CONFIDENCE!

Diamond dealers like to say: Have confidence in us, take our word for everything when you buy your diamond. Barnard & Co. offer you a new, square deal where blind confidence gives way to FACTS. We don't ask you to believe, we ask you to SEE. So because we ask for no money in advance, because we ship for Free Examination, confidence becomes unnecessary; you can buy with the same assurance of getting value and satisfaction that experts do. Our best reference is our bargain values which you see before paying any money. This letter from a National Bank will show that we are entitled to your utmost confidence even though it isn't needed.

This Diamond Book

brings to your home certain advantages for buying diamonds that can be secured in no other way. It gives you the right to buy **DIRECT FROM THE DIAMOND IMPORTER**, at far less money than jewelers can sell, less even than they can **BUY**. Here you have endless **VARIETY** that will satisfy your every need. Here you have the chance to choose just the size, quality, price and style that you want. Here you have responsibility of a nation-famous big house, and **GUARANTEES** that go beyond anything heretofore devised for your safety and protection. Here you have all that you could get by a costly visit to the big cities of Europe; inside prices; factory facilities; life-like pictures; in a word, what is proven the **IDEAL WAY** to buy diamond jewelry and watches. And then to make absolutely sure of serving you to your complete satisfaction, we ask you to **LOOK** at our expense—to send for anything that interests you, just as you would ask a store-keeper to show you his wares; buy if satisfied; if not return, again at our expense.

This catalog is your invitation to **SEE** one of our diamonds in your favorite setting—absolutely without obligating you.

GENUINE Blue White Perfect Cut DIAMONDS \$88 Per Carat

5

It is difficult to restrain our enthusiasm in describing the beauty of these diamonds.

The lowness of our price does not tell the story, for we guarantee that no jeweler

can match them for \$150 per carat. Our direct importing saves you the difference—no middleman gets it. Think of it! These diamonds are the world's finest Blue White color, the one standard color that every one wants in a diamond. Then we guarantee every diamond PERFECT CUT with the new American cutting that gives each diamond an extra large appearance. And the brilliancy is the richest, fullest, most fiery and perfect you ever saw. The first thing you'll say when you see one is, "how beautiful," and then you'll ask, as everyone does, how can you sell such beautiful diamonds for \$88 per carat, small sizes as low as \$50 per carat? The answer is, DIRECT CASH IMPORTING, many sales each at a small profit, cash methods which require no payment in advance.

In addition to the above sizes we have 1/8 carat sizes at \$24.88; 1/4 carat sizes at \$99; and 2 carat sizes at \$190. Our 1/2 carat sizes are cut to show the surface of 3/4 carat diamonds, and every size shows the same relatively larger appearance. We specialize in extra large sizes, 2 1/2, 3, 4, 5 and up to 10 carats. Prices on large sizes will be furnished specially on request.

You pay only Factory-cost for Mountings

Here's another big saving: you pay only actual factory cost on all the 14k. solid gold and platinum mountings, the hundreds of new styles we show in this book. Our own factory is the reason. You'll find our prices for mountings 1/2 and less what others ask. Here are

Here are DIAMOND FACTS you need to buy intelligently

There are only a few things that make up the value of a diamond: color, cutting, brilliancy, perfection and carat weight. When experts buy that is all they consider. Any one can easily compare colors and learn what fine blue white is, what "off color" means, what bad flaws are, what poor and good cutting and shape are; and what rich brilliancy means. When you select your diamond from this book, you get a Legal Guarantee of Color, and every other quality of the diamond, including the carat weight and actual value. In this way you know you are getting exactly what you pay for. Our "see before you pay" system, combined with our Legal Guarantee, give you the only safe way to buy your diamond.

Too Deep

Most dealers have only this shape. They show too little surface for the carat weight; and are poor in brilliancy. Not a good investment.

Too Shallow

These diamonds are "dead", without life or brilliancy. The flat top and bad shape are undesirable for both investment and appearance.

New Perfect Cut

Known as the "American" cut. Brilliancy perfect. Gives largest appearance for your investment. Every diamond in our stocks is perfect cut.

Diamonds a Guaranteed Investment

The rapid rise in value of diamonds is well known by all. There have been years when prices have gone up as much as 25 per cent in twelve months. This was true in 1913. Experts agree that the average increase is about 15 per cent per year. Certainly no other investment can be enjoyed as you can a diamond, while the value is growing. Of course you must buy at the right price to get the full benefit of the increased value. And if you buy from Barnard & Co. the guaranteed cash refund contract enables you to convert it into cash instantly.

Our Mail Plan the Ideal Way to Get Diamond Satisfaction

The first idea in your mind is to get your money's worth; second, to know exactly what you are getting in color and quality; third, to choose the setting that satisfies your individual taste; fourth, to get the most liberal guarantee; fifth, you consider your convenience in buying. From every standpoint our offer will win your approval. Here is a perfect combination of startling fine quality, at half the price, endless variety of stylish settings, world's only bankable guarantee, and best "see before you pay" plan.

