set, comprising two No. 1090 and one No. 1091.

¶ Upon request, we will be pleased to send a selection of these goods on memorandum.

¶ We prepay all packages: Let us prepay one to you.

THE JEWELERS' CIRCULAR

WITH WHICH ARE CONSOLIDATED
 THE HOROLOGICAL REVIEW
 THE JEWELERS' WEEKLY THE JEWELERS REVIEW

Vol. LVIII.

WEDNESDAY, JULY 28, 1909.

No. 26.

Many Ancestral Jewels of European Nobility and Royalty Are of Little Value.

(From a London letter to *Vogue*.)

HAVING time to read a little during the few days' transit from continent to continent, I have been somewhat amused to find long accounts in some of the weekly publications of the splendid jewels given by the European nobles to their brides. As a rule, I have found that it is difficult to obtain in Europe extremely handsome and valuable settings of any large pieces such as tiaras or even necklaces, and that the American jewelers stand very high in Paris

has been some years in New York, has married Mrs. _____ I remember the don. He is the kind of man to be met at morning concerts and at teas and artists' studios. The family are an ancient and proud Roman stock, and the old prince—the don's father—married one of the many daughters of the old Queen Maria Christina of Spain by one of her many marriages.

It was he who brought two of his royal grandmother's crowns to New York to be disposed of, and I must confess about one I heard "les Diamants de la Couronne" were not of surpassing sparkling quality.

Handsome Table Center and Jardinières for Officers Casino of a Uhlán Regiment.

THE illustration appearing on the front page of this issue shows a fine silver centerpiece specially fashioned not so very long ago for the Officers' Casino of the Westphalian Uhlán Regiment as a present from the officers of the Reserve.

The dish is borne by four strongly modeled eagles. A column turned out of serpentine and mounted in silver develops from the bottom and bears on the top the heraldic animal of the city of Düsseldorf, a beautifully modeled lion. The transition

SILVER DISH OF ARTISTIC DESIGN MADE FOR A WESTPHALIAN REGIMENT.

and other capitals on the Continent. And this is no new story, as some of our artificers have been established over there for years.

The foreign craftsman is likely to put too much filigree work into crowns, and he does not hesitate to use garnets, seed pearls and bits of stone in a composition. This is particularly the case with the older settings, and even crown jewels look, from an American or English point of view, tawdry and cheap; so that I never put much faith in the value of the gorgeous ancestral jewels brought over by noblemen who are to marry American heiresses, especially if colored stones like rubies and emeralds are employed. And there is a trick by which impoverished members of these ancient families have replaced the precious stones with glass. And speaking of these crowns, I saw by the wireless printed in the ship's little newspaper that Don _____, who

or were the rubies exactly above criticism, however they may have been above price. But that was not his fault. Such royal diadems are considered quite gorgeous abroad, however valueless they may be rated in England or America.

Amber in Place of Flounders.

FISHERMEN engaged in fishing for flounders in the Cattégat, in the vicinity of Skagen, recently brought up with the net a piece of amber, of such size as passed human memory in the western part of the Baltic Sea.

The amber weighed more than 1 hilo (2 pounds 3 ounces), says an exchange.

Several jewelers in Grand Rapids, Mich., have agreed to close their stores at noon every Thursday during the remainder of July and August.

from the dish to the column is cleverly effected by very ornate crosspieces.

Equally tasteful in composition and perfect in execution as the center epergne are the two side dishes, jardinières, which complete the set. They are embellished with precious stones.

The style of these pieces reminds very much of the silver service for the German crown prince couple recently described in THE JEWELERS' CIRCULAR-WEEKLY. We find the same interwoven patterns, and in outline there is also great similarity.

The same silversmith that made most of the royal silver work fashioned these objects, and we must credit the artist, C. Brumer, of Düsseldorf, with considerable originality to be able to create such a distinctive style of his own.

Charles C. Rice, Fenton, Mich., is now at Flint, Mich.

TUNING UP

We have been busy all Spring tuning up our ring stock, and have added more new patterns than ever before.

The illustration above shows a new Snake ring made only in 14K gold, in two sizes; one for men and the other for women, in either rose or green finish.

Pattern numbers for men's size:

No. 1812SR has Ruby eyes,

No. 1812SD has Diamond eyes and
Sapphire in mouth,

No. 1812RD has Ruby eyes and Dia-
mond in mouth.

Pattern numbers for women's size:

No. 1813SR has Ruby eyes,

No. 1813SD has Diamond eyes and
Sapphire in mouth,

No. 1813RD has Ruby eyes and Dia-
mond in mouth.

Prices on all are right.

We have other desirable patterns in 14K Snake Rings.

The Art Nouveau Jewelers' Work at the Exposition of the Paris Salon of 1909.

PARIS, July 17.—While a more restricted display of jewelry is made at this year's Salon the quality of the work is on a higher plane than formerly, the jewelers aiming at exquisite workmanship and elegance of form rather than toward eccentricity. Artists rather than artisans, these workers in stone and metal, do not find it necessary to use gems of the greatest intrinsic value nor do they rely alone upon gold, platinum and silver for their effects, iron, steel and copper being also employed. Articles expressed in the baser metals frequently rival in elegance those of gold or silver. All kinds of precious stones are used by such men as Lalique, Fouquet and others, who often resort to the category of semi-precious stones to embody their ideas. Horn is a vehicle deemed worthy of the most patient elaborating, while mother of pearl, rock crystal, and the precious quartzes play an important role in the scheme of color. The baroque pearl has manifold uses.

A thing to be remarked is that each year there are a great number of feminine exhibitors, it having been demonstrated that the clever brain and delicate manipulation of women are admirably adapted to this craft, for which many reveal great aptitude.

It is to be noted that in their style of ornamentation the goldsmiths are leaning toward the gorgeous decoration and bizarre shapes of Egypt and Byzantium. The pendant, as affording wider scope for the expenditure of dainty workmanship, remains the favorite medium for the exploitation of the skill of the up-to-date art jewelers. There is not alone a reproduction of the oriental styles, but many partake of the archaic shapes of early German, Gallo-Roman, and old English, rather archaic, but endowed with a certain crude beauty. Animal and reptile shapes find much favor, splendidly colored serpents, chameleons and scarabae and lophophores expressed in opaque or translucent enamels, in blackened silver, in horn, in mother of pearl, their bodies scintillating with many-hued stones.

Lalique, as the founder of the modern school, never omits to exploit his ideas at the Salon. Every year reveals marvels in his particular line, as he revels in ornaments which afford scope for the imagination, such as great pendants in various shapes, coat clasps of barbaric splendor, magnificent necklaces, plaques and corsage ornaments, all of which are marvels of conception and treatment.

A brooch which might have been rifled from the jewel casket of some harem favorite, showed a flashing topaz *brulé* at least two inches long, cut in facets and enclosed in a scroll work of twisted gold, while at each corner was set a triangular rough topaz of a dull orange hue. Exquisite was an ornament a finger long and about an inch in width, made of white horn as clear as crystal on which in low relief were dancing figures holding flower garlands, copied from an ancient Pompeian frieze

and with an unobtrusive setting, its value depending alone upon its superior workmanship. A large brooch was remarkable for the center stone, which was at least two inches square, faceted, and of a strange clear blue unlike the ordinary tones, and which was flanked on either side by half-open thistles of mother of pearl tinted in blue and with dull green-blue leaves of enamel gold veined. There was a bracelet of clear yellow horn set with oblong topazes of a pale yellow framed in gold and black enamel.

Paul Lienard, another well-known exhibitor, displayed a long and heavy Directoire *santoir*, the intertwined links intersected at intervals with a lozenge-shaped plaque in an open pattern, the center set with aquamarines and the palest pink tourmalines. The lover of color would be enamored of a half wreath of roses and buds of natural size materialized in clear white horn most exquisitely tinted in the palest rose inclining to a creamy richness, the flowers sculptured with infinite art. This was intended as an ornament for the front of the hair. Another hair ornament consisted of enameled leaves in faint tones of green and heliotrope, gold veined, while in the center was a great oval turquoise with below a heart shaped stone set in yellow gold. A cloak clasp showed a couple of water lily leaves in shaded opaque enamel connected by twisted brown stems, while reposing on each leaf were lilies in high relief and of mother of pearl.

Blackened silver is much in favor just now, resembling metal corroded by the finger of time. A strange and archaic necklace which might have been worn by some Roman warrior, consisted of innumerable links of silver, heavy and solid, connecting great open plaques of the same metal of rude workmanship in whirls and geometric figures set with great bosses of dull green amazonite. There was a bracelet to match, while other ornaments of the same metal resembled the rude efforts of some savage artisan, but attractive from their very crudity. Others were set with great cabochons of turquoise, amethyst matrix, and precious quartzes.

Illustrating the employment of the precious quartzes was a pendant of pale amber horn set with a great piece of mottled pink quartz surrounded by golden leaves. Simple and pretty was a spray of rose leaves in tarnished silver, with a cluster of roses of carven white mother of pearl, with here and there a dewdrop of white topaz. A great cluster of fleur de lis, the leaves and stalks of black silver, showed the purple flowers formed of rough pieces of almost dark amethysts, an ornament suitable for half mourning.

A long and narrow brooch revealed the possibilities of rock crystal, showing on a dull translucent background flowers in bright crystal in low relief, gold circled, while in the center was a great wine-hued topaz with smaller stones on each end. Not very original but well executed was a comb

of white horn with daisies in opaque white enamel, each center a topaz.

A delicate comb had a daintily carved open top of amber shell, while flying in the midst of sheaves of wild oats was a swallow in black horn with eyes of brilliants. Of Byzantine inspiration was a head ornament by Madame Beziel, consisting of a couple of cone-like rosettes of dull silver gold decorated; in the center of each was a great greenish cabochon turquoise. They were attached to a slender bandeau of silver and are worn low down on each side of the ears. From the same hand was a chain of silver links with balls of amethyst matrix as large as marbles dividing them. For the hair is a pair of Mercury wings in gold, set with sapphires and olivines in iridescent colorings.

Extremely original of conception is a necklace of enameled leaves punctuated at intervals with a filbert in brown enamel emerging from a pale green bar; while in the middle was a bunch of the same nuts dangling from a ring. Another charming necklace was of pale green and russet enamel rose leaves, with here and there a golden rose in low relief with diamond stamens, while from the more important central ornament depended a long and narrow irregular shaped baroque pearl.

Distinctly original was a pendant of pale yellow horn, in the semblance of a couple of carved locusts with folded wings, gold veined, amidst a delicate open work leaves of the horn, tinted of a brownish hue and intertwined with wheat stalks. Another revealed a gorgeous-hued dragon fly of pale yellow horn with shaded wings of blue enamel alighting on a fragile rose of palest pink enamel, with white topaz faceted pendant, springing from a green enameled branch.

In a different vein was a pendant favoring of medieval art, and of exquisitely wrought black iron, as fine as lace, the leaves and stalks being of this metal, associated with flowers in dead gold repoussé. This ornament did not appear out of place amidst those entirely of the precious metals.

The influence of the Egyptian style was evidenced in various pieces of jewelry, a departure from conventional modes being stick pins, with the heads of Egyptian goddesses in gold, with faces of carven jade, or palest pink coral or turquoise, their heads coroneted with amethysts or tourmalines; the pendant flaps of diamonds and garnets, while on each side were pearls, a larger one hanging from the chin. This oriental craze found its materialization in a triangular shaped pendant attached to a golden hat pin and the property of the Duchess of Argyle. It hung loose from the pin, and was thickly incrustated with peacock colored gems, enclosed in a dull gold mount.

Another quaint conceit revealed a coiled serpent in natural lines, made of colored horn, with a large baroque pearl set in the head, a larger pearl appearing in the serpent's wide-open mouth. A pin of dark shaded horn represented an oak leaf with topaz center, while more conventional was a cluster of hortensias in variegated pink, each petal gold outlined and set in a whorl of green leaves.

An illustration of the reptile mania, as

IMITATION STONES

seen in a hat pin, is in the shape of a chameleon in bright green enamel with twisted tail, and in whose body was imbedded a large turquoise matrix and from whose jaws hung another pear-shaped stone.

P. Bonnau has on exhibition some wonderful examples of art enamel work, the colors as brilliant and varied as those on an artist's palette. Noticeable are triangular pendants in wonderful shades of clouded blue in delicate gradations of color, with the head of a woman in enamel, framed in burnished reddish gold while hanging from the corners are pale olivines, pinkish tourmalines, opals, topaz or pearls. Many of the settings are in roughened vari-colored gold, while queer irregular shaped rings almost formless, show a dash of fire expressed in flame-colored enamels.

Albert Vaeger exhibits a ring of rough yellow gold in which is sunken a pink topaz, while above two beautifully modeled lions.

A belt clasp, quite different from the conventional forms courts mention on account of its severe style and decoration. It is a plaque of blackened silver almost resembling iron, on whose surface is a design in an imitation of a bas relief copied from an old bayeux tapestry depicting the "Conquest of England by the Normans." It is in gold relief, the design being most effective against the black ground.

Parasol handles are now *objets de luxe*, and are extravagant adjuncts of a woman's toilet. Some of the new art jewelers expend much time and patience in this direction, producing marvelous combinations of color and design. One representing a pineapple is worthy of mention. The conventionalized fruit was of rough-surfaced yellow gold in a reticulated pattern, incised in brighter gold each one set with an oval sapphire, while in the top was a g sunken stone of the same variety. Another was of dark tortoise shell, incrustated with silver leaves and pearls, while another was of the clearest crystal punctuated with turquoise with a large one in the top.

Much art was shown in the decoration of toilet and hand mirrors, a garniture bought by the city of Paris being beautifully conceived and well carried out. The glass for the toilet table was at least half a yard high, the frame being of amber horn with meandering flower stems of a pale brown, only visible against the light, while the top was crowned with yellow roses, each one carved in high relief and most exquisitely executed in darker yellow horn. The hand mirror puff box, brushes, etc., had satin silver backs with a beading on the edges, while on each were scattered yellow rose metal in high relief as if they had fallen there by accident.

A hand mirror in triangular shape showed the lower part enclosed in wide-spread dragon-fly wings in silver, the slender curved body of the insect forming the handle. Another of hexagonal form was wreathed in a chaplet of oak leaves and acorns in gold and silver.

There were paper weights, cutters and clips, one of remarkable originality showing immense beetles of milky hued greenish stone in the form of, scarabaeus, with brownish legs, while smaller ones held in their antennae bills and letter-heads.

COUNTESS DE MONTAIGU.

The Sentence of Henry Lemoine the "Diamond Maker."

A despatch from Paris, July 17, says that Lemoine, the "diamond maker," heard his sentence, and accepted it philosophically and without protest. He is sentenced to—

Six years' imprisonment.

Five years' banishment from Paris (to follow).

Six hundred dollars' fine.

To pay \$2,000 damages to Sir Julius Wernher.

The claims for damages put in by Mr. Feldenheimer and by the Syndical Chamber of Dealers in Precious Stones are thrown out by the court.

This judgment annuls the former sentence—an even heavier one—passed by default in February, owing to his flight. On that occasion his sentence ran as follows: Ten years' imprisonment.

Ten years' banishment from France (to follow).

Six hundred dollars' fine.

Two thousand dollars' damages to Sir J. Wernher.

Two hundred dollars' damages to Mr. Feldenheimer.

The judgment was accompanied by a long statement, setting forth the reasons which led the court to convict the accused.

The statement says that the circumstances left no doubt that the Lemoine experiments were of a fantastic and fraudulent character, the electric furnace, the powders and the crucible being only for purposes to show and designed to enable Lemoine to slip diamonds into the crucible.

It is just about 18 months since Lemoine was first arrested in Paris as the result of a complaint lodged by Sir Julius Wernher, the well-known South African diamond magnate.

The Erie Railroad Offers Reduced Rates to Jewelers Attending the Convention of the A. N. R. J. A. at Omaha.

For the convention of the National Retail Jewelers' Association at Omaha, Aug. 2 to 6, the Erie Railroad Saturday announced a special rate to Omaha for one and a half fare the round trip on the certificate plan, on the condition that a 1,000 or more certificates be presented at the meeting. This does not mean that 1,000 certificates should be presented of the Erie road, but that this number of delegates should have taken certificates from any road in going to the meeting. The C. & O. road announced a similar fare from Chicago and points west of Omaha, a short time ago, as mentioned last week.

Delegates and others in attendance who purchase one-way tickets to Omaha at regular rates and procure a certificate from ticket agent at the starting point, can, upon having the certificate validated by a special agent at the convention, obtain tickets returning to the original starting point at one-half the regular rate. These certificates may be obtained in connection with the purchase of tickets for the going trip from July 29 to Aug. 1, inclusive. The certificates will be validated on Aug. 4, and will be honored for return tickets leaving

Omaha to Aug. 10, inclusive. A fee of 25 cents will be charged for each certificate validated.

The one-way fare via the Erie Railroad from New York is \$27; this makes the round trip rate on the certificate plan \$40.50.

Jewelry, Clocks, Watches, Silverware and Kindred Lines Exported from New York.

WASHINGTON, D. C., July 21.—The following were the exports of jewelry, silverware, optical goods, clocks, watches and kindred lines from the Port of New York for the week just ended:

Amsterdam: 4 packages optical goods, \$223.
 Antofagasta: 7 cases plated ware, \$486.
 Bombay: 2 cases plated ware, \$300; 34 cases clocks, \$645; 3 cases watches, \$355; 85 cases clocks, \$1,787; 47 cases clocks, \$681; 96 cases clocks, \$1,683.
 Bremen: 4 cases clocks, \$466.
 Buenos Ayres: 83 cases plated ware, \$2,575; 1 package optical goods, \$306.
 Cienfuegos: 1 package thermometers, \$175.
 Colombo: 5 cases clocks, \$90.
 Erfurt: 2 packages optical goods, \$91.
 Glasgow: 11 cases clocks, \$190.
 Guayaquil: 1 case watches, \$350.
 Hamburg: 5 cases jewelry, \$227; 1 case plated ware, \$160; 2 cases scopes and views, \$180; 3 packages optical goods, \$1,000; 4 cases watches, \$2,544.
 Havana: 3 cases jewelry, \$658; 14 cases clocks, \$230.
 Havre: 1 case optical goods, \$110.
 Hong Kong: 31 cases clocks, \$497.
 Hull: 13 cases clocks, \$516.
 Kingston: 6 cases clocks, \$439; 1 case optical goods, \$128.
 Kobe: 99 cases clocks, \$1,157.
 Liverpool: 6 cases clocks, \$229; 2 cases plated ware, \$1,015; 1 case jewelry, \$600; 3 packages thermometers, \$250; 210 cases clocks, \$4,220; 1 case watches, \$1,200; 1 case plated ware, \$1,500.
 London: 36 cases clocks, \$481; 11 cases watches, \$1,382; 1 case plated ware, \$500; 12 cases clocks, \$827; 6 cases clocks, \$849; 7 cases watches, \$976; 12 packages optical goods, \$5,401; 21 cases stereoptical goods, \$400; 43 cases clocks, \$827; 24 cases clocks, \$833; 11 cases optical goods, \$4,109.
 Matanzas: 7 cases clocks, \$431.
 Melbourne: 39 cases plated ware, \$2,512; 136 cases clocks, \$1,633.
 Montevideo: 1 case plated ware, \$225.
 Para: 31 cases clocks, \$1,390.
 Pio Cabello: 1 case jewelry, \$165.
 Rangoon: 22 cases clocks, \$365.
 Rufisque: 3 cases clocks, \$101.
 St. Petersburg: 3 cases scopes and views, \$310.
 Shanghai: 8 cases clocks, \$397.
 Sydney: 2 cases optical goods, \$319; 25 cases plated ware, \$2,124; 207 cases clocks, \$5,349; 1 package thermometers, \$150; 2 cases watches, \$649.
 Valparaiso: 16 cases clocks, \$285; 6 cases plated ware, \$389.
 Vera Cruz: 5 cases clocks, \$175.
 Wellington: 6 cases plated ware, \$234.

The jewelry store of A. Basil Seele, at 160 Union St., Lynn, Mass., was entered by thieves at an early hour Monday morning. The entrance was made to the store by forcing a rear window. The goods taken were in the front show window and a show case. They consisted of about 20 gold watches, 100 gold rings, several brooches, one containing some small diamonds which were at one time worn by Mr. Seele's mother. A curious feature was the fact that Mr. Seele was standing across the street while the robbers were at work. He was chatting with some friends, it is understood, and was entirely oblivious to the fact that the store was being burglarized. Mr. Seele's loss is placed at \$500.

Large Attendance at the Second Annual Meeting of the Texas Retail Jewelers' Association, Held at Dallas.

DALLAS, Tex., July 24.—The second annual convention of the Texas Retail Jewelers' Association, which was held in Dallas July 20 and 21, was important and interesting to the greatest degree and proved that Texas is now to be reckoned with as a big factor in the organization movement. After several years of inactivity this organization suddenly revived last year and the strides made in the systematic organization of its members and the results obtained through these efforts are highly gratifying. Starting in with a few half-hearted workers, the Texas association succeeded in having 22 members present at their convention last year, but it has now reached the point where its former weakness has become almost entirely eliminated.

When the convention was called to order in the banquet hall at the beautiful Hotel Southland at 10 A. M., Tuesday last, 70 members responded to the roll call, this number being augmented from time to time with the late arrivals until 117 members were reported as present—a wonderful showing for a two-year-old organization. No time was lost in getting down to active business, for a very lengthy programme had been arranged and every minute was a busy one, replete with characteristic Texan self-assurance and determination to do or die.

Mayor S. J. Hay, of the city of Dallas, welcomed the members of the association in a manner befitting this particular occasion and one that made each and everyone present feel that they had a special welcome to Dallas. Robert T. Crawford, of Waco, responded to the welcome, touching upon the generous spirit shown by Dallas in the way the glad right hand had been extended, and with the promise that a proper appreciation would be demonstrated by the members of this association in their return of courtesies and in "A boost for Dallas."

Following these short addresses reports were received from the officers, President A. A. Everts, Secretary H. M. Ryman and

Treasurer H. W. Bounds. There were numerous expressions demonstrating a complete satisfaction of the members with the manner in which these officers had performed their several duties and also with the results of the first year's work.

NEWLY ELECTED OFFICERS OF THE TEXAS RETAIL JEWELERS' ASSOCIATION.
Seated—R. T. Crawford, president. Standing—A. S. Jones, secretary; C. B. Pittman, vice-president, and R. B. Stocking, treasurer.

A roll call of officers and executive committee was then in order, after which 22 applications for membership were considered and acted upon. It was confidently predicted that with the inauguration of the plans suggested for the betterment of the association and the novel methods to be used in inducing new members to join it, when the third annual convention meets in Waco in 1910, 250 Texas retail jewelers will answer "Present."

the following resolutions were submitted:

RESOLUTIONS.

Resolved, That we condemn the practice of silveware companies maintaining retail stores, thereby coming into direct competition with the retail jewelers, and so far as possible will confine our purchases to manufacturers not doing a retail business, and furthermore condemn the practice of manufacturers supplying hotels and restaurants direct, thereby robbing us of profits which should be justly ours.

Resolved, That we commend the Howard Watch Co. for maintaining fixed selling price on the

A GROUP OF MEMBERS OF THE TEXAS RETAIL JEWELERS' ASSOCIATION WHO ATTENDED THE ANNUAL CONVENTION AT DALLAS.

complete watch, instead of on the movement only, as it eliminates the excuses offered by price cutters that they had maintained the price established on the movement and cut on the price of the case, which had no selling restrictions, and recommend that all manufacturers of watch movements sell their product at an established retail price. We further recommend that all manufacturers of standard watch cases maintain an established retail price, thereby enabling the jeweler to make his legitimate profit.

Resolved, That we, the Texas Retail Jewelers' Association, condemn the practice of watch companies making special named movements for mail order houses, because we believe it to be detrimental to the best interests of the legitimate jewelry trade, as it enables the mail order houses to advertise and bring into direct competition with the retail jewelers' movements, which, if off the

Whereas, The Rockford Watch Co. has adopted a new selling plan confining the sale of their product to the legitimate retail jeweler, eliminating all jobbers excepting chief watch inspectors who job watches, also eliminating all catalogue and mail order houses, department stores and firms of a like calibre, and will not make any special named watches for any of the concerns above mentioned, having discontinued this practice, and,

Whereas, The said Rockford Watch Co. has announced its intention to market the entire product through the legitimate retail jeweler and all under proper minimum selling price restrictions; therefore, be it

Resolved, That the Texas Retail Jewelers' Association, in convention assembled, do commend the said Rockford Watch Co. for its efforts in behalf of the retail jeweler, and, be it further

Resolved, That we, the retail jewelers of Texas,

ware, which we know to be sold through the hardware trade, whether wholesale or retail.

Resolved, That the thanks of this association be extended to the Dallas News and the Times-Herald, for their efficient reports concerning our meetings, to the various manufacturers and jobbers who have attended our meetings, and made displays for the convenience of our members; to the Honorable Mayor Hay for his address of welcome; to the wholesale jewelers and opticians for their hospitality in providing such a fine entertainment; and to all who assisted in making this meeting a grand success.

Simon Linz's talk on "Making a Diamond Sale" was of particular interest, owing to Mr. Linz's peculiar fitness to discuss this subject, his desire being to induce the retail jewelers to strictly adhere to a price that is just to themselves as well as to the customer, as well as fair treatment to the customer.

T. M. Cave entered into the discussion on diamond sales following Mr. Linz's talk, and brought up the subject of mail-order houses, who are advertising high-grade diamonds at a low price upon small payments and treating a customer as an ignoramus (which he is when it comes to his knowledge of diamonds) by sending him a gem of a price very often two-thirds above what any reputable jeweler would sell a like stone for, providing the latter carried as poor a quality of stone in stock.

Robert T. Crawford spoke upon the advisability of better profits in a diamond sale. By a little diplomacy it is a very easy matter to educate a customer to the dealer's way of thinking, and thereby be enabled to sell him just what he wants or perhaps better, and still be able to obtain a just profit on the investment. The tendency seemed to be, he stated, for some jewelers to make demoralizingly low prices, even with long terms, for fear that they would not make the sale.

Albert Jones, of Temple, spoke upon what he had found to be a somewhat general habit with a good many jewelers—to endeavor to belittle either the prospective sale or a sale already made of a competitor, failing to recognize the fact that when they inject an idea of this kind into a customer's mind he naturally believes that the same treatment would be accorded him by every jeweler in the business. His endeavor was to show that by boosting a competitor a jeweler is also boosting himself, and thereby sowing seeds for future garnishing, because he secures the confidence of the customer, establishing the business upon a rock that will not totter.

"How Jewelers May Have Good Health, Live Long and Be Happy," by Dr. H. Leslie Moore, of Dallas, proved an interesting topic and one which was helpful in more ways than one, because it showed the business man should not consider himself alone as a machine, but as a human being, and that as much care should be taken of his health as of his high-grade watch.

The next subject, "The Show Window as a Money and Reputation Maker," by J. H. Greer, Fort Worth, was discussed, though Mr. Greer was unable to be present to deliver his address. Mr. Crawford, Waco, related what his experience had been in the way of keeping the outside of his show window clean by the installation of an electric fan directed against the window pane, which kept the flies and dust from settling, thus keeping the window clean

Sitting—A. A. Everts, ex-president. Standing—H. M. Ryman, former secretary, and H. W. Bounds, former treasurer.

market, would increase the demand for regularly named goods, which under fixed selling price protection would necessarily be supplied by the retail jeweler himself.

Resolved, That we condemn the practice of wholesale jewelers selling at retail, except only when instructed in writing by a legitimate retail jeweler doing business in the city or community, where consumer lives, and so far as possible will refrain from purchasing from any wholesalers who violate the spirit of this resolution.

Whereas, The South Bend Watch Co. has always marketed its entire product through the legitimate retail jewelers under a reasonable minimum fixed selling price, thereby conforming to the principles advocated by the Texas Retail Jewelers' Association; and,

Whereas, This company had advertised promiscuously in the mail order journals, magazines and newspapers, in behalf of the interests of the retail jeweler and detrimental to the interests of the mail order houses; therefore, be it

Resolved, That we, the retail jewelers of Texas, do commend the company for the same, and to promise to do all in our power to support the cause.

Resolved, That we, the Texas Retail Jewelers' Association, endorse and recommend the passage of the Vreeland bill for the elimination of all guarantees on filled cases, unless the quantity and fineness of gold is stamped in the case with guarantee. We believe this to be an act of justice to every legitimate watch case manufacturer in the country, and a preventative of fraud upon the public.

do all in our power to co-operate with the said company in carrying out the new system.

Whereas, The Illinois Watch Co., of Springfield, Ill., have seen fit to place a "minimum selling price" on all grades of their watches, thereby allowing the retail jewelers a fair profit on the same, and

Whereas, This action is along the lines advocated by the retail jewelers, and is in the highest degree co-operative with the work and objects of this association; therefore, be it

Resolved, That the Texas Retail Jewelers' Association express due appreciation of the stand taken by the Illinois Watch Co., and commend its action in thus assisting us in our efforts to establish a protected price on standard articles of merchandise.

Resolved, That we approve of the action of the Waltham Watch Co. in establishing a minimum retail selling price on certain grades, and a plan of disposing of their product whereby the retail jeweler will have some protection.

Resolved, That the State Fair Association and all other fair associations be requested not to sell privileges except to legitimate opticians, thereby eliminating the "fake" spectacle peddler.

Resolved, That we will so far as possible, refrain from buying goods from manufacturers or jobbers who issue catalogues and send them to all merchants of whatsoever line.

Resolved, That we will, so far as possible, refrain from buying various lines of silver-plated

upon the outside and also doing away with the "customer-chasing screen door"; the fan was so placed that a draft was directed across the entrance. This afforded a clear view into the store, which a customer more readily accepted as a greeting, and naturally took advantage of. Mr. Crawford stated that his sales had been materially increased after the introduction of this plan.

A. S. Fonville suggested the study of effects of the introduction into the window of different articles before the window was finally opened for the public's benefit.

At this point in the proceedings a telegram was received from the Business Men's League of Waco, inviting the Texas Retail Jewelers' Association to meet in their city in 1910. The applause which greeted the reading of this message plainly showed the feeling of the members as to their individual opinions in the matter.

Following the announcement of the next address, "What the Texas Retail Jewelers' Association May Accomplish," by P. S. Park, Mexia, who was unable to be present at the afternoon session, a discussion generally indulged in consumed almost the balance of this session. An instance related by Mr. Crawford as to one important abuse which could be overcome by the association was the pernicious practice of well-dressed, scholarly gentlemen who travel from town to town, pick out the most prosperous jeweler and approach him with a plea for funds in exchange for a large diamond, usually asking about one-third or one-half the value of a stone of first quality for the one in their possession, which, if care is taken to examine, will be found to be worth about one-half of what they are really asking for it. He said that it is surprising to all the number of stones that can and have been placed in the small towns. One town in particular was presented with eight stones in one day in this manner, showing the carelessness and utter disregard for the first principles in good business upon the part of the jeweler, who is ordinarily supposed to be a man of a business caliber above the ordinary. Old worn-out watch movements which have been clothed in a nice, new case are presented in much the same way, the tale being that the man has either lost his money gambling the night before or had his pockets picked of all his money, and needs the amount which he is asking to get to some locality where he is known.

The afternoon session was adjourned at 5 P. M. to enable the members to have the convention photograph taken, a copy of which is shown herewith.

At 7 P. M. 29 automobiles lined up at the Hotel Southland, in which the members were escorted in a trip around the city.

At 8:30 P. M. a banquet followed, the members of the association, as well as those connected with the wholesale houses in Dallas, with their wives, and in some cases sweethearts, participating. Mr. Crawford, Waco, gave the toast, "Ladies, God Bless Them." This was followed by A. A. Everts rendering thanks. During the course of the banquet the well-known Texas prima donna, Miss Anna Lee Andrews, rendered several numbers, all of which were applauded by the appreciative audience. Foster Ball, a comedian, entertained with a number of humorous sketches.

WEDNESDAY'S SESSION.

The second day's meeting was called to order promptly at 9 A. M., owing to the immense amount of business to be taken care of. P. L. Wills, the advertising manager of the Dallas *Nexos*, opened the meeting with an address on "How to Advertise a Jewelry Store," opening the eyes of quite a number present to some novel methods that have been put into use by some of the biggest advertising firms in the United States. He showed the little man, as well as the big, just how he could best advertise his business to the most advantage, showing that the little fellow suffered by his own imagination of a stern competition. His talk was instructive to a marked degree to everyone present. Mr. Wills summed up the failure of a large proportion of advertisers to obtain good results in the one word, "Impatience."

Unfortunately Henry Iverson, Corsicana, found it impossible to be present, and the topic assigned to him, "The Repair Department as a Money Maker," was not discussed.

L. E. Whitmore, president of the Texas Optical Association, dilated largely in the presentation of his subject, "The Optical Department—Making It Pay." As there were a number of jeweler-opticians present, this subject was most entertaining and instructive to them.

"The Good of Local Jewelers' Clubs" was discussed by Edgar L. Pike, Dallas, and his address was well received, inasmuch as this subject seemed to be a novelty with the majority of jewelers, who supposed that clubs of retail merchants were meant for others than themselves.

"One Funny Happening in My Business Career" was recounted by C. B. Pittman, Ennis; Albert Jones, Temple; J. Levinski, Waco; W. D. Dietrich, Cleburne, and H. Franks, El Campo.

Mr. Chritzer, San Antonio, was unable to attend; therefore "Protecting the Public from Fraud," the subject which he was to have talked upon, was gone into pretty thoroughly in open discussion, the following subjects being brought up in particular: "Maintenance of Prices on Watches in Particular," "Mail Order Houses to be Eliminated by Manufacturers of Watches" and "Protection of Retail Jewelers by the Factories." "Catalogue Competition" was another subject which received considerable attention, and one point brought out strongly was that the mail-order houses could be competed with by the jewelers treating their customers fairly when they do make a purchase, thereby instilling confidence; then they can show their customers that they can sell the same watch for the same money as the mail-order house if they were allowed to sell under the same conditions—these conditions being that no guarantee be given with any watch, and the customer accepting the watch without looking at it, taking for granted what the jeweler says about it as gospel truth. By being truthful and honest with his customers the jeweler can instill that spirit of confidence which nothing else will do, and he will thereby be enabled to make sales which otherwise would not come to him.

Walter G. Dean, Ardmore, missed connections, therefore was unable to address

the association upon his chosen theme, "A Voice from Oklahoma."

"Trials of a County Jeweler" was the interesting subject of P. S. Park, Mexia; "Folly of Price Cutting," by W. F. Dietrich, Cleburne, was ably handled, and "How to Make a Living Without Working Yourself to Death," by A. S. Fonville, Wichita Falls, whose admission that he had made a success in his business was a sufficient reason for having chosen this subject, was thoroughly enjoyed.

Immediately upon the closing of the subjects of discussion, J. T. McCutcheon, Corpus Christi, placed the name of his city before the convention as the next meeting place of the Retail Jewelers' Association in 1910. A telegram was shown at this time, which had been sent by the Commercial Club of Corpus Christi, inviting the jewelers to their city. Inasmuch as this organization is yet young it was deemed inadvisable to carry the convention seat so far away from the center of the business interests.

In a stirring speech by Mr. Crawford Waco was proposed as the next meeting place, and the acclamation with which this city was named proved that there was not a doubt as to where the next convention would be held. Upon a vote being taken, Waco was chosen as the city in which the Retail Jewelers' Association would meet in 1910. Mr. Crawford was very profuse in his thanks to the assembly for having honored his city in the choice which was made.

The election of officers followed, and the following names were placed in nomination and elected by standing vote: R. T. Crawford, Waco, president; C. B. Pittman, Ennis, vice-president; R. B. Stocking, Belton, treasurer; A. S. Jones, Temple, secretary.

Speeches were made by each of the newly elected officers, each of whom signified his intention of injecting life into the organization to such an extent that when the convention met in Waco in 1910 the membership would have been more than doubled.

An amendment to the constitution was proposed whereby there were to be eight directors instead of four. This amendment was adopted and eight directors were named as follows: A. A. Everts, H. M. Ryman, H. W. Bounds, Henry Iverson, for two years each, and the following for one year each: W. W. Mitchell, P. S. Park, Lee S. Smith and W. F. Dietrich.

The following wholesale jewelers, opticians, material houses, visiting wholesalers and manufacturers were those who entertained the retail jewelers while in Dallas: Merry Optical Co., Beskow Optical Co., Linz Bros., H. H. Hawley Co., Dallas Optical Co., Moore-DeGrazier Co., C. L. Norsworthy, Shuttles Bros. & Lewis, Rockford Watch Co., Louis Rough, South Bend Watch Co., Wm. Bens, Ganz Bros. and Reed & Barton.

Those present at the convention included:

A. A. Everts and E. E. Keel, Dallas; J. Schultze and Mrs. J. Schultze, Rockford, Ill.; R. T. Crawford, Waco; J. B. Looney, Teague; Edgar L. Pike, Dallas; M. Miesch, Muskogee, Okla.; W. W. Mitchell, Dallas; W. C. Hilburn, Henrietta; F. W. Ridenour, South Bend, Ind.; Albert S. Jones, Temple; W. F. Johnson, Gatesville; T. V. Murray, Dallas; C. G. McCord, Dublin; L. I. Cohen and Alvin A. Cahn, New York; Eugene Tabor and C. McMillan, Dallas; H. Franke, El Campo; A. S. Fonville and wife, Wichita Falls; W. J. W. Richardson, Pecos; Robert C. Glover,

L. P. Sturtevant Doing Business as D. R. Child & Co. Makes a General Assignment.

PROVIDENCE, R. I., July 24.—Lorenzo P. Sturtevant, doing business as D. R. Child & Co., at North Swansea, Mass., has made a general assignment for the benefit of his creditors to James G. Phetteplace. A statement of the financial condition of the firm is being prepared, no estimate of the assets and liabilities being given at present.

