Sigils for the Daemons of High Magick

Activating and Using the New Sigils.

As with any sigil, these need to be activated by you prior to use.

I have these in ready to print PDFs and JPGS on my website at

<https://davepsychic.com/hmdaemons/>

Download and print the page(s) you wish to use. Each page will have three sizes, and printing the page at letter size will work.

Cut the sigils out.

While thinking of the daemon, trace over the sigil with a pen or pencil. In ritual, you can also activate by passing the sigil into the incense smoke while saying the daemon's ENN.

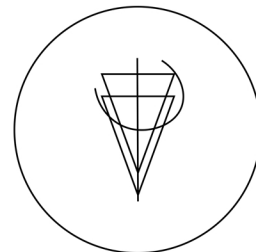

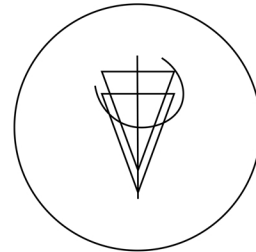

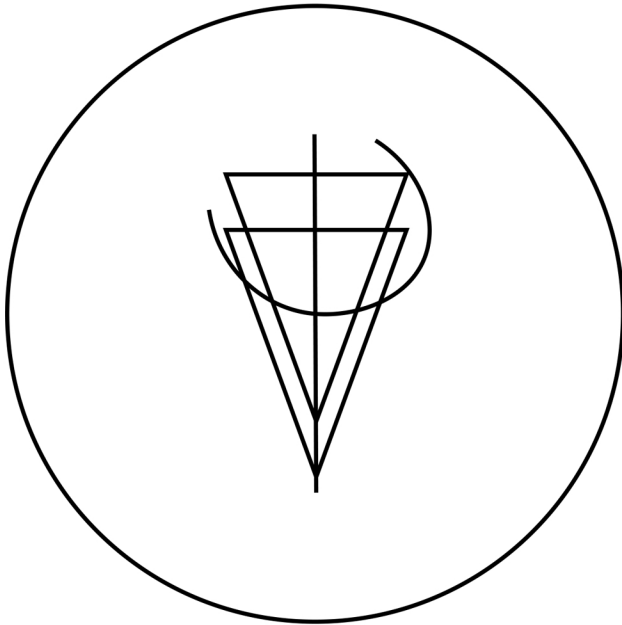

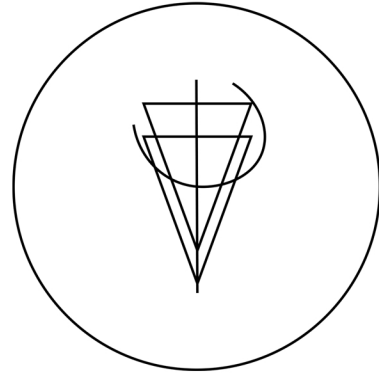

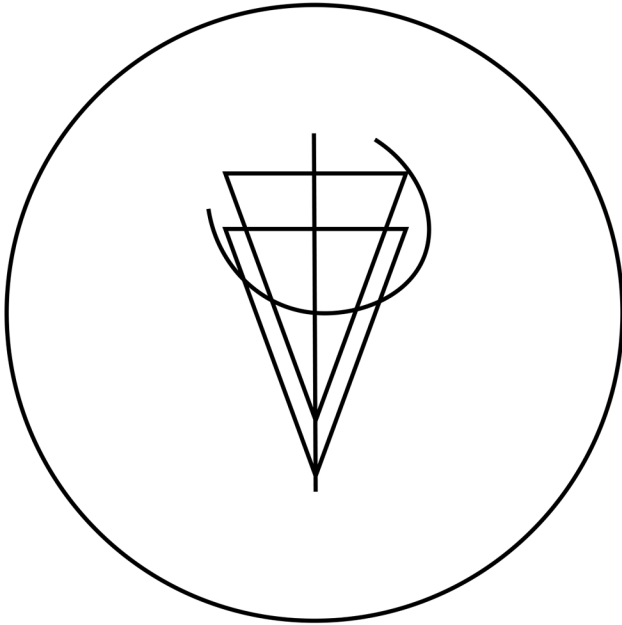

During the ritual itself, place the sigil in the middle of your altar. When doing the offering, place that offering on the sigil. If you are working a blood offering, place a single drop of blood on the sigil, and then burn it completely, stirring the ashes with a metal rod or knife to make sure it's totally ashes. Then scatter the ashes outside.

