

Malaysia to Battle Smog With Cyclones, by Chen May Yee, Staff Reporter of the Wall Street Journal, The Wall Street Journal, Thursday, November 13, 1997, page A19.

"KULA LUMPUR -- Malaysia's war on smog is about to get a new twist. The government wants to create man-made cyclones to scrub away the haze that has plagued Malaysia since July. 'We will use special technology to create an artificial cyclone to clean the air', said Datuk Law Hieng Ding, minister for science, technology and the environment.

The plan calls for the use of new Russian technology to create cyclones -- the giant storms also known as typhoons and hurricanes -- to cause torrential rains, washing the smoke out of the air.

The Malaysian cabinet and the finance minister have approved the plan, Datuk Law said. A Malaysian company, BioCure Sdn. Bhd., will sign a memorandum of understanding soon with a government-owned Russian party to produce the cyclone."

"Datuk Law declined to disclose the size of the cyclone to be generated, or the mechanism. 'The details I don't have', he said. He did say, though, that the cyclone generated would be 'quite strong'. Datuk Law also declined to disclose the price of creating the cyclone. But, he said, Malaysia doesn't have to pay if the project doesn't work."

This article is written by the prestigious Wall Street Journal, and it reports, very matter of factly, that Malaysia is ordering a cyclone just as someone might order some lawn furniture from a catalog! We also learned that the Russians have the capability of creating such a huge storm for a fee. Also unsaid, but inferred, is that this cyclone could be steered or controlled so that it would come close enough to Malaysia to clear away the haze that was bedeviling that nation, but not so close it would cause any damage. Further, the nations close to Malaysia are not quoted as being overly concerned that this most powerful of storms might accidentally hit their shores.

This news is quite stupendous, and it opens up all sorts of questions about our incredible and unprecedented hurricanes in the past 5 years. Were these hurricanes also caused by our scientists, or by the Russian scientists? If our scientists created them, then the Federal Government needs to be strung up and quartered for the pain, anguish, and death caused by these terrible storms. If the Russian scientists caused these storms, then they have just committed an act of war against the United States!

NEWS BRIEF: The New York Times, September 24, 1992, reported that a Russian company which deals with weather modification sell Weather Control Electronic Equipment to certain people in Russia who want to manipulate the weather in a specific area. This weather control technology is being used by farmers to alter the climate for beneficial agricultural purposes.

Then, the Wall Street Journal, on October 2, 1992, reported that a Russian company called "Elate Intelligent Technologies, Inc.," sells weather control equipment by using the advertising slogan, "Weather Made to Order". This motto is even on their business cards! The commercial Director of Elate, Igor Pirogoff, stated that "Elate is capable of fine-tuning the weather patterns over a 200 square mile area for as little as \$200 U.S. per day". Is it just coincidence that this 200 square mile effective range is the same range as our new GWEN towers? We will be discussing what GWEN towers are and how they work. Suffice it to say that GWEN towers are apparently being used in conjunction with HAARP towers to shoot enormous bursts of energy into the atmosphere to control our weather.

This Wall Street Journal article also quoted Mr. Pirogoff as saying that Hurricane Andrew could have been decreased "into a wimpy little squall". This statement is so shocking as to border on being ridiculous! Hurricane Andrew was so powerful that it caused several billion dollars worth of damage, killed a number of people, and destroyed or altered the lives of tens of thousands. Now, we learn that American scientists could have turned Andrew into a little harmless squall. But, I suppose the real question is this: did our scientists **create Andrew** in the first place?

At the very least, couldn't our scientists have "steered" Hurricane Andrew out to sea, away from our coastland? After all, the Russian scientists, according to this Wall Street Journal article, were able to "steer" the hurricanes they deliberately produced so that it would not damage any city of any country. **Perhaps our scientists did not steer Hurricane Andrew away because our political leadership did not want them to steer Andrew away!** Perhaps Hurricane Andrew was one step in a long campaign to convince Americans that we need to change our fundamental way of living.

NEWS BRIEF: "Basic Facts About the United Nations", pamphlet, 1994.