The business is one of the oldest in the manufacturing jewelry industry of New England, although not so well known as many. It was established in 1862 by Daniel R. Child, who began manufacturing on his estate at North Swansea, in a strictly country locality, isolated and difficult to get at, and several miles from any other manufacturing establishment of any description. Here for many years Mr. Child conducted a lucrative business, making exclusively plated collar and sleeve buttons. Tons of the former were annually turned out from this factory in the woods, and the annual output of the grade of goods was equaled by few manufactories in the entire jewelry section.

In 1893 advancing years caused Mr. Child to retire from active business, and he sold his jewelry establishment to Lorenzo P. Sturtevant and J. L. Fennimore, who continued for four years, when they dissolved, since which time Mr. Sturtevant has conducted the business alone.

A. J. Decker has resigned his position as jeweler and optician with R. W. Chamberlain, Marshalltown, Ia., to take a similar one at Newton, Ia.

Resolutions Adopted by the Virginia Retail Jewelers' Association.

The following are the resolutions adopted by the Virginia Retail Jewelers' Association at the annual meeting held in Richmond, June 23:

Resolved, That this association is in favor of a national stamping act, which requires that all articles of gold jewelry and silverware, bear a quality mark together with the maker's mark; that this mark shall be a universal mark (not karat) to represent the karat or quality, and shall be within one karat of the mark indicated, including alloys, solder, etc.

Resolved, That we condemn the practice of silverware companies coming in direct competition with the retail jeweler, and so far as is practicable will confine our purchases to such manufacturers not doing a retail business, and condemn the practice of manufacturers supplying hotels and restaurants direct, thereby taking away from us profits which should be justly ours.

Resolved, That we will, so far as practicable, refrain from buying goods from manufacturers or jobbers who issue catalogues, and send them to all merchants of whatsoever line.

Resolved, That this association commends those watch companies that have fixed a selling price on several grades of their manufactures, and have evidenced a desire that the output of their manufacture shall be through the legitimate retail jeweler, and that we are in favor of the selling price applying to all grades of their manufacture, and that the case manufacturers shall adopt the same rule.

Resolved, That we condemn the practice of manufacturers advertising prices in trade journals, as frequently such publications find their way into illegitimate hands, and furnishes information which should only go to the trade confidentially, and is often used to the disadvantage of the retail jeweler.

Resolved, That we condemn the practice of local newspapers in accepting fake advertising, and that where such has been called to their attention that they will refrain from permitting same, and that the members of this association, so far as is practicable, will not patronize any such publication that will not refuse such advertisements.

Resolved, That we condemn the practice of the private individual who makes a practice of buying and selling such merchandise as is handled by the legitimate retail jeweler, and that where such comes to our knowledge that we will make complaints to the suitable authorities and see that they are made to pay the same tax as is imposed on legitimate dealers.

Resolved, That the Virginia Retail Jewelers' Association is violently opposed to the proposed advance in duty on watches of foreign make, believing that the duty now imposed is sufficient and that any advance will not only be to the detriment of the retail jeweler, but to the public at large, as it will have a tendency to cause a monopoly, and will be the means of the watch manufacturers raising the prices on their makes, which we now deem sufficient, and would in our mind impose a hardship on the watch buyer; be it further

Resolved, That a copy of the above resolutions be forwarded to the Congressional Committee in charge.

(Signed)

JOS. E. ALLEN.

Members of Utica Retail Jewelers' Association Enjoy Outing at Trenton Falls.

UTICA, N. Y., July 22.—The Utica Retail Jewelers' Association had its first annual outing at Trenton Falls, yesterday. There were about 150 in the party, and all jewelry and optical houses closed for the day. The principal event was a baseball game, umpired by G. Will Payne, between the jewelers and the opticians. The opticians won by a score of 5 to 4.

Other events were won as follows: 100-yard dash, John E. Hughes; throwing baseball, Charles Steele; 50-yard dash for ladies, Mrs. Charles T. Evans, first, and Mrs. E. D. Kenney, second; fat men's race, George Hartleib; throwing ball in barrel, Mrs. A.

D. Evans; 100-yard dash for boys under 18, Thomas Lafferty; throwing the ball, Mrs. Charles T. Evans; hop, skip and jump, J. E. Marion, standing jump, John E. Hughes; 150-yard dash for ladies, Mrs. Williamson, first, and Mrs. Pritchard, second.

W. B. Wilcox was the chairman of the general committee which so successfully planned the day's outing.

Employees of Lancaster Watch Co. Present Loving Cup to President Chas. D. Rood.

LANCASTER, Pa., July 26.—Evidence of the good feeling existing between the hundreds of employes of the Hamilton Watch Co. and its president, Charles D. Rood, was given, July 21, when the former presented him with a splendid silver loving cup, suitably inscribed. The cup is 18 inches high and gold lined, and was furnished by the International Silver Co., New York.

After work had ended Wednesday, Su-

LOVING CUP PRESENTED BY EMPLOYES OF HAMILTON WATCH CO. TO PRES. CHAS. D. ROOD.

perintendent W. W. Dudley summoned Mr. Rood from his office to the lawn in front of the factory, where the employes were assembled, and the superintendent's daughter, Miss Mildred Dudley, surprised him by stepping forward and presenting the cup in a neat speech. 'Mr. Rood feelingly responded.

The committee which arranged the affair consisted of Miss Gertrude L. Reinhoel, Harry L. Martzall, George M. Daniels, E. L. Wilson, John E. McKechnie and William H. Manby.

The cup, which is illustrated herewith, bears a monogram on the back, while the front has the following inscription: "Presented to Charles D. Rood, president Hamilton Watch Co., as a token of esteem, by the employes, June 26, 1909."

Denver Credit Men's Association Offer Reward for Arrest of Jeweler Who Skipped Out With His Stock.

DENVER, July 21.—The Denver Credit Men's Association is offering a reward of \$100 for the arrest and conviction of Silas Dixon, who, about the first of the year, after trading his chicken ranch near Greeley for a jewelry store in that town, obtained about \$1,200 worth of merchandise on credit and disappeared. After starting in the jewelry business, Dixon, according to the Credit Men's Association, established a credit by purchasing and paying for goods, and when he had done so proceeded to load up with as much as he could get, pack his stock in his trunk and skip out.

An investigation by the association showed that he had traveled in many directions, checking his trunk from point to point to throw his creditors off the track. From information recently received he is believed to be in the vicinity of Seattle, Wash. The association officials have also learned that a man has been traveling in Ohio selling jewelry which, from the description, they believe to have been part of the stock of Dixon.

The association has sent out circulars offering the reward above mentioned, which give a description of Silas and Mary Dixon in detail. Dixon is described as: German, aged 35 years; height, five feet 11 inches; weight, 190 to 200 pounds; build, good; hair, black, worn full in back of head; complexion, florid; mustache, black, neatly trimmed to length of lip; eyes, blue, at times slightly crossed; face, round and full, both upper and lower teeth gold filled; erect carriage; has peculiar blowing habit as though from catarrh, most noticeable when smoking, of which he is very fond; very neat dresser, usually wears turn-down collar, derby hat, size 7 $\frac{3}{4}$; speaks broken English and several languages.

The description of Mrs. Mary Dixon is given as: Age, 37; height, five feet eight inches; weight, 140 pounds; black hair; blue eyes; complexion, dark and coarse; face, freckled; nose, very pronounced, but thin; teeth, gold filled; speaks broken English; dresses very stylishly; has a mink fur coat and muff; wears small diamond ring; has baby eight months old, named Ruth; baby's eyes slightly crossed at times.

Lancaster Silver Plate Co. Goes Into Receivers' Hands With Assets in Excess of Liabilities.

LANCASTER, Pa., July 24.—With assets larger than the liabilities, the Lancaster Silver Plate Co., employing about 150 hands, on July 22 went into the hands of receivers, the court appointing the president of the company, A. H. Rosenstein, and John A. Nauman, Esq., to serve in this capacity. Their bond was fixed at \$20,000.

The assets of the company are placed at \$49,713.13, and the liabilities at \$34,901.33. The petition for a receiver was filed by the president, who was joined by all the stockholders. Inability to raise money necessary for paying pressing obligations is the reason given for the company's financial embarrassment. Creditors have entered suits to recover claims, and the property rights and credits of the company in New York have

been attached. A receivership was asked for in the best interests of the concern.

This factory has occupied its present establishment seven years, the old factory having been destroyed by fire by a couple of apprentices, who, when tried for the crime, said they did it because they wanted a holiday.

Members of North Dakota Retail Jewelers' Association Begin Convention at Grand Forks.

GRAND FORKS, N. Dak., July 27.—The members of the North Dakota Retail Jewelers' Association have begun a joint convention with the opticians of the State in this city which will last through to-day, to-morrow and Thursday. The session, which is held in the Commercial Club, was called to order about 9 a. m. this morning by President F. V. Kent, of this town, and after the roll call and president's address Mayor Taylor made an address of welcome to the visiting jewelers and opticians, which was warmly applauded and ably responded to by A. O. Wold.

The following is the programme for the optical convention this afternoon, and the jewelers' and opticians' sessions during the next two days:

Optical Convention—Tuesday Afternoon, July 27.
Convention called to order by President O. M. Varnson at 1:30 p. m., in the Commercial Club Rooms, Grand Forks.

Address by President Varnson.
Reading of minutes of last meeting.
Reports of officers and committees.
Appointment of committees.
Paper, "Uses of a Trial Case," by a competent refractionist.

Discussion by members.
Paper, topic selected by Louis Hanson.
General discussion of topics to be selected by the president.

Adjourn.
Jewelers' Convention—Wednesday Morning.
Convention called to order 9 a. m.
Paper, "Watchmakers' Examining Board," by W. A. Persey.

Discussions.
Report of secretary on watch repairing price list.
Paper, "Watch Repairing, First Cost of the Same, Prices and Profits," by C. H. Nesbit.

Discussions.
Question Box—Members will put in such questions as they wish to bring up for general discussion.

Adjourn.
Opticians' Convention—Wednesday Afternoon.
Convention called to order 1:30 p. m.
Discussion of any special business.

Afternoon to be devoted to clinical work, led by Thomas Porte, of Grand Forks.

Discussions and demonstrations of all optical instruments by different members.

Adjourn.
Jewelers' Convention—Thursday Morning.
Convention called to order 9 a. m.

Paper, "Minimum Selling Price on Movements, Cases and Complete Watches," by W. H. Reighart.
Report of standing committee on constitutions and by-laws.

Report of special committees.
Unfinished business.
New business.
General discussions.

Election of delegates to the American National Retail Jewelers' Association.

Selecting time and place of next meeting.

Adjourn.
Opticians' Convention—Thursday Afternoon.
Convention called to order at 1:30 p. m.

Paper, "The Eye and Reflex Diseases and Some Cases I have Had," by H. O. Sheldon.

Discussion of papers by members.

Paper, selected by members.
General discussion of any paper, subject or the welfare of the association.

General and unfinished business.

Adjourn.
Programme subject to change.

Jeweler of Ottawa, Ont., Robbed of \$5,000 Worth of Diamonds—Three Suspects Arrested.

TORONTO, Can., July 23.—A bold robbery of diamonds valued at about \$5,000 took place Wednesday afternoon at the store of Alexander McMillan, Sparks St., Ottawa. Two strangers entered and asked to be shown silk umbrellas. While they were inspecting the goods two others came in, remaining in the front part of the store. Watching an opportunity, they reached over the counter and lifted two trays of diamond rings from the show case near the entrance, with which they made off. The theft was not discovered until the first couple had left, when the police were at once notified.

The railroad stations were watched, and a man giving the name of James Howard was arrested on a train just starting for Winnipeg. A companion escaped by jumping from the platform. Two others giving the names of C. A. Woods, Kingston, and F. W. Conrad, Ottawa, were arrested the same night in a hotel at Renfrew. When brought to Ottawa they were identified by one of the clerks of McMillan's store as being two of the four men in the store at the time of the robbery.

In the possession of James Howard, who is a well-dressed young man of about 30, was found a notebook in which were entered memorandums of about a dozen robberies in which he and his pals were concerned during the last few months. So far no trace has been found of the missing diamonds.

Well-Known Providence Jeweler Has Thrilling Experience When Motor Boat Burns at Sea.

PROVIDENCE, R. I., July 24.—Frederick B. Thurber, of the Tilden-Thurber Co., of this city, returned from New Bedford, Mass., a few days ago, after having had the most thrilling experience of his life. He is an enthusiastic yachtsman, and has had many wild experiences on the sea. Among the more recent of these was the rough trip to Bermuda on the power boat *Nereides* in the recent long-distance races. He was captain of the 40-foot racing motor boat *Kitcinque*, of New York, on a race from that city to Marblehead when, catching fire from a leaky gasoline pipe, the craft burned to the water's edge and sank off Vineyard Sound lightship. Her crew of six men, including Captain Thurber, had a narrow escape.

When the flames began to rage the yachtsmen, fearing the explosion of the gasoline tank, launched the small tender. This held only three of the men, but the other three donned life preservers and clung to the gunwales until the entire party was picked up, more than an hour later, by a schooner bound into Boston.

The flames broke out at 11.20 o'clock at night, when the boat was fully six miles from the nearest land. The men fought desperately to subdue the blaze, but found that the flooring under which the fire was the fiercest was too strong to be torn away, and as the flames gained headway the situation became dangerous and the boat had to be abandoned.

Fourth Annual Convention of the Wisconsin Retail Jewelers' Association, Held at Milwaukee, Wis.

MILWAUKEE, Wis., July 23.—With an attendance of nearly 300 jewelers, the fourth annual convention of the Wisconsin Retail Jewelers' Association held at the St. Charles hotel, July 20, 21 and 22, was one of the most successful in the history of the organization.

With one exception, the officers and directors were re-elected for the ensuing year, as follows: President, Gustav Keller, Appleton; vice-president, George Durner, Milwaukee; treasurer, O. F. Stecher, Milwaukee; secretary, Franklin Thomson, Milwaukee. The directors are the officers and G. E. G. Knechle, Milwaukee; W. H. Becken, Beaver Dam; J. R. Chapman, Oshkosh, and John P. Hess, Fond du Lac. Mr. Hess is the newly elected official.

Tuesday morning, July 20, was largely given over to organization, and no matters of great importance came up. In the afternoon, Francis A. Cannon, secretary of the Citizens' Business League of Milwaukee, delivered the address of welcome to the jewelers, and on behalf of the city extended a hearty greeting.

"Milwaukee greets the Wisconsin Retail Jewelers' Association and trusts that the gathering of 1909 will result in profit and pleasure for its members," said Mr. Cannon. "It was in this city that your association had its inception, and may it endure to a length of days, growing richer in achievement each year. The jewelers' art has helped to preserve in enduring metal some of the great events of the history of the world. Back in the days when we read of the wondrously engraved metal shield of Achilles, and all down through the ages, the jeweler has been the handmaid of the arts and has lent his skill and cunning to fashion in wondrous form the precious metals. 'May his tribe increase' and may the cunning of his hand never be lost."

The response was given by President Gustav Keller, Appleton. Next in order was the naming of convention committees, as follows:

Resolution—A. J. Stoessel, Milwaukee; L. C. Littlefield, Delavan; L. J. Crawford, Berlin. Nomination—Frank P. Wilde, Milwaukee; O. P. Berg, Mount Horeb; B. W. Thien, Milwaukee. President's Report—John P. Hoske, Fond du Lac; T. Christiansen, Stoughton; Rudolph Kemp, Brillion. Credentials—A. C. Henschel, Milwaukee; Paul R. Kohles, Fremont; Arthur Wagner, Edgar. Auditing—Ewald Meiners, Mayville; F. W. Seidel, Manitowoc; Julius Jappe, Racine.

President Keller delivered his annual report, as follows:

PRESIDENT KELLER'S REPORT.

Another year has rolled by and I find it my duty as president to present to you once more a report of the association for the past year, and make such suggestions and recommendations as appear to me would be of interest and benefit to our organization. Much to my regret I cannot report a large increase in membership. I cannot report great results accomplished, but I can report that your State officers have carried out and placed where "we can do business" the ideas brought forth and endorsed by the last State convention. The year's time was practically taken

up with this preparatory work, the fruits of which will show later.

The committee on examination of watchmakers completed its programme after much study and work, and circularized the jewelers of the State this Spring asking for applicants to take prescribed examination. The committee before the close of the convention will report to what extent they were met in their efforts by the jewelers of this commonwealth.

The State directors incorporated the fire insurance department of our association as per instructions of the last State convention. Most discouraging delays were met with, but your officers persevered, assumed personal obligations, and you have now "ready to do business" this department of our association.

The secretary will report later how well our

GUSTAV KELLER, PRESIDENT.

efforts in this direction have been met by the members of our craft.

The association idea has by no means lost in prestige and importance since the last convention. On the contrary, in no one year do I think has it made the long and important strides made by it since we last assembled. You no doubt will remember my urging in my last annual report the need of a strong organization of the craft, not only of the retail jewelers, but as well of the manufacturers and jobbers. Those of you who have been reading the jewelers' journal must have noticed that not only your president entertained such views, but the fact that jobbers' and manufacturers' organizations have been formed, is the best evidence that this view was shared by others. To me personally it has been a source of great satisfaction and a sure indication of a better and a healthier day for the jewelry business.

As far as retailers are concerned, State after State is being organized, and it will be only a very short time until all these are welded into one national organization; then and not until then will we be able to bring that pressure and influence to bear necessary to bring about desired trade conditions. We are being met on every hand with expressions of willingness to co-operate with us.

I want to repeat my recommendation to affiliate with the national organization. This was voted at the last convention, but not done because of misunderstanding arising regarding amount of dues to be paid. We then decided to defer affiliating,—preferring to submit the matter again to the State convention.

In my humble opinion there is only one great question before the retailer, and that is—is he wise and willing enough to organize and co-operate, and patient, unselfish and sacrificing enough to await results and contribute to make the de-

sired result possible. There is a season of planting and a season of reaping. The one great bane met in organization work is, that members look for immediate results. They want to plant to-day and reap to-morrow; yes, even this is not sufficient; when they plant \$3 in an organization to-day many look for \$6 to be returned the day following.

Another hane, and in my humble opinion a most unmanly trait, is this wanting to wait and see how it is going to "pan out." Many are willing to share in a work after it has proven to be a good thing, but they wouldn't share in the chance taken necessary to create a profitable undertaking. In other words, there are too many who are willing to share in benefits but who are not willing to bear the heat of the day necessary to be borne in order that desirable results be achieved.

All this, however, should not deter any of us who have faith in ourselves, in our position, and who realize that only by united action beneficial results can be accomplished. We must swallow our chagrin when we meet with conditions complained of, and with persistency, born of faith in our cause, work on until the promised land has been reached. These other fellows will knock at the gates when we are in, asking to be admitted, and even though they made the travel harder while we were on the road, let us solace ourselves by calling to mind the amount of joy caused by the one sinner who cometh and repenteth. In the words of General Grant, "Let us, who are engaged in this cause, fight it out to success, even if it takes all Summer." Where there is a will there is no such word as fail.

We want to become more strongly organized in this State. We want every jeweler of the State in our organization. You can't leave the securing of them to your officers alone. Every member should assist in this work. See the jewelers of your respective towns. Organize into a club the jewelers of your various vicinities. Advise your State officers as to whom to get after and the best way how. You get busy; don't leave it all to your State officers, a considerable portion of whose time is taken up spending the fat salaries they receive from the association for their work. In all seriousness, all the the officers ask (they are willing to work), is—to give them a helping hand in this work of extending and strengthening our organization. It belongs to you, not to your officers. They are but your servants. Pardon me for talking so strongly and at such length on this matter I feel so strongly about it. We must all get up and "be doing" if we want success to crown our efforts.

I trust that the deliberations of this convention will be most harmonious. That you will give most serious thought and consideration to everything presented, and that you will not allow anything to go unpresented that might suggest itself to you as pertinent to our meeting. I prefer a little idle and perhaps unnecessary discussion than the lack of it. I will try to be fair and impartial to all, and at this time ask your kind assistance and indulgence.

Before closing I want to call attention to the magnificent displays made by our manufacturing and jobbing friends, and want to, pardon me for saying, insist on your visiting each and every one. We should make the displays a decided feature of our conventions, increasing them in size and number each year. This part of the convention should be made mutually educational and profitable.

In closing I want to thank most sincerely my co-laborers on the State board; as well, the various committees which served during the year, for the splendid work done and assistance given. Great credit is due them. Brother jewelers do not withhold it.

I further want to thank each and every member who in any way contributed during the year to the success of our society, for any assistance they may have given, or any courtesy they may have shown my humble self or any other State officer.

Then followed various reports, including that of the treasurer, which showed that the association was in better condition financially than ever before. Both the reports of the secretary and president were replete with valuable information for the jeweler. The chairman of the committee on the examination of watchmakers reported that everything is now in readi-

ness for the new system of examinations which has been inaugurated by the association. A general discussion followed. H. N. Higginbotham, consulting superintendent of the South Bend Watch Co., gave an interesting talk.

At this point one of the most important steps of the convention was taken when John P. Hess, Fond du Lac, made the motion that the State association affiliate with the national body. The motion was passed unanimously, as was expected, following the recommendation made in President Keller's address. Mr. Stossel made the motion that one member carry the votes of the association to the national convention at Omaha. This was carried.

At 5 o'clock the convention adjourned to view the exhibits of manufacturers and jobbers. The matter of exhibits was given an important place in this year's convention, the entire morning of Thursday, July 11, being given over to the inspection of the unusually fine display.

On Tuesday evening occurred the postponed annual meeting of the new Jewelers' Mutual Fire Insurance Co. of Wisconsin, at which the following officers were elected: President, Gustav Keller, Appleton; vice-president, W. H. Upmeyer, Milwaukee; treasurer, W. A. Pfister, Sheboygan; secretary, Franklin Thomson, Milwaukee. Directors—Richard Seidel, Milwaukee; W. H. Upmeyer, Milwaukee; Gustav Keller, Appleton; J. R. Chapman, Oshkosh; W. A. Pfister, Sheboygan; Edwin F. Rohn, Milwaukee; A. J. Stoessel, Milwaukee; George Durner, Milwaukee, and Hiram J. Smith, Racine. The meeting revealed the fact that big strides have been made by the new company and that insurance is being written in practically every State in the union.

Following the insurance meeting, the jewelers had a big time at the banquet and entertainment given in the Blatz hotel by the Milwaukee Jewelers' Club. Francis A. Cannon was "Roastmaster" and filled the position perfectly. The ladies were given an enjoyable theatre party.

Wednesday morning, July 21, opened with a paper by John P. Hess, Fond du Lac, who spoke on "Minimum Price Lists as Prepared by Jobbers and Manufacturers." W. H. Becken, Beaver Dam, told of "When and How a Jeweler Should Advertise," and J. R. Chapman, Oshkosh, discussed "How the Small Retailer Suffers at the Hands of the Department Stores." Ernest Eimer, secretary of the Michigan Society of Optometrists, who came to Milwaukee to speak before the convention of optometrists, gave an interesting talk before the jewelers at this session. At 11 o'clock the convention adjourned for an inspection of the big plant of the Schlitz Brewing Co.

Wednesday afternoon opened with a general discussion of the various papers read in the morning. Reports of the standing committees were also discussed. J. W. Armbruster, of the Illinois Watch Co., and Mr. Lovett, of the Rockwell Watch Co., took part in the various discussions. At this point it was determined that the convention should stand for a fixed selling price on watch cases as well as on movements. An automobile ride was given the

visiting ladies, during the afternoon, by the Milwaukee Jewelers' Club. In the evening, the association enjoyed an outing at Pabst Park.

Thursday morning was given over in its entirety to the inspection of exhibits of the manufacturers and jobbers. Thursday afternoon marked the executive session of the association, when officers were elected, committees reported, and various other business was transacted. Gustav Keller, president of the association, was nominated as delegate to the national convention, but announced that he would be unable to attend. A. J. Stoessel was named in his place, who, it is understood, will also be unable to fill the position, and another appointment will be made later.

The committee on resolutions offered the following:

Congratulating ourselves upon the fact that the organization movement has taken so firm a hold on the jewelers of the State that we have been able to hold the fourth annual convention of the Wisconsin Retail Jewelers' Association, with largely increased numbers and with unbounded enthusiasm, be it resolved as follows:

Resolved (1), That we view with satisfaction the efforts of an ever increasing number of manufacturers to meet at least a part of our demands for the abolition of trade abuses as far as they relate to the establishing of minimum retail prices and the confining of the product to legitimate channels.

Resolved (2), That in order to make the minimum selling price of watch movements more than a well meant illusion, it becomes imperative that the manufacturers of watch cases follow the manufacturers of movements by establishing a retail selling price on their product as well.

Resolved (3), That as an alternative, we recommend to the manufacturers of watch movements, only cased at the factory, and establish a minimum retail selling price on the complete watch.

Resolved (4), That we condemn the practice of manufacturers and jobbers maintaining retail stores, selling at retail or supplying hotels and restaurants direct, thereby robbing us of profits which should justly be ours. We pledge ourselves, as far as practical, to confine our purchases to manufacturers and jobbers not doing a retail business.

Resolved (5), That we endorse any federal legislation that will prevent fraudulent advertising or the distribution of the same through the United States mails or otherwise.

Resolved (6), That we do not favor the practical exclusion from imports of high grade, small size, foreign watches by compelling them to have engraved on the plates, whole sentences, which cannot possibly find room there without spoiling their appearance.

Resolved (7), That we thank the manufacturers and jobbers who helped to make this convention a success by making exhibits or in any other way, also the Rockford Watch Co. for donating the badges of membership.

Resolved (8), That we express our thanks and appreciation to the trade journals for the support they have uniformly given to the cause of trade organization.

Resolved (9), That the thanks of this association be and are hereby tendered to the several members of the craft for their able addresses and discussions on matters of interest to the association.

Resolved (10), That we commend the action of the association during the present year and thank the officers of the association for their able and diligent work in its behalf.

Resolved (11), That we thank the Milwaukee Jewelers' Club for the royal hospitality extended.

Resolved (12), That our thanks be extended to the management of the St. Charles Hotel for their help in providing us with accommodations free of charge.

The Committee on Resolutions—A. J. STOESSEL, L. E. LITTLEFIELD, L. J. CRAWFORD.

The resolutions were passed unanimously by the convention, and the gathering adjourned after deciding to meet next year in Milwaukee. The date of the next meeting will be decided later.

Ninth Annual Convention of the Wisconsin Association of Optometrists.

MILWAUKEE, Wis., July 22.—The Wisconsin Association of Optometrists in session at the ninth annual convention at the St. Charles Hotel, July 20 and 21, elected the following officers for the ensuing year: President, Hugh McEwan, Fond du Lac; vice-president, J. H. Schaefer, Milwaukee; secretary, C. D. Waugh, Milwaukee; treasurer, J. H. Scholler, Janesville; trustee for three years, T. O. F. Randolph, Milwaukee; trustee for two years, Arthur R. Bachman.

The matter of adequate legislation in Wisconsin in the way of protection to opticians formed the leading topic of discussion before the convention. In spite of their defeat before the last State Legislature, when they tried to secure the passage of a law creating a State board of optometrists' examiners, the opticians unanimously decided to renew the fight before the legislature of 1911.

Tuesday morning opened with the address of the president, T. O. F. Randolph. The afternoon session was opened by an interesting address upon "Legislation" by Ernest Eimer, secretary of the Michigan Society of Optometrists. This was closely followed and met with the entire approval of the gathering. The business session and the election of officers followed. In the evening the opticians and their wives enjoyed a theatre party.

Yesterday, July 21, was the big day for the opticians, and several important addresses were presented, including "Clinical Demonstration of the Principles Involved in Fitting Prisms," by Prof. George A. Rogers, president of the Chicago College of Optometry; "The Relation of Dental Lesions to Ocular Disturbances," by Dr. Reno Weiss, professor of orthodontia, dental department, College of Physicians, Milwaukee; "Bifocals," by Hugh McEwan, Fond du Lac, and an address, "General Optics," by W. A. Pfister, Sheboygan.

Charles McCormick, Chicago, led the discussion against the necessity for legislation to protect the profession of optometry, contending that education would suffice. His attitude was bitterly opposed by the convention, however, which went on record for declaring that Wisconsin should have a complete optometry law.

The convention closed, last evening, by a joint gathering with the jewelers at Pabst Park.

THE NEWEST GEM

BLACK OPAL, a recent Australian discovery, is the most beautiful variety of the Opal Group. Although called "Black," these stones have a wide range of colors, shading from light to cobalt blue with flashes of violet; from delicate shades of green to peacock tints, from light yellow to orange and from soft gray to black, often mixed with wonderful flashes of red fire.

BLACK OPAL has come "to stay" and no jewelry stock is complete without specimens of this remarkable stone.

We cut these stones from the rough and therefore can furnish them in various sizes, shapes and qualities at reasonable prices.

Schedules in Bankruptcy of George H. Carpenter Who Got \$182,000 Worth of Diamonds from New York Importer.

Schedules in bankruptcy of George H. Carpenter were filed in the United States District Court, New York, Saturday, following a lot of trouble which resulted from complications which came to him last year when Rudolph A. Breidenbach, 51 Maiden Lane, New York, and other creditors filed a petition in bankruptcy against him, alleging that he had obtained from Mr. Breidenbach \$182,594 worth of diamonds under circumstances which did not meet with the approval of the diamond dealers. Mr. Breidenbach at that time complained that when the diamonds were obtained from him he had nothing in return more solid than a number of promissory notes, a little cash and some stock in a fire extinguisher company.

It was claimed that M. C. Dreshfield, a diamond salesman, was also associated with Carpenter in the transaction, and on March 11, 1908, Mr. Breidenbach asked that both Carpenter and Dreshfield be adjudicated bankrupts. William Lesser was appointed receiver and the matter was referred to Peter B. Olney as special master. A large amount of testimony was taken, during which time a number of witnesses were examined.

The petition filed against Mr. Carpenter recited that Mr. Breidenbach, relying upon the false and fraudulent representations, accepted 33 promissory notes made by George Carpenter, mostly all paid to Maurice Dreshfield, indorsed by the latter, and then for and in consideration of the delivery of certain diamonds to Dreshfield and Carpenter the promissory notes were handed over to Breidenbach. It was claimed that between Sept. 9, 1907, and Dec. 30, 1907, diamonds valued at \$182,594 were obtained from Mr. Breidenbach and that on this account \$9,445 was paid. The claims of the other two petitioners were for much less amounts. The petition also declared that Carpenter and Dreshfield were both insolvent and committed acts in bankruptcy by disposing of the diamonds.

Mr. Carpenter's schedules, which show liabilities of \$299,000, also show his assets as \$11,653, which included an automobile and some pawn tickets for diamonds which were pawned, he says, by Dreshfield. The schedules show the liabilities to consist of unsecured claims, \$248,870; notes and bills, \$43,058; secured claims, \$7,500. Of the assets \$8,403 are set down as debts due on open accounts and \$3,000 in personal property.

Rockford Watch Co. Seeks Arrest of Salesman Who Disappeared Last Month.

CHICAGO, July 24.—The officials of the Rockford Watch Co. have sworn out a warrant for the arrest of Alfred Lewkowits. The latter was hired, June 14, to cover Kentucky and Tennessee, and left Chicago with his expense money and \$400 worth of samples. About June 19 he wired for more money and since then nothing has been heard from him. It is known that he disposed of some of the samples and bor-

rowed money on others. He formerly worked for Lewis Finkelstein and I. W. Mark, St. Paul, Minn., and the Niagara Cut Glass Co., Buffalo, N. Y.

Lewkowits is described as 28 years old, five feet eight inches in height, and of slim build; good complexion, black hair, smooth shaven. He has a good appearance and is an interesting talker.

The Rockford Watch Co., Rockford, Ill., will pay a reward for information leading to Lewkowits' arrest.

Death of Albert W. Burton.

NORTH ATTLEBORO, Mass., July 24.—Albert William Burton, a prominent jeweler of Plainville for many years, and a descendant in the sixth generation from Roger Williams, died at Buttonwoods, a Summer colony on the shores of Narragansett Bay, last evening, as the result of a shock. He was one of the most prominent citizens of Plainville, where until a short time previous to his death he was identified with the Plainville Mfg. Co.

Deceased was born in Foster, R. I., Dec. 19, 1831, and attained his education in the public schools of that town, and at the age of 21 came to Providence and began the career of a seafaring man, going first on a whaling voyage to the Eastern hemisphere, visiting all ports of importance. After three years of this he engaged in a coasting enterprise between this city and Philadelphia, following this life for several years. He enlisted in the 14th Massachusetts battery and served through the Civil War. At the close of the war Mr. Burton decided to quit the sea, and started in to learn the jewelry business, and when that industry received new life he associated himself with the firm of H. F. Barrows & Co., North Attleboro. In 1878, when the Plainville Stock Co. was organized, he became identified with the concern and remained with the company until a short time ago, when he was forced to retire owing to ill health.

Mr. Burton was a member of the George H. Maintein Post, G. A. R., of North Attleboro, and when the Sons of Veterans camp was formed in that town it was named after him. He is survived by a widow and three children, a son, Albert E. Burton, and two daughters, Mrs. L. Noble and Mrs. B. Hatch.

Akron, O., Jeweler Offers \$25 Reward for the Return of an Old Silver Watch Wanted as Evidence.

AKRON, O., July 24.—B. F. Phillips, a jobber in watch materials in the Central building, this city, has offered a reward of \$25 for the return of an open face silver watch consisting of a watch movement No. 3916678 in a three-ounce O. F. silver case, No. 527. The case is engraved on the inside cap "July 30, 1889."

This watch may now be in a pawnshop or in the hands of a private party, but any jeweler who has seen it or was offered it, or can put Mr. Phillips on the track of its recovery is asked to wire him at once, as the liberty of an innocent boy, who was convicted of crime on circumstantial evidence, is said to be dependent on the recovery of this timepiece.

W. A. Robinson has opened a store at Norfolk, Nebr.

J. C. Blackney recently commenced business at Norfolk, Nebr.

Horowitz & Kirschbaum is the name of a new concern at 45 John St., New York.

J. C. Downing opened a watch repairing business at Omaha, Nebr., a short time ago.

Charles E. Sanland has engaged in the enameling business at North Attleboro, Mass.

A. C. Ingram has begun business on his own account in the C. T. Johnson building, Los Angeles, Cal.

C. H. Clark will shortly open a store in Los Angeles, Cal. The establishment will be located on W. 4th St.

A Mr. Black recently located in Goliad, Tex., where he is erecting a new building for a retail jewelry store.

F. Sansfield, formerly manager of the Jupiter Consolidated Jewel Co., Los Angeles, Cal., is now engaged in business for himself, manufacturing a facet machine which he invented.

The Schenectady Electric Clock Co. has been incorporated in Schenectady, N. Y., with a capital of \$10,000. The directors are J. R. Dyke, Jr., Charles D. Knight, F. J. Seabolt and E. C. Hall.

The Hassett Co., Augusta, Me., was incorporated, a short time ago, with a capital of \$1,000 to deal in jewelry novelties. The officers are: President, E. M. Levitt; treasurer, E. M. Levitt; clerk, L. A. Burleigh.

Numbers and Description of Watches Reported by Retail Jewelers as Having Been Lost or Stolen.

[Under this head THE JEWELERS' CIRCULAR-WEEKLY will publish descriptions and numbers of watches reported by retail jewelers as having been stolen in their vicinity. Members of the trade are requested to save these lists as they are published, and consult them when taking watches in trade or to be repaired from parties whom they do not know. Jewelers who may be offered any of the watches described are asked to communicate directly with the dealer announcing the loss.]

A. N. Anderson, 300 Temple Court, Minneapolis, Minn., reports the following watch was lost at Denver, Colo. A reward of \$50 will be paid for the return of the same to Mr. Anderson. 18s. American Watch Case Co. hunting box joint, 14-k. 1½ engraved, No. 172808; best grade of Vacheron & Constantin mvt., 21 jewels, No. 340813; "John Robinson, Denver, Colo.," on dial.

T. J. Dooly, Stafford, Ark., reports the following watch stolen, June 29, from one of his customers in a neighboring town. A reward of \$10 will be paid. 18s., 21 jewels, Elgin, "Father Time" stamped on movement, No. 9,502,516; case, open face, 20-year gold filled, No. 564,496.

PROVIDENCE, R. I.

Preparations Completed for Entertaining the Jewelers at the Great Convention of the A. N. R. J. A. Which Meets in Omaha Next Week.

OMAHA, Nebr., July 24.—All preparations for the coming convention are about completed by the local Jewelers' Club. At the last meeting, July 22, the members of the club, together with some dozen ladies present, decided upon the form of entertainment for the visiting ladies. On the afternoon of Aug. 4 an automobile trip will be made by the ladies, a few minutes' rest being taken at the Country Club and the beautiful Summer home of Rome Miller, proprietor of the Rome Hotel. Here a delicious lunch will be set for those attending.

One morning during the convention a visit will be paid to the Linneger Art Gallery, where a most expensive collection of pictures, rare china and curios from all over the world are on display. Another feature for the ladies while the jewelers are in session is a musicale one morning, the programme consisting of Omaha's best talent.

Mrs. S. W. Lindsay was appointed president, and it is expected that between 25 and 50 of the wives and lady friends of the club members will assist on this reception committee.

The Happy Hollow Country Club has extended an invitation to all the visiting delegates to visit the club on the evening of Aug. 3, when an informal dance will be given. This club house and grounds is one of the most beautiful spots in the country, having at one time been the private home of one of Omaha's most exclusive and wealthy families.