These sigils are quite powerful I have activated them during a ritual, and they are ready for your use.

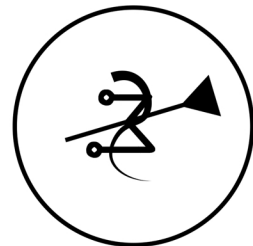

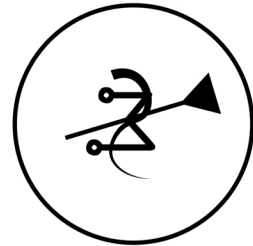

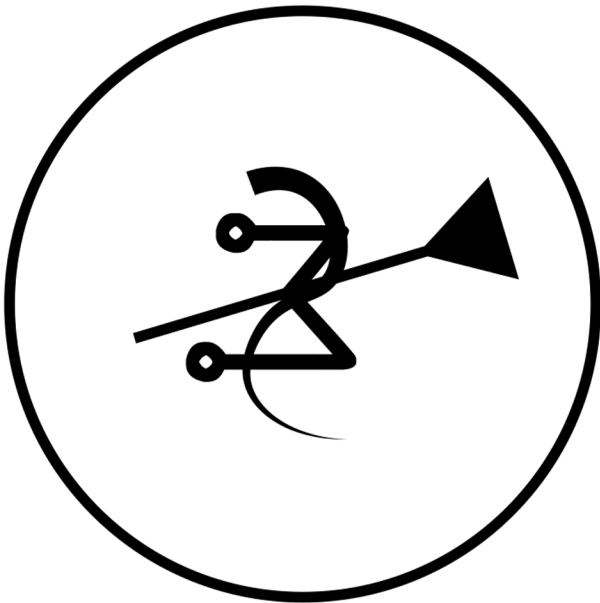

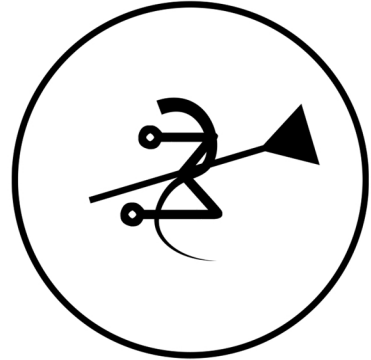

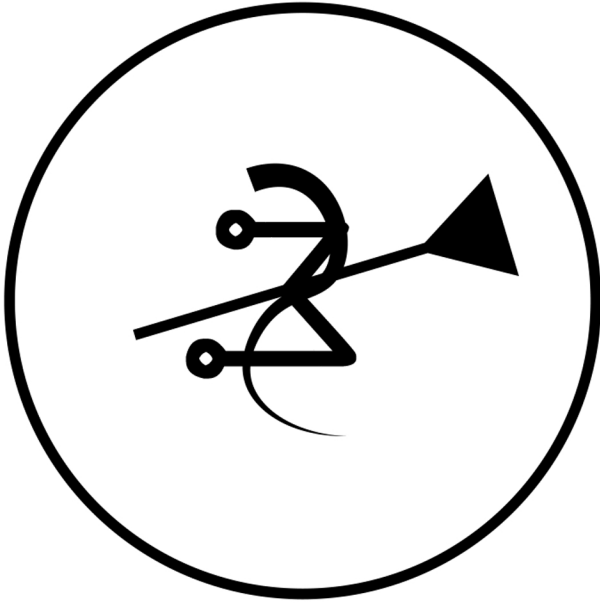

These are for the purchasers of the Daemons of High Magick books *only*.

Anyone who copies these sigils and uses them in their own books or other materials are doing so in violation of the US Copyright laws. I have set some triggers into each sigil, that if used in someone else's books or classes, or distributed without prior written permission, will render those sigils inactive. They will cease to work.