On the inside of the front cover, this pamphlet enthusiastically recounts some of the agreements the United Nations has negotiated with the nations of the world that supposedly makes this world a better place in which to live. Incredibly, this U.N. Treaty is listed as the second noteworthy accomplishment, under the year, "1977".

"1977 -- The Convention on the Prohibition of Military or Any Other Hostile Use of Environmental Modification Techniques. ENMOD Convention prohibits the use of techniques that would have widespread, long-lasting or severe effects through deliberate manipulation of natural processes and **cause** such phenomena as earthquakes, tidal waves, and changes in climate and in weather patterns."

Just like that, this pamphlet states boldly that scientists do possess Weather Warfare capability, and then lists some of the various individual capabilities. Aren't we fortunate that the political leaders of the world have signed a piece of paper forbidding nations from using these weapons against each other? History is full of instances where pieces of paper called Treaties have been ignored almost from the moment they were signed.

However, this **Treaty, or Convention, does not forbid political leaders from using these Weather Warfare weapons against their own people!** This is what is occurring here, I believe, to convince Americans that our Industrial Civilization is so polluting the world that these storms are a natural result. Then, once they are so convinced, Americans will be amenable to changing our Industrial Civilization, and to moving into the U.N. Biodiversity Areas already mapped out. Of course, Americans are not at that point yet, but how many more "unprecedented" storms will it take, one after another, one on top of another, to convince them?

This United Nations' pamphlet then lists the dramatically increasing incidence of losses from Natural Disasters, giving us statistics that we will share with you. This is the table included in this pamphlet.

"Before 1987, there was only one disaster, the cost of which exceeded \$1 billion in insured losses. Since 1987, however, thirteen additional such disasters have occurred."

"BILLION-DOLLAR LOSSES FROM NATURAL DISASTERS

1983-1994

EVENT/PLACE/YEAR	ECONOMIC LOSSES IN US\$BN
Hurricane "Alicia" (USA, 1983)	\$1.65 billion
Winter storm "Herta" (Europe, 1990)	\$1.90 billion
Forest Fire (USA, 1991)	\$2.00 billion
Winter Storm "Wiebke" (Europe, 1990)	\$2.25 billion
Hurricane "Iniki" (Hawaii, 1992)	\$3.00 billion
Winter Storm "Vivian" (Europe, 1990)	\$3.25 billion
Winter Gale (Western Europe, 1987)	\$3.70 billion
Blizzard (USA, 1993)	\$5.00 billion
Typhoon "Mireille" (Japan, 1991)	\$6.00 billion
Winter Storm "Daria" (Europe, 1990)	\$6.80 billion
Hurricane "Hugo" (Caribbean, USA, 1989)	\$9.00 billion
Floods (USA, 1994)	\$12.00 billion
Earthquake (USA, 1994)	\$30.00 billion
Hurricane "Andrew" (USA, 1991)	\$30.00 billion

"Source: From Disaster Management to **Sustainable Development**: How the Public Sector, Private Sector, and Voluntary Organizations Can Work Together, WHO, 1994."

The use of the word, "**sustainable**" in the footnote, above, is damning evidence that all these natural disasters fit nicely into the New World Order Plan. One of the most used words in New Age literature is "sustainable". The demonic Guiding Spirits of the New Age leadership have repeatedly stated that the current Industrial Civilization is not "sustainable" and must be eliminated.

These Guiding Spirits further claim that, if mankind does not voluntarily eliminate its cherished Industrial Civilization, Mother Gaia (Earth Goddess) will begin to "cleanse" the earth herself. How will this Earth Goddess, Mother Gaia, "cleanse" the earth of the Industrial Civilization? She will cleanse the earth through natural disasters that will steadily build to such enormous levels that our Industrial Civilization will fall. Tens of millions, and perhaps hundreds of millions, of people will have to die for Mother Gaia to properly "cleanse" herself. But, once this "cleansing" is accomplished, the world will be

able to live in perfect harmony with nature, because its civilization will be the kind that existed 300 years ago, and the population of the earth will have been reduced by two-thirds ["Herald of a New Age", by Ruth Montgomery].