Another interesting trip for all attending will be a visit to the smelters by street car, and a ride about the city, ending at Fort Crook, where a balloon ascension, wireless demonstration and dress parade will bring to a close the afternoon's enjoyment.

The men will find that the meeting at the Den of Ak-Sar-Ben will be a rare treat, nothing of the sort being like it in the east or west. The whole ceremony of knight-hood from first to last, including the opera, the obligation, the oratory and the edibles, are free and without price to a visitor. The Knights of Omaha pay for all and feel badly when their visitors fail to take hold and run things to suit themselves. Special preparations are being made for jewelers' night.

A rate of one plus one-half fare has been made by all railroads to neighboring States, and it is anticipated that one of the largest, if not the largest, crowds will be in attendance at the national convention.

The members of the local club congratulated themselves on having S. S. Callison, secretary of the American National Jewelers' Association, with them for several days, and also at their meeting.

The complete list up to date of the manufacturers and jobbers who will exhibit their wares at the convention are as follows: Elgin National Watch Co., Powers & Mayer, Rockford Silver Plate Co., John B. Ash, Oneida Community, Ltd., Austin & Stone, White, Wile & Warner, Rockford Watch Co., Robt. H. Ingersoll & Bro., Winthrop Mfg. Co., Juergens & Anderson Co., J. R. Wood & Son, South Bend Watch

Co., W. A. Pickard, Dueber Watch Case Mfg. Co., Omega Watch Co., Waltham Horological School and Burley, Tyrrell & Co.

The following firms, who are unable to exhibit, but who have assisted financially and shall be known as "contributors to the success of the convention," are: Traveling Men's Equality Club, H. F. Hahn & Co., Norris Allister & Co., Henry Paulsen & Co., F. H. Noble & Co., Rettig, Hess & Madsen, Knickerbocker Watch Co., S. Borgzinner, R. Gore Advertising Co., J. J. Sommer & Co., Brainard & Wilson Co., Wm. L. Gilbert Clock Co., Woodstock, Hoefler Watch & Jewelry Co., D. B. Ward & Co., A. H. Bliss, Meyer Jewelry Co., American Cuckoo Clock Co., William Sekels, Waterbury Clock Co., E. C. Lechler, F. A. Hardy & Co., Kreis & Hubbard, Riker Bros., Eisenstadt Mfg. Co., A. R. Katz & Leudan Co., D. Gruen, Sons & Co., Sanbury & Nellis, Adolph Goldsmith & Son, Sprochnle & Co., Illinois Watch Co., Louis Strasburger's Son & Co., David Ullman & Co., S. K. Jonas, Dreyfuss Mfg. Co., Ernst Gideon Bek, Despres, Bridges & Noel, Morris Rosenblum & Co., Bernheim & Beer, American Silver Co., and M. A. Mead & Co.

Death of Delos A. Depue.

BLISSFIELD, Mich., July 24.—Delos A. Depue, a prominent jeweler of Blissfield, and one of the leading citizens, died, Tuesday night, at the home of Harry Howes, after a short illness. For several years he had not been in good health, and during the past Winter he was in California in hopes that the change would benefit him.

Mr. Depue was born Feb. 13, 1859, in Hillsdale County, Mich., and resided in Blissfield for about 20 years. For 14 years he was connected with the offices of the L. S. & M. S. Railroad, but later he purchased the jewelry business of Frank Doan, in which he was engaged at the time of his death.

Elizabeth Darothers, an aunt, and another aunt, now residing in California, are the surviving relatives. Beside these relatives his demise is mourned by a large circle of friends in the community, among whom he was distinguished by a never-failing good nature and courtesy.

The funeral services were conducted Thursday morning at the home in which he died, Rev. Decker officiating. The music for the occasion was rendered by Mrs. George Rothfuss, Mrs. Lulu Porter and Mrs. Otto Tagsold. The remains were taken by train to Hillsdale by a committee of the Masonic order, of which he was a member, where the interment took place under the auspices of Blissfield and Hillsdale Masons.

A. Levy & Son, Savannah, Ga., File Petition in Voluntary Bankruptcy.

SAVANNAH, Ga., July 21.—Aaron and Abraham Levy, doing business in the name of A. Levy & Son at 23 E. Broughton St. and 212 W. Congress St., filed a voluntary petition in bankruptcy in the United States Court, July 16. They schedule liabilities as follows: Secured debts, real estate loan, \$7,500, and discounted notes secured by in-

dorsement, \$2,361.50; unsecured liabilities, \$2,580.95. Of the latter the principal creditors are: Bennett & Gomper Co., \$350; Crown Cork & Seal Co., \$103; Wood & Selyck, \$200; Alex. Sabrantz, \$364; Holzman & Alter, \$107; H. T. Kramer, \$550.

The assets, which total \$3,061, include: Equity in real estate, \$1,500; stock and merchandise, \$700; bottling plant, \$600; notes, \$15; accounts, \$46; piano, \$100; household goods, clothing, etc., \$100.

Each brother claims the benefit of a \$1,600 homestead allowance, as the head of a family, under the bankruptcy law.

Morris Cohen Who Robbed Brooklyn Jewelers Sent to Reformatory for One Year.

Morris Cohen, who was formerly in business in Brooklyn with a man named Levine, under the style of Cohen & Levine, and who was arrested in Cincinnati on a charge of larceny and brought back to Brooklyn for trial, was sentenced recently by Judge Dyke in the Kings County Court to a year at the Elmira Reformatory, which he is now serving.

The men obtained a quantity of jewelry from Brooklyn jewelers to repair and left the city suddenly, taking the jewelry with them.

Cohen's arrest occurred soon after his photograph was printed in THE JEWELERS' CIRCULAR—WEEKLY, which proved the means of his identification.

Cohen made restitution of the jewelry, and because of this and the fact that he had never been in trouble before, his sentence was made as light as possible under the circumstances.

P. W. Taylor, the Brooklyn jeweler who was active in running Cohen down, said yesterday that he expected that Levine would be brought to justice soon.

Paris Pearl Market.

PARIS, July 17.—Considerable progress was made in the pearl business during the month of June, which has so far seen many sales. There has been continued activity and a number of large lots have gone out of the market. Various American and European buyers in Paris, as well as local dealers, have been active, important lots going from one to another quickly. In fact the demand for large round pearls, drilled and undrilled, was the dominating feature of the gem market. Small drilled pearls, from one to two grains, have been asked for to a great extent, and altogether the local trade is very optimistic.

While little is done in midsummer, all look forward to the month of September for renewed activity, as it is believed that the demand will continue to increase as time goes on. Between London and Paris now large sales are being made continually and all dealers are active, handling all kinds of goods.

The robbery of the Paris broker, Fritz Goldsmith, which was committed in London, July 2, was not without a distinct effect upon the trade here and practically stopped the transactions for a few days. It is hoped here that the London police will be able to capture the thieves. G. K.

Midsummer Meeting of the Minnesota Retail Jewelers' Association, Held at Minneapolis.

MINNEAPOLIS, Minn., July 27.—The regular midsummer meeting of the Minnesota Retail Jewelers' Association opened in this city this afternoon. The opening session was called to order by the president, A. E. Barker, Minneapolis, who expressed his pleasure at the number attending, and especially of the number of new faces—dealers from out of town, who had never attended the meetings before—and he hoped that they and all would find the meetings of value and profit, as well as of interest. He introduced Mayor James C. Haynes, of Minneapolis, who extended a hearty welcome to jewelers and visitors.

Mayor Haynes jovially expressed his appreciation of the jewelers as people dealing in precious articles, and therefore exceptionally attractive. He mentioned the attractions of the city of Minneapolis which he believed to be one of the most beautiful cities of the country, and complimented Detroit as being one which compared favorably. He cited some of the municipal problems which confront the city, and which are to be solved if the city is to attain its destiny.

He urged all present to bear in mind that the attainment of things desirable in municipal accomplishment rested with the individual, rather than with the body politic. The individual owes a duty to his city—the place of his home and of his residence—to take a deep and earnest interest in its welfare and its accomplishments, and keep track of what the servants of the city—the public officers—are doing. If the individuals take such an interest in the doings of the city there need be no fear that there will be municipal corruption nor boss rule. The old-time town meeting with its discussion of policies was one which was admirable in keeping up the civic spirit. He also spoke of the great center which existed in the two cities of Minneapolis and St. Paul, which he declared were destined inevitably to be one corporately, as they are practically one commercially now, and which would make the united city about eighth in the great cities of the country.

The response to the Mayor's address was given briefly by F. B. Logan, Royalton, Minn., vice-president of the association. On behalf of the association he thanked the Mayor for the cordial and hearty welcome which had been extended by the beautiful city of Minneapolis. He believed that the members would find the meeting so attractive that they will want to come again.

One of the most prominent addresses of the meeting was that of Arthur E. Paegel, Minneapolis, vice-president of the American National Retail Jewelers' Association, upon the subject, "Advertising and what would be the effect of Federal and State advertising laws?"

During the session President Barker presented to the association the merits of the Minnesota Commercial Federation, an organization designed for the purpose of united effort and definite action on the part

of commercial associations of Minnesota and adjoining States, for the general betterment of conditions of retail merchandising. The means of carrying out these changes are to be the united and concentrated efforts of the affiliated organizations, working to secure such legislation as will promote the business interests of the State and Nation. He pointed out that individual associations and trade organizations had been working along their respective lines and upon subjects which affected them alone for years, and they had comparatively little to show for their efforts.

He believed that if the different organizations were to affiliate, and through that affiliation to work for a common aim, they would accomplish a great deal more. Legislation which is desired, that has the backing of a combination of trade organizations, will receive a great deal more respect and consideration from the legislators than any bill or bills which are presented on behalf of a single or two or three organizations. He deplored the general tendency to depress prices, as being one which is bound to result in inferior goods. The policy of lower prices and cut prices, which is the law of competition, results in less value, less service, less merit and less to the consumer.

As things now stand, he said, the law practically insists upon that standard of merchandising by specifically prohibiting all arrangements for price maintenance, outside of a few patented articles, which are protected by the patent law. But if ever the standard of merchandising shall be changed from one of cheapness to one of value and of quality, it must be after the restriction upon a price maintenance is removed. And he believed that ultimately that would come to pass. The result would be that consumers would get better goods, the merchants would give better service, and all concerned would be better off, both materially and otherwise.

An important address was that by S. H. Clausin, of the wholesale house of S. H. Clausin & Co., Minneapolis, upon the topic, "Does the Retailer Need the Jobber?" Mr. Clausin stated that the question had but one possible answer—"yes"—and he went on to explain the case. He cited the receipt of a postal card order recently, containing eight different items which, if it were not possible to call upon a jobber, would have involved writing six letters at least, to six different points, and would call for waiting for that many packages in place of one. If there were no jobbers, and the manufacturers could not market their goods except directly to the retailers, it would involve their sending travelers to all the cities and towns and villages, soliciting orders on their different lines of goods.

The orders placed by the small merchants of the interior might run as low as \$10, and might run as high as \$100, but would hardly exceed that very much. The expense of the traveler would be from \$7

to \$9 per day, while the business which he could secure upon the smaller lines of the single manufacturer would make it a losing proposition, and the manufacturer would have to make increases in his prices of from 15 to 40 per cent. in order to meet the increased cost of marketing his goods direct to the retail dealer at his home.

Not only does the jobber serve as a kind of clearing house, through which different lines of the manufacturers can be handled at a saving both to the manufacturer and to the retailer, but through his closer association with the territory and the trade the jobber is better able to determine the character and variety of goods which the consumers of his territory will want than could the manufacturers if they had to deal with the retailers alone. Furthermore, through their wider association with a greater variety of stock the jobber is able to cull out from the many goods offered and secure the better and more substantial articles.

There are many manufacturers in the field, and it is not an infrequent thing for a new article to be brought out which sells at, say, \$36 per dozen. The goods prove satisfactory and win the approval of the trade and of the consumer. It is not very long until the article finds its way from other manufacturers and ultimately becomes \$36 a gross, although it looks about the same, and the same picture serves for the \$36 a dozen and the \$36 a gross in the catalogues. In such cases as this the jobber serves as a protection to the retailer in selecting with care and discretion the goods which he intends to offer the retail trade, and in exercising a wider knowledge of circumstances and conditions.

Contracts Awarded to Supply Various Articles to the District of Columbia.

WASHINGTON, D. C., July 23.—A. O. Hutterly, jeweler, of this city, has been awarded a contract to supply the District of Columbia with 70 jewelers' polishing brushes at 21c. each.

The following awards have been made for clocks:

For 20 Ansonia regulator C. H. G. & J. E. Wagner, \$5.50 each.

For 15 Seth Thomas clocks, H. G. & J. E. Wagner, \$13.50 each.

For 40 Seth Thomas clocks, A. O. Hutterly, \$1 each.

Repairing and keeping in order for one year the District of Columbia clocks, \$270.

For 75 silver-plated dessert forks, extra heavy tipped, Dulin & Martin, 19c. each.

For 50 dessert knives, celluloid handles, Blum Bros., Washington, D. C., 22c. each.

For 10 dessert spoons, silver, A1, plated, Dulin & Martin, 19c. each.

For 20 dessert spoons, silver plated, Blum Bros., 20c. each.

For 50 silver-plated tablespoons, all bids rejected.

For 50 silver teaspoons, A1, no bids.

For 50 silver-plated teaspoons, all bids rejected.

G. B. Lobdell, Carthage, N. Y., and Miss Jane Wood were united in marriage about a week ago.

Officers of Manufacturing Jewelers Board of Trade of Providence, Entertain Members of the Commercial Law League.

PROVIDENCE, R. I., July 24.—The directors of the Manufacturing Jewelers Board of Trade entertained a number of the attorneys from different parts of the country at the Pomham Club yesterday afternoon. The attorneys had been in attendance at the annual convention of the Commercial Law League of America at Narragansett Pier during the week.

The party arrived at the rooms of the association in the Wilcox building just before noon, and after making an inspection of the rooms and methods of the board were taken through several of the larger manufacturing jewelry establishments, after which the guests were taken in automobiles and transported to the Pomham club grounds, some five miles down the east side of Narragansett Bay.

Upon the arrival of the party a club lunch was served, after which the various privileges of the club were enjoyed, and at 2 o'clock the party sat down to a special Rhode Island Club shore banquet. The menu was varied and elaborate, including clam broth with whipped cream, martini cocktail, clam chowder, clam fritters, baked clams, French rolls, brown bread, a la Pomham, frappé "Tom and Jerry," Pomham cigarettes, planked bluefish, Rhode Island johnny-cakes, fried eels with pork scraps, julienne potatoes, new potatoes, cucumbers, lettuce, café moussé, cake, watermelon, café noir, cliquot ginger ale, lager and cigars.

The affair was entirely informal, the only formality being a brief address by Robert E. Budlong, president of the Board, in which he welcomed the guests and said that while they all recognized that lawyers could talk on all occasions they were not to be given an opportunity at this time. After the dinner the afternoon was enjoyed from the verandas and balconies of the club house until the return about 5 o'clock.

Those present included President Robert E. Budlong, Secretary-Treasurer Marcus W. Morton, Manager Horace M. Peck and Directors Frederick A. Ballou, Fred D. Carr, Alfred K. Potter, Edward B. Hough, Everett L. Spencer, Harvey Huestis, Harry Wolcott of this city and Charles P. Keeler of Attleboro and E. L. Leavitt of the Board. The guests were as follows: A. N. Eastman and E. P. Eastman, of Chicago; Samuel W. Cooper, of Philadelphia; Willard P. Smith, of San Francisco; E. J. Thillborger, of New Orleans, La.; Martin Clark, of Buffalo, N. Y.; Edward H. Brink and J. C. Burns, of Cincinnati, O.; Louis J. Grossman, of Cleveland, O.; John B. Edwards, of St. Louis, Mo.; Lewis B. Hall, of Toledo, O.; John G. Price and C. E. Blanchard, of Columbus, O.; H. Winship Wheatley, of Washington, D. C.; Fred L. Norton, of Boston, and Chester W. Barrows, Referee in Bankruptcy, of this city.

During the sessions of the convention resolutions asking for the adoption by Congress of certain amendments to the bankruptcy laws were passed. In the report of the committee on bankruptcy,

which was one of the most important features of the convention, presented by Abram I. Elkus, of New York, chairman, stress was laid on the need of caution in the amending of the present bankruptcy law because of the fear that too much tampering with it might result in the repeal of the whole.

Hon. Robert W. Archibald, United States District Judge at Scranton, Pa., read a paper on "Frauds and Preferences" in connection with the bankruptcy law. He gave a concise statement covering many decisions of higher courts, bearing upon the theme of his paper and made pointed comments on some of them. He declared that the bankruptcy law was not enacted to supply a rule for legal conduct, but that its practice had proved most efficacious to the business world. He defended the provisions of the act in many particulars and suggested points where improvements could be made.

The report of the special committee on bankruptcy presented by A. I. Elkus was followed closely.

It was recommended that of the amendments now before Congress these should be pressed for adoption:

First—The amendment increasing jurisdiction over corporations.

Second—The amendment to paragraph 23 (b) to correct a verbal error.

Third—The amendment conferring upon trustees the right of judgment creditors.

Fourth—The amendment to prevent the dismissal of proceedings except upon notice to all creditors.

Fifth—The amendment in reference to voidable preferences.

The committee also recommended an amendment declaring that voluntary bankrupts must have debts of at least \$750. The recommendations of the committee were adopted.

Importations at the Port of New York.

Weeks Ended July 18, 1908, and July 17, 1909.

The Copeland Jewelry Store, Palestine, Tex., has moved into newly furnished quarters on Spring St.

Two Thieves Make Dastardly Attack Upon Aged Baltimore Jeweler.

BALTIMORE, Md., July 24.—William F. Griffith, an aged jeweler of this city, was the victim of one of the most brutal and daring attacks by robbers that has occurred here in years. The attack occurred Thursday, about midnight, when Mr. Griffith was struck over the head with a jimmy in his store, at 639 W. Saratoga St. On Friday morning, Milton Eareckson, 22 years old, 221 N. Paca St., and Samuel Pletzer, 19 years old, 809 W. Franklin St., were arraigned before Justice Loden at the Western Police Station and identified by Mr. Griffith as the men who had assaulted and attempted to rob him. Both were committed for court.

In the early part of Thursday evening Eareckson and Pletzer, according to the testimony, called at Mr. Griffith's home, claiming they were prospective customers, and inquired for Griffith. Miss Priscilla Griffith, a sister of the jeweler told them her brother was out and that he would be back later. They returned again before the jeweler arrived. The third time they arrived just before midnight and told Mr. Griffith that they wanted to look at some diamond rings. After looking over several they stated they wanted something larger they stated they wanted something larger.

It was here that the aged jeweler did as they had planned to have him do—turn his back to them—for as he turned to go back into the factory in the rear he was dealt a blow over the head with a jimmy. He was stunned and badly bewildered by the blow, but managed to give a wild cry before sinking to the floor, which aroused his sister who was upstairs. She ran to the front window and called loudly for the police. The neighbors responded quickly, but the thieves made good their escape through the crowd in the excitement.

Eareckson was arrested at his home and Pletzer was found at the home of his grandmother. At the hearing both men admitted that they had been to Mr. Griffith's store earlier in the day, but denied having any hand in the assault and attempt at robbery. Mr. Griffith showed an ugly cut on his head, which, he said, was inflicted by one of the men. Both men tried to implicate William Findley, who declares in his own defense they had attempted to get him to take part in their scheme, but that he had refused. All three of the men are out on parole of two years, having been found guilty of breaking into a dyeing establishment.

Hayward Bros., Atwood, Kans., have dissolved, F. H. Hayward continuing alone

Customs Officers Seize Jewelry Brought in New York by Cuban Merchant on His Way to Havana.

The customs authorities seized, on Saturday morning, jewelry said to be worth considerable over \$1,500, found in the possession of Rayamon Pialago, a Cuban, as he was leaving the steamship *La Lorraine*, of the French line, at the Port of New York. The goods were sent to the seizure room at the appraisers' stores, and Monday morning Mr. Pialago was given an opportunity to explain to the collector why he failed to declare the jewelry.

Mr. Pialago is a member of a large dry goods firm of Havana, Cuba, and had been in Paris for the purpose of making purchases. As he was walking through the pier entrance with two overcoats over his arm he was approached by Special Inspector Timothy Donohue, who discovered a bulging in one of the Cuban's pockets and ordered him to return to the pier. In the overcoats were found a diamond brooch, a necklace containing eight diamonds, a pair of diamond earrings and a ring set with a diamond.

The inspector took the man at once to the customs house, where he was examined, and there he denied any attempt to do wrong. He said that the jewelry was not to remain in this country. He confessed that he was engaged to marry a young lady in Havana, and that the jewelry was intended as presents for her. They were to be married, he said, on his arrival in Havana. The jewelry was locked up in a safe in the collector's office. He said that the earrings cost \$500, and that all the jewelry was worth about \$1,000, but the customs officials believe that this estimate is rather low.

The Cuban also brought with him from France two trunks of merchandise which he asked to have shipped in bond to Havana. They were examined by the inspector, and as the contents corresponded with the invoice presented, the authorities gave him permission to forward the goods as requested.

It was said at the customs house that the jewelry had not as yet been appraised. According to the inspector, the Cuban failed to declare the jewelry, saying that he had nothing, and that since the goods were not declared they were subject to seizure. At the conference before Collector Loeb, on Monday, the seizure was ordered to stand and the property held subject to forfeiture. It was not considered that the matter was a criminal act, but the owner of the jewelry, as a penalty, will, it was said, be required to pay the foreign value of the jewelry plus the added duty before it will be returned to him.

A recent fire at Cordell, Okla., did considerable damage to the retail jewelry stock of C. T. Akers, at that place.

The jewelry store of E. D. Vosbury, 24 Court St., Binghamton, N. Y., was entered by a burglar and a number of watches, rings and watch cases were stolen. Thomas Callahan was arrested for the crime, confessed, and all the stolen property was recovered. Callahan was held for the Grand Jury.

News Gleanings.

John Haglund has moved from Cross Fork to Renova, Pa.

H. Lay Beaven, Easton, Md., has been succeeded by Frank L. Roberts.

C. T. J. De La Porte, Berlin, Wis., recently removed to Oconto, Wis.

Keith & Bartz, Garrison, N. D., have been succeeded by Bartz & Co.

F. H. Howard, formerly of San Jose, Ill., has gone to Jacksonville, Ill.

Orville L. Stick, New Pittsburg, Ind., is now located at Petroleum, Ind.

E. E. Freeman has purchased the business of J. J. McEvoy, Kennett, Cal.

James T. Brown, Angelica, N. Y., has been succeeded by Libbie S. Brown.

Wertheimer & Schwartz, San Francisco, Cal., have removed to Seattle, Wash.

W. W. Condon, Greensboro, N. C., has filed a voluntary petition in bankruptcy.

O. E. McWaters & Co., Somerset, Ky., have moved to Danville, in the same State.

A recent fire in Austin, Pa., which did damage amounting in all to about \$60,000, destroyed the retail jewelry store of Walter S. Warner.

The jewelry and hardware store of W. S. Davis, Stewartville, Minn., was destroyed by fire recently. The loss is partly covered by insurance. Stewartville is about 12 miles southeast of Rochester, Minn.

The store of L. A. Boli, Hamilton, O., was entered by burglars, about a week ago, when several rings, watches and other articles worth about \$100 were stolen. The store is located at 323 E. High St. There is no clue.

R. & L. Myers, San Francisco, Cal., have filed articles of incorporation, the firm style becoming R. & L. Myers Co., with an authorized capital stock of \$50,000. The new corporation has absorbed the business of Roy P. Mathews Co.

The jewelers and opticians of Battle Creek, Mich., have decided to close their stores every Thursday during the balance of July and the month of August. Among those who have signed the agreement to do so are the Abbott Optical Co., J. G. Davenport, Mayo Bros., H. E. McCoy, Maurer Bros., S. Lande, H. A. Bromberg, C. C. Thoma and W. J. Craven & Bro.

The members of the Iowa Retail Jewelers' Association are just in receipt of a long letter from President Nielson, which is sent for the purpose of introducing to the members the new officers elected for the coming year. After discussing the convention of the association at Des Moines, Mr. Nielson tells of the National convention, which is to take place in Omaha, Aug. 2 to 6, and urges the members of his association to attend, first, for their own good and the benefit they will receive; and second, to do credit to the Iowa association, which, he hopes, will have one of the biggest representations of any State body at the convention. According to the figures which he gives in this letter, the Iowa association has now a total membership of 231, which, with the applications received at the last convention, will soon reach 250. President Nielson makes a strong plea to continue increasing the membership, urging his associates to help him boost it to the 500 mark.

The following traveling representatives called on the trade in Kansas City, Mo., during the past week: W. R. Cogh, W. R. Cobb & Co.; Robert Kehl, F. H. Nohle & Co.; W. A. Lamb, Geo. H. Fuller & Son Co.

Lancaster, Pa., was, recently, visited by the following traveling representatives: T. A. Brennan, Robert S. Gatter; M. A. Illingworth, American Silver Co.; F. C. D. Bonner, F. & F. Felger; F. W. Sackett; Mr. Mayer, George Mayer & Co.

Among the travelers who, recently, called on the Buffalo, N. Y., trade, were: H. Wyndham Anderson, Bride & Tinkler; H. J. Fink, Jonas Koch; Jerome M. Lissauer, Arnstein Bros. & Co.; Charles E. Platt, Theodore W. Foster & Bro. Co.; Mr. Laurino, Saunders, Meurer & Co.; James G. Magee, C. F. Rump & Sons.

Traveling representatives who have been in Los Angeles, Cal., recently, include: E. M. Gilbert, M. Schussler & Co.; William Gregory; Harry Bliss; Arthur W. Van Ness; W. B. Wood; Julius Young; J. Hartzberg, Henry M. Abrams Co.; Albert E. Lee; W. E. Armacost, Geo. Kuehl & Co.; J. Longwill, Henry M. Abrams Co.; Samuel Jacobson, Jacobson Bros.

Traveling representatives in St. Louis, Mo., last week, were: Emile Homberger, American-Swiss Watch Co.; B. Hyman, B. Hyman & Co.; George S. Melville, D. Wilcox & Co.; George Goldberg, Untermeyer-Robbins Co.; Henry W. Sherrill, Sinton & Sherrill; Harry S. Aicher; A. T. Hatch; H. R. Shirley, T. B. Clark & Co.; Norman L. Strauss, J. Strauss & Sons.

The following traveling representatives were in Savannah, Ga., recently: Vincent W. Henderson, Crane & Theurer Co.; A. M. Haring, Carter, Howe & Co.; Fred Casper, Mauser Mfg. Co.; M. F. Loomis, C. Sydney Smith & Co.; C. L. Krugler, Jr., Larter & Sons; H. Abraham, Cohn, Abraham & Co.; Richard A. Charles, Ansonia Clock Co.; Zach. A. Oppenheimer.

Traveling representatives calling on the trade in Omaha, Nebr., during the past week, were: D. N. Weil, Electric City Box Co.; Jos. Leudan, A. R. Katz & Leudan Co.; G. W. Payson, Seth Thomas Clock Co.; E. C. Bell, Peninsular Engraving Co.; C. L. Caliger, Sproehle & Co.; E. B. Frank, Pairpoint Corporation; A. R. Olson, National Cut Glass Co.; Abel King, Emrich, King & Schorsel; A. J. Duval, Laurel Cut Glass Co.; Leopold Heyman, Stern Bros. & Co.; G. S. Melville, D. Wilcox & Co.; M. D. Smith, Heintz, Bros.; Ralph Dreyfus, Dreyfus Mfg. Co.; R. T. Kleckner, Theodore W. Foster & Bro. Co.; T. B. Ross, John Russell Cutlery Co.; H. P. Sinclair, H. P. Sinclair & Co.

Death of D. C. Van Riper.

D. C. Van Riper, a dealer in jewelry and gems at 170 Broadway, New York, died at a hospital at Paterson, N. J., Saturday. His death was sudden and is much regretted by all who knew him.

Deceased was a native of Lawton, Mich., but when a young man he came east and began business at Haverstraw, N. Y. In 1887 he located at Nyack, N. Y., with a partner, as Ackerman & Van Riper. They discontinued in 1891, and Mr. Van Riper came to New York, where he was employed by E. A. Thrall, who was then located at 3 Maiden Lane. Later he had a place of business at 10 Maiden Lane, but when the building was remodeled he moved to 170 Broadway, where he had since been located.

Mr. Van Riper is survived by a widow. The body was taken to Lawton, Mich., for interment. His home was at East Orange, N. J.

THE GORHAM COMPANY

PRODUCTIONS IN GOLD.

Recognizing that the popular demand for gold wares of every description is a rapidly growing and an insistent one, the Gorham Company has so increased its goldsmithing facilities that it is amply prepared to meet all requirements in this direction.

The special attention which is paid to its goldsmiths' department enables it not only to undertake all special commissions, such as Presentation Vases, Loving Cups, etc., but also to offer to the Trade a complete line of such articles as most appropriately represent the very highest achievement of modern goldsmithing.

These include several specially attractive patterns in Men's and Women's Toilet Sets, as well as Manicuring Articles, Cigarette Cases, Match Boxes, Cigar Cutters, Pocket Knives, etc., etc.

THE conviction and imprisonment of Henri Lemoine, the alleged diamond maker, was a sad blow to those press agents in Europe and America who seem to have been engaged by parties interested in affecting the stock market for the sales of diamond mining companies' shares, by giving great publicity to Lemoine's alleged claims. However, in the language of the ring, "though they may be down they are not out," as is evidenced by the story given circulation last week to the effect that the French Academy of Sciences was investigating a "new secret process" for the manufacture of diamonds, the formula for which has been in the hands of the secretary for some time. This formula refers to a process based on electrolyzing carbide of calcium. We may now expect large operations by the stock jobbers to be preceded or followed by a number of stories speculating on the process supposed to be under investigation. Fortunately, however, the absolute exposure of Lemoine and his pretenses has put the public in a sceptical mood, and little attention is apt to be paid to such stories in the future, though there is little doubt that they will continue to come from time to time.

The best publication of its class is the one to advertise in, if you wish profitable returns.

the past week or so indicate that either the same pair, or another man and woman who work a similar game, have been active in that vicinity. The last note about them was received from an Indiana town, where they attempted to raise money on jewelry, but without success.

Members of the trade who may be called upon to express an opinion as to the value of the jewels offered in cases of this kind should be sure to make a very careful examination before giving their judgment, and at the same time warn their local merchants to use caution in dealing with the parties in question.

A Sharp Pair Operating Again. SOME time ago stories which appeared in THE JEWELERS' CIRCULAR—WEEKLY in regard to a man and his wife who were traveling around the country borrowing money on jewelry, with profit to themselves, led to the apprehension of the pair in Texas, where, after an interview with the chief of police of that city, the man is said to have agreed to quit these practices in the future. While there was nothing exactly illegal in the game worked by this man, it led to a number of banks and merchants finding themselves in possession of jewelry, given as security for loans, which the holders later found to be in advance of the amount they could realize on the collateral. This also caused considerable annoyance to certain jewelers who had been called in to give an offhand valuation of the property.

A Trade-Mark That Should Not be for Sale. A CIRCULAR sent out by a member of the trade in Chicago to the wholesale jewelers of the country, on the benefits of a trade-mark as a means of identifying products of known quality, and telling of the proposal of the American National Retail Jewelers' Association to adopt such a mark, seems to require some further explanation, either on the part of the man sending out the letter or from those in the association who may have authorized this man to do so; this because the circular and the agreement sent out with it would lead the casual reader to infer that the proposed trade-mark to be adopted by the A. N. R. J. A. will be controlled by one man, and that the condition requisite on the part of the wholesalers who seek to use it will be the payment to the man in question of one per cent. on all goods bearing the trade-mark that will be sold to the members of the national association (half of which is to go to the association). We have little doubt that some mistake has been made somewhere, and, if so, the impression that has gone abroad in relation to the matter should be quickly corrected, as it will in no way help in the movement for the adoption of an association trade-mark.

The man and woman, who appeared to be prosperous, would tell a plausible story of being called upon suddenly to put up ready cash, either for stock purchased or in some other business transaction, and would offer to the local merchants or bank their personal jewelry as collateral for a loan, showing what purported to be a bill of sale from a jewelry house at a figure far above the amount asked. The jewelry in question was set with a mass of off-color or defective diamonds, but mounted in such a way as to conceal the defects and give the articles the appearance of being far more valuable than they actually were. Often jewelers who were called in to examine the articles hastily agreed that the bill of sale about represented the value of the articles. Later, when the parties had disappeared from town and did not call for their jewels, the merchant holding them as collateral would try and realize on them and find that he could not do so except at a loss.

Should such a trade-mark be adopted as a means to protect the public by practically putting the guarantee of the A. N. R. J. A. behind the mark of quality on jewelry and kindred lines, every effort should be made by the organization to so safeguard the use of this mark that goods on which it appears will be absolutely safe lines for the jeweler to handle, and, above all, the public can rely upon them as being worthy of the guarantee of the jewelry trade in general, for such it will be. Under these circumstances the use of the mark should involve no condition which requires the payment of any sum or royalty to any individual, firm or official, or even to the organization itself; the only condition necessary for its use

For some time nothing has been heard of this pair and their operations, but dispatches received from the middle west in

(and its use should be open to all manufacturers or jobbers) should be an agreement with the association to the effect that the articles have been manufactured under such conditions or in accordance with such regulations as the association may provide, so that the organization can properly stand back of the representations as to quality, etc. To permit anyone to grant for a stipulated sum a license to use a mark that has the backing of the association would be a serious mistake and create a dangerous precedent, to say the least, because no matter how thoroughly the good faith of the organization in so doing could be established, the whole thing would look questionable to the trade at large.

It is in matters like this, as well as an "official organ," that the members of a representative association must be particular to see that their organization must be kept *above suspicion*, for even though such practices might be established in a way that would do much good, when worked out in good faith, nevertheless under different conditions they might later be used as instruments of blackmail and graft in the hands of unscrupulous officials, should any such ever be elected.

Toledo.

The Merrill & Broer Co. has just received the Gov. Judson Harmon loving cup, which has been presented by that gentleman to the Toledo Yacht Club.

Toledo jewelers are competing to furnish several large loving cups which are to be given as prizes in numerous events in connection with the King Wamba festival.

Norman Haskell, of J. J. Freeman & Co. has been appointed by the Toledo Chamber of Commerce a member of the committee on decorations in connection with the King Wamba festival.

Final disposition of the temporary injunction granted Isenberg Bros. against Sylvan L. Basch has been postponed till Fall. In the meantime existing conditions are to be continued.

J. Geo. Kapp is devoting considerable time, assisting in securing funds and supplies for "Romping Day" for the children of Toledo. Mr. Kapp has been interested in the movement since its start and is a member of several committees.

Henry Eells, who for several years was watchmaker for J. Prochaska, 109 Summit St., has purchased the refreshment concession of the Toledo Baseball Park. This new venture of Mr. Eells was brought about through a desire to be out of doors more, as many years of close confinement had weakened his health. Mrs. Eells will continue her china painting and decorating studio in connection with her home on Rosewood Ave.

The marriage of Miss Mary Ruth Locke, well known in the trade here, to Judge Silas Hurin, Findlay, O., took place last week. The ceremony was performed in Trinity Church of this city, by Rev. Mr. Hunter, the curate. After a wedding trip of several weeks in Nova Scotia, the couple will reside in Findlay. Miss Locke conducted a curio shop in this city for many years, giving special attention to old jewelry, furniture and antiques, and was in demand as a lecturer on these subjects.

New York Notes.

A. L. Willard expects to open a new store at 116 Gay St., Schenectady, soon.

A. James, Columbia, Tenn., was among the out-of-town jewelers in this city, last week.

Albert Pfeifer, of Albert Pfeifer & Bro., Little Rock, Ark., was a visitor in this city, last week.

I. Joseph, Hudson, N. Y., spent some time in this city, last week. From here he went to Asbury Park, N. J.

James Allan, Jr., Charleston, S. C., was in town, last week. He made his headquarters at the Herald Square.

Fred Roth, diamond buyer for M. Schussler & Co., San Francisco, returned to this city from Europe last week.

James H. Noyes, secretary of the Jewelers Security Alliance, 15 Maiden Lane, is spending a vacation at Christmas Cove, Me.

Leo H. Ludwig, of the Edwards & Sloane Jewelry Co., Kansas City, is a visitor in town this week. He made a trip to Asbury Park last week.

H. Bienenfeld & Son, diamond and gem setters, have removed from 71 Nassau St. to 102 Fulton St., where they have more commodious quarters.

J. K. Roumain, a jeweler at Baton Rouge, La., who is staying for the summer in Rhode Island, at his Summer home, was in this city a few days last week on business.

V. S. Mulford, of THE JEWELERS' CIRCULAR-WEEKLY, returned, Friday, on the *Lusitania* from a trip in Europe. During his sojourn abroad he enjoyed an automobile tour through England.

John H. Grant, of *The Kansas City Jeweler and Optician*, accompanied by his wife and child, who has been in the east since June 30 on a business trip for his paper, returned, Sunday night.

The semi-annual meeting of the managers and travelers of the Gorham Co. is being held at Providence, R. I. Representatives of the concern from San Francisco, Chicago, Boston and New York are in attendance.

Barnett Bros., importers of diamonds and makers of diamond jewelry, have moved into their new office at 71 Nassau St. G. & S. Barnett are the members of the firm. They have a Chicago office at 72 E. Madison St.

George H. Goodheart, who has been in business at 320 Fifth Ave., writes that the report published last week, stating that he had closed out his business, was incorrect, as he has only closed his office until September, and that following his custom he has opened a Summer branch at Watch Hill, R. I.

