The Rémoh Gems

SO much has been said and written about these famous stones that to add much more would seem superfluous.

Their **everlasting** brilliancy, perfect cutting and indisputable likeness to the diamond are so apparent that it has become a recognized fact that they are **all** we claim for them.

Rémoh Gems are cut and faceted by skilled diamond cutters exactly like diamonds. We are the **Sole Distributors** of Rémoh Gems.

The mountings used are 14 karat **Solid-Gold** only, made in our own workshop. We turn out only artistic and durable jewelry. Our designs are the very best hand-made **Diamond Mountings**.

Rémoh Gems are the nearest approach to the diamond that has ever been produced, and are so pronounced by experts the world over.

WARNING

Do not be deceived by anything represented as "Just as Good." Genuine Rémoh Gems can be bought nowhere else.

We positively will not be responsible for lawsuits resulting from the sale of Rémoh Gems for genuine diamonds.

Mail Orders

WHILE it is utterly impossible to portray with cuts the beauty of our jewelry, those used in this Booklet are as nearly perfect representations of the original articles as it is possible to obtain, all having been drawn direct from the originals with pen and ink, by skilled artists.

The prices quoted, while not cheap in the general sense of that word, are low considering the quality of the goods and the artistic workmanship.

Orders will be filled usually upon receipt. If necessary to make to order, goods will be sent within a few days.

If you return any article to us for exchange or for any other reason, send it by registered mail. Write name and address very plainly on the package.

Always send goods in a box. Jewelry is often crushed and ruined when in a letter by P. O. stamp.

The Jewelry of the Day

OUR jewelry needs no higher commendation than a mention of the fact that it is made fashionable by the very people who by their wealth and position in society establish the fashion of the day. Owners of very valuable jewelry, both here and abroad, have their diamond jewels reproduced in Rémoh Gems. For special occasions, such as balls, at the sea shore, theater parties, banquets, and all social functions, Rémoh Jewels have become almost indispensable.

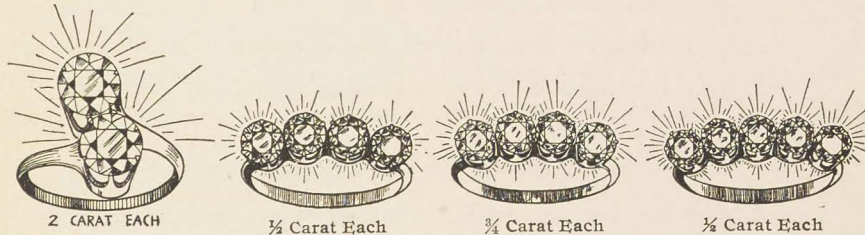

We do not call them imitation diamonds, because they are **not** imitations, and that would not do them justice. We call them Rémoh Gems, because they are **real gems** and because we are the sole makers of Rémoh Gem Jewelry.

As to Price

THE cost of Ré moh Gems is only about 1-20th to 1-30th the cost of Diamonds, yet in every instance they answer the purpose.

Diamonds at present prices are prohibitive to all except the very wealthy. The interest in one year on the money expended for a diamond will buy a Ré moh Gem in a fine Diamond mounting.

The fear of loss or theft of a diamond is continual. If you are robbed or lose a Ré moh Gem, buy another. It is within the reach of all.

You are deceiving no one by wearing a Ré moh Gem—it is not an imitation, but a genuine reconstructed stone, having dazzling, sparkling beauty, and everlasting wearing qualities.

Our prices are based on the value of the stones, the gold used and the high-grade workmanship.

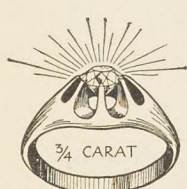

Our goods should not be compared or considered in competition to those selling imitation diamonds (glass), yet our prices are actually lower.

REMEMBER

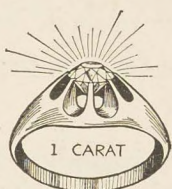

Ré moh Gems are sold with the absolute guarantee that they contain no **glass** and have no chemical similarity to glass.

Rémoh Gems Peerless in Quality

NO stone without hardness can retain its brilliancy. All imitation stones quickly melt under heat, chip and crumble under a diamond-file.

The Rémoh Gem, on the contrary, withstands heat, diamond-file and any acid. You may subject it to these tests at our risk.

This will prove the genuineness of our claims, broad as they are.

RÉMOH GEMS NOT AN IMITATION

WHILE they look like Diamonds and stand the tests of diamonds, they are in no sense an imitation diamond —**they are a scientifically reconstructed** white gem, pure as water, sparkling and fiery, so hard they will not become scratched or broken, and will, therefore, retain their marvelous brilliancy forever. Their scintillation, refulgence and refraction are remarkable. Rémoh Gems are heavier than diamonds, and in order to get a Rémoh Gem equal in size to a 1 carat diamond it will be necessary to order a 1¼ carat stone, and in the same ratio for all sizes.

When ordering unmounted stone for a ring or any other article, size required can be almost perfectly told by judging from stone plate on page 32, and price is quoted on page 12.

Rémoh Rubies

OUR reconstructed Rémoh Rubies are the most perfect reproduction of genuine Rubies that have ever been made. They are fused in an electric furnace from cuttings of genuine Rubies. They are round, oblong, cushion shape, also cut cabuchon. Do not confound them with doublets, because doublets are made of glass with a thin coating of garnet on the top. Our Rémoh Rubies are as hard as the genuine Oriental Ruby, have the same specific gravity and the magnificent pigeon-blood color found only in the finest and costliest genuine Oriental Rubies which sell at \$250.00 per Carat and upwards. The same guarantee that accompanies our Rémoh Gems applies and goes with our Rémoh Rubies. After many years of experimenting we have at last attained the degree of perfection to which we have aspired. We place them on the market knowing there is nothing to equal them. We will furnish any unmounted Rémoh Ruby or article in our catalog set with Rémoh Ruby instead of Rémoh Gem at the same price quoted for the Rémoh Gem.

Food for Thought

WHEN ordering goods by mail, it is most important to assure yourself first of the reliability and responsibility of the house from which you are about to order. We have been in business here in St. Louis continuously since 1896. We conduct a large manufacturing and also retail business at 507 N. Broadway, St. Louis. Read all our statements carefully—critically—our statements ring true. Read our guarantee carefully—there are no catch-phrases or skillfully worded pitfalls for the unwary to become enmeshed. We do not say if goods are **not as represented**, we will refund your money—but we do guarantee plainly and distinctly—“if not **satisfactory**”—that means if the goods do not suit you, or if you do not want them, return the goods and get your money back promptly.