You Can Select any Diamond; then Select any Mounting

We show in this Book of Diamonds over 1,000 different styles of diamond mountings, including rings, scarf pins, La Vallieres brooches, bar pins, etc. It is plainly impossible for us to show every piece 14 times with the 14 carat sizes of diamonds. But you can still get any mounting with any carat size of diamond you prefer. Just say, for instance, that you want mounting number 4D2001 with a 1/8 carat diamond; or a 3/8 carat diamond, or a 1 carat diamond, or any other size that you wish. The same choice is true of every mounting we illustrate in this book.

BARNARD & CO., N. W. Cor. Michigan Ave. & Adams St., CHICAGO, U. S. A.

Bankable Money Back Guarantee

With every diamond we give you this written Legal, Money Back Guarantee. It is the only BANKABLE cash refund contract given in the diamond or any other business. It is absolute, perfect protection. Disappointment becomes impossible when your diamond is covered by its protection; because in the first place you have risked not even a penny; you have examined the diamond at our expense, and found its appearance surprisingly beautiful; you have a legal guarantee of the color, carat weight, quality and value; and you can turn it into cash, or exchange it as explained below. Any attorney or court will recognize the validity of this contract. Here's the one big reason for selecting your diamond from our book, of greater importance to you even than our world's lowest prices.

Your Questions and Our Answers

I am not a judge of diamonds. How can I be sure to get my money's worth?

Send for one of our diamonds and compare it with others. You don't need to be an expert to recognize a big bargain. Send it back if you don't want it.

Suppose I changed my mind after accepting the diamond and wanted to return it?

Our Money Back Guarantee gives you the right to return for cash refund or exchange for any reason, or no reason.

In plain English, we guarantee to satisfy you in every way, and you are the only judge.

Small Size Photo of the Famous Barnard Guarantee

Here are Your Rights, Legally Guaranteed.

You can return any diamond bought from us, at any time within one year, direct to us, or through any bank in America, and we will at once, without delay, red tape or quibble refund the full price in cash, less 10%. You can return any diamond bought from us at any time, and we will give you credit for the full price paid, in exchange for any other of equal or greater value. Absolutely no time limit. The carat weight, color, quality and value are all legally certified.

Don't Buy "Terms" Buy Diamonds

Don't be misled by "Easy payments" talk. Stop a moment and think, some one has to pay those losses and collection expenses. Which do you want, your money's worth, or "terms"? You can't get both. If you buy on "time" you must sign a chattel mortgage, and assign your wages. And you can't buy by the carat, or get a Money Back Guarantee. Here's a suggestion: If you haven't the ready money to buy a large diamond, buy a small one and later exchange it. We guarantee to match any installment value for less than half the money.

I Personally Guarantee

the carrying out of every promise and guarantee, and the truth of every statement in this Book. In addition you have a guarantee of the Government of the United States that we will make good every claim of guarantee, quality, value and price; for if we did not we would be using the mails to defraud, and I would be subject to imprisonment if I in any way violated our contract.

Gustav Barnard
President

Always Buy by Carat Weight

Diamonds are sold by the carat from the mines to the cutters; by the cutters to us; by us to you. It's the only honest way. Every jeweler, every installment house, every one who handles diamonds buys by the carat. Why don't they sell by the carat? Only one answer possible: they can't meet our per carat price, and so they don't tell you the real price per carat they are asking. While there's no law against selling a diamond ring at "Special Value \$50" without stating the carat weight, why buy without knowing what you are getting?

Still another Money Back Guarantee:

If you prefer for any reason to remit at the same time as you order: We'll gladly ship for free examination; but if you have dealt with us before, or require extra speed or secrecy, or for any other reason wish to pay in advance, we guarantee in addition to the above to refund the full price any time within 30 days. Of course you get our Bankable, Legal Money Back Guarantee, too.

Write Thousands! After all, it isn't what WE think, or what WE claim—what do our customers think about our diamonds?

That's the acid test. And so when we get scores, hundreds, thousands of letters like the few reproduced here we know our every claim of low price, and fine quality is justified. The mere fact that our sales are VOLUNTARY ACCEPTANCES of C. O. D. shipments AFTER examination is enough to prove that we are actually giving \$150 per carat values for \$88 per carat.