Catherine M. Seymour, the mother of C. W. Seymour, the blind stationer at 37 Maiden Lane, died, last Wednesday morning, at her home, Toms River, N. J. She was in her 72d year. Deceased is survived by two sons, Cassius W. Seymour and Wesley P. Seymour. Mr. Seymour's many friends in the trade extended their sympathy to him in his bereavement.

Hugh A. Bayne has been appointed receiver for the New York Export & Import Co., 133 Front St. It is reported that the company has checks for about \$20,000 re-

ceived in payment for goods, but could not deposit them in banks because the banks had taken possession of all deposits on hand for unpaid bills, and the company wish to turn over the checks to the receiver. It is said that the outlook for the business is favorable, as there are unfilled orders on hand for \$100,000 worth of goods.

The Jewelers' Protective Union is sending letters throughout the country to the different hotels, making inquiries relative to the facilities offered in protecting articles of value. The letter inquires into the safe accommodations, checking system for goods left in care of the hotels, and how packages and trunks are cared for when delivered to the hotels either before the traveler has arrived or after he has left. It is the intention of the Jewelers' Protective Union, when sufficient data has been gathered, to send out to its members lists containing the names of the hotels which offer the best facilities.

The Jewelers Security Alliance has received a letter from L. A. Boli, 323 High St., Hamilton, O., telling of the robbery of his store, which occurred last week. The burglars effected an entrance to the store by breaking a pane of glass out of the front door. They took 12 plain gold-filled rings, five two-set rings, six three-set rings, five signet rings, one lot of gold spectacle frames and a few cheap watches, the total value of which is estimated at \$100. The New York Umbrella Co.'s store next to the jewelry store was also broken into, but nothing of value taken. The police have arrested a man who they say has confessed to the robbery. The jewelry has been recovered.

By the gift of Mr. and Mrs. Frederiek S. Wait there has been added to the collection of medals at the Metropolitan Museum of Art two replicas of the special medal to Augustus Saint-Gaudens at the Pan-American Exhibition in 1901. This medal was designed by James Earle Fraser, a former assistant in Saint-Gaudens' studios. One side of the medal shows a very satisfactory head of Mr. Saint-Gaudens, the other side a figure representing Sculpture standing on the mountain heights with Pegasus passing by. The sittings for the head were given by Mr. Saint-Gaudens in Mr. Fraser's New York studio, and the model was completed at Cornish the year before Mr. Saint-Gaudens died. Among other accessions during the past month are a pair of glass vases, Bristol, late 18th century (gift of Mrs. Anna Bowers Cavarly); bronze medal, Nicholas Keder, Antiquary, Stockholm, 1659-1735, by J. K. Hedlinger, 1691-1771; bronze medal, Antonio Magliabecchi, Florence, 1633-1714, by A. D. Januario; silver medal, Second Austrian shooting festival at Innsbruck, by A. Busson and A. Scharff (gift of Mr. and Mrs. Frederick S. Wait); bronze cloisonné wine vessel, Chinese, Chou dynasty; six bronze vases and six bronze censers, Chinese, Ming or earlier period; vase, gold and enameled snuff-box, French, 19th century; gold and enameled musical box, Swiss, 19th century (bequest of the late Frances L. Wilson). The list of loans has been increased by the following objects: A Sultanabad bowl, Persian, 14th century (lent by Paul Dougherty); four

vases, experiments in pottery by Frederick Crane (lent by Frederick Crane); 26 base metal medals added to the Collection of Medallie Lincoliana (lent by Robert Hewitt); silver tankard, Copenhagen, early 18th century; silver ladle, Copenhagen, late 18th century; silver beaker, about 1750 (lent by Hon. A. T. Clearwater).

An application for an order directing David Mayer, 14 John St., to turn over certain property alleged to belong to the bankrupt or the proceeds thereof to the bankruptcy trustee of Sigmund Witzendbloom, has been denied by Referee Peter B. Olney in a voluminous opinion which was handed down recently. An involuntary petition in bankruptcy was filed against Witzendbloom, who was a dealer in watches and jewelry, in November, 1903. At that time a receiver was appointed and later a trustee elected. The trustee claimed that some time in October, 1903, Witzendbloom, being in need of money, went to David Mayer and delivered some jewelry, consisting of watches, diamonds, scarf pins and rings, and thereafter executed a mortgage on some real property. Witzendbloom claims that the understanding with Mayer was that he was to advance him \$500 on this security, and also claimed that after Mayer had obtained this jewelry and the mortgage security that he declined to make any advance of money, but applied the security upon notes of Witzendbloom which he (Mayer) held, which amounted in the aggregate to about \$500, and that Mayer surrendered the notes. The trustee in bankruptcy began an action against Mayer, claiming that he had received preference as a creditor, with the object in view of regaining possession of the articles that Mayer had obtained. The goods delivered in October, 1903, formed part of the articles in question in the proceedings brought by the trustee; the rest of the goods the bankrupt alleges he delivered to Mayer on Nov. 6, 1903, the day that he was served with a subpoena in the petition against him in bankruptcy. The matter came up for adjustment before Referee Olney and a large amount of testimony was taken on both sides. The referee in his opinion pointed out that the trustee must establish two principal facts—first, that the goods belonging to the bankrupt came into the possession of David Mayer, and, second, the identity or value of the goods, if the same had been disposed of. The referee says that after carefully examining the voluminous evidence in this case and considering the many remarkable features of this bankruptcy proceeding, he is unable to conclude beyond a reasonable doubt or beyond reasonable controversy that Mayer received in his possession the goods of the bankrupt as charged in this proceeding. The evidence offered in behalf of the trustee to identify the goods delivered and to establish their value is even less convincing and satisfactory. In conclusion the referee says that from the contradictory testimony it is impossible to determine the identity of the goods claimed to have been delivered or their value. His conclusion is that the motion of the trustee must be denied. I. Henry Harris represented Mr. Mayer in the case.

New York Notes.

(Continued from page 77.)

Maiden Lane, is spending his vacation at Greenwood Lake, N. J.

J. C. K. Crawford, a Pittsburg jeweler, is visiting his sister in this city.

L. W. Braum, of the S. Ruby Co., St. Louis, was a recent caller in town.

I. Ollendorff, 34 Maiden Lane, returned recently from a pleasure trip to Europe.

John F. Giering, a jeweler of Nazareth, Pa., made a recent trip to this city on business.

William Cooper, of Cooper & Forman, 3 Maiden Lane, is at present traveling in the West.

Mr. Mumford, Western representative for Williams & Payton, is in town for a few weeks.

A. Barsa, 35 Broadway, has opened a stall on the Boardwalk at Cape May, N. J., for the summer season.

Mr. Hurvitz, of Hurvitz Bros. & Blume, Rochester, N. Y., was among the out-of-town visitors last week.

Courtland D. Hastings, secretary of the Maiden Lane Realty Co., sailed Wednesday of last week on the *Adriatic*.

T. L. Coombs, who is the president of the Omaha Jewelers' Club, was in this city last week, a guest of local friends.

Henry Untermeyer, of Chas. Keller & Co., is at present on the Pacific coast, where he is showing the Keller lines.

Richard F. Spies, of Spies Bros., Chicago, is at present in this city, spending a few days renewing old acquaintances.

Horowitz & Kirschbaum, diamond setters, have established a place of business at 45 John St., where they have an up-to-date place for diamond setting.

A large uncut diamond is being displayed in the show window of a jewelry store at 180 Broadway. The stone weighs 78½ carats and is about one inch in diameter.

David Mayer returned Tuesday of last week on the *Kaiser Wilhelm II.* from a four weeks' sojourn in the European diamond markets. He reports business improving abroad.

The M. Banwar Co. has been incorporated under the laws of the State of New York to manufacture artistic metal work and fancy goods with a capital of \$5,000. The incorporators are M. Banwar, William Banwar and Sarah Banwar.

George Hilsinger, the New York representative for Irons & Russell, 13 Maiden Lane, returned Monday of last week from a 19 days' cruise in Great South Bay. Mr. Hilsinger was one of a party of 10 and reports a most enjoyable outing.

Aisenstein & Woronock, 22 Eldridge St., are remodelling and adding a new story and front to the building which they occupy. The new floor will be devoted exclusively to clocks. When completed the firm will occupy 7,000 square feet of floor space.

A discharge in bankruptcy has been granted to Benjamin Blazer, who formerly traded as the Blazer Jewelry Co. at 407 Broadway. The liabilities were \$7,435. An involuntary petition in bankruptcy was filed against this concern in February, and

the schedules in bankruptcy, which were later filed, showed liabilities of \$7,435 and assets of \$3,897.

The Elgin National Watch Co. has erected three enormous electric signs in Seattle, Wash. One is in the city of Seattle, another on the road to the Exposition grounds and a third at the grounds. The concern also has an elaborate booth at the Exposition.

Louis Zirinsky, of the firm of S. Zirinsky, jobbers in diamonds, watches and jewelry, 341 Grand St., has returned from a four months' stay in the mountains. Max L. Solomon, who is also connected with the same firm, left this week for a vacation trip to Albany, Saratoga, Niagara Falls and from thence through Canada to Portland, Me. He will return by way of Boston.

A hearing on the discharge in bankruptcy of Abraham and Isaac Lindo, who were formerly in business as members of the firm of Lindo Bros., will come up in the United States District Court Aug. 4, when creditors and other persons interested may appear to show cause if any why the firm shall not be discharged from bankruptcy, and also attend the examination of the bankrupt. Isaac Lindo is the surviving partner of the firm, which was adjudicated a bankrupt in May, 1908, and represents that he has fully complied with all the requirements for a discharge in bankruptcy.

The Moser & Whyte Co., which has been incorporated under the laws of the State of New Jersey, with an authorized capital of \$100,000 to engage in the diamond and precious stone business, as noted in a recent issue of this journal, has as its incorporators Max Moser, Howard Whyte and Joseph P. McLean. Mr. Whyte, in speaking of the incorporation, said that the business had been incorporated to facilitate its management. Both Mr. Moser and Mr. Whyte were formerly in the employ of R. A. Breidenbach and started on their own account some time ago in an office at 15 Maiden Lane.

The Board of United States General Appraisers last week held that Japanese curios of many kinds included in an importation made by Wing Tong Hing & Co., of Yokohama, were undervalued. When the goods arrived in this country the local officials, after inspecting the invoiced values, decided that the purchase prices of the articles were too low, and duty was accordingly exacted on the higher values deemed by the appraisers to be nearer the foreign market values. This resulted in an appeal by the importers to the Board of Reappraisal with the result that the Board declined to sustain the contention for the assessment of duty on the basis of the entered values. The only exception concerns lacquered boxes which the General Appraiser allows to enter at the prices invoiced. The other articles on which higher valuations are affirmed includes tortoise shell cigar cases, buckles, etc.

A report from Sag Harbor, the home of Joseph Fahys & Co., manufacturers of watch cases, states that Mrs. Russel Sage has expended more than \$50,000 on a playground at that place and has authorized other expenditures of very large sums. The

improvements include the laying of athletic grounds in Sag Harbor Park, and some of the recommendations approved for further improvement include the laying out of a tennis, handball, tether ball courts and other athletic courts and improving the present buildings. The public school to which she contributed very largely is now in use, and the present town of Sag Harbor enjoys the best educational features that are usually found in large cities. The many improvements also made by Joseph Fahys & Co. have added much toward making the town attractive to workmen and their families, and has also increased their comfort in every way. The Fahys concern seeks to do everything in its power to make the life of its employes as enjoyable as possible.

A petition in bankruptcy was filed last Wednesday against Michael, Korkemas & Co., wholesale dealers in dry goods, notions and jewelry at 40 West St., by the H. B. Clafin Co., \$836; London & Hyman, \$347, and David Shiff & Co., \$41. The firm was consolidated, Jan. 1 last, by Robert Korkemas & Co., who had been in business since 1897, and by M. & J. Michael, who had been in business since 1900, and who have since been interested in a store at Livingston, Tex. The liabilities are said to be \$68,000, of which \$18,000 is for merchandise and bills payable, including contingent liabilities for indorsement of \$50,000. The assets are placed at nominally \$130,000, consisting of stock, \$25,000; outstanding accounts and bills receivable, \$75,000, and equity in real estate, \$30,000. The firm, according to the books have a substantial surplus. It is said that the trouble is due to assisting concerns by indorsements. The members of the firm believe that if sufficient time is given they will be able to pay in full.

Importers of jewelry, diamonds and kindred lines in this city are interested in the action of Attorney-General Wickersham, who is insisting that the new Customs Court of Appeal, provided for in the administrative part of the new tariff, be located in Washington instead of this city. Customs officials, lawyers, importers and others who have direct interest in litigation say that inasmuch as about 90 per cent. of the customs litigations of the country arise over importations made at this port that the logical place for the new tribunal is in New York. It is argued by those opposing Washington as the home of the court that the expense of litigation would be greatly increased should the court be incorporated there. Many litigants, it is declared, would be unwilling to submit their case to less than a majority of the court, and this could not be done in many instances if it were in Washington, it is claimed. The proposed new Customs Court is to consist of five judges with headquarters in New York or Washington, and with jurisdiction all over the United States.

Notice of appearance was filed last Wednesday in the United States District Court by two creditors opposing the composition in bankruptcy of 50 cents on the dollar offered by Louis Shapiro. An involuntary petition in bankruptcy was filed

(New York Notes continued on page 80.)

New York Notes.

(Continued from page 79.)

against Mr. Shapiro, a wholesale jeweler at 12 John St., some time ago.

Louis Werkstell, 414 Court St., Brooklyn, has sold out to his father.

Kronstadt Bros. have removed from 451 Grand St. to larger quarters at 445 Grand St.

C. N. Gray, of the Jewelers' Board of Trade, is spending a two weeks' vacation at Jackson, N. H., in the White Mountains.

New York friends are pleased to learn that Charles V. Miller, a pearl dealer of Comanche, Ia., has been elected mayor of his home city.

The Brooklyn Optical Parlor has been removed from 123 Bushwick Ave. to 50 Graham Ave. M. T. Snitzer is the manager of the establishment.

Simon Adler, of Rosenbaum & Adler, 65 Nassau St., sailed yesterday on the *Kaiser Wilhelm II.* for Europe. He will be away about a month on a purchasing trip.

I. Ira Foster, representing Milton L. Ernst, 12 Dutch St., started on a two weeks' vacation last Friday, which he will spend among the Thousand Islands in the St. Lawrence River.

Among the out-of-town visitors during the past week was A. P. Dupius, jewelry buyer for Gimbel Bros., Milwaukee, Wis. He is stopping at the Hotel Broztell and has just returned from abroad.

Sam and Louis Jaskow, of Bodenheimer & Jaskow, 87 Nassau St., and George Klee, of Klee & Groh, Rochester, N. Y., returned the first of the week on the *Cleveland* from the European diamond markets.

Veit Hirsh, of Veit Hirsh & Co., will return from Europe about Aug. 3 on the *Kronprinzessin Cecilie* after having made extensive purchases in the diamond markets in Antwerp and Amsterdam.

De Loid Safford, secretary of the Jewelers Board of Trade, returned, the first of the week, from Narragansett Pier, R. I., where he attended the annual convention of the Commercial Law League of America.

A man who the police say is William Collins was arrested Saturday night on a charge of selling 'phony jewelry at Coney Island. He was locked up pending arraignment in the Adams St. Court. He denies the charge.

A. H. Gleason, of Hastings & Gleason, attorneys for the Jewelers Board of Trade, returned, last Wednesday, from a week at Narragansett Pier, R. I., where he attended the annual convention of the Commercial Law League of America.

The work of widening Fifth Ave. is progressing rapidly and last week workmen were cutting away a portion of the sidewalk in front of Tiffany's store. On the west side of the avenue, between 37th and 38th Sts., the widening has been completed.

George E. Feagans, of Brock & Feagans, Los Angeles, Cal., is in town and is stopping at Bretton Hall, 85th St. and Broadway. He is making his down-town headquarters with A. Roseman, 9 Maiden Lane.

He expects to be in the city for some time.

James L. Hand, the jewelry auctioneer, 14 Maiden Lane, has been selling all Summer in Canada, having conducted sales in Moncton, N. B.; Halifax, N. S.; Collingwood, Ont., and the Canadian Soo. He is now conducting a sale for E. F. De Foe in Port Arthur, Ont.

Complete figures of the 1909 trade in diamonds show, according to the report supplied by the Bureau of Statistics of the Department of Commerce and Labor, that for the 12 months ending June, 1909, \$24,100,000 worth of diamonds were imported into this country as compared with \$13,800,000 for the 12 months ending June, 1908.

The Jewelers Board of Trade reports that a meeting of creditors of Nathan Roff, a Chicago jeweler, was held Monday. It is reported that Mr. Roff is offering 15 cents on the dollar in settlement of claims. He says that in June his store was robbed and this crippled him financially. His assets are represented as about \$400 and liabilities about \$2,000.

Friends in the trade are extending sympathy to Charles P. Goldsmith, of C. P. Goldsmith & Co., 87 John St., because of the death of his wife, which occurred Tuesday of last week. The funeral services were held last Thursday at 10 A. M., at the late residence of the deceased, 72 Hamilton Terrace, corner of W. 144th St. Her death resulted from an operation.

Madison Square's daily throngs are happy again since the restoration of the old Fifth Avenue Hotel clock to the identical spot where it ticked time for the public for more than 50 years. To keep pace with the times the clock has a brand-new face, and the post and frame have been re-bronzed and burnished; otherwise it is the same old clock by which hundreds of thousands of New Yorkers have set their timepieces for half a century.

Wm. Robelin, a brakeman on the Long Island Railroad, picked up a forgotten handbag the other day. It contained gems valued at \$30,000, together with some money. According to reports in the daily papers, Mrs. Schwab's husband is in business in the Maiden Lane district as a jeweler, but this could not be verified. Robelin was offered \$100, a two weeks' vacation, an outfit of clothing and an offer of employment for life at \$100 per month, because of his find.

Retter & Rosenbaum are offering to settle with creditors at 30 cents on the dollar. They are located at 266 Bowery and have been in business there for some time. Retter was formerly in the employ of Max Fineman as a salesman. Rosenbaum was previously in the employ of J. Ebold as a salesman for two years, and before that time in the employ of A. Spcagle & Co. The stock was recently attached by Jacob J. Schinnskler and has been sold out by the City Marshal.

Wm. C. Penfold, formerly of the Wm. C. Penfold Co., and M. T. Leary, who for the past three years has been manager and designer for the Rhode Island Novelty Co., have bought the goodwill and interest, dies and tools belonging to the Rhode Island Novelty Co. and will manufacture a line of gold filled jewelry under the firm name of

Leary & Penfold. The factory has been removed from 7 Beverly St. to 59 Page St., Providence, R. I., where the concern has rented commodious quarters. Mr. Leary will have charge of the factory end and Mr. Penfold will represent the company in the east. The concern hopes to open a New York office shortly after Aug. 1.

The Gorham Co. has on exhibition at its Fifth Ave. store bronze memorial plaques commemorative of the Hudson-Fulton Memorial celebration, which is to be held on the Hudson this Fall. The Fulton, plaque has a likeness of Robert Fulton below which is a representation of the first steamboat, the *Claremont*. About the figure of Fulton is the inscription "Robert Fulton Centennial Celebration," and below the steamboat is inscribed "First Successful Steamboat." The Hudson plaque shows a likeness of Henry Hudson, and beneath his likeness is the *Half Moon*, underneath which appears the inscription "Discovery of the Hudson River." The plaques are done in bas-relief and are most attractive.

The New York police have been asked to help trace thieves who stole jewels valued at \$500,000 from the Café Monaco, Piccadilly Circus, London, on June 2. A circular describing the property was received last week. F. Goldschmidt, a dealer in gems, is the name of the owner. He lost 1,529 pearls, 16 sapphires in one ornament, 22 in another; 3 large diamonds, and 7 rubies. In the handbag which held the jewels were also five ten-pound notes, issued on April 14, 1908, by the Bank of England. The circular is signed by Frank Beaumont Price, of Price & Gibbs, assessors, 14 Corn Hill, London, acting for Lloyds and other insurance societies. A reward of \$5,000 is offered for information leading to the arrest and conviction of the thieves and recovery of the jewels. E. R. Henry, commissioner of the metropolitan police, also signed the circular.

Miss Eleanor Laurine Beattie, who it is alleged obtained a quantity of goods from the Gorham Co., 36th St. and Fifth Ave. under false pretense and who departed for Europe soon after, was brought before Sir Albert de Rutzen, in the Bow Street Court, London, last Saturday morning, upon an application for extradition made by Arthur Barrat, counsel for the American Embassy. It is reported that Miss Beattie has retained able counsel and is expected to make a determined fight to defeat the extradition proceedings. Detective Flood of the New York District Attorney's office is in London with a full transcript of evidence against her and feels confident that she cannot escape. She was arrested on her arrival in England by means of a pencil sketch which a clerk made of her while she was at the Gorham store making purchases under the alleged false representation.

Louis A. Moser has purchased the interest of F. G. Moser in the firm of Moser Bros., 170 Broadway, and will conduct the business in the future at the same address.

F. S. Waterman, of the L. E. Waterman Co., will attend the American National Retail Jewelers' Association convention at Omaha, Neb., Aug. 2 to 6. Mr. Waterman

is a native of that section and, therefore, will enjoy meeting his many old friends in the trade who will attend the convention.

Gustavus Sickles, of the Eastwood-Park Co., and Henry Ziruth are at present in the New England territory.

Ben Roth, a Chicago, Jeweler, returned to this city, Sunday, on the *George Washington* from a trip to Europe.

Thomas L. Elder, a coin dealer, 32 E. 23rd St., will issue, in a few weeks, two dollar-sized gold tokens of 18 karat gold, to commemorate the first navigation of the Hudson River by a European vessel, and the navigation of the Hudson River by the first steamboat. These tokens will be from designs of Frank C. Higgins, president of the New York Numismatic Club. In the first of these pieces the obverse bears a portrait bust of Hendrik Hudson, and on the reverse is shown the "Half Moon," with the inscription, "Nieuw Amsterdam 1 Dallder." The second piece shows upon the obverse a full-face portrait of Robert Fulton, and on the reverse is shown the steamboat Clermont, surrounded by "New York to Albany," and below, "One trip," above which is "Clermont."

Trans-Atlantic Voyagers.

TO EUROPE.

A. C. Kirberger, Warren, Pa., sailed, July 20, on the *Kaiser Wilhelm der Grosse*.

Simon Adler, of Rosenbaum & Adler, New York, sailed, yesterday, on the *Kaiser Wilhelm II*.

Courtland D. Hastings, secretary of the Maiden Lane Realty Co., New York, sailed on the *Adriatic*, Wednesday of last week.

FROM EUROPE.

Ben Roth, Chicago, returned, Sunday, on the *George Washington*.

David Mayer, New York, returned on the *Kaiser Wilhelm II*, last week.

Veit Hirsh, New York, will return, Aug. 3, on the *Kronprinzessin Cecilie*.

V. S. Mulford, of THE JEWELERS' CIRCULAR-WEEKLY, New York, returned, Friday, on the *Lusitania*.

Sam and Louis Jaskow, of Bodenheimer & Jaskow, New York, and George Klee, of Klee & Groh, Rochester, N. Y., returned, the first of the week, on the *Cleveland*.

Millard F. Davis, Wilmington, Del., was the successful bidder for a design for the silver service which the people of that State are to present to the battleship Delaware. The decision of the committee was unanimous, the award being made on motion of Judge George Gray, who is a member of the committee. The design consists of 10 pieces and will cost \$8,000. There will be some slight change in the ornamentations, which will be suggested by Artist Howard Pyle. The service will consist of a centerpiece, punch bowl, ladle, tray, two candelabra, coffee urn, tea urn and two water pitchers. The punch bowl and centerpiece will be ornamented with the coat-of-arms of the State, American eagle, peach blossoms and portraits of Jones and Macdonough, Delaware's naval veterans. The bowl will weigh 700 ounces and will cost \$2,400. A sugar bowl, cream pitcher and several other pieces are to be added.

Newark.

A. O. Burgess, of J. S. & S. W. Granbery, has returned from a trip to Providence, R. I.

Leon Carteaux and George Bissell, of J. Milhening, Inc., Chicago, were in Newark during the week, looking over the field.

Raffaele Ferraro, one of the designers of the Osmer-Dougherty Co., died suddenly, last Friday night, after a short illness, covering a period of one week.

Mr. Gregory, of Strobell & Crane, manufacturing jewelers, is on an extended trip through the west. He reports the outlook for the Fall trade encouraging.

Mrs. Mary Allen has announced the engagement of her daughter, Miss Ada, to Harold P. Schoonmaker, youngest son of Samuel Schoonmaker, a jeweler of Paterson, N. J.

Frank M. Schiner, of Adolph Rosenberg, a manufacturing jeweler of 50 Columbia St., has just returned from a successful western trip. He will leave for the east in a short time.

Joseph Mason, who was formerly a member of the Davies-Mason Co., has begun the manufacture of a line of fine 14-karat jewelry at 38 Crawford St. He reports that he is having very fair success in the making of special orders and in repair work.

S. W. Granbery, of J. A. & S. W. Granbery, finished second in the big race from New York to Marblehead, Mass., with his yacht, *Irene II*. Some of the fastest yachts sailing American waters were entered, and Mr. Granbery's victory is considered a notable achievement by Newark yachtsmen. He is now cruising back.

Sensational developments are unfolding in the case of "Dr." Herman Sachs, proprietor of a Brooklyn jewelry shop, charged with perjury in connection with giving a bail bond for Vincent Shevlin, a notorious crook and murderer. Sachs was last week removed from the Tombs in New York, and lodged in the Hudson County jail. His bail was fixed at \$10,000, which he was unable to secure. Sachs is an old man, enfeebled by years, and many believe he has been the dupe of the so-called "criminals' liberation agency," which started operations in Newark and surrounding cities some time ago. Harry Sachs, a stepson of the aged optician and jeweler, is being sought by the detectives. Joseph Silver, son-in-law of Sachs, is trying to raise the required bail, and declares that when all the facts are known it will be seen that Mr. Sachs never intended any wrong.

Wholesale swindling by means of fraudulent pawn tickets has caused much trouble for pawn brokers and jewelry shop owners in Atlantic City the past week. Posing as visitors, who have spent their money in cafés, about a dozen slick swindlers from Philadelphia and New York disposed of a score of pawn tickets, good, they said, for jewelry pawned to provide funds for a holiday. They accepted any sum they could get for the tickets, and when the purchasers paid over money to redeem the supposed valuable pledges, it turned out that the trinkets

were worth less than half the claimed valuation. Many victims made a complaint when they found how they had been taken in, and the police had to be called out in a number of cases.

Funeral services of an unusually impressive nature were held Monday of last week over the body of Clarence A. Peterson, son of Peter A. Peterson, the well-known jeweler of 344 North Broad St., Trenton. Young Peterson, who was 23 years old, has been an invalid all his life, and on account of being deprived of the use of his limbs his education has been looked after by his father and mother. His father gave a Bible reading at the obsequies of his son. Mr. Peterson supplemented his reading with a short funeral oration. The regular funeral services were conducted by Rev. J. B. Lanning, of the Messiah Church, Philadelphia. Interment was in Greenwood Cemetery.

Albany, N. Y.

The Schenectady Electric Clock Co., Schenectady, has been incorporated with a capital stock of \$10,000. The directors are James R. Dyke, Jr., Charles D. Knight, Frank J. Seabolt and Edward C. Hall, all of Schenectady.

H. W. Antemann, a manufacturing jeweler, 23 James St., reported to the police, last week, that he had been robbed of a valuable diamond ring by a man who visited his establishment, July 19. The stranger asked to see some diamond rings, and appeared to be familiar with jewelry and gems, examining the latter with a critical eye. He left without purchasing, and immediately thereafter a ring was found to be missing. It was reported that the ring stolen was valued at \$1,000, but this Mr. Antemann would neither deny nor affirm. The jeweler gave the police a good description of the stranger and it is expected that he will soon be found.

Jacob Betar, 17 years old, and Thomas Kane, 20 years old, were in the Police Court, July 17, to answer the charge of robbing the store of E. J. Peters, a note of whose burglary appeared in the last issue of THE JEWELERS' CIRCULAR-WEEKLY. Mr. Peters charges the boys with burglary in the third degree and grand larceny in the second degree, and claimed that they had gotten away with about \$75 worth of cheap jewelry and watches. About 11 watches, five chains, fine rings and alarm clocks, as well as other articles, have been recovered from pawn shops. The police are looking for a third boy who pawned these. Both boys arrested pleaded not guilty.

Three young men were found, early Wednesday morning, in the doorway of Miller Bros. jewelry store, 60 S. Pearl St., and were taken into custody by the police on suspicion that they were about to rob the establishment. When Mr. Miller arrived at the store later he found he could not insert his key in the lock, as a knife had been broken off inside the keyhole. The piece of the knife taken from the lock, the police claim, fitted exactly on a broken blade of a knife of one of the prisoners. The men, who describe themselves as Walter Goodard, New York; William Scott, Albany, and John Burton, Boston, denied any wrongdoing, but were locked up.

Providence.

Benjamin Wyman, of this city, was a visitor in New York the past week.

A small shop at 85 Sprague St. is for rent by the Cook-Dunbar-Smith Co.

LeFavour H. Bosworth, secretary of the Potter & Buffinton Co., is on his vacation.

W. Hunter Brown, of Brown & Mills, was a visitor in New York the past week.

B. A. Ballou & Co., Inc., of this city, have recently established an office at Chicago.

The C. E. Hancock Co.'s shop in the Manufacturers' building, was closed the past week.

W. Louis Frost is on the annual cruise of the Rhode Island Yacht Club in the *Medric II*.

Mr. and Mrs. A. Tingley Wall returned the first of the week from a visit to Buffalo, N. Y.

George H. Holmes, of G. H. Holmes Co., arrived home Saturday morning from a visit to Europe.

E. L. Leavett, with the Manufacturing Jewelers' Board of Trade, will leave, Aug. 1, on his vacation.

J. Schwarskopf & Co., in the Manufacturers' building, 7 Beverly St., has closed down the past week.

Mr. and Mrs. Thomas Tarbox left Friday by automobile for a trip through New England to Bangor, Me.

Mrs. George H. Holmes and Miss Ruth Holmes, of this city, were registered at Paris early the past week.

H. Jalbert, of Jalbert & Farrington, Woonsocket, was a caller upon the trade of Boston the first of the week.

Arthur Henius, of the Bruhl Bros. & Henius Co., has been elected a member of the Providence Board of Trade.

A regular quarterly dividend of one per cent. on the common stock has been declared by the Silversmiths' Co.

G. William Reisner, Lancaster, Pa., a manufacturer of college jewelry, etc., was a visitor in this city the past week.

The E. A. Eddy Machinery Co. is having a record demand for bench power presses from manufacturing jewelers.

The Brownell Machinery Co., dealers in jewelers' machinery will move from 21 Exchange Pl. to 11-13 Eddy St., about Aug. 1.

Miss Delia Heroux, buyer in the art department of the Harris & Mowry Co., Woonsocket, will be married, Aug. 2.

A. B. Paulsen, Chicago representative of the Waite-Thresher Co., of this city, is enjoying his vacation at Lauderdale Lake, Wis.

F. N. Vaslet, in charge of the Fletcher-Burrows Co.'s New York office, was a visitor at the factory in this city the past week.

Mr. and Mrs. George H. Cahoone, of this city, accompanied by their daughter, were announced as arriving in Paris on July 20.

N. K. Zigayer was in this city last week looking at goods and placing orders to be shipped to the United States Jewelry Co., Montreal.

Clarence Roehr, in charge of the Chicago office of the Bassett Jewelry Co., of this city, has been visiting the factory the past week.

Edward Gilbert, who has severed his connection with F. S. Gilbert, Attleboro, has taken a position with the Shepard Co., of this city.

Charles E. Sandland, for several years in the enameling business in this city and North Attleboro, has again started in the latter place.

J. A. Limbach, who represents the Theodore W. Foster & Bro. Co., of this city, in the west, has been spending several days at the factory here.

Major Horace L. Manchester has been appointed by Adjutant General Sackett, of the Rhode Island Militia, as a member of an important court-martial board.

R. Bernhardt, Pacific Coast representative for Brown & Mills, of this city, left Chicago the first of the week for an extended trip through the northwest.

Frank T. Barton, western representative of George N. Steere Co., Pawtucket, and of Fontneau & Cook Co., has been visiting the factories of the two firms.

J. Shartenberg, of the Shartenberg & Robinson Co., Pawtucket, was admitted to membership in the Motor League of Rhode Island at the meeting Thursday evening.

H. E. Bradley, Greenwood, R. I., has been granted a patent on a drill socket which he has assigned to the Morse Twist Drill & Machine Co., New Bedford, Mass.

Franklin N. Wood, who has been assistant manager of the Providence office of the Jewelers Board of Trade, 409 Union Trust building, has been advanced to full charge of the office.

Englehardt C. Ostby and Arthur O. Ostby, president and factory manager, respectively, of the Ostby & Barton Co., returned home the past week from a trip in Europe of several weeks.

John Kelso has placed an attachment for \$400 on four lots and buildings on Camp and Cypress Sts. and a lot and buildings on the southerly side of Abbott St., belonging to Albert E. Lenz.

Frederick G. Bohen, Chicago, has arranged with the Cutler Jewelry Co., of this city, to carry its line the coming season, in addition to that of Dunn & Rodenberg, also of this city.

Frank W. Young, with the W. S. Hough, Jr., Co., recently returned from his vacation and surprised all his friends by introducing them to his wife, he having been married during his absence.

Horace M. Peck represented the Manufacturing Jewelers' Board of Trade at the meeting of creditors of S. M. Shore, Boston, in that city, the past week, when Frederick L. Norton was appointed trustee.

The petition of heirs of Otto C. Lenz that the Rhode Island Hospital Trust Co., of this city, be appointed administrator of his estate, he having died intestate, will be heard in the Municipal Court on Aug. 10.

Mayor Henry Fletcher, of the Fletcher-Burrows Co., returned Tuesday from a 10 days' trip to New York, up the Hudson, to Niagara Falls, thence to Montreal, and homeward by way of the White Mountains.

The case of George W. Dover against Alexander White was called before Judge Rueckert in the civil session of the Sixth District Court, last week, and on motion

judgment for the plaintiff was entered for \$17 and costs.

Charles E. Hancock, of the Chas. E. Hancock Co., is spending a vacation at his Summer home on Lake Winnepesaukee, N. H., where he has as his guest E. E. Weller, who occupies a confidential position with the firm.

Joseph Straker, this city, has purchased two lots of land on Colburn St., in North Attleboro, where he expects to build with the intention of making his permanent home. He is the father of Herbert J. Straker of that town.

Raymond Hayden Shepard, a salesman for the Gorham Co., will join the ranks of the Benedicts in a few days, announcement of his approaching marriage to Miss Lena Florence Winslow, of Portland, Me., having been recently made.

The Slade Tubing Co., manufacturers of brass and copper seamless tubing at 102 Broad St., Pawtucket, have sold their entire property to the Slade Tubing Co., of New York, which will assume all the liabilities and obligations of the old firm.

The town of North Providence has denied the petition for tax exemption for a proposed three-story brick mill to cost approximately \$100,000, as an addition to the Allendale Mill, now owned by Henry A. Kirby, the manufacturing jeweler of this city.

The Metal Products Corporation began Saturday moving from 36 Garnet St. to its new factory building on Thurber's Ave. It is planned to move the plant department by department and to have each set up and ready for operation before tearing another apart.

Manuel F. Williams, of M. F. Williams & Co., and family, have returned from a 1,100-mile automobile trip through Western Massachusetts to the Catskill Mountains, down the Hudson River to New York and Coney Island, and returning through Southern Connecticut.

L. W. Howland and Herbert Hickok, of Howland, Hickok & Davis, were in this city the past week, calling upon the manufacturers. This is a new concern located at Chicago, Messrs. Howland and Hickok having been associated previously with Morris, Mann & Riley, of that city.

Alexander McConnell was before Judge Gorham, in the Sixth District Court, on Tuesday, charged with the larceny of articles valued at \$1.38 from Frederick M. Kirby. He pleaded guilty and was fined \$20 and costs, in default of which he was committed to the Providence County Jail.

Philip Fain, 310 Atwell's Ave., who carries a small line of jewelry of cheaper grades in connection with general merchandise, has made an assignment to Jacob K. Feiner. No statement as to assets and liabilities has been made, but Mr. Fain says he believes the assets will be sufficient to pay about 25 cents on the dollar.

The Mackenzie-Walton Co., manufacturers of seamless wire and tubing, is settling in its new factory at 478 Pawtucket Ave., corner of Geneva St., Pawtucket, having removed thereto from Westfield St., this city, the past week. The new factory is of two stories, of brick, and is 130 feet in length and 80 in width. The first floor is

to be used for the manufacture of seamless wire and tubing and the second floor will be utilized later for an undeveloped branch of the business.

Among the buyers registered at the Naragansett and Crown hotels in the city during the past week were: Charles M. Ruhmin and J. M. Tuttle, buyers for Hyman, Berg & Co., Chicago; E. C. Denny, of Denny Jewelry Co., Kansas City, Mo.; S. Davis, of Simon Davis & Co., Pittsburg, Pa.; H. J. Meyer, of the Emporium, San Francisco, Cal.

The employes of the Belcher & Loomis Co. left the city at 1:15 o'clock Saturday afternoon for their annual outing at Crescent Park. Two special cars were filled with the 125 employes and their families. As soon as they arrived at the park a dinner was served in a private dining room. After the dinner games of various kinds were in order.