This scenario is laid out in numerous New Age books. **Isn't it convenient that Mother Gaia will have such wonderful assistance from Russian and American scientists?**

As you examine the table, above, can you see that we have been experiencing steadily increasing levels of natural disasters since 1983? New Age adherents will point to their writings to say that Mother Gaia is, indeed, beginning her cleansing action; we point to the Weather Warfare capabilities to say that scientists are deliberately fulfilling Mother Gaia's prophecies! In fact, this scenario is the ultimate in "self-fulfilling prophecies", don't you think?

This U.N. pamphlet was written in 1994. Since then, we have seen additional "unprecedented" weather. Right now, [1998] we are experiencing record setting heat waves in the South and the most unusually powerful storms in the northern Midwest and the Northeast. Most assuredly, our scientists, working for the President and the Pentagon are engineering this pattern of weather disasters.

Now, you can understand President Clinton's recent statement that Global Warming is a reality, not a debatable fact anymore. When he says that the 5 warmest years on record have all occurred in the decade of the 1990's, he is right because that is the plan by which these scientists are operating. The vision I have of this situation is straight out of the movie, "Wizard of Oz". Remember Dorothy standing in front of the tapestry, being so afraid of the sounds and effects coming loudly out of it? Then, we see that the Wizard is sitting at an organ type machine behind the tapestry deliberately causing all of these effects!

While our political leaders are out front of the TV cameras extolling the dangers of Global Warming, and beginning to build to the climax of their plan to "combat" it, our scientists are sitting behind the tapestry, operating the controls of the most incredible "machine" in world history, producing the type of weather than will make Clinton and Gore believable heroes.

Vice President Al Gore has already established himself as a New Age extremist of the highest degree by publishing and promoting his book, "Earth In The Balance". Gore's boss, President Clinton, is no less an Environmental Activist as Gore. And, if Clinton is forced out of office because of these scandals enveloping him, American will wake up facing the most dangerous American President ever in Gore. Al Gore will be the most extremist Environmental wacko ever to possess the awesome powers of the Presidency. And not only that, Gore will have the quiet but devastating weapon of Weather Warfare at his disposal!

We could quote many more articles than the ones chosen for this Three Part Report. These other articles come from prestigious papers as the Wall Street Journal, the New York Times, Newsweek Magazine, and Federal Government publications. However, for the sake of brevity, we will not be reporting these other articles individually, as they tell the same story as the ones we have reported.

The major fact we have proven is that Weather Control and Warfare capabilities have been long reported in various ways over the past decades, but no one has ever paid much attention. The vast majority of the people still believe that man cannot control the Weather, that only God can control it. Deeply seated notions are very difficult to remove, and this notion that only God can create and control Weather is one of the most deeply seated.

All this activity of deliberately creating natural disasters, and of using such natural disasters against us, all fits the goals of the New World Order. Let us conclude by examining these goals.

NEW WORLD ORDER BASIC STRATEGY SUCCINCTLY STATED

"When we come into our kingdom, our orators will expound great problems which have turned humanity upside down in order to bring it at the end under our beneficent rule. Who will ever suspect, then, that all these peoples were stage-managed by us according to a political plan which no one has so much as guessed at in the course of many centuries?" [Protocol #13, 'Protocols of the Learned Elders of Zion']

SPECIFIC GOALS OF THE NEW WORLD ORDER

1. Convince all peoples of the world that a Global Government is absolutely essential to "solve" all the problems facing mankind.
2. Convince all peoples of the world that the present Industrial Civilization is not "*sustainable*", and must be eliminated. Obviously, people will have to be scared out of their minds by planned crises to come to this point.
3. Move people out of cities and into the countryside. The genocide in Cambodia was the trial run for this part of the scenario.
4. Reduce the population of the world from 6 billion people to only 2 billion in the space of a few short years. This part of the Plan will be carried out in conjunction with the plan to move people out of cities.
5. Set aside approximately 50% of all land that will not be usable by humans, or even used by humans. This effort will follow the United Nations Biodiversity Treaty, which we covered in a previous article, [NEWS1101](#), "Rewilding Of America Continues". Clinton's "American Heritage Rivers" project is part of this plan, as well.
6. Successfully stage the appearance of *Antichrist*. We will also demonstrate that certain aspects of this Weather Warfare capability can be utilized to produce the "Lying Signs and Wonders" predicted by Biblical prophecy.