From a Railroad Man	From a Lawyer	From a Retired Diamond Expert	From an Express Agent	From a Bank Cashier
<i>I have made a thorough inspection of the diamond you shipped me, and I find it better quality than I expected for the price. It may interest you to hear that I made a study of local prices and I found that I have saved nearly 60%! I am highly pleased, and will certainly buy from you again, and recommend you to my friends. —, Kans, 6-21, 15.</i>	<i>Thank you for prompt shipment. Both I and the "only girl" are delighted with the diamond and mounting. I am satisfied that I saved more than \$100 on this 1½ carat ring, so I feel that this letter is due you. —Wis., 6-1, 1915.</i>	<i>I am more than pleased with the diamond you sent me in care of the First National Bank. I think I am somewhat of a judge of diamonds, as I have been handling them for over 50 years. It is more than I expected for the money. I consider your price fully 20% under wholesale. —Ohio, 5-25, 1915.</i>	<i>Have just received diamond ring, and paid the balance of \$385.50 on the exchange. I am even more delighted with this diamond that with the first one. I don't think I could duplicate it for \$1000. Will write you again in July when I expect to get a 2½ carat stud. —Nebr., 5-15, 1915</i>	<i>The ring received and delivered to me this morning. It is a beauty and I know from experience could not be duplicated at anywhere near the price from a retail jeweler. I wish to thank you for the very prompt and courteous manner in which you have dealt with me; and will take pleasure in referring my friends to you. You can depend on getting my future orders. —Ark., 6-4, 1915.</i>

Extra Fine Diamonds in 5 Grades

Just as there are cheap, undesirable qualities in diamonds, so there are extra fine grades costing more and WORTH more. The original lots of unmounted diamonds we receive from the cutters of Amsterdam are all exquisitely fine in color, ranging from the finest BLUE WHITE up to Steel Blue, Steel Blue White, Extra Blue, Violet Blue and Rare Light Blue. These Diamonds come only from the Wesselton, Jagersfontein and Roberts Victor Mines. They range in PERFECTION from absolutely PERFECT, to Eye-Perfect, to Fairly Perfect, to very Slightly Imperfect, and Slightly Imperfect. We sort these lots into FIVE GRADES as per the descriptions below. You will note that we do not carry Orange-White, Steel-White, Commercial White or other misleadingly-called "white" diamonds. We carry nothing less fine than the richest Blue White. Our \$88 bargain-grade, while the lowest priced we carry, will be found better in color, brilliancy and perfection than jewelers can offer at \$150 per carat. So you can well imagine the added beauty of rare color, the increasing perfection offered to you in these extra fine and Rare grades. Every diamond is the same tremendous money's worth as we have offered at \$88 per carat. We import every size and every grade, and our startlingly low prices are fixed on the same close basis for all five grades. So you can depend equally on all five grades for VALUE; and choosing then becomes a matter of your personal taste: what quality and size does YOUR TASTE demand?

\$133 Grade small sizes as low as \$72 per C	\$177 Grade small sizes as low as \$88 per C	\$233 Grade small sizes as low as \$107 per C	Rare \$288 Grade small sizes as low as \$144 per C
---	---	--	---

Color: Extra Blue White and Steel Blue. **Cutting** is perfect, with the new American cut that gives every diamond an extra large appearance. **Brilliancy:** Absolutely perfect, no better at any price. **Perfection** as remarkably fine as only direct importing allows, equal to \$225 per carat grades of jewelers. You must examine your favorite size in this grade as our description cannot begin to do their rich beauty justice, or properly prove the enormous value they are for the price. Every one is astonished at these bargains. You will be too.

But if you want the satisfaction of owning the finest quality obtainable from the importer and cutter we invite you to examine one of this very rare grade. **Color:** Jagersfontein violet blue, and rare light blue, both of which are very scarce and costly. **Cutting, brilliancy and perfection** are all guaranteed PERFECT by expert test under a powerful magnifying glass. \$450 to \$500 per carat retail value.

YOUR CHOICE OF 5 GRADES

These extra fine quality diamond rings are startling bargains. So is every piece of diamond jewelry in this book. No bargain "sale" can go beyond our money-saving prices—because we have imported these diamonds direct from the European cutters; we have manufactured the mountings; and we have built up a big volume of business which permits amazingly small profits. Every middleman's tax, every waste has been wiped out and handed to you as a cash saving. Others can go to any length, offer any discount or bargain-sale inducement, and even then our import price will be far lower. See, compare, decide for yourself at our expense. Every diamond Money Back Guaranteed.

DEEP CUT PRICES ON WATCHES

We have no quarrel with the jeweler who asks higher prices for his watches, then gets 25% additional in repairs during the following five years. But you as a cash buyer, have a perfect right to buy where you can buy at the very lowest cut price and get repairs free for five years. We handle only brand-new, right from the factory Elgin, Waltham, Hamilton, Howard, Illinois and Hampden movements. They are all equally fine. We don't recommend any make over the others. We have no ax to grind. You can order the make that pleases you most. Your satisfaction is our only consideration. We don't aim to make a profit on watches.