Clarence M. Dunbar, of the Cook-Dunbar-Smith Co., as custom done, will lead the annual cruise of the Rhode Island Yacht Club the current week up Long Island Sound to Stonington, New London, Watch Hill and to Block Island and Newport. Aldridge E. Pearce, of Frank T. Pearce Co., accompanies him as fleet captain and Arnold C. Messler as his guest.

The efforts that are being made to utilize the jewelry workers and manufacturers in this city as the result of the recent meeting of the international executive board here are said to be progressing satisfactorily. It is claimed that the sentiment is now much stronger for organization than it has ever been before, and the claim is put forward that there is more necessity for present organization because the cost of living is so much higher and that the increase in these costs has been greater than the advance in wages.

An injunction has been obtained by Jennie G. Maintein, wife of William F. Maintein, manufacturing jeweler at North Attleboro, against the sale of two lots of stock held by the bankrupt brokerage firm of Lewis H. Tappan & Co., of this city. Mrs. Maintein claims that the shares, though in Mr. Tappan's name, were her property instead of the assignee's. These lots, 100 shares of Davis-Daly Copper Co. and 100 shares of Rawhide Coalition Mines Co., were withdrawn from the auction sale held Friday. A hearing on the injunction will be given July 29.

The dies, tools, machinery, good will and interest, etc., of the Rhode Island Novelty Co., have been purchased by M. T. Leary, who has been the manager and designer for this concern for some years past, and Wm. C. Penfold, formerly of the Wm. C. Penfold Co., of New York and Philadelphia. The name of the concern has been changed to Leary & Penfold and the office has been removed from 7 Beverly St. to 59 Page St. Mr. Leary will have charge of the manufacturing end and Mr. Penfold will represent the company in the east.

Among the foreign importations received through the Custom House at Providence during the past week were the following: From Bremen—One package of manufactures of metals; one of jewelry and six of imitation precious stones.

From Hamburg—One package imitation precious stones and four of manufactures of silver. From Havre—Two packages imitation precious stones. From Liverpool—Six packages manufactures of metals. From London—One package imitation precious stones. From Southampton—One package of celluloid.

With their enthusiasm and expectations keyed to the highest pitch, the employes of L. Dimond & Sons, Inc., held their first annual outing and field day at Vanity Fair on Friday afternoon. Nor were there any disappointments when the day was over. The air was fairly rent by the deafening uproar from the horns, bells and throats which echoed from the six trolley cars and five aut mobiles that set forth from Exchange Pl. at 1 o'clock with the excursionists on board. The first thing on the programme after the rest it was reached was a shore dinner, following which a long list of athletic events and dancing held the attention of the excursionists.

Hanlon & Thornton, manufacturing jewelers, at present located at North Attleboro, will surely locate in Woonsocket, R. I., and have so notified their attorney in the latter city, William G. Rich. Land has been purchased at the corner of Diamond Hill Road and Peter's St., and work on the new structure will be commenced as soon as possible. Plans for the proposed building are now under consideration, and it is expected that these will be ready in a short time. The firm was granted exemption from taxation for a period of 10 years some time ago by the Woonsocket City Council. As the firm was offered inducements to remain where it is now located, as well as to locate at Chicago, New York, Newark and Kansas City, there was some doubt for a while as to whether the Woonsocket proposition would be accepted. The land at Woonsocket, upon which the firm's new building will be erected, was sold to the concern for a nominal sum, and this, with other inducements, resulted in the firm officially notifying the city that it would locate there. By request, the firm has agreed to increase the capital stock \$7,000 on the common and \$3,000 on the preferred in order to enable several residents of Woonsocket, who expressed a desire to purchase some of the stock, an opportunity to do so. At a recent election by the stockholders John Daly, of Pawtucket, was chosen president, and Michael F. Hanlon, treasurer of the corporation.

North Attleboro.

J. J. Sommer left last week for the West.

The A. H. Bliss Co. closed Saturday for two weeks.

S. G. Mandalian has returned from a Western trip.

Frank Bloomer, with E. I. Franklin & Co., is at the factory.

Frank Kennedy, New York salesman for the Paye & Baker Mfg. Co., was in town last week.

George K. Webster has purchased Marks Island in Lake Winnepiseogee, N. H. The island is in the center of the lake and is

about 500 acres in area. Mr. Webster will probably make this his Summer home in the future.

Clarence Elliott, of Maintien Bros & Co., was in New York last week in the interest of his firm.

Harry Fisher, of Furbush, Swift & Fisher, has returned from Camp Ellis, Bald Mountain, Me.

John Thompson, of the Thompson & Remington Co., is enjoying a vacation at West Harwich.

W. Matheram, salesman for Frank M. Whiting & Co., is in New Orleans with his wife on their wedding trip.

Donald LeStage, with the H. D. Merritt Co., has been entertaining friends from Grant's Mills for the past week.

Walter Daboll, with the G. C. Hudson Co., was married last week to a Providence lady and will make his home in Brooklyn.

Fred E. Sturdy, of the J. F. Sturdy & Sons Co., resumed charge of the New York office last week after a trip to New Hampshire.

Orin W. Clifford, of the G. K. Webster Co., received word last week of the death of his brother Stephen, who passed away at his home at Pocasset, Mass.

Fred M. Cook, salesman for Whiting & Davis, is enjoying a vacation at Lake George. Frank E. Whiting is in charge of the New York office for a few weeks.

The second meeting of the creditors of the Miller, Fuller & Whiting Co. was scheduled to be held to-day, July 28, at Taunton. The largest creditor is the Manchester (N. H.) Bank, which has a note of \$5,000.

Charles E. Sandland, who was several years ago an enameler of jewelry and silver goods in North Attleboro and later in Providence, has started in business again in the shop recently vacated by the Bishop Co., High St.

For the first time in a number of years almost every shop in town will close from July 31 to Aug. 9 for the annual vacation. Only two firms will run during this period, these shops having taken their vacation a few weeks ago.

The members of the H. F. Barrows Co. packing room enjoyed a few days' stay last week at the Barrows cottage at Warcham. Donald Barrows, of this company, has been elected treasurer of the Oxford Club. Curtis Reed, representative of H. F. Barrows Co., returned home last week from a successful trip.

The Hanlon-Thornton Co. has purchased a site in Woonsocket for its new building, and all possible haste will be made toward the erection of the factory. Upon the completion the concern will move from its present quarters in the Whitney Building. The capital stock of the company will be increased \$10,000 to give Woonsocket people a chance to invest.

Leon Nordman, Portland, Ore., vice-president and general manager of the Nordman Bros. Co., has severed his connection with that concern. Mr. Nordman expects to engage in the general jewelry jobbing business next Spring in Portland. He will go east in January to purchase stock for his store.

Attleboro.

C. J. McClatchey, of Horton-Angell Co., spent last week at Oak Bluffs.

H. A. Sadler enjoyed an outing last week with his family at Matunuck.

Moore Bros. are now located in the concrete building of the Tappan Bros.

Earle Viall, salesman for the F. H. Sadler Co., was at the factory last week.

Jacob Heilborn, of the C. H. Eden Co., has gone to Europe for his vacation.

William F. McGowan, salesman for Barnden & Hull, has resigned his position.

W. H. Wilmarth & Co.'s factory closed Saturday for one week for the annual vacation.

Charles Parker, representative of Bates & Bacon, is enjoying a sojourn in Connecticut.

C. M. Wentellstein and family are enjoying a two weeks' vacation at Boothbay, Me.

Fred T. Barton, Chicago representative for the Fontneau & Cook Co., was at the factory last week.

C. D. Lyons, of the C. D. Lyons Co., Mansfield, was in New York last week in the interests of his concern.

Thomas Heath has moved his die-cutting shop from the Snell building to the new addition of the Bates & Bacon Building.

S. O. Bigney has donated a trophy and other prizes for a shooting match at the Bay State range Friday, to be known as the Bigney Match.

A. M. Chadhorne, salesman for the James E. Clarke Co., was at the factory last week and before returning West will enjoy his annual vacation.

Thomas Heath has been granted a design patent on a handle for spoons, etc., which he has assigned to the Watson & Newell Co.

The new addition to the Bates & Bacon Building has been completed and is now occupied on the first two floors by Bates & Bacon and the basement by Thomas Heath.

The contract for the Mossberg Co.'s new factory will be awarded in a few weeks and will be ready for occupancy in November. The building will be of brick and concrete.

The Charles M. Robbins Co. was awarded the contract to furnish the souvenir badges for the 90th anniversary field day of the Rhode Island Independent Order of Odd Fellows.

Mr. Edward, superintendent of the Standard Button Co., is enjoying himself in New York. George Fleming, New York salesman for the company, was called back home last week from his vacation because of his mother's illness.

The employes of the Frank Mossberg Co. and the Attleboro Mfg. Co. enjoyed a day's outing last Saturday at Boyden Heights. Athletic sports were enjoyed, a ball game from nines picked from both shops was played.

Raymond Hayden Shepard, a former resident of Mansfield and now a member of the traveling staff of the Gorham Co., Providence, was married yesterday (July 27) to Miss Lena Florence Winslow, of Portland, Me. The wedding took place at the home of the bride.

The force of traveling salesmen employed by the Charles M. Robbins Co. held a banquet last Thursday evening in one of the private rooms of the "Hof-Brau," Providence. They formed a jolly party of 17 and addresses were made by Richard S. Redfield, D. B. McIntire, Frank A. Chace, Jr., Charles H. Perry, Fred Schwirm and L. C. Hast. Mr. Chace's address was on "Duties of the Traveling Salesman to His Employers." Mr. Perry spoke on "The Growth of the Jewelry Trade in the New England States." Mr. Redfield, who travels through the Southern States, told a "possum" story. A duet was sung by Mr. McIntire and Mr. Hast, entitled "Please Pass the Peas," which was received with great applause. The party returned to Attleboro on the late train in very good humor.

Boston.

W. E. Crocker is enjoying his annual vacation on the North Shore.

Redmond Murphy started, Monday, on a business trip through New England.

C. E. Huggins has returned from a two weeks' cruise along the coast of Maine in his yacht *Primrose*.

J. S. Glover, of Stanton & Glover, has been enjoying a month's vacation with his family at their Summer home in Camden, Me.

The *Sally X.*, Lawrence F. Percival's yacht, in the sander class, finished second in the Corinthian race at Marblehead, last Saturday.

Conover Fitch, on board the *Chanticleer*, has been with the Eastern Yacht Club on its annual cruise along the Maine coast, the past week.

M. J. Atherton has a contract with Suffolk County to furnish eyeglasses for the inmates of the various penal institutions at Deer Island.

M. Myers started, Monday, for an extended trip of the northwest. He will be absent nine weeks, and will in that period cover a greater area than on former business visits in that territory.

Jonathan Burpee, Vancouver, B. C.; Frederick C. Gould, Dedham, and a large number of students from the Massachusetts Institute of Technology, were among those who made an inspection of the Waltham watch factory, last week.

The Boston Clock Co., of this city, has been incorporated to manufacture and sell clocks, with a capital of \$5,000. The officers are: President, Walter E. McGraus; treasurer, Charles H. Pearson; clerk, William H. Neagle, all of 16 State St., Boston.

The Columbia Jewelry Co., Cambridge, has been chartered to manufacture and sell jewelry, with a capital of \$28,000. The officers are: President, John J. Vians, 185 Massachusetts Ave., Arlington; treasurer and clerk, Frank E. Vians, 12 Day St., Cambridge; attorney, Frank McDermott, 2076 Massachusetts Ave., Cambridge.

Among the jewelers in town, last week, were: A. E. Pero, J. Lajoie and R. A. Lohnes, Worcester; W. F. Newhall, Lynn; Starr C. Hewitt, Salem; L. Mayhew, New Bedford; Clarence Lee, of W. S. Lee, Salem; J. H. Conner, Lynn; B. D. Loring,

Plymouth; John Brightman, Southbridge; J. P. Farrington, Kingston; H. P. Dahl, Maynard; R. M. Cook, Marblehead; Mr. Herbst, of Swop & Herbst; Mr. McLeod, of Woodbury & McLeod, and H. W. Wood, Haverhill; J. H. Hanson, Peabody; C. J. Gray, Gloucester, and Joseph Geffrion, Manchester, N. H.

Buffalo, N. Y.

King & Eisele close their place of business at noon on Saturdays during the Summer season.

The jewelry workers of Buffalo will hold their annual picnic at Cascade Park, N. Y., Sunday, Aug. 1.

Fred Dorn, 87 Genesee St., has been prominently connected this Summer with a number of outings given by business organizations of Buffalo.

Several silver cups offered for the motorboat speed contests to be held at what is known as "the four club outing," on July 27, were recently exhibited in the window of Weed & Co.

Arthur M. Huntington, New York, has presented the Buffalo Fine Arts Academy with a bronze bust of Sorollay Bastida, the Spanish artist, whose paintings were on exhibition in the Albright Art Gallery, Buffalo, last Spring. The bust is the work of A. T. Villan, a Spaniard.

H. Angermann, jeweler at 43 Genesee St., who recently had a leg amputated, is now at his place of business. Miss Lillian Angermann, his daughter, has been assisting her father at the store. Adam Pleuthner, who was in charge of the establishment in the proprietor's absence, is now located at 1122 Fillmore Ave.

Fred J. Petersen, of Schutt & Petersen, 137 Genesee St., will spend next month at Lily Dale, N. Y. Mr. Schutt will take his vacation in September. The partners will remodel their store this Summer. Mr. Petersen's brother, Richard Petersen, a leading engraver for Heintz Bros., the local ring manufacturers, has been ill for the past 12 weeks. It is reported, however, that he on the road to recovery.

Despite inclement weather there was a good attendance at the last meeting of the Buffalo Retail Jewelers' Association. The members decided to hold their annual outing at the Bedell House on Grand Island in August. The exact date will be announced later. The jewelers will take with them their wives and sweethearts, and an excellent time is promised for all who attend. According to present plans the association may be represented by a permanent bowling team in the coming Winter.

The funeral of William W. Oliver, president of the W. W. Oliver Mfg. Co., which was incorporated in 1900 to manufacture jewelry machinery, was held recently from his home in Buffalo. Mr. Oliver died in a hotel at Atlantic City. He had gone there with his wife for a rest. His death was unexpected and was the result of an attack of heart failure. He was a member of Eric Lodge, No. 161, F. & A. M. Those who survive him are his wife, three sons, Frank, William and Walter Oliver, and two daughters, Grace and Irene Oliver. Mr. Oliver was born in Worcester, Mass., in 1844, and came to Buffalo 40 years ago.

Texas.

S. A. Silverman, Marlin, was in Dallas, recently, replenishing his stock.

J. M. Robb, watchmaker for B. B. Poore, Bridgeport, spent his week's vacation in Dallas.

Jos. Carlos Stillmanks, Colgate, Okla., and Miss Fannie Walker were married, recently.

T. E. Gibson, formerly at Aspermont, has located at Lorraine, believing this to be a better location.

H. L. Browder, Wewoka, Okla., has sold his stock and has moved to south Texas, locating at Kingsville.

O. G. East has just moved from Rusk to Dialville, the latter name being very suggestive for a watchmaker.

E. E. Keel, who was formerly located on Elm St., is now traveling for the R. Beskow Optical Co., Dallas.

R. H. Dobyns, Stamford, is visiting his relatives in Clarksburg, Ind., where he will remain for a couple of months.

W. H. Rutherford, Vernon, has the sympathy of his friends in the loss of his baby, who died a couple of weeks ago.

W. H. Fincher, of the City Drug Store, Commerce, is just recovering from a very protracted spell of typhoid fever.

H. H. Hawley, Stamford, called on several of the wholesale houses in Dallas, purchasing his Fall supplies, last week.

L. H. Walters, of Walters & Hafner Jewelry Co., Hillsboro, was in Dallas, recently, making numerous purchases.

John F. Thim, who has been in business for himself at Waco, has just become connected with J. Levinski, of the same town.

Jacob Levinski, Waco, is leaving for New York, where he will enjoy a month's rest from his hard labors of the past year.

H. H. Hawley, president of the H. H. Hawley Co., Dallas, is in Ashville, N. C., with his family and expects to remain until September.

J. Lyon has resigned his position with the J. B. Mitchell Jewelry Co., Ft. Worth, and has become connected with J. E. Muchert, Sherman.

J. P. Bolding, Terrell, is on an extensive overland trip through Texas and New Mexico, and will follow this by a long trip through California.

J. W. D. Bryant has sold his business complete to Levi Daiches, Laredo, and has gone to Goliad, where he will re-stock and continue in the same business.

Fred Thulemeyer, son of A. D. Thulemeyer, Flatonia, is following his father's footsteps and is serving apprenticeship in C. L. Norsworthy's establishment.

J. Dow, of Kolter Bros., and wife, Beaumont, stopped in Dallas, last week, on their way to Colorado Springs, where they expect to spend the next 30 days.

Samuel Roscoe, Waco, had his stock damaged by fire and water, July 18, incurring several hundred dollars' loss. The stock was but partially insured.

C. E. Linton, watchmaker for A. H. Richards, El Paso, has gone to New York, where he expects to locate permanently, provided he can secure good connections.

P. D. Fudge, with the J. J. Sweeney Jewelry Co., Houston, is on his vacation and

was in Dallas, last week, this being one of the several points which he is to reach before returning to Houston.

Prentice Holman, who has been head salesman for John Henenberg, Dallas, for the last five years, has resigned and is contemplating starting in business for himself, within the next few months.

H. M. Brooker, who lately left the employ of the H. H. Hawley Co., Dallas, and accepted a position as a jewelry manufacturer in Muskogee, Okla., has left there and returned to Denver, his former home.

W. A. Denitz, Elgin, is building a brick store and is going to launch forth in the jewelry and watch repair business with some little style, taking into consideration the size of the town in which he is located.

There is a large reward offered not only by Theodore A. Jansson, Ft. Worth, but also by the Chief of Police, for information that will lead to the arrest of the thieves who robbed Mr. Jansson's store, last month.

Announcement is made of the coming marriage of Chas. W. Taylor, of Taylor Bros., Houston, Aug. 4, to Alma Ethel Hinkle. After a tour of three months Mr. and Mrs. Taylor will take up their residence in Houston.

Mr. Penny, head watchmaker for C. L. Norsworthy, has just left on a six-weeks' trip through the Middle and New England States. It is expected he will reach Canada in his travels and will have an enjoyable Summer outing.

Fred Studer, of Studer-Crawford Co., Waco, is in Europe, where he will remain for several months picking up some desirable gems and suitable jewelry for his new store, which is creating considerable comment in his immediate section.

E. G. Schorsch, Sr., Abilene, has turned his store over to "Gus," his son, and has gone to Azusa, Cal., where he has assumed charge of the handsome new store of T. M. Gillenwaters. Mr. Schorsch will be missed very much by his old-time friends, as he was very popular in Texas.

C. V. Thompson, manager of the Thompson Jewelry Co., Waxahachie, is lying critically ill with typhoid fever. It is believed that the long drouth in this section has been the immediate cause of contaminating the waters in a number of the larger towns.

O. L. Richards, Cushing, had an undesirable caller, on the night of July 9, who bid a silent adieu, taking with him a few mementos in the way of some high-priced watches, to the amount of \$250. Mr. Richards is so anxious to meet his unknown caller that he will pay a liberal reward to anyone who will do the introducing.

A. Zimmerli, Dallas, who has been in the watch repairing business for a number of years in this country, as well as in Switzerland and Germany, celebrated the 50th anniversary of his birth, July 1. A banquet was given, to which the members of the two German societies in Dallas were invited. About 200 attended the festivities.

Messrs. Wesson and Holland, who but several months ago located in Midlothian, opening a first-class retail jewelry store, have removed from that place and have gone to Lubbock, which is at present an

inland town, but which is soon to be placed on the railroad map as the center by three different railroads. This is one of the most prosperous communities in the southwest.

N. Goldstein & Son, pawnbrokers, 300 Main St., Dallas, have just purchased and installed a 40-foot plate-glass wall case of solid mahogany. They have also installed four Queen Anne floor cases, as well as a diamond room. It is the object of this firm to go more extensively into the cut glass, silverware and diamond business, gradually eliminating the other incidentals connected with the pawnbrokerage business.

Gus J. Kray, San Antonio, was fortunate in assisting in securing a contract for silverware for the new Hotel Gunter of San Antonio. Mr. Kray obtained this contract over a number of competitors, the majority of whom were eastern manufacturers. This contract is for \$28,000, the silverware to be furnished by the Gorham Co., New York. There are to be 10,000 pieces of the best quality, bearing the crest of the hotel, and to be of an exclusive design.

B. Z. Friedman, Ft. Worth, suffered a \$2,000 loss by fire, which gutted his place of business, recently. Unfortunately, Mr. Friedman's insurance amounts to but \$500. In Mr. Friedman's store at the time the fire started was the clock belonging to the city and six advertising electric clocks. Fortunately, the City Hall clock was gotten out without being injured in any way, but the six electric clocks were lost. This fire was started by carelessness in the use of gasoline in a tailor shop next door.

Thomas Houghton, who had been connected first with the Morgan & Hawley Co., and later with the H. H. Hawley Co., for 13 years, has severed his connections and has left the business entirely, purchasing a large tract of land at Grand Prairie, upon which he has started a chicken ranch. This was one of the greatest surprises in Dallas this year, as Mr. Houghton had become so closely allied with his business that a suspicion that he would ever enter any other vocation was never even thought of.

Jos. Ullrich, who was formerly diamond expert for the J. J. Sweeney Jewelry Co., Houston, is having his own little troubles, even though he is on his wedding tour. Several weeks ago Mr. Ullrich detected three men tampering with his naphtha launch in the bay at Galveston. Upon being detected, these men, who, it seems, were of some prominence in the business world in Galveston, threatened Mr. Ullrich with shot guns, whereupon the latter drew his revolver, and for a time it looked as if Galveston would have something sensational to talk about. These men, through influence, obtained Mr. Ullrich's arrest upon a warrant, charging him with assault to murder. Mr. Ullrich secured his release upon bail being furnished. He then left for New Orleans, where he was married, and was enjoying himself when again arrested on the same charges. He is now out on bond, which was given in New Orleans, and he says that he will fight extradition to the last ditch.

The Midland Mfg. Co., Omaha, Nebr., has been succeeded by E. A. Phillips.

Matched Pairs

Cane and Umbrella To Match—Bridal Pairs

A cane and a lady's or gentleman's umbrella to match—held together by two English pigskin straps, is one of the many new features of our Fall and Holiday line.

If you haven't seen K & H Matched Pairs, write to-day for samples of this and other novelties.

The Pair Reproduced Here

is a gentleman's cane and umbrella of dark green Madras wood handsomely grained as the cut shows. Mounted with heavy sterling silver.

Like all K. & H. goods they are warranted for wear.

We can furnish Matched Pairs for men in a wide variety of styles and at prices from \$3.50 up. Gentleman's 14K. solid gold crook handles up to \$100 the pair.

NOTE. The 28 gauge silver used on all our sterling goods can be buffed out in case an error is made in engraving. Engraving tools will not pierce through it.

KREIS & HUBBARD

Makers of The Quality Line

Franklin and Jackson Sts.

CHICAGO, ILL.

K & H Novelty One of Many

These Matched Pairs are only one of the unique ideas we are constantly originating.

If you are looking for new creations in high grade umbrellas you should see the K & H Quality line.

K & H Detachable Handles

are absolutely fast and have many advantages that make them easy sellers.

Sell an Advertised Umbrella

and make your umbrella department show greater profits. It will, if you sell K & H advertised umbrellas. We help your sales with clever booklets, window cards, etc., and will send you free a series of attractive newspaper advertisements in electrotype form for local use.

This Fall we open an extensive magazine campaign to create increased demand for K & H umbrellas. Dealers handling this line will benefit.

Our competitors show what they think of K & H goods by copying our ideas—and you know imitation is the sincerest flattery.

L. H. Schafer is on an eastern business trip.
 Emil Braude is taking a rest at Lake Bluff.
 Dudley Bard is on a visit to the Seattle exposition.
 B. F. Hirsch is at Oconomowoc with his family.
 H. A. Bredel is taking a vacation at Powers Lake.
 A. L. Fuller is taking a vacation at Barrington, Ill.
 A. W. Sprochnle is at Grass Lake, Wis., with his family.
 J. Groen, of H. A. Groen & Bro., was here last week.
 F. E. McCullin is on a vacation at the eastern Summer resorts.
 O. A. Starke, of the Star Watch Case Co., was here last week.
 W. E. Clow has been appointed local inspector for the I. C. R. R.
 Geo. X. Strawn has returned from a visit to the Seattle exposition.
 A. W. Joseph has discontinued his office in room 501, Powers building.
 Steve Bridges, of Despres, Bridges & Noel, is in northern Michigan.
 Victor Strelitz has returned from a European diamond buying trip.
 Emil Pick, with Hammel, Riglander & Co., has returned from New York.
 J. G. Ferry, formerly a retail jeweler at Eau Claire, Wis., was here last week.
 R. W. Cohen, representing Geo. H. Cahone & Co., is back from a northwestern trip.
 L. A. Littlefield, superintendent of the Rockford Silver Plate Co., was here last week.
 F. D. Van Sickle, of Lew's & Van Sickle, Des. Moines, Ia., was in this city last week.
 A first dividend of 10 per cent. has been declared in the matter of the Harold Jewelry Co.
 The National Travelers' Association held its annual meeting at the Palmer House, last week.
 F. H. Nobie won the Chicago to Green Bay power boat race in his motor boat *Swastica* last week.
 W. E. Scanlon, with the Oneida Community, Ltd., attended the Milwaukee convention last week.
 L. W. Williams and M. G. Evans, of the traveling force of Norris, Alester &

Co., left for their respective territories last week.
 Miss C. A. Basse has severed her connection with Bourgeois Bros. & Co. and C. G. Breitenbach & Co.
 Chas. H. Hanson has been engaged by the M. S. Fleishman Co. to represent the latter in western territory.
 The family of Arthur J. Williams, of A. L. Williams & Co., has been increased by the advent of a baby boy.
 Louis Manheimer is at Carlsbad, Bohemia, and is enjoying good health. T. Zurbrugg is also at Carlsbad.
 Harry Adler, of Chas. Adler's Sons, who recently returned from Europe, was here last week, caling on the trade.
 H. S. Siebel, Saginaw, Mich., was in Chicago last week. A new store is being built for Mr. Siebel, which he expects to occupy this Fall.
 Adolph Turek, formerly of Cleveland, O., who has opened a new jewelry store at 620 12th St., Milwaukee, was here last week, buying stock.
 Nathan Roff, retail jeweler at 910 V. 59th St., is seeking to compromise with his creditors on a basis of 15 cents cash. He owes about \$2,000.
 Harold A. Forber has been engaged by Despres, Bridges & Noel to represent them on the Pacific Coast. He left for his new territory this week.
 E. G. Kohler has been engaged by the Kelly-Parritt Co. and represents the concern in Wisconsin and Minnesota. E. A. Kelly will visit his old trade as usual.
 The Klein Bros. Lapidary Co. has been incorporated here with a capital of \$20,000. The incorporators are F. C. Klein, C. O. Knudson and Robert Kunz.
 H. E. Cobb, who is a veteran of the Civil War and a member of the Loyal Legion, was the guest of Col. Foster at the I. N. G. Encampment at Elgin, last week.
 Wm. Fine, of Wm. Fine & Bro., Atlanta, Ga., was here last week, purchasing stock for a branch jewelry store, which the firm will shortly open at Nashville, Tenn.
 The Universal Electric Clock Co. has been incorporated in Illinois to manufacture electric clocks. The incorporators are J. M. Lenz, W. L. Dolman and S. W. Bramley.
 C. H. Williams, Condon, Ore., second vice-president of the American National Retail Jewelers' Association, spent a few

days here, last week, and then left for the Omaha convention.
 John H. Farquharson, brother of Harry Farquharson, who represents E. A. Potter Co. and E. D. Gilmore & Co., will in future assist the latter in looking after the Chicago trade.
 A. E. Waldron, who recently sold out his store at Odebolt, Ia., was here last week, accompanied by his wife. Mr. Waldron bought his opening stock for his new store at Glidden, Ia.
 A. C. Becken and family are on a trip to the Seattle exposition. Mr. Becken, while away, will look after his extensive land and lumber interests at Spirit Lake, Idaho, and will be gone about six weeks.
 News is received here that J. W. Grant, retail jeweler of Saginaw, Mich., was married, July 20, to Miss Ada, who has been employed by him for some time. Mr. and Mrs. Grant are on a honeymoon trip to Macinac.
 Geo. Purdy, superintendent for C. H. Allen & Co., stopped over here last week to visit J. W. Stoneburner, western representative of the firm. Mr. Purdy is on a trip to Southern California for the benefit of his health.
 The Elgin Eye Glass Reel Co. has been incorporated with a capital of \$4,000 to manufacture eyeglass reels at Elgin, Ill. Otto B. Wedell and Wilbur W. Wedell, of Wedell Bros., retail jewelers, at Elgin, Ill., are the owners.
 Fred Leach, head of the material department at the New York office of the Waltham Watch Co., was here last week, on a visit. Mr. Leach is an old Chicago man, but this was his first visit here in 15 years. Mr. Leach will sail for Europe in August.
 "Bill" Schlossman had an exciting experience at Porter, Ind., last week, with a party of automobilists, who were arrested, charged with violating speed ordinances. "Bill" came home on a milk train, after subduing nine constables and six deputy sheriffs.
 J. P. Ryan, Michigan salesman for the Stein & Ellbogen Co., has resigned his position to enter the retail jewelry field at Flint, Mich., where he has just bought out M. H. Cook. Mr. Ryan is succeeded by W. H. Horton, formerly with the F. H. Pudrith Co., Detroit, Mich.
 Safe blowers, who, it is believed, arrived and departed in an automobile, broke open the safe in the postoffice at

We Are Ready

With our entire Fall Line of Diamonds, Watches, Gold Jewelry and Fine Plated Jewelry. More beautiful, more complete than ever. Our traveling salesmen have started on their routes and will visit the trade in the following order:

Mr. MORRIS BAUMAN, Kansas, Colorado and the West.

Mr. FRED BROSS, Illinois, Arkansas, Tennessee.

Mr. HARVEY HUBBARD, Texas, Oklahoma.

Mr. C. L. STANGE, Missouri, Indiana, Illinois.

Mr. MARK EISEMAN, Alabama, Mississippi, Georgia.

Mr. OTIS L. ROSS, North and South Dakota, Wisconsin, Minnesota.

Mr. CLARENCE HEYMAN, Iowa and Missouri.

The efforts of these gentlemen are augmented by a home force of competent people, who will attend to the wants of the Retail Jeweler and give your mail orders prompt and particular attention.

We solicit a continuance of your valued patronage.

L. Bauman Jewelry Co.

ESTABLISHED 1844

Century Building

St. Louis

Huntley, Ill., some time between midnight and morning, July 15, and escaped with booty to the amount of \$1,100, including \$200 in cash, \$100 worth of postage stamps and \$500 worth of watches and other articles taken from the stock of the postmaster, who runs a jewelry store.

Among the buyers in town last week were: Jos. S. Peiringer, Bedford, Ia.; John Nieminen, Ishpeming, Mich.; Louis Libermann, Joliet, Ill.; A. C. Wortley, Kalamazoo, Mich.; L. M. Raymond, St. Anne, Ill.; T. W. Kibbee, Graiton, N. Dak.; W. Simons, Coldwater, Mich.; E. R. Tyler, North Manchester, Ind.; M. F. Cook, Flint, Mich.; Moe Ehrlich, Detroit, Mich.; J. J. Beale, Rockford, Ill.; Chas. Feldstein, Marinette, Wis.; Sam Werner, Selma, Fla.; Wm. C. Hesse, Saginaw, Mich.; Tom Brown, Quincy, Ill.; John Brown, Hannibal, Mich.

A man, who, it is said was formerly engaged in the jewelry business at Tucson, Ariz., was taken back to that city, from Chicago, last week, in custody of Sheriff Nelson on a warrant charging him with the embezzlement of \$10,000 from the Tucson Building and Loan Association. The prisoner was formerly secretary of the association and disappeared last November. Later it was charged there was a shortage in the funds of the association, and several days ago he was arrested in Chicago on a fugitive warrant. He denied the charge against him and claims that before he left Tucson he settled an account against him by turning over his jewelry business to the association.

The Bradley Polytechnic Institute, Peoria, Ill., reports that in the last year the school has had 325 students in attendance in the horological department, and during the months of February, March and April, it has as many as 147 in attendance at one time. At present the institute is so overcrowded that it turned away between 35 and 40 applicants for instructions up to the first of June. The school is about to build an addition which will put it in a position to take 225 students, and therefore expects to take care of all applicants for instruction in the future. A new gymnasium has been completed which is the finest in that section of the country, both in building and equipment. The Bradley Polytechnic Institute is affiliated with the University of Chicago; Theodore C. Burgess is the director, and A. T. Westlake, the dean, has charge of the departments of engraving and optics. C. R. Hart has charge of the finishing and drawing; J. A. Miner and Fred E. Brown, elementary watchwork; S. A. Anderson, jewelry, and C. H. Brobst, M.D., is the lecturer in optics.

A. L. Desbouillons, Savannah, Ga., has gone to France on a visit to his former home.

A show window display which attracted considerable attention was made by Ormond & Klueber, Sedalia, Mo. The display consisted of a number of drills, various kinds of keys, steel saws, screw drivers, jimmies and similar implements used by hold-up men and burglars. The instruments were loaned by the local police department.

Cleveland.

F. E. Wolf is spending his vacation in Chicago.

Al. Ficken, of the Scribner & Loehr Co., is at Linwood Park.

Webb C. Ball has been visiting several cities in the east on business.

W. G. Van Horn has just returned from an extended trip in the east.

Mr. Patton, of the Cowell & Hubbard Co., is in Canada for a few weeks.

The Sigler Bros. Co.'s traveling men will start out on their territory, Aug. 1.

J. B. Ramp, of Ramp & Bock, manufacturing jewelers, is in Louisville, Ky.

L. F. Boyer and wife will go to Pine Lake, Mich., for a month this Summer.

Stanley Hubbard is spending his vacation in a most enjoyable manner at Ballast Island in Lake Erie, near Put-in-Bay.

Miss Anna Pentony, who is with the Bowler & Burdick Co., is spending the Summer with a sister in San Francisco.

A. T. Hubbard, president of the Cowell & Hubbard Co., is spending his vacation among the Thousand Islands of the St. Lawrence.

M. Master, who was formerly with Fred. N. Day, of Winston-Salem, N. C., is in Cleveland taking a special course at the Newmeyer School of Engraving.

The following out-of-town dealers were in this week: N. G. Knight, Galion, and C. E. Burris, Marion, O.; Frank Stapf, Dunkirk, N. Y.; O. S. Carter, New London, O.; H. H. Vath, Sandy Lake, and W. W. Randall, Sharpsville, Pa.; Robert Miller, Lorain, and H. S. Sumner, Akron, O.

Elmer H. Barrett will open a new store in Painesville, about Aug. 1, in the room formerly occupied by the Dollar Savings Bank, at 330 Main St. The fixtures are new and tastily arranged. Mr. Barrett will conduct an optical department in connection with his jewelry business. He bought his opening stock in this city.

Charles Ettinger is furnishing the gold commemorative medal that the Cleveland Naves and local baseball fans gave to Neal Ball, the popular utility shortstop of the Cleveland team, for executing the only undisputed triple play made in major league ball. The medal is solid gold, and on it is etched a baseball diamond. The bases are represented by diamonds, and a presentation of the entire play is cleverly shown.

Although unable as yet to make an arrest, the police are close on the trail of the burglar who broke into the store of the Lewis Jewelry Co. on the night of July 8. Ten of the stolen watches have been recovered so far—one in Cleveland the day after the robbery, eight in Toledo a few days later, and another in Cleveland last week, indicating that the thief is back in Cleveland. Since the recovery of the last watch the police have redoubled their efforts, and it is believed that an arrest will be made soon.

Samuel Tronstein, manufacturing jeweler in the Republic building, probably saved the life of a woman tenant across the hall from his shop, last Wednesday. Mr. Tronstein had just entered his office in the morning when he heard cries for help. Thinking at first that they proceeded from a dramatic school opposite, he paid no attention, but

as the cries grew more persistent he rushed across the hall, broke down the door, and found a violently insane woman trying to stab another who was prostrate on the floor. He knocked the knife from her hand, but not until she had had time to inflict several severe wounds on the unfortunate victim.

Omaha.

C. L. Shook left, last week, on a business trip to Denver, Colo.

Guy Cross was here from De Witt, Nebr., last week, purchasing stock.

H. S. Knapp, with the Shook Mfg. Co., is back from a trip through Nebraska.

Albert Edholm is enjoying an outing at the lakes of Minnesota and Wisconsin.

Curtis M. Lindsay has returned home from a short visit to the Seattle Exposition.

H. A. Greenblatt, of Harry Greenblatt & Co., is traveling through the State, on business.

J. C. Downing, formerly with Albert Edholm, has opened a watch repairing shop.

C. A. Williams and N. P. Frandson are spending 10 days on a fishing trip at Big Horn Basin, Wyo.

A pamphlet, describing the development of the watch industry, will be distributed at the national convention in this city next week and is entitled "Watch Tick Since 1500." The booklet was prepared by A. B. Regnier, formerly assistant manager of the watch department of the Jaccard Jewelry Co., Kansas City, Mo., and now manager of the watch department in the store of Albert Edholm.

The Kellogg \$1,000 trophy offered for the best ear of corn at the National Corn Exposition in Omaha this winter, will be unusually attractive, taking the form of a solid silver cup, 30 inches high, above the base of ebony. On the upper part of the cup will be reproduced in enamel a pretty girl, above which will be the inscription in gold: "Sweetheart of the Corn." Highly ornamented ears of corn done in solid gold at the sides and at the top, will enhance the beauty of the trophy.

Canada Notes.

B. R. Pearsall, Truro, N. S., has assigned to J. L. Sutherland.

Mackenzie & White, Moose Jaw, Sask., have dissolved partnership.

A. H. McIntyre, Kamsack, Sask., has sold his business to J. & J. Carment.

W. A. Fenwick, Shelburne, who recently sold out his business in that town, was in Toronto last week. He is looking for an opening in Western Ontario.

The store of B. A. St. John, Portage la Prairie, Man., was entered by burglars July 22 and \$1,200 worth of diamonds, besides other valuable goods, were taken.

Out-of-town jewelers calling on the Toronto, Ont., trade, last week, included: E. Pequegnat, Stratford; W. Klein, Hamilton; J. S. Smith, St. Catharines; E. S. Cole, Niagara Falls, and W. H. Smith, Oakville, all Ontario.

Rockford

THE manufacturers of the **ROCKFORD** Watch offer absolute insurance to every retail jeweler.

- 1st.—The ROCKFORD Watch is factory-priced and tagged. This price must be maintained—thereby insuring legitimate profits. Price-cutters will not be tolerated.
- 2d.—The jobbers have been eliminated. The ROCKFORD Watch is sold only direct to the legitimate jeweler—thereby guaranteeing the retail jeweler that he will not come in competition with mail-order houses or department stores when selling the ROCKFORD Watch.
- 3d.—The ROCKFORD Watch is the watch of Quality and Efficiency—and the retail jeweler can guarantee his customers one hundred cents watch value for every dollar spent on ROCKFORD Watches.

ROCKFORD WATCH CO.
ROCKFORD
ILLINOIS

St. Louis.

E. Markley, Marianna, Ark., accompanied by his wife, is here making purchases.

Another meeting of the creditors of Edward T. Gotsch is to be held next week.

L. A. Fassett, of Weiss & Fassett, Globe-Democrat Building, returned from a vacation trip to Minnesota.

F. W. Haverkamp, of the Illinois Jewelry Co., returned Saturday from a two weeks' business trip through Missouri.

F. J. Cordes, cashier of J. W. Cary & Co., Globe-Democrat Building, will return Monday from a week's vacation.

J. F. Dailey, of the Loftis Bros. & Co., Carleton Building, has gone to Nevada to spend a vacation of three weeks.

Charles Smith, heretofore in charge of the factory office of the Lee-Kohl Mfg. Co., will hereafter do outside work in the city.

Miss Emily Palmer, of the Eisenstedt Mfg. Co., has gone to Kansas City to spend a two weeks' vacation visiting friends.

Edwin Jahn, formerly associated with his brother, W. H. Jahn, in the jewelry business at Pacific, Mo., has opened a store at Union, Mo.

Robert Kohl, of F. H. Noble & Co. Chicago, is spending a few days here on his way back from a 10 weeks' trip to California for pleasure.

F. L. Jaccard, Forth Worth, Tex., Texas representative of the Bauman-Massa Jewelry Co., is here making preparations to go out next week on his Fall trip.

George Rosenthal, of Charles Hellwig's jewelry store, 1209 Olive St., will leave in a few days for Buffalo, N. Y., where he will visit relatives for three weeks.

The silverware for the new Illini Hotel Alton, Ill., was made by the Jno. Bolland Jewelry Co. and is now on exhibition in the windows of the firm on Locust St.

J. J. McKenna, manager of the Bauman-Massa Jewelry Co., left Saturday, accompanied by Mrs. McKenna, for Eureka Springs, where they will spend two weeks.

D. P. Richards, of the Maschmeyer-Richards Silver Co., Carleton Building, left Friday, accompanied by his wife, for Colorado Springs, Colo., where they will spend two weeks.

J. J. Sammesseuther, of the diamond department of the Mermod, Jaccard & King Jewelry Co., left Monday on a month's vacation trip to Canada, the Thousand Islands and Alexandria.

Joseph Ebeling, of the Ebeling Jewelry Co., 14th and Warren Sts., will leave in a few days on a business trip to Kansas City. Later he will go to Chicago and New York on business.

J. H. Loevenhart, president of the Crown Jewelry Co., 415 N. Broadway, will leave next week for Put-in-Bay, Wis., accompanied by his father, Henry Loevenhart, Lexington, Ky. They will spend a month at the resort.

O. F. Kay, of the Jno. Bolland Jewelry Co., was to have left last week on a vacation trip, but was unable to get away because he was serving on a jury in the Criminal Court. He will go next week if excused from jury service.

George Oberting, of the Blankenmeister-

Oberting Jewelry Co., now traveling through Missouri, Iowa and Nebraska, will go to Omaha to attend the national convention of jewelers, to be held there Aug. 2 to 7, before returning home.

Arnold Zerweck, of 211 Collinsville Ave., East St. Louis, Ill., has so far recovered from an injury received recently in an automobile accident that he was able, though still limping, to leave Monday on a business trip to Kankakee, Ill. He is expected back on Saturday.

J. L. D. Rodgers, of the McCoy-Rodgers Jewelry Co., who is a lieutenant in the Missouri National Guard, is at Camp Hadley, Nevada, Mo., where the annual encampment is being held. After the encampment he will stay for the interstate rifle contests.

Jerry Murphy, of the Brooks Jewelry & Optical Co., has gone to Chicago and from there will embark for a trip on the lakes. He will be gone about 10 days. Adolph Umbrecht, of the concern, is on a business trip through Tennessee, Georgia and Alabama.

F. W. Kuhn, who retired from the jewelry business several years ago, when he had a store in Baden, a North St. St. Louis suburb, is planning to resume business again. He expects to open a store on N. Grand Ave., but has not definitely decided on the location yet.

A. L. Blankenmeister, of the Blankenmeister-Oberting Jewelry Co., who is traveling in Missouri, Kansas and Oklahoma, is doing a good business and writes to his house that the outlook for the Fall is good. Lawrence Oberting, traveling in Missouri and Iowa, also sends in encouraging reports.

Mrs. J. J. Burke, wife of the president of the Brooks Jewelry & Optical Co., has so far recovered from the operation she recently underwent at St. Anthony's Hospital that she has been returned to her home, 3705 Humphrey St. Still it will be two or three weeks before her health is completely restored.

Rudolph Niehaus, of the Mermod, Jaccard & King Jewelry Co., returned Wednesday from New York, where he spent his vacation after making purchases for the china department. J. J. Menges, the general buyer, who went to New York at the same time, and has also been on his vacation, is expected home Monday.

A dozen North St. Louis business men, including Joseph and Louis Ebeling, have taken the preliminary steps toward the organization of the North St. Louis Trust Co. It is proposed to open a bank in the vicinity of Grand Ave. and Hebert St., in a building to be erected at a cost of \$20,000. The bank is to have a capital stock of \$100,000.

The Ebeling Jewelry Co., 14th and Warren Sts., will be represented by a float in the annual parade of the North St. Louis Business Men's Association, which will be given Aug. 11, preliminary to the annual picnic to be held at Boemke's grove, 6200 N. Broadway. The float will consist of a huge watch garlanded with flowers. It will be the only jewelry float in the trade.

F. W. Drosten, president of the Frederick W. Drosten Jewelry Co., will leave in a few days, accompanied by Mrs. Dros-

ten, for Boston, Narragansett Pier and Newport. They will be gone a month. William G. Drosten, who has been spending his vacation at Charlevoix, Mich., will return Monday. I. W. Waldeck, of the Drosten Co., will return Wednesday from a trip to the northern lakes.

In the bankruptcy proceeding against Julius Reinhardt, Centralia, Ill., pending in the United States Court for the Eastern District of Illinois at Danville, the trustee has petitioned the Court for an order directing that the merchandise be sold at public or private sale. A meeting of the creditors is to be held Aug. 2 before Walter J. Grant, referee in bankruptcy, at which time the petition will be passed on.

Out-of-town buyers in the city during the past week were: John H. Blanken, Wentzville, Mo.; E. Markley, Marianna, Ark.; J. H. Brueggeman, Shipman, Ill.; Louis Tschumy, Galveston, Tex.; E. H. Goulding, Alton, Ill.; H. P. Hall, Carthage, Mo.; C. W. Scanlan, Indianapolis, Ind.; I. M. Blitz, Topeka, Kan.; M. H. Callahan, Brunswick, Mo.; J. J. Gaffner, St. Jacob, Ill.; E. Radumsky, Joplin, Mo.; W. H. Jahn, Pacific, Mo.

Herman Mauch, E. C. Zerweck, P. H. Kortkamp, F. W. Drosten and Joseph Ebeling have been appointed a committee of the Retail Jewelers' Association to act with committees of other business and civic organizations on the arrangements for the Get-Together Banquet, to be held in connection with the centennial celebration of the incorporation of St. Louis, in September. The Jewelers' committee will be represented by Mr. Ebeling at a general meeting to be held Saturday night.

Fred Bross, of the Bauman-Massa Jewelry Co., is getting ready to go out next week to his territory in Illinois. Clarence Heyman left last Saturday on a trip through Missouri and Illinois. C. L. Stange has gone to northern Missouri. Morris Bauman has gone to Wichita, Kans., and will work westward from there. Mark Eiseman has gone to Birmingham, Ala., and will work through the South from there. Harry Hubbard has gone to Ft. Worth, Tex., and will work out of there.

Creditors of J. C. Riedel, Paris, Ill., who assigned July 16 in favor of Frederick Baker, custodian, will have a meeting next week at Danville, where bankruptcy proceedings are pending in the United States Court for the Eastern District of Illinois. The liabilities are stated to be \$13,022.77 and the assets \$6,975. Riedel was formerly with W. T. Cook, Paris jewelers. St. Louis creditors of Riedel are the Bauman-Massa Jewelry Co., the L. Bauman Jewelry Co., the Blankenmeister-Oberting Jewelry Co. and the Eisenstedt Mfg. Co.

Rabbi Solomon Suskind, who disappeared from here July 1, taking with him several thousands dollars' worth of diamonds which had been consigned to him to be sold on commission, and leaving behind notes and checks aggregating a large amount, has been heard from. Abraham Graber, of 217 Carr St., has received a letter from him, which was written in London, in which the rabbi says he was compelled to leave St. Louis hurriedly on an important business matter, but that he will

Seattle, Wash.

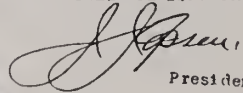

Dear Sirs:-

We have received the Dick Ferris Trophy and base and now have same on display in our window. We can only say that we are very much delighted with the work, size and finish you have given this cup; also the very satisfactory way in which you have handled same in the short time allowed to us both. The cup is very much admired by all and it could not please the Officials better, nor ourselves.

Again thanking you for the prompt and careful consideration of this matter, we beg to remain,

Very truly yours,

THE WHITLEY JEWELRY COMPANY

President.

MAKERS
Seattle, U. S. A.

return, bringing back the diamonds he took with him and enough money to meet his obligations. Notwithstanding these assurances those who may lose by his absence will continue their efforts to locate him and bring him back. Graber is at the head of the movement. Acting with him are Weise & Fassett, diamond merchants; the Maritz-Kober Jewelry Mfg. Co., Rubinstein & Fischlovitz Jewelry Co., Frieda Fish and Anna Seltzer. A fund has been contributed for the purpose of having detectives locate Suskind and bring him back. Suskind, during his stay in St. Louis, was the head of a synagogue at 1011 N. 9th St.

Milwaukee.

W. H. Upmeyer, of the Bunde & Upmeyer Co., has returned from his combined pleasure and business trip to Mexico.

U. S. Briggs, Hartland, has made several improvements in his store, and has added a new safe and a plate glass show case.

Ernest Wegener, with L. E. Grant, has completed the construction of a neat power boat 16 feet long. It is built to carry eight persons.

The business affairs of Francis D. Bancroft, the bankrupt jeweler at Waukesha, are rapidly being straightened out. Thomas C. Weston, trustee of the bankrupt estate, will sell the equity of Mr. Bancroft in certain real estate located in Taylor County, Wis., at the United States Court, Milwaukee, July 30.

Wisconsin jewelers were much interested last week in the fact that the Rt. Rev. Bishop J. J. Fox of the Green Bay diocese presented the St. Francis Catholic seminary with a rare old ivory cross valued at \$4,000. The crucifix was made by a French carver during the early days, and was carried by a Jesuit missionary among the Indians of Wisconsin. It was brought to Green Bay in 1832.

William L. Burr, formerly engaged in the jewelry business for 21 years at Beaver Dam, Wis., and Winona, Minn., recently passed away at his home in Rockford, Ill., aged 78 years. Mr. Burr's illness was of about a year's duration and his death was not unexpected. Several years ago the aged jeweler moved to Rockford and retired from active business. He is survived by a wife, seven sons and two daughters. Funeral services were held at Rockford and interment was at that city.

Pearl fishing has been carried on rather extensively in the State of late as a result of several valuable pearls being found. Henry Atkinson, a clam fisher of La Crosse, found a pearl valued at more than \$3,000 last week. The pearl was perfectly round, weighed 48 grains and was one of the finest specimens found in Wisconsin of late. A pearl valued at \$400 was picked up along the Catfish River, near Edgerton, last week, and several other smaller specimens were found in the same locality. F. S. Garner, Rockton, found a pearl valued at several hundred dollars in the Pecatonica River.

E. R. Moore, Iowa City, Ia., recently found a pearl in an Iowa river clam which he sold for \$360.

Kansas City.

E. A. Löffler, Iola, Kans., stopped over in this city, last week, on his way to the Seattle Exposition.

D. C. Burchett, Kirksville, Mo., spent a couple of days in Kansas City on his return from a vacation trip to Colorado.

E. Parker, Gilman City, Mo., tarried here between trains on his way to Seattle to attend the Alaska-Yukon Exposition, last week.

Robert E. Mitchell, in the employ of L. G. Clarke, Carrollton, Mo., was in town, combining business with pleasure, last week.

The following jewelers were in town, during the past week: E. Kroencke, Concordia, Mo.; S. F. Ricker, Emporia, Kans.; Harry Richardson, Caldwell, Kans.

The store and stock of L. E. Garnett, Chanute, Kans., was damaged by fire July 20. Mr. Garnett was in Kansas City a day or two later replenishing his stock.

Bob Hickman, the Union Ave. jeweler who has been ill at Excelsior Springs, Mo., has recovered sufficiently to start on a recuperation trip to the northern lakes.

D. W. Hicks, who recently sold out his business in Yates Center, Kans., to P. C. Peterson, has taken his son into partnership and re-embarked in business at Wellington, Kans.

The following new students have been enrolled at the Missman School of Engraving: H. R. Tillotson, Hebron, Nebr.; J. T. Little, Caney, Kans.; Harrison Hicks, Yates Center, Kans.

It is reported here that Mr. Crellin, recently of the firm of Ward & Crellin, this city, and a Mr. Fuller are preparing to open a retail jewelry store on Walnut St., not far from 12th St.

Detroit.

Eugene Perry, Weberville, visited the wholesale houses, recently.

O. F. Hawks, Whittaker, was in the city to purchase goods, last week.

James Connolly and Bruce Titus, both with Hugh Connelly, have been away on vacations.

George Johnston, of the Johnston Optical Co., has been spending his Summer vacation at New Boston, Conn.

A display of the silverware line of E. G. Webster & Son, Brooklyn, N. Y., is now being made in rooms in the Valpey building. Messrs. Cook and Stevens are in charge.

E. C. Avery, formerly salesman for a Detroit wholesale house, was in the city, Saturday, preparatory to a trip through the southern portion of the State for a Toledo firm.

R. L. Weyhing, of the Weyhing Bros. Mfg. Co., has returned from a long trip to the Pacific Coast. He is feeling vigorous and happy after his long trip and has taken up his regular duties at the factory.

E. H. Rosenberg & Sons are now in business as wholesalers in the Telegraph block, Griswold and Congress Sts. Elijah H. Rosenberg was formerly manager for Joseph Rosenberg, formerly in the wholesale jewelry business in the Valpey building.

Joseph Rosenberg effected a settlement with creditors some time ago.

Baltimore.

The Acme Jewelry Co. has moved to more commodious quarters at 110 W. Fayette St.

Harry Birch, representing Wilcox & Wagner, Grant Jewelry Co. and Ketcham & McDougall, called on the local trade, last week.

The bronze memorial tablet commemorative of the Fifth Regiment victims in the Spanish-American War, was executed by Edward Berge, a well known local sculptor.

The cups for the Baltimore Yacht Club events were ordered from Arthur C. Macy, 205 N. Charles St. Chris Schaefer, with Arthur C. Macy, is away for an outing at Rock Hall.

The annual fest of the employes of Jenkins & Jenkins will be held next Saturday at Yokel's Park, in Anne Arundle County. Gustav Klemm, one of the members of the firm, will be master of ceremonies and has been at work for some time in arranging quite a unique array of surprises.

The Wellington Glass Co., Cumberland, was incorporated July 22, with the following officers: President, ex-United States Senator George L. Wellington; vice-president, John P. Shellhaus; secretary and treasurer, Matthew A. Sloan. These officers were named as directors for the first year. The authorized capital stock is \$50,000. The company is named for Mr. Wellington, who bought the old Cumberland glass plant, which is now undergoing repairs and will commence operations with a new line of machinery, about Aug. 1.

Pacific Northwest.

A fire occurred at Edmonds, Wash., July 8, and O. E. Williams' jewelry store was burned to the ground. The fire started near by, and before the fire reached the store the bulk of the stock was removed to a place of safety.

The mystery attached to the recent fire at Enderby, B. C., in which the store of Dake & Belmont was destroyed, has been cleared by the confession made by Belmont. Belmont states that he and Dake rigged up an alarm clock in such a way that it would turn an emery wheel when the alarm went off. Matches were placed under the wheel and these led to shavings saturated with oil. The alarm was set for 1.30 in the morning, and it worked as planned. The two jewelers went to a town eight miles away, and returned early in the morning after the fire had destroyed the store. The stock was insured for \$2,500. Belmont had been arrested on suspicion. Dake has since been apprehended, and the two will be compelled to stand trial.

The store of J. G. Burnes & Co., Laurens, N. Y., was broken into one night a short time ago, and about 30 watches were stolen. The loot included several valuable gold watches. Entrance was gained through a rear door, a panel of which had been removed by an auger.

Los Angeles.

L. C. Sawin, formerly of Riverside, has bought out the business of D. S. Binford, Whittier.

Ed and Arthur Turner, of the E. W. Reynolds Co., are doing the towns of southern California.

Isidor Behrstock is out on the road for S. Meyer & Co. Harry Wolfe is taking care of the city trade.

David Pudlin, of the sales force of Howard F. Wallace, has been taking a week's vacation at the nearby beaches.

C. H. Clark, formerly of Rubin & Clark, is preparing to open a jewelry store on W. 4th St., between Broadway and Hill.

The Los Angeles Gem Co. has left its old location and is now doing business in its own building, 126 E. Jefferson St.

H. Jehlinger, buyer and manager of the big jewelry department of A. Hamburger & Sons, has returned from a four-weeks' trip to New York and the east.

John O. Slemmons, traveling representative of J. B. Bowden & Co., New York, is spending some time with his family at his home at Coronado Beach.

V. D. Mitchell, until recently doing a watchmaking business in connection with Gilmore & Lee's wholesale store, has taken a position with J. H. Crandall, 508 S. Main St.

I. E. Kring, who has been doing a watchmaking and jewelry business on 3rd St., west of the tunnel, has given up his business and is, it is said, on a ranch near Glendale.

Austin C. Ingram, formerly with S. Meyer & Co., wholesalers, has now gone into business himself, handling diamonds, etc. His office is in Room 703 O. T. Johnson building.

Brock & Feagans, a few days ago, sold a large loving cup of solid silver, to be presented to Fred Maier by the employes of the large manufacturing concern of which he is the head. The cup is 14 inches high and stands on a 4-inch pedestal.

F. Stansfield, who has been manager of the Jupiter Consolidated Jewel Co., has sold his interest in that concern to the other stockholders and is now devoting his time to the manufacture and sale of the new facet-cutting machine which he invented.

A dispatch from San Bernardino, Cal., says that rock containing rubies has been discovered in the Mill Creek region by Chester Packard. It is said that specimens he brought "fairly blaze with rubies." The samples have been sent to a gem expert at San Diego. Packard refuses to divulge the exact location of his find.

The manufacturing department of the Whitley Jewelry Co., located above their store, was considerably damaged by fire, a few nights ago. A number of workmen lost nearly all their tools. The fire, however, was extinguished with chemicals without the use of water, and no damage was done to the store below. The fire is supposed to have been caused by imperfectly insulated electric wires.

Out-of-town jewelers who have been in the city, recently, include: C. P. Dunn, of Dunn & Loomis, Clifton, Ariz.; Maj. C. B. Linn, Prescott, Ariz.; F. A. Conant, Santa

Barbara; Guy Hale, of N. B. Hale & Son, San Bernardino.; F. B. King, Redlands; F. E. Lenhart, Pomona; A. Lindo, Chino; Geo. W. Collis, Pasadena; O. H. Potter, Pasadena; H. M. Hunk, San Diego; W. C. Guerth and wife, Redlands; C. C. Zilles, Pomona; A. Protsch and family, Redondo; L. C. Sawin, Whittier; Chas. M. Hanf, San Bernardino; H. S. Huff, Orange; D. W. Huff, Corona; V. M. Bishop, Santa Ana; Walter Hague, of the Globe Jewelry Co., Globe, Ariz.

San Francisco.

Mr. Mayer, of Mayer & Weinshenk, is away for a short rest.

Harold Forbes, representing Manheim & Bro., has returned to the factory.

Max Rosenthal, with M. Schussler & Co., has been enjoying a vacation at Santa Cruz.

Jos. T. Brennan has just returned from a successful trip to the north for Burr W. Freer.

W. E. Armacost has just completed his maiden trip to the Coast with the lines of Geo. Kuehl & Co., Chicago.

All of the traveling representatives of the Henry M. Abrams Co. are now out on the road. These comprise Henry M. Abrams, J. Longwill and J. Hartzberg.

M. Adelsporfer, with the Wm. L. Gilbert Clock Co., has taken on a line of European leather novelties, and is meeting with much success in placing these with the trade.

Joseph Nordman, of Nordman Bros. Co., has returned from a vacation, much improved in health. O. F. Schwenicke and Frank Chester, also connected with this firm, have just completed their vacations.

The store of Hugo Landecker, 111 Montgomery St., was entered by burglars, one night last week, and an unsuccessful attempt was made to open the safe. The knob on the safe was knocked off, but before entrance to the safe could be effected the burglars were frightened away.

Mr. Rothschild, of the firm of Rothschild & Hadenfeldt, returned, recently, from a vacation trip to Santa Cruz. He had his family there with him and spent an enjoyable time. The Oakland factory was closed for a time while a new cement floor was being laid. The improvements have now been completed and the plant is running on full time again.

Lovers of rare and ancient jewelry were given a treat on the afternoon of July 16, when Mrs. Herman J. Hall, curator of the new Chicago art institute, lectured at the Fairmont Hotel. Signor Edgar Perera, who owns one of the finest collections of ancient curios, has loaned many valuable articles of jewelry for the exhibition. Mrs. Hall will be here for two weeks and will deliver several lectures, one of which will deal in detail with scarabs.

A large number of visitors during the past week have inquired about the Diamond Palace, which appears to be one of the best known of San Francisco's stores, and it is a source of much regret to Col. A. Andrews that the new establishment was not ready for inspection. A large stock of goods is carried at the temporary quarters on Van Ness Ave., but the fittings of the store there are very commonplace, the pres-

ent store having but recently been occupied. The move from the old one was made necessary by the removal of the fixtures to be used in the permanent store on Kearny St. Work on this store is progressing very rapidly, and it will be but a short time now before it will be opened for business. The store at 50 Kearny St. will be fitted up on a grander scale even than the old one in the Russ block on Montgomery St.

One of the most interesting announcements that has been made here of late is that Leon Nordman, of Nordman Bros. Co., has retired from active participation in the affairs of the firm and will take a much-needed rest. His family resides in Portland, Ore., and he will leave for that place shortly. It is his intention to devote considerable time to traveling, in the immediate future, and there is no intention at the present time of again entering commercial life. Mr. Nordman came to this State 33 years ago, and for a time followed his trade as a watchmaker. A few years later his brother Joseph went into the material business and Leon returned from Mexico, where he had gone a few months before, and took up this branch of work. In 1880 the firm of Nordman Bros. was formed, and since that time the business has grown rapidly until it has become one of the leading firms in the business. After the San Francisco fire the firm was re-organized and became known as Nordman Bros. Co., with Leon Nordman continuing as the head.

Much of the improvement in business last week was the direct result of the visit of a large number of Elks to California to attend the annual convention at Los Angeles, and in addition to the members of this order many thousands of others have taken advantage of the low rates offered to make the trip. The convention ended last week, and this week thousands of visitors have been visiting San Francisco, and almost all of them will go on north to make a short stay at Seattle and attend the Alaska-Yukon-Pacific Exposition. Many of the local wholesalers and retailers belong to the order of Elks, and during the past few days have been busy showing their brethren around the city. Visits have been made to the many beautiful retail establishments that are now to be found here, and great admiration has been expressed at what has been seen. The impression was prevalent in the minds of many of the visitors that the stores here would be small affairs in cheap buildings, and the fact that the very reverse is true is a source of wonderment. The large jewelry establishments, with but two or three exceptions, are now located in permanent quarters, and each one now located is fitted up on a scale of magnificence far in advance of the stores destroyed by the fire of 1906.

An unknown man smashed the show window of the jewelry store of J. L. Wolff, Paducah, Ky., about 1 a. m., July 20. Mr. Wolff, who lives over the store, heard the crash of the glass and grabbing his pistol called to the stranger when the latter was about to remove some of the articles from the window. The thief ran away and escaped, although Mr. Wolff fired several shots at him.

Pittsburg.

J. M. Jacobs has gone to Atlantic City. Asa Joseph, Donora, has been in New York for several days on business.

George Hertrick has been spending his vacation on a farm at Bridgeville

Sol Cerf and his wife and son, who have been spending a few weeks at Atlantic City, have returned to Pittsburg.

George W. White, of West, White & Co., leaves Sunday night for New York, where he will spend his vacation. He has a sister living in Brooklyn.

Heeren Bros. & Co. report that they are working their factory night and day, because of a press of business, and that times are getting better every day.

E. W. Hill, of Goddard, Hill & Co., has been appointed executor of the estate of Mrs. Mary B. Kyle, of Bellevue, who died a few weeks ago, and is now engaged in settling up the estate.

H. O. Scott, 2825 Penn Ave., has erected a very pretty street clock in front of his place of business, which tells the time for thousands in the Lawrenceville district, one of the busy mill sections of the city.

L. E. Isaacs, 404 Smithfield St., has been exhibiting some live Texas Horned Toads in his display windows, because of the showing of some pretty stick pins of the toad design and the display has been attracting unusual attention.

The employes of the jewelry department of Heeren Bros. & Co. gave Joseph Buerkle a surprise last Saturday night, when they all went out to Verona and took possession of his home. It was a birthday celebration which the employes did not forget, but none of them is able to tell his age.

Among the out-of-town merchants in Pittsburg, last week, were: A. Merz, Sewickley; Frank Bloser, New Kensington; John Linnenbrink, Rochester; W. R. Hill, Sistersville; A. C. Gaul, Sharpsburg; T. J. Moser, Beaver; W. Brown, Monessen; P. J. Manson, Jeanette; B. E. Brown, Donora.

A. L. DeRoy, as well as scores of others, was up before the East End police magistrate last week, charged with exceeding the speed limit with his automobile. It was his first offense, but the magistrate told all he would not render a decision until later. It is expected that Mr. DeRoy will be discharged.

The baseball teams of the Jewelers' 24 Karat Club of Pittsburg, composed of wholesalers and retailers, which played match games a week ago last Saturday, expect to cross bats again this week at the Shadyside Academy grounds. The affair was such a delightful one, that a request has been made to repeat it.

N. Gallinger, who was in business in Penn Ave. for a number of years, opened his new store at 929 Liberty Ave. last Saturday. Mr. Gallinger also conducts a loan office. He has installed handsome mahogany fixtures and the store is one of the most attractive of its character in the city, being much prettier and larger than his former establishment.

A. C. Gies, 6260 Frankstown Ave., next month, will have been in his present location for a period of 30 years. He told THE JEWELERS' CIRCULAR-WEEKLY representa-

tive that he does not intend to celebrate his anniversary until he is in business for 50 years, and then he will have a golden jubilee. He believes that he has occupied a location longer than any other jeweler of the city. Some who have moved were in locations longer, but Mr. Gies now holds the oldest stand in the city.

E. P. Roberts, president of the Jewelers' 24 Karat Club of Pittsburg, expects to leave Pittsburg about next Sunday night for Omaha to attend the convention of the American National Jewelers' Association, where he will deliver an address. John M. Roberts, chairman of the watch price cutting committee of the Pennsylvania Retail Jewelers' Association, expects to leave for there about the same time. C. S. Wiley, secretary of the Pennsylvania organization, expects to leave here Sunday morning. Other merchants also contemplate attending the meeting.

The Pittsburg Association of Credit Men intends to give an outing at Rock Point Aug. 6, which will be attended by a large number of local jewelers. William G. Ingham, of the Geo. Barrett Co., is a member of the reception committee. F. H. McAdoo, president of the national organization, addressed the members recently at a noon-day luncheon on the roof garden of the Hotel Lincoln. The organization has also made special arrangements to attend the orchestra concert of the Pittsburg Festival Orchestra to-morrow night at the Schenley, a special program having been arranged for the occasion.

The creditors of Parnes & Fassberg held a meeting a few days ago, at which time the South Side Trust Co. was elected trustee. The trustee has filed an account showing the amount of money on hand ready to be distributed among the creditors, who will not receive very much. The liabilities are in excess of \$20,000. Isaac Parnes appears to have received and absconded with most of the assets. Simon Sher, who was the receiver, told THE JEWELERS' CIRCULAR-WEEKLY correspondent that a lot of money had been spent in the hope of causing the arrest of Parnes, but his whereabouts are still unknown. Detectives all over the country are looking for him and he will be arrested and brought to Pittsburg for trial just as soon as he is located. Numerous charges have been made against him.

The Hardy & Hayes Co., which suffered considerable damage to its store in Fifth Ave. on the night of July 3, secured a settlement from the fire adjusters last week and is now conducting a fire sale. The partly damaged stock is being disposed of. J. Alexander Hardy, of the firm, told THE JEWELERS' CIRCULAR-WEEKLY correspondent that his house received about 25 per cent. of the total loss and that the exact loss to his firm will be between \$5,000 and \$6,000. Extensive alterations will be made to the building. New cases also will be installed and the interior redecorated and placed in better condition than ever before. Few of those connected with the house will be able to take a vacation this Summer, as it is expected that a splendid trade will be enjoyed during the sale, which is being extensively advertised.

Erasmus Wilson, the "Quiet Observer"

of the Pittsburg *Gazette-Times*, was over in Greenville the other day and ran up against "Jim" Roland, an old-time friend, and this is what he had to say about him in his column: "Little Jim Roland, tow-headed and freckled, now a fine looker and successful merchant and tradesman. What wonders time works, no less curious and varied than frost-work on a window pane. And how quickly too, well not surprisingly so when you come to consider that it was before the war when we knew him. It is refreshing to hear him tell of the fine large buckwheat cakes we used to eat at dear old Aunt Martha's and the blackbaws we used to gather down by the ford and how we used to stand around Uncle Hiram's sawmill watching the saw going up and then going down the same day." The writer was attracted by the sign "J. M. Roland, jeweler," emblazoned over the door and walked into a well regulated jewelry shop. Mr. Roland is a well-known jeweler of Western Pennsylvania.

Cincinnati.

Ben Schneider, for many years with the E. & J. Swigart Co., has been on a vacation.

G. H. Newstedt leaves, July 30, on a pleasure trip to the northwest, spending some time in the Yellowstone Park.

Henry A. Peck, with Wallenstein, Mayer & Co., with his wife, left, July 24, for Lake Erie and Sandusky, O., where they will visit their daughter.

Louis Holderbach, who has had a jewelry store on Findlay St. for many years, died, July 24, at his home. He was confined to his bed only four days, but has been in very poor health for more than a year.

H. H. Houghton, Tiffin, O., a customer of several Cincinnati jewelers, was found dead in his room at the Tremont Hotel, Mansfield, O., July 9, having committed suicide by closing the doors and windows and turning on the gas.

It is reported here that Fritzie Dhein, who acquired widespread notoriety here in 1892, when he stole a tray of diamonds belonging to a local jewelry concern, valued at \$20,000, has been again taken into custody in Los Angeles, Cal.

Leo Gosling, with Jos. Noterman & Co., left, July 24, for a two weeks' vacation at Maxinkuckee Lake, in Indiana, a Summer resort where it is reported there are plenty of fish of all kinds; also Wm. Pfeuger, with the same firm, has returned from northern Canada.

The following dealers visited the city during the past few days, buying stock: D. A. Sewall, Wilmington, O.; Geo. Klein, Muncie, Ind.; F. H. Hauer, Chattanooga, Tenn.; Mr. and Mrs. C. M. Wallace, Huntington, W. Va.; L. C. Diefenbaugh, Lewisburg, O.; M. Tubb, Sparta, Tenn., and A. Clooney, Maysville, Ky.

The jewelry store of F. A. Boli, 323 E. High St., Hamilton, O., was robbed by burglars, Sunday night, July 18. The thieves effected an entrance through the front door, securing 27 rings, a lot of watches and other articles valued at \$100. The thieves escaped and no trace of them has been secured. The police are investigating.

Philadelphia.

H. Lay Beaven, Easton, Md., has disposed of his business.

A. M. Ycakel, Perkasic, is making extensive alterations to his store.

George H. Sides was a visitor to this city, last week, in his new automobile.

Vernon Phillips, Smyrna, Del., has been enjoying a fishing trip in Maryland.

William A. Briggs & Sons, jewelers, have opened a new store at 253 S. 52d St.

Clarence Levy, of M. Sickles & Sons, is spending a few days at Berlin, N. J.

Frank O'Hara, optician, Chester, Pa., recently purchased a new home in Chester.

James Coyle, watchmaker for H. McLean, Atlantic City, was a recent visitor to this city.

Jacob Schaerle, jeweler, 1244 Poplar St., has been serving on the Grand Jury for several weeks.

H. Warner, of the National Box Co., Buffalo, N. Y., is visiting the Philadelphia trade, this week.

William Moss, manager for C. S. Kepner, Chester, Pa., has been visiting Chambersburg on business.

Henry Harper, one of the oldest jewelers in this city, will spend the Summer in Chicago with his daughter.

Frank Markey, jeweler, 1323 11th St., has returned to his home after an absence of 17 weeks in the hospital.

H. A. Smink, a manufacturing jeweler of Reading, is spending the Summer at Atlantic City with his family.

Charles Koshland, 702 Chestnut St., has returned from the south, and reports business there most prosperous.

Albert Gablaschick, with Joseph Parker, 116 S. 12th St., will spend a short time at Atlantic City with his family.

Edwin Koshland, with Charles Koshland, 702 Chestnut St., will leave, this week, for a business trip through the State.

Ralph Wells, of Wells Bros., Wilmington, Del., has been appointed a delegate to the Odd Fellows of the State of Delaware.

Andrew Little, of Joseph B. Bechtel & Co., is receiving the congratulations of his friends in the trade upon the arrival of a daughter.

David Berry, a jeweler of Island Road, has given up his business and has accepted a position as watchmaker with L. M. Culver, Seaford, Del.

The Keystone Watch Case Co. has declared a dividend of 3½ per cent. on the stock, payable Aug. 1, as registered July 20. Books remain open.

Hayward Clark, with Theodore Beck, 702 Chestnut St., has been compelled to take treatment at St. Joseph's Hospital, owing to a severe case of sunburn.

A. Colarossi, representing the Dandalis Arts and Crafts, 239 S. 11th St., is visiting at Bucks Hill Falls, Pa. Mr. Colarossi is well known to the jewelry trade.

Samuel Chestnut, with M. Sickles & Sons, will spend his vacation at Quakertown, Pa., with his family. Max Polak, with the same firm, will cover eastern Pennsylvania, Maryland and Delaware.

Col. J. Warner Hutchins has bought the property at 1328 Walnut St., which he intends converting into a dainty French shop. Diamonds and precious stones will be sold

exclusively. Mr. Hutchins will move his new store in a year, at the expiration of the lease of those occupying it at the present time.

The jewelers of Camden, N. J., have agreed to close their places of business on Wednesday afternoons during the Summer months. Quite a few of the Philadelphia jewelers are following their example.

Col. J. Warner Hutchins will leave this city with the officers on Governor Stuart's staff, Sunday, for the inspection of the camp of the First Brigade. The party will remain at Mt. Gretna until July 27, when they will proceed to Somerset, Pa.

The demand for the new Lincoln cent, which is to replace the familiar one with the Indian head, is increasing every day. Coinage of the new piece was resumed yesterday at the Mint, and from now on until Aug. 2, when the cent will be issued, it is estimated that about \$10,000 worth will be turned out each day.

Howard Abend died, last Tuesday, in one of the hospitals in this city prior to having an operation performed for appendicitis. Mr. Abend had long been associated with John L. Borsch & Co., opticians, 1324 Walnut St., and had recently opened an optical store of his own at 263 S. 20th St. Deceased was 23 years of age, and is survived by his mother and father.

The following jewelers were visitors to this city during the week: E. W. Carter, Pitman Grove, N. J.; George Bowen, of T. H. Bowen & Co., Bridgeton, N. J.; A. M. Kendall, Millville, N. J.; Calvin Solli-day, Lambertville, N. J.; Roland Oliver, Burlington, N. J.; John MacPherson, Mauch Chunk, Pa.; D. H. Krause, North Wales, Pa.; E. K. Bean, Landsdale, Pa., and H. B. McFarlan, East Downingtown, Pa.

Augustus Du Bosq, for many years a manufacturing jeweler, 722 Chestnut St., died, last Monday evening, from a complication of diseases and old age. Mr. Du Bosq was better known as a repairer of pearls and onyx jewelry, having succeeded his father in that business until the time of his death. The business will be carried on under the same name. Augustus Du Bosq Gresimer, grandson of deceased, who has had charge of the business the past five years, will continue the management. Mr. Du Bosq was 72 years of age.

Department store detectives have been worried in the past month by the wholesale robberies committed from time to time in the jewelry sections. They feel sure that hidden somewhere in the city are a number of experienced thieves who have organized a corps of young girls to steal from the stores. Two were arrested last Friday after having been followed to their home, where their room was searched and considerable jewelry found. Captain of Detectives Gallagher will question them and see if he cannot find some clue to their leaders.

Jennie Broadbent, 35 years old, daughter of a jeweler at 4155 Frankford Ave., attempted to commit suicide at Atlantic City, Tuesday, July 20. A party of Miss Broadbent's friends went with her on a yachting trip from the Inlet, and it was while out at sea in the midst of a merry party that Miss Broadbent leaped overboard. John Winder, a boatman, plunged after the woman, and

by desperate efforts kept himself and the unconscious woman afloat until the yacht was brought about. The girl was turned over to the police when the yacht reached the Inlet. She is believed to be demented. Relatives were summoned, and inquiry developed the fact that she had arrived on an early train, intending to spend the day.

Connecticut.

John B. Kirby, New Haven, has moved into his new home in Everett St., at that place.

The factories of the Seth Thomas Clock Co., Thomaston, closed Thursday evening, July 22, for the annual vacation. They will reopen Aug. 10.

Wilbur F. Rogers, one of the founders of the business of C. Rogers & Bro., and a retired manufacturer, recently celebrated the 68th anniversary of his birth.

C. B. Sanford, manager of the Sessions Clock Co., Forestville, left Wednesday morning for Quanacontague, R. I., where he will spend a vacation of two weeks with his wife and daughter.

Among those well known in the trade who were recently elected officers of the Bristol Savings Bank, Bristol, are: Walter A. Ingraham and C. F. Barnes, vice-presidents, and Samuel B. Harper, auditor.

William B. Nicol, 35 years of age, died recently in Hartford, after a long illness. Mr. Nicol had been in the employ of Wm. C. Callery, in Hartford, for some time. He was born in Edinburgh, Scotland, where he is survived by his mother.

N. Burton Rogers, well known in the jewelry trade as a silverware manufacturer, and also past department commander in the Grand Army, entertained Gov. F. B. Weeks and some of his staff, besides the veterans of the Civil War, at Grand Army Hall, Tuesday evening of last week. Pleasant reminiscences were heard and refreshments were served.

James Densmeir, who was recently taken into custody accused of fraudulently securing \$30 from Nathan Glasner and \$40 from the Samuel S. Graves loan office, both of Bridgeport, has been bound over to the next term of the Superior Court under bonds of \$500. Elias L. Glouskin, 966 Chapel street, New Haven, recently reported to police headquarters that he had been defrauded to the extent of \$100 by a scheme similar to that used by Densmeir. Densmeir's scheme was to secure loans on rings which he represented as being set with diamonds, but which proved to be practically worthless. The rings are said to have been excellent imitations.

The fifth annual convention of the Associated Advertising Clubs of America will be held in Louisville, Ky., Aug. 25, 26 and 27. Every possible phase of the advertising proposition will be touched upon, and the "ad" will be followed from the time it leaves the hand of the copy man until it falls under the eye of the reader. Buying and selling advertising, the legal phase of the question and the important part allotted to the printer are some of the things that will be discussed, and they will be handled by experts.

UNITED STATES PATENTS.

PUBLISHED JULY 13, 1909

927,172. TIMEPIECE. EMANUEL AVIERO, Brooklyn. Filed June 22, 1908. Serial No. 439,799.

A timepiece comprising a stationary dial having spaced there around the names of certain principal cities in the eastern and western hemispheres, said names being printed in different colors to distinguish anti and post meridian times, and also having mathematical indicia used in connection with said names for correcting the time shown by subtraction and addition, said dial having minute

graduations arranged there around, an hour element comprising a multi-pointed rotating dial located within the stationary dial and having characters indicative of the hours of the day to coact with said graduations, and a single hand traveling over said rotating dial and pointing to the minute graduations on said stationary dial.

927,568. SHIP'S-BELLS CLOCK. PAUL LUX, Waterbury, Conn., assignor to the Waterbury Clock Co., Waterbury, Conn. Filed May 11, 1908. Serial No. 432,244.

In a ship's-bells clock, the combination with the rear and front movement-plates thereof, of two hammers, two hammer-hubs respectively carrying

the said hammers and mounted upon a common axis projecting rearwardly from the rear or outer face of the rear movement-plate, two hammer-lifting levers respectively connected with the said hammer-hubs for the operation thereof, a gathering-hub located upon a stud projecting from the rear face of the rear movement-plate, hammer-lifting pins mounted in the said hub and respectively coacting with the said hammer-lifting levers, a gathering-pin in the gathering-hub, a rack located upon the rear face of the said rear movement-plate and coacting with the gathering-pin, means for operating the rack, and mechanism for catching one of the two hammers on the up-stroke on the half hours which are indicated by an odd number of strokes.

927,596. STEM-WINDING AND STEM-SETTING WATCH. WILSON E. PORTER, New Haven, Conn., assignor to the New Haven Clock Co., New Haven, Conn. Filed Dec. 15, 1908. Serial No. 467,603.

In a stem-setting and stem-winding watch, the combination with the front movement-plate thereof, of a dial wheel located upon the outer face of the said plate, a radially movable stud passing through the said plate, a setting pinion located upon the outer face of the said plate and fixed upon the outer end of the said stud, a setting-wheel located upon the inner face of the said plate and fixed upon the inner end of the said stud, a longitudinally movable and rotatable stem, a stem-setting pinion carried thereby and normally

intermeshed with the setting-wheel upon the inner face of the said plate, and a spring located within the said plate and engaged with the said setting-wheel for normally maintaining the same in engagement with the stem-setting pinion and normally maintaining the setting pinion fixed upon the outer end of the said stud demeshed from the dial wheel.

927,805. WORKMAN'S TIME-RECORDER. FREDERICK G. LAKE, Presbury, England. Filed April 16, 1909. Serial No. 490,292.

A workman's time-recorder comprising, in combination, a vertical and perforated keyboard, a fulcrum and supporting means therefor behind the keyboard, quadrants mounted upon such fulcrum and adapted to lie with one edge normally parallel with the rear face of the keyboard, numeral type characters on the curved peripheries of the quadrants, two independent levers also mounted on the said fulcrum behind the said keyboard and along-

side the quadrants, and one of such levers bearing the type characters of the word "In" and the other of such levers bearing the type characters of the word "Out," and both the said levers holding the said type characters on a level with the type characters on the quadrants and normally to one side of a printing line, two wheels and an axis therefor behind the keyboard and alongside the levers, type characters of the hour of the day on one wheel and type characters of the minutes of the hour on the other wheel, means for rotating such wheels at a rate proportionate to the time of the day, a series of plunger keys slidably fitting the perforations in the keyboard and each having a disk at one end bearing a numeral and at the other end lying directly in front of one of the quadrants, means for normally holding the quadrants against the plunger ends, means for returning the plunger keys after being pressed against the quadrants, means whereby on the plungers being pushed one by one against the quadrants these latter are moved on their fulcrum to various distances, spring actuated retaining pawls—one for each plunger in which is a notch—and supporting means for the pawls, a printing bar,

means for supporting such bar elastically above the quadrants, levers and wheels, and inked ribbon passing between such bar and the quadrants, levers and wheels, means for rocking each of the said type-carrying levers about its fulcrum, and further means operated by the said lever-actuating mechanism for simultaneously depressing the printing bar, means for retaining the bar momentarily when being depressed and suddenly releasing the same, and further means whereby, on either of the said type-carrying levers being operated to move the printing bar and after the bar has moved to strike the type, the retaining pawls of the plunger keys are simultaneously moved and caused to free the plunger keys.

927,827. SAFETY-CATCH FOR JEWELRY. ANDREW BURGESS, Newark, N. J. Filed Feb. 13, 1909. Serial No. 477,502.

A safety-catch comprising a hook having a slot therein and having a groove on its inner face, a ring rotatably arranged in the groove and having an opening to be placed in or out of register with

the opening in the hook as the ring is rotated, and a stud on the ring projecting through the slot in the hook and providing for the manual manipulation of the ring.

927,859. BALANCE-WHEEL SHAFT. CHARLES M. JOYE, Waynesboro, Ga. Filed Oct. 21, 1908. Serial No. 458,800.

The herein described balance-wheel construction comprising a staff provided at its opposite ends with threaded stems, a balance-wheel rigid with the staff, removable caps threaded upon the stems and formed at their outer ends with sockets, a

collet clamped between one of the caps and the staff, a roller table clamped between the opposite cap and the staff, capstones fitted within the sockets of the caps, jewels also fitted within the sockets, and fixed pivot studs engaging the jewels.

927,877. WINDING AND HAND-SETTING MECHANISM FOR WATCHES AND THE LIKE. HERMANN ROOST, Le Locle, Switzerland. Filed July 28, 1908. Serial No. 445,827.

In winding and hand-setting mechanism for watches, the combination of the winding rod, the sliding pinion, a rocking lever operated by the winding rod, an inelastic disk oscillated by said

rocking lever and carrying a pin, and a second disk having a common pivot with the first and formed with a part to engage and operate the sliding pinion and with a spring abutting against said pin.

927,907. ELECTRIC APPARATUS FOR DRIVING CLOCK OR SIMILAR MECHANISMS. HENRY E. WARREN, Ashland, Mass. Filed Oct. 22, 1908. Serial No. 458,954.

The combination of an oscillating device, electrical means to give it added impulse when oscillating, an electric circuit including such impulse means and also resilient make-and-break devices, one of which latter devices is adapted to be set

in vibration in relation to the other, by the impact of the oscillating device, and thus interrupt the electric circuit for periods of time which vary in

proportion to the variation in the length of the arc through which said oscillating device swings.

928,105. FOUNTAIN-PEN ATTACHMENT. RUDOLF E. BUSCHKE, Philadelphia, Pa. Filed Jan. 19, 1907. Serial No. 355,134.

A fountain-pen cap slotted longitudinally, a roller arranged in said cap having a pocket in one end adapted to receive the pen point, a recess produced in the opposite end and having a shank extending longitudinally through the end of the cap,

a spiral spring carried in the said cap, one end being connected to the shank and the opposite end to the cap, a knob arranged upon the outer end of the shank and a strip of blotting paper connected to the roller and adapted to be rolled thereon.

928,213. HOLDER FOR FLOWERS, CANDLES, ETC. CHARLES L. PATTERSON, Chicago, assignor of one-half to Ira A. Jones, Chicago. Filed March 30, 1909. Serial No. 486,748.

A holder for cut flowers, candles and the like, comprising a cap formed of thin spun metal and

having a central tube from which extends an annular rim provided at its edge with a flange or skirt, and a set of radiating arms the inner ends of which pass through the said skirt or flange and are secured below the said annular rim.

DESIGN.

40,434. BROOCH OR SIMILAR ARTICLE.

OZRO C. LANPHEAR, Calverburg, Ill., assignor to the Grand Council of Delta-Delta-Delta

Fraternity. Filed May 8, 1909. Serial No. 494,942. Term of patent 14 years.

Owing to a mix up in the cuts in the assign patents published in the last issue, the following designs are reprinted in their correct form:

40,119. HANDLE OF SPOONS, FORKS OR SIMILAR ARTICLES. WILLIAM C. CODMAN, Providence, R. I., assignor to the Gor-

ham Mfg. Co., Providence, R. I. Filed May 14, 1909. Serial No. 496,084. Term of patent 14 years.

40,120. HANDLE OF SPOONS, FORKS OR SIMILAR ARTICLES. WILLIAM C. CODMAN, Providence, R. I., assignor to the Gor-

ham Mfg. Co., Providence, R. I. Filed May 14, 1909. Serial No. 496,085. Term of patent 14 years.

40,121. HANDLE OF SPOONS, FORKS OR SIMILAR ARTICLES. THOMAS HEATH, Attleboro, Mass., assignor to the Watson &

Newell Co., Attleboro, Mass. Filed May 11, 1909. Serial No. 495,672. Term of patent 7 years.

40,122. SPOON, FORK OR SIMILAR ARTICLE. HARMAN P. ROGERS, Albion, Ind.

Filed March 31, 1909. Serial No. 487,095. Term of patent 7 years.

UNITED STATES TRADE-MARKS.

[The following trade-marks have been adjudged entitled to registration under the Act of Feb. 20, 1905, and are published in compliance with Section 6 of said act. Said section provides:

"Any person who believes he would be damaged by the registration of a mark may oppose the same by filing notice of opposition, stating the grounds therefor, in the Patent Office, within 30 days after the publication of the mark sought to be registered, which said notice of opposition shall be verified by the person filing the same before one of the officers mentioned in Section 2 of this act. If no notice of opposition is filed within said time the commissioner shall issue a certificate of registration therefor, as hereinafter provided for."

Marks which are stated to have been "Used 10 years" are registrable under the last proviso of Section 5 of said act, which is as follows:

"And provided further, that nothing therein shall prevent the registration of any mark used by the applicant or his predecessor, or by those from whom title to the mark is derived, in commerce with foreign nations or among the several States, or with Indian tribes, which was in actual and exclusive use as a trade-mark of the applicant or his predecessor from whom he derived title for 10 years next preceding the passage of this act."

PUBLISHED JULY 13, 1909

Ser. No. 41,034. (CLASS 28. JEWELRY AND PRECIOUS-METAL WARE.) GUSTAVUS A.

SCHLECHTER, Reading, Pa. Filed March 9, 1909.

UNIVERSAL

Particular description of goods.—Watch fobs and badges.

Ser. No. 41,890. (CLASS 28. JEWELRY AND PRECIOUS-METAL WARE.) THE ARIZONA TURQUOISE MINES Co., New York. Filed April 20, 1909.

Particular description of goods.—Rings, scarfpins, brooch-pins, veil-pins, cuff-links, bracelets, necklaces, hat-pins and hair ornaments made wholly or partly of precious metal.

TRADE-MARKS REGISTERED, JULY 13, 1909

74,406. ALARM-CLOCKS. DARCHE MFG. Co., Chicago.

Filed March 15, 1909. Serial No. 41,197. Published May 11, 1909.

BRITISH PATENTS.

(ABRIDGMENTS OF SPECIFICATIONS, 1908, FROM The Illustrated Official Journal.)

ISSUE OF JULY 7, 1909.

5,335. CHAINS; JEWELRY. F. KAMMERER, Germany. March 9.

Relates to resilient chains for necklaces, bracelets, waistbelts, etc., having separate members with spring housings therein, and consists in special connecting-links for these members. The members o with housings c for the springs d, Fig. 1, are of the ordinary construction. The connecting-links g are formed of pieces of metal shaped as shown in

Fig. 6 and closed to form the link shown in Fig. 7. The turned-over end e of the blank embraces the turned-over end m and a hook k on the end e springs into a recess, bend, or notch l formed near the end m and prevents the reopening of the link. A recess h inside one end of the link is adapted to receive the cross-pin i of the members a.

5,631. CLOCKS, ETC. J. LOVE and A. LINDSAY, Glasgow. March 13.

For timing football matches, etc., a watch or clock is enclosed within a casing consisting of a back part 2 and a transparent front 5, the latter of which is marked with two radial lines 6 at an

angle to one another. At the commencement of the game, the front cover is rotated on the back cover until the foremost line is over the minute-hand; the second line then indicates the time at which the game should terminate. In modifications, the front cover 5 is fitted with a pair of radial indicators rotatable by a central knob, or the casing is dispensed with and the marks are made on the

ordinary cover glass of the watch, the glass being loosely fitted to permit of rotation.

5,652. CLOCKS. R. MERZ, Oberursel, Germany. March 13.

An alarm clock, instead of ringing a bell, knocks on the case in which it is mounted, so that blows are transmitted to a bedstead when the clock is attached thereto. When the alarm goes off, in the usual manner, the winding-handle *e* causes a lever *a* to release a fly *l*. A spring-driven train *p* is

thus freed and rotates arms *k*, which raise a hammer *l* against a spring, and a succession of blows is given on the casing *a*.

5,663. CLOCKS. P. A. NEWTON, London—(Ansonia Clock Co., New York, U. S. A.). March 13.

Relates to a device of the kind in which repeating alarm mechanism, when not in operation, is freed from engagement with the time mechanism. When the trip-spring 4 at the set time moves out

of the path of the arm *1a* which is fixed to the arbor carrying the hammer-stem, it clears an inclined projection 13 carried by a rocking-lever 10, Fig. 4, so that a spring 16 brings a toe 9 at one end of this lever into engagement with a lantern pinion 8 on an arbor of the time-train, an offset 12 at the other end blocking the arm *1a*. The hammer can then oscillate intermittently as each tooth of the pinion 8 in turn lifts the lever 10, until the trip-spring 4 comes again into its normal position, and by pressing on the projection 13, raises the toe 9 clear of the pinion 8.

5,740. JEWELRY. J. S. WITHERS, London.—

(Dubois Watch Case Co., Brooklyn, N. Y., U. S. A.). March 14.
A brooch *d* provided with a pin-and-catch fastener

ing *a*² is swiveled to the watch pendant at *d*¹, thus obviating interference with the motion of the escapement caused by the swinging of the watch. The brooch may consist of two swiveled parts, and may be swiveled to the base of the pendant or hinged to the watch case.

Applications for patents filed June 21-26.

44,452. PROCESS FOR MAKING AND PREPARING ALUMINUM MOUNTS FOR LADIES' BACK-COMBS, HAT-PINS AND OTHER ARTICLES. TOM VICTOR CLARKE, Birmingham.

44,460. NEW OR IMPROVED INDICATING DEVICE TO SHOW WHEN A CLOCK OR WATCH NEEDS WINDING. CHARLES GUY STANDING, Liverpool.

44,532. IMPROVED MEANS FOR PROTECTING THE POINTS OF HAT-PINS AND THE LIKE. BERTA KUMMERT, London.

44,639. IMPROVEMENTS RELATING TO WATCHES AND TIMEPIECES. LOUIS HAMON LE WARNER, London.

44,811. COMBINATION COLLAR AND TIE STUD. THOMAS KENWORTHY and DICK LITTLEWOOD, Hyde, Cheshire.

UNITED STATES PATENTS THAT HAVE EXPIRED.

[Reported especially for THE JEWELERS' CIRCULAR-WEEKLY by R. W. Bishop, Patent Attorney, Washington, D. C.]

Patents expired, July 12, 1909.

478,546. CLOCK CASE. WILLIAM T. AMES, New York.

478,645. WATCHMAKER'S TOOL. FRANK E. LINDAHL, Chicago.

478,646. EYEGLASSES. JOHN LIMING, Mount Averino, Pa.

478,734. WATCH CASE. FRANCOIS BORGEL, Geneva, Switzerland.

478,812. POCKET-KNIFE. WILLIAM O'HARE, Middletown, Conn.

478,836. EYEGLASS-GUARD. GEORGE BAUSCH, Syracuse, N. Y.

478,860. DIE FOR SWAGING SPOON-BLANKS. HUBERT C. HART, Unionville, Conn.

478,861. DRINKING ATTACHMENT FOR CUPS, MUGS, ETC. JAMES S. HOWARD, New Bedford, Mass.

478,888. CALENDAR FOR WATCH CHARMS. FAYETTE W. ROE, Omaha, Nebr.

478,907. PROCESS OF REDUCING METALS. HENRY S. BLACKMORE, Mount Vernon, N. Y.

478,908. FURNACE FOR REDUCING METALS. HENRY S. BLACKMORE, Mount Vernon, N. Y.

478,971. MACHINE FOR EXTRACTING GOLD FROM PULVERIZED ORES, ETC. THOMAS C. SIMONTON, Paterson N. J.
Design issued Jan. 9, 1906, for 3½ years.

37,779. CONDIMENT-HOLDER. FRANCES SCHENKER, Vincennes, Ind.

Patents expired July 19, 1909.

479,003. BUCKLE. STEPHEN T. HISLEY, Syracuse, N. Y.

479,004. FRAMED PICTURE, MIRROR, AND THE LIKE, AND METHOD OF FORMING THE SAME. JOHN JACOBSON, Boston, Mass.

479,092. HAND-MIRROR. WILLIAM A. JULIAN, Cincinnati, O.

479,191. BUTTON. FREDERICK H. LARTER, Newark, N. J.

479,290. PROCESS OF TREATING NICKEL-MATTE. PIERRE MANHES, Lyons, France.

479,292. WATCH CASE SPRING. JULES MENEGAY and ARMAND MENEGAY, Brooklyn, N. Y.

479,304. MACHINE FOR CLEANING AND POLISHING KNIVES. JOHN PLETSCHER, Baltimore, Md.
Design issued July 22, 1902, for 7 years.

35,979. BADGE OR SIMILAR ARTICLE. JAMES L. EWING, Washington, D. C.

I. H. Barnes, formerly of Roachdale, Ind., has removed to Greenfield, Ind.

Lancaster, Pa.

TRADE CONDITIONS.

The long drouth in Lancaster County was responsible for loss of trade by the jewelers from the country people. It is a fact, though hard to credit, that this class of trade held back from buying luxuries because they feared a failure of the crops and were hoarding their cash. The recent rains may set them to buying again.

P. B. Marshall has gone to Chicago on a business trip.

Martin S. Roberts, Baltimore, formerly of Lancaster, is visiting friends here.

Ernest Zane, Philadelphia, and his son visited the former's father, E. P. Zane, Christiana, last week.

James B. Roumfort, of the H. S. Meiskey Co., who has been at the home office, has left to cover an extensive territory.

John J. Bowman, William Pirosh and Marcus Edelstein represented the trade at the recent Lancaster Board of Trade banquet.

Frank P. Mingle will leave, about Aug. 1, for Denver, Colo., with a view to opening a repair and engraving establishment. He formerly resided in that city.

O. A. Dupstadt, Somerset, Pa., has bought out the business of E. A. Hines, a jeweler, of Vandergrift, Pa. Both were students of the local technical school.

John H. Reisner, the New England representative of G. William Reisner, spent a few days at the home office, recently, before leaving on a trip to the Blue Mountains.

Charles M. Jusek, though a jeweler, is the champion raiser of big four-leaf clover, the emblem of good luck. He has raised a stalk with leaves measuring four and a quarter inches across.

Elmer P. Shertzer, with T. Wilson Dubbs, has been spending his vacation in Cecil County, Md., and Miss Lillian A. Long, a saleswoman for S. Kurtz Zook, is on a two weeks' trip to Baltimore, Washington and New York.

Webb C. Ball, Cleveland, O., was the guest of President Charles D. Rood, of the Hamilton Watch Co., last week. William L. Marion, an employe of the watch factory, has been granted a patent on an ingenious window shade roller.

In a competition of workmanship among the students of the Ezra F. Bowman Technical School the cash prizes were won by Jesse G. Fox, Rocky Mount, N. C.; H. W. Flinchbaugh, Annville, Pa.; and H. B. Sniffen, Sandy Hook, Conn., in the order named. The winner of the second prize has just taken a position as watchmaker with W. W. Appel, of this city. John Gitt, son of George Z. Gitt, Littlestown, Pa., a graduate of the school, now engaged in Camden, N. J., stopped in Lancaster a few days last week, en route to Hanover, Pa., his old home, on a vacation visit.

Albert C. Kirberger, Warren, Pa., left that town recently for New York, from which port he sailed July 20 on the *Kaiser Wilhelm de Grosse* for Europe. On his trip abroad Mr. Kirberger will combine business and pleasure and besides visiting his sister in Wiesbaden, will go to Paris to select a line of novelties for his holiday trade.

“Have
You
 the
 Elgin
 with
 the
 49
 Dial?”

“H AVE you the Elgin with the 49 Dial?”
 Such a question will soon mean money to you, because it's one that's going to be asked everywhere and often.

Back of it is the demand that is being created for the new Railroad Elgin through the medium of advertising in Railroad magazines telling of this innovation among watches.

This watch is making a strong appeal to railroad men and others because of its readable dial. The hands are large, the figures big and plain, the dial either of white enamel or silver finished metal. This latter is the *only* metal dial with hard *inlaid enamel figures*. It catches the faintest glimmer and is easily legible in dim light, besides being proof against the chemical action of cleaning fluids.

This new Railroad Elgin is the thinnest and most compact 18 size movement made. and is cased at the factory.

Don't wait until you see two or three prospective customers go elsewhere before you lay in a stock, but write now, RIGHT NOW, for prices and terms. Your jobber can give you full particulars. Or write direct to the Company.

Be ready when the demand is made for the Railroad Elgin with the “49 silver” or “49 enamel” dial.

These are the four grades and established retail prices as advertised :

	GRADE		20 YEAR GOLD-FILLED	25 YEAR GOLD-FILLED
VERITAS		23 JEWELS	\$46.00	\$48.00
VERITAS		21 JEWELS	\$43.00	\$45.00
FATHER TIME (VERITAS MODEL)		21 JEWELS	\$38.00	\$40.00
B. W. RAYMOND	“ “	19 JEWELS	\$34.00	\$36.00

An Electric Clock for Which Many Novel Features Are Claimed.

Translated expressly for THE JEWELERS' CIRCULAR-WEEKLY from *La France Horlogere*.

THE advantages of an electric clock are manifold, and for a long while it has been regarded as the ideal instrument for the accurate and practical measurement of time. Under these conditions, the question is rightly asked, Why are they not used more extensively. The answer is simple—a great many systems produced are more or less defective. They display most, if not all, of the following faults: (1) Complication of apparatus, (2) rapid exhaustion of batteries, (3) difficulty or impossibility of regulation, (4) noise, (5) defective contacts, and (6) high price.

The invention illustrated herewith radically prevents these defects, as we read in the excellent *Revue Suisse des Inventions et de l'Industrie*, published at Lansanne.

A simple glance at Figs. 1 and 2 will suffice to make the operation of the system comprehensible. The pendulum is suspended in the ordinary manner by means of a spring hanger. It is equipped at its lower end, with a piece of soft iron, which, when the pendulum swings, moves above the electro magnet. The upper part of the pendulum *g* (Fig. 1) bears a small split piece, in which engages the pin *v* of the controlling lever *f*, pivoted on the same axis as the anchor *d*, which it moves by means of a heavy friction caused by a spring that presses the parts one against the other. This heavy friction is designed to permit the controlling lever *f* to clear without inconvenience about the axis on which is fixed the anchor *d*, the angular movement described by the latter in the two directions, when the lever *f* is operated by the very considerable amplitude of the pendulum at the beginning of the impulse.

The anchor operates in turn, by means of inclined planes on these two mobiles, the escape wheel *c*, the upper pivot of which, like that of the anchor, is supported by a cock *b*.

The escape wheel *c* carries an electrically insulated disk, *j*, in which is countersunk a contact of pure silver, *k*, which is devised to close the circuit when it comes in contact with the pure silver point *i*. This contact is sustained by a spring, carried by the terminal *h*, insulated electrically from the rest of the clock and connected to one of the poles of the battery. The other

pole, after having passed by the spools of the electro magnet, is connected to the bulk of the clock by the terminal *h'*, the spring and the pure silver point *i'*.

A pinion, *l*, to which is attached the escape wheel, engages with the intermediary wheel, *m*, fastened on a pinion controlling the wheel *q*, fixed, in its turn, on the cannon pinion that carries the minute hand. This latter, through the ordinary pinion *r*, operates the motion work wheel *s*, which, by

FIG. 1.

the ordinary pinion *u*, to which it is riveted, actuates the hour wheel *p*, bearing the hour hand. This clock can operate any number of secondary clocks.

This description enables us to comprehend the simplicity of this electric clock system. When the contact *k*, countersunk into the insulated disk of the escape wheel *c*, passes under the contact *i*, the circuit is closed during a brief fraction of a second, the piece of soft iron attached to the bottom of the pendulum is attracted by the electro magnet, and the movement of the pendulum is thus kept regulated once a minute.

It is certainly impossible to find a system that is more simple and more certain. The proper performance of an electrical clock depends mainly on its simplicity, and from

a commercial point of view the sale of a clock that is simple is very greatly facilitated. Not so very long ago the clockmaker had manifested himself as absolutely opposed to the sale of electric clocks, chiefly on account of the complication of the systems they employed. Speak to a clockmaker of an electric clock; he will look at you with an air of gentle pity and calmly reply, "An electric clock cannot go." Really, the clockmaker is afraid of the electric clock; his knowledge is insufficient on this point. Unfortunately he entertains equally wrong ideas in regard to the simple, controllable and docile agent, electricity. He treats it as capricious, but what an unmerited reproach! The laws governing it are really sufficiently well known to permit of the suppression of the word "capricious." Electricity is less capricious than a mainspring.

The electrical portion of the present clock is so simple that it cannot possibly frighten the clockmaker. It will prove easy to set up and to regulate without special instructions, and should it suffer a stoppage its repair is easy.

In many systems made up to the present time, the period during which the circuit is closed is greater than is necessary; this causes unnecessary consumption of electrical energy, or possibly it is the frequency of contacts that results in rapid waste of the source of energy. In the system described herewith the contact is established only once a minute, and for a minimal time, the consumption of current is infinitesimal. Some systems require considerable strength, and even two or three cells may be necessary. This clock can run one or two years on a single ordinary cell without recharging. If the battery is very good, it may even suffice for a longer period.

The great simplicity of the mechanism, the absence of any violent concussions often met with, permits the greatest accuracy of regulation. One fault that, on first consideration, may appear insignificant, is the noise made by many electric clocks. Now, this noise is most disagreeable, and we know of hotels of the highest class in which guests have torn down the wires or disturbed the mechanism in order to be able to sleep in peace. This recently invented system is absolutely silent. There is no perceptible noise, not even the tick of the pendulum. This important qualification allows of the use of this clock in bedrooms, hotel rooms, hospitals, etc.

In electrical horology the only perfect contacts are those working by friction

WALTHAM WATCHES

FIFTY YEARS AGO

FRIDAY, APRIL 22, 1859.—The proprietors and workmen of the watch factory at Waltham were entertained by Gov. Banks at his residence today. About 200 men and women were present.

From Boston Advertiser, April 22, 1909.

The Waltham factory had existed five years. Here was the first successful effort to realize the dream of Dennison, father of American watch-making. Here was the first and only structure in the world erected for manufacturing pocket timepieces. Three hundred people were employed, the largest number ever assembled in such an enterprise. General Banks was proud of Waltham, where he was born and where he had worked as bobbin boy in a cotton mill. He found time, while Governor of a great State, to greet and encourage the operatives of this watch factory, because he believed that they were creating an imperishable industry. He lived until the word WALTHAM had symbolized the perfect watch in every country on the globe.

In that year, 1859, the total number of Waltham watches manufactured was 12,304; in 1906, the product was 855,000; to-day there are 16,000,000 in use. The Waltham factory was the parent factory. It is now the corner-stone of an industry that gives a livelihood to more than 100,000 persons in the United States. In 1859, it was the only institution of its kind here or anywhere else; every other watch factory came later. The Waltham factory is distinguished by its achievements as well as by its age. Waltham watches have always exemplified the highest type of watch construction, and public recognition of their superiority is attested by the highest awards at all the great Expositions wherever they have been shown.

The history of the WALTHAM WATCH COMPANY is the history of watch manufacturing on this hemisphere.

and without the sparking due to excessive current. Now, up to the present time such contacts have not existed. Inventors, in their different systems, have devised arrangements, often very ingenious, to lessen this system, it is claimed, this impurity did not obtain a perfect contact. In the Beck and Grisel system this so important question of contact has been skilfully solved. Contact is by friction, and is almost entirely free from break spark. To attain this result, these inventors sought and obtained a new insulation—a substance re-

sembling the decorator's enamel, of great hardness, polishable on the grindstone, and which they designate the "B. C." This insulation, intelligently applied, as may be seen on examining the model, has enabled them to obtain a break almost without a trace of spark.

FIG. 2.

sembling the decorator's enamel, of great hardness, polishable on the grindstone, and which they designate the "B. C." This insulation, intelligently applied, as may be seen on examining the model, has enabled them to obtain a break almost without a trace of spark.

More than this, in most systems the closing and opening of the circuit is effected at one and the same contact point, where the oxidization, by the breaking spark, increases the risk of bad contact, being that it is on exactly the same spot on which the opening and closing of the electric circuit is effected. The system also avoids this defect, thanks to its two points of contact, which at the same time suppress the oxi-

Flashing the Time by Wireless and Otherwise from the Naval Observatory in Washington, D. C.

(From the New York Sun.)

A FEW minutes before 12 o'clock noon every day in the year a young man walks into a certain room of the main building at the Naval Observatory, which is set up on a hill in the northwestern part of the District of Columbia. He glances at the various clocks in the room and then goes over to a table which is covered with electric apparatus.

He watches the clocks to his left closely and waits for the hands to reach five minutes of 12. As the second hand approaches the 60 on the dial he prepares to shift a switch. The clock is so finely adjusted that when the second hand points to 60 it exactly marks the beginning of a new minute.

As it touches the 60 the switches are thrown on. That starts a signal that goes out instantaneously over 900,000 miles of telegraph lines. In Washington, New York, Buffalo, Cleveland, Newport, Baltimore, Newport News, Norfolk, Savannah, New Orleans, Key West, Galveston, Chicago and elsewhere the time balls go up on their poles. People know that it is five minutes before noon, Washington time.

The clock which keeps the time in the observatory ticks on. With each tick there is a contact of electric points. A circuit is closed and an instrument on the table similar in appearance to a telegraph sounder ticks away loudly.

It goes on to the 29th second, then skips one tick, then resumes its steady sounding until the last five seconds, then there is another gap. These gaps are for the purpose of giving listeners at other ends of the great system of wires a chance to know what part of the minute the clock is on. So it goes up to the last minute.

At the 29th second there is again the skipping of one second. Finally the clock gets around to the 50th second. Then the circuit remains open for 10 seconds. There is silence all along the telegraph wires.

At the other ends, where there are time balls or merely train operators, the long pause indicates that noon is almost there. The second hand makes on toward 60 and finally reaches the mark. Then there is another click, in about a second the sounder is down and that tells hundreds of thousands of people that it is noon in Washington, that the Naval Observatory says so, and the Naval Observatory is now one of the best time keeping institutions in the United States.

It is a wonderful operation, this getting the time, and highly technical. Finely adjusted clocks, chronographs and other in-

struments of great value are used, and the taking and reording of the time has reached a point where the human equation is practically eliminated.

The results obtained are of great value, particularly to mariners. The time is not only flashed to hundreds of points in the United States, but it is sent far out to sea by wireless. A cable carries the flash to Havana, another sends it down to Panama and Callao, Peru.

The observatory here does not send the time much further west than the Rockies, but they have an observatory at the Mare Island Navy Yard, and from there the time is sent up and down the Pacific Coast, just as it is from here to the eastern part of the United States. In the cities where the central time is used the flash marks 11 o'clock. An hour later local operators drop the time balls.

The mean time is determined by astronomical observations. When certain stars pass the 75th meridian, called the meridian of Washington, it is a certain time. The operator watches for the stars through a telescope, the field of which is covered with fine wires.

As the stars reach a certain point in transit the operator presses a key in his hand. A contact is made and recorded on a chronograph. The chronograph consists of a cylinder covered with paper. A fountain pen rests on the paper. It is held by an arm attached to the mechanism. The cylinder revolves once a minute and the pen moves along the surface of the paper, making a spiral line.

A sidereal clock of the finest make is running in a vault underneath the observatory. With each tick of the clock there is a contact of two points. These two points are attached to wires that lead to an electromagnet attached to the arm that holds the pen of the chronograph. The clock is so adjusted that each minute the pen jumps to one side. Consequently there is a break in the line.

There are other breaks, too, when the observer watches the stars cross the lines in the field of the telescope. The mean time thus recorded for each star after being corrected for errors, is the clock time of the star's transit. Whatever difference there is between this clock time and the sidereal time marked by the transit of the stars is the error of the clock. From these astronomical observations the sidereal time is obtained. The error amounts to but little, rarely being more than from 5/100 to 10/100 of a second.

The sidereal clocks are wonderful pieces of work. They were made in Berlin by a man named Riefler. There are two of the clocks in the observatory building in Washington, and a third Riefler clock is in the room from which the time is sent out to the world.

The sidereal clocks in the observatory are beneath the ground, in the basement of the building. The room which contains them is small. There are three walls surrounding it, with spaces between them. The effort is made to keep the temperature within the room always the same. For this purpose there is a thermostat so delicately made that the increase in heat caused by the presence of a human being in the room,

only for a minute will be indicated.

The clocks are in large glass cylinders, four or five feet high and hermetically sealed. The cylinders are fastened to stone pillars which reach down into the ground and do not touch any part of the flooring. Thus there is no chance of vibrations affecting the clock except from earthquakes, and such happenings are beyond the control of the scientists.

The clock winds itself every 30 seconds by means of a small weight. The fall of the weight moves the clock. When the weight reaches a certain point a small electromagnet becomes operative, and the weight is picked up, to start on its downward course again, giving enough power to keep the clock going.

There are two clocks which may be used in automatically sending out the time, so if one should break down the other would be ready for the emergency. These clocks are made accurate by comparison with the sidereal clocks.

The time of sending a flash over the wires is practically nothing. A flash has reached Greenwich, England, in three-tenths of a second.

The Curious Old Clock of Heilbronn.

By CHARLES A. BRASSLER.

THERE are some old astronomical clocks, like those at Strasburg, Lyons, Lubeck, etc., that are known to almost everybody, while others, for no apparent reason, have remained obscure and comparatively neglected, although presenting many interesting features. Among the last-named class the old clock of Heilbronn, Germany, figures conspicuously.

The town hall of Heilbronn, built in Renaissance style, possesses an old curious clock, which serves as a superb ornament to the beautiful gable. The lower dial, about five yards in diameter, shows the signs of the zodiac and the courses of the seven planets, gayly painted in bright colors. Above this are two gilded goats and a gilded rooster. Above the rooster is the dial proper, which shows the time, and to the right and left are life-size figures of a herald and a knight, both with angels' wings.

Above the dial, in a niche, hangs the quarter bell, and just below this is a representation of the moon's phases. When it is about to strike 12 the two figures standing on each side of the quarter bell first strike the quarters, the hour then strikes on a bell, hung high up in the gable, and at each stroke the herald sounds a blast on his trumpet, the knight strikes or beats time with his sword, and the gilded goats butt their heads together. Finally the cock crows thrice. The present mechanism dates from the beginning of last century, and replaces a clock that was installed when the town hall was built.

After a prolonged period of construction, some time ago, the work of restoring the city hall was completed, as far as the chief façade was concerned. It is evidently easier to build a new edifice than to carve a new one out of an old building. Now that the restoration is finished, the architectural beauties of the Renaissance style, which many have hitherto passed idly by, are brought into striking prominence.

Especially effective, in addition to the imposing flight of steps, is the central structure that frames the famous clockwork. At the same time, the clock has undergone thorough repair; certain parts had ceased to work, and it was only proper that their functions should be restored. Thus the trumpeting figure had for decades so reduced his efforts that there was no sound to speak of. Now he trumpets as he originally did, over the market place, in a man-

A Thousand-day Clock Movement.

IN the field of clock making an interesting invention is reported from England. King Edward was shown, recently, by the inventor, Siegmund Kutnorr, a clock that neither ticks nor requires to be wound. This work of art is an electrical clock, in which the electric current acts directly on the wheel-work, consisting of five small

QUAINT OLD CLOCK IN THE TOWN HALL OF HEILBRONN, GERMANY.

ner to enthuse one; but it is the cock who has been most benefited by this restoration, for his resonant cock-a-doodle-doo rends the air on the third, seventh and 11th hours.

The original work of art, as stated before, dates from the 16th century, and was made by the native of Schaffhausen, Isaac Halbrecht, the constructor of the astronomical clock in the Strasburg cathedral.

Hurlbaeus & Ward, Bradentown, Fla., have dissolved, Edward F. Hurlbaeus continuing alone.

wheels. The main wheel runs on a ball-bearing, which is large enough for a ball-bearing for a second wheel.

It is operated by a dry battery that costs 25 cents. The battery is located within the works. The consumption of current is so small that the battery is guaranteed to operate the works at least a thousand days. Kutnorr has owned the model clock for three years; during all this time, it is claimed, it has been driven by a single cell of this character and has never stopped. The clock goes in any position, on a train or in an automobile.

From the Resolutions of the Missouri Society of Retail Jewelers

We advise you to investigate the proposed action of Robert Ingersoll & Bro. regarding the exclusive sale of their watches to the retail jewelers, and if you find it as favorable as we believe it to be, that you carry and sell their line as far as your trade conditions will permit.

This recommendation refers to the

Ingersoll-Trenton Watch

the sale of which is confined to responsible jewelers and which is sold direct to the retail dealer only.

The retail prices are restricted.

We will gladly lend assistance to "jewelers from Missouri" in any investigation which they may undertake regarding the "I-T" watch in response to this recommendation of their resolutions committee and in which our aid will be of service.

ROBT. H. INGERSOLL & BRO.

45 John Street, New York

Always Buy Watches of a Retail Jeweler

A Mail-Order House, Although It May Sell a Good Watch, Cannot Adjust It To Your Person.

No watch you buy by mail will keep perfect time, no matter who made it, how perfectly it is made, or what its reputation. A good time-keeper must be regulated to your person as carefully as a good tailor fits a coat. In no other way can you secure perfect timekeeping service. No one but your jeweler can do this. Watches you buy of mail order concerns are not and cannot be so regulated. That's the reason they never keep perfect time and always run too fast or too slow. The variation of even one one-thousandth part in the vibration of the delicate watch balance which governs the movement means a loss or gain of a minute and a half each day. South Bend Watches are sold only by reliable jewelers. They are never sold by mail, because South Bend Watches are so good that we do not want their great reputation for reliability and accuracy injured by improper regulating. We make South

Bend Watches as nearly perfect as it is possible to make a watch and pay the jeweler to regulate it to keep perfect time in your pocket. A watch which is a perfect time-keeper in one man's pocket, very likely will not keep time at all in another man's pocket. If you carry a South Bend Watch you will know that the watch you carry will stand tests that are twice as severe as any that you are ever likely to give it. It might be frozen solid in a block of ice,—it would still keep satisfactory time. Every adjusted South Bend Watch, before it is sent to your jeweler, is baked in an oven heated to 100 degrees Fahrenheit and kept for hours in a refrigerator at freezing points. It must keep perfect time in every position and not be affected by the jars and jolts of the hardest wear and usage you can give it. A South Bend Watch, although it is the best watch in the world, costs you no more than other good watches. Your jeweler will gladly show them to you and tell you why they are the best watches for you to buy. Send coupon today for our handsome book. "How Good Watches Are Made," and an interesting little device showing how South Bend Watches adjust themselves to every temperature. Don't fail to talk with your jeweler about watches before you buy any watch.

South Bend Watch Company
South Bend, Ind.

The Ads That Ring True

to the cause of the Retail Jeweler are the SOUTH BENDS. Men may talk and men may promise you protection against unfair competition, but we have gone further—we have put ourselves in black and white before the 80,000,000 of Uncle Sam's people, stating clearly that SOUTH BEND WATCHES are not sold to mail order houses.

What other manufacturer of watches has ever unqualifiedly come out for the Retail Jeweler? We are giving you quality goods. Now get in the bandwagon and help drum the mail order man out of the retail jewelers' camp.

Send for prices and literature to-day.

Read what the Principal Chemist of
the Standard Oil Co. says of

FULCRUM

Watch and Clock Oil

FULCRUM OIL CO.: — In physical tests of Fulcrum Watch and Clock Oils, I find that these oils are non-drying and do not gum when exposed to the atmosphere — nor do they evaporate.

The Fulcrum Watch and Clock Oils are neutral, and on account of the absence of free, fatty or *any other acid*, they do not corrode metals, such as Gold, Silver, Platinum, Copper, Nickel, Aluminum, Brass, Tin, White Metal, German Silver, etc.

I can cheerfully and conscientiously recommend the Fulcrum Watch and Clock Oils as ideal lubricants for Watches, Clocks, Scientific Instruments, etc.

June 7, 1909.

(Signed) FREDERICK W. MANN, Ph.D.

Read What Some of the Principal Watch Companies of This Country Think of

FULCRUM OIL

New England Watch Co.: "It is first-class in every way."

E. Howard Watch Co.: "We consider yours an improvement over any domestic oil we have ever seen."

South Bend Watch Co.: "We have completed a test with your oil in extremes of temperature and other conditions, and are pleased to report the result of the trial is most satisfactory."

The Most Serious Problem Ever Known in the Watch and Clock Business Has Been Solved

FULCRUM OIL

Positively will not gum.

Will not evaporate.

Will not become rancid or discolor in any length of exposure.

Will not corrode the pivots, because it is free from acids.

It is the only Watch or Clock Oil ever known which is absolutely free from acid and

We Can Prove It

No oil has ever before been spoken of and recommended so highly by people who know — and opinions from such people cannot be bought.

**FULCRUM OIL can be obtained from your material jobber,
35c. per Bottle; \$3.75 per dozen**

It costs nothing to try it — a postal to the factory will bring you a small Sample Bottle Free of Charge.

FULCRUM OIL COMPANY, Franklin, Pa., U.S.A.

STORE KEEPING DEPARTMENT

That this department shall prove mutually beneficial to our readers, it is desirable that the members of the trade generally communicate with THE JEWELERS' CIRCULAR-WEEKLY regarding any advantageous device or plan which they are utilizing in connection with their business.

The Shell of Our Business.

Paper read by FRED PILCHER, Mexico, Mo., before the recent convention of the Missouri Society of Retail Jewelers, in St. Louis, Mo.

THE artist hangs his picture here and there until he has obtained the light which best brings out its beauty and design. But the business man too often fails to throw the best light upon his own business, or, in other words, he falls into the habit of thinking of the kernel as the whole of the business nut. Forgetting that all through its tender years of growth and immaturity it will prove to be vigorous and alive only as the shell shall prove healthful, helpful and protecting, and able to take in that which is food for the immature kernel.

Well grounded and firmly set indeed must be that business which can afford to take no thought for outside appearances, or make no effort toward display. We can imagine that one year would sap the life and vigor from the best established one, which failed to regard outside appearances. No; competition is too great, and the young aspirant too energetic, for any to lay aside this drawing card. Young and old alike must be ever on the alert.

The question with all is: "How best to promote the life of business?" The newspaper man says: "Advertise." And so often has he said this that the world has become pretty well educated up to that point. But the question remains: "How shall we most effectively advertise?" Not through the press alone, although I would detract nothing from the importance of telling to the world what you have and what you can do. But do not stop with telling. Show your goods and show them in the most inviting manner. It is not the man from Missouri alone who has to be shown. The world at large is attracted by whatever is pleasing to the eye. And in no line of business is this more especially true than with the jeweler. Our wares are a luxury rather than a necessity, hence we must appeal to the beauty-loving, pleasure-seeking world. Not but what the man of hard toil comes often to purchase some simple gift of love, but he comes with his heart tuned to an appreciation of beauty and sentiment. Then let us be prepared to please such a one, as well as the connoisseur with his critical eye and educated tastes.

A spade may be a spade under all cir-

cumstances, but a jewel takes luster from its surroundings, and its beauty is enhanced by a suitable background and a tasteful arrangement. Since it is not something the purchaser must have, but some thing he desires because of its beauty and attractiveness—then, to display it in the most attractive way is plain business and common sense. Make your show window a thing of beauty, which will catch the eye of the passer-by, and his exclamation of pleasure will attract another. Thus you have thrown out a line which will surely draw business to you. We cannot all display jewels of fabulous worth, and we may not all be able to afford costly fixtures. But, to the man with his heart in the business, there is nothing in the jewelry line, down to the simple band of gold, that may not be made to draw the attention and supply the want of a customer.

The designs to be followed out in decorating store fronts, show cases, and all the appointments for display, are as varied as there are jewelers and different classes of customers. It is a study each must make for himself. But let his aim be to give to the whole, from back to front, that air of elegance, brightness and cleanliness which makes it a pleasure for the passer-by to "step in and look around." He sees a simple trinket here and there nestling against the soft velvet, and catches the glow of the diamond, the ruby, and the sapphire. These may awaken a spirit which will sometimes loosen the shell of the tightest and most grasping, and cause him in a moment of spontaneous generosity to take pleasure to others, while he gladdens the soul of the man behind the counter.

As in every other line, the business of the successful jeweler is not all dollars and cents. The man in love with his own work, enthused by its possibilities, and himself awake to its attractiveness, can hardly fail to make a showing of that which he feels is so worthy of display.

You may earnestly toil and labor,
And the tricks of the trade may know;
But if you fail to put the front on,
Your business will never go.

You have jewels to fit the favored ones,
And a ring for the country beau;
But you must know the art of selling them,
And be able to make a show.

With the best of inside workings
The shell has got to glow,
But the kernel will never its flavor keep
Without an outside show.

The Way of the Enterprising.

SOME unique window displays have been recently made by Noah Deal, of Arlington, Tex. In the show window a short time ago was shown a live owl, bearing the placard, "If you were a wise old owl like me you would trade with Noah Deal." Included in the show window collection were a tadpole, a baby turtle, a terrapin, a snake and two horned toads. The quaint collection has caused all kinds of comments, and, of course, has given the jeweler considerable publicity.

M. K. Giant, Vallejo, Cal., is one of the few jewelers who are located in a small place and who do business with customers at a distance. His watch repairing establishment is known all over the State and mail orders are of frequent occurrence. Within the past 16 months 1,384 watches and clocks have been repaired. Much of his success is due to the expert ability of Harry Atlas, the watchmaker employed by him.

An old \$1 note, issued by the Walkill Bank of Middletown, N. Y., in 1863, is being displayed in the show window in the store of H. S. Dusenbury & Son, on North St., in that city and is attracting a great deal of attention. The bill has been mounted and neatly framed.

Gross & Saxc, 349½ 3d St., Milwaukee, Wis., are selling watches upon rather a unique plan. The back of the program used at one of the vaudeville theaters is printed in the form of a coupon which, when presented at the jewelry establishment, credits the holder with a dollar on the purchase of a reliable watch. The firm is meeting with a ready business in selling the timepieces on the instalment plan of a dollar down and a dollar each week.

W. E. Avery, Columbia, S. C., is offering to settle with his creditors at 50 cents on the dollar.

A. E. Tucker, formerly in the jewelry business in Detroit, Mich., where he lived at 92 Myrtle St., but who is now a resident of Chicago, narrowly escaped death, one day recently, when he received through the mail in Chicago a bomb, which, it is alleged, contained nearly half a pound of dynamite. Tucker became suspicious of the package after hearing a clicking sound inside, just as he was about to open it.

Storekeeping Department.

The Spirit of Content.

SANCIO PANZA asked that we bless the man who invented sleep, says Richard Boehm, in *The Haberdasher*. In the interest of justice, he might have added a word for the individual who discovered leisure, that rare possession which is bestowed so generously upon some and which is almost unknown to others.

When the span of man's life was created, it divided his existence into thirds. During one of these he works; another is devoted to sleep, and the smallest of the three is that period of time during which he may idle. Sleep is not recreation, and we may not take from this duty time which should be ours for the cultivation of leisure. This civilization of which we boast has made no place for relief from toil. It has demanded that man should labor, and each era asks more of him, yet makes no alterations in the daily routine that has been in vogue since Romulus and another planned the complications of municipal life. If an issue be taken, apparently, our playing time is growing less, and it is not well that this should be so.

We have always endeavored to lighten labor, but to what purpose? The result of our effort does not mean increasing ease for physique or brain, and the sole accomplishment is found in the ability to do more in less time. Man does not put aside this period which he has spared, but crowds into it additional labor, and ere long he will essay to increase the working capacity of this.

In Bayard Taylor's part of the Catskill Mountains, the seeker of things unique may chance to ramble in the vicinity of Twilight Park. Here, long ago, the inventor of a world-famous labor-saving device built him a snug bungalow and dubbed it "Rest-a-while." He planned to linger here when his troubles were many and his soul world-weary. But he never came to Twilight, for the lure of his machine was stronger than the call of the pine woods, and the picturesque old shack remains still tenanted. What need for cogs that save seconds and wheels that make minutes if the cost of their production is beyond the reckoning?

Do you know that the body hungers for play? It cannot appreciate the hour that is stolen from sleep and has absolutely no desire to come into its own if the time must be derived from this source. But it asks for itself an allotted period, and unless our routine is absolutely the master of our wishes, the time and place will be ours to do with as our pleasure may dictate.

The search for ease is universal. It seems the natural instinct of man to look for soft spots, and, having acquired these, he disposes of the remainder of his time with the object before him to discover what may be done with them. Leisure that comes to us of a sudden is startling, and from this we may assume that preparation of some nature must be made in order that we may thoroughly enjoy what has been thrust upon us. An active man

who finds himself unexpectedly with much spare time before him is made as miserable as the idler who is thrown promiscuously into a position where much effort is demanded of him. We are not all adapted to the enjoyment of total freedom from stated occupation.

As it is said of one man that he is born to labor, so may we say of another that idleness is his lot. We may presume that each indulges himself in the utmost possibilities of his primogeniture for a time. Let us suppose that conditions are suddenly reversed. The worker is freed from his toils, and the other finds himself with

and the magic of fair skies and rolling hills and bosky dells is working wonderful mysteries with your peace of mind, go to all of these and take your fill of what they have to give. But, if it is your wish to retain the impression that was yours originally, come away before the charm palls. There are few associations that will endure constant attendance, few joys that hold their spell when we test them often, and of leisure, too, we tire. And when that time comes that man's nature rebels at an interval of ease, he has become a serf to a power stronger than any he may exert, and his horizon assumes the mag-

AN INTERIOR VIEW OF THE STORE OF BALL & PUTNAM, JOPLIN, MO.

the necessity of labor before him. It is not difficult to see what these changes will mean to both.

To idle gracefully is more difficult than any work may ever be. It warps the soul, this ease, makes thick the blood and ossifies the mind. There is no charm in entire abstinence from employment, however alluring the prospect appears in the eyes of a busy man. We do not influence the state that fortune has created for us. The condition that we may find ourselves in is the ruler of what happiness we may find in our special lot. Given a sphere, then, not of his own selection, it must needs follow that man should desire another orbit in which to move.

Those individuals who do not possess the ability to alter what destiny has made for them are compelled to make aspiration the sum total of their realization. In consequence, discontent stalks with them throughout their existence. No thought is more galling than this: To realize that we are beyond helping ourselves to better things. If man feels that chance has played him a scurvy trick in not making his opportunity a superior one, he may yet continue to enjoy a measure of content. But with this before him, that he is unable to cope with the difficulties of elevation, his dissatisfaction for always is assured.

If a silver trout stream is calling to you

nitide that is found when we look through the large end of the telescope.

Destiny, in all wisdom, has given few men the opportunity to become bored because of an abundance of leisure. Those individuals whom she has neglected in this respect so far outnumber the former that Fate may be excused for her whim. She gives no more generous gift than work to do, and the health and strength with which that labor may be done. With a little time to play and a duty to be done, man may have as a living part of himself that most serene possession, contentment. What need for more than this in life's brief span?

The Store of Ball & Putnam, Joplin, Mo.

THE interior of the Ball & Putnam store at Joplin, Mo., is pictured below. It is 25x60 feet and finished in ebony, with frescoed sidewalls and ceilings.

The walls are hung with paintings of merit, and a singular but pleasing effect is produced by Japanese hangings in the rear of the store, which the illustration fails to do justice to.

Arthur L. Songer, formerly of Xenia, Ill., is now at Flora, Ill.

Goodman & Connor, Childress, Tex., have dissolved. C. H. Goodman will continue the business on his own account.

THE CONNOISSEUR'S HANDBOOK.

Definitions of Some Technical Terms in Gold and Silver Smithing and Ceramics
Alphabetically Arranged for Easy Reference.

By Clement W. Coumbe.

(Continued from issue of July 14.)

BISJAMON (one of the Seven Japanese Gods of Fortune). "The god of glory, a warrior clad in knightly armor, grasping a spear and holding in his hand a pagoda, the symbol of power."—Bowes.

BISQUE. (See *biscuit*)

BIZARRE (Fr.). "Fantastic, capricious of kind."—Mollett.

BIZEN. One of the earliest ceramic wares produced in Japan was made in the province of Bizen, a piece being recorded during the reign of Suishin, 97 B.C. The well-known Bizen ware comes from kilns started during the XIII. century. "From their foundation the wares made have shown no particular change in material or character, the potters having confined themselves to the use of a particularly hard and extremely dense clay of a reddish-brown color, which they have fashioned into *chanoyu* (to which refer) vessels, small flower vases and statuettes of the Seven Gods of Fortune (to which refer), the latter being a favorite subject, and often showing remarkable skill and humor in the modeling. The stone ware of this province is the hardest and closest in texture of any made in Japan, and the objects themselves are generally of a heavy and solid character, covered with a salt glaze without brightness."—Bowes. Three classes are defined as Imbe, Migakite and Hitasuki, each distinguishable by Japanese connoisseurs. Glaze usually deep, rich brown. Imbe ware splashed lightly with yellow. Hitasuki ware more porous and "rude lines in the decoration intended to give the idea that it is tied with a cord." Migakite most carefully potted of these wares, particularly fine, and the brown glaze brilliant and evenly applied. Painted *Bizen* is the rarest description of all, but we find little to admire in it, for it is merely a fine brown stone ware, partially painted with light and dark brown and somber green glazes, and speckled here and there with spots of white enamel. *Bizen* ware pieces dating before the end of the XVI. century are known as *Ko-Bizen*; later ware is called simply *Bizen*.

BLACK. In Christian symbolism *black* denotes the earth, hence also death, mourning, evil, darkness, the negative. It is the attribute of the Prince of Darkness. "White and black together signify purity of life, and mourning or humiliation; hence adopt-

ed by the Dominicans and Carmelites. In blazonry" (heraldry) "black, called *sable*, signifies prudence, wisdom and constancy in adversity and love, and is represented by

TINCTURE SABLE (BLACK).

horizontal and perpendicular lines crossing each other."—Mollett.

"BLACK PRINTING." Former term for "on-glaze," or enamel printing, used toward the end of the XVIII. century, when most pottery printing was done in black.

BLACK WARE. "Black ware for domestic purposes was, in the XVII. and XVIII. centuries, much esteemed in England, and the manufacture was continually improved, reaching a high state of perfection at the hands of Wedgwood."—Jervis. (See *Egyptian black*.)

BLANC DE CHINE. Plain white porcelain pieces undecorated. They are said to be very ancient, and are stated to be the first form in which china was used—probably made to imitate ivory.

BLASTED. In heraldry, *blasted* means "leafless, withered."

BLAZERAN. Française. "A woman who operated a pottery at Lyons (France) about 1750."—Jervis.

BLAZON. "In heraldry, a term derived from the German word *blasen*, which signifies the blowing of a horn; it was introduced in heraldry from an ancient custom of the heralds. It was the practice when

BADGE OF KING HENRY V. IN HIS CHANTRY, WESTMINSTER ABBEY.

knight attended jousts or tournaments to blow a horn, announcing their arrival. This was answered by the heralds, who then described aloud and recorded the arms borne by each knight. Hence originated, it is presumed, the word *blazon*, or

blazonry, which signifies the describing in proper terms all that belongs to coats-of-arms."—Clark. For example, the *blazoning* of the badges on the cornice of King Henry's chantry in Westminster Abbey is as follows: "On the dexter, a white antelope, ducally collared, chained and armored or, and on the sinister a swan gorged with a crown and chain. The beacon or cresset or, inflamed proper."—Mollett.

"BLEU CELESTE." A later term for "*bleu turquoise*" (to which refer).

BLEU DE ROI. The Sèvres term for the blue produced from pure cobalt. English Royal Blue is the same.

"BLEU FOUETTÉ." "A Chinese ceramic blue ground color less deep than the ordinary Chinese blue; it appears as if it were granulated and *semé*" (sown) "with bubbles, which has led some persons to suppose it to be the *bleu soufflé* of Pere d'Entrecolles" (to which refer). "The *bleu fouetté* rarely covers whole pieces; it leaves reserves, which are decorated either in blue designs done in lines or in copper red under the glaze, or in various colors, particularly those of the *famille verte*" (to which refer).—Jacquemart.

"BLUE OF THE SKY AFTER RAIN." Chinese tradition says that a certain emperor demanded pieces of pottery that should be the color of the "blue of the sky after rain." His expert potters were in despair, but they found what was required in the azure blue that the Chinese know under this term. Pottery in this color was made about A.D. 945. It is also called *Tch'ai*, and the Chinese value little pieces of it as highly as jewels.

"BLUE POTS OF SAVIGNIES." (See *Savignies*.)

BLEU SOUFFLÉ. "According to the description of Pere d'Entrecolles (an early missionary to China) this effect (in ceramics) was obtained thus: The color made of the proper consistency is placed in a tube, one end of which is covered with a close gauze; by blowing through the other end little drops filled with air are precipitated upon the enamel. These burst when coming in contact with the sides of the piece and reduce themselves into little contiguous circles, forming a network like the finest lace. Sometimes the *soufflé* is blue; more often of a carmine red, which, at first sight, gives the piece the appearance of a violet-like enamel. This decoration often fails, the little drops do not burst, but form, on the contrary, into little veins, which run half-melted into the starch-blue glaze. Hence results a decoration very agreeable to the eye jasper, not less sought after than the *soufflé* itself."—Jacquemart.

"BLEU TURQUOISE." A ceramic color in-

A. ZAREMBOWITZ, 216-218 EAST HOUSTON ST. NEW YORK

vented by Hellot, 1752; it was later called "bleu celeste."

BLOCK CUTTING. A term used at first for the art of carving molds in alabaster, etc. Later it became the term for cutting of sectional alabaster, or clay, molds from which were prepared working molds for salt-glaze ware.

BLOIS. The finest tin-glazed ware of France comes from this town. A favorite form of decoration is the reproduction of the grand old castle of Blois.

BLONDEL, Michel. A goldsmith of Blois, France, of the early XV. century.

BLOOR, Robert. The Derby china works was under his proprietorship from 1815 to 1849. (See Derby.)

BLUE. "In Christian art blue, or the sapphire, expressed heaven, the firmament, truth, constancy, fidelity. Its symbolism as the dress worn by the Virgin Mary is of modesty. In *blazonry*" (heraldry) "it signifies chastity, loyalty, fidelity and good reputation. Engravers represent it by horizontal lines."—Mollett. It is known usually as "azure." (See *azure*.)

"BLUE-DASH CHARGERS." "Certain peculiar English delft plates of whose origin there is no positive proof are thus termed. They are probably Lambeth goods of the XVII. century. They run generally from 13½ inches to 18 inches in diameter, of hard body, covered on top in enamel of greenish hue. The decoration rests on the enamel, and a coating of lead glaze covers the entire piece. Daubs of blue paint about the edges gave rise to the name of 'blue dash.' The colors used are blue, brownish purple, green, orange and yellow. Subjects are historical, floral, biblical. They are exceedingly rare and obtain high prices in spite of their crudeness."

BLUE PRINTING. Blue was the sole color able to be used for under-glaze printing on its commencement (about 1780), hence the process became known as blue printing.

BLUNGER. The ingredients which compose the *paste* in ceramic productions are mixed in a circular tank known as a *blunger*. A series of arms radiating from the shaft in the center of this tank continuously stir this mass until it is thoroughly homogenous and of a creamy consistency.

BLUNTED CROSS. Cross moussée or

BLUNTED CROSS.

émoussée.—Robson.

BOAT. (See *de Boot*, Delft factory.)

BOBBON. A French medalist at Paris during the middle of the VI. century.

BOCAL. A short-necked, wide-mouthed drinking cup.

BOCCA (It.). A pitcher.

BOCCALE (It.). A decanter.

BOCALLETTO (It.). A small pitcher.

BOCCARO, or bucaro. "A term borrowed from the Portuguese language."—Jacquemart. A stoneware of fine paste, dense, close, generally of a red-brown. Chinese

boccaro ware is usually of reddish-brown tint.

Bocchi, Benedetto. A faience decorator of Caffagiolo about 1640.

BODKIN. The Saxon word *bodkin* means a dagger, a hair pin, and also a blunt, flat needle. (See *acus*.)

BÖHME. One of the talented Meissen ceramic artists forcibly expatriated by Frederick the Great to the Berlin porcelain works.

BOISERIE. Art work in wood.

BOENDER, Mathys (1713). A Delft potter to whom are attributed several examples of Oriental style in blue signed "M. B." His pottery was the "Four Heroes of Rome."

BOEFTCHER, John Frederick. Alchemist to Frederick Augustus I., Elector of Saxony, discovered kaolin (1709) near Aue, and made the first European porcelain. Just before this he had made some pottery from Okrilla red clay that greatly pleased the Elector. A factory was now started by the Elector for making Chinese porcelain. It was located in the Albrecht's Castle, at Meissen, where the fortifications were hoped to help hold the secret formula. Böttcher, through his drunken, dissipated habits, met an early death at 35, in 1719.

BOEFTCHER WARE. "A fine red stone ware which was made by a chemist of that name at Dresden, and which led to the discovery of porcelain in Europe."—Marryat. (See Böttcher.)

BOETTJERS, Jacques. Goldsmith to the French king and the Dauphine. Born 1707, died 1784.

BOEY, Guillaume. A French goldsmith of the late XII. and early XIII. centuries. He created the shrine of the Church of St. Germain des Pres, Paris.

BOGAERT, Matheus van der (1714). A Delft potter at "De Vergulde Blompot" (The Golden Flower Pot), "De Twee Wildemans" (The Two Savages), and "De Hert" (The Stag). In Mr. Evenepoel's collection is a small money box with the initials "M V B." which is probably from this master.

BOILEAU. Director at Sèvres factory, 1759 till 1773.

BOIS-DESPECE (France). Gournay's Almanach mentions an earthenware factory that was still active here in 1791.

BOIS-LE-COMTE (France). A document in the Sèvres archives proves that a faience factory existed here in 1768.

BOISSETTE, or Boisselle-le-Roy (France). "Established in 1733, this faïencerie was purchased in 1777 by the Sieurs Vermonet, father and son, who set up ovens for hard porcelain; during 44 years of working it must have produced much, and if we do not know any faïence from it, it is that, by their style, these products are confounded with others."—Jacquemart.

BOLDU, Giovanni (1970). Gem worker of Venice.

BOLSOVER, Thomas. The discovery of fusing silver on copper was made by a Sheffield mechanic of this name in 1742. Out of this discovery "Sheffield plate" was at first made by him with this process. (See Sheffield plate.)

BOMBYLOS. A small vase of the ancient Greeks similar to the early type of *aryballos*. Its body was probably egg-shaped, with

short neck and very small handle. Its name was derived from the gurgling sound it made in emitting its contents, drop by drop,

BOMBYLOS.

through its small neck. It was used principally to hold perfumes.

BONAVENTURA, Nicolo. Reliquary of Forli, head of St. Sigismond (1398), was created by him.

BONCAULT, Gatien. A goldsmith of Tours, France, in the early XVI. century.

"**BONDENNE.**" A term formerly used for

BONDENNE, OR TRAVELING BOTTLE.

the "traveling" bottle (to which refer).

BONE, Henry. A prominent English enameler. He served his apprenticeship under Cookworthy, of the Plymouth porcelain factory (period 1768-70). He introduced the "exotic birds" then in vogue at Sèvres and Worcester.

BONE-ASH. The immense English soft-paste porcelain industry only became possible through the discovery of the use of calcined bone as an ingredient of the paste. To its phosphatic action is due the whiteness and other qualities which helped to build up its world-wide reputation so rapidly. A recipe printed in 1758 gives *bone-ash* as an ingredient for porcelain. This is the earliest knowledge of it. The facts as to the date and persons originating the discovery are disputed.

BONINSEGNA, Gianmaria (1345). Noted goldsmith. He restored the pala d'oro of St. Mark.

BONNARD. A noted goldsmith of Paris in the XIII. century. In 1242 he finished a *chasse* (to which refer) for the abbey of Ste. Genevieve to take the place of the one made by St. Eloi

BOOK. In Christian art the *book* is an "attribute of the fathers of the Church; in the hands of the Evangelists and Apostles it represents the Gospel. St. Boniface carries a book pierced with a sword. St. Stephen, St. Catherine, St. Bonaventura and St. Thomas Aquinas also carry books."—Mollett.

WORKSHOP NOTES AND QUERIES

[Answers are also solicited from our readers to the questions published on this page.]
No attention paid to communications unless accompanied by full name and address of the writer.

QUESTION No. 2309.—To Loosen Cement on Glass.—*I have a glass sign upon which small glass jewels have been cemented flat, perhaps with water glass or by cement such as is used in biocal lens work. What will loosen the water glass cement? Is there any acid which we can use?* F. B.

ANSWER.—Nearly all cements used for cementing glass will dissolve in alcohol, benzine, turpentine or water. Any of the above should be tried until the right one is found. To give the liquid opportunity to act on the cement, a wall should be built around the settings with putty and filled with the liquid. Let remain for some time. The cement is often very thin, and, being covered, it takes some time for the liquid to work through. The settings may then be removed by lifting off with a sharp knife.

QUESTION No. 2310.—Vienna Lime.—*There is a polishing preparation called Vienna lime. What are the principal ingredients in it?* V. L.

ANSWER:—Vienna lime is prepared from dolomite by burning, slaking and glowing. It is best for use when it has not been exposed to the air. It may be pressed into cakes by mixing with some compound to hold it together, such as wax, paraffine or tallow. Thinned with alcohol, it gives a fine luster to nickel or brass.

QUESTION No. 2311.—Oiling Minute Repeater.—*Will you kindly tell the parts of the striking train of a minute repeater which should be oiled and those parts where friction occurs in which oil would prove a detriment; also the same of a chronograph train, its springs, etc.?* C.

ANSWER:—All parts of the train of a minute repeating watch should be oiled as is usual in all kinds of watch work. But the steel parts of the repeating mechanism should, where any friction occurs, be lubricated with moderation with a suitable lubricator, except such parts where a delicate sliding motion takes place, which motion might be interfered with by adhesion of a lubricant. The surfaces of such parts may be cleaned by a small leather buff, which should be charged with an impalpable powder of black lead. A suitable lubricator for the other points of contact is good watch oil, impregnated with powdered black lead (finely pulverized pencil lead). This lubricator is to be applied discreetly by the crushed point of a pegwood. The acting points of springs are not to be neglected. The same applies to chronographs, but in the case of such the edge of the heart should by no means be touched with any lubricator.

Instrument for Testing Hardness.

(By I. F. SPRINGER, in *Technical World Magazine*.)

ONE of the most important of all metallic properties is that of hardness. But until the last few years there has been

INSTRUMENT FOR TESTING THE HARDNESS OF METALS.

no very reliable method to measure it. True, we have been using files for time out of mind. But even if we grant that the

TESTING THE HARDNESS OF METALS.

file gives accurate information, we have no means of estimating small differences in hardness. However, of late years, several methods have come to the front. One of

the best of these is the process of the scleroscope.

This instrument is the invention of A. F. Shore. One method of using this device is to mount it on a swinging bracket. The glass tube is open at the bottom. A tiny hammer of exceedingly tough and hard steel fits in the bore. It is pointed at the lower end. The operation of testing a specimen is carried out by placing the metal to be tested below the lower end of the tube. The rubber bulb at the top is used to draw the little hammer up by a sucking action. The hammer is held by a suitable catch until the moment of testing. A hook at the left side near the top is pressed down and the lower bulb is compressed.

The hammer is now free to fall and strike the specimen with its point. Of course, the tube should be in a vertical position. Whether this is the case may be determined by a rod placed at the right of the tube. It is really a plumb rod, swinging freely from the upper end and free at the bottom. The hammer, though small, strikes its blow with a point so small that the impact is calculated at 75,000 pounds per square inch. This is beyond the elastic limit of most metals. Consequently, the blow struck makes a permanent displacement of metal.

Now when the impact is made there is resistance to it, although not sufficient to avoid permanent deformation. This resistance manifests itself in causing a rebound of the hammer. A scale reading from 0 to 140 is arranged to the rear of the tube, and furnishes a means of measuring the amount of the rebound. In this way a number is obtained which represents the energy of resistance at the moment when the elastic limit is exceeded. This appears to be just about what we mean by hardness.

The base and upright in this mechanism furnish an attractive method of mounting the instrument. Further, the essentials of the device may be totally disengaged from all arrangements for mounting. The scleroscope may then be used with convenience in testing parts of machines without removal. It may be added that the instrument is adapted to test the hardness of metals in general.

It is interesting to note the degrees of hardness shown by various metals—and, indeed, by the same metal under different conditions. Thus lead causes a rebound of but two spaces. However, hammered lead has a hardness of three. Babbit metal varies from four to nine or 10. Copper, uncompressed is six hard, but compressed its hardness rises to 14 or even to 20. A gold coin, which, of course, is compressed, shows a hardness number of 14.

Wrought iron in the ordinary state has a hardness of 18, but by compressing its particles its hardness may be increased to 30. It is then about as hard as annealed railway rails. Tool-steel when properly annealed discloses a hardness sometimes as low as 31. But cold-rolled in the form of drill rod, it may rise to 35 or 40. Hardened tool-steel varies between 90 and 110. Porcelain gives 120 and glass 130. This latter is pretty close to 140—a rebound equal to the fall.

FOR THE TRADE**

KNOWN THE WORLD OVER

Beautifully adapted for the jeweler's stock and show case display—the New Pocket Edition Gillette Safety Razor is becoming an important feature in the best retail jewelry stores.

The demand over the retail counter is astonishing. Every old Gillette user wants the New Pocket Edition and it makes new friends at sight.

The set consists of handle and blade box, either triple silver-plated or 14-k. gold-plated. The pocket case is of gold, silver or gun metal—plain polished or richly engraved in Floral or Empire designs. It is so neat and compact that it will fit like a card case in the waistcoat pocket or slip into the side of a travelling bag—the blades are fine. Prices, \$5.00 to \$7.50.

For the special use of the jewelry trade, the Gillette Company has designed a tray lined with purple velvet, size of the regular watch tray—contains wells for twelve razors. These trays are made in various hardwood finishes to match the store fixtures and are shipped free of cost with the initial order for a dozen razors. Aside from the sales of the razor, the business in blades is a steady income for a store.

Two additions to the Gillette line this season are the Gillette Brush—a brush of Gillette quality, bristles gripped in hard rubber; and the Gillette Shaving Stick—a soap worthy of the Gillette Safety Razor. The stick is enclosed in a sanitary nickel box: both soap and brush are packed in attractive cartons. They will be welcomed by Gillette users everywhere.
